

22ND YEAR—NO. 32

COLORADO, TEXAS, FRIDAY, MAY 7, 1926.

WHIPKEY PRINTING CO.

COLORADO PUBLIC SCHOOLS TO CLOSE FRIDAY, MAY 21

DIPLOMAS BE AWARDED TO LARGEST CLASS EVER KNOWN IN CITY

May 21 will formally mark the end of a successful year for the Colorado Public Schools. With a school board of vision and ambition and satisfied with nothing less than the best for Colorado children, with a loyal and highly competent faculty an interest has been developed in the progress of the schools that if continued will soon place the local schools on a par with the best. Despite physical handicaps in certain departments and crowded conditions the faculty has labored faithfully to do a standard quality of instruction and it is expected that a very creditable portion of the students will be promoted.

Examinations for high school seniors will begin on Monday, May 10 and will last four days. This class is composed of eighteen boys and twenty six girls. While it can scarcely be hoped that all will receive their diplomas it will yet be by far the largest class to graduate from Colorado high school. Examinations in the grammar school will begin on Monday, May 17th, and continue three days. Examinations for high school students other than seniors will begin on Friday, May 14th and will end on the Wednesday following, Thursday and Friday of the last week will be used by teachers in preparing the annual reports, posting grades on the permanent record, giving special examinations and in preparing for the two graduation exercises.

Commencement week activities will begin with the baccalaureate day exercises on Sunday evening May 16 at the First Methodist Church. The Rev. M. C. Bishop of the First Baptist Church of Colorado will deliver the sermon on this occasion. Tuesday afternoon of the same week the senior class will institute the custom of observing class day. This program will be informal and open to the public and will be held at the high school auditorium. The grammar grade graduation exercises will be held in the high school auditorium Friday, May 21 at ten o'clock. At this time a class of approximately sixty members will receive certificates of promotion to the high school Awards of honor for perfect attendance and punctuality will also be presented at this time.

The final graduation exercise of the high school will be held at the American Legion Hut (unless prior change) Friday evening, May 21st. The usual formalities will prevail and in addition a prominent educator is being sought to deliver the address of the occasion. Diplomas will be presented to the seniors by the president of the school board, Mr. H. L. Hutchinson.

MOTHERHOOD BE HONORED AT COLORADO CHURCHES

PASTORS AND PARISHIONERS WILL JOIN TO OBSERVE ANNUAL PROGRAM

Sunday, May 9 is Mother's Day. And Mother's Day is to be fittingly memorialized in special services at Colorado churches, pastor and parishioners joining in the general program to pay impressive tribute to the honored of this annual event.

In the Sunday schools the day services are to open with suggestions of the occasion. Decorations will be noted in several of the church auditoriums and flowers of red and white hue are to be distributed to worshippers.

At eleven o'clock preaching services pastors will speak of Mother, and Mother's Day. Some of the pastors have announced special sermons for this hour.

Concluding the day, choirs of the city are to render a musical program Sunday evening at the Methodist church. This service will be directed by ladies from the different churches.

COLORADO SPRINTER TO AUSTIN IN STATE MEET

Huron Gist, Wolf Star and champion track man in high school circles of the Abilene district, is in Austin to compete for State pennant in the annual athletic fetes to be staged at the capital Friday and Saturday of this week. Big Jim Cantrill, coach, accompanied the fleet track runner to Austin.

In the district interscholastic league meet at Abilene in April, Gist easily won in track and broad jump events. The Colorado man never lost one time in the single events entered by him. Cantrill has much confidence in this man and declared before leaving for Austin that the "man who takes first place from Gist will do some fast moving."

LA FRANCE FIRE TRUCK PURCHASED BY LORAIN

Contract for purchase of a new LaFrance fire truck, with full equipment, has been made by the Loraine city commission. The new fire fighting apparatus is to be delivered at Loraine in August.

A few months ago the city of Loraine voted \$40,000 in bonds to improve and enlarge the municipal waterworks system there. A new stand pipe was erected on top of the hill in South Loraine and the system brought up to date in every respect.

With the improved waterworks system and the fire truck available to the Loraine public there will come a marked reduction in the fire hazard there.

RECORD ATTENDANCE WAS AT ANNUAL SINGING MEET

T. H. WESTBROOK RETAINED PRESIDENT MITCHELL COUNTY ASSN.

The annual convention held at Union Tabernacle Sunday by the Mitchell County Singing Association was the most successful meeting ever held by the association. T. H. Westbrook of Longfellow, president, has stated. Westbrook states that a record attendance of both singers and spectators assembled at the building for the day and the program given was all that could have been expected.

Westbrook was re-elected president of the association for the ensuing year when the annual business meeting was held Saturday night at the First Methodist church. Frank Redman of Buford was elected vice-president and Mrs. O. L. Simpson of Cuthbert, secretary-treasurer.

Among the visiting quartets appearing on the program was the Woods quartette of Abilene, directed by W. W. Woods. Several singing classes, representing practically every rural community of the county came in for parts on the program of the day.

The association holds these annual conventions in Colorado regularly. Since organization of these meetings have been held at Union Tabernacle

Criminal Court Docket Expected Cleared Friday: Judge McGuire Presides on Bench

With one of the lightest dockets recalled in several years, hearing of criminal cases was expected to be completed for the term late Friday. For the most part cases tried during the week were based on violations of the liquor laws. One forgery case was tried and at 2 o'clock the case of Troy Medlock, charged with theft of automobile, called Thursday morning, was still being heard.

The grand jury, adjourned several days, was reconvened this week, for special investigation. No announcement had been made up to 2 o'clock Thursday afternoon as to nature of the work demanding attention of this body.

The case of H. O. Long, charged with illegal possession of intoxicating liquor and transferred to Mitchell county from the district court of

NEW DIRECTOR FOR BAND ARRIVES IN CITY MONDAY

FORMER LEADER OF OHIO STATE BAND TO MOVE RESIDENCE HERE

C. A. Hewett, band director and music teacher of national reputation, arrived in Colorado Monday morning to assume active management of the Colorado Chamber of Commerce Band, official band of the West Texas Chamber of Commerce. Mr. Hewett has organized and directed some of the larger bands of the country, among them being the Ohio State Band, the Cedar Falls Band, of Cedar Falls, Iowa; A. O. U. W. band, New Hampton, Iowa; municipal band and others.

Every member of the Hewett family is also artist of recognized talent in music. "The Five Musical Hewetts," an orchestra composed of Mr. Hewett, Mrs. Hewett, their two daughters, Misses Ettena and Annah, and son, C. A., Jr., recently closed a successful engagement on the Orpheum and Western Vaudeville Circuits.

Mr. Hewett was employed to fill vacancy caused by the recent resignation of M. S. Goldman, former leader of the Colorado band and who is now making his home in San Angelo. Mr. Goldman was in Colorado Monday to greet his successor and together the two directors attended the regular band rehearsal Monday evening.

"Colorado is indeed fortunate to obtain the services of such a band man as Mr. Hewett is represented to be," J. Lee Jones, assistant director, stated Monday. Jones declared that members of the band with whom he had discussed the matter were highly pleased with their new leader.

Hewett stated Tuesday that he had found Colorado a much better city than expected. "You have here one of the best small cities I have ever visited, and I have been in many States of the Union," he stated. "I plan moving my family to Colorado at an early date and I know that they, too, will be highly pleased with your splendid city and its citizenship."

"The Five Musical Hewetts," being brought to Colorado in personnel of the director's family, will also be a big asset to Colorado. Since there is no good orchestra here now, this musical organization should fill a much needed want in the city.

Mr. Hewett stated Tuesday that he expected to teach music and hoped to enroll not less than twenty pupils at an early date. He stated that the band membership were lending him support in getting the class organized.

Already the new director has begun to formulate plans for taking the band to Amarillo for the eighth annual convention, West Texas Chamber of Commerce, June 21-23. He speaks highly of the Colorado band and is free to state that this city boasts one of the best volunteer bands it has ever been his privilege to be associated with.

Oil Man Flies to Bed Side of His Daughter

While in Dallas Sunday, S. S. Owen, senior member of Owen & Sloan, Colorado oil corporation, learned by wire that his daughter, Mrs. Jack Brown, was seriously ill at the Colorado Sanitarium and that an operation was imperative if her life was to be saved.

Mr. Sloan was with Owen when the message was received and hurriedly engaged a plane. The two hurried to Fort Worth, climbed into the machine, leaving there at 4:30 Monday afternoon. At 7:30 Mr. Owen was at the bedside of his daughter at the sanitarium.

Reports from the sanitarium Wednesday were favorable and Mrs. Brown, whose life was despaired of only a few days before, will recover physicians state.

The airship bringing Mr. Owen and his business associate to Colorado was piloted by Tom Hardin of Good & Foster, commercial flyers. Hardin left Colorado Monday afternoon for Dallas.

BURIAL DECLAMER HONORS SOUGHT BY MISS HALLMAN

Miss Erin Hallman, student in the Valley View school, north of Loraine, is in Austin to compete for State pennant in the rural school declamation division. Miss Hallman easily won first honors at the recent district interscholastic league meet at Abilene and was sent to Austin to meet district champions from other divisions of Texas.

ENTRIES IN FEED CONTEST URGED BY C. FARM AGENT

'MORE FEED ON FEWER ACRES' ENDORSED BY HIM TO FARMERS

In a statement made for publication Monday, H. L. Atkins, county farm agent, gives his endorsement of the "More Feed on Fewer Acres Contest" sponsored by the Colorado Chamber of Commerce, and urged farmers and farm boys of Mitchell county to enter their names in competition for the list of cash prizes announced. Atkins calls attention to the fact that up to that time only 22 entries had been registered and that at least fifty must be made by June 10, if the contest is to become operative.

"The Colorado Chamber of Commerce has made an offer of \$500.00 in cash prizes for the best ten acres of feed crops grown in this county. There are no strings tied to the offer and no red tape connected with it, but due to rules of the contest it will not be operative unless there are fifty or more entries.

"Thus far only twenty-two have entered the contest. Twenty-eight more entries are necessary to make it operative.

With fifty in the contest there will be one chance in ten to win a prize or with sixty entered, one chance in twelve. Why not get in the game? Put your hat in the ring and stand chances of winning from twenty-five to two hundred dollars on the 15th of November. The cash value of the crop produced is the basis of award and anything from maize or kaffir to sorghum is acceptable.

Drop in and sign an entry blank next time you are in town, you will find blanks at the chamber of commerce, the county agent's office or at either bank."

FIVE RURAL SCHOOLS WILL CLOSE TERMS THIS WEEK

Five rural schools of the county are to close for the year today, G. D. Foster, county school superintendent, announced Monday. Fitting commencement programs are to be observed at all the schools Friday, either during the day or at night.

These schools are at Buford, Cuthbert, Silver, Looney and the negro school in Lane Wolf community several miles northeast of Colorado. The negro school closing today is the only colored rural public school in Mitchell county.

COLORADO WOLVES TAKE VICTORY IN FIVE GAMES

SALTY PUPS AND STEERS TAKE DEFEAT AT HAND OF THE LOCALS

Running up a series of five games won in so many diamond contests, the Colorado Wolves, under supervision of Rube Norman, coach, have made for themselves much of the distinction held by their colleagues, the grid organization, last Fall. The high school baseball season ended here Tuesday with Colorado well along toward the top as pennant holders in Class B, for the district.

One of the most interesting high school mound battles witnessed in this city was played on the local diamond Tuesday afternoon between the Wolves and the Big Spring Steers.

There were sparkling plays all through the game and the pitching of Dorn for Colorado and Wilkins for Big Spring was sensational. In the first inning Lee Dorn struck out the last two up with the bases loaded. Some pitching! Big Spring made one score in the fifth that loomed, mighty big. It was the only score of the game until the last of the eighth inning when Colorado High did some solid smacking to put over two runs, to win the game. The score by innings:

Big Spring	000	010	000
Colorado	000	000	020

Batteries
Colorado—Dorn and Fowler.
Big Spring—Wilkins and Sanders.

In the last game with the Sweetwater Salty Pups played last week, the Wolves shut the visitors out from victory by score of ten to four. At Big Spring Friday of last week Colorado High took victory from the Steers in a hard fought mound battle. The score was 7 to 8.

With a coaching team of the quality found in Rube Norman and Jim Cantrill, the Wolves are expected to make their way to easy championship over many of the strongest school baseball and foot ball teams of West Texas. The Wolves are to be heard from again next Fall when the pig skin mele is opened.

DR. C. L. ROOT LEAVES FOR TEMPLE TO HAVE MEMBER TREATED

Infection to his hands, presumably received during a post-mortem operation performed on "Turkey" Smith, aged negro who died a few weeks ago at Colorado, may cost Dr. C. L. Root one of his hands from blood poisoning. The surgeon, accompanied by Mrs. Root, left Tuesday night for Temple where he will confer with specialists regarding the injured member.

Several days ago the second finger on Dr. Root's left hand became infected. He treated the member and the infectious disease seemed to have been driven away. Later the same finger on his right hand became infected and for the past few days had given him considerable pain.

Fearing that the infection might develop into serious stages of blood poisoning Dr. Root left for Temple to confer with specialists.

It was stated at his office Wednesday morning that the injured hand was somewhat improved Tuesday night when Dr. Root left Colorado. The surgeon had expressed the belief that he, with the aid of other Colorado physicians, could satisfactorily handle the case, but having other business at Temple, determined to take no chances.

Mr. A. J. Herrington and family are taking their summer vacation down in the valley and on the coast and are at present at Mission. They write that it rains down there day and night and the whole country is flooded.

Mrs. Alvin Myre leaves this week for Big Spring her future home. Mr. Myre being in business there.

PREMIER CHAUTAUQUA TO OPEN WITH BIG HIT

Probably for the first time in Chautauqua History has a Broadway success been contracted for a Chautauqua circuit before it has run the gamut of theatre goers in the metropolitan centers of the country. Even yet this great comedy on American life has not closed its run in New York, where it has been enjoying a long run at the Ambassador Theatre.

Therefore, Premier Chautauqua patrons are assured of one of the very latest theatrical successes when "Applesauce" comes to Colorado, on the night of June 3, as a feature of the 1926 Redpath-Horner Premier Chautauqua program.

"Applesauce" is from the pen of Barry Conners, and it gets its name from the modern word for "blarney" "the glad hand," etc. It is served without stint, by Bill McAllister, the hero of the play—a lovable, good looking, semi-worthless youth who wants to marry Pa Robinson's daughter, Hazel. Pa and Ma want her to wed the plodding, well-to-do youth of the town, Rollo Jenkins. Bill talks Rollo into thinking marriage is too expensive a business venture for that rich tight-wad to indulge in. Hazel accepts Rollo, but her love for Bill and his Applesauce capnet be drowned and—but that would be telling the unusually happy ending of an unusually happy play.

"Applesauce" promises to be a great treat to Premier Chautauqua patrons. There is no doubt that it will be the play that New York news says it is: "A clever, virile comedy made up of big laughs and little freshets of tears."

Colorado Chautauqua committee is highly pleased with the program as outlined for this year.

CORNER STONE RITES TO BE OBSERVED MAY 19TH

GRAND MASTER BRYAN WILL PRESIDE AT CHRISTIAN CHURCH CEREMONY

Rites attending laying of the corner stone of the First Christian church building here on the afternoon of Wednesday, May 19th, are to be impressive and expectations are that the ceremonies will draw a large assembly of citizens of this city and county.

Hon. E. R. Bryan of Midland, grand master of the Grand Lodge of Texas, A. F. & A. M., will attend the function to preside as master of ceremonies. The Colorado Masonic bodies will have a distinctive part in the program.

Dr. E. D. Salkell, pastor of the First Christian church at Abilene and among the most interesting speakers of West Texas, is to deliver the principal address. The program is scheduled to open at 6:30 p. m.

Rev. J. E. Chase, pastor of the local congregation, issued a statement Tuesday morning extending an invitation to all other religious bodies of the city to cooperate in this celebration. Rev. Mr. Chase and his congregation are building a church at Fourth and Elm streets of which the entire city may well be proud.

"We are doing our utmost to have this building completed in time to be used by the annual convention, Christian churches of Texas, to be convened in Colorado in the Summer." Rev. Mr. Chase stated. "This convention will bring some of the leading men and women identified with Christian church work in the Southwest to Colorado."

E. O. (Dick) Pierson is off on a few weeks vacation trip and is present in Fort Worth.

BETTER HOMES CAMPAIGN CLOSED BY CIVIC LEAGUE

HOMES IN URBAN AND CITY DISTRICTS IMPROVED IN LAST 12 MONTHS

The "Better Homes Week" campaign, sponsored in Mitchell county by the Colorado Civic League, was closed Saturday and has been described by officials of the league and other club women of the county as a decided success. During the week a number of homes, in both the urban and city districts were visited and everywhere the ladies found a distinct improvement over home conditions and environs reported a year ago.

"The better homes campaign has resulted in cultivation of a better home ideal in the instance of scores of Mitchell county housewives," Mrs. A. L. Whipkey, president of the Civic League, stated Wednesday noon. "In our visit to the homes last week we were impressed with the fact that we went by the wonderful being made by the people of this county along better living conditions. Fact of the business is," Whipkey continued, "Mitchell county can rightfully lay claim to some of the most modernly equipped homes to be found in West Texas. And this fine civic fact is not confined to the city homes by any means. Some of the best homes visited by us—homes having every modern convenience and preparing an arrangement of real beauty found in the country."

Mrs. Whipkey stated the League appreciated the support organization in this city officials and other. Belle Jones, county home improvement agent, had a big part in the annual weekly progress.

The better homes week is national in its scope and throughout America the League sponsored the campaign to better homes and better conditions.

A rally was held at the First Christian church Friday evening and local speakers addressed the group on the question of improvement. Dr. G. L. Root, chief of the Colorado Sanitarium, Elliott, secretary of the League, Mrs. J. G. Merritt, president Women's Auxiliary, Abilene, and Mrs. J. E. McClure, in federated club activities, addressed.

ADDITIONAL ROOM WILL BE BUILT BY HYMAN SCHOOL

To care for the ever increasing attendance at Hyman school, five miles southwest of Colorado, patrons of the district are circulating petition asking for bond to finance erection of another onto the building.

The Hyman school was erected three years ago and that community has developed so rapidly as to require addition of another classroom at the school every year. The addition will make three classrooms in use there.

Merry Wives

Mrs. O. B. Prite was hostess of the Merry Wives Wednesday. The house was inviting—looking lovely and baskets of fragrant junkie and roses.

The guests beside the were Mesdames R. P. Prite, Pond, L. R. Collier, Gerald J. H. Greene, Tom Strickland, J. H. Grant, Walter J. J. L. Buss, Oscar Major, Douglas, Frank Layton, J. H. Bann, Byron Byrne, A. H. C. Dupres, A. L. Whipkey and J. L. Buss, Santa Fe.

After the games the hostess corded her guests to the where refreshments were served. The tables were profusely decorated with wild flowers. The luncheon consisted of waffles, olive, nutmeg, asparagus and ham.

Mrs. J. G. Merritt was hostess.

WOMEN'S CHURCH
 The school 9:45 a. m. Mothers' meeting 10:15 a. m. We want a good school and a good church. We also want all to stay for the morning services.

PRESBYTERIAN AUXILIARY
 The Presbyterian Auxiliary met at the church Monday afternoon with a good representation in attendance including a welcome new member, Mrs. Smith. Mrs. McMurry.

Episcopal Auxiliary Tea
 Mrs. Joe Mills was hostess at an Episcopal Auxiliary tea on Thursday last at the conclusion of the enjoyable affair, she served banana salad, toasted pimento sandwiches and hot tea. A silver offering was given.

Bishop E. Cecil Seaman at All Saints Mission

Bishop E. Cecil Seaman of the district of North Texas (Episcopal) made a visitation to All Saints Mission Sunday morning. He was present at church school and congratulated the pupils on the splendid record for the Easter offering. This school ranked third in Stewardship the past Lent.

At 11 a. m., Bishop Seaman delivered a forceful sermon from the nineteenth psalm "So teach me to number my days." He showed how all methods of arithmetic might be applied to our religious life. "Only as we divide our activities by seven, as the week is divided, can we learn to divide by two—things earthly and things spiritual."

The new altar, which was to have been dedicated at this service was delayed in transit. It arrived this week, and the Bishop is planning to return and re-dedicate the church.

Bishop Seaman was the guest during his stay in Colorado of Mr. and Mrs. Joe Mills.

CHURCH OF CHRIST

Although there were other attractions last Lordsday, yet every seat in the church building was filled. This is rather encouraging. Let us have a better day next Sunday. The Bible classes open 10 a. m. Preaching and communion 11-12 a. m. At Conaway 3 p. m. Study of "Life of Christ" with the young people 7 p. m. Even-

ing services 8 p. m. The subject for this hour "A Case of Non-Conversion—Falls."

 3. The Home a Communion of Love—Lila McCurry.
 4. The Home is the Miniature of the Church and the State—Buford Pearson.
 Benediction.

"DAN'S THE MAN"

AUSTIN, April 6.—Elimination of the need of a second primary in the Governor's race is now confidently being predicted at Dan Moody headquarters.

As early as March 15, Cato Sells, who was Commissioner of Indian Affairs under the Wilson administration, predicted a "landslide for Moody" with only one primary needed.

Approximately a month later, former Governor O. B. Colquitt, makes the same prediction. Colquitt is a former weekly newspaper editor. He is familiar with the pulse of farms and ranches as well as that of the cities.

L. C. Stewart, of Kirbyville, represented his district three terms in the State legislature. He gives the results of three polls taken on T. & N. O. Railway trains. Of 103 votes, 79 were for Moody. Lynch Davidson had 13, and Mrs. Ferguson 11.

The Herald at Palestine, where Davidson opened his campaign, says: "From conversation and observation one is forced to the conclusion that right at this time (April 12) Attorney General Dan Moody is the most popular of the candidates in the race for the Governor ship of Texas. Things may change before primary day, but the better chance is that Moody is going to continue to gain strength.

The Sherwin Daily Democrat says it is against Ferguson but hasn't committed itself yet to Moody or Davidson. It is sport enough, however, to give top position to one of its readers, E. J. Roberts, who in a letter to the editor urges him to "Get on the Moody wagon before it is too late," meaning that there may not be room if that editor delays. Roberts points out that Davidson got only one vote in five in July 1924, and was beaten by both a klan candidate and a woman.

State Press Comments: If Lynch Davidson does not say or do something soon to attract public attention he will be lost sight of in the dust raised by Ferguson and Moody.—Liberty Vindicator.

It looks like every time Jim Ferguson sees a lot of State money sitting around idle, his imagination gets the best of him, whether the money is in the highway department, the text book fund or comes up out of the State's land in Reagan county in the form of oil.—San Angelo Standard.

Sure, we are still for Dan. We may have been wrong lots of times and may go wrong lots more times, but we are right this time.—Richland Springs Eye Witness.

In this manner I wish to extend my sincerest thanks and gratitude to the good people of Colorado for the numerous acts and words of kindness during the late illness and death of my mother. Especially would I remember the members of the Presbyterian Church who were so thoughtful and faithful in rendering every possible service. I assure you one and all, that the things will long be cherished in memory by me.

IVY S. WEBB

HIGHEST CASH PRICE for chickens and eggs at Colorado Produce Co.

PRIZE WINNING CALVES EASILY PRODUCED

That baby beeves equal to America's best may be produced in this section has been demonstrated by Les Terry, Colorado cattleman. In the above picture Terry and J. F. Morris, local butcher, are shown with two calves recently sold by him to Morris. Terry is shown standing near the fence and the animal by which he is standing dressed 554 pounds at the age of twelve months. The other calf, thirteen months of age, will, according to Morris, dress 650 pounds.

The calves were kept on feed constantly by Terry since last December. The two animals were sold to Morris at around one hundred dollars each, about twice the amount at which the ordinary "scrub" or neglected animal could have been sold.

The Chamber of Commerce is ready to lend its support to boys of this county in producing this type of animal. Bankers of Colorado, too, have always cooperated in a fine way in such campaigns. Young farmers interested in producing fine baby beeves at profitable figures should confer with the chamber of commerce or either of the banks in Colorado.

In discussing these calves, H. L. Atkins, county farm agent, says:

"Among the many products of Mitchell county there is none more important than good beef, and the fact that we may have good beef has just been proven by Mr. Leslie

Terry. Mr. Terry has had two very high grade steer calves on feed 120 days. One of them was butchered and sold last Saturday at the City Market; the other left for the block Saturday of this week.

"These two steers are of a quality and finish not often seen outside of the show ring, and the carcass of the first steer killed gave heavy cuts of very choice beef. The proportion of lean to fat was just right.

This first steer dressed 554 pounds and brought the neat price of twenty cents per pound or a total of \$110.80, and the remaining one will do equally as well. What better proof do we need as to just what quality and proper feeding will do?

The best feeder steers in the world are raised right here in Texas and the ranches of this county produce their quota; yet very few of us are interested in feeding.

Tests have proven that the grain sorghums of West Texas are equal pound for pound with corn in the feeding of cattle and we have cottonseed meal to supply the best protein concentrate known. We are sleeping among opportunities, when we overlook feeding out a few cattle, especially in this time of low-priced feed and high-priced quality beef. Why not try the diversified route to success by growing more feed and less cotton and sell this surplus feed as beef?"

"DOC" TERRELL ENJOYS VACATION AT JUAREZ

M., "Doc" Terrell, pharmacist in charge of the prescription department at the Jno. L. Dosa Pharmacy, has returned to his place after spending vacation at El Paso, Juarez and other points of interest along the

Rio Grande. Ed Majors, considered one of the best guides to ever escort tourists through the fastness of the Davis Mountains, the uncharted mesas of the

Big Bend country and through the resorts of Old Mexico, accompanied the Colorado druggist on the trip.

As to vacations, Mr. Terrell is entirely different from the average Colorado business man. Most everybody else having enough money to finance such a trip, is off from the store or business office from one to several times a year to enjoy the great out-of-doors. But not so with this Colorado pharmacist. He has the interest of his responsibilities too much at heart to be beguiled by such unnecessary matters.

In spite of the fact that Mr. Terrell is recorded as an old timer in the annals of Colorado history, he is one of the youngest men of the city. He owns a winsome smile, peculiarly his own which is worn twenty-four hours of the day. He never becomes confused in the trying ordeal of rolling pills, mixing arnica, or attending to the thousand and one duties burdening the pharmacist to the point where that smile is swept away.

The many friends of Doc Terrell in Colorado are pleased to note that he has returned and is again functioning behind the prescription case. The smile accompanying every prescription filled by this fellow has much to do with alleviating the blues, discouraging insomnia and otherwise adding to real effectiveness of the medicine. Psychology works wonders in sending a pill direct to the needed spot, as it does in so many other instances.

PROGRESS

RECORD FOR COLORADO FOR LAST NINETEEN YEARS

Table with columns for months (Jan to Dec) and years (1907 to 1925), showing various statistical data.

THE COLORADO RECORD COLORADO—WHERE THE WEST IS "AT."

OUR MOTTO: "KEEP BOOSTING." Official Paper of Colorado and Mitchell County.

THE CITY TO SUCCEED

Anticipation of enlargement to properties of the Petrolia Petroleum Company at Iatan, connected by four inch pipe line of the shallow oil field.

Among the industries which should receive attention of Colorado now might be included a textile mill. Much has been said in these columns about such an industry.

COLORADO NEEDS LANDING FIELD

Importance attached to the projected landing field at Colorado should not be overlooked but, rather, given immediate and definite attention by the Colorado public.

Hardly a week passes but that flyers pass over Colorado and many of them make stops here. In the event these birdmen were offered advantage of a good landing field, hangar service and convenient depots for obtaining gas and oil.

Officials of the chamber of commerce, it is reported, are considering plans for bringing such an asset to the city. The Record would not hesitate to predict that the citizenship of Colorado would give the venture liberal cooperation.

HONORING MOTHER

Next Sunday, May 9th, is "Mother's Day." "Mother" how that name appeals to the heart strings of every person in whom a spark of humanity exists.

Colorado will pay tribute to her mothers Sunday. This city has always responded in a fitting way to commemorate the life of mother, whether she be living or dead.

If that mother lives today, do not neglect to plant a kiss on her brow next Sunday and amend for what you might have done in the past. Leave with her assurance that you love her and would be her ideal of a deserving son or daughter.

And, if mother be passed to the beyond, have a visit with her in your heart and mind, affectionally remembering the gentle influences she bore and pledge to strive with more determination to honor her life by your own.

Mother. What a precious heritage. What a world this would be if the influences of mother were taken away.

There is higher priced Auto Oil but none better than Supreme XXX handled by all leading garages.

WATCH WHERE YOU DRINK

If you went to your surgeon for an operation, you would expect, and have a right to expect too, that your doctor use instruments which have been properly cleansed and sterilized. You have just as much cause to demand that you be served at public drinking places in glasses that are properly cleansed and sterilized.

Remember when you drink at our fountain that you are drinking from a glass that is perfectly clean and perfectly sterile, getting just as fine drinks as can be prepared and avoiding the danger of mouth infections from the person who drank ahead of you.

For Your Healths Sake

If you appreciate a bargain buy a 65c box of stationery for 39c Saturday. J. Rordan Co.

MISSION THEATRE

THURSDAY, MAY 6th
Wild Bull's Lair

With Fred Thompson. Here's a good western with the popular star and his wonderful horse Silver King. It's good so don't fail to see it this is the last day.
Comedy—Raisen Cain.

FRIDAY AND SATURDAY AFTERNOON

The Human Tornado

Another A-1 western, and a good comedy.

SATURDAY NIGHT

Tearin Loose

A western picture with Felix the Cat for a comedy.

MONDAY & TUESDAY

Cheaper to Marry

With Lewis Stone, Conrad Nagel, Marguerite De La Motte. A picture with a thrilling message. A wonderful cast and a good Metro picture.

WEDNESDAY & THURSDAY

East Lynne

An all star cast, including Alma Rubens, Marjorie Daw, Lou Tellegen, Frank Kennon, Edmund Lowe and 8 other stars. This is one of the oldest and sweetest stories ever written and the picture is a Fox Special with special cast.

SOCIETY

Birthday Party
Little Jimmie Charlton duly celebrated his fifth birthday Tuesday by having eighteen little folk come play with him. Games were played until all were tired then the birthday cake was admired and the candles blown out. Ice cream cones, cake and candy were served.

Harmony Club
The Harmony club met with Mrs. Will Doss Tuesday. Besides the members the players were Mesdames Jesse Gage, Byron Byrne, P. C. Coleman, D. H. Snyder, S. H. Millwee, Tom Hughes, J. E. McCleary, Leslie Thomas, John Brown, W. R. Douglas, W. B. Crockett, C. W. Hubbard, Morton Carey Prude and Lois Prude Bennett. At the conclusion of the games the hostess served vanilla ice cream and white cake. Mrs. Earnest Hamlett will be the next hostess.

Parent-Teacher Association
The Parent-Teacher Association met at the high school building Tuesday with the vice-chairman presiding. Mrs. Merritt and Mrs. H. S. Beal gave reports of the District T. F. W. C. at Cisco and the District Parent-Teacher Association at Pecos. Mrs. Stewart Cooper led the round table discussion for the things best to have as the objective for the association next year. Many things are needed, the most discussed were books and library equipment, Health work, hot lunches, piano and play ground equipment for the primary school. Adding public school music to the school and other things. These suggestions were given to the executive board to select, what in its judgement would be the best to set as the objective another year. This year has seen the completion of the payments on the playground, putting typewriters in the school, the beginning of physical examinations, weighing of pupils and health instructions given them, furnishing stand tables.

Remember this is National Music Week and a special musical program will be given at this theatre Thursday night, 8:30 p. m., with regular picture program.

viola records for the primary school and the bringing of some good entertainments to the schools.

PALACE THEATRE

THURSDAY, MAY 6th
Just one more day of

Irish Luck

With Thomas Meighan. A tear, a laugh, a gasp that's Irish Luck, be sure to see it. Also you will be entertained with a special musical program on this date with this picture, the musical program will start at 8:30 p. m. Picture at 7 p. m. The picture is extra good also the musical entertainment consisting of home talent singing and dancing.
Also news and fables.

FRIDAY & SATURDAY

The Clash of Wolves

With Rin-Tin-Tin, every one will like this picture.
Comedy—Hold Your Hat.

MONDAY & TUESDAY

Lovers In Quarantine

With Bebe Daniels, the story of a girl who acts first and thinks afterward. They do that sometimes. But what is the outcome? Romantic, funny and entertaining.

Comedy—Harry Langdon in "His New Mama" its a scream.

WEDNESDAY & THURSDAY

The Golden Princess

With Betty Bronson. This is a Bret Hart Western, also an A-1 Paramount production. All star cast and a picture that will please.
Comedy—Nursery Trouble.

This will be the last meeting of the year, the necessary business will be transacted by the executive board.

Lending Library

The librarian for the county lending library stated Saturday to the officers that if it was to be a success much longer more books would have to be added as the regular patrons had read most of the books and would not pay the dollar another year for the privilege if more books were not added. Those in charge of this work feel that it has filled a great need and would like to be able to continue the service. Many boys and girls have been able to get their complimentary school reading besides it has furnished good reading for numbers of others. They appeal to those wishing to help get the young read good books to assist in this work in the best way to make it a permanent success. If the time is propitious for a county library the officers will be glad to merge it into this and thus have a growing and permanent library. Think on this. And in the meantime donate a good book or a cash offering to buy one.

Business Meeting

The Baptist W. M. S. met in business session at the church Monday afternoon with the president, Mrs. McComb in the chair. The regular business was transacted. Mrs. Whipple gave a report of the district meeting which was recently held in Sweetwater. It was voted to entertain the senior class of the Colorado High School just before the close of school.

Next Monday will be the regular missionary program. Mrs. Jim Johnson and Mrs. Keathley are the leaders. The topic for the day is "The Hospitals at Home and Abroad."

Bridgettes

The Bridgettes met with Mrs. Arlie Taylor last week. Miss Clippie Bennett won high score. The hostess served a salad course. Mrs. Lawey Tidwell will be hostess this week.

Missionary Meeting

The Christian Missionary society met for the May program with Mrs. Ed Jones, Monday afternoon. The topic for study was "Our Sister Continent" with Mrs. Sam Majors leader. Mrs. Hardison talked on South America. Mrs. Venable observations in South America. Mrs. Broadus told of the life of Miss Kingsberry, a faithful missionary of forty-three years service and who died recently. Mrs. J. E. Pond read extracts of letter from missionaries in the world call. Mrs. J. E. Jones told of the janitress of Porto Rico. After the program the following officers were elected.

Mrs. Ed Jones, president; Mrs. Venable, vice-president, Mrs. J. E. Jones, secretary; Mrs. C. L. Root, treasurer. At the social hour the hostess served a salad course, angel food and ice tea. The aid society will meet next Monday.

Civic League

The Civic League met in the library at the court house Saturday with the president, Mrs. Merritt in the chair. Besides the regular business a report was given by those attending the district meeting in Cisco. It was also decided to work with the city secretary to get the garbage taken from the residence districts at certain regular periods and thereby preventing flies and sickness. The League went on record as favoring a county fair and would help in any way possible to make it a success especially the woman's department.

Shakespeare

The Shakespeare club met with Mrs. Charlton. Mrs. Brennan led the lesson from Shakespeare's Twelfth Night and the Mentor magazine, "Mounds and Mound Builders." At the social hour the hostess served a lovely two course luncheon. The final meeting of the year will be with Mrs. J. B. Morgan this week.

Hesperian

The Hesperian club met with Mrs. J. Ralph Lee. After the business period the president, Mrs. Millwee gave a full report of the Sixth district convention which recently met in Cisco. At the social hour the hostess served individual cakes with pineapple filling, rolled lettuce, olives and coffee.

Mrs. Randall and Mrs. Lester Thomas were guests. Mrs. Vivian Shropshire will be hostess this week at Mrs. S. T. Shropshire's.

Eighth Birthday

Mrs. Ralph Beal entertained a number of little boys and girls of the neighborhood last Saturday. The event being to celebrate her son, Ellwood's eighth birthday.

After games on the lawn the birthday cake was cut and served with punch. Each child left a remembrance of the happy event.

District Meeting

The Eleventh Annual Convention of the Sixth District, T. E. W. C. which was held in Cisco last week was well attended by Colorado women,

fourteen representing the different clubs of this county.

Cisco did herself proud in the way of entertaining the host of delegates from over the district. They were entertained in the homes and each one felt she had the best home and hostess in the city.

The Lions club and Rotary club, the Chamber of Commerce, the pastors of the town and the superintendent of the public school, each had a share in making the stay of the women pleasant and one long to be remembered by them.

The many features of entertainment were the barbecue, the luncheon and the various musical programs given by the good people of Cisco. The Colorado women felt justly proud of the president and secretary, Mrs. Broadus and Mrs. C. C. Thompson, for the way in which business was expected. The program was carried out in full and there was no partiality shown to any one.

The reports showed an interest taken by West Texas women in all good works for betterment of home, school and community. There was a resolution asking that the Volstead act be left intact. One that traffic laws be observed and especially around school grounds, where children's lives were mostly endangered. In fact it has been demonstrated that women can be good mothers and also take an interest in the things out side of the home, or rather outside of the four walls of the home, for in all walks of life the home is influenced by what is carried on outside.

Miss Mary Broadus, daughter of the president received the \$10.00 prize given for the best one-act play.

The state president, Mrs. Fields, first vice-president, Mrs. Nagel, state parliamentarian, Mrs. Buchanan and Mrs. Mills were among the noted visitors.

The meeting next year will be in Ozona.

Entertain Teachers

The Mitchell County Federation of Women's clubs will entertain the teachers of Mitchell county at the Saturday afternoon from three till five o'clock with this program:

Words of Welcome—Mrs. Ed Jones.
Reading—Freida Merl Reid.
Violin Solo—Herm Lockhart.
Talk—Mrs. H. B. Broadus.
Reading—Beatrice Logan.
Fairy Dance—Allene Carey.
Reading—Mrs. Lockhart.
Talk—Mr. R. B. Norman.
Reading—Miss Adams.
Refreshments.

Social Meeting

There was a social meeting of the Philaetha class of the Methodist Sunday school at the home of Mrs. Buchanan last Thursday evening honoring two of the members, Misses O'neal and Inez Butler who are

teachers in the public school and who are soon to leave for their homes. The form of entertainment was 42. On each table was a dish of salted peanuts. Pink and white brick ice cream and angel food cake were served. Sweet peas were given as favors and each of the honorees were presented with an arm bouquet of carnations.

Program for National Music Week
Thursday evening at 8:30 o'clock a program by the leading talent of Colorado will be given between the pictures featured at the Palace Theatre.

atre.

Sunday evening, May 9th at 8 o'clock "The Little Home in Bethany" will be given by voices and orchestra from the churches of Colorado. The public is invited to attend these interesting programs of song and story.

Fred Brown, prominent business man of Loraine and president of the Mitchell County Fair Association, spent a business visit in Colorado Wednesday. Mr. Brown reports considerable building activity at Loraine.

Methodist Church

There were 218 at S. S. with a good attendance at church. We are to begin our revival meeting the second Sunday in July. Let each one pray that the meeting may be a great blessing to the entire community. Come and be with us next Sunday. We want to reach that 250 mark. Come and worship with us and if you feel that it is not worth while we will pay you a dollar, provided we can borrow it. We will have a Mother's Day program at the morning hour. The League will meet at seven. The new officers of the league will be installed. At eight we will have high school night, the subject will be "The Goal of Life." Speak to some one about Christ. Live the Christ life.

Miss Isla Bruce, entertained her Sunday school class and a number of others with a picnic at Pecan Grove Monday afternoon.

Mr. and Mrs. Archie Thompson, from Coahoma visited here Monday. Mr. and Mrs. J. F. Bennett, accompanied them home for a short visit.

Mrs. J. L. Pratt, left Tuesday to visit her husband who is under physician's care at Abilene. And will, also, visit her mother at Hico, who is quite ill, before returning.

Mr. and Mrs. McLeand and daughter of Champion and niece Miss Effie McLeand of Snyder were guests in the E. J. Adams home Sunday.

The Woman's Missionary society held an especially interesting meeting at the church Monday afternoon. After the devotional led by Mrs. Hester the visiting ladies from Colorado, Mesdames Jones, McCleary and Merritt gave a fine report of the annual missionary conference which was held at Lubbock last week. A delightful social hour was enjoyed and refreshments were served by the local women.

Mrs. W. F. Johnson and sons, Wills Loveless and Temple Diron, of Abilene, visited here latter part of the week and attended the singing convention at Colorado Sunday.

Mr. and Mrs. W. K. Miles were called to the bedside of Mr. Miles, father at Ft. Worth Sunday.

Dad Frazier has been real sick this week but reported better at this writing.

Mrs. W. M. Richards left Saturday for Frankston to be with her mother who was quite ill and reported no better at this writing. Mr. Richards and daughters Edna and Ruby will leave for Frankston this week.

Commencement Exercises

The baccalaureate sermon will be preached at the Methodist church, May 16th at 11 o'clock by Dr. Baxter, president of Abilene Christian College. Commencement exercises will be held May 17th at the high school auditorium 8 o'clock. The seventh grade graduation exercises will be held in the school auditorium Friday night, May 14th and the primary grade exercises will be held Thursday night, May 13th, in the school auditorium.

There will not be any baccalaureate sermon for the seventh this year because it places too much emphasis to grammar school graduation, and will detract from high school graduation later in the week.

Mr. and Mrs. G. O. Garrett of Waco, visited relatives and friends here the latter part of the week returning home Monday.

Miss Mamie Carol of Sweetwater, is visiting in the W. P. Chamness home this week.

Mr. G. W. Caswell father of Homer Caswell, en route from his home at Norton to Arizona was taken dangerously ill at El Paso and arrived here Monday in company with his brother, Robt. Mr. Caswell is under special care at the L. T. Britton home. His children G. R. Caswell, Grady Caswell, J. B. Caswell, Miss Annie Caswell, Mrs. Pearl Forbus, of Norton; S. M. Caswell, Seagraves; C. Z. Caswell, Paint Rock; and Mrs. Edna Henry of Littlefield, have arrived to be at his bedside.

At a regular meeting Monday afternoon the city officials purchased a La France fire truck with all the latest equipment, to be delivered by the 1st of August. Streets are being graded this week. Lots are being sold and new homes and businesses being planned. Fine rains have fell and the city is on its way even if we don't know where she's going.

Mrs. Ollie M. Erwin returned to her home in Abilene, Monday after a week end visit with Mr. and Mrs. W. S. Erwin.

Mr. and Mrs. G. O. Garrett and daughter, Romelle, Mrs. Jessye Garrett and children visited in the Merlin Hastings home at Roscoe Sunday.

Mrs. Jack Reinhardt of Waco, is visiting her brother A. G. Furlow and family.

Mrs. A. G. Furlow is on the sick list this week.

Mrs. A. H. Howell and daughter, Mary of Abilene spent the week end visiting in the George Howell home.

Mr. and Mrs. C. L. Harrison of Brownlee were in Loraine shopping Monday.

Mr. Lark Crutcher and Misses Dorcas Reeder, Bessie Marie Duran and Alta Lee of Simmons University spent the week end here visiting home folks.

Mr. George Howell visited in the Longfellow community Sunday.

DAN'S THE MAN

We predict that Dan Moody will not be in the primary run-off. There won't be any run-off so far as Dan is concerned. He will be nominated on the first ballot, in spite of the fact that Jim Ferguson is an artistic mudslinger and an assassin of good name and honorable intentions. He also has every bootlegger an inch long in Texas to back him, but there is not enough of them. Dan will run so fast that the others will not get a look in. We may be wrong in our predictions, but we have asked God to give us a he-man for governor. The prayer has been printed and sent broadcast over afflicted Texas, and we have faith that he will answer it in the person of Dan Moody.—Sterling City News.

Interesting Facts about Gasoline

Modern Refining The "Cracking" Process

To meet the growing demand for Gasoline, which has far outstripped the increase in crude petroleum production, the "Cracking Process" for refining was developed.

By subjecting heavy oils, such as gas and fuel, to high pressures and temperatures, they are converted into lighter hydro-carbons, and when this process is carried to a certain point, gasoline of a high quality is one of the products. This is called "cracking," by which is meant the splitting or breaking of a heavy oil molecule into many lighter ones. In this manner the yield of finished gasoline is increased from 25% to 30% over the old method of straight distillation.

In 1925, about one-third of the country's gasoline was refined by the "cracking" process.

At the Simms Refinery in Dallas, the natural gasoline content of the crude oil is distilled off in the usual way. In the same manner gas oil is taken from the crude oil. This gas oil is "cracked" by modern methods into gasoline. The natural gasoline and the "cracked" gasoline are then blended into a high-grade motor fuel.

The West Texas chain of Hicks Stores, including Colorado, will be the first to go over the top but the quotas as a whole will be reached. Why? Because we're absolutely certain of 3 fundamental things. FIRST—We are absolutely certain that Hicks Quality is right. SECOND—We are absolutely certain that Hicks prices are right. THIRD—We are absolutely certain that the Hicks policy of dealing with the tire-buying public is the biggest, the broadest, the fairest merchandising method known among tire dealers of America. Our quality, our prices, and our policy has built the largest and most aggressive tire-selling organization in the United States, and these three fundamental principles will put over the most stupendous tire-selling program ever inaugurated in the State of Texas.

The Colorado Store's Quota is Two Big Car Loads

Fifty Thousand Dollars Worth of Dayton Tires Only

34 Cars of Dayton Tires bought for this campaign an avalanche of buying will be introduced by the Special Price concessions--You can now buy Safely.

Hicks Values Can't be Duplicated

Why?

Almost every condition points to justifying a return to the prices in effect last May. While there has been no decline in prices since January 3rd, we are strongly of the opinion that the prices of principal materials—rubber and cotton—justify a sharp reduction in prices. Following the Hicks policy of adhering to the principles that should be the ruling factor in the price of tires and tubes, we will "keep the faith" by giving Hicks customers all humanly possible benefits. We feel justified in making the statement that you are safe in buying your tire equipment now at the new prices quoted in this advertisement.

JOIN THE CHAMBER OF COMMERCE

SECTION SIXTEEN PAGES SEVEN COLUMNS

22ND YEAR - NO. 32

COLORADO, TEXAS, FRIDAY, MAY 7, 1926.

WHIPKEY PRINTING

AMENDED POTASH BILL IS VICTORY OF WEST TEXAS

THE CHAMBER COMMERCE WIRES CONGRATULATIONS TO SHEPPARD.

Indications that the Sheppard potash bill, after having been trimmed and otherwise amended by committee and departmental head actions at Washington, is to become a law, clearing the way for the federal government to make a start on the long sought for Potash exploitation work in West Texas. Considerable elation was expressed among officials of the Colorado Chamber of Commerce Saturday when news reached here that the house committee on Mines and Mining Friday reported out favorably the potash exploration bill as amended in accordance with suggestions submitted by Secretary Hoover of the Department of Commerce.

Senator Morris Sheppard of Texas, author of the bill, Hon. C. B. Hudspeath, representative from this legislative district and other members of the congress from Texas have actively sponsored passage of the bill. The Colorado Chamber of Commerce has been actively associated with this fight from its inception some two years ago. The chamber of commerce wired Senator Sheppard congratulations Saturday and urged him not to slacken in his efforts to have the bill finally made a law. The wire sent Senator Sheppard was as follows:

"Congratulations upon success of your fight to obtain potash exploration bill. Colorado and all of West Texas appreciate very much your splendid fight in this important field. May the best of success attend you in all your efforts. We are with you."

As so amended the \$500,000 appropriation carried in the Sheppard-Hudspeath bill, which already has passed the Senate, is cut to \$100,000, the largest sum which Director Lord of the Budget Bureau is willing to approve.

It is stipulated that a like sum shall be appropriated for four successive years, thus making the total a half a million dollars.

Expenditure of this fund is placed in the hands of the Secretaries of Commerce and Interior, jointly, and before any drilling is done they must obtain leases binding the owners of the land to be tested to pay the cost of operation if potash or other valuable mineral is found. Moreover, it is required that all land owners within a mile of the spot to be tested must enter an agreement stipulating that the Secretaries of Commerce and Interior may act as arbiters in fixing the maximum price at which potash right on their land, if any are found to exist, may be sold.

Then, too, these two officials of the government are to fix the maximum price at which potash to be found and mined may be marketed.

Under one provision of the bill authority is granted to enter into cooperative drilling arrangements with individuals, corporations, States, municipalities or educational institutions.

This is in conformity with Secretary Hoover's suggestion, who believes oil companies or, possibly, the State of Texas might wish to cooperate and bear part of the expense in the proposed drilling operations.

Efforts will be made to call the bill up under unanimous consent and if it passes the House Senator Sheppard is hopeful the revised measure will be passed by that body, thus eliminating necessity for appointment of a conference committee.

JUDGE GORDON MCGUIRE HOLDS COURT THIS WEEK

Hon. Gordon B. McGuire, district judge at Lamesa, is occupying the bench at Colorado this week during the first week of criminal district court, in exchange with Judge W. P. Leslie, who is presiding at the Dawson County district court at Lamesa. Exchanges of benches was authorized owing to the fact cases are pending at Lamesa this week in which Judge McGuire was disqualified.

BERRY-FEE TO ERECT NEW OFFICE BUILDING

Contract has been awarded by the Berry-Fee Lumber Company for erection of a new office building at their yard at Main and Oak streets. The old two story frame building used by the company as offices since the yard was opened here a few years ago is being razed and the new building will stand on this site.

The new building will be two stories and of Spanish architecture. The exterior will be finished in Spanish stucco and tile effect. The first floor will be occupied by the company offices and on the second floor will be located additional offices and private apartments for use of employees.

Jack Nolen of Colorado has general contract. Nolen started a crew of men at work Monday and expects to have the old building torn away and excavations for the new building started before end of the week.

CHASE RETAINED AS HEAD CHAUTAUQUA COMMITTEE

Rev. J. E. Chase, president of the Colorado Chautauqua Association, last year, was re-elected to this place at the first meeting of guarantors held Monday afternoon at the City National Bank. He announced that an active campaign to sell season tickets for Colorado's Premier Chautauqua, to open Wednesday, June 2, for one week, would be started in a few days.

Other officials elected were W. S. Cooper, secretary and T. W. Stone-road, treasurer. Rev. Mr. Chase announced appointment of the following as an executive committee:

J. C. Hall, Rev. M. C. Bishop, J. Ralph Lee, L. B. Elliott, C. R. Far-rik, J. A. Sadler, Mrs. J. G. Merritt, Mrs. A. B. Blanks, Mrs. J. Riordan, Mrs. J. F. Carey and Mrs. Wm. Simp-son.

The Redpath-Horner Chautauqua, considered the best in America, has been billed for a week's engagement at Colorado. This company was brought to Colorado last Summer for the first time and so pleased were the people with the programs given that contract, signed by 104 citizens, was made to return the chautauqua this year.

EL PASO MAN ENDORSES DUGGAN FOR PRESIDENCY

Berry B. Cobb, secretary of the El Paso Scottish Rite bodies, spent Saturday in Colorado on business in connection with this Masonic fraternity. Mr. Cobb takes considerable pride in the strides being made by the El Paso Masonic bodies, especially in support of the children's hospital located there. Here scores of unfortunate children are taken and given medical and surgical treatment in one of the best hospitals of the country.

Mr. Cobb, in speaking of the coming convention of the West Texas Chamber of Commerce at Amarillo, spoke in a commendable way of Hon. Arthur Duggan of Littlefield for the presidency. "Duggan is an outstanding man in West Texas and is just the type of leader West Texas should place at the helm of this great regional organization," Cobb stated.

LORAINE SCHOOLS CLOSE FRIDAY, MAY FOURTEENTH

Another two weeks will see the closing of the 1925-26 term of the Loraine public schools and arrangements for the various programs have about been completed.

Prof. Blythe stated Thursday that Dr. Baxter, president of Abilene Christian College would preach the baccalaureate service Sunday May 16th, and that Dr. Horn, president of the new Texas Technological College would deliver the commencement address Monday night, May 17th.—Lorraine Leader.

The 1921 Study club met with Mrs. R. P. Price. The lesson was from the year book, the American Home.

Mrs. Dewey Tidwell was a guest. The hostess served sherbert and cake. Mrs. C. C. Thompson will be hostess this week.

RETIRING PRESIDENT GIVEN PRAISE OF SIXTH DISTRICT

MISS MARY BROADDUS ALSO HONORED AT CISCO CLUB CONVENTION

The old adage, "Like father, like son," will apply with special fitness in the instance of Mrs. H. B. Broad-dus of Colorado, retiring president, Texas Federated Women's Clubs, Sixth District, and her daughter, Miss Mary Broaddus.

So well did the three hundred and fifty club women attending the annual convention, Texas Federation of Woman's clubs, held at Cisco recently, esteem Mrs. Broaddus as a dependable leader and an outstanding figure in federated club circles of the Southwest, that they gave her a trip to the annual Bi-ennial convention, to be held at Atlantic City this month, with all expenses paid complimentary by club women of the district. Mrs. Broaddus will attend the convention and plans to accompany the Texas delegation leaving Fort Worth by special train May 21.

Miss Mary Broaddus, a sophomore at Texas Christian University, Fort Worth, easily won first place in the original play contest sponsored by the district. Out of a number of entries at Cisco, Miss Mary was acclaimed winner and given the prize of \$10. Her offering, "Phantom Music" a one-act playlet, will appear in several Little Theatres of the State.

At Texas Christian University, Miss Mary is one of the most popular young ladies appearing on the campus in several years. She is president of the T. C. U. Dramatic Club and takes an active part in much of the college activities. As a dramatist and composer, Miss Broaddus has been described by critics as a young lady of splendid talent.

SUNDAY SCHOOL CLASSES PICNIC AT SEVEN WELLS

The Young Mothers Wesley Bible class of the First Methodist church, will host to members of the Young Business Men's class of the same Sunday school at a picnic at Seven Wells Tuesday of next week. The ladies lost in a recent attendance contest and are to entertain the men with an outing as penalty.

Mrs. J. E. McCleary, teacher of the ladies class, Mrs. T. W. Stone-road, president, and other officials are planning to entertain 200 people at the picnic. All members of the two classes, together with members of their families are invited. They are to meet at the church Tuesday afternoon at six o'clock and motor to Seven Wells.

COUNTY TEACHERS ASSN. TO HOLD FINAL MEET SATURDAY

The last meeting of the Mitchell county teachers association for the present school year will be convened at the American Legion Memorial Building Saturday afternoon at 3:30 o'clock. The teachers are to be guests of the Mitchell county federation of women's clubs at the American Legion building in a social program. The annual business session will be held following adjournment of the social features.

The teachers association, with an enrollment of 110, was organized a few months ago and has since held meetings once each month at Colorado.

DEEP CREEK HIGH WATER LEAVES COW IN TREE TOP

After the waters of Deep Creek had subsided a Jersey cow was left hanging in a tree top on the Albert Johnston place in the Dunn community. Those who saw the cow declare that she was at least twenty-five feet above the ground. Deep Creek in that community was higher than the oldest residents have ever seen it before, and it did considerable damage to some bottom lands, especially lands that had been plowed preparatory to planting.—Scurry County Times.

Mrs. Carter has returned from her visit to Dallas.

WORK ON 1ST CHRISTIAN CHURCH BLDG. DELAYED

Brick work on the First Christian church building, at corner Elm and Fourth streets, was delayed a few days of this week on account of failure of stone trim to arrive from Dallas. Brick layers were started on this building last week.

Doors and windows for the church building, together with mill work, were received the latter part of last week.

ROCK ISLAND PLOW MAN SAYS CONDITONS GOOD

The Record had a very pleasant visit this week with W. I. Bogardus, Manager of the Rock Island Plow Co., of Dallas. Mr. Bogardus was here looking after the interest of his company with its local distributors, Price Bros., of Colorado. In the course of his conversation, Mr. Bogardus stated that Mitchell county looks better than any county he had visited this spring. His company is looking forward to the largest trade in its history in this section.

Price Bros., and their predecessors have handled Rock Island implements and wagons in Mitchell county for a great many years. The line is extremely well and favorably known.

Price Bros. business during this year, so Mr. Bogardus states, was just three times the volume it was, even in the big years of 1919 and 1920. Every thing points to a still larger trade this year. Both Price Bros. and the Rock Island Plow Co. are confident that their 1926 business will be greater than that of 1925.

Mr. Bogardus stated that his Company had just completed their thirty-second year in the State of Texas. Rock Island Plow Co. opened up in Dallas in 1892 at the corner of Elm and Houston streets, and have occupied that corner steadily ever since. In buying farm implements it is always well for the farmer to look to the stability and continued operation of the company whose implements he purchases.

Price Brothers, so Mr. Bogardus says carries the most complete line of Rock Island repairs and parts of any distributor in West Texas.

CHAMBER OF COMMERCE EXECUTIVES TO MEET

The May session of executive officials of the chamber of commerce was to have been convened Thursday at 6:15 p. m. in basement of the Barcroft Hotel, it was announced Tuesday from the organization office.

This meeting of the board was said to be one of the most important held in several months. Several questions of considerable importance were pending. Among these was the question of starting plans for sending the band and delegation to Amarillo in June for the West Texas Chamber of Commerce convention, and discussing plans for the annual business meeting. The fiscal year of the organization ends May 1.

Committee representing the Lions club and the band were to meet with the chamber directors to discuss important matters affecting Colorado and the band.

Owing to importance of the meeting it was urged that every member of the board be present.

FORMER COLORADO CITIZEN IS BURIED IN CALIFORNIA

J. W. Lovelady, for many years a citizen of Colorado, died recently and the body was buried at Auburn, California, according to information received in a letter from his sister, Jennie Leak, by Ed Dupree.

Mr. Lovelady will be recalled by residents of Colorado who have lived here since the early days of the city. The sister was anxious to learn address of two children, supposed to be living in Fort Worth. Any information concerning these relatives should be communicated to her at Auburn, California, P. O. Box 506.

Study Course

The Methodist Mission Study course class met with Mrs. R. N. Gary for a study of our neighbors over the border.

SPECIAL TRAIN ENDORSED BY COLORADO LIONS CLUB

CIVIC ORGANIZATION NAMES COMMITTEE TO WORK ON AMARILLO TRIP.

With the Lions Club and Chamber of Commerce enthusiastically doing team work to put over the plans of sending a large delegation to the West Texas Chamber of Commerce convention at Amarillo, considerable impetus has been added to this program, announced a few weeks ago by the chamber of commerce.

Membership of the Lions club were found to be considerably enthused over these plans when the question of sending a special train to the Amarillo convention came up for discussion Friday. The Lions voted to give the chamber of commerce its full cooperation in working up a large delegation and named a committee to represent the club in fostering this undertaking.

This committee, composed of E. H. Winn, W. M. Crosthwaite and O. B. Price, are to meet with executive officials of the chamber of commerce Thursday night and it was expected that a general committee representing the two organizations would be named at this meeting. That Colorado will have a strong delegation to accompany the band to Amarillo is now considered with little doubt.

BIG GAIN IN USERS OF HUDSON-ESSEX CARS

A gain in Hudson and Essex buyers of 53 per cent in the first three months of 1926, as compared with a similar period of 1925, is announced today by Roy D. Chapin, chairman of the board of the Hudson Motor Car Co. These figures, just compiled, show that 55,000 Hudson and Essex cars were sold to owners in this period as compared to 36,000 in 1925—a gain which is considered as all the more gratifying because the 1926 period was itself one of unprecedented success. March was the biggest month in Hudson and Essex history in all respects.

"This high record," said Mr. Chapin, "proves that the utility and comfort of the enclosed motor car at a low price means a big business even in the winter time. Spring of course, is by far the most active season but the winter months of 1926 certainly showed a strong and healthy demand. Our deliveries to owners each month have run far ahead of last year."

"The particularly significant thing to us has been the growing recognition of the Essex Six. When we pioneered the small six cylinder field we knew the tremendous possibilities in it. Our desire was to produce not only the smoothness of the larger sizes but also an enclosed car to sell for less than \$800. Today, our sales demonstrate we have arrived at our goal. Close observers tell us that the Essex has created an entirely new place in the automobile field. It has seasoned itself into a highly developed model and the public seem more convinced than ever of the quality of the service it offers among low priced cars.

"Few people realize how hard our engineers and factory organization work to perfect a new car every year after its introduction and how much the cost of operation of any vehicle is dependent on this. Just as Hudson has ranked as a highly developed model for many years, the Essex with its large number of cars running and the benefit of three years experience on the highways is now reaping the reward of an established model both in volume of business and the low price at which we are enabled to turn it out."

\$2,500 FOR LOTS

Mr. J. A. Sadler of Colorado purchased two lots on the corner just south of the Auto Supply from Dr. T. A. Martin and S. A. Martin, paying \$2,500 for the two vacant lots.

So far this is the highest price that has been paid for unimproved real estate in Loraine and indicates the upward trend that real estate values are taking here.—Lorraine Leader.

WHIPKEY-PRICE BUILDING IS UNDER CONSTRUCTION

Excavations for the Whipkey-Price building at Elm and Third streets, were started Saturday by J. E. Pond, contractor. Pond expects to rush work on this building in the attempt to complete it within thirty days.

The building, to be of stone and brick construction, with plate glass front, will have four store apartments. Two of the stores will face north on Third street and two east on Elm.

MOTION PICTURE THEATRE OWNERS MEET IN DALLAS

Mr. and Mrs. Ross D. Dixon of the Palace and Mission theatres are planning to attend the semi-annual meeting of the Motion Picture Theatre Owners of Texas which opens in Dallas, May 10th at the Baker Hotel for a three days convention.

The program, as announced, includes a golf tournament Monday afternoon, business sessions Tuesday and Wednesday with a Midnight Frolic for Tuesday night that will be participated in by more than 100 of the vaudeville artists from the four vaudeville theatres in Dallas and special imported talent. Wednesday night there will be a Cabaret Banquet and Dance in the Crystal Ball Room of the Baker Hotel with special feature acts and entertainment, including a musical review of thirty artists.

More than 300 exhibitors attend these semi-annual conventions and special representatives from all of the large film and distributing companies gather with advance showings of the feature films that are to be released during the coming month. Mr. and Mrs. Dixon will no doubt bring back announcement of some of the big feature bookings for Colorado.

MENS CHORAL CLUB CITY'S NEWEST MUSICAL ORDER

Organization of a men's choral club was perfected at the First Methodist church Friday evening by several male singers of the city. A charter membership of seventeen, is reported by A. W. Dearen, vice president. Other officials elected were as follows:

W. L. Doss, president; Ray Womack, secretary-treasurer and H. W. Elliott, critic.

Dearen states that the organization was formed to encourage vocal music. Additional members are expected to be taken in and some strong quartette and male choruses organized. The club is strictly a men's affair, it is announced and applications which might be received from women for membership will be summarily relegated to the waste basket.

LORAINI WOMAN WINNER IN CO. KITCHEN CONTEST

Mrs. C. H. Thomas, Loraine, won first place in the Mitchell County Better Homes contest, recently concluded by the Extension Department, A. & M. College and publishers of the Dallas News. The contest was personally directed by Miss Ives Belle Jones, Mitchell county home demonstration agent.

Miss Jones stated Tuesday that interest in rural club work was growing throughout the county. At that time there were twelve active clubs in the county and application for organization of new ones had been received.

RIORDAN IS ELECTED AS DELEGATE TO STATE MEET

J. Riordan, president of the Colorado Lions Club, was the choice of members of the club to represent Colorado at the annual State convention to be convened in Houston Monday for a session of two days. Mr. Riordan stated that owing to pressing business duties he could not state definitely if he could attend.

L. B. Elliott, secretary-treasurer of the club, was elected alternate delegate and in the event the president fails to make the trip, Colorado is assured of representation at the convention.

DUPLIX PRESS INSTALLED BY WHIPKEY PRINTING CO.

PUBLISHERS OF THE RECORD NOW HAVE ONE OF BEST PLANTS IN STATE

Installation of the new Duplex Web Perfecting Press at The Record office is being completed by J. H. Nord of Battle Creek, Mich., factory representative, who arrived in Colorado Friday morning of last week and has been directing the task of assembling the big machine since that time.

From this date The Record is to be issued from this press, assuring the public of Mitchell county a still better newspaper and an advertising medium that was not possible heretofore. Since taking over management of The Record twenty years ago the Whipkey Printing Company has built with development of Mitchell county and Colorado until today this plant is recognized as among the best in Texas. The paper is being enlarged from a six-column to a seven-column page.

The press prints two, four, six and eight pages direct from the roll at a speed of about 3,500 papers an hour all in one operation, delivering the papers, neatly trimmed and folded, ready for addressing at the completion of its performance.

The old cylinder press which was used for many years printed two or four pages at a time at a speed of about 1200 an hour. Sheets of paper instead of the roll were used in former method and this meant that the paper had to be handed through the press sheet by sheet, being folded by a mechanical folder in the last operation, before they were ready for the carriers and the mails. Much time and labor were required by the former method. A great saving in time and labor will be made by the new press.

A better quality of paper is used in printing the papers with the new equipment. As will be seen, the new Duplex press turns out a beautifully printed page with perfect impression and uniform ink distribution. It will be seen that every line of type stands out evenly and clearly and every paragraph can be easily read. There is practically no limit to the number of pages which can be printed in a day, depending on how much matter can be secured to fill the pages.

The Duplex Web Perfecting Press is a marvel of mechanical skill, and the many functions it performs in one operation are interesting to watch. The huge roll of paper will be noticed at the extreme right of the machine. If unrun this paper would reach a distance of about three miles.

First, the sheet is drawn through by hand and passed around twenty rollers, a distance of twenty-three feet from the start to the finish in the folder. This threads the paper over the web and across the bottom bed where the type forms for four pages first come in contact with the moving paper. Going to the extreme left of the press the paper is carried by rollers to the top where it struts again to the right. The paper then passes over the upper bed of forms, the reverse four pages.

DAVIDSON TO VISIT THE CITY AND ADDRESS VOTERS

Lynch Davidson of Houston, candidate for governor, has written friends at Colorado that he hopes to make a visit to Colorado about May 21 and deliver an address on the issues of his candidacy for governor before. He was in this city twice during the gubernatorial campaign two years ago and spoke to a representative number of citizens at the court house.

In speaking of the candidacy of the Houston candidate, an enthusiastic supporter of Davidson, Davidson stated Monday needs a sure enough or next time. He is confident that what Mr. Davidson has visited Colorado.

SALESMAN BUYS SECOND ESSEX

r. A. V. Fitzgerald, salesman for Hoffman-Hayman Coffee Co., San Antonio, has just purchased his second ESSEX car. He covers over 3,000 miles in West Texas every six weeks, 15 towns and villages. He recommends the ESSEX for speed, endurance, comfort and low cost per mile.

Price Brothers

Letters From The People

The Record commences this week with this two-column feature and will run it each week until the July Primary. This is to be filled with letters from the people. It doesn't matter to The Record who are for or against. Just turn yourself loose. Postal requirements as to character of utterance is the only rule you need observe in so far as the subject matter is concerned. This column is open to all, so don't try to hog all the space. All articles must be signed and post-office address given.

E. M. McCRELESS WRITES.

Dear Mr. Editor:—I am very proud indeed that you have opened your columns to the people to express their political views, and equally as proud of the restriction placed thereon. To my mind the political situation in our State has become serious. Its a matter not to be trifled with, but one to be well considered from every angle. This is no time for string up strife, casting slurs and sarcasm of any nature. I love democracy, and will mention the different kinds of democracy that I've been acquainted with during my life. First, there is Bible democracy; that's good. Second Jeffersonian democracy; that was pure. Third, Organized democracy, it was the best we could do during its time. Fourth, and last, Fergusonian

democracy, and it is too well known who, he (Jim) said composed the democratic party (meaning his of course) for me to mention it here. Now some one tell me which one to choose then I'll choose to suit myself. So it is to be hoped that in the coming election that the voters of Texas will be made to feel that we be brethren and cast our votes for the common good of our great State and its people.

E. M. McCreless.

THOMAS JEFFERSON

The efforts made to pay off the indebtedness on "Monticello" in 1925 and make it an historical shrine aroused interest in Thomas Jefferson On July 4th, 1926 we are to celebrate the one hundred fiftieth anniversary

Do the facts justify these assertions which now amount to teachings? I do not find them so. Why this long effort to minimize Thomas Jefferson? The Old New England Federalists hated Jefferson and his democratic teachings. He organized the common people and ousted them from the chief offices of the government and broke their aristocratic idols. They hated him; they began the attack and their descendants have kept it up. It is now repeated as an echo, regardless of the facts.

It has been asserted and taught, the idea cultivated, that Jefferson got his democratic ideas and doctrines from revolutionary France. There is no truth in these assertions. He had all the ideas of democracy that he ever held as early as 1769, twenty years before the French revolution. He was then in advance of Patrick Henry, George Washington, the Lees, the Randolphs or any other responsible leaders of the times. In that year he drew up an answer to the Governor for the House of Burgesses that was so radical that it was rejected. In July, 1774, Mr. Jefferson drew up his "Summary View" and many of his declarations therein were equal to those of the Declaration of Independence, written and adopted two years later. And two years made much difference at that time. From that day he was on the "black list" in England. He was at that time in advance of James Otis, Samuel Adams, Patrick Henry and the other patriots.

Hear a few of his declarations and principles written and published in the year 1774: "Kings are the servants, not the proprietors of the people." "Deal out to all equal and impartial right." "The whole art of government consists in being honest." These are common enough now but it meant treason in those days.

And these advanced ideas of democracy remained his true goal consistently for more than fifty years, in fact as long as he lived. I find no evidence that he was less constant in his opinions than Franklin, Washington, Adams, Marshall or Hamilton. In fact all of these grew aristocratic and doubted the capacity of the people to govern themselves. As the years past after independence was achieved by the colonists most of the leaders changed their opinions and advocated less freedom and more strong government. But Jefferson worshipped at the shrine of his original democracy and contended for the rights of the people until July 4th, 1826, the day of his death.

In 1779 at Mr. Jefferson's first term in the Legislature he prepared a bill to liberate the slaves and had Col. Richard Bland to introduce the same. This aroused the slave owners. This idea he held the remainder of his life. On many occasions he did what he could to free the negroes. Now millions are inclined to worship Abraham Lincoln because he entertained these ideas and was able to accomplish Jefferson's wishes ninety years afterward.

At the same time he began to push measures to break up land monopoly in Virginia. At the time all of the great estates were held and descended to the eldest son of the family. Land could not be sold. This system had been inherited and brought over from England. Jefferson pushed this reform for years and finally freed the people and the lands of Virginia. In this he aroused the vested interests of the time. It required many years to accomplish this reform but he never relented.

Likewise he began early to demand and work for religious freedom for the people. At that time the people had to pay one-tenth of all products to the church. This was the law. It made no difference whether one belonged to the church or not. He had to pay. And this one-tenth went to the established or Episcopal church. The Presbyterians, Baptists and Quakers had to pay their one-tenth to a church, which they hated. And however base the clergymen were the people had to attend church, whether they wanted to or not. Let me quote from Bishop Hoss' Life of William McKendree, "Not a few of them, the clergymen, were given to drinking, gambling, cock-fighting, horse-racing and many other improprieties. Quakers, Presbyterians and Baptists, who were guilty of no offense, were dragged before petty magistrates, insulted, fined, beaten and imprisoned." In 1764 James Madison wrote, "Pride, ignorance and knavery prevail among the priest hood." But the people had to support these men by taxation or by paying the tenth. Mr. Jefferson fought this system to a finish. At his continuous instance it was abolished. Since then people have been at liberty to worship God according to the dictates of their own conscience or not at all, if they wish. We now consider this right one of the most priceless privileges that we possess. One of the three things Thomas Jefferson ordered carved on his tombstone was that he was the author of the law giving religious freedom. The hatred engendered by the churchmen and what they said about him at the time are largely responsible for the belief among many that he was an

outspoken atheist.

Mr. Jefferson began early to advocate a public school system for the people. They had no public schools, only private schools taught by preachers for scant pay. After retiring to private life he spent his last years establishing the University of Virginia. During all of the sixty years of his public life he was pushing educational matters for the benefit of the people. A whole book would not include all of his constant, insistent and persistent labors for the education of his people.

Of all of the great men produced in the early years of our history Thomas Jefferson was the most versatile the most original and the most extensive. Quoting from William Elery Curtis in "The True Thomas Jefferson."

"No public man was ever free and so frank in declaring his views. There is scarcely a subject in the entire range of human inquiry upon which Jefferson did not express his views in writing with fearlessness." John Adams notes in his diary, "Duane says Jefferson is the greatest rubber off of dust the he ever met with." The story goes that on one occasion, while stopping at an inn, he spent an evening with a stranger from the North, a highly educated man, who was so charmed with his conversation and amazed at his learning that he inquired of the landlord who his companion might be. "When he spoke of law, I thought he was a lawyer; when he talked about mechanics, I was sure he was an engineer; when he got into medicine, it was evident that he was a physician; when he discussed theology, I was convinced that he must be a clergyman; when he talked of literature, I made up my mind that I had run against a college professor who knew everything."

Quoting from Henry Watterson, "To me he stands out, after Washington and Franklin, the one clear figure in our early history, a perfect doric column;—sure footed and far-seeing; not merely statesman of the first order, but a very principal in the domain of original thinking and moral forces."

Quoting from Watson: "In his day Mr. Jefferson combatted a greater number of laws which were oppressive, customs which were stale, tendencies which were undemocratic and fixed opinions which were popular, than any other man in public life. He aroused vested interests which were the most powerful, and which when alarmed are the most vindictive. Yet never once in all his long life did he falter, surrender and opostatize."

W. H. GARRETT

BOLL WEEVILS MAY BE ACTIVE

While April emergence of boll weevils at most stations in the South has been somewhat retarded on account of unfavorable conditions, notably continued cool weather with rain, the indications point to a considerable weevill population in some of the Southeastern States, according to the official count just published by the Delta Laboratory at Tallulah, La.

Weevill emergence general at the different co-operating stations during the first fifteen days of April has been considerably lower than was indicated by the emergence during March. As was pointed out in the last report at Tallulah, La., for the last ten years, an average of 17 per cent of the total emergence took place during March, while an average of slightly more than 22 per cent occurred during April. In other words, past records at Tallulah, La., indicate that emergence during April was considerably higher than in March. The slow emergence this year was undoubtedly caused by the unfavorable weather conditions which prevailed at most of the co-

operating stations during the last fifteen years.

MOTHERS' DAY

SUNDAY, MAY 9TH

The day that sets hearts bubbling over with tender affection— your heart in remembrance of the devotion due her and gratification in the opportunity to pay some deference to same—her heart in solace that her love has not been lavished unresponsively.

Loyalty is the underlying principle of real friendship. We can each of us be certain of at least one all-weather friend in our lives, for a mother's devotion is undying, her love is of transcendent beauty, her wisdom is the fruit of the ages. Show your mother that her love has not been lavished unresponsively.

Mother's Day is indeed a welcome event, because it affords us an opportunity to give the dearest mother in all the world some tender and loving token of our affections. Each of us, of course, can fill mother's heart with happiness in our own way. The suggestions offered here today will be of invaluable assistance in selecting just the right thing at the right price.

MOTHERS DAY

At the First Baptist church, Sunday, May 9th. A great welcome and a fine spirit awaits you on that occasion. Some one said, "God sent the birds—and flowers, the sunshine to gladden all the world in radiance unfurled; He sent June, the moon, the stars, the pearly dew drops sweet, and then He sent YOU, Dear Mother, to make it all complete." Let's honor our mothers next Sunday by attending church and Sunday school.

ANCIENT AND STALE JOKES
imposed on a Suffering Public at a Meeting of the Lions Club

Of course the Mayor comes first. Judge Looney related that not long since he was confined to his room for several weeks with slight illness. His favorite pastor failed to call on him and Judge Looney sent him this message: "Tell Dr. — to go to the devil." A few days later the Dr. called upon the Mayor and said "I received your message Mr. Looney and I have come."

The only man in Colorado who runs a business without fear of competition is Post Master R. S. Brennan. Of course his favorite joke would be about some national republican so he told this one:

Abraham Lincoln observed a small negro boy playing in the mud.

"Mose, what are you making?" he asked.

"Marse Lincoln, I'm making a church," the boy replied. "Here's the walls, here's the sides, here's the front steps, and here's the steeple."

"But where are the people?" the President asked.

"Oh, Marse Lincoln," he replied, "nowadays you don't find people in churches."

Next came Tommy Dawes the music composer, and by the way a joke on him, according to a friend of his, is that he once composed a piece of music so difficult that he himself could not play it, but Paderewski could, and did.

Then a negro story was sprung: One of the guests (Baptist, by the way), seeing Lottie, the cook, preparing dinner, thought she would show the negro a little attention by asking, "Lottie, you're a Baptist aren't you?"

"Nome, I ain't no Baptist," Lottie said.

"I thought you were a Baptist the last time I was here," the guest said.

"Nome," Lottie answered, piously, "I ain't never seed no 'casion to forsake Jesus to follow John."

Tommy Atkins who works 13 months of the year learning the farmer how to farm also acts as assistant secretary of the Mitchell county fair told this one:

A long-legged fellow came into the office and asked to enter his pig for an exhibit. The entry was made, and upon being told that the animal was out in a wagon, Mr. Atkins went out to look at him. He found a razorback hog about four feet long and four inches wide weighing perhaps forty pounds.

"You can't enter that pig," Mr. Atkins told its owner. "Why it hasn't a dollar's worth of meat on him."

"Hell! Who said anything about meat?" the irate owner replied. "I don't raise my hogs for meat, I raise 'em for speed. They have to be fast in my country to keep the niggers from stealing 'em."

Lark Costin who is a great orator as well as a great story teller was called on and he said one day a man rushed into his office and yelled, "The city hall is on fire." Costin said "Well, why tell me about it, go to the fire department."

Col. C. M. Adams a mighty busy man, who keeps this sign on his office desk: "Let us both be brief and courteous." A stranger dropped in the other day and the Colonel said: "Fardon me, but didn't I meet you in Detroit?"

"No, I've never been in Detroit."

"What a coincidence! Neither have I. It must have been two other fellows."

One of the members then told a good one on a certain oil man. The oil man went to the chief of police very much worried.

"Chief," he said, "I have just received a letter from a man who says that the next time he catches me making love to his wife he is going to kill me."

"Quite a simple matter," the policeman said. "Don't make love to her."

"But the darn fool forgot to sign the letter," the worried one said, "and how am I going to know who it is?"

L. W. Sandusky then got off this one:

"I was driving in the country and came to a place where the road forked. Being undecided as to which was the right road, I inquired of a boy who was sitting on a wire fence near by."

"Son, where does this road to the right lead?" I asked.

"Dunno," the boy replied.

"Well, where does the other one go?"

"Dunno that, neither," and continued his whittling.

"How long have you been here?" was the next question.

"All my life," said the boy.

"All your life, and you don't know where either of these roads leads," I asked. "You're pretty ignorant, aren't you?"

"Well, I may be ignorant," the boy drawled, "but I ain't lost."

County Judge Charlie Thompson told of a negro who was recently convicted for bootlegging. The Judge asked the defendant if he had anything to say about his case.

"No, suh, Judge," he said, "I'm afraid too much has already been said about my case."

Max Berman, an Israelite, was called upon just following a speaker who had discoursed loud and long on his American ancestry. Max said that while he could not boast of an ancestor who signed the Declaration of Independence, he did have a relative who affixed his signature to the Ten Commandments.

Jerry Riordan was then asked to speak on golf.

"I couldn't tell you," he said, "because I don't know the first thing about the game. I wouldn't even know which end of the caddy to pick up."

UPHOLSTERY IN YOUR FORD

Determining the life of upholstery long before it is used to trim the car is a problem which the Ford Motor Company has solved by the development of a number of unique tests. Before Ford upholstery cloth is released for production, samples are eaten by chemicals, pulled apart and even worn out in an especially constructed rubbing machine.

Some of the cloth used in Ford cars is manufactured right in the Ford plant where it may be held to the required specifications. Most of the upholstery, however, is supplied by outside sources and must prove its fitness before being used.

Color and structure of the cloth

are first scrutinized. Then, samples are sent to the laboratory for chemical and physical tests. In the test for tensile strength, samples from the running direction or warp of the cloth, and from the cross direction or the woof of the cloth are pulled to pieces by means of a standard testing machine. In this connection it is interesting to note that although the Ford specifications are unusually rigid, upholstery now being used shows practically twice the required strength.

Wool content is determined by use of chemicals. The sample is given the chemical bath which dissolves all the wool. The remaining cotton must not only show the correct percentage, but must show a perfect pattern and distribution of cotton fabric as well.

Another test is similar to that which the material will receive in actual usage. A cushion is trimmed with sample upholstery and placed in a machine together with a cushion trimmed with material of known

quality so that the faces of the two cushions touch. Then the machine rubs the two cushions back and forth at the rate of 120 times per minute, until one or the other is worn out. If the sample wears out first, it is immediately discarded. But if it stands up as long as the cushion trimmed with the known material it has proved itself equal to Ford standards of quality.

In selecting upholstery for Ford cars, the Ford Motor Company is forced to be more critical than many other automobile manufacturers. Ford cars, because of the longevity and adaptability to business, social and professional life are expected to be almost constantly in use, and the materials of which they are built are selected in anticipation of hard wear as well as for their beauty.

CHEVROLET GROWING

Figures made public today disclosed the fact that the week of April 17 was the greatest week in the entire history of the Chevrolet Motor Company in point of retail sales.

According to the announcement made by the Chevrolet Motor Company, retail sales for the week totaled 16,457 cars and trucks. These figures, covering the United States, do not include foreign sales. This is the sixth consecutive week that all previous retail sales records have been broken as the sales of Chevrolet have mounted to high totals that promise to make 1926 another record breaking year.

The week of May 2, 1925, was the banner week for Chevrolet up to six weeks ago. The high mark of Chevrolet in 1925 was 10,731 retail sales for the week; and this was a great contribution to the 1925 total of more than 500,000 cars and trucks, a figure never before approached by

any manufacturer of automobiles of the selective transmission type. But for six weeks running, retail sales have gone over the best previous mark with a wide margin to spare. The first week that the high mark was topped, sales went over 11,000 cars. The next week the totals went over 12,000 and for two weeks sales went beyond the 14,000 figure. Then, with a total of 16,457 sales for the week, Chevrolet announced a new weekly record almost double that of the best previous week up to six weeks ago.

While the greater appeal of the Chevrolet product has made this first great gain possible, the increased efficiency of the dealer organization has been a factor; and the great advertising campaign has contributed much to the success of the Chevrolet product during the early months of 1926. At this time the Chevrolet Motor Company is carrying on a dealer co-operative advertising campaign in addition to the regular national schedule. Chevrolet advertising is now appearing in more than 4000 American newspapers in addition to all the leading national periodicals.

Intensive Farming

Intensive farming puts new life into the business of agriculture. It not only opens new roads to profit for the individual farmer, but it enriches every industry in the State.

Farmers who are profiting by a system of intensive farming, will never go back to a one-crop method, with its waste, inefficiency, unhappiness, poverty and loss.

"More Cotton on Fewer Acres"—More Feed on More Acres—More and Better Livestock—is the real meaning of Intensive Farming.

The Handwriting on the Wall in the future prosperity of West Texas is Diversification.

City National Bank

The New and Better TEXACO Gasoline

After years of research and experiment, The Texas Company announces a new and better gasoline.

It has been made possible in commercial quantities thru the Holmes-Manley Process, a patented method of refining, owned and controlled by The Texas Company.

The new product is not a mixture with benzol, or with any other product or chemicals.

It contains no dopes or poisons. It is a pure, unadulterated gasoline, produced from selected crude oil.

WHY IT IS BETTER

- (1) The specifications prove it.
- (2) It is uniform in quality.
- (3) Vaporizes where other gasolines only atomize.
- (4) It is a dry gas instead of a wet gas.
- (5) Combines the desirable qualities of all gasolines in one.

WHAT IT DOES

- (1) It gives you a quick start.
- (2) It gives you a quicker pick-up.
- (3) It gives you more miles per gallon.
- (4) It gives you relief from carbon or spark knock.
- (5) It gives you better lubrication.

UNIFORM SATISFACTION CAN BE HAD AT EVERY TEXACO PUMP.

AIR MAIL SERVICE WILL BE STARTED MAY 12TH

The postal department recently let the contract for carrying air mail between Ft. Worth-Dallas and Chicago to the National Air Transport of Chicago, and regular flights will start with this mail May 12th, mail leaving Ft. Worth and Chicago in the mornings after the arrival of inbound mail trains, and arriving in both cities in ample time for mail to reach out of the city points by evening mail trains. This will be particularly useful to

interior Texas cities, in that mail from those cities arriving Ft. Worth on morning mail trains will arrive Chicago that evening, and New York the following morning, reducing time of delivery approximately thirty-six hours.

This also applies to the intermediate cities of Oklahoma City, Wichita and Kansas City to a greater extent, in that north bound mail reaching these cities can be answered the day of arrival.

In addition to mail, these planes will also carry express, which should be a great assistance in filling rush orders for lighter class goods throughout the state.

The opening of this service marks a new epoch in transportation for Texas, and the cities of Ft. Worth and Dallas have been required to make heavy guarantees to the transportation company to cover them against possible loss, so it is advisable that all make use of the air mail in order that the service may be continued after the guarantee period is past.

One of these Air Mail carrying transports has been named Miss Fort

Worth. In appreciation of this recognition the City of Ft. Worth has arranged a suitable program for the christening of this airship and the ceremonies will occur Saturday afternoon, May 8th at 2 p. m. upon the flying field on the Decatur road north of Fort Worth. This is the last day of International Boys' week and an attractive program, including the christening, at which Miss Mary Meacham, daughter of Mayor Meacham will officiate, following which there will be a chorus of 500 girls ending with a flying circus lasting more than one hour, in which something like 50 planes will participate. Fort Worth citizenship through the various organizations cordially invite friends throughout West Texas to participate in these exercises.

ELECTRICAL REFRIGERATION PERFECTED FOR THE HOME

The Frigidaire system of electrical refrigeration was developed by the General Motors Corporation in their expansive research laboratories not primarily as a commercial venture, but in response to a call from doc-

ors, hospitals, and health centers from practically every section of the United States for a modern and safe method for keeping food for an indefinite length of time. There were three essentials which were necessary to be incorporated in this method which were not found in any ice box—first, a temperature constantly and uniformly cold; second, an absolutely dry atmosphere; third, a thorough cleanliness. These three conditions were also laid down and sponsored by the United States Department of Agriculture.

Incorporating such exacting conditions in any one system was found to be a stupendous task. The General Motors Corporation spent lots of time and lots of money and made more than one failure before the present electrical refrigerator was evolved. Every little detail had to be tested and tried out in a dozen different ways. Every point of operation was charted and examined by scientists of every profession. Finally, all these tests and charts and details were OK-ed by the General Motors engineers and production started on the first few machines. And as

costly as these first few were, those who were interested at that time realized what a great difference in refrigeration had been accomplished and eagerly snapped the machines up.

However, the use of the wonderful new Frigidaire was not to be confined to the doctors and hospitals and large health centers. The demand became so great that the engineers finally adapted the use of their system to that of the small household refrigerators, and today, over a hundred thousand homes in the United States have secured at a very low cost a perfect refrigeration that keeps your food and therefore your health, in better condition the year around.

See this wonderful frigidaire on display at the Ted Garrett electrical rooms and read his ad in this paper.

The Palace is having a special musical treat Thursday night 8:30 p. m. with the regular picture program. This is National Music week and the Colorado artists are doing their bit for this cause at different times and places during this week and the Palace Theatre is honored with one of their programs which consists of first class musical numbers, singing and dancing. The picture program is also a Thomas Meighan special, no raise in prices for the musical program. We just hope you will come and enjoy it.

FARMERS WILLING TO CO-OPERATE, SAYS POWER HEAD

John W. Carpenter Says Electric Power Promises to Help Develop the Farm

Galveston, Texas.—John W. Carpenter, vice-president and general manager of the Texas Power and Light Company, in presenting the report of the rural lines committee to the annual convention of the Southwestern Public Service Corporation, in annual convention here Wednesday, declared that electric power promised to be a great factor in the development of the farm and rural life and to help "make two blades of grass grow where one grew before."

Mr. Carpenter declared in presenting the report that the farmers of Texas were more than anxious to co-operate with the power and light companies in this important work. "I have never dealt with more fair folks than the farmers. They will co-operate in anything that is good for their industry."

Recommendations Made
The report recommended to the next administration of the association that a working organization be set up to carry forth the work of this committee on a more vigorous basis and to do this it was suggested that a full time man, thoroughly versed with the needs and requirements of the farmer as regards power on the farm, be employed. It was also suggested that a State committee of four farmers, four representatives from electric power companies and four representatives from the State colleges be organized for the purpose of carrying out such a program.

The following names were suggested by Mr. Carpenter, as chairman of the outgoing committee, as the personnel of the suggested committee: Farmers—W. D. Farris, Emis, president of the Texas Farm Bureau Federation; a farmer to be appointed each by the West Texas Chamber of Commerce and the East Texas Chamber of Commerce and the Rio Grande Horticulture Society, Power Representatives—J. W. Carpenter, Dallas; J. C. Kennedy, San Antonio; J. G. Holtzclaw, Beaumont, and E. H. Kifer, San Antonio. College—F. C. Bolton, dean of engineering school and professor of electrical engineering, Texas A. & M. College; W. J. Miller, dean of school of agriculture, Texas Technological College; D. S. Coates, professor of agricultural engineering, Texas A. & M., and B. Youngblood, head of A. & M. experimental station.

Survey to Be Made
The committee recommended that the voltages on rural lines be either 11,000 or 13,000 volts. "The committee feels that it would be impossible at this time to outline a full program of investigation," the report continued, "but we recommend that survey be made of just what is being done by power companies over the United States in rural electrification. It is the idea of his committee that this survey would be similar to the one just completed by Kansas and published by their State Agricultural College. This report will set forth the present status of rural electrification in Texas and show places where experimental lines can be established to the best advantage.

This procedure would serve as a basis for working out a more comprehensive program. It is also recommended that the investigational work be carried on by the Texas A. & M. College, with the Texas Technological College cooperating."

LOCAL AND PERSONAL NEWS ABOUT WESTBROOK AND VICINITY BY MRS. N. A. TERRELL.

BURTON-LINGO COMPANY

Westbrook, Texas Lumber, Wire, Posts, Eclipse Windmills and Parts Rig Patterns a Specialty

The Womanless Wedding which was staged at the school building a few nights ago proved to be the most popular entertainment of the season. The house was full of over-flowing and the program brought many hearty laughs. Proceeds amounted to \$95.00, which was the most that has been taken in at any program.

Rev. L. E. Northcutt has gone to Crystal City where he will spend a few weeks visiting his brother. He will also go to Temple for examination before returning home.

The Womens Missionary society gave a miscellaneous shower at the new parsonage Wednesday afternoon at 3 o'clock, honoring Mrs. Hollis Gainey.

About fifteen women were present and a merry hour was spent playing games after which Mrs. Gainey was given a telegram telling her to go to the bachelor apartment of the parsonage where she would find a basket of love gifts. After admiring the dainty things, delicious refreshments of punch and cake were served.

Coahoma and Westbrook ball teams matched another game on Westbrook's ball court Saturday afternoon which resulted in a score of 6 to 4 in favor of Coahoma.

Mr. and Mrs. U. A. Terrell were called to Blackwell last week on account of the death of Mr. Rex Whiteside.

The program which was put on at the school house Friday night by the pupils of Misses Ingraham and Wilson was attended by a large crowd and was thoroughly enjoyed by all.

Dr. Johnson and wife have returned from Dallas where Dr. attended the American Medical Association.

There will be a Mother's Day program at the Methodist church Sunday May 9th at the eleven o'clock hour. Everyone is cordially invited to be present. Those who do not have a way to come please phone Mrs. Terrell.

Billie Pirtle was taken to Colorado Thursday where Dr. Root performed an operation on his arm which was badly broken in a car wreck several weeks ago. He was brought home Sunday and is doing as well as could be expected.

Mesdames Wildman, Watson, Berry, Pate, Holder, Cope and Rev. and Mrs. Summers started to an all day meeting of the worker's council at Union Tuesday but only got as far as Snyder when it began to rain. They decided it would not be wise to go further so after a short say in Snyder they returned home.

Little Van Pierson Boston celebrated his third birthday the 23rd of April with a little party. About fifteen children were there with their little gifts and many good wishes. A merry time was had playing games and doing the many little things that children like to do.

At the proper time a large birthday cake, with 3 candles, was cut, the ice-cream was all dished out and the youngsters were made to feel that it was indeed good to be there.

Rev. Alexander, missionary for this district filled the pulpit at the Baptist church Sunday night.

Mr. Victor Holder returned home Sunday from Gordon where he spent several days visiting his mother and other relatives.

Quite a number of the Westbrook people attended the singing convention at Colorado Sunday.

Mrs. Mixon's Sunday school class with several others, drove out to Morrison's tank Saturday night, where they had an old fashioned spread and my, you should have seen all the good things there were to eat and how every one enjoyed it. Supper over a general good time was had playing games and doing the many things picnickers like to do.

Mrs. Minnie Gordon of Arizona is visiting in the home of her brother, Mr. Wildman this week.

The following was written by Mabelle Donelson, an eighth grade pupil: The History of My Home School

There were about twenty-five families living in the Westbrook community when they decided they needed a school to send their children to. There was just a section house and depot and probably a lonely store that made the town then. There were rowdy boys and girls growing into man and womanhood without an education; therefore, a number of men met to decide on the question, whether they should build a school house or not. They decided to carry a petition around to the people for them to sign, and if enough signed this petition, they would build the school.

The petition was signed by everyone and they came to find that they had enough money to build a one room school house. The school was located where the cemetery now stands. Although there was not anything elaborate about this school house, the people were as proud of it as if it were brick.

The first year there were about twenty or thirty pupils enrolled. One teacher taught the whole school. There was not over a half a dozen in each class. It was very seldom that a pupil got over the eight grade. The people were not able to get globes and other necessary school equipment so the teacher could not teach as they should. The teacher was paid only a small amount of money for the work he did. The school ran from four to five months more often just four months.

The town began to grow and the people found it necessary to move the school. It stayed at the cemetery about twelve years before they moved it. The one room was not large enough for all the pupils then. When they started to move the old house they saw how much trouble it would be so Mr. McKinney, one of Westbrook's oldest pioneers, bought the old school house for a barn.

When the new school house was built the people had it put where the Baptist church is at the present. This time two rooms were built. Better equipments were got, and there was a better school on the whole.

About two years later the two old rooms were moved about a hundred and fifty yards south of the school building that we have now. When the two rooms were moved, there were two rooms and a hall added besides the large auditorium. This school building was painted and fixed up very neat and comfortable for that time. There were two teachers added, making four in all. About seventy-five or one hundred pupils went to school then. The tenth grade was taught when a boy or girl happened to come to this town and wanted to go to school.

During the world war money got so scarce that the teachers' wages were cut down, and it was hard for the trustees to get teachers. The people did not have enough money to pay high taxes and give the school enough money to buy new window glasses for the windows that had no glasses in them.

No sooner was the war over than the greatest drought that the West has ever known came on. The people lost their property and money got scarce. The largest per cent of people moved away, leaving about seventy-five pupils. The population had grown so rapidly that there had been a fifth teacher put on. They did not need this extra teacher now.

In the year of 1919 the drought broke. New life came back into the people, and more people were moving back to Westbrook. The people had a more resolute desire to repair the old building. The broken window glasses were replaced and the old school house was patched up in general.

RETAIL CREDIT Is extended largely upon the reputation of one's credit record as a PROMPT PAY, being prompt is really the first consideration. Not only does "it pay to pay" but it pays to PAY PROMPTLY. 75 business firms of this county are using our reports. "It Pays to Pay" Retail Merchants Association

Perhaps by next year the school will be affiliated, and we are almost sure that the eleventh grade will be taught.

Texaco Motor Oils, the clean, clear, golden colored oil, reduces upkeep and wear on your motor, seals pistons, increases mileage, keeps spark plugs cleaner and keeps hard carbon out.

Mrs. Matlock of San Angelo visited Mr. and Mrs. A. B. Blanks this week.

YOUNG WIFE AFRAID TO EAT ANYTHING

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (Signed) Mrs. A. Howard.
