RAINS AND COLD WEATHER DELAY OIL FIELD PROGRESS

ONE COMPLETION; ONE NEW TEST ANNOUNCED FOR THE WEEK

The continued rains with a brisk drop in temperature the first of this week adding further to the unfavorable field conditions have served to retard progress in both the drilling and producing end of the oil industry in Mitchell county the past several days. Muddy roads and weather conditions making it everything but the best to be out, have kept scores of field workers away from their places. Only one completion and one new test are announced for the week ending Thursday.

The new completion is Fred Carney's Anna M. Keith One, in section 15, block 28, in the Westbrook field. After receiving a nitro shot of 320 quarts several days ago the hole has been cleaned out and tubing and pump equipment installed. The new producer, which was reported Thursday as a good commercial well, was placed on the pump Thursday.

The new location is on Choate & Henshaw acreage in Glasscock county, seven miles southwest from Hyman One of the Deep Rock Oil Company. D. J. Lewis, Colorado drilling contractor and who will drill this wildcat, was down 30 feet Thursday.

In the Iatan field, the Magnolia Petroleum Company continues to go ahead with their enlarged preliminary work for development. The pipe line connecting flow tanks at Foster One, four miles south of Iatan with tank arm at Iatan, was completed several days ago. The huge storage tanks under erection at Iatan are going up and capacity of several thousand barrels will be provided there. One of the newest tanks there will have a capacity of 5,000 barrels.

At Watson One, offsetting the Foster well 660 feet to the southwest, the crew had reached a depth of 890 feet Wednesday when a minor accident necessitated a fishing job. The hole was expected to be under the drill again by today.

The California Company reported five wells drilling on their Westbrook acreage, one of which P. W. Miller One, was down 2,370 feet, within about 650 feet of the Morrison pay.

Hyman One of the Deep Rock Oil Company, wildcat test in southeast corner of Howard county and some 14 miles southwest from the Magnolia well, is again holding attention of the fraternity. At a depth of 2,240 feet the crew picked up a good showing of oil this week. Reports from the well were not obtainable Thursday morning and it is not known what the showing has developed.

Contract is being closed this week to drill the old Douthitt test, on location in Sterling county some four miles south of the Deep Rock well. A new location has been made and drilling is expected to be under way as soon as derrick can be completed and rigging up completed.

SCOUTING ADVANCING WELL IN BUFFALO SCOUT COUNCIL

Scouting in the district is advancing steadily and another good year's work in scoutcraft is being rounded out, was the commend of W. S. Barcus of Sweetwater executive charge of boy scout work in the Buffalo Trail Council, embracing the counties of Mitchell, Nolan, Fisher and Scurry, who spent a short business visit in Colorado Tuesday. Mr. Barcus is anticipating big things for this movement in every troop organization of the district.

ASSISTANT TO PASTOR IS CONSIDERED BY BAPTISTS

Employment of an assistant to the pastor is being considered by the congregation of the First Baptist church. In the event the assistant is employed by the church he will direct finances and work of the young people and the Sunday school. The pastor, Rev. M. C. Bishop, announced Sunday morning that definite action would be taken by the congregation on this matter next Sun-

DIST. OFFICE MAGNOLIA NOT LEAVE COLORADO

District offices of the Magnolia Petroleum Company are not to be moved from Colorado to another West Texas town, as was rumored here a few days ago, according to the chamber of commerce. Frank Kelley, of the land department of the company and who is in charge of the Colorado office, will continue to make this city his headquarters.

Owing to the fact suitable quarters were difficult to obtain by Mr. Kelley in Colorado it was reported a few days ago that he would probably move district offices to another location. The chamber of commerce negotiated contract with a local citizen for erection of the building needed and it was reported Wednesday afternoon that the contract had been closed, definitely ending any probability of the company representative leaving this city.

"Colorado could, under no condition afford to permit the Magnolia Petroleum Company to leave this city, especially at this time when the company is contributing so important part in the development end of the oil industry here," was the declaration of Dr. P. C. Coleman, president of the chamber of commerce, in discussing the matter Saturday. "Mr. Kelley, too, is a valued asset to the city as a citizen and it would be a material loss should he and his estimable family move away."

STAFF REPRESENTATIVE OF ABILENE REPORTER HERE

Howard Bartlett, member of the editorial staff, Abilene Daily Reporter, spent Wednesday in Colorado collecting data for a series of articles to be run in his paper on Colorado. Information for these articles were furnished by the chamber of commerce, Superintendent R. B. Norman of the city schools and local oil men.

Colorado is absolutely one of the best small cities in this territory, was the comment of the visitor. Bartlett had not visited Colorado since 1920 and declared that he was surprised to note the big strides of development here. The visitor stated that conditions of the banks of Colorado, as shown by the September '28, call, was an index to the fact that the country was in fine condition.

DEMAND FOR APARTMENTS IS ACUTE HERE, C. OF C. SAYS

The demand for apartments in Colorado is more acute than in several months, according to information received from the chamber of commerce. It is now a daily occurrence that people are actually walking the streets of Colorado in quest of rooms and from one to a dozen applications are filed at the organization office daily.

The demand for apartments and houses to rent has become such that efforts are being made to interest outside capital to erect several of these buildings here. It is claimed that with the ever increasing number of homes constructed in the city the demand for homes for new comers is increased.

The population of Colorado is expected to show the biggest gain in 1925 of any year during the past five, it is claimed. The average annual increase of 750 is expected to reach not less than one thousand this year.

SWITCH ENGINE STATIONED HERE BY TEXAS & PACIFIC

To handle the ever increasing volume of local freight, the Texas & Pacific railway has stationed a switch engine in the yards at Colorado. The engine and crew were assigned to Colorado last week and will remain on duty here continuously throughout the fall season and probably longer.

Efforts were made by the chamber of commerce last year have the railway company give this service to Colorado, but to no avail.

ROAD BOND ELECTION IS ANNULLED BY THE COURT

CITIZENS PETITION THAT THE \$325,000 BOND ELECTION BE NOT HELD

Acting upon the recommendation of a number of citizens throughout the county, Commissioners Court convened in special session here Tuesday afternoon, passed an order rescinding previous actions of the court in calling for a bond election to be held in the county November 14 to vote on road improvement bonds of \$325,000 supplementing state and federal aid \$600,000 to improve the 65 miles of designation in this county.

Action of the citizens, several of whom appeared before the court Tuesday afternoon and personally suggested that the election be not held, developed, it is stated, out of the muddled condition of affairs of the State Highway Department. Under the conditions as reported at Austin it was believed, impossible to have voted the bonds.

Commissioners Court, however, in passing the order which called off the election, made no reference to this phase of the situation and no official charge has ever been made by the court that any of the allegations involving the highway department are true. Quoting the official order the court based its action upon the fact "A representative body of the signers of the petition praying for said election having been called together, requested the Commissioners Court to rescind the order for said election."

Among those to appear before the court Tuesday afternoon and suggest that the election order be rescinded were Col. C. M. Adams, Mayor R. H. Looney, Judge C. H. Earnest, Judge A. J. Coe, J. M. Thomas, T. W. Stonerod and several other prominent citizens of the city. C. E. Danner of Westbrook and prominent citizens from some of the rural communities were also present. It was voted without a dissenting voice that the proper action would be in an order calling off the election.

In a statement issued for publication late Tuesday afternoon, Judge Thompson and members of the court had the following to say:

The Commissioners Court of Mitchell County were called together in special session, by County Judge Charlie Thompson, Tuesday afternoon, October 20, the following order was passed:

The commissioners court in called session this the 20th day of October 1925, hereby rescind an order passed by said Court on the 12th day of October, 1925. Calling an election for \$325,000 road improvement bonds. For the following reasons:

1. A representative body of the signers of the petition praying for said election having been called together; requested the commissioners court to rescind the order for said election.
 2. The commissioners court as representatives of the citizenship of Mitchell county believe it unwise to vote on said proposed bond issue at this time.
- Charlie Thompson, County Judge, A. A. Dorn, Commissioner, Prec. 1
J. C. Costin, Commissioner Prec. 2
John D. Lane, Commissioner Prec. 3
W. D. McAdams, Commissioner Precinct 4.

COLORADO RECORD IS BEST WEEKLY PAPER IN TEXAS

"The Colorado Record is absolutely the best weekly newspaper I have ever seen in Texas," said B. A. Donaldson of Stratford, who spent a few days here last week looking after business affairs and visiting with relatives. Mr. Donaldson, for many years a citizen of this county, recently moved to Stratford.

"We would not miss the Colorado paper for anything" he continued. "It stands within a class to itself in our home. Colorado owes much to its valuable newspaper, as it is always championing the best of everything for both city and county and I have my first time to find it on the wrong side of a question affecting the public interest."

COTTON RECEIPTS COUNTY REACH 15,000 BALES TODAY

2,925 BALES GINNED FOR THE WEEK ENDING WEDNESDAY C. OF C. REPORTS

Mitchell county cotton receipts at the gin up to Friday of this week will approximate 15,000 bales, according to an estimate issued Thursday afternoon by the chamber of commerce. Up to Wednesday night a total of 14,317 bales had been received at the 15 gin plants of the county, an increase of 2,924 over the total number of bales reported at the same time last week.

With favorable weather again promised farmers are rushing the work of harvesting their cotton and as the demand for pickers has about been filled, the crop will be moving to capacity of the gins by the end of the week, should weather conditions continue as they were Wednesday and Thursday. Wednesday a total of 461 bales, counting round bales as halves were handled by the eight gin plants here.

Ginners and cotton buyers reported Thursday morning that the staple had been considerably damaged by excessive rain. The cotton contains a considerable amount of dirt and the lint, as a rule, is damaged from water stain.

Colorado, with eight plants, continues to lead all other places of the county with receipts totaling 7,655 bales up to Wednesday night. Lorraine, with four gins, had received 4,252 bales, Westbrook, with two gins, 1,627 bales and Buford, with one gin 783 bales. The two round bale presses at Colorado had delivered 2,400 bales up to Wednesday night.

Both seed and staple took another tumble during the week. Thursday staple was quoted at from 21 to 22 cents per pound, middling basis. Seed, retailing at \$30 a ton at the gin last week, dropped to \$28 Monday and that price was still in effect Thursday afternoon.

FANS WILL JOURNEY TO ROSCOE FRIDAY AFTERNOON

In the event the roads are in good condition, 250 local fans, traveling in seventy five automobiles, will accompany the Wolves to Hamlin Friday afternoon when the locals invade the camp of Roscoe's strong gridsters. Roscoe defeated Colorado last year and throughout the season was one of the strong B class teams in this district.

Another game looked to with interest is that scheduled to be played at Midland Friday afternoon of next week when the Wolves journey to the corral of the Colts. Be it remembered that Midland suffered a decisive defeat at the hands of Colorado a few weeks ago and Big Jim and his men are expecting to register a repeater.

COLORADO BANKS LEADING OTHER TOWNS IN DEPOSITS

In addition to reporting more deposits than the three banks at Big Spring an account of which was published in The Record last week, Colorado's two national banks are shown to have almost double the deposits reported by the three banks in Snyder.

At the last call, September 28, the Colorado National and City National banks of this city reported \$1,755,394.26 deposits. At the same time the three banks in Snyder, according to the Scurry County Times, reported \$958,227.78, \$797,166.48 less than the amount shown here.

HOTEL DINING ROOM PROP. SUSTAINS BROKEN ANKLE

Mrs. C. O. McCombs manager of the dining room at the Barcroft, was painfully injured at noon Friday when she fell and broke an ankle bone. The accident occurred just at noon and when Mrs. McCombs was directing the serving of the Lions Club luncheon in the hotel basement.

Dr. T. J. Ratliff, member of the club was present, was immediately summoned to render medical aid. Reports from the hotel are that Mrs. McCombs is improving and is expected to be able to leave her room within the next few days.

PUBLIC INVITED INSPECT NEW DISPOSAL EQUIP'M'T

So proud of the \$20,000 addition to the sewage disposal plant is Mayor R. H. Looney that he is anxious for the citizenship of Colorado to pay a visit to the site and personally inspect the huge filtration plant in operation. It is the last word in disposal equipment, according to sanitary experts who have inspected the plant and Mayor Looney and other city officials believe there is to be no more complaint because of offensive odors or other objectionable features.

Concluding a series of official tests, conducted by a factory representative, the big aeration plant, Imhoff tank, which was completely rebuilt and sledge beds at the disposal plant, have been accepted by the city and are functioning with all the preciseness the most exacting could expect. The plant is rated as being sufficient to care for the needs of a city, several times the population of Colorado.

The filtration process is so well defined throughout this new sanitation equipment that the seventy-five gallons of water being turned into the river per minute from the equipment is sparkling clear and absolutely free of any odor.

Mayor Looney issued an invitation Wednesday to all interested citizens to visit and inspect the plant. He is especially anxious to have such civic organizations of the city as were interested in perfecting the disposal plant make this visit.

MITCHELL LEADS IN GIN RECEIPTS, REPORT SHOWS

Gin receipts in Mitchell county from the crop of 1925 prior to October 1 were larger than those of other counties in this section of Texas, according to the semi-monthly report of the department of commerce at Washington for October 1. That time gin receipts in Mitchell county were given at 4,904 bales with 2,495 bales ginned in Texas counties by the department were as follows:

Howard 1,865 bales; Midland 303 bales; Scurry 1,937 bales; Dawson 1,158 bales.

Williamson county, which lead the state last year with 120,000 bales, had ginned only 6,419 bales. Hidalgo county, in the extreme southern edge of the state, was leading all other counties of the state with receipts of 54,874 bales. Hunt county is a close second with receipts of 52,401 bales.

TELEPHONE IMPROVEMENT TO BE COMPLETED ON SCHEDULE

The Southwestern Bell Telephone Company expect to complete installation of the new system in Colorado on schedule, N. H. Moore, of Abilene district manager, announced during an address at the Lions club Friday. Moore declared that the company planned to go ahead now without interruption on the large improvement schedule here.

Under terms of agreement reached by the city and telephone company, terminating a fight of three years standing for better telephone service in Colorado, the company signed an agreement to spend \$40,000 on its plant here. The work is to be completed and the new plant in operation by next summer.

BIG SPRING YOUTH GIVEN 5 YEARS ON FORGERY CHARGE

Otho McCloud of Big Spring, 16, entered a plea of guilty when arraigned before Judge Chas. C. Thompson in juvenile court Friday afternoon on charges of forgery. Sentence, which was later passed on the youth by the court, assessed his confinement in the juvenile training school at Gatesville for five years, until McCloud has attained the age of 21 years.

A check given a local merchant over the fictitious signature of "Buck Horn" lead to arrest of the youth. The check was given on a local bank.

Phelan Dorn of McMurry College spent the week end at home

COLORADO SORELY IN NEED OF NEW HIGH SCHOOL BLDG.

STATE SUPERVISOR FINDS THAT THIS CITY MAY LOSE ITS AFFILIATION CREDITS

With a school plant capable of accommodating about 700 pupils, the Colorado Independent district is operating its schools today with an enrollment of more than 300 in excess of that number, rendering effective work among the student body most difficult. In addition to this handicap, the schools are facing the inevitable of losing some of the credits of affiliation already authorized by the State Department of Education, unless more adequate building and equipment facilities are provided for the schools.

The school board will take the matter to the public in the hope of ascertaining what is to be done. A mass meeting of patrons of the schools will probably be held within the next week or ten days at which time the acute situation facing the schools will be placed before the public. Several citizens have suggested a bond issue of such proportions to finance erection and equipment of a modern high school building here.

Report of the State Supervisor is contained in the following article, reprinted from the current number of "The Howl" official publication of the Colorado High School.

Below is the report of the High School Supervisor who recently visited the Colorado schools. The report is brief except for the attention given to the matter of room for the high school. Item number one has already been met and item number two is immaterial since all seniors are taking this course as it is now.

The work of classifying and accrediting the public schools of Texas is under the direction of the State committee, composed of six members chosen by the public schools and six by the colleges. The committee determines the conditions upon which high schools are classified and accredited for the purpose of establishing educational standards, encouraging schools to attain the standard, and certifying those that have attained them so as to facilitate the transfer of students to any other school or college.

The regulations as prescribed by this committee are administered by the State Department of Education through high school supervisors. In the visits of the supervisors and in their reports to school authorities, recommendations are made in the spirit of co-operation and helpful suggestion, with the earnest desire that all school authorities will join with the State Department of Education in their efforts to maintain the necessary standards of secondary education in Texas.

In order that the schools may be properly certified it is essential that minimum requirements be met. To that end the supervisor who recently visited your school makes the following recommendations:

1. That all recitation periods in high school be forty-five minutes in length.
2. That in the matter of electives, all students be required to do four years work in English, and that the fourth year's work in English not be listed as elective. It will be observed that students who complete only three years of English receive only

(Continued on page five)

TWO AUTOMOBILES BURN AT WESTBROOK GARAGE FRIDAY

Two automobiles, one a Ford and the other a Dodge, were practically destroyed by fire at the King Garage in Westbrook Friday afternoon. The two machines had been driven into the station for gas and as the Ford tank was being filled a bystander struck a match to light a cigarette. A spark from the lighted match ignited gasoline in the Ford and immediately the two cars were enveloped in flames.

The building, owned by A. F. King was damaged by heat and smoke. One of the large plate glass windows was broken out by heat.

PURE SOAP plus SOFT WATER means Long Life to Linens

Hard water used in a laundry means hard work, hard rubbing, hard wear on linens. And the local water is hard—full of lime and magnesium that call for a lot of soap in the effort to wash clothes clean.

We've made this hard local water absolutely soft by means of a "Permutit" Water Softening Filter. And nothing but this "rain soft" water is used in our plant.

We use only pure soap, which forms with our "rain soft" water a perfect suds that softens and removes the dirt without hard rubbing. And our soft water rinsing takes away every trace of soap, leaving the work in perfect condition.

This means longer life to linens, more wear from clothes, washed the "soft water way."

We save our customers money by giving them longer service from their linens. Test this economy. Phone us to call for a trial bundle—today.

Colorado Laundry

The Christian Aid society is having a series of rummage sales on Dr. Root's lot south of Terry's. Up-to-date they have cleared over one hundred dollars. Anything you can't use they can sell.

Mr. and Mrs. Thos. R. Smith spent several days at the Dallas fair.

Furniture upholstery neatly done at reasonable prices.—Frank Herrington.

SEVEN WELLS NOTES

Well, we have had two real pretty days in the past week. But again the sun has hid her face. And has left us to wonder again.

When we can get out and actually enjoy some more real pretty days.

There has been some sickness in our community lately mostly caused from colds.

Zeak Smith's little boy has been real sick lately.

Mrs. Don Davis has been visiting her parents a few days lately. Mr. and Mrs. Chas. Parker, but she left Thursday night for Abilene where they will make their home.

Mr. and Mrs. Will Brown and children visited in Merkel Saturday night and Sunday.

Several from our community attended church at Payne Sunday.

Miss Essie Bassham from Colorado also a bunch from Loraine were at Seven Wells kodaking Sunday, they report a real good time.

Mr. Jimmie Barrett, who has been visiting here for some time received word from his mother at Mt. Pleasant, Texas, that she was very ill, and he left Wednesday night for his home.

Mr. and Mrs. L. L. Bassham and children visited in Mr. Chas. Parker's home Sunday.

Mrs. Charlie Boyd from Hyman community is spending a few days with her sister, Mrs. E. R. Venus.

OIL NEWS

Sterling City News

The C. L. Hardy Cedar Hill well, on Section 42 Block 29, H. & T. C. Ry. Co., after being shut down for several weeks, set 1 1/2 inch casing and resumed drilling this week.

The Deep Rock Hyman well on Section 88, Block 29, W. & N. W. Ry. Co., 24 miles northwest of here, set 8-inch casing and is drilling in gray lime past 1950 feet. It is said that operations will begin at once in an effort to develop the oil sand encountered in the Hyman well around 1300 feet. It is planned to drill several wells down to this oil sand.

Durham No. 2 of the Chicago-Texas Oil & Gas Syndicate, 1 1/2 miles south of here, has been on the pump daily for the past week. Each day the well is pumped, it shows an increased output of oil. It is believed that when the well clears itself of accumulated impediments, the production will be materially increased. In the meantime, preparations for drilling Durham No. 3 is going forward.

ward.

The Magnolia Company's Mary Foster well No. 1 in W. L. Fosters Mitchell County pasture near Iatan 30 miles northwest of here, is making around 180 barrels per day. The company now has storage for about 3,000 barrels, and a pipe line to the railroad at Iatan. The Magnolia well 600 feet south of the Foster well is drilling around 600 feet.

Clarke well No. 2, 13 miles southeast of here, is drilling in the red beds around 1050 feet.

White Eagle Company's Mills well 11 miles southwest of here, is drilling past 1135.

The Hull well, 17 miles southwest, is drilling past 3325.

Wrightsmen's Foster No. 1, 13 miles southwest of town, in hard gray lime around 2735 feet.

Douthitt well No. 1, eighteen miles northwest, is drilling past 1,700 feet.

The Fred Hyer well No. 1, on the S. E. 1/4 section 139, Block 29, W. & N. Ry. Co., 25 miles northwest of here, is drilling past 900 feet.

WHAT'S DOING IN W. TEXAS

Wichita Falls—Three hundred thousand dollars is being expended by the Southwestern Bell Telephone Co., in improvements and betterments of their Wichita Falls plants. The improvements include the erection of a three-story building size 35x50 feet installation of three thousand lines of underground cable a distance of 6000 feet; and installation of much new equipment. Wichita Falls will have ten thousand telephone connections by July 1, 1926 when the program will be completed according to statements of officials of the company.

Canyon—A half million dollar building program for West Texas State Teachers College here is outlined by Dr. J. A. Hill, president of the institution who announces he will ask the legislature for this amount for the next two year period. A \$100,000 Library and education building a \$175,000 Science building and improvements to present structures will constitute the program.

Quanah—This city is advertising for bids for constructing sewer extensions here. The city conducted a clean up campaign recently and the passage of stringent sanitary laws has caused numerous petitions for sewer extensions.

Slaton—A new hot water boiler washing plant has been added to the Santa Fe shops here. The plants represents an investment of \$50,000 and will enable the local shops to wash the boilers of all locomotives.

Sagerton—A campaign for \$100,000 road bonds is being pushed here. The election will be held Nov. 7 and if carried the bonds will be used to build an improved highway from the Stonewall County line to Stamford connecting up the Plains Cut Off Highway. The highway will follow the Stamford and Northwestern Railroad.

Dallas—West Texas exhibitors at the Dallas Fair were honored with a banquet at the Baker Hotel given by the West Texas Chamber of Commerce. Dignitaries present included Col. R. Q. Lee, president of the organization; Col. C. C. Walsh, A. B. Spencer and Clifford B. Jones, past presidents; Porter A. Whaley, manager of the organization; Mesdames C. C. Walsh, Clifford B. Jones Porter Whaley, Homer D. Wade, assistant manager presided.

Memphis—The Memphis City council, has been petitioned to call a bond election for the purpose of voting city paving bonds. Thirty-five to forty blocks of residential street paving

is contemplated in the petition.

Burnett—The first car load of 1925 pecans to move from Burnett county was shipped from Marble Falls and another car is now being loaded. The nuts found a ready market at a good price.

Happy—Material is on the ground and work will begin at once on a high line to serve this city. The line is being built by the Texas Utilities Co., and will be built as soon as the Happy line is completed.

Vernon—The Vernon Semi-Weekly Record will be transformed into a daily newspaper Nov. 1, with full leased wire Associated Press reports. E. H. Nichols owner, was formerly editor of an Amarillo daily newspaper.

NOTICE by Publication Non-Resident and Unknown Owners in Delinquent Tax Suits.

THE STATE OF TEXAS, and County of Mitchell.

To all persons owning or having or claiming any interest in the land or lots hereinafter described, the same being delinquent to the State of Texas and County of Mitchell for taxes, and the same being and being situated in the County of Mitchell, and State of Texas, to-wit:

Being all of Lot No. 18 in Block No. 1 of the Amended Addition to the town of Westbrook, Texas.

Which said land is delinquent to the State of Texas and County of Mitchell for taxes for the following amounts:

\$1.15 for State taxes, and \$2.53 for County taxes, said taxes having been legally levied, assessed and rendered against said land and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the State of Texas and County of Mitchell. I, secure the payment thereof, and you are hereby notified that said land has been brought by the State for collection of said taxes.

And you are hereby commanded to be and appear before the Honorable District Court of Mitchell County, Texas, at the Court House of said County, in the city of Colorado, on the 11th Monday after the 1st Monday in September A. D. 1925, being the 4th Monday in November A. D. 1925, the same being the 23rd day of November A. D. 1925, then and there to show cause why judgment should not be rendered condemning the said land (or lots) and ordering sale and foreclosure thereof for said taxes, interest, penalties and costs, and all other and further relief, general and special, being fully set out and prayed for in the plaintiff's original petition filed in said court on the 12th day of October, 1925, and appearing on the docket thereof as suit No. 4687.

Wherein the State of Texas is plaintiff and Matilda McInoshan, Jeff D. Stinson,

And all persons owning or having or claiming any interest in said lands or lots, defendants.

Given under my hand and seal of said Court, at office in the City of Colorado, in the County of Mitchell, this 13th day of October, A. D. 1925.

J. LEE JONES, Clerk
11-6 District Court, Mitchell County, Tex.

Comfort in Old Age Through Savings Account!

Almost every one can look back down the years and say what should have been done. The man who can look ahead and say what he should do and then do it is the one destined for success and happiness. Hindsight is easy; foresight is profitable.

Every older man looking back will say savings is the easiest way to build a competence. The younger man who will earn and act on his advice before it is too late will be the gainer. You can start today with a Savings Account in this strong Bank.

"Beggars on Horseback"

Another big Paramount picture starring Theo. Kosloff, Edward Everett Horton. This is a James Cruze production

cakes with the little lighted candles were admired, and afterwards enjoyed with ice cream. Many little souvenirs were left for the honor.

Standard

The Standard Club met with Mrs. H. Guitar. Mrs. Smoot led the lesson from Two Gentlemen of Verona. Mrs. Riordan conducted the one on the history of Mexico. The hostess served a lovely two course luncheon at the social hour. The meeting this week will be with Mrs. Sherwin.

Auxiliary Meeting

The Auxiliary of the American Legion met in the library room at the Court House Wednesday afternoon, with the President, Mrs. J. G. Merritt, presiding. Besides the routine business plans were made for the Poppy Sale the day before Armistice Day.

It was decided to have a carnival some time in November. Mrs. M. Carter, Mrs. Roy Dozier, Mrs. Tom Hughes, Mrs. J. B. Pritchett, Mrs. Williams, Mrs. Merritt and Miss Williams were appointed as a committee to plan for it.

Also the Auxiliary decided to sell candy and sandwiches at the foot ball game on Armistice Day.

Merry Wives

The Merry Wives met with Mrs. J. E. Etheridge at Mrs. Edgar Majors Wednesday. The invited guests were, Mesdames Jesse Gage, Frank Lupton, T. J. Ratliff, M. C. Ratliff, Harry Ratliff, H. V. Pond, Oscar Majors, R. O. Pearson, T. J. Coffee, H. L. Hutchinson, H. C. Landers, H. P. Slagel, W. W. Whipkey, Lee Jones and J. A. Sadler. The hostess served chicken salad, crackers, potato chips, cranberry jelly, olives and coffee. The next meeting will be with Mrs. Sam Goldman at Mrs. Oscar Major's.

U. D. C. Meeting

The U. D. C. met with Mrs. Jack Smith Tuesday. In the absence of the president, Mrs. Gustine presided. Besides the usual business the chapter endorsed the Sons of Veterans movement and will do all in its power to help carry forward the movement. Mrs. Otto Jones, Misses Butler and Jones were guests. The hostess served fruit salad, little cakes and hot chocolate. The next meeting will be with Mrs. Jeff Dobbs.

Y. W. A.

The Y. W. A. met with the president, Miss Helen Homer, Tuesday after a devotional period, at the business session the young women decided to piece a quilt for the Buckner Orphan Home box and to take up White Cross work. Mrs. A. L. White conducted the lesson from Ann of Ava.

Business Session

The Baptist W. M. S. met in business session Tuesday at the church. Besides the usual business it was decided to pack a box for Buckner Orphan Home November 16th. Also Mrs. Charlie Farris was elected second vice-president to fill a vacancy caused by resignation.

The following chairmen were appointed: Missions, and Education, Mrs. Keathley, Benevolent, Mrs. C. H. Lasky, Personal Service Mrs. J. C. Hall, Industrial, Mrs. Ford Morris, Enlistment, Mrs. A. L. Whipkey, Social, Mrs. A. D. Bush. Monday will be the meeting of the Circles.

MARRIED

Rich Cowan and Miss Ditta Coons were married Sunday afternoon at the First Baptist parsonage, Rev. M. C. Bishop officiating. Mr. and Mrs. Coons will make their home in Colorado, it is announced.

MARRIED

At the Baptist Parsonage Sunday, October 18th at 2:00 o'clock, Mr. Rich W. Cowan and Miss Ditta Coons, Rev. M. C. Bishop pronouncing

the solemn words that joined these two young lives together as partners Mr. Cowan is an electrician in Colorado. Miss Coons has not been in Colorado long but has made many friends while here. We wish for these young people all the joys that can come to those embarking on the matrimonial voyage. These young people will make Colorado their home.

Parent-Teacher Association Sales

The P. T. A. served lunch and sold pies and cakes at Beal's Grocery Saturday, clearing over \$35.

These sales will be continued for several Saturdays that the bill on the typewriters may be paid. The public is invited to patronize these sales. You will secure something good for your Sunday dinner at the same time help the school.

1921 Study Club

The 1921 Study club met Friday with Mrs. Jim Dobbs. Mrs. C. L. Root conducted the lesson Coriolanus. An interesting roll call of current events was responded to.

At the social hour the hostess served delicious fruit gelatine and cake. It was decided to meet Thursday, October 22 instead of Friday on account of the football game on that day. The meeting will be with Mrs. Abe Dolman.

Study Course

The M. E. Study course was held with Mrs. D. N. Arnett Monday. Mrs. Leslie conducted the program. The Bible lesson was the 23rd Chapter of Acts after which the third chapter of a new day in Latin America, racial qualities was studied.

The Shakespeare

The Shakespeare club met with Mrs. Jerold Riordan, Mrs. Charlton led the lesson from the Mentor magazine and Act 2 scene III of Richard III.

Mrs. Joe Smoot and Mrs. Russell of San Saba were guests. The hostess served a two course luncheon. The meeting this week will be with Mrs. Lois Bennett.

Delphian Club

The Delphian met Thursday with Mrs. Slagel. Mrs. Wallace was welcomed as a new member. The president, Mrs. Blanks gave a report of the County Federation meeting. The local dues of one dollar a year were paid by some of those present. The lesson upon French Drama proved very interesting.

It was decided to meet on the 5th

created man, the greatest intellectual being in existence.

An incident within my observation occurred sometime back that supports my position pretty clearly. A teamster was driving a heavily loaded wagon along the street and one of his horses suffered the misfortune to fall to his knees on the slippery pavement. The driver, instead of showing mercy for his horse and checking up, reach forward with his whip and whipped his horse to his feet and continued the whipping the full length of the block, a distance something like 200 feet, before the punishment ceased. Mr. Storrs and I might say, Dr. Cranfill, would tell us that this man and his horse were both created by a wise, just and merciful Creator. Furthermore, they would tell us that the horse is peculiarly fitted to this mundane sphere and that when he dies that that is the last of him. They would further tell us that this man that showed no mercy for his horse was created in the image of the Creator of all things and has the high privilege of leaving this world sometime and entering into a life of eternal bliss beyond the wildest dreams of mankind. If there is a higher intelligence than man, a wise, just and merciful Creator, why it did not, from a standpoint of justice, interfere in behalf of one of its helpless creatures that was being punished unmercifully for something it could not help.

From Mr. Storrs' and Dr. Cranfill's viewpoint it is not so bad when a man receives some punishment in this life, because he expects compensation after leaving this world. Not so with the horse. It and other animals suffer from man's brutality and there is no help. There is no intelligent arrangement of things when the horse or other dumb animals are punished unjustly.

Perhaps some one can give a plausible explanation of why everything in this world does not work on the same beautiful principle as that of the bursting buds and folding petals.

With the numerous new residences built in the past several months, and the large number being rapidly completed, Colorado may be fittingly designated as a "City of Homes." The sale of residential lots for early erection of homes to be occupied by the purchasers, are being reported daily. A partial list of the residences soon to be finished are those of the following: Mr. and Mrs. Bob Thompson, Mr. and Mrs. Jesse Bohanon, Mr. and Mrs. L. C. Dupree, Mr. and Mrs. L. W. Sandusky, Mr. and Mrs. Lewis Elliott.

Making the Home More Cheery and Livable

Nothing adds so much to the beauty of the home interior as walls and ceilings finished in good taste. They beautify the whole environment.

Pee Gee FLATKOATT A soft, dull finish that retains its velvety tones during its long service. Capable of exquisite decorative effects. Easily cleaned.

BIBLE THOUGHT AND PRAYER

How to conquer an enemy—When a man's ways please the Lord, he maketh even his enemies to be at peace with him. Proverbs 16:7.

Prayer—O Lord, Thou has revealed Thyself and taught us to rest in Thee, for Thou hast compassed us about with songs of deliverance.

NOTICE OF SALE AND DIS-SOLUTION OF PARTNERSHIP

By mutual agreement the firm of Whipkey Printing Co., a co-partnership composed of F. B. and A. L. Whipkey, is this day dissolved. A. L. Whipkey retiring from the firm, having sold his entire interest to F. B. Whipkey. All notes and accounts payable to the firm of Whipkey Printing Co., shall be paid to F. B. Whipkey, who will continue the business as heretofore. F. B. Whipkey also assumes all indebtedness against the firm of whatsoever nature.

This notice is published as a legal form, so that all creditors and debtors may be so informed.

The business will be carried on under the name of Whipkey Printing Co., with F. B. Whipkey as owner.

Witness our hands, given at Colorado, Texas, this First day of October, 1925.

F. B. WHIPKEY,
 A. L. WHIPKEY.

PROGRESS

Extended education such as provided by the public schools of the country has exerted a gigantic influence in the past decade or two,

which is being felt in all walks of life.

At a time when the theory and efficiency of public education is being attacked, when educators themselves so constantly change method and principle that they bewilder the average onlooker, when certain elements seek to lay the blame for the somewhat exaggerated vices of the present younger generation to this great institution and at a time when educators are rallying to support a new bill for elevating the cause of education to the rank it deserves, namely, a federal department with a representative at the president's Cabinet, this fact needs emphasis.

Many interested in the public schools sometimes feel that the press is indifferent, apathetic, or even hostile to the advancement, improvement, and support of a program for greater and enlarged facilities. Encouraging indeed, then, is the recent editorial comment appearing in one of the leading papers, in which it was declared that "by providing educational facilities for all, the nation insures for herself a glorious continuing advance into the future. What the past generation's schooling has done is richly evident."

The Cincinnati Inquirer comes out wholeheartedly for the cause of popular education and the entire editorial, which is given below, should reassure those who in the dust of present-day building of system, plant, principle and theory, fail to see, on looking backward, the great stretch of road already travelled toward the ideal "The American public school, non-partisan, non-sectarian, efficient, democratic; for all the children of all the people; equal educational opportunities for all."

The editorial:
 America has set another record for magnitude, an amazing record in the field of popular education. For the first time in the history of the world more than a million children are now attending public school in a single city—New York. Daily this unthinkable army, a thousand thousands of American boys and girls of every racial origin and creed, gathers up its million satchels and proceeds to school, elementary, junior high, high, training and vocational.

"The gigantic influence of the last generation's already broadened facilities for education is felt everywhere today. It appears in notable exploits by trained and educated leaders every day in the year—leaders in government, in business and finance, in the professions lay, the secular, the army and the navy, the civil service and the councils of labor. Science is advancing as never before—due to education. Govern-

ment in some of its many phases is more expert than formerly—due to education. Knowledge of the science of economics has greatly enhanced the vision and effectiveness of modern business. Manufacturing and commercial enterprises advance to new heights of conquest all the time professional and public service have reached out into a vast number of new, constructive fields, and capital and labor come together more than ever before in a spirit of moderation and constructive adjustment for the general good. All these great expansions in the national achievement are due largely to the same cause—

extended education.

"Education is the basic essential of a nation's continuing and growing greatness, second in importance to character and energy alone. Coupled with these, it enabled Jefferson to write the Declaration of Independence and empowered the founders of the government to build the Constitution. In the nation's development self-education has played a mighty part—self-education of the kind that made a supremely broad farseeing statesman out of Lincoln, and enabled him to save the Union by a combination of patience and timely use of force that amounted to genius. Effective self-education, however, is for the few, who have outstanding character enough to win it. Modern public education is for these and all the others—the exceptional men and women who would find it without aid from others on a bleak frontier, and the vast majority of average young people who need it none the less.

"By providing educational facilities for all, the nation insures for herself a glorious continuing advance into the future. What the past generation's schooling has done is richly evident. What of the abounding promise for the future that lies in the general education of today, when every child in the country goes to school a million in a single city? It is stupendous, past all imagining."

HIGHWAY CONTROL

In a statement issued the past week, County Judge John W. Hill of Stephens county, together with the county commissioners, explained just why Stephens county is not getting its road built.

The blame is placed on the state highway commission at Austin, the statement asserting that "we have no voice in how it is constructed, the price thereof, or to whom the contract is let. That is what the last legislature of Texas did for the good old democratic principle of local self-government."

The statement continues:
 The commissioners' court, while before the highway commission last May, distinctly informed the commission that we had the money for the building of our part of these highways, and that we would thank them to give the matter prompt attention, which they promised to do. The question now naturally arises, "Why stand we here idle?" Ask the highway commission of Texas, don't ask us.

There are two sides to this highway business, obviously: the highway commission looks at the highways as state projects, while the county commissioners of the various counties see them only from border-to-border of their own counties. It isn't worthwhile arguing about who is right;

Be Not Deceived

Your life and welfare each depend upon the condition of your spine, just as much so as the same depend upon your environment, intelligence, sunshine, air, water, clothing—and food that you eat. This being true, it is the better part of wisdom to use common sense and have that bad spine examined and corrected by a reliable expert in his profession near your own home town rather than go away and spend 3 or 4 times as much more money than is necessary. Think it over.

PHONE 76 **C. H. LANE** MASSEUR

both sides have ample ammunition to support their own views.

Perhaps eventually, to prevent stalemates like we have in Stephens and Taylor counties, there will have to be a revision of the regulations of the highway department, placing the building of roads on a basis a bit more of the cooperative type than at present, wherein the local commissioners and the local voters will have something to say about how, when and where roads in their own counties shall be constructed.

It would be too bad for our highways to fall under the domination of a commission comparable in power and inflexible regulations such as those which today czar it over the railroads of the country. But undoubtedly it is desirable to have some measure of state control, otherwise we should never get a complete system of interstate highways completed.

And right here we desire to say in tribute to our own county officials that in spite of the numerous delays and the criticism brought on by those delays, they have never sought to pass the buck to the state highway commission. They have accepted the criticism and gone on their way without looking about for a handy alibi.—Abilene Reporter.

SAYS TWO CROP REPORTS CAN NOT BE RECONCILED

E. L. Shelton in Dallas News:

In the issue of The Morning News of Oct. 12, Mr. C. S. Field of Dallas, Texas, wrote an article asking why the Government should make a guess at the cotton crop and cause such drops in the market and such a great loss to the South. I am in accord with Mr. Field, but I want to go it one better and ask why should the Government make a guess at the production of anything since they miss the mark so far many times more than they make a correct guess. They have recently made a big guess on corn production. Why not go out and make a guess on the manufactured articles and publish it to the world and create a panic-condition? There is just as much reason in one as the other if not more reason for the guess on the manufactured article, for after all, every production of every kind originates from the soil.

Trusting this matter of guessing will either be done away with or else put on a safer basis of guessing and that the guesses will be made so they will reconcile.

Mr. and Mrs. J. E. Barber spent Sunday with friends in Big Spring.

COLORADO SORELY IN NEED OF NEW HIGH SCHOOL BLDG.

(Continued from page one)

two units of credit, not a sufficient number for college entrance.

3. That all material submitted for accrediting receive careful consideration.

4. That every effort be made to place before the citizens of the community the need of immediate relief in the way of room and equipment for the use of the high school.

The high school has entirely outgrown its building. Classes contain more than the maximum enrollment because of lack of room to permit division of sections. Satisfactory library work is impossible. The auditorium meets very imperfectly the need for a study hall. During study periods all teachers are forced to be on duty, whereas a study hall suffi-

ciently large to accommodate the study groups would require the supervision of not more than two teachers. Other teachers would thus be given time for conferences and other forms of individual help.

It is an undisputed fact that the Colorado High school has reached the zenith of its academic standing unless better physical conditions are immediately provided. Smaller and younger schools in neighboring towns are rapidly overtaking Colorado in educational progress.

All business activities in Colorado indicate a period of gratifying prosperity. The school should be permitted to enjoy its share of general improvement.

Because of this long neglected unsatisfactory crowding, the school is violating the requirements for classification in the size of classes and in lack of suitable library facilities. The credit now held is in jeopardy.

5. That the Department of Education be notified not later than June 1, 1926, as to what steps have been taken to remedy physical conditions in the high school.

6. That commendation be given the following noteworthy improvements:

(a) One regular teacher and an athletic coach has been added to the high school faculty. (The supervisor failed to give recognition to the beginning of a commercial department)

(b) The course of study has been reorganized so as to permit the introduction of several elective courses

(c) An athletic field has been provided and equipped, and a bath and club house has been arranged for the use of the participants in boy's athletics.

(d) Substantial expenditures have been made for laboratory and library equipment.

(e) A high school paper is being published.

(f) The services of a regular librarian have been secured.

The supervisor sincerely appreciates the courtesy extended by the superintendent and other members of the faculty.

NEW STORE OPENED IN C. H. EARNEST BUILDING SATURDAY

"The Vogue" another addition to Colorado's business enterprises, had its formal opening Saturday. The new store is an exclusive ladies shop opened by Miss Lillian Dorn and Mrs. J. K. Hooks in the C. H. Earnest building at Elm and Second.

FORMER CITIZEN OF THIS COUNTY DIES AT AMARILLO

Sim Ward for many years a citizen of Mitchell county, died at his late home in Amarillo Thursday last week, according to information received here. Ward left this county eight years ago after residing at Spade a number of years.

Don't forget the "M" System store.

Among the number of new homes to be erected in Colorado, announcement of which was made during the past week, is that of Mr. and Mrs. D. H. Snyder of Ninth Street. Plans for the new home which are being drawn by a Dallas architect, specify a building costing from \$20,000 to \$25,000. The Snyder home will be erected on the corner across the street south from the attractive brick cottage of Mr. and Mrs. R. J. Wallace, recently completed at a cost of \$12,000.

MISS STONEHAM TO SING IN C. I. A. GLEE CLUB

DENTON, Texas, Oct. 22.—Miss Virginia Stoneham of Colorado a student at the College of Industrial Arts, will sing first soprano in the C. I. A. Glee Club during the coming year. Miss Stoneham is enrolled in a voice course.

The C. I. A. Glee club was reorganized on October 9. It was recognized last year as one of the best women's glee clubs in the southwest. An effort will be made this year to give programs of even higher standard.

boost your country," is the invitation issued San Angelo for the week, October 26. Room reservations in advance during the fair may be made at the Board of City Development office in the St. Angelus Hotel building.

these is the most authentic. Taking Mr. Shultz's estimate of acreage for Texas, it is 18,237,000 and for the United States 46,448,000 based on the date of June 2, 1925. Is this estimate correct, since all of our hot, dry weather has occurred after that time? How many thousands of acres have been abandoned and how many tens of thousands of acres will produce barely a half crop since that date. These are serious questions and should be given consideration.

If the Government reports are anything near correct, then why on Sept. 15 did they estimate the total at 13,831,000 and fifteen days later place the total at 14,759,000, a difference of nearly a million bales? As to the large ginner's report, all are agreed that the crop was never forced to a more rapid maturity, even at this high latitude; 80 per cent was open on Oct. 1. Now comes the question as to whose estimate is the most accurate. Mr. Terrell bases his calculations on conditions as they were on Oct. 1. He had tabulations on 216 counties and surely is more correct than anyone else could give them. He is always informed as to crop conditions in different parts of the State at all times of the year.

The results of inaccuracy of estimates are very detrimental to the interests of the farmer. An over-estimate put the cotton down \$10 per bale, and if two million bales are sold at this price in October would result in a net loss of \$20,000,000 to the man who produces it.

The estimating board was evidently aware of the fact that a large crop would reduce the price of cotton, hence should have been more careful of its tabulations, as they are not based altogether on facts,

but on conditional estimates and facts.

SAN ANGELO FAIR

The All-West-Texas Exposition at San Angelo, October 26 to 31 inclusive, is aptly described by its president, W. E. Blanton, as the "show Window" of the great district it represents. The fair is of and for the immense territory from the South Plains to the Rio Grande and the free will donation of \$10,000 by San Angelo business firms, is the city's annual contribution to the advancement of the empire called West Texas.

This year, keeping pace with the phenomenal prosperity and growth of the country, the All-West-Texas Exposition is offering the most varied and elaborate program of education and amusement in its history. Everything to delight a West Texan is provided—horse races, twenty-five of them; polo games; college football; roping contests; wonderful music all the time by the famous McKenzie's Scotch Highlanders; lavish vaudeville programs; the South's greatest midway show company; a horse show; a \$50,000 style show; a magnificent pageant; four great fireworks programs.

There is not a dull instant in the whole six days and every day's program has its significant feature. Tuesday, for instance, is Cattle-men's Day and Press Day with a special rodeo program, five fast races, hippodrome acts and the West Texas Horse Show at night. Wednesday is West Texas Chamber of Commerce day when the first district convention of the Southwest Texas district will be held in San Angelo, followed by a great track and grandstand program. It is also Sheep and Goat Raiser's Association day when the organization's executive committee will be entertained. Thursday is San Angelo day when all stores close at noon, and Friday is Oil Day with special trains bringing West Texas' newest developers from the western fields. Friday is also childrens day and every school child is admitted to the grounds free all day, regardless of residence. Saturday is football day when the teams of Texas Tech and Sul Ross Normal clash but for good measure there is a complete race and track program thrown in.

"Come one, come all; and help

WHY THE DIFFERENCE IN CROP ESTIMATES

H. J. Swinney in Dallas News:

In Reading the News I notice quite a difference in the cotton estimate of H. H. Schultz, statistician for the United States Department of Agriculture, and George B. Terrell, Commissioner of Agriculture for the State of Texas.

Commissioner Terrell's estimate on Oct. 1, for Texas is 3,667,000 bales and 13,720,000 for the United States, while that of the United States Department of Agriculture for Texas is 3,875,000 and for the United States is 14,759,000 bales, a difference in Texas of 208,000 and of the United States of 1,038,000. Now the question arises which of

CARD OF THANKS

We wish to express our sincere thanks to our friends in both Buford and Colorado for their words of sympathy and deeds of love during the sickness and death of our dear wife and mother, Mrs. Audie Whitefield. Also for the floral offerings the silent messages of love. Such acts give rays of light in the dark valley. May each of you be so blessed with friends when the hour of sorrow comes to you.—D. Whitefield and family.

THE SOUTH AND PROGRES

From the Breckenridge American: If Henry W. Grady could return, in a large measure he would see the South of his dreams. He preached

incessantly the doctrine of a new South—built upon diversified industries and manufacturing.

He urged his people to be more independent, to develop the South into more of a manufacturing section and not be utterly dependent upon the manufacturer of the North.

Today the growth of manufacturing in the South is amazing. The trend of industry is southward. The South is attracting more attention than any section of the United States.

Northern capital is playing an important part in this great awakening. Capitalists have come to see the opportunities of the South. They have been accustomed to looking at our section through the veil of civil war distrust. Now they have cast aside that impediment and look in the calm light of reason at the South, and in looking, admire, and invest.

The South is in the midst of a great building program. Industries are springing up more rapid than ever before.

And in the march of development, Texas is keeping pace with her sister states. In many respects she has more to offer. Years ago Governor Hubbard declared that the time "is coming when Texans will enter the halls of Congress with the tread of an empire." That time is at hand. The State has prospered beyond fancy's fondest dreams.

And today she stands forth, beckoning men of vision and character and purpose, make their home within her borders; whether it be farmer, manufacturer, or disciple of a profession.

Texas is rich in history, rich in tradition, rich in opportunity, with a future only to be compared to the glory of her past.

SUBSCRIBERS NOTICE

Four hundred and sixteen have come in and paid for their paper since last notice. Were you one of these? If so you can laugh at the other fellow. Speaking of the other fellow, you had better come in and pay up or get your head chopped off. We need that little \$1.50 and its not much to you. Look at the label on your paper.

Star-Telegram bargain rates on. See ad this issue.

THANK YOU

"Your purchase is free if we fail to thank you," reads a sign in a store at Brownwood, according to the

Brownwood Bulletin. The Bulletin says that nobody has ever been able to get anything free, either, the store help never failing to express appreciation to the customers.

The national movement to get the "Thank You" habit more firmly ingrained in the American character is off to a good start. And it isn't a bad idea, this business of having people say "Thank You." Still a better slogan would be "Say it with a smile," but some folks are incapable of smiling. A "thank you" that lacks sincerity, that is not accompanied with a smile and a tone of voice that indicates some degree of sincerity, is an insult to the intelligence of the person thanked. Just like some prayers you've heard in your lifetime. The surer for divine grace approached the Great White Throne on bended knee, but with a tone of voice, an arrogance of bearing and an insolence that made his petition sound like a paragraph from a royal edict. It is doubtful if such prayers ever get more than three or four feet away from their origin. Humility and sincerity are great virtues, probably great because they are rare.—Abilene Reporter.

LITTLE THEATRE

Excellent work is being done by the cast of "Come Out of the Kitchen" which is to be given October 29

at the Legion Hut by the Colorado Little Theatre. We sincerely hope that the people of Colorado will give these people a full house as they have labored long and faithfully. Unless one has done this type of work he doesn't know just what sacri-

fices these people make and just how much work there is to be done. Get your tickets early.

LITTLE THEATRE TO ENTER CONTEST

A great amount of interest is being aroused over the entry of the Colorado Little Theatre in the contest that is to take place in Dallas. The Federated Clubs have promised their support and many of the citizens have pledged to do what they could to make this venture a success. We feel that there is as much talent along dramatic lines and of as good a quality as there can be found in Texas. We are anxious to prove to the people of Texas that Colorado is in the front ranks. Wouldn't it be fine if we could come back with first prize? Get behind this movement people and help maintain the fine interest that has been shown.

for four consecutive weeks previous to the return day hereof, J. C. Clayton whose residence is unknown, to be and appear before the Hon. District Court at the next regular term thereof, to be holden in the County of Mitchell at the Court House thereof, in Colorado on the eleventh Monday after the first Monday in Sept. A. D. 1925, the same being the 23 day of November, A. D. 1925 then and there to answer a petition filed in said court on the 17th day of Oct. A. D. 1925, in a suit numbered on the Docket of said court No. 4695, wherein Donia Clayton is plaintiff and J. C. Clayton is defendant. The nature of the plaintiffs demand being as follows, to-wit: that plaintiff resides in Mitchell County, Texas, and the residence of defendant is unknown; that plaintiff has been for a period of 12 months prior to exhibiting this petition an actual bona fide inhabitant of the State of Texas and has resided in the county of Mitchell for at least six months next preceding the filing of this suit; that plaintiff and defendant were lawfully married in Mitchell county on the 31 day of Nov. 1924 and lived together as husband and wife all the time until on the 11 day of August, 1925, when by the cruel and harsh treatment and improper conduct of the defendant toward the plaintiff she was compelled to abandon him, since which time they have not lived together as husband and wife; that defendant fraudulently represented to plaintiff that he was a man of property and wealth and thereby induced her to marry him; that in truth he had no property and his representations were wholly untrue; that when plaintiff found out the truth about defendant he abandoned her and left the country; that said marriage relations still exist; that plaintiff's and defendant's living together any further as husband and wife is insupportable, premises considered. Plaintiff prays for judgment dissolving said marriage relations and for costs and general relief and that she be allowed to assume the name of Hargrove.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court at office in Colorado, this the 17 day of October, A. D. 1925.

(Seal) J. LEE JONES
Clerk District Court, Mitchell County, Texas 11-13c

SWEETWATER VICTOR OVER COLORADO

The Wolves of Colorado High School migrated to the kennel of the Sweetwater Salty Pups on Friday, October 16 and the result of the massacre is already generally known. Old man Dope had been on the job injecting his deadly venom into the veins, no, heads, of the Wolves and the result could not have been more favorable to the enemy if he had been in possession of the signals of the Wolves. The decisive victory of the week before over the Hamlin Pipers who had decisively defeated Sweetwater was responsible for the fall. Ride the sky one week and walk the plank the next goes for foot ball. It was gratifying to see a delegation of at least one hundred people besides players, motor over to see the game. The game was due to begin at 4 o'clock but the ailure of the officials to appear delayed the game to a quarter past four. The game was slow and much time had to be taken out for the officials to look up rules. The game was played in Swatter Park which is very fast and may have had something to do with the poor showing of the Wolves though we think not. A wind of almost gale velocity swept over the field from the west but played little part in the fortunes of the game.

Colorado won the toss and chose to defend the south goal, while Sweetwater elected to kick. Smith received Mitchell's kick and fumbled without return. On two line plays Colorado made six yards and Flint punted thirty yards to Mitchell who returned twenty. The Pups went into an open formation and fed the ball to the Speedy Mitchell who started as if to skirt the ends and cut back for twenty yards and first down, he repeated the performance for twelve more and first down, he made another ten and first down putting the ball on Colorado's ten yard line. Things looked dark in the hole for the Wolves until fortunately the Pups changed tactics and began plugging at the line which held until Sweetwater attempted a pass which was grounded and the ball went over. Flint punted only fifteen yards out of bounds and the concert was on again the Pups making several sensational runs off tackle and keeping the ball in the Colorado danger zone during the entire first quarter. The speed of the entire Sweetwater team bewildered the Wolves and they were especially effective at taking our ends and tackles out who played a waiting game against a running attack, which will never do.

The second quarter was a see-saw affair with Sweetwater having the edge. A couple of first downs and two fifteen yard penalties against the Pups for holding gave Colorado the ball on the Pup's ten yard line. It looked like a touchdown for the Wolves but poor judgement in the selection of plays and poorer interference on the part of the whole team gained nothing and Flint tried place kick but it went wide of the bars. This was the only chance the Wolves had to score. The Pup line was on its toes and following the ball through and throwing the Wolves for losses because of the seeming dumbness on their part in waiting to start.

The last quarter was a repetition of the first three until the final two minutes of play after Sweetwater had made no gain on three plays at the Colorado 35 yard line a free fumble gave the Pups the ball on the Colorado 40 yard line for first down. On the very next play from regular formation Walling faked to

Mitchell through the line and darted back and hurled a beautiful arched pass over McCurry's head into the arms of the flying Puppy left end who raced fifteen yards for a touchdown. It is not known at this writing where the Wolf safety man was at the time of this incident. Sweetwater failed to kick goal and the score was 6-0 with one and one half minutes to play. Colorado received and Flint was injured on the play. Time out for Colorado. Flint continued in the game but ruined what chance the Wolves had for a touchdown by requiring so much time for lining up. Gist who was suffering a carbuncle on the knee was thrown into the melee during the last half but was never able to get started, the speedy and aggressive Pup ends tossing him for a loss on almost every play, which all goes to prove that the success of any team depends upon the forward wall, the line, and upon interference from the backs.

Yes, the Wolves lost and we are not knocking. We are reporting the game as it was. The Wolves were outplayed, outfought, and out-run and the score should have been greater than it was, but be it said to the credit of the Wolves that they never quit and since this was their first game away from home we expect a different account of things for next week after meeting the Roscoe Rabbits on this Friday. A twenty-eight mile funeral procession wended its weary way home about eight o'clock. The Wolf has been stung. He means business now and somebody had better duck. Bite 'em, Wolves, we'll hold the rope.

From an Old Friend

W. W. Whipkey & W. S. Cooper, Colorado Record, Colorado, Texas.

Dear Friends:—The only time I hear from you two birds is when you want money so I am enclosing check for the Best in West Texas for another year.

Since working in Colorado I have always taken a very kind interest in your city, and only a few days past I realized that I was missing your paper when along came the dunn.

What are you two boys doing? Where is Frank Du Bose? I wrote him two letters but no reply have I received.

Remember me kindly to Mr. Costin and the others, and when at the Lions Club say "Howdy" to them for me.

I miss Texas very much also the Little City on the Colorado River, and trust that the time is not far off when I will be able to run out there, and pay you all a visit.

With kind personal regards to you both, and to members of your families,

T. W. LACKIE

Littlefield—T. F. Moffatt of Stephens county has closed a contract with the Yellowhouse Land Co., by which he leases a tract of land seven miles from this city for use as a stone quarry. An upheaval in geological times placed here an immense quantity of limestone and Moffatt will install a big stone crushing plant which will turn out stone for use on Pan handle highways. The plant is located on the Santa Fe railroad.

\$5,000,000 FOR A BOTANICAL GARDEN

The chamber of commerce of Los Angeles has set out to raise \$5,000,000 with the intention of investing it in a botanical garden. If it should succeed in that effort, Los Angeles would have a botanical garden rivaling and perhaps excelling the famous Shaw's Garden of St. Louis. Shaw's Garden is the best that we have, and as good as the world has, perhaps; for late additions and expenditures have emboldened some people of that city to assert that it now surpasses the celebrated Kew Gardens of England in the number of trees, shrubs and flowers that it propagates.

CITATION BY PUBLICATION

The State of Texas, to the sheriff or any constable of Mitchell County—Greeting: You are hereby commanded to summon Branch Isbell, S. M. Isbell, wife of said Branch Isbell, the heirs of Branch Isbell, deceased, whose names are unknown; the heirs of S. M. Isbell, deceased, whose names are unknown; D. B. Adams, the heirs of D. B. Adams, deceased, whose names are unknown; John Simmons; the heirs of John Simmons deceased, whose names are unknown by making publication of this citation once in each week for 4 consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Mitchell County, to be holden at the Court House thereof, in Colorado, Texas on the fourth Monday in November, A. D., 1925, the same being the 23rd day of November, A. D. 1925, then and there to answer a petition filed in said court on the 20th day of October, A. D. 1925, in a suit, numbered on the docket of said Court No. 4696, wherein J. L. Doss is plaintiff and Branch Isbell; S. M. Isbell, wife of Branch Isbell; the heirs of Branch Isbell, deceased, whose names are unknown; the heirs of S. M. Isbell, deceased, whose names are unknown; D. B. Adams; the heirs of D. B. Adams, deceased, whose names are unknown; John Simmons, and the heirs of John Simmons, deceased, whose names are unknown; are defendants and said petition alleging as follows: A suit in trespass to try title, wherein plaintiff alleges that on or about the 1st day of October, A. D. 1925 he was lawfully seized and possessed of the following land and premises, situated, in Mitchell County, Texas, holding and claiming the same in fee simple, to-wit: Being out of and part of lots numbers 1 and 2 in Block No. 32 in the City of Colorado, Texas, according to the map or plat a copy of which appears of record in Book "C" pages 16 and 17 of the Deed Records of Mitchell County, Texas, and described by metes and bounds as follows: Beginning at a point on the north line of said Lot No. 1 a distance of 25 feet east of the N. W. corner of said Lot No. 1; Thence East along the north line of said Lot No. 1 a distance of 65 feet to a point for the N. E. corner of this tract; Thence South on a line parallel with the West lines of said Lots 1 and 2 a distance of 100 feet to a point in the South line of said Lot 2 for the S. E. corner of this tract; Thence West along the South line of said Lot 2 a distance of 65 feet to a point for the S. W. corner of this tract; Thence North on a line parallel with the West lines of Lots 1 and 2 a distance of 100 feet to the place of beginning; That on the day and year last aforesaid defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully withheld from him possession thereof, to his damage \$1,000.00. Plaintiff specifically pleads the ten years statute of limitation, alleging ten years, peaceable, continuous, and adverse possession by an actual inclosure, cultivating using and enjoying same, and further alleges 10 years peaceable, continuous and adverse possession, using and enjoying the same, taken and held under a written memorandum of title, specifying the boundaries of said tract; Plaintiff further specifically pleads the 5 year statute of limitation, alleging that he has had 5 years peaceable, continuous and adverse possession of said land, using and enjoying the same and paying all taxes thereon, under a deed duly registered; Plaintiff prays for title to and possession of above described land and premises.

Herein fail not but have before said regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Colorado, Texas, on this the 20 day of October, A. D. 1925.

(Seal) J. LEE JONES
Clerk of District Court of Mitchell County, Texas. 11-13c

We bought some hats at a bargain and will give the public the benefit of it. Come see us Saturday and see for yourself.—Mrs. B. F. Mills.

The BULL'S EYE

Editor and General Manager WILL ROGERS

The Wise Guy and The Clown

A constant reader of my "Bull" Durham Ads writes in and says: "If there was another smoking Tobacco the equal of "Bull" Durham a lot of us would quit you no matter how much it cost. But alas there is no equal at any price as we have all found out at various times. So we must hasten to turn the pages and groan, whenever we encounter the CLOWN Ads of Will Rogers, who is trying to discredit the worth of the WORLD'S FAVORITE TOBACCO."

See that Bird wrote this whole Ad for me himself. He knocked me but he boosted "Bull" Durham. He fell right into my hands. Its only by the wisdom of our smart people that us CLOWNS and Fools are allowed to ride in Limousines. They say "The Lord protects the foolish," so, I am nesting right under his wing. So thanks Mr. Smart Man, write us another Ad. It will only cost you two cents

Will Rogers

P.S.—There will be another piece here two weeks from now. Look for it.

111 Fifth Avenue, New York City

Takes the Place of "Drastic" Calomel

Never take another dose of the old styl "raw" calomel. There is a newer and more improved kind known as Pepsinat Calomel. It does not tear through your system like a streak of lightning. People who are ill or suffering with biliousness, constipation, indigestion, and especially with headache, headache and torpid liver can secure immediate and complete relief with this new mild Calomel. Hereafter when you buy calomel, always demand the "pep-si-nat-ed" kind. It is better for you, for it is purer, milder and more beneficial to your entire system. In 25c and 50c packages. For sale by Colorado Drug Co.

Cash Notice

We announce that after October 1st the Dodge Garage will go on a strictly cash basis. All work and accessories will be cash. Dont ask us to charge it.

COLORADO, TEXAS, FRIDAY OCTOBER 23, 1925.

WHIPKEY PRINTING CO.

MASONIC BODIES DOING BIG WORK FOR POOR OF TEXAS

SCOTTISH RITE BODIES SPEND MILLIONS TO ALLEVIATE INDIGENT CRIPPLES

That Texas Masons, with especial reference to the Scottish Rite bodies of the state, are doing a worthwhile service to the indigent cripple and orphan was shown here Saturday night at the Masonic building in motion pictures exhibited by B. B. Cobb, secretary of the El Paso Scottish Rite bodies. Supplementing the pictures addresses were delivered by Mr. Cobb and W. M. Stockwell, secretary of Fraternity Lodge No. 1111, A. F. & A. M., El Paso.

In the pictures were scenes at the Masonic nurses home, El Paso, being operated in connection with hospitals there, and the large hospitals at Dallas and Houston were also shown. The latter institutions are among the largest and most modernly equipped in the State and are maintained by Texas Masons for the care of crippled children whose parents are not able to finance medical or surgical treatment for them. The large hospital maintained at Dallas by Hella Temple was shown to contain hundreds of these children, all of whom were receiving the best scientific treatment possible.

Pictures showing scenes at Legion government hospital for former service men at Kerrville, showed the beautiful community house recently completed there by Masons for use of the 100 members of the fraternity who are patients at the hospital.

The million dollar dormitory erected at the University of Texas by this order, to be occupied by the daughters of Masons while attending the university, was shown. This is one of the most attractive and inviting dormitory buildings in the Southwest.

Messrs. Cobb and Stockwell, and Sam D. Kane of El Paso, who is accompanying the party as operator of the projecting machine, left Colorado Monday afternoon for Sweetwater where they met with Sweetwater Masons Monday night.

BARNES CIRCUS IS WELL PATRONIZED AT COLORADO

The Al G. Barnes wild animal circus left Colorado shortly after midnight Monday morning after spending two days here. The big show came to Colorado Saturday night from Snyder and spent Sunday here and Monday afternoon and evening the big performances, well patronized by the public, were given at the show grounds west of the Colorado river. Early Sunday morning, as the big circus began to unload, small boys and men, too (literally swarmed the Texas & Pacific yards to watch this busy scene. Interest grew as one large wagon after another was moved from the long flat cars and down the street to the show grounds by elephants. This was the first time many of the boys of Colorado had seen elephants performing the task of beasts of burden.

CLUB GIRL WINNERS LEAVE TO ATTEND FAIR AT DALLAS

Erin Hallman of Valley View and Louise Gunn of Cuthbert, winners in the recent county contest staged under direction of Miss Irma Sealy, former county home demonstration agent, left Monday morning to visit the State Fair of Texas. The girls have exhibits in the Girls Club department at the fair. Judging was done by Miss Helen H. Swift, district home demonstration agent.

Miss Ives Belle Jones, home demonstration agent, announced Saturday that the chamber of commerce was financing expenses of sending the girls to the State Fair. They are to return to Colorado Friday morning. While visiting the fair the girls are guests of the State Fair management and will incur no expense for room and board.

DOUGLASS AND ASSOCIATES ACQUIRE HOTEL AT LAMESA

The Westland hotel at Lamesa has been purchased by W. R. Douglass of Colorado and associates. A brother, J. C. Douglass and A. H. Wimberly, the latter being associated in management of the Cole Hotel at Big Spring, were identified with the Colorado man in the deal. The hotel has 48 guest rooms.

1ST HONORS AT STATE FAIR WON BY HARRISON COUNTY

Harrison county won first prize in the agricultural division at the State Fair of Texas at Dallas last week, with one of the most attractive farm exhibits ever seen at State Fair park. Miss Georgia Laceywell former home demonstration agent here and who has been working in the same capacity in Harrison county the past two years, is largely responsible for the splendid exhibit shown at Dallas by the East Texas county.

ELDER J. D. HARVEY HAS ACCEPTED MINISTRY HERE

Elder J. D. Harvey, at present pastor of the Church of Christ at Haskell, has accepted a call extended by the church at Colorado and will move with his family here November 1. Elder Harvey will devote his entire time to the local church.

SHOWING OIL AND GAS IS REPORTED IN GREEN WELL

A promising showing of both oil and gas was reported last week in W. B. Green's well on the Spade ranch south of Colorado. The showing was in a sand found at 1,015 feet. Work at the well was suspended pending arrival of W. J. Donovan of Oklahoma City, superintendent. The well is eight or nine miles north of Hall & Northrup's Ellwood One, recently completed by Fred Carey as a dry hole. It is the second of several tests to be drilled on the Ellwood ranch by these interests, who control a block of 130,000 acres.

QUALITY STAPLE BRINGS GROWER A BETTER PRICE

Spinners are complaining of the depreciation of American staple cotton, declares C. B. Howard, general sale manager of the American Cotton Growers Exchange, which cooperatively handled more than 1,000,000 bales of cotton last season, "and from the standpoint of the grower unless this condition is remedied they will come into greater and direct competition with the millions of bales of short staple cotton grown in India by cheap coolie labor and have to sell at the low prices which their cotton brings."

Mr. Howard's article which treats the "Value of Good Cotton from the Standpoint of a Salesman," is of extreme importance to cotton growers of Texas and follows: Writing from the viewpoint of a cotton salesman thoroughly familiar over a long period of years with the needs of spinners for cotton of good staples, it is distressing to see the depreciation which has taken place the past few years in the staple value of American cotton. The demand is more and more for better staples, and as America is not furnishing the quantity needed it is energizing efforts to produce elsewhere the desired qualities. Egypt, Brazil, Argentina, Peru and practically all the newer cotton growing countries, produce inch and better staple. Russia is producing large crops of good staple grown from selected American seed. Even India is now furnishing a considerable quantity of desirable staple from American seed and is increasing her acreage of that character.

About 70 per cent of American cotton is seven-eighths to one inch, with a large percentage below seven-eighths. Whenever we produce cotton under seven-eighths we come into direct competition with the millions of bales of short staple cotton grown in India by cheap coolie labor and have to sell at the low prices which their cotton brings. Short cotton is used in cheap goods, where the cost of the raw material is of great importance. Cotton of staple value is used in finer goods where the manufacturing cost is of greater importance than the cost of the cotton. Mills making fine goods, therefore can afford to pay better prices for quality staple.

I was a member of the commission sent to Europe by our co-operative associations last summer, and in every cotton center, spinners and merchants complained for the depreciation of American staple, and wished to know if there was not something we could do to remedy the situation. We told them the reasons for it, and that one cause was the system of selling "hog round", where the cotton a farmer producing good staple was sold in connection and at a round price with cotton of a farmer growing short staple, so that the farmer with the good staple did not secure any price benefit from it. We also told them that if they would give preference to buying from the co-op's it would help them to improve this condition, because under our system of pooling each grade and staple, each of our members received payment for the grade and staple he delivered, and was thus encouraged to select his seed, produce good staple and secure the premium for it.

Of course every community should plant a similar seed, and use every care in ginning, so there will be no mixed staple or plated bales.

In a larger sense it has become necessary for American farmers to produce better staples to supply the world's requirements and to maintain, or regain our prestige, as the world's chief reliance for good cotton. Unless we do this, and do it now we will find a greater and greater production of staple value cotton in other countries, while we will fall more and more into competition with the cheap short staples of coolie India.

"IF I KNEW YOU AND YOU KNEW ME"

If I knew you and you knew me,
'Tis seldom we would disagree;—
But, never having clasped hands,
Both often fail to understand
That each intends to do what's right
And treat each other "hapor bright."
How little to complain there'd be
If I knew you and you knew me.
With customers a million strong
Occasionally things go wrong—
Sometimes our fault, sometimes it's
theirs—
Forbearance would decrease all
cares;
Kind friend, how pleasant things
would be
If I knew you and you knew me.
Whene'er we ship you by mistake,
Or in your bill some error make,
From irritation you'd be free
If I knew you and you knew me.
Or when the checks don't come on
time,
And customers send nary a line,
We'd wait without anxiety
If I knew you and you knew me.

Then let no doubting thoughts abide
Of firm good faith on either side;
Confidence to each other give
Living ourselves, let others live;
But any time you come this way,
That you will call we hope and pray;
Then face to face we shall see
And I'll know you and you'll know
me. W. E. C.

Misses Elizabeth Snyder and Anna Elizabeth Looney attended the Dallas Fair last week, and visited their aunt Mrs. Rowley.

CROCKETT FIELD CLOSELY WATCHED BY OIL MEN

Although no sensational developments took place in the Reagan-Crocket field this week, the oil fraternity is closely watching the northern Crockett district in the vicinity of the World well. Trouble was encountered in Humble's Powell No. 2, when an underreamer lug was lost in the hole necessitating a fishing job which has been in progress since the first of the week. The total depth of the hole is 2,590 feet and about 150 feet of open hole remains to be underreamed before the casing is run. Fifty feet approximately remains to be drilled before the pay is hit at its expected depth. Humble's Harris No. 1, about six miles to the southwest of the World, is shut down for boiler repairs. Drilling was suspended in red sand at 1,875 feet.

The Gulf Production Company's University (State-Powell) No. 1, two and one-half miles northeast of the World well, set the six-inch casing at 2,615 feet and preparations are being made to bail the well to test the casing. It is reported that the well is on the top of the lime. Much trouble was experienced in this well at about 2,590 feet and a short distance above with heaving sand and water. Running the six-inch casing to the top of the lime will, it is hoped, securely case off the water. The Gulf's State-Powell No. 1, eight miles northeast of Best, is drilling at 810 feet.

The Marland Oil Company is building the rig or their J. S. Todd No. 1 located in the center of the north-west quarter of section 17, block WX in the G. C. and S. F. railway survey in Crockett county. This well will be spudded by Oct. 18, it was stated.

Pecos County is coming to the fore with renewed drilling activity. The Western Development Company set the eight inch casing at 592 1/2 feet in their Macey No. 1 in section 29; block 10, eight miles northwest of Grant, in the Pecos shallow district. The well is now being bailed to test the casing. Major Quinby is drilling at 265 feet in the townsite well of the Trans-Pecos Oil Company, and is preparing to erect a steel derrick over the shallow producer in section 592 in block 105 which is in the shallow territory. This well will be cleaned out and put on production. Until recently, the well and its acreage have been in litigation and it has been virtually shut down all during this time. When opened it flows by heads, making very high gravity oil under fairly heavy gas pressure.

The Adams Oil Company has temporarily shut down their operations in the shallow area. Their Gray No. 1, located in section 561, block 105 is full of sulphur water.

Back in Reagan County, the old Armstrong and Stover well in section 34, block 11, University land, taken over some time ago by H. D. Camp and others of El Paso, is about to resume drilling. A crew is now at work overhauling the rig and tools. The O'Reilly-Slack well in section 17, block 10, is again reported as being about ready to resume drilling.

The Big Lake Oil Company Friday night drilled in their number 41. The well made an initial production of 735 barrels and was drilled to a depth of 2,927 feet. Number 44 is on the top of the sand and is being drilled in.

The Johnson-McMacey well in section 8, block 35 Upton County, which was recently purchased by the Republic Production Company, a subsidiary of the Republic Oil Company, is still shut down pending the completion of the plans of the new owners and the erection of additional storage on the lease.

Mrs. J. J. Alexander of Dallas is visiting Miss Martha Earnest. She is en route to Slaton to visit her daughter, Mrs. Lee Westerfeld, who before her marriage was Miss Aleph Alexander and who visited in the Earnest home on several occasions.

Mrs. N. J. Phenix has returned from a pleasant trip to Western states. She visited her son and daughter, Mr. and Mrs. Lee Phenix of Rock River, Wyo., for several weeks stopping en route home in Boulder and other Colorado points.

WEST TEX. WOLF HUNTERS TO GATHER FOR BIG CHASE

OLD BUSH & TILLER RANCH IS SELECTED AS GROUNDS FOR ANNUAL WOLF HUNT

The first annual chase of the West Texas Wolf Hunters Association, an organization formed recently at Snyder to perpetuate this sport in West Texas, will be held at the John Brown ranch, thirty miles northwest of Colorado, November 2. Dr. P. C. Coleman of Colorado and president of the association, announced here Monday.

Dr. Coleman, one of the most enthusiastic followers of the chase in West Texas, will have his own string of fine hounds in the big hunt and declares that he anticipates one of the most sensational wolf hunts ever staged in this part of the State. The hunt is to continue until the many wolves inhabiting that region are either driven out or run down or the hunters become tired of the sport.

The association has 35 members in Mitchell, Scurry, Garza and Borden counties. Not less than 50 men and 100 dogs are scheduled to take part in the big chase, Coleman says. In a statement given The Record Monday, issuing call for the hunt, Dr. Coleman says:

"The first annual meeting of the West Texas Wolf Hunters Association will be held at John Brown's ranch, (old Bush & Tiller ranch) on November 2, and continue two or three days as members may determine after arriving there. Arrive not later than noon of opening date.

"All who wish to ride bring your mounts, but if you wish to follow dogs in cars, you can do so, as roads are such you can go in all directions.

"If you wish to remain over night, bring your bedding. But all arrangements will be made to feed you and your dogs.

"If you enjoy the greatest sport in the world, and are capable of appreciating the finest of music, come and listen to the hounds in the chase, as they laugh and sing and cry and sob. If you have any troubles you will forget them all."

NEW YORK

Houston Chronicle: While admitting that she is afflicted by the worst crime wave in her history, that her robbers and gunmen are outdoing the "Wild and woolly West" in its wildest days, New York still insists that she is not so bad as painted. Her spokesmen have taken exception especially to the recent charge of the Methodist Episcopal Church's board of temperance and morals that New York is a menace to the rest of the country because of its output of salacious literature and plays and wet propaganda. A woman defender of the metropolis, in speaking of the Methodist charge, says:

"Everyone who knows New York knows there are no better churches or more devoted church members anywhere." She then proceeds to lay the blame for the evils of New York's night life on the visitors from other places.

A BLESSING

The following card of thanks recently appeared in a Kansas paper: "I wish to thank the city authorities for quarantining my family and me for three days recently because one of them had the smallpox. During that time my wife caught up with her sewing, we had three square meals a day, as no one came in and she was not permitted to leave; we enjoyed three weeks of good night's sleep, and, best of all, a cousin with four children had arranged to visit us, saw the smallpox sign on the door and left town so scared she will never come back again. So for these and other blessings we are very thankful for the quarantine."

Hon. D. T. Bozeman, Mayor of Cuthbert, spent several hours here Tuesday on official business. The mayor reports that his municipality continues to flourish and predicts an unprecedented boom there when a few more oil wells are drilled in near the town.

16 BILLS RETURNED BY NOLAN CO. GRAND JURY

The Grand Jury recessed late Wednesday afternoon until November 2, when they will make their final report. In their finding for the week they returned seven indictments, bring the total up to sixteen.

Fifteen arrests have already been made on indictments as follows:

State of Texas vs. the following: A. B. Stanley, forgery; D. M. Mercer Cora Mercer, and Silas Brann, unlawful possession of intoxicating liquor for the purpose of sale; Vance Wilson, driving an automobile while intoxicated; Marvin Jameson, same offense; W. F. Kincannon, forgery; Bob Lee, forgery; C. F. Kendrick, forgery; Joseph Whitehead and Robt. Whitehead, burglary; Lemmie Careway, alias Henry Almon, burglary; Steve Clarke, forgery; A. Duncan and L. L. Medlock, unlawfully possessing and transporting intoxicating liquor; Obel Woodson, theft of property valued at over \$50; Bob Lee, forgery; L. L. Medlock, unlawfully possessing intoxicating liquor

A special venire of 90 men have been summoned in District Court for the 28th of this month. The case to be tried is Dan Stephens of Fisher county, transferred here on change of venue. Stephens is charged with the murder of his son-in-law, Otho Martin, in Roby on March 21, 1924.—Sweetwater Reporter.

ABILENE BLAST INQUIRY ASKED

ABILENE, Oct. 16.—A thorough investigation into the cause of the explosion which shook this city early Thursday morning and resulted in property damage of \$15,000, when a building on South Second Street was destroyed and dozens of show windows in the vicinity demolished, will be demanded by Ben F. Lynch, owner of a barber shop which was located in the building, he stated Friday.

The estimate of the damage by the explosion was increased to approximately \$15,000 Friday morning with the announcement by Mr. Lynch that his loss was \$3,000, with no insurance to cover damage by an explosion.

Rufus Payne, the negro who was in the building at the time the explosion occurred, was employed as a porter in the shop. The negro told his employer after he was taken to a sanitarium that he entered the barber shop and went to the rear. He sat down and was dozing when the explosion occurred. The front wall was completely torn away. The back parts of the side walls were blown down as was most of the rear wall. The greatest force of the explosion appeared to have been in the rear of two outside compartments and not in the barber shop.

CONSUMPTION OF COTTON PAST 6 MONTHS LARGER

World mill consumption of cotton during the six months ended July 31 1925 is estimated at 12,000,000 bales an increase of 22 per cent over the corresponding period last year by the International Federation of Master Cotton Spinners Association in a cable to the United States department of Agriculture. The 12,000,000 bales estimate is 7 per cent more than consumption during the half year ended January 31, 1925.

World consumption of American cotton, included in these figures, is placed at 7,022,000 bales during the six months ended July 31, 1925, compared with 6,232,000 bales for the half year ended January 31, 1925. Consumption of East Indian and Egyptian cotton was slightly less than the preceding six months.

World mill stocks of all growths of cotton were 4,264,000 bales on August 1, 1925 or 20 per cent more than on August 1, 1924, and 9 per cent more than on January 31, 1925. Stocks of American cotton in the mills of the world increased from 1,326,000 bales on August 1, 1924, to 1,815,000 bales on August 1, 1925 but on the latter date showed a decrease of 22 per cent from January 31, 1925. East Indian and Egyptian mill stocks were slightly less than on August 1, 1924.

NEW BUILDINGS FOR SCHOOL AT SNYDER PLANNED

SNYDER, Oct. 17.—Fully four hundred patrons of the Snyder high school gathered in a meeting at the district court room Tuesday evening to discuss ways and means to relieve the crowded conditions of the local school. After discussing the problems pro and con, the meeting unananimously voted to call a bond election to secure a bond issue to build a new building to accommodate the high school department.

The proposed issue will be in the amount of \$75,000. With these funds, the present plans are to build an addition to the present three-story building, which will be used for the high school alone. The plans call for a large auditorium, 100 by 160 feet, which will seat at least 1,000 people.

Although the building now being used was erected in 1922 and at that time was thought to provide ample room for several years to come, it is now overflowing with students. The present enrollment lacks several hundred students being what it will be at the peak of attendance. The need of additional housing is very imperative.

With twenty-four and one-half credits of affiliation, which includes the whole curriculum but one credit, the school has one of the highest ratings in this or any other section of the state. This fact, connected with the usual high esteem of the citizenship of this section for their schools has led the school board to believe that the bond issue will carry by a large majority.

Jersey City, N. J.—Mr. George M. Downs writes:—"When I was a trapeze performer traveling with the circus I contracted a severe stomach trouble and nervous breakdown. The doctor advised operation immediately, but I was afraid of operations and put it off. A friend suggested I try Tutt's Pills. He was having used them for years. After the first dose I began to feel better and would not be without them. I feel as young and full of vigor as I did when I joined the circus." At all drug stores.

FARM MORTGAGES

A study of farm mortgage financing in Texas has just been completed by Dr. V. P. Lee, Professor of Agricultural Economics, A. & M. College in cooperation with the Texas Agricultural Experiment Station Information supplied by 177 financial institutions and insurance companies which make farm mortgage loans in Texas, has been analyzed and presented with pertinent discussion in Texas Station Bulletin No. 330, which is available for free distribution to those making request to Dr. B. Youngblood, director, College Station, Texas.

The 177 banks and companies studied have a total of \$252,448,122 in first mortgages on Texas farms and \$1,727,382 in second mortgages, which amounts represent probably one-half of all the farm mortgages in the State. The farms mortgaged as security for these loans are in most cases valued at more than twice the amount of the loan. The average interest rate charged on first mortgages by these institutions ranges from 5.5 per cent by the Federal Land Bank to 8.45 by the commercial banks. Mortgage loans made by commercial banks run one to five years; by farm mortgage companies, insurance companies, and trust companies, five and ten years; and by Federal and joint stock land banks more than thirty years. A very large part of the loans made by farm mortgages, insurance, and trust companies, as well as by the commercial banks, are paid off in a lump sum at the end of the given period of the loan. All loans of Federal and joint stock land banks are paid on the amortization plan, or at the will of the borrower after five years. Fifteen per cent of the loans of farm mortgage companies are made on the amortization plan. More than half the loans of farm mortgage and trust companies are used for the immediate purpose of purchasing land and making improvements, but in the case of insurance companies and the Federal and joint stock land banks 53 to 78 per cent of the current loans are used to pay off old land mortgages. A number of the institutions studied consider that the Texas homestead exemption law tends to increase the interest rates paid by farmers and often prevents borrowing when funds could be used to the economic advantage of the borrower.

START OF THE REVOLUTION

The difficulties between England and her American Colonies which led to the Revolutionary War and the adoption of the Declaration of Independence, the one hundred and fiftieth anniversary of which will be observed next year by the Sesqui-

centennial International Exposition at Philadelphia, can be traced back to 1733.

In that year the British Parliament passed the first of a series of Acts which so tried the patience of the colonists that they began thinking of separate political existence.

The first Act, passed in 1733, was known as the Molasses Act. It placed a tax of six pence a gallon on molasses. It was followed by the Sugar Act of 1764, placing a tax on sugar, and a year later by the stamp act which ordered a duty on all legal documents and almanacs.

The stamp act was repealed in 1766 and in 1767 the passage of the Townshend Act placed a tax on tea glass, paper and painters materials. This act particularly incensed the Colonies. It provided that some of the proceeds would pay the salaries of colonial governors and judges, and ordered the trial of cases growing out of collecting of revenue to be heard before judges without the presence of juries.

At this time Connecticut sent a representative to England to protest against "Taxation without representation." Virginia passed a resolution against the Acts and Patrick Henry delivered his famous speech, "Give me liberty or give me death."

The people of the Colonies suffered under these various forms of taxation, but boycotts against taxed articles became wide-spread. Then,

on December 16, 1773, a party of men disguised as Indians boarded a British vessel in Boston harbor and emptied its cargo of tea into the bay. On October 16, 1773, Philadelphia had its own tea-party in the State House Square, at which strong resolutions were adopted, refusing to pay the tax on tea. At that meeting a committee was appointed to wait on Captain Avers of the ship "Polly" and instruct him not to attempt to land his cargo. It was on December 27 that the "Polly" arrived in the harbor and Captain Avers was met by a crowd of eight thousand excited people. He was given to understand that he must take the ship back to England after one day's grace allowed him to obtain food and water.

REMARKS OF HONESTY

Thos. C. Andrews in Dallas News: In your State Press column of Oct. 6 is found a reference to a man of alleged superb honesty. It is claimed that "the Lord condemned him and he paid a debt of eight years standing." Now, I am skeptical about a man's honesty who won't pay his bill until the Lord gets after him. The Lord has too much to do to assume the duty of bill collector. Too many people want to do the Lord's work that they can not do and want Him to do their work that they ought to do themselves.

ELECTION ORDER

The State of Texas, County of Mitchell. Be it remembered that on this 12th day of October, 1925, the Commissioners Court of Mitchell County, Texas, met in Regular session, in conformity with the provisions of the statute, and which session was held at the regular meeting place in the Court House at Colorado, Texas, all members of the court, to-wit: C. C. Thompson, County Judge; and A. A. Dorn, Commissioner of Precinct No. 1; J. C. Costin, Commissioner of Precinct No. 2; J. D. Lane, Commissioner of Precinct No. 3; W. D. McAdams, Commissioner of Precinct No. 4; being present, came on to be considered the petition of E. H. Winn and 117 other persons, and which said petition is in words and figures as follows:

The State of Texas; County of Mitchell: To the Honorable Commissioners' Court of Mitchell County, Texas: We, the undersigned, resident property taxpaying voters of said county, respectfully pray your honorable body to order an election to determine whether or not the bonds of said Mitchell County shall be issued in the amount of Three Hundred and Twenty-five Thousand Dollars (\$225,000.00), bearing interest at the rate not to exceed five and one-half per cent (5 1/2%) per annum, and maturing at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed thirty (30) years from date thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes or in aid thereof; and whether or not a tax shall be levied upon the property of Mitchell County, subject to taxation for the purpose of paying the interest on said bonds, and to provide a sinking fund for the redemption thereof at maturity.

And it appearing to the Court that said petition is signed by more than fifty (50) of the resident property taxpaying voters of said Mitchell County, Texas; and: It furthering appearing that the amount of bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Mitchell County, Texas. It is therefore considered and ordered by the court, that an election be held in said county on the 14th day of November, 1925, which is not less than thirty (30) days from the date of this order, to determine whether or not the bonds of said County shall be issued in the amount of Three Hundred and Twenty-five Thousand Dollars (\$225,000.00), bearing interest at the rate not to exceed five and one-half per cent (5 1/2%) per annum, and the principal of said bonds to mature at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed thirty (30) years from the date thereof, for the purpose of constructing, maintaining and operating macadamized graveled or paved roads and turnpikes, or in aid thereof, in said County of Mitchell; and whether or not a tax shall be levied upon the property of Mitchell County, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

The said election shall be held under the provisions of Article, 627 to 641 inclusive, of Chapter 2, Title 18, Revised Statutes of 1911 as Amended by Section 1, Chapter 293, Acts 1917 regular session.

All persons who are legally qualified voters of this State and of this County, and who are resident property taxpayers in said county, shall be entitled to vote at said election, and all voters desiring to support the proposition to issue the bonds, shall have written or printed on their ballots the words: For the issuance of bonds and the levying of the tax in payment thereof.

And those opposed, shall have written or printed on their ballots, the words: Against the issuance of bonds and the levying of the tax in payment thereof.

The polling places and presiding officers of said election shall be respectively as follows: For voting Precinct No. 1 held at Colorado, Texas, in the Court House thereof, with L. B. Elliott, as presiding judge; For voting Precinct No. 2, held at the school house in the Town of Westbrook, with Ollie Bird as presiding judge; For voting Precinct No. 3, held at the school house at Spade, with Robert Northcut, as presiding judge; For voting Precinct No. 4, held at Lander school house with F. F. Brooks, as presiding judge; For voting Precinct No. 5, held at Boseman's Store in Cuthbert with W. C. Berry, as presiding judge; For voting Precinct No. 6, held at Carr school house with Frank Sweatt as presiding judge; For voting Precinct No. 7, held at First State Bank, in the town of Loraine with J. J. Ridens, as presiding judge; For voting Precinct No. 8, held at school house in Intan with E. B. Gregson as presiding judge; For voting Precinct No. 9, held at McKenzie school house with G. A. Brown as presiding judge; For voting Precinct No. 10, held at the Buford school house with W. C. Hooks as presiding judge; For voting Precinct No. 11 held at the school house at Hyman with H. H. Van Zant as presiding judge.

The manner of holding said election shall be governed by the General Laws of the State of Texas, regulating General Elections, when not in conflict with the provisions of the statutes hereinabove referred to.

Notice of said election shall be given by publication of a copy of this order in the Colorado Record and the Loraine Leader, newspapers published in the County, and such notice shall be so published for four consecutive weeks before the date of said election; and in addition thereto, there shall be posted other copies of this order at three public places in the county, one of which shall be at the Court House Door, and such notice shall be so posted for three weeks prior to said election.

The county judge is hereby directed to cause such notices to be published and posted, as hereinabove directed, and further orders are reserved until the returns of said election are made by the duly authorized election officers, and received by the court.

Chas. C. Thompson, County Judge. A. A. Dorn, Comm., Precinct No. 1. J. C. Costin, Comm., Precinct No. 2. Jno. D. Lane, Comm., Precinct No. 3. W. D. McAdams, Comm., Precinct No. 4.

CITATION BY PUBLICATION

The State of Texas, to the Sheriff or any constable of Mitchell County, Greeting: You are hereby commanded, that you summon, by making publication of this citation, in some newspaper published in the county of Mitchell, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest county to said Mitchell County, for four consecutive weeks prior to the return day hereof: Howell Brown, John Harris, A. W. Dunn, Dr. M. Martin, Wm. H. Rust, D. B. Adams, O'Mallor and Blevins, a firm composed of T. O'Mallor and W. C. Blevins, O. F. Ruden, Julia A. Clubb and her husband John W. Clubb, W. L. Pendleton, Wm. Cameron & Co., a partnership composed of Wm. Cameron, T. J. Tatum, W. Burton, C. Evans, Wm. S. Searse and her husband, R. M. Searse, Mrs. Francis Douglas, a feme sole and Louis C. Wise, whose residence is unknown, if they be living, and the unknown heirs, executors, administrators and legal representatives of the said Howell Brown, John Harris, A. W. Dunn, Dr. M. Martin, Wm. H. Rust, D. B. Adams, T. O'Mallor, W. C. Blevins, O. F. Ruden, Julia A. Clubb and her husband John W. Clubb, W. L. Pendleton, Wm. Cameron, T. J. Tatum, W. Burton, C. Evans, J. B. W. Burton, Mrs. S. Searse and her husband, R. M. Searse, Mrs. Francis Douglas and Louis C. Wise, if they be dead, the names and residences of each of whom are unknown, to be and appear before the honorable district court of the 32nd Judicial

district, at the next regular term thereof, to be holden in the County of Mitchell, at the courthouse thereof, on the eleventh Monday after the first Monday in September, 1925 the same being the 23rd day of November, 1925, then and there to answer a petition filed in said court on the 14th day of October, A. D. 1925, in a suit numbered on the docket of said court No. 4691, wherein J. H. Cooper is plaintiff and Howell Brown, John Harris, A. W. Dunn, Dr. M. Martin, Wm. H. Rust, D. B. Adams, O'Mallor & Blevins, a firm composed of T. O'Mallor and W. C. Blevins, O. F. Ruden, Julia A. Clubb and her husband, John W. Clubb, W. L. Pendleton, Wm. Cameron & Co., a partnership composed of Wm. Cameron, T. J. Tatum, W. Burton, C. Evans, Wm. Searse and her husband, R. M. Searse, Mrs. Francis Douglas, a feme sole and Louis C. Wise, and each of them, if living, and the unknown heirs, executors, administrators and legal representatives of the said Howell Brown, John Harris, A. W. Dunn, Dr. M. Martin, Wm. H. Rust, D. B. Adams, T. O'Mallor, W. C. Blevins, O. F. Ruden, Julia A. Clubb and her husband, John W. Clubb, W. L. Pendleton, Wm. Cameron, T. J. Tatum, W. Burton, C. Evans, Wm. Searse and her husband, R. M. Searse, Mrs. Francis Douglas and Louis C. Wise, and each of them, if dead, are defendants.

And if all persons owning or having or claiming any interest in said lands or lots, defendants, answer and appear before me by my hand and seal of said Court, at office in the City of Colorado, in the County of Mitchell, this 13th day of October, A. D. 1925, and there to show cause why judgment should not be rendered condemning the said land (or lots) and ordering sale and foreclosure thereof for said taxes, interest, penalties and costs, and all court costs; all of which, together with other and further relief, general and special, being fully set out and prayed for in the plaintiff's original petition filed in said court on the 13th day of October, 1925, and appearing on the docket thereof as suit No. 4691, wherein the State of Texas is plaintiff and J. W. Woodard, L. E. Lasseter, Wm. Morrison and all persons owning or having or claiming any interest in said lands or lots, defendants. Witness my hand and seal of said Court, at office in the City of Colorado, in the County of Mitchell, this 13th day of October, A. D. 1925.

J. LEE JONES, Clerk 11-6 District Court, Mitchell County, Tex.

And if all persons owning or having or claiming any interest in said lands or lots, defendants, answer and appear before me by my hand and seal of said Court, at office in the City of Colorado, in the County of Mitchell, this 13th day of October, A. D. 1925, and there to show cause why judgment should not be rendered condemning the said land (or lots) and ordering sale and foreclosure thereof for said taxes, interest, penalties and costs, and all court costs; all of which, together with other and further relief, general and special, being fully set out and prayed for in the plaintiff's original petition filed in said court on the 13th day of October, 1925, and appearing on the docket thereof as suit No. 4691, wherein the State of Texas is plaintiff and J. W. Woodard, L. E. Lasseter, Wm. Morrison and all persons owning or having or claiming any interest in said lands or lots, defendants. Rig Patterns a Specialty

Mr. Fletcher the telephone man, has completed a new line to the oil field. Mr. Fletcher says he is well pleased with his telephone business in Westbrook. He puts in several new phones each week and is making new improvements all the time. As there are so many new people coming here and so many new residences going up we see no reason why the telephone business will not continue to grow.

Mrs. R. B. Cox spent several days in Midland last week the guest of her daughter, Mrs. Shelburn.

An old negro woman was trying to get out of a seat in a street car. A boy was standing out to one side, he said, "If you eat yeast you would rise better." The old woman said, "Yess and if you'd eat some you would be better bred."

We came near having a serious fire at King's Garage Friday afternoon when Mr. Shaer was putting gas in a car owned by Mr. Miller of Colorado. Mr. Miller who was standing near, struck a match which ignited the gas causing the flames to spread in every direction. Mr. Mil-

ler's car was practically ruined. The top and upholstery was burned off Mr. Saylor's car. Mr. Saylor himself was painfully burned about the face and hands and Mr. Shaer was slightly burned. Considerable damage was done the front part of Mr. King's Garage.

The Baptist Ladies met at the home of Mrs. A. F. King Monday afternoon with fourteen present. Mrs. C. C. Bell and Mrs. Johnson, Mrs. Hall signed as new members; Mrs. Flint, Mrs. J. Adams, Mrs. Norris and Mrs. O'Donnell as visitors. After a very interesting program, the hosts assisted by Mrs. Garber and Mrs. Donelson served refreshments of Romanian Sandwiches, white cake and Russian tea, to the members and visitors. The next meeting will be with Miss Hoodie Pool. Every unattached lady is urged to come and help in our W. M. U. work.

The pupils of the seventh grade have held a primary and final election in the civil government class, electing county and state officers. They have also had a meeting of the House of Representatives and Senate, with Rober Miller as speaker of the House and Billy Barnes as President of the Senate. The following are some of the laws which we made applying to our school conduct:

1. Pupils should be courteous to their teacher and classmates in the school room.
2. All book satchels, caps and wraps should be hung up rather be left on the desks.
3. The same language which is used in the school room should be used on the school grounds.
4. Pupils should clean their shoes before entering the house on muddy days.
5. Pupils should not be allowed to get library books unless they have been bringing up good lessons. Amendment unless it is understood between teacher and pupil that a library book is to be used in the preparation of the lesson.
6. A bill originated in the House of Representatives that every person on the losing side in the spelling contest should pay 25c to defray the expenses of a Halloween party.

The sixth grade is a class of fifteen pupils. We study eight subjects which are very interesting. Mrs. Oglesby is the teacher of our Geography class. We are running a race, the girls against the boys, in drawing a map of Europe, showing imports and exports, which is very interesting. On Friday mornings in English

we have a pronunciation contest of the most important words in stories which we read during the week.

Last Friday morning we chose up sides and Mr. Richards our History teacher, gave us some questions to answer in a contest.

Last Friday afternoon, October 16, 1925 the seventh grade called the house to order and held its English club program. The numbers of the program were as follows:

Song—Class.
Reading—Veta Bell.
Quartette—Morris Sturdivant, Mary Edna Gressett, Gussie Bledsoe, and Robert Miller.
Reading—Alfred Johnson.
Class Prophecy—Beaulah Blakney.
Debate—Resolved that people who cannot read and write should not be allowed to vote on amendments to the State Constitution.

Affirmative—Gussie Bledsoe, Billy Barnes. Negative—Mary Edna Gressett, Warren Costin.
Can You Imagine—Florence Knowles.
Closing Song—Class.

The meeting adjourned until its next regular meeting day, which is Friday, Oct. 23.

Mr. J. E. Lasseter has returned from Dallas where he has been under treatment of a specialist for some time. His many friends will be pleased to know that he is greatly improved and will not return to Dallas for further treatment.

Mr. P. M. Rowland and Mrs. Clinger have moved their string of tools to Toyah where they expect to work for some time.

Mr. and Mrs. J. E. Barber spent Sunday with friends in Big Spring.

Billy—Mother hand me the butter.

Mother—If what—
Billy—If you can reach it.

Teacher—You dirty boy. Why don't you wash your face? Can tell what you had for breakfast.

Lynn—What?

Teacher—Eggs.

Lynn—You are wrong that was yesterday morning.

Alfred—Mr. Terrell tell me a four worded letter meaning getting married.

Mr. Terrell—Fool.

The following is the best theme of the past week from the ninth and tenth grade English classes, written by Jay C. Hall, a ninth grade pupil.

A Sun Set Scene
Late in the afternoon I stalked out on a pavilion on Lake Wichita, near Wichita Falls, and sulkily seated myself on a banister, for I was rather angry at something.

Looking out on the water, my attention was attracted by the many different colors on it; this I noticed was caused by the setting sun. Glancing at the sky, I saw that it also was colored very beautifully. On the right were rolling clouds, all colored a bright red; in the center was a mixture of every different color that I had ever seen, and some I had not; the left presented a pinkish color. Below the clouds was a clear space extending to the earth, and above them the colored clouds emerged into white ones. The sun had sunk lower and was catching the trees on the opposite bank and throwing their shadows on the water.

I could see motor boats on the surface of the lake, some out for pleasure, others fishing. The dim form of a fisherman could be seen as he was making the final cast.

Somewhere back of me an orchestra had struck up a lively tune, and I found myself humming. Walking away, I realized that I had forgotten my anger.

A window full of bargains at Mrs. B. F. Mills, Saturday.

Editor Earl Williams of the Loraine Leader spent a few hours here Monday on business. Continued rains have materially affected the cotton harvest in the Loraine territory, Williams stated.

WHY SUFFER
You Can Rid Yourself of Rheumatism at Once.

Just suppose your joints become stiff and you having to use a crutch or you should become one of the many thousands of permanent cripples for life. All these and more, can result from rheumatism. Why should you be a victim of any such misfortunes when RHEUMALAX stops rheumatism now not alone stops pain but removes the poisons from the body which are the direct cause of rheumatism, a permanent relief for an obstinate disease. To be taken and not rubbed on.

Rheumalax is sold under a money back guarantee by your druggist. Give it a trial.
John L. Doss.

IT'S A CHEVROLET

The marvels of modern automotive precision and production methods are depicted in a series of 42 enlarged photographs now being shown to the public at the showroom of all American and Canadian Chevrolet dealers.

The photographic series covers the same interesting operations in the manufacture of Chevrolet cars which would be shown a visitor at the factories.

One of the most spectacular pictures shows a huge drop forge hammer weighing 140,000 pounds. Hammers of this type are used to make the Chevrolet crankshaft. The falling weight of a three ton block of steel which is lifted by steam. It is so responsive to the touch of the skilled operators that they are able to place a watch on the bottom die block and strike it with the hammer so delicately that the crystal remains unbroken. Each hammer will forge 880 crankshafts during a 10-hour day.

Other striking features of the exhibit are pictures of a monster machine which uses 300,000 amperes of electricity to weld the Chevrolet one-piece banjo-type rear axle housing; a machine which drills 32 holes simultaneously in the bottom of the Chevrolet cylinder block; a rotary milling machine which finishes at one operation the lower sides of six cylinder blocks, and a 62 ton press which forms a Chevrolet fender at one stroke.

The individual grinding of valves, the delicate balancing of pistons so that every piston in each motor weighs the same and many interesting micrometric inspections also are

illustrated in the remarkable exhibit.

Save while you trade at the "M" System store.

Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. A neighbor told me of

BLACK-DRAUGHT

Liver Medicine

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work." Bilious attacks are "seasonal" with many people. Millions have taken Thedford's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.

Buying on the Spoken Word

The faith that men have in each other is evidenced nowhere as strongly as the dependence that is nowadays placed on the spoken word.

The seller in a distant city hears a voice over the telephone and though a record of details goes out with th changing up of the receiver, thousands of dollars of goods are rushed to fill the needs of the man who has asked for them. Faith that the man will stand by his message is seldom, if ever, misplaced.

Without this faith the telephone would lose its effectiveness in business. But with it the mouth-piece on your desk puts you in immediate touch with the great sources of supply and brings to your office such service and assistance as you may desire.

Is it any wonder, then, that the telephone, in daily touch with this evidence of the faith of men, is anxious to serve its users and serve them well.

SOUTHWESTERN BELL TELEPHONE COMPANY

STEPS TO CUT NATION'S TAX BILL HAVE BEEN TAKEN

WASHINGTON, Oct. 19.—The first step toward slash in the nation's tax bill was taken today with the assembling of the house ways and means committee to consider a downward revision of the present levies.

Marking the third time in six years that the committee has set its hands to the welcome task of chopping off some of the tax burden, the gift to the tax payers this time in the form of a reduced bill for next year promised to be somewhere between \$300,000,000 and \$500,000,000.

All hands were ready to advocate reductions today, including the treasury and members of both major parties in congress. Republicans want cuts totaling between \$300,000,000 and \$400,000,000 while democrats are represented by their ranking member on the committee, Representative Garner, Texas, believes reductions can be made up to \$500,000,000.

The committee waited first, however, for the views of Secretary Mel-

lon, asked to appear as first on the list for the public hearing opening this afternoon and to continue for two weeks before the committee begins the actual drafting of a new revenue law. The committee was called to convene for an executive session early in the day.

Although prior to appearing before the committee, Secretary Mellon had carefully refrained from advancing any definite tax reduction scheme the treasury has estimated that a surplus of at least \$250,000,000 would be available for revision of the tax rates. There also had been definite indication that the treasury would favor a maximum surtax rate of 20 per cent instead of the present 40 per cent, as well as cuts in the normal rates.

Secretary Mellon further did make clear before going before the committee that he is opposed to increasing income exemptions as advocated by Representative Garner, and suggested by Senator Edge, republican New Jersey. In a letter to the New Jersey senator, replying to his suggestion that all persons with incomes of \$5,000 or less be exempted

from taxes, Mr. Mellon declared "The sole result of such change would be an enormous loss of revenue to the government without a single compensating advantage."

The letter also is taken as a reply to Mr. Garner's proposal to increase the exemptions of single persons from \$1,000 to \$3,500 and for married persons from \$2,500 to \$5,000 and another by Representative Bacharach of New Jersey a republican member of the committee, to increase the exemptions to \$2,000 and \$3,500 respectively.

Besides estimating that a \$5,000 exemption applied to all tax payers would mean a loss of \$167,000,000 in revenues, Mr. Mellon declared that as a matter of policy "it is advisable to have every citizen with a stake in his country."

Chairman Green of the ways and means committee has declared a bill will be ready for the house upon the convening of congress in December and predicts its passage there before the Christmas holidays. Senate leaders declare the measure can be finally enacted into law by March 1, fifteen days before the first tax payments of the new year are due.

As a result of their increased majority in the house, republican membership on the committee is increased this session to a ratio of 15 to 10. It was 14 to 11 at the last session.

NEWS CONDENSED

Lubbock—Plans under way for constructing dam across Yellow House canyon for storing water, for irrigation and power purposes.

Orange—Contract awarded for construction Masonic Temple at Elm and Fifth Sts.

Houston—Additional telephone and telegraph facilities to be constructed over sections of Gulf Coast Lines and International Great Northern railroads, at cost of approximately \$50,000.

Highways Nos. 7 and 14 in Freestone County to be gravelled.

Laredo—Bids requested for paving Santa Maria avenue to intersection of Webb County highway.

Limestone County ginned 17,181 bales 1925 cotton up to September 15.

Weldon—Waco, Beaumont, Trinity and Sabine Railway Company asks permit for constructing 90 miles new road between this city and Mart.

Teague—City to vote on \$75,000 bond issue for waterworks improvement and street paving.

Why we are Partners

THE Public, the West Texas Electric Company and the Employees of the Co. are partners in the enterprise. The interests of the three are so interwoven as to be identical. The Public requires service to the end that this community may grow, develop and prosper. Without the service furnished by a proper, adequate, up-to-date power and light system no community can develop in a modern way.

The Employees of this Company are interested in the prosperity of the Company, because such prosperity means better wages and working conditions—more prosperity for them.

This Company is interested in its own prosperity, because upon that depends its ability to attract the constant inflow of new capital needed for it to keep pace with the growth of the community it serves.

Thus, service, upon which the development of this community is conditioned, the wages and working conditions of our employes and the integrity of investment all depend wholly and solely upon the prosperity of this Company.

That is why the public, this Company and the employes are partners, equally interested in the success and prosperity of the enterprise.

YOUR ELECTRIC SERVANT,

West Texas Electric Co.

Dallas—Southern Pacific Railroad to operate through freight trains over new \$1,000,000 White Rock belt line and cut-off, starting November 18th.

Austin—Brownlee & Pope award contract for drilling four test wells on Beatty land.

Dallas—Plans rapidly maturing for construction of new freight depot or Southern Pacific lines in this city.

Lytton Springs—Gulf Production Company drilling test well on Wolff tract, three miles north of here.

Good progress made in getting options for right-of-way for proposed fresh-water canal across Orange County.

Fig canning plants at Hamshire and Winnie being taxed beyond capacity by unusually large crop.

Dallas—Plans under way for widening San Jacinto Street.

Alpine—Fifty thousand pounds candlelilla wax shipped from Brewster county to New York by one firm.

WOULD PRODUCE MANY LEVELS OF MANKIND

J. B. Cranfill in Dallas News: If the theory of Darwinian evolution were true evolution would not stop at man as he now is. The process of evolution when once turned loose, could never stop. We would have man and near-man, just as we have grades in our schools—the freshman, the sophomore, the junior, the senior and the post-graduate classes.

There would be regular stairsteps, up and down, of the evolutionary process, with some superman, as large as the Colossus at Rhodes, leading the procession.

NOTICE

All bills charged against the West Texas Electric Co., must be accompanied by a written order, signed by the manager of the Company. West Texas Electric Co., tfe.

Mr. and Mrs. Sam Wufjen went to Abilene Sunday, Mrs. Wufjen remained to spend the week with her sister, Mrs. Shelton.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of gripe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calatabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

SPECIAL NOTICE

The E. K. Progressive Local Mutual Life and Accident Association of Snyder, Texas, is still on the map, and all policies are still worth One Thousand Dollars. We are now establishing agencies all over the District. We wish to procure local Agents in all neighborhoods throughout the District. The District is composed of all territory within a radius of Fifty miles from Snyder, Texas, regardless of county lines. Commission allowed, \$2.50 on each application written and paid for Membership fee is Five Dollars to each applicant. Call on or write E. K. Mutual, Snyder, Texas, for supplies if agency wanted.

Mrs. J. R. G. Burt, my assistant Secretary, will give all instructions and furnish supplies, etc. We wish real hustlers and wide awake agents. We are going after the full membership that is allowed by law, viz: Two Thousand Members.

We will then have a Two Thousand Policy. Old Members stand loyal is all I ask, and help us build to a finish the greatest Life Insurance known to man. All Together.

P. S.—No annual dues for this year to new members after this date. Dont put it off. Come on NOW.

LORAININE NEWS

Local and Personal News About Loraine and Vicinity

MRS. ZORA DEAN

Mrs. Dean is also authorized to receive and receipt for all subscriptions for The Colorado Record and to transact all other business for the Whipkey Printing Company in Loraine and vicinity. See her and take your County paper

Methodist Notes

We had 193 at Sunday school Sunday morning. Everybody had a fine lesson. Subject of our lesson was "Love the Hope of the World." If we all love there will be hope and charity in our hearts, then we would have a better world in which to live. Next Sunday will be church day. Let everybody come and hear Bro. Hanks. Come to Sunday school.

Mrs. Mary Bowen and daughter, from Sweetwater spent a week end visit with Mrs. J. L. Bowen.

Mr. Bruce Gunn, came in from Lamesa Saturday to visit with his parents, Mr. and Mrs. D. E. Gunn, for a few days.

C. F. Glass and wife visited in Colorado, Sunday.

Mr. J. M. Templeton of Dublin visited friends and relatives here last week.

Mr. and Mrs. Howard Spikes made a business trip to Sterling City Wednesday.

Jim Marshall and family returned from Dallas Monday where they visited the fair.

School Notes

Edith Wilkerson, editor in chief. The first six weeks examinations for the high school, was given Thursday and Friday of last week. It gave the teachers an idea of what the student body in general has done since the opening of school. The student body arrived at the conclusion also that more midnight oil will have to be burned and that they will

have to put more time and energy into the work than heretofore. The examination papers have been graded the grades recorded and the report cards will be given out this afternoon (Tuesday).

Mack Smiley is adding a new room to his residence in West Loraine.

Box Supper

A box supper was given at the high school auditorium Saturday night, October 17, 1925 under the auspices of the Senior class. The money derived from the box supper will go to help defray the expenses that they have to meet.

The following program was rendered before the auctioning of the boxes—
Quartet—Herman Charles, Claude Willis, Claudia Neely and Rilla Thompson.

Reading—Herman Charles.
Reading—Alma Garrett.
Piano Solo—Francis Bennett.
Reading—Mary Miller.

The program was enjoyed by all. Soda pop, lemonade, candy and pies were sold also. Three contests were held in the "Prettiest Girl Contest" the "Ugliest Man" and "the Crankiest Teacher." Miss Mary Nell Kimble was voted the prettiest girl, Mr. Ben Spurger the ugliest boy and Mr. Blythe the crankiest teacher. The contests were very interesting and the crowd was very much enthused. About \$65.50 was taken in from the box supper.

The following theme was written by a senior:

Hopefuls on their way to Hollywood. If one had come near the mansion of young Thomas Taft, Jr., he would have seen a strange collection of automobiles parked just off the carefully kept lawn. He now hears a shouting and turns, to behold a company of people about as queer as their vehicles.

"So long old tops" calls the gait of young Thomas, to the ones standing near watching the band's departure. "You will hear of us as comedians and stars of every sort, same day. All a board to Hollywood."

One after another the cars fall in line until the last, a tumble-down Ford with the sign, "She ain't what she used to be" painted in white on the rear and loaded with queer nobby bundles, has kicked and been chocked and persuaded to follow suit. Only two people occupy this carriage. A farmer and a cowboy. The farmer is a young man with countenance twinkling eyes and an aquiline nose. He was hoping just to set his mind right concerning the conduct of the movie actors. The cowboy is some older and dressed in the usual cowboy attire, taking no trouble to conceal his weapon or He hoped that with his excellent in hi language his "neighbor six", marksmanship and bravado he might become a western life star. He carries a harmonica in his possession with which to while away the tedious hours.

In front of them is a Chevrolet in good mechanical condition for in it rides the chief mechanic, a greasy person clad in denim, hoping that on his arrival in Hollywood he may make a fortune repairing the cars used in the business. With him is the cook, a fleshy, jovial man, wearing a cap and apron, ready for his job when called on.

The widow Washburn, just ahead of them, has been married five times and is now quite deaf but still has hopes to wed as many more. She is of a bold type with light red hair, shingle bob, rouge and lipstick seem very necessary to her life. On her feet are brilliant red hose and very high heeled slippers. She owns her own Ford sedan and has a chauffeur.

Next in line is Miss Pearl Harbour, a mannerly, refined spinster, and a teacher of young women in Texas University. She is making this journey expressly to start a reformation in the movie world. Accompanying her are her chauffeur, and two maids.

The doctor and parson ride together in a medium priced car. The parson expects to be a co-worker with Miss Harbour, the doctor expects to get a good practice binding up wounds made by daring feats of movie stars.

Leading the procession is Thomas Taft, Jr. in a spacious limousine and who intends to be a movie star of world renown.

The company took their lunch in a small town through which they passed but they camped for supper. After the meal was finished and all were sitting around the camp fire, the cowboy tells the first tale. It is a true story of cowboy life with its hardships and pleasures of a kind, through which is interwoven a thread of love.

During the journey the last two cars get lost and the main procession is thrown into a panic.

At last they are found and Hollywood, their goal, is reached.

The cowboy becomes a comedian, the doctor gets to be a millionaire, the cook secures a lifetime job, also the mechanic. Miss Harbour, and the parson are still working on a plan of reformation. The farmer becomes a playwright of renown. The widow Washburn, becomes a wash woman rather than return home, but succeeds in capturing several suitors and Thomas J. Taft, Jr., becomes a screen magnate.

Boys Athletics

The boys have up their basket ball goals and are going into strenuous practice at once. We feel proud of them for what they are doing. They have drawn up some rules of conduct and we feel prouder of them because of what they stand for and we feel that we should give them the cooperation and encouragement that they need and that we can give.

Following are the basket ball rules of conduct drawn up and signed by them:

We, the undersigned, in order to promote clean sportsmanship and to train ourselves in basket ball technique agree to the following rules:

1. We believe that in order to secure a high degree of team work there must be someone to direct. We believe that this authority should be vested in the captain and the coach. We agree to follow their directions and decisions without question.

2. We agree not to smoke or to eat candy during the two days preceding a matched game.

3. We agree not to keep late hours the night, before a game is scheduled (The hour being 9:30.)

4. There will be no vulgarity in action or word by any player and especially on the court. Cursing and swearing is likewise outlawed.

5. We further agree to leave off all foolishness and roughness, while at practice.

6. Punishment for the violation of any of these rules is to be assigned at the will of the coach. However, failure to obey rule No. 4 will be handled as follows: the person who violates said rule is required to immediately apologize to those on the court. Failure to do so will disqualify the player from practice during the following three practice days.

Arnton West, Herman Charles, L. J. Ledbetter, Forest Porter, Bruce Hart, Raymond Johnson, Curtis Mahoney, Waldo Porter, Dee Fagan Brians, M. L. Clark, Glynn Smiley, Delma Roberts, Alton Riden, Ben Spurger, Pete Bowen, Arvil Cranval, Lloyd Neely (cpach).

UNION ITEMS

No special news except normalty along all lines except a lack of cotton pickers which still exists.

Our community didn't suffer any material loss on account of hail as did some other sections. There has generally been some loss from the effects of too much rain for this season of the year, but the old maxim is some consolation in all things. And the consolation now in sight is a good season in the ground for fall ploughing which I think is an important matter for next year crop.

Mrs. B. B. McGuire is still on the mend. While Mrs. Booth of our community is sick. eW hope for her a speedy recovery.

Our Sunday school recently set in motion at Union is on the up grade and we hope to see a continued growth and we look to the people in the community for support.

We bought some hats at a bargain and will give the public the benefit of it. Come see us Saturday and see for yourself.—Mrs. B. F. Mills.
