And OUR GANG COMEDY

### SECOND STREET DETOUR IS COMPLETED TUESDAY

The new road, detouring south around Lone Wolf Creek bridge on Second street, was completed and turned over to the city Tuesday by Tom Goss, construction foreman employed by officials of the Chamber of Commerce to do the work. The detour, which follows the channel of the creek from the temporary bridge at Hickory street east one block and back onto Second is in excellent condition and affords to traffic a good hard surfaced road, calculated to withstand the heavy usage to which it will be subjected during the coming cotton season.

Through the Chamber of Commerce and Booster Club citizens of Colorado have expended several hundred dollars during the past year in building crossings over the Colorado river and the one over Lone Wolf Creek. Through the Booster Club, funds were raised last year to build the river crossing at Fourth street during the time the new bridge was under construction. The detour around the Lone Wolf Creek bridge was built under supervision of the Chamber of Commerce.

### TEXAS BUYING MUCH PRODUCE FROM OTHERS

To determine whether the majority of farmers would become more prosperous if they supplied their home tables with their home-grown products, and to determine the extent of purchases from producers of other states, the county agent has compiled an inventory of several grocery stores here. His findings reveal some interesting facts.

The labels on cans, boxes and cartons showed that many of the farmers of this section are purchasing sweet potatoes from Mississippi, hominy from Indiana, beets from New York, okra from California, cabbage from Michigan, lettuce from California, squash from Oregon, turnip greens from New York, spinach from Illinois, asparagus from California, tomatoes from Maryland, potatoes from Colorado, onions from Arizona, peppers from Louisiana, beans from Iowa, peas from Illinois, corn from New York, kraut from Colorado, pumpkins from New York and pickled cucumbers from Kentucky.

The county agent is perhaps better acquainted with the farmer's habits of living and manner of spending than is any other citizen in the county, because of his close contact with the agricultural people, and he contends that when the Texas farmer eats from his own garden, orchard and field and purchases less of the imported products, a greater prosperity will be enjoyed by him.

In this section practically every variety of fruits, vegetables and field crops that grow in the United States can be successfully cultivated.

But the producers are not taking full advantage of the unusual opportunity that is offered to them here. Much of the surplus products that are grown in gardens and orchards could be canned, dried or preserved for home consumption during the winter months.

Diversification, contends the county agent, will bring to the farmers a greater prosperity and will lift the mortgage from the home. Diversification and home consumption of home grown products will place the agricultural people on a sound financial basis.

Cotton raising should be a part of the southern farmer's program, but if the producer gives his exclusive attention to the cotton crop, during the lean years the table must of necessity be leanly spread.

Bankers of this section are more inclined to lend to the farmers who make their living at home than to the one-crop producers. The bankers realize that the man who has made no provision for their dinner table is not so likely to make provisions for the payment of the notes when they come due.

The county agent, after completing the inventory of the grocery contends that the leak from the average Southern farmer's cotton purse is the purchasing price of products that are paid for imported table foods.

### FARMERS ABLE TO AID SELVES WILLIAMS SAYS

If the present movement for co-operative marketing of cotton among growers is good, it ought to have the active support of every business man and banker interested in the cotton farmer's prosperity, and if it is bad, it ought to have his active opposition, said Carl Williams of Oklahoma City, president of the American Cotton Growers' Exchange at the conclusion of a talk at a luncheon at the Binkley hotel at Sherman Monday, given in honor of

farm bureau cotton officials, who were there in the "more money for cotton" campaign of the organization.

Mr. Williams declared that the movement is sweeping the South, having been turned to by thoughtful farmers as the one economic solution of their distinctly economic problem. Outlining what the organization has done.

Mr. Williams declared there was not a state organization in the exchange last year which did not return at least \$20 more per bale net to its members than was received by growers on the outside. It did this

for its own members while cotton men on the outside, so Williams said, admitted that the price of cotton as a whole was not less than 4 cents more to the growers by reason of the control of part of the crop for co-operative marketing by some of the growers.

Mr. Williams pointed out that in the burley tobacco section, co-operative marketing by the growers had resulted in the returns to these growers jumping from 11 cents to 32 cents a pound in two years, while all the while the finished tobacco lines were offered to the public at a lower price.

Farmers are to prone to turn to eloquent tongues for promised relief through political measures, but there is no political remedy for an economic ill, and cotton growers, recognizing this, are turning to co-operative marketing in place of the old competitive individual dumping.

### NOTICE

I have taken Mrs. Webb's big brick house to run for boarders. It is the coolest and most pleasant place in town I think. I want boarders as soon as I can get them.—Mrs. Morgan. 17p

**LONE STAR**  
A good rain would be very highly appreciated by the farmers of the community.

John Richburg is in the Snyder Sanitarium at Glen Rose for a two weeks treatment.

Mrs. Sanford Fraser had her adenoids removed last week.

Evert Henderson of the Baumann community spent the week-end in this community.

Frank Dale and family of Midland spent a few days last week visiting friends and relatives here.

Orbie and Eldie Richburg returned home Saturday night after a two weeks visit with relatives in Clay county.

Sanford Fraser and wife entertained the young folks with a party Saturday night.

Willie Richburg is spending the week in town in the C. J. Martin home her mother and sister being brought there from the Colorado Sanitarium Sunday.

Some work is being done on the school house getting ready for the next term of school. The teachers having been already employed.

We are glad indeed to hear of Mrs. Narvil Richburg being able to be up since her recent operation.

W. H. Long and wife gave a singing Sunday night. I think everyone enjoyed it very much.

N. Smith and family who have been visiting in the Richburg home have returned to their home.

H. H. Linder and daughter Virgie are in the sanitarium at Glen Rose.

### PRESIDENT HARDING'S CONDITION IS BETTER

SAN FRANCISCO, July 31.—General Sawyer gave The Associated Press the following informal statement at 12:35 p. m. today:

"I am glad to report to you that the President's condition as recited in the morning bulletin is still holding favorably."

Definite indications of the improvement in the condition of President Harding were contained in an official bulletin issued at 10 a. m. today by the attending physicians.

"The President had a fairly comfortable night, with considerable restful sleep.

"His temperature, at 9 a. m. is 100; pulse 120; respiration 40 and regular. There has been on extension of the pneumonic areas and the heart action is definitely improved.

"Nourishment and fluids are being taken regularly. Elimination is satisfactory.

And when the mark breathlessly reached the bottom no bottom was to be found.

### Picked When Just Ripe

and packed or preserved immediately is the reason why our canned fruits, vegetables, ketchups, etc., are so finely flavored. They are as much different from the other kind as day is from night, as you'll fully agree when you once taste them on your table. Yet they cost no more.

### CUT IN COMMISSIONS MEANS BIG SAVING TO STOCK MEN

Schedules of livestock commission rates at Chicago, Omaha, Kansas City and St. Paul, which have been under consideration by arbiters of the packers and stockyards administration of the U. S. Department of Agriculture, will be materially reduced as a result of the report and award made public Tuesday at Washington, according to Associated Press dispatches. By the new rates it is estimated that producers and shippers will save three quarters of a million dollars a year in commissions, it is stated.

The ruling announced Tuesday does not, however, affect or mention the Fort Worth market or the case pending with regard to Fort Worth livestock commission charges. G. N. Daggar and Howard M. Gore of the packers and stockyards administration, who are also arbiters in the Fort Worth case, sat in the cases in which the rate reductions were granted Tuesday. It is expected that a decision in the Fort Worth case will follow shortly.

The case just decided is said to

be unusual in that through mutual consent of complainants and respondents the decision was left in the hands of the two Government officials as arbiters. It was the first time that livestock commission rates have been decided in this manner.

The Fort Worth case was brought by the American National Livestock Association, the Texas and Southwestern Cattle Raisers' Association and others against the livestock commission firms. Roughly, the complainants have contended that the Ft. Worth commission rate of \$18 a car on cattle was too high. The cooperative marketing agency the Cattle Raisers and Producers Commission Company, whose rate is \$12 a car, was cited by the complainants at the hearing in Fort Worth in support of its contentions.

W. A. Dulin, county farm agent, returned Sunday from College Station, where he attended the Farmers Short Course in session all of last week.

And as a general thing, an energetic man with correct habits isn't very angry at big business.

## The Best is the Cheapest

in the long run—when quality is considered. Peter Schuttler Wagons are higher priced than others because they cost more to build, but they give twice as much service with practically no cost for repairs or loss of time and use of horses through break-downs.

### Old Reliable Peter Schuttler Wagons

are solid and full of life after years of hard use and service. They stand the wear without repair and give lasting satisfaction. The Peter Schuttler is the easiest running wagon built. For over 70 years it has been recognized throughout the world as the **One Best.**

Come in and see the Old Reliable

Coming Soon—One car load of Peter Schuttler Wagons. The best wagon on the market. Will have both wide and narrow tread.

**OLIVER & BELL**

### TWO FOR ONE IS PROMISED NOLAN COUNTY BY OFFICIAL

From Sweetwater Reporter:

State and Federal aid amounting to \$2 for every \$1 appropriated by Nolan County, can be secured from the State Highway Commission, according to Chairman R. M. Hubbard, who with D. K. Martin, another member of the Commission, arrived in Sweetwater Tuesday on a swing through the Western part of the State. They left Wednesday morning for Lubbock and will visit other points in the Panhandle before returning via the Fort Worth & Denver. They are driving through, accompanied by Mrs. Hubbard and Mrs. Martin and while here visited with Mr. Hubbard's brothers, John and W. E. Hubbard.

Mr. Hubbard and Mr. Martin held an informal discussion of road matters with a group of interested business men of the city Tuesday afternoon at the Hotel Wright.

The usual plan of dollar for dollar, that is one dollar from the State and Federal government and one from the county to be spent on improved roads can be bettered on the Bankhead highway, the commissioners told local citizens, because of the fact that it is perhaps the leading highway in the State and carries such a heavy interstate traffic. As a matter of fact, it is a transcontinental highway and is used by a much higher percentage of people living out of the county or even out of the State. It is therefore more of a State problem than a local problem.

Funds available for expenditure in the building of improved roads are of course, limited and they are being used, the commissioners said, in those counties which show enough local interest to spend a little of their own money to help in the proceedings.

It was also made very plain that people paid for good roads whether they had them or not, especially the automobile owners, who paid in repairs, gasoline, car depreciation and for tires, enough in a year, to pay the interest and sinking fund on half a dozen bond issues.

The proposition of the State Highway Commission of course has the usual restrictions that the type of road must be approved by the engineers of the State Highway Commission and of the Federal Government. In the case of the Bankhead Highway an 18-foot roadway would probably be required. Cost of such a highway varies, according to the type, whether of concrete, brick or asphalt, and local conditions such as labor, freight and materials, etc. It was intimated that \$30,000 a mile might be considered an average price for concrete road, however, with adequate drainage structures, etc. On this basis, the State would pay \$20,000 a mile and the county \$10,000.

The Commissioners suggested that a four or five year road building program be adopted.

"Now is the time for counties to build roads," Mr. Hubbard said. "Eventually of course, the State Highways will be taken over by the State and Federal governments. But it will require at least 30 years for the State of Texas to complete all its 12,000 miles of State highways. The policy of this commission is that such counties as want good roads enough to help build them are the ones who will receive the money available from the State first. Other counties not so interested will be placed on the last of the program."

### OBITUARY

The very sad death of Oran M. Hale of Abilene, Texas, will no doubt be received with much sorrow by the many people of Colorado who knew him. Through the many friends of the family of T. J. Free, formerly of Colorado, Mr. Hale met many people of that community. Mrs. Ella Hale, wife of the deceased and daughter of Mr. and Mrs. T. J. Free, was practically reared in the vicinity of Colorado. The many friends of her girlhood will join in sympathy at her untimely loss.

Mr. Hale had been in failing health for several months but was a great shock, even to those nearest him, for the end to come so suddenly. His death occurred at Austin, Texas, where he and Mrs. Hale were visiting. The remains are en route to Abilene, where interment will take place, the exact time not being known pending the arrival of Mrs. Hale. Mr. Hale was one of the most highly respected citizens of Abilene. His untimely death is lamented by all who knew him, for to know him was to love him.

You never realize until you go to the movies how much trouble a beautiful girl can get into.

Isolationists insist that our duty to Europe be 100 per cent ad valorem et ad infinitum.

### CUTHBERT WOMAN WINS IN KITCHEN CONTEST

Mrs. H. C. Bristow of Cuthbert was awarded first prize in the Better Kitchen Contest, which closed last week. The contest was arranged under supervision of the Extension Department, A. & M. College and publishers of the Dallas Semi-Weekly Farm News. Mrs. Bristow will receive a cash prize awarded by the Colorado Chamber of Commerce.

The contest, which was open to every interested housewife in this county, was conducted by Miss Lacey, home demonstration agent. Points considered in the score cards included every convenience and appointment known to the modern kitchen. A like contest will be held in the county another year, the main idea being to encourage women of the rural homes to improve conditions in their homes, with special reference to the kitchen.

### SIMMONS HOSPITAL

A \$200,000 hospital plant will be at the service of Simmons students within the next year, when The West Texas Baptist Sanitarium, within two blocks of the Simmons College campus, is completed and opened to the public. According to an announcement of the building committee, the structure will be ready for service by December the first of this year, and the sanitarium will probably be officially opened some time near that date.

The building is a modern fire-proof brick plant, five stories high with service wing; three elevators will be installed. There will be 16 ward beds, and the remainder of the institution is given over to private rooms, each one having a closet and lavatory adjoining. A suite of five rooms will be devoted to X-ray purposes; three operating rooms and other offices will be featured. The sanitarium is to be run with an open staff, any eligible physician being permitted to conduct his practice and operations there, and bring patients to the institution.

Situated on a six-acre plot on N. Hickory street, the new paved highway to the college, and just off the campus of this institution, the sanitarium will not only serve Simmons students who are ill, but will afford an opportunity for possible practical work and observation in connection with pre-med courses which Simmons has offered for the past three years.

### WATERMELON IN PEA PATCH

A few days ago a good friend and subscriber of the Record was passing along the road in the Valley View community when his attention was attracted to an unusual large pea patch. The peas were knee high and thick, after watching a while he noticed a man and boy come out of an adjoining feed field and begin hunting in the peas, when he discovered it was full of watermelons completely hidden from view. He said he secured a load of melons from among the peas but said subscriber did not say if he got any of the melons or not.

## Last Chance

Here's your last chance, men, to get a **STRAW HAT** at a price which means almost giving them away.

There are still many days of summer left when you want a **STRAW HAT**, and then lay it away for early next year.

Not all sizes in every style are here, but if you can get fitted, you will get a bargain.

It won't cost you anything to come in and look over these big bargains in straw hats, and incidentally many things in our furnishings reduced. You can always count on getting 100 cents worth for every dollar you spend at this store.

MIDLAND OBJECTS

Midland found objection to the statement contained in the article by Silliman Evans regarding the water supply at Colorado and published in a recent number of the Fort Worth Star-Telegram. The article outlined that during the drouth Colorado was the only town between Baird and Pecos having adequate water supply.

The Colorado Chamber of Commerce has no apologies to make for any statement made by it in the campaign to place before the board the bid of this city for the school. No misrepresentations have been made and no injury will result to Colorado over what may be said or done by competing towns for the school.

BRAINS AND GASOLINE

Henry Brown, tourist, while passing through here last night, lighted a match to see if his gasoline tank had any gas in it. It did. The funeral services will be held today. So ran a press dispatch of recent date. He was a fool you say. Yes, he was, but he has company.

tirely too polite for the circumstances—Bryan Eagle.

Gasoline and brains do not seem to travel well together. Verily, a fool is born often in this country, and they are to be found behind steering wheels connected with automobiles. The smaller the car the faster the driver. Did you ever see a Ford car but that was in a hurry? The man that drives large heavy cars usually takes his time, the drivers of lizzies and other lighter makes of cars are hell bent on getting there quick.

The man that lights a match to see about his gas was born a fool and no amount of education would teach him the danger in gasoline and gun powder. The habit of looking down gun barrels used to cause many men to depart this life suddenly, but the reckless car drivers have gone them one better. The world is in a hurry we get up in the morning after a hurried nights sleep, a hurried breakfast into the car and go to town at the rate of forty miles or less.

CRITICISM AND JUDGING

"Let not him that eateth set at naught him that eateth not, and let not him that eateth not judge him that eateth; for God hath received him. Who art thou to judge the servant of another? to his own Lord he standeth or falleth."

It would be very well, indeed, if each and every one of us would memorize this wonderful passage from the 14th chapter of Romans; and every time we started to criticize or judge one of our fellow men, quote this scripture first. I am perfectly sure the harsh words would not come, and how much pain and misery they might spare.

Every person—no matter what he may be—has a background. These backgrounds vary. If they did not people would all be alike. It is our duty to make a child's background so

beautiful, so pure, and free from all harshness that when grown the child will still reflect his background. Accordingly, all people do not see alike. What appeals to one, will not appeal to another. The Protestants worship on a certain day; the Jews another. Each serves God as he sees and interprets the laws of Jesus. Let's not judge nor criticize, lest we also be judged.

We that have faith and believe in God should not judge one of our fellows because he does not have faith, neither should he without faith judge him that has faith.

A word, a deed, a mere hint, may bring dire disaster upon the person it is directed at. Therefore we should set a guard over our minds and allow them not even to think one thing that would hurt another. How much better than criticism is a kind word, an overlooking of one's faults.

Let us strive earnestly and faithfully to obey the command of "Judge, lest ye be not judged."

The G. O. P. Slipping

From the Temple Telegram: Whatever the psychological or political cause of the defeat of Governor Preus of Minnesota, Republican, running for the senate, by Mangus Johnson, farmer-labor candidate, the fact still obviously remains that the Republicans were unable to poll enough votes to elect their man. That is the important thing in any election. The miserable failure of the Republicans in Minnesota indicates that they are slipping; that the people are not at all pleased with the Republican machine, and that the administration has failed to redeem many of the glowing promises so cleverly presented when Mr. Harding was asking for enough votes to send him to the White House.

IF EDITORS TOLD THE TRUTH

A short time ago the editor of a paper in Indiana grew tired of being called a liar and announced that he would tell the truth in the future, and the next issue of the paper contained the following items:

John Benin, the laziest merchant in town, made a trip to Beeville, Monday.

John Coyle, our groceryman is doing poor business. His store is dirty and dusty. How can he do much.

The Reverend Sty preached last Sunday night on "Charity." The sermon was punk.

Dave Canky died at his home here Tuesday. The doctor gave it out as heart failure. Whisky killed him.

Married—Miss Sylvia Binn and Jim Doe, last Saturday at the Baptist parsonage by the Rev. Gordon. The bride is a very ordinary town girl who doesn't know any more about cooking than a jack rabbit and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks at home all his life and not worth shucks. It will be a hard life.

Died—Aged fifty-six. Deceased was a mild-mannered pirate with a mouth full of whisky. He came here in the night with another man's wife and joined the church at the first chance. He owes us several dollars for the paper, his meat bill. He died singing "Jesus Paid It All," and we think he is right—he never paid anything himself. He was buried in an asbestos casket and his friends threw palm leaf fans into his grave, as he may need them.

It is unnecessary to say that this editor is no longer publishing a newspaper.—Canadian Pharmaceutical Journal.

GAS POISONING TEST

There will be greater hope of recovery from carbon monoxide poisoning with the discovery of a quick method of testing the amount of the poison in the blood of the subject, announced by the Pittsburgh (Pa) station of the United States Bureau of Mines. Dr. R. R. Sayers and W. B. Yant, chemist of the bureau, made the discovery while at work on the Hudson River Tunnel ventilating system to render automobile gases harmless. Heretofore it has been necessary to wait 24 to 48 hours for a blood test of victims of carbon monoxide before beginning proper treatment. The new method will provide a satisfactory test within a few minutes and permit immediate treatment, hitherto hampered by doubt whether shock or poisoning was the cause of the condition. The value of this discovery will be incalculable to those engaged in mines, mills, garages, tunnels and other industries where carbon monoxide may be present, as well as the general public in view of the number of cases where fumes from improperly adjusted heating apparatus overcame victims.

Something tells us the Chinese revolution has a wood axle.

KEEP AMERICA'S WAMPUM SOUND!

By SAMUEL H. BEACH. President, Savings Bank Division, American Bankers Association.

Although the United States is today upon a solid gold basis, we nevertheless know of our own knowledge what inflation means. I would take long to recall in detail the bitter experience which this nation suffered during the Civil War and the years which followed it, and in our present easy condition we might think such conditions could never again arise. But with such men as Henry Ford and Thomas A. Edison talking about commodity money there is no foretelling what may happen.

One of the plainest lessons taught by financial history is that whenever a nation issues paper money with nothing back of it, that nation is on its road to disaster. Look at Russia with its worthless rubles and Germany with its worthless marks. Think of what happened in France during the years immediately following our Revolutionary War.

The common people of France rose in their might, tore down the Bastille, and made reprisal for centuries of kingly crime and oppression. The profligate court had piled up taxes until they were unbearable. The enraged populace killed King Louis XVI and also his queen, Marie Antoinette. But they only threw themselves out of the frying pan into the fire so far as finances were concerned.

Unsound Money Tyranny At the very worst point of their currency inflation they found themselves under the absolute domination of Robespierre. In order to meet the growing scarcity of coin, paper money called assignats were issued. First 400,000,000 francs worth, then 800,000,000 were added with the distinct understanding that the 1,200,000,000 would be the full extent of the issue. This pledge was soon broken and further issues brought the total up to \$700,000,000 francs.

Frightful depreciation was the inevitable result; and legislation was passed making it a crime, with six years' imprisonment as the penalty, if any one should refuse to take the paper assignats at their face value. Just think of it! A French peasant after working the entire year to produce a crop was compelled by law to accept payment for that crop in paper money, which he knew to be worthless, or go to prison.

It was simply legalized robbery. When the penalty was increased to twenty years imprisonment the inevitable climax came. The Reign of Terror was at its height. Robespierre was in supreme power. He suggested that more assignats be issued and if the people did not take them the guillotine should be the penalty.

Robespierre's End This unheard of outrage was more than the people could stand. An unknown man arose on the floor of the convention and denounced Robespierre, reciting the heinous crimes he had committed, and so worked upon the feelings of the audience that Robespierre, the tyrant, became Robespierre, the convicted criminal. Two days later he was led to the guillotine. France had learned her financial lesson well—that money must have value back of it.

The fallacy of unsound money is sure to confront us again. Never is there enough of everything for all the people. The struggle for existence is a real struggle, and those who find themselves in the lower strata of human society are ready at any time to grasp at fiat money or any of the other things which misguided politicians hold out to them.

My whole purpose is to drive home the fact that danger lies ahead and to urge every one to let no opportunity go by to use voice and influence toward keeping the wampum of these United States, as it is today, the soundest currency in the world.

SOME BANK SALARIES

Investigations made by the Missouri Bankers Association have revealed that 368 banks in the state in towns of under 2,000 population are paying their cashiers and chief executives an average of only \$110 a month. Only 273 of the 1,162 reporting banks in towns under 5,000 population pay the president a salary. The report says: "It indicates that, even allowing for the economy of living in small communities, the cashiers and managing officers of those 1,162 banks, who receive an average of \$140 per month, either must have personal means to begin with, or must maintain the standards necessary to their positions as the leaders of their communities and the builders of the commonwealth by means of 'side lines' such as selling insurance, collecting commissions on farm loans, and trading in real estate."

Colorado Bargain House THE PRICE IS THE THING

Some startling facts are most unmercifully uncovered by statistics. For instance that 16,000 business men fail each year in the United States. Of this number eighty five per cent—13,600—never advertise. Your duty is implied. Watch lest you be one of the eighty-five per cent.

POSTALS. That fellow who ate 38 raw eggs in 13 minutes must feel like an incubator. A headline says "Skunk Retreats Under Fire of Girls' Perfume." Probably he was lucky to be able to retreat.

COAL

When the Cold Hand of Winter hovers over your home will you be ready to protect your family from the cold with a well heated house. You will if you let us put your Coal supply in for you now. And you will save money, too, for prices are less than in the winter. All those in position to know say Coal will be hard to get in the winter. Let us fill your bin now. REMEMBER we handle the best coal ever mined.

F E E D

Good Feed is the best foundation on which to raise the finest cattle or horses, and good feed and nothing else is what you get at Lambeths where the best corn, oats, meal, bran, hay, etc., are always at the command of cattle feeders.

FEED COW CHOW NOW

Get 3 pounds more milk per day for every pound of Purina Cow Chow needed to balance grass. It will put your cows in good shape for fall and winter production. Try Cow Chow now and let your cows show you.

Order Today O. LAMBETH

Get A Sandwich Lunch

We are now serving Sandwiches at our place as well as all kinds of Cold Drinks. Get your favorite Sandwich and your favorite Drinks for lunch. Save the housewife the extra work during this hot weather.

"Where you can get what you want when you want it."

Benediction.

**Junior Missionary**

The Juniors met at the residence of Mrs. A. B. Blanks Thursday afternoon, July 25th at 4:30. There were 28 members, 3 visitors, one new member added to the roll. This being mission study afternoon we finished our "Wanderland of India" and are ready for our new study early in the fall. May new and interesting things were learned in this study about India. We are trying hard to prepare ourselves to meet the incoming flow of foreigners to our Homeland they will soon be citizens and allowed to take part in many of the vital things of our nation. Let's teach them to be good citizens, learn to honor our God above all things. Plans were made to make little handkerchiefs for the "Christmas packs" At the social hour hostess served delicious cream cones.—Reporter.

**WESTBROOK ITEMS**

In the calm of the early morning of July 28, the sweet spirit of Mrs. Ada Leach winged its way to its eternal home to take up her abode in that beautiful city not made with hands.

Mrs. Ada Leach was born in Alabama, she came to Texas in her early childhood. She was married to Rev. A. D. Leach in December, 1890. To this union eight children were born. They moved to Westbrook in Jan. 1914, soon after they came to Westbrook her husband, Rev. A. D. Leach, took charge of the pastoral work of the Baptist here which place he filled until a few months ago. Sister Leach was a faithful co-worker with her husband in ministerial work having joined the Baptist church when she was quite young. Her Christian influence was felt not only in her church work but in every phase of her life; she yielded an inspiration that was lasting, her daily walk was Godly in her home she was love and her children hovered around her for council and consolation, as a mother none was more loving and tender than she, as a companion she was ever ready to share the trials and burdens of her husband and her Godly counsel will be greatly missed. She was born Sept. 28, 1861 and died July 28, 1923, living 61 years and 8 months. At the Baptist church Sunday at 11 o'clock Rev. U. W. Tatum conducted the funeral services paying tribute to her beautiful Christian character, her remains were tenderly laid to rest in the W. O. W. cemetery at Westbrook beneath a beautiful floral offering given as a token of love and respect to one who is gone but not forgotten. She leaves a husband, Rev. A. D. Leach and three sons, G. R. Leach, and H. L. Leach of Westbrook; H. J. Leach of Chicago, and four daughters, Mrs. J. D. Harris of Alvarado; Mrs. W. L. Ruddick of Hale Center; Mrs. E. L. Clifton, Mrs. C. B. Morris of Westbrook, one son, Eliza, having passed on before her.

Saturday evening Miss Madolyn McCallum and Mr. W. O. Lewis motored to Colorado and were married only a few of their most intimate friends being present. Miss Madolyn is the oldest daughter of Mr. and Mrs. E. B. McCallum and

has made Westbrook her home since early childhood. Her amiable disposition and charming ways has won for her scores of friends. Mr. Lewis came to Westbrook from Sweetwater Alabama about two years ago. He is a young man of sterling worth. He has many friends who congratulate him upon winning such a fair lady. Mr. and Mrs. Lewis are at home at the residence of Mr. and Mrs. E. B. McCallum. They have the heartiest congratulations of their many friends for a long and prosperous life.

Luther Perkins and Jim Skelton of Sulphur Springs are visiting Mr. and Mrs. J. E. Skelton.

C. P. Conoway returned from Fort Worth Tuesday where he had been visiting his daughter, Mrs. McIntach Tuesday afternoon the Phelan Ranch caught fire origin of fire being unknown. About two sections of grass was burned before they got it under control. No other damage was done.

Miss Roberts Hudson entertained a few of her friends with 42 Friday night an enjoyable time was had by all.

Mr. and Mrs. P. M. Rowland entertained Thursday evening with 42 party after a number of progressive games refreshments of fruit salad and cake were served.

Miss Mattie Dorn of Colorado spent the week-end with Miss Roberta Hudson.

Mrs. C. E. Danner and daughter Miss Evelyn accompanied by Miss Louis Canterbury spent Monday and Tuesday in Big Spring.

Mr. and Mrs. E. W. Phillips left Friday night for their home at South Bend after spending several days at the bedside of their mother, Mrs. J. I. Morris.

Miss Marion Gregory of Abert nathy is visiting her grandmother, Mrs. S. C. Gregory

**STUDEBAKER'S SALES FOR SIX MONTHS OVER \$1,800**

Word has just been received by Winn & Pidgeon, local Studebaker dealers, of the new record established by The Studebaker Corporation of America for the first six months of 1923, when a total of 81,880 Studebaker cars—all Sixes—were sold.

All Studebaker plants continue at capacity operations and the present output of 15,000 cars per month is insufficient to meet the persistent demand for more Studebakers from every section of the country, which is as great—or greater—than at any time this year.

It is well known that right from the first of the year Studebaker has experienced a demand that has continuously been far in excess of production, although the plant capacity was substantially increased during the spring when a number of new factory units at South Bend and Detroit on which construction was started late last year, were completed and equipped for production.

While Studebaker sales for the past six years have increase progressively each year, the newest record can be better appreciated by comparisons. The sale of 81,880 cars in the first six months of 1923 shows an increase of 36 per cent over the best previous six months' business in Studebaker history—that of 1922—when a total of 60,063 cars were sold.

**Friends Extend Sympathy**

The many friends of Rev. A. D. Leach will deeply sympathize with him in the home going of his companion at Westbrook last Saturday. Mrs. Leach had been in bad health for quite a while and while death was not unexpected yet it left a place that can never be filled in the hearts of her loved ones. The funeral was

held at the Baptist church at Westbrook Sunday. The Record joins Brother Leach's other friends here in extending sympathy.

When H. Johnson said his New York speech had no political significance that was another of those utterances that don't mean anything.

**GOOD YEAR**  
Service Station

"SALE" and "bargain" are attractive words. But there is something more attractive in Standard Goodyear Service. For one thing, it is trustworthy. When you buy a Goodyear Tire from us authorized Goodyear Dealers, you know we'll help you get all the mileage out of it. That's real economy. "Bargains" sometimes aren't.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cord with the best All-Weather Tread and back them up with standard.

**INTEGRITY SERVICE**

The New Studebaker Special-Six Touring Car

**Before you buy any car, see the STUDEBAKER 1924 MODELS**

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

COLORADO TEXAS

**COLORADO SPREADS FALSE REPORT ABOUT WATER**

Just why it was done we don't know, but Colorado City, in presenting claims for the college, sent out a false report that concerns and was calculated to injure Midland. It was published from there that during the severe drouth of 1917 Colorado was the only town on the T. & P. between Abilene and Pecos, whose water supply was sufficient for the needs of its people.

These are not the exact words, perhaps, but the significance of the report. As a matter of fact, Midland's water supply has never been affected, never in the history of the town. Our water supply is and has ever been apparently inexhaustible and all reports to the contrary are erroneous. Our local locating committee immediately wired the State Locating Committee to this effect, and they themselves had visible evidence that Midland has water in abundance.—Midland Reporter.

**THOUSAND FARM FOLK AT A. & M. SHORT COURSE**

Nearly 1,000 farm men, women, boys girls and farm and home demonstration agents were registered at the opening session of the fourteenth annual farmers' short course at the A. & M. College of Texas this morning, representing approximately 150 counties of the State. Director T. O. Walton of the extension service, delivered the address of welcome in the absence of President W. B. Bizzell, expressing gratification at the large number in attendance for the first session and offering assurance that the entire facilities of the institution will be offered for the success of the week's work, and that every possible effort will be expended by officers and employees of the college to make the visit of the farmers and their families pleasant and profitable. Following Walton's address, Rev. E. L. Harp, professor of sociology of Drew Theological Seminary, lectured to the assembly.

The first meeting of the shippers and carries convention, the horticultural conference and the agricultural writers conference were held and plans completed for the week.

H. H. Williamson, state agent, outlined the work for the day in which bread-making and sewing for the women and girls and animal husbandry, horticulture and poultry for the men and boys were the main points of interest, special courses of instruction having been arranged for the extension workers.

**Brother Hardison Dies in Tennessee**

Brother D. R. Hardison, Christian preacher of Colorado City, died in Tennessee, very suddenly one day this week, and his remains were brot back to Colorado and buried there, with Masonic honors. Brother Hardison preached for the First Christian church here for some time and he was loved by not only his brethren and sisters but by people generally regardless of religious affiliation. He was a good man and able gospel preacher. The announcement of his death has cast a gloom over this community. His labors here are cheerished among his friends.

He was a member of the Commandry of Snyder and immediately on notification of his death the commandry where he died was wired to send an escort with his body back to his home at Colorado.

During his pastorate of the Christian church here his time was divided between the churches of Colorado and Snyder. Both churches wanted his full time, and in the decision he selected Colorado for his home.

Brother Hardison was in Tennessee, his old home on a visit when death overtook him. His family was in Colorado. Several members of the Christian church here attended the funeral at Colorado yesterday in memory of his splendid work and the esteem in which he was held in Snyder.

He was to have assisted in big camp meeting of the churches of West Texas which is to begin at Merton next Sunday. His absence in this meeting will be keenly felt.

Thus has one more follower of the cross been called home to his Eternal reward. He labored faithfully in his Master's service until he became ripe unto the harvest and now goes to claim higher wages in the vineyard of the Lord, and his works do follow him. "Blessed are they that die in the Lord," for they will receive an Eternal crown of glory at the appearing of our Lord. Brother Hardison was faithful even until death. It was not the good fortune of the writer to know this good man, but his works recommended him to all those who follow the teachings of the Master. His present state is so much better than the first—now he rests from his labors and all is peace and joy with him in the heavenly home.—Scurry County Times.

**CROPS IN LORAINE SECTION EXCELLENT, C. OF C. SAYS**

The cotton crop in the Loraire territory is unusually good and well above the average, according to statements made by members of the Loraire Chamber of Commerce at a meeting held there Monday afternoon. The meeting was called for the purpose of discussing preliminary plans for securing pickers to assist in gathering the crop.

"We have the largest acreage, the best stand and the best prospects for cotton I have ever seen in this section," was the statement of W. L. Edmondson, Loraire merchant, in addressing the meeting. Edmondson estimated that the farmers could not gather more than twenty-five per cent of the crop and that the remaining seventy-five per cent would depend upon imported labor to be harvested.

**BAPTIST SUMMER CAMP IN DAVIS MOUNTAINS**

FORT DAVIS, Texas.—The second annual Paisano Baptist assembly will be held August 17-27 this year on the assembly grounds in the Davis Mountains midway between Alpine and Marfa, where 500 visitors camped last year. While the object is to eventually build up a large Baptist summer encampment, it is not altogether a Baptist affair, members of all denominations being welcome.

Tents to accommodate from four to six persons each can be rented at a small charge. Visitors are expected to bring their own cots and bedding. Meals are served in cafeteria style without a specified charge, but each person may contribute to a "free will offering" to cover cost of food and service. Visitors desiring to rent tents are asked to notify W. H. Colquitt, Marfa, in advance so that arrangements may be made for the tent. The grounds are 5,000 feet above sea level. The nights are cool enough for blankets.

The daily program for the ten-day meeting, Aug. 17-27, follows:

7:30 to 8:30 a. m.—B. Y. P. U. work. T. C. Gardner, general secretary of B. Y. P. U. of Texas, director.

7:30 to 8:30 a. m.—Primary work Mrs. G. A. Miller, San Antonio, director.

8:00 to 9:30 a. m.—Sunday school work. William Phillips, Hillsboro, Texas, director.

9:30 to 10:30—W. M. U. work. Mrs. A. F. Beddoe, Dallas, director.

11 a. m. and 8 p. m.—Preaching by Dr. I. E. Gates of San Antonio.

5 p. m.—Men's prayer services, ladies' prayer service, ministers' meeting.

**Christoval Pecans Good.**

The pecan crop in this community promises to be an exceptionally fine if worms do not get in their work. The biggest crop produced here in ten years was in 1919, when eleven carloads were shipped from this point.—Christoval Observer.

**It might help the demand for wheat if the breakfast food factories were outlawed from the lumber States.**

### WORK HELD UP ON T. & P. STATION BY R. R. COMMISSION

A. E. Pistole, division superintendent of the T. and P. road, met with the Chamber of Commerce Friday afternoon of last week and asked that body, if they consistently could, to withdraw the objection to the work that had been started at the local station and allow them to proceed with the work. He gave figures to substantiate his claim that the changes being made here would more than take care of the passenger and freight traffic. After a thorough discussion of the matter the Chamber of Commerce decided

that their request for improvements was in no way unreasonable and that they should be complied with to the fullest extent if possible.

Further action on the matter will probably be delayed until some decision is reached by the Railroad Commission.—Lorraine Leader.

### Lorraine Defeats Colorado

The Lorraine ball team went to Colorado Tuesday afternoon and met their team, defeating them by a score of 5 to 7. It was a hard fought game from start to finish and both teams did some good work.—Lorraine Leader.

It is a noteworthy fact that every political panacea has as its first step the election to office of the author.

### THE STATE OF TEXAS.

To the Sheriff or any Constable of Mitchell County Greeting;

You are hereby commanded to summon S. E. McMillan by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to be held at the court house there the District Court of Fisher County, to be held at the Court House thereof, in Roby, Texas, on the First Monday in September, A. D. 1923, the same being the Third day of September, 1923, then and there to answer a petition filed in said Court on the 21st day of July, 1923, in a suit, numbered on the docket of said court No. 1153, wherein The First State Bank of Roby is Plaintiff and S. E. McMillan is Defendant, and said petition alleging:

That on Nov. 15th, 1919, defendant executed and delivered to the First National Bank of Roby, Texas, two Venors Lien notes each for the sum of Six Hundred and No 100 Dollars, and due on Nov. 1st 1920, and 1921 respectively, with eight per cent interest, payable annually. Notes provide for Attorney fees of 10 per cent. Said notes each provide that failure to pay said note or any installment of interest the holder of said notes or any of them, shall at the election of said holder mature all of said notes.

That said notes retained a vendor's lien on and against One Hundred Twenty acres of land in Mitchell County, Texas, described in said notes as the South three-eighths of the West one-half of Section No. Eight (8) in Block No. Twenty-four (24) T. & P. Ry. Co. Survey. That each of said notes was given as part of the consideration for the land above described. That all past due interest shall bear interest at 10 per cent per annum. That each of said notes was by the First National Bank of Roby, Texas, sold, assigned and transferred to Plaintiff The First State Bank of Roby, for valuable consideration, together with the vendor's lien. That said notes are each past due, and placed in the hands of Ponder & Ferrel, attorneys, for collection. That the notes show interest paid to Nov. 1, 1921, and \$7.50 interest paid on note No. 2. That said notes are payable at Roby, Texas.

Wherefore plaintiff prays that citation issue to defendant to appear and answer herein and that on final hearing plaintiff have its judgment against defendant for the amount of its debt, attorney's fees, for the foreclosure of its lien on the property and premises above described, for sale thereof, for writ of possession, for cost of suit, and for general and special relief in law and in equity as prayed for.

Herein fail not, but have before said Court at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Roby, Tex., this 21 day of July, A. D. 1923. 8-10c. A. D. HODGES Clerk District Court, Fisher Co. Tex.

## FERTILE SOIL MITCHELL'S BID FOR TECH COLLEGE

Silliman Evans, staff correspondent for the Fort Worth Star-Telegram, accompanying the Technological College locating board, gave an interesting report of the visit of the board here Tuesday of last week. A part of the article, which was published in the Star-Telegram, follows:

Concluding a tour of the site tendered to the Texas Technological College if it is located in Colorado, a luncheon was served to members of the locating board at the Pullman cafe by the citizens of Colorado. Speeches were made by Dr. P. C. Coleman, Col. C. M. Adams, president of the Lions' Club; Judge R. H. Looney, Mayor of Colorado.

All of the speakers emphasized the fact that the agricultural development had reached its height in Mitchell County, and this county is typical of the West Texas region, once believed to be only a grazing country, but now wealthy in agricultural resources.

County Judge J. C. Hall of Mitchell County informed Superintendent of Public Instruction S. M. N. Marrs during the morning drive that six years ago Mitchell County had only five schools fully equipped and up to date, but that now 32 schools are in every district of the county. The schools are fully equipped and modern in every respect. Superintendent Marrs said that he was very much impressed by this showing.

In the speech made by Dr. P. C. Coleman he reviewed the fight made by the people of West Texas for the establishment of a school of the first class in this territory. He congratulated the people of West Texas upon the attainment of their ambition, wherever the institution should be located. Dr. Coleman was in every conference and caucus of importance during the seven-year battle for the college.

The business cars in which the party slept last night reached Colorado at 6:30 and breakfast was eaten aboard. During breakfast there was a serenade by the Colorado Booster Band, headed by Director Goldman. This band is familiar to all who attended West Texas Chamber of Commerce conventions and other West Texas meetings.

Among the first Colorado citizens to board the train was Dr. P. C. Coleman, venerable West Texas booster and known as the "Father of the Texas Tech." He was an early agitator for the foundation of an institution of higher learning in West Texas; he has headed the legislative committee of the West Texas Chamber of Commerce at every session of the Legislature since the initiation of the campaign for a college in West Texas.

Arguments presented to the board discussed the soil, the water supply and the educational and moral atmosphere of the community. Board members were told that the soils of Mitchell County may be divided into four classifications, red sandy loam black waxy, shinnery and the broken areas. Approximately 60 per cent of the soil is of the red sandy loam classification. This soil is unsurpassed as a prolific producer of the many staple crops.

In no part of Texas is there a soil that produces more prolific crops of cotton, Indian corn, milo maize kaffir and other sorghums, oats and other small grains.

Lands that are not usable for cultivation by farmers are valuable for grazing lands and offer splendid shelter for cattle during the winter. Although Mitchell County was originally a ranching area, it is now almost an exclusive farming county. It typifies the West Texas county that once was considered good only for grazing purposes, but under the toil of the farmer has proven to be vastly productive of farm crops.

The production of cotton in Colorado territory averages higher than that grown in the entire State. It was stated that 75 per cent of the cotton produced in Mitchell County during the past five years has graded good middling, with staple from one inch to one and three-sixteenths inches. The average weight of seed to the bale is 975 pounds. The boll weevil is unknown in Mitchell County.

Stock farming is carried on extensively and dairying is a profitable industry for the county. There are several herds of registered dairy and beef cattle. During the past four years registered animals have been purchased from outside the county enriching the domestic stock. Registered hogs are being brought in.

Finest moral atmosphere prevails in Mitchell County, churches are well attended and the various congregations are housed in splendid edifices. Bank statistics were cited. At the

December call the three banks in Mitchell County reported individual deposits totaling \$2,081,483 among 6,419 customers, this places the average at \$325.82. The population of Mitchell County is 7,527. Of the farmers in the county, 37 1/2 per cent own their farms.

Only 25 per cent of the population of the county is colored, 2 per cent foreign white born and 95 1/2 per cent are native white Americans.

### To Buy Site for the Tech

The local steering committee of the Tech are working up a guarantee to be used in the purchase of the site to be given the Tech locating board. The sum being solicited is for \$150,000 or more. It is in the nature of a signed pledge or note for designated sums to be used whole or in part in paying for what is lacking between \$150,000 appropriated by the state and what the property will cost the citizens of Snyder. A full \$150,000 or more is sought, but only a part of same is thought to be necessary. Still the committee wants to be on the safe side. Every citizen of the county will be given an opportunity to sign one of these pledges. And every citizen of the county is expected to do his full share in these matters.—Scurry County Times.

Comfort

That is about the most we get out of life; Comfort, Satisfaction.

There is no greater comfort than that which comes from good health and the full command of our senses.

And good vision probably furnishes more comfort than any other factor.

There is much satisfaction in reading as much as you want to; of undertaking any task without fear of eye strain.

Let us examine your eyes and determine their condition.

## FLY TIME

## Keep them Moving.

THE next best thing to "swatting the fly" is driving him away. The sweeping breeze of an electric fan will keep flies from sleeping infants (or adults) and from exposed food on dining table or in kitchen.

A G-E fan costs but a trifle to operate and insures cooling breezes and protection from flies. We have sizes and types to suit every requirement.

WEST TEXAS ELECTRIC COMPANY

**MITCHELL COUNTY FARM EXHIBIT AT DALLAS FAIR**

An agricultural exhibit from Mitchell county will be shown at the State Fair at Dallas this fall, W. A. Dulin, county farm agent, stated Saturday. Dulin stated that executives of the Colorado Chamber of Commerce had authorized an appropriation to pay expense of collecting and showing the exhibit. Practically all specimens to be included in the exhibit are to be collected by Dulin and Miss Georgia Laceywell, home demonstration agent. A booth for Mitchell County has already been reserved.

That Mitchell County is in position to cope with the leading agricultural counties of West Texas has been claimed by both Dulin and Miss Laceywell for some time and to them is much credit due for obtaining authorization from the Chamber of Commerce to carry the exhibit to Dallas. R. P. Price, director agricultural and livestock department of the chamber, is also very much interested in making of the exhibit the success it should be and will devote much of his time co-operating with the agents in collecting the exhibit.

The importance of sending an exhibit to Dallas was stressed in addresses delivered at an executive session of the Chamber of Commerce Thursday afternoon. The outstanding development of Dawson and a few other rapidly growing West Texas counties was cited by speakers as evidence of the feasibility of the exhibit. In referring to Dawson County, one of the speakers claimed that during the past ten years an agricultural exhibit had been shown every year at the Dallas Fair from that county, the result being that hundreds of thousands of people from various sections of America, had been educated to recognize that section as a dependable farming section, and hundreds of new settlers were coming there to improve farm homes. It was claimed that 30,000 acres of new land had been put into cultivation in Dawson county this year.

The ten first prizes awarded at Dallas last year to counties exhibiting in the agricultural division went to West Texas counties and these awards were won over competition with scores of the leading counties of Central and North Texas. "If other West Texas counties can establish for themselves such a creditable record, there is no reason why Mitchell County should not do the same," it was said. "It is a matter of official record, by the Federal Department of Agriculture, that Mitchell is one of the ten leading West Texas counties in cotton production, and this county is also above the general average in the production of all other staple crops."

Farmers of the county, members of boys and girls clubs and the several affiliated rural clubs are requested to lend to those directing collection of the exhibit their full support, an official of the Chamber of Commerce stated Saturday. With out this support it was pointed out that success of the project would not by any means be so promising. This co-operation will be appreciated by Mr. Price, as well as other Chamber of Commerce officials.

**GOLDMAN WILL ATTEND BAND MEN'S CONVENTION**

M. S. Goldman, director of the two bands at Colorado, will attend the State Bandmasters Association, to be convened in Fort Worth, Aug. 13 and 14. The Colorado Lions club will give the director the trip in token of appreciation held by the membership for his services here.

**FOUNDATION IN PLACE FOR JOHN L. DOSS' NEW BRICKS**

Concrete materials for the foundation have been poured at the John L. Doss building site. This building will have a frontage of 125 feet on Walnut street within the district to be paved. The building is to be constructed into five separate compartments.

**SIX ENTER CONTEST FOR QUEEN OF COUNTY FAIR**

Six young ladies of the county had been entered the Queen's contest up to Wednesday afternoon, P. K. Williams, manager of the contest, stated. They were Misses Ruebelle Smart of Colorado, Hazel Costin of Colorado, Isla Dorn of Colorado, Viola Brown of Loraine, Connie Blair of Loraine and Willie Howell of Loraine. Entries may be filed with Mr. Williams or Mrs. J. G. Merritt, president of the Women's Auxiliary.

**HEARING ON ASSESSMENTS IS CLOSED BY CITY COUNCIL**

Hearing of all protests which may be filed by property owners affected by assessments made by the city on account of street paving was closed by the terms of a resolution unanimously passed by the city council Saturday afternoon. In previously adopted ordinances, which had been published in the local paper, citizens desiring to file protest because of assessments made against the property owned by them were given until Saturday to do so.

Only one property owner appeared before the council to protest the assessment. This was Mrs. H. A. Cooper, a resident of Ellis County who owns ninety feet frontage on Second street in block 37, near the Lone Wolf Creek bridge. The complainant was represented by W. H. Garrett, local attorney. Allegations made in the protest were discussed by the attorney and members of the council but no official action was taken. Passage of the resolution closing hearing as to all protests was passed within a few minutes after the petition had been presented.

With adoption of the resolution the city closed the last chapter in meeting legal requirements under the law to assess and collect the assessments as already made against abutting property in the two districts to be paved. Since property owners, with one exception, filed no protest against the expense to be met by them in meeting the paving contract, it is conceded no objection has arisen. At any rate, the assessments are now definitely made and a lien against the property affected for payment of them will obtain, the lien, according to specifications in the resolution, superceding all other liens excepting those which may be held by the State, county or city for taxes.

Specifications cited in the petition filed by Mrs. Cooper Saturday alleged the assessment was confiscatory, as it equaled almost in value the actual worth of the property; that the assessment made by the city was in excess of assessment made against other property on Second street of the same footage, and that the paving would enhance the value of other property in district No. 1, on Second street, but would add nothing to the value of the property owned by claimant.

The district to be paved is divided into two units, known as District No. 1 and District No. 2. District No. 1 includes Second street from the west intersection of Cypress street to the east intersection of Hickory street, a distance of seven blocks. District No. 2 includes Walnut street from the south intersection of Main street to the north intersection of Third street, a distance of two blocks.

Property owners are given the privilege of extending payment of these assessments over a period of five years, divided into six equal installments. The first payment, equaling one-sixth of the assessment is to be paid within thirty days after completion of the paving contract and the others are due and payable annually within one to five years thereafter. Interest at six per cent will be charged against the property on all deferred payments. Property owners will be given the privilege of paying the entire assessment in cash.

**MITCHELL FARMERS BUSY FILLING FAMILY PANTRY**

Scores of farmers in the Colorado territory are preserving hundreds of tins of corn, fruits and garden vegetables this week for winter consumption. Especially are a large number of tins of corn being preserved as the roasting ear crop is unusually good. Farmers from practically every section of the county are in Colorado daily to obtain cans, cookers and sealers supplied them by the Chamber of Commerce.

This work is being done under direction of representatives of the Extension Department, A. & M. College.

**PROCLAMATIONS CALL ON PUBLIC HONOR HARDING**

Proclamations to the people of Mitchell County and the City of Colorado were issued Wednesday afternoon by County Judge J. C. Hall and Mayor R. H. Looney, requesting the general public to observe Friday, the date on which the remains of the late President Harding are to be buried at Marion, Ohio, as a day of mourning. The proclamation issued by the county judge is addressed to the general public of the county, while that of Judge Looney is to the citizens of Colorado alone.

In the proclamation issued by the mayor, he calls upon the citizens of this city to observe the day with fitting memorial services at the First Methodist church Friday afternoon at three o'clock. He also directs that all stores and offices in the city be closed for one hour, beginning at the time services are to open. Mayor Looney stated that Rev. J. M. Shufford and Rev. Gaston Poote would conduct the religious rites during the memorial. Thos. Dawes is to direct the choir.

**PROCLAMATION**

To the Citizens of Colorado: WHEREAS, It has pleased Almighty God, in His Wisdom, to call our president, Warren G. Harding, from this transitory existence to his last reward; and

WHEREAS, The people of the United States are in mourning on account of the death of our president, I, therefore, as mayor of the City of Colorado, and in conformity to the suggestion by our present president, Calvin A. Coolidge, do hereby designate Friday, August 10th, as a day of mourning, and call on the citizens of Colorado to assemble at the Methodist Episcopal church at 3 o'clock in the afternoon for the purpose of a memorial meeting to express our regrets at the loss of our chief executive;

I, therefore, request that all business houses close their doors and cease their various avocations for one hour, beginning at 3 o'clock p. m., on the date above mentioned, and I especially invite all citizens of Colorado and strangers in our midst to meet with us in this memorial meeting.

R. H. LOONEY, Mayor.

**PROCLAMATION**

Whereas, the President of the United States has seen fit to issue a proclamation calling upon the people of the United States to hold memorial services in honor of and in respect to the late President Harding on Friday, August 10th;

And, whereas, we deem it right, proper and fitting that all people everywhere should observe that day, and hold suitable services in respect thereof and that the people of Mitchell county should join with the people of the Nation, in holding suitable services and in mourning the death of President Harding;

I, therefore, respectfully call upon the people of Mitchell County to suspend business of all kinds and cease operations of every nature for a period of five minutes, beginning promptly at 3 o'clock, Friday, August 10th, and all who possibly can to meet in suitable places and hold such services as are fitting and proper for the day.

Done in memory of the late President of the United States, Warren G. Harding, at the office of the county judge of Mitchell County, Texas, this seventh day of August A. D. 1923.

J. C. HALL, County Judge Mitchell County, Tex.

**NORTHWEST TEXAS GIRLS ENJOYING PALO DURA CAMP**

The Young People's Missionary Societies of the Northwest Texas Conference are enjoying one of the most complete educational camps they have ever known, according to Miss Jessie Stell of Colorado, who is attending the outing on Palo Dura canyon near Canyon. The khaki clad girls are making things hum in the daily routine of study, music and recreation.

**TEXAS TECH SCHOOL IS GIVEN "HUB OF PLAINS"**

Lubbock, "the Hub of the Plains," was selected as the site for the Texas Technological College by the board at Fort Worth Wednesday afternoon. The Fort Worth Star-Telegram informed the Colorado Chamber of Commerce that the selection was made at 2:30 p. m. and that only one ballot was taken. The locating board, however, had been in conference since 9:30 in the morning.

Immediately upon receipt of the information that the school had been located at Lubbock, Dr. P. C. Coleman, president of the Chamber of Commerce, telegraphed congratulations to the people of that city and assured them that the citizenship of Colorado were solidly behind the institution. Replying to this message, the president of the Chamber of Commerce at Lubbock wired:

"Lubbock appreciates your kind congratulations. Leaders of the city appreciate the fact that the school carries with it many great and grave responsibilities and these we pledge you upon our honor to fulfill with credit to the great section to be served by the college."

**BAND AND BOY SCOUTS IN JOINT PROGRAM FRIDAY**

A program in which the Colorado Booster Band and members of the boy scouts participated was rendered Friday evening on Second street in front of the Palace Theatre. Practical demonstrations of the various requirements made of the boys in scout training, from the tender foot state up, were given under direction of W. B. Crockett, assistant scout master. Several hundred Colorado people witnessed the program.

**WEST TEXAS GINNERS TO MEET SATURDAY, AUG. 11**

Colorado ginners have received notice of postponement of the annual convention of the West Texas Ginners Association from Friday of this week until Saturday. Date for the convention was originally set for Friday but on account of the burial of the late president, Warren G. Harding, it was determined by officials of the association that the meeting be held Saturday instead.

The convention is to be held in Abilene and promises to be one of the best in the history of the association. Elaborate preparations are being made at Abilene for entertainment of the visitors and it is expected that between 200 and 300 ginners and cotton oil men will be in attendance. Sessions will be held at West Texas Fair Park.

**LIONS TO ENTERTAIN DIST. GOVERNOR PERRY**

Col. Louis C. Perry, president of the Texas Military College at Terrell, district governor of Lions Clubs for Texas and New Mexico, is to be entertained by Lions at Colorado Wednesday, August 29th, with a luncheon at the Barcroft. Col. Perry is making a visit to leading clubs in Texas and New Mexico.

In announcing the coming visit of the distinguished educator, Col. C. M. Adams, president of the local club, made an appeal Friday for an attendance of 100 per cent on the date Col. Perry is to be here.

**EPWORTH LEAGUE MEETING TO CONVENE AT LORAIN**

The annual session of the Epworth League Institute, Sweetwater district, will be convened at Loraine August 13 for a session of three days. The program will be in charge of Miss Jessie Stell of Colorado, district executive secretary.

Miss Stell is attending the encampment of Young People's Missionary Societies on the Palo Dura this week and writes The Record that a successful and inspirational session of the institute is expected. The Colorado organization has an important place on the program.

Regular meeting Oran C. Hooker Post No. 127, Friday night, August 10th. Important business to be discussed so your presence is requested. Jack Helton, Post Com.

**COLORADO FIELD BETTER EVERY DAY, EVERY WAY**

"The Colorado field is getting better every day," was the statement of John Hoffer of San Angelo, district representative for the Oil and Gas division, Texas Railroad Commission, as he left Wednesday morning for the field. Hoffer spent Tuesday and Wednesday in the field on official business and believes stronger than ever before that big production is scheduled to follow continued drilling.

The official has always maintained the utmost confidence in the field here. Early in the history of development in Mitchell County Hoffer, who is considered an authority on the technicalities of geology, made a personal survey of the territory surrounding the discovery well. His conclusions were optimistic and development has proven them true.

When asked if he expected to see larger wells brought in, Hoffer intimated that producers of the gusher class was expected. That a large pool will be uncovered in the field is a conclusion held for some time by the official.

Texas & Pacific No. 4 of the Underwriters Producing & Refining Company was shot late Friday with one hundred quarts of nitroglycerine and is good for a production of not less than 200 barrels, according to S. S. Owen, general manager of the company. Owen stated Wednesday afternoon that the hole was being cleaned out preparatory to setting tubing. The well will then be tested out. The well was shot from 2994 to 3104 feet.

Owen reported Thursday morning that the Texas & Pacific No. 4 swabbed 100 barrels during the day Wednesday and was still standing 2500 feet in oil.

Two tests of the Underwriters Company are temporarily tied up in fishing jobs. At Texas & Pacific No. 3 the crew is fishing at 2530 feet. At Morrison No. 4 the crew is fishing at 1250 feet.

Henry Riley is drilling at 12 feet at Morrison No. 1 of Riley et al. offsetting the discovery well. The California Company is drilling a 3400 feet at their Morrison No. 1 in Section 27. A. L. Miller No. 1 of the same company, in section 22, is down 1600 feet.

The H. C. Miller No. 1 of S. A. Sloan et al was drilling at 2990 feet Thursday morning after penetrating the pay seventy-five feet. The hole is full of oil and promises to develop into one of the best producers in the field. At Sloan's O'Neal No. 1 the crew has set 1 1/2 inch casing at 316 feet and was drilling at 350 feet.

**Death of Mrs. Fletcher**

Mrs. Mary E. Fletcher died at the home of her daughter, Mrs. Fred E. McKenzie, after a lingering illness Tuesday and was laid to rest in the I. O. O. F. cemetery beside the husband who preceded her few years. Wednesday. The funeral services were conducted by Father Campbell of Sweetwater. Mrs. Fletcher came to West Texas with her husband, J. B. Fletcher, more than forty years ago where they made their home. To them ten children were born and only two are living, Mrs. McKenzie of Colorado and Fred Fletcher of Los Angeles, California. Besides these a grandson and two great-grand children survive her. Old time friends of Big Spring and Sweetwater came to pay their last respects to her whom they loved.

Mrs. Fletcher was a devoted member of the Catholic church and her life was devoted to carrying out and living its principles and she died as she lived true to her faith.

The pall bearers were: G. S. Thomas, Harry Landers, Jr., Mr. Powell, Stewart Cooper, W. W. Whipkey and J. G. Smith. The honorary ones were F. M. Burns, C. M. Adams, D. N. Arnett, A. E. Maddin, Lay Powell, Clint Mann and Robert Terrell.

The Record joins the other friends in extending sympathy to those who mourn.

Dr. B. F. Dulaney and family are spending a few days at Christov.

#### MRS. GATLIFF DIES

Mrs. M. K. Gatliff, 71, died at 10:30 Sunday and the remains were buried in I. O. O. F. Cemetery at Colorado Monday afternoon. Funeral services at the grave were conducted by Rev. A. D. Leach, pastor of the Westbrook Baptist church.

Mrs. Ollie Anderson and children of Colorado, are visiting her mother, Mrs. Annie Sexton, at Vista. They have also been guests in the home of her husband's mother and brother, Mrs. A. G. Erskine and L. B. Anderson at Fairview. The visitors are now at the home of Mrs. Mary Robertson at West Point, sister of Mrs. Anderson. Before returning to their home Mrs. Anderson and children will spend some time with her aunt and uncle, Mr. and Mrs. S. E. Chris-

tian, and her sister, Mrs. Cora Melton, in Hamilton. They expect to remain in the county some six weeks. It will be remembered that they were victims of the terrible Colorado cyclone some months ago, and Mrs. Anderson expressed her thanks to every one in this county who aided them in their distress. Miss Bertie Sexton, who for quite awhile had been a member of the household of Mrs. Anderson in Colorado, accompanied them home and will remain. She went to Colorado to be with her sister following the news of the terrible storm.—Hamilton Herald-Record.

Coming soon, one carload of Peter Schutler Wagons. The best wagon on the market. Will have both wide and narrow tread.—Oliver & Bell.

WEST TEXAS ELECTRIC COMPANY

and the Farmers Union rise up and come into their glory, and I have also witnessed these organizations go down into defeat just because some man attempted to ride the organization into office."

The speaker was introduced by W. A. Dulin, county farm agent. In the few preliminary remarks delivered by Dulin he stated he was proud of the fact that Mitchell county produced the best quality of staple found in West Texas and that the county also held a commendable record as producing the largest yield per acre of any other West Texas county.

There are three classes of men opposing the co-operative marketing plan, Coghlon declared. These were cited as the unemployed, the misinformed and the selfish. The thing to do is to educate the two former classes, the speaker said, "but I have no idea what to do with the latter." The speaker was interrupted by a farmer in the audience, who suggested that "we will just let that crowd alone and let 'em go." The district court room was filled with interested farmers from over the county.

Coghlon scoffed the idea that cotton, a product which may be kept for fifty years, cannot successfully be marketed under the co-operative plan when farmers in California are successfully marketing raisins, prunes and other perishable products under the same plan. He recited statistics showing farm conditions in California before the growers there organized, as compared with conditions today. These statistics showed that farmers in the California organization, a few years ago in the midst of poverty, were today the most successful and prosperous farmers in America, an achievement made solely through co-operative marketing of their products.

"Do not fall out with your cotton buyer, banker or merchant over the selling price you realize for your cotton under the old plan," Coghlon stated. "You have no one to blame but yourself. The cotton buyer, banker and merchant is merely looking after his interests, and it is up to you to look after your interests. You cannot make me believe otherwise than the street buyer, the local banker and merchant as a class of business men desire to do the equitable thing in all their dealings with the cotton farmer. They are in business for a profit and I do not blame them for taking it."

Coghlon appealed to the farmers to extend the spirit of co-operation to encircle every legitimate business represented in the country. "It is the duty of you farmers to buy at home and help the local merchant who extends credit and helps you in time of need," he declared.

"Farmers who are believers in the co-operative marketing of cotton are putting over an organization in the 12 cotton states which is intended to work toward the goal of giving every farmer in the South the opportunity of marketing his cotton through his own organization which is functioning now and saved those who were in last year a little better than \$25 per bale over and above those who were not members.

Coghlon left Monday morning for Snyder where he addressed a group of farmers and business men at luncheon given in his honor at noon. He is on an extensive speaking tour of the South and recently completed a swing through the Gulf States taking him into the Carolinas.

Several years ago, a California lawyer, who has since become famous for his co-operative marketing counsel, read an article in a national magazine in which the conditions of the cotton farmers were graphically discussed. He promptly wrote the author of the article, suggesting that the cotton farmers might adopt the plan which California farmers had found to be a remedy for their once deplorable condition. He told him that similar conditions had once existed in California, but that the growers had developed systems of co-operative marketing which had brought almost unbelievable prosperity to them within the last dozen years.

#### GUS BERTNER PROUD OF PROGRESS MADE IN CITY

Gus Bertner of Little Rock, Ark., spent a few days of this week in Colorado on business in connection with his property holdings here. Mr. Bertner was for a number of years a citizen of Colorado. In speaking of the paving, Mr. Bertner stated he was glad to know that Colorado was a progressive town. "I am a non-resident and these improvements are costing me considerable money," he said, "but I am very much in favor of them."

Within a few days after the campaign to vote bonds for the court house was started, Bertner addressed a letter to The Record for publication, in which he appealed to citizenship to vote the bonds. "I will be glad to pay the additional tax," he wrote. Bertner owns considerable property in the county.

The above is a reproduction of a memorial to the Veterans of the Civil and World Wars, which was erected by the Continental Marble & Granite Company at Canton, Ga. The weight is practically seventy-five thousand pounds and the length of base is fourteen feet six inches. The height of the memorial is fifteen feet and it is built throughout of the Famous Silver Grey Georgia Marble. Mr. E. M. McCreeless is representative for this section for the builders of this memorial and would be very glad to be of service to those in need of memorial and other cemetery work.

### SIX ENTER CONTEST FOR QUEEN OF COUNTY FAIR

Six young ladies of the county had been entered the Queen's contest up to Wednesday afternoon, P. K. Williams, manager of the contest, stated. They were Misses Ruebelle Smartt of Colorado, Hazel Costin of Colorado, Isla Dorn of Colorado, Viola Brown of Loraine, Connie Blair of Loraine and Willie Howell of Loraine. Entries may be filed with Mr. Williams or Mrs. J. G. Merritt, president of the Woman's Auxiliary, American Legion.

Williams announced that two attractive prizes had been selected by the contest management for awarding winners. The first prize will be a genuine solitaire diamond ring and the second a set of genuine La Tusca pearls. All young ladies entering the contest prior to noon on August 15, will be given 5,000 votes free. Those entering after that date will receive no free votes.

Williams stated that the management believed that several additional contestants would be entered before the time limit for securing the extra free votes, and included in the number would be young ladies from several of the rural communities and smaller towns of the county. He urged that clubs and individuals having young ladies in mind for the contest enter them at once. In speaking of the contest further, Mr. Williams stated:

This year we are sure every part of the County will be represented by a young lady and the management believes that this part of the Fair will be one of the outstanding features.

The program will also be a great improvement over last year. The following programs will be given for and in honor of the Queen:

First—Plans are in the making to have the famous Colorado Booster Band play the evening of September 19th, the evening the Queen is selected. Each entrant will be requested to promenade in a roped off portion of the street so that her friends may see her just before the balloting is closed. Votes will be counted and recorded on a big black board in the street every half hour from six until nine p. m. when the boxes are closed. Plans for this alone shall make this a big entertainment.

Second—The coronation will take place in the New American Legion Hall amidst pomp and splendor, in fact this will be one of the outstanding gala events of the Fair.

The Ugly Man commonly known as the Queen's fool will have the opportunity to show his talent as an entertainer.

Third—The closing and big event will be the Queen's Ball. The committee in charge of this program assures us that this will be a dance far above any ever seen in this locality. Details will be published later.

Voting boxes will be found at all drug stores in Colorado.

Miss Irene Bledsoe of Westbrook was entered in the contest Thursday placing the number of contestants at seven.

#### YOUR COUNTY AGENT

The creation of the county agent system has placed at the disposal of the farmers of the United States a county agent in practically every agricultural county in the United States.

The effectiveness of this work depends on the support you give the county agent in assisting him in formulating plans of work for the counties. The county agent is a most useful agency in the county. His services have been provided by the government for work in the county in developing a profitable agriculture. The effectiveness of his work depends largely on the co-operation given him by the farmers in the county. It is impossible for a county agent to do his most effective work with the individual, and he welcomes the opportunity of co-operating.

Coming soon, one carload of Peter Schuttler Wagons. The best wagon on the market. Will have both wide and narrow tread.—Oliver & Bell.

M. S. Goldman will leave Sunday for Ft. Worth to attend the annual session of the Texas Bandmasters Convention to convene Monday for two days.

#### UGLY MAN'S CONTEST TO FEATURE SECOND FAIR

##### WITH THE BAPTISTS

Rev. M. C. Bishop, our pastor, writes from Roaring Springs that he is in a wonderful meeting there. He will return home in time for services Sunday. Most of us have returned from vacation and it is now time for us Baptists to settle down for a big season of work for the Lord. Be in your place Sunday for all the services. The pastor will have an interesting subject to discuss.

#### ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangers and Sickening Qualities Removed. Perfected Tablet Called "Calotaba."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotaba." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotaba.—(Adv.)

Our good friend, L. G. Suber, is enjoying a visit here of his daughter and her husband, R. A. Rich of Dallas. While here they paid the Record office a pleasant and appreciated call.

**The Best is the Cheapest**  
in the long run—when quality is considered. Peter Schuttler Wagons are higher priced than others because they cost more to build, but they give twice as much service with practically no cost for repairs or loss of time and use of horses through break-downs.

**Old Reliable Peter Schuttler Wagons**  
are solid and full of life after years of hard use and service. They stand the wear without repair and give lasting satisfaction. The Peter Schuttler is the easiest running wagon built. For over 70 years it has been recognized throughout the world as the **One Best.**

*Come in and see the Old Reliable*

Coming Soon—One car load of Peter Schuttler Wagons. The best wagon on the market. Will have both wide and narrow tread.

THEN AND NOW

November 11, 1918. One minute before 11 p. m. we had the right to kill; one minute after 11 p. m. we did not.

Patriotism: What is it?

Old Glory. Our belief in and protection of our wonderful womanhood. Our assertion of our belief in our right to live and perpetuate our ideals as a nation and to accord that privilege to others.

The American Legion; What is it?

Immediately after the Armistice signed representative men from allied armies met for the purpose of forming an inter-allied association of ex-service men, the purpose of which was to devise means by which the nations of the earth could be brought together in a fraternal association known as F. V. O. The purpose of this association is to unite the world as F. V. O. The purpose of this association is to unite the world as F. V. O.

MRS. G

Mrs. M. K. d country we associated Sunday together for the following in I. ( To uphold and defend the Constitution of the United States; to maintain law and order; to foster and perpetuate the West Americanism; to preserve the memories and incidents of our history; to promote the sense of individual obligation; to promote the sense of community, state and national duty; to combat the autocracy of the masses and the masses; to her husband; to be the master of might; to person a peace and good will on no to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship of our devotion to mutual helpfulness.

What the American Legion is Doing

First and above all, practicing the principle of mutual helpfulness by urging any legislation possible which in any manner will alleviate the suffering of our disabled buddies. Perpetuating the memories of those 32,000 buddies who still sleep over there by creating an endowment fund of \$200,000, the interest from which will be expended annually in decorating the graves of these buddies.

Fighting through Congress to tide the stream of immigration of undesirable foreigners who are of such intellect that they can never assimilate our form of government.

We are fighting the followers of the red flag who are actually making soap box speeches the first Friday in every May urging a form of government similar to that in Bolshevist countries.

Cooperating with schools and colleges in preparing and introducing patriotic courses in their curriculum. Creating a community spirit of mutual friendship and helpfulness.

Fostering the Boy Scouts. Fostering the Girl Scouts. Cooperating with the Red Cross, Salvation Army, Y. M. C. A. and all local organizations.

We have assisted and are assisting disabled soldiers of our immediate community in securing compensation, vocational training, collecting insurance and all other assistance that can be rendered an unfortunate buddy.

In order to more fully carry on the work that we have, it is necessary to have a house, a home. Oran C. Hooker Post No. 127, American Legion, Texas, has a home

such a wonderful farming and livestock section and the oil field here of such excellent proportions as we home folk believe, why not pass the information on to others about us? Of course our neighbors know something about Colorado and her fine farms and oil field, but they do not have the complete story by any means.

The proposed trade trip, suggested by officials of the fair to advertise the second annual meeting in September is an excellent opportunity for the citizenship of Colorado to put over some good publicity. Get in behind the program to send this excursion to the towns about us and while telling our neighbors of the fair here this fall, it would not be out of place to also remind them of some of the other big attractions to be found in Mitchell County.

The trip should be made within the next few weeks and before the cotton season opens in a large way. Within the next sixty days, Colorado will be in the midst of the cotton harvest and prospects are for a heavy trade in this commodity. Merchants will be busier than than now and not so likely to find time to take a day or two off for the trip.

If we are as proud of Colorado and Mitchell County as we claim, we should not be backward in telling others of the good features we have. Give your name to the fair secretary if you will be one of the number to go on the proposed trip.

SUPPORT THE FAIR

The Second Annual Mitchell County Fair, to be held at Colorado September 20, 21 and 22, should receive the support of every citizen of the county. The organization is functioning for no other purpose than to result in direct benefit to the commercial life of the county, and this takes in every business represented, whether it be that of the merchant, the banker, the farmer, cattleman, oil man and others.

Profits derived from the fair are to find their way into the pockets of exhibitors and to a fund for sending members of the boys and girls clubs to Dallas as guests of the management of the State Fair. The boys and girls who are awarded the visit to Dallas will, during the week they are there, receive valuable instruction in practical farming and stockraising, the worth of which is not to be computed in dollars and cents.

Then again, those more than two hundred boys and girls from the rural communities of Mitchell County who, as members of clubs working under supervision of the county farm and home demonstration agents, are gaining valuable knowledge in the science of better farm and livestock production thru activities of clubs in preparing exhibits for the fair.

And in the judging of these exhibits these boys and girls will be personally associated with experts who are capable of teaching the boy and girl the identical things he or she would be taught at College Station. There could be no better institution builded by the citizenship of Mitchell County than a great fair, to hold its sessions annually and foster only such programs as would prove instructive, as well as entertaining, to every arm of our great commercial life. Much of the success of the fair

OUR PRESIDENT

In some of the Sunday schools and churches of Colorado congregations stood with bowed heads and breathed prayers of sympathy for the widow and relatives of the late President Harding whose lifeless body was at the moment being borne to Washington where he served this great people as their chief executive for a little more than two years.

People throughout America and of every faith and creed did the same. Political lines were pushed aside. Every true American citizen felt keenly the loss of the President and there were tears of genuine sorrow trickling down the cheeks of men who were not of Mr. Harding's party. This good man, who had answered the last call, was "Our President" elected by a majority of the people and that was enough to give him a place in the affections of every man and woman who loves old glory and would support the principles for which old glory stands.

Today the body of the late president has reached his old home at Marion, Ohio, and funeral services are being observed.

Again the liberty loving people of America join with their hearts in having a part in this service. During the hour in which the funeral is observed today, Colorado people are pausing again to silently speak a prayer for the bereaved widow and relatives. Warren G. Harding was "Our President," and as such was president of the greatest people and chief executive of the greatest republic the earth has ever known.

PROPOSED TRADE TRIP

The proposed trade trip to advertise the Second Annual Mitchell County Fair, should of its own merit receive the endorsement of every live wire citizen of Colorado. In talking among ourselves on the street or in the office, we have nothing but commendable things to say about the home town and county and we should by all means get away from the policy of restraining these statements within so small a circle represented by the confines of the city. If Colorado is such a good town in which to live, Mitchell County

is dependent upon the business men of Colorado.

SWAT THE MOSQUITO

"Swat the mosquito." That is the slogan of the Civic League, the Lions Club and city officials for the week. A program to exterminate the pest was inaugurated by club women of the city and they have enlisted the others in the campaign. There is some difference in opinion as to the source of such an unusually large number of mosquitoes in Colorado. Some are of the belief that the disposal plant is furnishing the incubator for the thousands of these pesky little hi-jackers. City officials however, who have conducted an investigation at the plant, deny the charge, claiming that no mosquitoes are to be found there.

The fact remains, nevertheless, that Colorado is overrun with an over quota of the pests and ordinary means of combatting them has apparently proven futile. Thus the call for co-operative action upon the part of the entire citizenship to destroy them. The prediction has been made that the mosquito problem may develop into a menacing attitude if they are not at least checked. The poisonous infection left by the insect is not at all desirable at the best and may develop dengue fever or some other equally as serious epidemic. By all means the mosquito should be destroyed.

During the day he will seek shelter in weeds and other vegetation affording protection from the penetrating heat of the sun. Inside the home he will elude danger of destruction at the hands of the housewife by secreting himself in the closet, underneath the bed and in divers other places. Give the Civic League your full co-operation in this campaign to rid Colorado of this pest. Clean up, burn and fumigate.

WESTBROOK ITEMS

P. K. Williams of Colorado was in Westbrook Monday in interest of the Queen's contest in the Mitchell County Fair. Miss Irene Bledsoe has been nominated as representative from Westbrook.

Miss Kuykendall of Colorado was the guest of Miss Elon McDonald Sunday.

Mrs. R. H. Chatham of Dallas is visiting her sister, Mrs. O. T. Bird. Misses Iva and Emma Lee Reed of Stanton are visiting their Aunt, Mrs. J. E. Boatler.

Friday afternoon, Miss Bernice Ramsey gave a shower complimenting Mrs. J. J. Casey, who was Miss Mary Ethel Johnson before her marriage a few days ago. Mrs. Casey received many nice and useful gifts after the gifts were unwrapped and appreciations expressed, refreshments were served.

Miss Ruth McNairy and little brother, Jack of Iatan, are visiting Mrs. O. T. Bird.

Mrs. Jessie Stubblefield of Breckenridge is visiting relatives here this week.

Mr. and Mrs. A. F. King returned from Goldthwaite Sunday where they had been visiting relatives.

Mrs. J. E. Skelton assisted by her sister, Miss Elon McDonald, gave a miscellaneous shower Saturday afternoon honoring Mrs. W. O. Lewis, nee Miss Madolyn McCallum. Quite a nice program was carried out after which the presents were taken from

a tree, which was artistically decorated with white and pink. Refreshments of cake and fruit punch was served.

Mr. Guy Hooks of Colorado is visiting his sister, Mrs. E. V. Bell.

Jim Bodine of Buford was in Colorado Saturday. Mr. Bodine stated that he was marketing large quantities of fresh vegetables in Colorado and he is well pleased with the prices obtained.

NEWS

Colorado Bargain House THE PRICE IS THE THING

Our buyers are now in the eastern markets and we are receiving new merchandise daily.

We invite you to visit us and see the new goods that will be worn this fall and winter.

Colorado Bargain House THE PRICE IS THE THING

COAL

When the Cold Hand of Winter hovers over your home will you be ready to protect your family from the cold with a well heated house. You will if you let us put your Coal supply in for you now. And you will save money, too, for prices are less than in the winter.

All those in position to know say Coal will be hard to get in the winter. Let us fill your bin now. REMEMBER we handle the best coal ever mined.

FEEED

Good Feed is the best foundation on which to raise the finest cattle or horses, and good feed and nothing else is what you get at Lambeths where the best corn, oats, meal, bran, hay, etc., are always at the command of cattle feeders.

FEED COW CHOW NOW Get 3 pounds more milk per day for every pound of Purina Cow Chow needed to balance grass. It will put your cows in good shape for fall and winter production. Try Cow Chow now and let your cows show you.

Order Today O. LAMBETH

NO! NO!! It is not our intention to throw a wet blanket over a happy summer vacation, but just to remind you to "make hay while the sun shines." No more profitable and pleasant vacation could be spent than in taking the treatments and baths at Grogan Wells Sanatorium. The permanent benefit you will receive will be more than commensurate with the pleasure we will derive from serving you. THINK IT OVER—Your good judgment will justify your securing better health. Grogan Wells Sanatorium (Largest Drugless Institution in the South) SWEETWATER, TEXAS

**FOR SALE**—A good four burner Florence oil stove with oven. Apply to this office.

## IN SOCIETY AND AT THE CLUBS

### Miscellaneous Shower

The Young Ladies Missionary Society of the Methodist church entertained with a miscellaneous shower Saturday afternoon at the home of Mrs. Charlie Thompson for Mrs. Tom Grant, nee Miss Alma May, one of their members. On arrival of the guests Mrs. Blanks gave a unique history of the lives of the pair and bid them a happy voyage through life's journey. The honoree then started her voyage on life's path which was a path of the society's colors, green and gold, and at every step gifts were strewn as she reached the dining room she found a beautiful decorated table with green and gold, laden with more gifts. Here toasts were given. Mrs. A. P. Baker toasted the bride, Mrs. Charlie Thompson the groom and Miss Johnnie Chesney the girls left behind. The color scheme was carried out in delicious orange ice and cake with green icing.

### Auxiliary Will Meet

The Auxiliary to the American Legion will meet with Mrs. Charlie Farris at the home of Mrs. Jeffress Saturday at 4 o'clock. There is a membership contest on and an interesting time is expected, especially to the winning side. Every member is urged to be present.

### Honoring Mrs. Harness

Mrs. J. F. Carey entertained with 42 at the home of Mrs. Gustine last Friday from 4 to 6 o'clock honoring Mrs. C. T. Harness, who is soon to leave for Fort Worth, her future home. There were seven tables and the only sad note was the thought of Mrs. Harness leaving. During the games ice cold punch was served and at the conclusion chicken salad, olives, potato chips, sandwiches and iced tea were served followed by ice cold watermelon. The honoree was presented with a beautiful hand embroidered dresser scarf. Mrs. Ed Jones assisted the hostess and her little daughter Arleen in entertaining. The out of town guests were: Mrs. Meader of Ada, Okla., and Mrs. Stevens of Cisco.

### Picnic Supper on Lawn

The members of the Shakespeare club with their husbands spread a picnic supper on the lawn of Mr. and Mrs. J. L. Doss Monday evening, honoring Mrs. C. T. Harness, a loved member, who is leaving this week for her new home in Ft. Worth.

### Regular Meeting

The regular meeting of the County Federation of Women's Clubs will be held at the Baptist Sunday school rooms next Tuesday, August 14th, at 4 o'clock. All clubs are urged to have representation as plans are to be made for the county fair and committees appointed.

MRS. J. G. MERRITT, Pres.

### Children of the Confederacy

There will be a meeting of the Children of the Confederacy at the home of Mrs. J. G. Smith Saturday afternoon at 4 o'clock. The program will be: Roll call—Name a general of the Confederacy.

Sketch of Stone Mountain Memorial—Elizabeth Terrell. Social Hour. All members urged to be present.

### Missionary Meeting

The young ladies missionary society of the M. E. church met with Mrs. A. P. Baker Tuesday. Plans were made for the bazaar which will be held in November. In behalf of the society Mrs. Dobbs presented Baby Quinney with a gold bracelet. The hostess served a salad course, cake and iced tea. The next meeting will be with Mrs. A. B. Blanks.

### Ladies of Church Meet

The Ladies of the Church met with Mrs. H. B. Broadus Wednesday instead of Thursday so that Mrs. C. T. Harness, one of the faithful members who leaves for Fort Worth Thursday could be present. After a devotional period an interesting contest in story form using all the names of the ladies of the church was much enjoyed. After this a love gift, silver salad forks was presented Mrs. Harness. The hostess served orange ice and cake. Mrs. R. B. Sims and daughter of Atlanta, Ga., were out of town guests.

### Business Meeting

The Baptist women met in business meeting at the church Monday afternoon. Besides the regular business plans were begun to entertain for the Association which meets here in September. A committee was appointed to purchase a new table for service at Lord's Supper. The Circles will meet next Monday for study.

## --Get a Hat Like This

You'll like it because it is a great big heaping value. The finest felt ever manufactured into a stylish shape that will look like new no matter how many times it will get wet.

JUST THE HAT FOR WINTER WEAR

"Lost my cap," growled the Mad Motorist. "Here's one of those 'SURE-FIT'S' called the Happy Haberdasher. When you're driving, just snap it on this little strap. It'll stick like fly-paper."

AND that's only one reason why "SURE-FIT" is the world's most comfortable cap. No elastic to bind the forehead. The simple adjusting

strap (hidden above the visor) works the same way as a belt. A slight pull, and your "SURE-FIT" is tighter or looser, as you prefer.

All the new Fifth Avenue styles, in the latest patterns from American and overseas mills. Prices the same as you'd pay for any stylish cap—and you get "SURE-FIT'S" unrivalled comfort.

Important: Our better grade "SURE-FIT'S" are specially treated so that they shed showers. Thus they keep their shape, last longer, look better, and give you 100% comfort on a rainy day.

## "SURE-FIT"

The World's Most Comfortable CAP

ADJUSTABLE—by a small, invisible strap, to your varying head size.

## F. M. Burns Dry Goods

Harmony Club. Mr. John R. Daniels and Mrs. Robert Mitchell entertained the Harmony Club Tuesday from five to seven o'clock at the home of their sister, Mrs. Sam Majors. The hostess took this occasion to also entertain other friends and their fourteen tables of players who spent a most enjoyable afternoon. Chicken salad, potato chips, pickles, wafers, stuffed dates and iced tea were served to more than sixty guests. The meeting will be with Mrs. A. B. Blanks next Tuesday at four thirty.

## COLORADO SHOULD INVEST MORE IN TOURIST PARK

The expense of equipping and maintaining a tourist camp of the first class, would be one of the best investments the Colorado Chamber of Commerce could make. So said A. B. Blanks, member of the executive board, in addressing an executive session of the chamber Thursday. Blanks pled for the building of a park here which would reflect with credit upon the city—a tourist park affording every comfort and convenience possible to visitors in the city who may stop en route by automobile.

"I want to see Colorado build and maintain a tourist park that will add to the civic attractiveness of this city," the speaker said. "I would like for this park to be equipped with adequate buildings, with shower baths, toilets and sink connected to sewer, and those buildings be large enough to furnish inside sanitary shelter in which these guests stopping here might with comfort and pleasure do their cooking, eating and in fact, find many of the conveniences of a well kept home."

Blanks is chairman of a committee appointed a few weeks ago to direct improvements at the present tourist park, which are now being made. The grounds have been cleaned and this week the camp house was newly painted. Complaint has been made that the city was not fulfilling its agreement with the Chamber of Commerce in properly policing the grounds, in that refuse had been allowed to collect on the premises and squatters frequently stopped there and proceeded to take charge. On one or two occasions campers who persisted in taking over the house as a permanent residence have been requested to leave by officials of the Chamber of Commerce.

It is understood that members of this committee are considering removal of the camp to a more desirable site as to convenience to the business district and where grounds may be obtained permanently as property of the community. The tourist camp is located on grounds belonging to Judge C. H. Earnest which he is furnishing without cost. It has been suggested that a site be purchased and improved and set to ornamental trees and shrubbery. The committee inspected a proposed site located on the river on the western outskirts of the city recently but nothing definite is expected to be done within the next sixty days.

## PROSPECTS BRIGHT FOR S. M. U. COMING YEAR IS CLAIM

Prospects for the year 1923-1924 at Southern Methodist University are the brightest since the foundation of the school, according to Dr. Chas. C. Selecman, President. Dr. Selecman forecasts that the year will witness completion of the \$1,000,000 endowment campaign; construction of the new building, Kirby Hall, to house the School of Theology; growth of the student body to about 2,500 and last, but not least, in the minds of the undergraduates, the most successful athletic season in the school's history.

Under the direct supervision of a finance committee headed by Bishop John M. Moore, the final touches are to be put in the coming year on the drive for the remainder of S. M. U.'s share in the \$1,000,000 endowment one third of which will be given by the Rockefeller General Educational Board. Unexampled liberality of the friends of the school during the year just passed leads the University authorities to believe that the amount approximating \$480,000 still to be raised, will be in hand by March, 1924.

Architects are finishing up the plans for Kirby Hall, named after Mr. and Mrs. Harper Kirby of Austin, who gave the \$100,000 which made possible its construction. Foundations for the building have been staked off and excavations will be begun in the immediate future. Dean Paul B. Kern of the School of Theology expects to move his staff and students in the new building by the first of the year.

The construction of a temporary building to house the chemistry department of the University has already been begun. This announcement will be of particular interest to the students who have in the past had to suffer the stifling fumes which are such an integral part of a chemistry lab.

Come to S. M. U., the school with a heart.—By a student.

Mr. and Mrs. T. J. Humphreys of Bonham visited his sister, Mrs. A. H. Dolman and Mrs. Bruce Aycock last week en route to California.

## HUNT FOR POTASH TO BE CONTINUED

Inability to secure shipments of material is delaying progress on the development work of the Potash Company of America, south of Big Spring.

Heavy timbers for the shaft are en route but until they arrive it will be impossible to make further progress. Judge W. F. P. Fogg states such delays may interfere with the schedule they had mapped out, wherein they expected to have the shaft sunk to a depth of eight hundred feet by October 1st.

The fuel question is another one that will have to be solved. At present McDowell well No. 1 is supplying fuel oil for operations at McDowell No. 4 but not sufficient for the work on No. 4 and the Potash company and it may be necessary to order fuel oil—instead of cleaning out No. 1 to increase the supply. The bringing in of No. 4 as a big oil well would mean much to the Potash Company as it would insure plenty of fuel oil for the many separating and manufacturing plants they expect to have in operation when they begin to bring potash crystals to the surface in commercial quantity.

A government geologist was here this week to investigate progress of development work and expressed himself as being greatly impressed with the thorough and comprehensive plans the Potash Company have formulated and the businesslike manner in which they are carrying out such plans.—Big Spring Herald.

## BRAKEMAN HURT

As freight No. 53 was pulling out of the Sweetwater Texas & Pacific yards westbound Friday night, a drawhead pulled out of one of the freight cars. The air hose broke and the heavy metal connection flew up, striking Jeff Couch, a brakeman,

from Big Spring, directly in the face. His nose was severely bruised, but it is not believed to have been broken. Dr. L. C. Dudgeon was called to attend the injured man and F. Cummins of the local yard crew was called to make the run west.

Richmond Times-Dispatch: "And now, little children," said the teacher, "I have told you that the earth is just the shape of my head. Now, Willie, what shape is the earth?" "Square, mum," shouted Willie triumphantly.

INTEGRITY SERVICE

The New Studebaker Special-Six Touring Car

Before you buy any car, see the **STUDEBAKER 1924 MODELS**

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

Power to satisfy the most exacting owner

**RAILROAD OFFICIAL WELL PLEASSED WITH CONDITIONS**

E. A. Pistole of Big Spring, division superintendent for the Texas & Pacific Railway, spent a few hours in Colorado Saturday morning in conference with local business men as to general conditions in the Colorado territory. The official was found to be of a most optimistic mind in considering the outlook and expressed the belief that continued progress and prosperity would be experienced.

Mr. Pistole was here recently during the time the Technological College locating board visited the city and was taken with members of the board for an inspection of some of the farms near Colorado. In speaking of this visit, Pistole stated:

"In my opinion you made a wonderful impression on the locating board. The board, as well as myself, were agreeably surprised to see the developments in the vicinity of Colorado. We saw some of the best farms in the State." Pistole also praised the citizenship of Colorado for the development here, in the way of new business buildings, the American Legion Memorial and street paving, and the citizenship of the county for the attractive court house now in process of erection.

Chamber of Commerce officials had planned taking the official for a drive into the oil field, but he could not remain over for that trip. He left in the early afternoon for Big Spring.

**OIL DEVELOPMENT REPORTED BY THE BIG SPRING HERALD**

The Enders-Cushing No. 1, of the Cushing Ranch Drilling Association, was given a shot of one hundred and twenty quarts of nitroglycerine between 4400 and 4470 feet the forepart of this week. The well bridged following the shot and they are now cleaning out. Just what the shot accomplished will not be known until the work of cleaning out has been completed. In case there is not sufficient oil for commercial purposes at this point the well will be plugged back to between 3800 and 4010 where good oil indications were in evidence and give it another shot.

Work is progressing steadily at McDowell No. 4 but progress is slow owing to much metal being encountered. Valentine Day and his assistants, Geo. Germany and Eck Lovelace, are staying on the job faithfully and since they are working without pay you can rest assured they are going to complete the task as rapidly as possible.

It is impossible to guess how much longer it will take to complete the reaming as the presence of iron in the hole has retarded the work to a great extent and it is not known how much more may be encountered.

**SIMMONS COLLEGE STUDENTS HONOR MEMORY PRESIDENT**

ABILENE, Aug. 10.—Students of Simmons College in chapel assembly Saturday held memorial services to Warren G. Harding, late president of the United States. The following telegram of condolence was sent by the student body to Mrs. Harding at the White House. Simmons College faculty and students assembled in memorial service tender you heartfelt sympathy. We shall cherish ever the memory of President Harding's great achievements for peace and justice for our country and the world." Signed Simmons College.

In an address to the students Dean Julius Olsen remarked upon the fact that Harding was a graduate of a small Christian college, and the additional fact that 19 out of our 28 presidents were educated in small Christian institutions. In addition to detailing the life of the ex-president and the services rendered to the country during the trying period following the world war, Dean Olsen gave his personal impressions of Warren G. Harding, the dean having observed the president at close range during services in the Calvary Baptist church in Washington, D. C. last spring. He said that the former president had "as earnest and honest a face as he had ever seen, and that this fact was impressed upon those who saw him."

Dr. O. H. Cooper of the Education department of Simmons paid high and beautiful tribute to Harding as a man and statesman, and stressed the outstanding achievements of the administration. He mentioned as two important lessons to be drawn from Harding's career the contributions of Christian colleges and the opportunities which American life offers to every child of the plain people.

Guests in the home of Rev. and Mrs. Ernest Roper are Mr. and Mrs. J. R. Pickens, Mr. and Mrs. Milton Pickens, Charles and Elmer Pick-

ens, all of Colorado, Texas. This season is truly a happy time for these relatives since it has afforded opportunity for them to get together in this hospitable home for a few days' visit together.—Hamilton Herald-Record.

**Willard Batteries**

Sometimes, when we get started on the Willard Threaded Rubber Battery, we get over-enthusiastic. Can you blame us?

The one thing that excuses us is that Threaded Rubber Battery users are just as enthusiastic as we are.

You'll need a battery some day.

Don't forget Willard Threaded Rubber!

**A Wish**

"I have taken Cardui for run-down, worn-out condition, nervousness and sleeplessness, and I was weak, too," says Mrs. Silvie Estes, of Jennings, Okla. "Cardui did me just lots of good—so much that I gave it to my daughter. She complained of a soreness in her sides and back. She took three bottles of

**CARDUI**

The Woman's Tonic

and her condition was much better.

"We have lived here, near Jennings, for 25 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard for us.

"I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work."

**WILLYS**

**Winning the Nation**

Cleaming Cavalier maroon and glistening nickel, khaki top and Spanish morocco upholstery; 5 disc wheels, 5 Fisk Cord tires, Brussels floor carpets, bumper, windshield wings, dependable clock and electric gasoline gauge on dash, trunk at rear; the engine that improves with use—the new Willys-Knight Country Club has met a tremendous buying response. See it.

**Injured in Auto Wreck**  
A serious auto wreck in which Miss Rose Morgan of this city was seriously injured and the lives of twelve or thirteen others were endangered, took place on the highway east of Coahoma, last Sunday night, due to reckless driving.

A truck conveying thirteen young people from Iatan Lake to Big Spring was struck in the rear by a big Buick roadster, driven by W. D. McDonald, with force sufficient to cause it to overturn, spilling the occupants, but only slightly injuring one or two in addition to injuring Miss Morgan.

Three charges have been filed against W. D. McDonald as a result of this wreck and he made bond for appearance; the hearing to be held next Monday.—Big Spring Herald.

absolutely the best in the field," he said Monday morning, "and I am confident upon the extent of the well is now 300 barrels because it is problematical to do when the well is 'tubed.'"

YOU have been able for many years to get Goodyear Tires at prices below the average commodity price level, as the above chart shows. You can get them today for 30% less than they cost ten years ago. But you have never been able to get so much quality in a Goodyear Tire as you get today in the new Goodyear Cord. This is a good time to buy Goodyears.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cord with the Special All-Weather Tread and back them up with standard Goodyear Service.

FAIR FILL SERVICE STATION

GOOD YEAR

Mr. Joe Kellehor, salesman for the Texhoma Oil and Refining Company, traveling out of Abilene, and B. P. Williams, representing Sonneborn Brothers, Southwestern Distributors of Amalie Oils, were calling on C. R. Earnest, local agent of the Texhoma Oil and Refining Company, this week. Amalie oils have been sold in Colorado for some time past and have gained an enviable reputation among those who have become acquainted with their use. Mr. Kellehor declares that these Pennsylvania oils are enjoying a wider distribution than ever before and that large sales are reported at Abilene, Wichita Falls, Amarillo, San Angelo, Childress and Quanah. The Texhoma Oil and Refining Company have about 75 wholesale stations in North and West Texas and carry the distribution of this oil.

Coming soon, one carload of Peter Schutler Wagons. The best wagon on the market. Will have both wide and narrow tread.—Oliver & Bell.

Help us put play ground equipment on the school grounds. See "Where the Pavement Ends," at the Palace Theatre, August 20 and 21.

Mr. and Mrs. J. S. Metcalf of San Antonio spent the week-end with her sister, Mrs. H. C. Landers, en route to their new home in Los Angeles, California.

FORD 7000 DAILY DETROIT, Mich. Aug. 10.—All previous production records of the Ford Motor Co. were exceeded during the week ending Thursday, July 31st. Domestic output for the week, the Ford News announces, totaled 41,193 Ford cars and trucks, 268 greater than the record established the week before.

Daily production for the six days was almost a constant succession of new records. Friday July 27th, started it with 6,907, Monday came along with 7,009 and Tuesday ended the week with an output for the day of 7,121 cars and trucks.

Increasing demand for the Ford which is bringing unprecedented sale figures, continues and manufacturing is being kept at capacity in an endeavor to meet it. The production schedule for August calls for 133,735 cars and trucks, the largest month's schedule so far.

The Fordson tractor plant's output for the week ending Tuesday was 2,002. The Lincoln division of the company turned out 208 cars.

FARM BUREAU WORK

DALLAS, Aug. 10.—That the "More Money for Cotton" campaign being conducted in the South by the American Cotton Growers Exchange and in Texas by the Texas Farm Bureau Cotton Association, is meeting with tremendous success, is indicated by reports from speakers and field workers throughout the South.

Telegrams from North Carolina state that more than 300 contracts a month since last fall have been secured, a total of 345 being signed up in July.

Tennessee wires that the results are most gratifying and the membership is being increased at the rate of a hundred a week. "The farmers of Tennessee seem to realize that only through co-operative merchandising of cotton can a fair profit come to them," the wire states.

South Carolina reports the association has already increased its membership one third over last season and expect a 50 per cent increase within the next few weeks.

Alabama wires that membership in association this year will double that of last, owing to cooperation of last years members who are highly enthusiastic over results obtained.
