MINUTES EL PASO PRESBYTERY ISSUED FROM RECORD OFFICE.

Minutes of the El Paso Presbytery for the fiscal year ending March 31 are being issued from The Record office this week. The semi annual meeting of the Presbytery was held recently at Big Spring and reports from the several churches were received amid plaudits of enthusiasm, according to Rev. Guy B. Duff, pastor of the First Presbyterian church of Colorado. These reports showed that the churches throughout the district were doing excellent work in all

departments. In the statistical reports, it is shown that collections for all purposes during the year approximated \$40 per member. Of this amount more than the equivalent of \$15 per member was expended for benevolent purposes.

It is commendable to note that the church at Colorado, with a membership of 65, contributed a total of \$9,991 for all purposes during the year. This was an average of \$154 per member, an increase of \$114 per member over the average for the district.

BANKHEAD HIGHWAY ROUTE MORE CLEARLY DEFINED.

An amendment to the constitution, naming the towns through which the Bankhead Highway passes, has been ratified by the National convention in session at Greensboro, North Carolina, last week, according to a telegram received from Judge DeArmond of Midland, who attended as delegate.

This amendment settles any controversy that might be pending for the purpose of changing the route. It means that Colorado is on the Bankhead Highway for good.

BOOSTER CLUB BANQUET TO BE HELD TUESDAY NIGHT

"We are going strong on the prediction that the third monthly meeting of the Colorado Booster Club, to be convened Tuesday night of next week at the Coe Building, will be the most successful meeting of its kind in the history of Colorado," W. W. Porter, president of the club, stated Wednesday afternoon. Porter based this prediction upon reports of interest in the club among the business and professional men of Colorado.

"That the attendance of 114 registered at the last meeting will be materially increased, I have not the least doubt," Porter continued, in discussing the coming smoker and banquet Tuesday night. "I am expecting that we shall have a number of new members to welcome into the club, and of course all those who attended the last two stunts of the club will be on hand. I shall be disappointed if we have an attendance of less than one hundred fifty boosters of Colorado and vicinity.

W. R. Charters, chairman of the committee on entertainment, stated Tuesday that arrangements had been completed for the banquet to be served by prominent club women of the city, comprising members of the Women's Auxiliary, of the American Legion. These ladies had not completed details Wednesday for this feature of the meeting and it was not known definitely where the eats would be served. It is expected, however, that tables will be provided in a room in the Coe building, adjoining the auditorium in which the meeting is to be convened.

J. Lee Jones, director of the Colorado Booster Band, stated Tuesday that the boosters could feel assured of a most interesting concert Tuesday night. Several practice meets have been held recently by the band at which time music especially selected for the Booster Club Concert was used.

Considerable interest will center around reports to be made at this meeting by committees appointed in March to compile data on three projects for the city that are being fostered by the Booster Club. These are the damming of Lone Wolf creek near the city to impound a large lake of water, the laying of sewer mains and an extension of water mains.

Dr. P. C. Coleman, chairman of the committee to furnish an estimate on cost of these proposed projects, stated Wednesday that consulting engineers employed several days ago had practically completed the taking of profiles for the dam site and sewer mains and would commence printing of blue prints at an early date. Just as soon as this work is completed an estimate of the cost to be incurred in financing these two projects will be made.

Another committee, composed of attorneys of the city and of which Judge C. H. Earnest is chairman, is to report its findings as to legal conditions to be met in financing the proposed projects. Still another committee, one appointed to negotiate with land owners the probable purchase of the proposed lake site, is to report at this meeting. The latter committee is headed by C. M. Adams as chairman.

There will be accommodations for one hundred and fifty men at the banquet and in that no one desiring to attend be disappointed, reservations should be made as early as possible. Reservations may be made with W. R. Charters or W. S. Cooper, and, remember that when one hundred and fifty plates are sold, others to come will be disappointed.

AMERICAN LEGION SECURES \$30 FROM BENEFIT PROGRAM

Joe Y. Fraser, commander of Oran C. Hooker Post, American Legion, stated Tuesday morning that approximately \$30.00 was realized from receipts of the benefit program given Thursday night of last week at the Opera House.

BON TROMP.

Bon Tromp is a registered thoroughbred stallion, foaled in 1915 and has been racing since a two year old. His last race was in February of this year, when he was purchased by the Remount Service. He is a horse of proven speed and endurance; his last races being at the distance of a mile.

Bon Tromp is royally bred. His sire is Von Tromp who was sired by the famous Ben Brush, and it is the Ben Brush blood that is producing winners today. On his dam's side his great grand sires are St. Himon and Hindo. St. Himon blood will probably never be equalled and Hindo carries the blood of Virgil, Vandal and Lexington.

Bon Tromp will probably breed speed, but he will also breed the more important quality of substance. He is 15 hands, two inches in height, of an excellent type and resembles Ben Brush.

Bon Tromp should sire colts of very great ability for any purpose, having substance, courage and stamina.

Bon Tromp will be handled this season by Mr. D. H. Snyder at the Bell ranch, Colorado, Texas, and a few additional mares may be served by application to Mr. Snyder.

I have had this horse at my residence now for several days and find him with abundance of quality, and am of the opinion there is no better bred horse in the Southwest. He belongs to the U. S. government.

A THRILLING PRODUCTION—Embodiment of the Famous Dramatic Story of the same Title, accompanied by a Selected Orchestra of Symphony Players

NOTE—Owing to cost of production and ironbound contracts, "Way Down East" will never be presented anywhere except at First-Class Theatre Prices

People stand up nightly to cheer the thrilling scene in which Richard Barthelmess as David, rescues Anna Moore as portrayed by Lillian Gish, from the ice floe at the climax of D. W. Griffith's wonder spectacle "Way Down East". "Way Down East" was prepared from the Lottie Blair Parker-Joseph R. Grismer classic of the American theatre for 22 years, and the scenario is by that rising young American dramatist, Anthony Paul Kelly. The production represents 10 months' work by Griffith and his assistants. They braved all sorts of dangers in order to make this work worthy of his effort. Nothing to equal the snowstorm scenes has thus far been shown to the theatregoers of America. These scenes are the acme of realism, and the great rescue scene from the ice floe stands alone as an achievement in any part of the world. Griffith with his usual attention to detail, has contributed a great many minor incidents, each one beautifully photographed and each having some bearing, even though remote, upon this striking story. Lillian Gish, who has the part of the unhappy Anna Moore, turned from her home in a snowstorm by a Puritanical and unfeeling father, has made for herself enduring fame through her magnificent portrayal of a role making tremendous demands upon vitality and upon skill. Richard Barthelmess likewise has augmented his achievements through his work as David Bartlett, a character which has been considerably amplified in this screen version of "Way Down East".

The Music played during the showing of "Way Down East" has been selected with care, and, while made up largely of melodies that are familiar, is thematic in detail.

At the Best Theater Friday and Saturday, May 6th and 7th, with Saturday matinee. One show only, each time, to begin at 8:15. All seats reserved on sale at W. L. Doss'. Night prices, adults, \$1.50; children, \$1.00. Matinee prices 50c and \$1.00

JUSTICE OR DIVISION.

(Plainview News.)
The action of Governor Pat Neff in vetoing the bill to establish the West Texas A. & M. College came like a thunderbolt out of a clear sky to the people of West and Northwest Texas. Mr. Neff, when he was making his campaign for governor, last year, made speeches throughout the western half of the state, declaring that he would if elected give West Texas a square deal. West Texas rallied to his support, and gave him a large plurality in the first primary, a large majority in the second primary and a large majority in the general election implicitly believing that he would free himself from the prejudices of Central and East Texas and really give the West for once a sure enough fair deal.

West Texas is supporting him in the efforts he is making to punish and eradicate crime, for West Texas is made up of a citizenship that is clean and law-abiding.

But, instead of giving West Texas a square deal; instead of being grateful of the support West Texas gave him, and but for which he would not now be governor of Texas, Governor Neff has plunged his knife into the back of West Texas.

His excuses are as flimsy as tinsel. He knows that at the democratic convention in Fort Worth the committee on resolutions was packed against West Texas and that East Texas dominated. He knows the needs and desires of West Texas were trampled under foot because we did not have a fair representation in the convention, the distance being so great that delegates from the West were unable to attend in such numbers as those living within a few miles of the convention hall.

He knows in the exercise of his duties he has already violated the recommendations of that convention, so why should he pick out the A. & M. bill and slay it, and use the excuse that it was not a recommendation of the democratic platform?

It is evident Governor Neff thinks he need not depend on West Texas for support. He will find out next year, when he will again be called upon to fight for his political life. Then he will likely come among us pleading for us to forgive and forget.

The people of the Western part of the state had set their fondest hopes on securing an A. & M. college so that our young people could have the benefits of such an education without having to go a long distance from home and where agricultural and health conditions are entirely different from those that obtain on the Plains. Six years ago, through trading with East Texas and almost selling our souls for a mess of pottage, a bill was adopted establishing a West Texas A. & M. college. But a crooked deal was pulled off in the location, and as West Texas don't stand for crookedness, a great protest was raised and the measure was repealed. Ever since then the people of West Texas have been looking forward to putting another such bill through, and by hard work they succeeded in getting a bill though not just what they wanted. It was confidently expected Governor Neff would approve. He cruelly killed it, and his excuse for doing it is an insult added to injury.

Mr. Neff seems to have all the prejudice in him that is held by the people of East Texas and especially the intense kind that is held in the Waco district, where several years ago Hale county's exhibit at the Cotton Palace

at Waco won first prize, but was robbed of it by a later ruling made, which gave the prize to a county adjoining McLennan, and one of the judges was frank enough to acknowledge that he did not propose to permit the prize to go out of Central Texas.

Texas was redistricted senatorially in 1890, and the districts formed as they are now. In 1900 there was another redistricting, but the senatorial districts were left out of the change. Since then there has been no senatorial redistricting, and our representation in the senate is the same as it was in 1890, when many of the counties in the Plains did not contain more than six or eight people, which now have towns with populations of 2,000 or more. The present 29th senatorial district in which Plainview is located contains forty-nine counties and extends from the eastern line of Clay county to Texline and west to the New Mexico state line, a distance of more than 350 miles. This district according to the census last year, contained 340,589 people. The Brenham district contained only 82,724; the Denton district 82,531; the Texarkana district 90,325, and fully a dozen of the other districts did not contain over 100,000 people. Except for the district lying just below Hale county, which contained 218,519 people, our district contained more than twice as many people as any district in the state, and three to four times as many people as three-fourths of the districts. A vote of one person in many of the districts in East Texas counts as much as four persons on the Plains. No wonder every effort of West Texas to get through legislation for its benefits is a failure, because with the power and prejudice of the peonish mercy. The law says after each of East Texas our sections are at census the state SHALL be redistricted senatorially, but at each session of the legislature many efforts are made, and always East Texas blocks the way.

West and Northwest Texas pay a larger percentage of taxes into the state treasury than the other sections and get less back. There are many counties in East, Central, South and North Texas that draw more money each year from the state school fund than they pay in all kinds of taxes into the state treasury. There is not a county in West Texas that draws as much state school money as it pays into the state treasury.

Except for the Northwest Texas State Normal at Canyon, there is not a state institution north and west of Abilene and Wichita Falls, and the people of Canyon were made to pay a bonus of \$105,000 to secure it. Dozens of state institutions are located down in the state, and millions of dollars are appropriated each year from the state treasury for their support, a large share of which is paid by West Texas.

It is simply a fight these days against taxation without representation, and is just as important and sacred as that which resulted in the famous "Boston tea party." And, it will come to as radical action unless East and Central Texas back up and begin to give West Texas a fair deal.

As said in a talk at the meeting at the bandstand today, the grand-parents of the editor of the News came to Texas when it was a Mexican province, and they fought back the Indians and Mexicans and formed the Lone Star Republic. We love the history and sentiments and tradition of Texas—and glory in the stories of

the Alamo, Goliad and San Jacinto. But those heroic times were eighty-five years ago. We live in an entirely different period, and the fact that there were heroes in Texas those days is no reason why we should stay longer mound hand and foot to East Texas. It is no reason why we should be robbed of our tax money and our political rights by East Texas. Why should West Texas be Mexicanized by

East Texas?
When the Republic of Texas became a state of the Union the Enabling act provided that whenever the people of Texas saw fit to do so they could divide the state into five states. The wise men of that day foresaw that the time would come when the state would be so large and the people's interests so varied that they could not be best administered by one centralized government, hence the provision made for the division. The time has come when that division is necessary. The interests of East Texas and West Texas, or South Texas and North Texas are often opposed to each other. What is to the interest of one section is against the interest of the other section.
If Texas were divided into four states, each section would get better laws, stricter economy would be practiced, taxes would be lower, and the law making body would be the quicker to respond to the wishes of the people.

There are many reasons why Texas should be divided into smaller units. And not only one good reason why it should not be.
The sentiment in West Texas for a division is growing and unless West Texas is given a fair deal, hates is going to break loose on these Plains and after the scrap is over Texas will have been divided into two to five states.

The News has been for a number of years been in favor of division, and as the months pass the more confirmed it is in the opinion that the state should be divided. The time is coming when it will be, and the sooner the better.
Unless the state is redistricted at

the coming session and other relief given to West Texas, including the West Texas A. & M. college, an active movement should be started to divide the state, and in every county in West Texas the people should go into the courts and mandamus tax collectors from collecting any state taxes, alleging that property of the people is being taken from them without due process of law. If we stop paying taxes East Texas will soon sit up and take notice.

It is up to Governor Neff and the people down in the state to back up, and begin to do something for West Texas, or something radical is going to happen.

West Texas wants justice and fair play—and by the eternal, she is going to have it!

To the motorist who has quit guessing about tires —

A LONG about this time of year a man finds his motor-ing neighbors getting anxious about their tires. With folks expecting old tires to "pop" any minute, there comes the question of what kind of new ones to buy.

U. S. Tires are answering a lot of questions like this nowadays.

The U. S. Tire following embraces two kinds of tire buyers.

Those who started with quality first, and have never bought anything else but the quality standard tire.

Those who came to quality first only after dabbling with "bargains," "rebates," "job lot" and "surplus stock" tires.

Getting one hundred cents value on the dollar in tire buying is a straight-forward business proposition — not guess-work or a game of wits.

The most essential man for you to know today is the local U. S. Tire dealer who is concentrating on a full, completely sized line of U. S. Tires.

He gets his U. S. Tires straight from his neighboring U. S. Tire Factory Branch—one of 92 such Branches established and maintained all over the country by the U. S. Tire makers.

He is the man who can give you fresh, live tires—not stuff shipped to him from some point where it did not sell, but new tires of current production.

Giving the same quality, selection and price-advantage to the owner of the medium weight car as the big car owner gets. With equal service and buying opportunity whether he lives in the smaller localities or the greater centers of population.

THE U. S. NOBBY TREAD

Where the going is especially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—two diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

"The most essential man for you to know today in the tire business is your local U. S. Tire Dealer."

SNYDER SIGNAL REPORTS OIL IN WELL AT DUNN.

The Snyder Signal reported the following last week in commenting upon oil development at Dunn, north of Colorado:

"J. K. Blackard of the Blackard Hardware Company, went down to Dunn Wednesday to look over the oil situation at the Dunn Oil Company, well No. 1. They have been having considerable water trouble in the well and are preparing to case off the water in order to get a better showing of the amount of oil they have.

"Mr. Blackard stated that while they drew up a number of the buckets and each time quite a bit of oil appeared in the bucket. It is said that the sand encountered is about eight foot sand. Although unable to determine just the production until the water is cut off it is variously estimated at from five to ten barrels, he said.

"It is the intention of the Dunn Oil Company to begin drilling deeper soon in order to get the next sand, which is expected at about seven hundred feet. They are now four hundred feet.

"J. W. Templeton accompanied Mr. Blackard to the well and state they were probably bailing thirty-five or forty minutes and that considerable oil was in each bailing and that the last bucket had more oil in it than the first. Mr. Templeton said they had oil but how much he did not know, but was estimated at five to ten barrels.

A sample of the oil was brought back by Mr. Blackard and is at the Signal office."

STARKE'S SUBJECT SATURDAY "WHO'S YOUR SWEETHEART?"

Dr. Lee Starke, the New York evangelist, has set apart Saturday night as "Sweetheart's night." And every sweetheart in Mitchell County, from eight to eighty-four years of age are most cordially invited to hear this great lecture. Admission free to all, and everybody invited. Dr. Starke will deliver the address, his subject being "Who is Your Sweetheart?"

The press not only of New York City, his home city, but wherever he has gone warmly commend this talk to young women. The Camden, N. J., Courier, says: "It was an intellectual and literary treat." The Daily Telegram of the same city says: "Dr. Starke's Sweetheart Sermon thrilled the great tabernacle audience. It was one of the most beautiful things ever heard in Camden, and a talk every girl in America should have heard. Dr. J. C. Hooks of the Baltimore Conference says "I have heard famous lecturers on the Chautauqua platform at \$200 per night that are not worthy to be compared to Dr. Starke." The Morrisville, Vt., Messenger says: "It was one of the most entertaining lectures ever delivered in this section of Vermont."

The evangelist invites everyone to this special lecture. He said yesterday: "Come anyway, even if you have no sweetheart and I will introduce to one before the service closes." No doubts seems to exist but that twice as many people will desire to hear this lecture as the church will seat, so those who desire to have a seat will have to come early. The doors of the church will be thrown open at 7 o'clock, and the lecture will begin promptly at 7:30.

All the ushers can do is to try and seat those who come early. It is planned to make Sunday, the last day of the campaign the "great day of the feast." Dr. Starke has promised to deliver three of his most important addresses on that day. At 11 a. m. he will talk to men only, no boys under fifteen will be admitted. This will be a straight-from-the-shoulder to men only and the subject is to be "Man Wreckers." Dr. Starke says: "I have been tugging away at the hearts of men ever since I came to Colorado, but Sunday afternoon I want to talk to the brains of men, and I want every thinking man in touching distance of Colorado to hear this important address." The Gaffney, S. C., Daily Ledger says: "Dr. Starke's lecture to men only at the Strand Theatre Sunday afternoon was a masterpiece. His logic was so realistic and his reasoning so profound that the most skeptical could not fail to be convinced. Dr. Starke always drove the truth home with sledge-hammer blows, and at times he grew dramatic as he drove home a great truth, and many men in the tremendous audience thought he was preaching directly at them. The truth is, the lecture was so realistic and so true to life that there were but few in the great audience that could not plead guilty to the strong indictment which he drew. It was without exception the cleanest and most helpful address to men only we have ever heard. Dr. Starke is a powerful preacher, and is possessed of more than ordinary ability. He is a man of refinement and education, though at times he was most scathing in the denunciation of sin, of those who defy the laws of God."

Sunday night will be the great farewell service of the Colorado campaign. At that time the evangelist will take for his farewell address to the people of Colorado, "The Second Coming of Christ." And during this address, Dr. Starke has promised to answer a question which has propounded him, "Shall We Know Our Loved Ones in Heaven?" Dr. Starke says: "We shall know our loved ones in Heaven as we do here, and that we shall dwell in Heaven in our bodies as we do here, glorified bodies, but literal bodies." And he says that he will prove all of this from the Word of God. This will be a message of great comfort to those who have lost loved ones.

TEXAS TOWNS FOR BETTER SCHOOLS, BETTER BUILDINGS

It would seem that the people of Texas are waking to the fact that the Lone Star state must take her place among the states of the Union that stand highest in educational matters. If one reads the newspapers, he gets such information as the following:

"Voted bonds for school purposes—Cisco has recently voted \$250,000 for building new schools; Dalhart \$125,000; Stephenville, \$100,000; Wichita Falls, \$300,000; Mineral Wells \$45,000; Hasel, \$75,000.00; Weatherford \$200,000; Electra 125,000; Stratford, \$40,000; Abilene, \$300,000; Paris \$200,000, etc.

Does this list indicate that the people of the larger towns more fully realize the importance of the best schools than the people of smaller towns? One thing at least the people of the larger towns have realized, that any community which has the best schools must secure them by voting upon itself bonds to build houses, and a tax for maintenance purposes. Good schools can not come any other way. Also, before a community can have the best of schools, it must provide the best buildings and enough of them, and then equip each building with the best equipment. The best workman in any line can not do the best work without the best equipment, and it would not be expected of him in any line except teaching.

However, the indications are that Texans are fast coming to the point where they fail to think that just any old building and any kind of equipment or none at all is good enough for their schools. They are beginning to demand the best and they know that the only way to get the best is to pay for it.

A number of small towns in West Texas have recently voted building bonds and an additional maintenance tax, but we have not the exact data at hand just now, having noticed the mention of same in the papers when it was done. It seems that the towns of West Texas are taking the lead in this matter in Texas. Colorado is going to be the forefront of this procession.

CENSORSHIP OF MOVIES.

There is much talk all over the country about censoring the movie shows, the claim being made that many of the scenes shown are extremely racy, and that the constant romancing of crime and showing it to the young promotes a tendency to crime. It is a broad question and one that every community should settle for itself. Several states have bills pending to create a state movie censorship, with the usual high salary attachments, but that is impractical. Each town can create such an officer or board or commission if it so desires. That some of the scenes depicted on the screen are bad is a fact, and probably some kind of supervision should be over them. The opponents of the plan say that if immoral or other objectionable pictures are shown it is because the people go

to see them and want that sort of thing, but that is no argument at all, and probably emanates from those engaged in the business. The people would not and did not drink liquor either, unless they wanted it, but it was prohibited, just the same, for their own good and benefit. The same is true of all laws for the suppression of crime and wrong.

DON'T BUCK UNLESS SPURRED.

Senators, congressmen, legislators, county and city officials, sometimes go off on a junketing trip to other communities, to learn what others are doing and how they do it, and as a rule it is not a bad scheme, for there are lots of things we do not know at home until we get out and rub up against the outside world. Broaden your ideas and don't be provincial, and above everything don't get cramped like a clam. A clam is shut up in a little bit of a shell and never sees anything further away than the mud flats it inhabits. It is all stomach and no brains and its only object in life is to fill up that stomach with any old microbes that float along on the tide. And there are a whole lot of people just like 'em. When ever an official goes on a trip to try and learn something there are always a whole lot of people who make a loud howl about it and the expense entailed. The expense to each individual would not be over a tenth of a cent, which will not break anybody. We would send any such grouch back his tenth of a cent, but have no smaller change than pennies, and not very many of them. Whenever an official gets out and mingles with hundreds of other officials he is almost sure to learn something worth considerably more to each of us than one tenth of a cent. Those of us who never get out into the world get provincial like the clam—the clam that is all stomach and no brains.

The Morasca Stock Company will be in Colorado all next week, beginning May 2nd. Don't miss it.

Our idea of a tightwad is the guy who is against the school bond issue because he has no children to attend school.

The third monthly meeting of the Colorado Booster Club comes along next Tuesday night. 'Tis to be the best banquet in the history of the club, President Porter says. Remember that only 150 guests can be accommodated. Better make your reservation now.

The Record is published this week under more difficulties. The whole force has been working over time in the job department and could get in but little time on the paper. However as this is the fifth issue in this month anyway, we will call this issue our advertising specialty, or published principally for the benefit of our advertisers.

Fortunately for Colorado, this city harbors but a few of those citizens who prefer for the town to retrograde, and consequently, the proposed bond issues for the new school building, the Lone Wolf dam, the sewer and water main extensions, will be approved by the voters with but small opposition. We consider ourselves fortunate in having the opportunity of living among such a progressive class of people.

Come out to see the tent theatre stock show—all next week, Colorado. Loose leaf ring books, all sizes and styles at Record office.

F. E. Crabtree and N. T. Womack had an automobile accident Thursday morning on the Colorado road. Mr. Womack's car was torn up but nobody was very seriously injured. N. T. Womack from Colorado spent a few days on his farm near Cuthbert, the first part of the week.

WESTBROOK ITEMS.

Wednesday April 20th Mr. Milton Taylor and Miss Dollie Sparks motored over to Lorraine and were united in marriage. This was quite a surprise to their friends. Miss Dollie is the oldest daughter of Mr. W. D. Sparks. Mr. Taylor is a prosperous young farmer of the Conaway community, both of these young people have only made Westbrook their home for a short time. They have made many friends, who wish them a life of much happiness.

The teachers of our school, Misses Pritchett, Phillips and McDonald carried the play "All a Mistake," to Coahoma Saturday night for the benefit of the piano fund. The door receipts netted them \$37.50 above all expense, this was very good and everyone was well pleased with the success. They want to extend to the people of Coahoma their sincerest thanks for their courteous treatment and liberal patronage. This is a good play and takes well. The young ladies say that they will take it to other places if the outsiders will help them select the places, help advertise it and accompany them to the different towns. It is too hard on those taking part to have all the work to do. The school needs the piano and it takes money to get it. Now is the time to act.

Westbrook and Coahoma clashed in a game of baseball Saturday at Coahoma. This was the most interesting game of the season. The was 9 to 12 in favor of Coahoma.

The game between New Hope and Westbrook Wednesday stood 4 to 3 in favor of New Hope.

Mr. and Mrs. McMasters and little Miss Mary Ellen Buford are visiting in Baird this week.

At the home of Mr. W. D. Sparks Thursday afternoon Mrs. Hattie L. Rose of Estherville, Iowa, and W. D. Sparks were united in marriage. Only relatives and close friends were present. Mr. and Mrs. Sparks are

at home to their friends three miles south of town.

LONGFELLOW LOCALS.

The Farm Bureau of Longfellow met Wednesday night, April 20th, with good attendance and an excellent program.

Mr. Geo. Beeman, a representative for the Geo. Allen Music House, has been here for the past few days and perchance to say, sold the Longfellow community an organ. Come to Sunday school and hear it. The Longfellow League Team motored over to Valley View Tu and defeated the Valley View Campions in another game of base. The score was 16 to 41.

The game last Saturday between Colorado and Longfellow was another glorious victory for our Longfellow boys. The score was 9 to 4.

Our school closes Wednesday, 4th, with a program beginning 7:30 p. m. The special feature the program will be a good two hour comedy drama entitled "An Arizona Cowboy." Everybody invited attend.

TO THE COTTON GROWERS OF MITCHELL CO.

You must reduce your acreage, cut cost of production, and grow a staple of cotton that will sell, if your 1921 crop is to show a profit.

There is an enormous carry-over, most of this is low grades and short staple. The man who produces that kind of cotton this year will find little or no demand for it next Fall; but there is always a strong demand for strong and uniform staple of 1 1-16, to 1 1-8 of an inch and such cotton will be taken first next fall at top prices.

You must produce the cotton at the lowest cost, the one factor which will make the largest showing for the least outlay is **GOOD SEED.**

This Bank has secured a limited amount of the Lone Star Variety of Seed, which has been tested in this section of the country, and is the best seed adapted, for heavy yield in wet years as well as dry ones.

The seed offered is as pure as can be obtained, doubly cleaned and in three-bushel sacks, ready to be delivered at the price paid per bushel by this Bank. It is our desire to assist the farmers, and by this method we hope to encourage them in every way possible along toward prosperity.

If you will turn to Webster's dictionary, you will find something similar to the following as the definition of the word "Culture." A cultivating cultivation physical improvement; refinement of mind or manners.

From this we can frame an everyday definition which will read; the effect of persistent endeavors along certain fixed lines. We see then that to be cultured, there are some things we must know and do. These "some-things" have their effect on our nature in the same manner that other actions and deeds have a degrading effect on our personality.

The fields where grain and foods of all kinds are produced must have cultivation for best results. Likewise must the mind manners and personality be cultivated if we are what we ought to be.

The "Kultur" of Dutchland was acknowledged all over the world because they had attained such a degree of perfection in so many different fields. Their scientists and chemists have made some of the most marvelous discoveries of the age. Their plain folk were trained specialists, each in his respective line. And all of the youths were given a military training, causing the Kaiser to boast of his Nation of soldiers.

But reflect for a moment and you can see the outcome of this "Kultur." Why was this splendid "Kultur" razed to the ground? Because it was not used as it should have been. It was used as the downfall.

We see a class of people everywhere who are well cultured, and we see the unmeasurable possibilities in their reach because their environments are so much better than the average. But warden them. This inherited culture is as naught beside less fortunate brothers who make the best of every opportunity.

Often we see persons who at first appearance, we judge to be highly refined, but on investigation the odds are against these subjects for they only know how to do one thing, passing as a social parasite and living in absolute indolence. When they could be one of the world's greatest benefactors because of their social position.

One of the greatest enemies to culture is the big I and the little You feeling that so many well meaning people cultivate. Think for a moment. Do you think yourself better and above your fellow traveler because you happen to know a little the most about some things? Think what he might have been if he had been offered the chance you have had. Or do you scorn the presence of others because they have had a better chance to get up on the world than you have been able to afford? Do you boast you are self made? Granting that if anything is worthy of self praise your accomplishments are, but listen, do you not know that if you are accomplishing anything worth while, that you are going to attract attention in great quantities with the big I element omitted? It's a fact, observe for yourself.

There are so many enemies to culture we wonder how the world has escaped the obsolete list. Do you know that one of the most noticeable traits attainable is the art of making friends and remaining constant in friendship? Pessimism is one of the greatest enemies of this art. While in a fit of pessimism you are not what you are striving to be. You are not yourself in reality. In this condition one is apt to say and do something that will cause friends to turn from his companionship, and in due time you are socially isolated.

Your desire is to be as cultured and refined as possible. You want to do something worth while. You want to have friends and above all things you want to quench that thirst for contentment and happiness. Just build the foundation for this castle by laying the cornerstone right. Culture all of the good traits of the people about you, cast aside your faults. Weigh other people's ideas. Don't be so important that you must do all of the talking, listen, you will learn something. Be optimistic, always see a way that your trouble could have been worse. And keep it to yourself.

Climb the ladder step by step Right up with your vim, vigor and pep;

Underneath your heavy load of cares

Make the impression that it's all unawares.

Scatter sunshine along your way, 'Twill cheer to hear someone say

"There's a happy and successful man.

"If he can be so contented, I'm sure I can."

PERVRSITY OF THINGS

"IT BEATS all how fate puts a crimp in a man's fondest ambitions," said the retired merchant. "Recently I have been hungering for an old-fashioned boiled dinner, composed of corn beef and all the standard vegetables. I mentioned the matter several times, and my wife said she would give the hired girl a holiday and get me up a boiled dinner, such as we used to have in the halcyon days. The banquet was scheduled for yesterday, and I looked forward to it like a hungry wolf. I couldn't think of anything else for three days. And when the meal was dished up I had an attack of jumping toothache, and was jumping over the chairs with my head under my arm."

"That's always the way in this world, doggone it," commented the hotel keeper. "Just as sure as you look forward to something you're going to run up against a disappointment that will break your heart."

"Last week I had so much business; was on my feet day and night. I didn't get any sleep to speak of for several nights, and my eyes felt like hard-boiled eggs. I was just dead on my feet I was so played out. I looked forward to the time when I could saunter off a few lengths of slumber just as you looked forward to that boiled feller."

"At last things slackened up and I went up to my room at seven o'clock in the evening, prepared to sleep round the clock, or as much longer as I felt necessary. I was so drowsy I would hardly see to get my rags off, and I heaved a sigh of relief when I crawled in between the sheets. But before I had been there three minutes old Jiggleson came along with his brass band and began playing selections under my window. The congressman from this district was occupying the room next to mine, and those loquacious musicians were serenading him, probably hoping to be appointed postmaster before long. They played every blamed tune you ever heard of, and I had to leave my own room and go to one at the back of the hotel.

"That room hadn't been used for a long time, and things weren't in good repair. I climbed into the bed and was snoring a few quotations from the classics, when all the stars came down at once and I landed on the floor on my ear with my feet up on the foot of the bed. I thought my back was broken in three places, but I managed to get up, and then I hiked back to my own room. I had left the window open when I yelled at Jiggleson and hrew some furniture at his musicians, and I was so sleepy I forgot to close it.

"The bed was right up against the window, and I was just getting asleep once more when it began to rain. About forty gallons of water blew in on me before I could get the doggone window closed. I had to rustle around for a dry night shirt and some sheets and things, and by that time I was pretty near desperate. I don't know if anything more aggravating than me dying for a good old-fashioned deep and then be unable to make connections.

"At last I got into bed again, all snug and comfortable, and was doing some ground and lofty sleeping. Then along came a guest who mistook my room for his own, which was on the floor above. It happened that his key lifted the lock of my door, so he opened it and came in. When he saw me there he took me by the ankles and dragged me out onto the floor and sat on me, and asked me what in thunder I meant by occupying his bed, for which he had paid in advance. It took ten minutes to make things clear to him, and by that time I felt like a driving idiot. "But I had sense enough left to get back into bed and make another try at sleeping. I had slept about twenty-seven wats when a big framed picture of my wife, which hung over the head of the bed, came down and smashed itself on my face and put my nose out of joint. Then I gave up. I put on my clothes and went downstairs and sat up all night, hoping the building wouldn't cave in on me. It didn't, and that was the only bit of luck I had that night."

Indefinite.
"I don't like to throw bouquets at myself, but I must say folks are afraid of my drive."
"Golf or charity?"

The City Bird.
"The sparrow soon adapts itself to environment."
"What now?"
"Saw one downtown today which was building a nest of burnt matches."

School Bond and School-Bond Tax Election Order.

On this the 20th day of April, 1921 came on to be considered a petition legally drawn and designed by 95 tax-paying voters of the Colorado Independent School District, praying that this board order an election to be held in the said school district for the purpose hereinafter set forth.

It appearing that the above mentioned petition has been signed by at least twenty property tax paying voters of said district, and it appearing that election prayed for should be ordered, therefore the School Board of the Colorado Independent School district orders an election as follows:

An election is hereby ordered to be held at the court house of Mitchell county in the city of Colorado, on the 26th day of May, same being Thursday, 1921, polls to be opened at 8 o'clock a. m., on said date and closed at 6 p. m. of same date. Said election to be held as nearly as possible in conformity to the general election laws of the State of Texas. F. A. Winn is hereby appointed manager to hold said election and he shall appoint two judges, also two clerks to assist him in holding this election.

The election herein ordered is to determine whether the School board of the said Colorado Independent School District shall be authorized to issue bonds to the amount of thirty thousand dollars (\$30,000) to bear interest at the rate of five per cent (5 per cent) per annum from date of issue, and become mature at the expiration of forty years from date of issue; provided that said school board or their successors in office may have the privilege of redeeming any or all of these bonds after the expiration of ten years, from date of issue; also this election shall be to determine whether an additional tax of ten cents on the one hundred dollars, \$100, valuation of property in said school district, making with the tax that has heretofore been voted a total of sixty cents (60c) on the one hundred dollars valuation of property in the Colorado Independent School District for school purposes, to provide interest on said bonds and to create a sinking fund to redeem said bonds when mature, shall be levied.

The above mentioned bonds shall be for the purpose of raising a fund to purchase a site on which to build a school building of brick material, to build the house, to equip said building, and to repair school buildings of the above mentioned school district.

Only those who are legally qualified property tax paying voters in the Colorado Independent School District shall be permitted to vote in the election herein mentioned.

The tickets to be voted in this election shall read: "For the bonds and tax," or "Against the bonds and tax."

Public notice of said election shall be posted in these different places within the Colorado Independent School District, also published in the Colorado Record thirty days before the date of said election.

By order of school board:

H. C. Doss, Secretary. 5-13c

"Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to anyone suffering from throat or lung troubles. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelley, Earlsville, Mo. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. The Colorado Boosters defeated Coahoma Thursday afternoon in a hard fought contest on the local field. The visitors were defeated at the ratio of eight to one. Hale of Coahoma tripled to center field in the fifth inning and scored a moment later when Ragan threw wild to third to catch him off the base.

Evolution of a Flea.
 "The evolution theory," said the professor, "is that we all came from monkeys."
 "That's wrong," said the flea, biting him on the head, "I came from a dog."
 "Pollyanna"—Best Theatre today and tomorrow.

SCREEN STAR PAYS \$1000 FOR A SHADOW.

One thousand dollars for a shadow! That's what it cost Mary Pickford "America's Sweetheart," to throw a shadow of herself on the wall of a scene in her new picture, "Pollyanna" which will be shown at the Best Theatre tonight and Saturday matinee and night.

The shadow is called for in a scene which takes place in Aunt Polly's room. Little Mary, as Pollyanna Whittier, crawls, lamp in hand, from her stuffy little attic bedroom out on to the porch of Aunt Polly's big New England house where it is cool enough for her to sleep. As she goes across the porch the shadow of her pajama-clad figure is cast upon the blind of Aunt Polly's window, and Aunt Polly, seeing it, thinks a man is on the roof.

To get the most effective shadow it was necessary to buy a special lamp, one much more powerful than any used in connection with the studio. When the lamp arrived, it looked like the searchlight for a battleship. It was ten feet high, with a tripod base which spread four feet—and it cost \$1,000.

UNION HAPPENINGS.

The time has come for us farmers to launch out into the deep in the line of planting for another bumper crop, but the cool weather is not suitable, and we suggest that while we wait, let's spend a good deal of our time considering what is best for us to plant for the sustenance of life. And for a surplus to relieve the back situation, and for future improvements. Next, how much of each commodity that is best adapted to our Western soil. The high winds have dried out the land to some extent, but our hopes are good for better things to come.

Sunday school was thinly attended last Sunday on account of some attending the district conference at Snyder, and I suppose some going to the Starke revival at Colorado. notice in the Plain View writeup for last week one mistake relative to the time of the childrens day meeting. It quotes the fifth of May, and it should be the fifth Sunday in May, at which time we are looking forward to with much interest.

HARDLY EVER FELT FIT, SAYS THOMAS.

After Suffering 21 years Tanlac Put Him in Splendid Health, Gains 18 Pounds.

"Thanks to Tanlac, I am now in splendid health after twenty-one long years of suffering and am 18 lbs. heavier than I ever was before," declared John W. Thomas, the well known proprietor of Thomas' Meat Market and Grocery Store, located at Chestnut Street, Fort Gibson, Okla.

"If ever a man went through the rubbers, I did," said Mr. Thomas. "After a meal I would hardly get up from the table before my food soured, I bloated up with gas and began to feel miserable. My nerves were shattered and I would roll and toss all through the night and get up with a sick stomach, and a weak, tired out feeling. I had no appetite to speak of, and fell off in weight until I was almost a living skeleton and hardly felt fit for anything. No medicine I could find seemed to reach my troubles, and my condition went

from bad to worse until I became seriously alarmed.

"Last year I started on Tanlac and before I had finished the first bottle my appetite picked up and I began to take on new life and energy. I kept right on with my Tanlac and now I am like a man made over. My appetite has come back in full force and what I eat agrees with me perfectly. I sleep like a boy and get up mornings feeling just fine. My friends all say they never saw anything to equal the way I have recovered my health. It's all due to Tanlac, and I will verify this statement personally to anyone who doubts it." Tanlac is sold by all druggists.

ODD FELLOWS AND REBECCA ENTERTAINMENT.

The I. O. O. F. and Rebecca lodges in their beautifully decorated hall, celebrated their 102nd anniversary on Monday night with quite an interesting program. Judge Hall, in his ever pleasing way, gave the welcome address. Readings were given by Misses Hazel Cook, Scottie Hinze, Walker, Cranfill and Mrs. Canada, and each responded when encored.

J. T. Ledbetter gave a reading, illustrated with the moving picture machine. The three links presented by Lillie Fulkerson, Charley DeLaney and Darrell Smith.

On either side of the hall there was a booth showing True Odd Fellowship and a home not protected by Odd Fellowship.

The "manless wedding" was an interesting feature of the evening. The "manless wedding" was an interesting feature of the evening.

Just before the wedding party entered, Miss Isla Tilly, accompanied by Miss Juanita Pond, sang sweetly "I Love You Truly." The bride, Mrs. Jim Ledbetter, entered on the arm of the groom, Mrs. Canada. Following came the bridesmaids, Misses Annie Nesmith, Harris and Jenkins, with Misses Cara Cooper, Addie Kay and Lela Givens as groomsmen.

The little ring bearer, Elizabeth Ledbetter, niece of the bride, and the flower girls, Pauline Fulkerson and Ruth Buchanan looked as dainty as fairies.

Rev. A. D. Leach, as the minister, and J. D. Sherwin as the jealous lover, who had to be taken out by the policeman, Mr. Delaney, each performed his part admirably.

After the wedding the bridal party sang "Let the Best of the World Go By," and as an encore sang "A Good Man is Hard to Find."

Interesting talks were made by Messrs. Riden and Phillips of Lorraine and others.

After the program a bounteous supper was served to about two hundred people.

OUT BUFORD WAY.

Should our wishes be consulted in the matter at all, we would have a gentle warm rain then thirty days of warm still weather, not a single sandy to mar our western skies. But we never know just what is best for us. So we are still cheerful.

The young folks had a pleasant evening in the Smith home Saturday night.

Robert Redmond, Bill Hinkle, Bill Martin, Jim Jones and Uncle Brad Jones took the boat and a couple of cars and went on another week end on the middle Concho. We haven't learned how many nor what size the catch was.

Mr. and Mrs. Brewer Palmer ate Sunday dinner and spent the evening with Mr. Hoyt Murphy, near Dunn. They found some new kinfolks there. An eleven pound black-headed, and black-eyed girl. Mother and babe are doing nicely.

The folks up there have had three rabbit drives, killing about 2000 of the pests. If every community would do as well there would be a marked increase in crop reports in West Texas.

We had 90 present at Sunday school Sunday morning, including two visitors, and a really interesting study hour, every teacher on the job, and splendid reports from each class, as to Bible readings, and lesson preparation. There was a lively discussion of the good things we saw, and learned and ate, while visiting the Christian Sunday school on the 17th.

The Sunday school voted unanimously to visit the Methodist Sunday school at Colorado on the fourth Sunday in May—the 22nd. We want to come in on that date at least 100 strong.

The farmers are all sowing their seed this week. Many are planting cotton, while others are planting corn and maize, and waiting for the ground to warm up a bit more. Oh! It's the life to follow the sweating team down the deep brown furrows, and watch the upturned soil as it gives forth the fragrance that can't possibly come from any other source. And then when the chores of the farm home are through for the evening, and that's when you "go to bed with the chickens," and sleep the sleep of the untroubled and weary. We think we like the farm, especially when the said farm is located out Buford way.

We learn from Mr. James Bodine that the Farm bureau has about 25

COUNTY COURT CONVENES MONDAY FOR MAY TERM.

County court will be convened on Monday morning for the regular May term, County Judge J. C. Hall stated Wednesday afternoon. BON TROMP

BON TROMP is a Registered Thoroughbred Stallion, foaled in 1915 and has been racing since a two year old. His last race was in February of this year, when he was purchased by the Remount Service. He is a horse of proven speed and endurance; his last race being at the distance of a mile.

BON TROMP is royally bred. His sire is VON TOMP who was sired by the famous BEN BRUSH, and it is the Ben Brush blood that is producing winners today. On his dam's side his great grand sires were ST. HIMON and HINDO. St. Himon blood will probably never be equalled and Hindo carries the blood of VIRGIL, VANDAL and LEXINGTON.

BON TROMP will probably breed speed, but he will also breed the more important quality of substance. He is 15 hands, 2 inches in height, of an excellent type and resembles Ben Brush.

BON TROMP should sire colts of great ability for any purpose, having substance, courage and stamina.

BON TROMP will be handled this season by Mr. D. H. SNYDER at the BELL RANCH at COLORADO, TEXAS, and a few additional mares may be served by application to Mr. Snyder.

I have had this horse at my residence now for several days and find him with abundance of quality, and am of the opinion there is no better bred horse in the Southwest. He belongs to the U. S. Government.
