Colorado National Bank

Oldest Bank In The West
Established 1882

We are now located in our new building, and with pride we invite the public generally to call at any time and inspect our new home. It will be a pleasure for us to show you through our vault and equipment.

The Colorado National Bank will open for business in the new home of the institution Saturday morning, Joe H. Smoot, cashier, stated Wednesday. Mr. Smoot had planned moving into the new building earlier in the week but was delayed awaiting final completion of the interior decoration and installation of fixtures. Smoot stated that a cordial invitation was extended the general public to visit the bank in its new home.

The new home of the Colorado National Bank, representing an investment of \$60,000, is among the best and most attractive bank and office buildings in West Texas. The building, standing two stories in height, 41 by 70 feet in size, is constructed of reinforced concrete, finished with face brick and limestone trim on the outside and according to a most artistic arrangement throughout the interior.

The floor in the main lobby and in lavatories are of tile while the floor in working space and stairway as well as hall on second floor is of composition. Fixtures are of mahogany, Tennessee marble and bronze metal. Wainscoting is of the Tennessee marble. To the right upon entering from the Second street door are located the private offices of the bank, while to the left and extending around to the south side, near the Walnut street entrance, is located the large lobby. All millwork on this floor is of mahogany.

To the rear of the lobby is located the ladies rest room, in which every comfort and convenience has been provided. In the large working space, thirty by thirty feet in size, has been provided every modern convenience for handling growing business of the institution with efficiency and dispatch. Color scheme carried out in the interior decorations harmonize most beautifully and are, as all other features of the building, a credit to the architect, David S. Castle of Abilene, who planned and superintended construction of the building.

In the rear of the working space is located the large vault which is of burglar and fire proof construction and is the only absolutely burglar and fire proof vault in this section of Texas.

The vault has two separate compartments, a first or main floor and a second floor, connected with a winding steel stairway. On the lower floor the vault is divided into two rooms, by a grill partition. On the first floor, in addition to the safe, is located a long tier of safety deposit boxes of various sizes, provided by the bank for use of customers.

The building was almost one year under construction. Dirt was broken July 1, 1922, and with the few exceptions when work was delayed on account of inability to receive materials, work has gone forward without interruption. The building was erected by J. M. Morgan & Co., of Big Spring and Colorado. The fixtures were installed by the Dallas Show Case Company of Dallas. The building will be steam heated throughout and running water is provided in every office suite on the second floor.

On the second floor is located ten office suites, practically all of which are already occupied by tenants. Woodwork on this floor is of white oak. Comparing in every respect

with the first floor, this section of the building will rank with the best in Texas and is a credit to the institution.

The Colorado National Bank was organized October 6, 1882, with a capital stock of \$100,000. The first president was A. W. Dunn, J. W. Coleman was vice president and W. F. Hendrix, cashier, was succeeded in a short time by E. F. Sweeney, now president of the First National Bank of Kansas City, Mo. The bank opened in the building standing at corner of Oak and Second now occupied by Wolk's.

Minutes of early directorate meetings show the name of Dr. P. C. Coleman as a director in 1887, and is now active in such capacity. Other men identified with the bank in its early days, and who have since attained prominence in the business and professional world include the following:

A. B. (Sug) Robertson, millionaire cattleman, who died at Abilene last year; E. H. Cook, now of Oklahoma City, Oklahoma; R. L. Ball, well known member of the Texas bar and who for the past several years has lived in San Antonio; G. H. Colvin, now first vice president of the F. & M. National Bank of Fort Worth; H. B. Smoot, deceased, of Colorado, associated with the bank from 1894 to 1910; Jake McCall, Fort Worth, Judge R. H. Looney, attorney and now mayor of the city. F. M. Burns, pioneer Colorado merchant has been an officer 29 years. He has been president since January, 1920.

C. M. Adams, another pioneer business man of the city, has been associated with the bank 25 years. He is now vice president.

Judge C. H. Earnest, still another pioneer citizen of Colorado is one of the Vice Presidents and has been identified with the bank since 1907.

J. M. Thomas, active vice president, succeeded W. J. Hatch as cashier in 1910 and was elected vice president Jan. 20, 1920.

Joe H. Smoot, son of H. B. Smoot one of the early active officials, came with the institution as cashier three years ago.

H. E. Grantland, assistant cashier, has been with the bank 15 years. G. B. Slaton, assistant cashier, came with the institution in April, 1921, at the time the Colorado National absorbed the First State Bank. Slaton was formerly cashier of the First State Bank.

An interesting item of news is gathered from proceedings of a director's meeting, held January 31, 1894. The minutes show authorization to advance a loan with which to purchase cattle at \$4.50 per head, an amount equaling about ten per cent of the market value of these animals today.

During the more than forty years of its life, the Colorado National Bank has always been in a healthy condition and in the midst of a sturdy growth. The institution has absorbed three other Colorado banks during the time. Two of these, the First National and People's National banks, were taken over by the Colorado National many years ago. The old building it is now vacating was formerly the home of the First National bank. The other bank taken over was the First State Bank, consolidated in 1921.—Colorado Record, June 22.

HOUSE JOINT RESOLUTION NO. 16

Proposing an amendment to Article 8, of the Constitution of the State of Texas...

THE BEST THE FARMS PRODUCE

By WALTER W. HEAD First Vice-President, American Bankers Association

Walter W. Head

SOME HARD FACTS ABOUT SOFT MONEY

By JOHN OAKWOOD

When a farmer takes his produce to market and sells it for, say, a dollar a bushel, he is dependent upon the honesty of two measures—the dollar and the bushel.

The other day a crossroads storekeeper got sent to jail for manipulating a trick bushel basket with a false bottom that would slide up and down in a way that was grand, gloomy and mysterious.

Finally the farmers themselves get wise to the fact that the only way they could get what was coming to them was to enforce a reliable standard of measurement.

Politicians in Europe have been manipulating the other measure—the money measure—in much the same way. Some of them in America want to tamper likewise with the dollar.

But meanwhile the politicians start to manipulate the base of the currency. They would change it from the gold standard to a fiat money plan.

Co-operative Marketing

Agriculture produces enough to feed the people the year around but some of this production should be stored to eliminate the over supply at the times of harvest or during periods of high production.

NOTICE IN PROBATE

THE STATE OF TEXAS

County of Mitchell

In the County Court of Mitchell County, Texas, July term, 1923.

To the Hon. J. C. Hall, judge of said court; Now comes Bertie L. Standefer, who resides in Mitchell County, Texas, and shows to the Court that Marcella Standefer is a boy of about 12 years of age, who Beatrice Standefer, is a girl of about 10 years of age, and Dimple Elma Standefer, is a girl of about two years of age, who reside in Mitchell County, Texas, and is without lawful guardian of their person estate.

Wherefore, she prays that notice of this application be given as required by law and that she be appointed guardian of the person and estate of said minors.

L. W. SANDUSKY, Attorney for applicant.

PATRONIZE HOME MERCHANTS

If you can find a mail-order concern that will extend you thirty days credit and longer if you or your family are sick or misfortunes overtake you, deliver your dry goods and groceries at your door, go about shopping for you when you want something they happen not to have, who pays a tax to help educate your children, donates to the unfortunate ones of the community, helps pay the preacher's salary and spends his time and money for the benefit of the community, it is all right to trade with him, but unless he is working for your community as your local merchant is, it is unfair to your local merchant to send the mail order house your business.

Soft money would be only another way for the money politicians to hand the farmer the same dirty deal as the basket manipulator.

In Germany they have carried the manipulation of the mark so far, well, it seems hardly believable, but if they did the same thing to the dollar, it would take over ten million in paper money to buy that land.

When we advertised army shoes for sale last April in New York at two dollars and six bits a pair, scores of orders went to New York for shoes when there were just as good shoes in the stores of Sterling and just as cheap, but the public knew nothing about it. Trade at home.—B.H. Kellis.

HIGHWAY DEPARTMENT LOANS TENTS FOR STORM SUFFERERS

The following is taken from the Texas Highway Bulletin, official magazine of the State Highway Commission, published monthly at Austin:

County Judge J. C. Hall called the Highway Department over long distance at 11:00 a. m. May 15th, and requested any tents that the Department might have to provide shelter for the wounded and homeless in the storm stricken area in Mitchell County. Fortunately, the Highway Department had in stock about thirty tents that had been secured from the Federal government. These tents were all forwarded by express to Judge Hall at Colorado without delay, reaching their destination at 6:45 the next morning.

The tents furnished by the Highway department were shipped to Colorado after attempts to obtain them from the Federal authorities at Fort Bliss had proven futile.

IN MEMORIAM

Lines written for Misses Gertrude and Caroline Chambers: Gone from this earthly sphere,

Away from its grief and care To that beautiful land of peace and love,

A crown of life to wear. Methinks a band of angels came, In robes of spotless white,

And with a glad triumphant song They bore her from your sight. She was so good, so pure, so true,

Her mansion was complete. And He in mercy called her home To sit at Jesus' feet.

Now a cloud of sorrow hovers Darkly over the home today, Tears will fall and hearts are broken Since Dear Mother went away. But the rainbow bright with promise Gleams with beauty in the sky, God above is leading, guiding, With His ever watchful eye. When the toils of life are over And you hear the kind well-done, She will greet you at the portal Saying welcome, welcome home. —Kate Homan, Lamesa.

BROWN-ABBOTT CONSTRUCTION CO. GIVEN BRIDGE CONTRACT

Contract for construction of the new bridge across Lone Wolf Creek, in the eastern section of the city was awarded Tuesday morning to the Brown-Abbott Construction Co., by Commissioners' Court. The bid of this concern, for \$20,800, was the only one offered. J. E. Abbott, manager of the construction company, stated Tuesday afternoon that work would be commenced on the bridge within two or three weeks, as soon as the State Highway Commission had approved the contract.

The Brown-Abbott Company have just completed the new bridge across the Colorado river here, and during the past year erected three smaller bridges in the county. AUTO RACES AT ABILENE SCHEDULED FOR JULY 4TH

ABILENE, June 28.—New speed records and new thrills for the greatest concourse of holiday spectators ever assembled in West Texas is the prediction for the Third Annual Auto Race meet here on July 4th. ANOTHER EXHIBIT

Preliminaries for a Mitchell County exhibit at the West Texas Fair at Abilene this fall are already being worked out by W. A. Dulin, county agent, Miss Laceywell, home demonstration agent, and the Chamber of Commerce. It was stated Saturday that the major portion of specimens to be shown in this exhibit would be supplied by members of boys and girls clubs and woman's clubs of the rural communities. The Mitchell County exhibit at Abilene last year, although collected only a few days before opening of the fair, was awarded third prize in competition with some of the leading counties of West Texas. The suggestion was

made that a Mitchell County exhibit be shown at the Dallas Fair also.—Colorado Record.

That the Mitchell county exhibit was one of the features of the West Texas Fair last year none can deny who saw it. And the West Texas Fair management will be mighty glad to have another exhibit from Mitchell county as it is desired to have every county in this section represented. The agricultural exhibits are a big part of any Fair, and the Fair management here realizes this to be the case fully.—Abilene Reporter.

FLY TIME

Keep them Moving.

THE next best thing to "swatting the fly" is driving him away. The sweeping breeze of an electric fan will keep flies from sleeping infants (or adults) and from exposed food on dining table or in kitchen.

A G-E fan costs but a trifle to operate and insures cooling breezes and protection from flies. We have sizes and types to suit every requirement.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangers and Sickening Qualities Removed. Perfected Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(Adv.)
