## JUDGE BRYAN PRESIDES AT CORNER STONE CEREMONY

### Rites Held at First Christian Church Wednesday Are Most Impressive

The beautiful Masonic ritualism did not fail to leave its impress upon the several hundred people who attended ceremonies laying corner stone at the First Christian church building here Wednesday afternoon. Judge E. R. Bryan of Midland, grand master of the grand lodge of Texas, presided.

In an address delivered to the people who crowded the improvised platform inside the church building and the intersection of Fourth and Elm streets, Judge Bryan told in a gripping manner the relationship between operative masons and those of the fraternity he represented.

"Operative masonry serves to bind the stone and cement into one great mass of beauty as the building is carried on to completion, but Masonry seeks to teach man to observe the beauties of virtue and truth," he said. "Masonry does not take the place of the church, but goes hand in hand with it, and will make a better Christian of any man."

"Masonry is not a mystery, as some people would believe," the grand master stated. "The fact of the business is, there is nothing secret about Masonry, in so far as the things for which it stands and teaches are concerned. Masonry is written and may be read by any interested person."

Rev. J. E. Chase, pastor, delivered one of the most inspirational addresses ever heard in this city, when he came to the speakers platform at introduction by the presiding officer, Rev. Mr. Chase was substituted for Dr. T. T. Roberts, president of Randolph College, Cisco, who was unable to reach Colorado on account of heavy rains.

The pastor told of the purposes for which the building was being erected and invited the entire citizenship of Colorado to rejoice with his congregation in erection of such a splendid building, to be dedicated to the honor and service of Almighty God.

Rev. M. C. Bishop, acting grand chaplain, offered the invocation as the services were opened. Local members of the fraternity assisted Judge Bryan in carrying out the beautiful ritual ceremonies. Rev. W. M. Elliott dismissed the assembly with prayer.

Members of the local Masonic bodies met at the hall at 5:30 Wednesday afternoon, an hour before the program was to open at the church. With the Colorado Chamber of Commerce band leading the line of march the procession followed Second street east to Elm and then north to the building, corner Elm and Fourth. The band rendered music during ceremonies at the church.

This was the second time that a representation of the grand lodge of Texas was convened in Colorado. In 1906, at dedication of corner stone at the high school building, Grand Master S. M. Bradley of Denton convened the lodge here and acted as presiding officer during the ceremonies.

That future generations, in whose time this building may be razed to give its place to another edifice of worship, may be reminded of the impressive rites observed Wednesday afternoon and may have recorded for their information and inspiration some of the interesting history attending organization of the church, its growth and final erection of the present building, relics, portraying this information, were deposited in the corner stone.

Among the relics was a copy of the Holy Bible. A brief statement of the history of the organization of the church in Colorado, a roster of the charter membership, roster of the first elders and deacons and other church officials; a roster of the present membership together with the present officers of the church.

(Continued on page 2)

## PROMINENT SPEAKERS TO ATTEND C. OF C. MEETING

R. Copeland of Fort Worth, Southwest representative of large New England textile industries and among the most interesting after dinner speakers of the country, when reference is to be given the need of industrial development in this section, will attend the annual banquet of the chamber of commerce, Friday, June 4. Announcement that Mr. Copeland would attend the meeting was made the first of the week following return of a representative of the chamber of commerce to Fort Worth.

The address of this distinguished visitor will not by any means complete the program, it is announced. Other speakers of recognized ability will appear on the program. Chamber of commerce officials will make this the most interesting annual meeting ever held.

As to the musical features, it is announced that the "Five Musical Hewitts" orchestra composed of A. C. Hewitt and family, will be available. This however, was indefinite Thursday, but it was believed this nationally known musical organization would be available. The Hewitts recently completed a successful engagement on the Orpheum and Western vaudeville circuits.

The board of directors are anxious to have not less than 200 Colorado citizens attend this meeting and take an active part in all business to come up. Selection of a president and twelve directors will be among the business to be disposed of.

## Greetings Received From J. W. Carpenter at Dallas

John W. Carpenter of Dallas, general manager of the Texas Light & Power Company, of which the Texas Public Utilities Company of Colorado is a subsidiary, sends his congratulations to the people of this city in a wire received by the chamber of commerce Wednesday. The chamber of commerce had invited Carpenter to attend celebration here Friday when the company's new plant is to be opened to the public.

In the message the corporation head pledges his continued support of the chamber of commerce and asks that he and his company always be included in programs having to do with development here. The message received from Mr. Carpenter follows:

"Your wire inviting me to be present at opening of our Colorado ice plant on Friday has been received. I appreciate your invitation very much and am sorry indeed that I cannot be there, however others in our organization will be present. I am always anxious to cooperate in every possible way for the upbuilding and advancement of Colorado. We want you to call upon us whenever you want to call upon us whenever of commerce in connection with its important program of activities."

## Ed Womack Contracts For Brick on West Second St.

Ed Womack has awarded contract to George Cochran for erection of a brick business building on West Second street. The building will be built on property recently purchased by Womack from the Masonic fraternity. The building will be 25 by 50 feet in size and is to be occupied by Womack as an automobile service station.

## Lambeth Contracts New Brick on West Second St.

Contract for erection of a one-story brick building 25 by 100 feet, was awarded here, Tuesday by O. Lambeth to A. G. Furlow. The building will be occupied by the Lambeth McCleary and Grubbs gin offices and the Coca Cola Bottling Company.

T. B. Wood of College Station, district farm agent, was in Colorado Wednesday to confer with H. L. Atkins, local county farm agent, as to the work here.

## FORMAL OPENING OF CITY'S BIG ICE PLANT ARRANGED

### Texas Public Utilities Co., Be Host at Reception To the Public

Formal opening of Colorado's new \$100,000 ice and refrigeration plant, just completed at Main and Oak streets by the Texas Public Utilities Co., will be observed Friday from 5 to 8 o'clock. The general public is extended a cordial invitation by the corporation to visit the plant and be guests of the company in celebration of completion of one of the best ice and cold storage industries in Texas.

Announcement of completion of the plant and program for the public "open house" was made here Tuesday by Lon A. Geer of Sweetwater, general manager for the company in West Texas. Geer stated that every citizen of this city and county was cordially invited to visit the plant and be shown the superior quality of ice being manufactured there.

J. W. Stockham, chemical engineer of Dallas who designed the special machinery installed in this plant, stated Thursday morning that ice being manufactured here was as good as the best in Texas. Mr. Stockham has spent two years work in laboratory research and experiment to arrive at the best solution of handling Colorado water in the manufacture of ice.

"Both myself and the company are glad over the success attained in the Colorado plant," Stockham stated. "We are making here the best ice I have seen in Texas, a product as clear as crystal and as pure as it is possible to make. Colorado could not obtain a better nor purer product, no matter where obtained."

To prove his statement of the purity of the ice, Stockham took a telegram from his pocket and accompanied a representative of The Record into one of the large storage vaults. Placing the telegram against one side of a three-hundred pound block of ice, one could easily stand three feet away and read the message through the ice block. Every block in the vault had more the appearance of transparent glass than ice. Not a flaw nor evidence of coloring matter was to be noted.

"From a scientific viewpoint, we have the most advanced refrigeration process known," Stockham continued. "There are larger plants in the South, of course, but there are none better than this one at Colorado. It was especially designed by experts and installed under personal supervision of engineers second to none in the country. And in designing this plant, we built our refrigeration machinery to especially meet the needs of making ice from Colorado water."

In passing through the various purification and softening processes, the water is handled four hours after being taken from the city mains before it first reaches the refrigeration vats to be frozen into ice. This process removes ninety per cent of sediment and incrusting salts contained in the water.

During this process the water passes through two especially designed sand filters, and from them is fed into a fore cooler and there cooled to a temperature of 28 to 40 degrees, before passing into the cans. In the cans the water is agitated with air under high compression and cold brine. The temperature has now been reduced to 25 degrees, well below the freezing point. As the freezing process continues the temperature is gradually reduced to 16 at completion of the freeze.

The special agitation process to which the water is subjected during freezing collects any sediment remaining and deposits it in core of the freezing block. This sediment, along with water which might contain any impurities is dumped from bottom of cans and the core refilled with fresh water and process completed. It requires sixty hours to complete the freezing process.

(Continued on page 2)

## PROMINENT MINISTER ON CHAUTAUQUA PROGRAM

### Contracts Continue to Be Awarded in All Parts of The City

Roy Rutherford, Premier.

## ROOT WILL BUILD AT WALNUT AND MAIN STS.

Announcement that Dr. C. L. Root would erect a modern brick and stone business building at Main and Walnut streets was made at his offices here late Wednesday. The building will be 50 by 125 feet in size and modern throughout. Construction is to be started at an early date.

Erection of this building will fill this entire city block with business buildings. The vacant lot at the corner on which the Root building will stand is the last one in the block between Main and Second and Walnut and Elm.

Dr. Root returned recently from Temple where he had been to consult a specialist. The surgeon's hand became infected a few weeks ago following a post mortem operation, but he is well now and attending to the duties of his office.

## Christian Church Concludes Great Convention at Dallas

About one thousand representatives from the Christian churches of Texas gathered in Dallas last week for their annual State Convention. Rev. J. E. Chase and wife, Mrs. J. Ralph Lee and Mrs. Besse Wyatt were the delegates from Colorado. The convention was marked by complete harmony and several important policies were adopted which will greatly facilitate the work furthered by the Christian churches in the State. Mike H. Thomas, well known Dallas business man, was elected president of the convention for the ensuing year. Rev. Mr. Chase was secretary of the Nominating committee and made the report to the convention.

The most important business transacted was the complete unifying of the educational work, and the launching of a vigorous campaign for this department. Radical changes were made in the Missionary policy conducted by the Texas Christian Missionary Society. Hitherto the work has all been directed from the main office of the State Superintendent of Missions. Now the policy will be to place twelve district superintendents in as many districts to work in harmony with and under the direction of the State mission board, but to allow each district to supervise and maintain its own missionary program.

All departments of the work indicated a very healthful and harmonious state and splendid reports were given by representatives to the convention. Houston was chosen as the place for the next convention. Several representatives from the International convention and members of the United Christian Missionary Society were in attendance. The convention was royally entertained by the combined congregations of Dallas, though the sittings were all held in the East Dallas Christian church.

The Auxiliary Society of the Presbyterian church will give the pageant "Indian Trails" next Tuesday evening at eight o'clock at the church. A free will offering will be taken for the Oklahoma Indian school. Everybody is invited.

## DEVELOPMENT HERE WILL NOT LET UP, IS BELIEF

### Contracts Continue to Be Awarded in All Parts of The City

There is no evidence to be found in Colorado that the prevalent steady development program, affecting every section of the city, is to let up, according to W. W. Whipkey, Colorado architect, who has several projects under contract and is completing plans and specifications for new buildings.

Whipkey stated Tuesday that it was pleasing to note that building in Colorado was taking on more of the modern ideas of construction and architecture as to both business and residence construction. A better type of building is being demanded by both the downtown investor and his neighbor who is erecting a cottage home in some part of the city or out in one of the additions.

Whipkey announced that contract had been awarded by Hall & Ratliff for construction of a garage building at Main and Oak streets. This building, to be fifty by 100 feet, will cost \$12,000 and is to be the future home of the Mills Chevrolet Company. General contract was awarded to J. E. Pond of Colorado.

Plans for the club house to be erected by the Colorado Country Club, are being completed by Whipkey and he expects to be ready to open bids on this job at an early date. This building will be of Spanish architecture, with pebble stone exterior finish. It is to be among the attractive club buildings of West Texas, he states.

Other new buildings being supervised by this Colorado architect include the J. C. Etheridge home, R. L. Spalding home, Ross D. Dixon home, Berry-Fee Lumber office building, and the Colorado high school building. Whipkey is associated with C. H. Greisenbeck of Dallas, architect for the school job.

A number of new cottage homes are being planned for Colorado, Whipkey says. He recalls that during the past two years a large quota of attractive homes have been built in Colorado and gives as his opinion that this record will at least be maintained in the future. Colorado is indeed a city of home owners, he concluded.

## Work on Hotel Colorado to Start, Churchill Says

A. S. Churchill of Dallas, member of the Churchill & Humphrey Company, contractors to erect Hotel Colorado, was in Colorado Tuesday and stated that his company expected to start work on this building either Saturday of this week or the first of next week.

Everything is in readiness for work to be started, Churchill stated. The big project will be rushed to completion and is expected to be ready for occupancy by the first of next year.

While here Tuesday Churchill conferred with local parties interested in the hotel. They held conferences with representatives of brick contractors and other supply concerns. Materials to go into the building are expected to be moving next week.

## Only Two Rural Schools Continue After Today

After Friday of this week there is to be only two out of the twenty-four rural schools in Mitchell county that are to continue work for the year. These are the Shepherd and Lone Star schools. Nine more of these rural schools were closed for the year Friday.

Those closing Friday were: Longfellow, Carr, Spade, Seven Wells, Fairview, Horn's Chapel, McKenzie, Baumann and Hyman.

Roy Phillips of Abilene, spent Sunday with his mother, Mrs. D. L. Phillips.

Mrs. Alvin Myhre is here from Big Spring this week.

## TEN BRICK MASONS RUSH WORK AT SCHOOL BLDG.

Brick masons were started on walls of the new high school and junior college building in North Colorado Friday. Monday morning a total of seven masons were laying brick and the contractor stated that three additional men would be put on the job the day following. A total of ten solid cars of face brick will go into this building.

The face brick are of grey tint, broken in the mortar joints with black, giving an attractive combination. Structural concrete and steel work has been completed to the second floor level.

The first car of mill work for the building arrived last week. This shipment consisted of frames for the window and door openings.

## COLORADO SCHOOLS CLOSE YEAR OF MARKED SUCCESS

### Forty Four Graduates Will Receive Diplomas From High School

Commencement exercises attending closing of another year of school work at Colorado are to be closed this evening at the high school auditorium when forty-four graduates are to be presented with diplomas by H. L. Hutchinson, president of the school board. The school year ending today has, in the verdict of school officials and patrons alike, been the most successful ever known in the city.

Progress has featured work in every department of the city schools. The high school does not hold all honors in achievement of success, but this rating is to be distributed among the entire student body personnel. From the beginners class to those who are leaving the institution with certificates of graduation, the dominant characteristic has been to do good work and enter with enthusiasm into the general program to make this Colorado's best school year.

But few of the faculty members will remain in Colorado after this week. Many of them have been elected for another year and are to return to Colorado in the Fall at opening of school, but vacation time will find them visiting with relatives in other cities, attending summer school and otherwise spending the few months to intervene.

## Ford Quartette Will Sing at Utilities Co. Opening

Among the entertainment features announced for opening of the Texas Public Utilities Company plant at Colorado Friday afternoon and evening is the Ford Quartette, a musical organization composed of mechanics from the A. J. Herrington Ford Agency. These fellows have made for themselves a merited distinction as entertainers in song. They are to be on the program from 7 to 8 p. m.

## Barbecue

The Sunday school class of young ladies and young men of the Methodist Sunday school of which Mr. E. H. Winn is teacher enjoyed a barbecue at the ranch home of Mr. and Mrs. Sam Wulfjen Tuesday evening. This was furnished by the young men of the class and besides the barbecue and its trimmings, ice cream and cake were served to the fifty-five members of the class and several invited guests.

## Harmony Club

The Harmony club met with Mrs. H. S. Beal Tuesday. Besides the members she had quite a number of her friends and neighbors as guests. At the conclusion of the games she served chicken salad, olives, bread and butter sandwiches, crackers, ice tea and angel food. Mrs. McKenzie will be the next hostess.

Mrs. Will Burgess who now lives at Guarrant, Ky., sends in for the Record and says she appreciates the paper very much.

## ENTHUSIASM DOMINATES AT MOODY CLUB MEETING

### Voters of Five Precincts Meet at Colorado in Rousing Rally.

An interesting political rally was held at the district court room here Saturday afternoon when voters representing five of the eleven voting precincts of Mitchell county assembled to pay tribute to Dan Moody, youthful attorney general, and candidate for governor of Texas.

Speakers addressing the meeting became enthused in extolling the virtues of their favorite candidate. That Moody will carry this county by a substantial plurality in the July democratic primary election was predicted by more than one of those to deliver addresses.

Thos. R. Smith, Colorado attorney, was elected chairman of the meeting and following organization of a Moody for Governor Club, was retained as permanent chairman of the organization. J. Riordan, Colorado business man and president of the Lions Club, was elected secretary.

Voters representing the Colorado, Loraine, Westbrook, Spade and Buford precincts were present. Addresses were made by representative citizens from each of these districts and the pledge was made to return home and organize voters to carry this county for Moody for governor. Precinct chairmen were elected as follows: Colorado, Dr. P. C. Coleman; Loraine, J. F. Hiser; Westbrook, A. F. Bledsoe; Spade, R. F. Hargrove; Buford, James Boulton. Owing to the fact the other six precincts were not represented no action was taken to name leaders in the campaign for those. Every precinct in the county, however, is to be organized, Riordan stated Tuesday.

Among those to address the meeting Saturday were Thos. R. Smith, Dr. P. C. Coleman, Mrs. J. Riordan, U. D. Wulfjen and Rev. J. F. Lawlis of Colorado; J. F. Hiser of Loraine and R. F. Hargrove of Spade. Riordan announced Tuesday that a county wide rally had been called to convene in Colorado May 29. By that time it is hoped to complete organization of Moody clubs in every precinct and an aggressive campaign to cover the entire county will be instituted.

## Three Children in Same Family Make Fine Record

D. D. Haynes of the Payne community, ten miles south of Colorado, has cause to be proud of his three children who attended the Payne public school during the past year, which was closed Friday of last week.

Ruth, 14, seventh grade pupil; Wayne, 11, fourth grade pupil, and Wesley, 10, third grade pupil, were awarded diplomas of merit Friday by the county school board. To receive one of these diplomas the pupil must have held perfect attendance records and never have been tardy during the school year.

Floyd Francis, 13, fifth grade pupil attending the Payne school, was also awarded one of these certificates.

## Forty-Two Party

Miss Lois Warren entertained with 42 Wednesday evening honoring Misses Goodlett and Pauline Davis, two of the public school teachers before they return to their homes. There were four tables and after several enjoyable games the hostess served chicken salad, brown bread and butter, sandwiches, olives, strawberry short cake and punch.

## Mr. and Mrs. L. Smith Entertain

Mr. and Mrs. Ledger Smith entertained with bridge Wednesday evening. There were four tables. Mr. H. P. Ragan won high score and was presented a beautiful deck of cards. Mr. Davis was handed a lemon for low score.

The hostess served fruit salad, raisin and pimento sandwiches, olives, cheese and brickle torte and punch.

**Cooking Lesson**  
The Colorado girls demonstration club will meet at the home of Miss Jones on corner of Arcl and Elm streets, Monday afternoon at three o'clock, for a cooking lesson. All

members are expected to be present.

(Continued from page 1)  
Sunday school and missionary organizations. A list of the subscribers to the building fund, and a list of names of those who made a silver contribution to the church fund.  
A brief statement written by the pastor outlined the details of the ceremony, calling attention to the part performed by the Grand Lodge of Texas, A. F. & A. M. who the grand orator was, a general statement covering the strength of the church, the size of the town, etc. A declaration was also included showing the alignment of the church with its missionary forces, and a simple statement of the undenominational character of the people who were promoting the building.  
A list of the names of all the ministers who have served the church in the relation as pastor, some for one-fourth time, some for one-half time and some for full time was added. These records were enclosed in a metal box sealed and placed within a receptacle in the stone and the stone cavity sealed. When future generations shall dismantle the building these records will prove an interesting historical document to those who shall make the discovery.

**Formal Opening of City's Big Ice Plant is Arranged**

(Continued from page 1)  
"There is absolutely no impurities in the ice being manufactured by this plant," Stockman declared. "The chemical engineer knows that crystallization means that all impurities have been eliminated. The ice would not crystallize impurities were there. Fact of the business is, the ice is considerably purer than the water from which it is made."  
Invitation to attend the reception Friday is supplemented by the chamber of commerce. The chamber is lending its cooperation to officials of the Texas Public Utilities Company in celebrating completion of the plant. The industry is considered a big victory for this city and county.  
Visitors will note the spotless sanitation throughout the plant. Even after the water is taken into the freezing cans no dust can find its way into the water. In building the plant engineers devoted considerable expense and time to making possible the building of factory in which sanitation would dominate.  
Refreshments will be served all visitors. Officials of the company will receive visitors every courtesy while at the plant. Visitors will be given opportunity of inspecting every part of the plant and have the minute details of ice making explained by experts.

**What Skinny Men Ought to Know**

You probably know that Cod Liver Oil is the greatest flesh producer in the world.  
Because it contains more Vitamins than any food you can get. You'll be glad to know that Cod Liver Oil comes in sugar-coated tablets now, so if you really want to put 10 or 20 pounds of real healthy flesh on your bones and feel well and strong ask any druggist for a box of McCoy's Cod Liver Oil Compound Tablets.  
Only 60 cents for 60 tablets and if you don't gain five pounds in 30 days your druggist is authorized to hand you back the money you paid for them.  
It isn't anything unusual for a person to gain 10 pounds in 30 days.

**NOTICE OF BANKRUPT'S PETITION FOR DISCHARGE**

In the District Court of the United States for the Northern District of Texas, in the matter of Garber Dry Goods Co., a partnership composed of James Franklin Garber and Robert Eustace Garber, as a firm and individually, Bankrupt No. 1127 in bankruptcy. Office of referee, Abilene, Texas May 13, 1926.

Notice is hereby given that Garber Dry Goods Co., as aforesaid, of the county of Mitchell, and district aforesaid, did on the 11th day of March, 1926, file in the clerks office of said court, at Abilene a petition setting up that he has been heretofore duly adjudged a bankrupt under the act of Congress approved July 1, 1898; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy, and praying for a full discharge from all debts provable against his estate in bankruptcy, save such debts as are accepted by law from such discharge.

On considering the above mentioned petition, it is ordered that any creditor who has proved his claim, and other parties in interest, if they desire to oppose the discharge prayed for in said petition, shall, on or before the 21st day of June, 1926, file with the Referee for the Abilene Division of said district, a notice of their opposition to a discharge in the above entitled cause.—D. M. OLDHAM, Jr., Referee in Bankruptcy.

Colorado rejoices with officials of the Texas Public Utilities Company over completion of the new 100,000 plant here.

If you have any doubt as to the fact that Colorado is developing into one of the important cities of West Texas, read the announcements from week to week as carried in this paper of new construction here.

Again Thursday morning attention was directed to the need of a landing field at Colorado.

Announcement from the chamber of commerce office that plans for sending the band to Amarillo in June for the West Texas Chamber of Commerce convention are fast assuming concrete form.

That was a most impressive ceremony at the Christian church building Wednesday afternoon. Masons, who erected the first building to ever be dedicated to the service of the Creator, have all down through the ages filled an important place in the program to make the world better.

ITS MISSION CONTINUES

The cylinder press which for several years discharged its mission faithfully and well in the Record office, continues to do good work though now working in a new home.

The Enterprise is all puffed up—and feels it has a right to be. We have accomplished the almost impossible task of installing a new newspaper press and folding machine and have gotten out a twenty-page paper all in one week.

Colorado rejoices with officials of the Texas Public Utilities Company over completion of the new 100,000 plant here.

## Over Three Hundred Visitors Inspect the Chrysler 60 at Toler Motor Co. Rooms

Three hundred and fifty visitors were registered at the Toler Motor Company show rooms on Third street Friday from 2 to 10 o'clock p. m., during formal showing of the Chrysler "60", newest six cylinder automobile to be put on the market by Walter P. Chrysler.

The beautiful show room was attractively decorated. In the color scheme the Chrysler monogram colors were carried out. On the floor was displayed a complete line of the new "60" model.

Music for the afternoon and evening was furnished by a late model Victor machine furnished by W. L. Doss, Colorado distributor. Refreshments of punch and cake were served by Misses Katherine Price, Virginia

Stoneroad, Nell Harper Greene, Mary Dixon Smith and Mary Belle Brennan.

Louis B. Collier, manager of the Toler Motor Company here, reports the first showing of this new Chrysler was a big success. Not only did the public give their endorsement of the new machine but several sales are reported to have resulted from the showing.

Coincident with the public statement of its policy of standardized quality, the Chrysler Corporation, through the Toler Motor Company, local dealers, announced Friday the addition of a new six-cylinder car, the Chrysler 60, at the lowest price at which a Chrysler six-cylinder car ever has been sold. The five models are priced as follows: Touring \$1,075; roadster, two-passenger, \$1,145; coupe, \$1,165; coach, \$1,195; sedan \$1,295; all prices f. o. b. Detroit.

This new entry into the field is the fourth to bear the Chrysler name; a name which, during the past three years has become recognized as a guarantee of superlative quality advanced engineering and ideal performance in a motor car. Following closely along the lines that have made the Chrysler 70 and the Chrysler Imperial 80 supreme in their respective fields, it completes Chrysler dominance of the six-cylinder field, and with the four cylinder model, represents the Chrysler line-up in the four major markets.

The 60 is not designed to replace some other model in the line, but is a wholly new creation, built to supply a definite need in the motor car field—the need of a six of exceptional quality and performance that could be sold at a low price and occupy a place between the Chrysler four cylinder car and the Chrysler 70.

That this new Chrysler 60 provides such quality and performance is clearly indicated by a combination of features which are entirely new to the field in which the car will sell and which, Chrysler executives believe, make it stand apart from other cars in anywhere near the same price group. As the model number

indicates, the car has a speed of 60 miles and more per hour. Some other features that are calculated are: advanced six-cylinder I head engine, perfectly balanced, with shipless bearings and seven-bearing crankshaft, insuring smoothness, steady pull at low speeds and economy in its consumption of gasoline and oil.

As in other Chrysler models, the crankshaft is balanced both statically and dynamically. Fuel economy. Easily 22 miles to the gallon of gasoline. Beauty of appearance and symmetry of line characteristically Chrysler, plus Chrysler compactness.

Standardized quality of manufacture as fine and as high as in the larger cars that bear the same name.

The new Chrysler is built in five body styles, all typically Chrysler in appearance: roadster, phaeton, coupe coach and four-door sedan. It is designed and built by the same engineers and manufacturing executives who, in other Chrysler models, have helped revolutionize motor car design and construction.

Automobile experts who have seen and tested it consider it equally as notable an achievement in its class as are its famous six-cylinder companions, the Chrysler 70, and the Chrysler Imperial 80, and predict for it a reception on the part of the public which will be even more enthusiastic than those which welcomed these earlier models.

### CHRYSLER IMPERIAL "80" TO BE PACEMAKER

A Chrysler Imperial "80" roadster will set the pace for the thirty-odd contestants entered in the fourteenth annual edition of the nation's greatest speed classic, which will be run this year at the Indianapolis Motor Speedway on Monday, May 31.

To be chosen pacemaker of this field is a signal honor to any car and to its manufacturer and is one that is awarded on the basis of merit and known performance.

To win such an honor only two years after the first car of the name was produced, as the Chrysler has done, is, therefore a high honor indeed.

As the model number indicates, the Chrysler Imperial "80" is capable of maintaining a speed of 80 and more miles per hour and is, therefore, one of the fastest stock cars in the world. Experience has shown, too, that this fleet beauty of the highways possesses the added advantage of being exceptionally smooth riding, responsive to the driver's lightest touch, and capable of sustained performance that has proved a revelation to many.

### LUBBOCK'S COURSING PARK

Already complete plans have been made for the next dog races to be held at the Lubbock Coursing Park, which is located one and one-half miles due south of Lubbock. This park is the only one in active operation in the Panhandle or South Plains and people who are interested in this phase of sports are showing intense interest toward the coming event which will be held on the 4th and 5th of June.

A large number of cash prizes are to be offered on these two days to the winners of the different classified events which are now being scheduled by the management of the course. There will be plenty of contest for every sort and breed of dog, according to Gene Wofford, manager of the park. The people of the entire state of Texas, and other states are cordially invited to come and enter their hounds and dogs in the contests.

Already Wofford has received word from several of the largest centers of dog races in Texas, Oklahoma and Kansas that dogs from those that have definitely decided to attend the races are: Miles, Texas; Elk City, Oklahoma; Temple, Texas; Dogs that will be winners of the Bowie meet which will be held on the 17th of this month will be here; in fact Wofford has in hands names of many owners of registered dogs that have assured him that they would be here on the specified dates.

The Lubbock Coursing Park shows an investment of something like \$5,000 and is numbered among the leading parks of Texas. Work has been resumed by the management in keeping the grounds in perfect condition up until the time for the races to start. It is in conformance with regulation parks which will afford all dogs a like chance in the races.

Rabbits for the races are being shipped in from Kansas and are thought to be the fastest rabbits that can be secured in this section of the country. The last races held here used the Kansas rabbits and they proved to show a better speed which consequently was more thrilling to the fans and created more sport for the anxious hounds as they stood on the slipper ready for action.

Mr. Wofford desires to know before time of the races those that

might be interested in entering their dogs for the races so that all proper arrangements may be made before the contests start. In order that those who are ready and desirous to enter their dogs may do so by dropping a card to Gene Wofford, Lubbock, Texas, Box 333.

### WOMEN FOR DAN MOODY

The personnel of the central committee of the "Texas Women Citizens' Committee—Dan Moody for Governor" as revealed here today is a notable group including women of recognized leadership not only in local, county, and state affairs, but several who have attained to national prominence.

The committee, the chairman stated, will be added to as the roll of senatorial district chairmen is effected. It stands at present as follows: Mrs. Florence C. Floore, Cleburne; Mrs. Minnie Fisher Cunningham, Texas and Washington; Mrs. W. E. Spell, Waco; Mrs. Jessie Daniel Ames, Georgetown; Mrs. S. J. Smith, Austin; Mrs. Wm. Gerhardt, Corpus Christi; Mrs. Richard Fleming, Houston; Mrs. Noyes Smith, Austin; Mrs. C. W. Satterfield, San Antonio; Mrs. Paul Donald, Bowie; Mrs. D. H. Doom, Austin; Mrs. Ruth Potts Spence, Dallas; Miss Frank King, Taylor; Mrs. Ireland Graves, Austin; Mrs. T. P. Marshall ("Prudence Penny") Arlington; Mrs. W. H. Westland, Manor; Mrs. Ella Traylor, New Waverly; Mrs. Forrest Farley, Austin; Mrs. Monroe Chapman, Beaumont; Mrs. Joe Estes, Commerce; Mrs. M. S. Wood, Hillsboro; Mrs. Emma S. Webb, Elgin; Mrs. James E. Morris, San Marcos; Mrs. J. L. Polindexter, Temple; Mrs. W. C. Edwards, Denton; Mrs. W. E. Chapman, Stamford; Mrs. W. S. Douglas, San Angelo; Mrs. John M. Duncan, San Antonio; Mrs. B. A. Copas, Ft. Worth; Mrs. J. E. Quaid, El Paso; Mrs. Chansior Weymouth, Amarillo; Mrs. Harris Masterson, Houston; Mrs. Jane Y. McCallum, Austin, chairman.—Adv.

### "ZIM" SAYS

"Zim" candidate for governor says: "Every candidate who has offered himself or herself as a 'martyr' to save our oppressed, shackled, blood-white State from its agony would have you believe the salvation of Texas depends absolutely on his or her election."

"The salvation of Texas from any standpoint does not depend on the election of any man or any kind of man, and when you hear a candidate rant about Texas having gone to hell, spit it out and forget it, for Texas is nearer heaven than it has been in 100 years."

### CORNELIUS—

It has been often repeated that a man could slough off more money in the newspaper adventure than in anything else he could engage in. This tradition has been sustained most thoroughly in the venture of Cornelius Vanderbilt, a big millionaire of New York, who bought three daily newspapers and is now entering bankruptcy. If a man gets more money than he knows what to do with just let him enter the newspaper game—the game will get his goat whether he be a small bore financier or a millionaire. We are sure that Cornelius knows that it takes more money to operate a newspaper.—Slaton Times.

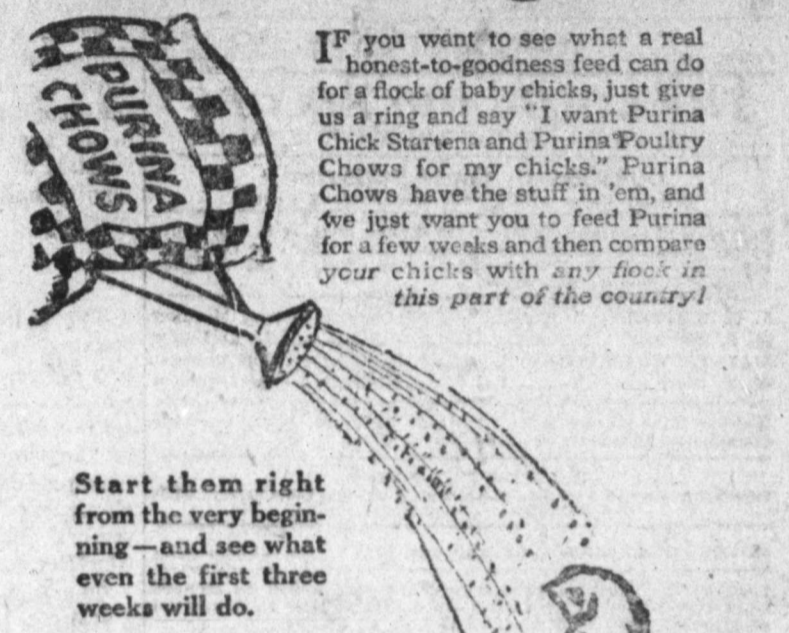

Perhaps Cornelius went into the matter on too big a scale to start

with. Perhaps he didn't know what it takes to operate newspapers in the matter of money; apparently he did not. The fact of the matter is, there are few persons indeed who understand the inside workings of a newspaper so that they can obviate the necessity of following in the foot-

steps of Mr. Vanderbilt. Lots of folks know how to operate the news department but would not understand the operations of the business department.

It takes more skill to be able to meet the pay roll, than it does to fill the columns with news.

## sure knows how to make 'em grow

If you want to see what a real honest-to-goodness feed can do for a flock of baby chicks, just give us a ring and say "I want Purina Chick Startena and Purina Poultry Chows for my chicks." Purina Chows have the stuff in 'em, and we just want you to feed Purina for a few weeks and then compare your chicks with any flock in this part of the country!

Start them right from the very beginning—and see what even the first three weeks will do.

# The New CHRYSLER '60'

Now—Chrysler supreme quality, Chrysler supreme performance in a lower-priced Six—  
**A Sensational Value**

For you who would limit your motor-car investment to one of the lower-priced sixes, Walter P. Chrysler presents another sensational quality product—the new Chrysler "60".

Into this third great Six, Chrysler has injected the same degree of quality and value that has won such public acclaim in the other Chrysler cars—the "58", "70" and Imperial "80".

In the new Chrysler "60"—as in the "70" and Imperial "80"—are the same sheer brilliance of Chrysler engineering, the same high quality of materials, the same superior craftsmanship, the same rigid test and inspection, the same assured endurance and dependability.

The lower price of the "60"—the lowest price at which a Chrysler Six has ever been sold—is merely a difference of size, of speed capacity, of special performance.

This means that the "60" will outclass every other car in the field of the lower-priced Six—just as every Chrysler outclasses every other car in its particular field.

Sixty miles, and more, per hour unprecedented acceleration; gas economy of 22 miles per gallon; the striking beauty of Chrysler dynamic symmetry; astonishing riding ease and roadability; the safety of Chrysler four-wheel hydraulic brakes; oil-filter and air-cleaner; full pressure lubrication; seven-bearing crankshaft; road levelizers front and rear; roomy, luxurious bodies.

We are eager to number you among the thousands who have studied the new Chrysler "60" since its presentation here a week ago. See it; drive it; experience its unusual performance—and you will, we feel sure, no longer be content with any but the Chrysler "60" in its field.

Touring Car	Roadster	Coupe	Coach	Sedan
\$1075	\$1145	\$1165	\$1195	\$1295

All prices f. o. b. Detroit, subject to current Federal excise tax.

### Chrysler "60" Quality Features

- 6-Cylinder Chrysler Motor.
- 54 brake hp. power.
- 60 miles per hour and more.
- 5 to 25 miles in 7 1/2 seconds.
- Easily 22 miles to the gallon.
- 7-bearing crankshaft.
- Aluminum alloy pistons balanced to sixteenth-of-an-inch accuracy.
- Impulse Neutralizer—Not a balancer, but a device that absorbs the torsional impulse reactions common to all internal combustion engines.
- Purifiers—filters all crankcase oil.
- Centrifugal air cleaner—prevents cylinders and passages from road dirt and grit.
- Full pressure oiling system—a film of oil for all bearings, insuring long life.
- Semi-automatic plus manual spark control.
- Manifold heat control.
- Chrysler roadability—easy to steer, easy to handle at all speeds, always safe.
- Chrysler hydraulic four-wheel brakes.
- Levelizers, which eliminate road shocks, at both front and rear.
- Chrysler dynamic symmetry of body design.
- Great roominess combined with Chrysler compactness for easy parking.
- Dues flash in striking color combinations.
- Full balloon 30 x 5.25 tires.

Arrange to drive this sensational new lower-priced Chrysler Six and enjoy for yourself in many features of superiority.

OVER THE WEST

Dallas—New Southern Pacific Railroad freight terminal and office building will cost over \$1,000,000.

Crosbyton—\$30,000 county jail to be erected.

El Paso—Construction started on \$25,000 new Methodist church.

Miles—Two new cotton gins being built here.

Fort Stockton—E. W. Bennett constructing tourist camp.

Floydada—During recent week local poultry raisers sold 115 cases eggs, which brought \$362.50.

Gilmer—Tyler and Buffalo streets and public square being hard-surfaced.

Wills Point—\$70,000 bond issue planned for new high school building.

Matador—Ground broken for erection of new Methodist church.

San Angelo—Kay county Gas Company starts survey for pipe line from Owen & Sloan's No. 1 Chalk in Southeastern Howard county to Columbia.

Springfield—Springfield Golf club laying out new course.

Mexia—270 farmers of Limestone and Freestone Counties listed in feed production and staple cotton contest for 1926.

Port Arthur—Actual work started on street car track extension on Thirteenth street from Proctor street to Beaumont avenue, and on Beaumont avenue to Florida Avenue.

Electra—Wagoner Refining Company ships trainload gasoline from

refinery here, to Westboro, Louisiana.

Vernon—\$95,000 new King's Hospital and Maternity home opened.

Tyler—Texas Power and Light Company erect high-tension line from this place to Mineola.

SIMMONS TEAM DEBATE WINNER

HOUSTON, May 12.—Debaters from Simmons University at Abilene, Texas, defeated the team representing Wake Forest College of North Carolina in the forensic contest held annually in connection with the Southern Baptist convention. The debate was on the question that the United States Government should own and control coal mines. The Simmons team contended for the negative and was declared winner by a vote of the audience.

GOLF

(Bill Kellis)

Andy Gump has nothing on this editor in the way of golf. We are practicing every day on the links owned by the News-Record Missus. Our club and masnie consist of a brand new hoe and a steel rake. The game is played by swinging the club at the base of tall weeds which grow on our links and bringing them down in windrows. Our masnie is used to collect the weeds for a bon fire. The stakes of the games is an appetite for bacon and beans. The Missus insists that a caddy is a useless accessory to the game, hence, we carry our own clubs. Do you play weed golf?

MARRIED

At the Baptist Parsonage, May 19th, Mr. Geo. R. Hunter and Mrs. Emma Hampton, Rev. M. C. Bishop officiating. Mr. Hunter is well known in Colorado having lived here for many years. Mrs. Hampton has lived in Colorado for some months. This happy couple will make their home in Colorado for the present. Their many friends wish for them a happy voyage on the sea of matrimony.

State Press in the Dallas News believes the world is flat. Hear him rant:

Gainesville Register: Lieutenant Commander Byrd has knocked all the glamour out of these North Pole Expeditions, which for decades have been classed with the "quest of the Holy Grail." Byrd has turned the North Pole trip into a Sunday excursion, which may soon become too common to be thrilling. This daring naval officer goes up real early Sunday morning, hopped off from Spitzbergen, flew to the "top of the world," circled around the North Pole a few times and went back to his Norwegian base in time for a late supper.

According to the new schedule, it

Ed Weir, Greatest Tackle of All Times. Lecture on Character and Athletics at Premier Chautauquas.

THIS MAKES US LAUGH

We cannot understand why our long-headed business men fall for every smooth talking advertising man who comes along. Nine times out of ten they pay too much for this class of advertising, and they are dissatisfied with same, but the smooth talker is on his way to other fields, and they are ready to get stung again just as soon as some smooth stranger drifts in and gives them his little song and dance. A home man is unable to get the majority of those who fall for these advertising schemes to go very heavy on advertising that is recognized as the very best, and where the money remains in circulation in the home town. Some folks just can't say no to the smooth talking stranger.—Big Spring Herald.

In the very same issue of the Herald the above was printed, there was exploited one of the greatest advertising grafts extant, twenty-four Big Spring merchants were wheedled into a so-called local write up, on 50-50 basis. The same fellow was here last week and we turned him down to protect the merchants.

OUR CUB REPORTER

This week we asked a guy to go out in town and get us up some local copy and this is what he wrote:

Record, your reporter on his rounds stopped first at the new building soon to be occupied by the J. P. Majors Jewelry store. The building has been thoroughly rebuilt with a modern city front and equipped with steam heat. Regular city jewelry store fixtures will be installed and soon the Majors establishment will be moved in and become one of the

real show places of the town. This jewelry store easily takes the lead. It is a place where good goods and proper presentation is as sure as death and taxes. Oscar Majors, the man at the head is always ready to give you an honest opinion about your timepiece—its needs and requirements. Has a nexcellent line of diamonds, jewelry, and novelties, and does expert watch and jewelry repair work. Not only is he a jeweler but also a graduate optometrist and fits glasses accurately and scientifically. Any lens duplicated on short notice. Whether your troubles are watch troubles or eye troubles he is the man to see.

These people are the watchmakers and jewelers of Colorado. They can make yours behave as it should. They know the game from A to Z, make a specialty of fine watch, clock and jewelry repairing and guarantees every job. If your watch fails to tell you the truth take it to them and it will not lie soon again. They do diamond setting and special work on short notice. They radiate cheer say kind things about people and see only good in their fellowman. That is why they are admired as jewelers and citizens. They are boosters for Colorado.

Mr. Record Man we had intended to write up the town but did not have time this week.

Let every church in town help get Dean's 2 per cent on cash sales. Read his ad.

Mr. and Mrs. John R. Sholker, tourists all the way from Atlantic Highlands, N. J., on their way to California over the Bankhead Highway, were the guests here a few days of Mr. and Mrs. B. A. Allen at the Dodge Service Station. These people were making this long trip in a modern Graham truck (which by the way Mr. Allen sells) this truck was equipped with all modern conveniences, and was a veritable palace on wheels. These people were surely enjoying their vacation trip.

Welding broken parts Saves money We will be glad to serve you. There was a time when most broken metal parts were thrown away. Metal parts, leaky tanks, cracked engine blocks, iron brackets, etc., had to be replaced by new ones if they were broken. But welding has changed all this. It is no longer necessary to throw away valuable machines or tools because they are broken. We can weld anything of metal and make it as good as new. The cost is very little. Ask us about our new welding service. We will be glad to inspect any broken machine or utensil you may have, and make estimates on the cost of repairing. Let us save you money. We do all kinds of Lathe Work Colorado Boiler and Welding Works West Colorado—Near Refinery

Dr. Lee R. Fearborough in the Baptist Standard says: At Frisco, Texas, on April 18, died Rev. G. M. Harrell, one of the most effective, consecrated gospel ministers I have known. He was born at Sparta, La., in 1851. He was pastor at Minden, La., Colorado, Texas, and Duncan, Okla. for a number of years at each place. His noble wife went on to her reward many years ago while he was pastor at Colorado City. Seven children—five daughters and two sons—three brothers and one sister survive him. He died in the home of his daughter, Mrs. Le-Nora H. Connally at Frisco, Texas. The funeral sermon was preached by Dr. Hudson of McKinney, Texas. Dr. Harrell was one of the finest men I ever knew. I knew the family intimately. He was a strong preacher, co-operand, soul winning, kingdom building. Everywhere his ministry was a blessing. He honored Christ in his life and in his preaching. He has left in the world some deep spiritual tracks. Multiplied blessings will follow on until Jesus comes. Thank God for such a veteran of the Cross. We regret to learn of the death at Frisco, Okla., of Rev. S. E. Whipple. He was converted in 1871 in a meeting held by Major Penn. For the last thirty years he had worked among the Indians. During the early years of his ministry he labored in Texas. Rev. S. G. Mullins was chairman of the presbytery that ordained him. Two brothers, F. B. and A. L. reside in Colorado, Texas. J. E. Garrett sends the Record to his friend Cleveland Johnson at Austin. Read The Record ads.

Even the north wind can't blow it out. THERE'S an old joke about blowing out lights, but you never heard of anyone blowing out an electric light. Even the north wind doesn't make much of a success of that. And the power of the wind is surpassed by the power of electricity. In scores of factories and machine shops, on farms and in homes, electric motors and labor saving tools are busily turning power into wealth with the help of the generators of this company. Make electricity your ready servant. No job is too much for its strength and there's almost no limit to the ways in which it can save you time, energy and your money. We will be glad to show you how—specifically. "Your Electric Servant" West Texas Electric Co.

Ford Highest in Quality. The quality of a motor car is largely determined by the materials out of which it is built. Take, for instance, steel—which comprise the major portion of the materials used in automotive manufacturing today. No automobile can have more durable or more satisfactory steels than you get in a Ford. The upholstery used in Ford closed cars contains a much larger percentage of wool than is ordinarily specified. Genuine polished plate glass is used for Ford windows and windshields. The story is the same for every item of material used in Ford manufacture. It is logical that such extreme care in the selection of materials should result in a car that is without an equal when it comes to enduring service. Lowest in Price. Conditions that are unique in the automotive industry make Ford prices possible. Every manufacturing operation is under direct control of the Ford Motor Company. Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Ford glass plants produce the glass for windshields and windows; wood comes from Ford timber tracts. Raw materials and finished products are carried over Ford-owned transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization. Under any other circumstances, Ford cars would cost a great deal more than they do. Ford Motor Company Detroit, Mich. NEW PRICES: RUNABOUT \$290, TOURING \$310, COUPE \$500, TUDOR SEDAN \$520, FORDOR SEDAN \$565. WE HAVE NEVER LOWERED THE QUALITY TO REDUCE THE PRICE. A. J. HERRINGTON

**REPLIES TO MR. LOVE**

Thomas B. Love replies to my charge that he is planning co-operation with the Republican party of Texas in 1926 as he did in 1924, when he and the clan knifed the Democratic ticket, not by making denial of my assertions, but by saying that he is opposed to Mrs. Ferguson having a fourth term, and that he has decided to oppose the Ferguson to the limit by which he means that he or any other so-called Democrat can go into a primary and take the pledge. "I am a Democrat and will support the nominees of this primary," and then treat it as a mere scrap of paper. It is quite evident also from this statement that he thinks little of the political rights of women as he seeks to deny Mrs. Ferguson a second term because several years ago her husband held the office for one term. Mr. Love's offense in unjustly seeking to deprive Mrs. Ferguson of a second term according to Democratic custom is aggravated by his inaccurate statement that she is running for a fourth term, especially in view of the fact that she served three terms in the legislature, the last as speaker, and is now seeking a fourth term in the upper house of that body. Even if the terms of the Fergusons were added together his statement is still wholly untrue. Also, Tom, is it not strange that you never worried about the Wilson family getting a third term as President when you twice supported McAdoo, who had given you a job?

Now, Tom, I deny your assertion that I have ever bolted a Democratic ticket. Mayfield's name was not on the ballot at the November election of 1922 so far as Dallas County was concerned and in the space reserved for voters I expressed my choice under the Democratic column. In 1924 while you admit you were with the Republican-Klan combine in knifing the Democratic State ticket I went to the polls and voted the straight Democratic ticket, including all the local Klan nominees in Dallas county. In other words, as to the local Klansmen here who had been nominated I took my medicine like a good boy, but you got mad at the head of the ticket, who was anti-Klan, and fought, like a spoiled child, and the medicine had to be poured down your throat while the Democrats held you and fought off your republican and Klan allies.

But Tom says that Jim Ferguson has bolted the ticket. There you are again, Tom, mistreating the women politically by charging everything Jim has done up to his wife. When did Mrs. Ferguson bolt the ticket, Tom? I assert she has never bolted the Democratic ticket, not even when her husband ran for President. But if Jim is such a bolter, you are the most apt pupil I ever saw, as you have determined to play "both ends against the middle" and if you can not win in the primary carry the fight on to November. Why should you hate a man under whose alleged example you have acquired far more proficiency in the art of bolting than you ever charged him with, and why should you vent your political spleen on the head of his wife who has never bolted? You have notified the party in advance that you intend to apply the double-cross in event you lose.

I furthermore assert that all the daily papers carried stories to the effect that in 1916 Tom Love endeavored to reach an agreement with Jim Ferguson whereby Ferguson should go as delegate to the St. Louis convention and Love should be elected national committeeman. Ferguson became unbearable to Love when he would not make this deal.

Now it may be true that Ferguson borrowed some money once, giving a lien on his property, and by relinquishing all his properties securing same.

In conclusion let me say that I am glad to see you admit that Ferguson had you in mind when Ferguson said in his Forum: "Texas politicians, all Democrats have not the pride of a jackass or the decency of a skunk." I did not know until your admission exactly whom Ferguson was talking about, but I thank you for your frankness. I knew all the time that Ferguson would never say such a thing about me, but exactly whom he meant I never knew until your admission.

The 4H Club will meet at the home of Miss Jones, Monday afternoon at 3 o'clock. This will be a cooking lesson.

the chicks. Moreover, such scraps are hardly ever balanced as to give the chicks the all-round development the poultryman wants. Even if fed as a supplement to a balanced ration, scraps have a tendency to unbalance it.

If scraps must be fed, they should be fed only while still fresh, and when the chickens can clean them up quickly. They should be fed to the mature hens, not growing chicks.

The Purina 1926 Poultry book, distributed free through the courtesy of D. M. Logan & Son company of this city, contains detailed directions for feeding growing chicks for more rapid development, and mature hens for egg production, as well as much other valuable matter of interest to poultry raisers.

22ND YEAR—NO. 34

COLORADO, TEXAS, FRIDAY, MAY 21, 1926.

WHIPKEY PRINTING CO.

### BAPTIST CONVENTION AT HOUSTON GREAT SUCCESS

#### Louisville, Ky., Gets 1927 Convention; Virginia Man President.

The Southern Baptist Convention, composed of the eighteen Southern States, convened at Houston last week with perhaps the greatest attendance in its history. The Rev. George McDaniel, a Texan, but now pastor at Richmond, Va., was re-elected president. Judge Latimore of Austin was elected one of the vice-presidents. Dr. Fred Brown, a former Texas pastor preached the convention sermon. Dr. Wallace Bassett of Dallas was chosen to preach the sermon next year.

Louisville, Ky., was selected Friday for the 1927 convention of Southern Baptists, which will begin May 4. Dr. E. Y. Mullins, president of Southern Baptist Theological Seminary, extended the invitation.

Members of the south-wide boards were elected at the morning session. One member from each of the eighteen southern states and a local board of about the same number were selected for each agency. Texas members of the various boards are: Foreign missions, Dr. Forrest Smith, Ft. Worth; home missions, Dr. J. M. Dawson, Waco; Sunday school, Dr. M. A. Jenkins, Abilene; relief and annuity, Dr. J. C. Hardy, Belton; hospital commission, Dr. F. S. Groner, Dallas; trustees of Southern Baptist Theological Seminary, Robert H. Coleman, Dallas; trustees of Southwestern Baptist Theological Seminary, Dr. C. V. Edwards, Fort Worth.

Members of the relief and annuity boards at Dallas, the only board located west of the Mississippi, are Dr. Wallace Bassett, Robert H. Coleman, Dr. E. C. Routh, Hal White of Lancaster, Dr. George W. Truett, Dr. F. S. Groner, Dr. L. R. Scarborough of Fort Worth, Dr. J. B. Cranfill, Mrs. R. E. Burt, W. B. Lee, Oscar Touchstone, Paul Danna, Hugh Prather, C. P. Collins, Miss Della Carroll, A. J. Moncrieff, G. S. Hopkins and Dr. Harold Major, all of Dallas except where mentioned.

Following the report of the relief and annuity board by Dr. William Lunsford of Dallas and Dr. Marshall Craig of Virginia, showing that a total of \$141,827.31 had been paid last year to 1,183 beneficiaries now on the rolls and eighty-five who died during the year, former Governor Pat M. Neff of Waco presented the new service annuity plan worked out during the last year by a committee of nine laymen, including Gov. Neff. The plan was adopted. It provides for retirement of ministers at the age of 65 with an annuity of at least 50 per cent of their average salary based on thirty-five years of service. The plan is to be financed by the payment of premiums by ministers and the churches. It also provides for care of widows and orphans.

"America constitutes at once the greatest field and force in the world for Christian civilization. Christian statesmen everywhere are beginning to realize this. Problems at home are as serious and complicated as those beyond the seas. Our country has become notorious for its disrespect for the law, for its numerous murders, for its commercialism and materialism. Nothing but the mighty power of the Gospel of Christ will save us from this deluge of worldly diversion and material prosperity."

These statements were made in the eighty-first annual report of the Home Mission Board. Total receipts from the various States for the last year were \$520,322.54, less than two-thirds of the receipts for 1924, the report showed.

The putting on of a large number of church building programs deferred during the recent \$75,000,000 campaign, was mentioned as one of the causes of the falling off of contributions. The report, which was signed by Dr. B. A. Gray of Atlanta, Ga., corresponding secretary, asked that a special campaign be put on

(Continued on page 2)

### Relic of Early Days is Found in Vaughn Building

A circular announcement of the sale of 250 head of registered Merino bucks by E. H. Brooks at his ranch on Silver Creek, fifteen miles southeast of Colorado, was taken from between the exterior and interior walls of the old Vaughn building, being raised on East Second street. The building was built in 1883, forty three years ago.

Brooks, among the early sheep men in this section, died about thirty years ago. The sheep were advertised at a price ranging from \$15 to \$40 per head.

Imprint on the circular shows that the printing was done by the Colorado Clipper Steam job department. During the early boom days in Colorado the Colorado Clipper was issued as a daily afternoon paper.

### Many Oil Tests in Vicinity of Sloan and Owens Well

From Big Spring Herald: A bad fishing job is delaying progress on the test well on the Cadler ranch east of Garden City. This test was down to a depth of 1780 feet when the casing parted and caused the trouble.

The work of dismantling the drilling rig at the Ad Neal ranch in Glasco county is now under way. This test was abandoned after being drilled to a depth of 3500 feet by Choate & Henshaw.

The work of setting eight inch casing in the test well of the Transcontinental Oil Co., 16 miles southeast of Big Spring was completed last Saturday and the drill has been pounding away steadily in a lime formation the past few days.

The Transcontinental Company is prepared to sink this well to a depth of 800 feet should they care to drill so deep. They expect to make this a most thorough test. With all water shut off the drill is now pounding away in a blue shale below 2460 feet.

The Rio Grande Oil and Refining Co., Fred Carey and associates with eight locations made are going to take the lead in development work in the Chalk oil district in the southeastern portion of Howard county.

They are building a six-mile water line so they can carry on their wide spread operations. They are offsetting the Chalk well No. 1 on the east, north, west on sections 113, 86, 97 and 96. They have purchased rig and tools used at the Ad Neal test and are having same moved to the Chalk field.

The Magnolia Oil Company have erected a steel derrick southeast of the Chalk No. 1 and will use a standard rig in drilling this well.

Sloan and Owen have moved their National drilling rig 600 feet south of the Chalk No. 1 and will be going down on No. 2 within the next day or so.

The Marland Oil Co. will probably start a test on the southeast quarter of section 113 within a very short time.

### Westbrook Dance Hall is Padlocked by Court Order

A writ of permanent injunction, closing a public dance hall at Westbrook, was issued by Hon. W. P. Leslie, judge of the 32nd judicial district here Monday, following hearing of petition for permanent injunction against the place. County Attorney R. H. Ratliff obtained a temporary injunction against the resort a few weeks ago and hearing on permanent order of the court was set for Monday.

### Lynch Davidson to Speak at Meeting Here May 22nd

Lynch Davidson of Houston, candidate for governor, will visit Colorado Saturday and is to deliver an address at Union Tabernacle in the afternoon at three o'clock. Supporters of the Houston candidate are elated over his coming visit to this city. The general public is invited to hear the address of Mr. Davidson.

### SCOUT MOVEMENT LAUDED IN ADDRESS BY ELLIOTT

#### Origin of Organization Given in Address at American Legion Building.

A report of the National Council meeting by Rev. W. M. Elliott, president of the Buffalo Trail Council, Boy Scouts of America featured Monday evening's session of the leader training course being conducted at the Legion Hut by that organization. This was the fifth of a series of eight meetings on the fundamentals and technique of boy leadership and was pronounced very interesting by those present.

Much good natured rivalry has been developed between the various patrols by means of contests in the subjects a boy studies as a Boy Scout. Signaling and bandaging contests made up the instructional features of the meeting, the men entering into the activities with all the enthusiasm of boys. Many have expressed surprise at the recreational value of these meetings and all agree that the course is unique in its methods of recreational instruction.

In his report Rev. Elliott spoke of "Sir Robert" as the originator of the Boy Scout program, Lieut. Gen. Baden-Powell, is affectionately called by all who come to know him. The great Englishman generously gives most of the credit for this world-wide program of boy activities to others, but Rev. Elliott assures us that it was born in the brain of Sir Robert himself and is a direct outgrowth of his own boyhood.

How the Boy Scout movement came to America was probably the most interesting part of Rev. Elliott's talk. "Mr. W. D. Boyce, a great American traveler and big game hunter," said Rev. Elliott, "was traversing one of London's streets when the fog that is a part of London descended, brought him standing, bewildered, on a corner. While he was debating as to the best way to 'find himself' a boy in uniform stepped up, saluted and asked if he could be of any assistance. Mr. Boyce told the boy where he wanted to go and asked him to direct him. The boy started off, telling Mr. Boyce to follow him and they soon reached the place desired, whereupon Mr. Boyce offered the boy a coin but he drew himself up proudly, saluted and said 'I am a Boy Scout and Boy Scouts do not accept tips for doing good turns'." It was quite a surprise to have a tip refused and Mr. Boyce questioned the boy about Boy Scouts saying he would like to know more about an organization that would have such an effect on boys. The scout told him something about the movement and later took him to the headquarters of the British Boy Scouts Association where he met Sir Robert. The result was that Mr. Boyce became so interested that he brought away a trunkful of literature and when he returned to America called together a group of the leaders in boys' work and proceeded to incorporate the Boy Scouts of America. Thus the movement came to America as a result of one of the basic things in the program, 'service to others'."

Rev. Elliott mentioned the address given by President Coolidge, saying that it showed that the president, probably the busiest man in America, had taken time to make a thorough study of the Boy Scout program.

In the course of his remarks, Rev. Elliott stated that the attendance at the meeting nationally known bankers, railroad presidents and heads of other great business organizations and their active interest in the movement was a convincing argument that it is worth while and that the men of Colorado and the Buffalo Trail Council should identify themselves with the organization.

Elder J. D. Harvey delivered the baccalaureate sermon to the graduating class, Leaders high school, Sunday night.

### Geo. H. Mahon Announces For Mitchell Co. Attorney

Geo. H. Mahon, until recently a member of the law firm of Thompson and Mahon, announced Monday that this firm had been dissolved and that he had entered his name as a candidate for the office of county attorney, subject to action of the Democratic primary election July 24th.

Mahon, a Mitchell county product, has lived in the Lorraine vicinity since a youth in 1908. He graduated with honors at Simmons College and later received his degree from the law department, University of Texas, graduating from this school with distinct honors.

Mahon came to Colorado last year and formed a partnership with Judge Thompson and has since been engaged in the practice of his profession here.

Mahon expects to conduct a vigorous campaign between now and the primary election. He is well known to a large number of voters in this county.

### Confederate Special Train Ruled by West Texas Jurist

FORT WORTH, May 15.—Chas. C. Thompson, youthful Mitchell county jurist, is holding the scepter of authority aboard the Birmingham special which left Fort Worth tonight for the annual ex-Confederate Soldiers convention. Judge Thompson was elected without opposition to fill this important portfolio and according to Chas. H. Murphy, of Lubbock, elected chief of police for the train, has already demonstrated that he is "hard boiled" to the extent of mixing quick justice to all offenders on the train.

The special arrived here late today from Abilene and the delegation paraded through the principal business district. The Simmons University band, official band of the West Texas delegation was with the delegation.

Colorado was well represented on the special. In addition to Judge Thompson, Mrs. Thompson, Mr. and Mrs. R. N. Gary, E. M. McCreeless, were other citizens of Colorado with the delegation. Three members of the band, Robert Whipkey, Jim Logan and Claude Cook, are also from the Mitchell county city.

The visitors were met here by W. S. Cooper, secretary of the Colorado Chamber of Commerce, who was in Fort Worth Saturday on business.

### Barcrofts Resume Their Place at Hotel in City

Mr. and Mrs. E. A. Barcroft, founders of the Barcroft Hotel and for several years active managers of the place, took over their old duties Saturday, following a prolonged vacation. They are again at the helm of this popular Colorado hotel.

Eighteen months ago the Barcrofts leased the business to W. R. Douglass. They left Colorado for an extended rest and vacation, visiting many places of interest in the South and Pacific Coast. A few months ago they returned to Colorado "for keeps."

Douglass and family left Colorado Saturday for Big Spring. It is understood they will leave for Mississippi next month.

### New Municipal Building Has Been Accepted by Colorado

Members of the city council accepted the new municipal building from the contractors Friday. City officials were directing the work of installing furniture and equipment in the different offices this week. The city will occupy its new home just as soon as all of the equipment has been installed and accepted.

Joe Caldwell, agent for the Texas & Pacific Railway at Istan for some time arrived in Colorado Monday to again make this city his home. Before being transferred to Istan Mr. Caldwell was night ticket agent here.

### AMARILLO DELEGATION TO GO IN MOTOR CAR CARAVAN

#### Plans Operate Special Train to Convention Are Abandoned

The Colorado delegation attending the Eighth Annual Convention, West Texas Chamber of Commerce, to convene in Amarillo June 21-23, will go to the convention city by motor car and not on a special train, was at first suggested. Announcement of change in these plans was made Monday by J. H. Greene, chairman of the chamber of commerce committee directing plans for the trip.

Owing to the fact that several members of the band and others to attend the convention desire to take vacation immediately following adjournment of the meeting, and will require use of their automobiles for trips to New Mexico, Colorado and other resort states, it has been definitely determined to go to Amarillo in cars.

A. B. Blanks, member of the convention committee, left Tuesday morning for Amarillo to complete arrangements there for entertaining the official band and delegation from Colorado. Blanks stated that in cooperation with Amarillo Chamber of Commerce officials he expected to obtain desirable camping quarters in the convention city.

According to tentative plans announced this week by executives of the band and chamber of commerce, the Colorado delegation will leave two or three days before opening of the convention, giving plenty of time for the Colorado boosters to make stops at cities en route for band concerts.

To play these concerts it is estimated that one and one-half days will be required to cover the distance of 250 miles from Colorado to Amarillo.

The band will be in excellent condition for the important place it is to play as official convention band at Amarillo, J. Lee Jones, assistant director and one of the band managers, stated Monday. Jones stated that the band was doing splendid work under direction of Director Hewett and that Colorado would send to Amarillo a musical organization of which this city, as well as the West Texas Chamber of Commerce might well be proud.

New uniforms which are needed were ordered this week. "Our band will go to Amarillo well uniformed," Director Hewett declares, "and we will be well equipped to deliver the goods, both as may be seen in the neat personal appearance of the men, and in the quality of band music to be given. The Colorado Chamber of Commerce Band is one of the best bands it has ever been my pleasure to become associated with."

The convention committee hopes to have fifty automobiles at its disposal for this trip. Citizens of Colorado who are proud of the distinction held by their band and who would accompany the delegation to Amarillo to demonstrate this fact to the 50,000 visitors expected at the convention, are requested to file their name with the committee.

### Work on Athletic Park Started by Contractor

Work of leveling site of the new school athletic park, located on the high school grounds on North Chestnut street, was started last week by the contractor. The grounds are to be leveled and given a clay surface.

Prof. R. E. Norman, superintendent of schools, announces that the field is to be sodded and improved into one of the best athletic parks in this section of the State. School officials hope to erect a grand stand and build a board fence about the grounds.

Mr. and Mrs. R. N. Gary, Judge and Mrs. C. C. Thompson and E. M. McCreeless left Saturday for Birmingham, Ala., to attend the Confederate Veterans' reunion.

### Lorraine Moving Forward With Mitchell County

A representative of the Record visited Lorraine, our progressive and wide-awake neighboring city to the east, first of the week and found this live little metropolis moving forward in line with the development and progress of Mitchell county.

We found the Farmers Gin company just completing a fine new gin plant, which will better enable Lorraine to take care of the thousands of bales of cotton ginned and marketed there each season, and which makes a total of five modern up-to-date gin plants in Lorraine. According to W. S. Wimberley, the prospect for the cotton crop in that section of the county is unusually good and the farmers anticipate a heavy run at all these gin plants this fall. The Farmers company owns two plants there.

The Masonic lodge has just completed a new modern two-story brick, which replaces the old structure burned last fall. A. G. Furlow, Lorraine contractor, who had charge of the work on the Masonic building, has contracted to build for W. S. Wimberley, three new modern brick buildings adjoining the Masonic property on the south. One of these buildings will be occupied by a modern picture theatre, according to Mr. Wimberley.

The Wimberley Motor Company, Ford sales and service, report they will make considerable improvement in their plant and expect a very heavy demand for Ford products this season.

The writer counted as many as a dozen new homes, just completed, and according to the Higginbotham Lumber Co., there are several more being planned, besides three or four now being constructed.

We called on the First State Bank and found the officers of the bank in high spirits relative to the future outlook for that section of the county. Mr. John T. Coffee, active vice-president, said the farmers in the vicinity of Lorraine were in better shape than ever before at this season of the year, with regards to finances and that he expected the country to be unusually prosperous this fall, provided the crop prospects mature, as he anticipates. The First State Bank of Lorraine has long been considered one of the best and strongest small town banks in the State, and under the management of the present officers, it has proven to be a real public benefactor, striving to take care of the financial interests of the community, and at the same time protect the funds deposited in the bank by its customers. According to the citizens of Lorraine, the bank has been very successful in this endeavor.

The implement dealers and dealers in other farmers' supplies, report a very heavy business this spring and are very optimistic over the future for Lorraine and her trade territory. The drug stores are looking forward to a good business, although they have enjoyed a very fine business in the past. Lorraine has two modern drug stores which are amply prepared to take care of the public needs. Some large mercantile concerns there are reaching out and acquiring new territory for Lorraine each year. Several modern grocery stores there are making it advantageous to trade in Lorraine, according to Charlie C. Coffee, cashier of the First State Bank. He says the public can and is getting accommodations and service in Lorraine second to none, and that the little city is yet destined to become a real city.

A. S. Martin of the Martin Drug Co., says Lorraine has a crying need for an up-to-date hotel, and that she must have one. The chamber of commerce is working on the proposition and hopes to have something to report in the near future. It is a fact that Lorraine is the largest town in West Texas, that can not boast of a hotel of some kind.

W. J. Coon, grocer, who makes a specialty of taking care of the needs of the farmers, says he is very optimistic over the growth and future outlook for Lorraine and believes she is now about to come into her own.

### CROWDS JAM CHURCH FOR BACCALAUREATE ADDRESS

#### Rev. M. C. Bishop Speaks to Class of '26 on World Building.

Rev. M. C. Bishop, pastor of the First Baptist church, delivered the baccalaureate address to members of the graduating class Sunday night. The services were held at the First Methodist church and sections in the auditorium were reserved for the forty-four members of the class and members of families represented in the class.

It was one of the largest crowds to ever assemble at a Colorado church. After the auditorium, south wing and balcony had literally been jammed with people, others continued to come only to be turned away. The services were made a community program, with all congregations of the city cooperating.

The building was decorated with class colors and the combination color scheme was attractively carried out in arrangement of cut flowers and pot plants, included in the decorative plan for the event.

Choosing for his text, "Let us make men in our image, after our likeness and let him have dominion," Gen. 1:27. Rev. Mr. Bishop said, "God created the world in an imperfect state, and then made a man to complete that which was lacking. The divine purpose for man is that he shall be a world builder. All animal creation is exclusively selfish. Man is supposed to be an unselfish being. The biggest thing in the world is a man's head. You can put into it the whole universe."

He mentioned several outstanding characters whom the world had counted exceptional men and women, but in reality they were such because of the intensive training they had received. This he held was the advantage of a thorough educational training. The one imperative need for a world builder is to have an enlarged vision. Tell me what you envision and I can tell you what you may become. He closed with a vigorous statement that the Class of '26 should have faith and courage to go on to the heights through the way of unselfish toil and service.

Rev. W. M. Elliott offered the invocation, and Rev. J. E. Chase, pronounced the benediction. Rev. J. D. Harvey was to have had this place on the program, but owing to absence from the city, Rev. Chase was substituted. The Junior class occupied the choir and rendered an special number. A large audience assembled many were unable to gain admission to the building. The class is one of the largest ever graduated from the Colorado High School.

### 13 Mitchell County Youths To Enter C. M. T. C. Course

Captain R. H. Ratliff announced Wednesday that only 13 young men in Mitchell county had filed application to attend the Citizens Military Training Course at Fort Sam Houston this summer. He is anxious to increase this number to 25. The young men who have signed to attend the course are: E. L. Burrows, Colorado; W. E. Cooper, Colorado; A. M. Geiger, Colorado; L. J. Griffin, Westbrook; M. G. Jordan, Colorado; O. T. Mann, Lorraine; U. T. Moore, Colorado; M. M. Porter, Colorado; J. D. Priddy, Colorado; C. R. Semons, Lorraine; A. L. Spalding, Colorado; S. Spalding, Colorado; Hugh Elliott, Colorado.

Rev. M. C. Bishop delivered an address at the graduating class banquet Snyder high school, given Monday night at the Manhattan Hotel in Snyder.

The Record is always anxious to boost for any movement that is for the advancement of Mitchell county and we are glad to see this live little city grow. We will have something more to say in future relative to this advancement, with reference to individual localities.

AS FATHER SERMONIZED

John and George, small sons of a Baptist minister, after listening to one of their father's sermons, decided that they must baptize their family of cats.

The kittens made no objection. One by one they were put in a big tub of water.

But when it came to the mother cat, she rebelled—and fought—and scratched—until at last John remarked: "Just sprinkle her, George, and let her go to h—!"—Baptist Young Peoples Union.

PHONE 333 FOR TEXACO KEROSENE. Prompt Deliveries.

# The New and Better TEXACO Gasoline

After years of research and experiment, The Texas Company announces a new and better gasoline.

It has been made possible in commercial quantities thru the Holmes-Manley Process, a patented method of refining, owned and controlled by The Texas Company.

The new product is not a mixture with benzol, or with any other product or chemicals.

It contains no dopes or poisons. It is a pure, unadulterated gasoline, produced from selected crude oil.

WHY IT IS BETTER

- (1) The specifications prove it.
- (2) It is uniform in quality.
- (3) Vaporizes where other gasolines only atomize.
- (4) It is a dry gas instead of a wet gas.
- (5) Combines the desirable qualities of all gasolines in one.

WHAT IT DOES

- (1) It gives you a quick start.
- (2) It gives you a quicker pick-up.
- (3) It gives you more miles per gallon.
- (4) It gives you relief from carbon or spark knock.
- (5) It gives you better lubrication.

UNIFORM SATISFACTION CAN BE HAD AT EVERY TEXACO PUMP.

J. Brown, Agent

ITEMS ON MY ROUTE

After leaving Colorado on the 15th, the first town we came to of any note was Lorraine. After which they became too numerous to mention. When we got to Abilene we shifted from the regular train to the special and landed in Fort Worth about 6 p. m., where we had about a three hours lay over. There we formed a line of march led by the cow boy band, stopping at the Texas Hotel and was treated to a very fine supper and back to our train we came and are still here but won't be many minutes. I have seen some beautiful sights since we boarded the train at Colorado, in the way of mountains, hills and vales, both smooth and rugged, mainly covered with beautiful scenery of many kinds, have seen some very nice patches of corn and small patches of small grain, but have seen nothing in the cotton line to excell West Texas. Commencing or drawing the line at Abilene. And every thing this side of Colorado, Sweetwater and Abilene may be considered the suburbs of those three towns considering them as one. We are now just pulling out of Ft. Worth at 9:34 p. m. I now defer until another stop.

We arrived at New Orleans about 4 p. m. and have had about a 3 hour rest and myself and other good friends from Colorado took a ride over the city, sight-seeing and we were all disappointed at what we saw. None of us knew there was such things in the world as we saw and its beyond the slight of human tongue to describe such sights as we saw. I will now drop back a link and take up our trip from the time I could see this morning. I will speak first of the delapidated condition of things in general and the whole face of the country so far through Louisiana has a desolate appearance. Lots of the farm land is under water and all the crops that are adapted to Louisiana soil are extremely sorry, according to my way of thinking. Its now about time for us to leave New Orleans. I'll quit for the present, only to say me and all the Colorado crew are well and enjoying our trip.

E. M. McCRELESS.

Jerry Riordan and L. B. Elliott on their return from Houston were asked about their trip and said: "Well Houston is a larger town than Colorado."

BAPTIST CONVENTION AT HOUSTON GREAT SUCCESS

(Continued from page one)

roads had offered excursion rates of \$1 for the round trip to Galveston Sunday that the Baptists might see some of the work of the Home Mission Board is doing there, where the Seaman's Institute is maintained.

A Southwide student conference will be held in Birmingham, Ala., the last week in October, it was announced in the report of the inter-board commission on student activities. This board has been working in the religious development of 90,000 Baptist college students in the South last year, it was stated.

Dr. L. R. Scarborough, president of the Southwestern Baptist Theological Seminary at Fort Worth, reporting for the board of that institution, stated that the last year has been the best in the history of that school from the standpoint of general efficiency maintained in the work. Judge O. S. Lattimore of Austin, Judge of the Court of Criminal Appeals and vice president of the convention, was presiding and yielded the chair to discuss this report.

President B. H. De Ment of the Baptist Bible Institute at New Orleans, La., in the board report for that school, said that during the eight years since the institute was founded the Baptist churches there have increased from six to fourteen in number with a growth in membership from 1,200 to 4,500.

The Southern Baptist Theological Seminary is now carrying out a \$2,300,000 building program. President E. Y. Mullins reported.

"Unbelieving scholarship no longer arise to prove its points by the Bible," Dr. Mullins commented. "They are teaching that the Bible does not tell the truth. Where I am going to fight is not before the front doors against the onslaughts of modernists, unitarians and other enemies of Christianity but at the rear where they are stealthily putting dynamite under the foundations."

This remark seemed to strike a popular chord and the audience applauded with their hands.

Southern Baptists have completed a century of educational work and Furman University at Greenville, S. C., and Mississippi College at Clinton Miss., are this year celebrating the centennial anniversary of their founding. This information was contained in the seventh annual report of the education board, read by Secretary J. W. Cammack of Birmingham, Ala. The report touched upon the text book situation. Several college textbooks are now being prepared by "capable Baptist scholars."

The last report continued in part: "Less satisfactory progress has been made in the matter of securing new textbooks in the science courses that are free from a decided leaning toward a materialistic philosophy. This leads us to repeat that our brightest hope is in securing the right kind of teachers rather than textbooks. In the hands of the teacher who possesses both scholarship and reverential spirit no textbook is very dangerous, while in the hands of the wrong teacher any textbook may be a failure."

Dr. George W. Truett of Dallas discussed the report and delivered a stirring appeal for support of education in part as follows: "Education has become a stern necessity. We are witnessing now a great intellectual, religious, political, social and moral awakening, and Christian education for home missions."

Dr. Love announced that the rail is the great motive force and saving factor. The bible is the law for Baptists and should settle all controversies that may arise. Teachers and even preachers occasionally disappoint us but such human failings are found everywhere. There is no call for us to raise dust storms around our teachers."

"There is a great deal more that could be said on this subject, but I shall leave that for you to put in between the lines. Much should be put between the lines."

Dr. Truett's speech excited prolonged applause and the convention voted to have the address printed in full in tract form and distributed throughout the denominational territory.

A number of alumni banquets and luncheons for former students of Baptist schools and colleges and banquets of other organizations are scheduled for Friday and Saturday.

The convention also went on record as favoring more stringent marriage and divorce laws, stricter enforcement of prohibition laws, suppression of salacious literature and the enactment of new laws to strengthen the Volstead act and to increase the efficiency of enforcement.

These subjects were all dealt with in full by the report of the commission on social service presented at the Saturday night session by Dr.

A. J. Barton, chairman of Kansas City. After lengthy discussion the report was adopted.

The social service report, after condemning "ill-timed, ill-considered and hasty marriage," called upon the pulpit, press and open forum to set in motion the forces to remedy marriage and divorce evils.

"An undeserved compliment to a large element of American citizenship was paid when most of the law-abiding citizens conceded that the liquor question was solved forever when the eighteenth amendment was ratified and the national prohibition code enacted," the report said.

"Never since national prohibition was enacted has this country faced such a critical situation as now confronts prohibitionists," Dr. Barton said in discussing the report. "The wet forces are hoping to wear down the morale of the dry forces and prepare the way for the overthrow of the law and the Constitution. If all church people will rally to the support of prohibition we do not doubt its efficiency will steadily increase."

"Smilin' Through" is a fantastic comedy in three acts by Allan Langdon Martin. It is one of the most delightfully whimsical and out of the ordinary plays that has been written, and it is a play that has done a phenomenal business New York, Chicago and San Francisco, having reached the record peak of \$25,000 a week in that city.

When originally produced in New York, the great artist, Jane Cowl, was selected to portray the central figure, and she achieved an artistic triumph that will never be forgotten in stage annals. It is said that this was due, in addition to Miss Cowl's artistic skill as an actress, to a large degree to this unusual play. It is referred to as a classic of the modern stage, and in the moving picture production as "the sweetest story ever told."

Starting with a story wistfully sweet and unlike anything else that has ever been written, it winds its way through a sweet, simple narrative filled with intensely human characters set in backgrounds of rare human appeals and happy endings.

NOTICE OF DISSOLUTION.

Notice is hereby given that the partnership lately subsisting between Chas. C. Thompson and George H. Mahon, in Colorado, Mitchell County, Texas, under the firm name of "Thompson & Mahon" was dissolved by mutual consent May 11, 1926.

Signed by: CHAS. C. THOMPSON, GEORGE H. MAHON.

DANS THE MAN.

Our good friend Jack Stricklin, editor of the Terry County Herald, has got it all figured out. He says, Ma will be eliminated in the first primary. All of Ma's supporters will line up for Lynch Davidson in the second primary and Dan will not be the man. Wise men often differ. Therefore we have figured this thing out a little different from Jack. In the hot fight between Jim and Dan, Lynch is going to be almost entirely

forgotten. He will be third best in the race. His little bunch of supporters will then go mostly for Dan, and in the second primary Dan will be the fast horse. Now let us hear from some of the Ferguson folks.

NOTICE

Attend the meeting at Seven Wells next week, beginning Monday 8 p. m.

The farmers have been the busiest people ever, the past week, and those who came to town for supplies or for a part for the broken planter spent but a very brief time in town.

J. L. Hurt has returned from business trip to Fort Worth.

## Mother Finds Relief For Her Child

Mrs. Abner, of Delta, Ala., Gives Her Three-Year-Old Boy Liver and Blood Syrup, With Good Results.

"I can't tell you how Thacher's Liver and Blood Syrup has helped us. My little boy, three years old, back in the spring had a cough and was sick. He just got so poor he would not eat anything, and we could not get anything to do him any good, and we got a bottle of Thacher's Liver and Blood Syrup and in a short while we were well and all right. He is fat and pleasant as he can be. We have not been out of Dr. Thacher's Liver and Blood Syrup since the first bottle we got. The whole family takes it and it does lots of good. I want you to print this in Dr. Thacher's Almanac so other people will read what good it has done my little boy."

**NOTICE TO DEBTORS AND CREDITORS**

The State of Texas, County of Mitchell: To those indebted to, or holding claims against the estate of Ida W. Jeffress, deceased:

The undersigned having been granted letters testamentary on the will of Ida W. Jeffress, deceased, and having been appointed Independent Executor of the estate of said deceased, late of Mitchell county, Texas, by the county court of Mitchell county, Texas at a regular term thereof, on the 7th day of May, 1926 hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to him within the time prescribed by law at his residence in Colorado, Mitchell County, Texas, where he receives his mail, this the 12th day of May, A. D. 1926.—T. W. SQUERROAD, Jr., Independent Executor of the estate of Ida W. Jeffress, deceased. 6-4c

**COLONEL R. Q. LEE HEARD IN SPEECHES IN HASKELL CO.**

Colonel R. Q. Lee, of Cisco, president of the West Texas Chamber of Commerce, made his second visit to Haskell county stopping at Rochester Rule and Weinert, where he made talks in behalf of his program of diversified and intensive farming. Stores were closed and many farmers drove in to the various towns to hear the speaking.

Colonel Lee in one of his lectures had before him about 400 real dirt farmers and in the midst of his talk he asked "All you farmers before me who have real corn of your own raising in your cribs please stand up." Twelve men stood up.

"Now all of you farmers who have home killed and home cured meat in your smokehouse please stand up."

The same 12 men stood up. "Now all you farmers who have money in the bank (not borrowed) please stand up."

These same twelve men stood up. How many of our Mitchell county farmers can stand up on this proposition.

**MORE COTTON, FEWER ACRES**

Entries in the "More Cotton on Fewer Acres" conducted in Texas by the Dallas Morning News and the Semi-Weekly Farm News have already passed last year's mark of 4,400 and there are still almost two months before the contest entries close on July 1.

The greatest interest so far this season has been aroused in Denton, McLennan, Milam, Freestone, Limestone, Henderson, Hunt, Kaufman, Smith and Ellis counties. East Texas has scarcely started, probably on account of a late spring and too much wet weather, but indications are that with warm, growing weather there will be a larger total in that part of the State than last year. The progress of the black land counties of North Texas is remarkable, showing that farmers are beginning to realize that they must raise their cotton crop at a profit by increasing the per acre yield.

About 12,000 copies of the new 1926 cotton contest bulletin of 32 pages, illustrated with pictures of the winners in last year's cotton contest and tables of production costs and methods how to raise large yields of cotton on five acres, have been sent to Texas farmers, business men, banks and chambers of commerce and county agents. Each farmer who enters the 1926 cotton contest receives one of these bulletins with his crop record. From this valuable booklet he can get information as to how to use commercial fertilizer properly and on what kind of land, how to space his cotton, how many stalks to the hill pay best, how many cultivations give best results and other equally important data.

**ATTA-BOY EDDIE**

Rude Winter is now on the wing; Three cheers for sweet Spring—gentle Spring. Cried Eddie: "Excuse me! The season imbues me With romance and all that sort of thing"

The first day of Spring is here with officially announced. But don't let Here-You-Are-Eddie's nonsense about romance alarm you. Even the cosmic urge will not be permitted to interfere with the serious business of selling groceries and the delivery thereof. The early spring radishes are ready.

**Pritchett Grocery**  
Of Course  
Consistent and Steady, That's "Atta-Boy Eddie"!

The bulletin shows how to raise cotton at 3 to 8c a pound.

Many farmers who have cut their cotton acreage very heavily and are raising more feed than ever in their lives and raising their cotton at a small cost so as to meet a drop in prices if that should come.

Yours very truly,  
Victor H. Schoffelmayer,  
Agricultural Editor.

**RACING STARS TO APPEAR AT ABILENE**

Four nationally known automobile race drivers have been signed to appear in the annual races at the West Texas Fair track, July 5th. Mr. D. H. Jeffries, official "A.A.A." representative, has just returned from Los Angeles with contracts for Fred Lecklider, driving a Miller Special; Jack Petticoat, driving a Dusenbergs Straight-Eight; Ted Simpson, driving a Chrysler Special and Frank S. Lockhart, driving a Miller Special. These drivers have been in some sensational races recently on the Pacific Coast and Lockhart and Lecklider are entered in the Decoration Day races at the Indianapolis Speedway, Lecklider being the team made of Earl DeVore, Frank Lockhart, "the boy wonder", will have considerable competition and will have to "wind 'em up" to repeat his winnings at the West Texas Fair last September, as any one of his competitors will be capable of taking the race. Lockhart's track record of 87 1-5 seconds made on the old flat track, will undoubtedly be considerably lowered on the improved track with high banked turns. Red Shafer, whose speciality is dirt tracks, will not race on July 5th at Abilene due to another engagement, but in passing through Abilene recently on his way to the Indianapolis Speedway, Shafer inspected the improved track and pronounced it in his opinion to be the best and fastest dirt track in the country. Ted Simpson has been winning some fast races in his Chrysler Special, which was built under the personal supervision of Ralph DePalma. Simpson piloted his car at a speed of 111.8 miles per hour over a straightway mile in a recent test.

Mr. C. J. Jones, secretary of the West Texas Fair, announces that the new track is in excellent condition and will be made dustless for the races with a liberal application of Calcium Chloride.

**50 YEARS AGO**  
Exactly fifty years ago today the Associated Press sent out these State news items:

Marshall.—Considerable activity prevails among Texas & Pacific officials. Col. Tom Scott having ordered work to be commenced at once on the gap between Eagle Ford and Fort Worth (thirty miles) and between Paris and Sherman (ninety-two miles).

Austin.—A movement to provide means for the erection of a monument to the memory of Gen. Tom Green has been inaugurated. J. D. Wilkins, senator McLeary and James H. Burts are to prepare a plan of organization.

Blanco County.—A gold and silver mine has been discovered within fifteen miles of Blanco City and the ore is yielding a large percentage of pure metal.

Coryell County.—The Gatesville Sun says Gen. Sabert Oglesby, the centennarian of whom we made mention some time ago, was in town last Saturday to receive his pension for the last quarter. He bears the weight of his 100 years well, and rode to town a distance of twelve miles.

Denison.—Telegraph offices have been opened on the frontier telegraph line at Comfort and Boerne. The line is completed to within about ten miles of San Antonio.

Dallas.—Arrangements have been made by which work will be resumed on the Dallas & Wichita Railroad shortly, and it is confidently expected the road will be opened to Denton by Oct. 1. W. H. Gaston was elected president on last Saturday.

Austin.—The Legislature today elected Gov. Richard Coke to the United States Senate.

Waco.—Waco is rejoicing over the elevation of her favorite son, Richard Coke, to the United States Senate. One hundred guns were fired in honor of the occasion.

Indianola.—An attempt was made to burn what is left of this once prosperous city. Three fires were started, but were discovered and extinguished before gaining much headway.

Kingsbury.—Two stages were robbed between Kingsbury and Seguin yesterday morning. The robbers got about \$600 and some firearms.

Dallas.—The batting machine works of Davidson Bros., on Wood street, were destroyed by fire last evening.

**STAFF CORRESPONDENT OF NEWS COVER WOMENS MEET**

Texas club women who are unable to attend the convention of the National Federation of Women's Clubs in person may do so "by proxy."

The convention will be held in Atlantic City, May 24-June 5. The special train carrying Texas delegations will leave May 21.

The News will send its own representative from this office on that train with instructions to give a full report of the proceedings with special attention to the features of particular interest to Texas readers.

Any club woman who can not go should be sure she gets the issues of the News containing reports of the convention. This special service will begin May 22. If you are not a subscriber place your order now for one month beginning on that date.—Dallas Morning News.

**THE CHRYSLER "70"**

You are undoubtedly aware of the remarkable success of Chrysler "70" in the two years of its existence.

Two years ago it was little more than a name to the public at large. Today it is the one motor car talked about above all others.

Never before has any car appealed so irresistibly to buyers and to owners of all classes of cars. Never before has any car so completely swept aside traditions or so surely pointed the way to the abolishment of the cumbersome, the heavy and the wasteful in motoring.

The Chrysler "70" came into being as a motor car not extravagantly large or heavy, but adequately roomy for five people; a car with perfectly balanced motor, with a speed of 70 miles an hour and more, with a flashing pick-up for the thickest traffic, yet a marvel of fuel economy.

Chrysler "70" design created a new trend in motoring tastes. Its most astounding success in the past two years from every standpoint, is sufficient evidence of the soundness of the fundamental design, the fineness of Chrysler craftsmanship and the materials that go into this car.

Chrysler owners find that they get more out of their cars than other owners because more has been put into the Chrysler "70".

Your nearest Chrysler dealer is eager to show you why you should be vitally interested in the fact that thousands of Chrysler owners the world over are enjoying a new degree of motoring satisfaction.

Very truly yours,  
CHRYSLER SALES CORP.  
E. J. FIELDS, Vice-President

**A REASONABLE EDITOR**

After all is said and done, it must be admitted that the average small town editor is reasonable. He will agree to almost any proposition which seems fair. He will even suggest several propositions and let the other fellow take his choice. This obliging attitude is well illustrated by a recent item in the Tribune, published in Attoona, Kan., in which Editor Austin Bulecher says:

"Anyone owing this paper is requested to call and pay at once. Anyone not owing is requested to call and subscribe and begin owing us at once. Anyone we are owing is requested to subscribe for the full amount of the debt and pay us another year in advance, cash. Anyone who is not owing us and will not do so, is requested to move to North Dakota and make room for one who will."

Come in and see our line of improvements for the Fordson Tractor at A. J. Harringtons.

**SOCIETY**

**COLORADO DAY IS OBSERVED BY CLUB**

The Colorado Club held the last meeting of the club year Wednesday at the home of Mrs. T. E. Coppage, 1101 Texas street, Mrs. David Humphreys being assistant hostess.

Colorado Day was observed, Mrs. E. W. Bounds, telling of "Colorado Then," and Mrs. H. A. Bass giving a paper on "Colorado Now." Mrs. T. H. Conner told of the origin of Mother's Day and Mrs. Robert Smith of El Paso gave a brief talk.

In a contest Imaes. Conner and M. C. Knott tied for the prize, Mrs. Knott winning in the cut.

Others present were Mmes. B. W. Allen, Earl Vaughan, C. S. Knott, C. A. Arbuthnot, B. L. Harrell, W. Potts and H. R. Shedd. An ice course was served.

The club will observe Gentlemen's Evening June 8, with a picnic at Forest Park. This will be the last social meeting of the club until Autumn.

—Fort Worth Star-Telegram

Timothy. The circle prepared a love box of money and clothing for the wife of an aged minister.

Circle No. 2 met with Mrs. Johnson. The lesson on Oak and laurel was studied.

Circle No. 3 met with Mrs. A. L. Whipkey. The outline of the book of Matthew was studied. The next meeting will be with Mrs. Jack Smith.

The Young Womens Circle met with Mrs. H. P. Slagel, with ten present. Mrs. Simon conducted the lesson the child and America's future.

**The 1921 Study**  
The 1921 Study club met with Mrs. Ledger Smith, with Mrs. Harry Ratliff joint hostess. The program was a special one on "American Citizenship and Public Welfare."

Mrs. C. C. Thompson gave a paper on "Government."

Mr. Mahon spoke on "American Citizenship and Public Welfare."

Mrs. Chester Jones was a guest. The hostesses served orange rice and white and dark cake.

The closing meeting will be with Mrs. Ed Jones with Mrs. Hooks joint hostess with a special program.

**Hesperian**  
The Hesperian club held its closing meeting with Mrs. Sam Wuljen with a fine arts program led by Mrs. Leslie. The influence of art in its various forms upon civilization; architecture, Mrs. Leslie. Sculpture, Mrs. W. L. Doss. Painting, Mrs. Bandy. Music, Mrs. Sadler. The Drama, Mrs. Wallace.

Mrs. Johnson gave a paper on American Art Centers.  
At the social hour the hostess served a lovely luncheon of fried chicken, salad, sandwiches, lemon pie, cake and ice tea, cafeteria style.

**Wesley Class**  
The Young Mother's Wesley Bible class met in the basement of the church last Thursday for a business meeting. Mrs. H. E. Grantland and Mrs. Gaskins were hostesses. A good report was given of the picnic on Tuesday. The hostess served ice cream and cake.

**Daughters of the King**  
The Daughters of the King, the organized class of the Methodist Sunday school met with Mrs. McCall last Thursday. Mrs. W. L. Doss conducted the devotional exercises. Those attending the county federation gave an interesting report. Plans were discussed to make money for the unit to be added to the church. The members reported visits made to the strangers, sick and shut-ins.

The class voted to entertain the county federation in July with a lawn party at Mrs. Arnetta. Mrs. Pritchett and Mrs. C. E. Pritchett were guests. The hostess served ice cream and home made cake.

Mrs. Pearl Shannon and Miss Mildred Coleman left Thursday morning for Fort Worth to join the party of club women to go to the bi-ennial at Atlantic City. From there they will go to New York to visit Miss Catherine Buchanan.

**Breakfast for Senior Class**  
The Baptist W. M. S. gave a breakfast for the senior class of the Colorado high school on the lawn of the A. L. Whipkey home. The class colors of purple and gold were carried out in decorations and menu. Little Nancy Elizabeth Price and Virginia Rose Whipkey dressed in purple caps and gowns with gold tassels on caps and wearing yellow hose passed the "diplomas" with hand painted class flower, the cream rose, and the class roll. The guests were then seated at small tables on which were the figures in purple and gold "1926", and in the center small vases of cream roses and purple sweet peas.

Mrs. McComb, president of the W. M. S. welcomed the guests, Mrs. White introduced Mrs. Brune who served as toastmistress.

Clyde Cook, president of the class, responded to the words of welcome, yells were given by the class, talks by different members of the class pertinent to the hour.

Mr. Brune toasted the class and was responded with a toast to the teachers by John Helton.

Samuel Womack told of the class as it was in the beginning.

Miss Laura Louise Pearson of the fun along the way.

Miss Edith Simpson gave a prophetic peep into the future.

Mr. Norman, made a talk to the class. A three course breakfast of sliced oranges, eggs nest on toast, creamed chicken, rice concord jelly, hot buttered biscuits and coffee was served by Misses Myrtle Seale, Violet Moerer, Laundry Smith and Mrs. Fisher to forty-four guests. It was the desire of the ladies to have all the high school faculty but owing to final examinations only a few could attend. The happy event by the hostesses giving a yell for the senior class.

**Bridge and Forty-Two**  
Mrs. Bob Thompson and Mrs. Clay Smith were joint hostesses to a number of their friends at bridge and 42 at the home of Mrs. Thompson Tuesday afternoon. There were several tables of each game. Wild flowers were profusely used over the house in bowls and baskets. Apricot ice, cake and mints were served to more than fifty guests.

**Nolan County Federation**  
Quite a number of women from Colorado motored to Sweetwater Saturday to attend the Nolan county federation. Mrs. J. U. Fields, state president of Haskel and Mrs. H. E. Broaddus 6th district president, of Colorado were guests of honor and both made short talks. A very interesting program was carried out. Luncheon was served at the Christian church to more than a hundred guests.

**Birthday Party**  
Honoring the sixth birthday of her little daughter, Mary Frances, Mrs. Earnest Hamlet entertained thirty-two little boys and girls on the lawn Saturday afternoon. The cake with its candles were admired and eaten with lollypops.

**Send in Recipe**  
The Baptist Women are now working on the fourth edition of their cook book and would extend this invitation to their friends to send in new and tried recipes for same. Give or send to Mrs. James T. Johnson, Mrs. McKenzie or Mrs. Charles Faris.

**Honoring Teachers**  
A few days ago the primary department of the Methodist Sunday school, of which Mrs. W. H. Garrett is the superintendent, gave a party in the basement of the church honoring Misses Inez Butler and Pauline Davis who are also teachers in the public school and will soon leave for their homes. A program of music and readings was given by the children. Miss Ruth Dorn and Mrs. J. W. Shepperd toasted the honorees and Mrs. J. B. Dobbs presented each of them with a lovely bouquet of cut flowers. Punch and cake were served.

Miss Ruth Quattlebaum has returned to her home in Leedy, Okla., after a visit with her cousin, Miss Myrtle Seale.

**CHURCHES**

**BAPTIST NOTES**

Folks are coming to S. S. and preaching in a good way. Large crowds each service. Fine music. Come help us enjoy it all. Some real work being done for some of the classes. Be present next Sunday.

Evening services 8 o'clock, B. Y. P. U.'s meet at 7 o'clock. Bring your friends.—M. C. BISHOP, pastor.

**METHODIST CHURCH**

Sunday school 9:45 a. m. Preaching at 11 a. m. and 8 p. m. Epworth League at 7 p. m. Prayer service Wednesday at 8 p. m. We cordially invite the public to our services. We received three fine members Sunday.

We have averaged more than one a Sunday since last November. We have fifteen or twenty yet who should join us. We are expecting them. We want one hundred this year, and half of the year has gone and we lack just a few having half our number. Our educational building will start some time the first of June. We hope to have it ready by the first of September.—J. F. Lawlis, pastor.

**CHURCH OF CHRIST**

The church is now functioning some "week in" meetings at Conaway this week, every evening at 8:30 p. m. At Seven Wells next week beginning Monday evening. We invite your presence to these meetings.

All services will be regular next Lordsday. Bible classes 10 a. m. Preaching and communion 11-12 a. m. Young Peoples Study of "Life of Christ" 7 p. m. Evening gospel-service 8 p. m. The subject at this hour will be "The Right to Choose." (Duet 30:15-19). Come and be with us.—J. D. HARVEY, Minister.

**PRESBYTERIAN CHURCH**

The Presbyterians are always glad to have you in any or all our services. Our Sunday school opens promptly at 9:45.

As most of us know we are in a contest with the Sunday school at Big Spring. We hope to win but if we do we will have to get a move on ourselves.

Every one who is interested must do all they can to help. Be there on time and stay for church, it all counts. Bring a new pupil thereby help us build and grow.

Church services at 11 a. m. and 8 p. m. Christian Endeavor at 3 p. m., and 7 p. m.

All strangers and visitors are given a warm welcome.—W. M. Elliott, pastor.

**YOU SHOULD WORRY**

It is easy enough to tell people not to worry; but how can they help it?

If you have nerves and imagination you worry. If you don't you don't.

A dog doesn't worry because he has no imagination.

If a dog has an appointment with other dogs to kill sheep or hold a barking bee till the neighborhood is aroused and infuriated, he doesn't worry if the other dogs do not get there. He just goes ahead and does the best he can by himself. That is admirable, perhaps, but it shows two things; first that the dog hasn't any real pride in getting the job done in the best possible style; second, that he doesn't care enough for his fellows to care what may have happened to them.

I am a worrier. I know I ought not to be. I know that worry causes all manner of chemical changes in the inside of you, and makes you die before your time. But if you worry you worry. As well tell a quaking aspen tree to be firm and steady like an oak as to tell a worrier not to worry.

Which brings me to my story, if it can be called a story.

When some men I know make engagements with their wives to meet them at a certain train, they walk to the station platform with their minds on other affairs and perfectly assured that their wives will be there.

I don't. I telephone mine a couple of times to be sure and catch the right train, and give her specific instructions as to where to meet me.

Then I am on hand a quarter of an hour before train time, and wondering impatiently if I made her understand which train it was, and why I didn't look at the time table before I telephoned to see if that particular train hadn't been taken off.

It never occurs to me that she will use any judgement of her own, although she always has when she required it.

Then if the train is 10 minutes late I begin to think that something has happened to it, and that either it has been wrecked, or it will be an hour late and we shall miss our engagement.

I can think of more things that could happen to that particular train than ever have happened to all the trains in all the world since trains came into use. And I know very well how infinitesimal is the percentage of such accidents, and by the doctrine of probabilities there is not one chance in 2,000 that the train will meet with a smash up or even be more than two or three minutes late.

When the train does come in and the people begin pouring out of it I wonder why I didn't tell my wife to get in the first car, so she would get off early, and I wouldn't have to stand there and peer at the faces of every passenger, think that after all she probably isn't on the train.

At last I find her. She has an errand in one part of town; I have an errand in another. Common sense tells me that we would save time by each attending to our own errands and meeting afterward. If I weakly yield to common sense and consent to such an arrangement, there is another spell of worry when she doesn't turn up on the minute set at the place agreed upon.

Again I can think of her getting lost, or being run down by a trolley car or automobile or waiting at some other place for me. The minutes keep passing, and by and by all sorts of expedients to be pursued in case she doesn't turn up at all cross my mind—like telephoning home to see if she has telephoned there, or calling up the police and describing her, which I can not do because a husband never has the slightest notion of what his wife had on when he last saw her.

My wife isn't a worrier, which is worse for me for I have to do all the worrying for the family.

**THE AMARILLO PLAINSMAN SAYS**

Another newspaper that has had to enlarge its equipment is the Colorado Record. Last week it was printed on a brand new Duplex Web Perfecting Press, which comes near being the last word in press equipment for ordinary newspaper offices. The new press made it possible to enlarge the Record to seven columns, too.

The Whipkeys have been with the Record for twenty years and they have kept Colorado's newspaper at the head of the procession, at all times. There have been some great changes in Colorado and Mitchell county in that time and it is not unlikely that the Record will be put-

**BUILDING UP THE WEST.**  
SAN ANTONIO.—U. S. Pawkett, chairman of the traffic bureau and R. Q. Lee, president of the West Texas Chamber of Commerce will represent that organization at the cotton compress hearings to be held in Dallas on June 4th. Chairman Pawkett

has already represented the organization at past hearings at Houston and New Orleans.  
ALPINE.—The application of the Davis Mountain region for the location of the University of Texas Astronomical Observatory was stressed at a special luncheon meeting of the

Alpine Chamber of Commerce held here Monday. Among those to speak on the subject was Porter A. Whaley who advocated that all the towns in the Davis Mountain location, letting the Selecting Board pick the particular mountain or peak best suitable for the location.

LUBBOCK.—The Texas Technological College announces the staging of a stupendous West Texas pageant at the close of the present college year. The pageant will deal with some of the big accomplishments of West Texas during the past ten years, including the securing of the Texas Technological College itself.

ABILENE.—The Abilene Chamber of Commerce announced today that Abilene would take two hundred and fifty memberships in her eighth annual renewal campaign for memberships in the West Texas Chamber of Commerce.

HASKELL.—The first air mail letter received in Haskell over the Fort Worth-Chicago service was received here today by B. M. Whitaker exhibit manager of the West Texas Chamber of Commerce and was sent to Mr. Whitaker by the Chamber of Commerce of Oklahoma City.

CHILLICOTHE.—The U. S. Agricultural Experiment Station, located here, and the first place in the United States where sorghum grains were grown, immediately following the importation of the seed from South Africa, announces that special work in propagation of kaffir and feterita seed will be undertaken as a part of the advanced program for 1926-27.

ROSWELL, N. M.—A special train shall be operated over the Pecos Valley Lines of the Santa Fe Railway to the Amarillo convention of the West Texas Chamber of Commerce, according to announcement made by the Roswell Chamber of Commerce.

ABILENE.—Building operations have passed the \$1,500,000 mark for the first four months of 1926, a record for a central West Texas city. San Angelo permits are also in the neighborhood of a million and a half dollars for the same period.

R. O. Pearson, who has been in Fort Worth several days consulting specialists, underwent a serious operation at a Fort Worth hospital Tuesday according to information received at the Burton-Lingo Co. offices of which Pearson is manager. Mr. Pearson had one of his kidneys removed, according to the report.

**Williams, a Man of Action, Became Tramp to Get Facts**

When Dr. Elmer L. Williams comes to Colorado, on June 4 as a law enforcement lecturer on the Premier Chautauqua Circuit, he will say some things that many people will not like, but it is barely possible that very few will go to sleep while he is saying them.

"The Handwriting on the Wall" is the subject that this man, known as "The Fighting Parson" has chosen for his masterly address on Law Enforcement. Dr. Williams is the Director of Law Enforcement of the Better Government Association of Chicago. He is the man who presented a petition to the United States Senate, asking for a senatorial investigation of crime conditions in Chicago, which created such an uproar in the press several months ago.

Dr. Williams spent eight years in the great social laboratory of Chicago. Disguised as a tramp he got the facts. He was arrested and taken to the station in a police patrol. His home has been bombed twice, he has been sued, threatened, defamed, suspected by ministers, helped and hindered by the press, and he has always gotten the facts of conditions.

The Dr. Williams became a member of the Chief of Police Staff, appointed by the mayor of Chicago. He moved forward. He arrested millionaires. He raided homes. He struck back in mass meetings. He brought convicts to the grand jury. He defeated politicians, and he cleaned up seventy-five per cent of the evil conditions in a certain part of Chicago where he started his crusade.

What is the chief cause of the break down of the law and government? It is not prohibition, says Dr. Williams. It is not immigration. The chief cause, he says, is official corruption.

Law Enforcement Day on the Premier Chautauqua program will be one of the big days of the chautauqua. You will hear discussed one of the greatest problems of the day. Dr. Williams will lecture at night, after a prelude by the Garay Sisters and Mr. Leith Stevens.

**ORDER YOUR CHEVROLET NOW**

With retail sales far in excess of factory production and thousands of unfilled orders reported on hand by dealers, the Chevrolet Motor Company manufactured 233,083 cars during the first four months of this year, the highest number of three-speed transmission type cars ever turned out by any manufacturer in a similar period.

The month of April set a new high production mark in the history of the company, when 71,157 cars were made in 24 working days, an average daily production of 2,964 units.

Of the 71,157 cars made the last month, 62,652 were for domestic consumption. Retail domestic sales for the month totaled 68,278 cars, showing sales were 5,626 ahead of United States factory production for the month. Production was pushed far beyond the normal output to take care of dealers' expanding demands.

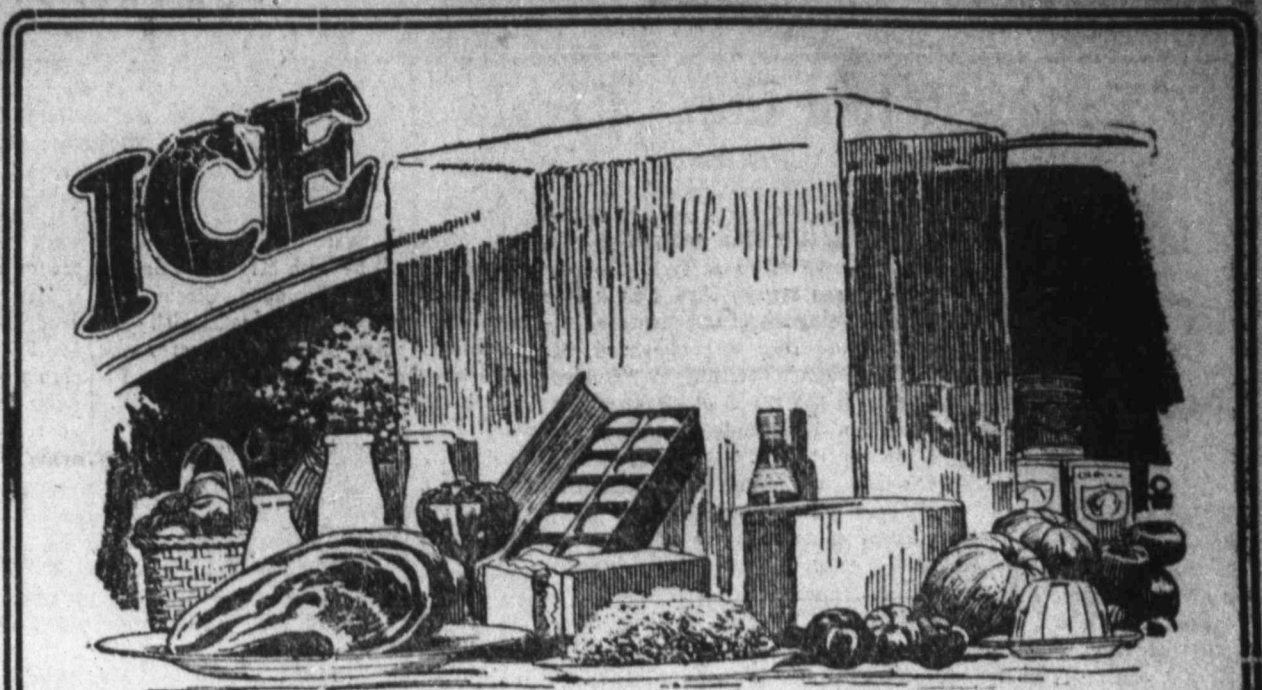

A new high record for sales in a single week was set in the week ending May 1, when 17,628 cars were sold at retail.

"Chevrolet is attaining one of the most spectacular successes in the automobile industry because it is not only pleasing its owners but constantly gaining thousands of new friends," said W. S. Knudsen, president and general manager of the Chevrolet Motor Company. "Under the most varied traffic and road conditions in city or county, its sturdy performance, modern appearance and comfort are creating an atmosphere of good will through word of mouth commendation—the most effective advertising any automobile can have."

Factory schedules call for building of over 70,000 cars a month for forestalling a continuance of steady demand throughout the summer.

**SAYS WEATHER RECALLS COLD SUMMER OF 1877**

An article in the feature section of The News of Sunday, May 16, gives an account of 1816 as the coldest year in the history of this country, "the year without a summer."

**Colorado Ice For Colorado**

We are NOW making the best ice that can be made. We ask Colorado to buy Colorado Ice. Our plant is the best and our ice is absolutely perfect. Patronize your home industry.

**Ice Is An Investment That Pays For Itself Easily**

With warm weather coming on it is more necessary than ever that your foods be well kept. The family's health depends upon it. Every home needs Ice. So plan now to use our Ice Service—the best of natural ice that lasts longer, refrigerates better. It saves more than its cost every day in refrigerators all over town. You, too, should have our ice.

Less Seed—Less Labor More Cotton

Pivot Axle Cultivator

Quick wheel and gang shift or wheel shift only. Perfectly balanced, light draft, rigid support bar, with roller bearing gang head.

A general purpose cultivator with simple and convenient adjustments to handle extreme conditions in both early and late cultivation.

**Price Bros.**

Colorado, Texas.

Which reminds us of 1877, when, on the morning of June 10, Colorado had a blizzard, the echoes of which in Texas gave us a frost that killed all the corn in this section. It was in the silk and tassel stage. There are many persons now living who remember it well. We are told that it frosted a little every month in that year, but however that may be, there is no doubt about the June frost. The long continuance of chilly weather in this section, resembling the last winter in its steadiness, suggests the possibility of a recurrence of the weather of 1877. However, we hope for better things. Little Margery Love Tidwell duly celebrated her first birthday last Thursday with the grandmother, Mrs. Leslie Crowder and great grandmother, Mrs. W. A. Crowder officiating head of the Gray Lumber Co., recently put in here and has complete charge of this fast growing concern. Colorado welcomes this most estimable family to its citizenry.

**GUARANTEED Ford used cars**

**THE logical place to buy a used Ford car is from an Authorized Ford Dealer.**

All used cars sold with a guarantee by Authorized Ford Dealers have been subjected to rigid inspection by Ford-trained mechanics, and the necessary work done to put them in good condition. You can buy one of these cars with every assurance that you are making a wise investment.

In addition to the guarantee he gives you, the Authorized Ford Dealer knows Ford value, and through contact with the previous owners he is in a position to tell you the exact history of cars he sells.

Only a small cash payment is required—the balance can be taken care of in easy monthly payments to suit your convenience.

See your nearest Ford dealer today. He will gladly show you the guaranteed used cars he has to offer. You will find the body type you prefer at a price which represents Ford value.

### Letters From The People

The Record has set aside this feature for use by the people and will run it each week until the July Primary. This is to be filled with letters from the people. It doesn't matter to The Record who are for or against. Just turn yourself loose. Postal requirements as to character of utterance is the only rule you need observe in so far as the subject matter is concerned. This column is open to all, so don't try to hog all the space. All articles must be signed and post-office address given.

#### SAYS MR. CONNER RIGHT

I have read with considerable interest the various excuses made by our friends who "scratched" the ticket, and the only one that has "come clean" is Mr. William Conner of Corsicana. You can read his letter and know he is telling it just as it happened. While I have never been guilty of this particular political crime, I can see how one must feel. Some contend that "circumstances alter cases" or, in other words, justify scratching the ticket and vot-

ing for the opposition. Circumstances never alter principles, which are fixed. By voting in a party primary the voter takes a pledge to support the nominee—not "if his man wins" but "the nominee." When he fails to do this he has violated that pledge and from my viewpoint, can feel only as did Mr. Conner. He may not be as honest with himself, but, if he is, he will have some such feelings. No man is compelled to vote in a primary. The ticket is made, the platform written or understood, and, if he does not like the line-up he can stay away from the polls, or vote some other ticket, but when he votes in the primary it is too late to investigate and excuses will not get him by St. Peter.

Bolting the ticket may be done in some sections and no great harm come of it, except to the bolter's feelings, but there are sections of Texas in which such a course might be serious. If a man can justify himself—and the party forgive him—for scratching the governor, what is to stop him from scratching the

congressman, the judge, the sheriff, or the constable? And if many did this in some districts we would have republicans in office. Therefore, for the good of all—of the State as a whole and the Democratic party as a whole—bolting should be discouraged from every standpoint and especially from a religious standpoint, for many of us over here in the piney woods of East Texas believe that a bolter can not go to heaven.

W. A. ADAIR,  
Marshall, Texas.

#### SAYS MR. CONNER WRONG

Mr. William Conner of Corsicana Texas, admits that he is a brass collar Democrat and confesses to having once violated his pledge. But he also admits that he felt like a spanked child and promises he won't do it again.

I would like to ask Mr. Conner whether he considers himself a free-born man or a man with a collar around his neck, subject to the beck and call of the politicians of the Democratic party.

Years ago at a political convention a measure was being considered which would require all the delegates to promise beforehand to support and vote for a candidate if the candidate received a certain plurality of a certain number of votes cast. One delegate arose and said: "I came into this hall a free American and I shall leave it a free American. I shall vote for the man I consider best qualified and no other." The measure was not passed.

The ballot is worthless if men are going to bind themselves to any party, Democratic or Republican and the man who hasn't the courage and the intelligence to vote for the candidate whom he considers best fitted for the office is merely a vote, and a vote without reason.

R. F. PAIGE,  
Dallas.

#### STILL WANTS TO KNOW

In my communication of several days ago I submitted that the minds of many voters in Texas could be enlightened on the question of what was a Democrat and what "ain't one," also whether a person who has voted the Democratic ticket for a lifetime until the last election and then voted it straight from President to Constable with "one scratch" would be considered a Democrat and should he be allowed to vote in the coming Democratic primary election

in Texas and if the Hon. James E. Ferguson would publish his views on the question, as he is personally involved as much in the correct solution of this matter as anyone.

I deemed it a proper suggestion that he lend his assistance in settling what seems to be a live topic of discussion and I still thing he could quiet some of the troubled ones, if he would only give his experience in participating in Democratic primary elections during the last few years.

Mr. A. C. Tisdale of Detroit, Texas, in a communication to your paper states Mr. Ferguson is busy with weightier things, so Mr. Tisdale steps to the plate as a pinch hitter and delivers a very weighty and expert opinion as to what is a Democratic "iser and ainter", but fails to answer the most important part of my query to Jim.

After consulting able lexicographers and men learned in jurisprudence as to the exact meaning of Mr. Tisdale's definition of "iser and ainter" I am fully convinced that Mr. Tisdale's definition has the endorsement of Ferguson, as it was published in the Ferguson Forum.

B. S. DAVIDSON,  
Denton, Texas.

#### FINDS CHIVALRY HERE

I take this means of communicating to the men of Dallas an expression of thanks and appreciation for the kindness, courtesy and consideration extended to the women of this city. In no other city have I ever observed such deference and such a respectful attitude of thoughtfulness and helpfulness manifested toward women as is every where in evidence here. I believe I have not seen women so much appreciated nor men so unwilling to sacrifice the manners so characteristic and distinctive of the men of Southern training as I observe in the city of Dallas.

I am expressing the sentiment of the women of Dallas when I say that it gives us gratification to see, with all the privileges we now enjoy in our efforts to serve rightfully and well, that our men honor and respect us as we deserve and that the ballot exercised by women has no influence to the contrary.

MISS AGNES LOCKE,  
Dallas.

#### RECALLS REAGAN'S REMARK AT CONVENTION OF 1894

This writer has been reading with interest the comments on the State Democratic convention in which the great and beloved Southerner, Judge John H. Reagan was denied the nomination for Governor. It was the first State convention I was permitted to attend as a full-fledged delegate, and I was at that time writing for the Denton County News, an ardent supporter of Judge Reagan.

I shall never forget how thoroughly impressed I was with the sincerity and honesty of Judge Reagan. His supporters selected one young man from each senatorial district to canvass the temper of the convention on the silver question before nominations or the platform were made. I happened to be selected from my district to help do this work. Before we started on this "mission" Judge Reagan called us into his rooms at the old Grand Windsor Hotel to give us instructions. After a few words of advice he said in substance: "Boys canvass the convention thoroughly, and if you find that it is not going to declare in its platform for free silver at the ratio of 16 to 1, I won't have the nomination if offered me on a silver platter," and he meant just what he said.

Before we fully completed our work the convention speeded up and a majority and a minority report on platform was brought in. Some of the most eloquent oratory was unloosed on either side and the majority report was adopted. If I remember correctly the very next State convention reversed this plank of the platform and several more that followed did likewise.

ALBERT ERWIN,  
Dallas, Texas.

#### VIOLATED PLEDGE, BUT WILL NEVER DO IT AGAIN

I see so many letters published in The News in explanation of "Why I Violated My Pledge" after I had participated in the Democratic primary. None of them just fits my case.

I had been raised and belonged to the Brass Collar Democrats. During the people's times I voted against my neighbor and a good man rather than violate my pledge, but in after years, for some reason, I do not know why I did it, I violated my pledge, I had not gotten ten feet away from the polls until I knew I had done wrong. I felt just like I had signed a note for my friend and sooner or later I would have it to pay.

I have paid for it. The nominee I had voted against was the same man

that was on the ticket when I took the pledge—hadn't gotten any worse or any better. For two long years I tried to hide behind every technicality that I could bring to my mind to justify myself, just like everybody else will do. I failed. But the tug of war came two years later when I started to the polls to vote. I wondered who was holding the election and if they knew I had violated my pledge two years before, and what they were going to say to me.

To my great surprise they gave me a ticket. I fixed the ticket and handed it back to them and walked away, and will never forget just how I felt and had been taught by a good father and mother that an honest confession is good for the soul, and I believed it, so I promised myself and my Lord, if He would forgive me for that one act I would never be guilty again. I am going into the primary this year and I am very enthusiastic for Dan Moody, but believe me, if Ma or Lynch gets the nomination I will be found on the firing line doing what little I can for the Democratic nominee. And listen, I believe I will go a little further. I will be there if Jim gets it.

WILLIAM CONNER,  
Corsicana, Texas.

#### DAVIDSON AND MOODY

Lynch Davidson at Dallas, commenting on Dan Moody's opening speech, accuses Dan of using some of the Davidson lumber in constructing his platform. Well, from all accounts Mr. Davidson has plenty of lumber to spare.

Mr. Davidson says that Moody was the first to question his (Davidson's) "honesty and integrity." Presumably, Mr. Davidson's excuse for making that comment was the fact that Mr. Moody stressed the need of honesty and integrity in state government. He said not one word about Lynch Davidson.

Dan Moody, in common with most Texans who know Lynch Davidson, recognizes him as a man of the highest type, a capable lumberman and patriotic citizen. There is only one thing the matter with Mr. Davidson at this time—he hasn't got a ghost of a chance to beat Jim Ferguson for governor of Texas and Dan Moody has. There's the whole thing in a nutshell. Moody is just as honest, fearless, capable and dependable as Lynch Davidson, and he has the additional recommendation that he has fought Fergusonism at every step and is the only man in Texas under the circumstances who can defeat the crafty James.

There is another difference. Mr. Davidson was a candidate for governor two years ago, and had scarcely been defeated before he announced as a candidate for 1926. Dan Moody got into the race not at his own behest, but at the earnest solicitation of thousands of his fellow citizens who see in him the man to bring Texas back to the good old days of Hogg and Campbell.

—Abilene Reporter.

#### WHO'S THE "RUBE"?

There is scarcely a week that some Snyder business man doesn't ask the editor to warn the dear people, especially the country folk, against the unscrupulous peddler and all other house-to-house canvassers. Say, Mr. Farmer, listen. Some of these same merchants will swallow bait, cork and all every time a peddler of advertising comes along. They will actually buy advertising schemes that bear no semblance to real advertising, and actually make themselves believe that they have done some honest-to-goodness advertising. For a so-called business man to ask this editor to warn its readers against buying from peddlers when those same merchants are buying their stationery of peddlers and falling for fake advertising schemes is absolutely too ridiculous to be funny. On the other hand, won't some of you subscribers who believe in your home paper give some of our business men a few pointers on how and in what to advertise? God knows, they need it. Times-Signal readers represent the very best citizenry of Snyder and Scurry county, and they take and pay for the Times-Signal because they like it, and they read it because its news matter is readable, and the ads, because they know it pays them to take advantage of the bargains offered each week by the live wire merchants of Snyder. Don't worry about the farmer, Mr. Business Man, Times-Signal readers keep their eyes on the live merchants and are laughing in their sleeves at the so-called business man that falls for the schemes of the itinerant advertising peddler.—Snyder Signal.

Exactly what is said above by the Snyder paper applies to Colorado and the Record. Nearly every week some special advertising scheme is offered the Record whereby the merchants are to be worked on a

50-50 basis, but we turn them all down. Anything to be put over in Colorado must have the endorsement of the chamber of commerce, retail merchants association and the publicity director of the Lions club, also the Record.

Mr. Business man when one of these guys comes round with one of these fake schemes make him show his authority.

CISCOAN'S SON IS A NOTED NOVELIST

Max Elser of Cisco, one of the best known figures in the oil fields of Central West Texas, is the father of Frank B. Elser, whose new novel is thus commented on in the Texas Pythian News Nugget:

"In the hurry and flurry of the day when most men are satisfied with reading the newspaper's headlines at the breakfast table, I wonder, dear reader, if you take time

on Sunday to read what the reviewers have to say about current literature. If you do, perhaps you recently read a line like this and then passed up the criticism: 'The Keen Desire, by Frank B. Elser, New York: Boni and Liveright, \$2.' The book reviewer of the New York Times has this to say about the book: 'The Keen Desire is one of the most enjoyable, thoughtful and workmanlike first novels which has come the way of this reviewer. It takes a supreme place among first books and a high rank among the more practiced writings.' And I wonder if you have guessed who I am talking about? Frank B. Elser is the worthy son of a noble sire, namely Max Elser, Past Grand Chancellor, Cisco, Texas. And Brother Elser has a son who bears his name, Max, Jr., of whom he is also justly proud. This last named boy is the owner of the Metropolitan Newspaper Service of New York. These Texas boys are winning fame and fortune in the greatest city in the world, but that is not so surprising—just look who their dad is!

DIAMOND THEFT DISCOVERED, AS WOMAN LEAVES STORE

That J. P. Majors, owner of jewelry stores at Colorado and Sweetwater, is not so easily fleeced by a would be diamond thief is shown in an article published in the Nolan County News (Sweetwater) last week. Majors made his home in Colorado for many years.

In giving an account of the attempted theft, Editor Luther Watson of The News says: The experienced eye of J. P. Majors, glancing over a tray of diamond rings in his jewelry store here late Thursday spotted at once a "Woolworth diamond" that was resting in the spot where a \$350 ring belonged, and resulted in the arrest of a woman who officers said was the cleverest artist in her line that had ever visited Sweetwater. Majors detected the 15 cent ring where the \$350 stone should have been, less than a minute after a well dressed woman had walked out of his store after looking at the jewelry.

Majors caught her three doors down the street, and she gave up the ring without a word of protest, took the bogus stone, and started up the street. Lewis Polk, who was standing nearby, was called by Majors to follow the woman while an officer was secured. She made her escape, however.

A short time later a woman found in bed in a room at a local hotel was arrested by officers as a suspect. She was taken to the sheriff's office in an automobile, and Majors was called to identify her. He could not positively state that she was the woman, however. A search warrant was obtained and her room was searched. The search revealed several changes of clothes, including fine silk dresses, and another dress which might have been typical of a country woman. Majors recalled that a woman, evidently from the country, had entered his store Thursday morning to look at rings. In the afternoon, a woman who resembled her, but who was dressed in the heights of fashion, came in and the substitution of the bogus ring for the valuable diamond followed.

The clothes that had been worn in the store the second time were found the woman was required to change into them, and she was then identified by Majors.

Returning to the court house, officers discovered on the running board of the car in which she had been placed under arrest, the bogus diamond. It is presumed that she dropped it out of the car after being taken in custody and that it lodged on the running board. The imitation ring was identified by Majors. In searching her hotel room, officers also found a suit case containing a considerable quantity of hotel linens.

A man, said to be her husband, is with the woman, who gave her name as Rixa Lightfoot. She said their home was in Oklahoma and that they came to Sweetwater from San Angelo.

20,000 PEOPLE, 60 BANDS IN WEST TEXAS C. OF C. PARADE

AMARILLO, May 17.—Twenty thousand people in one parade! Two hours of marching! Such is the prediction of Martin Jarrett chairman in charge of the delegation parade which will be one of the most important and gigantic features of the annual convention of the West Texas Chamber of Commerce convention which will take place in this city on June 21-22-23. The parade will be staged on Tuesday, the second day of the big convention and will represent a living stream of humanity in a heterogeneous, if orderly conglomeration of humanity, decorated floats, automobiles, bands and colors, one and one-half mile in length, requiring two hours to pass a given point.

More than 60 bands will be included in the make-up, all of those entering the contests and those not eligible to enter being placed in the stream.

Suitable prizes will be offered the most beautiful automobile and the most representative float.

The parade will be spectacular because it will represent, or rather typify the magnificent progress that West Texas has made in the past few years, and will, if present indications are faithful, eclipse anything of its nature ever seen in the southwest, it is declared.

In addition the prizes offered for the most representative float and the most beautifully decorated automobile there will be a prize offered for the largest delegation, mileage traveled and the registration of delegates entering into the computation for this award. A plan whereby all delegations will have an equal chance of competing is being worked out by officials of the West Texas Chamber of Commerce, and officials of the local organization. In this as in other details the experience that seven conventions has accumulated is being counted upon for an equitable solution.

There is yet a new feature, apart from that of "My Home Town" speaking contest, which is being introduced into the general program of the convention. This is to be known as the Chorus Contest, this year sponsored by the Federated Women's Clubs, and Musical Clubs of the seventh district, who will be in charge of the program to be given at the auditorium Monday evening. Mrs. I. D. Cole has been appointed to take charge of the program for the clubs.

The Chorus Contest will consist of competition between choruses of women's or men's mixed voices in the singing of a number. Each chorus must consist of not less than 10 or more than 30 voices and the winning group will receive an award of \$50.

OIL NEWS

(Sterling City News)  
Collins No. 1, 6 miles east of here, was completed to the contract depth of 3,000 feet last Saturday and is now shut down for orders.

Sparkman Well, 20 miles west of here, is drilling in lime past 3,100 feet.

Deep Rock Clark No. 1, 8 miles southeast of here, is undergearing from 1870 to 1910 feet.

The Hyman well, 24 miles northwest of here, is reported to be standing 2,900 feet in oil, with oil flowing out between the eight and ten inch casing. This well, the property of the Deep Rock Oil Company, is situated about three miles northeast of the Chalk well, which is the center of attraction in oil circles in this territory.

The Sloan-Owen Chalk well No. 1 24 miles northwest of here, in the southeast part of Howard County at a point a little over two miles north of the northwest corner of Sterling county, has settled down to a steady production of 50 barrels per day. Operators from every quarter are flocking to this new discovery. Four new rigs are in the course of construction in the vicinity of this well, and as many as a dozen new locations have been made. About 100 people are camped on the ground and a new town is in the process of the making. S. O. Wilson is putting in a restaurant there to feed the people.

The fact that oil was struck in the Chalk well at 1577 feet makes it a very attractive proposition.

California Davis No. 1, 3-4 mile north of the town limits, is drilling past 1100 feet. This well is making record time, and if the past luck stays with the crew, we shall soon know what is beneath the surface of this new location.

Roxana Clark No. 1, 13 miles southeast of here, is straight reaming to set 6-inch casing at 2900 feet.

Durham No. 2, 1 1/2 miles south of here, is being pumped twice each day, and is behaving nicely.

Record ads are worth reading.

CHEVROLET TO INCREASE OUTPUT

DETROIT, May 15.—The largest expansion program in the history of the Chevrolet Motor Company, involving the expenditure of \$10,000,000 and increasing the company's production facilities to a peak capacity of 1,000,000 cars per year, will be inaugurated June 1, according to an announcement Friday by W. S. Knudsen, president and general manager of the Chevrolet Motor Company. Building plans have been completed, machinery ordered, and by Jan. 1 the company will be prepared to build 1,000,000 Chevrolet cars.

Under the 1927 program employees numbering 20,000 during full time operation will be increased proportionately.

Closed body production facilities will be 750,000 annually. Sixty percent of the \$10,000,000 will install machinery of the most modern type. The remainder will erect additions to various plants of the company in the United States. With present equipment capable of producing 650,000 cars a year unable to meet the demand for cars and reports showing the factory production oversold, the

building program calls for additions to plants located at Detroit, Flint, Bay City, Toledo, Cincinnati, Jamesville, Wis., and St. Louis.

WHOLESALE CRIME WAVE

HOUSTON, Texas.—Burglars and robbers cracked three safes, entered a number of homes, staged two hold ups, killed one man, stole 16 automobiles and got about \$900 in money besides a number of articles of merchandise Sunday and Monday morning.

It will be remembered that the Southern Baptist Convention was in session the week referred to above, but of course the preachers had nothing to do with it.

Road Tests Prove Buick Quality

the model will stand up in actual use. Hundreds of thousands of car miles are traveled before any part is considered ready to be put into production. Many changes are usually necessary before the car meets the exacting standards set.

In order to duplicate actual road conditions and to give the car a service test more rigid than they are ever likely to receive in actual use, Buick test cars are daily put through their paces at the General Motors Proving Grounds near Milford, Michigan.

Here the cars are tested in every conceivable manner for strength, stamina, comfort, roadability and economy of operation. Each of the fifteen or twenty test cars is driven from 300 to 500 miles every twenty-four hours. They are periodically torn down and inspected for signs of wear by Buick engineers.

The picture shows a speed test in which a fifth wheel and recording apparatus is used. It is one of hundreds of tests which determine the qualities of the car.

MANY months are spent in designing and experimental work before an automobile is actually produced in quantity. The engineering department must plan a model down to the finest detail, and then build a fleet of test cars to be used in proving that

**When They "Inventory" Your Insurance**

**Will They Find a Patchwork of Policies... or Planned Protection?**

COMES the day in every widow's life, when she must subdue her sobs, grapple with grief, lift her head and face life's problems as best she may.

If men could but know the sense of helplessness and bewilderment of that crucial day... that day, when friend, or banker or lawyer takes inventory of the estate with her... to see with what resources she is to carry on for herself and the children... alone.

Life insurance comes first, naturally. Too often it happens there is not enough... or it is of the wrong kind... or the beneficiary receives it in a "jump" too easy dissipated in her trying days of inexperience and perplexing responsibilities.

And in all such cases, the husband, in his active vigorous life "thought he was well insured." Your policies are good—no doubt. All insurance of standard class is good. But it is intelligently chosen according to YOUR requirements? That is the point so many men miss.

Ask your best friend... ask yourself: "do you KNOW" for certain, just HOW MUCH insurance you have? Do you know the exact nature of each of your present policies? Are you sure just what are the provisions for the payment of its indemnities? Have you weighed carefully your family and business responsibilities against the kind and amount of protection you have provided?

You Give to your business affairs, your most careful thought, analysis and plans. Isn't your insurance problem worthy of the same attention? Why not build a real insurance program, rather than merely a haphazard collection of policies?

A Southland Agent can help you. He won't try to SELL you additional insurance you do not need. He WILL help you analyze your problem and get the home office to ADVISE you. The Southland Life Home Office Advisory Board has an entirely unique plan of confidentially diagnosing personal insurance problems. Write for it today.

Have you Enough insurance

**GEORGE B. ROOT AGENCY**  
Geo. B. Root and D. A. Crawford, Solicitors

heard these fish stories before. How the biggest ones got away an' everything, but we are inclined to believe there's some thing to this one as he brought back quite a lot with him which his neighbors enjoyed to the fullest extent.

The play which was put on by the Dunn high school at the auditorium Monday night was one of the best home talent plays we have ever attended, though the crowd was very small. Proceeds amounted to only \$20.00.

Rev. Summers returned Sunday from Houston where he attended the Southern Baptist Convention at that place. Bro. Summers states that they had a great convention and was happy over the fact that they passed two resolutions against the evolution question which has been poisoning the minds of our young folks for several years.

Mr. L. E. Lasseter of Ft. Worth was a visitor in the home of his parents, Mr. and Mrs. J. E. Lasseter, Tuesday, Mr. Lasseter was on his way home from Odessa where he had been on a business trip.

Mr. and Mrs. R. E. Gordon and son, Jack, Mrs. Vaughan and daughter, Mary Florence and Messrs. Basman and Landreth motored over to Crosbyton Sunday to take Mrs. J. F. Garber, who has been visiting in Westbrook for the past few days. Mr. and Mrs. Garber have recently moved to Crosbyton where they are in the grocery business.

One of the most successful years in the history of the Westbrook school will come to a close on Friday, May 21, 1926. The faithful teachers have labored in season and out of season to bring the work up to standard, and as a whole, the student body has made wonderful progress. The cooperation of the patrons has been splendid, which has made it possible for the school to make the progress it has.

Plans are being formulated to classify and affiliate the school another year. In order to do this it will be necessary to add a great number of our books to our library and install a laboratory to teach one or more sciences.

The splendid building provided for the school by the trustees and patrons, is a thing of beauty, and will be a joy to the student body and public for many years to come. The large attendance on every program given is a splendid testimony to the appreciation of our beautiful auditorium.

The following teachers have been employed to teach during the session of 1926-27: N. A. Terrell, superintendent-mathematics; A. N. Richards, principal history, Spanish; Mrs. L. E. Gressett, English; Miss Ben Lou Ingram, grammar school; Miss Florine Evans, grammar school; Miss Tella Cook, second primary; Miss Orlean Cary, first primary.

Mrs. James Herrington and baby have returned from a visit to Mrs. Herrington's parents, Mr. and Mrs. J. T. Garber at Crosbyton.

The Westbrook ball team went to Lamesa Sunday where they played the team at that place. The score was 8 to 19 in favor of Lamesa.

Mr. and Mrs. Mackelhaten have rented rooms at the Methodist parsonage and are busy moving in this week.

The Woman's Missionary Society will put on a program, consisting of a play, readings, etc., at Cuthbert Saturday night. If you are sick in any way be sure to be on hand to consult the eminent specialist, Dr. Pill, who has a cure for all ailments.

The B. Y. P. U. social which was given at the Baptist parsonage Thursday night was a very enjoyable occasion and was attended by something like 60 or 70 young people. The splendid music was very much enjoyed and both indoor and outdoor games were played. Refreshments of the cream and cake were served and the merry crowd departed for their homes.

**English Club**

On Friday 14 the seventh and eighth grades rendered their English club program. After the minutes were read by the secretary, the following program was rendered:

- Opening song—Columbia the Gem of the Ocean.
- Reading—Blanche Webb.
- Jokes—Florence Knowles.
- What if—Alfred Johnson.
- Cracker Contest—Doris Skelton and Jerome Fuquay.
- Class Prophecy—Lucille Mitchell.
- Can You Imagine—Carroll Gauzlin.
- Adjective Story—Mable McKinney.
- Question and Answers—Lillian Johnson and J. D. McCullough.

**Current Events—Mozelle Donelson.**

Debate: Resolved, that the compulsory school law should force all boys and girls to go to school until they are eighteen years of age, instead until fourteen years—Affirmative, Gussie Bledsoe and Mary Edna Gressett. Negative, G. D. McCullough and Carroll Gauzlin.

Class Editor's report.  
Closing Song—By room.  
As there was no further business to be seen to the meeting adjourned until the next regular meeting.

The ninth and tenth grade Crusaders, held a meeting in the school auditorium, Friday morning, May 14. After the business the following program was given:

Roll call followed by quotations from Shakespeare's "As You Like It."

1. Jokes—Byron Terrell.
2. Special Music—A. N. Richards.
3. Short talk—The Benefits Derived from Our Club—Jay C. Hall.
4. Acrostics—Everette Oglesby.
5. Reading—Mrs. Johnson.
6. Review of Work done by the Club this Year.

**Review of Crusaders English Club.**

The English club of the ninth and tenth grades organized Oct. 5, 1925. Committees were appointed to select a motto, a name and colors for the class. A committee was also selected to frame by-laws and constitution for the club. At the second meeting, Oct. 19, the name "Crusaders" was chosen for the class. The motto chosen was "The elevator to success is not running; take the stairs." Colors of rose and silver were selected. The by-laws and constitution were adopted, providing for a meeting on the first and third Fridays of every month and providing that the term of office should be two months, thus enabling all of the

members to have some experience in office holding. New officers were elected on the first Friday of every second month.

The three fold purpose of the English club has been to promote the principles of oral and written English, give training in organization and office holding, and promote a friendly feeling by the coming together of its members in a social way.

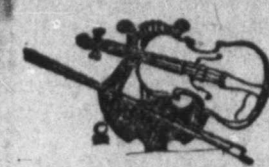

The programs have been given regularly and have been a source of pleasure and benefit to all members of the club. The social side has not

been forgotten, as the club has had several entertainments during the year. Dues of five cents per member were paid at each meeting and have been used for entertainment purposes.

As we come now to the close of our school year, we take pleasure in saying that although our work here has been both pleasant and profitable, it has been made even more so by our Crusaders English club.

Will make you special low price on any kind of feed. Phone Colorado Produce Company.

Jas. T. Johnson left Friday night for Greenville on business.

All kind of violin repair work. Graduating, bass-bar setting, re-gluing, grafting and bow-hairing. See Hughwood Smartt, Jr., at J. RIORDAN CO.

Although it is bigger and more rugged than other low-priced cars, Chevrolet has a world-wide reputation of costing less to own and to operate.

This reputation has been won, first, by the longer life, slower depreciation, and freedom from repair that result from Chevrolet's modern design—and, second, by the oil and gas economy of Chevrolet's powerful valve-in-head motor.

Hundreds of thousands of Chevrolet owners will tell you that this car is not only powerful, speedy, comfortable and smart appearing—but that you can enjoy its exclusive advantages at a cost which is lower than you imagine. Come in—get a demonstration and let us show you why this is true.
