

EIGHTEENTH YEAR—NO. 44.

COLORADO, TEXAS,

FRIDAY, AUGUST 11, 1922

WHIPKEY PRINTING COMPANY

DEVELOPMENT IN MITCHELL FIELD NOT AFFECTED BY CRUDE DECLINE

Entire Area is Being Thoroughly Worked by Geologists and Several Locations Awaiting Their Report; Colorado Thronged With Interested Visitors.

The recent reductions in the price of crude have had no apparent effect on the development in Mitchell County; drilling is only temporarily hindered by delayed shipments of materials, and there is absolutely no depression in the minds of the operators—they are going ahead with development as if there were no other oil field in Texas—and, by the way, where's a better one?

Geologists are working in all parts of the county, and while their reports are not available to the public, yet their work should at least prove to the most indifferent observer that somebody thinks enough of the present prospects for oil, to spend considerable sums of money for investigation.

Hundreds of visitors, strangers to the old timers of Colorado, are noted on the streets and hotels are taxed to full capacity in caring for the oil men and other interested parties. Many new investors are entering the Mitchell County field each week as the transfer of leases will show, and as things look now, development even beyond the expectation of the most optimistic, is in sight.

The Gulf Production Company, represented in this territory by Messrs. "Jimmy" Charlton and W. M. Lourcey, has bought acreage well scattered in this field, which will aggregate a considerable number of acres, and which is considered very choice acreage in different parts of the field which naturally should come in for development within the near future.

The Underwriters Producing and Refining Company, through their agents in the field, are continually on the job and their property is fast becoming a larger proposition and a more valuable possession. Future prospects of this company are excellent, and the men in charge are now beginning to see some results from the past experience of pioneering in a wild cat country.

At the T. & P. No. 2, the drilling crew is testing a new sand picked up at about 3,007 feet and at the same time bringing out considerable

HUTCHINSON EXPLAINS SCHOOL BOARDS ACTION

At a mass meeting of the citizens of Colorado a few weeks ago, called for the purpose of advising the school board how to proceed in raising funds to maintain our school for nine months it was the unanimous opinion of those present that the only way to do it was to raise property valuation sufficiently high to raise the amount of tax money necessary. It was made known to the people at that time that it would require about a six million dollar valuation to secure sufficient funds and the board was told to raise it.

The board has worked the rendition sheets over twice, equalized renditions to the best of its ability and raised same as high as they feel can justly be done, but the total is only about four millions.

Now, I wish to say for the board that we have done our best and have tried to be fair to all tax payers and when the time comes to meet the equalization board we hope every citizen will be reasonable and offer as little objection as possible to his part of the raise. Each tax payer should be willing to bear his just part of the expense.

Very truly,
H. L. HUTCHINSON,
Chairman School Board

derrick floor and it's a foregone conclusion that Bill "brings home the bacon."

Mitchell County Oil Corporation Badgett No. 1 shut down waiting for shipment of material for bull wheel. Etta Brennan shut down for orders. This well is about 3,150 feet deep and rumors have it that a good sand has been drilled into. Mr. Riley, the manager, is now in California on business, and no definite information as to the status of the well can be secured.

Murphy No. 1 drilling at about 3,025 feet, having already cased off water and oil discovered at higher levels. It is said that this well had a good sand at around 2600 feet, which was thought to be the Morrison No. 2 sand.

Coleman No. 1 is drilling at about 2200 feet with excellent showing of formation to present depth. Foster No. 2 of the Colorado-Tex Company at Iatan is ready to drill into the sand, which was picked up in the Foster No. 1 at 2631 feet.

Maxwell & Johnston's Stewart No. 1 is drilling at about 1720 feet and is attracting very favorable comment as to the possibilities of this structure. The same company's Capps-Lucas No. 1 is drilling at 1900 feet and probably holds the record for footage since spudding, having made the present depth since July 13th, and having lost three days on account of delay in arrival of materials.

The California Company has delivered on the lease practically all the material necessary for drilling their first well on the Richardson farm, about five miles southwest of Colorado. Camp houses are erected and four large metal tanks are in place, water line is laid and it is expected that the derrick will be built and rigged up within the next few days.

The Magnolia test has spudded in and is reported to be making satisfactory progress at this date.

The Petroleum Operators Association is preparing to rig up on the southeast quarter of section 36, blk. 29, T-1-N, T. & P. survey. This well is practically one-half mile west of the Zilpha Morrison, which picked up an oil sand at 2500 feet several weeks ago.

Ray Knight has arranged to drill the NE ¼ of section 33, block 29, and it is understood that he will begin the erection of a derrick as soon as the timbers can be placed on the ground.

Fensland Read No. 1 in Howard County, just west of Iatan, is drilling steadily and making good time, and is being watched with great interest on account of the location which it occupies on the Read anticline.

Maxwell & Johnston's Jones No.

NEW SCHOOL BUILDING UNDER CONSTRUCTION

Workmen have been busy during the last two weeks remodeling the old ward school building and will have same ready for occupancy by the time school opens for the next year's work, which will be September 18th. This building is to have a modern roof, to be replastered and calcimined, all woodwork to be repainted outside, to have some blackboards placed lower, and to have concrete steps on north and south side. This will make the ward school practically a new building, and will add very much to the appearance of same.

Workmen began last Monday excavating the foundation for the new ten-room building to be built on the site north of the high school but on the same block. This building will be modern in every respect and will be one of the best buildings in this part of the state when finished. A good heating system will be installed, drinking fountains will be placed convenient for the pupils of each room and within the building, toilets, lavatories, and shower baths for both boys and girls will be placed within the building. This building, when completed will be a house for a ward school that the people of Colorado will be proud of. Work will be completed some time in the latter part of September.

The high school building will come in for quite a bit of repairs. Also, better laboratory equipment will be placed in the high school and that building used exclusively for high school purposes as soon as the new building is finished. Until the new building is finished, the school will necessarily have to be conducted as it was last year, that is, some grades will be divided and part will attend school in the forenoon and part in the afternoon. This arrangement, of course, is not satisfactory to any one connected with the school, but under present circumstances it will be the best that can be done.

A number of people have asked whether unders would be admitted this year. That question can not be answered before school opens. It is possible that unders may be admitted, but it can not be determined definitely at this time.

This question of room and board for teachers at reasonable rates is one for present consideration. If there be persons who have rooms, located convenient to the school, that are for rent and such persons will make all facts known to the Superintendent of the school, stating price asked, and prices asked for board or room together, it will be a favor and save time in locating teachers when they arrive.

The progressive school spirit shown by the people of Colorado is evidence of the fact that we are to witness some long strides forward in school affairs in this town during the next two years. Colorado now has one of the strongest high schools in the state, and it is the intention of the Superintendent and school board to strengthen the course in many places as soon as buildings can be put in readiness to accommodate the work. This school now holds nineteen affiliated credits, in fact the school is affiliated in every subject taught. Before any more credits can be secured, other subjects will have to be added to the course of study.

As soon as all teachers are elected, a list will be published and assignments made.

FOR SALE

Lease on N.W. ¼ Sec. No. 71 in Blk. 97 H. & T. C. Survey. Not for sale after oil is found in said well. \$10 per acre. Phone or write to J. W. Jackson Hermleigh

BOOSTER CLUB WANT NEP COURT HOUSE HERE

That Mitchell County is sorely in need of a new court house and that a new building could be erected with out a probable increase in the present tax rate, was assured by J. H. Greene, president of the Colorado Booster Club, in addressing the meeting of the club Thursday night. Greene explained that he had the information from county officials that the bonds issued with which to build the present structure had been liquidated by the county, and that to vote a new issue for the proposed new structure would be only to continue the special bond tax, which has been met by the citizenship of the county heretofore.

In speaking of a recent visit to Colorado, Mr. Greene stated that he saw one of the most beautiful court houses in America, the one at Pueblo, costing one and one-half millions of dollars. "But," he said, "I have never seen a court house to compare with the one we have here."

Addresses advocating that a campaign be inaugurated to construct a new court house here were made by Col. C. M. Adams, L. W. Sandusky and W. S. Cooper. Some of the speakers described the old court house as being a disgrace to the citizenship of Mitchell County and made the prediction that it might topple over at any time.

"Should a reputable architect make an inspection of that old building and make an honest and honorable report as to his findings, he would condemn it without any reservation whatsoever, one of the speakers said. References to the needs for a new court house were generally applauded by the boosters.

The president was directed to appoint a committee of Mitchell County citizens to investigate the needs of a new court house and report at the next meeting of the club, which will be held in September. He announced that the committee would be announced later. The suggestion that the city council be requested to place lights on both the Lone Wolf bridge and the new bridge to be built across the river here met with applause. W. W. Whipkey stated that he had examined the Lone Wolf bridge and found that all necessary conduits were in place in the structure and that all needed to be done was to connect up the wiring and put the lights in place. Electric wiring specifications were included in the contract for the new river bridge also, it was stated. A committee composed of Mr. Whipkey, L. W. Sandusky and Ford Morris was appointed to take this matter up with the city council.

The seriousness of the room shortage here, as affecting teachers who may be employed for another year was introduced by J. H. Greene and E. Frank King, superintendent of schools. Mr. King stated that approximately twenty teachers in the Colorado schools would have to board and urged that the public cooperate with the school board in finding suitable places for them to stay.

Concert music was furnished by the Colorado Booster Band, under direction of Sam Goldman. A speaker before the meeting described Goldman as one of the best band men of the Southwest and also as having received the distinction of having been one of the best band musicians attending the recent Shriners convention at San Francisco. Mr. Goldman was employed by the Shriners band at Austin to accompany them on the special train going from Austin to San Francisco for the convention.

Refreshments were served by the ladies of the American Legion Auxiliary following adjournment of the business session. Plates were served to 100 Boosters.

CHRISTIAN CHURCH

Bro. Hardison will be home Saturday and fill his pulpit Sunday. Everybody cordially invited and members urged to be present.
W. A. CROWDER.

FARM BUREAU WILL LOAN \$50 BALE TO START WITH

DALLAS, Texas, August 10.—Having done \$8,777,799.12 worth of business in its first year the Texas Farm Bureau Cotton Association decided here at a statewide convention of 300 cotton farmers to put on a membership campaign to sign up 1,000,000 bales of cotton. The campaign is to start on Aug. 7 in South Texas and move north to the border taking as much time as is necessary.

The decision to wage a campaign was made amidst much enthusiasm after a two day session during which farmers from all parts of Texas investigated the workings of the first year of their cotton association. President John T. Orr and the board of 21 directors, all of whom are dirt farmers living and working on farms, outlined plans for more growth of the Texas Farm Bureau Cotton Association.

Secretary J. W. L. Hall of New Boston says that the campaign will depend very much on local support so as to keep down expenses. An advance of \$50.00 a bale will be made when bank draft is attached to the bill of lading. Another check will be sent the farmer as soon as his cotton is classed.

The Texas Farm Bureau Cotton Association was organized Sept. 1, 1921, receiving its first cotton one week later. Texas was one of the first states to market cotton co-operatively, the other being Oklahoma, Arizona, Mississippi, Arkansas, Georgia, North Carolina, South Carolina, and Alabama. Texas, however, signed less than 20 per cent of its cotton, or 600,000 bales.

Starting with no friends, the young organization now numbers among its supporters the War Finance Corporation, the Federal Reserve Bank, many leading local banks, A. & M. College, and many newspapers. Large quarters have been rented, the clerical force has been improved and increased. A field service under Mr. Hall will be maintained permanently for the information, aid and service of its members. An expert corps of cotton classifiers have been employed. Relations have been established with cotton co-operatives of other States through the American Cotton Growers Exchange. Very advantageous contracts have been secured for the handling and storing of cotton. Financial arrangements have been made which include banks' acceptances some of which last year were as low as 4 per cent. A loan of \$9,000,000 has been negotiated with the War Finance Corporation at a low rate. This was all asked for. F. F. Florence, Vice president of the Republic National Bank of Dallas says that the association's finances are so sound that the Texas Farm Bureau Cotton Association can command enough money to finance every bale of cotton in America.

MAGNOLIA WELL IS SPUDDED LAST TUESDAY AFTERNOON

The Magnolia Petroleum Company Foster Well No. 1, was spudded in Tuesday afternoon. The test is being drilled on the southern part of the Read anticline. It is stated that it will be drilled to 3,500 feet if oil or gas in paying quantities is not encountered at lesser depth.

Practically all of the surface water has been used and many operators are now drilling water wells. The Colorado River water is said to be salty and unfit for boiler use.

Several drilling contracts are said to be pending the outcome of the Western Petroleum Company's Etta Brennan test in section 1, T-1-S, block 29, T. & P. survey. The well is drilling at more than 3,100 feet.—Sweetwater Reporter.

Fishing Party Returned

The fishing party consisting of Mr. and Mrs. Everett Winn, Mr. and Mrs. J. C. Etheridge, Misses Landry Smith and Roberta Laurence of Ft. Worth returned home last Thursday from Corpus Christi. They report a pleasant trip and more fish than they could consume. They visited San Antonio and other places while away.

Buy this Cigarette and Save Money

ATTENTION MR. FARMER

You feel satisfied that the big pool of oil is under your cotton patch. All right, let's sell the lease to somebody who's got the money to find that big oil pool.

Put a reasonable price on your lease and let me have it for some of my incoming customers.

If we can get together and speed up development—get more wells started—it will do the community more good than anything; we must do this before we begin to bring in a dry hole once in a while.

No sane man expects every well drilled to be an oil well; therefore we should encourage more operators to come in and drill our field.

Give the oil man a chance for his life and a run for his money. He asks for no special favors, but he sure appreciates a square deal.

FIRST BALE 1922 COTTON EXPECTED HERE THIS WEEK

The first bale of cotton from the 1922 crop should be received at Colorado before the end of this week T. L. Sailors, manager of the Farmers Gin Company, stated Monday. Sailors stated that cotton was opening in several communities of the county and that some planters were planning to commence picking.

One of the gin plants of the Farmers Gin Company was fired up last week for a trial run. The Brick Gin of O. Lambeth was given a trial run Friday. The three other gin plants of the city have been under repairs during the summer and will be in good condition to commence operations with opening of the season.

According to W. A. Dulin, county farm agent, production of cotton in Mitchell County this year has been materially reduced because of the continued hot, dry weather.

Mr. and Mrs. Jerold Riordan, Miss Nellie Riordan and Miss Mildred Coleman returned from their visit through New Mexico last Thursday. They report a most enjoyable trip. They visited Natural Parks, fished in mountain streams, climbed mountains and viewed the wonderful irrigation plants and the country they change from a desert to land of wonderful production. One of their experiences was a short walk to the top of a mountain which proved to be an all-day walk. They say the view from the mountain was well worth the day's walk.

Have your tires been giving you trouble? Has your Ford been using too much gas? Then why don't you purchase a set of Star Ender traces and do away with the rattle at least.—Womack Garage will put them on for you.

CHILD DIED AT BUFORD The little child of Mr. and Mrs. J. L. Jackson, of the Buford community, died late Wednesday afternoon of last week and was buried in I. O. O. F. Cemetery at Colorado Thursday. The child was one year of age.

Mr. Theodore Koen of Colorado City is visiting in the home of his uncle, A. F. Koen. After spending a few days with relatives in Gholson, and Abbott, Mr. Koen will return to West before leaving for Colorado Colorado City.—West News.

NOTICE OF TRUSTEE'S SALE.

THE STATE OF TEXAS
County of Mitchell

Whereas, by virtue of authority vested in me, as substitute trustee, duly appointed in an instrument of writing made and executed by W. W. Porter dated on the 8th day of August A. D. 1922, substituting me for J. C. Hall named and appointed in a certain deed of trust, recorded in Vol. 14 on page 216 and 217 of the records of real estate mortgages and deeds of trust of Mitchell County, Texas, executed and delivered to the said J. C. Hall on the 1st day of August A. D. 1920 by S. D. Wood and wife, Eva Wood, for better securing the payment of ten (10) certain promissory notes of Three Hundred Forty (\$340.00) Dollars each amounting to Three Thousand Four Hundred (\$3,400.00) Dollars, said notes more fully described in said deed of trust and in a deed of conveyance conveying the hereinafter described land and premises by W. W. Porter and wife, Memphis Bryan Porter, dated August 1, 1920 to S. D. Wood recorded in Vol. 48 and on page 51 of the Deed records of Mitchell County, Texas, here referred to for complete description of said notes and the location and identification of said land and premises, said notes executed by S. D. Wood and payable to the order of W. W. Porter at Colorado, Texas, due on the 1st day of August A. D. 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929 and 1930, respectively, bearing interest at the rate of eight per cent per annum from August 1st, 1920 until paid, interest due and payable annually as it accrues on the 1st day of August of each and every year, providing that failure to pay either of said notes or any installment of interest thereon when due, shall at the option of the holder of said notes, or either of them mature each and all of said notes, and in such event the holder thereof may proceed to collect the same in the same manner as if the full time provided in said notes had expired, and also providing for the payment of ten per cent additional on the amount of principal and interest then due as attorney's fees, if placed in the hands of an attorney for collection, said notes given in part payment for the purchase money for Lots Number 4, 5, 6, 7, 8, and 9 in Block number 43 in the City of Colorado according to the map plan thereof of record on pages 487 and 488 of the deed records of Mitchell County, Texas;

And, whereas, the said W. W. Porter is the holder and owner of said notes; and whereas W. E. Doughty in a deed from S. D. Wood to the said W. E. Doughty assumed the payment of and agreed to pay said ten notes as shown by the record of said deed in Vol. 49 and on page 504 of the deed records of Mitchell County, Texas, said deed dated Nov. 4th, 1920; and whereas, the said S. D. Wood and the said W. E. Doughty have made default in the payment of the second of said series of ten notes due and payable on the 1st day of August A. D. 1922 and all interest on the last nine of said series of notes due and payable on August 1st, 1922, and same is now past due and unpaid, principal, interest and attorney's fees, by reason thereof and as provided for in each of said notes and in said deed of trust, the said W. W. Porter has declared each of said notes and all of said indebtedness immediately due and mature and has heretofore so notified the said S. D. Wood and W. E. Doughty, in writing; and, whereas, each of said notes are now past due and unpaid, now aggregating Three Thousand Six Hundred Ten (\$3,610.00) Dollars, principal, interest and attorney's fees; and, whereas, I have been requested by the said W. W. Porter to enforce said trust, I will offer for sale, between the legal hours thereof, to wit: Between the hours of 10 o'clock a. m. and 4 o'clock p. m., at public auction, to the highest bidder, on the first Tuesday in September A. D. 1922, the same being the 5th day of said month, at the court house door in the City of Colorado in Mitchell County, Texas, the following described property to-wit: Lots number 4, 5, 6, 7, 8, and 9 in Block number 43 of the City of Colorado, Mitchell County, Texas, according to the map plan thereof of record in the office of County Clerk of Mitchell County, Texas, with all the rights, members and appurtenances thereto in anywise belonging.

Witness my hand this 8th day of August A. D. 1922.

To The Public!

Men employed in our mechanical and car departments have been on strike since July 1st against the decision of the United States Railroad Labor Board. The officers and loyal employees of this company are doing all in their power to keep trains operating. If we can have that protection for life and property which the law guarantees, we will succeed. The strikers and their sympathizers, on the other hand, are doing their best, through a campaign of lawlessness, intimidation and terrorism, to prevent our operating trains. The welfare and prosperity of the communities we serve depend upon who wins. The law will be enforced if the public demands it. If the law is enforced, the railway can and will continue to operate trains and give that service so vitally necessary if crops are to be moved and producers and consumers alike spared the suffering and financial loss involved in a tie-up of the transportation industry.

JURY SAYS BROTHERS DID NOT MURDER RAILROAD MAN

LUBBOCK, Texas, Aug. 5.—In the case of the State versus J. Y. and Will Madden, brothers, charged with the murder of Jerry Redden, Santa Fe brakeman, near Roundup on June 29, the jury returned a verdict of not guilty.

The case went to trial last Monday in district court. The jury was given the case at 3:30 p. m. and at ten p. m. last night the verdict of acquittal was returned.

Cause of Appendicitis.

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

RAINFALL FOR COLORADO FOR LAST EIGHTEEN YEARS. This record is made from the Government Gauge, now in charge of, and accurately kept, by E. Keathley. He can give you any other information.

The Record is published this week under the most trying circumstances and comes out with only eight pages this week as a result of the Main Gays off on a summer vacation. W. S. Cooper, the local editor, is off down about Waco while Farmer (Printer) Simpson is drinking in Ozone off the Plains and on top of that our home is filled with kinsfolk visitors from Georgetown, Dallas and Austin and added to that comes our duty of managing the Booster and Lions clubs, coupled with multitudes of other duties, makes the paper this week purely a side issue.

We can save you \$7.50 on a Sealy mattress if you buy today.—H. L. Hutchinson & Co. Special Notice to Cream Producers. I am now ready to receive test and pay you cash for all the cream you can produce. I pay top price and give you correct test. Try me with your next can of cream.—Brewer Produce Co. 7-21p

Barry Miller of Dallas was state campaign manager for Senator Culberson. Miller also ran for re-election as a member of the legislature, but was defeated by the K. K. K., hence he is very mad, and like all men when they get mad, his brains are oozing, and he is doing foolish things. For instance, he has wired Ferguson that he will support him, as "there can be but one place for a real Democrat to go." If Miller supports Ferguson he is not a Democrat of the Culberson sort, for Chas. don't support impeached and discredited ex-Governors.—Plainview News.

Now is the time to have your windmill repaired. Phone 280.

THE EIGHTEENTH AMENDMENT (BY BOD SCHULER)

All hell is vomiting in an attack upon the eighteenth amendment to the Constitution of the United States. This attack is the last flare before the embers died. It is led by the desperate brewers and augmented by their ally, the large "personal liberty" element within the nation. A large per cent of this element is actually foreign born and a larger per cent has sacrificed every American ideal and standard of life before the tidal wave of foreign idealism that is sweeping the nation.

The preliminary work has already been done in this movement for the annihilation of the eighteenth amendment. This has been accomplished as a widespread effort to promote lawlessness and at the same time blame that lawlessness upon prohibition. Multiplied thousands have been engaged in bootlegging and other thousands have been constantly busy telling the people that the eighteenth amendment is responsible for the bootleggers and the crime. In many instances the same individual has handed both ends of the undertaking. There are now

thirty-five different organizations functioning in an effort to break down the constitution, virtually all of them heavily financed.

The most recent movement is a movement among the "wet women" of the nation. Its purpose is to organize in every county in every state all women whom it can deceive into believing that the only thing prohibition has done is to open up the bootleg joint. Miss Marbury, who seems to head this movement, declares that prohibition has produced a nation of juvenile drunkards. She asks: "Where is the young girl today who does not drink whisky?" You can instantly see what crowd Miss Marbury has been running with as well as the nature of her propaganda. Such unadulterated nonsense and deliberate false statement could only be used for purposes of deceiving the simple.

There is not an honest man or woman in America who has studied the question but that knows that prohibition has cut the drink evil all to pieces in this nation. We know that there is not one drunk man roaming the streets today where there were ten under the saloon. We also know that the situation will be still more gloriously improved just as soon as the old liquor crowd realize that they are helpless in bringing the saloon back, for a realization of that character will of itself put out of business two-thirds of the blind pigs, which institutions are at present being conducted more for propaganda purposes than for the sale of booze.

The one thing we Americans want to do is to line solidly against this combination of brewers and foreign idealism, this battle against the American Constitution, this contemptible defiance of our laws.

THE SENATORIAL RACE.

From Plainview News: The results in the senatorial race were indeed surprising, the two least desirable candidates being the leaders, one, strictly a politician, representing and receiving the vote of the Ku Kux and the other being an impeached and discredited ex-Governor, representing the liquor-loving element, organized labor and other disgruntled people generally.

And, the worst part is, that decent people must choose between the two in the run-off primary. It is indeed an awful state of affairs that our state has gotten itself into. There are a hundred thousand persons in Texas that would make a more creditable senator than either one of these two birds of political and personal ill omen.

But, there is an old saying that of "two evils, take the lesser," and that is what good citizens must do. Under such a plan, the editor of the News will support Mayfield, for he is considerably more desirable than Ferguson. Hence, as stated in Tuesday's issue, we will put a clothespin on our nose and vote for him August 26th.

In voting for Mayfield we do not in the least endorse him personally, nor do we recede one inch from our opposition to the Ku Klux. Mayfield is a genial fellow, has not much ability but is politician enough to try to represent the people, has been for many years a staunch (?) prohibitionist. Ferguson was impeached for crimes and misdemeanors against the State and thrown out of the gubernatorial chair. If he was guilty of what he was convicted of in the impeachment trial, he is bad enough to sell his vote on important legislation, if elected to the senate. He represents the very worst element of Texas citizenship. He seeks to undermine the prohibition law and its enforcement. There is hardly a redeeming feature in his make-up, and it would be a disgrace to Texas to have such a man in the senate.

It is quite safe to say that Mayfield will be nominated, for we are sure that few of the persons who voted for Ousley, Culberson, Thomas and Henry will vote for Ferguson. Certainly but few of the women will do so, for Ferguson represents every thing that is detrimental to the home, while Mayfield stands for decency, prohibition and education.

The Florence Oil Stove keeps the wife cool. We sell them.—Colorado Mercantile Co.

BARRY MILLER'S STATEMENT

The announcement that Barry Miller, member of the Legislature from Dallas and defeated for re-election, will support former Governor Ferguson in the Senate runoff against Eadie B. Mayfield is not particularly important and will doubtless have slight bearing on the outcome of the voting in August.

Mr. Miller managed Senator Culberson's campaign this year and his considerable ability and standing in did six years ago and is a man of Texas politics, but he greatly exaggerates his own strength if he thinks that his endorsement of Mr. Ferguson will cause any considerable number of voters to en list under the Ferguson banner.

Mr. Miller knows that the record of Mr. Ferguson is one that cannot be defended. His announcement therefore, may be attributed more to disappointment over the defeat of Senator Culberson and his failure to be re-elected to the Legislature than to any affinity he may feel for the platform and policies of Mr. Ferguson.

"As the Tribune sees the issue in August run-off there is only one thing to do and that is to vote for Mr. Mayfield. Mr. Ferguson was convicted of misconduct in office and impeached as Governor. He bolted the Democratic party two years ago and sought to form what he termed the American party. He is the most conspicuous exponent of the doctrine of discontent. In fact, The Tribune can see nothing to commend his candidacy to the people of Texas.

Under these conditions, notwithstanding Barry Miller's statement that there is but one "place for real Democrats to go," The Tribune believes that Mr. Mayfield ought to be elected and of the outcome it entertains no doubt.—Amarillo Tribune.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nerves and Depressed—Read Her Own Story of Recovery.

Faint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since. . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life." For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments. If you suffer as these women do, take Cardui. It may help you, too. At all druggists.

DEVELOPMENT MITCHELL NOT AFFECTED DECLINE

(Continued from page 1)

1 is drilling around 750 feet and is attracting the attention of all operators in the field. This well is favorably considered and has caused no little activity in leases in that part of the field. It is reported on good authority that the Smith well will be completed within the very near future. When this well is brought in it will open up a large area in this field which has hitherto remained somewhat dormant, and it is expected that much interest in leases surrounding this well will become very noticeable.

Taking everything into consideration, progress is even more than satisfactory in the Mitchell County field and big things are expected in the near future.

ACTIVITIES GAIN IN THE MITCHELL COUNTY FIELD

This article was carried by the Associated Press with Colorado date line in all the Sunday daily papers and oil journals:

The California Company has a number of workmen building camp houses about five miles south of Colorado. The camp will be equipped with all modern conveniences. The company is said to have leased the Gary ranch house for five years. Slush pit has been dug and water line connected with Morgan creek for the first test to be drilled in section 64, block 27, T. & P. survey. The corporation is now awaiting arrival

of tools, which are said to be en route.

The California Company owns several thousands acres in leases along the bank of the Colorado River in block 27, T. & P. survey. Reports are to the effect that should the first well be non-productive other wells will be drilled on the leases.

Western Mitchell county is to have another deep test. California interests are reported to have paid \$6,000 for 120 acres one mile east of the Murphy test. The 120 acres carries a drilling contract. The test to be spudded in within 60 days. Several other such deals are awaiting the outcome of the Murphy well which is drilling at about 3,030 feet.

The Gulf Production Company has been the heaviest purchaser during the week. Several different leases in different parts of the county have been sold to the company during the last few days. The Gulf is third in the amount of acreage in the Mitchell County field, according to county records.

The Flescher Petroleum Company Coleman No. 1, section 69, block 97, H. & T. C. survey, is drilling at approximately 2,300 feet.

The Mitchell County Oil Corporation's Badgett No. 1, section 62, block 97, H. & T. C. survey, is drilling at 500 feet. Contractors had to drill a water well for drilling purposes.

Maxwell and Johnston's Jones No. 1, section 33, block 26, H. & T. C. survey, is drilling at 400 feet. Their Capps-Lucus No. 1, section 13, T-1-N, block 30, T. & P. survey, is drill-

ing at 1,500 feet. Their Stewart No. 1, section 32, T-1-N, block 29, T. & P. survey is drilling at about 1,750 and they expect to set 8-inch casing in the next 50 feet.

Magnolia Starts Well.

The Fensland III Company's Read No. 1, section 27, T-1-N, block 30, T. & P. survey, is drilling at 1,100 feet. The test is being watched closely as it is on the Read anti-cline and has a good chance of being productive, eminent geologists declare.

The Magnolia Petroleum Company Foster No. 1, section 18, T-1-S, block 29, T. & P. survey, has spudded in but according to reports will have to drill a water well as supply for drilling purposes is exhausted. The test is on the southern part of the Read anti-cline.

The Colorado Texas Oil Company Foster No. 2, section 43, T-1-N, block 29, T. & P. survey, is drilling in lime at 2,450 feet and expects to reach a productive sand at about 2,650 feet.

Western Petroleum Company's Etta Brennand No. 1, section 1, T-1-S, block 28, T. & P. survey, is drilling at about 3,175 feet.

Daniels and associates, LeSure No. 1, section 40, block 28, is drilling at about 2,400 feet.

Underwriters Producing and Refining Company's T. & P. No. 2, section 33, block 28, T. & P. survey, is drilling at 3,050 feet. The test has been in a broken sandy lime formation for the last 100 feet. The test will be given a nitro shot in this formation.

The General Oil Company may drill several wells in Howard County on the McDowell ranch, according to reports from Houston. The General Oil Company still owns several thousand acres of leases on the ranch and must begin operations in the near future.

Big Spring Herald:

H. D. Conley, who is superintending operations of the General Oil Company in this territory for the receivers has been a busy man the past few days assisting in the work of assembling material and machinery at the Read well No. 1 to complete the work of plugging this hole. This well was completed to a depth of more than 3800 feet by the General Oil Company last year. From the very time work was started on this test geologists who had made a study of this territory predicted that the Read No. 1 would be a dry hole as it had been located on a syncline. A more thorough study of the territory comprising the Read ranch has resulted in the finding of well defined anticlines not far distant from Read No. 1.

The work of drilling McDowell well No. 4 of the General Oil Company, located 20 miles south of town, is going forward steadily and a depth of 3000 feet has been reached. For the past 200 feet a broken formation consisting of shale and lime has been encountered.

Oil Men Strong for This Section
J. M. Eriksen, of New York City, and W. S. Packer, of Ranger, interested in the Fensland-Read No. 1, the deep test being drilled on the well defined anti-cline on the C. D. Read ranch in the eastern part of Howard County, by the Fensland Oil Company, were business visitors in Big Spring last Saturday.

This test which was spudded in on July 17th is now down to a depth of 650 feet so you can understand that this company is going to make a record in putting this test down.

Messrs. Eriksen and Packer are identified with the Northern Texas Oil Company which owns other acreage in addition to that near the Read well No. 1 and they are very optimistic over the outlook for big production in the new West Texas oil field.

Cushing Ranch Drilling Association
Some boiler trouble has been retarding progress on Enders-Cushing No. 1, of the Cushing Ranch Drilling Association but this will soon be eliminated.

When drilling is resumed another crew of drillers will be put to work on this test and the well will be completed without delay. While it is expected that production will be secured around 3800 feet, the company plan to drill to a depth of 4000 feet in search of the big pool.

Some trouble has been experienced on Sparkman well No. 1, due to water but underreaming has been completed, casing set and drilling is now in progress.

The casing for McIntyre No. has not yet arrived and as a result drilling is being held up on this test.

Pres. Chicago-Texas Co. Here
Paul S. Odward, of Chicago, president of the Chicago-Texas Oil and Gas Association, who was here the forepart of the week, left for Fort Worth to purchase casing needed for the Durham well No. 1, southeast of Sterling City.

He expects to have work on this

WORTH WHILE SERVICE

It is worth emphasizing that the City National Bank has only one service, the best we can possibly give.

Our officers are men of unquestionable responsibility—they can lend you an expert hand in business.

well resumed within the next 30 days, it is to be completed by contract.

Sterling Petroleum Co.
The Sterling Petroleum Company Brennand well No. 1 has set casing at 1280 feet and fast time is expected from now on.

They will run tower on this test and complete it at the earliest possible date. This well is located ten miles northwest of Sterling City.

Prospects in Pecos Field Good From Pecos Enterprise:

The Willoughby well in the southwestern part of the county, is making very satisfactory progress and have had some very encouraging showings of oil and gas, which causes the manager to believe that they will strike pay almost any time.

The fishing job at the Toyah Bell is progressing very satisfactorily, and if they succeed in getting the casing out and shoot the well it is generally believed they will have a splendid well which will not only be a gusher but a good one.

Those who have been watching the Laura well are very much gratified to know that the new rotary outfit is going in and the terms of the contract leads one to believe that when they do start that it will be only a short time until the bit will dig down into the pay.

Hershenson Well.
Drilling is now in full swing at the Hershenson Well, the drill having succeeded in spreading a 15 1/2 inch bit to 18 1/4 inches, this large bit taking the place of the new bit which broke about two weeks ago. The drill is now working in limestone formation, which formation is expected to continue to about 425

feet, at which depth a water sand should be found.

The Toyah Bell Well.

The past few days those at the Toyah Bell well have been busy bailing oil and pulling casing. The latter job is proving a slow one yet those in charge have the greatest hopes of overcoming all obstacles and removing the balance of the casing at an early date. In the meantime the well is holding out the same as since it first struck pay sand in giving up the oil. Occasionally it shoots over the top and at other times oil is being baled. What time they are not busy bailing they are busy fishing.

The Laura Well

All but about two hundred feet of the casing which is to be pulled from the Laura well before installing the rotary rig is out and it is thought to be only a matter of small consequence to remove that. A car of the rotary machinery which was shipped when the other was some two weeks ago has not yet arrived although every effort is being made by the railroad officials to locate it and get it here. Meanwhile those in charge are making everything in readiness to install the rotary outfit preparatory to drilling in the well. Mr. Heller, of the Sunshine-Federal interests, says that they are now just about ready to begin the installation of the machinery, as they are getting everything out of the way.

Bell Well Drilling.

The Bell well was reported as drilling at 2770 feet this morning in a black lime shell and sandy shale formation, which had hardened perceptibly within the last twenty four hours of drilling. Every pre-

caution is being taken to prevent a recurrence of gas pressure blowing tools up in the hole, and formation is being watched closely in order that the expected oil and gas sand may not be drilled into unexpectedly.

The management and drilling crew at this well do not seem inclined to give out detailed information, or make prediction as to the possibility or probability of what they have, but have a knowing look of optimism and satisfaction that leaves no room for doubt.

The Willoughby Wells.

A note from C. H. Willoughby of the Willoughby Petroleum Co., says: "Everything running perfectly O. K. Both wells are going with the reaming and setting casing down to black lime on Willoughby No. 1 at 602 feet to be completed before you go to press barring any breakdowns." "Geologists claim that 'black lime' in these ages (Cretaceous) is practically certain of big production and we surely have the black lime and good oil showings."

The Tatum Well

The Tatum Lease well is drilling at 970 feet and there is no change in the formation although a showing of petroleum gas was found after leaving the 900 mark, in hard lime. The management has to secure a new drilling line and 100 feet of 6 5/8-inch casing to be prepared for any emergency that may arise. This will be secured at once.

The Owen No. 2 has more water trouble and is closed down temporarily awaiting casing to handle the water with. They were drilling at 2850 feet and geologists predict oil will be found at 2900 feet.

The Foundation of a Bank

does not depend so much on the building materials as on the solidity of its resources and the ability of the management. Both of these are fully demonstrated in the conduct of this bank.

Its financial solidity is beyond question, as the last statement will show. It is managed in a conservatively progressive manner which offers every courtesy to its customers consistent with the safety of its deposits.

LET EVERY WOMAN VOTE

It behooves every woman to go to the polls August 26th and cast her vote. Remembering that it took years to have the curse of alcohol removed from our loved land and the failure to cast her vote might be the cause of getting men in office who would do all in their power to have the saloon back in existence.

Getting Ready for the Fair.

J. A. Sadler, chairman of the Booth Committee for the Mitchell County Fair to be held September 22 and 23, called his committee together Monday evening. The committee was enthusiastic over the prospects and were ready for work.

BAND CONCERT

The Colorado Booster Band will give a concert at the Court House lawn tonight (Thursday). We feel that is all the announcement necessary to draw a crowd for the people of Colorado love good things, especially music, and they also appreciate and stand by the band.

THANKS

I take this method to thank my loyal friends heartily and sincerely for their support and their influence given me in the recent Democratic primary election for County Commissioner, precinct No. 2.

H. A. LASSETER.

C. W. B. M. Meeting

The August C. W. B. M. meeting was held with Mrs. Soper last Thursday. The subject was "Opening a Closed Door," Tibet. The life and deeds of the late Dr. Shelton, who was a missionary for a number of years and who was murdered on his way to open up a new field of labor, were talked about.

All Saints' Mission. Corner Locust and Third streets. Reverend F. B. Eteson, priest in charge. Regular appointments, first and third Sundays in each month. Order of services Sunday, August 13:

MEETING CLOSED

Sunday night marked the closing of a most successful meeting at Westbrook. It was conducted by Rev. A. D. Leach, assisted by Rev. M. C. Bishop, pastor here.

CHRISTOVAL ENCAMPMENT.

Rev. M. C. Bishop and family left Monday morning for Christoval to attend the Baptist. Encampment there. There are seven of these encampments in Texas over different parts of the State, held during the summer months. All the Southern States have one or more of them.

AT THE METHODIST CHURCH

Sunday school at 9:45, G. D. Foster, superintendent. The collection at Sunday school last Sunday was \$233.00, but the attendance was not so good as it ought to have been. Let all our Methodist parents come to Sunday school and bring the children with them.

C. L. BROWNING, Pastor.

B. Y. P. U. PROGRAM

For Sunday, August 13, 1922. Given by Group No. 1. 7:30 p. m. Bible Study meeting. Scripture—1 Cor. 13. Leader—Anna Dean Smith. Song—By Union. Prayer.

Mrs. Georgia Laceywell, newly appointed county demonstrator arrived Wednesday and begin her work Thursday. Several of the country communities were ready for her and it is hoped the others will be ready soon.

J. V. Clark of Post will be in Sunday for a visit with his father, and sister, Mrs. L. R. Pond.

"Turn to the Right,"

WESTBROOK ITEMS.

Much interest is being shown in the Murphey well being drilled by Mr. Riley and we are informed that they have reached a depth greater than 3000 feet but do not know what kind of formation they are drilling in but think the prospects are good for a real oil well.

Phelan No. 1 has been shut down for several days at around 320 feet and the best information we are able to obtain is that they will resume operations within a few days.

Mr. Thomson is drilling steadily at 2300 feet on Le Sure No. 1 and if things go good he should reach the T. & P. sand within a few days. He tells us that he has every reason to believe that he will get a good producer in this well to equal the Morrison No. 2 if not better.

Foster No. 2 is expected in today or tonight prospects good for production in this well.

Maxwell and Johnson are making good time on all three of their wells and their Stewart No. 1 is down around 1800 feet and drilling steadily.

The Coleman well is drilling but we did not learn at what depth.

It is reported here that there will soon be a rig up on the Smart section, four miles north and west of Westbrook.

Smith No. 1 is still shut down on account of lost bit in the hole. They are having some fishing tools made in Ranger which is said to be the cause of the delay.

The operators who have the Gary Ranch leased and other tracts south east of Westbrook have their camp about completed and will soon be ready to spud in on the Richardson tract.

Business of all kinds is good in Westbrook and she will soon come into her own and be recognized as the city of all oil activity in West Texas.

Burton-Lingo Co. have just received a car of rig timbers and are having same unloaded.

We would like to see some one drill a well in the town of Westbrook for we feel sure that we are right over the big pool then we could have gas to cook with and keep warm this winter.

Mr. and Mrs. A. F. King left Wednesday morning for Goldthwaite and other points in Mills county to be gone for several days.

Mr. and Mrs. Ed Hayslip will leave Saturday for Coleman to visit relatives.

Miss Martha Powell of Garrett, Illinois, is visiting her brother, Fred Powell.

Quite a number from Colorado attended the meeting here Sunday night.

Mr. and Mrs. O. T. Bird returned from Marlin Monday they report a pleasant trip and that their mother was doing nicely.

Burton Hines returned home the last of the week from the Sanitarium at Sweetwater much improved his friends are in hopes that he will be able to be out again soon.

A. Petty's new home is nearing completion and Contractor Bernard says that he will give it the finishing touch within ten days. This will be the best constructed house in Westbrook.

W. E. Smith, accompanied by his sister, Mrs. T. W. Gilliam, motored to Big Spring Friday.

There will be an interesting picture show Saturday night at the Air-dome known as the Happy Hour.

Miss Landry Smith of Colorado is visiting relatives and friends here this week.

J. S. Barnes took a day off and went fishing one day last week. He brought home 74 nice fish, the largest one weighing 8 pounds. These fish were caught on Beal's creek.

The Baptist meeting closed Sunday night. Much interest was taken in the meeting throughout the week 18 united with the church by baptism and several by letters. Bro. Bishop is an able minister and won the love and respect of the entire community while he was here.

Miss Louise West of Dalton, Ga., arrived Friday to make her home with her uncle, Robert Burns.

Mrs. L. E. Lasseter accompanied by Mr. and Mrs. C. D. Doggett of Polytchnic, Texas, spent several days with Mr. and Mrs. J. E. Lasseter.

Mr. and Mrs. E. G. Langley and daughters of Abilene spent the week-end with Mr. and Mrs. John Langley. Mr. and Mrs. E. O. Wrenn of Ft. Worth were guests of Miss Margaret Lasseter Sunday.

Mrs. T. G. Robertson is on the sick list this week.

Roy Farmer has the Colorado Record on sale at his stand.

You may not be a "United Daughter of the Confederacy" or a member of the "Sons of Veterans" but if you are a daughter or son of the Southland, you will hear the call of the R. E. Lee chapter to go to see "Turn to the Right" at Gerrard Tent Theatre August 16 and 17. FOR SALE—Four burner cabinet oil stove; good condition. See E. B. Canada, Phone No. 10.

LOST—Extra tire 33x4 Kelley Springfield on rim, lost between Westbrook and Coleman Jones lease Reward for return to P. M. Rowland Westbrook, Texas. 8-11p

LOST—Wednesday evening on the streets of Colorado, a ladies Cameo breast brooch pin. Please bring to Record office and get reward 1tp

Mrs. Ben Plaster has returned from Ft. Worth much improved in health.

Little Mary Bell and Harold Brennan have returned from a visit with their aunt, Mrs. Raymond Johnson, in Kent.

Mrs. Eugene Pond returned from a visit with relatives near Brownwood Thursday.

Mr. and Mrs. C. P. Conoway have just returned from a visit to Hill and Navarro counties. They were reared, married and lived their early married life there so had much pleasure in visiting those places again.

Dr. Kincaide, a special friend of W. A. Dulin, came up from Eastland this week to investigate the oil field here. Dr. Kincaide has several producing wells in the shallow field at Eastland.

W. L. Doss, Jr., Dee Donnell and the women folks together with Miss Bill Morrow of Abilene, as a guest, are all off on the Concho fishing. No word has been received as to when they expect to return home and report a most wonderful trip.

Miss Georgia Laceywell the new county demonstrator, arrived in Colorado on Wednesday to arrange her county work beginning next Monday. She went out to Lone Star last evening to visit with the womens home cooking club there. Friday (today) the ladies of Colorado will meet her at her present office in the Chamber of Commerce rooms.

J. L. Hart, Tom Appling (Happy) Hary Hyman and R. B. Andrews all returned home this week from a Concho fishing trip on the Hyman ranch, and report unprintable tales of the great catch.

Perry Graham, owner of the "Perry's Place" cafe has associated with himself Mr. C. H. Oneal and will open up a real city cafe. They have leased the upper story of their present building and will convert it into a rooming house or sleeping apartments and will install plate glass mirror and marbel granite fixtures in the cafe so as to make a complete pattern of a real city cafe.

A little girl baby arrived last Saturday to be in the home of Mr. and Mrs. H. P. Slagel, weight 9 pounds. She was welcomed by a grandmother and great grandmother.

AT THE COURT HOUSE LAWN BY THE Colorado Booster Band

Refreshments will be served by Women of the Civic League Proceeds to be applied to purchasing uniforms for the Band.

EVERYBODY INVITED

To come and hear some good music and help the band boys

Brickbats Never Made a Bouquet

How many times, Mr. and Mrs. Reader, have you said a kind word to the editor? How often have you stopped him on the street to commend him for an editorial or dropped him a note giving him your support in some fight he was making for the public good?

An editor doesn't seek any words of thanks. Probably if you did stop him and showered some kind words in his ear he would be as embarrassed as a 10-year-old schoolboy speaking his first piece. But at any rate it will sound good to him when he has time to think it over.

Instead of words of praise, here is what you generally hear: "Why, that paper isn't worth half the price. It never has any news in it and what it does have is mostly all wrong."

Yet when that person wants to advertise a cake sale or a dance he or she sends the items to this same newspaper.

Then you hear that the editor is a crank, that he is biased and doesn't present news fairly, that he doesn't know how to run a paper, and so on and so on.

You have all heard these remarks or similar ones, but are they fair?

An editor, in the first place, is only a human being. He is dealing with human beings and it's sound logic that you can't please all the people all the time. At some time or another he has to print some news that is going to offend someone and make an enemy. The editor can't help that. People who get into trouble never think about the newspaper until they want their names kept out. Then they get mad at the editor because he prints the news.

It is true that an editor makes mistakes, and no one regrets more than he slips of the type, but, again, he is human, and so is every man and woman who works for him.

Did you ever stop to think how many characters there are in a column of type? Well, there are thousands, and that means there are thousands of opportunities to make errors. And newspapers are generally printed amid great rush and confusion. A big story breaks. The facts must be learned and put into type. The mail must be caught. Everything is rush, rush, rush. And yet if a few types get tangled up the paper is criticized.

Take it right home to yourself. Can you sit down and write a letter—even a short one—without sometimes getting a word wrongly placed or misspelled? Be honest, be charitable and overlook a few mistakes when you see them in your home town paper.

No man tries harder to avoid mistakes than the editor. It's common sense that he would much prefer to have a perfect paper and avoid mistakes.

The next time you meet the editor—well, just remember he is a human being just like you are and that the Golden Rule works both ways.

OFFICIAL RETURNS DEMOCRATIC PRIMARY ELECTION MITCHELL COUNTY, JULY 22, 1922.

Table with columns for candidates and precincts (Colorado, Loraine, Westbrook, Spade, Buford, Cuthbert, Curt, Lujan, McKee, TOTAL). Lists candidates for U.S. Senator, Congress, Attorney General, etc.

CHURCH OF CHRIST TO HAVE REVIVAL MEETING

Evangelist J. W. Chism of Hillsboro, Texas will begin a series of meetings at the Tabernacle for the Church of Christ on the night of the 15th of this month.

The regular business meeting of the Baptist Auxiliary was held at the church Monday. Besides the routine business plans were made for regular luncheon for the Lions Club Wednesday.

Birthday Honored.

On last Friday the neighbors of Mrs. F. E. McKenzie met informally at her home to offer best wishes to her mother, Mrs. Fletcher, it being her seventieth birthday.

An Appeal From The U. D. C.

There is no expression of real service like his who answers the call of his country—in this spirit of patriotism and determination in purpose, the noble Confederate Soldier faced the battle of war.

Mr. and Mrs. W. L. Doss were both on the program for the West Texas Rebecca I. O. O. F. association at Sweetwater this week but were unable to attend, because Mrs. Doss has not fully recovered from her recent illness and Mr. Doss could not leave the store while the Main Guy is off fishing.

The Spade community reports a fine rain Monday night all of which will help some. The Record has a big county rain due before Sunday night all of which will save the county's crop.

Harry Cross of the Foxhorn is an optimist; he reports business good, getting better and things looking up.

City Council meets in regular session next Monday night when the new Mayor, Judge R. H. Looney, will be inducted into office.

Ben Morgan, one of Del Rio's prominent business men and a former merchant here, is here this week on a visit to old friends and kinfolk.

Charlie Thompson is acting County Judge in the absence of Judge J. C. Hall, who is in New Mexico on his vacation.

S. M. Johnson of Sweetwater was a business visitor here on Tuesday.

The County Commissioners will meet in regular session next Monday.

"Turn to the Right,"

CHRISTOVAL ENCAMPMENT GETS LIGHTS AND WATER

SAN ANGELO, Aug. 6.—The size and capacity of the tabernacle on the grounds of the Christoval Baptist Encampment at Christoval has been doubled and electric light and water work systems are being installed, all at a cost exceeding \$5000 in preparation for the 1922 meeting from August 8 to 18, inclusive.

Last summer the Baptist encampment at Christoval was the largest in the South, with 3,000 campers on the grounds and an attendance of 5,000 on Sunday. An even larger attendance is expected this year. Hundreds of Texans combine their vacations with religious training and enjoy camping, boating, fishing and bathing while attending the meeting.

Dr. George W. Truett of Dallas, prominent Baptist minister, will be the principal preacher again this year, while speakers will include the presidents of Baylor University, Howard-Payne College, Simmons College and Baylor College for Women. The Rev. E. F. Lyon, pastor of the First Baptist church here, is president of the encampment association which embraces most of West Texas.

Quite a number of Colorado families are camping there this week.

Same Old Story But a Good One.
Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Notice of Bankrupt's Petition For Discharge.

In the District Court of the United States for the Northern District of Texas, in the matter of John Milton Yater, Sr., bankrupt, No. 907 in bankruptcy.

Office of Referee, Abilene, Texas, July 31, 1922. Notice is hereby given that John Milton Yater, Sr. of the County of Mitchell, and district aforesaid, did, on the 5th day of May, 1922 file in the Clerk's office of said Court, at Abilene, a petition setting up that he has been heretofore duly adjudged a bankrupt under the act of Congress approved July 1, 1898; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy, and pray-

ing for a full discharge from all debts provable against his estate in bankruptcy, save such debts as are excepted by law from such discharge.

On considering the above mentioned petition, it is ordered that any creditor who has proved his claim, and other parties in interest, if they desire to oppose the discharge pray-

STEAM VULCANIZING

Fordson

THE UNIVERSAL TRACTOR

Storage Battery Repairer

Motors Overhauled

Nothing Like This Low Price Has Ever Been Known Before

No farm tractor ever offered more money value, or more work value, than the Fordson Tractor at this astounding new low price.

No farm power unit you can possibly buy will do more for so little—and no farm, regardless of size or location can afford to be without a Fordson Tractor.

Place your order now—there is no time for delay or comparison. Price alone makes your choice the Fordson. After that, performance will prove to you, as it has to 170,000 owners, that this light, compact Fordson is the most efficient power plant ever hitched to a farm tool. Let us prove it to you. Write, call or phone today.
