

HIGHWAY COMMISSION HAS MAINTAINED THE BANKHEAD

SPEAKERS AT MASS MEETING DECLARE ROADBED BETTER THAN EVER BEFORE

"Those who are circulating the report that the State Highway Commission has not kept the faith with Mitchell county in its promise to maintain the Bankhead Highway are either misinformed or else not capable of judging as between a good roadbed and a bad one," Col. C. M. Adams, speaking before a mass meeting of Mitchell county citizens at the Barcroft Hotel Friday, declared in answering the charge that some citizens were claiming the highway was not in as good condition today as when taken over by the department.

"Istan Flat is in better condition today than I have ever known it and the highway east from Colorado to the Nolan county line is in better condition today than at any time since it was first constructed," Col. Adams continued. "Fact of the business is, this highway is in better state of upkeep, two to one, than it was the day the highway department took over maintenance of the designated highways in this State."

Dr. P. C. Coleman, president of the Colorado Chamber of Commerce, members of Commissioners' Court and other speakers reiterated the declarations made by Col. Adams. Commissioner Jno. D. Lane stated that he did not know just how much work the department was expending on the highway at present, but that he did know that during the time W. D. McAdams of Loraine was maintenance superintendent in this county, "he was on the job all the time with teams and men." Lane declared that the highway superintendent kept the roadbed up in good condition under the most trying conditions some of the time. "McAdams would fill up chug holes during the dry weather and the next day the traffic and high winds would have his work all undone. He came right back, however, and replaced this work, doing everything possible to keep the road in good shape."

The speakers were addressing some sixty citizens of the county who had met to discuss the highway improvement question. County Judge Chas. C. Thompson was elected chairman of the meeting. Purpose of the meeting was stated by Tom Goss, highway maintenance superintendent for Mitchell and Coke counties.

"I have the positive assurance from the State Highway Commission of Texas that if the people of this county will participate with the State in building a gravel road over the two designated highways in Mitchell county, the State will then hard-surface the two highways without any cost to us," Goss stated. The highway representative stated that he had gone over the two highways and made a careful survey of the amount of work to be done, and estimated that it would require \$500,000 to place the roads in the condition to be demanded by the State department. One-half of this amount, Goss stated, had been pledged by the State, leaving \$250,000 to be raised by the people of the

GOLD MEDAL BAND GIVES CONCERT AT TABERNACLE

The Colorado Booster Band, more recently termed the Gold Medal Band of the West Texas Chamber of Commerce, appeared in an interesting concert at the tabernacle Thursday evening of last week. Several hundred people were present to enjoy the program which consisted of classical and popular selections.

Director M. S. Goldman is in Dallas today to attend a session of officials of the Texas Band Teachers Association, convened today and Saturday. Goldman announced that the schedule for playing the contest for State championship between the Colorado and Sherman bands, which is to take place at the Dallas Fair in October, would be arranged at this meeting.

\$40,000 SAND-GRAVEL PLANT BE ERECTED HERE

The Texas Sand and Gravel Company, with general offices at Waco, will construct one of the largest sand and gravel plants in Texas on the Colorado river near this city, T. J. Palm of Waco, general manager for the company, announced here last week. The plant will be erected in the bend of the river approximately one-half mile north of the Bankhead Highway. Construction of the railway switch, connecting the plant with the Texas & Pacific, was started Friday. The plant is to be completed and in operation in ninety days.

Sixty-foot towers, supporting high hoisting cranes, are to be constructed on either side of the river at the site. These will lift the sand and gravel from the river bed direct into cars on siding. The towers will be constructed on railroad trucks in that they be moved from place to place along the river banks.

Sand and gravel taken from the Colorado river here is declared to be among the best of these materials found in the Southwest. The supply, according to findings of the company, is believed unlimited. These materials will be shipped out of Colorado from one car to full train load consignments to various parts of the country. The plant is considered one of the big assets recently coming to Colorado.

400 INSPECT NEW CHRYSLER AUTOMOBILES HERE FRIDAY

The initial showing of Walter P. Chrysler's latest achievement, the "Chrysler Four," in Colorado Friday afternoon and evening was a decided success. A. B. Blanks of the Blanks-Collier Motor Company, local distributor, stated, Mr. Blanks stated that 400 local citizens called at the company show rooms on East Second street to inspect the new machines, scores of whom expressed keen satisfaction at the real motor car value represented.

Three four-cylinder cars and one 6-cylinder car were on the floor. The four-cylinder cars was a sedan, touring car and coach, each of which had never been shown here before. The 6-cylinder coach, however, had been known in Colorado since Walter Chrysler introduced these machines several months ago.

During the formal opening, from 2 to 10 p. m. a bevy of small girls served cake and punch to all visitors. Music rendered on the Victrola furnished the entertainment feature of the occasion.

HEALTHY CONDITION IS SHOWN IN REPORT COLORADO BANKS

The two National banks at Colorado are shown to be in a most healthy condition through reports made public Monday in response to the call issued for statement of condition at close of business June 30. Combined deposits are shown to be slightly in excess of \$1,500,000. Loans are placed at \$1,255,000.00.

Deposits at the two banks are almost equally divided, the report shows. The City National Bank is shown to have deposits totaling \$776,382.61, and the Colorado National Bank \$762,421.00, making the total \$1,538,803.61. The Colorado National reports loans and discounts at \$662,403.56, and the City National Bank at \$592,823.25, totaling \$1,255,226.81 for the two.

EVANGELIST TO CONDUCT REVIVAL HERE ONE OF BEST

Rev. Foy E. Wallace, Jr., who will conduct the revival meeting at Union Tabernacle in August, is one of the outstanding evangelists of the Church of Christ in the Southwest. He entered the evangelistic field when a mere boy in his teens and while yet a young man of less than middle age, has become loved by thousands of people in Texas and over the Southwestern States. So eagerly are his services sought for revival meetings that he is engaged from 18 months to two years in advance all the time.

The meeting will open August 14 and run through August 24th.

\$175,000 OIL DEAL MADE IN MITCHELL CO. FIELD

MAGNOLIA PETROLEUM BUYS INTERESTS OF MORRISON AND THOMSON.

One of the largest transfers recorded in Mitchell county oil circles this year was closed this week when Morrison & Thomson, owners of the C. M. Adams lease, in section 11, block 28, consisting of 160 acres and other valuable properties in the field, were sold to the Magnolia Petroleum Company. The consideration was about \$175,000.

Adams No. 1, producer completed a few weeks ago and which is maintaining a production of 135 barrels on the pump, passed to the Magnolia company in the deal. Womack One, recently spudded, was also acquired in the turn-over, and is to be completed by the new owners.

Foster One of the Magnolia Petroleum Company, drilling test in Section 17, block 29, Tn. 1, N., is considered by Colorado oil men as one of the most likely wildcats in this section. The test is south of Istan or well defined structure in line with the Foster well of the Colorado-Texas Company, drilled at Istan four years ago and from which a high gravity test petroleum was taken. The crew is setting 8 inch casing at 1,450 feet. At Badgett One of the Magnolia company, in the northern extension, Westbrook field, the crew is setting 6 5-8 inch casing at 2,600 feet.

Drilling progresses at Scott One of Sloan, Owens & Stalker, in section 6 of the Lavaca Navigation survey at Hyman. This test is down 2,900 feet. Interesting developments are expected at this test within the next week or ten days as the pay sand is expected at around 3,000 feet.

The crew at Will T. Scott One of Barnum & Henshaw, section 32, S. P. survey, are expected to spud within the week. Digging of slush pit at location for Hyman One of Sloan & Owens in section 88, Waco & Northwestern survey, will be started this week. Both these locations are in the Hyman section.

Anna Keith One of Fred Carey, in section 10, block 28, was spudded Wednesday. The test is in defined territory in the northern extension at Westbrook. Carey resumed drilling Wednesday at Ellwood No. 1 after a shut down of a few days.

Butler One of the California Co. is drilling at 2,205 feet. Their Abrams One is drilling at 1,805 feet, Womack One at 1,246 feet, Missouri State Life One at 980 feet, and H. C. Miller One at 1,300 feet. Wood No. 1 in the shallow belt near Ira is drilling at 385 feet.

BROTHER COLORADO CITIZEN SLATED TO HEAD BIG BANK

Hon. W. C. Blanks, prominent attorney of San Angelo and formerly on the supreme court bench at Austin, is slated to succeed Col. C. C. Walsh as president of the Central National Bank at San Angelo, according to information received in Colorado Wednesday. Judge Blanks is a brother of A. B. Blanks of the Blanks-Collier Motor Co. of this city. Col. Walsh resigned as president of the bank Tuesday to accept the appointment as chairman of the board of the Federal Reserve bank at Dallas. Walsh was president of the West Texas Chamber of Commerce last year.

BIRTHS OUT NUMBER DEATHS MORE THAN THREE TO ONE

Vital statistics show that the grim reaper is losing at the ratio of three and one-half to one in his race with birth registrations in this county. For the six-month period ending July 1, a total of fifty deaths were recorded in the county, as compared with 173 births.

County Federation.

The Mitchell County Federation of woman's clubs will meet Tuesday, July 14th, at three o'clock with the Pioneer club at the club house. A good attendance is desired.

END OF TELEPHONE FIGHT SEEN BY C. OF C. OFFICIALS

OFFICIALS OF S. W. BELL AGREE TO INSTALL NEW COMMON BATTERY SYSTEM

End of the fight fostered by Colorado Chamber of Commerce during the past three years to bring about adequate telephone service to the local public was seen by officials of the chamber Thursday, following conferences with officials of the telephone company who spent the day here. In the party of officials was P. K. Baker, Dallas, assistant general manager; M. P. Caldwell, Fort Worth, divisional commercial superintendent, and N. H. Moore, Abilene, district manager.

"The secretary of the Chamber of Commerce has been camping on our trail so closely in this matter that we have determined we must either put in the common battery exchange as demanded by Colorado or else get out of your city," Baker stated in discussing the telephone question with Mayor Looney Thursday morning. "We do not believe the company would be justifiable in putting in the plant here now, but the citizens are so persistent that we have decided to do so on condition that the city authorize a small increase in telephone rate charges."

The increase asked by the company is from \$3 and \$3.25 per month for business phones to \$4.25, and from \$2.00 and \$2.25 to \$2.50 for residence phones. According to a statement furnished by Mr. Baker this rate would be less than the rates now in effect in other West Texas towns in which the common battery system is in use.

"In the event the city sees fit to pass a resolution permitting the company to charge the increased rate, we will go to work at once on the new plant," Baker stated. The new rate is not to become effective until the proposed new plant is completed and in use. Baker stated that the proposed plant improvements at Colorado would cost \$40,000.00.

Mayor Looney stated Thursday just before noon that the city council would pass on the resolution either at a called session to be convened that afternoon or in regular session Monday. A number of business and professional citizens have given their endorsement to the proposed raise.

The Chamber of Commerce and Lions Club have jointly made representations to officials of the telephone company during the past three years that service at Colorado and over party lines serving a number of adjacent rural communities was not satisfactory and supported the demand that better facilities be provided the local public. At intervals during this time it was apparent that the telephone problem was on the verge of solution, only to develop that the city had accomplished nothing.

Some two years ago officials of the company announced that the new exchange as demanded would be built here and engineers were sent to Colorado from Fort Worth and Abilene to make surveys and draft plans for the proposed system. At that time an official of the company informed the Chamber of Commerce the proposed improved exchange would be built without delay and stated that the company would expend not less than \$22,000.00 in Colorado.

When the local telephone exchange was burned last year the hope that Colorado would then receive adequate telephone facilities when the plant was replaced became prevalent among a large number of citizens. They were again disappointed, however, when the company replaced the exchange with a duplicate of the old system in use here since the early days of Colorado.

BRICK AND STONE WORK ON 2 BUILDINGS NEAR COMPLETION

Walls for the C. L. Root and H. J. Hutchinson buildings, Colorado's newest two-story business structures, are near completion. It will be several weeks, yet, however, before either of the buildings are ready for occupancy

HOME, CHURCH, NATION MUST OBEY IF SUCCEED

Every organization from the family fireside to the largest republic must exist under an equitable government and the members of these varied organizations or societies be governed by that law, if church and the nation are to stand. This briefly summarizes the sermon delivered by Rev. J. E. Chase, pastor of the First Christian church, at the special union religious services at Union Tabernacle Sunday evening.

Every wayward boy and girl may attribute his or her fall to the fact that back in life somewhere they were disobedient to some law. Every criminal in this country is so because that somewhere in life he saw fit to disregard a law and commit an act of disobedience.

In reciting the fact that America had just celebrated the 149th anniversary of independence, Rev. Mr. Chase declared this republic to be the best nation, peopled and governed by the best citizenship, ever existing since time began. He pleaded for the people of Colorado to unite in the determination to cultivate a reverent obedience of every just law founded in the home, the church and the State.

Rev. W. M. Elliott, pastor of the First Presbyterian church, presided as chairman of the services. Rev. J. F. Lawlis, Methodist pastor, offered the evening prayer and Rev. M. C. Bishop, Baptist pastor, read the Scripture lesson. Chester Thomas led the choir, composed of singers from the several church choirs of the city.

AUTOMOBILES IN COLLISION ON HIGHWAY EAST OF TOWN

Automobiles driven by Roy Dozier of Colorado and Dock Baker of near town collided on the Bankhead Highway five miles east of Colorado Saturday afternoon, damaging both machines and resulting in minor injury and a general shake-up to the occupants of both cars. Dozier, driving a Buick, was proceeding east and Baker, driving a Chevrolet, was coming west.

Cuts from broken windshields and slight cuts and bruises were sustained by occupants of both cars. Mrs. Baird, 79, of Dallas, a passenger in the Dozier machine, was hurled through the windshield by the impact.

Those who witnessed the accident state that it was unavoidable. It was raining hard and drivers were having difficulty in seeing the road ahead.

MACHINERY BEING INSTALLED AT FARMERS GIN CO. PLANT

The first car of machinery for the Farmers Gin Company new gin plant, on West Second street, was received last week and is being installed. The gin and office buildings are practically complete and with installation of the equipment the plant will be ready for operation.

LORAIN TO VOTE ON WATER WORKS BONDS AUGUST 11

Loraine will vote on a \$30,000 bond issue August 11, to improve and extend the municipal water-works plant there. Editor Earl T. Williams of the Loraine Leader, stated while in Colorado Tuesday afternoon. Loraine adopted the general paying law a few weeks ago by an overwhelming vote.

NOTICE TO SCHOOL PATRONS.

Notice is hereby given that all patrons desiring to transfer their children from one district to another for the 1925-26 term of school must do so before the last of July as the period during which transfers may be made will end July 31st. Transfers will be made by the County Board at its August meeting, but all applications for transfers must be filed with the County Superintendent before July 31st.

G. D. FOSTER, County Supt., Mitchell County, 7-25c

ANNUAL BANQUET OF C. OF C. THURSDAY, JULY 16TH

ELECTION DIRECTORATE FOR ENSUING YEAR; PROGRAM OF ENTERTAINMENT

The annual banquet and business meeting of the Colorado Chamber of Commerce will be given at the Barcroft Hotel Thursday evening, July 16. The meeting will be held in the basement banquet hall and since only 200 plates are available reservations should be filed with the secretary without delay. The meeting will be called to order at eight o'clock.

Election of a directorate for the ensuing year, together with annual reports of the president and secretary, covering activities of the chamber for the past year, will constitute the principal business to come up. A splendid entertainment program, consisting of music arranged by M. S. Goldman, and addresses by local citizens and visiting speakers, has been arranged.

It is the hope of officials of the organization that this will be the largest attended and most enthusiastic meeting ever held by the Colorado Chamber of Commerce. Every member of the organization is expected to be present without failure. Leave reservations at the Chamber of Commerce as early as possible.

The fiscal year of the organization, which closed May 1, was the most successful year in history of the Chamber of Commerce. The budget subscribed by contributing members was larger and the varied civic and commercial programs fostered of the widest scope ever recalled at Colorado. The annual banquet was postponed to avoid conflict with the Rayburn revival and the Colorado chautauqua.

The chamber is developing more and more into a recognized county-wide organization, devoting its facilities and finance in co-operation with the citizenship of the rural sections in solving such problems as may be of mutual interest to the county. Especially has the organization lent its effort in co-operation with the county agent in combatting grasshoppers and other farm pests and the home demonstration agent in her work among the rural women and girls.

The Chamber of Commerce claims as one of its best accomplishments the success attained by the Colorado Booster Band, now known as the Gold Medal Band of West Texas, official band of the West Texas Chamber of Commerce. The organization has put its moral support and money unreservedly behind Director Goldman and his splendid band and it is believed without a doubt this policy will be continued in the future. The winnings of the Colorado band at Mineral Wells is calculated to be one of the big achievements brought to this city during the year.

The invitation to attend the banquet is extended all interested citizens of the county, it matters not whether they be active members of the chamber or not. The organization is adhering to that policy of devoting its efforts to the impartial interests of every individual and corporation, whether they be members or not, and presence of any citizen who has the welfare of Colorado and Mitchell county at heart will be welcomed at the meeting. It should be remembered, however, that reservations must be made in that a sufficient number of plates be provided at the banquet. There will be no charge for this service. You are to be the guest of your Chamber of Commerce.

Attend the annual banquet and take a part in the business to come before the meeting. Express your honest convictions on policies followed by the organization and its officers and directors. Let's continue make of the Colorado Chamber of Commerce one of the best organizations of its kind in West Texas.

Dr. and Mrs. Andrew Baird of Denton, who are touring West Texas the Panhandle, New Mexico and Arizona, spent Tuesday with their cousins, Dr. and Mrs. T. J. Ratliff,

PREPARE TO ATTEND THE WALLACE-TAYLOR MEETING FOY E. WALLACE, Jr. AUSTIN TAYLOR CHURCH OF CHRIST To Be Held at Union Tabernacle AUGUST 14 to 24

STATE HIGHWAY COMMISSION HAS MAINTAINED BANKHEAD

Continued from page one.

"Mitchell is the best county in the best union on earth," Goss declared in making his appeal before the meeting for the citizenship of this county to support the proposed bond issue of \$250,000 and settle their highway problems for all time to come. "This is the best proposition ever tendered the people of this county and there is no reason why that we should turn it down," he stated.

Others to speak to the subject were U. D. Wulfjen, cattleman; Jno. D. Lane, members of Commissioners' Court; J. M. Thomas, Colorado banker; Earl Williams, editor of the Loraine Leader; A. F. King, Westbrook business man; Judge Thompson; A. A. Dorn, member of Commissioners' Court; A. Petty of Westbrook; O. F. Jones, cattleman; Jas. Bodine, farmer; J. T. Ledbetter, Loraine business man; C. M. Adams, Colorado business man; A. B. Hines, Westbrook; James Charlton and Mr. Orinsky, of the California Company; T. W. Stoneroad, Colorado banker; and L. W. Sandusky, Colorado attorney.

When the question was raised as to whether the State Highway Commission would actually pave the two highways, on condition that the local citizens furnish one-half the expense of building the gravel roadbed, some of the speakers became considerably enthused in reciting the traditions of the great State of Texas and the principles for which she stood.

"There have come changes in the administration, even since the Highway Department took over maintenance of our highways," one speaker declared, but there has come no change in the policy of this great State to repudiate one single obligation to its constituents. It is absurd to raise this question when we have before us a definite statement from one of the great departments of our State government."

When Judge Thompson asked for an expression as to whether the county should inaugurate a campaign to vote the proposed bonds, every man present was on his feet immediately. Committees representing the different communities of the county are to be named to circulate petitions requesting Commissioners' Court to order the election. It was determined that each town and community should circulate its own petitions, but the suggestion, made by one of the Loraine representatives, that the campaign be made a county affair, to be participated in alike by all the people who were in favor of improving the highways, was adopted.

Invitations had been sent a number of citizens of the rural communities throughout the county, but owing to the fact they were busy in their crops representation of the fact they were busy in their crops rural districts was not as large as had been hoped for.

What is Ni-Late? Ask any one at Colorado Drug Co.

CUPID FAILED DURING MONTH OF JUNE, CLERK JONES SAYS

Dan Cupid made a poor record during the month of June, in so far as being instrumental in consummating his expected quota of marriages, according to the claims of County Clerk J. Lee Jones. In fact, the number of marriage license issued during the month of June this year was below the average for the six-month period ending July 1. During this period a total of 102, or an average of 17 per month, were issued at the clerk's office.

"Cupid evidently has his wires crossed, in so far as Mitchell county is concerned," Jones stated Tuesday afternoon. "In January, we issued a total of 30 marriage certificates, as compared with only 14 in June. In the event this record is maintained, it would be proper for us to refer to 'January blushing brides,' rather than attempt to catalogue June as the favorite month in which the largest number of nuptial contracts are closed."

In speaking of marriage license, Jones stated that recently a couple from a neighboring county came to his office to procure the proper credentials to become man and wife. The groom, a man small of both stature and weight, was escorting his bride, a blushing damsel of some twenty odd years and who would tip the scales at around 180 pounds.

"Say Mister," the groom stated in an excited though hushed voice, "Be sure and do not let the papers get the dope on this license. You see, we are having to run away to get married."

NATIONAL FORD WEEK.

The coming week has been designated as National Ford Truck week and A. J. Herrington, local authorized dealer, has arranged for complete showing of Ford built truck bodies.

Entrance of the Ford Motor Company into the manufacture of commercial bodies indicates a new and important advancement in this division of motor transportation since it shows that Ford is bringing into delivery and hauling services the same low cost and high value that has made the Ford passenger car the most popular in the world. The Ford truck chassis has long held the lead among light commercial vehicles and at present approximately 75 per cent of the one-ton trucks in use are Fords.

Arrangements have been made by Mr. Herrington to keep show rooms open every evening during the week so that all may have an opportunity of inspecting the trucks.

More important, however, Mr. Herrington will be prepared to give demonstrations of any of these units and those interested are invited to enter their requests for the demonstration as early as possible.

Miss McGee Leaves on Vacation.

Miss McGee, MiLady's Shoppe, Loraine, left Saturday morning for the Gulf coast, where she will spend a month. She will attend "Market Season" before returning in August. Miss McGee promises not to disappoint the ladies with her selection of attractive millinery and ready-to-wear for this fall and winter.

Announcement, Mi Lady's Shoppe, Loraine.

I have reduced the prices on my entire stock of Ready-to-wear, summer millinery, half price for the entire month of July. You will find seasonable merchandise at almost unreasonable prices. While on my vacation my mother will have the Shoppe in charge.

MISS MCGEE.

Now is the time to advertise.

LORAIN MAN WRITES ON MATTER CHURCH DOCTRINE

Colorado Record, Colorado, Texas.

As a subscriber to your valued paper I submit the following for publication in your issue this week:

WHY I AM A BAPTIST

Be it known that all denominations sending preachers to the heathen countries call them missionaries. Good. There was a man sent from God whose name was John. (John 1:6) His mission to prepare a people for the coming of the Lord, and he was a Baptist preacher (Matt. 3:1) Again John 3:16. God sent his only begotten son into the world. His mission was to seek and save that which was lost, therefore a missionary. He submits to John's baptism which makes Him a Baptist. From that time He began to preach. (Matt. 4:17) So we have two Baptist preachers from God and plenty Baptist material prepared by John's preaching, all right. In the days of these Kings the God of Heaven shall set up a kingdom that shall stand forever. (Daniel 2:44) and he goeth up into a mountain and calleth unto him whom he would and they came unto him. (Mark 3:13) And he ordained twelve the Apostles. Paul says in 1st Cor. 12:28 And God has set some in the church first the Apostles so you see Jesus took their Baptist material that John prepared and set up a Baptist church. God is a Baptist, Jesus a Baptist and also the Apostles. Now Revelations 21:14 says, and the wall of the city had twelve foundations, and in them the names of the twelve Apostles of the lamb, so we have a Baptist foundation under Heaven, one that will never fall. The best is the cheapest. Now if all the 640 denominations were called on for clear titles to their claims all the lawyers in the State could not produce a legal abstract, the Bishops won't let the Methodist preacher stay in one place long enough to hold a squatter claim

all the right and title was vested in the Baptist and registered in Heaven. (Heb. 12:20.)

R. L. MAY, Loraine.

HERMLEIGH HAD BIG PICNIC

The two-days picnic held at Hermleigh last Thursday and Friday was a decided success. Hermleigh always gets what it goes after, because her live, progressive business men do not spare anything when they attempt to put a thing over. The picnic had a number of attractions, among which was a fine play by home talent, rides in an airplane, rodeo, ball games, etc. Hermleigh is a live little city and is located in one of the best agricultural communities in the county. Its farmers are for the greater part Germans or of German descent, and are honest, frugal and prosperous. Just such a class of farmers never fail to make a good live town of the place where they do their trading.—Scurry County Times.

Miss Roten, home demonstration agent for Scurry county, was here Tuesday afternoon from Snyder. Miss Roten recently came from Bryan to West Texas and is delighted with the charge.

Infant Dies.

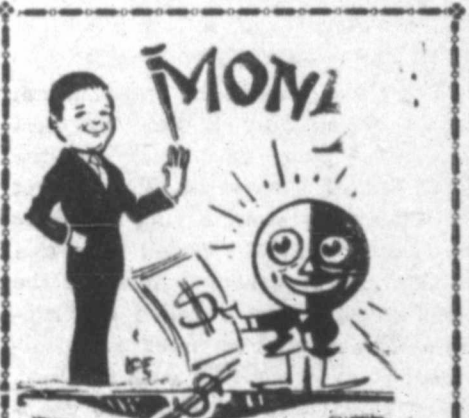

The infant girl of J. M. Hood of the Spade community died in Colorado Monday night and the body was buried at the Spade cemetery Tuesday morning, Rev. M. C. Bishop, pastor of the First Baptist church at Colorado, conducting the funeral services.

PRICE AUTO CO.

THE OLD WEST IN ACTION

(Photo of cowboy copyright by Doubleday.)

All highways and byways this year lead enticingly to the Chicago Roundup and World's Championship Rodeo, which is to be held for nine days, beginning August 15. By cut rate train, boat or automobile, with parties of friends made up to share the trip, thousands of tourists are expected to be transplanted into the atmosphere of the real West.

Chicago's new \$5,000,000 stadium on Lake Michigan is to become the capitol of American sport through the efforts of the domestic and foreign commerce committee of the Association of Commerce.

The story of the roundup and the rodeo is the story of romance of the real West. Into the nine days of the Chicago event will be packed more daring feats and dynamic action than is the privilege of many to witness in a lifetime. Tex Austin, producer of the most successful cowboy contests, will organize and manage the Chicago spectacle. Cowboys, cowgirls and bulldoggers, champions all, and bronchos and longhorn steers which have scorned mastery, will fight out the battle royal for supremacy.

From the "brush" of the Southwest to the ranges of Canada, the challenge has passed among the buckaroos who have fought out old rivalries at the famous cowboy events in Cheyenne and Pendleton. Not only seeking the glory of victory, they also will compete for more than \$30,000 in cash prizes put up by the Chicago association. This is the largest amount given anywhere this year for cowboy contests. "Outlaw" horses, called the worst on the ranges, already are under contract with Tex Austin. They can't be ridden, is the promise of their owners. Carloads of steers, conditioned through the summer into their greatest strength, will defy the wits of the "bulldoggers."

The stadium itself is the world's wonder work of architecture. Its massive colonnades look down upon a huge arena and tiers of seats for 75,000 persons. It is set in the ring of boulevards and parks and on the lake front, which have won for Chicago the title of the "vacation city."

The roundup and rodeo will solve your vacation problems, so tell Mother and Sister and the Kid Brother to quit fretting over the summer's plans and get ready for the thrills of their lives.

Trainer of Boxers Gives Diet Hints

To Kid Howard of Chicago and his new system of training and conditioning, Sammy Mandell, the present lightweight boxing champion of the world, gives a great deal of the credit for his meteoric rise to stardom in the world of pugilism. When Mandell first started fighting, he was small, weak and undeveloped, but after turning himself over to Howard it was only a short time before he took the decision from Sid Terris of New York that resulted in him being recognized as the boss of the lightweights.

Sammy Mandell.

Howard's system is unique in that it works no hardship on the athlete who is in training. Unlike the systems that have been used for years, this prominent conditioning more of a pleasure than a distasteful necessity. Instead of demanding that his men eat only certain things he advises them to eat what they want and when they want it as long as it is cooked in a proper manner. Mr. Howard, in a recent interview on the subject of diet and condition, said, in part: "Years ago it was a task, and an unpleasant one, for a boxer or a wrestler to train for a bout because he was forced to literally starve himself unless he wanted to eat steaks and chops at all times. I remember that when I was training for a match, I was so truly tired of steaks that I choked every time that I ate one but it was steak or nothing. I advise my men to diet at all times but it is perfectly possible for them to diet and, at the same time, to enjoy their food. My only 'don't' is the one regarding the eating of such combinations as fresh milk and cheese, and fruit with cream. In fact, I advocate the use of evaporated milk entirely. Vegetables eaten the better he will be for it. Pastry, of certain kinds, such as homemade pies, cakes and cookies, if made correctly, and with pure butter, evaporated milk and pure lard, are very beneficial. Steaks and bologna are ideal. Taken as a whole, any food, with a few exceptions, is all right if properly cooked and eaten without gorging."

And one has but to look at Howard, who is the most religious user of his diet system, to realize that it is a success.

IN SOCIETY AND AT THE CLUBS

Honorary Guests.

Misses Clippie Bennett and Hazel Costin entertained with 42 at Miss Costin's Thursday afternoon honoring Misses Ruth Lane of Eldorado, Kansas, Marie Ferguson of Dallas, Bernice Costin of Lamesa and Evelyn Reed of Lubbock. The house was decorated in cut flowers and ferns. The spirit of the day was carried out in the favors, little flags, and miniature fire crackers which decorated the score cards and refreshments. Red, white and blue ice cream and cake were served to the following besides the honorees: Misses Gladys and Lillian Dorn, Daisy Myhre, Eleanor Thomas, Mattie Pritchett, Barbara Way, Annie Mary Mann, Polly Wilkes of Nocona, Ruth Boynton of Mineral Wells, Mrs. Lloyd Quinney and Mrs. Dewey Tidwell.

Picnic at Seven Wells.

Mrs. J. G. Merritt chaperoned a crowd of young people who composed the camping party at Del Rio last Tuesday evening. The usual good time was had and the usual bounteous feast was enjoyed. Other entertainments for this crowd with other out-of-town visitors were: A slumber party for the young ladies at Mrs. H. P. Ragan's honoring her niece, Miss Polly Wilkes of Wichita Falls, a goat barbecue at John Prude's lawn the evening of the Fourth, also a slumber party at Miss Hazel Costin's Thursday night. A dinner was served by Mrs. R. Bennett Sunday.

The party having these good times consisted of Misses Clippie Bennett, Hazel Costin, Ruth Lane of Eldorado, Kansas, Polly Wilkes of Wichita Falls, Evelyn Reed of Lubbock, Marie Ferguson of Dallas, Bernice Costin of Lamesa; Messrs. Grady Newman, Jack Helton, Ford Merritt, John Prude, McCall Merritt and Roddy Brooks Merritt.

Finished Book.

The class of Methodist missionary society studying Adventures in Brotherhood met with the teacher, Mrs. R. N. Gary Monday for the concluding chapter. The Kingdom Without Walls The Bible study was from Acts. There will be no more study till the new mission book comes out in the fall.

Missionary Meeting.

The regular monthly missionary meeting of the Baptist women was held at the church Monday. Mrs. Smoot and Mrs. Keathley conducted the program on Our Schools in Foreign Lands. The Bible study was Pharaoh's Daughter. Mrs. A. L. Whipple and Mrs. T. J. Ratliff were hostesses and assisted by Mrs. Lister Ratliff, Mrs. Garland Adcock and Mrs. E. M. Majors, served sandwiches and iced tea. At the social hour little Maurine Morris and Mabel Ratliff Majors entertained with readings.

PIE SUPPER

There will be a pie supper at Rogers school house Saturday night, July 11th. Everybody is invited to come and bring some one with you, and bring a pie. Also we will use the money to get lights for the meeting that will begin at Rogers the first week in August.

The Mission presents "Gerald Cranston's Lady," a Fox special, July 15th and 16th.

The story of a purchased woman. Can the ship of matrimony sail safely without love at the helm? Can a man love a woman he bought? Are "purchased women" a bargain at any price? All these questions will be answered in "Gerald Cranston's Lady" James Kirkwood plays the part of Gerald Cranston. He could fight men—but love proved his master. James Kirkwood is one of the strongest and most popular actors on the screen today, he is perfect in this picture of life and love. Don't forget the date.

Sunday School Picnic.

Through the kindness of Mr. and Mrs. Hunter Looney the junior department enjoyed a pleasant outing and picnic at Pecan Grove Tuesday evening. Six cars and a truck load of teachers and children with a supply of ice, soda pop and lunch left town about five o'clock and returned at a late hour with a full and happy feeling. The pastor and wife, Rev. and Mrs. Bishop and Superintendent J. H. Greene constituted the supreme court, and the decision rendered was that it was a success. The teachers Misses Thelma Mann, Barbara Way, Junita and Tella Cook and Violet Mooser proved as good in instructing in play as lessons. Mrs. J. A. Pickens and Mrs. W. R. Morgan made good chaperones.

Thursday and Friday
July 16th and 17th
Big Paramount
Special

"Changing Husbands"

A CECIL B. DeMILLE PRODUCTION
All Star cast including Leatrice Joy, Victor Varconi, Raymond Griffith, Julia Fay, Zasu Pitts.

If you think marriage is no laughing matter "CHANGING HUSBANDS." The real inside story why wives leave home. She wanted to swap her chair husband for a fox-trotting shiek. For a healthy tonic, don't try changing climates, try Changing Husbands. See this picture if you have to do without a tonic for all.

PALACE THEATRE

SHOW OPENS AT 7:30 P. M.—COME EARLY
No Raise in Prices.

Package Tea.

The Sunday school class of Mrs. C. E. Pritchett, composed of girls of the teen age, gave a package tea at the home of Mrs. L. H. Gaskins Tuesday afternoon. The house was decorated with the class colors, old rose and gray. A program of music and readings was given during the hours. Sandwiches, pickles, potato chips and ice tea were served. This class is fitting up the pastor's study as their class room and quite a nice little sum was realized from this for the work.

Harmony Club.

Mrs. H. C. Landers was hostess to the Harmony club Tuesday. Her guests were Mesdames Coleman, Merritt, S. T. Shropshire, B. F. Dulaney, Pearl Shannon, Jim Johnson, J. H. Greene, Bill Simpson, Ledger Smith, M. Carter, Edgar Majors, R. O. Pearson, Lois Bennett, Jeannett Porter, Sam Goldman, E. H. Winn, J. C. Etheridge, Wallace of Tucson, Ariz., Royall Smith of El Paso, C. T. Harness of Ft. Worth, Misses Elnora Dulaney, Daisy Myhre and Martha Earnest. The hostess served apricot pie, a la mode. The meeting next week will be with Mrs. Bradford Landers at her mother's, Mrs. J. E. Chase.

BOX SUPPER AT BUFORD TO HELP DEMONSTRATION CLUB

A box supper will be given at Buford school house on the night of Friday, July 17, by the Buford Home demonstration club. Funds derived from sale of the boxes are to be applied on the fund for sending a member of the club to College Station for the Short Course, July 27-August 1. The entertainment is being arranged by Miss Irma Sealy, home demonstration agent, and ladies of the Buford community.

Miss Sealy stated Monday that several girls and women of the county who are members of demonstration clubs planned attending the Short Courses at College Station this summer. She announces that reductions in board and room rent will be available. Room will cost \$1.25 for the week and board \$5.00. Tickets may be purchased at the special excursion rate of one and one-fifth fare for round trip.

Those interested in attending the course should get in communication with either Miss Sealy or the county farm agent at once. Both of the agents will be in College Station during the session.

Lester Hazzard of El Paso is here this week meeting old friends. As Lester was raised in Colorado, son of the late P. H. Hazzard, who for a number of years was Colorado's efficient post master. Lester had been absent 14 years and said he hardly knew the town and when he got off the train here and looked around he thought he had made a mistake and gotten off at Abilene.

"Quality Bread" at all grocers.

WEDNESDAY, JULY 15

Staring Evelyn Brent. We made a mistake last week on this picture, got our dates mixed, so don't think you have seen this one, its brand new and showing for the first time here Wednesday, one day only. Its Miss Brents newest and best picture—don't miss it. Also Pathe News and Puzzles.

"Changing Husbands"

JULY 16 AND 17
THURSDAY AND FRIDAY

A Cecil B. DeMille Production. Paramount Special, starring Leatrice Joy, Victor Varconi, Raymond Griffith, Julia Fay, Zasu Pitts. Now here is a picture every one will enjoy, look at the cast and producer and on top of it all its a Paramount, you cant go wrong on this one. Its a big treat at regular prices. Be sure to see it. Comedy—"HOT HEELS"

Show starts at 7:30 p. m. every night, no matinee here this week. Regular prices all week.

DR. STUART BROWNING WILL OPEN DENTAL OFFICE HERE

Dr. Stewart W. Browning of Sweetwater will open a dental office in Colorado August 15 in the new C. L. Root building on Walnut street. Dr. Browning returned to Sweetwater Monday afternoon after spending a few days here on business in connection with the office to be opened here. He has leased a suite of rooms in the northeast corner of the building, second floor.

Dr. Browning received his medical education at the Atlanta Southern Dental College, Atlanta, Ga., and at Baylor Hospital, Dallas. He comes to Colorado highly endorsed by the professional and business interests of Sweetwater. He is a nephew of Rev. C. L. Browning, former pastor of the First Methodist church here.

"This is my first visit to Colorado in some time," Dr. Browning stated here Monday, "and I am agreeably surprised to note such development throughout the city. I have been hearing of Colorado wherever I went, but did not consider that you had the splendid little city here that I have found. I can see a brilliant future for Colorado and feel confident that I shall never regret having determined to make my home among you progressive people."

Here is a picture every girl who is married and every girl who wants to be married will get excited over to see it. It is one of those stories that hits a woman right where she lives, because it deals with the question of getting the most out of life, whether as a wife, as a bread-winner, or in pursuit of a career.

If a woman has a kind husband and is still unhappy, what should she do? If some other woman's husband is kind to her and could make her happy what should she do? If she has the chance to do the thing she wants to do more than anything in the world but at the cost of breaking up her home what should she do? If she can make people happy by lying to them and hurting them, what should she do?

These are the questions solved as the story of "Changing Husbands" flashes across the screen. There is also enough comedy in this picture to make it doubly entertaining. Be sure to see it.

CHURCH PARTY

The Presbyterian church had a delightful social meeting on the lawn of Dr. and Mrs. P. C. Coleman last Thursday evening to welcome the members who had recently united with the church. A play was staged on the lawn by the young people while games suited to children were played, and most all of the crowd were children for a while. Punch was served and all felt it was nice to be there.

FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

Scene of Last Battle in the Revolution

In the summer of 1769 a Virginia hunter came to a high bluff overlooking the Ohio river, and, impressed by the beauty of the spot, he took "tomahawk possession," built a rude shack and remained there for several months. Ebenezer Zane was his name and the next year he returned to stay.

When Lord Dunmore, the governor of Virginia, decided in 1774 to make war on the western Indians who had been attacking the border settlements, he ordered several companies of militia to rendezvous at the Zane settlement and build a fort as the base for his military operations. Accordingly a typical frontier stockade was erected here by Maj. Angus McDonald, with Ebenezer Zane and John Caldwell supervising the construction, and it was named Fort Fincaeste, in honor of Dunmore, one of whose titles was Viscount Fincaeste.

When Dunmore's campaign ended successfully he left a garrison of 25 men at Fort Fincaeste, who held the post until June, 1776, when the Revolution broke out and the frontiersmen took possession of it for the Continental congress. In 1777 the fort was enlarged and renamed Fort Henry, in honor of Patrick Henry.

From that time on Fort Henry saw some stirring events. On August 31, 1777, it was attacked by 350 Shawnee, Mingo and Wyandot warriors, and during this attack Betty Zane made her famous dash across the bullet-swept clearing to carry back in her apron the powder so desperately needed by the defenders of the fort.

Again on September 10, 1782, the Indians, aided by a force of British rangers from Detroit, swept down upon the post, but again the frontiersmen beat off the attack. This was virtually the last battle of the Revolution and the war, which was opened by a shot from a little four-pounder on the walls of Fort William and Mary in New Hampshire, ended with the sharp crack of a long rifle at Fort Henry in West Virginia.

After the Revolution the sight of Fort Henry was a welcome one to thousands of emigrants who flocked down the Ohio in their quest for homes in the West, for it was the symbol of the conquering pioneer, the outpost of white civilization which had successfully withstood all the savage assaults. When the frontier days were over the settlement around Fort Henry continued to grow and today it is the important city of Wheeling, W. Va.

STERLING OIL NEWS.

Material and machinery are being rapidly assembled at the location on the F. G. Howard survey in W. L. Foster's pasture. A well of fine water at this site has been secured, the cellar and alshpit have been finished. The washouts in the road have been repaired, and H. C. Bruce, field manager, is pushing the work on this well so that it will be ready to spud in shortly.

The road to the new location in H. M. Mills' pasture, southwest of here, has been laid out and the rig builders will soon be at work getting things in shape to begin drilling. Mr. McGuire, who has the contract for drilling this well, was here this week making arrangements to move a string of tools from the northern part of Reagan county to the Mills location.

The Reynolds well is underreaming around 2245 feet. It is rumored that a very flattering showing of oil was encountered in this well at about 2,000 feet. The shallow stratum of oil sand is said to be very rich, but was passed up in the hope of reaching a thicker stratum.

They are setting casing in the Clark well at 1800 feet. Underreaming in the Mims well to set casing around 3200 feet is in progress.

Drilling in the Northup well has been suspended for several days on account of engine trouble.

Drilling in the Cogdell & Ford well will be resumed as soon as a new sand line arrives from Houston. It was shipped several days ago, and it is expected to arrive at any time.

Paul S. Odward, who is operating the Durham wells, reports that while drilling at Durham No. 1 is suspended for the present, No. 2 will be pumped when fuel is needed for making steam. There is prospect for some real news in the Durham field later on.

The Bill Scott No. 1 on Section 32, Block 17, T. & P. Ry. Co., 1 3-4 miles over the Mitchell county line near Hyman, is to be spudded in soon—Sterling City News-Record.

TELEPHONE IMPROVEMENTS

As a testimonial of their faith in and to provide service to the rapidly developing West Texas area, the Southwestern Bell Telephone Company has appropriated large sums of money to be expended at various West Texas towns for exchange and toll property rearrangements and additions.

These appropriations are available for immediate use, in fact, some of the work has been completed while other will start within a short time.

The major item of expenditure, approximating \$200,000 will be used to place additional copper toll wires from Pampa to Amarillo, Plainview, Lubbock and Slaton, from Slaton to

Roscoe, via Post City and Snyder, a distance of 106 miles. A new pole line will be placed along the highway carrying one cross arm and ten copper wires, from Roscoe to Ranger via Sweetwater and Abilene, new copper toll wires will be placed that will connect with existing circuits to Fort Worth and intermediate points. Also provides for the placing of two copper wires from Big Spring to Lamesa, giving that section additional toll line sublet.

This arrangement will place at the command of West Texas a new work of toll and exchange facilities which will provide more adequate service for the future.

The actual work on the toll line program will start immediately and be completed by September 1st this year. In order to complete the job by September 1st, an army of workmen must be mobilized. The skilled workmen will be recruited from Texas and Oklahoma, while the unskilled workmen will be obtained, where possible, along the route of construction.

THAT CUT-OUT LAW.

The Dallas News, in an editorial headed, "Meant to Be Enforced," says:

One motorcycle policeman arrested six persons in Dallas Thursday for operating motor vehicles with muffler cutouts open, contrary to the law as duly made and enacted by the legislature of Texas only three months ago. One or two arrested pleaded, according to the arresting officer, that they had never heard of that statute. The others, he reports, acknowledged having heard of it, but pleaded the supposition that there was no intention to enforce it. The supposition was not fantastic, it must be admitted. There are a good many laws that are as tubs thrown to the whale of public sentiment, which is expected to be content with the enactment of them and is thought to become unreasonable, when it demands the enforcement also.

There is another reason, too. It is in the spiritual nature of the offense committed by those who violate this law. Those who make the nerve racking noise which results from operating motor vehicles with muffler cutouts open are, with negligible exceptions, divisible into two classes. Either they are moved by indifference or defiance of the right which people have to such quietude as is possible in a restless and rushing age, or they are moved by a passion for proclaiming themselves to all and sundry, for making an ostentatious show of their existence. Either is an unlovely trait which it were a service to those who have it to punish in the gentle way the law prescribes.

Rev. Bailey, the Methodist minister at Westbrook, was a pleasant caller at this office this week.

OUT-MONKEYING THE MONK

Bill Kellis

Arrangements are being made for a great legal battle in Tennessee over the matter of evolution in the public schools of the State. Those advocating the repeal of the law are wrangling over who shall champion their cause at the trial. Some are wanting Darrow and Malone, two noted lawyers, to take the case. Others oppose because of their religious affiliation. They are afraid that Bryan will show them up at the trial. This is a trial in which every citizen of the United States will be interested, for it will determine whether or not the taxpayers have a right to say what shall be taught the children in the public schools. Personally, we would rather have our children grow up in ignorance than to have a lot of unproven theories crammed down them that will make skeptics of them.—West Texas Baptist.

"Do chattering monkeys mimic men? Or we, turned apes, outmonkey them?"

No doubt, Brother Sam Malone would rather have his children grow up in ignorance than to have them taught "unproven theories." We are sure he feels that way about it; yet only for education, the brother's children would go through life filling the miserable stations which are allotted only to the incapable and ignorant. Rather than have his children taught the things which he does not understand, he would turn them out on the world to absorb whatever superstition that might be current.

It is not so long since it was against the laws of some countries to teach the "unproven theory" of the roundness of the earth. The well-meaning daddies to those dark days, like Brother Malone, said: "The Bible speaks of the four corners of the earth, and if the earth is round like Galileo says it is, how could it have four corners? The earth is square, and we had rather bring our children up in ignorance than to have them taught that it is round—have unproven theories crammed down them that would make skeptics of them." They even went so far as to barbeque people who taught that the world was round. But that did not stop people from investigating the truth or falsity of the question, and no doubt today, Bro. Malone truly believes that the earth is a sphere.

Neither has it been so long since witchcraft was taught in the pulpit and schools. In those days, a man or woman who didn't believe there were such things as witches, wizards, hobgoblins and ghosts was rated as a skeptic and an infidel. Even Sir William Blackstone, the man whose works on Common Law is to this day authority in our highest courts, said: "To doubt the existence of witchcraft is to deny Revelation." Sir William had the Scriptures to back him in the assertion, for he had read many passages in Holy Writ about witches and such things, including the story of the Witch of Endor, to whom Saul, King of Israel, went to have her call up the dead prophet Samuel, that he might tell him how he would fare next day with the Philistines, with whom he had matched a fight. So strong was the belief in witchcraft in New England in 1692, that to express a doubt in witchcraft was equal to admitting an alliance with the devil. In good old Salem, Massachusetts, they tortured fifty-five innocent persons and hanged twenty on charges of witchcraft. By and by, someone began to investigate and ask "Is there such a thing as witchcraft?" After exhaustive research, they found that there was absolutely no foundation for such a fool notion.

Old Salem's crime of torturing and murdering seventy-five of its innocent and harmless people was incited by the activities and preaching of Cotton Mather, the most prominent minister of the colony. He believed there were such things as witches. He believed in the doctrine of "suffer not a witch to live." He had them hanged and burnt, to the eternal shame of those who follow the Master, because old Cotton and his fool, ignorant followers did those things in the name of religion.

Old Cotton Mather's spirit, like that of old John Brown's, "is marching on." It has found lodgement in the minds of the lawmakers of Tennessee. Old Cotton Mather's spirit is moving those who travel afar to prosecute and persecute Pro, Scopes for using a text-book in his school which was prescribed by the State as a part of the curriculum of the public schools of Tennessee. The spirit of old Cotton Mather has found lodgement in their bodies.

We don't take stock in the alleged assertion that white people are descendants of apes—no, not by a jugful! But we do say that some men possess the power of converting themselves into monkeys; and to our mind, Bryan and his fanatical consorts are out-monkeying all the sim-

THE A. B. C. of FOOD VALUES

Among the Elements Necessary to Health, the Mysterious Vitamin Plays a Leading Role

Did you ever see a baby with rickets? How did it effect you? Didn't you feel sorry for the poor little thing because something was lacking out of its well-being?

Something was lacking—a very vital thing to all life and health and growth—vitamins. And who was to blame? In almost every instance the mother, though probably she never knew it, and would very much have resented it had you told her so.

Again haven't you often felt sorry for the little anemic child who looked half starved, and was always tired? The mother probably told you there was no reason for such a condition because the child ate heartily. She couldn't understand it. But had she taken her child to a doctor doubtless he would have diagnosed the case as lack of vitamins.

Not so very long ago we thought our diet was complete if it contained proteins, carbohydrates, fats, water and organic salts in proper proportions. Then came the discovery that we must also have vitamins.

When vitamins were first discovered they were known by scientific names which nobody but the scientist understood, so, as a matter of convenience, they were designated by letters, A, B, C, D, and later X. All our knowledge of them is based upon experiments in feeding animals. Nobody has ever been able to isolate and analyze them. We know that certain foods are high in vitamins through their effects. Vitamins are found in milk and eggs, and vegetables and fruits, and to a lesser degree in meats. Calf's liver is especially high in vitamins. But unless properly cooked the value is greatly depreciated.

The same is true of vegetables. In fact it has recently been discovered that most canned vegetables are higher in vitamins than home cooked. The reason is obvious when one understands that it is through oxidation caused by the oxygen in the air that vitamins are destroyed, and not by excessive heat. The modern sanitary can used by all canners has no vent hole, and the foods are cooked in the can, thus excluding air and preventing oxidation.

Every housewife knows what would happen if she tried to cook in an air tight vessel. Expansion would cause an explosion. Canners, however, use an "exhausting" process by which the filled cans without tops are given a first heating that expands the food to brimful. While this food is still hot the tops to the cans are put on by machinery so that practically no air is left in the container. The food is then heated all the way from boiling point to 250 degrees Fahrenheit. When the cans are cooled the space that would have held air is a vacuum. This is what causes that sizzling sound when one starts to open a vacuum packed can.

Thus the canner saves the vitamins the housewife allows to escape through the oxidation in the air while cooking. An instance of this is in tomatoes. Tomatoes are rich in vitamins, almost equal to butter fat in milk. Juice from a can of tomatoes, cooked as above, and which had been in storage a year, was fed to a pigeon suffering from polyneuritis with the result that the pigeon recovered. Another experiment tried on guinea pigs suffering from scurvy proved that canned spinach contained two and a half times the vitamin potency of the

home cooked. This should be valuable information to the mother. The baby suffering from rickets and the anemic child are similar instances to the pigeon and the guinea pigs. Vitamins were lacking. It is only within the past three or four years that the value of strained tomato juice for babies suffering from rickets has been discovered.

The role vitamins play in nutrition is very different from the roles played by other food elements. Vitamins supply the body with neither energy nor tissue building substances. But by some means, as yet unknown, they enable the body to utilize the energy-producing and tissue-building qualities of food which would be quite useless without them. They are like the spark plug in your car. The spark plug alone does not run the car. Neither does the gasoline. But what the spark plug does is to ignite the gasoline and to produce a change whereby it becomes a source of energy. That is the relation of vitamins to the other food elements. It ignites them to energy producers and starts and keeps the human engine running.

It is not necessary to know any more about vitamins than that they are essential to the human system, and that they are found in milk and eggs, because of the food taken by the cow and the chicken, and in all green vegetables and fruits. As excessive heat does not work the destruction that oxidation does, they are higher in canned than in home cooked foods. They are quite as important to the adult as to the child, and a well balanced diet with milk and plenty of vegetables is sure to supply all the vitamins needed.

ians in captivity. Those fellows ought to be ashamed of themselves. Their assaninity in the matter is enough to make all the jackasses on the range lose their power of speech.

We believe in the story of Creation as it is written. We believe that God made man from the "dust of the earth," and made him in His own image. The first can be proved in the laboratory. From dust he came and unto dust will he return. This is a self-evident proposition. But there is some more to the story that is not written. The day is here when man wants to know the methods which God employed in His creation of man, just as man wanted to know the methods which God employed to create a niter crystal. God, in the Book of Genesis, enjoined man to go forth and conquer the forces of nature that he might have power over the earth, the air, and the sea. He

gave man the brain and cunning to find out these things, but unfortunately man has had to struggle against the priesthood of all ages for light. For thousands of years man groped in darkness because he did not dare to think and investigate and bring to light his discoveries which later came to bless mankind.

Religion and science should go hand in hand, because science is the acid test of religion. Science reveals the laws of nature, and the laws of nature are the laws of God. He who knows more of science, knows more of God. Every church in the land will one day come to regard science as the handmaid of religion.

Let us have freedom of thought as well as freedom of speech. Let no man fetter the progress of the human mind. Let investigation and research be not hampered by petty laws made by those who regard the eternal

truths of the Bible so weak and vulnerable that they must be protected by law. If any man can prove that he descended from a monkey, let him do it. If he does, the story of the Creation still stands, because he will only prove the method which God employed to evolve man.

Evolution means changing and unfolding. It is a condition and not a theory. All nature is a state of evolution. One day we see living flesh moving and having a being. The next day it is evolved into dust. This is God's law as laid down in his Holy Word. Let the children of the land be taught that this is so, and skeptics will be unknown.

J. C. Pritchett, cashier of the City National Bank, with his family, is spending his annual vacation at San Antonio, Corpus Christi and other South Texas points.

REMINGTON Portable Typewriter

The Remington Portable will serve you well—not only in school or college, but for years and years to come. It will give you a training which will be helpful to you in all your after life.

- Compact—fits in a case only four inches high.
- Complex—has the four-row keyboard—no shifting for figures—just like the big machines.
- Convenient—can be operated on your lap if you wish, for it carries its table on its back.
- Come in and see the Remington Portable.
- Price, complete with case, \$60. Easy payment terms if desired.

WHIPKEY PTG. CO.

COTTON ASSOCIATION WILL ADVANCE \$70.00 PER BALE

The Texas Farm Bureau Association will advance \$70.00 per bale as the initial allowance on all cotton pooled by the association during the coming season, W. W. Porter, secretary-manager of the Mitchell County Farm Bureau, announced Wednesday. Porter stated that the advance was based upon the present market and for bales of 500-pound weight, or more. Bales of less than 500 pounds will be allowed an advance based upon 14 cents per pound.

Speaking further concerning plans of the association to finance the 1925 cotton crop produced by its members, Porter said:

"The executive committee of the Association has determined upon the amount of the initial advance for the new delivering season, based upon present market conditions, which will be \$70 a bale on all shipments averaging 500 pounds and more, except that 14 cents per pound will be advanced on shipments averaging less than 500 pounds per bale.

"In this connection the following statement was issued: The new delivery season is now upon us. Already the first of the new crop has come to us from the extreme southern portion of the State. The indications are that this will be, by all odds, the largest delivering season that the organization has ever had, and preparations are under way for handling efficiently and economically the substantial increase expected.

"Financial arrangements have been made which are of extreme advantage to the Association, both in terms and rate of interest. The final distribution is being rushed, and while the entire office force is now engaged in this work, preparations have been made to handle shipments as rapidly as received. With reference to the initial advance, however, members are advised that:

"The member should not gin any light bales if he can possibly avoid it, as he should understand that the authorized advances are based upon the Association agreements with its lending banks and that the standard weight of a bale of cotton, according to trade rules and banking collateral requirements, is based upon a 500-pound bale. We want our members this year to draw drafts covering the authorized advance against all of their cotton.

"This advance is authorized on cotton based on present-market conditions. We hope the market will continue to justify this advance, but should there be a severe decline in the market a readjustment will have to be made in line with the arrangements with the lending banks at that time. Until further notice, therefore, the advance will be as stated above."

UNION HAPPENINGS

Since my last writup some things have actually happened. Things in general are I think normal, namely, crop conditions, general health, etc. Last week Mrs. J. W. Turner and children from off the Plains country were pleasant visitors among their kinsfolks in this community and while here Mr. and Mrs. B. E. McGuire furnished for all concerned a kind of reunion reception, among whom were Mr. W. J. Dorn and family, Mrs. Reece Bedford and children, Mrs. M. McGuire (Bob's mother) also Mrs. Essie Blackard and son and Mrs. Dockery and to cap the climax I went out into a nearby field and kidnapped the Rev. J. M. Dorn and all that I had time to look at seemed to enjoy the occasion; then came on the Fourth of July and its past into history, but during the day Mr. B. B. McGuire and family motored to Martin county lodging at J. O. McCreless' and as we journeyed we saw some good crops and some that were not so good, and in conclusion I feel sure that none averages up with Mitchell county. Now if this finds its way into your columns I may write again and if I do, don't be surprised if I quote some of Judge Tilman's sayings while on the bench in his courtroom.

ELI.

Ni-Late is used by the State of Texas as disinfectant, germicide and insecticide in all State institutions. Also sold by Colorado Drug Co.

H. W. King of Roscoe, formerly editor and publisher of the Roscoe Times, was in Colorado Tuesday. Editor King recently sold his newspaper business at Roscoe to W. O. Kent, who in recent years has been associated with several West Texas papers. The plant of the Colorado Record is among the best and most modernly equipped in this country, King stated.

Notice—My ice house will close at 10 o'clock every Sunday morning, and open at 5 o'clock. Get your ice early—R. L. Spalding.

SWEETWATER BAPTIST PASTOR AND OFFICIAL BOARD QUIT

Dr. L. G. Moroney, pastor of the First Baptist church at Sweetwater, together with members of the official board, Sunday school superintendent and church treasurer, tendered their resignations to the church membership Wednesday night of last week, according to the Sweetwater Reporter. The Reported stated that the resignation of Dr. Moroney, which is to become effective July 31, was accepted.

No reason was assigned for the action taken by the pastor and other officials of the church. Dr. Moroney has been pastor of the First Baptist church at Sweetwater three years and during the time built one of the most imposing church edifices in West Texas, together with an attractive pastor's home. The two buildings were erected at a cost of \$74,000.

J. P. JOHNSON, FARMER OF NEAR DUNN, DIES IN CITY

J. P. Johnson, 32, farmer of the Dunn community, 13 miles northeast of Colorado, died at the Colorado Sanitarium Friday morning. The body was buried at the Dunn cemetery Friday afternoon, Rev. Jim Stalleupp, pastor of the China Grove Baptist church, officiating. Deceased is survived by his wife and one son.

BODY OF AGED WOMAN SENT TO LOUISIANA FOR BURIAL

The body of Mrs. J. A. Salley, 72, who died at the family home on the Landers ranch Thursday night of last week, was forwarded Friday by J. H. Greene to Pleasant Hill, La., her former home, for burial. The husband and two sons, J. O. and Ira Salley, accompanied the body to Louisiana.

PROBATE NOTICE

THE STATE OF TEXAS. To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Mitchell, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

Notice of Application for Probate of Will.

THE STATE OF TEXAS. To all persons interested in the Estate of B. C. Kitchens, Deceased; M. P. Kitchens has filed in the County Court of Mitchell County, an application for the probate of the Last Will and Testament of B. C. Kitchens deceased, filed herein, and for letters testamentary thereon; which will be heard at the next term of said court, commencing the First Monday in September A. D. 1925, at the Court House thereof, in the City of Colorado, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

Herein fail not, but have you then and there before said court this writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and the seal of said court at office in Colorado Texas, this July 6th, A. D. 1925. (Seal) J. LEE JONES, Clerk County Court, Mitchell County, Texas. 7-17c

Ni-Late kills insects of all forms, yet non poisonous or harmful to human life. Does not soil most delicate fabrics. Sold by Colorado Drug Company.

Billie Wyatt, daughter of Chas. Wyatt, who has been seriously ill during the past three weeks of typhoid fever, is reported improving.

Mr. and Mrs. O. La-mesa visited in Colorado.

MONKEY BUSINESS

Your old fashioned Tennessean—the man who shoots straight and dies with his boots on—is perplexed. "Have I been kidding myself all these years?" he asks as he digs into his encyclopedia for enlightenment...

The Tennessean is up a tree. And the fact that the tree is the natural habitat of the monkey tribe brings no comfort to him in his trying hour of bewilderment.

Your old fashioned Tennessean is used to settling disputes in an old-fashioned way hard, horny fists with no holds barred, or squirrel rifles at long range.

But now he must wait on the boundary line of the battlefield while a court determines whether the state legislature overstepped itself in prohibiting the teaching of evolution in Tennessee's schools.

John T. Scopes, high school teacher and coach of the Dayton football team, is the central figure of the war. While the crafty general responsible for the court action is George W. Rappleyea, 30, manager of the Cumberland Coal and Iron Company, a "rabid" evolutionist.

Scopes, to test the law, will admit that he taught his high school students from "Civic Biology," a text adopted by the state textbook commission, appointed by the governor himself.

The entire book deals with evolution and somewhere near the end the Darwinian theory is summed up as follows: "We have now learned that animal forms may be arranged so as to begin with the simple one-celled forms and culminate with a group which contains man himself."

Rappleyea, learning of the text book, induced Scopes to become the victim in a court action. The good people of Dayton were shocked.

Nine-tenths of them had never heard of the evolutionary theory until they read of the law in their weekly paper. At first they were strong for the law.

But, not when it involved Scopes. He was the star teacher of the school. And he was the football coach whose team had held Chattanooga to a comparatively low score.

At the same time, they will remain unshaken in their belief that man sprang from Adam and Eve and not from the missing link.

And, doing both, they will take out their spite on Rappleyea, for it was he, they say, "who began it all." One day recently Scopes actually had to step in to prevent several of his indignant friends from way laying Rappleyea and giving him a beating.

Money to test the law is plentiful. On a drugstore window is pasted a list of men and women who offer to pay the cost, whatever it may be. There are 60 names, and the list grows daily. On the list are names of liberals from all parts of the country, from Morris Hillquit and the American Civil Liberties Union in New York to Maynard Shipley and the American Science Association in San Francisco.

Town folk are not interested in the reports that an array of nationally known individuals including William Jennings Bryan will come here to be lined up behind the prosecution and defense.

Monkeys are monkeys, but good football coaches have been scarce around here and there never may be another one like John Scopes.

DISCIPLESHIP

Jesus called a group of men to himself and said some very plain words to them about what it meant to be a disciple of his. Some people have thought it means but little to join the church and be called a Christian but Jesus said before we can be called a disciple of His we must put him first. He made it so strong that most of the folks left Him. He told them they must hate their fathers, mothers, children, their...

Be Not Deceived. Baths are good. Electricity also is good—for light, heat, and power. Never-the-less a person of ordinary common sense knows that neither a bath nor electricity will correct an old chronic defective spinal condition. Your life and welfare each depend upon the condition of your spine, just as much so as the same depend upon your environment, intelligence, sunshine, air, water, clothing—and food that you eat. This being true, it is the better part of wisdom to use common sense and have that bad spine examined and corrected by a reliable expert in his profession near your own home town rather than go away and spend 3 or 4 times as much more money than is necessary. Think it over. The Palace and Mission Theatres show our movie films. PHONE 76 C. H. LANE MASSEUR

own lives, and forsake all and take up his cross and follow him daily. That is about as strong as he could make it. Of course he did not mean there must be hatred towards our loved ones but that He must come before our loved ones. We must make our duty to Christ first or we are not his disciple. There are some lessons we need to learn about this Scripture. We need to learn that if we are to be the disciples of Jesus we MUST submit to Him. We are to take his YOKE upon our necks and learn how to bear burdens. We are to learn from Him. We are inexperienced in the christian warfare and service of the Master so we need to learn how to fight for him. We are to take his yoke and learn to do exactly as he did while upon the earth. He so lived that God was always pleased with him. He walked as we should walk. He talked of the real values of life. He bore the burdens of sorrow for a lost and sinning world. He bore the actual sin of man kind. He bore the shame of all the ages and was, nailed to a cross to die as a common thief. He bore all this for me and now he comes and says to me if you are to be my disciple you must take my yoke and learn how to do as I have done. You are my representative and you need to know how to conduct yourself. The christian life is one of burdens and there is no escape from it, provided, we live for Christ. Then Christ says you must deny yourself and come after me. That is to deny self. Self is the monster which would squeeze the better things of life from us. Self wants to be on the throne and let Christ remain on the cross. Self wants to master our lives and let Christ take second place. Self would take all the best of life and let Christ have the scraps. Self would be honored and let Christ be disgraced. If we are to claim to be His disciples we are to deny self. So many of us want the best dress and let Christ use the old one. We are willing to let Christ cause suffer while we have a good time. Christ would have his disciples to know they are not to let kinfolk or business interfere with his program. He said the dead bury its own dead, meaning the world is to look after the things of the world but, his people are to look after the things of the kingdom. Why not? The world has done nothing to give us redemption or a home after awhile. Jesus said to SEEK, and that means to really strive for the kingdom of God and His righteousness and then shall all the needed things come to us. How few of us really and truly have that burden of soul about the kingdom. Twelve men filled with the proper notions about the kingdom of God and their relations to it set the world on fire with the truth of God. All the world has heard of Christ and the Cross by the time the last of the Apostles died. Why? Because they took his yoke and bore it. They denied themselves and worked for Him daily.

Farmers report they are in need of rain on their cotton, not so much because the plant is suffering from an insufficient supply of moisture, but because that a heavy rain would come as a god-send in ridding the plant of lice.

Aunt Morlie Adams has been quite sick for the past few days. Mr. and Mrs. O. Lambeth of Lamessa visited in Colorado the 4th.

This new relationship is the highest relationship of all. We become apart of that which we relate ourselves to. For example a couple marry. Each becomes a part of the other. Their new relations are the highest of any other relations. All other relations are changed as soon as they become man and wife. So it is with the christian. When he becomes related to Christ all other matters are to become subordinate to this new relation. The reason for this is that Christ has done so much for us and He is so much superior to us that he claims the right to dictate all the terms of discipleship. He takes us into partnership and declares he is the Lord of creation and only by the merits of his own graciousness are we allowed to enter into this high and holy relationship.

When we get to heaven and fully understand what salvation means we will not think it was hard for the Lord to make strong demands upon those he was willing to entrust with it here and to ask them to carry on for Him while he was away. Eternity will not be long enough for us to have time enough to praise him for saving us. He wants us now to praise Him and serve Him.

NOTICE—NO. 454
 In the matter of the guardianship of the estates of Ruth Helton and John Helton, minors. In the County Court of Mitchell County, Texas.
 Notice is hereby given that I, J. A. Buchanan, temporary guardian of the estates of Ruth Helton and John Helton, minors, have this day filed my application in the above entitled and numbered cause for an order of the County Judge and County Court of Mitchell County, Texas, authorizing me, as temporary guardian of the estates of said minors, to make an oil and gas mining lease or leases, upon such terms and conditions as the court may order and direct, on the undivided interests of said minors, in the following described real estate, belonging to the said minors, situated in Mitchell County, Texas, to-wit:
 All of the SE one-fourth of Section 2, Block 26, H. & T. C. Ry. Co. Survey, containing 160 acres, more or less;
 All of Fractional Section No. 24, Abstract 1614, Block 26, H. & T. C. Ry. Co. Survey, containing 84.6 acres, more or less.
 Said application will be heard by the County Judge of Mitchell County, Texas, either at a term of said County Court or by said County Judge in vacation, at the court house in the town of Colorado, Texas, on the 11th day of July, 1925.
 J. A. Buchanan, Temporary Guardian of the estates of Ruth Helton and John Helton, minors.

FUNDS AVAILABLE FOR ROAD IMPROVEMENT, OFFICIAL SAYS
 Funds with which to construct a concrete dip across Little Silver, on the Mitchell-Coke county line, some thirty miles southeast of Colorado, are available and the structure will be built within the near future, T. W. Stonerod, chairman of the finance department of the Colorado Chamber of Commerce, announced this week. Stonerod stated that the business and professional interests of Colorado were financing this work through the Chamber of Commerce.
 The Silver community, situated largely in Coke county, is one of the important farming localities within the Colorado territory. Recently the crossing on Little Silver became in such condition as to make it difficult for farmers to cross the stream with wagons and trucks in hauling their cotton and other produce to Colorado.
 Judge Chas. C. Thompson recently stated that Commissioners' Court would make improvement to the Robert Lee road leading from Colorado through the Silver community.

Junior Missionaries.
 The Junior Missionary Society of the Methodist church met at Mrs. Marvin Dorn's Monday with forty-four in attendance. At the business \$3.00 were received as dues and four subscribed for the Christian worker. Four babies were entered on the roll and six new juniors were received. The program was on the Holsten Institute in Korea. The hostess served two kinds of cake and soda pop.

AN ORDINANCE
 An ordinance regulating the keeping of horses, cattle, hogs, and other live stock within the corporate limits of the city of Colorado, Texas, and prescribing penalties for the violation thereof.
BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF COLORADO, TEXAS:
 Section 1. From and after the passage of this ordinance it shall be unlawful for any person or persons to have, keep, or maintain, within the corporate limits of the City of Colorado, Texas, any horses, mules, cows, hogs, sheep, or other live stock, or to be in any manner interested in the keeping or maintaining of same, except for the purposes and on the conditions hereinafter stated.
 Section 2. There may be kept at each home or place of residence not exceeding two milk cows, for the actual use of the family or people residing at such home or place of residence as milk cows.
 Section 3. Any person using horses or mules as work animals, in his trade, occupation, or business, shall be allowed to keep not exceeding six horses or mules or both (not exceeding the total number of six of both), as long as same are actually used by him as work animals; provided that not in excess of six horses and mules shall be kept at any one place within said corporate limits of the City of Colorado, Texas.
 Section 4. Provided further, that all pens, inclosures, and places where milk cows, horses or mules, or either of them, are kept or maintained, shall be, by the person keeping said stock, kept at all times in a clean and sanitary condition, and all trash, wastes, and refuse, removed from same.
 Section 5. Any person violating this ordinance, or any provision of same, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than \$5 and not more than \$100; and each separate day that any stock is kept in violation of this ordinance, or places where stock are kept in an unsanitary condition, shall constitute a separate offense.
 Section 6. If any section or part of this ordinance shall be held invalid, it is intended that the remaining portions of same shall not be affected thereby, but shall remain in full force and effect.
 Section 7. This ordinance shall take effect from and after its passage and publication as by law prescribed.
 Passed and approved this 22nd day of June, 1925.
 R. H. LOONEY,
 Mayor, City of Colorado, Texas.
 Attest: L. A. COSTIN,
 City Secretary.

MARRIED.
 The announcements are out announcing the marriage of Mrs. Mayo Johnson and J. W. Hill at Abilene, July 4th. Mr. and Mrs. Hill are both well known here as she is a popular saleslady at the Colorado Bargain House and he formerly was in business here. He is now a salesman at Snyder. They will make their home in Colorado.
 Mrs. Jessis Summers and son, Edwin of Lubbock and Misses Wilma Perkins and Linda Bonner of Rusk visited Mr. and Mrs. H. L. Hutchinson on their way to and from Abilene to the races. Mrs. Summers and Miss Perkins are cousins of Mr. Hutchinson.
 Mr. and Mrs. L. W. Sandusky, daughter, Miss Margaret and Miss Lena Smith Mann are spending the week-end at Christoval fishing.
 Dr. Ratliff accompanied Mrs. John Dougherty to the Baptist Hospital at Abilene Wednesday for an operation.
 The Auxiliary to the American Legion will meet at the hut Saturday at five o'clock. All members are urged to be there.
 Did you see the many bargains in our windows.—Berman's Variety Store.
 Mrs. Willie Rogers entertained a crowd of little folks at her home Wednesday afternoon, in honor of her daughter, Annoria Jo's fifth birthday. After they enjoyed games and dancing, they were invited into the dining room, where the cake with its five candles was the center of attraction. Annoria Jo received many pretty little gifts. All the children left wishing her many more happy birthdays and parties too.
 Quite a number of Coloradans are off on their annual fishing expedition this week. It would be futile, perhaps, to attempt to list the names of all of them. Local nimrods are testing their luck in practically every stream in West Texas south of the Texas & Pacific. Readers may reasonably expect publication of some of the usual "fish stories" in these columns soon.

COLORADO SPENDS JULY 4 AT NEIGHBOR CELEBRAT
 Saturday, July 4th, was a day for Colorado, the stores, I and offices for the most part closed for the day. Hundreds of citizens motored to neighbor towns and cities to attend Independence Day celebrations. Midland, Spring, Sweetwater and Abilene drew a number of Colorado people.

CITY-COUNTY LLEGISLATIVE BODIES TO MEET MOND
 The city council and Commissioners' Court, legislative bodies of city and county, are to be convened in regular session Monday, July 13. Aside from the routine business nothing of importance is known to be pending action of either body. The city, however, may take some definite action on selection of site for the proposed new city hall.
SMALL DAMAGE TO COTTON FROM LICE AND HOPPER:
 Lice, grasshoppers and other pests are doing small damage to cotton in this county. H. L. Atkins, county farm agent, stated Monday. Atkins said that the pests were not in sufficient number as to cause any alarm. A few farmers are putting out poisoned bait to check grasshoppers.
 Boy Scouts from Colorado won in two of the seven events of the district field meet at Sweetwater Friday, copping prizes in the first aid race and friction fire contest.
 Colorado Scouts attending the meet were in charge of Rev. W. M. Elliott, Colorado, president of the district organization.

Attention.
 Bring all books back Saturday, 11th. Members of Library are requested to return all books. Twenty-three are out and must be returned at once. Library will be open each week, Wednesday and Saturdays from four till six. Everybody fined for books out after Saturday.—The Library Committee.

Missionary Meeting.
 The Missionary Society of the Christian church met with Mrs. J. E. Pond Monday for the monthly mission study. Mrs. C. T. Harness, a farmer member, of Ft. Worth conducted the devotional exercises. The rest of the time was spent discussing the years work as this is the beginning of the church year. Mrs. Lee was received as a new member. The hostess served a salad course and ice tea.

MARRIED.
 The announcements are out announcing the marriage of Mrs. Mayo Johnson and J. W. Hill at Abilene, July 4th. Mr. and Mrs. Hill are both well known here as she is a popular saleslady at the Colorado Bargain House and he formerly was in business here. He is now a salesman at Snyder.  Did you see the many bargains in our windows.—Berman's Variety Store.
 Mrs. Willie Rogers entertained a crowd of little folks at her home Wednesday afternoon, in honor of her daughter, Annoria Jo's fifth birthday. After they enjoyed games and dancing, they were invited into the dining room, where the cake with its five candles was the center of attraction. Annoria Jo received many pretty little gifts. All the children left wishing her

DRADO CHURCHES NEED BETTER SCHOOL FACILITIES

There is an outstanding need to facilitate the development of true citizenship in the community will be provided when adequate buildings and equipment are provided for their Sunday schools, Hon. P. Leslie, judge of the 32nd judicial district, declared in an address Sunday afternoon at Union Square in speaking to a meeting of the United Brotherhood.

Judge Leslie praised the new building being erected here by the First

Presbyterian church. "I was indeed proud to realize definitely that this attractive church building was to be erected in this community," Leslie stated. "I sincerely hope that the Christian Baptist and Methodist congregations will quite soon likewise make adequate facilities for their Sunday schools. "There is nothing which could be worth more to Colorado. Such an asset would mean more to the town than the coming of another railroad."

Judge Leslie stated that figures from the Sunday schools showed that

less than fifty per cent of the children enrolled in the Colorado public schools were attendants at Sunday school. This fact he described as being deplorable and urged that the Brotherhood set as its goal to bring into some Sunday school of the town as many of these boys and girls as it might be possible.

The speaker praised Colorado because of the spirit of unity so well defined among its citizenship upon any program calculated to be of good to the community. The churches, physicians, bankers and other organizations of the town were cited. In no other town of which he had any knowledge did such a well defined policy of co-operation exist as was to be found here.

TEXAS FIRST

With Texas ranking first in area all the states of the country, it is fifth in population and thirty-fifth based on population per square mile. If Texas were settled as densely as some of the Eastern states, it would have more than the population of the country, now estimated at over 112,000,000.

Over 100,000,000 acres in Texas are said to be suited for cultivation, and, as only 32,000,000 acres are now classed as improved, this indicates its cultivated area can be increased over 200 per cent. The census of 1920 gives Texas a total land area of 167,934,000 acres, with 114,020,000 acres in farms. The total number of farms was 436,000, and the value of all farm property was \$4,447,420,000.

Texas now leads all the states of the Union in the value of its agricultural products. Last year the combined farm products, including all farm crops and livestock products, of Texas were valued at \$1,292,000,000. Farm crops alone bringing \$920,000,000. The total crop area of Texas in 1924 was 29,292,000 acres, 16,198,000 acres of which were in cotton, producing 4,770,000 bales, or thirty-six per cent of the country's cotton crop and about one-fifth of the world output. The value of Texas' 1924 cotton crop, excluding seed, was \$534,000,000, which is equivalent to about \$106 for every man, woman and child in the state.

Texas also produced in 1924 about 78,000,000 bushels of corn, 26,000,

000 bushels of wheat, 49,000,000 bushels of oats, 45,000,000 bushels of grain sorghums, and other grains. Because of climatic and soil conditions, Texas is enabled to produce a great variety of crops and crop diversification is making rapid strides, enormous gain in recent years being made in food and truck crops in furnishing winter and early spring vegetables and fruit to Northern markets.

With its great development in farming, Texas is still one of the leading cattle states and has the largest ranches. On one large ranch, the Taft ranch, are vast cotton and feed crop fields, a number of industrial plants, all served by natural gas. Among these plants are meat packing, electric light and ice plants, cotton gins and cotton compresses, an oil refinery, a feed mill, poultry hatchery, and plans include a creamery, soap factory and cotton mill.

That Texas is not entirely a cattle and agricultural region is realized when one learns that in 1923 the combined value of the manufactured products of the state was \$979,867,000, or about three-fourths of the aggregate value of its farm products for one year. In 1923 the value of cotton manufactures in Texas was \$17,596,000, and the textile industry is just beginning to expand there, furniture products brought \$2,746,000 and its mineral products, that year were valued at \$264,000,000. Though Texas has vast prairies and arid lands, its wooded areas annually produce about a billion and a half feet of lumber.

Over 132,000,000 barrels of petroleum were produced in Texas in 1924, more than doubling the entire country's output in 1900. Great as has been Texas' oil and gas development, no one can say when the last new field has been discovered, even in the oldest territory.

In its fuel resources, Texas is fortunate in having, in addition to oil and gas, both coal and lignite deposits of undetermined extent. Texas mined 1,075,000 tons of coal in 1924, and is known to have 8,000,000,000 tons of coal and 23,000,000,000 tons of lignite reserves.

Potash has recently been discovered in Western Texas and development is proceeding. Should these valuable deposits come up to the expectations of many, this great mineral fertilizer material will be a vital factor to the country's agriculture, particularly to the South's cotton belt. Other minerals include salt, sulphur in great quantity, gypsum, fuller's earth, stone, clay, lime and cement, building stone and granite, road materials, iron ore, silver, quicksilver, copper, coal, lead, molybdenum, zinc and a great variety of other materials as yet but little developed. Texas is the only state producing in commercial quantities the newly discovered non-explosive helium gas, which is being utilized in our airships.

Aggregate banking resources of Texas amounted to \$1,144,726,000 and individual deposits \$764,869,000. Texas' banking resources have more than trebled since 1910 and are now about one-ninth of the banking resources reported for the entire country in 1900.

In 1924 there was shipped through Texas ports merchandise valued at \$706,756,000, which is \$262,000,000 more than was shipped through all the ports of the Pacific Coast that year. Over fifteen per cent of the country's total export passed through Texas ports in 1924.

Texas is now spending for good roads more than the entire United States spent twenty years ago. Last year Texas' highway expenditures amounted to \$64,000,000, or about

Hats Off

Only woman member of the American Society of Mechanical Engineers; the first woman ever to hold the position of president of a national bank, and the first woman ever to hold the job of trustee in bankruptcy, and have something left over after paying 100 cents on the dollar. She's Miss Kate Gleason, 57, Rochester, N. Y., vice president of the Gleason Works.

seven times what the state was spending on good roads work in 1910.

In 1922, the latest date available, public school expenditures of Texas were \$52,452,000, nearly five times the similar expenditures by the state in 1910. The enrollment of elementary and secondary schools in 1922 was about eighty per cent of the total population of five to seventeen years, numbering 1,460,170. In 1922, Texas had 595 high schools, enrolling 80,169 secondary pupils, and thirty-six universities, colleges and professional schools, with 21,951 students.

And thus one could go on and on in making a statistical comparison

that would completely show the vast magnitude and great progress. Texas is, in many fields, indeed first.

Buy across the Counter WHEN you buy across the counter in the stores of this town, you are using good business judgment. Why? There are many reasons, but one of the most important is this: You can buy what you want at the price you wish to pay! You are not obliged to accept "something just as good," because you are in a position to compare values and make your own selections. When you trade at home you are helping your friends to help you! And there is no finer thing in life than neighborly co-operation. It always pays—in happiness and satisfaction as well as dollars and cents. Read the Ads in this Paper and save yourself money by trading at home.

HYMAN HAPPENINGS

The young folks entertained Friday night in the home of Mr. and Mrs. Harry Hyman, in honor of the Misses Flannigan of Corsicana, Texas, who are the guests of Rev. and Mrs. L. N. Barber, Mr. Claud Collins, Jr., and his uncle, Mr. Collins, were guests of the occasion, from Sterling City. A large crowd attended and games were played on the lawn, while some of the older ones played 42 in the house where later refreshments were served, and the guests leaving around midnight declared one and all of the enjoyable occasion they had had.

The families of Frank Andrews, C. F. Black and Mrs. E. S. Britton spent the fourth at Signal Peak and ate dinner under the famous Moss springs, where a most enjoyable time was reported.

Mrs. E. C. Flanagan and daughters

Jewel and Opal, son Clarence, and two smaller children of Corsicana, are having an extended visit with Mrs. Flanagan's sister, Mrs. I. N. Barber of Hyman.

Mrs. U. E. Valentine, and three sons of Dallas, are visiting her brother Mr. I. N. Barber of Hyman.

Mr. and Mrs. T. C. Smith are rejoicing this morning, the 7th, over the arrival of a fine big baby girl at their home. This is the fifth little arrival to come and make their home at Hyman, in the last few weeks, and it looks as if Hyman were bound to become a commercial center and a flourishing place, even without more farmers coming in, the oil fields or anything else. The storks always know a healthy place where the land is good and the farmers can make a good living, hence so many of these little visitors in this place.

Last week the community learned

of a little girl who came to the home of Mr. and Mrs. Sam Dawson, prepared to stay there permanently. We welcome these little visitors to our settlement and are glad to know that both mother and baby are doing well.

Mr. and Mrs. George P. Gates, daughter, Miss Lora Belle and Master George P. Gates, Jr., motored over to Edith last Friday to spend the 4th with the family of Mrs. Gates' sister, Mrs. M. E. Trimble. Both families spent the Fourth, fishing in the Colorado river, catching all the fish they could eat. A bountiful repast was spread, including ice cream and cake and all enjoyed the day to the fullest. The Gates family returned to Hyman, Sunday evening.

Mr. Dillard, son Stanford, daughter Jewell and Avalee and Jewell Barnett, are taking in the barbecue at Sterling today, the 7th.

Garrett Barnett, Stanford Dillard, and Tines Sparks, celebrated the 4th by attending the barbecue and entertainment at Big Spring.

A number of our people spent the 4th away from Hyman, after the farmers here had stated, they were too busy, farming hoeing cotton, etc. to have a barbecue and fourth of July celebration. The only visible sign of the fourth, to be seen at Hyman, was "Old Glory" floating in the breeze, at the home of Mr. and Mrs. Hyman. This old flag with its broad stripes and bright stars, proclaimed to the world that we were mindful of the Fourth, that great day in history, when the immortal document was signed. John Hart, one of the signers of the Declaration of Independence, was the forefather of Mrs. Hyman.

Drilling progresses at the Scott No. 1 of Sloan, Owens and Stalker on Lavaca Navigation, Section 6. At last reports this well was between 2,800 and 2,900 feet, and the next 150 feet should tell the tale as far as this location is concerned.

It is understood that drilling will begin immediately on the Will T. Scott No. 1 of Barnum & Henshaw on Southern Pacific Section 32. This well is to be drilled with steam power and water supply from Hackberry Creek has been arranged for.

Mr. Watt Collier will in the immediate future dig the cellar and slush pit for Hyman No. 1 of Sloan & Owens, on Waco & Northwestern Section 88. Mr. Collier will also grade the road crossing on Bull Creek, and open up a new road between that creek and the well. Water for the drilling of this well will probably be supplied from the Hayrick Tank. Drilling is to begin in the immediate future.

Another good rain came to parts of this community on last Sunday. Lice are bothering the cotton some, and a hard rain to clear the plants of this pest would be welcomed. The cotton is not suffering for moisture, however. Feed crops are almost made, and with another little shower will be fine.

Postmaster R. S. Brennan returned Friday from his annual vacation trip. Mr. Brennan visited his old home in Sterling county and spent several days resting at some of the good fishing holes in South Texas.

Auto Tops and repairing, harness and saddles.—Frank Herrington.

Mr. F. M. Burns returned Monday from a short visit in El Paso.

"The scientists say now that everything came from the amoeba," Dr. Norris said, "and that it would take a man 250,000 years to count a pile of them the size of a pinhead. After billions and trillions and quadrillions of years some of them put on scales and some of them developed fins and some of them feathers and some of them feet and tail and then went swinging in the branches of the trees."

"And some of the little ones got cheated out of the trees and went and lived in caves. Then some of them put on clothes and became professors at the University of Chicago!" —Dr. J. Frank Norris.

VACATION DAYS ARE HERE.

Mr. and Mrs. F. B. Whipkey will leave on Monday for a summer vacation trip of several months duration. They first go to Lampasas for a ten days camp at the Baptist encampment and then to Austin and San Antonio for a 10 days camp in Breckenridge park, thence to the Davis mountains for a 10 days camp at the Baptist encampment at Piasano thence up through Oklahoma, Kansas and Nebraska and across into California, making headquarters at Los Angeles until late fall or spring. We have temporarily turned the Record office over to Walter and A. L. Whipkey and if we do not run out of money will likely not be back until spring. Everyone should take a vacation. Across the ocean or the continent, if you can spare the time and money; to near-by shore or mountains or woods; or to fishing stream, if you have only the regulation two weeks and limited funds; but, anyhow, somewhere out of doors and close to nature—go if you can.

To sea or mountains? Either way, you find what you take with you. Either may be a plaything, or the temple of the Infinite.

You may fish and hunt and golf; you may loll in the sand and bathe or watch the bathers.

Or you may wrestle with the mountains, and conquer them, and be lifted up by them.

Aged but not eternal; vast but not infinite; each differing from each, with its story written in its ribs and veins—you may be a savage in the mountains, or, under their brief inspiration, an athlete, an artist, a poet and a worshiper.

Not so, by the sea. The mountain is Christian, but the sea is Pantheist.

It knows neither time nor space, it has no parts nor history; its waves move from nowhere to nowhere, without past or future; its voice speaks no word and tells no tale; its

spirit is timeless, dreamless Nirvana.

The mountains to work and think and live; the sea to muse and dwell in the inner vision—or either to play and loaf and forget.

A brief season to be yourself—whichever self it is. Then back for another year as a bewildered cog in this machine-world.

Ni-Late kills insects of all forms, yet non poisonous or harmful to human life. Does not soil most delicate fabrics. Sold by Colorado Drug Company.

Miss Evelyn Reed returned to her home in Lubbock Sunday after a visit with friends here.

REGULAR PRICES

WITH THE CHURCHES BAPTIST NOTES.

Everything running well. A little warm and many of the people away, but we are still doing a fine business at the old stand. We need your help. Remember your promises, you recently made. Do something to help somebody else. We want you at the Sunday school next Sunday morning. We want the young people at 7 o'clock. Remember the services at the Union Tabernacle at 8 o'clock Sunday evening.

M. C. BISHOP, Pastor.

THE METHODIST CHURCH

Sunday school 9:45 a. m. Our school was off last Sunday, only 301 present. Lots and lots of people were out of town but with the people who are here every Sunday we can keep it up around 400. We must do this and then in the beginning of the fall season we should have 500.

Preaching Sunday morning by Brother Stewart, the presiding elder. Let all attend. Sunday evening we will meet again with the other churches at Tabernacle. We have received 80 members and have some ten or twelve more. Please let these come next Sunday morning.

Epworth League Sunday at 7 p. m. We want all the Leaguers present.

Our prayer meeting Wednesday 8 p. m. We had 85 present last week. Brother Thomas was not present last week and he missed something. Here is what he missed: (1) He missed the fellowship of these 85 and that was worth going to church to get. He will never be able to pick up what he lost in that. (2) He missed the fellowship of the Master for He was there. Jesus always goes to prayer meeting. "Where two or three are met together in my name, there am I, in the midst of them." What a pity that Jesus came to the prayer meeting and found that Brother Thomas was not there—and too, Brother Thomas promised not so long ago that he would attend upon the services of the church and do all in his power to grow in grace. (3) Thomas missed the opportunity to strengthen his faith and remove his doubts. The songs, the prayers, and the reading of the Holy Scriptures, together with the presence of the Lord gave all of us new zeal and new hope. What a pity that our dear Brother Thomas missed this and he needed it so much. Who is our Brother Thomas? Let all our Thomases come to all our services.

J. F. LAWLIS, Pastor.

PRESBYTERIAN CHURCH

The pastor is in Roscoe in a meeting this week but will return for services Sunday morning. Some of our people are away on vacation, but let all the others be in their places at Sunday school and the morning preaching services. No evening service. We will join the other churches in religious worship at the Tabernacle

SUPPLY AND DEMAND

There is one point that those who say prohibition is a farce always overlook. They will tell you more this key is being sold now than in the days of the saloon, that it can be had anywhere and everywhere, that it is being sold in the wide open, that it can be had at any club, that it's at every dance, and that most people carry a flask in their hip pocket.

But here is the point where their argument falls down. There is an economic law that is inexorable in its working. That is the law of supply and demand. Good whiskey ten years ago could be purchased for 80 cents to \$1.25 a quart. Now the vilest kind of "Bottled in the Barn" costs from \$12 to \$15 per quart. There is at least one favorable view to be taken because of this: there isn't much demand for liquor or the supply is very limited.

Of course, it's hard to compare prices of liquors now with what they were in 1917, because white mule, corn whiskey, "Scotch" whiskey, radiator fluid, wood alcohol, canned heat, "bottled lightning," hair tonic, female regulators, "jake," lemon extract, shoe polish, and embalming fluids were not listed as beverages.

A few smart alecks have deceived some observers and have led them into the error of supposing that the consumption of booze was greater than before nation-wide prohibition. But a great many of these smart ones are dead, others are blind, while still others are suffering from various maladies brought on by various brands of poisonous and adulterated slop. But there is a dying down of the sporadic hootch vogue, it is not nearly as funny now as it was three years ago to violate the Constitution of the United States. No man can persistently violate the law and get by with it.

RELAXATION

Colorado Record: Record eight pages this week. Why not? Advertisers indifferent, meeting absorbed all local news, nearly everybody goes fishing, weather hot, all farmers busy, business like Sunday and office force short on help, all make the paper drop from sixteen and twelve pages to eight. As times goes on the paper will climb back to its usual size and take its class as the best in the West.

"Eight pages is pretty good, considering the circumstances cited. Two-page papers sometimes find their way to this desk. When customers go fishing and merchants become somnolent, it is impossible for the publisher to put out a big paper. It certainly would be grand if advertising were as good in July and August as in November and December. Yet if things were running all the time like the peanut department on circus day, those engaged in commerce would wear themselves out by middle age and merge themselves with eternity ere the gray commingled with the darker hues above their ears. If it were not for the heat, State Press would choose to live in a tropical country, where nobody hurries and nobody worries. The lazy old poet who wished for nothing but a hammock in the shade, a loaf of bread, a book, a jug of grape juice and a lovely young lady to keep him company has been held up for ages as an example of a man content with little. But to most of us it appears that the old rascal wanted a good deal. Anybody would be regarded as pretty well fixed with as much as the old poet asked for. One of the enticements of Florida is the implication of toilsome days there, dolce far niente and easy profits from rising land prices. But when the prices have risen to where nobody will pay them, and when those who have gone to Florida to escape the rush and clamor of great cities find that they must go to work or starve, won't the Floridian boom explode with a repercussion that will be heard from Buzzard's Bay to Brownsville? A busy winter and a drowsy summer is a good way to divide the year."—State Press in The Dallas News.

Mr. and Mrs. Arnett left Wednesday morning in their new roadster for a visit with their children in Lamesa and Lubbock.

Ni-Late kills flies, mosquitoes and insects of all kinds. Prentiss Jeffress of Ft. Worth sends in for The Record this week.

HO! FOR THE LIFE OF A COWBOY

Ever eat beans ("Mexican strawberries") dished up from a chuck wagon? Ever sleep out with a saddle for a pillow? It's a great life—if you like it, say the cowboys.

Thousands of Americans, who want to see how real western cowhands live and play, are planning to attend the Chicago Roundup and World's Championship Rodeo beginning August 15. Cowboys from every part of the West will be on hand for this great western spectacle, which will be held under the auspices of the Chicago Association of Commerce. For nine days Chicago's big Grant Park Stadium will look like a scene from the "Covered Wagon days" as the scores of expert bronk riders, lariat throwers and steer wrestlers show their stuff while competing for \$30,000 prize money and world championship titles. Tex Austin, who has staged so many successful contests, including the great international contest at Wembley, England, will direct the Chicago event.

CHRYSLER SALES SET NEW RECORD REPORTS INDICATE

Announcement of J. E. Fields, vice president of the Chrysler Motor Corporation, shows that retail sales by this company's dealer organization are greater than ever before in the history of the company.

Retail sales reported for the week ending June 13th were 55 per cent greater than for the same week a year ago, an average increase which has been maintained constantly for the past two months. Analysis of the sales curve as charted by the sales department, based on territory reports by the wholesale organization, indicates a steadily increasing demand from the field which has more than tripled in volume since January.

Mr. Fields also announces the fact that in May the 50,000th Chrysler Six was built. During the first year of its production 32,000 Chrysler Six cars were built. Production of this model has been speeded up since January with the result that last year's fine output mark promises to be far exceeded this year.

CARING FOR ORPHANS

Mrs. Belva Doss Luitwieler, financial agent for the Texas Children's Home and Aid Society, headquarters at Fort Worth, arrived Wednesday morning from Sweetwater. This society was founded by Rev. I. Z. T. Morris, a state wide undenominational agency for care of the orphan, neglected and dependent children. The community chest of Fort Worth supplies for their district, office Wichita Falls, where a branch office is located, aids through their chest but the State fund is raised by voluntary

donations of the people.

This society has over 3,500 children in Texas homes and if this is not normal is placed in State institutions with supervision of a child until child is at the age of majority. Only one society in Texas, of scope and of standards of the Dallas district states that monthly work for the homeless children and children's homes is being demonstrated through the saintly methods of Rev. Morris. Its methods and procedure is the soundest of social vice and philanthropy. A dollar invested with them will buy a twenty-five times as much benefit for children as one that's invested in institutions that-keep children a series of years. He also states he is heartily and enthusiastically favor of its plan and its work cordially commends Mrs. Luitwieler to the forcible co-operation of men and women everywhere. Luitwieler will be at the Bar Hotel for several days and will sojourn from the better citizens to in the work and will be glad to help from any child from infancy to years who needs either temporary permanent care.—Contributed.

CARD OF THANKS.

We take this opportunity to extend to one and all our friends and neighbors for their many and sincere kindnesses extended to us through their sickness and death of our beloved wife and mother, Mrs. J. A. Salley. We are indeed grateful for the floral offerings and words of sympathy extended to us in this sad hour of death.

INTERNATIONAL SYSTEM
LONE STAR
PORTLAND CEMENT

50% Above Standard
—U.S. Government Tensile Strength Test

Standard specifications under which all cement is sold require, among other things, the making of tensile strength tests. The above illustration shows how the test is made. Samples taken continuously at the mills of the Texas Portland Cement Company are combined and made into small briquettes, shaped like a figure "8", in preparation for this test. Some are allowed to harden for seven days before testing. Others are kept twenty-eight days for another strength test. The first test determines the rate of hardening and the second indicates permanent strength.

Before acceptance, cement must develop a tensile strength of 200 pounds per square inch after seven days and pass the other exacting tests of the Standard Specifications.

But LONE STAR Cement does more than just pass these tests. It exceeds standard quality by over 50%. This record has been continuously maintained at the Texas Company's mill.

With ordinary manufacturing methods, this test might be difficult. With the famous International Wet-Blending Process now used in the LONE STAR mills, uniform quality becomes a matter of habit. In fact, the chemist and the superintendent can always come within 1/10 of 1% of the quality at which they aim.

Result—A super-quality product that costs no more than other brands of cement.

It has our unqualified endorsement.

J. H. Parker left Friday for Galacia on business in connection with his property interests there. Mr. Parker stated he would be away from home ten days.

THEN AND NOW

Some of our Texas contemporaries quote an A. & M. professor as saying that many of the pioneer women of Texas actually smoked pipes, chewed tobacco and dipped snuff. The moderns who watch without a flicker of an eyelash as the flapper puffs sweet scented, monogrammed cigarettes may be seen to shiver violently, the while a horrified expression flits across their faces, as this fact of pioneer history is mentioned.

Smoke pipes, indeed! Why, you remember what sort of pipes Grandma smoked—clay pipes with long slender cane stems. Many a time, as a boy, you volunteered to light her pipe for her. She stuffed it full of home-grown tobacco, and you knelt down on the hearth and jimmied around until you got a live coal on top of the tobacco. A puff or two (forbidden fruit gained under pretence of service) and you handed the pipe to Granny. It is true she held the thin cane stem in her gnarled old hand rather awkwardly, but the clay pipe smoked like a tar-kiln all the same. If anybody had suggested that Granny was kind of rough or uncouth, or lacking in the finer sensibilities of a critical civilization, you would have pasted them one on the nose. Hours on end you've seen her sit by the fireside in winter, puffing contentedly at her pipe, absolutely the only joy she had in the world.

And Aunt Callie, who used to hide her little quid of tobacco in the hollow gatepost every time she came in from her garden—you remember her, no doubt. According to the standards of modern polite society, Aunt Callie was hopelessly, scandalously, irretrievably lost. It is true she raised half a dozen strong sons and daughters, some of whom gained distinction, and it is true that she had no little part in making the frontier a decent place to live in, but horrors! she chewed tobacco. You'd never know it if you hadn't discovered that cache in the gatepost, but Aunt Cal was a hopeless loss according to modern standards.

As for snuff-dipping, one of the art you ever saw was Aunt Puss—she who held off that bunch of Tories in the Civil War, captured their entire string of horses, straddled one of them, and rode like a Cossack to the nearest Confederate bivouac to bring help. Unwomanly? Perhaps so. With her good ellum toothbrush and her can of snuff, Aunt Puss was perhaps lacking in some of the gentler attributes of her sex, but for all of that she was a real she-woman.

There may be a world of difference between Grandma and her long-stemmed clay pipe and Granddaughter with her scented cigarette, but most of the difference is on Grandma's side of the ledger. On her bones has been built our modern civilization.

M. P. Kitchens sends for the Record from Rotan, Texas, and says: "Get me on your list at once as I need to keep posted as to conditions there."

THE PASSING DAY

WILL H. MAYES Department of Journalism University of Texas

Texas Leading Other States

Some time ago it was announced that Texas was leading all the states in exports; now we learn that it is ahead of the others in crop production; and it will soon be first in manufacturing.

When it turns its attention to making finished products of what it grows, Texas will be the richest state of the Union. Texas has been slow to take up manufacturing because quicker returns have been obtainable from farming and stock-raising and merchandising, and because there has not been sufficient money available for factories. Now that there is idle money in all the banks it will be seeking investment in manufacturing industries.

Guardians of the Public Morals

Some half dozen Travis county men are in trouble. They objected to young couples parking their cars along the highways because they suspected that they were engaged in the naughty practice of "spooning." The charge against them now in the courts is that they undertook to punish several parties parked along the roads in cars even to the extent of whipping and beating them. Officers of the law say that "spooning" may be naughty, but that it is not against the law, and that even if it were unlawful the place for punishment is in the courts and not at night along the roadways by self-assumed enforcers of law. The first love-making, now dubbed "spooning," of which there is any record, was in the Garden of Eden, and it has been going on ever since.

Money in Egg Production

Some citizens at Rising Star, Texas, in January, 1924, invested in a 10,000 egg incubator. In eighteen months the incubator has paid the stockholders 100 per cent on the original investment, and the farmers who are engaged in the chicken and egg business agree that 100 hens will pay the grocery bill of an average family, with a neat sum left over for other expenses.

Talking About East Texas

The Texas Press Association has been in session at Tyler, and the result is going to be that East Texas will be getting praise from all the country papers of the state. Occasionally the papers of one part of Texas say ugly little things about other parts of the state, but that is because Texas is so big that the editors can not know the good things about all of it. With the editors filled with East Texas peaches, watermelons, berries and fried chickens, there will be a satisfactory knowledge of that part of the state that will destroy carping criticism for a time at least.

Courting Northwest Texas

The race of the railroads to reach parts of Northwest Texas not heretofore sufficiently served by the roads is an indication of the general prosperity of that part of Texas. There was a time not long ago when huge bonuses had to be paid railroads to build into that part of Texas, but now there is much spirited rivalry as to which shall occupy the territory. It seems that the automobiles are not altogether killing railroad traffic.

Tomato Growers Getting Rich

Over around Jacksonville the tomato growers are getting rich with the year's tomato crops. Jacksonville looks like an oil boom town. Electric lights are strung along the streets and tomato sales continue all through the night. At the height of the season 140 cars of tomatoes were shipped in one day and one of the three banks received \$211,000 in deposits that day. It was not stated how much the other two banks received. There seems to be money in other things than cotton in Texas.

The Rio Grande Valley Country

The Rio Grande Valley is beginning to rival California and Florida in growing citrus fruits and vegetables. As soon as transportation facilities are what they should be, there will be a development in that section of Texas as such as has scarcely been seen in the United States. It will be the winter garden and orchard of America.

Texas Mountain Resorts Attract

Kerrville and Alpine and other resort towns in the mountain section of Southwest Texas are drawing larger crowds of Texans this summer than ever before and all report that they are delighted with the Texas climate. When once Texas resorts prepare to care for the crowds and let the people know the inducements Texas has to offer for health and pleasure-seekers, we will wonder why we ever thought it necessary to go to California or Colorado to spend a pleasant summer.

LORRAINE SENDS ITS BAND TO BIG AUTOMOBILE RACES

ABILENE, Texas, July 4.—Abilene was paraded Saturday morning by the 26-piece brass band of the Loraine Chamber of Commerce, and a series of concerts was given at various points in the city by the band from the neighboring little city.

The band is directed by M. S. Goldman, who also organized and trained the Colorado band, and who is well-known in band circles of West Texas. K. L. Taylor, assistant director, was with the band Saturday and directed. J. T. Ledbetter, of the Chamber of Commerce, was with the band and was in charge of the parade.

While parading the principal streets of the city the musicians gave concerts at the Federal lawn, the corner of Second and Pine, the intersection of Chestnut and South First, and the Reporter office, where they disbanded. They went to the automobile races at 2 o'clock.

"We wish to thank the city of Abilene for special parking privileges, and for all the courtesies extended us," said Mr. Ledbetter. "Everyone has been particularly kind to us here."

"We are going to the meeting of the West Texas Chamber of Commerce at Amarillo and bring back the prizes in our class."

SEVEN WELLS NOTES

Everybody had a real good time the Fourth.

Some went to Abilene and some to Sweetwater and Big Spring. Some stayed at home and made ice cream and had a real good rest.

Late in the afternoon of the 4th we had another real rain, which was welcomed by everybody. Not that we were needing rain at all, but it makes us feel better and enjoy life so much the more.

Mr. and Mrs. J. E. Wallace and family also Mary Lucile Bassham went to Merkel Sunday to visit with Mrs. Wallace's grandfather. They had a splendid day and a fine dinner.

Mr. and Mrs. Other Reese from Sparenburg visited home folks here over Sunday.

Mr. and Mrs. L. L. Bassham also Mr. and Mrs. P. M. Bassham spent the day Sunday with Mr. and Mrs. W. P. Bassham. They report an elegant time.

Our county road is getting to looking awfully bad. We elected a commissioner or helped to at least, but he just hasn't found this part of the county yet.

The Baptist people met at Seven Wells one day last week and Baptized three more persons.

Let's all be ready to attend the Christian meeting at the union tabernacle beginning August 14th. Bro. Wallace and Bro. Taylor are great men and we are expecting a wonderful meeting.

THE BUNCH

Mrs. Hazel Dixon sends the Record to her uncle, Dan Campbell at Sanco, Texas. The paper starts this week.

FIVE TRAINMEN HURT WHEN T. & P. FREIGHT WRECKED

Five trainmen were injured, one seriously, when Texas and Pacific freight train, extra No. 53, and a switch engine, smashed head on in a collision one mile west of Sweetwater about 3:30 p. m. Saturday. The injured are: F. M. Walla, engineer switch engine, serious internal injuries. Yardmaster R. L. Meyers, on switch engine, broken arm. Fireman Herd, switch engine, broken rib, bruises. Fireman Hart, freight train, bruised and cut. Brakeman Crews, freight train, broken foot. Engineer Wallace was the most seriously injured of the five. He was rushed to the Sweetwater Sanitarium in an ambulance that was called to the scene of the smash up.

REMOVAL NOTICE

My dental offices have been moved into the large corner offices over the City National Bank. I am still in the same building and will maintain one of the best equipped dental offices in West Texas. M. B. Nall, D. D. S. 7-10-c

FAMILY REUNION

Mother J. E. Low spread a family reunion dinner Monday evening to her children and a joyous time was had. Those present were Hill Low of San Angelo; G. E. Low of Lubbock; S. T. Low of Holiday; Mrs. Opal Bennell, Holiday; Bill Low, Quitique; Mrs. J. T. Tunnell, Quitique; Quinton Low, Electra; Mrs. J. T. Dawson of Hyman. All enjoyed the feast and the getting together again as a fourth of July celebration.

SWEETWATER EXPECTS TO GIN 10,900 BALES THIS SEASON, SAY

According to the Reporter, Sweetwater gin men are expecting to handle 10,000 bales of cotton the coming season, which will be an increase over the number received last year. One of the gins there is installing a round bale press.

We handle Ni-Late in 30c, and 50c bottles, also by the barrel. Special prices given on bulk lots, also sprays for using Ni-Late is sold under money back guarantee.—Colorado Drug Co.

T. C. Smith dropped in from the Hyman section to subscribe for this Record and to say he had a splendid crop.

Jim is a full-fledged citizen again. The amnesty act passed for him by the last session of the legislature, went into effect last Thursday, the 18th. We suppose Jim will be getting ready to run for governor before long. However, Attorney General Moody said there was some doubt as to whether the amnesty act was constitutional and valid. If Jim runs again, the act will, in all probability be tested.

Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Novins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. "A neighbor told me of

BLACK-DRAUGHT Liver Medicine

and I began its use. I never had found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—got rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."

Bilious attacks are "seasonal" with many people. Millions have taken Theodor's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.
