## TO ARMS, CITIZENS!

The immortal words of the French battle cry of freedom ring out again today to the American nation.

We are called upon to take up arms and fight to the death - if need be - for freedom, Justice and Those Things that make life worth living.

In this profound crisis is the test of citizenship.

The highest form of duty is to fight with our armed forces - to have enough to eat, enough to wear, a few dollars in your pocket, and to devote the balance of your earning power - your life if need be - as an offering to your country.

The next best form of duty is to stay at home and produce - allowing yourself enough money to purchase the bare necessities of life and to conduct business, essential to the war, and to devote the balance of your earning power to your country in the form of subscriptions to Liberty Loans.

One or the other duty you must assume.

If you can bear arms you will do so.

If you are unable to bear arms you will supply the money and material for those who can - you will enable them to bear your arms for you.

**TO THE PEOPLE OF MITCHELL COUNTY**

This to call your serious attention to the fact that we are again called upon by our government to buy Liberty Bonds.

The government knows of the financial condition of our section; yet let us not for a moment conclude that we are, for this reason, not expected to do our part in this great work to win the war.

The arguments are all over; you know your duty. Buy until you know you are making a sacrifice such as you never felt before in your life. But would it not be better not to call it a sacrifice, but a glorious privilege.

P. C. COLEMAN,  
Chairman Mitchell County.

**DID YOU DO IT?**

An oasis in the desert of my experiences was when I went to the bank a few days ago and found that some kind friend had gone there and paid up my Liberty Bond in full, leaving word for me to ask no questions. The people of Colorado are so exceptionally kind to me that I hardly know how to express my great gratitude, I feel so unworthy of such kindness. But I want each one to know that in my heart I thank you and do constantly pray for you and your every interest, and also pray that I may be of greater help to you in spiritual matters.

I crave your presence at every service in the church that I may be of yet more service to you.

With love toward all.

W. C. GARRETT,  
Pastor Baptist Church.

We fit your eyes with spectacles and guarantee them to give satisfaction—J. P. Majors.

**LEMON JUICE IS FRECKLE REMOVER**

Girls! Make this Cheap Beauty Lotion to Clear and Whiten Your Skin

Squeeze the juice of three lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless. The most unhappy of all men is the man who cannot tell what he is going to do, who has got no work cut out for him in the world, and does not go into it. For work is the grand cure of all the maladies and miseries that ever beset mankind—honest work, which you intend getting done.—Thomas Carlyle.

**RED CROSS ACTIVITIES**

**Important Notice!**

The Surgical Dressings Department is now open three times a week, Mondays, Wednesdays and Fridays from 3 to 6. We are needing workers. The Red Cross is making an urgent call for pads and it is our duty to meet this call. If possible please give some of your time to this work. We wish to thank Mr. Ruyyan for his services in making the shipping box for this department. Ch'mn. Surgical Dressing Dept.

Eight more day nurseries in the Veneto district have been taken over by the American Red Cross. These institutions care for 1,200 children. Several of them were about to close

for lack of food and facilities when the American Red Cross offered aid. The mothers of the children are employed in munition factories while the fathers are at the front.

The American Red Cross has opened warehouses in Copenhagen, Denmark, and in Renens, Switzerland, in which food, clothing and other supplies will be stored for American soldiers taken prisoners by the Germans. In each warehouse food supplies to maintain 5,000 soldiers for six months, should that many be taken prisoners, will be stored. The warehouses at Renens is supplementary to the one at Berne, Switzerland, which has been supplying imprisoned Americans with a twenty pound package of food weekly, since the first one was captured.

Red Cross information and rest houses will be erected at all the big cantonments for the convenience of relatives visiting sick or convalescent soldiers. In most instances the base hospitals are built in such fashion that it is difficult for relatives to find wards in which ill soldiers are being

treated and to eliminate this the Red Cross will supply guides.

In the effort to obtain garments to clothe 10,000,000 people in occupied France and Belgium this winter, the American Red Cross will conduct a drive for old and discarded clothing the week of September 23rd (this week). While it has been estimated that at least 10,000 tons of garments will be necessary, the Red Cross hopes that at least 5,000 tons will be collected during the week. Every kind of garment for all ages and sexes is needed. H. C. Hoover, chairman of the Belgium Relief Commission, in a cable to the Red Cross, said that millions of men, women and children are facing shame, suffering, disease and some death, for a lack of clothing this winter. Flimsy garments, ball room dresses, high heeled shoes, etc., will not be accepted. The garments wanted are those that will give the most service and keep the people warm.

The American Red Cross will have expended \$2,000,000 in Switzerland for war relief by January 1, next, says a report just made public by the War Council. Of the money about

expended, \$125,000 has been given the Swiss Red Cross to aid it in the work of caring for refugees, and \$75,000 has been given the Swiss Government to aid in the care of interned Russians. The American Red Cross is expending money directly by aiding crippled soldiers passing through Switzerland and in aiding refugees and stricken civilians.

**GREEN'S AUGUST FLOWER**

has been a household remedy all over the civilized world for more than half a century for constipation, intestinal troubles, torpid liver and the generally depressed feeling that accompanies such disorders. It is a most valuable remedy for indigestion or nervous dyspepsia and liver trouble, bringing on headache, coming up of food, palpitation of heart, and many other symptoms. A few doses of August Flower will relieve you. It is a gentle laxative. Sold by W. L. Doss; 20 and 90 cent bottles. Adv

Come to us when it comes to glasses.—J. P. Majors.

The war activities of the University of Texas have progressed until they are now far greater than those of any other educational institution in the United States. This statement is borne out by the official records of the universities and the colleges in the matter of training men for the army. President R. E. Vinson of the University since the declaration of war has devoted his time and energy constantly toward building up a military training establishment here. Many of his ideas along these military educational lines have been adopted by the War Department and are now in practice by educational institutions over the country. It is stated by Dr. Vinson that notwithstanding the big scope of its military schools all departments of the University will be open and conducted as usual at the coming regular session. There may be a modification or re-adjustment of some of the courses to meet existing war conditions. The constructive ideas of Dr. Vinson which paved the way to the establishment of the different military schools at the University met with the hearty support of the Board of Regents of that institution. He devised the plan by which an expenditure of nearly \$1,500,000 will have been made for buildings and equipment for these military schools, reimbursement for this expenditure to be obtained from the Federal Government by the feeding, housing and instruction of the students by the University.

The latest addition to the military vocation schools of the University will be situated just south of Austin upon a tract of 310 acres of land, where there is now being erected an administration building, six barracks buildings and a mess hall. All of these will be of brick construction of permanent type. They will be occupied by the Radio School which the University is now conducting. Besides these buildings four hangars for airplanes will be erected. The cost of the improvements will be approximately \$450,000, it is stated. This will be borne by the University which will be reimbursed later by the

Government for the outlay. The Radio School of the University was established several months ago and has been conducted in the Engineering Building of that institution. When the new plant is finished the attendance will be increased from 400 to about 4,000 and the course of training will be enlarged.

In addition to this war work, the University recently completed the construction of a number of brick barracks buildings at Camp Mabry, Austin, for the accommodation of the School of Automobile Mechanics, which it is conducting for the Government. These buildings were erected at a cost of about \$500,000, and plans have just been adopted for the enlargement of the School by additional buildings and equipment, which will cost about \$130,000. The attendance at the School of Automobile Mechanics is now about 3,000 and it will be increased to about 6,000 when the new buildings are finished.

The University is also conducting a school of Military Aeronautics, with an attendance of about 1200, for the Government. It expended \$167,000 in buildings and equipment for that school. Advances just received from Washington are to the effect that the School of Military Aeronautics here is to be greatly enlarged. This may necessitate the erection of additional buildings by the University.

A tree plant to cost \$50,000 is to be built at that school.

The University has also taken over the Theological Seminary at Austin and is converting it into a modern military hospital at a cost of about \$100,000. Besides its other war work the University will conduct a Students' Army Training Corps, beginning with the opening of the coming regular session of that institution. More than 2700 students and former students and about fifty members of the faculty of the University are in the army. Most of them are already in France. Several hundred of these young men went through officers' training corps and received commissions as officers.

**CORP. W. B. MAXFIELD WRITES FROM FRANCE**

He was known here as Willie Maxfield and is the son of A. B. Maxfield and was a Colorado volunteer, and only 21 years old. He says:

"Well, we landed safely and am feeling fine. Was sick while on the water, but as soon as I landed I felt o. k. Take it from me I was certainly glad to see land.

"I have seen some wonderful sights. This is a beautiful country, considering the condition of things. Everything is green and there are lots of trees, where we are camped. They have no fences, but have high banks around the fields, covered with bushes and trees.

"The women work in the fields, and, for God's sake don't kick about what you have to eat and wear. If you were here you could see for your self the condition of things, and what the French have to eat and wear. The people in the States don't realize what the war is, but if they were here they would soon find out.

"Everybody here seems to be glad to see us come in. Believe me the boys who are here now will know how to appreciate a home when they get back to the old U. S., especially the boys who were never away from home much. Will write again soon. Don't worry about me, for I will take good care of myself.—Corp. Wm. B. Maxfield, Co. B, 111th Am. Tr., A. E. F.

E. W. Ross writes from Camp Sheridan in Alabama, and says:

I am still at Headquarters Co., assigned to signal corps, and like it fine. Our officers are more like those at Camp Travis, so strict as to our appearance and careful about everything. Quite a bunch of Texas boys here, so that helps some. Getting more to eat here; have gained six pounds. Heard a talk by a Lieutenant, back from France; wounded five times. He told us what we would be up against.

We had an entertainment at the "Y" last night, by a crowd of Alabama girls. Singing, playing and reading; it was just fine. We have about three crowds a week, doing something, besides pictures once a week. Some of the boys are singing or playing when there is no one else to do it. Have several good pianists in our Company. We are out at the Rifle Range this week. Started early Sunday morning, arrived here about noon. Its about ten miles out. We ate a lunch about 10:30; had a pleasant walk as it was cool and cloudy. Pitched our tents, then had our feet examined, and those that had blisters were fixed. Our tents are little dog tents, we call them, made large enough for two. They are made of rubberized cloth, about 5x6x3, are in two parts; each man carries his half, pole and five pegs; also two blankets, change of underwear, towel, soap, shaving outfit, two pairs sox, quart of water, candle, mess kit, tooth brush, and gun—think that's all—it all weighs about 50 pounds, I think.

We have had only practice shooting so far, at all distances, and positions in and out of the trenches.

There is some noise around here when this bunch gets started. We are given ten shells, at each 50, 100 and 300 yards. I made 126 points out of a possible 150. This is not a record test. We have it tomorrow, and hope I can do still better. This Betsy puts one just where you hold it, but has a kick about like a shot gun; my shoulder is a trifle sore.

All I want is a thorough training so when I do get the chance I'll be able to meet what comes.

I crossed the river Jordan Sunday; it is about half a mile from here and a big bunch goes swimming every night. Keep sending the Record.

E. W. Ross. Hq. Co. 67th Inf. Camp Sheriada, Ala.

**FELIX JONES TAKEN TO DALLAS FOR TRIAL**

El Paso, Sept. 20.—Felix Jones, convicted here of the murder of Thomas Lyons, wealthy New Mexico cattleman, and sentenced to 25 years in prison, was released yesterday on \$10,000 bail, pending action on his appeal, which is pending in the Court of Criminal Appeals at Austin, but was immediately rearrested and taken to Dallas where he is under indictment in connection with the alleged train wrecking and the killing of Miss Florence Brown of Dallas.

**SPECIAL BULLETIN.**

The banks of Colorado have received the following advice concerning the draft:

"The Provost Marshal General has ruled that banking is an occupation necessary to the maintenance of the national welfare; and that skilled officers and employees of banks may claim exemption or deferred classification, under the new draft law, on the ground that their services are vital to the continuance of the business in which they are engaged.

"The Provost Marshal General states that waiving the right to be placed in a deferred classification is a mistaken act of patriotism. He urges every person affected by the law to state frankly and honestly his exemption status, as by so doing he will aid materially in the task of classifying registrants.

"Therefore, bank officers and employees whose services are essential to the business should not hesitate, for fear of criticism, to claim exemption or deferred classification on occupational grounds. To do otherwise would be a hindrance rather than a help at this time."

In defining the word Kultur a learned lexicographer gives it thus: "The nearest equivalent to the word kultur in English is "efficiency." Just what kultur is can be explained by Karl A. Kuhn, one of its chief exponents: "Must Kultur rear its dome over mountains of corpses, oceans of tears, and the death rattle of the conquered? Yes, it must. The might of the conquerer is the highest law before which the conquered must bow." Another gentle Hun, Bronsart von Schellendorf, is quoted as saying: "Do not let us forget the civilizing task which the decrees of providence has assigned to us. Just as Prussia was destined to be the nucleus of Germany so the regenerated Germany shall be the nucleus of future empire of the west. And in order that no one shall be left in doubt, we proclaim from henceforth that our continent nation has a right to the sea, not only to the North Sea, but to the Mediterranean and the Atlantic. Hence, we intend to absorb one after another all the provinces which neighbor Prussia. We shall successively annex Denmark, Holland, Belgium, Northern Switzerland, then Trieste and Venice, finally Northern France from the Sambre to the Loire. This program we fearlessly pronounce. It is not the work of a madman. The empire we intend to found will be no Utopia. We have ready to hand the means of founding it and no coalition in the world can stop us." It is against this sort of kultur that the allies are arguing with all the weapons of civilization and war.

**STATE PRESS AND WEST TEXAS DROUGHT**

State Press in the Dallas News, in commenting on an article in the Baird Star about West Texas Says:

"West Texas, by which is meant that part of the West which not infrequently experiences a year's drouth, and at this time is still under the affliction of a three-years' drouth, must sooner or later become either a country of cattle and sheep ranges, as was once the case, or a country of small farms under irrigation. To hold out to newcomers the assurance that this portion of the West is adapted to successful farming under the average rainfall, and to sell them land with that assurance, requires either an adamant faith in meteorological miracles or a robust hardihood. The portion of the West which we are speaking of has never been and will never be a safe farming area until it shall become an artificially watered area. This is not an impossible aspect. There are times when great volumes of water fall on the plains, as may be observed from the numerous erosions. Irrigated farming is beautiful and, if the water is not too expensive, ordinarily very profitable. But the evaporation is so great on the plains that farmers of ordinary means very likely will never be able to provide facilities for storage which will justify large acreages of tilled lands. West Texas was a great country in the days of the big ranges and the great herds, the cowboys and the long trails. The plow has disturbed much of what used to be in the West. The cattle business, to be sure, has suffered very severely in this drouth, but it is more mobile and resilient than the farming business. It can move faster and come back quicker."

Among the learned things in the above quotation from State Press, he says: "West Texas, by which is meant that part of the West which not infrequently experiences a year's drouth, and at this time is still under the affliction of a three-years' drouth, must sooner or later become either a country of cattle and sheep ranges, as was once the case, or a country of small farms under irrigation."

As to the necessity and desirability of irrigation in West Texas, and for that matter in any part of Texas, we are in entire agreement with State Press; and it is just such seasons as the past two or three which have not been peculiar to West Texas alone, which abundantly prove that where storm waters can be stored for irrigation, the opportunity to do so should not be lost sight of during the good years.

While all of this is true, we must take issue with State Press that even with the experience of the last several years, West Texas, by which we understand State Press in his strictures embraces a very large portion of the State, is not prepared to return to a "country of cattle and sheep ranges."

State Press must know, and if he does not know, may ascertain, if he takes the trouble to inquire of any long-resident of West Texas, whether it be of a cowman or a nester, that when seasonal conditions are as bad as they have been during the years 1917 and 1918, West Texas is no more a cattle and sheep range than it is a farming country. This is abundantly proven by the dearth of cattle and sheep on the ranges of West Texas during these two years. It is a well-known fact that cowmen during the past several years have not depended on West Texas pastures, but have shipped them here and yon, wherever they might find grass for them—to Kansas, Oklahoma, Wyoming—keeping on their home ranges only a very limited number, and in a great many cases none at all. It is a matter of very common observation to be driving along a country road, with cotton or feedstuffs in fairly good condition on one side of the road, and on the opposite side, given over to pasture, not sufficient grass to be regarded as pasture for livestock.

State Press also says that "the cattle business is more mobile and resilient than the farming business. It can move faster and come back quicker." In this statement S. P. again shows his ignorance of both farming and cattle raising. The farmer has of course lost his time, labor and in most cases his seed but his capital (the land) is just as good as it ever was, and is worth just as much money; and with one season the farmer can make a good crop and be back where he started. How about the cattle man, who, in many instances, spent the value of his cattle for feed, and then perhaps had to sacrifice them on the market. How long will it take him to restock his ranch? If he goes in with a few head and depends on the increase it will take him years to get back to the starting point. He is in the worse condition of the two, because his time and labor have been lost and his capital also is gone.

State Press reminds us that "West Texas was a great country in the days of the big ranges, and the great herds, the cowboys and the long trails. Does State Press remember the drouths of 1886-1887, and of the year 1894, and that what few herds were left intact after these drouths, came through only by reason of being removed to localities of less severity, and the result of the drouths of these years was countless bankrupt cowmen."

And while we are on the subject of drouths during the past several years, it is well to call to mind that West Texas alone has not suffered. Without wishing to make any invidious distinctions it is not to be supposed that the rich counties of Williamson, Bell, Travis, Hill, McLennan, Parker etc, would be classified as a part of West Texas. Get the production figures on this rich territory during the past two years, in fact look over the figures of some of the East Texas counties, and it will be seen that the drouth area is not confined to West Texas alone.

We have had these seasonal drouths and will have them again, it is to be hoped not in such quick succession hereafter. And yet we have not found it desirable, nor will we, to return to the era of big ranges.

State Press is taking frequent occasion to berate the west as a farming country. He declares that it will never be worth its tallow as a farming country until irrigation becomes general, and he doubts the possibility of any very successful irrigation project in the west. In other words, he does not think the west is worth a continental whoop for anything but the raising of prairie dogs and longhorn cows. S. P. takes advantage of the drouth that prevails here and has prevailed for more than two years to spread his damaging propaganda. State Press either knows very little about the west or else he is prejudiced against it.

West Texas is designed to be a combination farming and stock country. And ordinarily it is fine for both. The raising of feedstuffs here adds greatly to the livestock industry.

Ordinarily the feed that a man will raise on one acre of land will equal in value the grass that would grow on four or five acres. State Press ought to know this. He ought to remember that the present drouth is unprecedented. Nothing like it has happened before within the memory of the oldest settler, and nothing like it may happen again for a half century. He should not judge the west by this calamity that has befallen it, regardless of the many years of plenty and prosperity that have gone before. West Texas is a great country. And it is going to "come back" and flourish in spite of the ill opinion which State Press and some others entertain in respect to her.

**CALLED DOWN.**

A few weeks ago we tried to inform our readers about the river Rhine. We said it flowed almost through the center of Germany. Now comes Hill in the Roscoe Times and says:

"All of which goes to show that even an editor should not be expected to know everything. It has been a long, long time since the Record pencil pusher was a school boy and he has evidently forgotten some things about European geography. He is doubtless more familiar with the meandering of the Colorado and the Concho, on whose classic banks he has laid the foundation of many thrilling fish stories, than he is with the course of the historic Rhine. The Rhine river neither rises nor sets in Germany. It enters Germany at the extreme southwestern point, bites off a comparatively tiny bit of Hunland along the western frontier, and then makes it way through Holland to the sea. While it lies 75 or 80 miles along the Belgian boundary line along much of its course, it is almost 300 miles as the crow flies from Berlin to the nearest point on the Rhine, and it is 800 miles from the Rhine to the extreme eastern boundary of the German empire. It does not pass anywhere near the center of Germany. We usually think of it as a strictly German river, but it has its source in Switzerland and its mouth in Holland. It may be that the editors of the Record and of the Times will have an opportunity to study German geography at closer range before this war is over. Won't it be interesting?"

Hill is an attorney and may be learned in law, but is short on German geography. The Rhine does not flow into the sea, but is swallowed up or sinks into the sands of the Netherlands coast. Canals have been made to carry part of the waters to the North sea.

The discovery of an ancient bacon rind in our pantry last week brought forth memories of "them good old times" when bacon was cooked with beans.

**CLOCKS WILL BE TURNED BACK HOUR ON SEPT 30**

When you retire on the night of Sept. 30, set your clock and watch back one hour, as the United States will revert to normal times on October 1. The daylight savings plan has been in effect in the country since April 1, but old, or sun time, will soon be in evidence.

The setting ahead of the clock one hour on April 1, was done to give the people one hour more of daylight and also to conserve fuel for illumination purposes. With the approach of winter, however, and the days becoming shorter, it will be necessary to turn the clock back one hour, and this will be done on the date above designated, September 30.

**ROAD WORK.**

The Mitchell county teams are again at work on the west end of the Highway. Work was temporarily suspended, waiting for the State and Federal money. Fourteen miles of the road has been completed on the east end except the concrete bridges, and these are being put in as fast as material can be secured. The Highway from the east city limits to the Nolan county line is one of the best roads in all of West Texas. The road west to the Howard county line has all been graded and teams are now putting on the gravel. In some places, where it is too far to haul the gravel, crushed rock is being used. The State Highway inspector was here and passed on the finished part of the road, pronouncing it first-class and the work will be pushed until the west end is completed.

County Engineer, O. Leonard, has promised the Record an official report, which he expects to get up and have published in a week or two.

**BARNUM & BAILEY CIRCUS IS COMING.**

Greatest Show On Earth Will Soon Exhibit in This Vicinity.

Once again the glad tidings are being spread broadcast telling of the coming of Barnum & Bailey's circus. The greatest show on earth, it is announced, will positively be exhibited (easy traveling distance, this season and, as usual, a large per centage of the population will declare a holiday to visit the show.

The big circus will exhibit in Abilene on September 28th.

It is promised that nothing to compare with the present Barnum & Bailey performance has ever before been seen under canvas. New and novel features have been imported from abroad and a program of events thrilling, educational and screeningly funny, will occupy every instant in three rings, four stages, the riggings above and the hippodrome surrounding for more than three hours.

There is a new and gorgeous pageant entitled, "Aladdin and His Wonderful Lamp," in which nearly 1,400 persons and one thousand animals appear in magnificent costumes rivaling the dress of the people of the famous "Arabian Nights" story. This will be followed by a host of acts in all parts of the great enclosure. There will be sixty clowns, a greatly increased menagerie of wild and untamed animals, four great herds of elephants, several caravans of camels and many recently born baby animals.

Let's get together by you paying your subscription a year in advance.

**A LONG CONTEST.**

Let us sing the long-meter doxology, "Praise God from whom All Blessings Flow," as we rejoice in the battles won by England and France and America, but do not let us for one moment delude ourselves with the thought that we are in sight of victory. Germany is still unbeaten and can fight on for a long, long time.

We are making a mistake when our army officials so glibly promise peace in 1919. For four years our allies made similar mistakes, and from the false optimism thus created there came many hours of pessimism.

Under the blessing of heaven, victory might come to us in 1919, but we do not believe that by that time Germany will be sufficiently beaten to admit defeat.

Every foot of ground from the battle line of today to Berlin will have to be won by hard and desperate fighting, and every new line of defense from the Rhine to Berlin will be defended by seemingly impregnable fortifications by the desperate struggle of murderers who, knowing that defeat will mean death to Germanism, will fight unto death itself.

While glorying in what has been achieved, let us not for one moment think we are in sight of the end. Germany will do all in her power to create the impression that we can win, in order to lessen our preparedness for fighting.

Even if Germany admitted defeat, don't believe her, for it is a nation of liars and will keep on lying to the end and the only defeat we should recognize is when the flags of all the allies in triumph float over the palaces of the whole "Potsdam gang," and over Vienna and Constantinople. On to Berlin!—Manufacturers Record.

The State of Texas:

To the Sheriff or any Constable of Mitchell County, Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell County, a copy of the following notice:

The State of Texas: To all persons interested in the Estate of L. M. Helton, Deceased, J. M. Helton has filed in the County Court of Mitchell County, an application for the Probate of the last will and Testament of said L. M. Helton, Deceased, filed with said application, and Letters Testamentary, which will be heard at the next regular term of said Court, commencing on the 3rd Monday in October, A. D. 1918, the same being the 21st day of October, A. D. 1918, at the court house thereof in Colorado, at which time all persons interested in said estate may appear and contest said application, should they desire to do so.

Herein fail not, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Colorado, this 25th day of September, 1918.

Judge J. H. Bullock returned home Wednesday from a meeting of the United War Works committee at Dallas. He being county judge was summoned to attend this meeting and was made county chairman for Mitchell county. There are several different organizations, all pleading funds to help win the war and President Wilson asked them to write and raise only one fund of three million dollars for Texas. It was for this purpose the meeting was called.

The drive for these funds will be begun Nov. 11 and continue until Nov. 18, during which time in the United States the sum of \$170,500,000 must be raised.

Judge Bullock will organize the county at once and start the campaign.

**Health About Gone**

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

**TAKE CARDUI The Woman's Tonic**

She writes further: "I am in splendid health. . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

### MISSION STUDY CLASS.

The Baptist Mission Study Class met last week with Mrs. C. H. Lasky. The subject was Associational Missions, led by Mrs. T. J. Ratliff. After a bible study on the King's business, the program was on the work of Sweetwater Association. Mrs. Keathley gave an interesting account of the early history of the association. Many of the early workers are still faithful workers in God's kingdom. Mrs. Whipkey told something of the present work and Mrs. G. W. Smith told of the woman's work. The offering went to Associational Missions. The pastor was an appreciated guest, Mrs. Lee Jones and Mrs. C. H. Lasky were elected to be on the program at the Association to be held at Sweetwater in October. At the social hour the hostess and her daughter served sandwiches cake and tea. The next meeting is with Mrs. Lindley.

### MISSIONARY SOCIETY.

The Missionary Society of the M. E. church met at the church Monday afternoon. The program was on Social Service. This was followed by a debate; resolved the Sabbath laws should be erased from the statute books. Mrs. Garvin had the affirmative and Mrs. W. P. Leslie the negative. Mrs. W. L. Doss and Mrs. Lambeth were the judges and they decided for the affirmative. The dues and pledges for the quarter were encouraging. They decided to study the New Home Mission book, beginning in October, with Mrs. Garvin teacher. Mrs. Merritt gave an interesting report of the district meeting recently held in Lubbock.

### TO ELECT RED CROSS OFFICERS

Wednesday evening, October 23, at 8 p. m., there will be a mass meeting of the Mitchell County Red Cross at the M. E. Church, for the purpose of hearing annual reports and electing officers for the ensuing year. Let every member be there.

### GREAT DAY WITH METHODISTS.

Sunday a week ago was a great day for the Methodists here. At the morning hour after an inspiring sermon by the pastor, the babies of Mr. and Mrs. Sam Wulfjen and Mr. and Mrs. Frank McLure of Lincoln, N. M., but who spent their childhood here and were married at this place, were baptized. Also Mrs. Floyd Beall, of Lubbock and Miss Nell Ruth Arnett, youngest daughters of Mr. and Mrs. D. A. Arnett, were received into the church.

### COLORED PUBLIC SCHOOL.

The school board announces that the colored public school will open up for the term on next Monday, Sept. 30th. The same teacher as last year has been employed and as she has given perfect satisfaction the past several years, this school promises a successful term this season. The colored people are urged to have all the children in the school on opening day—next Monday.

### WOMANS COUNCIL OF DEFENSE.

The Colorado unit of the Woman's National Council of defense met at the M. E. Sunday school rooms Tuesday at 5 p. m. A good crowd was in attendance. Mrs. Maddin, Mrs. D. C. Byrne, Mrs. Riordan, Mrs. Byron Byrne and the Misses Riordan enrolled as new members. Mrs. J. L. Shepherd read interesting and instructive extracts of some of the things the government is doing. Nearly all other chairmen had received literature from their special departments, which they hoped soon to use. The chairman made a talk on the Y. W. C. A. work, after which Miss Coleman told in a most interesting way of the hostess houses in America. Miss Nellie Riordan told of the wonderful work done by the Y. W. C. A. hostess houses in France. The next meeting will be given entirely to Liberty Bond work, which will be at the M. E. Church, October 8th at 4 p. m. Mrs. Merritt, county chairman, will have charge of the meeting. Miss Garland of Loraine will make an address on Liberty Loan Bonds. One minute talks on the best reasons for buying bonds will be given by Mesdames J. L. Doss, P. C. Coleman and A. L. Whipkey. Every woman is urged to be there whether you can buy a bond or not; the inspiration of your presence is needed.

### MOONLIGHT PICNIC.

Last Friday night the Juniors and Seniors of the high school, went for a moonlight picnic at Seven Wells. They were chaperoned by their teachers. A ramble over the rocks, supper, songs, and the ride home completed the program, and a most enjoyable evening for these young people was had.

### People Speak Well of Chamberlain's Tablets

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good.

### NEW MANAGER.

Upon transfer of Miss Minnie Bellah who was manager of the local offices of the Southwestern Telephone Company at this place, to the traffic department at Cisco, Mr. Grayum of Snyder was sent here to take her place and resigned the position to take military training at A. & M. Since his departure Miss Lucy Bozeman, chief operator, has been in the manager's office. She says however that she is holding down this job temporarily, until some one can be found to take the place. If Miss Lucy is not permanently retained, the patrons of this company would like to see Miss Bellah sent back here, as her services were not only satisfactory to the company, but highly so to their patrons. The patrons were notified this month to call at the office to pay their phone bills, instead of having some one to call for it as heretofore.

Everett Winn and J. L. Pidgeon left on Wednesday, headed east, and when last heard of were in Cisco playing the oil game.

### COTTON REPORT.

Up to Thursday morning Colorado had ginned 215 bales. Loraine reports 165 bales, making 380 bales for the county. Estimated one-third of the crop gathered. None selling this week on account of no market, caused by the price-fixing talk at Washington. Seed selling at \$61 per ton. The public yard here has weighed 205 bales.

### 67th ANNIVERSARY.

Monday night was a red letter hour for the Rebekah Lodge, being the 67th anniversary of its organization. The event was properly celebrated at this place with a program of music, readings, addresses and games. The orchestra furnished music during the evening. Misses Hallie Roddy and Irma Quinney gave readings. Misses Ethel Dyas and Jessie Schroeder sang a duet. Mrs. Canada sang a song dedicated to President Wilson. "Our Wilson" which was much appreciated. Mrs. W. L. Doss, State Officer, told of the purpose of the meeting, and meaning of the Rebekah order. Mr. E. F. King gave the history of the Rebekahs in such a manner that made all feel glad she belonged to this noble order. Having one of their number in France, Miss Kate Justice, a service flag with appropriate ceremonies, was dedicated in her honor. Mrs. Lindley presented the flag to Mrs. Green DeLaney. Noble Grand, who presented it to the order. After the program, 42 was indulged in until a late hour. Ice cream and wafers were served.

### BUSINESS MEETING.

The U. D. C. will hold a business session at the home of Mrs. Geo. W. Smith this evening (Friday) at 4 p. m. Members take notice and attend.

### GO TO SUNDAY SCHOOL.

On September 29th the Baptists will observe go-to-Sunday-School and Church Day. As is the custom the school here will have a special program, and as so many of the young men who have been accustomed to be present on these annual rally days will be absent, naturally hearts will yearn for them and their safety. Part of the program will be given in honoring these faithful ones who have given their lives that we not only may enjoy worshipping God according to dictates of our conscience, but that we may have a world-wide freedom. To the boys at the front we send greetings and hope that on this day their thoughts may turn for a while, at least, to home and loved ones, and may united prayers ascend to Him, who giveth the peace that passeth all understanding. We wish we could name each one that has ever attended this school, but the Heavenly Father knows you, every one, and to all the school sends, loving, prayerful greetings.

### TESTIMONY

Many Colorado Citizens Have Profited by It.

If you have backache, urinary troubles, dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments—are endorsed by over 50,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Colorado readers should take fresh courage in the straightforward testimony of a Colorado citizen.

C. N. Payne, Hickory St., Colorado says: "I was troubled by my kidneys. My back was weak and lame and it ached. The kidney secretions were too frequent in passage and highly colored. One of my friends who had used Doan's Kidney Pills with good results advised me to try them and I got a box. They helped me so much that I got another box, which relieved me of the complaint. I am glad to recommend Doan's Kidney Pills to anyone."

### CONFEDERATE REUNION

I left Colorado Sept. 22, for the Reunion at Tulsa, Oklahoma. Traveled all night, part of the time mighty fast, then so slow I thought we were slipping up on the kaiser to capture him; however, we reached Ft. Worth about 6 o'clock next morning. Lay over a couple of hours and boarded another train for Tulsa. At Denton I met my brother and other acquaintances. Had a very pleasant trip considering the awful pet on the back of my neck, which I have just had treated by a prominent physician, which was like many other things here, free. We are meeting with many wonderful accommodations and surely I am in the finest town that I ever was in. Colorado, Westbrook, Loraine, Ft. Worth and Dallas are all runts compared to it. I now want to mention that at Muskogee the good ladies of that town treated us to a free lunch, which was much relished. On the strip have seen some very fine country and lots of as poor looking as I ever saw anywhere; but all crop prospects are limited.

The reunion exercises will open tonight, and will tell you about it in next week's Record.

## A LETTER FROM FRANCE.

We copy the following extracts from a letter written by R. B. Hood, a Mitchell county boy, to his folks at home. It is a splendid letter, and the Record is glad to make it public, for the information it contains. After complaining about the derth of letters from America, he says:

"You are well aware, I am sure, that since the night of the 14th of July the American forces have gone about to do the thing for which they were sent to France. They had been on the job long before that day, but the real job was undertaken on that night.

It has been said that on the eve of the memorable battle of Waterloo Napoleon was attending a grand ball at Brussels and was taken unawares by Wellington and Blucher—he was defeated you know. 'Tis true too that the Russian officers were at some royal fete when the Japanese stormed Port Arthur—they, too, lost. The Americans and French had, together, celebrated France's National holiday, the 14th of July, and the Germans thought that they would find them unalert and unready, so they launched their vigorous attack. Since then the world has had proof that "the contemptible little American army" will finally give to the Huns full measure of those things he sought to hand the world. The German soldiers are no match for the Americans. You have read of how the Crown Prince's army have fallen back before the onward march of the armies of the Allies; how he called on the Prussian Guard to meet the Americans; how they, too, fell back in confusion which finally became a rout; how the German machine gunners were chained to their guns, and when their ammunition was exhausted they would cry out "Kamarad." The Americans go out to meet them yelling and calling them "first one thing then another."

I have been chasing some German prisoners which have recently been taken. It is almost unbelievable to tell you how wan and starved they are. Men who were once strong and hale, are but skeletons of their former selves. They say that it has been months since they have had enough to eat. Their clothing is worn and ragged. Strange it is that men thus cared for will follow the flag of Germany. America is good to the prisoners. They have the same eats as we, they are issued tobacco. If we only knew that Americans who are prisoners in Germany were treated as well. I am sure they are not. But very soon they will be called to account for the things which the world has recorded against them—the reckoning day is not far removed either.

How strange it is to see the Americans marching side by side with the French and British soldiers; to see the flags flying high and together; to see the aviators scouting the skies in search of common enemy; to hear their artillery defiant and deafening, "chastening the foe of the nations." They are "beating it" toward the Rhine and one of these days soon America and her Allies will Dictate to Germany, not negotiate with them, but DICTATE to them the terms under which she may have an abiding place on earth.

I hope I may have an opportunity to wash my O. Ds. in the Rhine and then hang them out to dry on the Hindenburg Line.

Since I wrote last I was away from our camp for five days. I took one good nap during those days—slept about six hours perhaps. But I saw a great many things that I shall not forget—some places that have meant much to the world. I saw the place where Peter the Hermit began preaching the Crusades. This place is sacred to France. As I stood there I thought that this marshalling of the nations against the Central Powers may be in answer to the eloquent appeal of The Hermit. Certainly I believe that our mission here is a Crusade—a Holy one. I saw the stone barracks in which Napoleon once quartered his Old Guard the stables wherein were kept his horses, and the place Marshal Ney used as his headquarters, where he and the "Corsican youth" planned and dreamed of things which never came to pass. I hope that some St. Helena is in readiness to receive the Emperor of Germany, some lonely forlorn place where as a criminal he may be haunted by the victims of the Lusitania and the Sussex, of the outraged Belgians, and of the multiplied thousands of others whose blood cries out against him.

While I was away I purchased a necklace and sent it to you several days ago. It was made by a wounded French soldier.

I have been getting the copies of the Colorado Record you sent to me. I was very glad to have them. I noticed the list of those from that county who are now in the service. I

know a great many of them. I still call that Home and I enlisted from Colorado, both Bryan and myself, and we want to be numbered among those who have gone into the army from there.

August is almost gone, and seven months have elapsed since we landed in France. I am planning to spend next summer in Texas.

I learned that Furgeson was beaten for governor, and was glad of it, too.

Write to me and send me the Record occasionally, and tell Mr. Whipple that when he enrolls the names of those from Mitchell county, to remember both Bryan and me.

DON'T SCOLD, MOTHER!  
THE CROSS CHILD IS  
BILLIOUS, FEVERISH

Look at Tongue! If Coated, Clean Little Stomach, Liver, Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs." and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs." which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup. Adv2

Those who give bad advice to the prudent, both lose their pains and are laughed to scorn.—Phaedrus.

Washington, Sept. 23.—The greatest war revenue bill in the history of the world entered today upon its third stage, being formally brought before the senate after its adoption last week by the house without a dissenting voice.

## HOUSE PASSES DRY MEASURE.

Washington, Sept. 23.—National prohibition effective July 1 for the period of the war was approved to-night by the house which adopted 171 to 34, the senate prohibition rider to the agricultural appropriation. The measure now will be sent to conference for adjustment of difference between the two houses on appropriation items.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this. Adv8

## WESTBROOK ITEMS.

O. T. Bird left Wednesday for Ft. Worth.

Mrs. J. T. Golden returned to Eastland Friday, after a visit of several days on the U ranch.

Mr. and Mrs. L. V. Yates motored to Colorado Saturday afternoon for a short visit.

Mrs. M. C. Williams very pleasantly entertained her Sunday school class Thursday afternoon from four to six o'clock. After the social hour they had a business meeting in which they laid plans for Rally Day, on the 29th. Of course, a number that was not fortunate enough to be a member of that class, wanted to know what they did, and when they asked the question, they were told to go to Sunday school on Rally Day and see for themselves; that the "Bomerettes" were loading their shells and that there would be something doing.

Clint Myrick was a Coahoma visitor Sunday.

Mr. B. F. Carter and his three little sons of Itan, were visiting his daughters, Misses Bertha and Grace Carter, Saturday and Sunday.

Miss Grace Carter has resigned her

position with the telephone company here and has returned to her home at Itan. Miss Hoodie Pool is now chief operator at this place.

Miss Vinnie Heizer came in from Houston Wednesday to spend the winter with her grandparents, Mr. and Mrs. J. S. Barns.

Joe Barns returned from Tucson, Arizona, Sunday.

Rev. and Mrs. A. D. Leach and Miss Susie and Mrs. W. L. Ruddick spent Tuesday in Snyder.

Z. T. Lasseter left Wednesday for Cooper, after spending a week or two in Westbrook.

Mr. and Mrs. Riley and children and Mrs. Yates of Coahoma, were guests of Mr. and Mrs. L. V. Yates, Sunday.

H. H. Griffin left Monday for Fort Worth.

Mr. and Mrs. M. E. Williams and little son, C. S., were visiting in Stanton Sunday.

Remember the Rally Day at the M. E. Sunday school, Sunday Sept. 29. After Sunday school Bro. Hanks will preach. You are cordially invited to attend.

Jim Oliver came in from the east

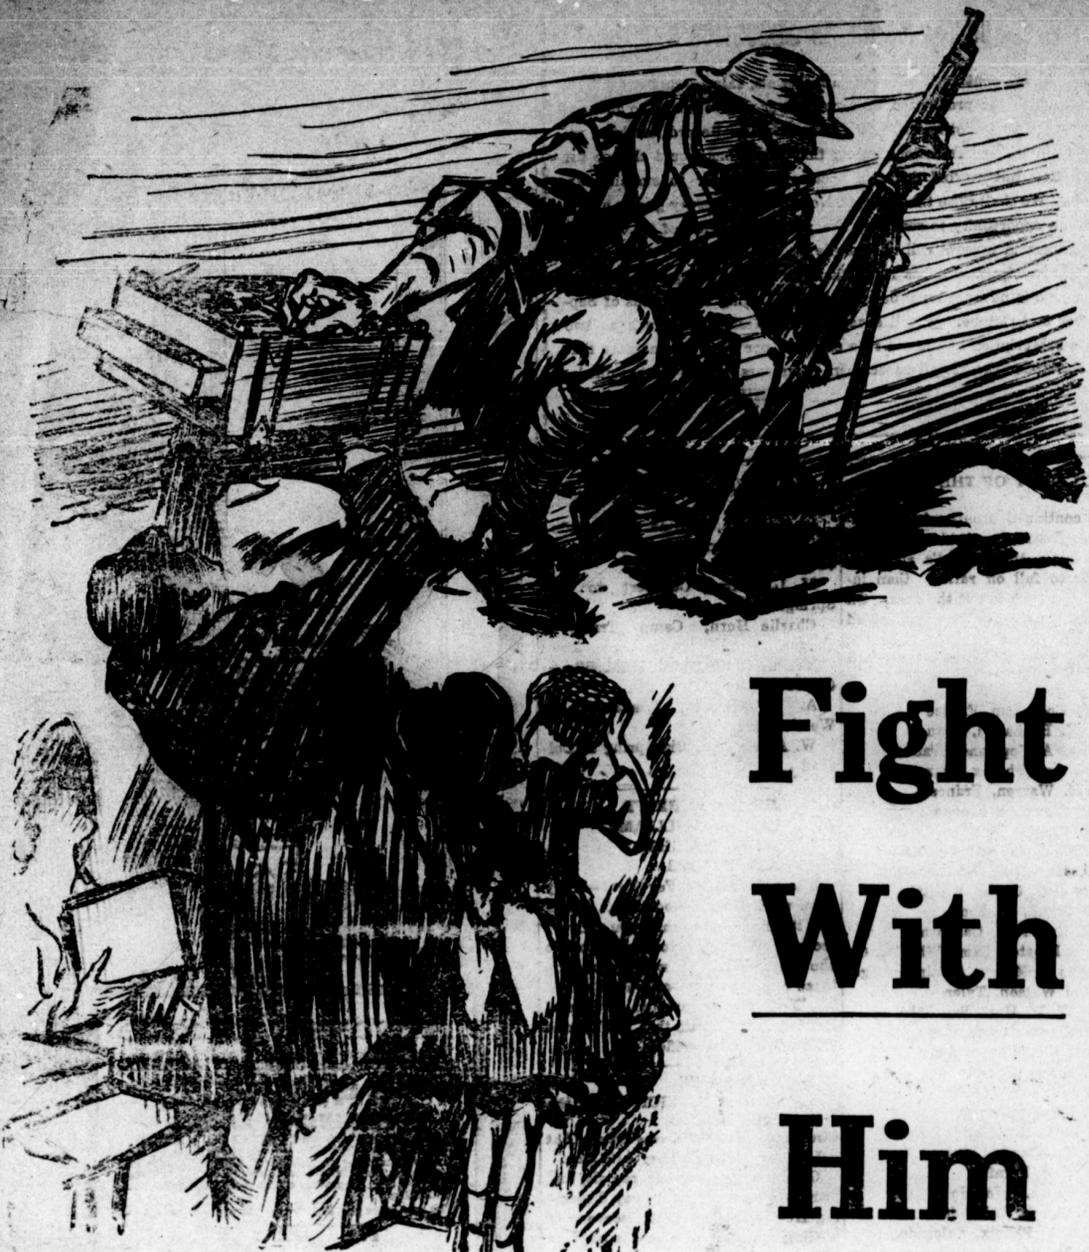

Saturday to spend a few days at home. E. V. Bell returned from Alabama Monday where he had been with a car of mules and horses.

## Experience the Best Teacher

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.

#### CHARLOTTE IN THE FROZEN WARNING.

A Six Reel story of love and adventure, which will be shown at the opera house, Friday and Saturday, Sept. 27 and 28th.

Synopsis—Charlotte is a Vassar girl. She takes home with her for the summer vacation a number of chums. In the woods adjacent, Lieut. Vane is completing a subsea gun. This becomes known to Koral, a secret agent of a foreign government, who plans to seize the gun. Charlotte discovers the plot and seeks to warn Vane of the peril but he laughs at her. She has heard enough to know that a final signal of co-operation will be sent by Koral from a secret wireless plant to a yacht. She reaches the yacht only to be foiled by Frederick's drunken secretary who attempts to attack her. She leaps into the rigging and ascends to the masthead and finds the wireless antennae before her. She cuts the wireless and just as her assailant is about to seize her she leaps into the water. She reaches shore in time to save Vane's life, as the villain is about to shoot him. Secret service men arrive in time to arrest them. And the story ends very pleasantly.

One of the new features of the picture is the skating scene. This star is the greatest, most graceful and most wonderful ice skater in the world.

This picture will be shown at the

opera house Friday and Saturday, September 27th and 28th. Admission for children 9c, adults 22c; war tax 1c and 3c, total 10c for children and 25c for adults.

Coming, October 4th and 5th, "The Fall of the Romanoffs," a gripping story of the fall of the Russian Empire.

#### LEST WE FORGET.

Below we publish the frost dates, showing a general average for frost about the 15th of October. Handle your crops and business accordingly.

1911—October 20th.  
1912—September 26th  
1913—October 16th  
1914—October 23rd.  
1915—November 11th  
1916—October 19th  
1917—October 19th

In 1915 frost came the latest of any former record, and may do so this year. But with the early northers we have already had, the indications are that frost will be early this fall.

#### CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Days Work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

#### CITATION BY PUBLICATION

To the Sheriff or any Constable of Mitchell County Greeting:

You are hereby commanded to summon R. C. Tucker, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Thirty-second Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Thirty-second Judicial District, to appear at the next regular term of the District Court of Mitchell County, to be holden at the Court House thereof, in Colorado, Texas, on the third Monday in November A. D. 1918, the same being the eighth day of November A. D. 1918, then and there to answer a petition filed in said Court on the 21st day of March A. D. 1918 in a suit, numbered on the docket of said court No. 3638, wherein Julia Tucker is Plaintiff, and R. C. Tucker is Defendant, said petition alleging that on or about the 27th day of January, 1915, in the County of Mitchell and State of Texas, plaintiff was lawfully married to defendant; that they continued to live together as man and wife until on or about the 1st day of March, 1915, when the defendant, without any fault on the part of this plaintiff, voluntarily left and abandoned her, then and there with the intention on the part of him, the defendant of abandoning her and that since said date they have not lived together for any period whatever, that defendant has not since said date made any offer to return to her and that since said date this plaintiff has not had communication with defendant.

That during the time plaintiff lived with said defendant, as aforesaid she conducted herself with propriety, and managed the household affairs of her said husband with prudence and economy, and all the times treated her said husband with kindness and forbearance, but that regardless of this treatment on her part, the said defendant abandoned her as aforesaid.

Wherefore plaintiff prays the Court that defendant be cited to appear and answer this petition and that upon final hearing hereof she does have judgement dissolving the marriage vows and relations existing between them, for costs of suit and for such other and further relief, both general and special, in law and equity, to which she may show herself entitled.

Herein Fail Not but have before said Court, as its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Colorado, Texas, this the 9th day of September A. D. 1918.

TO  
KEEP WELL  
A Teaspoonful of PERUNA  
Three Times a Day

Has Never Been Down  
Sick Since Taking  
PERUNA

Read this letter from Mr. Robt. Minnick, Grass Range, Montana.

"In 1909 I was out in Kansas running a threshing engine and the threshing crew had to sleep out of doors. One of the crew brought a Peruna Almanac to the engine one day and I was feeling very ill from sleeping out. I decided to give Peruna a trial and sent for a bottle of Peruna and a box of Peruna Tablets, which straightened me out in a hurry.

"I have never been down sick since that time. I do not take any other medicines except Peruna. I always keep it on hand if I get my feet wet, get a cold, feel chilly, or a little bad. I always take Peruna. People should not wait until they are down sick and then take it, but should keep it on hand like I do, and when they feel bad, they should use it."

Recommended for Catarrhal inflammation of every description.

#### DEFEAT BACKACHE AND KIDNEY TROUBLE WITH ANURIC.

Many people in Texas, as elsewhere, have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments.

The lucky persons are those who have suffered, but who are now well because they heeded Nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as stone in the bladder.

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal take Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsees of "Anuric."

All druggists sell Anuric for 60c; or send Dr. V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10c. for trial package.

JACKSBORO, TEXAS.—"I am more than well pleased with the Anuric Tablets. I was disturbed five to eight times at night and sometimes more. I was so well pleased with the first supply of Anuric that I went to town and bought two bottles. It is the only thing that ever gave me any relief for the kidneys and I want the world of sufferers to know it. I think Anuric is the best medicine on the market to-day."—A. J. MILLER.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. Put up in 25-cent vials and sold by all druggists. They are tiny, sugar-coated. Contain May-apple, jalap—harmless but efficient.

### NITRO-GLYCERINE FROM KITCHEN DRAIN PIPES

The Hotel Division of the Food Administration is calling the attention of the State Hotel Chairmen to the waste of grease through the kitchen drain pipe, and the importance of conserving this grease for the manufacture of nitro-glycerine and other explosives. It is conservatively estimated that material enough to furnish the explosive power for at least 90,000 seventy-five millimeter shells is going to waste in hotels and restaurant kitchens every day.

The same material in its existent shape would bring from four to ten cents per pound, depending upon its condition and the local demand. The allies are asking the American people to increase our glycerine production for the remainder of this year by 30,000,000 pounds.

Tests were recently made in a large Chicago hotel after the preparation and serving of 1,400 meals. The waste that went into the drain was trapped and one hundred and eight (108) pounds of grease were recovered. This is about one and one-quarter (1 1/4) ounces per meal. It is believed that the waste per meal in the average public eating place would figure out anywhere from half an ounce to one ounce per person.

While this grease being wasted in Texas public eating places might be converted into soap, it has just now a far more important value. It may be used exclusively in the manufacture of cordite and nitro-glycerine. One pound of this grease would be sufficient to provide the powder charge of three 75 millimeter shells.

R. A. Parker, Director of Hotels and Restaurants for Texas, has been instructed by Washington to make a survey of waste in public eating places of Texas.

### Peden Back From Washington Tells of Simplified Program of Conservation and Necessity for Winning the War in 1919

"Washington's definite and positive program is to win the war next year," said Administrator Peden of the Federal Food Administration for Texas, who returned to Houston September 11, after a conference of the 48 State Food Administrators with Herbert Hoover on September 4 and 5. "Every thought, every energy, everybody must concentrate upon that one major operation. All else must be secondary thereto," continued the food official.

"By winning the war in 1919 we may save millions of lives, not to mention billions of dollars and precious treasure; and let us also remember a quick, decisive, complete victory within 12 to 14 months will mean a gigantic advantage in dictating the peace terms of the world, compared with our position at the end of several years more of war.

"Really, there is only one wise, economic, humane thing to do, and that is to get busy (everybody—teamwork of the highest type) and settle the issue next year.

"Mr. Hoover told me in parting he had never before believed we could accomplish this objective so soon, but during his recent trip to Europe he became convinced we could do so during 1919, provided every man, woman and child in the country will see and do his duty thoroughly.

"We had a large attendance and most interesting conference. Mr. Hoover's recital of details concerning his European trip and his conferences with the Food Administrators of Great Britain, France and Italy was eagerly listened to by all the administrators present. One of the pleasant features of the convention was the presentation to Mr. Hoover by the 48 administrators of a large and beautiful Silver Loving Cup. Mr. Hoover's voice quivered with emotion and his eyes filled with tears as he, in his modesty, expressed his thanks and appreciation.

"Mr. Hoover stressed the fact that while we now have an increase in bread grains in the United States and Canada, there is a marked and serious shortage in fodder grains here and with our allies, and also a shortage in green feeds and hay. The Southern States especially, and Texas in particular, therefore, are urged this fall to plant larger crops than ever before of stock feed crops, including wheat, oats and rye for grazing purposes.

"The stabilization of cotton seed and cotton seed by-products prices was accomplished after deep study and careful investigation, and not until the planters had requested and the 48 State Administrators approved it. We hope the schedule adopted will meet with the universal satisfaction of all—the farmer, the crusher, the cattleman and all consumers.

"Our total exports to the allies since the Food Administration was established in 1917 now amount to:

- 330,000,000 bushels of wheat
- 75,000,000 bushels of barley
- 40,000,000 bushels of rye
- 80,000,000 bushels of corn
- 50,000,000 bushels of rice
- 320,000,000 bushels of oats
- 10,000,000 bushels of beans and peas.

"In view of the good wheat crops here and in Canada and with our allies, the bread regulations are lifted and wheatless days and meals abolished, except that all—everyone—must use 20 pounds of substitute with each 80 pounds of wheat flour, and the housewife is relied upon to make similar mixture, until she can purchase the Victory Mixed Flour (80-20).

"There are now virtually no restrictions upon meat, but our program, as clearly outlined by Mr. Hoover, is one of careful economy and no waste. He strongly urges that we:

- BUY LESS
- COOK LESS
- SERVE LESS
- EAT LESS
- WASTE NOTHING and Clean the Plate.

"That's our program. It's short, concise and easy to remember, and not difficult to observe, when we think of our allies and our boys 'over there' making the supreme sacrifice, with 250,000 more brave Americans being added to the number in France each month to fight for the cause of Liberty, Democracy, Freedom and Christianity."

### Special Notice to Subscribers

Owing to the continued advance in materials, salaries and everything necessary to the production of a newspaper we are forced to advance our rate of subscription to \$1.50 per year. The Record has been reluctant in taking this action, hoping that conditions would change for the better, but we find this step necessary in order to sustain ourselves. We shall raise the price on November 1, thereby giving everybody an opportunity to renew at the prevailing price of \$1.00. All subscribers in arrears will necessarily be cut off at that time, as the War Industries Board has ruled that the law requiring subscriptions to be paid in advance must be adhered to. During the months of September and October we will accept, where desired, as much as two years subscription at the old rate of \$1.00 per year. Remember that on November the 1st all subscribers in arrears will be discontinued.

### IT SHOULD MAKE A MILLION FOR HIM.

Cincinnati Man Discovers Drug That Loosens Corns so They Lift Out.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lock-jaw and infection heretofore resulting from the suicidal habit of cutting corns. Adv.

### SOME FEATURES OF NEW FEDERAL AUTOMOBILE TAX

The new war revenue bill has several features of interest to automobile users and to the trade. The passenger car comes in the luxury class and the tax on it will be trebled, the truck tax will only be doubled; electric vehicles, tires and accessories must share their burden of the new tax and the user of all types of gasoline and electric vehicles are taxed on a schedule already announced. The tax on electric vehicles is \$5 per horsepower and 50c per 100 pounds weight of vehicle. A five ton electric truck of six horsepower, would pay \$50 on the horsepower rating, and with a weight of 11,000 pounds it would also pay \$60 on weight, making a total of \$90. The tax on users of gasoline vehicles is to be about as previously announced. Within sixty days after the passage of the new war revenue act and on each July 1 following, motorcycle owners will pay \$5, car owners will pay \$10 up to 22-horsepower; \$20 up to 30-horsepower; \$30 up to 40-horsepower, and \$50 for more than 40-horsepower.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Just try one 50-cent bottle of **LAX-FOS WITH PEPSIN**. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Paris Medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless Chill Tonic.

### A 'POSSUM HUNT.

On Thursday evening a jolly car load of young people, chaperoned by Mr. and Mrs. W. D. Cooper, took advantage of the moonlight, and went on a "possum hunt" on Champion creek. They really did hunt some, but the possums simply refused to show their sullen faces, when everybody else was in such fine spirits so they didn't get any. Lovers have many subterfuges, and a possum hunt is just as good an excuse as any. After some time spent at target practice a camp fire was started, and the delicious aroma of sizzling bacon and toasting marshmallows made even the coyotes and jack rabbits sniff hungrily. A couple of owls began to hoot from the enveloping foliage of a hackberry tree, but even they grew ashamed of their own inquisitiveness—of course it was none of their business "who" these nimrods were. What difference did it make if bugs and spiders and ants and thousand legs and all "manner of creeping things" did make exploring expeditions along one's anatomy, they were all young and they were all happy, and they were having what they went for—a good time. Misses Wilson Hurd, Marie Coffee, Lambuth Moody, Charley Coffee and Mr. and Mrs. Wyse D. Cooper formed the party.

Gen. Pershing says music is as necessary to our soldiers welfare as food and sleep. Music was necessary to your boy when you sang to him that sleepy, little creepy little song, turning your fond heart to love, crooning to your laddie his slumber song of childhood. It has been necessary to him every since. Music has been necessary since the morning stars sang together for joy—since Moses and Miriam sang their hymns of praise. In ancient Greece music was represented by a heavenly maid and when she sang numbers socked around her cell, and through the power of her song they trembled, exulted, raged and fainted. Gen. Pershing is right. Our boys must have music because, when God made him in his own image he planted within him the love of melody.

### KIPLING'S HOME HOUSES GIRL'S PATRIOTIC LEAGUE

Battleboro, Vermont. — Rudyard Kipling's old home here is now used by the Girls' Patriotic League and Miss Grace Holbrook who occupies it, is caring for the girls and women employed in the stores and factories of the city. Miss Holbrook's official title is Secretary of the League, an organization devised for girls by the War Work Council of the Young Women's Christian Association. Some three hundred girls have enthusiastically undertaken patriotic work under the shadow of the home of England's most virile writer. They put the Junior Red Cross over the top early in the campaign, surpassing all expectations. They have also aided in the clerical work of the War Chest Campaign, as well as carrying their full share of the other work assigned to them. "It may seem strange to some men," said the secretary, "that it was in Kipling's home that plans were devised to make the city dry. Yet such was the case, and the League rendered valiant but unforseen service in that work."

### WOMEN MUNITION WORKERS ARE CHEERED BY Y. W. C. A.

"I can't sleep of nights for fear I have overlooked a defective or inaccurate part," exclaimed a girl inspector of torpedo parts, to the secretary of the Young Women's Christian Association, who sought to improve her living conditions. The conversation was at a dormitory near an American munitions plant. "In this plant are made many many torpedoes. I can't remember how many pass in part, through my hands for examination and rejection if they are not perfect. I shudder to think how many American lives might be lost through my ignorance or carelessness." Cheered by the secretary, and brought back to normal, she returned to her exacting work, no longer a victim of "nerves". Teach the children to buy thrift stamps.

### ABOU BEN BAD MAN.

A war-profitteer (may his tribe decrease) Awoke one night from a nightmare of peace, And saw within the moonlight of his room, Making it rich and like a fire in bloom The Devil, writing on asbestos foil, The names of those paid for unrighteous toil. Exceeding wealth had made Ben Bad Man bold And wishing to know what the book did hold, The Profiteer quick to the Devil said: "What writest thou?" Old Satan raised his head, And spake, "The names of those who cheat the poor, And politicians with the dollars lure, Treen to keep the public from getting wise, They poison the people with bluffing lies, Fergers, robbers, thugs who murder for gold, Who rob the grave and burn the orphan fold." "And is mine one?" asked Abou. "Nay not so," Replied the Devil. Bad Man spake more low, And said, "Oh, thou from storm-swept Hades sent, Write me as one who cheats his government." The Devil wrote and vanished. The next night from Hell He came again, and with a great awakening smell, And showed the names whom hate of God had curst— And lo, the Profiteer's name was the very first!

Gen. Fleming W. James, vice-President of the Farmers and Merchants National Bank of Abilene, and a well known Western financier, died at his home Saturday afternoon and funeral services were held in that city Sunday Sept. 22nd.

Gen. James is well known to several parties in Loraine. His son, W. S. James, is manager of R. S. & P. Railway at Roscoe.

According to figures made known Sept. 22, by Major Townes, Supervisor for Texas of the selective draft law, more than two hundred thousand Texans are following the stars and stripes, fighting or in France or in the training camps of the United States.

Loraine somewhat resembled a game of checkers this week, the principal diversion being to move.

Gen. March, Chief of Staff, has created an entirely new service. It is known as the Motor Transport Corps. It will be an active fighting corps as well as a supply corps, having control of all motor operations both overseas and in training camps of the United States. More than 2,000,000 of technical men will form this branch.

### ARIZONA MINE BOSS LAY HELPLESS WHEN WIFE GOT TANLAC

Was Six Feet Tall and Got Down to Where He Weighed One Hundred and Sixteen Pounds.

"I lay helpless when my wife ordered our first bottle of Tanlac from El Paso, Texas," writes Harry E. Scott, of Dragoon, Arizona, in telling of his remarkable recovery.

Mr. Scott's letter was addressed to C. F. Moss, a well known druggist of Benson, Arizona, who has the Tanlac agency for that town, and was forwarded by Mr. Moss to the Tanlac offices in Atlanta. His letter follows: Dragoon, Arizona.

Mr. C. F. Moss, Benson, Arizona. Dear Sir:—As you expressed a desire to hear more about my case, I will try and tell you part of it. I was down and out nearly all the time for two years with rheumatism and stomach trouble, and went to eight doctors, two of whom were osteopaths. Three of them refused to take my case, saying it was incurable, and others might as well have done so, as they did me no good. I guess I have taken a barrel of medicine internally and externally; I also went to Hot Springs and out of all that was ever done, I never got over one week's relief at a time.

"After going down to one hundred and sixteen pounds—whih is very light for a six-footer—I kept getting worse until I couldn't move, even to feed myself, had no desire to eat and couldn't sleep more than two hours a night. Some of the officials of the mine, of which I am foreman, would call to see me, and then go out and say, "poor old Scott, I guess he's fired his last man." My wife thought I would never get out of bed alive as she knew my condition better than anyone else.

"At last when I lay helpless, my wife ordered a bottle of Tanlac from El Paso, Texas, which was the nearest place we could get it at that time. One evening about four days after I began taking Tanlac, I ate a fair meal and enjoyed it, the first in many months. By the time I had taken half of the first bottle, I thought I had a good appetite, but when I had finished my second bottle I could hardly eat enough to satisfy me. Well I have just finished my ninth bottle, have gained eighteen pounds and am back on the job every day.

"I have converted lots of sufferers to the Tanlac Route, and it affects them all as it did me—their stomach trouble, nervousness and rheumatism all yield to Tanlac. Mrs. Scott and myself are willing to go before a notary and make affidavit as to the truth of every statement in this letter which you are at liberty to publish and use for the benefit of others."

Yours very truly,  
HARRY E. SCOTT  
Tanlac is sold in Colorado by W. L. Doss; Loraine by Garland & Elliott; in Westbrook by J. H. Board, Adv.

### OUR SOLDIERS' CORNER

Harry Allen, who formerly lived in Loraine is now in training at Camp Travis.

Gen. Pershing has ordered that all trench shoes worn by soldiers shall be hob-nailed—they will weigh 5 1/2 lbs.

Harold Hollingsworth who is on his fifth voyage across the Atlantic. He is on an American transport and has had many thrilling adventures. He has been in the service something over a year. Marshal Hollingsworth is also serving his country, being in a radio training service in Connecticut. Both these young men once lived in Loraine and are brothers of Mrs. Hubert Toler.

Mr. Lambuth Moody left Tuesday for Austin where he goes to enroll in the Students Army Training School. He was accompanied as far as Sweetwater by his parents, Rev. and Mrs. M. L. Moody.

Lieutenant Homer A. Wimberly who is stationed at Kelley Field, San Antonio, has been the welcome guest of his parents. Mr. and Mrs. W. B. Wimberly. He arrived Saturday, September 22 and will return to duty on next Friday, Sept. 27. Lieut. Wimberly grew to manhood in Loraine. He was graduated from a college of Dentistry in Louisville, Ky., and enlisted for service in June, 1917, having been recently promoted to 1st Lieutenant. Loraine has open doors and the home-fires brightly burn for her soldier sons.

The reward of a thing well done is to have done it.—Emerson.

given to the teachers of her public schools.

Teachers, you know, are human beings, and as there has been but one perfect human, we respectfully ask your patience with our frailties, and promise to extend the same courtesy to you.

The opening announcement and assignment of teachers will appear later.

Respectfully,

### NOTICE!

Please look on the little yellow slip at the top of the front page of your Colorado Record and see if your subscription has expired. If so you will do well to renew at once as the price of subscription goes up Nov. 1. Unless subscriptions are paid in advance your paper cannot continue to come on "as of yore" according to an order by the government. With the help and co-operation of friends I am doing my best to make the Loraine News page of interest to all, and I hope to have all our subscribers renew, and as many new ones as possible. If you do not know me, ask some one to point me out, or ring No. 47, and I will be glad to receive money for subscription; orders for job work or advertising, and will appreciate news items.

IRENE GARLAND,  
Editor and Manager Loraine Page.
