MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child, simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated passes, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

Nine years of continuous, consistent development, improvement, refinement!

Each year a better car and a better value!

Over three hundred thousand now in use!

That is the history of the car that built Overland because it represented integrity of value.

And as steadfastly as this car has represented original integrity of value, so also has The Willys-Overland Company sustained that integrity of value throughout its service in the hands of those who purchased it.

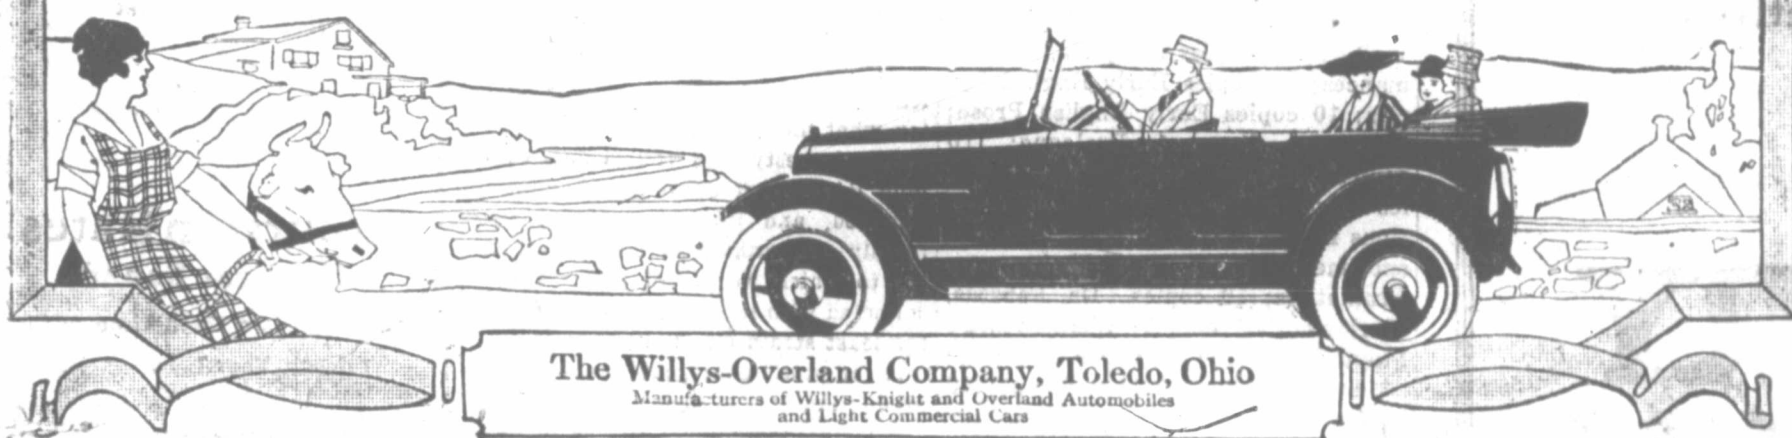

The Overland Big Four of this season and its twin—except for the motor—the Overland Light Six, are the direct outcome of all this development.

More than three hundred thousand owners and more than four thousand dealer and factory-branch organizations have assisted this development by their experience with these cars and their helpful suggestions of improvements.

In their new beauty, in their perfected easy riding qualities, in their proven sturdiness and mechanical excellence, in their admitted tire, fuel and oil economy, these cars are worthy of the confidence we have, that they will further enhance Overland prestige.

The prices are \$850 for the Big Four, \$985 for the Light Six, while we have them to deliver until May 1st—thereafter \$895 and \$1025.

COOKED POLITICS AND NEMESIS

It is the fatuous idea of those who are in politics for plunder that they can carry on their selfish schemes forever, and fool enough voters all the time to keep a corrupt ring securely entrenched. Political history in view of the fatuous idea of those in the long run does not confirm this view. The crooks, and any party that harbors them, are certain to be overtaken by retribution. Tweed began his career as a public pirate as an alderman in 1850. He died in a felon's cell in the city he defiantly robbed in 1876. Through most of this quarter of a century he was, by the exercise of evil cunning and total lack of moral restraint, a supreme high crook who snapped his fingers at upright citizenship, constantly growing bolder in his huge system of theft. He immensely padded vouchers for city and county work and bribed judges and legislators. Big schemes for fictitious city improvement were devised to mask operations. Fraudulent bills were audited and the money divided by the ring. An exposure came suddenly in 1872 by a ringster, who thought he had not been given his share of the loot. Tweed was run to earth at last. He cunningly escaped from prison, but was caught in Spain, and died in Ludlow street jail, a building he had so often passed as chief potentate of a city supposed to be helpless in his grip.

Tweed started in a small way, putting up ward jobs and cheating, or bribing voters in precincts. Criminals of this kind will follow the lines of least resistance as long as it points their way. It was a long line with Tweed, but it had a turning. The tens of millions he stole could not save him and his accomplices when light suddenly came in a form too clear to be disputed. The cynical indifference of political despoilers is obvious enough when they are in their heyday, but they are short-sighted. Their boomproof is not as safe as they imagine. The mass of American citizens are honest and they are intelligent. They are not conducting a government that can be ostentatiously made a plaything for spoilsmen. Any political crook who does not know the

meaning of Nemesis should look up the word.—St. Louis Globe-Democrat.

STOMACH ACTS FINE! NO INDIGESTION, GAS, HEARTBURN, ACIDITY.

"Pape's Diapiesin" Fixes Sick, Sour
Upset Stomachs in Five Minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. Its quick relief in indigestion, dyspepsia, gastritis, and other stomach trouble has made it famous the world over.

Keep this wonderful stomach sweetener in your home, keep it handy, get a fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach, it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it. Adv

WE'RE ALL LIARS.

"When they had kindled a fire in the midst of the hall and were come together. But a certain maid came behind as he sat by the fire and earnestly looked upon him and said that man was also with him. And he denied her saying, woman I know him not."—Luke 22:55-57.

Peter lied. He had been with Christ every day for nearly three years, and yet when a frisky dame pointed her finger at him, he wilted and lied three times to clutch it, and "cussed like a Roman soldier." The trouble with Peter was that he had been a fisherman by profession and all fishermen are natural born liars. But Peter did

not always lie. He quit after his experience with fire at Pentecost, and so the reader must not get the idea that he (the reader) is in the line of apostolic succession just because he is addicted to prevarication. We are all liars—unless newspaper men and preachers are exceptions. A woman meets a neighbor whom she despises, at the door and overwhelms her with expressions of delight at her coming. She paints her face and goes on the streets as much as to say: "My face is rosy and healthy." She is lying. She pads her form to deceive the public eye. Her heart is sad and yet she puts on a counterfeit smile as much as to say: "I am as happy as a clam." She is lying. The merchant tells his customers that his goods are the best in town. He is a liar—there are a dozen makes just as good. The farmer lays his wood crisscross in the bottom of the wagon and lays it close and thick on top. He is lying. The editor writes a flowery notice of a wedding, telling of the beauty of the hooknose bride. He is honestly mistaken. Reader quit lying. It is not biblical or Jeffersonian; it is unconstitutional, unladylike. It stamps its brand upon your brow and the world will sooner or later find you out. The noblest work of God is an honest man or woman, absolutely honest with himself as well as the public.—Ex.

FOR MALARIA.

Why everybody should take McCroskey's Tonic: It acts on the liver, kidneys, stomach, blood and spleen, and removes all forms of malaria. I have tried it for twenty-one years in the Mississippi and Arkansas River bottoms for chills, and fever, and by taking a course of purgative medicine and then following with McCroskey's Tonic, do not care if you are so full of malaria that you are all bloated and yellow as a pumpkin and green around the mouth and eyes, it will take out the blot, clear the skin, and build you up. McCroskey's Tonic will reduce the spleen when everything else fails, and breaks the chills when calomel and quinine will not touch it. It is sold in Colorado by W. L. Doss. Adv 4-27

ARMING NO EASY TASK.

It Takes Time and Hard Work to Fit Merchant Ships For Defense.

The arming of a ship for defense is no small task. It is not merely a matter of slinging a gun into place at the stern and bolting it to the deck. Decks are not strong enough to carry a gun of the type which is nowadays being mounted on merchantmen. Such a gun, if fired from the unsupported foundation of a ship's deck, would probably be carried right through the deck, bolts and all, by the force of its recoil and would do almost as much harm as a hostile torpedo. Therefore a complex steel framework, riveted far down into the frame of the ship, comprising many tons of stout structural steel, must be fitted into place.

Deck space must be cleared to give the gun a clear sweep in all directions. Everything possible must be done to assist efficiency and rapidity of action, for here is a matter where minutes and even seconds count heavily. Then there must be provided quarters for the gun crew handy to the gun and convenient space for the storage of ammunition.

BRITISH USING A NEW GUN.

Germans Think It Is Pneumatic—Shell Does Great Damage.

The German correspondents on the western front report that the British are using a new type of gun and shell. The gun appears to be pneumatic, as it makes no noise when fired and can therefore be used from points very close to the front.

The shell which it carries bursts with an explosion resembling that of a mine, and the destructive area of the burst is large. It is chiefly used against deep dugouts and trench positions.

Efficiency.

A New York department store speeds up the loading of its delivery wagons by running its autos inside of the building and transporting them to various floors on large elevators. Expensive and unnecessary stock handling is thus prevented by loading the trucks directly.

PRESIDENT VINSON MAKES STATEMENT

"Let me say at the outset that I am not opposed to the policy of having the sons and daughters of rich men in the University of Texas. In my judgment, there are far too few of this class of Texas boys and girls patronizing this institution. Figures recently compiled reveal the interesting fact that each year some 3,000 Texas students are registered in schools beyond the confines of this state. We may reasonably say that this figure represents to a large extent the boys and girls who go from the homes of well-to-do people of Texas for their education. It is a great pity that the sons and daughters of our rich men and women are educated altogether out of that environment in which their lives for the most part must be lived after graduation. They lose tremendously. We also lose. It is an economic problem. If the expenditures abroad of each of these students are placed at only \$500 per annum, it means that something like a million and a half dollars are annually paid to institutions outside of Texas for educational advantages which the state does not afford, or at least for advantages which some of our people feel cannot be obtained at home. But, when all of this is said, it still remains true that both from the standpoint of policy and from the standpoint of practice, the University of Texas is gaged to the requirements of the poor man, and not to the abilities of the rich man. It is a fact of tremendous significance that during the past session more than fifty per cent of the men students of this University were dependent upon themselves for the expenses of their education. This money was made either before coming to the University or while in attendance at the University. Out of the entire student body, both men and women, more than forty-two per cent paid their own expenses in the University either in whole or in part during the past session; and these self-supporting students earned during that session the total sum of \$18,000 while carrying on their University studies. Certainly the fees charged by the University itself do not demand riches for their payment, as these, including all student activities, may be paid for with the small sum of thirty dollars per year."

Texas spends annually on alcohol and tobacco \$139,000,000 and only \$18,000,000 on education. To double the state's education fund would cost each citizen one cent a day.

MORE FARMERS EN- ROLLED AT UNIVERSITY

As usual, in the occupations represented by the parents of students in the University of Texas, farmers are in the lead. Another notable fact is the number of widows sending their children to the University, there being last session 269. Some of the principal occupations for the year 1915-1916 are as follows: Farmers, 466; merchants, 261; lawyers, 201; doctors, 149; ranchmen and stockmen, 128; teachers, 92; real estate dealers, 87; bankers, 74; railroad men, 61; clerks and salesmen, 70; ministers, 51; drummers, 48; contractors, 38; insurance agents, 35; lumbermen, 33; druggists, 32; cotton buyers, 26; county, city and federal officers, 33; engineers, 26; grocers, 20; newspaper men, 20; carpenters, and mechanics, 20; oil men, 15; manufacturers, 15; housekeepers, 12; bookkeepers, 10; boarding housekeepers, 11; dentists, 9; stenographers, 8; dairymen, 8; speculators, 6; musicians, 6; restaurant keepers, 5.

Other occupations, the total of which number 118, are barbers, tailors, ginners, dressmakers, laundrymen, blacksmiths, chemists, shoemakers, architects, grain dealers, quarrymen, milliners, photographers, firemen, butchers, gardeners, motormen, linemen, hatters, bricklayers, draymen, potters, fuel dealers, sidewalk inspectors, sho builders, Y. M. C. A. secretary, optician, sawfiler, liveryman, auto dealers, track foreman.

Among the 2720 students in the long session of the University of Texas, 1915-1916, the Methodist church was represented by 847 affiliates; the Baptist, 496; Presbyterian, 396; Episcopal, 254; Christian, 233; Catholic, 99; Jewish, 71; Lutheran, 52; Congregational, 22; Church of Christ, 19; Christian Science, 16; Evangelical, 9; Unitarian, 5; Moravian, 3.

The University Y. M. C. A. is housed in a building costing \$100,000, more than half of the men students of the University doing active work in this Association. The Y. W. C. A. also has a strong organization. 1157 of the University students enrolled pursued studies in the Bible. 33 former University students are either already missionaries in the foreign field or are engaged in preparation for that work. The Christian, the Episcopal and the Catholic Churches have erected special buildings for the use of the students, while the Methodist and Baptist churches have large church buildings adjacent to the campus. Provision has been made by the Methodist Church for the employment of a man to devote his entire time to giving Bible instructions.

THE SINGLE TAX; WHAT IS IT!

In the Texas Senate a joint resolution was introduced proposing an amendment to the State Constitution providing a single tax system for Texas. The proposed amendment to be voted on in August of the present year. Whether the amendment will be submitted, we do not know, neither can we make an intelligent guess at its fate, if submitted, but it is common knowledge that the State is not satisfied with its taxing system, and that men are constantly casting about for a plan of taxation that will be fairer and more equitable, and that will impose lighter burdens upon the poorer classes. Since the single tax system will probably soon become an issue in state affairs, we print below a statement by Henry George, its first and chief propagandist:

"We propose to abolish all taxes save one single tax levied on the value of land, irrespective of the value of the improvements in or on it.

"What we propose is not a tax on real estate, for real estate includes improvements. Nor is it a tax on land, for we would not tax all land, but only land having a value irrespective of its improvements, and would tax that in proportion to that value.

"Our plan involves the imposition of no new tax, since we already tax land values in taxing real estate. To carry it out we have only to abolish all taxes save the tax on real estate, and to abolish all of that which now falls on buildings and improvements, leaving only that part of it which now falls on the value of the bare land, increasing

that so as to take as nearly as may be the whole of economic rent, or what is sometimes styled the "unearned increment of land values."

That the value of the land alone would suffice to provide all needed public revenues—municipal—county—national and state—there is no doubt.

From the single tax we may expect these advantages:

1. It would quickly dispense with a whole army of tax gatherers and other officials which present taxes require, and place in the treasury a much larger proportion of what is taken from the people, while by making government simpler and cheaper, it would tend to make it purer. It would get rid of taxes which necessarily promote fraud, perjury, bribery and corruption, which lead men into temptation, and which tax what the nation can least afford to spare—honesty and conscience. Since land lies out of doors and cannot be removed, and its value is the most readily ascertained of all values, the tax to which we would resort can be collected with the minimum of cost and the least strain on public morals.

2. It would enormously increase the production of wealth—
(a) By the removal of the burdens that now weigh upon industry and thrift. If we tax houses, there will be fewer and poorer houses; if we tax machinery, there will be less machinery; if we tax trade, there will be less trade; if we tax capital, there will be less capital; if we tax savings, there will be less savings. All the taxes therefore that we should abolish are those that repress industry and lessen wealth. But if we tax land values, there will be no less land.

(b) On the contrary, the taxation of land values has the effect of making land more easily available by industry, since it makes it more difficult for owners of valuable land which they themselves do not care to use to hold it idle for a large fortune price. While the abolition of taxes on labor and the products of labor would free the active element of production, the taking of land values by taxation would free the passive element by destroying speculative land values and prevent the holding out of use the land needed for use. If any one will but look around today and see the unused or but half used land, the idle labor, the unemployed or poorly employed capital, he will get some idea of how enormous would be the production of wealth were all the forces of production free to engage.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED.

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Foisonous matter clogged in the intestines. Instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist meets your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

NOTICE TO ICE CONSUMERS.

It has been reported and expected, that the price of ice would be advanced. With a little co-operation between driver and patrons both driver and patrons can be benefited.

I expect to furnish a window card with a dial, so that the amount of ice wanted can be indicated from the window, thereby saving the time of the driver inquiring the amount of ice wanted, and preventing any disturbance of the household by the driver. By this method the driver can supply one-third more patrons in a given time than by the old method.

I shall expect the ticket or the money for the ice when delivered. I have been able to collect only about two-thirds of the petty charges, as patrons try to put their memory against our books. The amounts being small, I have instructed the driver to waste no time in discussion, but settle according to the memory of the patron. This system has proven expensive to us.

We shall not continue this practice longer. To keep the price of ice down we ask your support and co-operation. The coupon book is more satisfactory than trying to keep change. COUPON BOOKS WILL BE SOLD ONLY FOR THE CASH.

So, unless the price of steam coal advances, I do not expect to change the price of ice except in some instances that do not effect domestic consumption.

Yours for better service,

HOUSE VOTES \$7,000,000,000 LOAN TO ALLIES

Washington, April 14.—The \$7,000,000,000 war revenue authorization bill was passed late today by the house. The final roll call on the bill was begun at 4 o'clock, after debate on amendments, limited by the five-minute rule, was completed.

The vote was unanimous, Speaker Clark directing that his vote be recorded as aye. Representative London, New York Socialist, was the only member answering present.

The house and galleries cheered as Speaker Clark announced the vote: Ayes 388, noes 0, present 1.

SAFE MEDICINE FOR CHILDREN

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, colds and croup. Obtainable everywhere. Our school is progressing very nicely at present. Each pupil is doing his best to reach the top of the ladder by the time school closes. We are glad to announce that we have an extra month added to our school term. Mr. E. B. Gregson and Bro. Schultz visited our school Thursday morning and Bro. Schultz made us a very interesting talk on the new inventions which was much appreciated and enjoyed by all. Friday afternoon he gave us a lecture on Old Mexico. A number of parents and visitors were present to enjoy this lecture.

We have added a new set of library books to our school.

The meeting last week was attended by large crowds and very interesting sermons were delivered each night by Bro. Schultz.

Mr. Dewey McNairy was a business visitor in Colorado Saturday. Mr. Edgar Conaway and sister Jewell were visiting in Iatan Sunday.

Messrs E. B. Gregson and C. C. Lightfoot were in Westbrook Monday on business.

A large crowd attended singing Sunday evening at the home of Mr. and Mrs. E. B. Gregson.

HOUSEWORK IS A BURDEN.

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Colorado women. Read what Mrs. Curry says:

Mrs. Allie Curry, Hickory St., Colorado, says: "I was troubled a lot by my kidneys and my back was in terrible shape. I had an ache in the small of my back and I was so weak that I could hardly keep about my housework. At times my back hurt me so much that it felt as if it would break. I had dizzy spells and headaches and black spots floated before my eyes. My kidneys were irregular in action. I had heard a lot about Doan's Kidney Pills and began using them. The first box seemed to help me and I continued their use and was cured."

There has been a much dreaded fever raging in our community for some time, which has subsided, or at least changed to some extent. We mean the all-cotton crop fever. CONSTITUTION AND BY-LAWS OF SOCIAL SERVICE LEAGUE.

Last week, as was published in the Record, the ladies of the town perfected the organization of the Social Service League. This is a move by which the ladies propose to organize the charity work of our town and county. If the Chamber of Commerce will join in with them (and we understand the two organizations will work together) this can be made one of the most important organizations of the county. Heretofore all charity work was done haphazard and usually by a few. Beggars would hit the town, work the business men and the main streets, take the next train out with several dollars to the good. With this organization, all cases demanding assistance will be turned over to them, and after due investigation, if found worthy, will be assisted, if proven to be professional pan-handlers, they will either be arrested as vagrants or advised to move on. We publish below the Constitution and By-Laws of the League, so that all may be familiar with the aims and purposes of the organization. Every woman in the city ought to belong to this League, as it is a matter which is of interest to every citizen, and a common ground on which all may work together.

Constitution.

Article 1.—Name.—This organization shall be called the Colorado Social Service League.

Art. 2.—Object.—The object of this organization shall be to aid, upon investigation, those who need assistance.

Art. 3.—Officers.—The officers shall be a president; two vice presidents; a secretary and treasurer, chosen from the five churches composing the League.

Art. 4.—Members.—Every woman who belongs to any church society shall be considered a member of the League, and will be eligible for service in any capacity.

Art. 5.—Finance.—An offering shall be taken quarterly in each church, (subject to the consent of the pastor) and turned over to the treasurer. Funds may be raised in any manner decided upon by the League.

Art. 6.—Time of Meeting.—The League shall meet monthly on each second Tuesday.

This Constitution may be amended at any regular meeting by a majority vote of those present.

By-Laws.

Art. 1.—Election of Officers.—Officers shall be elected annually the second Tuesday in April.

Art. 2.—Duties of Officers:— Sec. 1.—The President shall preside at all meetings, appoint committees and perform all other duties usual to the office.

Sec. 2.—The First Vice President shall preside in the absence of the president and shall have charge of the Supply Department.

Sec. 3.—The Second Vice President shall preside in the absence of the President and First Vice President and shall assist with the supply and distribution department.

Sec. 4.—The Secretary shall keep a record of all meetings, send notices of each monthly meeting to the press and churches and attend to the correspondence.

Sec. 5.—The treasurer shall have charge of the church offerings, the fees from the Bureau of Information and all other moneys. She shall pay out money upon the order of the president and secretary.

Art. 3.—Committees.—There shall be five Outlook Committees in five districts of town, with a chairman from each church, appointed quarterly. It shall be the duty of these committees to find and assist those in need in their districts. There shall be a committee on Mexican work with the same duties, and such other committees as may be needed.

Art. 4.—Executive Board.—The executive board shall consist of the officers and chairmen of the outlook committees, and shall be empowered to transact any business that may come before the League.

Quorum.—Seven shall constitute a quorum.

WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC
Lax-Fos is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:
CASCARA BARK BLUE FLAG ROOT RHUBARB ROOT BLAOK ROOT MAY APPLE ROOT SENNA LEAVES AND PEPSIN
In Lax-Fos the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

As the wedding hour approached Miss Annie Leach and Mr. Carl Ruddick led the way, followed by the bride and groom. They were met at the center of the room by Rev. H. F. Smith of Colorado, who spoke the solemn words that made them husband and wife. Miss Rosa is the second daughter of Rev. and Mrs. A. D. Leach. She has been an active member of the Baptist church here for three years and is popular among a large circle of friends. Mr. Ruddick is a prosperous young man of Floydada and has a host of friends there. After the ceremony refreshments of cream and cake were served. After visiting relatives here they will leave for Floydada, and best wishes and congratulations from their many friends follow them to their new home.
Mr. and Mrs. J. D. Harris entertained Tuesday night, honoring the bride and groom. Music and games followed by refreshments of fruit and cake were the features of the evening.
LIVED ON MILK AND BREAD FOUR YEARS
Mrs. Barrett Spent Over \$1000 Trying to Get Relief From Chronic Dyspepsia.
"I told my husband that my Tanlac was out and that I just had to go to Birmingham to get another bottle, as I wouldn't be without it for any amount of money, and that is why I am here today," said Mrs. H. B. Barrett when she called at Jacobs' Drug Store in Birmingham recently to get her second bottle. Mrs. Barrett resides at Republic, Ala., a suburb of Birmingham, and is well known.
"I have taken only one bottle of Tanlac and have gained nine pounds. Yes, sir, this Tanlac has done me more good than all the medicines I have ever taken. During the past fourteen years I have spent more than \$1,000 trying to get well of a complaint that was gradually sapping my strength.
"For the past four years I have lived almost entirely on milk and bread and finally that got so it went against me. I dared not eat meat or vegetables of any kind, and if I did, I would suffer for hours afterwards.
"I had chronic dyspepsia, so I was told, and nothing prescribed for me brought any relief. I rarely ever went to the table, because even the sight of food or to smell it cooking would nauseate me. I had a bad taste in my mouth and nothing I ate tasted right. I had always been healthy and a woman who looked after her household duties, but since having this trouble I got so weak I could not do my housework and had to have help.
"I would have awful pains in my back and was nervous and could not sleep well. When I heard of this Tanlac it sounded so good I thought I would try it, because I was ready to try anything that I thought would help me. I was never so surprised in my life; it helped me right from the start. The medicine seemed to take hold right at once and I could just feel myself getting better from day to day. Before I had finished my first bottle I got so I could eat anything put on the table and could hardly

wait for meal time to come. I certainly bless the day I got this medicine, for I believe it has added years to my life. Oh! I feel so much better and sleep so much better and am not nervous like I was. Just think, I have actually gained nine pounds and feel strong in every way.
"My neighbors were as much surprised as I was and they are at my house every day, telling me how well I look. I counted up yesterday and fourteen of them are either taking Tanlac or will commence taking it as soon as they can go to Birmingham and get it. Tanlac is certainly a wonderful medicine and everybody out our way is talking about it. You can put this in the papers if you want to, because I know there are thousands of women in the same bad fix that I had been for so many years."
Tanlac is sold in Colorado by W. L. Doss, and in Lorain, by Garland & Elliott Adv.
OBITUARY.
"Twas at thy door, O friend and not at mine
The angel with the amaranthine wreath,
Pausing, descended, and with voice divine
Uttered a word that had a sound like death."
Saturday morning at 10:45 o'clock Mr. R. B. Taylor responded to his master's call to come to the home not prepared by human hands, and how symbolic of his life was his passing into the eternity. He has been in bad health since 1911, and took his bed seven weeks ago. Just a quiet folding of his hands and all struggling was over; his death, like his life, was one of peace.
Bro. Taylor was born November 29th, 1853 in Tallapoosa county, Ala. and has been in Texas 24 years, nine years a resident of Mitchell county.
He obeyed the gospel 29 years ago in Alabama, and was baptized by Bro. Henry Simpson, minister. Since then he has walked in the path of truth and has as the Apostle Peter said, to grow in grace and in the knowledge of truth as it is in Christ Jesus; trying to teach others the error of their ways in order that they may know Him and obtain life in the resurrection.
On the 14th day of December, 1875 he was married to Miss Frances Ray. Five children have been entrusted to their care. Three preceded him in death and two survive. One boy and one girl, W. J. Taylor and Miss Nettie both are at home with their mother.
Sunday afternoon services were held in the Iatan cemetery by Bro. Delosia, assisted by Bro. T. J. Graves. Beautiful indeed were the words and acts of sympathy expressed by his true friends. By those who know him best; know that his life was a good example for all to follow. We have lost a good friend, a good citizen and a man who was always ready to lend a helping hand to the needy. It is with much sorrow and sadness for us all, as well as his beloved family, to give him up.
The mortal remains of Mr. Taylor lay at rest in the Iatan cemetery while his spirit returned to God who gave it.
To his wife and children we can not ask you not to weep as there is a fleshly tie that binds human hearts together, so that when the call that comes, which must come to all, moves us from the Stage of action and leaves those that love him best behind to mourn his loss. We can only say be faithful for as he is now, we soon shall be.
For he has crossed the river,
We almost saw Him meet him on the shore,
And lead him through the golden gates
Where never sorrow or death can enter more.
He has reached before us
The safe, warm shelter of his long loved home;
He may be bending o'er us,
In quiet wonder when we too shall come.
Think how he may be kneeling
Gazing upon his master's face,
A loving, humble smile but half revealing
The perfect peace he feels in Mary's place.
Weep for those also who still must gird the heavy armor on,
Who dare not pray for rest, though sore their longing
Till all the weary, working day is done
And pray for them that they, though sad and lonely,
May still with patience bear the cross
He sends,
And learn that tears, and wounds and losses only
Make peace the sweeter when the warfare ends.
We express our greatest sympathy to his beloved wife and children in this dark hour. A FRIEND.

ONE WAR HEAD FOR ALL RAILROADS.

Railway Chiefs and Government Agree to Plan for National Board of Control.

Washington, April 11.—All the railroads of the United States—large and small—under one war management—and that management the Government of the United States.

Government operation in a night—without friction and by agreement—in all essentials of national necessity, if not in detail. Wonderful idea.

And this is not a dream or theory of possible achievement in transportation efficiency, but a realized and accomplished fact—not to-morrow or next week but now, today—operative from the moment that these lines reach the readers of the New York American.

During the entire war the railroads of the United States will be operated as one great continental railway system.

This was the agreement reached at a meeting here today of more than fifty railroad executives, representing 250,000 miles of American railroads.

A Central Executive Committee was appointed to control this continental system. Its members are:

Fairfax Harrison, president of the Southern Railway, chairman.
Samuel Rea, president of the Pennsylvania Railroad.

Howard Elliott, president of the New York, New Haven & Hartford.
Julius Kruttschnitt, chairman of the Executive Committee of the Board of the Southern Pacific.

Hale Holden, president of the Chicago, Burlington & Quincy.

Daniel Willard, president of the Baltimore & Ohio Railroad and chairman of the Advisory Commission of the Council of National Defense, will sit with this Central Executive Committee as a member ex-officio.

Thus the voice of the Government through Daniel Willard, of the National Defense Board and the Interstate Commerce Commission, creates the exact effect of Government ownership.

The newly created Central Executive Committee parallels in effect the English Board of Control. The only difference is that the British body is purely governmental, while the American Board of Railroad Control is civilian, with but one representative of the Government as an ex-officio member other than Mr. Willard, whose governmental connection through the Council of National Defense.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Try This! Your Hair Gets Wavy, Glossy and Abundant at Once.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair.

but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

LLOYDS BETS 10 TO 1 WAR ENDS IN 90 DAYS.

Lloyds, London, is wagering 10 to 1 that the war will be over in ninety days, according to a report in leading Wall Street brokerage houses.

Early in March some local interests cabled Lloyds, London, as to what they would ask on a policy covering the end of the war by September, and they replied that it was a 50-to-1 shot.

Local insurance underwriters who would know as to whether Lloyds were willing to write policies that the war would end in ninety days at 10 to 1, last week, asserted that they were not aware of the fact. They were extremely interested in the report. One of the underwriters immediately cabled London and hopes to make the reply public in a day or two.

RAILROAD SITUATION UP TO CONGRESS.

Unification of Regulation Is Essential. A Complete, Harmonious, Consistent and Related System is Needed.

Robert S. Lovett's Views.

Washington, April.—Responsibility for the railway development of the country, for providing necessary transportation facilities to care for the growing business and population of the country, now rests largely with congress and not entirely with the railroad managers. This was the statement of Judge Robert S. Lovett, chairman of the executive committee of the Union Pacific system, to the Newlands joint congressional committee when that body resumed its inquiry into the subject of railroad regulation this week.

In making this statement of the changed conditions of the railroad situation Judge Lovett undoubtedly had in mind the decision of the supreme court on the Adamson law, handed down last week, which establishes the right of the federal government to fix railroad wages and to prevent strikes. This decision is regarded by railroad men and lawyers as marking an epoch in the development of transportation in the United States.

"We have our share of responsibility," said Judge Lovett, "but it rests primarily on congress. When the government regulates the rates and the financial administration of the railroads, the borrowing of money and the issuance of securities it relieves the railroad officers of the responsibility of providing and developing transportation systems, except within the limits of the revenue that can be realized from such rates and under such restrictions.

"For a country such as ours, for a people situated as we are, to blunder along with a series of unrelated, inconsistent, conflicting statutes enacted by different states without relation to each other, instead of providing a complete and carefully studied and prepared system of regulation for a business that is so vital to the life of the nation, is worse than folly."

He summed up the present problems and difficulties of the railroads as follows:

First.—The multiplicity of regulations by the several states with respect to the issue of securities, involving delays and conflicting state policies generally dangerous and possibly disastrous.

Second.—The state regulation of rates in such a manner as to unduly reduce revenues, to discriminate in favor of localities and shippers within its own borders as against localities and shippers in other states and to disturb and disarrange the structure of interstate rates.

Third.—The inability of the Interstate Commerce Commission, wherever the commissioners may be, to perform the vast duties devolving upon it under existing laws, resulting in delay—which should never occur in commercial matters—and compelling the commissioners to accept the conclusions of their employees as final in deciding matters of great importance to the commercial and railroad interests of the country.

Fourth.—The practical legality that has been accorded conspiracies to tie up and suspend the operation of the railroads of the country by strikes and violence and the absence of any law to compel the settlement of such disputes by arbitration or other judicial means, as all other issues between citizens in civilized states are to be settled.

Fifth.—The phenomenal increase in the taxation of railroads in recent years.

Sixth.—The cumulative effect of these conditions upon the investing public, to which railroad companies must look for the capital necessary to continue development.

"We believe that the unification of regulation is essential," said Judge Lovett, "and that with the rapid increase of state commissions in recent years congress will in time be compelled to exercise its power in the premises. To unify regulation there should be a complete, harmonious, consistent and related system. We believe the best, if not the only practical plan, is the federal incorporation of railroads by general law, which will make incorporation thereunder compulsory, thus imposing on all railroad companies throughout the United States the same corporate powers and restrictions with respect to their financial operations and the same duties and obligations to the public and the government, so that every investor will know precisely what every railroad corporation may and may not lawfully do."

Judge Lovett contended that the solution of these problems and difficulties rested with congress. He told the committee that under the constitution the authority of the federal government is paramount, that congress has the power to legislate for a centralized control of railroads under federal charters and that it only remains for that body to exercise that power.

TIRES WILL BE TIRES.

And Herington has anticipated the needs of every sort, kind and size. He has the largest stock of standard tires to be found in any town twice the size of Colorado. In fact tires are his hobby next to the Ford car itself.

And by the way—he thought at one time he was in sight of catching up with his orders, but was much mistaken. He has recently been notified by the factory, that unless a prospective buyer gets in his order soon, there is no telling just how long he may have to wait for a car. Orders will be filled in ratio to the size of the selling agencies, and in regular order. These filed orders will be filled first, and the "hurry" buyer will have to wait until the factory catches up with the regulars.

So if thinking of buying a Ford car at any time soon, better file your order and deposit NOW.

And he is still selling the Cell Drop Planters, Case Cultivators, Go-Devsils and the famous Mitchell wagon—every implement a guaranteed one. Adv.

LIFT YOUR CORNS OFF WITH FINGERS.

Tells How to Loosen a Tender Corn or Callous So It Lifts Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you. Adv. 1

Texas spent \$20,000,000 on good roads last year, according to the annual report, just received from D. E. Culp, secretary-treasurer of the Texas Good Roads Association. He figures that with bond issues planned and already authorized, Texas will spend \$350,000 or more on good roads in 1917.
