### LEAF WORM MAY APPEAR, H. L. ATKINS, COUNTY AGT., WARNS

That there is a possibility of appearance of the leaf worm is expressed by H. L. Atkins, county farm agent, in an interview Wednesday. Atkins states that owing to the continued rains in this county farmers should watch their cotton fields closely for presence of the pests and that in the event they do appear effective measures should be taken at once to exterminate.

In discussing this question, Atkins said:

"With continued wet weather over most of the county, there is a strong possibility of an attack from the leaf worm. Where the worm appears in numbers sufficient to damage cotton the best methods of control are by dusting or spraying with arsenicals. For dusting, pure Calcium Arse-

nate is best to use, and need not be mixed with any other substance. In case Calcium Arsenate cannot be obtained, Paris Green mixed with slaked lime in the proportion of one part Paris Green to five parts of lime is very effective, but be sure that you are getting slaked lime as live lime will burn the leaves of the crop. Either kind of dust may be applied by hand, using a flour sack to sift the powder through, or two sacks may be fastened to the ends of a pole and carried on horseback. The motion of the horse will cause the dust to sift through and this arrangement will cover eight rows at each round. Always dust crops early in the morning.

"If you prefer a spray, one pound of Paris Green and three of rock lime with fifty gallons of water will give excellent results. Stir the lime in about two gallons of water, add

the Paris Green and mix well, dissolving completely. Add this to forty-eight gallons of water and use as a spray over the area affected."

"Your county agent or your druggist will be glad to give any information necessary to successful dusting or spraying, and will tell you how to make an effective sprayer from an old oil drum.

"Watch your crop closely and prevent loss."

**LOST**—Brief case, black, containing orders and price books, and envelope addressed to Lampport Co., Dallas Texas. Lost between Reliable Dry Goods Co., and Stoneham's Filling Station Wednesday afternoon. Reward paid for return to Barcroft Hotel.

Mrs. Grady Reese is visiting in Dallas.

### TWO-THIRDS AUTOMOBILES IN COUNTY SOLD BY FORD

#### THE FORD SALES AND SERVICE STATION—A STORY OF WHAT'S DOING

The Record man in his rounds this week dropped in at the Herrington Ford Sales and Service Station and found it to be by far the busiest place in town. When you stop to think that there are 1914 Fords registered in this county and that all these are Herrington customers you may readily see why they are busy.

In the mechanical department we found 12 workmen busy assembling and repairing cars. This department is well equipped with all modern machinery, workmen are paid good salaries, with plenty of light and room, they sing as they work and are a contented lot. Mr. Herrington, like Mr. Ford himself, believes in paying and treating his men well and for this reason he can give absolute quick and efficient service. He looks after all these 1900 cars and makes his customers satisfied. As an example, a man had paid out \$6 on a worn out battery and was not satisfied so Mr. Herrington gave him his \$6 and sold him a new battery. In the sales and parts rooms some six or eight persons are kept busy as a correct and complete record is kept of every transaction and as the sales of cars alone average from one to five cars a day, (having sold five cars last Saturday) there is something doing all the time. The parts department is kept so complete that an entire car can be assembled from the parts room at any time.

It will be interesting to know the complete registrations of cars in Mitchell county and here it is up to August 1, 1925:

Fords, 1914; Overlands, 87; Chevrolets, 86; Dodge, 91; Maxwell, 56; Buick, 42; Star, 26; Gray, 10; All others, 207. Total cars, 2419. Ford trucks, 205; all others, 18.

The above was taken from a chart in the Ford Sales room and Mr. Herrington says it was copied from the record book at the court house.

The records show: Ford cars and trucks, 2119; all others, 623.

Two field salesmen are kept all the time in the country, talking to the farmers, looking at the crops and keeping up with the prospective buyers. A close observation is made all the time and nothing is left to guess or maybe so. Mr. Herrington is a good advertiser and follows up his ads with personal work and has built up a wonderful business.

The easy payment plan and the extra bargains offered in used Fords enables almost anyone to own a Ford.

The book keeping department is the most complete of any. No bank or any concern has a more complete system. Absolutely a record is made of every transaction from 5c up. Any one can come in after a year's time and see what was bought, who sold it and the price paid, what work was done on the car, who did it, and the price charged.

By order of the Commissioners' Court the Herrington Service Station has been designated as a test station for the new headlight law and Mr. Herrington says he will put in a double station and the 25c charge is for a certificate and the work will be extra.

To illustrate the progressiveness of

this concern, they do lots of advertising and have recently paid \$100 for sign space on the street light at the Barcroft, corner in addition to the upkeep.

The Ford Sales and Service Station covers half a city block and is one of the show places in Colorado and all the West. (adv.)

#### Party for Mrs. Alexander.

Mrs. Alvin Myhre entertained most pleasantly in her new home on Thursday afternoon, complimenting her guest, Mrs. Alexander of Tyler. The lovely home was decorated with cut flowers. Brooks Martin, of Abilene, nephew of Mrs. Myhre, passed the score cards, which assigned places at ten tables. The guests were refreshed with punch during the games. The hostess served ice cream and angel food cake, assisted by Misses Mildred Martin and Virginia Stoneroad. Mrs. A. D. Martin of Abilene was an out-of-town guest.

#### Ice Cream Festival

The Woman's Auxiliary of the Episcopal church held an ice cream festival on Mrs. J. C. Prude's lawn, on Thursday evening. The Colorado Chamber of Commerce band rendered a concert. The auxiliary wishes to thank publicly the members of the band for the kindness extended in making the affair so successful. A very substantial sum was realized financially, as well as a very pleasant evening spent by all who attended the party.

#### Double Wedding.

Mr. Fred Carstensen and Miss Naoma Hayes of Ackerly, Texas and Mr. Grover Zerbst and Miss Alma Carstensen of Looney community were united in marriage at the court house. It is not known where they will make their home but their many friends wish them a happy married life.

**COTTON CONDITION IN TEXAS IS MUCH IMPROVED, REPORT**

**HOUSTON, Tex., Aug. 10.**—Rains falling during the last days of July and continuing into early August have done varying amounts of good. Practically all sections of the state were benefited, the precipitation ranging from less than an inch to several inches. Unfortunately the most important cotton section received the least help, the rains having been lightest in the south and central counties, as they had been for the past 14 months. While much improvement will result from the breaking of the drouth in a majority of the counties, not too much should be expected where less than 2 inches have fallen unless more rain comes soon. However, deterioration has been checked and the plants have at least a chance to develop.

Since the last report, up to the

last days of July, excessively high temperatures and hot winds have done great damage, the plants shedding forms, blooms, small bolls and leaves. The growth was checked except in favored localities a considerable amount of young cotton dying. Insofar as conditions can be generalized, it may be stated that the bulk of the crop ranges in height from 4 to 12 inches with from 3 to 4 bolls of varying size per stalk and a large proportion in the top. Weevil have been bad in only a few localities, but there are increasing reports of leaf worm and bollworm damage, since the rains. Except in the Valley most bales ginned thus far are from premature bolls.

Field examination at the time of the rains disclosed a penetration of moisture varying in depth from 2 inches to 4 to 6 inches. Where over an inch fell, the soil was soaked as far down as the hard plow soil, which has since been softened sufficiently to permit the penetration of the tap-root. With a warm fall and late frost, a large proportion of the crop should do fairly well notwithstanding the smallness of the plants and the lateness of the season. In the drouth area, the outcome is largely contingent upon more rain soon.

It is estimated that the August 1 condition of the Texas crop aver-

aged 49 per cent of normal, indicating a probable yield of 95 lbs. of lint cotton per acre. The July 16 condition was 56 percent, which pointed toward a probable average of 101 lbs. per acre.

**Northwest:** It had become very dry before recent rains which were of great benefit. High temperatures and hot winds burned considerable of the crop, causing shedding of forms and early fruit. The crop is taking on new growth since the rains and promises well. Much of the crop is small and will be late in maturing. Lice and boll worms have done some damage.

**North:** The hot, dry weather did much damage, the early planted had stopped growth and small stuff was shed. Rains since the 29th have helped greatly, especially the young cotton. A few bales have been ginned, mostly from premature bolls. The plants are generally small, but loaded. Boll worms are at work in places.

**Northeast:** This district has the highest condition in the state, but as elsewhere the crop is irregular, some fields better than last year and others not so good. On an average the crop is a few weeks early, yet much of the cotton is being picked from prematurely opened bolls. The heat during July caused considerable deterioration. There are some weevil and boll worms.

**West and West Center:** Rains have been of great help and many localities expect an average crop. It is several weeks late except in the favored sections; has small stalk but usually well loaded. With a warm fall and late frost, good yields will be made. The July drouth was severely felt.

**Center:** Good, slow rains beginning on the 30th were a great benefit, but more moisture is needed. Hardly any rain fell until late July, which, with the high temperatures and hot winds, set the crop back even further. Some of the late planted is just beginning to bloom. There are few grown bolls; some premature ones have opened. Plowing for feed crops has begun. Some sections have had 14 months of drouth.

**East:** The crop failed rapidly the 10 days preceding the rains, deficient moisture, hot winds, and high temperatures being the cause. Plants are in various stages, from very poor to very good. Picking has begun; bolls are opening prematurely. Late cotton suffered severely from the hot winds and the older shed badly. The leafworm has begun to work.

**South:** Rains ranged from light to heavy over the southern district, helping the crop very materially. The crops in a number of counties. Much of the early planted has been picked out, gins running day and night in the good sections. Young cotton has been greatly benefited by the rains, but is threatened by the weevil. Leafworms and bollworms are doing damage, particularly where mid-month rains had fallen. Many growers are applying poison.

**Southeast:** Few bolls have fully matured, many opened prematurely. Some of the cotton is very good, equal to the best in the state, but a considerable proportion is late and poor. If not affected too much by the weevil, the young cotton promises to do very well. Leaf worms have started.—Abilene Reporter.

**STAR PARASITE REMOVER.**

**A Wonderful Poultry Remedy**  
 Given fowls, in drinking water or feed absolutely will rid them of lice mites, fleas, blue bugs, and all destructive insects.

Contains sulphur scientifically compounded with other health-building ingredients; is a good tonic and blood purifier; nothing better for preventing disease. Give it to your fowls one month. If they are not healthier, don't lay more eggs and are kept free of destructive insects—your money refunded. For sale by Alceve Drug Company. 9-17c

**PUBLIC SCHOOLS FACULTY FOR COMING TERM IS ANNOUNCED**

Following is a list of the teachers who will make up the faculty of the Colorado Public schools, for the 1925-26 term, as announced by Superintendent R. B. Norman:

**High School**  
 Mr. F. L. Shannon (Austin College) Principal and mathematics.  
 Mr. William Brune (N. T. S. T. C.) mathematics.  
 Mr. C. A. Wilkins (J. T. A. C.) Major science.  
 Mr. R. H. Cantrell (T. C. U.) History.  
 Miss Ernie Marie Harper (Texas) English.  
 Miss Mae Goodlet (Trinity U.) English and History.  
 Miss Marjorie Way (U. of Mex.) Spanish.

Mrs. A. R. McHaney (Simmons) Science and economics.  
**Hutchinson School**  
 Mr. A. R. McHaney (Simmons) Principal.

Miss Josie McFarland (N. T. S. T. C.)  
 Miss Julia Boyce (W. T. S. T. C.)  
 Miss Gladys Webb (T. W. C.)  
 Miss Mary Terrell  
 Miss Thelma Mann  
 Mrs. William Brune (N. T. S. T. C.)

Mrs. F. L. Shannon (Austin College).  
 Miss Ethel Hollingshead (Simmons U.)

**Primary Building**  
 Miss Gertrude Herm (N. T. S. T. C.) Principal, first grade.

Miss Inez Butler, first grade.  
 Miss Euna O'Neal (Clarendon College) second grade.  
 Mrs. J. R. Norris, second grade.  
 Miss Pauline Davis, third grade.  
 Third grade teacher to be supplied.

**Mexican School**  
 Mrs. A. L. Wilkins (J. T. A. C.)

Principal.  
 Assistant to be supplied.  
**Negro School**  
 Mrs. Allie Walton

Assistant to be supplied.  
 All of the above teachers are teachers of experience and have always made good where they have taught. Teachers for art and penmanship will not be elected this year due to the effort of the school board to keep the expenditures within the limit of the resources at hand. It is unfortunate and is regretted by the board that these very practical courses should have to be discontinued, but the board can not give more than is provided for by the people of the district. This aptly illustrates how badly we need the dollar tax rate.

The schools will open Monday, September 7. Every friend and patron of the schools is urged to lay his plans so as to be present on that occasion to give the schools a push upward toward a most successful and harmonious session.

**\$30,000 DAMAGE AT FABENS WHEN RIO GRANDE RISES**  
 The property owners of Fabens, today were preparing to rebuild the city and repair damage, estimated at between \$25,000 and \$30,000 caused when a cloudburst sent waters swirling through the business district early Sunday.

The flood caused one residence, the telephone office and business buildings to cave in. Walls of other buildings have crumbled and structures are unsafe for habitation. A week ago the Rio Grande overflowed its banks, flooding the residence section of Fabens and destroyed eight homes.

Mesdames Fred Robinson and J. M. Lewis were hostesses during the week at an entertainment on the lawn in front of the community club house...

An elegant repast was served under the cool spreading trees in front of the community club house, and a most pleasant evening was spent.

Mr. and Mrs. Schimmings, who have charge of the park and house lent every aid possible in providing comfortable entertainment.

Among those present were Mr. and Mrs. F. B. Whipkey of Colorado, Mrs. J. B. Lewis, Mr. and Mrs. Aderhold of West and their two charming daughters...

While in Waco we were special guests of the Times-Herald folks and were highly entertained by those good people.

Mrs. Alexander of Tyler after a pleasant visit with Mrs. Alvin Myhre returned to her home Tuesday morning.

NEW OUTBREAK OF FOOT AND MOUTH DISEASE BEING FOUGHT

The second outbreak of foot and mouth disease in the State of Texas within ten months was confirmed on July 29 on the same premises, 20 miles southeast of Houston, where the previous outbreak began.

Even before a definite diagnosis had been made, the Bureau of Animal Industry and the State Livestock Sanitary Board had a force of experienced men assembled so that there was no delay in handling the situation.

An investigation is being conducted to ascertain if possible the source of the outbreak. Up to the present time the indications are that the present occurrence of the disease was due to infection harbored in some manner on the premises since the outbreak of last year.

The outbreak of last year occurred during the latter part of September on a ranch about 20 miles southeast of Houston and extended to other premises in Harris and Galveston counties, involving 48 diseased and exposed herds.

Jersey City, N. J.—Mr. George M. Downs writes: "When I was a trapeze performer traveling with the circus I contracted severe stomach trouble and nervous breakdown."

COLORADO SCOUTS LEAVE FOR ANNUAL BUFFALO TRAIL CAMP

Several Boy Scouts representing the different troop organizations at Colorado, left Monday shortly after noon for Camp Rudd, seventeen miles south of Roscoe where the annual Buffalo Trail Council tent city has become their temporary home for a period of ten days.

Many of the scouts are attending camp to work and study for additional merit badges, while others anticipate learning points on scouting in camp entitling them to pass the first class scout tests.

Camp Rudd is ideally located and when visited the latter part of the week by Sweetwater Scout officials and friends, had taken on the appearance of a tent city.

The main camp is located on an ideal spot where the slope, natural drainage and geography of the surrounding country combine to make the location excellent in every way.

Headquarters tent is at the west end of the company street, overlooking the entire camp.

A short distance down a gentle slope from camp is the kitchen and mess hall. The distance is just right for a short run before breakfast, and at a distance from camp that the utmost in sanitation is obtained.

The kitchen and dining rooms are on the banks of Silver Creek. A huge army stove with oven has already been set up. Tents for the cook and his helpers are near this second camp.

Two swimming holes, small but deep with rock and gravel bottoms, are upstream from camp. Straight up from the winding stream, tower gigantic cliffs, rock crags, overhanging boulders and rugged rocks.

Throughout the entire camp, scouts will be under close supervision of the experienced leaders, and in view of this and the Scouts' own experience and knowledge of camp life, no serious injuries, accidents or trouble are expected or likely to come.

CONFEDERATE REUNION HELD AT CRISTOVAL WAS SUCCESS

The reunion here of the Mt. Remnants Brigade, Fifth Texas Division, United Confederate Veterans, closed its annual reunion here Friday night.

The three days—Christoval, San Angelo and Brady days—were the best ever held here, according to the universal opinion of the veterans, and we are proud to know that the old boys of that "thin grey line" have enjoyed to the fullest the reception accorded them.

We could fill columns of the Observer in telling of the good things to eat and what was said and done, but space forbids—but we wish to say that those who helped to make this reunion such a glorious and grand success have the unbounded gratitude of the reunion executive committee.—Christoval Observer.

ABILENE VOTES \$710,000 IN SIX BOND ISSUES MONDAY

Abilene voters Monday passed six bond issues totaling \$710,000 by majorities of from four to one and six to one. The voting was light, a total of only 741 ballots having been cast.

The result of the balloting was as follows: Sewer bonds, \$50,000; for 573; against 89.

Waterworks bonds, \$250,000; for 582; against 105.

School building bonds, \$160,000; for 573; against 109.

Fire station bonds, \$50,000; for 546; against 117.

City hall bonds, \$125,000; for 555; against 143.

Auditorium bonds, \$75,000; for 518; against 164.—Abilene Reporter.

It is estimated that the cotton on the Kellogg farm, five miles up the river from Sterling, will yield one and a half bales per acre.—Sterling City News.

THE PRESBYTERIAN CHURCH
Sunday school at 9:45 A. M. Fine report last Sunday and the prospects are for a large and better Sunday school at the fall months creep on us.
The church and every department of the work is going fine.
Our beautiful new church building is slowly but surely nearing completion. We hope to be in it by the first of September. Everybody coming with their part will make it a

great time for every Presbyterian in Colorado.
Preaching at 11 A. M. and 8 P. M.
We would like for all the members of the church to be at Sunday school and would be very much pleased to have every one at Sunday school to remain for the 11 o'clock service and come back again for the evening service.

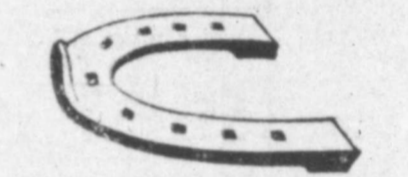

W. M. Elliott, Pastor
BAPTIST NOTES
You are invited to hear Dr. Menshaw next Sunday at the Baptist church. He has spent several years as missionary in China and it will help you to hear him. He is speaking in the pastor's place.
Remember the Sunday school. A new superintendent for Sunday morning. Come out and greet him.
Pray for the meeting at Spade where the pastor is in a meeting.
M. C. Bishop, Pastor.

EPISCOPAL CHURCH.
Reverend Frank Stedman, the new rector of All Saints', held evening services last Sunday. In his address, he outlined his new work in this field expressing pleasure for the privilege of being among us. Bishop Seamon has given Reverend Stedman three charges, Colorado, Big Spring and Sweetwater. Reverend Stedman announced that he was unable just now to tell what days of the month he would hold services in any of the above places, as he had not completed his plans. He left Monday for Sweetwater where he will hold services, going from there to Claco, his former residence to move his family to Big Spring this week.

Card of Thanks
We wish to thank our many friends and neighbors for their many kind deeds and words of comfort extended us during the sickness and death of our dear husband and father, Mr. W. C. Bush. We are indeed grateful for the beautiful floral offering. May God bless each of you.
The Bush Family

COMMISSIONERS' COURT HOLDS SESSION; TAX RATES FIXED

Commissioners' Court met in regular session Monday, August 10th, with all Commissioners present, A. A. Dorn, Jim Costin, John Lane, W. D. McAdams, with County Judge C. C. Thompson presiding.

The first attention was given to fixing the tax rate for 1925. The rate was made the same as that of last year, as follows:

General Fund, 25c; Constitutional Road and Bridge Fund, 15c; Special Road and Bridge Fund, 15c; Court House Interest and Sink Fund, 13c; Road and Bridge Interest and Sink Fund, 12c; Court House and Jail Fund, 10c. Total of 90c to be collected on each \$100 valuation of property.

The tax rate was fixed for each of the school districts in the county as follows:

No. 1, \$1; No. 2, \$1; No. 3, 75c; No. 4, \$1; No. 5, \$1; No. 6, 75c; No. 7, 75c; No. 8, \$1; No. 9, \$1; No. 10, \$1; No. 11, 75c; No. 12, \$1; No. 15, 85c; No. 16, \$1; No. 17, \$1; No. 19, \$1; No. 20, \$1; No. 21, 75c; No. 22, 85c; No. 23, 75c; No. 26, 75c; No. 27, 75c; No. 28, \$1; No. 29, 75c; to be collected on each \$100 valuation in each district.

The following item was then registered on the docket:

"The Commissioners Court hereby contracts with the Brown-Crummer Company to refund the bond issue for \$30,000 issue 1910 as per issue contract attached."

Sheriff I. W. Terry
Treasurer H. C. Doss
Justice of the Peace H. C. Lasseter

All submitted their quarterly reports which were examined and approved by the court.
Various and sundry bills, including road supervision, per diem, etc., were allowed and court adjourned.

R. U. BEAN WRITES FROM SALT LAKE CITY, UTAH

Colorado Record, Colorado, Texas.

We are having the time of our life. You and your force should be with us. We have been gone from Colorado since Saturday, one week ago. We came up the Raton pass one of the steepest mountain roads we have come to yet. It wound around mountains to top from there to Pueblo, Colorado, Colorado Springs, and saw Pike's Peak. No snow on it. From there to Denver, and the weather was like December down at home and from there to Cheyenne Wyoming and then we just began to see real Rocky mountains. We came up mountains for 100 miles

and down until we came to one of and then down that far and back up the deepest canyons that people say we will have on our trip. Out of this canyon down the mountain to Salt Lake City. I believe one of the prettiest cities I ever saw the streets are two or three times as wide as any I ever saw and the side walks are about three times as wide as any I ever saw and some of the finest buildings. All of the buildings are made from Granite as there are lots of it here. We—I mean W. R. Lourie G. W. Webb and myself—are the ones, went in and saw the Mormon Tabernacle. It is 250 feet long, 150 wide, 70 feet high. You can stand at the far end and man talking very low can hear him, as well as you were at his side. Will seat ten thousand people the pipe organ 50 feet high one of the largest, in the world and the Mormon church is one of the finest in town made of granite, cost four million dollars and took 40 years to complete it. This evening we went out to the Salt Lakes. Car lines run out there 18 miles from town. It covers over 23,000 square miles and then we went to the Capitol and saw it. This makes three capitals we have seen since we left home. We leave here tomorrow for Yellowstone Park and from there to Portland, Oregon, and then down the coast to Cali-
