

STATE-NATIONAL OFFICIALS ALLOT AID TO MITCHELL CO.

65 MILES BRICK AND GRAVEL HIGHWAY POSSIBLE THROUGH \$325,000 BOND ISSUE

Through special aid allotments made the county by officials of the State and Federal highway departments, Mitchell county citizens now have the opportunity of building a brick or other permanently paved roadbed on the Bankhead highway, and a gravel roadbed on Highway No. 101, 65 miles of as good highways as is to be found in West Texas on condition that a road bond issue of \$325,000 be authorized by the people.

This is the message brought to Colorado Tuesday night by County Judge Chas. C. Thompson, chairman of a committee representing this county in a series of conferences with Major A. R. Losh of Fort Worth, executive federal engineer, in charge of highways for the district of Texas, Oklahoma and Louisiana, and members of the state highway commission.

These officials were positive in statements to the Mitchell County representatives that no aid would be authorized to construct a gravel highway on the Bankhead. A gravel road, however, is acceptable on the north and south highway and this road is to be improved and maintained by the government across the county, on condition the bonds are voted.

For the Bankhead highway, a brick or other high class type of surfacing to be laid on sledge rock base, will be used. An engineer representing the state highway commission furnished an estimate on a brick road over the Bankhead highway at a cost of \$22,000 per mile, owing to the fact that much of the grade work had been done and but little expense would be incurred in building drainage structures. This project was estimated at \$704,000.

For the north and south highway a good gravel road is proposed, costing \$220,000. It was estimated that this highway could be constructed at a cheaper cost per mile than any other road in this county owing to the fact that excellent materials are to be found along the highway from Colorado south to the Sterling county line.

"Such an offer is almost two to one on both highways in this county," Judge Thompson declared, "and I have the assurance that Mitchell is the only county in the State to which such an offer, even to improve federal highways, is extended. Highway No. 101 is only a state designation. To my mind the government is extending us a highway improvement offer we cannot afford to turn down."

Following conferences between members of Commissioners Court, the Chamber of Commerce and Lions club last week, it was determined that this county must do something to improve its highways, owing to the declaration made by State and Federal officials that the gap in Mitchell county must be closed. The three organizations represented expressed themselves as favoring no program except one which would benefit the entire citizenship of the county and one in which it was believed the greatest number of voters would concur.

A committee of which Judge Thompson was chairman, Jno. D. Lane, J. Ralph Lee and W. S. Cooper, were sent to Austin to confer with the State Highway Commission. They first entered into conference with Mr. Losh on the highway situation in this county and the federal official was in Austin to lend his influence in obtaining the best offer possible.

It is believed that petitions requesting an election to determine whether the proposed bonds shall be authorized will be circulated within the next few days.

"Highway construction costs are much cheaper now than a few years ago," a member of the committee stated Wednesday. "We were in conference with one of the largest highway contractors of the State

OIL DEVELOPMENT WILL BOOST COUNTY WEALTH

Development in the Mitchell county oil field will do more than any other agency to boost property values, according to County Judge Chas. C. Thompson, who stated Wednesday that he predicted an increase of not less than two million dollars in property valuations within the next year.

As shown by the tax rolls, Mitchell county property values are now approximately \$8,000,000. "If the oil industry assumes the large proportions we expect, county valuations will go to from ten to eleven million dollars in 1926," Judge Thompson stated.

Roy E. Warren, county tax assessor, recently stated that \$600,000 of the gain in property valuations for the current year was represented in oil holdings.

DEEPER DRILLING DOUBLES FLOW IN MITCHELL WILDCAT

The following article, written by Jno. W. Naylor, oil editor of the Fort Worth Star-Telegram, was carried as the feature story in the oil section of that paper for Saturday:

Two feet additional drilling, following the setting of pipe and drilling down, has doubled the natural flow production of the Magnolia's Foster wildcat on the Mitchell-Howard County line, according to a report to the Star-Telegram from Colorado. The pay formation, which is a sandy limestone, similar to that of the Westbrook and Big Lake fields, has now been penetrated a total of four feet. It was topped at about 2,870 feet. Production for the 24 hours ending at 5 p. m. Thursday is reported 480 barrels. The test has been making about 10 barrels per hour by heads since its first flows in the latter part of August.

It is located in section 17, block 29, township 1 South, T. & P. Railway Company surveys, and is about seven miles from the original Westbrook field in Mitchell County.

The production is considerably larger already than in the Westbrook field, which, due to sand conditions, gives up small initial productions, though producers in which production holds up well. The showing has enhanced interest in the new field. Marland California Company and Gulf are owners of considerable acreage in the territory opened up.

About an equal distance further south from the Foster wildcat, the No. 1 Hyman-Scott of the Deep Rock Oil Company is reported preparing to pass up a 1,300 foot show which promised about a 30 barrel well when encountered unexpectedly with a big hole, after inability to shut off water carried from a sand a short distance above it. This test is in section 88, block 29, W. and N. W. survey, Howard County.

JOE BURKETT IS SUED FOR DIVORCE BY WIFE, STATED

EASTLAND, Texas, Sept. 21.—Suit for divorce has been filed in district court here by Mrs. Fanny Burkett against her husband, Joe Burkett, member of the state highway commission.

The papers were filed September 12 but no announcement of the action was made at that time.

Mr. Burkett was a member of the state senate and was a candidate for the democratic nomination for governor in the 1924 primaries. They have five children. An answer filed by Mr. Burkett denies charges and arrangement for care and custody of the children is suggested.

and he proposed to guarantee that a brick road, of the best type, could be built over the Bankhead highway in this county at \$22,000 per mile." The contractor recently inspected route of the Bankhead through this county and stated that because of the good grades already built over much of the route, together with drainage structures already in place, a brick road could be built at nominal cost. "I would be glad to enter into contract with your county to construct such a type of road at \$22,000 per mile" he is quoted as saying.

BIG SPRING STEERS GET SHUT-OUT IN GRID BATTLE

WOLVES TAKE VICTORY FROM VISITORS TO THE TUNE OF 13 TO ZERO

That Colorado is to have a real foot ball team this year was fully manifested last Friday when the team under the able coaching of (Big Jim) Cantrell romped all over Big Spring in the initial game played on the local gridiron. A large crowd estimated at 500 loyal fans cheered the team as it plowed the Big Spring line and won 13 to 0. Scoring two touchdowns and one goal kick, while the opposing team never once threatened to score.

For an hour after the game the supporters of the Colorado team showered the players with congratulations and paraded the streets in a frenzy of joy and gave evidence of the fact that Colorado is behind the team and believe that this year signal honors will be won.

The first half of the game was uneventful neither side making any substantial gains, each team making but one first down, as they saw-sawed back and forth in the center of the field, but it was plain that Colorado had the edge on their rivals as they displayed uncanny judgement in locating the ball and breaking up attempted plays.

At the beginning of the third quarter Colorado came on the field with determination and their faces soon after the kick off recovered. Spring's fort yard line passed the ball to Gist, West Texas champion sprinter, who made a beautiful forty yard run for a first touch down. Gist kicked, but Big Spring fought viciously after that but were unable to make any progress. Pressed back to their own twenty yard line on an attempted punt, Rix of Big Spring fumbled the ball and when the dust cleared away Gist and Thompson were side by side with the ball in Colorado's possession. After that both teams played desperately but neither team was able to win much ground over the other, and when the final whistle blew the ball was almost in the center of the field.

The game was marked by clean play on both sides, with little squabbling and no players injured. Big Spring had a large crowd of fans and much good nature indulged in on the pep squads" as they favorites and roasts. Every business house in Colorado had signed to close for the game. A Medal Band was out for the occasion.

Prof. Norma stated after the game "I am sure that school patronage of school spirit which was a Big Jim modulation of the praise to each splendidly marveled them. The official referee, W. umpire, E. O. man, W. L. McHaney.

Next Friday Colorado for good enthusiasm should be all Colorado team and success. Go behind you.

Some ago the T. E. L. appointed captains in increasing the losing side to enter. Mrs. J. L. Bowen and Mrs. Stoneham were the winners. A picnic in the cantalany home. Thirty all were winners in Toasts were given to the losers and by class.

COLORADO SCHOOLS NEED MORE ROOMS-EQUIPMENT

STATE SUPERVISOR AND PROF. NORMAN POINT OUT MANY DEFICIENCIES FOUND

Below are excerpts from the report of the Supervisor of high schools who visited the Colorado Public Schools last session. "Fourteen classes pass the maximum enrollment. Some go beyond forty. This condition threatened the classification of the school." If it was threatened last year it must surely come to pass this year unless something is being done to relieve conditions that exist by the time of the visit of the supervisor. Every bad condition due to lack of facilities and room that existed last year exists this year in an aggravated form. The increase in enrollment in the high school for this year is equal to the total enrollment in the high school six years ago. The enrollment to date is 275. This is about 75 above the capacity of the high school building even allowing all the rooms to be filled to capacity which would go beyond the number allowed for classified schools.

"Besides this it would be the part of wisdom to give each teacher at least one period without class recitation or supervised study. Relief is needed and some time should be provided for library work and individual conference." This year the teachers are not only on duty the entire day but some are teaching six recitations which is not permissible and which will prevent securing affiliation in at least one subject. The only thing that will relieve this condition is a large study hall where all students who are not in a recitation may repair to study. Some classes which have as many as forty are compelled to sit in a room where from 10 to 20 are already sitting for study. And this with the capacity of the room not more than 35 or 40. These might be sent to a study hall if there were one and if we should have a teacher off duty to supervise it."

"That Colorado needs more room for the high school. The need is such that a new high school building would be advisable. The high school has outgrown its quarters. Some of the rooms are crowded to capacity; one of the rooms of the elementary school is being used by the high school. Something must be done to relieve the classes which have an excess of thirty students. No room seems available for the overflow. A new auditorium is needed for the school and the town." The present auditorium does not even seat the present high school. Some sit on the floor and others stand during assembly.

"Home economics, manual training, and the commercial subjects should be a part of the course of study but these additions are seemingly impossible under existing conditions. The library is entirely too small to accommodate over two hundred students. Colorado should go forward with this building program and have by the session of 1925-26, a plant which will meet the needs of a growing city and which will be a source of pride to its citizenship. A good school is a chief asset and an adequate building is fundamental to a good school."

"That unless some assurance is given that a building program will be launched, temporary quarters should be provided to relieve the crowded conditions."

To those who know how much greater the needs of the high school are now than they were when the above was written no comment is necessary. With the enrollment increased thirty per cent we may well be prepared for the worst when the school has to give an account of itself this year. We believe we have the situation well in hand and that the schedule is well arranged, but there is a limit to the resources of greater organizers than ourselves when it comes to making room where there is none.

Perhaps the greatest need in the high school, and this is not general-

CLOUD BURST AT BUFORD TAKES BIG DAMAGE TOLL

One of the heaviest rains ever recalled by "old timers" fell at Buford during the night Tuesday, taking a heavy damage toll in washouts to fields, public roads and other property. Farmers of that community who were in Colorado Wednesday reported that five inches of rain fell there within a short time, flooding the country with from six inches to four feet of water.

The Colorado-Snyder highway, which passes through Buford, was covered with four feet of flood waters over a distance of two miles. A section of the bridge across Little Sulphur was carried down stream by flood waters and the county sustained other damage in washouts to the roads.

One farmer reported that his field of cotton, which is low and level, was completely covered with flood waters. "Over a part of my farm" he stated, "the water rose above the cotton, giving my farm the aspect of a great lake."

BEETS EQUAL TO THE BEST GROWN ON MITCHELL LANDS

This week farmers and truck growers of the Colorado territory have demonstrated that this section has no superior in the production of beets, as well as an almost unending list of other vegetables. Beets gathered from the lands of two farmers, one south of town and the other north, are on exhibition at this office. They are perfect in formation and of large dimension.

T. T. Allison, truck farmer of south of Colorado, and J. T. Garrett, of Buford, are the farmers producing these fine beets. Melons, fruits, and scores of varieties of our most popular vegetables may be grown in Mitchell county soil to the credit of the county.

AMERICAN LEGION OFFICIAL WILL VISIT COLORADO POST

G. L. Folbre, state adjutant of the American Legion for the past three years, will visit Colorado next week to deliver an address at the local American Legion building, according to information given The Record by Judge Chas. C. Thompson and W. S. Cooper. Mr. and Mrs. Folbre were passengers on the Sunshine Special through here Tuesday night and promised the Colorado men, who rode on the train with them from Fort Worth to Colorado, they would visit this city en route to Dallas next week.

Mr. Folbre is general agent for the Two-Republics Insurance Company, with offices at Dallas, Fort Worth and El Paso. During the recent state convention in Fort Worth he was seriously ill in a hospital and unable to attend the sessions. He is in El Paso to spend a few days recuperating.

Coach Cantrell and his formidable "Wolves" are in excellent condition to meet the attacks of the Midland Colts in Colorado's second grid battle of the season which will be called at the local grounds Friday afternoon at 4 o'clock. Midland is coming with two full teams and with several hundred enthusiastic fans, determined to take from Colorado some of the honors attained by the local team last Friday when the Wolves rendered to Big Spring one of the most severe defeats ever received by the Steers.

Superintendent R. B. Norman of the Colorado schools declared Wednesday afternoon that the splendid moral support given the home team last Friday had much to do with the fighting qualities of our boys. Colorado fans who are really interested in the local team and would witness these boys bring additional honors to the city are urged to be on the side lines Friday afternoon when the game is called.

Pay Your Dues.

The membership chairman and her workers of the Parent-Teacher Association are giving time to soliciting dues as they hope to finish the drive this month. Help them by paying your dues and remind your neighbors to pay theirs.

MAGNOLIA WILDCAT OPENS BIG PLAY IN LOCAL FIELD

RIGS UNDER CONSTRUCTION AT LOCATIONS ANNOUNCED LAST WEEK

Magnolia Petroleum Company's Foster One, wildcat on the Foster ranch five miles south of Iatan, has become the big sensation in oil circles in this territory. After drilling two feet deeper in the pay sand last week production was doubled and the head flow became for frequent until the last gauge registered 540 barrels a day. This was an eight hour test and twenty-two and one half barrels of crude came by natural flow per hour from the well into storage.

Storage at the well has been filled and the well closed down pending arrival of tankage cars which are now in transit from Houston. The company has completed a three inch pipe line from the well to loading rack at Iatan, through which crude from this and other wells to be drilled in that vicinity will be handled. A large tank farm is to be constructed on the company's property at Iatan.

The Magnolia has new steel derrick up at location on the J. T. Chambers lease 660 feet southwest from the Foster well. Morrison & Thomson have made location further to the southwest on acreage between the Marland test and Hyman One of the Deep Rock Oil Company.

At the Deep Rock well the crew has passed up the sand encountered at 1,300 feet and will drill for deep production, believed to be found at from 2,600 to 2,700 feet. The shallow sand would have developed a production of from 15 to 20 barrels of high gravity oil.

Development on the largest scale ever known in this county is scheduled along the structure between the Magnolia and Deep Rock wells. Buyers continue to bid high for royalty and lease holdings in that vicinity. Local oil men believe that the Magnolia Foster well, when drilled in, will produce from 500 to 2,000 barrels daily. The company will drill the well in as soon as adequate storage on the tank farm is available.

The California Company announces one new location for the week, which compared with the four made last week is an appreciable decline in immediate development. This however, is not accepted as an indication that the company plans to hold up its established program of keeping several drilling tests under way in the Westbrook sector. Rigs have been completed on one of the locations announced last week and materials are on the ground for three others.

The new location is in the Abrams lease, section 33, block 28 and will be known as Abrams No. 10. Several producing wells are in close proximity to this location.

Morrison 14 is drilling at 2,905 feet and should be in the deep pay by the end of the week. At Elder 2-4 the cellar is complete and rig materials are being hauled in. At Womack 2 and P. W. Miller 2-1 the crews are rigging up to spud. Rig is under construction at P. W. Miller 2-2.

The C. E. Wood well of the California Company, located on acreage north of the Colorado river in Scurry county, was drilling at 3,430 feet Thursday morning.

FT. WORTH RECORD WRITER SPENT FRIDAY IN THE CITY

Hamilton Wright of Stamford, West Texas editor for the Fort Worth Record spent Friday in Colorado the guest of the Colorado Chamber of Commerce. Wright was here to obtain data for publicity matter to be run in his paper.

Friday morning Mr. Wright was shown through the new refining plant near town. At noon he addressed the Lions club. This was the second time within a month that staff representatives of the Record had visited Colorado. Edwin J. Clapp, financial editor of the Record and other Hearst publications, was here a few weeks ago.

Mrs. Mills of Angus visited her daughter, Mrs. Hughes and son, Mr. Mills over Sunday.

**Test For Neel Ranch**  
The derrick has been completed on the A. D. Neel ranch in Glasscock county, for a deep test. Location is on section 27, block 33, Tsp. 3 S. Choate and Henshaw are to make this test on a lease secured by the Marland Oil Company. The derrick is one of the best and everything will be in readiness to

spud-in during the present month. Choate and Henshaw are drilling the O'Daniel well, and they are also to drill on other tracts blocked up by the Marland Oil Company. 14 quart enamel dish pans at 40c at McMurry. Roberts Top Shop has the best tops.

**OIL SHOWINGS IN HOWARD COUNTY DEEP TESTS**

**At O'Daniel Test Well**  
Work on Choate & Henshaw's test well on the O'Daniel ranch in the eastern part of Howard county was suspended last Sunday night. The order to cease drilling came after an oil showing was encountered at a depth of about 2100 feet. The exact cause of cessation of work is not known as the oil showing does not seem to be sufficient to warrant an attempt to develop same.

**Fred Byer Test Drilling**  
Drilling on the Fred Hyer test well on the H. R. Clay ranch, eighteen miles southeast of Big Spring is now in progress.

This well was spudded in the first of the week and is expected to make good time. A big oil engine furnishes power for drilling. A well was drilled to insure ample supply of water for drilling purposes. This well is located on the structure, on a line between the Mitchell and Reagan county oil fields.

**Marland Co. to Start Development**  
The Marland Oil Co., is moving its Texas headquarters from Houston to Fort Worth, Texas, in order to be nearer the big development in West Texas. It is said the Marland Co., has already secured nine large tracts along the Marathon Fold (between the Mitchell and Reagan county oil fields on which they expect to carry on development work. The officials of the company would not make such extensive plans were they not convinced that the oil is in this territory and it is just a question of locating the right spot with the drill.

**At Gulf's McDowell No. 2**  
A fishing job on the Gulf at McDowell No. 2 well, on the McDowell Ranch, 20 miles south of this city, has delayed progress this week. They were drilling below 2000 feet when the tools were lost. That the formation is not running the same as in the other wells on the McDowell tract is evident from the fact that no oil sand was encountered at the 1900 foot mark and the gas showing was struck at a point 500 feet shallower. Oil sands have been encountered at 1900 feet, 2565 feet, 1980 feet and 3780 feet in the wells previously drilled on the McDowell ranch.

**Sterling County**  
The drill at the Deep Rock Hyman well on Section 88, Block 29, W. & N. W. Ry. Co., four miles west of Hyman, in the southeast part of Howard county, encountered an oil sand Wednesday around 1300 feet. Bailing yesterday indicated that the well was producing about 20 barrels of oil and about 3 barrels of water. The sand, which is an excellent loose, coarse oil sand, was penetrated only two feet. Ben Case, drilling contractor on the Hyman well, stated that casing would be set today to shut off the water, which is above the oil sand, and then the well would be deepened and given a thorough test. Operatives believe it to be a good well. Paul S. Odward returned a few days ago from Oklahoma where he had been negotiating with parties with a view to developing the Durham oil field. He led us to believe that within a short time several more shallow wells would be drilled in the vicinity of Durham Nos. 1 and 2. The Hull well's fishing past 3,000 feet. The drillers are hopeful of cleaning the hole without delay. Considerable gas showing was encountered in this well a few days ago, and it was reported that the material was very encouraging for oil. Wrightsman's Foster No. 1, 13 miles southwest of here, is drilling past 1600 feet, and an average of about 40 feet of hole per day is being made. The log of this well shows that it is about 100 feet higher up on the structure than the Hull well, which is located a few miles to the southwest. After skidding the rig, White Eagle's Mills No. 1, on Section 33, in Block No. 22, H. & T. C. Ry. Co., 11 miles southwest of here, is drilling past 400 feet. Clark well No. 2, on Section 10, T. C. Ry. Co., 11 miles southeast of here, was spudded in the latter part of last week, and the drill is going steadily. This is the beginning of four shallow tests to be made on the Clark lands in the near future. J. S. Meriwether is here arranging for the resumption of drilling at the Douthit well, 18 miles northwest of Sterling. Mr. Meriwether stated that drilling would begin today and continue until the well was completed. A little later on a standard rig will replace the present rotary outfit. D. A. Hoover reports that drilling at the Cedar Hill well, 13 miles northeast of Sterling, will be resumed today. W. F. Cushing, who lives up the river valley and just over the line of Sterling and Glasscock counties, reports great activity in leasing in his vicinity. He says preparations are being made to put down a well in Block 29, W. & N. W. Ry. Co., a few miles north of his ranch.—Sterling City News-Record.

**At Deep Rock Oil Co.'s Test**  
The work of casing the water off in the Deep Rock Oil Co.'s Hyman No. 1 in the southeastern corner of Howard county was successfully completed the forepart of the week and drilling has been resumed. An oil sand 3 feet in thickness was drilled thru near the 1300-foot mark. While it is considered this sand is good for from 3 to 10 barrels per day, it has been decided to drill on down to the depth of 2870 feet, at which depth the Magnolia secured a commercial well. The Magnolia's well is about nine miles northeast of the Deep Rock's test and geologists claim on practically the same favorable structure.

**Magnolia Co. To Open Big Field**  
The Foster No. 2 of the Magnolia Petroleum Co., continues to flow at the rate of eighty barrels of oil per day and the company is making arrangements to develop a real oil field in the section four miles south of Iatan. The work of establishing a tank farm, loading racks, etc., on the 640-acre tract of land recently purchased near New Iatan is going forward. This land lies along the Texas and Pacific railroad and a pipe line will be laid to the Foster No. 2, about four miles southwest. Material for an off-set test is being placed on location. This off-set is to be south of Foster No. 2. That the officials of the Magnolia Co., plan an intensive drilling campaign may be gleaned from the fact that they are endeavoring to lease that they are endeavoring to lease ten miles distant from their holdings, of 14,000 or more acres.

**When Cecil B. DeMille's picturization of "The Ten Commandments" started its record making run of 62 weeks in New York, all the metropolitan writers were unanimous in their praise. George Mitchell, who reviewed it for "Judge" said: "Very frequently we have felt that there were too many commandments, but after having seen this production, we'd add another; See the Ten Commandments. This extraordinary Paramount picture now comes to the Palace Theatre for the first popular priced engagement since it was nationally shown at a \$1 and \$2 scale of admissions, September 30 and Oct. 1.**

**COTTON IN TEXAS BE FAR SHORT OF LAST YEAR RECORD**

AUSTIN, Texas, Sept. 19.—Approximately 1,000,000 bales of cotton have been ginned in Texas this year and about 650,000 bales have been sold, George B. Terrell, commissioner of agriculture, said today. About 20 per cent of the crop is being held for better prices by co-operative companies and individual farmers able to hold, said Mr. Terrell.

"A careful tabulation of the reports of our correspondents indicates that the Texas cotton crop will be about 2,675,000 bales," he said. (About 2 million bales under that of last year). "No amount of rain will increase the production of cotton in Texas this season but heavy rains or early frosts may materially reduce the production. "The present price of cotton is below the cost of production and if the total crop this year in the United States is not more than 13 million bales, the price should advance to 30 cents a pound. "Domestic consumption and exports of American cotton amounted to 14,000,000 bales during the cotton year just closed and unless the crop this year should reach 14,000,000 bales, there will not be enough cotton to supply the demand and the price will advance. "Reports made by the commissioners of agriculture of the cotton growing states at the meeting held in Memphis, Tenn., September 14, show that the total cotton crop will be 12,937,000 bales.

**QUALITY AT LOW COST**

Chevrolet has now built 2,000,000 cars—the first manufacturer of automobiles with modern sliding gear transmission to reach this tremendous production. This achievement has been made possible because Chevrolet has met the great public demand for a quality car at low cost. Chevrolet has a construction typical of the highest priced cars—powerful economical motor and disc clutch, bodies of beautiful design, closed models by Fisher, Duco finish, interior of cars beautifully and substantially upholstered and fully appointed. Be sure to see these cars that have achieved so great a degree of public favor—and learn how much automobile you can really get for little money.

# The Ten Commandments

## FACTS ABOUT THE MIGHTIEST OF ALL SPECTACLES

"The Ten Commandments" were accepted as the theme of the great production after a world wide contest for ideas and suggestions had been carried on for months. Eight different persons out of 30,000 hit upon this subject and were awarded a proportionate share of the first prize money.

To bring before the people the moving elements of the impelling story of the Exodus required the building of a special city known as Camp DeMille, California, covering an area of 24 miles of rolling sand dunes. To this location were transported 2,500 men and women and children and 3,000 animals.

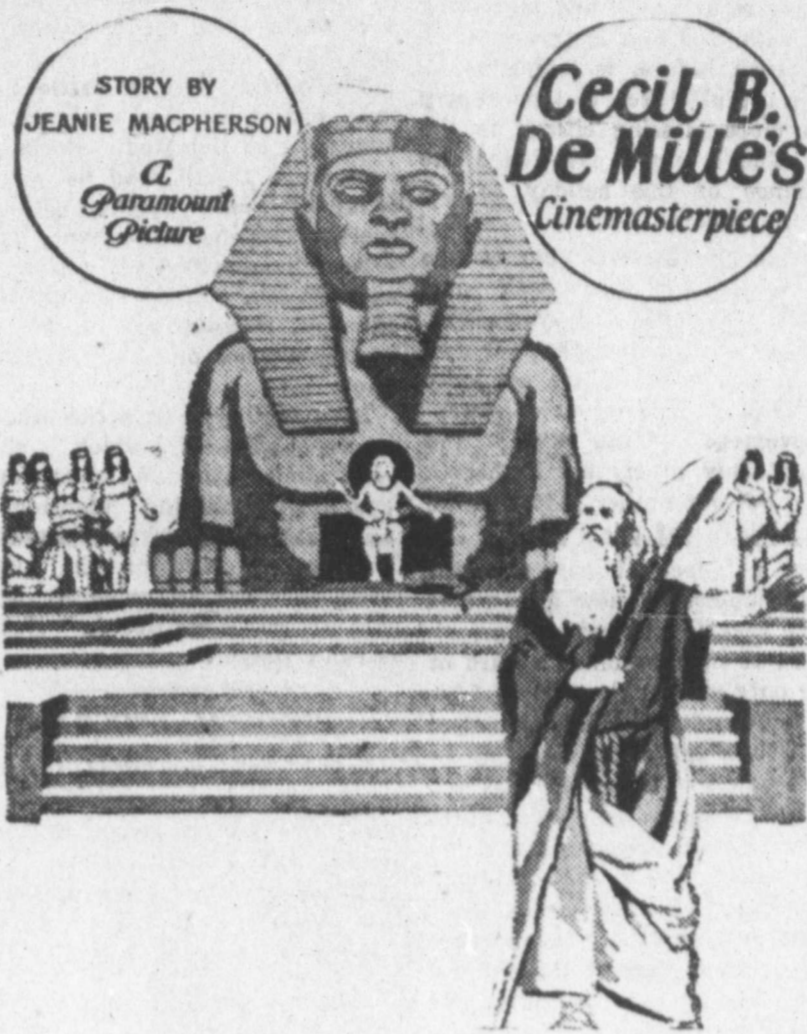

To reproduce the City of Rameses required 550,000 feet of lumber, 300 tons of plaster, 25,000 lbs. of nails and 75 miles of cable and wire.

Four huge statues of the Pharaoh were 35 feet high each. To build them called for 15 tons of modelling clay and 100 tons of plaster.

Two giant pumps raising 100 gallons of water per minute were kept filling four tanks of 18,000 gallon capacity each.

One hundred and twenty-five cooks and helpers were employed daily to feed from 1,200 to 2,500 people.

250 Soliders and 7 officers of the U. S. army from the 11th Cavalry and the 76th Field Artillery from the Presidio, Monterey, were used as chariot drivers.

## The Players

### CAST OF PART ONE.

MOSES, the lawgiver ..... Theodore Roberts

Popular prices afternoon and night, 25c and 50c. Please notice our readers and special advertising on this picture in this week's paper.

### NO GREATER SERMON WAS PREACHED FROM SCREEN

Clergymen of all denominations are urging their congregations to see "The Ten Commandments."

The Reverend Dr. Chester C. Marshall wrote of it in "The Educational Screen" as follows:

"When it was reported many months ago that a commercial company was filming 'The Ten Commandments' many of us felt that this was apt to be something of a travesty on one of the sublimest and most epochal events of history.

"When the picture was first produced in a New York theatre at top-notch prices, I attended with a group of clergymen as guests of the management, expecting to see a great spectacle, and also prepared to see violence done to the real spirit of the Decalogue and of the method by which the law was given to man. Frankly, I may say, we were a critical group.

"Two hours and a half later we emerged from the theatre onto the Great White Way, to be suddenly jarred back into the world of realities. The evening rush hour was on; the floods of humanity were surging by in two mighty currents, and there at the entrance stood a woman selling copies of 'The Athiest.'

"No, let us rather say we came from the world of realities as spread before us on the screen, out into a world of unrealities. God has rarely been more real to us than he was for the space of one afternoon.

"If one message above another is needed by our pleasure loving, law breaking age, this picture brings just that message.

"Thanks to a motion picture company, a director, a scenario writer, actors and all others who are bringing this message to millions of people. Every American owes it to himself to see the world's greatest and best motion picture.

"There is one question we can not avoid asking. Why, when such sublime and holy things can be presented in such an entertaining and fascinating manner, must we have such filth, slush, trash and stupidity unfolded before our eyes as we have in the average film?" See 'this picture' at the Palace October 1, 2 and 3.

KEROSENE in Bulk, call 414. The best O. O. Shurtleff.

### BIG SPRING HERALD CELEBRATES ITS MAJORITY

One of our most popular exchanges is the Big Spring Herald which last week celebrated its 21st anniversary. It is now a full grown "man" amongst the newspaper fraternity. The Record extends its hearty congratulations on the successful editorial and business management which has made this achievement possible. It takes more than a mere modicum of brains and patience to start from a small office with hand power machinery and a small clientele and battle successfully into the great printing plant with the fine patronage the Herald now possesses. Only those who have passed through similar experiences can appreciate what this means.

The Herald is now a large, clean, newsy weekly serving well and adequately the needs of its territory and deserves the splendid support it is receiving. May it continue long to enjoy the confidence it merits and continue to serve the interests of this rapidly developing West Texas country.

Following is the editorial notice of its having reached its majority, as it appears in the last issue.

This is our twenty-first birthday anniversary, and now The Herald is of age. We have not planned any kind of a party or celebration that would make our reaching maturity more impressive, but if we were entertaining, every friend of this paper would be included in the hospitality. We appreciate the loyalty shown to us by our friends through these years, for without your help we never would have succeeded. We know that you have helped us, and we hope that we have helped you.

At the time we started in business in this city, the newspaper game was a struggle from start to finish. In the first place, small country towns were unable to support a paper, as each man struggled hard to support himself and his family with the bare necessities of life. We started business in a small wooden building, about fifteen by twenty feet, including the front porch. The machinery that we had, took effort to get in operation, and after it was started it was subject to frequent breakdowns. Our press was a Grasshopper Prouty press, and was run by the power of a gasoline engine. Our job press had a foot pedal on it and to stand at this press ten hours a day

to get a \$10.00 job wasn't unusual. Our office force consisted of three men, the editor and two printers. All of the composition for the paper and jobs were set by hand, and the papers, too, were folded by hand. The processes were slow and we worked under difficulties.

However, in a few years, new improvements on the machinery of the printing office were introduced, and much to our pleasure, the work was lightened, and the rate of production was increased. Almost yearly, additional improvements were made, and while our industry was growing and beginning to prosper the town as a whole had begun to increase in population, as well as in industry. The newspaper game seemed to be a more promising business, than in our youth, so in 1910 we erected the building, which is our present home, and decided to be permanent residents in this city.

We felt that prosperity was ahead of us, with the town growing so rapidly, and with such a fine lot of citizens, who cooperated and supported the newspaper on every hand. Their liberal patronage has enabled us to enlarge our office, by putting in modern machinery, and increasing the members of our office force, and to them thanks is due for a share of the prosperity that we have enjoyed.

We want to express our appreciation to our friends for their loyalty to us through these many years. We have endeavored to serve you at all times fairly and to the best of our capacity, and we hope to continue to enjoy your friendship and to be of service to you. We always want to present you with the news, leaving out all unbiased ideas and prejudices that are likely to be present, and we do not want any of our subscribers to feel that we show partiality or favors to a chosen few. What you do and say is just as important to us as what any other fellow does, regardless of who he is or what his occupation is. What we want is news that will be of interest to our readers. You can help us to improve the columns of our paper, if you will cooperate with us in this matter.

If you enjoy reading our paper, we are glad, and will appreciate you telling us so. Also tell your neighbor or any newcomer why you like the paper. Any suggestions from you that will improve our columns will be given our attention, because the purpose of the country weekly is to serve the people of its community,

and this is our endeavor.

An early visit to our office to pay up your subscription, will be an appreciated anniversary gift, and we will welcome any gifts from new subscribers who desire to enter their names on our regular mailing list.

### THE LITTLE THEATRE

With fingers weary and worn,  
 And hands that were red and raw,  
 The boys and girls in overalls  
 Weilded the hammer and saw.  
 Pound! Pound! Pound!  
 The echoes resounded on high,  
 We know they were brave by the  
 service they gave  
 While the tacks and shavings fly.

Work! Work! Work!  
 Till the brain begins to swim,  
 Work! Work! Work!  
 Till the eyes are heavy and dim  
 Nail and hammer and saw,  
 Saw and hammer and nail,  
 The scenery is made! Tra-la-la-la!  
 Thus endeth the weary tale!  
 —(With apologies to Thomas Hood)

The Little Theatre has a whole set of scenery all its own! If you could have peeped into the Legion Hut any time Saturday you would have seen a group of young people in overalls, wielding hammers, saws and scissors, working faithfully on the scenery for their first three act play, "Come Out of the Kitchen." We are greatly indebted to Mr. Otis Jarmom for his expert ability as a "stage carpenter"; his worthy assistants were Miss Sterling Cooper, Miss Margaret Sandusky, Charles Taylor, Miss Agnes Oliver, Miss Maxine Root and Mr. Grady Newman. The "set" will be painted this week. If you like to paint see Miss Cooper. We wish to announce that rehearsals will start right away.

### TOM GREEN COUNTY VOTES HALF MILLION ROAD BONDS

SAN ANGELO, Sept. 22—By an overwhelming vote in Saturday's election, voters of Tom Green county authorized a road bond issue of \$500,000 to finance construction of additional paved highways in this county. The bonds are to be matched dollar for dollar, by the State Highway Department, giving the county a new highway building program of one million dollars.

For the Essex Coach Delivered in Colorado. Price Auto Company, Distributors.

## MISSION THEATRE

SEPT. 25 AND 26

"The Outlaws Daughter"

With Josie Sedgwick, a dandy western you will enjoy. Comedy—"THE HOBBO."

MONDAY AND TUESDAY  
 SEPT. 28 AND 29

"Frisolous Sal"

A big western melodrama starring George O'Brien, Mae Bush and Ben Alexander. Dont miss this western with a special cast Comedy "LION LOVE."

WEDNESDAY - THURSDAY  
 SEPT. 30-OCT. 1ST

"Black Lightning"

Staring Thunder, the marvel dog, supported by Clara Bow and star cast. This is a wonderful out-door picture that you cant afford to miss. A wonderful cast, a wonderful dog, and wonderful out door scenery. Comedy "SIT TIGHT."

FRIDAY & SATURDAY  
 OCT. 2 AND 3

"Ridin' Thunder"

A JACK HOXIE western, its good, he always is, so you cant go wrong here.

Comedy "Straight and Narrow"

Dont forget we will show the "Rainbow Trail" some time in October. Watch for the date. We were very sorry to disappoint you in not having this picture as advertised on Wed-Thurs., but they just didn't send it out. However we will get it within the next week or two.

## JEWS OF COLORADO CELEBRATE NEW YEAR LAST SAT.

The following article was written for The Record by M. Levinson of the Public Market. It is relative to the Jewish New Year. Read it.

On Friday night the Jews of Colorado, Lamesa, Slaton, Big Spring and Midland gathered together at Mr. Bodzin's house to engage themselves in solemn prayers and celebrations of the Jewish New Year, 5686. These traditions were strictly observed while the Jews were in their own temple in Jerusalem, and even today the Jews all over the world look with fear and respect to this great and serious holiday. Every Jew, orthodox or reform, keeps his business closed on this particular holiday. I am not speaking of the one, who is not loyal to it, who is not a Jew and not a Christian, who is nothing and who himself doesn't know what he is. This is a holiday, when every Jew is taking an inventory of his relationship between himself and God and his fellowship during the past year, and is trying to make a better one the following year. Some more than two hundred dollars was collected for charity. So we spent two days in

praying most of the time and the balance in discussing the importance of this particular holiday for the Jews in particular and the world in general. Every man, no matter to what denomination he belongs to, if he is sincere in his beliefs and does the right thing, and is making peace with God and is trying to be better than before, is trying to be a more useful citizen to the country and a more blessing citizen to the world. That's why I mentioned the importance of this holiday to the world in general.

By entering the New Year we are trying to make it new with new thoughts, new loves and sympathies. We learn this new year, that our own life and our own welfare are only one little part of the great on-sweeping movement of the world; and learn not only to say my Father in Heaven, but our Father. After all we are all children of one Father.

Under guidance of new thoughts and the impulse of new sympathies make the year new by new and grander deeds. A man becomes a part of a thing only as he puts a part of his own life into it, and this principal runs through all our lives.

Touch hands with your fellows and then, however small the spot of earth on which you stand, you will feel the electric thrill of a chain of human interest that belts the globe. Thus whatever our outward circumstances may be—though they be the old and familiar—yet by new thoughts, new loves, and new deeds, we may create for ourselves a new, wider and a better world. Make the most of time for good, for love, for happiness. If the time is short then do with our might what our hands find to do.

The New Year—where is it bearing us? This only we know: That as the past has made the present so the present will make the future. We are weaving the material of which the garment of eternity is made. Our present thinking, loving, doing, for good or for ill, are making tomorrow. If then the present current of life be sweet and pure, the By-and-By of the forever will be pure and sweet and joyous.

On coming Sunday night, September the 27th, starts the most fearful and respected holiday, the Day of Atonement. The same gathering will occur on that day till Monday at sunset. The following business places will be closed next Monday, September 28th:

- Colorado Bargain House
  - Berman's Variety Store,
  - The Reliable Dry Goods Co.
  - The Public Market.
- All the above firms ask me to give to you their sincere wishes.

### STIMULATING.

From the San Angelo Standard:  
 Frontier development in much of the United States has come despite the lack of good roads. Natural advantage in the way of productive soil, climate, and mineral resources have drawn population in ever-increasing numbers. Without good roads, development was handicapped, but the pioneer, unused to good roads and unaware of the advantages, put up with a thing that modern development finds detrimental.

West Texas, just past the frontier stage, has early opportunity to stimulate its development. Good roads and favorable publicity relative to its resources and progressiveness will do it. Tom Green County may enhance that development to its own advantage in acquiring approximately seventy additional miles of hard surfaced road if the proposed \$500,000 bond issue carries Saturday.

Aside from the stimulation of land values, farm and city development, the economy of transportation over hard, all weather roads, is the most appealing factor. Whereas taxes are required to bring good roads, the roads themselves will pay for their building and maintenance in the saving of gasoline, horsepower, and wear and tear on vehicles. Speedier marketing of produce at any time of the year is an economy of time and time means money. In addition to which it may be pointed out that by this investment on the part of the county, an added dollar will be available from State and Federal Government. Business investments would come more readily were the business man to have his initial outlay matched from another source with him acquiring the benefits at only slightly additional cost. Opportunity to vote a dollar and get two dollars isn't an everyday occurrence. That appeals to us as being good business for Tom Green County and we believe it will appeal to the majority of voters as such.

## FOUR SERIOUS CLASHES BETWEEN KLAN AND YOUNG MEN

**NORTHBROOK, Mass.** — Four serious clashes between members of the Ku Klux Klan and unorganized young men determined to break up or hamper Klan outdoor meetings have occurred in this state this summer.

The climax was a battle in the town square here last night in which hundreds participated. Rocks and eggs were freely used as weapons. Chief of Police Stephen Quill was overpowered by the crowd. His revolver, handcuffs and night stick were stolen. State Patrolman Edmund V. Downey was injured when he was struck on the head with a stone.

Both factions blame the other for the disturbances which started when stones were hurled at 200 automobiles containing klansmen as they passed through the square to the meeting field on the Bergin farm, formerly occupied by Martin Bergin, old time Boston National baseball player.

### OFFICIAL PROGRAM

Texas division United Confederate Veterans and Sons U. C. V. Reunion at Abilene Texas, September 30, October 1 and 2, 1925.

All delegates arriving in the city will register at booth in T. & P. Passenger station and receive information.

Convention will be held at West Texas Fair Grounds.

All veterans will be provided with comfortable quarters at the Fair Grounds where meals will be served complimentary under the auspices of the Abilene Chamber of Commerce, assisted by the D. A. R. and U. D. C. of the Abilene Chapter.

Booths for information and comfort will be maintained at the Fair Grounds.

All trains will be met and courtesies extended to all Veterans and visitors by the Abilene Council of Boy Scouts whose slogan will be "call on me."

Simmons University Cowboy Band will meet the train bearing General Foster and Staff on the afternoon of September 30th.

Transportation will be arranged for to convey Veterans to the Fair Grounds.

### ITS A HUDSON

One of the best automobile seasons in years is looked for this autumn by Hudson-Essex dealer, who declares that every factor he can observe points to unusual prosperity and activity.

"The most important of all fact-

ors" said Mr. Price, "lies in the fact that the average motor car buyer believes that right now he can obtain the best values ever offered him. The best engineers and experts agree that this is so. With this firm belief in his mind, the motor car buyer is obeying his impulse to buy the car which he may have been considering for months."

### WHY SUFFER You Can Rid Yourself of Rheumatism at Once.

**RHEUMALAX** reaches and removes the cause of rheumatism, doesn't just stop the pain for a few minutes or hours, but brings to you permanent relief by removing from the kidneys, liver, stomach and bowels the poisons which are not eliminated by those organs, poisons which are the direct cause of rheumatism.

Rheumalax is sold strictly under a money back guarantee to get results if your druggist does not have Rheumalax ask him to order it at once. Sold by druggist only.

Mr. and Mrs. J. M. Doss are Dallas visitors this week.

Miss Barbara Way left Sunday night for Austin where she will attend the State University.

## NOW you can have your laundry work "Soft Water Washed"

We have just added to our equipment at great expense a "Permutit" Water Softening Filter—a wonderful apparatus that takes our hard local water and makes it softer than the softest rain water—in order that you may have a higher grade of laundry work than you have ever known before.

From now on, we will use this "rain soft" water exclusively in all our processes—which means that our customers will get a grade of work that no laundry using hard water can equal.

This soft water washing means—lighter handling of all laundry work; longer life to shirts, collars and cuffs; lincensweet, fresh and snow white; flannels clean, soft and fluffy; laces and lingerie preserved; comfort, cleanliness, satisfaction.

Think what this means to you. Then—phone us to call for a trial bundle, to be washed "the soft water way." You'll see the difference.

## Colorado Laundry

## A Good Citizen

A GOOD citizen is one who supports his Government, as well as the forces for the upbuilding of his "Home Town." We want the co-operation of every citizen of this community in increasing the efficiency of the power and light facilities in every direction, for only by the support of our patrons can the West Texas Electric Company succeed.

The public requires service to the end that the community may grow, develop and prosper. Without the service furnished by a proper, adequate, up-to-date system of electric power and light no community can develop as it should. You are interested in the prosperity and consequent growth of your electric power and light system in order that your community growth and development may not be retarded.

As a Public Servant, with a whole community to serve, the West Texas Electric Company recognizes that it has a public trust to discharge. It realizes that while the company and the public have mutual obligations, the rights of the public must come first.

This Company is proud of the property as it stands today. It represents an achievement of thrift, good management and progressiveness. It thinks you should be proud of your electric light and power system. It believes that you are, and that every citizen who is open-minded and fair will be glad to help us rout ill will with candor, confront prejudice with facts and in the friendliest spirit help us face problems which only cordial co-operation can solve.

YOUR ELECTRIC SERVANT,

## West Texas Electric Co.

# Ten Commandments At Palace Oct. 1-2-3

## NEWS OF DEVELOPMENT AND PROGRESS IN WEST TEXAS

**QUANAH.**—Natural gas for Quanah and other cities of the "Green Belt" is assured. The Upham Gas Co. of Texas has secured a franchise to supply gas to Quanah and expects to supply Memphis, Childress, Welling-

ton, Vermont and Chillicothe. Gas will be piped from the Texas Panhandle.

**VERNON.**—Contract for a modern hospital to cost \$50,000 let here by Dr. A. B. Garland. This institution will give Vernon four modern sanitariums with 125 bed total capacity.

**ANTON.**—The Anton Progress is a new publication for Hockley county. It is a weekly local newspaper devoted to the work of telling the world about Anton and Hockley county.

**MIDLAND.**—Business men of Midland have been boosting for Midland county farmers but the farmers turned the tables and tendered a big picnic entertainment in honor of Midland business men particularly honoring Midland's three ginners.

**SAN ANGELO.**—Two new hotels are in prospect for San Angelo to replace the recently burned Landon Hotel. L. W. Walker is pushing to completion a three story 38 room structure and S. A. Naylor is planning a fireproof structure to be built on the Landon site.

**ALPINE.**—Jordan Marble Mountain near here will be utilized commercially. A \$200,000 company will quarry marble for shipment throughout the country. \$15,000 worth of machinery has already been installed and a complete quarry plant will be installed. Marble in every shade

from ebony to pure white is available of finest texture. The marble is suitable for building, statuary and monumental purposes.

**CROWELL.**—The potash deposits of Foard and Cottle County are to be developed. The National Potash Company has taken leases on a large tract of land off Herring & Johnson Ranch and will sink several wells at once.

**LAMESA.**—Public improvements are under way here to catch up with the great growth of Lamesa and Dawson county. The city is laying four and one-half miles of water mains and three and one-half miles of sewer extensions. Contract has been let for installing a model white way and street lighting system. Three brick rural school buildings are under construction in different communities of the county averaging \$25,000 each. Business and residence building continues at a rapid rate.

**RISING STAR.**—Lines are being run for the new highway from this place to Brownwood via May. This is but one of many highway improvements under way in Texas. Gaps in the Bankhead Highway are rapidly being closed through Palo Pinto county while progress is being made on plans for highway improvement in Taylor county where funds are available to pave the Bankhead. Castro county has voted a fifteen cent road tax and petitions are signed for bond elections in both Hale and Young counties for highway construction.

**CROSBYTON.**—A high line is under construction from Ralls to Crosbyton. The Texas Utilities is supplying the service.

**MIDLAND.**—Contract has been let for a new brick building on a lot just north of the post office, which will be occupied by a business concern as soon as completed. The prospect for good business here has created a big demand for business property and more buildings are in prospect.

### HUDSON AND ESSEX CARS PROVE TO BE VERY POPULAR

The numbers of new Hudson and Essex cars on the street is proof of their popularity, says O. B. Price, local Hudson and Essex distributor. Even without the stimulation of new models, Hudson-Essex business is maintaining a record pace of activity.

The remarkable record of cars sold in this city, it is declared, is simply in line with business done all over the United States—a business which has placed Hudson-Essex as the largest makers of six cylinder cars in the world.

"Nearly a year ago, our motorists began to recognize the outstanding values in Hudson and Essex," said Mr. Price. "As Hudson-Essex volume has increased the public has been given the benefit of constantly lowered prices, so that now our cars sell for the lowest points in the history and at less than half their peak price. It is no sure thing that prices can be maintained at so favorable a level.

"Sometimes we are asked, 'What is the reason behind Hudson and Essex economies and lower prices? What are the distinguishing features of Hudson-Essex manufacturing economy? How can prices be cut and quality improved?'

"First, as we said, Hudson-Essex is the largest six manufacturer in number of cars made. Secondly, it is

## STYLES THAT APPEAL FALL COATS

Such an array of Beautiful Garments never has been shown by this store. Everything that's wanted is here in a display that is certain to meet with a cheerful reception. Hudson and Essex sales leadership all over the United States is proof that motor car buyers know and appreciate these facts."

### Uneasy Tight Feeling

"I used Theford's Black-Draught first for constipation," said Mrs. C. E. Buntin, of R. F. D. 5, Starkville, Miss. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach. I read quite a bit about

## BLACK-DRAUGHT

### Liver Medicine

I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about 15 years for constipation. "About two years ago I found I was having indigestion, a tight smothering in my chest, then severe pain, especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals, and by doing this I could eat anything. "I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."

Black-Draught is used, with satisfaction, by millions. Get Theford's.

### WHY SUFFER

You Can Rid Yourself of Rheumatism at Once.

When you awake at night with a severe pain in your arms, shoulders, or lower limbs and cannot continue your peaceful slumber for the annoyance of that pain that is very evident that some of the vital organs of your body are failing to remove the abundance of poisons which should be thrown off through these channels. Such poisons accumulate until you have developed a severe case of rheumatism, which, if nothing is done, will perhaps maim you for life as a chronic rheumatic. You cannot afford to wait, RHEUMALAX will remove the poison, stop the pain and set you aright. Rheumalax sold and guaranteed by druggist only. Ask him to order for you.

SOME TIMELY COMPARISONS

Two of the elections held in this county to vote on highway improvement bonds were on an issue of \$325,000.00 to be used exclusively on the Bankhead Highway. Today, owing to lower costs of highway construction and the special inducement extended this county by their government, the county may obtain a paved road over the Bankhead and a gravel road over No. 101 for the same money.

Mitchell county is offered one of the best types of road in America, costing \$22,000 per mile or \$704,000 for the 32 miles on the Bankhead on condition that the people directly affected agree to pay one third of the construction cost. This means that the State and Federal governments would pay \$579,332 of the cost of improving the Bankhead as compared with \$234,666 to be paid by the county.

Mitchell county is offered a good gravel highway, with stone base and constructed under government specifications at a cost of \$6,878 per mile or \$220,000 for the entire

distance over Highway No. 101, on condition that local taxpayers furnish \$97,666 of the amount. The State has allotted \$122,334 aid on this important highway.

By cooperating with the government in this highway improvement program, this county will have 65 miles of designated highways, every mile of which would be maintained without cost to the county by the government. This would release the \$24,000 road and bridge fund for exclusive use on the lateral roads throughout the county.

By voting the \$325,000 road bonds and thus qualifying for the \$600,000 aid, as extended by the State and Federal governments, the county would receive an additional amount of \$350,000 in aid over the amount suggested in the proposed \$500,000 gravel road construction on the two highways. The committee went to Austin requesting \$250,000 aid, on condition that a like amount in bonds be voted by the county. The government tendered \$350,000 additional on a silver platter, on condition that we vote an additional amount of only \$75,000.

BOX SUPPER AT LOONEY TO PURCHASE NEW PIANO

Citizens of the Looney community, seven miles southeast from Colorado are making elaborate plans for a community box supper at the school house Friday night, October 9. Proceeds from the box sales are to be applied to a fund for purchasing a new piano. The public is urged to cooperate with Looney citizens in this move.

WITH THE CHURCHES

Sunday With the Baptists

We were all delighted with last Sunday's service. The Sunday school was pretty good; the preaching services were pretty well attended. The B. Y. P. U. was well attended. Four fine additions during the day's services to the church. The fellowship is growing better each week a fine spirit pervades all these services. New members coming all the time. If we had room to care for the Sunday school we could soon have a great school. We are hoping our people will see the necessity of a new building and will rise and build the Lord a house.

We are asking our friends to invite the new people they are meeting to these Sunday services. Many are the Baptists who are moving to the town who should come into our church life as soon as they get to town. Members of this church are requested to see they have an urgent invitation to come.

Visitors are always cordially welcomed at each service. Make our church your church while in our little city. Good music. The best preaching the pastor is able to put out. He tries to help those who need help. If you are sick and need help let the pastor know about it. If in sorrow or trouble don't hesitate to let us know and we will do our best for you. If you feel friendless in a strange town feel around and tell us about it and we will try to encourage you. Don't hesitate to make use of this church and its pastor. The church stands for Jesus and the pastor is trying to lead the church in this work. Make it your church.

Evening services at 7:30 o'clock. B. Y. P. U. meets 45 minutes earlier. —M. C. BISHOP, pastor.

The First Methodist Church

Sunday school 9:45 a. m. A. A. Dorn, superintendent. League 6:30 p. m. Preaching 11 a. m. and 7:30 p. m. Morning subject "How Paul was Made a Missionary."

Our Sunday School lessons for the rest of the year are on Paul's Missionary work. So I want the Sunday school to hear this. Evening subject "How God Guards His Book." God has saved for us and for every generation the Bible in its present form. How has He done it?

Lost last Sunday—About 100 Sunday school pupils, 5 stewards, 4 trustees, 6 Sunday school teachers, and about 250 church members. Any body finding these will please tell them to come home or better, bring them to the church next Sunday and receive your reward. (In Heaven.)—J. F. LAWLIS, Pastor.

Epworth League Program

For September 27, 1925. Subject, "The Art and Practice of Friendship." Leader—Mary Lawlis. Opening Songs. Scripture I Samuel 18:1-4—Leader. Prayer—E. B. Smith. Roll Call—Answered by quotation on friendship. Talks. 1. Selecting The Best Friend.—Marguerite Stoneham. 2. David and Jonathan.—Nelda Garrett. 3. Talk on Friendship—Edmund Kirby. 4. Reading.—Kate Bean. Business; Collection; Song; Benediction.

FIRST CHRISTIAN CHURCH

The church building recently occupied by the congregation representing the First Christian church was sold and has been torn down and we have been compelled to seek temporary quarters while our new building is under construction. We are pleased to be able to announce that we have established regular services at the court house, using the district court room, and we will be glad to welcome all who choose to meet with us there. We had good audiences both morning and evening last Sunday. We can take care of a good many more if you will come. Preliminaries are being rushed and we hope to commence our new preachers home and church building within the next few days. If our plans materialize we will have when completed one of the best and most serviceable church buildings in West Texas.

The pastor's heart was made glad by the action of the big hearted men whom he serves that they were going to send him to our National convention which meets early in October at Oklahoma City. He will be glad if several of the members can accompany him. This is the greatest gathering of our people and this year should

Be Not Deceived Your life and welfare each depend upon the condition of your spine, just as much so as the same depend upon your environment, intelligence, sunshine, air, water, clothing—and food that you eat. This being true, it is the better part of wisdom to use common sense and have that bad spine examined and corrected by a reliable expert in his profession near your own home town rather than go away and spend 3 or 4 times as much more money than is necessary. Think it over. PHONE 76 C. H. LANE MASSEUR

EXECUTIVE BOARD OF W. T. C. OF C. MEETS AT LUBBOCK

Following is the program for the fall meeting of the executive board of the West Texas Chamber of Commerce, which will be held in Lubbock Wednesday, Sept. 30: Call to order—R. Q. Lee, President Roll Call. Minutes of executive board meeting held at Wichita Falls on June 11. Manager's Semi-annual report. Report of traffic bureau—U. S. Pawkett, Chairman. Forget—But Remember.

Forget the slander you have heard, Forget the hasty, unkind word; Forget the quarrel and the cause, Forget the whole affair, because Forgetting is the only way; Forget the trial you have had, Forget the weather if it's bad, Forget the knocker—he's a freak Forget him seven days a week, Forget to even get the blues, But don't forget to pay your dues to the P. T. A.

HUSBAND KILLS SELF AND WIFE WHEN KISS IS REFUSED

SAN ANGELO, Sept. 22.—Preparations were being made Wednesday at Brady and Menard, respectively, for the burial of Mr. and Mrs. Ernest Blackburn, victims of a double tragedy late Tuesday on the James Russell Bear Creek ranch, near Junction. Refused a parting kiss by his wife with whom reconciliation had failed, Blackburn, according to witnesses, drew from his shirt a small caliber automatic, shot his wife twice, fired at but missed Mrs. James Russell, sister of Mrs. Blackburn, then sent a bullet through his own brain. The shooting was enacted so suddenly and without warning that Mr. and Mrs. Russell, a deputy sheriff of Kimble County, Charles Molloy and a negro woman, all in the house at the time, were powerless to prevent it. Mrs. Russell held a baby in her arms at the time, according to officers. Blackburn phoned the Russell ranch from Eden Tuesday that he was coming to see his estranged wife. Russell, fearing trouble, notified the sheriff. Meeting Blackburn by request some distance from his ranch house, Russell told Blackburn he could see his wife if he created no disturbance, and took from Blackburn a gun, supposedly the only one the man had. Mrs. Blackburn refused to return to her husband and when she denied him a kiss he opened fire. Both man and wife were killed instantly.

Dr. Grady Whitmore, M. D., graduate State University class of 1924 and intern in St. Paul's of Dallas since his graduation will arrive in Colorado about Oct. 1st. He will be associated professionally with Dr. C. L. Root in the Root New Building and in Colorado Sanitarium.

All kinds of feed, will save you money. Just phone Colorado Produce Company.

Lumber, Wire, Posts, Eclipse Windmills and Parts  
Rig Patterns a Specialty

Miss Evalyn Danner left Friday night for Sherman, Texas where she will attend school again the coming term.

Mr. Leonard of Ranger was a visitor at the home of Mayor Boston and wife Friday.

Mr. and Mrs. J. C. Gay and daughter, Thelma Lee have gone to Roby in response to a telegram that Mrs. Gay's grandmother had died.

Jack Reynolds and family have returned from a visit to relatives at Wellington.

Mr. Foy Bell of Midland visited relatives here several days last week.

Mrs. Flint is at home again after a visit to friends in Santa Ana.

The Baptist ladies will give a play entitled "The Old Maids Convention" in the near future, watch the paper for the date and place.

There will be a program at the school house Friday, Oct. 2nd at 3 o'clock after which we hope to organize the Parent-Teacher Association. Let every parent who is interested in school be present to help in the organization. Let's get behind the teachers and help to make this the best school year Westbrook ever had.

Mr. P. M. Rowland and family have returned from an extended visit to Mrs. Rowland's parents in Oklahoma.

**ABSTRACTS**

I am prepared to make abstracts of title on short notice. Your business is solicited.—W. S. Stoneham County Treasurer's Office

**HYMAN HAPPENINGS**

The citizens of Hyman are rejoicing over the fine new bridge at Hackberry, and especially the farmers who are beginning to haul their cotton to Colorado. We are one and all appreciative of this splendid structure, which means so much to us of Hyman, and we take this means of thanking each and every one who assisted us in obtaining this bridge, the judges, the commissioners court, the bankers and the commissioner of this district, Mr. John Lane, and all others who helped in any way to get the bridge. It is a splendid piece of work, and will last many years, and we of Hyman want you all to know that we are most grateful and appreciative and wish to thank most sincerely every one who was instrumental in obtaining this bridge for Hackberry Creek, one of the worst creeks to cross in this county. The men of this community met very recently, and graded the new county road for half a mile or more on the west side of the bridge. This will improve conditions wonderfully here, for in wet weather the roads were almost impassable. These people are so proud of the new bridge that they felt they must make a road in keeping with the new bridge.

There is one in this community, who has every right to be thankful for the new bridge and that is the stork who crossed the bridge on Sept. 11th, going to the home of Mr. and Mrs. H. H. Van Zandt he bringing with him a fine baby girl. Imagine the distress had this poor stork with his little burden, got stuck in Hackberry, and not reached his appointment promptly. Mr. Commissioner and all concerned, even the stork brings you thanks for that bridge.

We are glad to report that after some days of fever, Mrs. Van Zandt is doing nicely and little Miss Van Zandt is doing finely in every way.

Mrs. Harry Hyman returned to Hyman last Friday, after about six weeks absence, visiting in San Antonio, Tennessee, and Kentucky. The unexpected return was occasioned by the finding of oil in the Sarah Minna Hyman No. 1 of the Deep Rock Oil Co., in the Hayrick Pasture of the H. S. Ranch. This well is down 1470 feet, with a good showing of oil.

The stork visited the home of Mr. and Mrs. Buil Taylor on Sept. 14 at Westbrook, bringing Master Earl D. Taylor. This stork did not have to cross Hackberry but Mr. and Mrs. Billie Taylor did to reach their son and daughter and we are thankful they had Hackberry bridge to cross on and were not delayed.

Mr. Harry Hyman went to Fort Worth Saturday on business. He was expected back Monday.

Mr. Lee P. Adkins was threatened with appendicitis last week and he left Saturday for Fort Worth to consult a physician. Lee is popular with the people here, and all sincerely hope that his case will not be serious and he will return home shortly, safe and well.

Mr. and Mrs. N. D. Revel are going over to Frank Taylors, 4 miles This community hopes when the south of Iatan to help with his crop. crop is gathered, that the Revel family will return to Hyman and make this their home.

Mr. Tom Vorvell, three of his sons and Morris Woods were here from the Gary farms Sunday.

Mr. McCreeless, representing the Southwestern Life Insurance Co., was a visitor here Monday. He has been very successful in writing in-

urance and has interested a number of our people.

Mr. and Mrs. I. Smallwood went to Ira Sunday and were expected back today. Mr. Smallwood is a very busy and progressive farmer, his latest improvement is a fine well and windmill, add quite a look of progress to this settlement. Mrs. Smallwoods mother and brother, after a weeks visit here returned Sunday to their home.

Mrs. John Overman, who has been visiting her father and mother for the past couple of months is returning to her home Tuesday. Mrs. Overman has been quite ill, but we are glad to note that she has greatly improved.

Mrs. John Hammans of Seven Wells, has been here a couple of weeks visiting her daughter, Mrs. H. H. Van Zandt.

**NEW HOPE HAPPENINGS**

Mrs. Nellie Latty, has returned from Cisco, where she has been visiting her sister, Mrs. C. A. Harlow.

Miss Ada Jackson has been on the sick list, but is reported doing nicely.

Mr. and Mrs. Buck Latty gave a fruit supper last Thursday night, everybody had a nice time.

Mr. and Mrs. J. R. Minnick and daughter Joe Ann motored to Colorado Tuesday afternoon.

Mrs. Jim Latty has been sick but is better at this writing.

Mrs. Roy Messimer and son Cecil Elliot are doing nicely now.

Miss Mae Dill Latty and Mr. David Davis visited Mr. and Mrs. Jim Latty Sunday afternoon.

Henry Page and Miss Grace Wagner, Miss Rachel Jackson and Miss Maxie Latty motored to Westbrook last Sunday afternoon.

Richard Jackson and Mr. Willie Graham motored to town Wednesday.

Mr. and Mrs. Denver Hayes are going to move to the Butler camp soon.

Miss Nola Ruffin has been visiting Miss Maudie Weidner.

Miss Sophia Brown and Miss Mamie Brown are going to Fisher county in a few days.

Miss Hazel Smith visited Miss Edna Brooks Sunday.

Miss Blanche Latty went to Colorado this week.

Mr. Irin Hall's brother is visiting him this week.

Mr. Taft Morris gave a birthday party Saturday night, everybody had a nice-time. They served cake, and played many interesting games.

Mr. Cliff Brown motored to Colorado Saturday.

Miss Grace Wagner and Miss Sophia visited Miss Rachel Jackson Sunday.

Mr. George Sweatt and Mr. Paul Sweatt motored to Colorado Saturday.

have a new boy.

Mr. and Mrs. Monroe Steward Mrs. E. C. Airhart and Miss Mae Dell Latty visited Mrs. Jim Latty Saturday.

Miss Bessie Cadey visited Miss Edna Brooks Saturday and Sunday.

**Notice of First Meeting of Creditors**

In the District Court of the United States for the Northern District of Texas in bankruptcy. Abilene, Texas.

In the matter of Cosmopolitan Exchange Co., a co-partnership, composed of John Edward Harvin and Mrs. Dixie Aileen Hayes, as a firm and individually bankrupt. No. 1110, Abilene Texas, Sept. 21, 1925.

Office of referee, to the creditors of Cosmopolitan Exchange Co., et al, as aforesaid, of Colorado in the county of Mitchell and District aforesaid, a bankrupt. Notice is hereby given that on the 15th day of September, A. D. 1925 the said Cosmopolitan Exchange Co., as aforesaid, was duly adjudged bankrupt and that the first meeting of his creditors will be held at my office in the city of Abilene, Taylor County, Texas on the 2d day of October, A. D. 1925 at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.—D. M. OLDHAM, Jr., Referee in Bankruptcy.

**SEVEN WELLS NOTES**

Cotton picking is the order of the day this week. Nearly every body is picking, "that has it to pick."

We are afraid the rain will damage the open cotton. Hands seem to be very scarce.

Mrs. R. Y. Hagerton and Mrs. Bert Hagerton and children, Mr. and Mrs. Hurbert Cosper and several of the Bunch visited in the Wallace home Sunday afternoon and enjoyed a real water melon feast.

We always have a good time at Wallace's.

P. M. Bassham, U. D. Wuljen and W. P. Bassham went to Midland

Sunday and returned home Monday afternoon.

Mrs. J. E. Wallace and Mrs. U. D. Wuljen spent Tuesday canning

corn. They used the Steam Pressure Cooker.

They have canned near 200 cans of corn besides other vegetables.

**Cash Notice**

We announce that after October 1st the Dodge Garage will go on a strictly cash basis. All work and accessories will be cash. Dont ask us to charge it.

J. C. (DICK) HART, Proprietor

### COLORADO SCHOOLS NEED MORE ROOMS AND EQUIPMENT

(Continued from page 1)  
 known; is equipment for teaching the sciences. The lack of standard tables for teaching physics and general science, the lack of any special equipment for teaching either physiology or physiology is great. Last year it was impossible for the students in these classes to perform more than a half dozen experiments as individuals. The equipment was so limited that even the teacher could not demonstrate many facts of science rightly coming within the scope of the subject. However, this arrangement can not be improved upon without additional room to place the needed equipment and to use it. The science laboratories are now being used for recitation halls.  
 We do not call attention to any of the above facts and conditions in order to spread gloom. We do believe that the people of Colorado are nothing more than pure Anglo-Saxon stock as all West Texas is and that

all that is needed to have them perform their duty is to point it out. False optimism is worse than strict pessimism. Colorado has the resources and has the greatest opportunity of any town in this section for a modernly equipped and organized school plant.  
 Several steps have already been taken to put new life into the school and make it attractive to the children. Many have expressed themselves as enjoying attending school this session. The various school activities are being fostered and others will be introduced as fast as they can well be. These are designed to help students to discover their abilities and talents, as well as to develop them. If complaint comes that these are only fads one will remember that reading, riting, arithmetic and licken will not hold children in school these days. Neither will what we are able to do hold them all. If there is two or three added dollars of expense to patrons because of new courses introduced, we feel that no one will be in worse condition than before the free

text book law was passed. Let us illustrate: The Literary Digest is required as a supplementary text in history, social science and English. This costs at the special school price six cents per week. It is recommended by the State department to those seeking affiliation. It is used to stimulate reading current literature and news, and to keep informed so as to be and to become intelligent and active citizens. Students are asked to speak orally in class from the material gathered from all over the world on the great and vital questions of the hour. This collateral work is highly systematized as the publishers have expert educators who outline the various subjects for discussion and submit lists of questions. Practically all high schools of the better class use this work.  
 We have made inquiry from several schools of West Texas as to their rating on the following points: Tax rate, total assessed valuation, number of scholars, high school enrollment, number of affiliated credits, number who teach home economics and the commercial courses, and the total budget. These were gathered for the sake of comparison that we may see where we stand in the matter of providing for our schools. Of the sixteen schools consulted only three had a larger number of scholars, one had more resources. These two points favor Colorado. But let us notice the other items with our rank:  
**Our Rating,**  
 As to resources—second.  
 As to scholars—fourth.  
 As to high school enrollment—7th  
 As to providing Home Economics and Commercial subjects—fifteenth.  
 As to tax rate—fifteenth.  
 As to number affiliated units—sixteenth.  
 As to aggregate expended for all school purposes—ninth.  
 As to per capita expenditure for education—fourteenth.  
 Adding the rankings of the eight items and dividing by eight we find Colorado to have a rating of 10 1/4. The two items in which we rank high keep our average up, when in reality they condemn us, because they give

us the greatest opportunity and we least take advantage of it. I refer to number of students and to resources.  
 The schools considered are all of towns near our size and are all in west Texas. They are: Stamford, Haskell, Big Spring, Snyder, Midland, Merkel, Ft. Stockton, Winters, Ballinger, Coleman, Post, Floydada, Canyon, Comanche, Clarendon and Colorado.  
**BANKHEAD HIGHWAY NAMED AS ARTERIAL HIGHWAY**  
 Recent publicity was given to the efforts being put forth to secure the designation of the Bankhead Highway as one of the arterial highways of the United States. The following letter from J. A. Rountree, director general, to the Colorado Chamber of Commerce, gives the joyful news that this designation has been made, and is self explanatory:  
 Gentlemen:  
 Several weeks ago you wrote us and inquired in regard to the Bankhead Highway being selected by the Federal Highway Commission as one of the arterial highways in the United States. We promptly wrote you and informed you that the Executive officers of the Bankhead Highway were using every effort possible to have the highway designated by this Commission. We are happy to inform you that this Commission adopted the Bankhead Highway as an arterial United States road in the thirteen states through which it traverses. You have already been informed by the daily press that the main line of the Bankhead Highway in Texas was unanimously adopted.  
 The Bankhead National Highway has been in existence for the past nine years. During this time the following is a record which it traverses.  
 1st. It was mapped and designated by a commission appointed by the Bankhead Highway Association. This national mapping has been endorsed by five conventions of the Association.  
 2nd. The State Highway Commission in each state through which it traverses has endorsed it.

3rd. The State Legislatures have adopted the route of the Bankhead Highway.  
 4. The Post Office Department has adopted it as a R. F. D. Route.  
 5th. The War Department of Washington sent a convoy of troops over this route and recommended it as a military road.  
 6th. The American Automobile Association the National Motorist Association have designated the Bankhead Highway as a tourist route.  
 6th. The County Commissioners in the various states have adopted it as a local highway.  
 8th. Nine of the leading map printers in the United States have recognized the Bankhead National Highway and printed it in all their maps and atlas.  
 9th. Probably no Highway in the country is better known and advertised as this highway with the exception of the Lincoln Highway.  
 10th. The Bureau of Public Roads at Washington have recognized the Bankhead Highway in every state, and in their reports they quote and speak of the Bankhead Highway as one of the important and trans-continental routes.  
 It is a pleasure for me to give you this information. Hope you will transmit it to the members of your Chamber of Commerce and also give it to the press. Allow me to congratulate you on having such an active and in-

fluential Chamber of Commerce. I read each week of your activities. Your very truly,  
 J. A. ROUNTREE,

### ABSTRACTS

I am prepared to make abstracts of title on short notice. Your business is solicited.—W. S. Stoneham County Treasurer's Office

### TOM GREEN COUNTY VOTES \$500,000 ROAD BONDS

SAN ANGELO, Sept. 19.—Tom Green county today voted \$500,000 in 5 per cent, thirty year bonds for paving an additional seventy miles of roads, most of them already graded with concrete drainage structures. San Angelo voted 705 to 32 for the issue and early returns from rural precincts were swelling the lead. Sixteen of thirty boxes gave 912 for the bonds and 84 against. A two-thirds majority was required.

Tom Green county already has 46 miles of paved roads and with Federal and State aid on a 50-50 basis promised on the new project every mile of State highway in the county on four through routes will be hard surfaced. State maintenance of the pikes will release much of the county's road and bridge funds for improving over 10 miles of laterals and other minor roads.

Now is the time to advertise.

### MOUNTED CAVALRY BAND TO ENTERTAIN CROWDS AT 1925 STATE FAIR

A big cavalry band, mounted on thoroughly trained horses, is to entertain visitors to the State Fair of Texas, Dallas, Oct. 10-25.

Announcement is made that the band of the 112th Cavalry, Texas National Guard, is to play daily throughout this year's exposition.

There are twenty-five men in the organization, which is commanded by Capt. Chas. K. Davis and is stationed at Mineral Wells. Capt. Davis was an officer in the 14th infantry during the world war. Warrant Officer David Burnswick, who directed a similar band in the army of occupation in Germany, is its director.

### NIGHT FOOTBALL GAME COLLEGE CIRCUS EVENT

A night football game in the stadium, will be one event in connection with the All College Circus to be given at the State Fair of Texas, Dallas, on the night of Saturday, Oct. 17.

The queen's coronation and ball will be given in the new Baker Hotel on Friday evening, Oct. 16. The famous Benson orchestra, of Chicago, will furnish the music for the ball. The "circus" itself will be offered between halves of the football game.

### EXPECT 600 ENTRIES FOR STATE FAIR KENNEL SHOW

Fully 600 dogs of high degree, it is expected, will be shown at the Texas Kennel Club dog show, to be held during the State Fair of Texas, Dallas, Oct. 10-25, according to officials of the club.

Dates for the 1925 kennel show are Oct. 23, 24, and 25 and the show will be held in the big poultry building, where last year's display was given.

It is declared that more trophies than ever before will be offered, and that a full "5-point" show will be given in every particular.

Breed captains have been named by officers of the Texas Kennel Club. It will be their duty to see to entries in the respective breeds in which each is interested. Weekly meetings of the show committee will be held at Dallas from now until opening of the show, to the end that all details may be worked out completely.

Officers of the Texas Kennel Club are: Dr. E. P. Hackney, president; E. V. Shearer, first vice president; Arthur Bickham, second vice president; E. O. Mangrum, treasurer; O. T. Evans, secretary; E. M. Dealey, chairman bench committee.

State Fair Runners Arrive. S. S. Lindsey, a Texas owner, is the first to arrive at the track with his string of runners for the State Fair of Texas races, Dallas, Oct. 10-18, inclusive. He will train at Dallas in preparation for the State Fair.

IN SOCIETY AND AT THE CLUBS

The Y. P. M. S. had their regular meeting this week with Hazel Costin. The Devotional, Acts 15, chapter was given by Hazel Costin. The mission study lesson on "From Over the Border" was given by Ruth Dozier. Mrs. Anna Dobb's resignation as superintendent of The Little Sisters was accepted. The meeting next week is with Mrs. T. J. Coffee.

**42 Party** One of the enjoyable social events of the week was the 42 party given by Mrs. James T. Johnson and Mrs. Pearl Shannon at their home Tuesday from 4 to 6 o'clock, as the guests arrived they were escorted to the dining room where Misses Katie Buchanan and Mildred Coleman served fruit punch. Then the score cards were passed out by Mrs. J. H. Greene and the guests greeted each other as they passed from table to table.

At the conclusion of the games brick ice cream with American beauty petal centers and angel food cake were served to more than seventy guests. The plate favors were miniature rainbow colored baskets filled with salted pecans. The out of town guests were Mrs. Joe Stinson and Mrs. H. G. Lowle of Snyder.

**Aid Society** The Christian Aid Society met with Mrs. H. B. Broadus Monday. After the devotional period conducted by Mrs. Allmond the time was spent with the usual business. Mrs. John Daniels of Sierra Blanca was a guest. The hostess served orange ice and cake. The next meeting will be with Mrs. Chase.

**Business Meeting** The Baptist women met in business session at the church Monday. Besides the regular business it was decided to place \$125.00 of the money made on the merchants pageant on time deposit. Miss Violet Moeser resigned as corresponding secretary and Mrs. T. J. Ratliff was elected to fill her place. Mrs. McCombs was elected president; as Mrs. Morris decided to accept the office to which she was elected a month ago. The members present covenanted together to pray secretly each day for a new church building.

**Honoring Miss Sealy** Mrs. H. P. Ragan entertained with bridge last Thursday honoring Miss Irma Sealy who leaves this week to make her home in El Paso. The decorations used were American beauty roses. Refreshments of golden Pheasant pudding and angel food cake were served to more than twenty five guests.

**Call Meeting.** There was a call meeting of the U. D. C. at the home of the president Mrs. R. N. Gary Monday for the purpose of electing delegates to the annual State meeting which convenes

in Marshall Oct. 13th. Mrs. R. N. Gary and Mrs. W. L. Doss were elected the delegates with Mrs. J. G. Merritt and Mrs. J. G. Smith, alternates. Mrs. Charlie Thompson was elected the page from here.

**Self Culture Club** The Self Culture Club met with Mrs. Henry Pond Wednesday. The study of the year was begun with a program on training children in humane treatment to pets and for better citizens. Mrs. Tom Hughes was the leader. Papers and stories pertaining to the subject were given by Mrs. Willie Rogers, Mrs. L. B. Elliott, Mrs. W. R. Douglas and Mrs. O. Jones. The outside work of the club for this year will be placing flags in the grammar school. Each member assessed herself a dollar for the first payment that they might be secured by Armistice Day. The hostess served ice cream and cake. The next meeting the first Wednesday in October will be with Mrs. Tom Hughes.

**Merry Wives** The annual meeting of the Merry Wives met with Mrs. Ed Jones Wednesday.

Besides the members the following guests were present, Mesdames Sam Majors, Jim Johnson, A. L. Whipkey, W. W. Whipkey, H. B. Broadus, L. H. Gaskin, H. L. Hutchinson, Ralph Beal, T. B. Russell, R. P. Price, C. L. Root, Dewey Tidwell, U. G. Hardison, J. Ralph Lee and John Daniels of Sierra Blanca.

The hostess served chicken salad, Saratoga flakes, potato chips, stuffed olives, angel food and ice tea. Following the social hour a business session was held and the following officers were elected, Mrs. J. L. Pidgeon, president; Mrs. Wallace, secretary; Mrs. O. B. Price, reporter. The time of meeting was changed from 4 o'clock to 3:30 o'clock. Mrs. J. C. Etheridge will be the next hostess.

Mrs. Dewey Tidwell and little daughter have returned from a visit with relatives in Steventville.

**INDUSTRIAL RECORD** Orange—Trestle being built across Old River Cove.

### Methodist Church

There were 225 present last Sunday and every one seemed to be very much interested. Our great need is a new building to take care of our increasing attendance. Sentiment for the new church continues to grow. One good man has already promised six hundred dollars on the building. One of the classes is working and are successfully raising funds for that purpose. Of course some think it cannot be done. All are agreed that we need a new church and quite a number of us believe it can be done. For whatever ought to be done can be done. The pastor has called upon the membership to pray and ask God to direct us that we may do the thing that is best for the advancement of the Kingdom of our Christ.

Our presiding elder, Rev. R. A. Stewart will preach here next Saturday night and Sunday morning. He will also hold the fourth quarterly conference immediately after preaching services Saturday night. Preaching service at seven-thirty and the conference immediately following. We hope all the officials of the church will attend the conference.

We will observe promotion day in the S. S. next Sunday. Let every one be present lets have an attendance of 275. The League will meet at 7:15. The pastor will preach at the evening hour. His subject will be, "How to Live the Most Useful Life." Come thou with us and we will do this good.

### Baptist Notes

A large crowd was present for Sunday school on time Sunday morning.

Since our pastor has moved back to Abilene to attend Simmons University the primary and beginners department have moved back to the

pastor's home. Still with the other classes full and "runing over" we feel very keenly the need of more room.

Next Sunday the annual promotion day will be observed. New classes will also be organized. Just where to put them is a problem. Let each one pray that God will continue to bless us and put it on our heart to give liberally to the church building fund.

Rev. J. O. Heath a former pastor of ours, accompanied Bro. Foster from Abilene and preached for us at the morning service.

How the wonderful message from John 14:11 thrilled our very soul as it was brought by this man of God! Bro. Heath has just recently resigned the care of the church at Monday and moved to Abilene where Miss Ruth Heath will receive instruction in the Art Department of Simmons University.

Bro. Foster was in the pulpit for the evening service and as always his message was interesting uplifting and inspiring.

An unusually large number met in the W. M. S. at four o'clock.

This was regular business day and new committees appointed offering taken, time of meeting changed to 3 o'clock and program for the social meeting was read. The social meeting will be next Monday at 3 o'clock with Mrs. J. W. Walker in her new home. Let every Baptist make an effort to be present at this meeting and listen to the program and enjoy a social hour.

Clarence Palmer, Loraine contractor and builder. Let me bid on your new home.

Mrs. R. E. Ballard, from Hermleigh is visiting her daughter, Mrs. Jno. Coffee and family.

Mrs. C. M. Black, left Tuesday night for a visit with her daughter at Wichita Falls.

Mr. and Mrs. Floyd Richey are at Bronte where they were called Monday night to the bedside of Mr. Clark, Mrs. Richey's father, who was reported very sick.

Mrs. V. A. Martin, accompanied her sons, Robert and Kenneth to Abilene Thursday to be at home with them during the school term which they are attending there.

Miss Latriece Teaff is attending school at Crowell, while her brother Graydon, has entered school at Gorman, they left last week.

Miss Mary Davis, from Dallas is visiting her relatives here.

Mr. Jett McKee from Mabank is visiting his uncle, J. E. Spikel and family.

### Parent-Teacher Association

The P. T. A. met in the high school auditorium Wednesday afternoon for a business meeting.

The election of officers was the first business attended to. Mrs. W. L. Hester was elected president, Mrs. W. W. Rowland, vice-president, Mrs. S. C. Harris secretary-treasurer, Mrs. J. K. Bennett, Mrs. D. A. Hutchins, and Mrs. C. H. Manly delegates to the county federation.

Mrs. H. L. Harrell was asked to tell the advantage of being affiliated with the State Parent-Teacher's association. This she did in a few well chosen words, after which it was voted to affiliate.

Prof. Blythe addressed the meeting on Co-operation of the parent and teachers and the consolidation of the Loraine district to some of the rural schools.

All who were present felt very much enthused over the prospects of a good program the next second and fourth afternoons of each month.

The new schedule. School is now taking up forty-five minutes earlier, making it take up at 8:00 o'clock instead of 8:45 o'clock. The noon hour is cut short 10 minutes. We have five periods in the morning and three in the af-

ternoon. We only have one 15 minute recess in the morning; school dismisses at 3:00 o'clock.

This change is for the benefit of those who have to pick cotton, so that they will not have to miss school and get so far behind in their work. The old schedule will be followed when the cotton picking season is over.

### Junior Class Organization

Wednesday Sept. 16, the junior class of the Loraine High School met at recess in the afternoon for the purpose of organizing their class. Mr. Freddie Glass was elected president, Miss Clara Conway secretary, and Mr. Orval Gramvill, yell leader. They decided on gold and white as their class colors. As time was limited they did not finish organizing, but will meet again soon and prepare for their work ahead.

### A Trip to Sweetwater

The senior Spanish class of the Loraine High School went to Sweetwater last Wednesday night, Sept. 16.

The second year Spanish class of Sweetwater invited them to attend a Mexican festival which was celebrating their Independence Day.

They were disappointed because only ten of them got to go. Superintendent Blythe, and Miss Ott, the principle accompanied them.

They met at the school house at 5:00 o'clock, where two cars were waiting to take them. As luck would have it Lawrence Bowen had five punctures between Loraine and Roscoe, and two from there on to Sweetwater.

They arrived too late for the main part of the program, in fact it was all over except the Spanish dance. They did not seem to be interested in the dance as much as the carnival, so they spent an enjoyable hour at the carnival, sight seeing and riding merry-go-rounds and such.

They started home about ten o'clock and their bad luck seems to have accompanied them, for they had two punctures on the way back, making the sum of nine.

One of the boys had put a nice watermelon in the car, which was a surprise to the crowd. They stopped near Roscoe to eat it. They reached home about 11:00 o'clock all declaring that they had had a good time.

### Study Hall

The pupils of Loraine High School have come to the conclusion that they need big soft upholstered rocking chairs to rest in after climbing up the tiresome stairs. They also need a lounge to lie down upon and take a nap. After keeping late hours with lessons; an electric fan to keep the pupil cool when the weather is warm and the teacher is "huffy"; a fountain of cool water to drink when they feel thirsty; a nice foot stool would be quite necessary to rest the weary feet, that have gone to class for 5 subjects. Refreshments are most need between lessons, to refresh the minds and put the brain cells to working. Chocolates, ice cream, candy, cake, soda pop, and hamburgers would be all the food necessary to meet the requirements, we believe.

I have given you the student body's conception of an active well equipped study hall; now I shall give you the school board's conception of an ideal which they have now put into working order.

They have provided the pupils of Loraine High School with a convenient study hall, a place for every pupil and a desk for all books. The class rooms are well seated; the pupils go their to recite their lessons. The students feel a deep appreciation for these advantages.

### Jokes

"Who can describe the customs and manners of the people of India?" asked Miss Alford.

"They don't wear no costumes and they ain't got no manners, a-tall!" replied Manie Howell.

Mr. Blythe, in his hygiene class, sought to impress upon the minds of the children the prime importance of perfect health. He told them repeatedly that it was the one essential for happiness. On the day before examination he asked the class, "what is it we want for perfect happiness?"

Finally Mary Nell Kimble raised her hand, "Well, teacher I guess it's mostly the things we ain't got."

Edith Wilkerson, editor in chief, reporters from ninth grade: Mildred Coffee; Geraldine Walker; Alma Garrett; Albert Ohlenbusch; Irene Henderson; Wilma Manly; Inez Mayes; Faye Coon.

L. J. Ledbetter, "I heard Miss Ott call you a black head Jasper." Jasper McGee, "No not that bad,

put on your cap there comes a wood-pecker."

Lois Hilton and Allen Swafford were out driving one afternoon when Allen started to turn the corner and threw out his hand, "Oh, don't hold out your hand, silly," said Lois, "mind your business I'll tell you when it starts raining."

Mr. Blythe, "Ruby what are the three important parts of the ear?" Ruby Richards, "The inner year, outer year, and leap year."

Allan Swafford and Eula Bell Swafford watched intently as their father opened and examined each novel feature of his new game rifle. "Daddy," queried Eula Bell, "do you shut your eyes when you aim at a bird?"

"Only one eye dearie" replied the tolerant parent as he continued looking at the barrel of his rifle.

"But why do you shut one eye, daddy?" persisted the child.

Here Allen broke in "Aw, don't girls know anything? That's to make the bird think dady ain't looking at it."

Mamie Howell, "What's the name of that horse that won the fourth race yesterday at twelve to one?"

Faye Coon, "H-m-m, Lunch Hour, perhaps."

W. L. Hardin's mother was giving him a sound scolding about washing necks.

"You know you haven't washed your neck," said she.

"Gee whiz," exclaimed W. L. a note of desperation in his voice, "Ain't I going to wear a collar."

### Literary Society

The high school literary society that was organized last week will have its first program Friday afternoon. The program reads as follows:

1. Opening song, led by Claude Willis.
2. Reading, Alma Garrett.
3. Shurades, Mary Nell Kimble, Mildred Coffee, Ben Spurgur, Freddie Glass, Ivy Crutcher, Ruth Coon, and Inez Mayes.
4. Piano Solo, Francis Bennett.
5. Acrostic, Glynn Smiley.
6. Reading, Garnet Thornton.
7. Jokes, Anna Bess Wilkerson.
8. Duet, Lida Kid and Killa Thompson.
9. Adjective Story, Lariene Britton.
10. Reading, Selma Harris.
11. Cross questions and crooked answers, questions, Georgia Lee, answers, Esther Edwards.
12. Closing song.

### Chapel Exercises

Chapel exercises for the school was held in the high school auditorium Monday morning, Mrs. Grace Jackson's room, the beginners, entertained us with a short program, Mrs. John Johnson's room, the 2nd

grade, will have charge of the program next Monday.

### NOLAN COUNTY PLANS BRICK PAVEMENT ON BANKHEAD

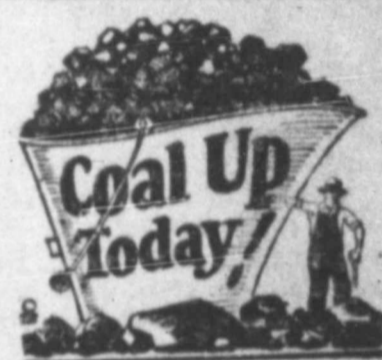

AUSTIN, Sept. 24.—The Bankhead Highway through Nolan county is to be made one of the best paved thoroughfares in West Texas, according to announcement here. Judge A. S. Mauzey, county judge of Nolan, was in Austin recently to confer with the State Highway Department as to plans, for financing the more expensive type of roadbed.

In voting a county wide issue two years ago, Nolan county based the estimation on construction cost on penetrated paving surface. Since then engineers have recommended the brick surfacing as the most economical in the long run and it is understood here that the Nolan county commissioners court will favor the change.

The additional cost is to be financed by the State Highway Department and the Nolan county commissioners court on a dollar for dollar basis.

### ANNOUNCEMENT

Dr. Stewart W. Browning announces that he has equipped a dental office in the Root New Building which he has opened for the general practice of dentistry.

# SEASON'S SMARTEST HATS

Here's a presentation that is certain to meet with approval, even among the most exacting dressers. Smartly tailored Hats are shown in velvets, velours, felts and hatter's plush. Some are be-ribboned; others have feather fancies and rhinestones for trimmings.

## J. A. Holt & Co.

### MILLS CHEVROLET CO.

The Chevrolet Motor Company has added another record to the series of sales and production marks established this year.

The new record is represented by the deliveries to Chevrolet dealers during August. A final check of August deliveries places the figures at \$1,500, a larger number of cars than the company ever has placed with its dealers during any preceding August.

The August deliveries even exceeded those made during either June or July of this year.

The achievement of the August record preceded by only a few days production of the two-millionth car by the Chevrolet Motor Company, the first manufacturer of selective gear shift automobiles to attain that figure.

Maintenance of deliveries through the summer months is cited by R. H. Grant, general sales manager of the

Chevrolet Motor Company, as endorsement of his statement made several months ago that the automotive industry is approaching a more stable and uniform basis.

"Eventually automobile production will be nearly uniform throughout the year," he said. "The seasonal peaks and valleys of production are being flattened out."

### NEW FORD CARS PROVE TO BE VERY POPULAR, IS SAID

As people become more familiar with the attractiveness of the improved Ford cars interest not only increases, but orders for cars are growing in numbers, according to A. J. Herrington, local Ford dealer.

Probably the best evidence of the widespread interest manifest in these cars comes from the general officers of the Ford Motor Company at Detroit where it was stated that since the new cars were announced orders for more than 192,368 have been

booked by dealers throughout the United States. Thousands of orders are coming in every day.

This is not only a striking example of public confidence in the company's products but is also a sales record without precedent.

Added significance is given the sales report by the fact that the public generally has not yet had an opportunity to inspect all the new types. Distribution of cars among dealers so far has been limited principally to touring cars. In fact dealers in many sections are still awaiting their first car. In spite of this, orders continue to come in from all points not only for cars of the type shown, but the rest of the open and closed line as well, an indication that prospective purchasers are impressed with the soundness of the re-designing and refining of the cars and are satisfied that they will find the same standard reflected in the type of their preference.

Assembly at the Dallas branch of the company which supplies this territory is increasing daily and among dealers will be much more rapid from now on than it has been up to the present time. However, those desiring a new Ford car for use during the coming fall and winter will do well to enter orders early and avoid delay in delivery.

HIGHEST CASH PRICE for chickens and eggs at Colorado Produce Co.

### EARTHQUAKES AND SNOW IN MONTANA SATURDAY, REPORT

HELENA, Mont.—Snow and earthquakes were the order of the day in Helena today. A sharp, short tremor was experienced at 3:45 o'clock this morning but did no property damage beyond stopping the clock on the court house tower.

The quake came as a climax to an unusual September storm during which three inches of wet heavy snow fell.

The snow did heavy damage to trees by breaking branches while street car service was hampered and electric light and power service was halted temporarily.

A heavy snow was reported at Great Falls. Despite the fact that temperatures were above freezing, the snow lay to a depth of several inches early today. Several other Montana points reported snow.

Side curtains bought and sold. Roberts Top Shop.

### ABSTRACTS

I am prepared to make abstracts of title on short notice. Your business is solicited.—W. S. Stoneham County Treasurer's Office

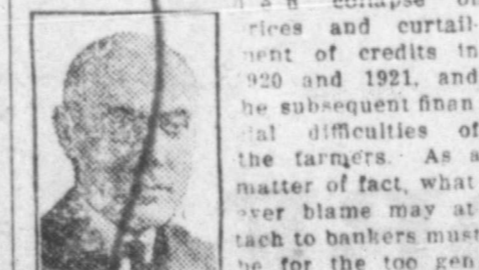

### FORCED SALE

One section Martin County. 300 acres in cultivation. Three dwellings. Water plentiful. \$12,500-00 an acre bonus. Must sell.—J. D. Cunningham Big Spring, Texas

### UNEARNED CRITICISM

By FRANCIS H. SISSON  
Chairman, Public Relations Commission American Bankers Association

There has been some disposition to criticize the administration of the country's banking system for the sudden

collapse of prices and curtailment of credits in 1920 and 1921, and the subsequent financial difficulties of the farmers. As a matter of fact, what ever blame may attach to bankers must be for the too generous financing in many cases, of speculative investment in farm property during the period of inflation. If any just criticism could be directed at the manner in which the Federal Reserve System functioned in this situation in the opinion of many it would be that the Reserve banks delayed too long in raising the rediscount rates. An earlier effort might have stayed the process of inflation.

The collapse of 1920 was by no means confined to agriculture, and was the inevitable sequel to the inflation period. All branches of business suffered in this period of reaction and perhaps none more than banking, against which this criticism has been levelled. The financial situation of the farmers was greatly aggravated by the fact that the high land values and high prices of agricultural products had led many farmers to incur obligations based on the inflated values. If the farmer was victimized at all, indeed, he was the victim of too much rather than too little consideration. The real progress which has been achieved in agricultural finance in recent years lies more in the intelligent distribution of farm credit than in volume.

With agencies now functioning for the provision of ample credits for the American farmer, his enduring success depends upon the wisdom and foresight with which he meets the problems of production and marketing. More than ever before, his activities must be regulated with reference to world conditions and his profits, like those of the manufacturer or merchant, will reflect the measure of his success in adjusting his activities to these conditions.

gan.  
A Helpful and Comforting Concep-  
tion—Burney Grable.  
Conclusion—Leader.  
Song 181.  
Business.  
Adjournment.

**Episcopal Church**  
There will be morning service at  
11 and evening service at 7:30 at  
the Episcopal Church on next Sun-  
day, October 4.  
Reverend and Mrs. Stedman plan  
to come down from Big Spring on

Friday afternoon and remain until  
Sunday. The women of the church  
are planning to entertain them Fri-  
day night.

**Methodist Church**  
Sunday school 9:45. We did bet-  
ter last Sunday, had 335 present. But  
they were not all there. Let every  
teacher look them up this week and  
have them present next Sunday A.  
M.  
Preaching at 11 a. m., and 7:30  
p. m., by Rev. R. A. Stewart. Quar-  
terly Conference at 3:30 p. m. All  
the stewards and trustees are re-  
quested to be present. The Sunday  
school superintendents, the Epworth  
League president, and the president  
of the Missionary Society. All with  
written reports.  
Regular communion services at  
the morning hour. Every one invit-  
ed. We thank all the visitors for  
their helpful appearance last Sun-  
day. Come again.—J. F. LAWLIS,  
pastor.

**The First Presbyterian Church**  
Sunday school at 9:45. J. M.  
Thomas superintendent. Come and  
watch us grow. We are somewhat  
crowded at present but we will soon  
be using the entire building. We had  
a good trip to Lubbock and Clovis,  
regardless of the rain and mud.  
Communion service at 11 o'clock.  
This is one service every member  
should attend.  
Let us make this a record break-  
er for this year in attendance at all  
the services of the day. Strangers  
and visitors welcomed. We expect  
to see you.—W. M. ELLIOT, pastor.

**First Christian Church**  
We plan to observe Rally Day and  
Promotion Day next Sunday in our  
Sunday school. We want the largest  
attendance ever in every class. It  
will thrill the whole school if it is  
evident the classes have all pulled  
for a great day. Promotion day is the  
eventful day in every well organized  
Bible school.

Then too, this is the last Sunday  
before our National Convention and  
we want to make the best record we  
can. There are a number of new  
folks in town who are members of  
the Christian church and should line  
up with us here in Colorado. We  
want your fellowship and you need  
the help the church gives. Please  
come next Sunday morning and put  
your membership in and go to work.  
Regular services both morning and  
evening. I shall preach at Fairview  
in the afternoon. Beginning next  
Sunday the evening services will be  
held at 7:30 p. m. Remember the  
place, the court house, three flights  
up, in the district court room. I want  
fifty men to meet me in Mens Bible  
class Sunday morning.—J. E. Chase.

**Sunday With the Baptists**  
Last Sunday was one of the best  
days for the church since we have  
been pastor at Colorado. Five addi-  
tions to the church with the largest  
night audience at any regular ser-  
vice. We have appreciated the many  
nice things said about the services of  
the day. We also appreciate having  
the visitors with us that day.

Next Sunday morning we want to  
speak to the Sunday school teachers  
and invite as many of the public  
school teachers to be present as are  
able to attend these services. Let  
everybody come for this special ser-  
vice. Then for the evening service  
we want to speak to the football  
boys and their friends. We want to  
have the "pep squad" too. There will  
be reserved seats for the boys. We  
would be delighted to have the teach-  
ers, trustees and parents present.  
We promise you a good time.

We cordially invite the public to  
be present at all these services. Next  
Sunday will be Promotion Day in  
the Sunday school. Let all the par-  
ents as well as the children be pre-  
sent. A nice program will be render-

ed in the Main auditorium at the  
close of the Sunday school hour.  
Come be with us. Don't forget the  
B. Y. P. U. at 6:30 o'clock—M. C.  
BISHOP, pastor.

**THE COLORADO SANITARIUM**  
Continues to grind. The following  
names have been handed in to us by  
Miss Guest, Supt. Colorado Sanitari-  
um, as those who have been operat-  
ed upon at the sanitarium during  
the month of September:

1. Mrs. E. M. Mahoney, Loraine.
2. Laddie Chase, Colorado.
3. Clarence Fisher, Colorado.
4. Eleanor Inyart, Colorado.
5. Mildred McKinney, Colorado.
6. Melba Slaton, Colorado.
7. Miss Bobbie Wyatt, Colorado.
8. Mrs. Ray Kidd, Loraine.
9. Mr. Vivian Franklin, Colorado.
10. Rex McKinney, Colorado.
11. Will Womac, Cuthbert.
12. C. F. Brown, Cuthbert.
13. Juanita McKinney, Colorado.
14. Della Ruth Gist, Colorado.
15. Mrs. L. E. Mannering, Colo-  
rado.
16. Mrs. Emily Willman, Colorado.
17. Gladys Richardson, Colorado.
18. Mary Wallace, Colorado.
19. Mrs. Leslie Crowder, Colorado.
20. Lois McKnight, Colorado.
21. Mrs. John Womac, Cuthbert.
22. Mr. Cecil Clairy, Hurlbigh.
23. Lester Haines, Colorado.
24. Billie Strain, Cuthbert.
25. Mrs. M. M. Spencer, Colorado.
26. Gladys Richardson, Colorado.
27. James Strain, Cuthbert.
28. Mary Wallace, Colorado.
29. Mrs. Alva May Martin, Colo-  
rado.
30. Miss Gladys Bowman, Silver.
31. Miss Mary Jamerson, Canyon.
32. Miss Annie Green, Colorado.
33. Mr. Coley Smith, Colorado.
34. Mr. H. L. Tienarend, Colorado.
35. Mrs. Charley Farris, Colorado.

### COLORADO MAN HONORED AT OPENING OF TEXAS TECH

LUBBOCK, Sept. 30.—Texas Tech  
College was born today. The big  
southwestern educational prodigy  
was christened before a multitude  
of many thousands by the high po-  
tentates of affairs in Texas. The  
event was a stupendous celebration  
in which all Texas, particularly West  
Texas, participated. Thousands fac-  
ing the beautiful Spanish style Ad-  
ministration Building as the historic  
program of addresses was being ren-  
dered were cognizant of the fact that  
they were by their presence taking  
part in an imperishable act—that of  
giving God-speed to what West Tex-  
as believes will in less than a decade  
outrank any other institution in the  
Southwest.

Stalwart West Texans, fighters  
in many a losing battle for acqui-  
sition of the institution in the past  
decade, stood with heads bared, tears  
trickling down their furrowed brows  
overjoyed, frequently breaking the  
stillness with lusty cheers. The thou-  
sands who saw them occupying ped-  
estals of honor on the improvised  
platform recognized in them men of  
sterling worth who had fought a-  
gainst heavy odds to redeem West  
Texas from the curse of ignorance  
and to establish West Texas' equal-  
ity among other sections of the State.

There was Porter A. Whaley, man-  
ager of the West Texas Chamber of  
Commerce—the father of the idea of  
such an institution and the foremost  
worker for its achievement. Dr. P.  
C. Coleman, co-partner with Whaley  
in the preliminary meetings that  
brought on the several campaigns  
that won for the West the big in-  
stitution, sat among the honored—  
a type of the generation now pass-  
ing from the stage of action, but al-  
ways alive. The Honorable Louis T.  
Carpenter, Senator W. H. Bledsoe,  
and State Representative R. M. Chit-  
wood, now business manager of the  
Tech College, also occupied places of

honor in the galaxy of heroes. They  
were the distinguished legislators who  
fought tooth and toe-nail and  
brought victory to the West. And  
another hard working westerner,  
Adj. Gen. Mark McGee, represent-  
ing Governor Miriam Ferguson, was  
there.

Preceding the addresses which took  
place in front of the big Tech Ad-  
ministration Building before a tre-  
mendous multitude, gathered from  
the four winds, Old Glory was hoist-  
ed to the top of a sixty-foot mast, the  
thrill that went through the crowd  
was spontaneous, there sounding  
cheers still lingering in the Pan-  
handle Plains air. The flag was pre-  
sented by the local American Legion-  
naires.

### PICTURE AT PALACE DRAWING HUNDREDS

Many people were turned away  
from the Palace theatre Thursday  
evening during the first night's show-  
ing of "The Ten Commandments,"  
which will be shown here Friday and  
Saturday.

Showing at one of the very few  
places in Texas where the admission  
price is as low as fifty cents, this  
picture directed by Cecil DeMille  
with Leatrice Joy, Richard Dix, Rod  
La Roque and Eddythe Chapman in  
the leading roles impels the persons  
viewing it to more constructive  
thought on matters that have to do  
with the real issues of life than any

shown here in several years at least.

The prologue, depicting in colors  
and with scenes of rare beauty the  
flight of the children of Israel from  
Egyptian bondage to Mount Sinai,  
where they received the Ten Com-  
mandments, one of the most impres-  
sive things ever recorded by the mo-  
tion picture camera. All the trials  
of these people, with the character  
of Moses, their leader, stands out in  
delibily. The prologue ends with the  
breaking of the tablets of stone up-  
on which the Ten Commandments  
had been "written and graven" by  
Moses when, on descending from his  
forty days and nights on Mount Sin-  
ai communing with God and receiv-  
ing the Law, view his people in the  
embraces of a debauch before a  
Golden Calf which Aaron had made  
and which they were worshipping.

The results of breaking the Law  
of God, the Ten Commandments,  
was here strikingly depicted. In the  
romantic, yet tragic story woven in-  
to the picture, wherein two brothers  
of widely different dispositions il-  
lustrated in their lives the results of  
breaking and obeying the Ten Com-  
mandments the motion picture has  
served a purpose that is high and  
noble. The efforts of the gray-  
haired mother to get her boy, Dan,  
to obey the Commandments instead  
of professing infidelity, the self-  
sacrifice of his brother, the poor  
carpenter, and the tragic death of  
the mother under the weight of the  
church building which Dan was con-

structing and in which he used rotten  
cement that he might reap unfair  
and dishonest profits, are all agen-  
cies for driving home the lesson that  
the Commandments will break one  
if they are broken.

The story ends with a scene where-  
in, the poor but good brother and  
the widow of Dan, who was sent to  
his death in a stormy sea while es-  
caping the law following the murder  
of a French-Chinese siren by him,  
are left at peace with God and man.

### NOTICE

Watchout for three Mexicans, An-  
tonio Gomes, Joss Abita, Amelito  
Sontas left my farm at Seven Wells  
on Monday, owing me for money and  
groceries, catch them and report to  
me. L. L. Basham, Colorado, R. 2.

A smart guy in the Dallas News  
says:

And if it doesn't quit raining so  
much in Western Texas the cattlemen  
may have to start raising water  
buffaloes.

ally good westerns here this  
week. Don't miss a one.  
SATURDAY NIGHT, OCT. 10.  
Pete Morrison in  
**"RAINBOW RANGERS"**  
Comedy, "Place in Places."

### Punch For The Party

PUNCH is just about the easiest  
refreshment which the hostess  
can serve at an informal dance  
or a simple afternoon party. With  
the aid of canned fruit juices, mal-  
ted or evaporated milk, a few lem-  
ons and oranges and plenty of  
cracked ice, all sorts of delicious  
concoctions can be made.

- Raspberry Sherb**  
Two cups water, 1/2 cup sugar,  
1/2 cup lemon juice, 2 cups orange  
juice, 1 cup canned whole rasp-  
berries, 1 cup raspberry juice.  
Boil sugar and water together 3  
minutes and chill. Add fruit juices  
and berries and pour over ice in  
pitcher. This makes 6 glasses.
- Chocolate Floar**  
Three cups evaporated milk, 1  
cup water, 4 squares unsweetened  
chocolate, 1 tablespoon hot water,  
1/2 cup sugar, 1 teaspoon vanilla.  
Whipped cream flavored with van-  
illa. Scald the diluted milk in a  
double boiler. Mix the chocolate,  
sugar and hot water over the fire.  
Add to hot milk and beat well.  
Add vanilla and chill. Serve top-  
ped with whipped cream.
- Pineapple Frost**  
Mix two cups syrup from can-  
ned pineapple, 1 cup ice water, 2  
tablespoons lemon juice, 1-3 cup  
syrup. Pour into glasses contain-  
ing cracked ice. Top with a spoon-  
ful of whipped cream and sprinkle  
with nutmeg.
- Oriental Punch**  
To the juice of six oranges add
- Pineapple Grape Juice Punch**  
Two cups pineapple juice, 1/2 cup  
lemon juice, 1/2 cup sugar, 2 cups  
grape juice, 2 cups ice water, 3  
large slices orange, 6 maraschino  
cherries. Mix pineapple and lem-  
on juice and sugar and stir until  
sugar dissolves. Add grape juice  
and ice water and pour into glasses  
each containing a half slice of  
orange, a cherry and a small piece  
of ice.
- Grapefruit Punch**  
One cup of juice drained from a  
can of grapefruit, 1/2 cup lemon  
juice, 2 cups orange juice, 2 cups  
ice water, 1-1/2 cups powdered  
sugar. Mix the fruit juices and  
sugar and stir until sugar dissolves.  
Add iced water and serve.
- Rhubarb Punch**  
Three cups rhubarb, 3 cups  
water, 1-1/2 cups sugar, 1 cup juice  
from canned pineapple, 3 table-  
spoons lemon juice, 2 cups ice  
water. Cook rhubarb which has  
been cut in small pieces without  
peeling. Rub through a fine strain-  
er, add sugar and stir until it dis-  
solves. Chill. Add fruit juices and  
ice water and pour into glasses.

**PALACE THEATRE**  
THURS., FRI., SAT.  
OCT. 1, 2, 3.  
**"The Ten Com-  
mandments"**  
Big Paramount super-special  
Don't miss it—3 big days—mat-  
inee and night.  
p. Sec. 'h o9ooDal The

MONDAY AND TUESDAY  
OCT. 5 AND 6  
LON CHANEY in  
**The Unholy Three**  
With Mae Bush and Matt Moore  
and the little Dwarf and the  
Giant. Why were they called  
the Unholy Three? Because the  
ventriloquist could throw his  
voice behind doors. The Dwarf  
could climb into locked places,  
the Giant had the strength of a  
dozen men. This is a great pic-  
ture. Be sure to see it.  
Comedy "Riders of the Purple  
Cow."  
WEDNESDAY—One day only  
**"Steadfast Heart"**  
Margaret Courtot, Mary Olden  
Joseph Kleper, Joseph Striker.  
Also Pathé News and Fables

THURSDAY - FRIDAY  
OCT. 8 AND 9  
**Never The Levain  
Shall Meet.**  
Peter B. Kynes' famous story of  
California and the South Seas  
with Anita Stewart, Bert Lyell  
Huntley Gordon and others.  
Also Big Gang Comedy, "Fast  
Company."  
SAT., OCT. 10th  
**"Lone Hand Tex"**  
With Lester Cpeno—a rip roar-  
ing western. Also Seamon com-  
edy.

RAINFALL FOR COLORADO FOR LAST NINETEEN YEARS

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible selections, it will prove a priceless heritage to them in after years.

IT SURELY WILL:—Be sure your sin will find you out. Numbers 32:23.

PRAYER:—Plenteous grace with Thee is found Grace to cover all my sin; Let the healing streams abound, Make and keep me pure within."

COUNTING THE COST

The proposed road bond issue of \$325,000, supplementing state and federal aid of \$600,000, already allotted, and which would give to this county a highway improvement project totaling \$925,000, would require a 30 cent tax to pay interest and retire the bonds at maturity.

For the man who is assessed for \$500 worth of taxable property the bonds would cost him \$1.50 additional annually. On \$1,000 valuation the bond tax would be \$3.00. To the farmer owning 160 acres of land assessed at \$8 an acre the cost of having paved roads would be \$3.54 a year.

So the schedule will run as to all property owners in the county. Even for the largest property owners, and they with small exception are in favor of the bonds, the additional cost would be relatively small. The citizens assessed for \$50,000 worth of taxable property would be called upon to pay \$150.00 annually into the bond tax fund. And these figures are based upon the present property valuation of the county. As the years pass Mitchell county valuation will increase, automatically reducing the tax rate necessary to retire the bonds.

The most attractive feature of the whole program, however, is not so much in the small amount of tax which would be required of the citizens in return for good highways. The offer of the state and federal governments to pay almost two-thirds of the entire construction cost of the 65 miles of designation is the feature which should appeal to the public of this county. We are offered an inducement which establishes a precedent in highway construction in this state.

Then, again, with an additional 33 miles of highway improved and taken over for maintenance by the government, all of the annual road and bridge fund tax, now totaling \$24,000 each year, could be released for exclusive use on the lateral community roads. Within a few years this county could build up a system of excellent public roads traversing every community. The bond tax of 30 cents is the only requirement to be met by the property owner of this county in providing for themselves a system of highways of which they might well be proud.

The election is going to be called, because there are leading citizens in every voting precinct of the county who have become enthused over this unusual opportunity. The Record is for the bonds and we are hoping that the victory will be overwhelming, which we believe it will.

The Record agrees that it would be more universally satisfactory to

THE PASSING DAY

WILL H. MAYES Department of Journalism University of Texas

Careless Auto Driving.

An Austin man, his wife, his daughter and three grandchildren started early Sunday morning in an automobile to visit relatives in a neighboring town. Like most autoists they were in a hurry, and though their car was small and light, they rushed past others on the road. Suddenly there was a blow out, the light car swerved and pitched headlong over a bridge. The wife and daughter are dead, the driver and two grandchildren are in an Austin hospital, and relatives are mourning because of the hurry of the party to get to the end of their journey, for which, after all, there need not have been any haste. The Sunday night before, near Austin, a party of five young people attempted to pass another car with their car, turning their car over and killing one of their party. These are not unusual stories—such things are almost constantly happening somewhere—and they are given only to add the statement that all this rush to get somewhere is sheer madness.

Why So Much Speed?

In both the cases mentioned, and in nearly every other case, the parties need not have been in a hurry. In one they were going for an all-day visit and had the whole day for a short trip; in the other they were nearing home after an outing, with no need to hurry. Just because an automobile can be made to go fifty miles an hour, it does not follow that its utmost speed must be developed on a drive. There is really little pleasure in a drive at a speed exceeding twenty miles an hour, for when going more rapidly most of the beauty of the scenery is lost. Most of us waste time every day—much of it—and seldom think of hurrying until we start somewhere, when we suddenly become almost crazy to annihilate distance. Something drastic is going to have to be done to compel people to use common sense in driving.

Celebrating July Fourth.

But for the World War, interest in celebrating the fourth of July as a national holiday would almost have ceased before now. In fact before that war it had become difficult to get crowds together for such a celebration. The Revolutionary War is too far in the past to arouse much enthusiasm even from the most patriotic citizens. Only the political orators seemed to care a great deal for the day and their oratory did not enthuse the masses. While July 4 has no direct or immediate connection with the World War, it seems a good time to celebrate and to renew the spirit of defense that is a bit hard to keep alive, even with the world's greatest conflict only a few years behind. July 4 has come to be known as Defense Day, a day in which we as a people get together to keep reminded that we need to be ready to defend our country as long as other countries are prepared to attack us. Some of us are hoping that we may live to see the day recognized as Peace Day throughout the whole world.

Auto Bus Transportation.

There is such a decided increase in auto bus transportation that a demand is being created for union bus stations at connecting points and in many places such stations are being operated. Some modern hotels are providing for direct passage of auto buses into the hotel buildings in order that passengers may alight near the hotel office. Bus lines are becoming financially responsible and some are carrying or contemplating accident insurance for their passengers. Railroads are coming to recognize the inroads upon their business and some are paralleling their short distance lines with bus transportation. It is stated that a passenger can go from Brownsville, Tex., to Denver, Colorado, by bus in about the same time as by rail and at about the same cost and can sleep in a hotel every night while en route. Whether that can be done now or not, it will soon be done, and the railroads are going to have to meet this new and powerful competition.

The Pullman Car Surcharge.

Railroads are putting on summer excursion rates to many points that make one think of the old times when it did not take a fortune to get anywhere if only he watched for a chance to get special rates. But about the time that he thinks he can afford to travel he finds that the summer fare is all out of proportion to the railroad while July 4 has no direct or immediate connection with the World War, it seems a good time to celebrate and to renew the spirit of defense that is a bit hard to keep alive, even with the world's greatest conflict only a few years behind. July 4 has come to be known as Defense Day, a day in which we as a people get together to keep reminded that we need to be ready to defend our country as long as other countries are prepared to attack us. Some of us are hoping that we may live to see the day recognized as Peace Day throughout the whole world.

The Comforts of Home.

Yours must be a very uncomfortable place, if it hasn't far more comforts than most of the resorts one finds when out on vacation. The great advantage on a summer vacation is that it brings a person to at least a temporary appreciation of the ordinary comforts of home, however humble it may be.

Caddies Get the Edge.

The rich have little advantage. They get the most exercise out of golf. —Duluth Herald.

Be Not Deceived. Your life and welfare each depend upon the condition of your spine, just as much so as the same depend upon your environment, intelligence, sunshine, air, water, clothing—and food that you eat. This being true, it is the better part of wisdom to use common sense and have that bad spine examined and corrected by a reliable expert in his profession near your own home town rather than go away and spend 3 or 4 times as much more money than is necessary. Think it over. PHONE 76 C. H. LANE MASSEUR

FAMOUS FORTS IN U. S. HISTORY By ELMO SCOTT WATSON

When the Piutes Rode the War Trail

Life was never dull in Nevada in the sixties. If there wasn't trouble among the rough characters of the silver mining camps, the Piute Indians could always be counted upon to lift a few scalps and burn some cabins. Early in 1860 they had been so active that the settlers had to appeal to California for help. Several hundred volunteers immediately rode over from the gold camps to help their silver-mining brethren. But more important was a force of 150 regulars from Alcatraz Island, led by Capt. Jasper Stewart of the Third Artillery and Capt. E. F. Flint of the Sixth Infantry, which took the field and formed the nucleus for a force of 800 men that kept after the Indians until they were brought to bay near Pyramid Lake. There a three-hour battle was fought on June 3, and the Indians were defeated.

The soldiers remained in the region until the middle of July and put in their time by building Fort Churchill on the Carson river, 35 miles below Carson City. This fort was the most important of several that were built in the territory and when the Piutes broke out again in 1862 it was made military headquarters for the Third California volunteers, under the command of Colonel Conners, commander of the military district of Utah and Nevada. For the next six years the Piutes kept up a desultory warfare and expeditions were constantly being sent out from Fort Churchill against them so that it is no overstatement to say that the settlement of Nevada might have been delayed for many years but for this fort.

Fort Churchill is also noted for its connection with another historic occasion. It was on the route of the Pony express and one day when "Pony Bob" Haslam, one of the riders, arrived at Fort Churchill, the man who was to carry the pouches on to the next station was unable to go. So "Pony Bob" took his place and this resulted in his famous ride of 380 miles with scarcely 11 hours rest from the time he started until his job of "getting the mail through" was done, over every mile of which he was in constant danger of death.

By 1872 the troubles with the Piutes were definitely over, the Pony express was a thing of the past, the garrison at Fort Churchill was withdrawn and its career as the protector of an infant state was at an end.

CORNER STONE LAYING AT FIRST PRESBYTERIAN CHURCH

On Friday, Sept. 4th, the First Presbyterian church had a public service in which the corner stone of their beautiful house of worship was laid. The pastor, Rev. W. M. Elliot, presided and read some appropriate Scripture for the occasion and led the opening prayer. The choir sang several songs. The pastor of the First Baptist Church led another prayer. Rev. J. F. Lawlis, pastor of the First Methodist Church made the main address of the occasion, speaking of the three essential needs for any church. He also expressed the appreciation of the town of the new building.

The contractor, Mr. Olsen, placed the stone in place, which contained a Bible, the names of the deacons, the Ruling Elders, the pastor, a copy of the Colorado Record, and a copy of the Christian Herald, one of the oldest publications in the United States.

Then the audience was dismissed and shown through the new house. It is not quite finished but will be finished pretty soon.

Dr. Coleman gave a short history of the church and its organization. The church was organized in a dug-out away back in the early '90s with 11 members. The brother who preached the first sermon and also who dedicated the old house, which has recently been torn down, tells about preaching the first sermon in a saloon. Quite a difference now and then. Dr. Coleman read a part of the dedicatory speech of the above named brother Rodgers. It was all quite interesting.

We congratulate pastor Elliot and his good people upon the completion of this most excellent house of worship. Dr. Coleman made the statement that it would all be paid

CLASSIFIED ADVERTISEMENTS WANT ADS BRING RESULTS See the Lost, Found and Rewards. RATES 1 time minimum charge 50c; 3 times for \$1.25; 1 month for \$1.50.

FOR SALE—One sixteen room apartment house. One seven room brick bungalow. See Abe Dolman. tf

### Latest Triumph in Railroading

THE completion of the new Chicago Union Station marks a noteworthy accomplishment in the history of important engineering undertakings, from which travelers from all parts of the United States will derive pleasure and benefit.

The station is without doubt one of the finest and most efficiently designed railroad terminals in the world. It forms a vital link in the realization of the "Chicago City Beautiful Plan." Simplicity, accessibility and convenience for the traveling public are the essential virtues of the new terminal. Rest and recreation rooms, ticket offices, barber shop, dining rooms, stores of various kinds, and almost every convenience known to travelers, are to be found on the one level, no steps to climb.

The main station is a low monumental type of building with a row of massive columns of classic design along the entire east front. Once inside, the traveler finds himself in a gigantic waiting room more than 100 feet high and brilliantly lighted through skylights in the great arch ceiling. Colonnades inclose the room, the walls of which are patterned after the architecture of ancient Rome. Bordering this room are the ultra-complete passenger terminal facilities. An innovation in railway terminal design is a conference room accommodating 125 people, which is available, without

charge, to patrons of the Union Station lines for conferences and other meetings.

To give some idea of the immensity of the new station, it may be stated that the main building covers an area of about three acres with a concourse covering 60,000 square feet. The entire terminal facilities cover more than 35 acres and will expedite the prompt and satisfactory handling of 50,000 passengers, 400 tons of baggage and 300 trains daily with room for future expansion. Fifteen acres of glass were used in the various coverings over the train sheds, which extend more than 1,200 feet beyond the main structure. A total of 17,000 tons of structural steel, 175,000 cubic feet of Indiana limestone and 10,000 cubic feet of granite were used in the station building and concourse. The foundation consists of 449 cylindrical concrete piers from four to ten feet in diameter, reaching to a depth of more than 60 feet below the level of the Chicago river.

Those who have had the privilege of inspecting the new station pronounce it a marvel in terminal construction and are urging their friends to see it on their next visit to Chicago.

The station is used jointly by the Pennsylvania Railroad; Chicago, Milwaukee & St. Paul Ry.; Chicago, Burlington & Quincy R. R., and the Chicago & Alton R. R.

we will always be helpful to each other. We all have more or less egotism. A common cur dog likes to be noticed. You can make friends of any dog. What is true of a dog in this respect is true of most of us common men.

Many a wife has worn her life out toiling for her husband and he has let her do so without ever telling her he appreciated her labors but maybe he was cold and critical because sometimes things did not come up as he expected them to or else as he thought they should have come up. And many a husband has labored hard to build a home and educate his children and maybe he has not received many words of appreciation for his manly efforts. Fathers and mothers give their lives to help their children and the children seemingly have to get up into years before they think seriously about it or appreciate these labors of love and sacrifices made for them by these parents.

The appeal of this article is that we show our appreciation more of those that are trying to do something for the community in which we live. Even if we do pay the teachers and the preachers they certainly are giving more than value received. If someone has really helped you in some way tell him or her about it. It will help all of us. Tell the teacher of your child she has helped him or her during the school year. Tell the preacher who struggles to bring you a message each week, if those messages help you. Tell the public servant you appreciate his labors of service for the community. We are all human. All humanity likes to be appreciated therefore we like to be appreciated.

—Baptist Visitor.

Don't fail to see the newest hats in town, at Burns'

Opening of Simmons University

On Sept. 16 Simmons University opened its first session as such, while it was the 34th session of the school. Simmons was made a University last June and will function as such the rest of her days.

This opening was by far the largest in the school's history. Something like 700 students were enrolled the first two days.

It was a treat to be present and see the young people pour in and line up for a period of four years hard work. Many of them came for the first time to the town life. We well remember how it was with us when we left the country place, knowing nothing of the ways of the city and broke in on University life. Of course it is different now as everybody is going here and there and there are no more real new experiences as there were 25 years ago. We could write a long article on our first experience in old Baylor University but it would not sound like modern day experience. A fellow with a family of 5 leaving a farm, knowing nothing but "mule-ology", starting into a brand new life without experience or money, trying to prepare himself for the ministry is no child's play. Many were the times we wished we had never departed from or forsaken the friendly comradeship of the things we were most familiar with but as the years grew we began to realize there was another side of life and that a fellow could live somewhere else than on the farm and drive the mules. Many another fellow has had the same experiences we had. Of all the folks that need the prayers and the sympathy of the religious element is the young fellow who feels called to preach and leaves all and tries for an education. He suffers more and endures more trying to get knowledge and experience than any other class of folks we know anything about. Of course it is hard on the folks while the young brother is getting his experience but he just simply has to have it.

Simmons is badly crowded. She needs more room, more money, more teachers. We are glad to see some 15 or more of the young people from Colorado in Simmons this year. Three of our fine fellows are in the band.

—Baptist Visitor.

ANNOUNCEMENT

Dr. Stewart W. Browning announces that he has equipped a dental office in the Root New Building which he has opened for the general practice of dentistry.

### BANKERS HELP

The banks of Linn County Oregon, are showing more enthusiasm than ever this year in behalf of a county corn exhibit similar to that held last year at the Linn County Fair. Last year's exhibit was the result of a contest for a prize offered by a number of local banks. This was so successful that this year ten out of the eleven banks in the county will subscribe to the effort.

The Agricultural Committee of the Alabama Bankers Association has recommended that a scholarship fund be established for the education of worthy young men and women along agricultural and home economics lines. It is estimated that if each bank in the state were to contribute 25 cents per thousand capital, five to six thousand dollars per annum would be realized.

The Agricultural Committee of the Oklahoma Bankers Association, in its report, recommends that the bankers see that a competent agent is appointed in each county and that he has a degree from some agricultural college. They believe that the agricultural possibilities of the state should be better advertised and that each county bankers association should do some work along that line.

Searcy County Bankers Association, Arkansas, entertained as its guests recently some seventy-five farmers and business men. The result was the organization of the North Central Arkansas Agricultural Association. Its purpose will be to co-ordinate the efforts of the farmers and business men in promoting a better agriculture. Searcy County bankers are giving 100 settings of purebred eggs for distribution to the boys' and girls' clubs in the county.

R. S. Mowrer, chairman of the Agricultural Committee of the New Jersey Bankers Association, together with H. J. Baker, director of extension work in the College of Agriculture, made a complete tour of the state this spring, calling on the county agents and agricultural committees of the various county organizations to get a definite line-up on the work done and the plans for the coming year. Ways and means for furthering the program of the state committee were considered at these conferences.

Newest thing in fall hats at Burns' Tinware, galvanized pails, wash tubs, wash boilers at money saving prices at Berman's Variety Store.

### The Versatile Pineapple

PINEAPPLE has indeed been well named the most versatile fruit that we have. In deserts it is unrivaled and as a salad with cheese it is as delicious as it is good to look at. Its widespread popularity dates from the perfection of the canning process, for it is the canned product that is in greatest demand. Fresh pineapple is somewhat tasteless and is usually full of tough fibers.

Canned pineapple is packed in two ways for the convenience of the housewife—in slices for salads and desserts that require firm fruits, and shredded for ice cream, sherbets, fruit drinks, puddings, pies and other fancy desserts. Recently the world has been developing a taste for saute pineapple and you will now find it served in this form with meat dishes. To saute pineapple place slices of it in a frying pan of hot butter and brown it slowly on both sides.

For a quick dessert nothing is more delicious or easier to make than shredded pineapple mixed with marshmallows cut in small pieces and bound together with whipped cream. If you like a sprinkling of coconut can be added on top.

Crushed pineapple makes a delicious sandwich filling if mixed with cream cheese. It also adds flavor to ice cream when poured on like vanilla sauce.

Pineapple Custard Pie

Mix one can of crushed pineapple, 1 cup sugar, 2 1/2 tablespoons flour, 1-8 teaspoon salt, 1 beaten egg and 1/4 tablespoon melted but-

ter. Pour into a deep pastry lined plate. Put strips of pastry across the top and bake in hot oven 40 minutes, reducing heat during last 20 minutes of baking.

Pineapple Sherbet

Add 1/2 can of crushed pineapple and the juice of 1/2 lemon to 1 1/2 cups of grape juice. Dissolve 1 tablespoon of softened gelatine in 1/2 cup of boiling water. Add to mixture and freeze.

Pineapple Cheese Salad

Place slices of canned pineapple on lettuce leaves, allowing one slice for each person. Make French dressing and add 2 tablespoons of Roquefort, cream cheese or grated American cheese. After it is thoroughly mixed pour over pineapple and serve.

Pineapple Cake Glace

Cream 1/2 cup lard, gradually adding 1-1/2 cups sugar. Add 1 well beaten egg. Sift 2 1/2 cups flour, 1 teaspoon baking powder, and 1/4 teaspoon salt, and add to the first mixture alternately with 1 cup cold water. Melt 2 tablespoons butter in an iron spider and add 1 cup brown sugar, stirring until smooth. Spread with a layer of well drained crushed pineapple, pour batter over this and bake 45 minutes, in a moderate oven. Turn out on a plate, cool thoroughly, spread with whipped cream and serve.

We expect new hats for Saturday, Mrs. B. F. Mills.

Don't forget where we are located, the big Ford building across from T. & P. Station.—Mrs. B. F. Mills.

### Health and Home

FOOD FOR CHILDREN WHO TRAVEL

Many times, and especially during the summer months, mothers are forced to take their children on trips with them. During these trips, the parent is forced to contend with that ever-present and serious problem of food for the child.

As in almost every other case, the chief source of worry, during these periods, is the milk supply. Its source, its purity and its food value. It is not always convenient to get market milk of dependable quality for, in many sections of the country, adequate facilities for its care are not provided. To meet the needs of mothers in these trying situations, science has provided a form of milk, conveniently carried and easily prepared. The cans are in two sizes, the one containing six ounces and the other sixteen.

Evaporated milk is just pure cows' milk with more than half of the water removed. None of its food value is lessened; in fact its digestibility is improved. It is easily mixed with water and is, undoubtedly, the most practical form of milk for use as a food for children. Some of the country's leading pediatricians recommend its use, employing the following formula:

From Sixth Week to Third Month.  
Milk, evaporated ..... 6 ounces  
Lime water ..... 3 ounces  
Milk sugar ..... 2 ounces  
Boviled water ..... 24 ounces  
Six feedings in twenty-four hours:  
4 to 5 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.  
Milk, evaporated ..... 7 1/2 ounces  
Lime water ..... 3 ounces  
Milk sugar ..... 2 ounces  
Boviled water ..... 24 ounces  
Six feedings in twenty-four hours:  
6 to 8 ounces at three-hour intervals during the day and a feeding at 10 p. m.

From Fifth to Seventh Month.  
Milk, evaporated ..... 10 ounces  
Lime water ..... 3 ounces  
Milk sugar ..... 2 ounces  
Boviled water ..... 24 ounces  
Five feedings in twenty-four hours:  
6 to 7 ounces at four-hour intervals, the last feeding to be given at 10 p. m.

From Seventh to Ninth Month.  
Milk, evaporated ..... 11 ounces  
Lime water ..... 3 ounces  
Milk sugar ..... 2 ounces  
Boviled water ..... 24 ounces  
Four to 5 ounces at four-hour intervals during the day. Last feeding at ten at night.

From Ninth to Twelfth Month.  
Milk, evaporated ..... 12 ounces  
Lime water ..... 3 ounces  
Milk sugar ..... 2 ounces  
Barley water ..... 24 ounces  
4 to 5 ounces at four-hour intervals during day. Last feeding at ten at night.

### APPRECIATION

There is much contained in the above word. The fact of appreciation expressed in a human soul marks the difference in that person from all other living creatures. The lower animals do not have a soul to express appreciation with. Man is supposed to be nearer like God than any of the other animals of His creation. God delights to be appreciated. Man delights to be appreciated, also. The world is dying for a word of sympathy and love. Men and women are giving their lives for the uplift of humanity but a few of them ever receive a word of encouragement or sympathy, or appreciation. Men and women are serving the world in many places and in many ways without compensation and all they get is the keen knife of public criticism. People should be more careful about expressing their opinion about public servants until they have information concerning facts. School trustees serve, and do it well, too, without financial compensation and many thoughtlessly will criticize even to the hurting point. It takes no pains at all to criticize hurtfully but it takes a great soul to show appreciation for what some struggling soul is doing for the good of the community.

Take our doctors, teachers, and preachers. But little praise is ever expressed for the work they are doing but let one of them fall to come up to our idea of what a public servant should be and we are ready to unload an inactive liver on them to our hearts content. We are all more or less guilty of the lack of human sympathy. We have "chairs" in all our schools to teach every branch of knowledge but no school that we have ever heard of has this important "Chair" of sympathy. If we would stop and express due appreciation, if we are capable of appreciating anyone, all our public servants would do far better work and thereby do more efficient service for the public.

Some think teachers are paid too much money for teaching school. This idea is always expressed by those who have never taught school. Some say preachers are preaching for money. This idea comes from those who have never preached. All undue criticism comes from the inexperienced. No former trustee of a school will vent his spleen on an active trustee.

This world is made better or worse as we take into consideration the needs and the condition of the other fellow. The golden rule will work in any and all parts and places of life. If I will treat my fellows as I would like for them to treat me

## Always On the Job!

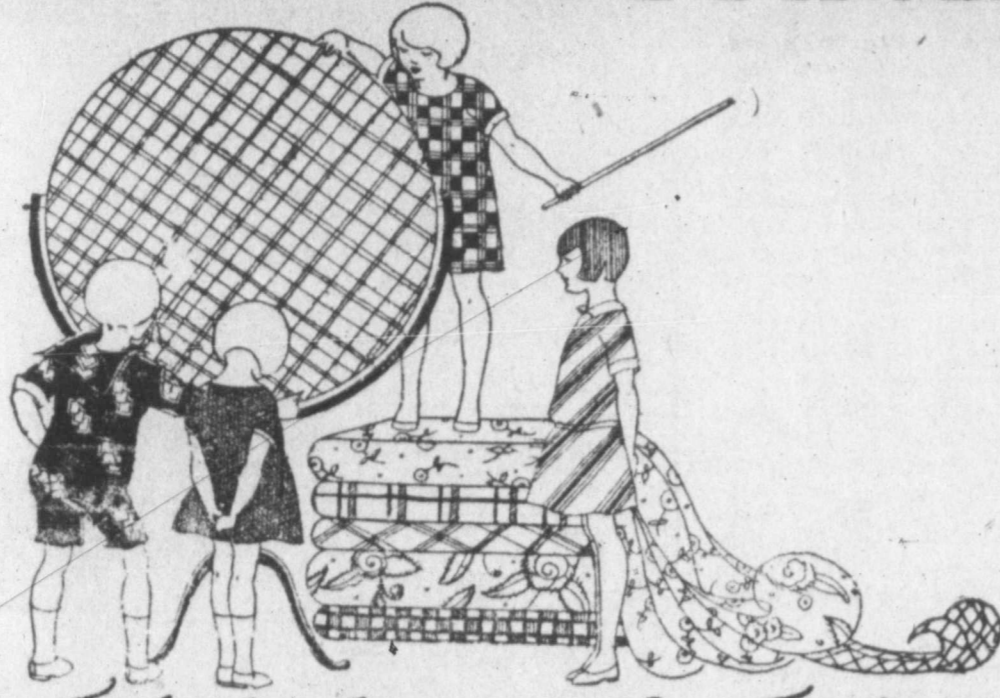

OLKS are spending a lot of money today for insurance. You buy protection against loss by fire, windstorms, theft, injury and even death. Premiums may seem high, but you know the benefits are worth the price.

There is one form of protection, however, that all of us in this community enjoy every day and it does not cost us one cent! We never can know how many lives it has saved, how much sickness it has prevented, how many hours of contentment it has brought to our homes.

This protection is the service rendered by the business men of our town, who quietly and faithfully meet our daily needs. No matter what emergency may face us, they continue to supply us with food, shelter, clothing and the other necessities of life.

You will find their ads in this paper. They solicit—and deserve—your generous patronage. They are your friends in time of need!

## LORAINE NEWS

Local and Personal News About Loraine and Vicinity

MRS. ZORA DEAN

Mrs. Dean is also authorized to receive and receipt for all subscriptions for The Colorado Record and to transact all other business for the Walpole Printing Company in Loraine and vicinity. See her and take your County paper.

### W. M. U.

The W. M. U. met with Mrs. Jerry Walker last Monday afternoon at 3 o'clock. There was an unusually large number present, and the program, "Stewardship of Time and Personality," was well rendered. Some of the specialties were a piano solo by Ona Walker, a duet by Ethlyn Furlow and Selma Harris, and "The Sin of Being Uninformed" a special paper by Mrs. C. B. Reeder, after which a social hour was enjoyed by all and the hostesses served a delicious cream and cake course.—Reporter.

### School Notes

Edith Wilkerson, editor-in-chief. Tenth grade reporters: Rilla Thompson, Mary Nell Kimble, Fred McPherson, Freddie Glass, Ollie Mae Martin, Clara Conaway, Lurline Britton.

### Junior-Senior Party

Last Friday night the juniors entertained the seniors, with a watermelon feast, at the home of Mrs. Smiley. The juniors were the first of the season to entertain, so we see they had an eye for business, they expect the same cordiality to be shown them.

The majority of both classes were present, and as there was a good number many different games were enjoyed by all. Music was played, through the entire evening. At the appropriate time the guests left, all declaring they had spent a very delightful evening.

### Humor in Study Hall

Humor is the very term "what ain't found" in our study hall.

A regular force including Mr. Blythe, Miss Ott, Miss Alford and Miss Harkins, is stationed at designated hours to guard the younger generation of Loraine, while we have to study. The only chance we have to talk or have fun is at recess, for when we ever try to whisper or smile, teachers are at the right of us, and teachers are at the left of us charging us on.

### Boys Athletics

Athletics at the Loraine High school is not yet under full swing. Loraine does not play football, because of the lack of necessary equipment and an adequate coaching staff but the boys will go immediately into strenuous training in preparation for the basketball season. The team promises to be much better than last year, being heavier and equally as fast. We are expecting our basketball team to win the county and district championship.

### Girls Athletics

All girls who were interested in basketball were asked to meet Miss Harkins in the English room last Friday to discuss the work for the coming year. Twenty-five high school girls met eager to pledge their support. Each was given the opportunity of stating their desired positions in the game. The school ground is to be divided so no court can be laid off until the final settlement is made. Plans were discussed to raise funds to buy a ball and the other equipment necessary. It was decided to put on a play to defer the expenses. The prospects are very good for the coming year and an "A-1" team is expected to show Loraine what they can do.

### Chapel Exercises

Monday morning Sept. 28th was Mrs. Johnson's time to arrange the chapel program.

The regular devotional exercises were held after which a very pleasing program was rendered. The first number was an opening song by six girls and six boys. Clifford Dean Reeder, gave a story and all the high school pupils marveled at his wonderful memory. Wyona Hardin sang a clever little song which everyone enjoyed. Margaret Ruth Edwards, gave a reading entitled "The Big Policeman." The closing number was a piano solo by Genevieve McGeehee. Everyone is looking forward to the time when the second grade will entertain again.

### Literary Society

The high school literary society met for the first time Friday afternoon, Sept. 25, to listen to a well prepared program. The house was called to order by the president, Fred McPherson, after which the minutes were read and approved. The first number was an opening song by the society. Claude Willis, leader; Alma Garret read "The Skating Rink" and was so boisterously applauded that

she accepted the encore and read "Man Thru Seven Stages." Ivy Crutcher, Freddie Glass, Ruth Coon, Ben Spurgur, Inez Mayes, Mildred Coffee and Mary Nell Kimble very cleverly staged a shurade. Francis Bennett, played a piano solo which all enjoyed. Glynn Smiley read a well prepared prophecy of the tenth grade Anna Bess Wilkerson read a number of jokes about the school pupils. Lida Red, and Rilla Thompson, gave a vocal duet, Mrs. Taylor accompanied. Lurline Britton read an adjective story and Selma Harris gave a good reading. The last number was Cross Questions and Crooked Answers by Estha Edwards and Georgie Lee. After the program was given the society was adjourned until the next meeting, Oct. 10th.

Hickory, dickory, dock, if you crave a neat little shock, just enter a door without knocking before, hickory, dickory, dock.

"Now Forest" said Miss Ott, "if there were eleven sheep in a field and six jumped the fence how many would there be left?"

"None," replied Forest Porter. "Of course there would" said Miss Ott.

"No, ma'am, there wouldn't" replied Forest, "you may know geometry, but you don't know sheep."

Raymond Johnson: "Lida, your nose remind me of a trackmeet." Lida Red: "How's that?" Raymond: "So many runners."

Freddie Glass: "I always sleep with my gloves on, that is why my hands are so soft."

Emma Kate Surgur: "H-m, I suppose you sleep with your hat on also."

Hillis Rhodes: "W. L. Hardin is sure a good artist."

Marvin Edwards: "I'll tell the world he is; why the other day he drew a hen, threw it in the waste basket and it laid there."

L. J. Ledbetter: "Dad, can you sign your name with your eyes shut?"

Mr. Ledbetter: "Certainly." L. J.: "Well, then, shut your eyes and sign my report card."

Esthua Edwards: "Say something sweet to me dearest."

Edison Wilson: "Custard pie."

Miss Harkins: "Give me an eight letter word meaning flapper."

Fred McPherson: "Bungalow, painted in front, shingled on top and no attic."

Miss Fry: "How do I get so many splinters under my finger nails?"

Miss Harkins: "By scratching your head, probably."

Mr. Blythe: "Why is it always best to tell the truth?"

Ben Spurgur: "Because then you don't have to remember what you say."

If a teacher was going to teach another teacher, would the teacher teach the teacher like the teacher wanted the teacher to teach, or would the teacher teach the teacher like the teacher wanted to teach the teacher?

Miss Alford: "Mary Nell have you whispered today without permission?"

Mary Nell Kimble: "Only onst."

Miss Alford: "Delma should Mary Nell have said 'onst'?"

Delma Roberts: "No'm she should have said twist."

The best jokes can't be printed, they walk around on two legs.

### NOTICE CAR OWNERS

All extensions of time cease Sept. 31, after that time persons running without proper headlights will be prosecuted by order of highway department.

The following stations have the necessary equipment to fix your lights:

- Brown Brothers, Westbrook.
- A. J. Herrington, Colorado.
- Pidgeon Garage, Colorado.
- Manly Motor Co., Loraine.
- Wimberley Motor Co., Loraine.

George Henshaw, Jr., junior member of the firm Choate & Henshaw, Colorado oil operators, is expected in Colorado during the next few days. Mr. Henshaw was taken seriously ill while in Houston on business several days ago and has been under treatment at a Houston hospital.

### A RED LETTER DAY

It will be a red letter day for Mitchell county when the people go to the polls and vote the proposed \$325,000 road bonds. Nothing could fill a more important place in the future possibilities of this county than a system of excellent highways. We must do this much for the county if opportunities within our reach are taken advantage of.

It will be a red letter day for Colorado when this city realizes the erection of a modern office building. Colorado has the potentialities for becoming the oil metropolis of West Texas, but offices must be provided the oil companies desiring to make this city their West Texas headquarters. There is not a city in the State so badly in need of this asset as Colorado. We must build that office building.

It will be a red letter day for Colorado when adequate hotel facilities are provided the oil and traveling fraternity. Colorado is losing a bet when we allow visitors to be forced to take the inevitable of going elsewhere to find hotel accommodations. As far as they go, our hotel facilities are excellent. But fifty guest rooms will not suffice when there is a demand for a hundred. Colorado must provide additional hotel facilities if the city grows as opportunity has decreed.

It will be a red letter day for Colorado when voters of the Colorado Independent school district finance erection and equipment of a new high school building in keeping with the needs of a prosperous, growing community of the proportions found in this community. The boys and girls of Colorado are entitled to the best we are able to provide. Our school faces the chance of losing its rating in classification and the scholastics their merited opportunity of acquiring the best in the way of instruction if the present antedated plant is continued in use.

### PLEASE TAKE NOTICE

The Froek Shop and hemstitching machine has moved from Herrington building to the Gift Shop up stairs at Bedford and Broadus Grocery store. Adams old store. Come to see us.—Mrs. W. P. Edwards. 10-23c

In last week's issue we carried an ad for Berman's Variety Store announcing a very low price on Polychrome Genuine French plate buffet mirrors and as proof that the Mitchell county people know a bargain when it offered them M. Berman informs us that they have sold over two dozen mirrors in one week. "There are only a few more left," he states and urges those that would desire a mirror at any time soon to take advantage of the low price and buy now before they are all gone.

### The Red-Blood Food for Weak Folks

### IS IT YOU?

There is a man in this town who always acts as a brake on the wheels of progress. Every project that is broached for the betterment of community conditions, elicit from him no more than a grunt of dissent if not active opposition. He regards every man as a rascal until proven honest. He can see no sincerity in the most unselfish actions, and can detect cupidity at the bottom of the greatest sacrifices. He is a community wet blanket. Is it you?

### ALL NEW MODELS

Low cost of operation makes economic transportation. Mills Chevrolet Co.

### ABSTRACTS

I am prepared to make abstracts of title on short notice. Your business is solicited.—W. S. Stoneham County Treasurer's Office

The late Mr. McMerty of Washington lighted a match and the corner concludes that he must have had plenty of gas.

### THREE STAKE EVENTS ON STATE FAIR RACING CARD, AT DALLAS, OCT. 10-17

Five races a day, with three stake events scheduled for the meeting, are on the program for the State Fair of Texas, Dallas, Oct. 10-25 next. The race meeting will be held Oct. 10 to Oct. 17, inclusive, except for Sunday, Oct. 11, when there will be no races.

The stake events are "The Cotton Stakes," at \$2,000 added money, to be run Dallas Day, Tuesday, Sept. 13; "The State Fair Handicap," at \$1,000 added, to be run on closing day, Saturday, Oct. 17, and "The Texas Special" at \$500 added, scheduled for Monday, Oct. 12.

Entries for the stake events close Oct. 1 and programs and entry blanks are now ready. Entries for away night races close at 11 a. m. daily. Purse will be \$400 and \$500. Dr. A. E. Flowers is superintendent of the racing department, and the track is declared to be in the pink of condition.

Organizations desiring to reserve special days at the State Fair of Texas, Dallas, Oct. 10-25, should file such requests early, according to Secretary W. H. Stratton, in order that the designations may appear on the daily program.

While several such reservations have already been made, there is evidence, according to Mr. Stratton, of some disposition to wait until the last minute.

Monday, Oct. 12, has been named as Press Day; Tuesday, Oct. 13, will be Dallas and Dallas County Day and T. C. U. and Baylor Day. Farm Bureau Day is Wednesday, Oct. 14, and the following day has been designated as Texas Poultrymen's "own." Saturday, Oct. 17, will be Traveling Men's Day and University of Texas Day.

### "TIME CARD" ANNOUNCED FOR STATE FAIR EVENTS

Night performances of "Sky High," the big Broadway musical comedy to be offered in the new auditorium at the State Fair of Texas, Dallas, Oct. 10-25, will begin at 8 p. m. Matinees will be on Tuesdays, Thursdays, Saturdays and Sundays, at 2:30 p. m. The races and rodeo before the grandstand, will start at 2 p. m. It is announced.

### COAST COUNTRY EXHIBIT TRAIN AT STATE FAIR.

"The Blacklander" special train, carrying agricultural exhibits from the Gulf Coast country, will be seen at the State Fair of Texas, Dallas, Oct. 10-25. A spur track is being built into the Fair grounds, from the Texas and Pacific mainline. The four car special will remain on the spur throughout the Fair. The famous "Blacklander" boys' band will accompany the train.

### BIG AND LITTLE PIPES FOR NEW ORGAN AT STATE FAIR

Here's the "biggest" and "littiest" pipes for the great Barton organ, now being installed in the new auditorium at the State Fair of Texas, Dallas. There are more than 3500 pipes in the big instrument, which will be heard every day during the 1925 State Fair, Oct. 10-25. The man at the right is holding the smallest pipe in his hand. It's only 3/4 inches long and about as big around as a lead pencil. The others are eighteen feet in height.

THE PRICE IS THE THING

### HYMAN HAPPENINGS

As the year 1925 draws towards a close, it is hard for residents of this community to realize just what an epoch making period it has been for them. Starting the year strong in its own conviction that it would become a real farming community it has seen its faith more than justified by the best crops in Mitchell county. Men like T. C. Smith, H. H. Van Zandt, I. Smallwood, Lee Adkins and many others have disproved the old timer's contention that one of the best ranches in Texas was being ruined, and that it was a mistake to ruin it. Now with the farmer just firmly established at the steering wheel, he is beginning to wonder whether he is, in turn, to step aside and give his place to the oil man. Men like Sam Sloan, Steve Owens, J. E. Fitzpatrick, Barnum & Henshaw, Earl Morrison and Bill Thomson have appeared and demand the right to do some of the driving themselves. They

claim that while this may have been one of the best ranches in Texas, and may now be one of the best farming communities in Mitchell county, it is going to be a still better oil field. We hope they are right, and we assure them that there is room down here for all of them, and work for all of them, stockmen, farmers and oil men.

Mike Slayton says this is the best sheep country he ever saw. Says the only trouble he has is that he cannot find anything much to do. Says that instead of having to scheme and figure it out where will be a good place to move his sheep camps, all he has to do is to drive out to the wagon, hitch up to it and move a half mile in any direction and he can unhitch and set up camp surrounded by lots of grass and plenty of water.

Hatch Van Zandt says this is a pretty fair farming country, thank you. Says that any farm that will in one year raise cotton enough to more than pay for itself, and that with less than half the land in cultivation and before the appraiser for the Federal Land Bank has had time to make up his mind that he is appraising farm land instead of sheep range, is not much of a mistake.

J. E. Fitzpatrick says he believes there is a darned good oil field down here. Says he don't see any reason why a man who starts in to spend \$50,000 in a search for oil should feel disappointed when he finds it before he has reached half of the depth at which he expected to find it. That is what he has done in his Deep Rock well, the Sarah Minna Hyman No. 1.

Cotton pickers are badly needed here, and plenty of them can find work for quite a while to come. There will be a lot of new land to clear this Fall and winter and those who want steady work down here after the cotton is all picked will find it.

One of the next steps that will be taken for the improvement of this settlement will be the opening of the roads around each section. In selling the land, Mrs. Hyman reserved a forty-foot strip around each section, the intention being to use these strips for public road purposes. For the convenience of those who settled first and helped build up the community, they were allowed to fence these strips putting gates and gaps across the roads, but the time for this and the necessity for it has passed, and

the roads will be opened up and used as was intended, for the benefit of the public.

A gin will be a necessity here next year, and arrangements for it will be made.

Mrs. John Hammonds of Seven Wells, who has been visiting her daughter, Mrs. H. H. Van Zandt, of Hyman has returned to her home.

Mrs. C. L. Boyd of Hyman is visiting her sister, Mrs. Venus of Seven Wells.

Mr. C. A. Burton of Fort Worth spent a few days the past week visiting his brother-in-law, Lee Adkins of Hyman.

Mr. and Mrs. Harry Hyman of Hyman have moved temporarily to Colorado, and may be found at the Barcroft Hotel. They have not given up their home down here, and don't expect to, but business interests will probably demand their presence nearer the center of activities for some time to come. Of course Hyman expects to be the center of oil activities a little further down the road, but just at this time its nearest and best neighbor, Colorado, is a little better equipped to handle the situation.

Mrs. A. J. Roach, has bought the store at Hyman and will continue to operate it. She will also doubtless be appointed postmaster there. Mrs. Roach is very popular in Hyman, and deservedly so, and we are confident her new venture will prove successful.

Mr. H. L. Lockhart, whose cotton crop has probably received more favorable comment than any other crop in Texas this year, is having a large amount of new land cleared. He is just about doubling the size of his farm. Says he already has one of the best farms in the county and he wants to make it one of the largest. The new land that he is putting in is better than the land on which this year's crop was made.

Mrs. Harry Hyman expects to have several hundred acres of new land cleared and put into cultivation this fall and winter, and to build several new houses for renters. Section 28, probably the best section of land in the HS Ranch, or in Mitchell county for that matter, will be put into cultivation.

Mrs. I. N. Barbers, recently of Hyman, but now of Abilene, Texas is visiting at Hyman.

The Hackberry bridge has already justified itself many times over, bales of cotton cross it daily, and even the mules that haul them seem to smile approval as they near the bridge.

Many new trucks have been bought by farmers down here this fall. A number of new tractors will be needed a little later on, and unless our statistics are twisted this community, less than three years old already sports more Fordsons than any other community in the county.

Location for a new oil well at Hyman is being made this week. It will be, it is understood, in the center of the Northwest Quarter of Survey No. 8, of the Southern Pacific Ry. Co., block 17. It will be drilled by Messrs. Earl Morrison and W. J. Thomson, and will be named we understand the Morrison & Thomson Sarah Minna Hyman et al No. 1. Earl and Bill have been very successful operators in this field, and we are glad to see them becoming interested in the south part of the field. Bill Thomson drilled the first oil well west of Ranger. He drilled

it on land belonging to Earl Morrison, on a block that Earl Morrison got together for a test after months of hard work. Morrison put all of his land there into the block free of charge. He says that he has drilled many wells out here, and so far he has never drilled a duster. If the oil game is the gamble that many say it is, we are glad to trail along with the players who are making the passes. Heres hoping that this combination is just getting into its stride.

Drilling has been resumed on the Sarah Minna Hyman No. 1 of the Deep Rock Company (J. E. Fitzpatrick). The shallow pay, found at less than 1300 feet has been cased off and fully protected. If the big pay, expected at around 2800 feet, does not come up to expectations, then this shallow sand will be developed.

Drilling on the Bill Scott, No. 1, Barnum & Henshaw, is expected to resume at an early date.

Work has been resumed at the Douthitt No. 1, a few miles south of Hyman. It is reported that the Roxana is now behind this enterprise and that the well will be completed as fast as work and money can complete it.

Other locations are expected to be made at an early date.

### SEVEN WELLS NOTES

Every body in our community is too busy to gather any real news. Cotton picking is in full force.

Health is right good except Mary Wallace, daughter of Mr. and Mrs. J. E. Wallace was operated on one day last week for appendicitis, at the sanitarium, Drs. Coleman and Root did the operating. She has just done fine all the time and will soon be able to come home.

Mrs. Syble Tipps from Grand Saline is visiting Mr. and Mrs. W. H. Brown. She expects to spend several days here.

Mr. and Mrs. E. T. Bassham, from Spring Dale, Ark., are here to spend the fall, with home folks.

The Bunch met in L. L. Bassham's home Sunday after they all returned from church and celebrated Carl and Louman Bassham's eighteenth birthday. There were 55 present for dinner. All had a real good time and also a good dinner.

Tom Brymer has had a new well dug on his farm, this week.

Mr. and Mrs. J. E. Wallace spent Sunday in Colorado, visiting Mr. and Mrs. Cecil Beezley.

### UNION ITEMS

General health very good, Mrs. E. B. McGuire's many friends will be glad to learn of her continued improvement. She came home last Saturday evening and stayed until Monday evening. She expects to be gone about two weeks yet.

E. M. McCreless I learn expects to attend the confederate State reunion at Abilene this week.

Mother to Johnnie—Johnnie is your teacher very hard on you? Johnnie—Hard? I reckon she is for she gave me a licking the other day for making a period upside down.

Some time ago I asked the question, "What meaneth the term 'I love my country'?" but so far no one saw fit to answer it. So I dismissed it until I saw the Jewish write-up in last issue of the Record for which I have no criticism whatever, but it refreshed the above mentioned question. So I will give some of my views concerning it. I first want to

say that whatever applies to a nation applies to a State, a county, a community, a family or individual.

Now then can it be the nature of the soil that we love, if so we are badly mixed up for we have the mountains and the hills, the brooks and the vales, the rocks and the rattlesnakes. Can it be for the climate? Oh, no, for we can adjust ourselves to any kind of weather that we have, hence my definition of it is, we love our country (the United States) for what it stands for, namely, good government, liberty, free speech, protection of life and property, peace, righteousness and all else that's good and if every citizen had that love for our country we would have no violators of our splendid code of laws hence jails and penitentiaries would be a nuisance and we would all be brethren.

### THE CROP REPORTS

Senator J. Thomas Heflin of Alabama, the fire-eating orator and republican-baiter extraordinary of the upper house, denounces the cotton report of the crop estimating board following the issuance of the estimate this week which broke the market nearly ten dollars per bale and took many millions of dollars out of the pockets of the producers of the South.

It is an annual scandal. The senator charges in the face of widespread deterioration of the crop, the board added 200,000 bales to its previous estimate. This resulted in an immediate falling out of the markets bottom, with consequent loss to the farmers.

There is no doubt in the world but that cotton deteriorated in West

Texas during the last four weeks. The consensus of opinion is that it looked much better than it really was. Texas produces about one-third of the nation's cotton, and West Texas this year will produce almost half of Texas' one-third. In the rich black land belt of Central Texas the crop is all but a total loss. The ginning figures show that conclusively. Here they are up to Sept. 1, in several of the leading cotton producing counties of Texas—1925 contrasted with 1924.

County—	1925	1924
Bell	749	11,407
Coryell	128	5,573
Falls	4,804	14,558
Hays	15	2,553
Hill	2,853	9,203
Lavaca	1,539	13,093
McLennan	3,915	15,384
Milam	1,734	13,536
Travis	90	5,102
Williamson	574	18,760

Carters and Sawfords Ink in pints and quarts at Record office. All colors.

Cotton picking sacks, knee pads and wagon sheets are selling at very low prices at Berman's Variety Store.

SOME UNMENTIONED TRUTHS

We noted recently where some folks were expressing their appreciation of kindness shown. They mentioned the nurses, the doctors, and many friends that had been so very kind to them in their trouble. There was one person who was not mentioned and is never mentioned under similar conditions. We will not mention that person, either, but will let you guess who that one is. That is the person who always goes as soon as he hears about a person in distress or one who is sick and offers any assistance he is able to render, and probably finds a nurse or helps to get a place for the distressed if they need it but no mention is ever made of these offers in expressing thanks through the papers. Why? We have never understood it. Some people wear their lives out trying to help other people and no mention is ever made of it in any way but let someone lend assistance and get pay for it that person is regarded as a great benefactor. Folks should be appreciated whether paid or not. We have noticed notices thanking folks for their kindness shown in sorrow, mentioning many of those who did nothing but their duty, while some one person had done quite a bit to render help but no mention was made. Why? There is always back of every movement some guiding hand, which might not be seen. That is the hand that is not generally thanked. We will let you guess who this unthankful individual is.—Baptist Visitor.

New millinery almost every day at Mrs. B. F. Mills' in Ford Agency building.

YOUNG WIFE AFRAID TO EAT ANYTHING

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (Signed) Mrs. A. Howard. R. U. Bean the grocery man has again opened up his meat market and urges all his grocery customers to also buy their meats from him. The market is first class and sanitary and to phone 193 will get quick service. Beans Grocery.

Miss Orlena Elliot, after spending the summer with her parents in Colorado, has returned to Dallas to teach in Bryan High School again the ensuing school year.

Colorado has two big assets, either of which is calculated to bring much favorable publicity to this city. One is the chamber of commerce band; the other the Wolves, Colorado's formidable foot ball team. This city must continue its unselfish support to both organizations, if Colorado's best interests are protected. Every business and professional man of the city would do well by closing at four o'clock this afternoon and join with others in rooting for the home team. The battle with Merkel promises to be the crucial test for our boys. Let's back them up and back them up strong.

Bess Ann hats, popular priced at Burns'

American Telephone & Telegraph Co.—Bell System 144th Dividend The regular quarterly dividend of Two Dollars and Twenty-Five Cents (\$2.25) per share will be paid on Thursday, Oct 15, 1925, to stockholders of record at the close of business on Saturday, Sept. 19, 1925. H. BLAIR-SMITH, Treas.

EDITOR WILLIAMS ADVOCATE OF PROPOSED ROAD BONDS

Editor Earl T. Williams of the Lorraine Leader, in addressing a mass meeting in Colorado recently, spoke of the advantages to come to this county through improvement of its highways and pledged the support of his publication to the proposed road bond issue of \$325,000.

Mr. Williams has been owner and editor of the Leader for the past two or three years and has effectively championed every worthwhile program for the county or city represented by his paper. Among the excellent programs strongly fostered by the Leader might be mentioned the bonds with which the attractive new school building at Lorraine was erected and the subsequent issues there to improve the water works plant and pave several blocks in the business district of Lorraine.

POWER SURVEY BEGUN IN TEXAS BY U. S. EXPERT

AUSTIN, Sept. 30.—J. B. Peat, expert from the Federal Trade Commission arrived here today to make a study of records relative to the amount of power being generated in Texas by water, gas and electric power companies.

Peat's investigation is being conducted in connection with the Norris resolution adopted by Congress. The investigation was ordered by Congress that the extent of the holdings of the General Electric Company and its subsidiaries might be determined.

While in Texas Mr. Peat will visit Dallas, San Antonio, Houston and other points. In Dallas he will examine the records of the Texas Power & Light Company.

This expert came here from Illinois where he gathered data from that State and from the States of Iowa and Missouri. Since entering Texas he has visited the gigantic power station being erected on the Comal River near New Braunfels by the San Antonio Public Service Corporation. Before leaving Texas he will again visit this site.

Mr. Peat declared that the 10 per cent return on investment in Texas is the highest he has found in any State he has visited, the next highest return being 8 per cent and the average being from 6 1/2 to 7 per cent.

He stated he was finding it hard to gather data in Texas than elsewhere because Texas has no public utility commission as is found in other States. However, he is being materially assisted by the State Railroad Commission, the State Board of Water Engineers and the University of Texas.

The report of his findings will be made to the Federal Trade Commission and will show the amount of power now being generated in Texas by electricity, gas and water companies, and also the estimate of the power possibilities in the future.

In this latter he is being assisted by the members of the State Board of Water Engineers. Owing to lack of development along water power lines the potential water power in Texas has to be estimated.

The Norris resolution commands the Federal Trade Commission to investigate the General Electric Company, its subsidiaries and companies, its stockholders control with regard to their attempted control of the electric energy generated in the United States, by gas, steam and water.

This will be contained in the report to be made by Mr. Peat. This report will then be turned over to Congress. The gathering of this data

is expected to be completed by the end of the present year. It is generally understood this investigation is the outgrowth of the controversy caused by the electric companies opposing the endeavors of Henry Ford to acquire control of the Muscle Shoals project.

GOV. FERGUSON APPROVES ABOLITION HONOR FARM

AUSTIN, Oct. 1.—Abolition of the Pat Neff honor farm by the prison commission meets the approval of Governor Miriam Ferguson, she said today following her return to Austin from Victoria.

Former Governor Jim Ferguson also said that the commission was right in abandoning the honor farm.

Explanation given by the prison commission for its action in abolishing the honor farm "about covers the subject of why the farm was done away with," the Governor said.

GIN MAN KILLED IN GIN AT ROSCOE TUESDAY EVE.

ROSCOE, Sept. 30.—W. G. Owens, 55, was whirled to his death by a line shaft in the Farmers Gin here at six o'clock Tuesday night.

A belt had slipped off and the man reached across the twirling line shaft to replace it on the pulley. In some way he slipped and was whirled around. Death was instantaneous. The man's left side was crushed in and the arm broken in two places and nearly twisted from the body.

The body was shipped to Blooming Grove, the old home, Wednesday night.

A wife, one son and two daughters survive. The family had not long lived in Roscoe.

FATHER OF COUNTY FARM AGENT DEAD AT BANDERA

H. L. Atkins, county farm agent received a message late Tuesday night informing him of the fact that his father, Rev. Atkins, had died at his home in Bandera. Mr. Atkins left at once to attend the funeral.

Hawks, the nationally recognized optometrist, will be at W. L. Doss drug store one day only, Saturday, October 10, to fit glasses.

Our good friend A. A. Bynum who lives up near Cuthbert came in this week to renew for his Record. Mr. Bynum has been a subscriber for 20 years, he is now 76 years old, his wife 77 and they have been traveling life's journey together 55 years.

Black Bros., sends in a \$3 check for the Record from Los Angeles, Calif., and among other things says: It might interest you to know that we own several oil leases in Mitchell County near the Mary Foster well and that we own a large part of a lease on the Ratliff Ranch in Sterling and Glascock counties. Possibly some of your friends will want to take over part of these leases.

**IN SOCIETY AND AT THE CLUBS**

**Reception for Home Demonstrators**  
The Mitchell County Federation of Womens clubs gave a reception at the American Legion Hut last Friday from 4 to 6 o'clock as a farewell party to Miss Irma Sealy the County Home Demonstrator who was leaving to take like duties in El Paso and a welcoming party to Miss Jones who comes to take Miss Sealy's place. Mrs. Ragan, Mrs. J. G. Merritt, Jack Smith and Mrs. E. H. Winn greeted the guests at the doors. Mrs. A. L. Whipkey introduced them to the receiving line which was composed of Mrs. Jim Johnson, Miss Sealy, Miss Jones, Mrs. Broadbush, Mrs. Charlie Thompson, Mrs. Coleman, Mrs. D. N. Arnett, Mrs. Lee Jones, Mrs. C. R. Earnest, Mrs. Ed Jones, Mrs. C. L. Root, Mrs. W. R. Hester, Loraine, Mrs. D. L. Harrell, Loraine, Mrs. U. D. Wulfjen, Mrs. W. C. Berry, Cuthbert, Mrs. J. F. Carey, Mrs. Terrell, Westbrook, Mrs. W. R. Douglas, Miss Blume, Mrs. Henry Vaught and W. S. Copoer came as a representative of the Lions Club, which is an honorary member of the County Federation.

The stage was attractively decorated with ferns and wild flowers. A program of readings and music was given. Mrs. A. B. Blanks and Miss Blume favored with readings. Mrs. O. B. Price and Mrs. M. B. Nall, piano selections. Mrs. H. L. Lockhart with Mrs. Dawes, accompanist, sang two solos one to Miss Sealy and

one to Miss Jones. Mrs. Wilkins sang "The Old Fashioned Town." Mrs. Norman favored with a violin solo. Then Mrs. Guitard paid a tribute to Miss Sealy.

Friends I have just a little word,  
For a lass of whom you all have heard,  
And I'm sure that you'd like to have a part  
Of these expressions that are in my heart.  
This little lady has a blonde bobbed head,  
Perhaps like other heads of which you've read.  
But this particular blonde head is so full of notions,  
That she has educated a whole county up to her notions.

Such as rooster hash in tight-sealed cans,  
And steam-pressure turkey gobblers who also ran.  
And corn beef steers who never more will blaze the trail,  
With a pawing hoof and high-flung tail.  
And canned whole tomatoes,  
A house-wife's Sunday hope,  
And cold-pack beans,  
And hard cold soap.

"Educate the head," says she  
To a brown little maid,  
Who stands in the corn-patch  
Timid and afraid.  
Says she to the tired mother as she stands over the tub,  
"Why don't you use your head"  
"Ay, there's the rub."

And she flies in her flivver across the sand,  
To show the opportunities that grow in our land.  
Oft-times opportunities grow beneath our feet  
Such as the cabbage, the onion and the pretty red beet.

Taking the timid maid by the hand,  
She looks across this bounteous land,  
Says she, "There are five fingers on your every hand.  
"Each has a duty in this sun-kissed land.  
When the head thinks the hand of course follows.  
Naturally, as the home-coming of the Swallows."  
"Oh!" said the maid, "I see,"  
With heart all aflutter  
She catches a vision, and then she begins to putter.

There is much to be done when the corn is green and tender,  
And fat Mr. Pig grunts with all that fat to render.  
And there's a lot of old roosters,  
Once so young and gay,  
Who as the saying goes,  
"Have had their day."

And there are their pards, the old speckled-tailed hens,  
Who haven't laid an egg in I don't know when.  
Hands get busy now,  
And all that hash,  
Is turned into round jingling cash.

But with all this work,  
The days are apt to be long,  
Unless they are riding on the heels of a song.  
So our good lady laying her hand on her heart,  
Without hearsay, make-believe or art,  
Says, "The heart is the indicator of interest in your work,  
Be you an artist, preacher or shirk.  
Each small thing has a place in God's every plan,  
Be you a ring-tailed monkey or a Balloon-trousered man,  
And if your heart's attuned to the duties that you owe others,  
The world will soon be rid of bores and pickers and bothers."

And you'll make a little home  
With the sun-light on the floor,  
A fire-place with a rosy hearth,  
And zenias growing by the door,  
With windows looking east and west,  
And a crooked mesquite tree,  
And room beside the garden fence,  
For the holly-hocks to be.

Most of our short lives we wander round,  
But the heart is quick at knowing,  
It's roof and its own little garden,  
Where the flowers are growing,  
And when you make that little home  
Be it noon, or night or morn',  
We'll walk right in and we'll visit you,  
And then—you'll put the coffee on.

Ice cream and home-made cake were served by Mrs. L. H. Costin, Mrs. Bill Broadbush, Mrs. Boyd Dozier, Mrs. Dunahoo, Mrs. Harry Ratliff and Miss Clippie Bennett.

Others of the house party were Mrs. T. W. Stonervad, Pearl Shannon, Chester Jones, Misses Martha Earnest and Katie Buchannon, Mrs. Edgar Majors, Mrs. J. L. Pidgeon, Mrs. Chester Jones and Mrs. Claud Hooks. The women of the town as well as the women of the rural communities feel that Miss Sealy has been a veritable asset to the county as well as a wise counselor to those whose duties are to be home builders and were happy to honor her in retiring as they had been ready to cooperate with her in her work while here, and wish her prosperity and happiness, in her new field.

Miss Jones comes highly recommended and has already won a warm spot in the hearts of all who have met her. We bespeak for her the same spirit of loyalty and helpfulness in the work that means so much to a progressive, healthful and happy county, and we are sure she will receive it.

**Delphian**  
There will be a call meeting of the Delphian Society at the home of Mrs. J. F. Carey Tuesday October 6th at 4 o'clock. Members are urged to be present.

**Missionary Society**  
The Missionary Society of the Methodist Church met at the church Monday. Besides the regular business, plans were made for the Fifth Monday meeting of all the Missionary societies in November. The plan of giving a scholarship in a foreign mission school in honor of the retiring presiding elder, Rev. Stewart and named for him was presented and

the society met its part of the apportionment. The program was on the Rural Homes, an interesting article was read on the advancement of the work among the negroes. There was a good attendance and all dues and pledges were met.

**Dupree-Dolley Wedding**  
A very pretty but simple home wedding was that of Miss Eleanor Dupree and L. C. Dolley, which was solemnized Wednesday evening at 8 o'clock in the bride's home, with Rev. S. G. Rogers, pastor of the First Methodist church, officiating.

Other guests present were Mrs. S. G. Rogers, Mr. and Mrs. Holseopple, Mrs. Mary L. Slaner and Mrs. Edna Swearingen.

The bride who is the daughter of Mrs. Lula Dupree, was reared in Texas and has lived here with her mother for the past number of years. Mr. Dolley has been a mineral geologist in the gold mines of East Ely, Nevada. However, after a few weeks' visit here Mr. and Mrs. Dolley will go to Florida to make their future home—**Sulphur Springs.**

Miss Dupree lived here for several years and has many friends who wish for her every happiness.

The Christian Aid society met with Mrs. J. E. Chase Monday. Besides the regular business plans were made for a rummage sale, October 10th. The place to be secured later. The hostess served peach pie ala mode. The next meeting will be with Mrs. J. F. Carey.

**Special Meeting**  
The special meeting of the Auxiliary to the American Legion held at the Hut last Thursday was both interesting and instructive. The Hut looked very pretty with the decorations of ferns, flowers and flags. The program began with the salute to the flag. Mrs. Arnett read some passages of Scripture and led in prayer. The Flag of Humanity, was read by Mrs. Whipkey. Mrs. Charlie Thompson read the preamble of the Constitution of the American Legion. Appropriate and enjoyable readings were given by Miss Blume. Then followed a report by the President, Mrs. Merritt of the Annual Meeting recently held in Ft. Worth. She told of the many social meetings, the addresses by various men and women of State and National reputation. She said the president, Mrs. Arnett strongly placed emphasis on the fact that the Auxiliary existed to be of service to the Legion and asked that this unit live up to this in reality. She asked that this be done by getting more members and keeping in touch and in sympathy in all lines of the work.

One of the outstanding features of the work is the rehabilitation work that may be done for those who so faithfully served us. Also the Americanization work and urged that our hearts be in tune to that work also. Following the program the guests were invited to the library where Mrs. Dozier, Mrs. Hughes, Mrs. Roscoe Dobbs, and Mrs. J. B. Pritchett served tea and sandwiches.

The Hesperian Club met with the retiring president, Mrs. Lee Jones, last Saturday for a business session. All old business was discussed and plans were made for the new year's work. Plans were made for a picnic at the country home of Mrs. Sam Wulfjen. The hostess served ice cream and home-made cake.

**Circles**  
The Baptist women met in Circles Monday. Circle No. 1 met with Mrs. J. C. Hall. The time was spent on Bible study. Mrs. Geo. Slaton was back after long absence. Mrs. McKenny came in as a new member. Mrs. Tension and Mrs. Grantland were guests. Circle No. 2 met with Mrs. Sorrell. There were eight members present and one guest, Mrs. Randolph of Abilene. The Circle decided to study "All the World in All the Word." It was decided to send flowers to one of the sick members.

Circle No. 3 met with Mrs. A. L. Whipkey after the Bible study officers were elected. Mrs. Jack Smith chairman, Mrs. J. M. Green secretary, Mrs. Lindley treasurer, Mrs. A. L. White leader. The Young Women's Circle met with Mrs. H. P. Slagel. The study of "The People Called Baptists" was begun. At the close of the lesson the hostess served apricot fluff and date loaf.

**Club Luncheon**  
The 1921 study club began its year's work last Friday with a luncheon given at the home of the retiring president, Mrs. Charlie Thompson.

The guests were the new president of the Sixth District of Womens clubs, Mrs. H. B. Broadbush, representatives from other federated clubs of the town and the newly appointed chairman of the Sixth District, Mrs. Jim Johnson, Mrs. J. G. Mer-

ritt, Mrs. A. L. Whipkey, Mrs. Sam Majors, Mrs. Blume, Mrs. W. R. Douglas, Mrs. Henry Vaught, Mrs. Jerold Jordan, Mrs. C. L. Root, Mrs. Lee Jones, Mrs. R. W. Gary, Mrs. Y. D. McMurray and Mrs. C. R. Earnest the incoming president of the club who brought greetings from the clubs they represented in response to the Toastmistress Mrs. Thompson.

The tables were pictures of beauty with the decorations of yellow and white, the club colors. The color scheme was carried out in the lovely four course luncheon of fruit cocktail, salad, pressed chicken, peas, potato nests, hot buttered rolls, orange ice and white cake. The place cards were hand tinted yellow Colonial ladies and favors were little booklets wrapped in white and tied with yellow ribbon. The president of the County Federation, Mrs. Ed Jones, comes from this club and brought appropriate greetings. Mrs. Bill Simpson and Mrs. C. E. Pritchett, former members of the club were also guests. The regular work of the club will begin Friday.

**District President Speaks**  
Mrs. M. A. Turner president of the sixth district of Parent-Teacher As-

sociation was in Colorado Tuesday and spoke to a group of parents and teachers at the high school building. An impromptu program was prepared in her honor. Mrs. Wilkins sang "The Little Gray Home in the West" Fredie Merle Ried read, "When I Go to the Movies." Mrs. Turner was introduced by Mrs. Jack Smith. She told of the work of the association and how it had grown till now there were 50,000 members. In doing all the necessary work over the State to keep up this great organization there was only one paid worker, a secretary at Austin. She told of the much valuable and helpful literature that could be had for just writing for it. She also explained the endowment fund and the scholarship fund and asked that Mitchell county send one of the students to Sul Ross college.

Mrs. Turner's talk was informational and inspired all who heard her to be more loyal to the school and to be better parents trying to have a more patient understanding of the children God gave them. Following her talk Mrs. Lockhart favored with a solo after which a reception was given Mrs. Turner. A group of ladies served punch.

**OIL ACTIVITIES TO INCREASE**

**At O'Daniel Test Well**  
There has been considerable speculation as to the reason of the discontinuance of drilling on the O'Daniel No. 1. Work was suspended two weeks ago, shortly after an oil showing had been encountered around the depth of 2100 feet.

It was rumored that the Marland Oil Company was attempting to repurchase from Choate and Henshaw the block on which the well was located.

It was reported that work on this well was to be resumed Thursday.

**At the Deep Rock Test**  
Drilling on Deep Rock test on section 88, in the southeastern section of Howard county is now going forward. Officials of the Shafer Oil Co., after investigating the oil showing encountered just below the 1300-foot level decided they would drill deeper for bigger production. They may decide to develop the shallow sand if they fail to encounter oil at the 2870-foot depth. This is the depth at which the Magnolia Co., secured a producer. The Deep Rock test is about nine miles southwest of the Foster well and oil men believe that the location is most favorable for securing production.

**At Gulf's McDowell No. 2**  
Drilling is again in progress on Gulf et als McDowell No. 2, following the recovery of lost tools. The fishing job was completed Monday. While the formations in this test appear to be considerably different from the wells drilled a mile and one-half to the southeast, interesting developments are expected within the next week or so. The 2650 foot sand from which oil is still available, in the old General Oil Co.'s McDowell No. 1 should be encountered in the Gulf's No. 2 this coming week. Local oil experts are of the opinion that the Gulf Co. made a mistake in not locating their No. 2 well southeast of the old wells on the McDowell ranch, but since the Gulf's chief geologist made the location for the test now being drilled, it remains to be seen which is the best bet.

**Magnolia Co.'s Activities**  
The Magnolia Petroleum Co. has tested Foster well No. 2 located four miles south of Iatan, and are convinced they have a real oil well. They are going forward with plans as though the field was going to be a large one.

A pipe line has been completed to New Iatan and three 55,000-barrel storage tanks have been ordered. These will be placed at New Iatan where the company will establish a loading station. All the storage at the well has been filled by the regular flow from the well so the company is using all speed possible to secure additional storage facilities.

The derrick for an offset to Foster No. 2 has been completed and work on this test is to be started shortly. Locatoin is about one-quarter mile south of the producing well.

**Wheat Well at Pecos**  
Developments this week are far from discouraging, if, perhaps not as

revealing as hoped for. Four new locations that are to begin drilling in the near future, are announced, and there is strong rumor of others. The P. V. Petroleum Co., well is going ahead carefully, getting rid of the sand that has been choking the hole, and flowing gas and oil, in appreciable quantities after each extraction of the tools. There is no possible means of believing this will a failure yet, nor a real producer. It is a situation requiring extreme care, and intelligent handling, for the well can be made or ruined, by the slightest move.

The operations day by day since Sunday are promising. For on Sunday, the well flowed around 40 barrels and about 1,000,000 feet of gas or more, from rough estimations. There were eight consecutive overflows of the lower fluid that day, and of fairly steady duration.

On Monday they continued bailing out the muck, and sand, that had been blown into the hole filling it almost 390 feet, getting to within 20 feet of the bottom, which is 4263 feet. There were continued signs of large quantities of gas, and oil, with some overflow.—Big Spring Herald.

**NEW ROAD PROPOSED**

A new county road to the Hyman well is being considered by a number of our business men and citizens. It is proposed to extend the road from the Douthitt well northward to the county line which is only three miles distant. It is almost certain that Howard county will extend a road from Big Spring to the well and will meet us at the line. Mitchell county has already completed a new road from Colorado to Hyman, four miles east of the well. This would make the Hyman well a cross-roads point.—Sterling City News.

**OIL NEWS**

A new switch and loading racks are being built on the Texas & Pacific railroad at Iatan to take care of the oil from Mary Foster well four miles south on Section 17, Block 29, T. & P. Ry. Co. Last week we reported that this well was good for 500 barrels per day. It is now said that this estimate is too low for the pay sand is believed to be a deep one, and has been penetrated only two feet. An offset to this well, 660 feet south is about ready to be spudded in.

The Marland well, about five miles southwest of the Mary Foster, is shut down at 2170 feet. It is rumored that oil has been encountered in this well, but we were unable to confirm the rumor.

Casing in the Hyman well, on Section 88, Block 29, W. & N. Ry. Co., in the southeast corner of Howard County, 24 miles northwest of here, was set at 1400 feet this week, and mud is being pumped in behind the casing in order to keep the water out of the oil sand that has been passed up. When this is completed, drilling for a deeper sand will be resumed. It will be remembered that oil was struck in this well around 1300 feet, and it was estimated that it would be good for 20 barrels per day. This has been passed up for the present in the hope that big oil will be found at a greater depth.

Drilling is temporarily suspended at the Bill Scott well, on Section 32, Block 17, S. P. Ry. Co., 23 miles northwest of here.

Drilling continues at Douthitt well, 18 miles northwest of here, on Section 173, Block 29, W. & N. W. Ry. Co.

The Hull well has been cleared and is now setting 6-inch casing around 3100 feet.

Drilling past 1600 feet continues at Wrightsman's Foster No. 1, on the F. G. Howard Survey, 13 miles southwest of here.

Clark well No. 2, 11 miles southeast of here has drilled past 1600 and everything is progressing nicely at this prospect.

**YOM KIPPUR OBSERVED**

Yom Kippur the Jewish day of Atonement was celebrated in Colorado on Monday.

Sunday night commenced for Jewish people all over the world the 24 hours of prayer and fasting called Yom Kippur or the Day of Atonement. It is the concluding day of the 10 penitential days which began last Saturday on the New Year. These 10 days are set apart from all others in the year as a period of reflection and soul examination.

A beautiful and solemn service is held in all synagogues that night throughout the world. The music that evening is striking and soul-stirring. The pulpit coverings are all in white to emphasize the sacredness of the occasion, and the opening melody is the traditional "Kol Nidre" which is known in all lands. According to tradition, and long believed, this melody arose during the days of the Spanish Inquisition. In order to save their lives, Jews outwardly practiced Christian rites and professed that

religion. Every Yom Kippur eve during the hours of darkness, Jewish Christians, or as these secret believers were called, Maranos, annually pledged allegiance to the God of Israel.

The Day of Atonement traces back to the Bible. Leviticus XXXIII "On the tenth day of this seventh month is the Day of Atonement, a holy convocation shall it be unto you, and ye shall fast; and ye shall offer an offering made by fire unto the Lord. And no manner of work shall ye do on this same day; for it is a day of atonement, to make an atonement for you before the Lord, your God." (27, 28). From Bible days to the present, wherever the Jew has lived this solemn day has been most rigidly observed by 24 hours of fasting and withdrawing from all active commercial enterprises.

The following morning services begin early and continue until sundown without interruption. Frequently, a special service is held around noon-time for the children. Strangely enough despite the feeling of awe and sanctity which clothes Yom Kippur in our day, there are Bible verses which indicate that originally it was an occasion of joy and gladness, when the young men and young women freely gathered for a Fall celebration. All evidences of social enjoyment have been dropped and today the Jewish people in every part of the universe consider this Day of Atonement as an occasion of "Atonement" with their God. The service concludes at sundown with the blowing of the Shofar, or ram's horn, after which the people return to their homes and their several occupations.

**BURNS TO DEATH**

Mrs. Tom Taylor of Sweetwater, 64 years old, died at the ranch home of her brother, E. W. Loftin, five miles east of Stiles at 10 o'clock Sunday morning as the result of burns received at 9 o'clock Saturday morning when a gasoline iron exploded in her hands covering her body with the fiery fluid and leaving it burned almost to a crisp from shoulders to the feet. Mrs. E. W. Loftin was burned, but not seriously when she attempted to come to the aid of the victim. The fire was finally put out after Mrs. Taylor had been enveloped in quilts. Mrs. Taylor attempted to save herself when the flames covered her by jerking off her clothing.

When they advertise to take the rattle out of a fliver while you wait, Detroit's population will increase from the fourth city to the first. The largest population of satisfied customers, trade with "M" System Store.

**MORE ABOUT THE HUDSON**

More than 200,000 Hudson and Essex cars have been manufactured to date this year, according to figures released this week by the Hudson Motor Co.

This staggering total of six cylinder cars—the largest number of sizes ever produced in a similar length of time in the history of the industry—is growing at the rate of 1200 cars a day. With all the autumn season still ahead, it seems an assured fact that this year will be recorded as one of the most sensational successes ever scored by any concern.

The striking growth of Hudson-Essex in recent years may be judged from the fact that production was 60,000 cars in 1922; that it increased almost 50 per cent. to 88,000 in 1923; and that it added 50 per cent to this enlarged total by scoring 128,000 in 1924.

Now, with 200,000 cars already manufactured and with business booming at an unprecedented rate, it seems that 1925 will actually double the remarkable business done in the 1924 season.

"This success is interesting to every motorist," said O. B. Price, Hudson-Essex dealer, "because it has resulted from a policy of continuously giving the public better values. There is one view—but altogether a mistaken one—that Hudson-Essex has succeeded because of price leadership.

"It is true that Hudson-Essex has passed on to the public every economy which this striking growth has given it and in turn has been rewarded by an ever enlarging business. But the principal point of the success was the value of the cars, not the price merely. The utility, the endurance, the smart looks and the reliable performance of both cars have scored this success; and it has been a success which price alone never could have scored.

**ABSTRACTS**

I am prepared to make abstracts of title on short notice. Your business is solicited.—W. S. Stoneham County Treasurer's Office

Brooklyn, N. Y.—Officer Smith writes:—"Some years ago I suffered from severe nervousness, brought on by acidity of the stomach. I could digest but very little food. I was rapidly losing weight and feeling miserably. I tried Tutt's Pills and the first dose gave me great relief. I continue to take them as directed and am glad to recommend them to all my friends who have used them with most gratifying results." At all druggists.

### So Weak Couldn't Stand

"My wife's health broke down and for years she was just a physical wreck," says Mr. Thomas Glynn, of Gibson, La. "We did everything we know, yet she seemed to get worse and worse. She was so weak till she couldn't stand, and had to be carried like a baby. It looked like nothing would save her that had been done.

## CARDUI

For Female Troubles

"I began looking around. I knew that Cardui was for women. I decided to try it for her as all else had failed. She couldn't eat, she couldn't sleep, and I was desperate. After taking a few doses of Cardui, we were so glad to note that she wanted something to eat, and with each bit of nourishment, and each day's doses of Cardui, she grew stronger and got up out of bed. She is now able to cook, and stronger than in a long time."

Cardui has been in successful use for nearly 50 years in the treatment of many common female troubles.

### BUILD ROADS TO OIL FIELD

If Big Spring and Howard county continues to sleep on their rights, old man opportunity is going to pass them by and don't forget it.

Good roads to the oil fields in the eastern and southern part of the county are the big needs right now. If we haven't the gumption to provide these good roads the oil men will make their headquarters elsewhere even tho our city may be miles nearer the producing wells.

With the fine highways across our county east to west and northwest to southeast, it is merely a question of providing one or two branch roads. Every day's delay in providing these needed roads is costing us dear. Big Oil men want action, and will never consider a non-progressive community in which to make their headquarters.

Here we are miles nearer the Magnolia's producer, south of Iatan, with good roads to within 4 miles of the well and no road the balance of the way. As a result the oil men make their headquarters at Colorado because the citizens of that place have opened a highway direct to the Magnolia's new oil field.

Mitchell county has also opened a road to the Deep Rock test, while Howard county sleeps peacefully. The Hyer test also in Howard county must be reached in a round about way from a highway, whereas the mountain road, which has been used by ranchmen could be placed in good shape at a relatively small cost.

If this road was fixed up the distance to the Deep Rock test could be cut down five or six miles, and the road could be used rain or shine. Three or four more tests are scheduled for the northwestern section of Sterling county, making about five wells within an eight mile circle—all of which wells could be nearest Big Spring if we improved the mountain road.—Big Spring Herald.

### Success of Boll Weevil Association in Carrying Scientific Results to People

That Government scientists have largely succeeded in controlling the boll weevil and that the National Boll Weevil Control Association has been instrumental in broadcasting their results to every intelligent farmer of the south, is the gist of a statement given out by Col. Clarence Ousley, president of the association, from his New Orleans office.

"The scientists have not quit at this stage," he assures us. "They have a definite program based upon present knowledge and their methods are economical and efficient. But the scientists are still at work in the endeavor to improve their own methods. Some new insecticides are being tested this year, looking to a cheaper source of poison, and research is continuing in the analysis of the cotton plant in the hope of discovering means of separating the particular quality or substance in the cotton plant which attracts the weevil and devising traps of that substance to catch the weevil before it reaches the plant. This is all in the future, just like the research of the scientists in respect to improvements of the treatment of diabetes by insulin or in respect to improvement in the methods of control of other pest or ailment.

"As I have intimated, there is still a large body of farmers who are lacking in understanding of weevil habits and the whole problem but with the advantages already indicated of thorough understanding and sound practices of leading farmers. With the great system of county agents functioning through the agricultural colleges and the United States Department of Agriculture in cooperation, there is a sufficient number of leaders and a sufficient degree of confidence to insure steady though gradual progress in widespread control.

"Moreover the great body of business men, particularly the banks, credit merchants and chambers of commerce in the cotton states, by a very large majority, have come to understanding of and confidence in the scientific methods of control. Practically all of the boll weevil catching machines, which so long deceived their inventors and many of the farmers, are out of business. Most of the commercial nostrums and mixtures which likewise deceived their inventors and a large number of farmers are in disrepute and I think will no longer constitute any considerable factor of confusion as they have in times past.

"I think I do not overstate the case when I say that the National Boll Weevil Control Association has been a valuable and effective instrument in establishing confidence among bankers, merchants and the commercial class generally in scientific methods and in revealing the inefficiency of the boll weevil catching machines and the commercial mixtures. Therefore it is my opinion that this activity has been well worth while, and I think the men who have contributed thought and funds to it should feel that they have done a good work."

So successful have been the efforts of the National Boll Weevil Control

## Your Future and Our Future

YOU often say of a man, "The more I know him, the better I like him." Of course as you come to know him better you learn his faults and failings as well as his virtues and achievements; you discover his little human weaknesses and his splendid manly qualities; buy you get to understand him—and you like him. You figure that, after all, he's a whole lot like yourself, with about the same up hill and down dale to go in life, and you know that he needs your friendship and you want his.

Well, it's the same way with a business—especially a business that has direct dealings with you. An electric light company is not a piece of machinery; it's a human aggregation, with just as keen and fine an aspiration to get on in the world as any individual. It has to work for its living the same as anybody. It has to earn the money with which to pay its bills and maintain its credit, and make enough so it can "save up a penny for a rainy day." It has to plan for its future the same as anyone else. It has the same problems as the rest of us to face, only, perhaps, on a larger scale. Every red-blooded Company, like every red-blooded man, wants to stand four-square with the world.

It is FRIENDSHIP and GOOD WILL that count in the business world today. The West Texas Electric Company wants your friendship. We believe that our future and your future are identical. The continued growth and prosperity of the West Texas Electric Company and the community which it serves are interdependent. We want you to know us better and we believe that when you consider some of our achievements, when you realize some of the splendid possibilities before us, you will be as enthusiastic as we are about our mutual welfare. Let it be a bright one.

YOUR ELECTRIC SERVANT.

**Mrs. B. F. Mills**

Association that Col. Ousley believes that at the end of this season it can terminate its activity and leave the county agents to carry on the work of informing the public.

"These county agents," he says, "for the most part are well trained college men, and they have the cordial support of the local banks, newspapers and lending farmers. I think, therefore, that the county agent system may be depended upon to carry out this work under the gratifying confidence which the National Boll Weevil Control Association has been at least partially responsible for creating in behalf of scientific methods of control."

### Texas Foot-and-Mouth Outbreak In Charge of Federal Forces

As a result of a telegraphic request from Governor Ferguson to Secretary Jardine, orders went out yesterday to Dr. Marion Imes of the Bureau of Animal Industry to take full charge of the work of eradicating foot-and-mouth disease in Texas. Before the department agreed to take full responsibility for the campaign against this outbreak the temporary injunction granted to dairymen and hay contractors against the Livestock Sanitary Board of Texas were dissolved after hearings by the district judges who granted them. These injunctions had prevented the enforcement of the quarantine regulations.

With the injunction obstacles removed and eradication forces under one head the way has been cleared for quickly getting the disease under control. In the centers where it first appeared it is now entirely under control. It exists only in the vicinity of Dickinson, Galveston County, which is the section in which the injunctions were granted.

Now that the outlook is for quick and unhampered control of the foot-and-mouth disease, it is expected that the embargoes placed against Texas by various States and by the English Government will be modified to apply only to the Federal quarantine area in that State. Several of them have already been so modified. Reports from Doctor Imes to the Bureau of Animal Industry in Washington indicate that all infected cattle remaining in the State will be disposed of today.

Investigations of possible causes of the recurrence of foot-and-mouth disease in Texas after the first outbreak occurred last fall have brought to light some interesting possibilities. Dr. John R. Mohler, chief of the Bureau of Animal Industry, who spent some time in Texas at the beginning of this outbreak, has found that cattle ticks on animals suffering from foot-and-mouth disease carry away infected blood. He believes it possible that the infection may be carried through the eggs into the seed ticks and, after some months, transmitted

to other cattle. One thing is certain, female ticks have been found with blood in their bodies carrying the virulence of foot-and-mouth disease. This is a complication which has not arisen previously in this country as there has never before been an outbreak of the disease in the tick area.

### To the Colorado Record:

I feel confident your people will vote the \$325,000 bond issue to have Mitchell county paved along the Bankhead highway, since you will get the benefit of the other highway also.

Mitchell county is the most derelict in Texas along the Bankhead highway according to reports, and you cannot afford that reputation. After personally viewing the work on your first bond issue I have always expressed the opinion you got more for your money than any other county in Texas. Fred B. Robinson, Waco, Texas, Life Member U. S. Good Roads Assn.

### WHAT THEY ALL SAY

It may be true that the commercial secretary is supposed to do more talking for the newspapers than any one else, but they are all boasting West Texas just now. The San Angelo Standard says:

"West Texas looks better than any country I saw in the north part of the State and in Oklahoma or Kansas," said Walter E. Yaggy, secretary of the Board of City Development, who returned Sunday from a three week's trip. He spent most of his time at Hutchinson, Kans.

Let us paint and top your car. We can make it look like new. Roberts Top Shop.

### VISITORS ADDRESS FARMERS AT DAN HORN SECTION FAIR

CISCO, Sept. 26.—The Dan Horn community fair, which held its annual agricultural show Saturday, was a big success, according to R. Q. Lee, president of the West Texas Chamber of Commerce, and other citizens of Cisco who visited the fair. Exhibits displayed the fact that farmers of that community, which is ten miles southwest from the city, continue to grow prize winning products in field, orchard and garden.

Mr. Lee, B. M. Whitaker of Haskell, exhibit manager for the West Texas Chamber of Commerce, and W. S. Cooper, secretary of the Colorado Chamber of Commerce, delivered addresses at the community fair grounds Saturday night.

### WHY SUFFER

You Can Rid Yourself of Rheumatism at Once.

When you awake at night with a severe pain in your arms, shoulders, or lower limbs and cannot continue your peaceful slumber for the annoyance of that pain that is very evident that some of the vital organs of your body are failing to remove the abundance of poisons which should be thrown off through these channels. Such poisons accumulate until you have developed a severe case of rheumatism, which, if nothing is done, will perhaps maim you for life as a chronic rheumatic. You cannot afford to wait, RHEUMALAX will remove the poison, stop the pain and set you aright. Rheumalax sold and guaranteed by druggist only. Ask him to order for you.

Rig Patterns a Specialty

Grandmother Groves from near Fort Worth came in Sunday morning and will visit at the home of her daughter, Mrs. Morgan Morris, several weeks. Grandmother is 93 years of age and still enjoys good health and is able to get around and do most of her work. She says she came to the "West" to pick cotton, having picked 300 pound before leaving home. She asked the writer to say to those who are in search of cotton pickers that she is an "old experienced hand."

Mr. Arnold Richards went to Blackwell Friday afternoon to visit in the home of his parents.

Mrs. Parm Syton sustained a fractured rib as the result of a hard fall she got while skating last Wednesday night. She was taken to the home of Mr. Armstrong where she received medical aid and is much improved at this writing, but says she is not so fond of skating after all.

Mrs. Hall has a nice selection of hats at the Garber Dry Goods store and will be pleased to have the ladies come and look them over.

A reception honoring Miss Sealy, our county demonstration agent was given by the County Federation at the American Legion Hut at Colorado Friday afternoon. The Womens Missionary society was represented by Mesdames Boston and Danner.

Mr. and Mrs. R. E. Garber and son Jack went to the Concho river Saturday night, returning Sunday night.

Mrs. Coker was called to Breckenridge this week on account of the serious illness of her nephew.

Mrs. J. E. Lasseter was taken sick very suddenly Saturday night and for some ten or twelve hours it was thought that her condition was quite serious, but we are glad to say that she is much improved at this writing.

**WELCOME ADDRESS.**

The address of welcome given by Mrs. A. L. White at the Auxillary to the Mitchell-Scurry Baptist Association recently held in Colorado and presented by request:

Madam president and fellow workers of the Mitchell-Scurry Association, W. M. U.:

I deem it a gracious favor to be given the privilege of bringing to you a greeting of good cheer and appreciation of your interest and presence in this service. The word "welcome" is a perfectly good word, but by popular use and abuse has come to be commonplace. It brings no thrill—could be as effectively spoken by a parrot or talking machine.

Were I capable of so doing, I might cull from the garden of beautiful rhetoric a chaplet of its choicest roses to lay at your feet, but these would wither by set of sun. Or, if I should gather a council of great authors, and weave for you a message thrilling with poetical rhythm, this too would flee away as a shadow, or vanish as a mist before the morn-sun.

So I go to the great storehouse of God's word, and in behalf of my local society, shall endeavor to thread for you a strand of precious jewels which I trust each of you will take and wear upon your very heart.

First: I will bring to you the priceless "diamond of love" found in John 15:12. "This is my commandment, that ye love one another, as I have loved you." This most precious of jewels comes from the heart of the Savior of men, and when heeded in the heart of his believing children, sparkle with unstinted radiance for all within its bounds.

Then on one side we would add the deep sea "pearl" found in Heb. 10:24 "Let us consider one another to provoke unto love and to good works." That is the object of this meeting today that by mutual exchange of thought we might stimulate each other to deeper interest in, and more efficient service for our Master.

On the other side we would join the glowing "ruby" from 2 Cor. 5:14 "For the love of Christ constraineth us." No gift is of real value unless prompted by love. If the constraining love of Christ has led us to sacrifice ease and pleasure or the call of home duties, to come here today, our gathering shall not be fruitless.

Then we take the royal "Amethyst" found in 2 Kings 10:15, "Is thine heart right, as my heart is with thy heart? If it be give me thine hand." This is given in pledge of loyal co-operation of those engaged in the battles of the King of Righteousness against the King of destruction. We are indeed one in purpose, one in hope, one in the fundamentals of Christ's Kingdom.

As a splendid match for this, we would place a vari-headed "Opal" from Isa. 41:6: "They helped every one his neighbor; and every one said to his brother, Be of good courage." No one so brave and strong who doesn't often have need of a word of approval or some token of brotherly interest.

Next, we place the glowing "Sapphire" from Prov. 27:17: "Iron sharpeneth iron, so a man sharpeneth the countenance of his friend." Our influence is a great whirlpool, unto which others are daily (consciously or unconsciously) being drawn for good or ill, for weal or woe. Therefore we need the beautiful "Turquoise" found in Heb. 12:12, 13. "Lift up the hands which hang down, and the feeble knees; and make straight paths for thy feet, lest that which is lame be turned out of the way." Today we are held to strict account to each other and to God and the purpose of this gathering is that we shall be blest, and be a blessing.

Now may we clasp our beautiful "Rosary" about the neck of each one present with the words of our Savior found in Acts 1:8: "Ye shall be witnesses unto me both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost parts of the earth."

**Autumn's Finest in Fancy Fabrics**

The most fanciful creations of the futuristic mind are boldly emblazoned in the display for fall. Here

are silks in which the cubist designs dominate, offering all the colors of the new season. For the more conservative dressers we have Silks in the plain and figured conventional patterns in both dark and light colors.

**J. A. HOLT & CO.**

**STORY OF THE MAKING OF A NATIONAL INSTITUTION**

Some three years ago Mr. E. H. Carlton, a young business man in seek of health went to New Mexico. Here he had ample time for thought and consideration and in time his ingenious brain conceived the idea of improvement in self service grocery stores, and thus the "M" System was originated. His dream of a large chain of these stores was started in a little New Mexico town. This embryo store was installed and operated under his personal supervision until all details were perfected, during this experimental stage and after a series of events this young man regained his health. Then came the "try out" on a large scale, twelve city stores were put in operation under the "M" System, and still under his guidance, these stores flourished and reached the penacle of their purpose. A small plant for the manufacture of these fixtures was put into a small rented shop. After five moves into a larger building each time to take care of the ever increasing unsolicited orders for "M" system fixtures and methods today the manufacturing plant occupies a building having thousands of square feet of floor space and all modern machinery, even paint being applied with a compressed air device of the latest type. Men skilled in his individual line of mechanical work performs that part of the labor where perfection is expected.

The first "M" system store, other than the experimental ones was put into operation about eighteen months ago. This infant of so short a time has grown into the Sampson of self service stores. Today three hundred and eighty "M" system contracts have been sold. The capitol idea of the arrangement is the fact that a customer on entering the front door has every item carried in stock in full view. The intire system is copyrighted. Progressive merchants in Texas, Oklahoma, Kansas, N. C., Mississippi, Alabama, Georgia, Florida, and New Mexico are now operating these stores.

Another part of his dream has been realized by having buying headquarters for all "M" system stores. Groceries are bought in immense quantities from manufacturers, thereby eliminating the middle man and their profits. Often a car load of one item is started on its journey to the towns having these stores, each taking out their requirements, sending it on to the next. This makes in addition to cheaper merchandise, less freight.

The arrangement of the store eliminates clerk hire, lessening the overhead and operation cost, in fact many "M" system stores are operated by only two men, one acting in the capacity of cashier, the other to keep stock in order, shelves in order and premises clean. These stores have an iron clad rule to keep reserve stock room and warehouse as clean as the sales floor space. Cleanliness was the prime thought in the conception of this ever growing popular system.

"M" System stores do not have charge accounts with the combined principals of all departments it is like the suns rays each store receiving its part of improved buying, selling and operating information. All of which benefits in turn are passed on to the consumer. And the dream of this young creator has become a reality in fact.

Colorado has one of these stores which opened Saturday, Sept. 19. Colorado has ever kept pace with time and progress and will continue to do so, so long as we have progressive business men and our present civic pride. Father time shall not

mow us down with his sythe. Mr. H. S. Beal who has the Colorado "M" system store is not a new comer but was reared in Colorado and has been a factor in the development of the town we are proud to call home.

**LITTLE THEATRE**

Rehearsals for the first play, "Come Out of the Kitchen" have started. The cast is as follows:  
Olivia Daingerfield ..... Mary Terrell  
Paul Daingerfield ..... Jack Helton  
Elizabeth ..... Miss Hazel Costin  
Charles ..... Mr. Chase  
Mrs. Falkner ..... Mrs. Blanks  
Cora ..... Mrs. Henry Vaught  
Mr. Burton Crane ..... Dr. Browning  
Mr. Tucker ..... Mr. Sandusky  
Mr. Weeks ..... Mr. Chester Thomas  
Amanda ..... Mrs. Lee Jones

We feel that we have a splendid cast and are expecting good work. Get your tickets early!

We also want to compliment those who started the work on scenery painting. We are indebted to Miss

Woodward, Miss Cooper, Miss Oliver and Mr. Jarman.

**FORCED SALE**

One section Martin County, 300 acres in cultivation. Three dwellings. Water plentiful. \$12.50 an acre bonus. Must sell.—J. D. Cunningham, Big Spring, Tex. 10-2-c

An exchange defines woman's dress in these words: "It consists of two armholes bounded on the west by nothing whatever, on the east by the same thing, of the south by hardly anything and on the north by less than that."

**American Telephone & Telegraph Co.—Bell System 144th Dividend**

The regular quarterly dividend of Two Dollars and Twenty-Five Cents (\$2.25) per share will be paid on Thursday, Oct 15, 1925, to stockholders of record at the close of business on Saturday, Sept. 19, 1925. H. BLAIR-SMITH, Treas.
