DEMOCRATIC NATIONAL COMMITTEE NOW IN SESSION AT ST. LOUIS

St. Louis, June 12.—The Democratic National Committee today selected former Gov. Glynn as temporary chairman to deliver the keynote speech at the Democratic National Convention. Acting Chairman McCombs was loud-chered.

In the contest between Thomas Love and William Poindexter of Texas for the National Committee, McCombs appointed Thomas Taggart, Norman E. Mack and William Sapp, of Kansas, as a sub-committee to hear both sides and report to the new National Committee immediately the convention is over.

William J. Bryan is expected to appear at the open hearings of the resolutions committee and urge his plans on peace and prohibition. Otherwise his friends say, although he will support the president, he is not expected to take part in the convention.

Vice-President possibilities include Roger Sullivan of Chicago, Secretary of War Baker, Thomas R. Marshall, present holder, Gov. Morehead, of Nebraska, Gov. Major, of Missouri, and Senator Owens of Oklahoma.

WHITE MAN GETS JOB.

Washington, June 8.—President Wilson today nominated John W. Costello as recorder of deeds of the District of Columbia. Mr. Costello, who is a democratic national committeeman from the district, will be the first white man to become recorder here since President Cleveland inaugurated the custom of appointing negroes for the place. Congressman from almost every state had candidates.

PULLMAN A SYNONYM OF LUXURY

Synonymous of luxury, comfort and sturdiness in railway travel for more than half a century, the name of Pullman has today an equal significance in the motoring world. It was in 1864 that George Mortimer Pullman built the first Pullman railway palace car at a cost of \$18,000.

With an ambition to produce an automobile worthy of that name, the manufacturers of the Pullman Automobile have for many years been perfecting their product to a high standard of excellence. Their first model cost far more than the first Pullman palace car—for nothing was adopted that did not measure up to their ideals of perfection in motor car construction. Each year has seen added improvements and refinements—and a general trend in price reduction resulting from the elimination of experimental work, the wiping out of original overhead expense, and from wider manufacturing experience.

In response to a popular demand for a low-priced car of quality, last year, the company brought out the famous Pullman for \$740. It was an instantaneous success. Nothing like it has ever been offered before. Nothing approaching it has been produced since. There was an immediate effort by some manufacturers to duplicate the Pullman in price and standard. But an examination of the specifications of these cars, their size and body capacity, finish and general construction leaves the Pullman standing in a class by itself.

For 1916 the Pullman Company has gone beyond its expectations. Superior as last year's model was, the new car has set another new standard in size, roominess and mechanical superiority, and at the same price.

Call at Colorado Mercantile Company for free demonstration and see the car.

Every age has had its Calvary. Here it has raised the beam of prejudice. To this it has nailed the crosspiece of property. On the crucifix of prejudice and property all the martyrs of the world have died.—Herbert S. Bigelow.

The finishing blow to the largest surviving band of Villa followers was given June 9th by twenty men of the Thirtieth Cavalry under Captain Retorse in a dashing flight in the Santa Clara canyon. The Americans were unhurt and three Mexicans were killed. The band was put to rout and an immense quantity of ammunition was captured.

MILEAGE OF CONGRESSMEN.

Candidate Blanton is having a good deal to say about the mileage of Congressmen being excessive, and tries to leave the impression that Congressman Smith is opposed to any reduction in mileage.

Blanton knows that Smith has favored and voted for every reduction of mileage that has been proposed since he has been a member of congress, and has even voted to eliminate mileage altogether.

Blanton also knows that Smith has voted against every proposal to raise the salaries of congressmen since he has been in congress.

In fact the record will show that in all his votes Congressman Smith has invariably placed the public weal far above his private interests.

DISTRICT COURT.

Judge Beall reconvened the district court for Mitchell county last Monday morning, when the case of Holland vs. Lasky, a suit for damages, was called, which after consultation among the attorneys, was dismissed.

The case of Coleman et al. vs. B. C. Moore et al, was called. This suit was to restrain B. C. Moore et al from erecting a cotton gin on the site of the O. K. wagon yard. A temporary writ of injunction was filed here in this court, which Judge Beall granted. The case was then taken to the court of civil appeals at Fort Worth on a motion to dissolve the writ. The higher court affirmed the temporary injunction, and the case is now on trial on its merits. The plaintiffs allege that the erection of the gin plant would be to the detriment of certain church and resident property as well as to business interests. As the Record goes to press the case is being argued by counsel before the following jury: A. A. Dorn, W. F. Altman, L. S. Cole, J. R. Lucas, J. H. Compton, G. E. Sutphen, R. F. Hargroves, J. M. Dorn, O. F. Jones, L. T. Britton and H. M. Berry.

The plaintiffs are represented by Shepherd & Sandusky of Colorado and Deall & Douthit, of Sweetwater, while the defendants have Royall G. Smith of Colorado and Ben L. Cox, of Abilene.

W. T. Rogers, supervising roads ten days, \$30.00.

B. O. Joyce, supervising the roads ten days, \$30.00.

J. M. Helton, supervising the roads ten days, \$30.00.

Emmett McCallum, dragging roads, \$7.00.

W. L. Lindsey, A. C. Gist and J. P. Hunter were appointed road reviewers for the Bodine road through the Taylor land.

THE TEXAS STATE BAR ASSOCIATION.

The annual meeting of the State Bar Association will be held at Galveston the third, fourth and fifth days of July, and by special invitation of the Geivex Hotel will meet in the convention hall of that famous hostelry, which overlooks the Gulf and where the ardor of debate may be constantly cooled by the refreshing Gulf breezes.

The directors feel that they are fortunate in being able to present an unusually interesting program, as members of the bar who have been doing extensive work in connection with questions of vital interest at this time have promised papers along the lines of their special research.

Honorable S. T. Bledsoe, assistant general solicitor of the Atchison, Topeka & Santa Fe railway system, will be a special guest of the Association and will address it on the subject, "The Constitution and Commerce Among the States."

A distinguished New York lawyer who has been officially and actively connected for more than a quarter of a century in the state of New York with the movement in that state for the "Consolidation of Statutory Laws," an effort, as the name implies, to bring order out of chaos of legislative enactments and to make the law more certain and accessible, has been invited to address the Association and there is strong reason to believe that he will accept.

Hon. H. L. Batts, of Austin, special counsel for the U. S. Government in the New York, New Haven and Hartford trust prosecutions, in New York City, will read a paper on "Some Undetermined Aspects of the Anti-Trust Law."

Honorable Wm. W. Wilson, general attorney of the I. & G. N. will read a paper on "Primary Elections as an Instrument of Popular Government."

Honorable W. L. Estes, of Texas, on "Roger B. Taney."

Honorable Tom J. Lee, of San Antonio, on "Some Phases of International Law Relating to the Claims of Citizens for Indemnity Resulting from the Revolutionary Conditions of Mexico."

Judge W. M. Wilkinson, reporter for the supreme court, on "The Authorship of the Texas Homestead Law."

Judge F. A. Williams, of Galveston, of the supreme court, has been asked to read a paper on "What Can Be Done to Aid the Supreme Court."

And it is earnestly hoped by the Board of Directors that he will be able to do so. Certainly no man in the state can discuss the matter from

better vantage ground than Judge Williams.

Honorable Cecil H. Smith, of Sherman, has been specially charged with arranging a toast list for the banquet, and his list already includes Judge Gordon Russel, Judge E. B. Perkins, of Dallas, Col. W. L. Crawford, of Dallas, and Honorable Fritz Mahaffey.

A special invitation has been extended to the judges of the United States court of appeals for the Fifth District, and it is earnestly hoped that they will be able to attend. Special invitation is also extended to the members of the state appellate courts and it is hoped every member of these courts will attend.

NO FURTHER REPORTS ON RAIDS.

San Antonio, Texas, June 12.—Overnight reports to Gen. Funston at southern departmental headquarters added nothing to the information regarding the raids near Laredo, and the scouting expedition of Captain Bell, who is said to have followed a number of Mexican bandits to the border after the latter had raided Coleman ranch at San Samuel, near here.

No detailed report of the raids has been received at the department yet.

BILIOUS ATTACKS.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. Obtainable everywhere.

FIRST BALE BRINGS \$950.

Houston, June 10.—The first bale of cotton of the 1916 crop, the earliest bale marketed this season in the United States, was sold at auction by Secretary J. F. Burwell in the cotton exchange this morning.

Jesse H. Jones bought the bale for \$950, about \$1.56 a pound. It was unusually large, weighing 608 pounds. The previous early record bale, which came in 1911, weighed only 493 pounds. The 1916 bale classed strict middling, good staple.

WILSON WILL TRY TO ARRANGE A PEACE CONFERENCE.

Washington, June 11.—A high official stated today that President Wilson may make a definite move in the interest of world peace soon after the adjournment of the St. Louis convention.

The plan being considered, it was said, is the sending of an identical note to all belligerent governments urging them to suspend military operations for a fixed time and to appoint representatives to a conference at which peace proposals might be considered.

It was said President Wilson has been urged not to wait for the warring nations to define their terms in the hope that when the peace conference assembles all preliminary propositions will be swept aside and a definite peace signed upon principles to be agreed upon by the plenipotentiaries sitting around the "green table."

Those who desire the president to take this step are said to believe that if the belligerents would declare an armistice to discuss peace the fighting never would be renewed.

The president is said to realize the difficulties of persuading the belligerents to assent to an armistice. The official declared, however, that the president might make the appeal in the name of humanity and civilization as well as the United States. He would impress upon all, it was said, the fact the United States was not moving in the interest of any particular nation or group of nations, but that this government has at heart the common good of the whole world.

It was said that if the president decides to make the appeal it will be done publicly, it was said, according to his belief that secret diplomacy has brought upon Europe many of its ills and that if fair consideration and a spirit of conciliation obtained in the chancelleries of Europe the war might soon be brought to an end.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like dynamite on a sluggish liver and you Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel with 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

THE WHEREFORE OF IT.

Hughes was chosen by the republican leaders—not by the republican masses—as the most colorless candidate they could find who has filled a conspicuous place in the public eye. To the ultra-conservatives, they presented him as a man of even poise and judicial temperament. To the progressives, they appealed with his alleged reforms, pursued as governor of New York. On the face of things, it appears extraordinary that the candidate chosen should be the one most obnoxious personally to Roosevelt. It may safely be assumed, however, that the campaign is far gone Roosevelt will wheel into line. The party bosses of the type of Barnes and Penrose could not have been counted on without a candidate of their liking. They would never have yielded allegiance to any creature of Roosevelt. Without them the fight was lost in the beginning. Pold as he seems to be of speech, more than once Roosevelt has shown himself amenable to the party lash. His adventure in 1912 did not yield the expected fruit. He is headed on the return trip to the republican party, and whether he reaches there by a highway or a byway, the prophecy is a safe one that before the campaign is over he will line up as a supporter of Hughes.—Waco News.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition. For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. © Scott & Downe, Bloomfield, N. J.

NO CHEAP LANDS IN TEXAS.

The land speculator and the real estate man, and some others, try to persuade us that we have millions of acres of good farming lands in Texas today that are cheap at the prices asked. True, these lands are fertile. True that they will make good returns to the man who cultivates them. True, there is room on them for good homes for millions of people.

But they are not cheap. Cheapness is a relative term. If ten thousand acres of land in East Texas, now held and for sale at \$6.00 per acre were cheap at that figure, and would pay a better interest rate on the purchase price and money necessary for its development than would the same amount of money invested in a lot in Dallas, Houston, Fort Worth or any good city in Texas, and in income-producing buildings thereon, money would immediately seek that land. The fact that it does not shows that such land is not cheap.

Cheapness is a relative term. It depends on several things. Money naturally seeks places where returns on the investment are greatest. It is not seeking farming lands in Texas or any other State today at the prices asked. Therefore, to say that we have cheap farming lands is but passing along a myth fathered by those whose interest it is to sell these lands and cash in the unearned increment and invest it where it will either produce more unearned increment in farm lands, or invest it in the city, where it will bring greater returns than it would in cultivating the so-called cheap lands.

"IS HELL ON PARADE?"

Commenting on the "Giant and Joke" article recently published in the Vicksburg Herald and reproduced in this paper, the Jackson News says:

"Jeems is advertising our state up at the national capital. Whether it is a desirable form of advertising all depends upon your notions of publicity, and the value of merely attracting attention. His status in Washington is reminiscent of a story once told by Col. Bennett H. Young, commander-in-chief of the United Confederate Veterans. Colonel Young said that in one of the towns of central Kentucky, on county court day, which is always the occasion for horse-trading and swapping, a countryman brought for barter or trade, a magnificent looking animal, sixteen hands high, of shapely form,

counted in all parts, with neck and tail erect, and with a form that the equine artist would fain crave for a model. He was approached by a prospective buyer who commented in the most favorable terms upon the magnificent appearance of the steed. He closely questioned the owner upon the quality of the beast. He enquired, 'Can he trot?' 'No,' the man replied. 'Can he rack?' 'No,' the man said. 'Can he lope?' 'Will he work?' The countryman sadly said, 'No, he will not work.' 'If your horse,' the buyer said, 'can do none of these things, will you kindly tell me what he is good for?' 'Stranger' he said, 'this horse is Hell on parade.'—Yazoo (Miss). News.

YOU KNOW THIS MAN!

Perhaps you know this man. The world calls him a big success. Maybe he is. He is the man who has denied himself the pleasures of life that he might become rich in money. Year after year he has gone on steadily and profitably accumulating and hoarding masses of gold. He has dreamed, slaved and lived for but one thing—money. But now time frosts his hair, furrows his brow with wrinkles and collects its inevitable toll of vitality and endurance. Under the years of physical strain there comes a weakening. His physician orders a long vacation and travel to avoid a complete breakdown.

But in the companionship of nature he finds no rest. He has paperized his soul for gold. He is wealthy, but his gold will not buy for him health, contentment nor happiness. He realizes too late what an awful price he has paid for a palsied, impoverished conscience.

What benefit to the world is the man who selfishly devotes his every atom of energy to the garnering of gold? Does gold make a man more neighborly—does it make him a better man. Will it buy real pleasure, real peace, real happiness. Will it be worth the price you must pay.—Monroe News-Star.

INTERVENE IN MEXICO IN JULY.

"The United States will intervene in Mexico in July and everything is now shaping to that end."

Such was the statement made Tuesday morning by Hon. J. F. Cunningham, who is home from a trip of several days.

Mr. Cunningham declined to give the source of his information, but stated that his authority was absolutely reliable and could not for a moment be doubted. The information came direct first-hand from one who is close to the administration.

"Tell the local boys to go on with their drilling, for they'll be called on next month," said Judge Cunningham.—Abilene Reporter.

DON'T NEGLECT CONSTIPATION

Constipation poisons the blood. After the stomach and small intestines have absorbed the nutritive values from the food, it's Nature's plan that the remainder should be cast out of the body promptly. If the bowels do not move regularly and easily, the accumulated matter remains there rotting, decomposing, generating a F. ISONOUS GAS that passes into the blood.

This poison, borne by the blood to kidneys, heart, lungs and every vital organ, soon shows its effects in various symptoms of disease. Also, in skin eruptions, headaches, dull heavy feeling, loss of energy and ambition, nervousness, etc.

WHY PERMIT YOURSELF TO BE POISONED? You would not knowingly take arsenic or any other deadly poison into your system. But by permitting your bowels to remain constipated you are poisoning yourself just as surely. You are courting sickness and disease.

Violent cathartics that gripe are not a fit remedy for constipation. They "hit the bowels with a club" when GENTLE treatment and encouragement is needed.

DR. THACHER'S Liver and Blood Syrup

INTERVENTION.

Conditions along the border are such that intervention by the United States in Mexico may be expected within a short time, unless there is a change for the better and the defacto government of which Carranza is the head develops more strength than it now possesses.

The present campaign is the best that we could do under the conditions that we faced, but the day is upon us when there should be action that will cause the doves of peace to come back to Mexico and which will relieve our nation of its embarrassment.

ico needs help and the only hand that can reach Mexico is the hand of the United States and it should not be withheld much longer.

BUSINESS THROUGH THE DEVIL.

A booklet about printers' devils, issued as a printshop advertisement by Charles M. Kozlay, Brooklyn, contains a set of verses by Mr. Kozlay that is worth reprinting:

Oh, the devil woke up in the dawning so gray! The devil, he did—the devil, he did. And he thought of the toil of the long, weary day.

Sweetwater, June 12.—Passengers on a local passenger train which was leaving Sweetwater this morning were badly shaken up and a serious accident narrowly averted when a freight train carrying thirty cars of gasoline crashed into the rear coach of the passenger, splintering the end of the coach and tearing loose the rear trucks.

TWO TICKETS IN THE FIELD BUT ONE MAY WITHDRAW.

Chicago.—The republican national convention today nominated Charles Evans Hughes of New York and Charles W. Fairbanks of Indiana as the candidates of their party for president and vice-president.

Almost at the same moment Theodore Roosevelt was nominated by the progressive national convention, and later in the day John M. Parker, of Louisiana, was named as his running mate.

The republican nomination required a ballot, the third of the convention, while the progressive nomination was made by acclamation.

Mr. Roosevelt's refusal to accept the progressive nomination is believed politically wise to leave the door ajar, for eventual withdrawal of the third ticket in the event Mr. Hughes' position on what the progressives feel to be the vital issues of the campaign meet their approval.

Hughes-Fairbanks Ticket Agreed on By The Republicans.

Chicago, June 10.—Charles Evans Hughes, former governor of New York and until today justice of the supreme court of the United States, was today nominated for the presidency by the republican national convention.

Charles Warren Fairbanks of Indiana, elected vice-president with Theodore Roosevelt in 1904, again was chosen for second place on the republican ticket.

Both nominations, made by overwhelming majorities, were by acclamation made unanimous.

Senator Lodge of Massachusetts, presented by Roosevelt as a compromise candidate, received seven votes. Col. Roosevelt himself received eighteen and one-half votes, scattered over twelve states. The nominating ballot showed this count:

Hughes 949 1/2, Roosevelt 18 1/2, Lodge 7, Dupont 5, Weeks 3, LaFollette 3, absent 1. Total 987.

Although Frank H. Hitchcock, leader of the Hughes supporters, let it be known while the presidential balloting was in progress that the Hughes men wanted Burton for second place, Ohio withdrew Burton's name, leaving the field to Mr. Fairbanks and former Senator Burkett of Nebraska.

Will Not Accept Nomination Now Says Roosevelt.

Auditorium, Chicago, June 10.—Colonel Roosevelt was nominated for president today by the progressive national convention after four days of uproar and tumult in which the delegates never wavered in allegiance nor cast a passing glance upon another man.

Three minutes before the convention adjourned, Chairman Raymond Robins read to them a brief message from Oyster Bay in which Mr. Roosevelt declined to accept the nomination at this time. Few of the thousands in the vast auditorium, some of whom had seen the colonel named in an even wilder burst of enthusiasm four years ago, realized when Robins rapped his gavel at 4:58 and declared the convention adjourned sine die that in a few hours of a few weeks they might be a party without the one leader to whom they had come to Chicago to give the pledge of loyalty and faith.

GOVERNOR FERGUSON OPENS CAMPAIGN AT WACO.

Waco, June 10.—Amid great enthusiasm, Gov. James E. Ferguson yesterday formally opened his campaign for re-election. Not only did his followers parade through the streets of Waco, but the large audience at the auditorium, in which were many of Texas' most prominent citizens, cheered his utterances time and time again.

An echo of the great political battle in Texas which was fought by James Stephen Hogg against his bitterest political enemies was heard yesterday afternoon in just one sentence uttered by Governor Ferguson in his opening remarks, when he referred to the Huaco Indians who had originally inhabited Waco, and of other Indian tribes who had been put to flight and exterminated by L. S. Ross, and said that J. S. Hogg had put to flight the political savages at Waco like Ross had pursued the savages of the long ago; and he said, further, that Thomas M. Campbell had spoken afterward of one of the men who had made the attack on Hogg at Waco as his (Campbell's) friend. He did not say much, but the ears of former Governor Campbell were sharply tweaked in what he did say, indicating that he does not favor the policies or methods of the Palestine man.

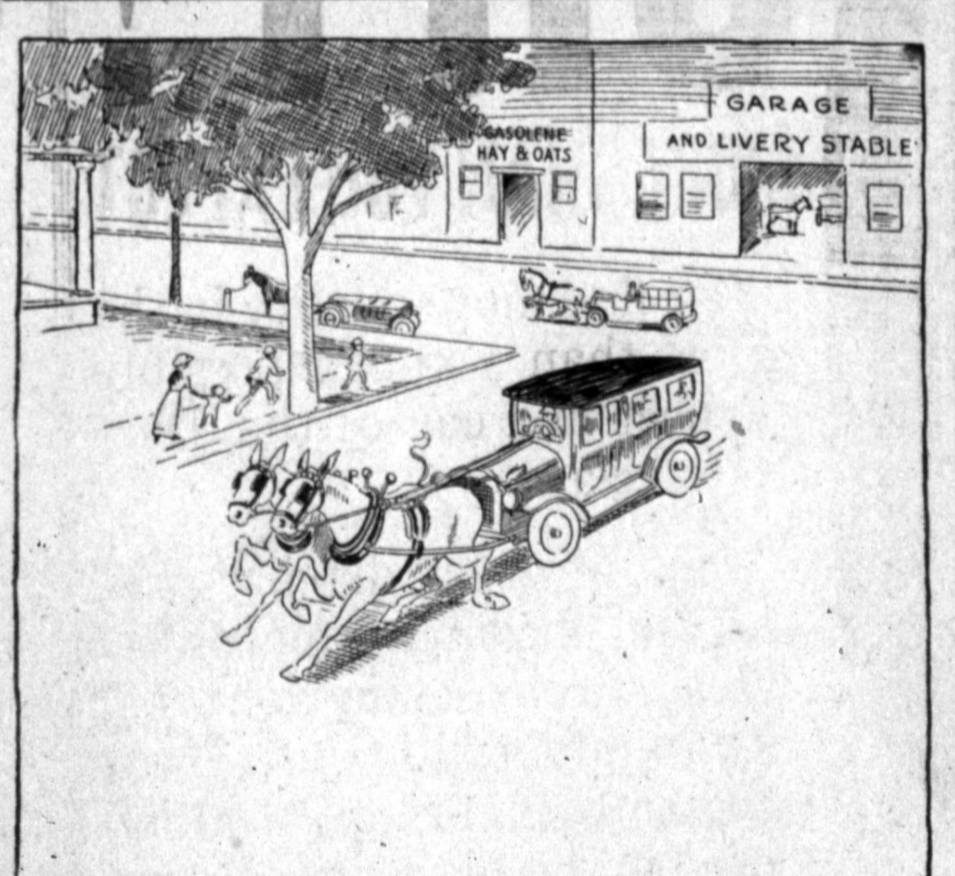

Dr. S. P. Brooks of Waco received complimentary mention at the hands of the governor, who referred to him as one of the cleanest of Texas men and one of the best college presidents in the South. Pleading references likewise were made to Hon. R. L. Henry and Editor A. R. McCollum by the governor.

The governor received applause at many points in his address, but especially did he get commendation from

THEN AND NOW IN KANSAS.

Where once you saw long lines of men on Saturday night going joyously into rooms where the doors always swung in, never out, where there was sawdust on the floor and a merry crowd standing before the mahogany top, where they were treating all around, and a man could get his salary check cashed and spend it right there on his boon companions, and then go enthusiastically home and break up the furniture and give his wife a black eye; instead of all the above manifestations of a care-free people which characterized the saloon day, we now have nothing but gloom. We see men going quietly into butcher shop or grocery store or department store to get their weekly salary checks cashed, and then proceeding moodily home with shoes for the children and beefsteak for supper and the fixings for a heavy Sunday dinner the next day; and you know instinctively that there will be no hilarity in that home that night, and nothing to cheer the lives of these people except such sober activities as mothers may introduce into the family circle.—Allen, Collier's.

YOU HAVE GOT TO RUN FAST TO STAY WHERE YOU ARE.

A great English statesman once said, "There is nothing so conservative as progress." In other words, the tree that doesn't grow dies; the stream that doesn't flow dries up; the man who doesn't go forward falls behind. "Let well enough alone," says the noseback or standpateer, not realizing that "well enough" never remains "well enough" if it is wholly let alone. The individual, the county, or the state that is not progressing is falling behind.

President Woodrow Wilson in an address before the Washington City Press Club, May 15th, expressed this idea in language that should become proverbial. Citing the expression of "Alice in Wonderland" who with the queen "ran very hard only to find themselves where they started, and learned that they had to run twice as fast to get anywhere else," he added:

"That is also true, gentlemen, of the world and of affairs. You have got to run fast merely to stay where you are, in order to get anywhere you have got to run twice as fast as that. That is what people do not realize. That is the mischief of these hopeless dams against the stream known as reactionaries and standpatters, and other words of obloquy. That is what is the matter with them; they are not even saying where they were. They are sinking further and further back in what will some time comfortably close over their heads as the black waters of oblivion. I sometimes imagine that I see their heads going down and I am not inclined even to throw them a life-preserver. The sooner they disappear, the better. We need their places for people who are awake."

MEN WHO GROW AND MEN WHO MERELY SWELL.

Pursuing his plan of always saying something worth while when he speaks on a public occasion, President Wilson told Washington correspondents gathered at the National Press Club that a friend of his had said that every man who takes office in Washington either grows or swells. "And when I give a man an office" Mr. Wilson added, "I watch him carefully to see whether he is swelling or growing."

Mr. Wilson said that the mischief of it was that when these office holders swelled they did not swell enough to burst.

But the men who grow, the men who think better a year after they are put in office. Mr. Wilson said, constitute the balance wheel of the whole thing. Here is a good test to apply to every man in public office. Has he grown or has he merely swelled.—Arkansas Gazette.

LAUGHTER.

Strike with hand of fire, O weird musician, thy harp strung with Apollo's golden hair; fill the vast cathedral aisles with symphonies sweet and dim, deft toucher of the organ keys; blow, bugler, blow until thy silver notes do touch the skies with moonlit waves and charm the lovers wandering on the vine-clad hills, but know your sweetest strains are discords all compared to childhood's happy laughter—the laugh that fills every eye with light and every human heart with joy. O, Rippling River of Life, thou art the blessed boundary line between the beasts and man, and every wayward wave of thine doth drown some field of care! O, Laughter, rose-lipped daughter of Joy, there are dimples enough in thy cheeks to catch and to hold and to glorify all the tears of grief.—Ingersoll.

VEKUN—HISTORY'S SADDEST WORD.

Over a hundred suns have set on the battle of Verdun.

Each new attack of the Germans seems super-human.

Neutrals weep over the horrible daily sacrifice while diplomats whisper that now the Hohenzollerns can never explain Verdun to Berlin except as a victory.

To neutrals in a republic, no royal house on earth is worth the price.

Democracy has from the first been admittedly one of the stakes of the war.

When Henry Ford waxed rich enough to play the stunt of "Caliph" for advertising purposes he announced that he would pay a minimum wage of \$5 per day to all his employes.

The main result of the Ford \$5 a day plan is that living expenses have so increased in Detroit that the workmen receiving \$5 a day finds that he can not live as well as he could before the introduction of profit sharing on \$3 a day.

Land monopoly must be destroyed before workers can be permanently assured a greater share of the product of their labor.

THE JUDGE CUTS LOOSE.

Silent as the sphinx in regard to what's in his head, Judge Hughes no sooner received notification of his nomination for president by the republicans, than he slucked his gown, shot in his resignation, opened his mouth and these strictures came forth:

In his telegram of acceptance Hughes announced his stand for "the firm and unflinching maintenance of all the rights of American citizens on land and sea."

What he thinks of the administration's foreign policy was told in part as follows: "I neither impugn motives nor underestimate difficulties, but it is most regrettable true that in our foreign relations we have suffered incalculably from the weak and vacillating course which has been taken with regard to Mexico—a course lamentably wrong with regard to both our rights and our duties."

At the outset of the administration the high responsibility of our diplomatic intercourse with foreign nations was subordinated to a conception of partisan requirements, and we presented to the world a humiliating spectacle of inaptitude.

"Belated efforts have not availed to recover the influence and prestige unfortunately sacrificed and brave words have been stripped of their force by indecision."

With the confirmation of Judge Brandies and that of the successor to Judge Hughes, there will be two more democrats on the supreme court bench.

The confirmation of Judge Brandies means there is a man on the bench whose record indicates that he will hold common sense of greater importance than precedent, and justice entitled to greater consideration than vested wrongs.

Have you so much leisure from your own business that you can take care of other people's that does not at all belong to you?—Terence.

WHEN WHISKEY HANDLES THE WHEEL.

(From the Deseret News.) If any city in the land might be expected to be lenient with reckless motorists who burn up the roads and gasoline to the terror of pedestrians, it would be Detroit, Michigan, birthplace and home of a honking industry which murders sleep and monopolizes the highway from end to end of the country wherever joy-riders seek their sport in speed.

All the fools are not in Detroit—every city has its share of individuals who take a chance with the deadly combination which the judge condemns, using the first named ingredient to lubricate themselves and the second to burn up the speed laws.

The automobile properly employed is a blessing, but misused it becomes a curse.

SOME SHOP TALK.

The misunderstanding of the conditions that almost universally obtain in printing offices, not infrequently causes the loss of subscribers and friends to the paper.

All newspapers, and particularly in the case with country papers—welcome any contribution that will be of interest to any considerable per cent of its subscribers.

when the time expired. These things are inseparable from the newspaper game, and we explain them that the outside may understand that the editor of a paper is constantly contending against conditions not of his own making of choosing.

BLANTON AND THE TARIFF.

Cattle are bringing higher prices today than at any time within the memory of men now living.

Blanton says a tariff has been known on sugar, why not put a tariff on cattle? The answer is, the tariff on sugar produces \$50,000,000 a year in revenue, whereas a tariff on cattle would not produce a half a million.

But let candidate Blanton tell us why the poor people should be taxed on the meat they eat and everything else they consume just because they are taxed on the sugar they consume?

Does he also demand that boots and shoes, bagging and ties, barbed wire, sewing machines, farming implements, lumber and the many other things now on the free list shall be taxed? Of course he does if he makes any claims to consistency.

THE WOMAN'S MISSIONARY SOCIETY.

The Woman's Missionary Conference held in Sweetwater last week was the biggest and best since this part of the work was separated from the Central Texas. There were present 175 delegates and visitors and 15 preachers.

The president's address was practical as well as eloquent and helpful and all felt when she had finished that they had some good working ideas.

The council reports given by Mrs. Robbins and Mrs. J. B. Smith, both of whom went to Atlanta, were full of interest. They told of the returned missionaries and gave us the working plans for the year.

The business sessions were so full that all the things that we had hoped to discuss were unable to be brought up. Social service, Mission study, publicity, children's and young peoples work and departments of the conference were given more attention than anything else.

All the conference officers were re-elected except the treasurer, Mrs. J. E. Camp, of Wellington, being given that office. Mrs. Lee Perimeter was made conference organizer, as she is going to travel with her husband who has been compelled to get out of his office because of his health.

Miss Martha Nutt, a former missionary in Mexico and for the past two years of St. Mark's Hall, New Orleans, gave the noon bible lessons. These were wonderful for their clearness and inspiration to service.

The Sweetwater Auxiliary did everything possible for her guests. A reception and a drive to Lake Trammell were the social features of the occasion, while their hospitality was of the kind that makes one want more.

Those who attended from Colorado were, Mesdames Arnett, J. T. Davis, Hester, Cromer, S. D. Vaughan, Merritt, Clements, Rev. and Mrs. Carmack, Victoria Lawless and Margaret Davis; John Davis, Robert Brooks Merritt and John Thomas Merritt, the conference baby, who was presented with a silver cup by the conference officers and his friend, Mrs. Trulove.

ANNOUNCEMENT.

To those who may be interested, I wish to announce that I will again teach piano in Colorado, through next school term, beginning about September 1st, and will be at the same place I taught last year (the studio opposite the high school building). I will be away for several months, taking a summer course in music, but will return in ample time to open my class promptly.

(MISS) LELA WHIPKEY.

I wish to most heartily thank my pupils, and their parents, of the past term for their liberal patronage and uniform kindness and courtesy to me. I wish to assure them that I shall be better prepared and my studio better equipped next season than ever before, and that I will appreciate the attendance of all my pupils of last season and respectfully solicit any others who desire to study the piano.

Mrs. Looney gave a delightful morning entertainment Friday, complimentary to Mesdames J. B. Gray, of El Paso, Waskum, of Dallas, Lindsay, of Oakland, California and Marcus Snyder, of Pecos. Bridge and 42 were the features of entertainment. At the conclusion of the games it was found that Mrs. Abe Dolman had won the lone hand in 42 and Mrs. Shropshire won the greatest number of games, while Mrs. F. M. Burns made the highest score in bridge.

AUXILIARY TO C. W. B. M.

The Auxiliary to the C. W. B. M. met with Mrs. Broadbus last week. After the devotional period the regular business was transacted.

Mrs. Soper conducted the lesson in Forty Years in Service; Mrs. Price gave an interesting bible study on "The Home Nazareth;" Mrs. Pond told a very interesting story, "Lyn Eastman's Commencement Gift." The review of chapter III of Home Missions in Action was conducted by Mrs. Crowder. At the social hour the hostess served ice cream and wafers. The July meeting is with Mrs. Pond.

CENTRAL CIRCLE.

The Central Circle of the Methodist church met with Mrs. O. D. Hall Monday, with Mrs. L. E. Lasseter presiding. Mrs. Hester and Mrs. Cromer gave interesting reports of the conference which recently convened at Sweetwater. Dues amounting to nine dollars and twenty cents were received. Mrs. Van Natten was a guest. Ice cream and cake were served at the social hour. The next meeting is with Mrs. Van King.

CHRISTIAN MEETING CLOSED.

The series of revival meetings that have been in progress at the tabernacle conducted by Rev. W. T. Brooks, under the auspices of the First Christian church, closed last Sunday night, with the visible result of ten conversions and accessions. The spiritual benefits, can not, of course, be estimated. The church was strengthened and upbuilt in the faith. Mr. Brooks and the singer, Miss Gail White, left Tuesday night, leaving behind a most pleasant impression of their personalities.

A LONG WAR.

Sir Edward Grey reiterates that which he has said a hundred times. "Peace shall not come until the pledges given by Premier Asquith as regards the restoration of Belgium and Serbia shall be kept." This is his final work. "We have signed a pact to make peace only in concert with our allies." Lord Kitchener, at the beginning of hostilities, predicted a three years' war. He has passed from the stage of action but the signs of the times indicate his prediction will come true. There is no early peace in the heavens. Lord Kitchener recruited an army of 5,000,000 men and now London prophets are predicting a Great British drive the coming month. There is a German drive at Verdun, there is a Russian drive on the Rumanian border with all the world watching and waiting.—Ft. Worth Record.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. C. J. RECORD OF DORT CARS. The record the two Dort cars made during the recent military test trip to all of the army camps in Mexico, story of which was published in the columns of this paper on May 28, has stimulated buying to such an extent that Mr. J. W. Frawley of the Frawley Motor company, North Texas distributors for the Dort, and Mr. M. A. Leach, southwest manager for the Dort Motor Car company, leave Saturday night for Flint, Michigan, to endeavor if possible, to arrange for a larger allotment of cars for Texas distribution—the present allotment being insufficient to take care of the demands. The moving pictures taken of the Mexican trip, show very clearly the nature of the roads which the Dorts had to traverse. Roads that the average motorists would consider impassable. The Dort certainly made a wonderful showing in making this trip without any mishap or mechanical adjustment.

OVERLAND, HUDSON, CHALMERS AUTO-LITE AND UNITED MOTORS IN MONSTER MERGER

New Corporation Second Only to U. S. Steel in Magnitude Formed With \$223,000,000 Capital.

Detroit, Mich., June 5.—Two hundred and twenty-three million dollars is the capitalization of one of the biggest mergers in the history of commerce. It will cause the automobile industry to rank next in order to the steel trade, as only the United States Steel Corporation will have a larger amount of stock.

The new Willys-Durant merger of four automobile companies, with a substantial interest in a fifth, will start off on the basis of \$223,000,000 of capitalization, it was announced yesterday.

It is understood that the name of the new combine will be the American Motors Co., with \$70,000,000 preferred stock of \$100 par value and 2,000,000 shares of common with no par value. The entire preferred stock issue will probably be apportioned among the companies entering into the merger, with none being offered to the public. Only a limited amount of the common stock is to be sold to the public at large, and at the present time it seems likely that this will be largely oversubscribed.

The company, which represents a union of the Willys-Overland, Hudson, Chalmers, Auto-Lite and United Motors Corp., the latter a combination of five accessories companies, which will supply parts for the cars made by companies in the merger, will make its debut with \$73,000,000 of 7 per cent preferred stock and 2,500,000 shares of common without par value. As it is proposed to sell the common stock to the public at 60, the capitalization represented by this stock is \$150,000,000. The parent company will not be cramped by its capital limitations, however, if the management decides to expand, for the charter provides that the number of common shares may be increased to 4,000,000 which at the issue price would make the total capitalization \$313,000,000.—The Automobile.

The local agencies of the cars in the above named merger, point out to prospective purchasers of cars, that it would be well to look to the Standardization of the cars bought. Trouble might come later when accessories have to be purchased.

The local Overland agency reports the recent sales to the following parties: Mr. Gandy, Lorraine; J. N. Burke Colorado; J. E. Moore, Lorraine; Ernest Smith, Westbrook; Mrs. Cora Curry, Bob Croft and Mr. Favors, Fluvanna.

RUSSIAN BEAR ADVANCES.

Petrograd, via London, June 12.—Russian troops yesterday approached the outskirts of Czernowitz, the capital of Bukovina, the war office announced today.

As the Russian troops drew near Czernowitz, the report says, there were numerous explosions caused by the Austrians within the city. The statement also says that Russian troops attacked the bridgehead at Zaleszczyki.

Czernowitz was in possession of the Russians for some time early in the war, but they were compelled to evacuate the city during the progress of the Austro-German offensive. Zaleszczyki is on the River Dniester, thirty miles northwest of Czernowitz. It was in this region that some of the heaviest fighting of the Russian offensive last spring occurred.

The number of Austrians captured by the Russians in the new offensive movement has been increased to more than 114,000. In many sectors of the front, the statement says, the Russians are still pursuing the defeated Austrians.

SUBCOMMITTEE NAMED TO HEAR TEXAS CONTEST.

St. Louis, June 12.—Chairman McCombs, of the Democratic national committee, today appointed a subcommittee consisting of Thomas Taggart, of Indiana, Norman E. Mack, of New York, and William F. Sapp, of Kansas, to hear the contest of William Poindexter and Thomas Love for the Texas seat on the national committee. This committee will make its report and the contest will be decided after the convention closes. Neither Love nor Poindexter was present today and the matter was brought up by Cato Sells, the present national committeeman.

Sydney C. Lackland and Scott B. Lackland, representing Col. Rufus J. Lackland, candidate for congressman-at-large, called at this office this week. Col. Lackland will speak in Colorado City, Wednesday, June 21st, at 2:30 p. m.

PATROL OF BORDER INCREASED.

Washington, June 12.—Secretary Baker announced late today that 1,000 additional coast artillerymen and a battalion of engineer troops from this city had been ordered to the Mexican border for patrol duty. In all about 1,400 men will be added to General Funston's command.

Secretary Baker said the additional forces had been ordered to the border to strengthen the guard along the American side of the line. The movement, he added, was not the result of any new advice to the state department as to disturbing conditions in Mexico.

The new forces will be disposed along the border as General Funston may direct. It is understood the engineer battalion will go to San Antonio.

Fifty Thousand Men Stationed at Chihuahua.

Chihuahua City, June 12.—High officials of the government here have begun to estimate available Mexican forces in the event of armed hostilities with the United States.

It was said that in addition to his present command, General Jacinto Trevino has subject to his call in the state of Chihuahua alone 50,000 men, all veterans of the various revolutions of the last few years.

MEXICAN REFUGEES ARRIVE.

Laredo, June 11.—Eight American families have reached Laredo en route to their former homes in the United States, after suffering insults and hardships on their journey from the hills of Mexico, south of Tampico. Fifteen American families, consisting of about seventy members, unable to reach the border, are camped in the Mexican hills around Tampico, the arrivals stated.

The refugees are headed by Rev. W. A. Shulz, Sterling City, Texas. The eight families, Rev. Mr. Shulz said, left Chama, near Tampico, five days ago. The Americans left in that district have appealed to the Washington government, he said, for assistance in leaving Mexico, meanwhile trying to protect their property against Mexican bandits. Rev. Mr. Shulz, who says the party was badly treated during the trip, was advised by upper class Mexicans, he asserts, to "get out of the country, and that anti-American demonstrations were mainly inspired by Mexican officials."

GREATLY BENEFITTED BY CHAMBERLAIN'S LINIMENT.

"I have used Chamberlain's Liniment for sprains, bruises and rheumatic pains, and the great benefit I have received justifies my recommending it in the highest terms," writes Mrs. Florence Slife, Wabash, Ind. If you are troubled with rheumatic pains you will certainly be pleased with the prompt relief which Chamberlain's Liniment affords. Obtainable everywhere.

TO START A BALKY HORSE.

All horses, and mules more so than horses, hate to have their ears hampered. In fact no horse ever decides upon a different course of action without first moving its ears from the normal position, and here is the key to the whole idea. As soon as it balks set down from the seat and deliberately take one ear and push it under the crown piece of the bridle so that it is fast and leave the horse to its own devices for a few minutes. He will commence shaking his head and doing everything he can think of to get that ear loose, until he has forgotten all about balking and his whole thoughts are centred upon freeing that ear. Now let the driver get back on the wagon, call on the horse to start, and off he goes. I have proved this trick to be successful with cow-horses that thought it necessary to buck and pitch when first mounted in the morning, and with rearers in the saddle and horses hard to hitch. Leave the ear where it is for about twenty minutes, then stop and free it. Let the horse have time to shake his head and be satisfied that everything is all right again, and off he will go as pleasantly as possible.

As I said before, this trick will not break a horse from balking, but it will start one that has balked on the road, provided he hasn't already been whipped and abused to a point where nothing matters.—Dumb Animals.

SUBMISSION TO BE PLACED ON BALLOT JULY 22 PRIMARY.

Dallas, Texas, June 12.—The Democratic State Executive Committee today selected Houston as the August convention city.

It was decided to place on the ballot at the July 22 primary the Gibson bill, amending the Robertson insurance law, and the question of submission.

What Would We Do Without Sugar?

We are so used to sugar that we are likely to forget to give it its properly important place. Right now if somebody asked you what sugar was good for you'd probably say—"Oh! to put in coffee and tea and for making candies and desserts." That's it—we all think of sugar as a sweetener and overlook its value as a food. The chemists classify sugar as a hydrocarbon—that name may or may not be interesting to us, but what is interesting is their statement that it has, as a hydrocarbon, equal food value with the starchy foods and by digestion largely adds to the fatty tissues of the body.

TYPICAL CUBAN SUGAR MILL

Why do we eat sugar anyway? Your first answer might be: "Because it is sweet and tastes good." Of itself the answer would be correct, but the more important fact is that the body craves sugar because it needs it. And when the body craves something it gives us an appetite for it. So primarily that's why we like sugar and things made with sugar and not just because they are sweet. In view of the fact that sugar has gone up so tremendously of late these facts are interesting because we find that instead of the luxury sugar having gone up it is the FOOD sugar that has raised its price. Yet—even though the price is up we have to have our sweet food just the same.

Certainly the makers of that delicious beverage—Coca-Cola must have discovered that sugar is up, because one of the principal ingredients in making Coca-Cola syrup is fine cane sugar. Think of it—they use an average of 80 tons of sugar a day—about 4 carloads. But unlike many manufacturers that company has itself borne the raise and so you and I pay just the same today for our bottle or glass of Coca-Cola that we've always paid. Incidentally, this phase of the situation is a good reminder of the benefits one gets from drinking a beverage as pure and good as Coca-Cola. Not only do we please our palate and derive wholesome refreshment from the drink but we also give our systems that bit of sugar sweetness that they crave and which is necessary to health and tissues. Is it any wonder then that Coca-Cola is so popular and so universally drunk that it has been called "the drink the nation drinks?"

CHAUTAUQUA ENTERS NEW PHASE

Permanence of Parent Institution of Chautauqua Movement Now Definitely Established.

Over Quarter Million Dollars Being Spent on Plant at Chautauqua, N. Y., This Year, Making Largest Single Year's Development in History of the Movement Since 1874—New Entrances, Public Buildings, and Residences, All of Permanent Construction. City of Tents No Longer the Type to Represent the Chautauqua Idea.

NEW developments which are going on at Chautauqua, N. Y., in buildings, approaches and transportation facilities differ greatly from the prevailing notion of a chautauqua as a transitory thing. Brick paved highways, double track interurban car lines, entrances of brick and concrete in good architectural design, landscape treatment on a broad scale, educational buildings in comprehensive groups, hotel rooms with steam heat and other like conveniences, private residences costing a fortune to build do not grow up around an enterprise of fleeting character, yet all these things are taking shape this spring at Chautauqua. The fact is that the parent institution of the Chautauqua movement, on Chautauqua Lake, has within a decade passed into a wholly new phase, the "city of tents" giving way very fast to a city that "has foundations." Electric light and power plants, gas mains, water supply and sewage systems, paved sidewalks,

volves also the double tracking of the trolley line, the laying of needed switches and the construction of a new and complete station. The plans for the station building are by Freeburg & Fidler, architects, of Jamestown, N. Y. There will be a double track in front and a switch to the rear for freight, baggage and express. The building will be 58 by 225, built of red brick, stone and concrete. The design will harmonize with the present permanent institution buildings, with red tile roof and wide, projecting eaves. The outside passenger platform will be 28 by 72, so arranged that outgoing and incoming traffic may be separated. On the inside will be the institution ticket office with incoming and outgoing passes, the exchange office, news and candy stands and the rest room for ladies. Toilet rooms, inside and outside, will be provided for both sexes. Adjoining the traction ticket office will be the baggage department with checking and transfer offices, the freight department and the express department, all to have ample platform space for

park, and the natural beauty of a stream and ravine at that point will be enhanced by planting trees and shrubs. A plaza near the station has also been reserved for park use. The planning of this addition has been done by George Y. Skinner, a specialist connected with the New York firm of Samuel Parsons & Co., landscape architects.

The Chautauqua High School, the Institution Garage and car parking place, the excellent Chautauqua golf links and the industrial center comprising repair shops of various kinds are located west of the Chautauqua enclosure on the highway and trolley line.

Chautauqua's New Water Gate. Second in importance to the improvements of the land gate at Chautauqua, now under way, is the construction of the new pier building, on the site of the old wooden structure, which was torn down last fall. The Miller Memorial Bell Tower, erected in memory of the late Lewis Miller of Akron, O., co-founder with Bishop John H. Vin-

try and serve as a place for study on broad lines at a small expense.

New Music Studio at Chautauqua. The interest in orchestral and choral music at Chautauqua which has made the Chautauqua Music Week one of the annual music events of America affects also the Chautauqua Summer School of Music. Each year sees some improvement in the facilities for music study at Chautauqua, and this year a new practice studio will supply a greatly demanded addition to the plant of the music department.

The new building will occupy a position on the slope south of the Sherwood Memorial building, which all visitors remember, and will conform in style to the architecture of the College Hill group.

SENATOR HOAR'S CREED.

A Declaration of Faith Good Enough For Any One.

The late Senator Hoar, some time before his death, announced the following declaration of faith:

"I have no faith in fatalism, in destiny, in blind force. I believe in God, the living God. I believe in the American people, who do not bow the neck or bend the knees to any other, and who desire no other to bow the neck or bend the knee to them.

"I believe that the God that created tiny, in blind force. I believe in God, men may work out their own salvation, and that His nations may work out their own salvation by obedience to His laws, without dictation or coercion from any other. I believe that liberty, good government, free institutions, cannot be given by any one people to any other, but must be wrought out each by itself, slowly, painfully in the process of years or centuries, as the oak adds ring to ring. I believe that the moral law and the golden rule are for all nations as well as for individuals. I believe in George Washington, not Napoleon Bonaparte; in the Whigs of the revolutionary day, not in the Tories in Chatham, Burke and Sam Adams, not in Dr. Johnson or Lord North. I believe that the North star, abiding in its place is a greater influence to the universe than any comet or meteor. I believe that the United States, when William McKinley was inaugurated, was a greater world power than Rome in the height of her glory, or even England, with her 400,000,000 vassals. I believe, whatever clouds may darken the horizon, that the world is growing better; that today is better than yesterday, and tomorrow will be better than today."

VALUE OF WOOD PULP.

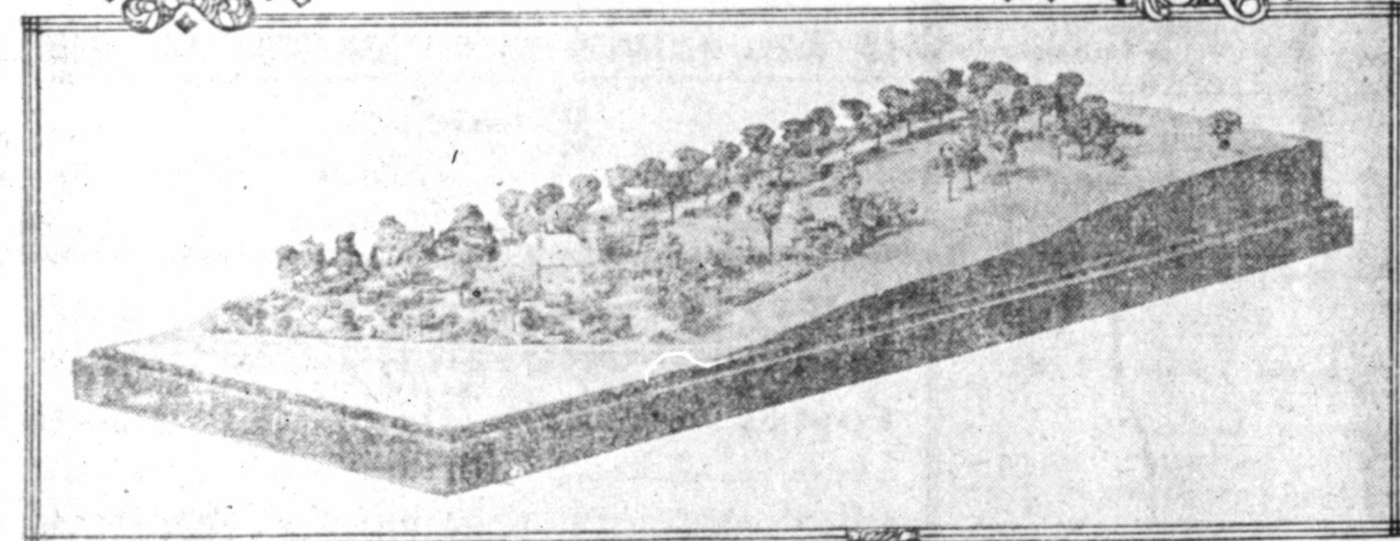

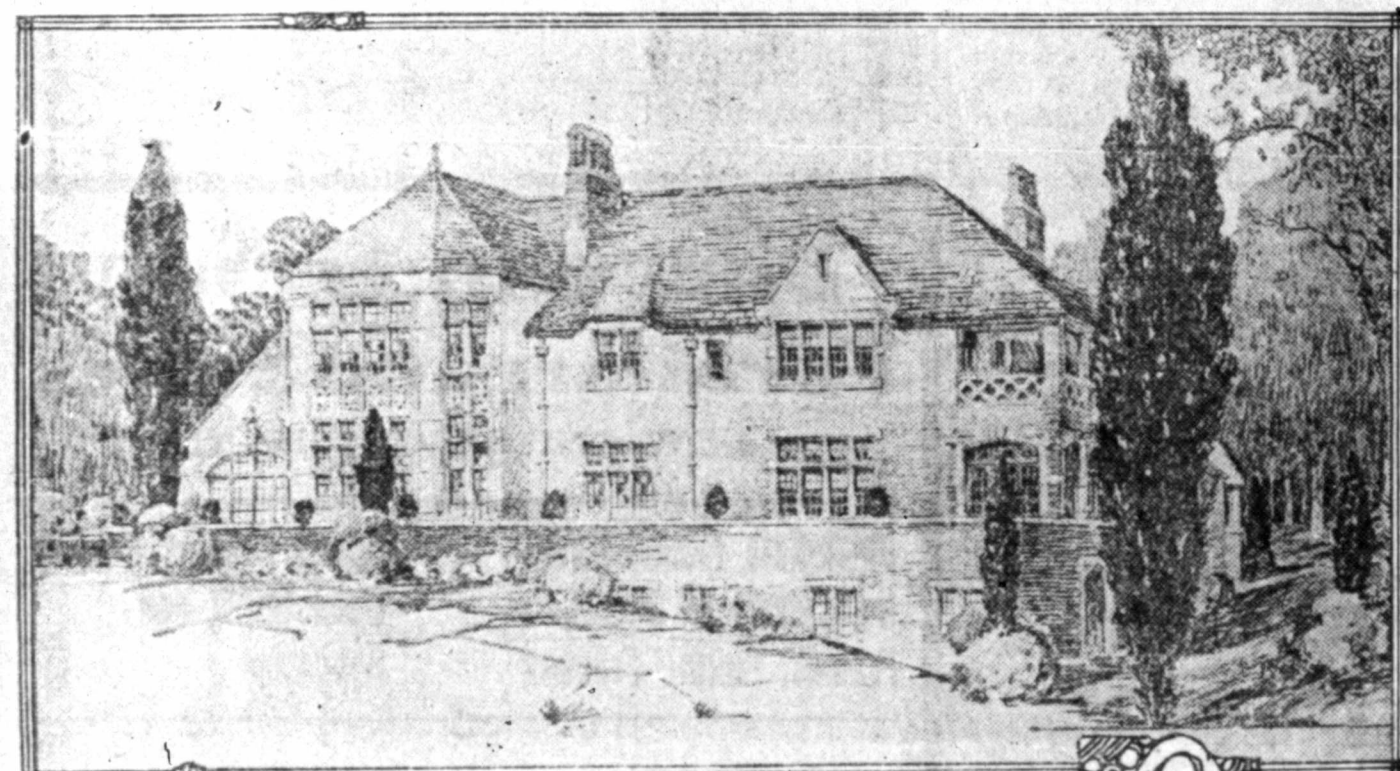

"While northern paper mills are paying on the average of \$18.37 for the wood to make a ton of paper, the South is throwing away tens of thousands of cords of pulp wood every day, only a cord and a half of which is needed to make a ton of Kraft paper worth \$70. . . . The production of lumber in the South will ultimately become a mere incident in the business of lumbering. No longer then will logging tramways be pulled up the moment the saw-logs on the tract have been removed. They will stay until the tract is cleared of cord-wood, pulp wood, light-wood, stumps and saw-logs. The cleared land will be devoted to grazing or to farming under the stimulus of demonstration farms or corporation management and the lumber mill will become the center of a whole group of highly profitable industrial activities."

The scientists have solved the problem of making good paper from Southern yellow pine waste. If the government sees fit to demonstrate the commercial value of that discovery the South soon will have firmly established another great industry, and one that will draw its raw material from a source heretofore neglected. That would be a species of development of vast importance to the South as a whole as well as to the lumber interests wherever Southern yellow pine grows.

IT'S MOSTLY UP TO YOU.

When the world's a-goin' crooked, Or it looks that way to you— Somehow seems to be a tangle To 'most ever'thing you do; When you start out of a mornin' With your luck a-runnin' wrong, The birds along your pathway Have a harshness in their song And the grass, though soft as velvet, You will sort o' stumble through, Such times if you want things better, Friend it's mostly up to you. 'Tain't hard smilin' kith the sunshine, But it's durin' stormy spells, When our weary feet are slipin'. That the stuff what's in us tells, No— you won't have flowers allus In the paths you travel through; Still, if you would have things better, Friend, it's mostly up to you. —Selected.

PACKARD ESTATE ON CHAUTAUQUA LAKE, ADJOINING CHAUTAUQUA INSTITUTION GROUNDS. THIS PALATIAL NEW RESIDENCE WILL BE OCCUPIED BY ITS OWNERS THIS SUMMER. BOTTOM SECTION OF CUT SHOWS MODEL OF THE GROUNDS.

year-round office buildings of fire proof or slow burning construction are among the things that one by one have supplanted the earlier makeshifts. Over a quarter of a million dollars is just now being expended to present the assembly to 1916 visitors in its new character as a permanent institution, definitely come to stay.

The Chautauqua assembly at Chautauqua, N. Y., will this summer offer to the visitor's view two important and striking improvements in two approaches—the water gate or pier, where will enter the visitor coming by steamboat from other points on Lake Chautauqua, and the land gate, where will enter the visitor coming by trolley from any direction or by motorcar over the excellent highway which connects with the great east and west thoroughfare at Westfield, N. Y.

Chautauqua's New Land Gate.

The general highway improvement is the most extensive enterprise now under way at Chautauqua, N. Y. This has been secured by generous co-operation with Chautauqua Institution on the part of the State of New York, the county of Chautauqua and the Chautauqua Traction Company operating the electric railroad from Jamestown to Westfield. It comprises a modern passenger station, double tracking of the trolley line, a new brick paved highway and important changes in the boundaries of the Assembly enclosure.

Plans were made in 1913 by the State for the improvement of the highway. A magnificent new state road is now open through Mayville to Westfield, connecting with the great roadway east and west, known to all automobilists. The line of the highway at Chautauqua was changed and straightened and paved with brick. This change has made possible the addition of a considerable acreage to the lot and park space of the institution. It in-

loading and unloading. Work has already been begun so as to assure completion before the season opens. The cost of the structure will be some \$30,000 and incidental improvements by the Traction Company perhaps \$10,000 additional.

The institution has expended for land and buildings and for the improvements made over \$40,000. The special piece of brick highway has cost the state and county \$17,000, while the Traction Company expenditures, as just indicated, will aggregate at least \$40,000.

For a quarter of a century the water gate was the principal and almost the only entrance to Chautauqua, and it will be remembered for its natural picturesque beauty by every one who has visited the assembly during the past forty-two years. More recently, since the development of the electric railway and since the automobile has become so important a factor, the roadgate has received the larger share of visitors, yet it has had nothing to suggest the real character of Chautauqua. It has been like the railroad approach to many a town, a back door entrance, crowded and comfortless, without character or convenience.

The change in the highway and trolley line has made available to the institution a tract about 4,000 feet long, varying in width from 10 to 200 feet, or nearly thirteen acres, and brings the total area within the enclosure up to about 200 acres. The new section is laid out into eighty-eight lots and into parking. The lots thus made available for lease are somewhat larger than the older Chautauqua lots. Two of the new streets formed are named Harper and Massey avenues, to commemorate services to Chautauqua by Dr. William R. Harper of the University of Chicago and the Massey family of Toronto. In this extension about two acres have been added to the present playground

cent of Chautauqua Assembly, is an impressive enhancement of the natural charm of "the point." The new pier building, which will cost about \$10,000, will be another added ornament.

The new pier building will be a two story structure of 40 by 100 feet, with concrete columns and red tile roofing. The first floor will contain the institution ticket office, steamboat ticket office, waiting rooms, check room, baggage room and refreshment booth. The second floor will be entirely devoted to a covered promenade. A most attractive building is promised by Green & Wicks of Buffalo, the institution architects.

For the past two years there has been a marked improvement in this entire section of Chautauqua, in ground, park and cottage betterments, to which the new boat landing and water entrance will give final emphasis.

Summer Schools Growing. The growth of summer schools throughout the country is being largely shared by the pioneer summer schools at Chautauqua, N. Y. This year's addition to the Chautauqua Summer Schools on College Hill will be in the form of two sixty foot ends added to the sides of the rectangle already well defined. When completed all the classes, comprising 3,000 students, will be provided for in this building, with the open end of the quadrangle toward the lake and "the old chestnut tree" a venerable Chautauqua landmark in the center.

It is to be hoped that friends of popular education will come forward to make possible in the immediate future the completion of this unique group of buildings which will serve as classrooms, laboratories and dormitories.

The Chautauqua Summer Schools themselves are unique in having always been self supporting. They are the oldest summer schools in the coun-

ROY E. FOX'S SHOW.

The tent show of Roy E. Fox, primarily a first class entertainment and incidentally promotive of the wider knowledge and sale of the famous Carter-Fox line of standard remedies, has been the leading attraction since Monday night. On each opening night of this justly popular show, the courtesy of "free passage" is always accorded the ladies, and the overflowing attendance on first nights wherever the Fox show goes, is the highest and the best endorsement of the class of entertainment he gives.

Roy Fox is a "native son," and his show bears the "made-in-Texas" brand, which carries the obligation to all who seek high class entertainment to "buy-it-made-in-Texas." The programs for this week are all of first rank, and the individual as well as collective work of the company justifies their popular sobriquet of "Popular Players." Roy Fox is always assured of the most generous patronage on his visits to Colorado. Long may he continue them.

County Farm Demonstrator, Dulin, organized a very promising institute down at Payne's schoolhouse, the past week. He says he is going to pull off the "best and biggest" boys' and girls' club exhibits this fall in Colorado, that ever happened or "bust a brand new tug," and what Dulin says about things in his line, usually comes to pass.

FARMERS' SHORT COURSE.

County Farm Demonstrator, W. A. Dulin, informs the Record that through the co-operation of the Colorado Chamber of Commerce, the Farmers' Short Course as promulgated by the A. & M. College, will be conducted again at Colorado for the farmers and other interested persons of Mitchell county. The name or an equally expert corps of instructors and demonstrators, will be present, as on last year, and every farmer, every farmer's wife, daughter and son, are urged to attend every day and lecture of this course.

Farmers from other counties are invited to come and join in this feast of good things. Remember the dates—July 31st, August 1st and 2nd.

THE RECORD REPORTS PROGRESS.

No one can deny successfully that the Record has contended, both in season and out of it for a few things to be done in the town and county. Among these desiderata the extension of the spur track that butts into the clay bank just in the rear of the Radford Grocery Company's warehouse is by no means the least or last.

As it exists today, the track only occasionally serves two industries, whereas its extension less than 300 feet would enable it to serve the daily needs, in their respective season, two grain, one ice factory, a coal yard and a rail warehouse. Efforts to get this spur extended have been made spasmodically for the past several years, but until now, when the railroad has taken cognizance of the need of it and expresses itself as willing to make the extension desired, provided the parties directly interested will pay the expenses necessary to make the bed ready for the ties and rails, and the city will give its consent to the construction by ordinance. Steps are being taken to this end, and it is devoutly hoped that by the next ginning season, at least, the track will serve every industry located on that alley.

ROYAL ARCH CHAPTER.

Regular convocation of Colorado Chapter, Royal Arch Masons, No. 175, will occur tonight (Friday), when the annual election of officers for the ensuing year will occur. A full attendance is urged.

CHAMBER OF COMMERCE ELECTS OFFICERS.

At the annual election of officers of the Colorado Chamber of Commerce last Friday afternoon in the rooms of the Chamber, the following officers were elected for the current year: P. C. Coleman, (re-elected) president. T. H. Roe, secretary.

The entire retiring board of directors, consisting of A. J. Coe, R. O. Pearson, R. P. Price, H. L. Hutchinson and J. H. Greene, were also re-elected, thus giving both the officials and directing board, a strong vote of confidence.

The annual report of what the board had accomplished and projected during the past year, was published last week. Many substantial and valuable accessions to the material advantage of the town and county, have been secured by the Chamber of Commerce, while several more are now being promoted.

With its usual co-operative spirit where the interests of the county at large are involved, the Chamber has financed the Farmers' Short Course of the A. & M. College, which will be held at Colorado on July 31, August 1st and 2nd proximo. An able corps of instructors and demonstrators will be on hand, including Miss Imogen Neely, Mr. and Mrs. Gurren, who so endeared themselves to the farmers, the farmers' wives and daughters on their last visit to this county.

FOR DISTRICT JUDGE.

Sweetwater, Tex., Apr. 22, 1916. To the Voters of Mitchell and other counties of the 32nd Judicial District:

Gentlemen—Having received several inquiries as to whether I would again run for the office of judge of the 32nd Judicial District, I take this means of announcing to you that I shall be a candidate for that office, and solicit your consideration.

I have served you a little over three years, and have greatly enjoyed meeting the people of your county in their attendance at court. It, however, is not for me to say whether I have given you satisfaction as such officer; but I have endeavored at all times to give the people of this district an honest, conscientious and economical service, and feel that I have so administered the duties of the office.

Thanking you for your past consideration, and for whatever support you may see fit to give me at the approaching primary, and pledging myself to serve you faithfully should I be again elected, I beg to remain, Very truly yours, W. W. BEALL.

YOUR DOG TAX IS DUE.

City Marshal, D. M. Stell, directs the attention of every dog owner in the city, that the new tags have been received and that your dog tax is now due. He will begin next week taking up dogs without tags and it will cost \$1.50 additional to get your dog out of the pound besides paying the tax. Besides, the owner of a delinquent dog may be fined in a goodly sum for his neglect. The price of tags is the same—\$1 for each male; \$2.50 for each female. Don't neglect to attend to this matter, as delinquent dogs will not be tolerated.
