### BULLY FOR ABILENE AND TAYLOR COUNTY.

From Wednesday's Abilene Reporter we take this item:  
"The county's quota of \$333,500 has been oversubscribed \$4,000, and before the week is out this oversubscription is expected to increase materially as now that the county is over the top the campaign committee does not intend to quit work, but strive to increase the oversubscription to a big amount."

This is a splendid showing of patriotism for it must be remembered that Taylor county is hard hit by the five-years drouth and not a very bright prospect for the future. The Strah for Abilene and Taylor counties. They've been going some.

### FOOD ADMINISTRATION IN CONVENTION.

Fifteen districts and 243 cities represented by food administrators the district and county gatherings of the food administrators most was convened at Houston on the Tuesday of April. Administrator Peden early had Clarence Wharton of Houston and John W. Hollowell of Washington. Herbert Hoover's first assistant presided over the convention.

### FLOWERS FOR THE AGED.

There is a sweet old lady living in our neighborhood, who has mothered a great many of her own and her neighbor's children, and though poor in worldly goods, is very rich in the affection of others. All day long people stop at her door, inquire after her health, showering a thousand little attentions upon her, which only the aged can properly appreciate. Seeing her reminds one of a splendid sermon. After a life of unselfish devotion she is made happy by the affection of young and old, rich and poor.—Ex.

### THE PUBLIC SCHOOL

The Record family is in receipt of an invitation and program to the commencement exercises of Kid-Key Conservatory of North Texas College. Also included is the graduating program of Miss Lucille Henthorne, who finishes in the department of voice. Miss Henthorne formerly lived here and her many friends will congratulate her on her graduation. Miss Lucille has unusual talent, and we predict for her unbounded success.

### WOMEN OF COLORADO ORGANIZE COBB CLUB

An Enthusiastic Meeting of the Women "Voters" Endorse Cobb.

Tuesday afternoon at 5:30 o'clock a number of women met in the Sunday school rooms of the Methodist church to organize a Cobb Club. Mrs. P. C. Coleman presided. Mrs. J. G. Merritt read the following recommendation:

"We, the undersigned citizens of Mitchell county, Texas, being in hearty sympathy with Woodrow Wilson and the National Administration, and desiring to co-operate with the same to the fullest extent, hereby form ourselves into a club for the support of the candidacy of the Hon. Zach Lamar Cobb for Congress from the Sixteenth Congressional District. We recommend him to the voters of this district for the following reasons:

"First—He favored the ten-mile zone bill and State and National prohibition.

"Second—He has always been in favor of Womens Suffrage.

"Third—He has always been a genuine, whole-hearted supporter of the National Administration; and he is thoroughly capable of rendering effective service for the whole nation as well as the district, should he be elected.

"We pledge ourselves to do everything in our power to further his election."

It was moved that this resolution be adopted, which was unanimously carried.

Mrs. P. C. Coleman was made permanent chairman, and Miss Elsie Hooper secretary.

A membership committee, composed of Mrs. D. N. Arnett, Mrs. S. H. Beal, Miss Adams and Miss Prude. Also a Publicity Committee of Mrs. Carter and Mrs. Prude, were appointed. Finances were discussed, but it was decided to wait and see what would be needed.

The following women signed the petition:

Mesdames J. W. Sheppard, Q. D. Hall, G. W. Donaldson, W. P. Garvin, O. H. Majors, J. A. Buchanan, C. E. Jackson, W. R. Morgan, A. J. Herrington, H. E. Grantland, W. P. Leslie, J. S. The meeting adjourned subject to call of the chairman. Owing to the fact that a funeral occurred at the hour of this meeting and that it was not generally advertised, not as many were in attendance as was expected, but the membership committee hope to double the list of membership in a few days.

### SALE OF WAR SAVINGS STAMPS

The Treasury Department asks every county to buy \$20.00 per capita of War Savings Stamps. Some individuals cannot do so—many can and should buy the maximum amount which is \$1000. Four months of the year is gone, and, while Mitchell county has done wonderfully well, considering the circumstances, she must keep up the good work for the rest of the year.

Through the energies of Mrs. Marcus Snyder, Postmaster Person, and several others who have pushed the sale of these stamps, some fifteen or twenty societies have been organized in the county. There has been six agents secured to sell the stamps, and up to date there has been sold \$7,102.96 worth of stamps. Mitchell county's quota is \$268,220.

### TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

### A LIE FROM THE WHOLE CLOTH.

The following press dispatch was sent out from Washington on Wednesday, and was evidently manufactured by some swivil chair, simlin headed factotum, whose wooden head was a vacuum. This is the very kind of dope that hurts the west. We do not know why this country should be lied about so frequently, and slandered in such manner, but these notices have appeared repeatedly, without any foundation whatever. Rain? Rain in this country? There aint no such animal. But we give the dispatch as sent out from Washington, which had a large caption, reading:

"Texas Cattle Saved by Today's Rain is Food Chief's Belief."

"Washington, April 30.—Reports of heavy rains today in the drouth-stricken western cattle range sections of Texas caused food administration officials to express the belief that the cattle feeding problems that last year reecesitated the removal of some 300,000 head of cattle to other states would not recur this year. So serious had been the drouth this year that Texas cattle raisers were compelled to buy practically all the feed for their livestock besides shipping thousands of head to ranges elsewhere. Today's rain is declared to be heavy enough to give new life to the ranges which have been burned up by the drouth of the last two years."

What do you know about that for a libel on West Texas?—actually accusing it of having a big rain. We would like to have the fellow who is responsible for such statements cut here in one of our fancy sandstorms, with a broken down Ford, forty miles from the nearest water, and see if he would not change his tune.

What the Bankhead Highway means to Texas—Hon. E. H. Lilley, Ft. Worth.

Attractions for tourists on the Bankhead Highway—Hon. Sam Miller, Mineral Wells.

## DON'T Slow Up Advertising NOW!

Never has there been a time when the public has looked more keenly for MERCHANDISING NEWS than now.

Never has there been a time more auspicious for the enterprising tradesman to secure HIS FULL SHARE OF TRADE than now.

People must continue to eat, to wear and to use. The tendency is to cut out luxuries, and luxuries are only a relatively small portion of your business. For every luxury cut out you have a chance to increase your movement of staples.

How short-sighted is the policy of reducing advertising expense to "save money." You will only lose trade. You will only lose prestige.

Advertise to increase sales and make more money don't cut it out to save money.

Study your advertising as you never did before—do it wisely and well.

Be prosperous and let the people know that you are prosperous.

Success was NEVER achieved by stopping advertising for by wearing old clothes and talking pessimism.

**Be Wise—and Advertise!**

### WHAT DO YOU THINK.

A woman made this remark to one of our fellow publishers:

"I see newspapers and magazines full of suggestions where and how women may save for the war and I see that most of my friends have signed the conservation pledge. Also, I take note that the average woman is figuring ways and means of saving. But I haven't seen a pledge paper circulated or signed where men have agreed to abandon tobacco in order to save for the war."

She went on: "I haven't been in any town of any size for years that hasn't a half dozen or more cigar stores. The druggists all sell cigars. Some of the barber shops sell them. All restaurants and hotels sell them. I heard a man complaining the other day that the price of cigars had gone up but I didn't hear him say anything about cutting them down on his daily allotment."

Then she shifted and led with her left: "Suppose that 10,000,000 men smoke a half dollar's worth of cigars and tobacco a day. It would take about four days' abstinence to raise that \$35,000,000 for the Y. M. C. A. wouldn't it? A Year's expenditure would mighty near pay off the first Liberty Loan, wouldn't it? And what do you men get out of it anyway—sour stomachs, ugly morning dispositions and an offensive personal stench?"

"Why don't you lords of creation do something yourselves? Why don't you have cigarless and tobaccoless days? While suggesting so much to us women why don't you organize a week of no tobacco, no downtown lunches, no treating and the like of that, and turn our money saved over to the Y. M. C. A., the Belgians, or the babies that are starving while you burn up good money for nothing except arterial sclerosis?"

Well, there it is. Somebody talk back to her!

### She Held the Fate of Kingdoms in Her Hand.

She was only a will-of-the-wisp girl, a bespangled cashier in a cafe on the Franco-German border. But she was destined for bigger things.

Fate took her from her tiny world of humdrum and threw her into a whirlpool of government intrigue and diplomacy. The hearts, hopes and lives of hundreds were with her.

Big events come thick and fast. The flavor and glamor of the war, its romances, feeling, and hidden secrets are woven into a pulsating film, gripping in its forces, and dramatically built up to maintain a high-powered suspense.

Robert W. Chambers' greatest novel, as a film drama, will hold you by its realism, color and charm.

This Vitagraph Special will be at the opera house, Monday, May 6, the admission will be 15 and 25 cents.

### CLAUDE HUDSPETH.

In this issue of the News-Record we are announcing Claude Hudspeth as a candidate for congressman for this big district.

Perhaps we should have said "Honorable Claude B. Hudspeth of El Paso," but he is just plain Claude Hudspeth to us, and "old Claude" to all the cowpunchers on the western range, so we will leave it to admiring strangers to use the more polite term.

Claude Hudspeth is too well known not only in Texas, but all over the United States for us to waste good space for us to say who he is, or what he has done during his career as a law-maker of Texas. They all know it anyhow, and from force of habit and an eye to good business, of course the people of West Texas will support him as usual.

Born and raised in West Texas and having rode the range from El Paso to San Angelo, Claude knows almost every ranch and cowpuncher within its bounds and knows their wants and knows how to fill them.

Hudspeth is not of the kid glove

### LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply For Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

variety of men, yet he can be as courtly as a prince when occasion requires, but so frank an honest is his nature, he would quit the society of the governor to greet his old pals in boots and spurs and ask him about the calf crop, how the spring clip turned out, or if there were many mule colts on the range.

He seems to have a "stand in" with the high and low, and can and will do more for us at Washington than any other man we can send, but what's the use, we are going to support him anyhow, and so are you. If you don't know him, we will vouch for him as being 100 carats fine. He is a thoroughbred and acclimated to the range and if a "grade" or "scrub" gets in the race, he is sure to get some dust in his eyes.

The above is not "political advertisement," but just plain dope without "fear of punishment or hope of reward." Without even the knowledge or consent of the candidate.—Sterling City News-Record.

Our readers will notice that the announcement of Hon. Claude Hudspeth also appears in this paper, in the announcement column. We cannot speak from the card, as can the Sterling Record, because we are comparatively "new comers" having been in the west but thirteen years; and as for the stock business, we would not know a "grade" from a "scrub," but from all indications Mr. Hudspeth will run any competitor he might have, a mighty fast race to keep in sight. At the same time he has a "foe worthy of his steel" in the person of Mr. Cobb. The Record predicts that it is going to be a close, and hard fought campaign between these estimable gentlemen.

### Best Remedy for Whooping Cough

"Last winter when my little boy had the whooping cough I gave him Chamberlain's Cough Remedy," writes Mrs. J. B. Roberts, East St. Louis, Ill. "It kept his cough loose and relieved him of those dreadful coughing spells. It is the only cough medicine I keep in the house because I have the most confidence in it." This remedy is also good for colds and croup.

Saving is a matter of habit—Get the habit.

### ROAD OF PECULIAR MILITARY VALUE.

A prominent Dallas delegate to the Good Roads convention at Little Rock, in speaking of the Bankhead highway, said:

"If finally located here I shall regard the Bankhead highway as an especially important and valuable acquisition to Texas. Congress never yet has made any appropriation to any particularly designated highways but funds from the Federal aid act have been used upon roads designated through State Highway Departments. The Bankhead Highway Association is proposing a Federal appropriation for a specific road which is of peculiar military value and importance. So far as the construction of the road in Texas is concerned, the Texas State Highway Commission has financed with the counties, either through Federal or State aid, pretty nearly the entire length of the road, 819 miles, from Texarkana to El Paso, and the commission is ready and anxious to aid in connecting up all of the uncompleted links. There seems to be great enthusiasm along the entire route. Our commission will furnish to the pathfinding committee all of the data wanted, such as maps, statistics, etc., showing the character of the road through Texas, progress of its financing, etc."

J. W. Atwood, president of the Dallas Automobile Club, said:

"It looks to me that with conditions as the are now and the possibility of our needing military roads traversing the country and paralleling our boundary lines, that the Bankhead highway is very essential because it makes it possible to communicate by road from our national capital to the border line and the Pacific coast, and particularly so since it goes through so many cantonment towns. It is really an army post road and ought to be accomplished as quickly as possible because there is no foretelling just when it will be needed for protection purposes along the Texas border line."

While the situation of the British is not all to be desired, it would be interesting to know the Kaiser's opinion of the price of real estate in Flanders.

### JUDGE EARNEST HAS ANOTHER "SAY."

Until the publication of the recent letter of President Wilson to Senator Overman, it was the belief in some quarters that the Constitution of the United States had been abrogated and repealed during the war. In the new spy bill, so-called, it was proposed to make the entire country a military zone. President Wilson put a quietus upon this bill by placing himself squarely in opposition to it, and in a letter to Senator Overman, expressing his disapproval, said among other things, "I am wholly and unalterably opposed to such legislation. I think it is not only unconstitutional, but that, in character, it would put us upon the level of the very people we are fighting and affecting to despise. It would be altogether inconsistent with the spirit and practice of America, and in view of other legislation already passed, I think it unnecessary and uncalled for."

One Senator commenting upon the proposed legislation said, "Under this bill a military escort could walk into a man's library, take him away, try him before Court Martial, and stand him up against a stone wall and shoot him for a criticism against the administration. It is dangerous legislation."

In thus placing himself in opposition to this character of legislation, the President administered a telling and just rebuke to that large class of over zealous would-have-you-believe-the-only-died-in-the-wool patriots who think the very supreme excellence of patriotism is to sit by and say nothing and let George do it.

After this fashion also President Lincoln once administered a similar rebuke. At one of the levees in Washington, during the winter of 1864, a lady said to President Lincoln: "I have a request to make of you." "What is it," asked the President? "That you suppress the infamous Chicago Times," was the rejoinder. After a brief pause Mr. Lincoln asked her if she had ever tried to imagine how she would have felt, in some former administration to which she was opposed, if her favorite newspaper had been seized by the government and suppressed. The lady replied that it was not a para-

lel case; that in circumstances like those then existing when the Nation was struggling for its very life, such utterances as were daily put forth in that journal should be suppressed by the strong hand of authority, that the case of loyalty and good government demanded it. "I fear you do not fully comprehend," returned the President; "the danger of abridging the liberties of the people. Nothing but the very sternest necessity can ever justify it. A government had better go to the very extreme of toleration than to do aught that could be construed into an interference with, or to jeopardize, in any degree, the common rights of its citizens."

After the lapse of nearly a year's engagement of this country in the great war, some courageous Senators, not being satisfied with the rosette pictures with which the country had been fed upon, opened up an investigation of war activities, and brought out some very humiliating disclosures. Inasmuch as these men were Administration men, supporters of the Administration at all times in all war measures and supporters now, it is fair to assume that they were not trying to do anything to discredit the Administration; but their purpose, as stated and disclosed, was to cooperate and help along, to find out where our war machinery was weak, with the sole and honest view of an early improvement. Yet no sooner was their work begun than it was flouted at them from all quarters, mostly from little starveling dailies and weeklys who thus hoped to fatten their batting average unto the day of a possible postoffice appointment or some other fat job—these weaklings cried out "muck-rakers."

However, at last, the voice of the country found itself through strong representative newspapers and other publications, such as the N. Y. Times, N. Y. Herald and Tribune; the Manufacturers Record, The Outlook and latterly the Saturday Evening Post, and hundreds of others who were unwilling to shut their eyes to the facts brought out in these investigations.

Now, what is the result, or call it merely the sequence if you please? We, today, have a good strong, efficient business man, Charlie Swab, at the head of the Shipping Board, a man in whom the whole country has confidence to get results. And we have within the last several days had cause to rejoice at the appointment of John D. Ryan to take full charge of Aircraft production, another captain of large business, known far and wide the country over, for tackling and putting over big jobs. Who will say that this was not the result of the expression and demand of the country after the revelations brought out in the Senate investigation. It followed closely on the heels of it, and it is now of no importance whether it was the logical result or merely the sequence. We find the much abused Investigating Committee of Senator Chamberlain and his associates vindicated, and the American people owe them a debt of gratitude.

A War Cabinet and a Munitions Director were proposed. But no, this would not do. It would be a slap in the face of the President, although both bills provided for appointment by the President, and an administration under his direction at all times.

But we find the Overman bill being put over, which in general embraces precisely the reforms contemplated in the War Cabinet and Munition bills.

With such men as Charlie Schwab as Director of Emergency Fleet Corporation, Bernard Baruch as Chairman of War Industries Board, Edward B. Stettinius as Second Asst. Secretary of War, he of the House of Morgan, with a brain like a watch, at work all the time; John D. Ryan, Director of Aircraft Production, we have a bunch of big brained civilians who will cut red tape and get somewhere.

Funny world, this. You make a suggestion today and it is ridiculously absurd and won't do at all. I make the same suggestion tomorrow, only in a little different dress and form and under another name, and it is the very essence of wisdom and superbly correct. Have we not observed that, the world over, in strong-minded people, men and women alike.

Read the last two numbers of the Saturday Evening Post, if you please, the editorials entitled "A War Bond" and "Wanted—A Big Boss." No one ever accuses Saturday Evening Post of being wildly critical, hypercritical, or critical without sufficient or adequate cause.

To my mind the citizen who knows that things are not going right in the country of which he is a citizen, a component part, and does not back up honest efforts to help remedy such conditions, but sits idly by, letting George do it, fearing he might be

charged with disloyalty. The patriot who opens his eyes to the being a patriot to his hypocritical disloyalist, deserve citizenship in a ment.

His patriotism is of dumb animal kind, and made to betake himself try where the human ed as dumb animals. Being loyal to his country to nothing unless it be political party fetishism.

As the President ver "It would be altogether with the spirit and price, and would put level of the people w and affecting to despis C. H.

### MRS. C. C. WYATT.

saddest funerals ever rado occurred Tuesday n Mrs. Maude Mills buried from her former reside now Misses Leo- ey and Nealy Mills, a sis- p-sister of the deceased. yatt was killed in an auto- cident Sunday afternoon, e, where they were living d her husband and a Mr. and ay were driving, when they o a newly graded stretch of th an opening for a culvert. yatt, who was driving, called adies that there was a bad and tried to stop, but could eck the car in time, and Mrs. t was thrown over the back of ar, the top being down. None e others were in anyway injured. s. Wyatt was carried to a sani- um and everything possible done er, but she lived only about forty ute, being hurt internally. iss Mills, her sister, left Sunday ght and returned Tuesday with the dy, which was also accompanied

by the husband and four small children.

Funeral services were conducted by Rev. W. C. Garrett of the Baptist church, of which she was a member, at 4:30 o'clock.

The beautiful songs, the comforting remarks and feeling prayers must have fallen as balm on the stunned and bleeding hearts of the bereaved loved ones. The beautiful floral offerings must have spoken eloquently of the love and sympathy of friends who gathered to do what they could for those who were left to mourn.

Mrs. Wyatt was reared in Colorado, coming here when only a baby, from Arkansas. Her mother died when she was quite small, and her sister, Neal, raised her. She grew to young ladyhood here, going to El Paso with her brother, Jim, to take up land. There she met and married her husband, Mr. C. C. Wyatt. To them were born four children, three boys and a girl, the oldest a little more than nine years, the youngest nine months.

To these little ones, bereft of a mother's love and tender care, and to the broken hearted husband, the sympathy of the entire community goes out.

Besides these loved ones Mrs. Wyatt is survived by a brother, Jim Mills in El Paso, who was too ill to come, and a step-sister Mrs. Wilson, of Mangum, Oklahoma, who arrived for the funeral.

The body was laid to rest beside her father and a sister, who had gone on many years before, to await the resurrection morn, and the reunion of the loved ones who are left to mourn. For there is a land where sorrow and heart aches never come, and there we may be forever with our loved ones.

### ODD FELLOWS CELEBRATE.

The Independent Order of Odd Fellows celebrated their 99th anniversary on Friday night, the 26th of April. The Rebekahs and a few visitors were invited to participate in the celebration with them. This was also used as an occasion to honor Mrs. Katie Doss, who was recently elected Vice-President of the Rebekah Assembly.

A fine program was carried out. Misses Irma Quinney and Hazel Cook gave several readings, which were very appropriate for the occasion. Mrs. Doss was presented a beautiful spoon from the Rebekahs and a lovely bunch of sweet peas was given her by Mr. J. D. Sherwin from the Odd Fellows.

Mrs. Nellie DeLaney who went to Waco as a delegate from the Rebekahs, gave her report to both orders. Several good talks were made for the good of the orders, after which 42 was played until a late hour. Ice cream and cake were served. Everybody said good night, wishing that these meetings might be held oftener.

### RED CROSS NEWS.

The Executive Board of the Mitchell Red Cross, met in regular monthly session Wednesday afternoon. Besides the regular routine business good reports were given by nearly all committees. The treasurer report \$303.50 in the treasury. This has been raised, notwithstanding the exceeding hard times, in a quiet, easy way, by the finance committee. Mr. A. J. Smith gave \$50; the R. A. Masons \$50; the Loraine play brought \$29, while \$35 was reported from the 42 party, and Mrs. Barcroft gave \$20. Something like \$72 was raised from the war relics train. The other came in smaller amounts. The membership committee reported fourteen new members.

Mrs. Broaddus, Chairman of the Military Relief Committee reported the canteen committee selected, registered and now ready for service; also that the eight men who left on the 26th of April and the two who left on May 1, were each remembered with a book of stamps and lunches. Mrs. J. G. Merritt, Chairman of the Extension Committee, reported an Auxiliary of sixteen members organized at Cuthbert.

Mr. King, Chairman of the Junior Work, gave a full report of that work which will be found in another column.

Mrs. Lee Jones, Chairman of Womans Work, gave good reports from all departments of the work. Owing to a delay in securing the gauze the surgical dressings workers did not get in nearly as many days as the preceding months. The hospital garments department now has four units in Colorado and one in the McKenzie community, which are doing most valuable work. The knitters are also busy and doing their part. She also reported a quota of 25 comfort kits to be made right away. The itemized report of the womans work will appear in next week's paper.

An allowance of \$1.75 was made to carry on the different departments of the work.

Dr. T. J. Ratliff, Chairman of the Civilian Relief Work, sent in his resignation as he was unable to attend the meetings or give the necessary time to the work.

The Chairman of the Chapter and the Executive Board and Mr. King were authorized to secure someone to fill the unexpired term.

### LIEUT. SLAGLE WEDS MISS LOTTIE LANDERS.

The wedding of Lieut. Hazen P. Slagle, One Hundred and Forty-first Infantry, Camp Bowie, and Miss Lottie Landers of Colorado City, Texas, was solemnized Saturday evening at 6 o'clock by Rev. E. H. Eckel, rector of St. Andrew's Episcopal Church, at the home at 1515 West Seventh street. Lieutenant Slagle's home is at Pomeroy, Ohio. Because of military duties here detaining Lieutenant Slagle, the couple will not make a wedding tour.—Ft. Worth Star-Telegram of Sunday.

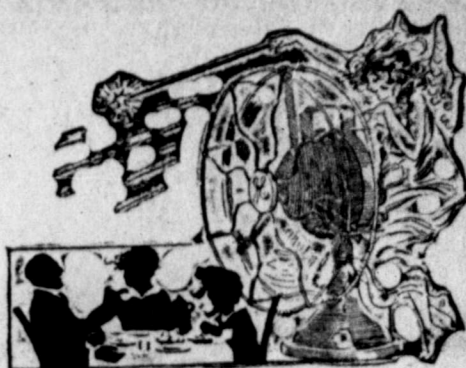

Miss Landers is the only daughter of Mr. and Mrs. H. C. Landers. She was born and reared in Colorado and is loved by all who know her.

She, in company with her mother and brother, made a visit to the border, where her brother Harry was stationed, and it was there that Cupid began his work, and he has been on the alert with his cunning arts until the modest and charming young lady yielded to his entreaties.

The Record, with many other friends of the bride in Colorado, wish the happy couple a long, happy and prosperous life.

We are now serving Shaw Brothers Ice Cream. John L. Doss, Pharmacy.

### THE CO-OPERATIVE MEETING.

The various churches of the town began a co-operative meeting last Sunday. The services are being held at the Methodist church, it being more commodious than the others. Pastors W. P. Garvin, of the M. E. Church; W. C. Garrett of the Baptist church and Guy B. Duff, of the Presbyterian church, are doing the preaching. The services last Sunday were conducted by Pastor Garrett, Monday by Pastor Garvin, Tuesday by Pastor Duff, and this order will be carried on during the time of the meeting. Two services each day are being held, at 10 a. m. and at 8:15 p. m. These men are all earnest and consecrated workers, and are holding the interest from day to day, of good large audiences. Much interest is being manifested in these meetings, quite a number of conversions already having been reported. The attendance has been good, especially at night. The large choir under the direction of Messrs Dawes and Garrett, have been giving some fine music. The meeting will go on indefinitely, and everybody in Colorado and vicinity are urged to attend these meetings, and enjoy the splendid sermons of these good men.

### THE SCHOOL BOARD ELECTS TEACHERS.

The Colorado School Board, in its regular monthly meeting, last Monday night, tendered each member of the present faculty the same position for another year. The Board, by this action, has given each teacher the strongest recommendation in its power to give, and the teachers are to be congratulated in that their work has been so highly approved. Each teacher's work has been well and faithfully done, and it is to be hoped that each teacher will accept the position again, so that there may be no changes to make.

### "Who Will Win This Battle?"

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable for 60 cents at any good drug store, or send Dr. V. M. Pierce, Buffalo, N. Y., 10 cents for trial package.

SEAGOVILLE, TEXAS.—I wish to state to those who may have rheumatism that I am 45 years old and have had rheumatism most all my life. In executing my duties as a peace officer of this state in the winter of 1910, I was exposed to some very bad weather, which brought on a very severe attack. In fact, it was so bad that I could not ride horseback, and I was compelled to abandon my duties for awhile. I then began a search for a permanent cure, which I did not find until I learned of Doctor Pierce's Anuric Tablets. I began taking them about 10 months ago and am satisfied that I am cured.

I wish to say in conclusion that I cannot be loud enough in my praise of Dr. Pierce's Anuric.—T. J. ALLEN.

**Knitting Class.**  
The knitting class will meet every Tuesday afternoon at 3 o'clock with Mrs. Smoot. The request comes from Red Cross headquarters at St. Louis, that we concentrate on socks for the present. The following directions concerning socks is copied from the Red Cross paper. "Every one must learn to knit socks. They will be needed in ever increasing quantities. The important part about them is that they should be free from knots and ridges. Do not tie yarn, but splice it by unraveling for a short distance overlapping the ends to be joined, and rubbing them between the thumb and finger. Socks may be in ivory, white or gray yarn, other dyes are injurious. They should measure at least eleven inches in the foot."

**Surgical Dressings.**  
Workers in the surgical dressings department will please notice that the gauze has come, and the work rooms of this department will be open every afternoon, except Saturday. All former workers urged to be in their places. More workers are greatly needed. Won't you come?

The New York American says: "One of the principal features of Jack and the Beanstalk, which had its premiere at the Globe Theatre last night, was the acting of the children who made up the cast, with the exception of the giant. The parts of Jack and the Princess were really marvelous. Francis Carpenter and Virginia Lee Corbin, with a total of nine years to their combined credit, proved to be actual marvels.

Jack and the Beanstalk, which is one of the newest and most beautiful of the Fox Feature pictures, will be shown at the opera house on Friday, May 3rd.

### Proper Food for Weak Stomachs.

The proper food for one man may be all wrong for another. Everyone should adopt a diet suited to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid after eating, they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect.

**ON WHEATLESS DAYS**

The title of the play, a three act comedy, was "Kicked out of College." Several parts were so cleverly done that it is a question as to first honors. All members of the cast were stars, and the play was pronounced very successful. The cast follows:

NOW is the time to buy these shares before the advance. A 20 CENT SHARE, when reaching the par value of \$1.00, HAS SHOWN YOU A CLEAR GAIN OF 500%, and when forced to the price of three fold par, affords you the opportunity to be the reaper of a PROFIT OF \$1500%. We feel certain that within the near future there will be at least an advance of from 200 to 300% in the price of these shares. SO DON'T HESITATE BUY NOW. Many of our multi-millionaires got their first hundred dollars by putting money in a saving bank, and their first million by taking it out.

### A Straight Talk to You---Read It!

Nobody can be right in everything. Every rich man leaves behind him some bad investments.

Big fortunes are a matter of chance and judgment—using judgment and taking chances.

If you have never made a mistake, you have never made anything else.

It is wise to consider a risk, but sometimes the worst risk is a failure to take a chance.

The farmer is risking a year's income when he plants his crop, but suppose he refused to take a chance?

Extreme caution has saved you the hundred dollars that your neighbor invested, and lost you the thousand he made in profits.

A penny-wise and pound-foolish policy has kept many a man a wage earner through life, while many another used judgment and took a chance that made him his own boss.

Big fortunes are not made by the four per cent route. "Safety first" doesn't mean holding your savings, but invest them wisely.

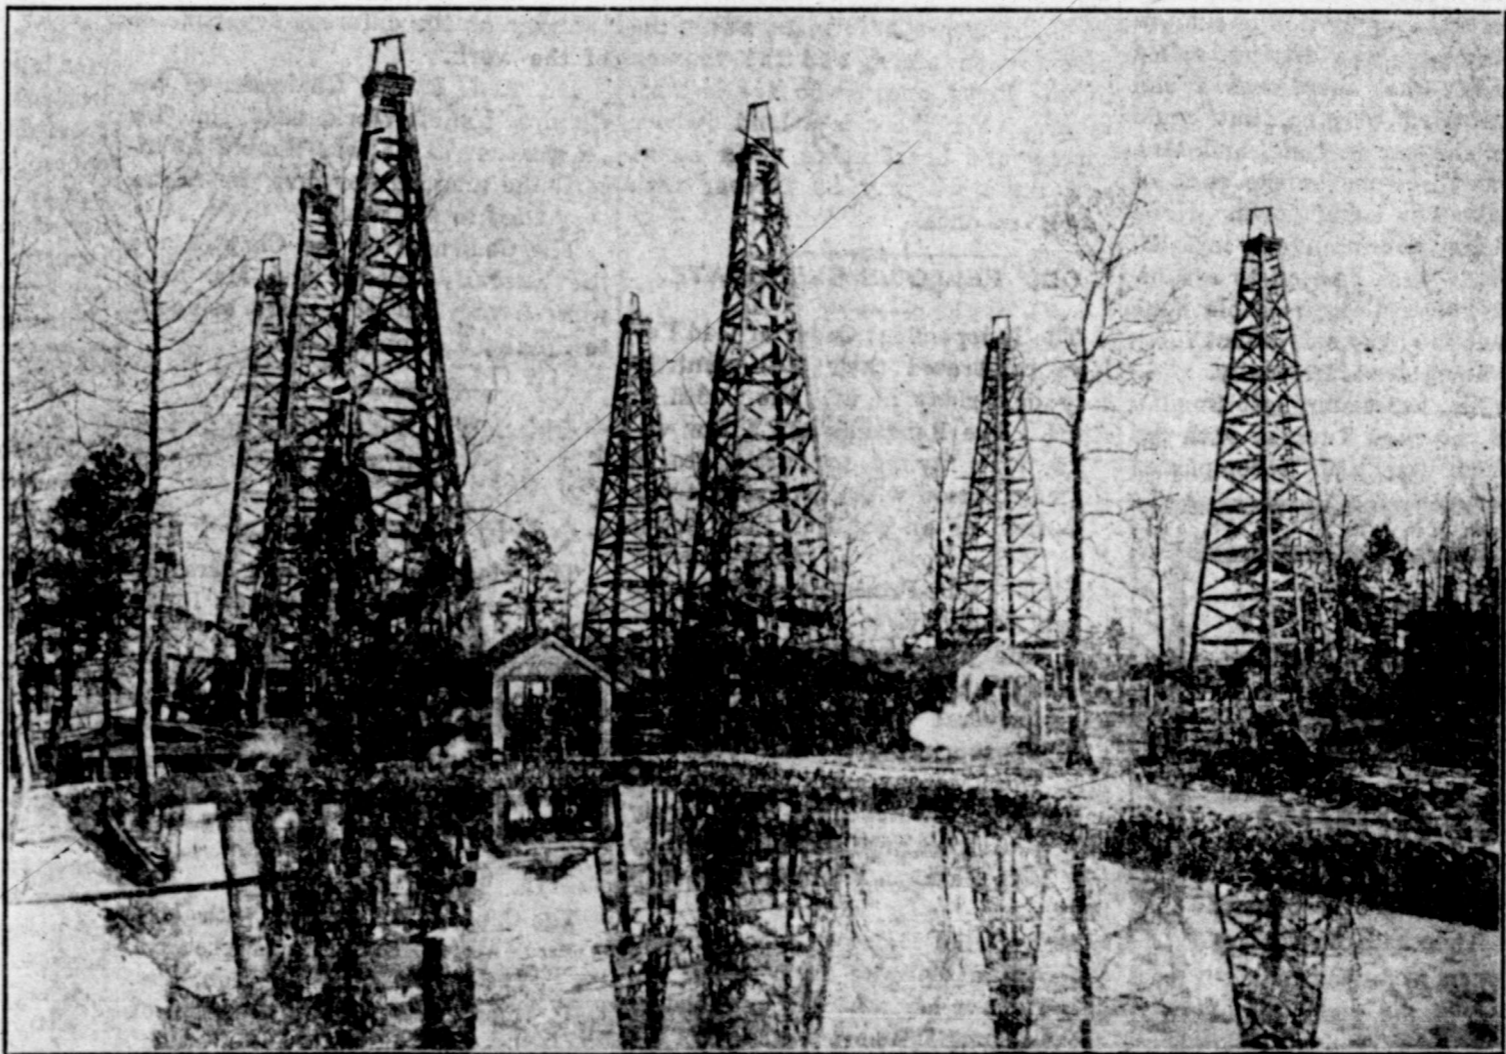

Oil is safe. Mother Earth holds millions in oil in storage. Experience, with the aid of science, has taught us where to find it and the best and quickest way to produce it.

The visible supply is rapidly dwindling, the demand rapidly increasing and the price rapidly rising.

If it were coal, steel, corn or potatoes, you would readily agree that these conditions make the investment safe, but because you once heard of a man whose grandfather took a chance in oil, but was not given a chance, you have formed the habit of thinking of oil from that standpoint.

Others have done it, why not you?

We have actual production and we want more. We believe our land is the best in the district. We eliminate the entire gamble of the Wild Cat drilling, operating only the proven fields of Texas.

#### A Sure Winning Chance of a Lifetime

For you, if you take advantage of this. If you could stand on our leases and see the big gushers filling tank after tank with the black liquid and see hundreds of drills pounding down into mother earth in these Texas fields, you would send every dollar you could rake and scrape together for your share of the waiting fortune.

#### Decide Now!

You have been thinking for a long time that you would some day invest in Texas oil. You waited for the right opportunity. You have found the proposition now that is certainly the best you ever saw for it holds both possibility of speculative millions and certain profits SURE, with actual production in proven fields.

You can surely spare \$25 or investment like this, \$50 or \$100 would not crank you much. Think what it is reasonably sure to make for you. Think of \$10 for \$1 for a year net profits. Think of the untold millions which may lie beneath the pounding of the drill in Texas fields. Join with us now. Send \$25; \$50; \$75; \$100 or \$500 if you like, to combine with the investment of Texas business men who have shown their confidence in the Petro Oil and Refinery Company.

# A Business Should be as Big as Its Job

If bigness is of benefit to the public it should be commended.

The size of a business depends upon the needs which that business is called upon to serve. A business should be as big as its job. You do not drive tacks with a pile-driver—or piles with a tack-hammer.

Swift & Company's growth has been the natural and inevitable result of national and international needs.

Large-scale production and distribution are necessary to convert the live stock of the West into meat and by-products, and to distribute them over long distances to the consuming centers of the East and abroad.

Only an organization like that of Swift & Company, with its many packing plants, hundreds of distributing houses, and thousands of refrigerator cars, would have been able to handle the varying seasonal supplies of live stock and meet the present war emergency by supplying, without interruption:

First—The U. S. soldiers and the Allies in Europe by shipping as much as 800 carloads of meat products in a single week!

Second—The cantonments in the United States.

Third—The retailers upon whom the American public depends for its daily supply of meat.

But many people ask—Do producers and consumers pay too much for the complex service rendered?

Everyone, we believe, concedes the efficiency of the Swift & Company organization—in performing a big job in a big way at a minimum of expense.

Swift & Company's total profit in 1917 was less than 4 cents on each dollar of sales of meat and by-products. Elimination of this profit would have had practically no effect on live stock and meat prices.

Do you believe that this service can be rendered for less by any other conceivable method of organization or operation?

These questions and others are answered fully and frankly in the Swift & Company 1918 Year Book sent free on request. Address Swift & Company, U. S. Yards, Chicago

Swift & Company, U.S.A.

### JUDGE LESLIE ANNOUNCES.

The Record is authorized to place in its announcement columns the name of Judge W. P. Leslie as a candidate for re-election to the position as District Attorney of this district, subject to the action of the voters in the July primary.

Judge Leslie is too well known to all of our people to justify any extended introduction or words of commendation. His good and efficient services are well known.

He is a strong lawyer—knows the law and knows how to present his case to the jurors and to the court. He is a hard worker and looks after the interest of the state in the enforcement of the law in a most energetic manner. So successful has he been as prosecuting attorney that he is recognized as one of the very best in the state.

To his good work, is due in a very large degree the suppression of crime in this district. Those who are inclined to violate the law know what it means to come in contact with him in the courts and doubtless decided to refrain from their nefarious work altogether or to seek other fields.

The district is indeed fortunate in having such a man in this very responsible position. Mr. Leslie says that if again honored with the office he will continue to render faithful and efficient service.

Last week we published the list of fifty subscribers who had paid up to that time, and enabled us to secure a \$50 Liberty Bond. Since that time and up to May 1, the following list have paid and this money all went into War Savings Stamps. So, you see you are helping win the war and helping the Record at the same time. ### ROAD TO HAPPINESS.

Be amiable, cheerful and good natured and you are much more likely to be happy. You will find this difficult, if not impossible, however, when you are constantly troubled with constipation. Take Chamberlain's Tablets and get rid of that and it will be easy. These tablets not only move the bowels, but improve the appetite and strengthen the digestion. Adv.

If by tears or pleading or argument it is possible to swerve a man from his duty, to interfere with his absolute right to do his duty, it may be that in this way his life will be saved—but such a life is not worth saving.—Mothers Magazine.

You remember the story, how one (the pessimist) gloomily croaked "Here's my finish" and sank like a plummet to the bottom and how the other one (the optimist) cheerfully chirped "Well, as long as I am alive, I might as well keep moving" and swam and swam and swam, kicking his feet to such good effect that presently he made for himself a pat of butter big enough to spring to safety.
