RIG AT LITTLE NO. 1 BURNED DOWN SUNDAY

Fire of unknown origin destroyed the rig at Little No. 1, three miles southwest of Westbrook late Sunday afternoon. The tools were considerably damaged but not totally destroyed and some items of the string will be salvaged. The loss is estimated at \$10,000 with no insurance.

No one was at the well when the fire originated. A Buford, tool dresser on the job, left the well at a few minutes after 6 o'clock Sunday afternoon after dressing a bit and fires in the furnace had been extinguished. C. P. Conoway, who lives near the location, detected the flames soon after seven o'clock but upon arrival could do nothing to check them.

D. J. Lewis, driller in charge of the well, stated that he would replace the derrick and tools at once and continue the test. It was reported in Colorado Wednesday afternoon that a new string of tools had been ordered by wire, but Mr. Lewis was out of the city and this report could not be confirmed by him.

Little No. 1, first test to be started by the Renotex Oil & Land Corporation on their Mitchell County holdings, was suspended Saturday, Mar. 5, and operations had progressed satisfactorily during the ensuing week before the rig was destroyed.

CHRISTIAN.

The report at this school showed both an increase in attendance and offerings over the previous Sunday. Special Sunday school workers were here two days this week with well tried plans to build up the school.

LAND COMMISSIONER REQUESTS COUNTY BOUNDARY SURVEY.

Formal request that the County Court of Mitchell County co-operate with the court of Howard county in causing a boundary survey to be made between the two counties has been received by the County Judge, J. C. Hall from the General Land Office at Austin. The land commissioner outlined in this request that application that the survey be made had been filed with his office by the county judge of Howard county.

There is no record of field notes of an authorized boundary survey between these two counties on file in the general land office and thus the exact line separating the two counties is only problematical. The northwest and southwest corners of Mitchell county, however, have been established and the field notes recorded in the general land office.

This matter was discussed by Commissioners Court the first of this week, but since this court has no jurisdiction in the premises, the question was passed without recommendations and will probably be taken up at the present term of County Court.

ATTEMPTED JAIL DELIVERY FRUSTRATED BY SHERIFF.

An attempted jail delivery was frustrated last week by Sheriff W. J. Chesney when while visiting the jail he detected that one of the bars in the main interior cell in which several prisoners were confined had been sawed in two. This was done, it developed, by some of the inmates who had secreted hacksaw blades into the jail in their clothing. The blades were hidden by the men in the lapel of their coats and the cuffs of their trousers.

Had the prisoners been successful in sawing their way out of the cell, they would have only gained entrance into the "run-around" and confronted with the necessity of breaking through an outer wall of the building before gaining their liberty.

MAJESTIC MANAGEMENT PASSES TO TAHOKA MAN.

W. S. Moore, recently of Tahoka, has purchased the fixtures and business of the Maestic Hotel on Second Street and assumed charge of the hostelry Thursday of last week. The deal was made by J. R. Hastings, who represented I. H. Martin, former owner of the property, in the transfer.

Mr. Moore is a typical figure among the "old timers" of this section of the West, coming here many years ago. He was for several years an official in Borden County, filling the offices of sheriff and later county clerk.

RETAIL MERCHANTS MEETING. FRIDAY DENOTES OPTIMISM.

That the 39 firms of the city who have already affiliated with the recently organized Retail Merchants Association are optimistic because of success contemplated for the organization was evidenced at the meeting held Friday night at the H. L. Hutchinson & Co. store by the members present.

Co-operation and endeavors for the mutual benefit of all members, were the keynote expressions of those to address the meeting. Officers and directors have settled down to work at the task of getting the association in order for business and an office is expected to be opened by April 1st.

EVANS LIQUIDATES ALLEGED MORTGAGE AGAINST COTTON.

D. T. Evans, who two weeks ago was ordered held under \$1000 bond for investigation by the grand jury of charges of swindling, in connection with the disposition of ten bales of cotton said to have been mortgaged to the Colorado National Bank, was released last week under bond reduced to \$500 by order of the County Court.

Information was filed with the Court showing that Evans had satisfied the indebtedness at the bank, amounting to \$348 and also settled in full for the rental due Franks & Hale on the ten bales of cotton implicated, and an order was made by the Court reducing the bond one-half. This information shows that Evans paid Franks & Hale \$131 as their equity in the Cotton.

TRAINING INSTITUTE FOR SUNDAY SCHOOL WORKERS.

Sunday school workers from various churches of the city who attended the training institute Tuesday and Wednesday at the First Christian church were given a wonderful store of information as to the approved plans for conducting the Sunday school and an inspiration for greater endeavors in the future, according to the version of several who availed themselves of the opportunity to attend.

The institute, which opened Tuesday afternoon at 3:00 o'clock, was conducted by O. H. Kuhn and S. W. Hutton, representatives of the field department of the Christian church, with headquarters at St. Louis. These gentlemen brought a fixed and inspiring impression in their addresses and also in a most appreciated way through rendition of special duets and solos, each being a talented singer, as well as speaker.

State Supervisor Recommends Improved Facilities for Colorado Public Schools

The Colorado public schools are commended for efficiency in work and several of the required items of equipment in a report received this week by the president of the school board and superintendent of schools from Chas. M. Rogers, State Supervisor of Schools, at Austin.

The supervisor in this report makes recommendations for equipment additional for the library, and for additional historical charts, both of which have already been met. Other recommendations specified in the report are to be compiled with insofar as it is possible, J. M. Thomas, president of the school board, stated Thursday.

Mr. Thomas also stated that the ruling of the attorney general announced Monday, holding that taxes can be levied this year by school districts under the enabling act putting into effect the amendment to the constitution raising the school taxes, was of special importance to Colorado, since the amendment provides that a 50c tax may be levied for school building bonds, and that this city sorely needs additional buildings. Mr. Thomas believes that the best interests of the city require that a ward school and high school buildings be erected as soon as those projects can be conservatively financed, since every class room in each of the present buildings is crowded to capacity and it may be reasonably expected that more pupils will be enrolled another year. At least, with the present enrollment next year, the school could do more effective work if the present crowded conditions were eliminated.

"The Colorado schools are housed in two brick buildings, which are full to capacity. There is not sufficient room for the High School. The four rooms used for study and recitation are full and yet the laboratory apparatus is kept in one of these and laboratory work must be done in this crowded room. Additional space is very much needed.

The report of the supervisor follows:

"The laboratory equipment is quite adequate for general demonstration work in all the sciences offered but does not serve at all for individual work in general science. The apparatus is carefully stored in cabinets, and presents a good appearance. An unusually good feature is a good stereopticon which is used for laboratory purposes in the sciences and for other illustrated lectures on various educational topics for the benefit of school classes and for the public.

"The libraries in the elementary grades are exceptionally commendable. There is a sectional book case in every room and a good selection of books in each, suitable for the respective grades.

"Not so much can be said for the high school library, and this is unfortunate since the fourth unit in English is being requested. It contains an excellent supply of encyclopedias, a set of 'The History of Nations,' which is very usable, and also quite a large variety of books for history and English, which are very good, but not adequate in number. It is particularly deficient in history source books and readings, there being only one copy of each kind, while there should be one for every three pupils in class, and some supplementary texts in addition. The special need for English is more fiction, anthologies, biography, and travel.

FARM BUREAU MEETING AT LONGFELLOW WEDNESDAY

A mass meeting of farmers will be held at Longfellow school house next Wednesday night, March 23rd, under auspices of the farm bureau, according to information given The Record by W. A. Dulin, county farm agent. Address on various issues confronting the farmer will be made. A special entertainment program will also be rendered. Mr. Dulin stated that ladies are especially invited.

"There are no standard historical charts in the school. Those on hand are out of date and entirely unsatisfactory. In order to retain the credits which this school now holds in history, it will be necessary to purchase some new standard charts.

"Very commendable work has been done in this school by teachers and pupils in purchasing much of the necessary equipment, such as library cases and books, and laboratory equipment. However, the school should not be forced to wait upon such means for the equipment that is required to keep work up to standard.

"All classes visited indicated a good quality of class room work. The teachers appeared to be well qualified, and were enthusiastic and interested in their work, and pupils all gave ready response. Some of the written work was hardly up to standard. History notebooks showed the lack of library reference material, and an insufficient amount of map work had been done. The historical maps mentioned above are essential for this phase of the work. More careful drawing should be required in science notebooks, and errors in English should be corrected.

"Credit is requested in physiology, solid geometry, and four units in English.

"The recitation in physiology was satisfactory. Pupils were well prepared, and manifested an interested attitude. It is doubtful whether satisfactory individual laboratory work can be done with the limited facilities. It might be added that it is impossible for the general science class to do the individual work which credit in this subject indicates.

"The solid geometry recitations revealed a high quality of work. The instruction was highly efficient, and the pupils acquitted themselves commendably. Accuracy and thoroughness of proof were rigidly required.

"The English recitations visited all showed excellent instruction. Splendid interpretations and suggestions for thought were presented in the study of the classics. Some very attractive books have been made by the several classes, illustrative of the classics studied. In the opinion of the supervisor the lack of adequate library is probably the only handicap toward securing the desired credit. However, the division of time to the different phases of the work is not just according to the general plan.

"Recommendations:

"1. That some kind of arrangements for more laboratory space be made as early as possible.

"2. That the purchase of more library books be made at once.

"3. That standard historical maps be provided.

"4. That credit be granted in solid geometry if written specimens are satisfactory.

"5. That four units of English be granted provided the work is satisfactory to examiners and provided this department is officially notified that the library has been satisfactorily improved.

"6. That specimens of physiology work be submitted for consideration." Numbers 2 and 3 of the above recommendations have already been provided for the school.

GREEN APPOINTED TREASURER BY COMMISSIONERS COURT.

Ocie Green was appointed County Treasurer Monday by an order of Commissioners Court and his bond in the sum of \$25,000 and other papers of qualification were filed Tuesday, and accepted. Mr. Green was appointed to fill a vacancy caused by the resignation of Miss Ruth Buchanan, who plans leaving early in the summer for an extended visit to South America.

BOOSTER CLUB TWIRLERS vs. HIGH SCHOOL BALL TEAM

A ball game that promises to be of unusual interest to local fans and the public in general is scheduled at the High School ball park Friday afternoon between a team representing the Colorado Booster Club and the High School nine. The game will be called at 4:30 o'clock.

C. M. Adams, president of the Colorado Baseball Association, and a leader among local fans, predicts that a large store of real sport awaits those who see this game. This is the initial match of a series of games to be played at Colorado during the next few weeks for the benefit of the local association. Three league team games will be played here during the last days of March and early in April, exact dates of which have not been determined. The Sweetwater Swatters, one of the best teams in the West Texas League, will play in those games. The league games will be played at the old ball park on the South side, which is now in first class condition.

DAUGHTERY PLEADS GUILTY TO SWINDLING CHARGES.

J. D. Daughtery, charged by information filed in County Court with swindling in connection with the sale of cotton at Colorado recently, entered a plea of guilty before Judge Hall last week and was assessed a fine of five dollars and costs.

Daughtery was alleged to have presented to O. M. Mitchell, local cotton buyer, a sample of cotton, the classification of which was good, when in reality the bale of cotton sold in the transaction was of inferior grade. Colorado cotton buyers complain that such practice has been followed here throughout the season by at least a few sellers of the commodity on this market.

72 PER CENT COUNTY TAXES EXPENDED ON PUBLIC ROADS.

County Judge J. C. Hall stated Monday that 72 per cent of the county taxes collected last year had been either expended through or transferred to the Road and Bridge fund. This was made necessary to meet the heavy demands for road construction and repairs throughout the county last fall as a result of damage done by rains.

The County Judge estimates that the roads and bridges of Mitchell County were damaged \$40,000 during the months of August and September of last year.

PLANS FOR BOOSTER MEETING BEING FRAMED

Plans for the third monthly meeting of the Colorado Booster Club, which will be held Tuesday night, March 22nd, at the Coe Building on Walnut Street, are being framed, and according to announcement made on Wednesday, officers and directors of the club, together with the detail committees, are co-operating in arrangements for this "feed and whoop 'em up Meetin'" to the end of making it the best yet held.

In order that adequate arrangements be made for the entertainment of all who expect to attend, reservations should be made early and those not registered should see W. R. Charters or the club secretary at once and do so. Those outlining a program for the evening state that good speakers will be heard and that throughout the evening will be interspersed fun and plenty of pep. Music will be furnished by the Colorado band.

The announcement was made last week that the Booster Club would at this meeting introduce questions of material interest to the city, and among them being the water question. Special addresses will be made on this subject by Dr. P. C. Coleman, president of the Chamber of Commerce, former Mayor C. M. Adams and Judge R. H. Looney.

The program is scheduled to begin at 8 o'clock and an invitation to become a "Booster" is extended every citizen of the city and adjacent community. Accommodations are available for 175 guests. Make your reservations not later than Saturday.

THREE TRACTORS ORDERED BY COMMISSIONERS COURT.

County Commissioners Court, in session Monday and Tuesday authorized a requisition to the State Highway Department for one 10-ton tractor and two 5-ton tractors. These machines are furnished free of any charge and will be added to the road building and maintenance equipment of the county.

LIGHTNING STROKE KILLS MULE AT COUNTY CAMP.

A large mule belonging to Mitchell County and valued at \$300, was killed at the road crew camp 18 miles south of Colorado last week when lightning struck a corral in which several head of draft animals belonging to the county were kept. Several other mules were shocked by the compact.

TO THE SCHOOL TEACHERS OF MITCHELL COUNTY.

It has been the understanding that in re-districting the state last year for Inter-scholastic League purposes, Mitchell and Howard counties were placed in the Midland district, with district meet at Midland this year. I have just received a letter from the executive committee at Austin, stating that there was a vigorous protest against this division and for that reason these counties were re-placed in the Abilene district with the meet at Abilene.

All schools of these counties will therefore send their representatives to Abilene to the district meet in April.

Teachers are requested to note the change and get in touch with the district committee in the Abilene district and notify said committee as to what representation each will have at the meet.

Melinda, bereaved of her husband, consulted her young mistress on the proper wearing apparel she should purchase from the dry goods store to best disclose her grief. "Ah wants a black hat, an' a black dress, an' black shoes, an' black gloves, an' a whole black hankerchief ma'am." "Oh no, Melindy!" her mistress protested, not a solid black handkerchief. "Honey," remarked Melindy, impressively. "When ah mourns—ah mourns!"

FARM BUREAU NEWS.

Following several days discussion of the Texas Farm Bureau Federation and its marketing plans, the Agricultural Committee of the Texas Bankers Association made the following report to the Farmer-Banker conference at College Station:

"We, the members of the Agricultural Committee of the Texas Bankers Association, in pursuance of requests made by the several district bankers associations, have been in conference with the officers of the Texas Farm Bureau Cotton Growers Co-Operative Association and have to report as follows:

"We find the plans for the proposed cotton and wool marketing associations to be based upon several years of successful experience by the California producers and to conform to sound economics and safe banking practice. We have suggested and the Farm Bureau Federation officers have accepted amendments for the sake of making the proposed contract more definite as to the purpose of the movement and the provisions for caring for mortgaged cotton more specifically.

"The first suggestion which the Farm Bureau has accepted is the following addition to Paragraph 5 of the Co-Operative Association's contract with the growers:

"The Association will endeavor to sell the cotton gradually as the spinning industry requires it at the best possible price before another crop is produced, but in case prices are not satisfactory or production is greater than consumption, or there are abnormal trade or financial conditions, the association will hold such part of the cotton as may be not sold at a satisfactory price and urge the growers to reduce their production the following year to the end that supply may be adjusted to demand as to bring profitable prices to the producers.

"The other suggestion is an addition to Section 13, paragraph C of the Co-operative Association's contract with growers.

"The grower further agrees that if the mortgagee desires, he will execute in favor of the creditor an assignment of his interest in the cotton which he has sold to the association, or will sell to the association for the protection of the creditors' just claim and the association in turn agrees, upon notice of such assignment, to respect the assignment and to pay to the creditor to the extent of his just claim the proceeds otherwise due to the grower.

"So amended, we believe this contract will not only safeguard the interest of the creditor but will fortify his claim.

"We are satisfied from our investigation of this undertaking and from our knowledge of the men in charge of it that it is in capable hands, that if successfully prosecuted it will result in large net returns to the producers, in a safer and more satisfactory settlement of debts, in a saving of much waste and in the establishment of a more economic system of agriculture in the cotton region.

"For these reasons, we cordially commend the undertaking to the consideration of bankers and merchants, and we urge them to do whatsoever may be becoming in assisting the Texas Farm Bureau Federation to get this Co-operative Cotton Growers Association into operation at the earliest possible time."

OVER 16 MILLION RAISED TO DATE

BAPTIST 75 MILLION CAMPAIGN MAKING GOOD PROGRESS, COMMISSION REPORTS.

CASH ROUND-UP IN SPRING

Effort Will Be Made During March and April to Secure Cash on All Pledges Due to May 1, 1921.

DR. J. B. GAMBRELL

President Southern Baptist Convention, who will tour the South.

Up to December 1, 1920, Southern Baptists had paid \$16,851,100.68 in cash on their subscriptions to the 75 Million Campaign, according to an announcement issued by the Conservation Commission, which is looking after all the general interests of the campaign. This sum has been apportioned among foreign missions, home missions, state missions, Christian education, hospitals, orphanages and ministerial relief, in accordance with the original campaign program.

While the receipts from the campaign have enabled all the agencies of the denomination to greatly enlarge their work the returns have not been as large as the best interests of the work demand, it is said, and the local churches throughout the South are asked to join in a movement to bring up the payments on all subscriptions due by May 1, in order that the delegates can go to the Southern Baptist Convention at Chattanooga, May 12, with a clean slate and all the general work adequately provided for.

Will Hold Day of Prayer.

Inaugurating this spring cash round-up campaign, February 27-March 6 has been designated as Intercession week by the Baptist women of the South, while the entire membership of the Baptist churches is asked to join in spending Wednesday, March 2, as a day of prayer for God's blessings and guidance in the further campaign work.

After this special period of prayer the remainder of March will be given over to enlisting all the members of all the Baptist churches in the South in the matter of completing the campaign program by paying that portion of the subscriptions due by that time, and in bringing the members to see their obligation to support God's work through the dissemination of the doctrine of stewardship. April has been designated as loyalty month and during that time effort will be made throughout the South to bring Baptists to realize that their loyalty to God and His work demands the payment, where at all possible, of their pledges to the campaign.

Southwide Tour Is Planned.

In order that the subscribers to the campaign may be fully informed on what has been accomplished with the money they have contributed so far, and as to the needs for the completion of the campaign program, a series of informational and inspirational meetings that will reach into every state in the South has been planned for March and April. These meetings will be featured by addresses by Dr. J. B. Gambrell, president of the Southern Baptist Convention, and Dr. E. Y. Mullins, president of the Southern Baptist Theological Seminary, who have just returned from a six months' tour of the mission fields of Europe, and who will tell of conditions they found there; Dr. L. R. Scarborough, general director of the campaign, and other persons of prominence. These meetings will be held at central points in the various states, and from these central meetings associational and district rallies will be formed in the hope of taking the campaign message to all the people.

Large Relief Work Done.

Secretary Love of the Foreign Mission Board reports that Southern Baptists, within the last few weeks, have contributed \$147,284.20 in cash for the relief of suffering peoples in Europe and China, above their campaign contributions, and that the Baptist women of the South have contributed \$100,000 worth of first-class clothing for the needy families of Hungary.

HEART-TO-HEART TALKH. By W. D. Trotter.

Aaron Sapiro. Aaron Sapiro is a lawyer. He is the man who worked out the plan under which the California Fruit and Nut Growers Association operates, and he has been in Texas recently to assist the Farm Bureau Federation in working out a successful cotton growers marketing association.

He says that it isn't that too much cotton has been produced, but that marketing the cotton is at fault. As proof he cites the experiences of the prune growers of California. A couple of years ago they were producing 44,000,000 pounds of prunes, and finding difficulty in selling them at 2 or 3 cents a pound. Last year they produced 112,000,000 pounds and sold the whole crop at 11 cents a pound.

The prune growers devised new uses for prunes and made the public want to eat prunes. Mr. Sapiro says the cotton growers must organize and if necessary employ scientists to work out new uses for cotton. They must have warehouses where they can store their cotton and sell it over a period of twelve months rather than dump the whole crop on the market in four months time. To finance a project of this kind, just as the fruit growers have done, they would issue bonds or certificates against cotton in storage, and sell said securities to the public. Last year the prune growers borrowed \$10,000,000 at about five per cent and had bankers going from New York to California to offer further loans. "Stabilize your marketing and you will tap the finances of the world," he says, and cites instances to prove it.

Mr. Sapiro says that every cotton crop produced in Texas makes millionaires in Philadelphia and New York, and then declares that in 1919 we produced about 12,000,000 bales of cotton and 300,000,000 bales were sold. "Allowing each bale of cotton to be sold five times, which is all that is necessary, that would make 60,000,000 legitimate sales. Where did the other 240,000,000 bales come from, and who paid the profit?"

There is good sense in what Mr. Sapiro says. We have maintained consistently that what is needed is a marketing plan that would include a financing plan. When we get this the farm problem will be solved.

If you want to sell your place in Colorado a little ad in the want column of the Record will sell it.

WHY COLDS ARE DANGEROUS.

It is the serious diseases that colds lead to that makes them dangerous. They prepare the system for the reception and development of the germs of influenza, pneumonia, tuberculosis, diphtheria, scarlet fever, whooping cough and meningitis. You are much more likely to contract these diseases when you have a cold. For that reason you should get rid of every cold as quickly as possible. Chamberlain's Cough Remedy will help you. OVER the COFFEE CUP BROADUS & SON

How do you make coffee? I put this question to one of my good Gold Plume Coffee customers, who is considered one of the best cooks in town.

Her answer certainly surprised me, and gave me a new light on the coffee-making subject.

"Well, one thing—I never 'guess' when I make my coffee. I measure both the coffee and water."

"We use a percolator. I put the coffee in the receptacle then pour the boiling water over and let it percolate 16 minutes."

"The time it should percolate depends on the grind of the coffee. With Gold Plume, this works fine."

"I have made 60-coffee cups of coffee from one pound of Gold Plume Coffee. And that cannot be said of many grades of coffee on the market."

"The reason is this," I told her. "Gold Plume Coffee is pure coffee-berry, coffee. No chaff or coffee impurities. No difference how the price varies, it is the cheapest coffee you can buy—because there are more cups of good coffee to the pound."

U. D. C. MEETING.

The U. D. C. met with Mrs. S. Gustine Tuesday afternoon. One of the interesting features of the program was the "Eneas Africanus" war reminiscences, showing the fidelity of the old type Southern negro. The regular business was transacted. Mrs. C. P. Gary and Mrs. Ben Plaster made application for membership. At the social hour the hostess displayed her Southern hospitality in serving refreshments of meat loaf, with piecemeal wafers, special peaches, white loaf cake, marshmallow pudding, and coffee.

THE SUNBEAM BAND.

The Sunbeam Band met at Mrs. A. W. Turner's on Saturday afternoon March 12th at 2 o'clock and enjoyed a social hour.

Notary Public seals at Record of...

Uncle Walt's Story

THE DIFFERENCE

"I SAW you coming up the street and standing at the gate with Mr. Honeybug and Mr. Playfair," said Mrs. Jamesworthy. "All three of you were laughing so the whole neighborhood could hear you. I wonder why you do all the laughing with your friends, and do nothing but grumble and scowl at home. I haven't seen you laugh in the house in five years, as you laughed out there with those men."

"There's nothing in this house to laugh at," replied Jamesworthy. "Jim Honeybug is a good story-teller, and he was telling us a bully yarn, and for a brief season we forgot the burdens laid upon us, which are greater than we can bear. If you could tell a story as well as Honeybug does, I'd fill these ancestral halls with silvery laughter, but you never try to say anything amusing, Mrs. Jamesworthy." You do tell stories, but they are of a gloomy and tragic character.

"Last night, when I came home, you told a dramatic story to the effect that you had callers all afternoon, and hadn't a chance to cook anything for me, and so I had to eat canned salmon and soda crackers, and wash them down with water, and I insist that when a husband comes home from his arduous labors in the clanging mart, so empty that his watch chain makes a clanking sound when it flaps against his spine, he should have warm victuals, something he can consume with pleasure and pride. The fact that you had an invasion of callers is a cheap excuse."

"My sainted mother never would have permitted any callers to interfere with her management of the cook-stove. She realized that her old man kept the sheliang going, and that he should have the right of way. If any old hens happened to be in the house when grub time approached, my mother would request them, firmly but respectfully, to chase themselves, and if they didn't like it they could lump it. When my father came home from his work, the bay was always in the manger for him, and he never had to wait five minutes for a meal."

"The day before yesterday, when I came staggering home, faint and weary from my herculean efforts to make both ends meet, you told me another story. It was to the effect that you had been downtown sizing up a shipment of new spring hats, just received at the millinery foundry, and you were so interested you forgot the lapse of time, and didn't get home in time to cook anything. But you flashed a winning smile at me, and said it wouldn't take you ten minutes to warm up a can of beans, and there was some cold coffee left from breakfast, and you had plenty of smoked herrings on hand."

"Doubtless I should have burst forth into boisterous laughter over this entertaining anecdote, but somehow it didn't appeal to my sense of humor. I was so busy that day I hadn't time to eat anything at noon, and all the way home I was hoping you would have a porterhouse steak about three inches thick, and a raft of boiled potatoes, and perhaps a slab of mince pie as an epilogue."

"The day before that, when I came home as hollow as a bass drum, and fairly gnashing my teeth with hunger, you related a humorous story to the effect that your club didn't adjourn on time that afternoon, and you didn't get home until late, so I would have to get along with a picked-up supper. If I would be patient a few minutes, you said, to make the story seem more spicy, you would boil an egg for me, and there was cold corn bread in the cupboard."

"Such stories, Mrs. Jamesworthy, may seem highly amusing to an innocent bystander, and I have no doubt they would make a great hit if written up and printed in London Punch, but there is something wrong with my sense of humor, or I am at the wrong end of the stories. Anyhow, I can't gurgle over them as I do over Honeybug's yarns."

His Status.

"That man is a human snake." "Why, he is one of the big copper kings." "Exactly what I said, only in other words. He's a copper head."

Letter Printing Machine.

We wonder what the Tee and Pee plans doing toward re-placing the freight depot at Colorado.

As The Record sees it, the slogan to reduce the cotton acreage has passed the theoretical stage. It has passed to that of a physical necessity.

To be sure this city sorely needs an adequate sewer system, but men, we must first provide a water supply. It requires water to function the sewer.

As time of the election for nominating four members on the school board draws near, we should become more interested in placing capable and progressive men in those offices. The school children are entitled to benefit from the best in this matter.

The State Legislature and the West Texas Chamber of Commerce state with emphasis that location of the West Texas A. & M. shall be made solely on merit, and that no financial or political consideration shall be entered in the negotiations. Of course, that is the only equitable way to do the job. Colorado, along with scores of other West Texas cities, will invite the locating committee to note her merits for the college at the proper time.

Repairs are badly needed to the South Colorado bridge over Colorado River and unless made soon this property of the city will deteriorate rapidly. In a number of places the floor of the structure is becoming badly worn away and the running boards have already served their usefulness and are worn away.

S. S. Henry, the magician, will appear at the High School auditorium Monday night in the last number of the Dixie Lyceum course at Colorado this season. Henry will very probably bring to the city the best number of the five and will appear before a crowded house. An idea of the stage equipment carried by him may be ascertained from the following information written from Del Rio to Prof. E. F. King. "We carry six large trunks, over half a ton of baggage and need from three to five hours to unpack and set up for the show."

"Colorado Maid Shirts" is the trade mark name of a new product of this city and the new enterprise, announcing for business last week under the management of W. A. Grubbs should be entitled to both the moral and financial support of the public. Mr. Grubbs, who is proprietor of the Colorado Mattress Company, has just added a shirt department to the factory and will manufacture dress shirts to order. This department is in charge of an expert recently of Fort Worth. One of the prime essentials in building up Colorado is to patronize Colorado industries.

That there are some folks who have an axe to grind is indicated in the following article carried on the first page of the Loraine Leader last week:

"Several cases of small pox have appeared in Loraine and surrounding country. But officers have them isolated and it is thought there is very little danger of the disease spreading much. Doubtless the disease was brought here from Colorado where it has been raging for some time." The facts are, small pox is not now raging, nor has it in the past, in Colorado. The Record regrets such a policy. We are for the best interests of Loraine, as well as other

towns of Mitchell County, and renew the invitation to Editor White to cooperate with us along those lines.

The Civic League is superintending a clean-up campaign in Colorado this week and visible results of the work of these ladies along that line are to be noticed throughout the city. Members of the league made a thorough inspection of the city, calling attention of property owners and tenants to such premises that become unsightly on account of an accumulation of weeds and refuse and making requests that their clean-up campaign, inaugurated the first of the week, be complied with. These ladies not only pointed out the unsightly places of the city, but went out better and furnished wagons for removing all trash and refuse to the dumping grounds. Three of these wagons were started Wednesday. The city of Colorado, like all other towns and cities, owe much to the initiative of the women in realization of greater civic, educational, moral and other attainments.

AIN'T IT TRUE?

It may be a mansion,
 It may be a dump,
 It may be a farm—
 With an old oaken bucket.
 It may be a palace,
 It may be a flat,
 It may be a room
 Where you hang up your hat.

It may be a house
 With a hole in the floor—
 Or a marble hotel
 With a coon at the door.

It may be exclusive,
 Or simple, or swell,
 A wee bit of heaven—
 Or a little well—

Just kindly remember
 Wherever you may roam,
 That Shakespeare was right, kid—
 There's no place like HOME!

A BARE FACT.

Two ladies gay met a boy one day,
 His legs were briar scratched,
 His clothes were blue, but a nut
 brown hue.

"Why don't you patch with colors to match?"
 They chuckled, "Why not in blue?
 Come, don't be coy, my blue-eyed boy."

"Speak out," and they laughed with glee,
 And he blushed rose-red while he bashfully replied;
 "That ain't no patch—that's me!"

EVERY DAY PROVERBS.

Order is heaven's first law.
 Time once lost never returns.
 Diligence is the mistress of success.

Cut your coat according to your cloth.
 Resist temptation till you conquer it.

Idleness is the parent of many vices.

Every man is the architect of his own fortune.
 Catch not at the shadow and lose the substance.

Write inquiries in dust, but kindness in marble.
 To see what is right and not do it, shows a want of culture.

Mystifying.

When does the five-fifteen leave?
 Quarter past five.
 Thank you—you see, I got all mixed up on the change of time.

There was a crash of dishes from the kitchen.

"Jack!" screamed her mother.
 "What are you doing?"
 "Ain't doing nothing, mother," said Jack calmly. "It's all did."

A Swede entered the postoffice in a northeastern town and inquired: "Bane any letters for me today?"
 "What name, please?"
 "Ay tank de name is on de letter!"

Fishing Only.

"Any fishing around here?"
 "Some," answered the barefoot boy.
 "What do you catch?"
 "You said fishing, not catching."

Clerk—Do you want a narrow man's comb?
 Homer King (gravely)—No! I want a comb for a stout man with rubber teeth.

Best carbon paper made, for pencil or typewriter. Also have it in large sheets.

Paper files, Letter Files, Hooks, fountain pen ink, T. W. Ribbons and full office supplies at the Record office.

"Yes," confessed Jack, "while I was not looking Tom kissed me."
 The Bunch—"And what did you do?"
 Jack—I failed to look at him the rest of the evening."

IF YOU NEED—Shafting, pulleys or hangers for repairs at gins or for any machinery, call at the Record office. We have a lot that we will sell at less than half price, as good as new

DR. L. R. SCARBOROUGH,
Chairman Conservation Commission
Baptist 75 Million Campaign

Dr. L. R. Scarborough, who was general director of the Baptist 75-Million Campaign, and who was later elected chairman of the Conservation Commission that is seeking to conserve all the interests of that campaign, has issued a report from the Nashville headquarters showing the various interests that have profited from the \$18,851,100.68 collected on campaign pledges up to Dec. 1, 1920.

With its receipts of \$2,958,808.07, the Foreign Mission Board has added to its territory five new provinces in China and made the beginning for opening up work in the new fields of Spain, Hungary, Roumania, Jugoslavia, and the Ukraine in Russia; strengthened its work in Syria and Palestine, made a beginning in Eastern Siberia, added 100 new workers to its force of American missionaries in foreign lands, provided new houses of worship, hospitals, schools, publishing plants and other institutions needed in the prosecution of missionary work. What is of even more importance, in the estimation of Secretary Love, is the completion of many institutions and undertakings that had been held up for lack of funds.

Home Missions Doubles Budget
By reason of the larger receipts from the campaign, the Home Mission Board has been enabled to practically double its annual budget for its work of evangelism, church building, work among the foreigners, Indians and negroes, mountain mission schools, enlistment, and general mission work in Cuba and Panama. The appropriations to evangelism have been practically doubled, those to church building increased between 500 and 600 per cent, those to the mountain schools, forty in number, 100 per cent, and those to the work of enlisting undeveloped churches, 300 per cent.

In the realm of state missions, which embodies such work as providing missionaries and other special workers for needy fields within the states and aiding weak congregations in the building of houses of worship, the advance made possible by the campaign ranges from 25 to 100 per cent in the eighteen states of the convention territory.

Returns to the Conservation Commission by forty-five of the Baptist institutions of learning which are sharing in the returns from the campaign, show that they have received \$2,713,756 so far. Of this sum, \$1,640,000 has been expended on improvements, \$400,000 has gone to endowment, several hundred thousand dollars in old debts have been wiped out and other improvements are under way.

Ten New Hospitals Provided
Southern Baptists were operating fourteen hospitals when the campaign began, and as a result of the new interest in this work aroused by the campaign ten additional hospitals have been launched. These hospitals have received \$1,111,439.45 from the campaign so far, while local communities in which the hospitals are located have subscribed approximately \$2,000,000 additional. The hospitals have practically \$1,000,000 in improvements under way. The seventeen Baptist orphanages have likewise come in for much larger support as a result of the campaign, their receipts from this source being \$1,018,798.67. As a result of this income the orphanages have been enabled to make improvements valued at \$325,000.

The work of adding aged preachers is a new one among Southern Baptists as a whole, but as a result of the campaign the Relief and Annuity Board has received \$408,148.82 from that source and \$300,000 from Mr. Rockefeller, Sr.

I have fed you for 35 years, now I want you to sleep with me 35 years.

OUT BUFORD WAY.

Last Thursday evening the farmers of the community gathered at the school house to perfect an organization of the local Farm Bureau. The following were elected officers: I. K. Galey, president; Bradley Jones, vice president, Ewell McGuire, secretary.

Mr. Baldwin and Mr. Dulin were out from town, and gave us some interesting information concerning the future of the organization.

One thing we are sure of, and that is, the county secretary, Mr. Baldwin is the man for the job, we know his heart is in his work, and that he's going to make it hot for Mr. Profiteer.

We are glad to note the fact that most every one of the flu victims are much improved and most of them up and about again. Mr. Sam Franklin and five of his family were sick at one time this past week end, but they are doing fairly well at this writing.

Bro. Leach came Saturday night and brought with him Bro. Welsh and wife. Bro. Welsh is a young man, just starting out in the ministry. He talked to a small but attentive audience about the training of children, the future citizens of our county, state and nation. He is to be commended for his splendid efforts and may God's blessing be his.

As he begins the life of a minister of the Gospel. May he so re-consecrate himself to God's service, that when disappointments, troubles and sacrifices come, as they will, may never discourage him but find him at his post of duty always.

Bro. Leach preached at the 11 o'clock service to a house full of folks from one of Paul's letters to the Colossians, concerning the Trinity, the Creator and the wonderful God that we have the privilege of serving.

A most enjoyable hour was spent in the Sunday school class rooms, talking about the many interesting features of the Lord's Supper.

Bro. and Mrs. Hines had Bro. Leach in their home to eat Sunday dinner with them.

Mr. McCrees of Union, and little Miss Emmagene and Master Willie Mac Turner of Sylvester were visiting in the Reese Bedford home Saturday night, and in the McGuire home Sunday.

The committee in charge of the Easter program announced that they were preparing to have some Easter selections, readings and other features along with the singsong. Easter Sunday at 3 o'clock, we are expecting some visitors and those that can conveniently do so are requested to fix as many Easter eggs as they can to be turned over to the committee. Let's have lots of rabbit eggs, and enjoy the evening as we should.

The school teachers announce that the month end program at the school house is to be real good this time. Miss Elliott says she believes this feature of school work is just as instructive as any other part, and should have the sanction and support of the entire community. Our school is going good and children are learning. We trust that nothing will come up to mar the school year. The program is to be Friday night before Easter.

Bro. Leach preached Sunday night again about the greatness of God and then Monday morning, as had been announced. Bro. Hardy from Sweetwater, the presiding elder of this district preached for us at 11 a. m. on "The Atonement," emphasizing the fact that he thought Christ the Divine suffered on Calvary, as well as Christ the human. All told, the four splendid sermons we have heard were worth any sacrifice we might have made to hear.

After preaching we had more dinner to spread than you could "shake a stick at." There were visitors from Dunn. Everybody seemed to enjoy the splendid dinner that the good ladies had prepared.

Bro. Harding and Bro. Walton administered the sacrament, then we had quarterly conference. About \$117 was raised on the charge for this past quarter.

The Mothers Club had intended to meet but because of other things, the meeting will be postponed one week. That is, till March 2nd.

The Farm Bureau will meet at the school this coming Friday night. Important matters are up for decision, and every farmer is expected to be there.

Death of H. M. Berry.

Tuesday morning when the telephone rang and the word came over the wire that H. M. Berry, better known as Manuel, was dead, his multitude of friends bowed their heads in deep sorrow, his death came as a shock, even though we knew that he had been critically ill since Saturday but we hope for the best. H. M. Berry was born April 25, 1885, in Palo Pinto county, near Mineral Wells, and died March 15, 1921 at Colorado. He was converted in the year 1907 and united with the Baptist church, and lived a consistent Christian life until he was called to his heavenly reward. He was married to Miss Hattie Petty in July, 1918; to this union one little girl was born; his pride, his life, his every thought was of his family, always so kind, gentle, and thoughtful of them, and a friendly smile for every one. He was a man in every inch of the work, ever ready to take part in every enterprise that was unifying and unbuilding to the community. But his kind words, his noble deeds, his gentle voice are now in the past, although they live in the memories of the friends of his loved ones.

having taken sick Saturday morning about 3 o'clock. He was hastened to the sanitarium at Colorado, where he underwent an operation for appendicitis, and all was done for him that loving hands could do, but to no avail. On Tuesday morning he passed out into the great Beyond, and is now with his mother, who received her eternal reward during his early childhood, and his sister, who preceded him one year. Funeral services were conducted by his pastor, Rev. A. D. Leach, at the Baptist church, after which his body was laid away to rest in the W. O. W. cemetery at Westbrook beneath a mound of beautiful flowers.

He leaves to mourn his departure a wife, Mrs. H. M. Berry, and little daughter, Wilma Jean, a father and step-mother, Mr. and Mrs. H. B. Berry; five brothers, J. D., J. W. Berry of Westbrook; Vester Berry of Roff, Okla.; John A. Berry, of Paris Island, S. C.; and Woodie Berry; six sisters, Mrs. N. E. Simpson, Mrs. Mapo Johnson, Misses Viva, Wanda, Agnes and Ocie Berry.

Miss Maja is the daughter of Mr. and Mrs. G. J. McKinney. She has made Westbrook her home most all of her life, and has a host of friends. Mr. Stevens is a prosperous young farmer. TO THE COTTON GROWERS OF MITCHELL CO.

You must reduce your acreage, cut cost of production, and grow a staple of cotton that will sell, if your 1921 crop is to show a profit.

There is an enormous carry-over, most of this is low grades and short staple.

The man who produces that kind of cotton this year will find little or no demand for it next Fall; but there is always a strong demand for strong and uniform staple of 1 1-16, to 1 1-8 of an inch and such cotton will be taken first next fall at top prices.

You must produce the cotton at the lowest cost, the one factor which will make the largest showing for the least outlay is **GOOD SEED.**

This Bank has secured a limited amount of the Lone Star Variety of Seed, which has been tested in this section of the country, and is the best seed adapted, for heavy yield in wet years as well as dry ones.

The seed offered is as pure as can be obtained, doubly cleaned and in three-bushel sacks, ready to be delivered at the price paid per bushel by this Bank. It is our desire to assist the farmers, and by this method we hope to encourage them in every way possible along toward prosperity.

Kindly place your order with Mr. J. M. Helton, W. A. Dulin, or leave your order at this Bank. *It pays to buy the best—place your order!*

WEST TEXAS CHAMBER OF COMMERCE DIRECTORS MEET.

The first meeting of the board of directors of the West Texas Chamber of Commerce for the current year met in executive session Monday at the Chamber of Commerce at Abilene. Thirty-five of the forty directors were present and Clifford B. Jones of Spur, president, presided at both the morning and afternoon sessions.

Porter A. Whaley of Stamford was re-elected general manager of the chamber for the ensuing year, and on his recommendation the directors voted to continue the entire office personnel of the organization. An exhibit manager is yet to be named to take the place of J. C. Wells, elected as manager of the Del Rio district.

Homer D. Wade of Stamford was named to draw up resolutions commending Governor Neff for the constructive measures which he presented to the Legislature, felicitating him for his good work in office and urging him to include recommendations for re-districting the State in his message to the special session of the Legislature.

The morning session was taken up largely in routine business and was followed by a luncheon given by the

Lions and Kiwanis Clubs at the Grace Hotel dining room. Hon. Dallas Scarborough, mayor of Abilene, presided as toastmaster at the luncheon, and Hon. Jas. P. Stinson, attorney of Abilene, made the principal address in behalf of the hosts.

The afternoon session of the board was held at the Elks Club. At this session endorsement of a trade excursion into Mexico was given and Ed. P. Byars, manager of the Traffic Bureau of the chamber was authorized to ascertain the cost of the trip and arrange the details thereof.

General manager Whaley stated that there would be held in the City of Mexico June 8 and 9 an international convention of business men, which was expected to be the biggest meeting of its kind ever held in North America, and that the trade excursion would be made to that meeting.

The trade excursion will be fostered by the West Texas Chamber of Commerce for the purpose of extending the trade territory represented by the chamber, it being shown that throughout most of the Republic of Mexico the country was in a semi-devastated condition as a result of the several years of war and banditry, and that cattle for re-stocking the large ranches and cotton, sorghum, and other grain crops of West Texas for which there is not now a profitable market were also in demand by the people of that Republic.

The organization also went on record as strongly favoring retention of the border military stations and letters will be written to Texas senators and congressmen urging the continuance of the stations.

Commendation of the efforts of the Texas Bankers Association to eat the cotton acreage in the state was unanimously given. It was also voted that in case the state legislature determines to make a tour of this portion of the state, the necessary invitation will be issued by the West Texas Chamber.

General Manager Whaley stated that he would keep the different cities represented in the organization apprised of the matter from time to time.

The budget for 1921 called for an expenditure of an increase of fifty per cent over the preceding year.

The proposed budget in detail as read by Manager Porter A. Whaley, represents an outlay of \$74,939.00, to be spent by the West Texas Chamber of Commerce during the ensuing year, which is a \$25,000 increase over the past year.

The burden of raising the money with which to carry out this magnificent budget falling upon the executives of the West Texas Chamber of Commerce and realizing this feature of the budget, organization manager W. H. Wheeler, of Fort Worth, very briefly explained the ability of the various district organization managers to put the financial end of the proposition over, and recognizing the ability and efficiency the directors unanimously adopted the \$75,000 budget asked for by the manager.

Called upon by the president, Mr. Reagan, of Big Spring, briefly explained the splendid and efficient work that the West Texas Chamber of Commerce did in helping to put over the bill at Austin, creating a West Texas A. & M. college. Mr. Reagan gave a graphic description of turning the clock back during the closing hours of the legislature, calling representatives back after they had boarded trains for their homes, and putting the bill over in grand style before the law makers adjourned.

Manager Whaley explained to the directors that the new A. & M. college will be located strictly according to merit and that it is stipulated in the bill that no inducement of money will have anything to do with locating the college. "The West Texas A. & M. College will be located absolutely on merit," said Mr. Whaley, "and the West Texas Chamber of Commerce is well pleased with the work at Austin of Representative Cox of Abilene and with the work of the Abilene Chamber of Commerce. Besides the excellent work put over by the representatives of West Texas in the legislature, I want to say that the substitute bill introduced by Representative Cox is a better bill than the original one."

"I want also to mention Homer D. Wade of Stamford who was very influential in helping to put the A. and M. bill over. Senator Brelsford of Eastland formerly president of this organization, also materially aided. He got up from a sick bed and spent four days in Austin in the interest of the bill. George Sheppard of Sweetwater and Mr. Williams of Ballinger, also deserve praise for their work on the A. & M. for West Texas. In fact, everybody in West Texas seemed to have played a part in putting over the West Texas A. & M. Bill.

"The location of the college will be put over this summer I understand and it behooves everybody to back this proposition absolutely on merit. I want to express to you our appreciation of the splendid work of Mr. Woodall, whom the West Texas Chamber of Commerce employed to represent the organization at Austin during the legislature that has just come to a close. We are well pleased with his work at Austin.

Recognized by the chairman, Homer D. Wade of Stamford, mentioned additional names, to whom great credit is due for the passage of the West Texas A. & M. bill. "I refer to Mr. Chtwood of Sweetwater, whose speech before the house on the A. & M. bill was very effective. Hill, of Wheeler, deserves praise, as he never stopped his work until the bill was put over. Our own representative, Rowland, of Jones County and Satterwhite of Amarillo, were very effective with their work during the fight; but the man who was on the firing line in the Senate was W. H. Bledsoe of Lubbock. Mr. Bledsoe was a beautiful and artistic and eloquent, diplomatic argument and he showed his ability as a speaker and won the fight in the Senate. The Senate amendments to the bill also strengthened it. It was the work of the men who took the floor that did much in putting the bill over. Suffice it to say the results of the efforts of the West Texas Chamber of Commerce are that West Texas will have the A. & M. College."

Date of the next convention, which is to be held at Plainview, was changed from a date to be fixed early in next year until some time between April 1st and June 1st, 1922, exact date to be designated by the president and general manager. This plan was adopted on account of more favorable weather at that time.

The business session adjourned at 4 o'clock Monday afternoon and the visitors were carried in automobiles for a drive over the city and to Lake Abilene, a large engineering project recently completed, eighteen miles from the city. Lake Abilene is one of the largest artificial lakes in West Texas and being located at an elevation of 400 feet above the city, the water supply will be carried into Abilene by gravity force.

The benefit program at the Opera House Friday and Saturday featuring "Every Woman" is a Super Production Paramount picture. An unusual comedy, Fatty Arbuckle, in "The Bell Boy," will also be shown. Benefit American Legion.

AMERICAN LEGION BENEFIT PROGRAM TODAY AND SAT'DAY

An unusual program in motion picture production will be shown at the Opera House Friday and Saturday nights March 18th and 19th, under auspices of Oran C. Hooker Post, American Legion. A comedy of unusual merit, Fatty Arbuckle in "The Bell Boy," will also be shown.

Directors of the Legion Post, who were convened Tuesday afternoon to arrange for the benefit show, stated that this feature and also the comedy were being billed for Colorado at considerable expense and promised to furnish instructive and pleasant entertainment for all theatre goers who appreciate the best in motion picture production. "Every Woman" is an all star cast, Paramount picture.

Special orchestra music will be furnished by the Colorado band at both the Friday and Saturday evening shows. A matinee will be given Saturday afternoon at 2:30 o'clock.

The public is urged to co-operate with the former service men of Colorado and Mitchell County in this endeavor to raise funds for benefit of the local post. The pictures are expected to be shown to crowded houses each night and you are urged to come early.

Something Like a Bugler.

Two darkies in a negro regiment were boasting about their company's buglers.

"Go on, you boy," said one, "you ain't got no bugler. We is got the bugler, and when that boy wraps his lip around that horn and blows pay call, it soun's like that one the

Boston Symphony band plays, "The Rosary."

"Yeh, I heard you," replied the other. "Talk up, boy; talk up. You is wadin' deep in trubble; an' when he sounds at tapoo the angel Gabriel hisself is lending a ear, boy—a ear is what I says. Well, if you is beerin' for food, ye wants a bugler with an hypnotic note like we is got. Boy, when I hear old custard mouth Jones discharge his blast, ah looks at mah beans and ah says, 'Strawberries, behave you'self. Yo' is crowding the whip cream out o' mah dish.'"

Quick to Retrieve.

Jackson came tripping into his tiny hall one day and almost spoiled his manly duty by tripping over someone's shoes left lying about. "Whose ferryboats are those in the hall?" he asked later when he entered the drawing room. "Ferryboats? why those are my shoes," cried his mother in law angrily. "My dear good ma," Jackson said hurriedly, "who said ferryboats? You misunderstood. Fairy boots, you know, fairy boots." And then he wiped the sweat from his brow.

CUTHBERT NOTES.

Folks seem to be enjoying their usual health now, except a few have colds. Too, some have been trying to carry themselves around on litterers because of some stunt which they did not pull as smoothly as they had hoped. Paul Reeder got his feet hurt because a boy laughed at

him. Miss Bozeman tried to fly like a Dutchman and had a collision with another "flying Dutchman." Mr. King tried to balance himself backward on a trapeze, but instead he "turned on over" and trying to protect his upper story, caused his hand to be stove up. But we are glad to report all convalescing.

Did you know that it takes courage to refuse to do a thing which is wrong because others do it, or because it is customary and done in trade?

To remain in honest poverty while others grow rich by questionable methods which you could easily use yourself?

To live according to your conscience and convictions. To be what you are and not pretend to be what you are not?

Mayor Bozeman was in Colorado Saturday.

Mrs. J. A. Wilson is off this week and next, to visit in Waco.

J. A. Wilson made a flying trip to Colorado Monday evening.

G. W. Goodwin attracted some attention Monday afternoon by burning the weeds in a part of his pasture.

J. T. Bristow moved this week to Lamesa. Our loss is Lamesa's gain.

Thru an oversight we failed last week to mention that our blacksmith, Mr. Standefer, has arrived. He is, or at least seems to be, well acquainted with his work. We believe he and his family are a valuable asset to the community.

They have begun work at the Dr. Coleman well.

We were over at the Reynolds well Sunday and saw some gas. There was not a gusher, indeed it was not escaping continuously. But at very short intervals the gas could be seen plainly coming out of the well. The

well is about two thousand feet deep. To be exact, nineteen hundred and fifty feet.

Cotton still goes thru our city to the gin.

The Misses Bozeman and Mr. King Sundayed at Mr. John Brown's.

We had the largest attendance yet at Sunday school Sunday. Several visitors. Come again.

C. C. Cornet entertained the young people of this community with a pound supper last Saturday night. Everyone had an enjoyable time, except D. Burrus and Frank Womack, and they are not expected to.

Rae Womack and his sister Miss Bertie, of Colorado visited Charlie Saturday night and Sunday.

Mr. and Mrs. Samples of Snyder Sundayed at G. W. Womack's.

Rev. Dunn preached after Sunday school to an attentive audience.

Mrs. E. Womack of Colorado spent the week end with her sister, Mrs. Myrtle Womack.

Mr. and Mrs. R. Caruthers of Barnhart, Texas, are visiting relatives here, and expect to move here soon.

C. H. Caruthers spent last week at Barnhart, Texas.

C. E. Jenkins is getting ready to move to Henrietta, Texas.

Sam Morris of Simmons College, Abilene, will reach here Sunday.

Mrs. G. L. Caruthers and her infant, G. L. Jr., of Barnhart, are visiting at C. H. Caruthers.

Miss Hettie Bennett of Snyder visited Miss Lesbia Womack.

Mr. and Mrs. W. O. Wellborn visited at G. W. Womack's.

Doc Simpson's eye which was hurt by a flying cotton burr last week is much better at this time.

J. A. Hester spent Monday night in Snyder.

Presiding Elder G. S. Hardy of

Sweetwater preached here Monday, while the quarterly conference was in session. He made a good practical and inspirational sermon on "God's Providences." You who missed it missed a treat indeed.

The school attended preaching at 11 o'clock services Monday. Several visitors were here for the quarterly conference.

A MAN MAY BE DOWNED. When Abraham Lincoln was a young man he ran for the legislature in Illinois, and was defeated.

He next entered business, failed and was seventeen years paying his debts. He was engaged to a beautiful woman—she died.

He entered politics again, he ran for congress, and was again defeated. He then tried to get an appointment in the United States Land Office, and failed.

He became a candidate for the United States Senate, and was badly beaten.

He ran for vice president and was once more defeated. When you think of your hard luck—think of Lincoln.

L. A. GOODRIDGE GIVES OUT FACTS.

Spent Hundreds of Dollars in Search For Health—Feels Fine Since Taking Tanlac.

"Tanlac has straightened me out in fine shape and I have actually gained fifteen pounds in weight," said L. A. Goodridge, 1106 Corby St., St. Joseph, Mo.

"For five years I had suffered from stomach trouble and nervous indigestion. Gas began to form on my stomach almost immediately after eating and I had sharp shooting pains in the region of my heart. There always was a terrible pain in my right side, and I was told several times I had appendicitis. I had severe headaches just about all the time. Although I took about every sort of medicine I could hear of, and spent hundreds of dollars trying to get relief, I kept getting worse.

"When I had taken only one bottle of Tanlac I noticed an improvement in my condition and I kept getting better until now that pain has left me entirely. My appetite is splendid and I can eat anything I want, the pains are gone from around my heart and I am bothered so little with gas, I hardly notice it. I never have a headache or become dizzy any more, and I feel so good all the time I never lose a day from my work on account of sickness. My improvement since I began taking Tanlac is simply remarkable, and I will never be able to say enough for it."

Tanlac is sold by leading druggists everywhere.

"KATE."

There's something in the name of Kate

Which many will condemn; But listen now while I relate The traits of some of them.

There's deli-Kate, a modest dame, And worthy of your love, She's nice and beautiful in frame. As gentle as a dove.

Communi-Kate's intelligent, As we may well suppose; Her fruitful mind is ever bent, On telling what she knows.

There's intri-Kate, she's so obscure 'Tis hard to find her out, For she is often very sure, So put your wits to rout.

Prevari-Kate's a stubborn maid; She's sure to have her way; The cavilling, contrary jade, Objects to all you say.

There's alter-Kate, a perfect pest, Much given to dispute, Her prattling tongue can never rest, You can not her refute.

There's dislo-Kate, in quite a fret, Who fails to gain her point, Her case is quite unfortunate, And sorely out of joint.

Equivo-Kate no one will woo; The thing would be obscure, She is so faithless and untrue, You can not take her word.

There's vindi-Kate, she's good and true; And strives with all her might, Her duty faithfully to do, And battles for the right.

There's rusti-Kate a country lass, Quite fond of rural scenes, She likes to ramble through the grass, And through the evergreens.

Of all the maidens you can find, There's none like edu-Kate, Because she elevates the mind, And aims at something great.

TRUE FRIENDSHIP.

A queer tale of the extraordinary friendship existing between a gander and a blind ox, was told.

Each day, so the story goes, a stately gander, with his breast full of sympathy, and his head full of responsibility, leads an aged and totally blind ox to a nearby pond of water. The gander walking just in front quacks now and then in order that the sightless ox may follow, and when the pond is reached he stands guard while his protege drinks his fill.

When the ox has finished drinking, the gander leads him back to the field.

Works Quick.

Some Close Races.

An Englishman, Scotchman and an Irishman were indulging in reminiscences of sporting occasions. "The closest race I ever saw was a yacht race," deplored the Englishman, "in which one of the boats that had been recently painted won by the breath of the paint."

"The closest race I ever saw," declared the Scotchman, "was one in which a horse, stung by a bee, won by the width of the swelling on his nose."

"The closest race I ever saw," said the Irishman, "is the Scotch."

3 SECTIONS CITY EXEMPTED FROM "CHICKEN ORDINANCE"

Petitions filed by citizens of Colorado asking that certain sections of the city be exempt under the "chicken ordinance," were passed on favorably by the City Council Monday. Districts in East Colorado, South Colorado, and in the north and northwest sections of the city are affected in an order passed removing the enforcement clause of the ordinance.

Two petitions had been filed with L. A. Costin, city secretary. One of these was signed by 79 citizens of East Colorado and the other by 87 citizens residing in the west and the northwest districts of the municipality.

Designating a point commencing on the Texas & Pacific railway, midway between Oak and Walnut streets the Council declared a line running north along the alley between these two streets to an intersection of 10th Street; thence east to city limits, and from there south to Lone Wolf creek. From here the line follows the meander of Lone Wolf to the railroad, and thence west to place of beginning.
