

### COLORADO AND WESTBROOK CO-OPERATE ON OIL ROAD

Actual Construction Will Be Started in Few Days, is Report Made Here

The chambers of commerce at Colorado and Westbrook are united in the determination to construct a good graded highway from connection with the Bankhead highway west of Westbrook leading into the shallow oil field in vicinity of the Owen & Sloan well. Definite action of the two organizations was announced here Monday afternoon following adjournment of the executive session of the Colorado Chamber of Commerce.

The Colorado Chamber of Commerce obtained assurance from commissioners court last week that the road connecting the Bankhead and Conaway highways would be built. At that time plans were started to construct a good road across the D. H. Snyder ranch in Howard county to connection with the Chalk field road.

Monday afternoon Col. C. M. Adams, vice-president of the chamber of commerce, acting in the place of the president who was absent from the city, convened the board in executive session and so interested were these men in building the road at once that a committee was appointed, a cash appropriation of \$500.00 made and instructions given that the road be started without delay.

Alvin Bell, prominent citizen of Westbrook, was in Colorado Monday to confer with officials of the local chamber of commerce as to the needs of this outlet to the oil field. He stated that Westbrook was interested and desired to have a part in directing plans for the road and financing the work. Bell was here again Tuesday and announced that citizens of his place were ready to come up with their share of the expense.

### New Lumber Yard Will Be Opened at Loraine Soon

The Berry Lumber Company has purchased site for a lumber yard at Loraine and expect to open for business at an early date. T. L. Britton, former mayor of Loraine, stated while in Colorado Monday. Mr. Britton reported considerable building activity in his city.

Dr. Hester is erecting a new filling station, W. S. Wimberley is erecting a business building 50 by 20 feet in size, and other properties are being erected. The attractive Masonic building is nearing completion. Mr. Britton reported that fine rains covered the Loraine territory Saturday and crop prospects are ideal, he concluded.

### ROAD SIGNS WILL DIRECT THE TRAFFIC TOWARD COLORADO

The Colorado Chamber of Commerce is completing the task of setting up attractive road signs along the Bankhead and No. 101 highways. Large signs have been placed at the county line boundary on the Bankhead east and west of Colorado and road markers placed at intervals along the route.

Monday the large marker made for intersection of Highway No. 101 with Highway No. 9, forty-five miles south of Colorado, was set up. This sign, which is legible for some distance, will easily direct traffic thru Colorado. The sign gives distances to Colorado, Snyder, Post, Lubbock and Amarillo. Small signs, giving distance and direction to Colorado, were placed from beyond Sterling City into Colorado.

This work, started two months ago by the publicity department of the chamber of commerce, will fill a much needed want. For some time tourists have been confused as to the proper route to take into Colorado, especially those coming from San Angelo and beyond.

### John Brown to Construct Two Buildings in Colorado

John Brown local representative of the Texas Company, stated Saturday that construction work on two buildings to be built in Colorado by him would be started without delay. Both the buildings are to be occupied by Brown as Texaco service stations.

One of the buildings will stand at the east end of Second street, where now stands the old D. H. Snyder home. The other is to be located at Third and Walnut streets on property recently purchased from Judge A. J. Coe. Materials for the buildings have been purchased.

### Members Scout Training Go on Hike Monday Afternoon

Several members of the Scout leadership training course here went on a hike into the country Monday afternoon. W. S. Barcus, district scout executive, conducted the nature study work which engaged attention of the men in the country. Arrangements are being made to make another hike, this time taking the men considerable distance into the country to a camp where night will be spent.

### Second Holiday of Week Observed by Colorado Banks

For the second time during the week the banks of Colorado were closed Thursday out of recognition of a holiday. Thursday June 3 was celebrated as the anniversary of Jefferson Davis.

### This Girl Holds Unique Record in School Work

Miss Naomi Rogers, daughter of Mr. and Mrs. W. H. Rogers holds a unique record in school attendance. Never during the eleven years between the day she first entered school until graduation a few days ago did this girl miss a day from her studies. As a member of the class of 1926 she was given special honors by her class mates, who voted her the distinction of being the prettiest girl attending high school the past year.

### RAIN TAKES HEAVY DAMAGE TOLL TO CROPS AND ROADS

Near Waterspout Inundates Spade Section During Saturday Night

Assuming the proportions of a waterspout, rain over the Spade section Saturday night took a heavy toll in damage to crops, roads, fences and other properties. Farmers living in that community report one of the heaviest rains ever recorded, the downpour registering from five to eight inches. Damage done will aggregate several thousand dollars.

The county lost about ten miles of public road when the heavy flood waters either destroyed the graded surface or badly damaged the thoroughfares. Jno. D. Lane, county commissioner of the Spade precinct, reported here Monday. Lane estimated that it would require \$500 for him to make repairs to the roads to the extent of placing them in good passable condition.

Loss sustained by the county to the public roads, however, was evidently the smallest item to be cataloged in the damage toll list. Not less than a score of farmers were damaged to the extent of having entire crops swept away and their fields washed with deep gulches. Approximately 2,000 acres of cotton was either destroyed or materially damaged.

E. L. Latham, residing three miles west of Spade, was among the heavy losers. Latham was in Colorado Monday and reported that he had 215 acres of fine cotton to be completely destroyed. The crop was up to a good stand and his field in good state of cultivation before the flood. Now it is a barren waste with wash-outs left at varying places over the farm.

Not only did this farmer lose his cotton crop, but sustained damage to his feed. A half mile of fence on his place was swept away by the flood waters which completely inundated most of the farm. "It was the heaviest rain I ever saw fall," Latham stated. "Not only did I sustain a heavy loss in having my crop destroyed, fences leveled and farm damaged from washouts, but others of the Spade community also paid a heavy toll to the storm."

Russell Hood, living east of Spade, some four or five miles from the Latham place, suffered heavy damage. His farm was badly washed and the cotton crop practically destroyed. Bob Northcutt lost 120 acres of cotton.

Damage to the farms and crops are to be noted along the highway from near Morgan Creek bridge over a distance of ten miles to the southwest, Lane declared. In some instances deep gulches were cut across the fields, leaving a damaging condition which will be difficult to repair.

Lane recalled that he had been a resident of that community for many years and had never witnessed such telling effects from flood waters. It was the heaviest and most damaging rain ever recalled by him.

### President Texas Tech Will Speak at Picnic July Fifth

Dr. Paul W. Horn of Lubbock, president of the Texas College of Technology, will visit Colorado Monday, July 5th, to deliver an address at a picnic to be given by the Methodist Sunday school at Seven Wells. T. W. Stonerod, teacher, of the Young Business Men's class, which organization is sponsoring the picnic, announced Friday that Dr. Horn had accepted invitation to attend the celebration.

Owing to the fact that July Fourth falls on Sunday this year, the class will observe the National holiday on Monday following.

### WATER USERS INCREASE 300 PER CENT IN PAST FIVE YEARS, IS SHOWN

The Colorado waterworks department has three times the number of patrons today than was the case five years ago. L. A. Costin, city manager, stated Tuesday. Costin stated that more than one hundred water connections had been made by the city since January 1.

The city is being called upon to make connections to the mains continuously, Costin said. So heavy has been the demand for extensions and new connections that the city has made no profits from the department in months. All surplus funds accruing to the department have gone back into the system in the way of new equipment.

Just now the city is facing the necessity of making extensions to both the water and sewer mains, Costin said.

### Dawes Entertains Members of Civic Clubs in Country

Members of the Sweetwater Rotary and Colorado Lions clubs were entertained by Thos. Dawes at the Van Tuyl estate on Champion Creek Monday afternoon. There were about sixty men representing the two civic organizations who motored to the inviting country place to enjoy the evening.

A six o'clock luncheon, consisting of barbecue and all the "fixin's" was served the visitors. Entertainment of varied features were enjoyed until late evening.

Among the diversions entered into by the men and which were very much enjoyed by them was a sing song, foot racing, broad jump, leap frog and other boyhood sports. That the men were boys again in every sense of the word was in evidence.

### Jubilee Concert Planned on Tech College Campus

Lubbock and Texas Tech are working together on plans for the projected jubilee concert to be given by the Colorado Chamber of Commerce band in Lubbock on the evening of Friday, June 18, Hon. R. M. Chittwood, business manager of the school writes in a communication received by the Colorado Chamber of Commerce Thursday.

Chittwood states that the concert and celebration will probably be held on the college campus, in that the large crowd of Lubbock and South Plains people expected may be accommodated.

"The city of Lubbock and our college is delighted over prospects of having West Texas' official band visit us and take such an important part in this celebration," Chittwood wrote. Mr. Chittwood stated that plans for the jubilee were being worked out by himself and manager of the Lubbock Chamber of Commerce.

### Chautauqua Lecturer to be Guest at Lions Club Today

Dr. Elmer L. Williams, lecturer on the Chautauqua program for Friday, has accepted invitation to attend the Lions club luncheon meeting today and deliver an address. Dr. Williams accepted invitation to visit the club in a telephone message to the chamber of commerce Thursday afternoon.

The visitor will arrive in Colorado Friday morning from Snyder, where he spoke Thursday.

Miss Vera Cook, who has been employed by the California Company in their Colorado offices, will leave this week for San Angelo, where she will be employed by the Dixie Oil Co.

Architect W. W. Whipkey and Mrs. Whipkey left Thursday for Dallas, to spend a few days on business.

Mrs. Sam Young of Stanton is visiting relatives in Colorado.

### CONTRACTORS' PAY ROLL IS PLACED AT \$40,000 MONTH

\$1,500 in Cash Daily is Paid Out for Labor on Jobs Under Construction

With a monthly pay roll of \$40,000 to labor, building contractors in Colorado have assumed an important place in the industrial life of the city. That the aggregate wages being paid for this work will total that amount was assured Wednesday morning by superintendents of some of the larger projects and architects who are identified with building throughout the city.

The largest job in Colorado is the new high school building in Highlands Park. Thirteen brick masons alone were employed on this building this week. W. W. Whipkey, associate architect on this building, stated Wednesday that the contractor was paying out from \$2,500 to \$3,000 a week to labor. The daily average was placed at \$425.

The four projects under construction on Main and Walnut streets, Hotel Colorado, Thomas & Earnest office building, the C. L. Root building and the Hall & Ratliff building Wednesday morning were estimated to have a combined daily pay roll of \$418.

At the several other construction jobs in the city, including the smaller business buildings, residences and repair work, would easily place the total pay roll at \$1,500 a day, Whipkey stated. This would mean that labor working on new construction alone is receiving a pay roll of \$40,000 every twenty-six working days.

The contractor's pay roll is soon to be considerably increased over the present estimate, S. H. Slack, superintendent on the hotel job, stated. He is working a limited number of men now as compared to the number to be put to work later when the large machines are started running concrete into the foundation and structural forms. Daily pay roll on this contract will be at least doubled within the next few weeks.

Estimate on the combined labor pay roll here does not include the large sum of monies being paid out every day for materials. Much of this outlay is paid to Colorado concerns on purchase contracts for lumber, sand, gravel and other materials.

### Mitchell Club Woman Wins Prize in Kitchen Contest

Mrs. C. H. Thomas of near Loraine, member of a home demonstration club fostered by the extension department, A. & M. College, won first place in the recent "Better Kitchen Contest." Mrs. Thomas won this honor in competition with a large number of entries in district three, extending from Weatherford and Waco on the east to El Paso.

Representatives of A. & M. College who inspected the kitchen of Mrs. Thomas declared it to be one of the best types of rural kitchen ever seen. Mrs. Thomas easily won the coveted pennant.

### Colorado Boy Makes High Rating at Medical School

Maxwell Thomas, son of Mr. and Mrs. J. M. Thomas, is making high grade in his work at the school of medicine, University of Texas, at Galveston. He made excellent grades in every one of sixteen studies for the past school year. He has been assigned to special work at John Sealy Hospital, Galveston, out of merit, which connection will give the embryo doctor valuable training.

Maxwell has one year at the school before completion of the prescribed course. He has recently stated that he will remain in Galveston for the summer, taking special work at the hospital.

### \$100,000 CASH OFFER DECLINED BY OWNER CHALK ROYALTY

Otis Chalk, owner of the land on which the Sloan & Owen well was completed a few weeks ago, has declined \$100,000 for one-third second royalty equity in the property, according to report received in Colorado. The offer was made by a Houston man who recently visited the shallow field.

Based on this ratio the one-eighth royalty retained by Mr. Chalk in mineral ownership of the lease is valued at more than \$400,000. Celebrating spudding of Sloan & Owen Chalk No. 3 Monday. Mr. Chalk entertained a number of visitors at the well with a barbecue. Barbecued beef and goat was served oil men and other visitors from Colorado, Big Spring and Sterling City.

### Cemetery Grounds Cleaned by Citizens of Colorado

Grounds at I. O. O. F. cemetery have been worked and placed in good condition under auspices of the Colorado Cemetery association. The grounds, which a few days ago presented the scene of a neglected waste, to some degree, at least, are today an example of civic attractiveness. The work was done at a cost of \$360.00 and had the personal supervision of J. H. Greene, who for the past several years has directed this worthy program.

Greene stated Thursday morning that the fund was \$75.00 in arrears. Funds raised by committees representing the association totaled \$285 and the expense was \$360. At one time last week a total of forty-eight men, busily engaged in working the grounds with hoes, were counted. In addition to cleaning off all weeds and other undesirable vegetation, the driveways were graded. The work was completed Saturday, before visitors went to the cemetery Sunday afternoon to participate in Memorial exercises.

### Perfection Water Still is Installed by M. C. Ratliff

The large Perfection water still, having capacity of delivering fifty gallons of pure distilled water an hour, has been installed at the plant of the Chero-Cola Bottling Company, owned and managed by M. C. Ratliff. The plant, which takes water from the city mains and transforms it into sparkling distilled water, free of all mineral content and impurities, is expected to merit a liberal patronage here.

R. H. Ratliff, county attorney and who is associated with his father in management of the plant, stated Wednesday that this was the only legalized still in operation in Mitchell county. He extends an invitation to the public to visit the plant and witness it in operation.

"It would be interesting to see the amount of mineral content taken from the city water treated in this process," Ratliff stated. "The average consumer does not have the remotest idea of the large percentage of salts and other brackish content found in our water."

The plant is supplying distilled water to service stations for battery use and expects to develop a big demand for the product in both commercial and private use. The water is being advertised as a beverage, as well as suitable for scores of household uses.

### Price Brothers Open New Automobile Sales Rooms

The Price Bros. automobile sales rooms, recently opened in the R. P. Price building on Third street, is another attractive automobile building to be added to Colorado's business district. The building was constructed especially for automobile display purposes.

Price Bros. are distributors of the Hudson and Essex automobiles in this territory. The firm is enjoying an extensive business.

### DR. MCCONNELL WILL OPEN REVIVAL SUNDAY, JUNE 6

Baptist Evangelist is Among Strongest in Southern Church Assn.

Dr. F. M. McConnell of Dallas, evangelist to conduct the First Baptist church revival opening at Union Tabernacle Sunday morning, is considered among the strongest pulpit speakers in the Southern Baptist church, Rev. M. C. Bishop, pastor of the local church, stated Wednesday. The evangelist has conducted some of the most successful religious campaigns of the South, Bishop stated, and he is confident that a wonderfully successful campaign will be held here.

Dr. McConnell will be remembered by many citizens of Colorado. Sixteen years ago he conducted a meeting here. Since that time he held a number of important posts in the Southern Baptist church. Among these are the superintendency of denominational work in Oklahoma and later in Texas, succeeding the late Dr. J. B. Gambrell in this State. He is a former president of Burleson College, Greenville and has held pastorate of some of the largest churches of the State. At present he is secretary of the four Baptist institutions in Dallas, including Baylor Hospital.

Hugh L. Hielt, soloist and musical director, is also a strong man in the evangelistic field, with several years experience. He has assisted in a number of successful campaigns in Texas.

The series of meetings are to open Sunday morning at 11 o'clock at the tabernacle. The Sunday evening services will also be held at this building, but it is not definitely known where the services of Monday and Tuesday are to be held. Owing to the Chautauqua program at the tabernacle, it is probable that services the first two days of next week will be held at the church.

Rev. Mr. Bishop and the choir leader of the First Baptist are extending an invitation to singers of the city to cooperate in the music. Rev. Mr. Bishop stated Wednesday that pastors and congregation members of the other churches were cooperating with him and his church in a splendid way.

"We are bringing two of our strongest men to Colorado for this revival," Rev. Mr. Bishop stated, "and I have no doubt but that a great religious awakening is in store for this town. We are anxious to reach a large number of people and trust that the general public will come into the services and give us their full cooperation."

### Hewett Opens Studio Over Burns Dry Goods Co. Store

A. C. Hewett, director of the chamber of commerce band, announced Monday that he was opening a studio in the F. M. Burns building, corner Second and Elm streets. Equipment for the studio was expected to arrive in Colorado the first of the week.

Hewett, who came to Colorado a few weeks ago from Arkansas to assume management of the band, is considered one of the best musical directors and instructors of the country. He was for some time conductor of the Ohio State band.

### Roddy Merritt Represents Colorado in Tech Pageant

Roddy Brooks Merritt, son of Mr. and Mrs. J. G. Merritt of Colorado, represented this city in the pageant, "Spirit of the West" given by the Texas Technological college at Lubbock Tuesday evening. Roddy is a student in the college and eagerly entered into the program to represent his home town. The pageant, participated in by a large number of persons, depicted the growth of West Texas over a period of many years.

### Letters From The People

The Record has set aside this feature for use by the people and will run it each week until the July Primary. This is to be filled with letters from the people. It doesn't matter to The Record who are for or against. Just turn yourself loose. Postal requirements as to character of utterance is the only rule you need observe in so far as the subject matter is concerned. This column is open to all, so don't try to hog all the space. All articles must be signed and post-office address given.

#### WOULD LIKE TO HEAR FROM FERGUSON ON THIS ISSUE

Anent the discussion as to what is a Democrat and what "ain't one" also as to whether one who has for a lifetime voted the Democratic ticket without scratching a name, until the last election, and then voting it straight from President to Constable, with "one scratch" should or should not be considered a Democrat, and

should such voter be allowed to vote in the coming Democratic primary election in Texas?

I submit that the minds of many voters in Texas could be enlightened on these issues if the Hon. James E. Ferguson would publish his views on the proposition and under the present situation I consider it very essential that he do so.

B. S. DAVIDSON.

#### PUTS PARTY SECOND

There's some talk of barring from the coming primary all that bolted the ticket in the last election.

I bolted the ticket, believing that I was doing the best thing for my State's interest and for good, honest government; my State's interest shall always come first. If those who voted the ticket straight believed that they were doing what was best for the State's interest, then they have done their duty as good citizens, and I have no fault to find with them. If they were just voting for a party, then they were blocking the road of good government. Anyone that puts a party ahead of his State's interest is not a good citizen in the fullest sense of the word.

The pledge is good for nothing only to give the politicians a club to use to drive the people to the polls like a bunch of cattle and vote them for any demagogue they may get nominated.

It seems like the privilege of bolting just belongs to certain people and the leader can jump in or out and form him a new party any time he likes.

I shall always vote for what I believe is to the best interest of my State; if I have to bolt a ticket to do so I won't hesitate.

When a majority of the people quit letting demagogues lead them astray on false issues, and vote only for the candidate that shows a clean, honest record and the courage to back up what is right, and meet the vital issues face to face, then we will have good men in office and that will mean good government, and it is impossible to have a good government until they do.

ROYAL S. JONES.

#### DRINK HABIT GROWS, SO WHY LIGHT WINES AND BEER?

Please permit me to say a few words that may cause the enemies of prohibition to allay their prejudices in order to listen to the reason and judgement of their friends who are prohibitionists for the good of the State and the Nation. As for those who are not law-abiding, there is nothing to be said, but to let the law have its way with them, hoping that they may soon see the error of their ways and repent.

A few of your readers would have us believe that if we should return to the old ways of having perfect freedom of drink what we want there would be less drunkenness than now.

I must confess I do not know how to answer such an argument, as it is against all reason and experience. The saloon was instituted to correct that evil before prohibition was enacted. Something over seventy years ago my father had the old-fashioned side-board with its decanters of brandy and whisky accessible to all, but we were taught to take a small amount as a toddy in the morning as a preventive of colds and other diseases. On one occasion a 17-year old drank freely and strolled off to the river bottom to look after his traps. He was brought home on the back of a sturdy negro. The next day was the saddest, the most sorrowful that ever came for that home. The effect was such as to make the baby boy volunteer to tell his father that he would never drink brandies and whiskies any more, and he kept his word.

Strong drinks have always grown and will ever grow on the average drinker. I appeal to the experience of men as my argument. Hence, this cry for light drinks is without fact and experience.

One more thought: I have heard lately that in business circles some respectable citizens drink intoxicants. Of course, they do not drink unlawfully made or sold beverages of this kind or they would not class themselves among the respectable. To this class I appeal. If you as good citizens do such things what do you expect of the average citizen? There never has been a time in our country's history that demanded a more patriotic spirit in her best citizens than now. We are on the eve of being the greatest nation that ever existed on earth. But we have to sustain our effort to be a sober one to accomplish our purpose. Texas, I am sure, will not go back on her record and never want a full corps of Congressmen to help keep our standing as a nation. But our judges must be sustained by true and tried jurors in order to put down the crime and lawlessness which I am afraid is the offspring of a paid sentiment that is undermining the integrity of our people.

D. S. SWITZER.

#### DEMOCRATS DID NOT NOMINATE GREELEY

I am not going to enter into your political squabbles down there in Texas, but I want to correct a statement one of my fellow-readers of The News made a few days ago. He charged that the Democratic party nominated Horace Greeley in 1872, which was not the case. The facts are that Mr. Greeley was nominated by what was called the Liberal Republican party, the chief plank in its platform being that for restoration of the franchise in the South, which, of course, the South desired. The Democrats met later and, knowing that they had a poor show to elect a man at that time, adjourned without nominating a man for president. However, they endorsed the Liberal Republican platform, especially that part of it which aimed at restoration of the franchise in the South.

T. J. MAULDIN. 1411 East Thompson street, Sapulpa, Okla.

#### SHOULD REDUCE COTTON ACREAGE 50 PER CENT

I differ with Col. Bill Crooge. A bumper cotton crop will be detrimental to everybody. It will put labor down. Then the laborer will not have as much money to buy clothes and groceries as he could with a medium crop. It will affect Col. Crooge's business, because the laborers will not have the money to buy his beef, for he has had his wages cut. He can not buy any more clothes when cotton is cheap than he can when cotton is high. When cotton is high labor is high. When cotton is cheap labor is cheap. No matter how cheap anything is, if you have not got the money to buy it with it does not help you for it to be cheap.

I believe everybody should do everything that they can to get us farmers to cut the acreage. I believe in more cotton on fewer acres that gives more acres to grow food for the world, for the common people use more food than they do cotton goods. We should try to find out how much cotton the world needs and try to raise that much.

I believe that if we farmers would plant half of our farms in cotton that would supply the demand. Then we would get a fair profit. I think we should co-operate more with one another than we have done in the past.

We farmers should help one another and do unto others as we would wish them to do unto us. We should not be as selfish as we have been in the past. We should have our banker friends, our merchant friends and our labor friends. I am a farmer. I live in Mills County. The farmers,

I believe, will plant about 40 per cent to cotton and the other 60 per cent to feed, such as corn, maize, sorghum and oats. There is a larger oat acreage in this county than there ever was before and the prospects are good.

W. H. PITTMAN. Mullin, Texas.

#### MOODY'S ACCEPTANCE CAN NOT BE CALLED "BET"

Apparently The News misinterpreted Mr. Moody's acceptance of the Ferguson proposal of retirement from office when it termed it a bet. A bet is a wager of money upon some uncertain event, by which one party enriches himself at the expense of another. In contrast to this Mr. Moody has attempted to benefit Texas at his own expense. He has nothing to gain personally, and everything to lose. Whatever may have been the motives of the Fergusons in advancing the proposition, it is not to be doubted that Mr. Moody acted entirely unselfishly and solely with a regard to what he believed for the best interest of his State. His action is consistent with his work in the Attorney General's office in combating the reckless expenditure of public money, for by his acceptance he puts the issue squarely up to the people whether they desire to put an immediate end to such practices or whether they are willing to let it go on for another six months.

Mr. Moody's road suits were at first criticised by some and opposed by the governor, whose cooperation he should have had. No one now questions his judgement in the light of the results. Only six months ago the people were greatly exercised by the disclosure in those suits and only the resignation of two Highway Commissioners forestalled a legislative investigation. And now, when the Texas bond market is suffering for want of legislative validation of its road bonds, Mr. Ferguson refuses to convene the Legislature. There was no appeal from the Governor's persistent refusal until Mr. Moody's acceptance gave the people the opportunity to repudiate Fergusonism immediately by registering their desire at the polls on July 24.

T.S. COX. Austin, Texas.

Miss Louise Wulfjen who has been teaching at Paris this year arrived in home this week. She came in her car via Fort Worth where she picked up Bert Wulfjen, Jr., and Don Wallace who have been attending the San Marcos Military Institute and they are all home now for the summer. Miss Louise reports a very successful year's teaching and is delighted with her work and with Paris.

DEMOCRATS DID NOT NOMINATE GREELEY

I am not going to enter into your political squabbles down there in Texas, but I want to correct a statement one of my fellow-readers of The News made a few days ago. He charged that the Democratic party nominated Horace Greeley in 1872, which was not the case. The facts are that Mr. Greeley was nominated by what was called the Liberal Republican party, the chief plank in its platform being that for restoration of the franchise in the South, which, of course, the South desired. The Democrats met later and, knowing that they had a poor show to elect a man at that time, adjourned without nominating a man for president. However, they endorsed the Liberal Republican platform, especially that part of it which aimed at restoration of the franchise in the South.

T. J. MAULDIN. 1411 East Thompson street, Sapulpa, Okla.

SHOULD REDUCE COTTON ACREAGE 50 PER CENT

I differ with Col. Bill Crooge. A bumper cotton crop will be detrimental to everybody. It will put labor down. Then the laborer will not have as much money to buy clothes and groceries as he could with a medium crop. It will affect Col. Crooge's business, because the laborers will not have the money to buy his beef, for he has had his wages cut. He can not buy any more clothes when cotton is cheap than he can when cotton is high. When cotton is high labor is high. When cotton is cheap labor is cheap. No matter how cheap anything is, if you have not got the money to buy it with it does not help you for it to be cheap.

I believe everybody should do everything that they can to get us farmers to cut the acreage. I believe in more cotton on fewer acres that gives more acres to grow food for the world, for the common people use more food than they do cotton goods. We should try to find out how much cotton the world needs and try to raise that much.

I believe that if we farmers would plant half of our farms in cotton that would supply the demand. Then we would get a fair profit. I think we should co-operate more with one another than we have done in the past.

We farmers should help one another and do unto others as we would wish them to do unto us. We should not be as selfish as we have been in the past. We should have our banker friends, our merchant friends and our labor friends. I am a farmer. I live in Mills County. The farmers,

**West Texas Electric Co.**  
"Electricity Is Your Servant"

**Ford**  
**Highest in Quality**

The quality of a motor car is largely determined by the materials out of which it is built. Take, for instance, steels— which comprise the major portion of the materials used in automotive manufacturing today. No automobile can have more durable or more satisfactory steels than you get in a Ford.

The upholstery used in Ford closed cars contains a much larger percentage of wool than is ordinarily specified. Genuine polished plate glass is used for Ford windows and windshields.

The story is the same for every item of material used in Ford manufacture. It is logical that such extreme care in the selection of materials should result in a car that is without an equal when it comes to enduring service.

**Lowest in Price**

Conditions that are unique in the automotive industry make Ford prices possible. Every manufacturing operation is under direct control of the Ford Motor Company. Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Ford glass plants produce the glass for windshields and windows; wood comes from Ford timber tracts. Raw materials and finished products are carried over Ford-owned transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization.

Under any other circumstances, Ford cars would cost a great deal more than they do.

## CHURCHES

### PRESBYTERIAN CHURCH

Our Sunday school was fine last Sunday. Nice offering to the Sunday school work in Korea.

We also had a good attendance but there were some of our people absent, we missed them very much. Come and bring your friend. Sunday school will open at 9:45.

We are glad to note that Mr. J. M. Thomas our superintendent is home from his vacation and will be with us next Sunday. We also have thru the kindness of some one some new song books. We are sure glad to have them. Preaching at the 11 o'clock hour. No service at night on account of the Baptist meeting. Intermediate Endeavor at 3 p. m. Senior Endeavor at 7 p. m. All the young people are invited to these meetings.—W. M. ELLIOTT, pastor.

### CHURCH OF CHRIST

Our "week in" meeting efforts have proven a wonderful success, just closed one at Seven Wells last night with more people than could crowd in the house every night and six baptisms. The next will be McKenzie.

Last Lord's Day was another fine day with us. The Bible school was at its largest tide. Help us make the one to come still better. Bible classes 10 a. m. Preaching and communion 11-12 a. m. The subject at this hour will be "The Law of New Testament Worship". The young peoples study, "Life of Christ" 7 p. m. Evening gospel service 8:15 p. m. We solicit your presence and help.—J. D. HARVEY, minister.

### BAPTIST NOTES

As you doubtless know the revival meeting, conducted by Dr. F. M. McConnell and Singer Hugh L. Hiatt will open Sunday a. m., at the Union Tabernacle to run for two weeks.

We urge the people to get in on this meeting at the beginning and help put over a good proposition for Colorado. You will be delighted with these men.—M. C. BISHOP.

### METHODIST CHURCH

Sunday school 9:45 a. m.  
Morning services begin at 9:45 a. m. and close at 11:30 a. m.

This will be a short service followed by the administration of the sacrament. Let every one take notice of this change. The Sunday school voted last Sunday to try it out. Every one in the Sunday school is expected to stay for the service or rather through the service and this will not be tiresome on any one.

There will be no evening services, except the Epworth League which meets at 7 p. m. There will be no prayer services the following Wednesday evening. I want to urge all our people to attend the services of the Baptist Church. I have been told that the preacher who is coming to hold these services is a good gospel preacher and we will be repayed well for our attendance. We hope that if it benefits you, as a matter of fact, you will have to attend it.—J. F. LAWLIS.

### DAN MOODY'S BET

(Bill Kellis)

A long time ago there were hard times in Israel. A fellow by the name of Ahab was then governor and ran things to suit the fancies of himself and wife, Jezebel. Ahab fergusonized the public funds, Lanthamized the range and joerburketted the waterholes.

Jezebel was a high roller. She had a bunch of 400 crooks, who were called prophets of Baal to sit with her at the table and drink booze, talk politics and cuss the preachers. She sent out a gang of roughnecks who had been pardoned out of the pen for bootlegging and stealing sheep to kill all the preachers they found.

Old Parson Elijah whom Jezebel called a monkey faced Baptist, was chief among the preachers and they wanted his goat mighty bad because he wouldn't vote the Ahab ticket. When Elijah saw they were about to kill all the preachers he rounded up a hundred of them and hid them in caves and fed them on bread and water.

All this happened during a big drouth. Grass and water got so scarce that they had to move the stock out of the country to keep them from starving. Elijah told these folks that it wouldn't rain until he said so, and he wouldn't say so until they quit their devilment. This made Ahab and Jezebel sore at the old man and he had to hide out. Things grew from bad to worse. They chased Elijah all over the

country, but they couldn't catch him. One day Elijah sent word to Ahab by a man by the name of Ob-ediah that he wanted to see him on particular business.

When they met Elijah requested that Ahab call a mas meeting of all the people at Mt Carmel. He told Ahab he had a proposition to make to them. Ahab called the meeting and everybody including the 400 prophets of Baal were there. When the meeting was called to order Elijah stated the object of the meeting. Elijah told the crowd that owing to the drouth, that things had come to a showdown. "If the Lord be God, follow him; but if Baal then follow him." Not one of the crowd said a word, but they saw that it was a square deal.

Elijah told the Baal crowd to kill a steer and cut it up and lay it out on some wood and call on Baal to set it on fire, and he would do the same thing, except that he would call on God to set his afire. He said "The God that answereth by fire, let him be God." Then everybody said that it was a fair proposition. They told the Baal men to get busy. They did. After fixing the beef as Elijah told them they called loudly on Baal. The whole bunch called long and loud, but Baal didn't seem to hear them. They hollered and screeched but nothing doing. Then Elijah began to gey them. He told them to holler a little louder, maybe Baal had gone fishing or to the postoffice, or maybe he was asleep or something. The Baal fellows got excited and jumped on the pile of meat and yelled for Baal to come on with a chunk of fire or they were goners. They got out their knives and cut themselves until they they were as bloody as stuck hogs and still Baal wouldn't kindle a fire.

When the Baal crowd was petered out with so many monkeyshines, Elijah says: "Are you fellows thru?" They said they were. Then the old prophet of the Lord had a trench dug around the altar which he had built on twelve rocks. Then he made his men pour water over the meat and wood three times until the trench was full of water. He did this to show the people that he was above board, honest and that there was no shenanigans. Then the old man went down on his knees and no one ever heard such a prayer since the morning stars executed an oratorio with the whole universe for an audience.

Presently it began to rain fire on the altar. Flames licked up the wood, the meat and kept it up until even the twelve rocks were burned to ashes.

Then the people knew that God was God. They waked up, took those booze fighting prophets of Baal who had been sticking their rusty feet under Jezebel's table, down on Kishon creek where they wouldn't stink and beafed the last governor Ahab that he had beter go to supper, and he went. Elijah prayed for rain, and it came a regular trash-ifter and gulleymasher.

Texas is in the same shape that Israel was when Ahab mismanaged Israel and Jezebel entertained the Baal humpugs and crooks of the world. The whole state has been fergusonized, the road funds have been Lanthamized and the highways Joerburketted. It has gone from bad to worse until it has come to a show-down.

Jimferguson had his wife, under whose name he is doing business, to say that if Dan Moody got one more vote in the primaries than she did, she would quit. That if she got 25,000 more than Dan, he would quit.

It was a fair bet. Dan has accepted. It is now a question of whose ox gets the fire.

If Ferguson is JE in Texas, let Dan get out and give jim a bil fold and a fair flutter. But if Texas; if common honesty and good service are what they desire, let Jim quite and give Dan the bat. "If the Lord be God, follow him; but if Baal, then follow him." Let the people answer.

### YOUR CHEVROLET CAR

A Chevrolet chassis, fitted with a special "library" body accomodating hundreds of books neatly arranged on shelves, is entering its sixth year of service with the Evanston, Ill., public library, bringing literature to suburbs during the summer months when school branch libraries are closed.

The visits of the circulating branch are eagerly awaited by hundreds of children and adults in scores of communities near Evanston, according to Miss Ida F. Wright, librarian of Evanston, and is one of the most popular extension services ever inaugurated by the institution. Patrons wait on the streets for the arrival of the car, forming in orderly queues, to make their selection of books from the open shelves of the car.

Withdrawal cards are stamped by one of the young men assigned to drive the car and act as librarian en route, and the library then proceeds to its next destination.

For ten weeks during the summer months the Chevrolet is used in this suburban distribution until the school branches open for the winter. It is then returned to headquarters to serve as a utility car for the main library. Evanston is the home of Vice-President Dawes and the location of Northwestern University.

The Chevrolet has given exceptional mechanical service, library officials say, and it has never been found necessary to supplement it with an extra car. Other communities are reported to be considering adoption of similar moving libraries.

### NEW BEACON REPLACES "OLD MAN OF THE SEA"

Latest Light at Cape Henlopen is turned on and off by computer; old keeper loses job.

HE sea gained only a hollow victory when the historic Cape Henlopen Lighthouse, which the British built at the mouth of Delaware Bay in 1765, was abandoned recently to wind and tide and topped into 179 arms of its ancient enemy.

The government had foreseen the destruction of the old light and had erected a new steel lighthouse equipped with a carbide gas or acetylene light which works automatically, turning itself off at dawn and on again when the sun goes down. The old keeper lost his job, for the new light does not need a keeper, and is only visited twice a year to replenish the fuel.

The passing of the old landmark, the second oldest beacon in America, will be regretted by all mariners, who knew it as the "Old Man of the Sea." Pirates and buccaners of the days of "wooden ships and iron men," as

lines could sail, had oil and keelsons. The use of kerosene was abandoned for a time in all lighthouses via the Lighthouse Board in 1875, hesitating to endanger lives of employees and public property by placing mineral oil at points from which keelsons could not escape in case of accident.

Old light, use at Cape Henlopen which was toppled into the sea after 100 years of service, it was built by the British in 1765.

In recent years the government has equipped many of its lighthouses with carbide gas, the system of lighting employed in many farmhouses throughout the land. The gas is generated automatically and the light turns on and off night and morning by the operation of a sun valve. The system was first tried successfully in 1912 in Mobile Harbor ship channel, where eleven lights were installed and are still in operation.

Nearly all important lighthouses are now lighted by carbide gas, either generated in tanks or generated automatically. By avoiding the expense of keepers, the government is able to operate many more lighthouses than was previously possible. Until this method was adopted practically the whole of the Atlantic Coast had been left unprotected. The same system is also used along the 44 miles of the Panama Canal.

One of the most famous lighthouses of modern times is on Richardson's Beach, 200 feet above the water, at the Santa Barbara Islands, off California. It is lighted by the carbide gas system and flashes every three seconds during the night. Since its installation in 1913 it is estimated to have flashed more than 70,000,000 times without failure.

Commerce be given.

Hon. R. M. Chitwood, business manager of the school, has given his enthusiastic endorsement to such a plan. Dr. P. C. Coleman, president of the Colorado Chamber of Commerce and who called the first mass meeting convened in West Texas demanding creation of a West Texas school by the State, will be with the delegation.

The Colorado visitors traveling in a motor car caravan, is scheduled to arrive in Lubbock Friday afternoon, June 18. The visitors will spend the night here, continuing the journey to Amarillo the following day—Lubbock Avalanche.

The time of seeking of votes is here and the ball-bearing jaw and the gall-bladder conscience are abroad in the land.

### DISTINGUISHED VISITORS ON FRIDAY'S CHAUTAUQUA

Third Day of Premier Opens With Presentation of Gary Sisters.

Friday, third day of chautauqua, opened this morning with assurance that this is to be one of the red letter days of the week. Should prediction of local chautauqua leaders materialize the appearance of the Gary Sisters this afternoon and evening and Dr. Elmer L. Williams on the evening bill, the day will be enjoyed by chautauqua patrons as one of the very best of the six.

Elizabeth and Iolanda Gary, violinist and violoncellist of Budapest and Florence, each a finished artist, capable of interpreting with ease and mastery the music of the greatest composers, are to appear in concert at the afternoon program. These young ladies, considered among the most talented artists, either in America or abroad, recently arrived in America for the Premier Chautauqua circuit. These distinguished visitors will give a prelude concert Friday afternoon before Dr. Williams is to deliver his lecture.

Dr. Williams is easily one of the outstanding figures in America. This is especially true when this famous citizen of Chicago is to be considered from the viewpoint of law enforcement. Speaking from the subject, "The Handwriting on the Wall" Dr. Williams will speak of law enforcement.

Disguised as a tramp, Dr. Williams spent eight years in the social laboratory of Chicago. During this time he was sued, threatened, defamed, suspected by ministers, helped and hindered by the press, had his home bombed and otherwise assailed. Undaunted, this man, determined to rid his home city of the liquor traffic and other agencies of lawlessness, continued to fight. He will tell this story Friday night.

Chautauqua opened Wednesday afternoon with presentation of the Alamo Serenaders, an aggregation of young musicians of great talent. Their program did not fail to merit the demonstrations of appreciation given by the crowd at Union Tabernacle, where the programs are being held.

The serenaders appeared again Thursday evening with a prelude program. Everett Kemp, humorous lecturer, furnished a continuous round of laughter Thursday evening through his humorous interpretation. This number was replete with originality and is among the best numbers to be given.

Thursday afternoon two distinguished persons were presented by the chautauqua management. Opal Flood, dramatic reader and entertainer, and Rev. Roy Rutherford, pastor of the First Christian church at Kansas City, lectured on the subject, "Me and America." Both of these entertainers easily won the hearts of every person hearing them. It was a program well in keeping with Red-path-Horner standards.

Thursday evening one of the headliners of the entire week was to be given, when chautauqua presented to the Colorado public "Applesauce," a recent Broadway success. This bill will take its place along with the best high class dramas ever presented on stage in this city. The largest attendance yet to be registered at chautauqua was expected for this number.

This chautauqua will continue through the entire six days. Saturday "Oh Percy," concert orchestra and men's singing class, and Ed Weir, all-American tackle, are to appear in the program. These entertainers are to appear on both the afternoon and evening bills.

Monday the afternoon program will be given over to a concert by the Katherine Costin Trio and an address by Major John J. Hill. Monday afternoon a program full of expectations by Colorado chautauqua officials, the all-star cast, "Smilin' Through" will be given. This number alone will be worth the price of one season ticket.

Tuesday of next week, closing day of the chautauqua, will bring the Twentieth Century artists in concert and E. J. Powell, lecturer. The concluding number Tuesday evening will be another bill by these artists assisted by Wilbur Pfeiffer.

Curden hose, the best corrugated molded rubber hose, the kind that lasts.—J. Riordan Co.

As we understand it, there is to be a resignation of a high political official in Texas about July 25, but don't ask us what the name is.

### CUB REPORTER ON THE CURB

In starting out this morning from the Record office we made a bee-line for Hurd's Bakery where were introduced and Mr. Hurd said "Bread is the staff of life, and in the production of bread, cakes and pies the successful baker must not be content with making up staple articles only, but must show originality in order to captivate the public taste. That is the secret of the success achieved by Hurd's Bakery, who understand so well the art of catering in this particular branch, ever offering toothsome and palatable products to a lengthy list of people, and a

good family trade that recognizes the good efforts of this bakery."

We next arrived at the "M" System store and Mr. Beal the manager said: "The cash system eliminates costly bookkeeping and gets rid of all bad debts. Small profits and a quick turnover 'bring home the bacon' for this modern grocery. With this advantage we are in a position to sell goods at a much lower price than the old style grocery. All you have to do is to compare prices and you will find these conditions prevail. This store handles nothing but quality goods. Economical buyers are making this store their shopping center when it comes to groceries and pro-

duce. The configuration on the inside is very different. What is the name? The "M" System store."

Our next stop was at the Berry-Fee Lumber Co. yards.

Whatever you may need in the way of building materials or paints can be supplied by this lumber store. Whether you plan to build a mansion or a garage, a gigantic barn or a small poultry house, this yard will furnish you a free plan service. And the quality of the service corresponds with the high quality of the materials. They have all kinds of materials and there is no better place in the state to buy it. They buy the best, therefore sell the best. They

carry everything in the way of building material—from a canvas tack to a house complete.

These people have just completed one of the nicest and most up-to-date lumber yard offices in the west. The Berry-Fee Lumber Company's name has always stood for the best in lumber and building materials. The man who wants to build and calls at this yard will receive every courtesy and assistance possible. Whether your bill be large or small this concern is always glad to figure with you.

Mrs. Bill Simpson has returned from her visit to California.

New steel structure at mouth of Delaware Bay, is not so graceful but is more efficient and cheaper to operate than its historic predecessor.

as all honest merchant mariners for its cherty clean as they rounded the Cape, and were warned from danger and guided safely on their voyage.

Originally Cape Henlopen light burned fish oil. Sperm oil from the whale was later used until kerosene too expensive, and then at various

### BANDSMEN WILL PLAY CONCERT IN LUBBOCK

Colorado Organization Stop in Lubbock En Route to Amarillo.

The Colorado Chamber of Commerce band personnel and members of the delegation from that city to the annual convention, West Texas Chamber of Commerce at Amarillo, are looking forward to their visit in Lubbock on Friday, June 18, with considerable enthusiasm. This band, the gold medal band of West Texas and official musical organization of the West Texas Chamber of Commerce, will spend the night in Lubbock and is scheduled to render a concert for entertainment of the citizenship of the South Plains Metropolitan.

Should present plans materialize, this concert will assume the proportions of a big jubilee in home city of the School of Technology. The visiting band is officially representing the West Texas Chamber of Commerce and since the Texas Tech was sponsored by this great regional organization, it has been suggested that a lively program, to be arranged by officials of the school and the city of Lubbock Chamber of

#### "Special Delivery" Shower

The superintendent of the junior department of the Baptist Sunday school, Miss Violet Mooser and her teachers gave a "special delivery" shower to Miss Susan Smith Thursday morning. The gifts were sent to the home of Mrs. A. L. Whipkey and early Thursday morning the young people to them to her. They were packed in a big white basket decorated in gold and carried to her

home. When Miss Susan came to the door Miss Mary Terrell presented them to her. She said it was a special delivery package in gold and given to her, who was pure gold, because we loved her. It was quite a surprise to her as she was busy engaged in the last touches for the eventual occasion and not even dreaming of such a thing. She said words failed her to express her appreciation of the thought and the beautiful gifts. These were many, both personal and things for the new home.

Mr. and Mrs. Walter Whipkey and family will spend the week end in Dallas.

### Milk Gives Most Food Value At Least Cost

H. C. Hooks.

Milk gives more food value for less cost than any other food known to man, according to Herbert C. Hooks, secretary of the Evaporated Milk Association. "Dietitians are unanimous in advocating the use of milk by men, women and children," said Mr. Hooks. "Milk and evaporated milk supply some of all the materials necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth. Milk helps repair the wear and tear of the body. It is as good as meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium. Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, or one pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a certain amount of iron.

"By some authorities milk is said to be an aid in longevity. Dr. Herman Bundesen, health commissioner for Chicago, gives his prescription for long life as follows: Drink one quart of milk a day and mix with one hour of sunshine. Repeat ad infinitum. "Due to the efforts of health officials to get across to the public the message of milk, its general use in the United States has advanced tremendously in the last decade. This is especially true of evaporated milk for reasons of its convenience and economy. Housewives know there is no fear of obtaining contaminated evaporated milk because it is not only the best grade of market milk rendered double rich by dehydrating, but it is sterilized as well."

### Happy Wedlock Sure Thing If Bride Is Cook

By KATHRYN ST. JOHN

Haphazard meals yearly ruin thousands of marriages. Most marital ships would maintain an even keel if brides knew cooking. Many of the first year's troubles between newlyweds would be avoided if the wife were capable of preparing foods with an experienced hand. Wives are to blame for the failure of many business men in the final analysis. The business man's health depends a great deal on what he eats. And it's up to his wife to see that he gets the right kind of food. A healthfully balanced diet goes a long way toward making the tired business man less fatigued.

The expert home manager sees to it that her husband never comes home to a delicatessen lunch. There is a carefully planned meal waiting for him. The real housewife knows that an unbalanced diet means trouble and avoids it. Likewise, she appreciates the fact that variation in her menus is important. In this connection the following recipes have been selected as an aid to the home manager:

**Frozen Salad.**  
1/2 cup mayonnaise 1/2 cup candied dressing  
1/2 cup diced pine-apple 1/2 cup diced cherries  
1/2 cup diced pineapple 1/2 cup diced bananas  
1 apple 2 tbsp. lemon juice  
4 tbsp. pineapple 1/2 cup evaporated milk  
1/2 cup cream  
Mix the fruit and juices. Combine milk and cream, chill and whip; then fold in the fruit and mayonnaise. Pour into a mold and pack in equal parts of salt and ice. Serve on lettuce leaves. This serves eight.

**Orange Javarian.**  
1 tbsp. gelatin 2-3 cup evaporated milk  
1/2 cup cold water 1/2 cup whipping cream  
1 cup orange juice 1 cup lemon juice  
3 tbsp. lemon juice 1/2 cup sugar  
1/2 tsp. salt  
Soak gelatin in cold water, add fruit juices, sugar and salt. Heat in the top of a double boiler until gelatin dissolves. Strain and set in pan of cold water. When mixture begins to set, fold in the evaporated milk and cream which have been beaten stiff.

**Banana Ice Cream.**  
6 very ripe bananas 2 cups evaporated milk  
1/2 cup lemon juice 2 cups cream  
2 1/2 cups sugar 1/2 tsp. salt  
Scrape off adhering fibrous portion on surface of peeled bananas. Mash and rub through a sieve. Add the rest of the ingredients in the order given and stir until all are well blended. Let stand for 20 minutes so that all sugar may dissolve. Freeze in a 1 to 6 salt-ice mixture. This recipe makes 1/2 gallon cream.

### CHRYSLER IN DEMAND

Strong demand the country over for Chrysler cars has followed two significant Chrysler announcements made recently. One is of reductions from \$50 to \$200 in prices of the Chrysler 70, which has been followed by a flood of additional orders for this car from all parts of the country. The output of Chrysler 70 models will have to be still further increased to take care of the demand.

The reduction in price of the Chrysler 70 has been accomplished without change in the car, other than in its lower price, according to J. E. Fields, vice-president in charge of Chrysler sales. "The 31 per cent increase in sales for the car to date this year, even over the record demand of one year ago, permits us to offer these substantially increased values to the public—values which we believe are unprecedented in all automobile history," says Mr. Fields. "The car is exactly the same as before. There is absolutely no change in its performance, quality, comfort, style, equipment, design, materials or workmanship in body or chassis, which have won for it universal preference and admiration among more than 100,000 owners."

Mr. Fields also announces that demand for the new Chrysler 60, the lower priced Chrysler six-cylinder car, announced May 9, is already resulting in a huge output of these cars daily, with demand running far ahead of present productive capacity. "There is every evidence that the reception given this newest car has been among the most enthusiastic ever given a Chrysler product," he said, "which in view of history indicates a very warm public greeting."

### 50 YEARS AGO

Fifty years ago today the Associated Press sent in the following State News:

**Bastrop County.**—On Monday last two men were found hanged to a tree with their own stake ropes and their hands tied with bridge reins, on the head of Dry Creek, near the county line of Bastrop and Williamson counties.

**Comanche County.**—Immigration still continues to pour into this section, which is something unusual at this time of the year. A great deal of farming machinery is being brought in.

**Fort Worth.**—Ex-Governor John C. Brown of Tennessee, who is one of the vice-presidents of the Texas & Pacific Railroad arrived here this morning. He says the road will be completed and the cars running to this place by the middle of July next.

**Angelina County.**—On the night of May 24, as S. S. Huddiburgh was returning home, he and his horse were both killed by lightning.

**Bexar County.**—That old Texas veteran and legislator, Gen. Hamilton P. Bee, is in San Antonio.

**Grayson County.**—Will Lowe, secretary of the Denison Polo Club, wrote James Gordon Bennett, asking him if arrangements could be made for a match game between the Denison and New York Clubs. Mr. Lowe received a letter from Mr. Bennett Monday, in which he says he will lay the matter before the club at the next meeting.

**Navasota.**—The Presbyterian church at this place is nearing completion. It is built of rock and is quite an ornament to the city.

**San Antonio.**—Yesterday Aljo Gonzales and eight of his hands followed cattle thieves near Eagle Pass. They came up with them, thirty in number, at Comanche Creek thirty-five miles east of Eagle Pass, and engaged them in fighting. The battle resulted in victory for the robbers. They killed Gonzales and four of his men. The others escaped and report five of the robbers killed.

**Brenham.**—Seven colored church members were arrested here this morning, charged with ku-kluxing a man who had practiced acts of violence. There was quite an excitement.

**Hill County.**—At Hillsboro the election of town officers resulted as follows: for mayor, A. N. Vineyard; for elderman, S. C. Uphaw, O. C. Orenbean, Joe Abbott, W. F. Farrington and L. J. Sturgis; for marshal, W. H. Harrison.

**Limestone County.**—At the meeting of the Limestone County Medical Association at Groesbeck last week the following officers were elected: President, Dr. W. T. Cox; vice-president, Dr. Baker; treasurer, Dr. McCain; secretary, Dr. Cook, and corresponding secretary, Dr. Matthews.

**Titus County.**—Shiloh Grange has just erected a grange tannery and will in future make leather for home consumption and sale.

**Austin.**—The jury bill was taken up in the Senate today. Mr. Ford's amendment, proposed yesterday, was adopted, permitting the reading and

## Even the north wind can't blow it out

THERE'S an old joke about blowing out lights, but you never heard of anyone blowing out an electric light. Even the north wind doesn't make much of a success of that.

And the power of the wind is surpassed by the power of electricity. In scores of factories and machine shops, on farms and in homes, electric motors and labor saving tools are busily turning power into wealth with the help of the generators of this company.

Make electricity your ready servant. No job is too much for its strength and there's almost no limit to the ways in which it can save you time, energy and your money. We will be glad to show you how—specifically.

"Your Electric Servant"

## West Texas Electric Co.

No Raise in Prices for this Metro Special, Don't Miss This Treat

**SOCIETY**

Merry Wives

Mrs. Floyd Quinney was hostess to the Merry Wives Tuesday. The invited guests were Mesdames J. M. Doss, W. L. Doss; W. M. Gordon, H. E. Grantland, J. H. Greene, Tom Stonerod, Frank Lupton, Kirschbaum, Dewey Tidwell, J. B. Dobbs, J. B. Morgan, C. R. Earnest, Clay Smith, Mrs. L. J. Dimmitt of Beaumont, Misses Ruby McGill and Net-

tie Martin of Lampasas. The hostesses escorted her guests to Crosthwaite's where pineapple sherbet and cake were served. Mrs. J. L. Pidgeon will be the next hostess.

Harmony Club

The Harmony club met with Mrs. Landers Tuesday. Besides the members she had quite a number of her friends and neighbors in for the afternoon.

The hostess and her daughter served chicken a la king, creamed potatoes, pickles, saltenes, rolled asparagus, sandwiches, spiced ice tea,

banana cake and ice cream. The club adjourned until after the Baptist meeting. Mrs. Oscar Majors will be the next hostess.

Mrs. Tidwell Entertains

Mrs. Dewey Tidwell entertained a few friends at bridge last Friday, honoring Mrs. Lee Marx. Mrs. Marx won high score. At the conclusion of several very enjoyable games the hostess served a salad course and ice tea.

Bridge Party

Miss Earnest entertained with ten

tables of bridge last Friday evening. Mrs. Carter made high score and was given a box of candy. Mrs. Charlton received the book, a booklet, "How to Play Bridge."

Bridgettes

Mrs. Bill Dorn was hostess to the Bridgettes last week. Besides the members there were two tables of guests. Mrs. J. B. Morgan won high score and Mrs. Lois Bennett low score. The hostess served fruit jelly and cake.

Party for Husbands

Last Thursday evening Mrs. R. J. Wallace and Mrs. O. B. Price were joint hostesses to the Merry Wives, their husbands and a few friends at the home of Mrs. Wallace. The form of entertainment was 42 and there were fourteen tables on the porch and lawn.

They were received in the house which was beautifully decorated with vases and bowls of cut flowers. On the spacious porch were baskets of odd vases of bright colored wild flowers that are so profuse around Colorado now. After the guests had arrived the score cards were passed partners found and all went to enjoy games in the most delightful breeze on the lighted porch and lawn. During the games delicious ice punch was served while nappies of salted nuts were on each table. At the conclusion of several enjoyable games the hostesses escorted their guests to Crosthwaite's where refreshments had been especially prepared for the party. They consisted of chicken sandwiches, olives, potato chips, tomato and lettuce salad, ice tea, apricot shobret and home made cake. The plate favors were bunches of sweet peas.

Joint Meeting

The past year it has been the custom of the Womens Missionary societies to have a joint meeting on the fifth Mondays. On last Monday the Episcopal auxiliary was hostess at the Amerlan Legion hut.

The program was on Christian unity with Mrs. Stedman, wife of the rector in charge. Mrs. Lockhart led the music with Mrs. O. B. Price at the piano. Mrs. Hall DeGarmo represented the Presbyterians, Mrs. A. L. Whipkey the Baptists, Mrs. J. G. Merritt the Methodists, Mrs. Sam Majors the Christian and Mrs. Stedman the Episcopal church. Mrs. Davies and Mrs. Lockhart sang "In the Garden." At the conclusion of the program all were invited in the library which was very inviting looking with tables covered in lavender on which were great bowls of wild flowers. Here the hostesses dispensed delicious spiced tea and home made cake. More than a hundred ladies partook of their hospitality and all expressed pleasure in being there.

Class Party

The Dorcas class of the Baptist Sunday school held a social meeting at the home of the each, Mrs. C. H. Lasky last Thursday afternoon. This class won the banner in the recent membership campaign and held this meeting to celebrate the victory. It is mostly composed of young mothers of little children and it does mean a victory to be able to get the little folks there on time, be there themselves and get the greatest increase in membership. Each member and guest went dressed as a little child, some as boys and some as girls. Playing school was the form

of entertainment.

Mrs. McKenzie was the school ma'am and saw that each child had its lesson. At recess games were played. Soda pop and lemonade were served to nearly forty members and guests.

Surprise Shower

On last Saturday the members of the Sunday school class of which Mrs. J. M. Greene is a member and a few other intimate friends surprised her with a kitchen shower. She had recently moved into her new home and they showed their interest in this way. Her daughter, Mrs. Roy dozier, prepared refreshments of Osgood pie, sandwiches and ice tea that completed a pleasant occasion.

Be sure to see the two specials at the Palace theatre this week. Marion Davies in "Beverly of Graustark" Monday and Tuesday, June 7 and 8. Regular prices. Bill Hart in "Tumble Weeds" Wednesday and Thursday, June 9 and 10. 10c and 50c. Remember the date and come early, don't forget we are running a special matinee for "Tumble Weeds" Wednesday and Thursday, starting at 1:30 p. m. night show 6:30.

Miscellaneous Shower

A miscellaneous shower was given at the Methodist parsonage Tuesday evening for Mrs. James Cawthorne, nee Miss Pauline Smith, who was recently married at Big Spring by her Sunday school class.

The decorations were yellow and white. Miss Lois Warren favored with piano numbers, Francis Lawlis and Frieda Merle Reid gave readings and Alice Harriman gave fairy dances. After this the dining room doors were opened and the gifts presented by Alice and Frances in a big basket decorated in yellow and white. Mrs. McCall Merritt toasted the bride, Miss Hazel Cook the groom and Miss Anna Bohannon the girls left behind. Punch and cake were served.

Weinie Roast

One evening last week the near young ladies class of the Methodist Sunday school, of which Mrs. J. G. Merritt is teacher, was entertained by the big boys class of which Mr. G. D. Foster is teacher, at the home of Mr. and Mrs. Foster with a weinie roast. Contests and games were the form of entertainment. A football game was played by the boys with the girls as the pep squad.

MR. FERGUSON AND MR. MOODY AGREE

Up at Sulphur Springs last Saturday Mr. Ferguson observed: In the face of the full notice as to the law and the facts, Moody went ahead and approved the Archer County bonds which the court later held to be void, as Moody had been previously told they would hold when the case came up.

Which moved Mr. Moody down at Austin last Monday to say:

He (Ferguson) doesn't seem to know that bond issues under the statute were approved long before I became Attorney General of Texas, and that the Archer County bonds were never approved. . . .

Whereupon down at Austin last Tuesday Mr. Ferguson responded:

Dan Moody seeks to convey the impression that the Archer county bonds were approved before he came into office. He knows that they never yet have been approved.

The three passages are worth a second reading. It will be noted by those who peruse them that in his statement at Austin Mr. Ferguson contradicts his statement at Sulphur Springs that Mr. Moody had approved the Archer County bonds. And, of course, in contradicting his Sulphur Springs statement, Mr. Ferguson corroborates Mr. Moody's statement that the Archer County bonds had never been approved. A further and more piquant observation which a second reading of the three statements will yield is that Mr. Ferguson came to an agreement with Mr. Moody on the proposition that

the Archer county bonds have never been approved without apparently being conscious of their agreement.

LOOKING BACKWARD

Waco Times-Herald: State Press refers to Edmund J. Davis as the carpetbag Governor of Texas. That is scarcely accurate. Mr. Davis came to Texas in 1848, and from 1855 to 1860 was a District Judge. Being opposed to secession, he left the State after the breaking out of the war between the States, took service in the Union army, and rose to the rank of Brigadier General. At the close of the war he returned to Texas, was elected Governor in an election held under military authority, and at no time showed any sort of sympathy with those who had fought for the Southern Confederacy. He held the office of Governor for four years, and so insistent was he on bygone rule that the thirteenth Legislature disbanded the State police and so modified the militia bill as to take from the Governor the authority to declare martial law. The term "carpetbagger" was applied to the fellow who drifted into the South after the close of hostilities and proceeded to get himself either elected or appointed to some office.

Editor Robinson may be too meticulous. When General Davis, "at the close of the war," hurried back to Texas, he undoubtedly came with his extra shirt and his other socks packed in the kind of carpetbag common to that period. He didn't wait to accumulate an exquisite sartorial outfit and bring it in a Saratoga trunk. A carpetbag was enough for him, and his haste in running for office with the backing of the military power identified him with the other carpetbaggers. However, the Times-Herald is quite right in saying, at another place, that the bitterness imbibed by the Southern States after the war was not on account of the war itself. It was on account of the carrion-crow politicians who flocked in for the spoils, and, to secure themselves, sought to foist black domination upon a white population. Grant, Sherman, Lincoln—all of them Western men, by the way, were not hated in the South. Some of the passionate political types of the North were despised, but they were not of the type that won the war. The great men of the Federal Military and civil administrations were westerners. The oratorical element was largely of New England. They contributed partisanship, the better types contributed service.

GRAYHOUND RACES

LUBBOCK, June 2.—Everything is complete for the big grayhound races which will be held at the Lubbock Coursing Park Friday and Saturday, June 4 and 5, according to Gene Wofford, owner of the park. The local Boy Scouts organization is cooperating in the races and a percent of the gate receipts will go to the scouts to help finance their summer encampment which will be held in August, Wofford said. About 75 of the boys assisted in a mammoth rabbit drive last week which rounded up about five hundred rabbits which will be used for the races.

The rabbits are in good shape now and are being well taken care of and guarded day and night lest some mishap befall them before the day of the races. The coursing park is one of the best in Texas and will be in tip top shape for the races.

Registration for the races will close at ten o'clock p. m. Thursday, June 3, according to Wofford and the drawing will take place soon after. A good stake of added money is being made up at this time and will go into premiums for the winning bounds, in addition to the registration fees which are: \$10 for registered all age stakes; \$5.00 for registered puppy stakes; \$3.50 for registered sapplings take; \$5 all age cold blood stake; \$3.50 all age cold blood puppies and \$3 sapling cold blood puppies.

Several thousand people from all parts of the South Plains are expected to gather here for the races, Wofford stated. A number of letters are coming in daily to E. E. Wofford, owner of the park stating that "You can count on my dogs being entered for the races."

We want all of your chickens and eggs at the highest cash prices. V. W. Terry, Phone 134.

L. H. Gaskins, associated with H. L. Hutchinson & Company for several years, has resigned and will devote his entire attention to his profession as an architect. Gaskins stated Tuesday that he had eight buildings in charge in Colorado.

J. M. Thomas has returned from Galveston and other points of interest in Texas where he spent several days on vacation.

Personally we hate to brag, but we do believe our new husband is the prettiest we have ever seen.

Make room for your young chickens and bring me your old ones, while sure of a high price. V. W. Terry, Phone 134.

**MISSION THEATRE**

THURSDAY, JUNE 3RD  
"Red Hot Tires"

With Monte Blue and star cast. Just one more day to see your favorite star in an honest-to-goodness picture with lots of action, comedy and thrills. Also a good comedy.

## America Leads Nations In Use Of Ice Cream

If any one food may be considered as America's national dish, it is ice cream.

Ice cream is a food particularly adapted to the needs of individuals of all ages, giving as it does the best type of nutrients for the repair of bone, teeth, blood and muscles and for energy.

Today thousands of housewives make their own ice cream. As a consequence, the making of this highly nutritious food at a reduced cost, yet without in any way impairing the product, is of importance.

Home economists have found a means to this end in the use of evaporated milk. There are three important reasons why evaporated milk

makes the best ice cream, they point out. Because 60 per cent of the natural water in evaporated milk has been removed by evaporation, there is over twice the percentage of solids present in this type of milk than there is in ordinary market milk—and, since it is the solids that give ice cream its pleasing flavor, this fact is of moment.

Then, the composition of evaporated milk is constant, for the reason that it has been put through an homogenizing process, which breaks up the fat globules into tiny particles and distributes them evenly throughout the milk. This attribute makes for an ice-cream mixture of uniform quality and fine texture.

Finally, experts agree that the use of evaporated milk in ice cream contributes to its hygienic qualities, for the reason that evaporated milk is entirely sterile. Health authorities declare that milk and cream should be treated to a heat of 150 degrees F. for half an hour in order that a product may be produced free from infective organisms. Evaporated milk is processed at 240 degrees for 30 minutes, and, therefore, its introduction into an ice-cream mixture increases its purity in proportion to the amount of evaporated milk used.

## Effective But Simple Dishes Now In Vogue

Something simple yet effective is the housewife's ideal for week-end dishes.

During the warm summer weather, women should not be compelled to spend hours in the preparation of meals, when minutes would accomplish the same purpose. Planning week-end menus should be a congenial task, not a bore. At this time of the year there are a variety of nutritious vegetables and fruits to choose from in preparing meals and the modern home manager takes advantage of them. The housewife plans her summer menus so that they will suggest coolness, while at the same time taking into consideration their dietary value. A delicious cream soup made from fresh vegetables, or an omelet, a fresh fruit dessert, or a custard, a dish of ice cream, or a pudding, are nourishing items that should find high favor in the week-end menu.

The home manager enjoys her week-ends 100 per cent more when she has a few moments of leisure. And in this connection the following recipes may prove an aid.

**Creamy Salad Dressing.**  
 1 cup bottled or mayonnaise 1/4 cup cream  
 1/2 cup sugar 1/4 cup vinegar  
 1/4 cup evaporated milk combined with  
 Combine evaporated milk and cream, chill and whip. Add sugar and juice, then fold into salad dressing. Especially nice for fruit salads.

**Chocolate Velvet Cream.**  
 1 1/2 tsp. gelatin 1 tsp. butter  
 1/4 cup cold water 1/4 tsp. salt  
 2 eggs, beaten 1 tsp. flavoring  
 separate 1/4 cup evaporated  
 1/4 cup sugar milk combined with  
 2 squares (oz.) chocolate  
 1/4 cup whipping cream, chilled  
 1/4 cup water milk diluted with and whipped

Soak gelatin in water five minutes. Mix beaten egg yolks and sugar, pour heated, diluted milk over slowly; put in double boiler with gelatin, butter and salt. Cook until the mixture thickens. This takes about 15 minutes. Strain, beat 2 minutes, let cool. Melt the chocolate over hot water, let cool a little, then add the chocolate and vanilla to the mixture after it has cooled. Fold in the stiff egg whites then the whipped cream. Turn into a mold and chill at least 3 hours. It may be chilled in individual dessert glasses.

## AMERICAN YOUTH

Elizabeth ("Betty") Clark, 13, of Cedars, Delaware, is one of that state's girl candidates for the American Youth Award, established by the directors of the Sesqui-Centennial International Exposition, to be held at Philadelphia from June 1 to December 1 in observance of 150 years of American Independence. If "Betty" is finally chosen to represent Delaware she will be given a week's trip to the Exposition and to Washington and the White House, where she will receive a medal from the hands of President Coolidge.

## First 24 Hours of Life Baby's Hardest Time

By MARIE K. JOHNSON

Undernourishment is one of the most common of the causes of infant mortality, according to a survey recently undertaken in Chicago. Statistics show that of 4,522 babies under one year of age that died in 12 months, 958 died in the first 24 hours. Eight hundred and seventy-six died in the first six days, exclusive of the first 24 hours, and 1,703 died from the seventh day to the sixth month. Eight hundred and sixty died in the last six months of the year. The survey indicated that a surprisingly large number of infants are artificially fed, which condition, doctors agree, had a marked bearing on their undernourished conditions. Naturally, no one food may prove satisfactory in every case, although the survey showed that evaporated milk in many cases had proved an excellent substitute for mother's milk. This may be explained by reason of the fact that evaporated milk is simply pure, concentrated cow's milk from which 60 per cent of the water has been removed. It contains practically every element necessary for good health and is consequently an excellent builder of bone and tissue.

Although authorities on health recommend evaporated milk as a baby food, like other substitutes for the natural supply, it should not be considered as a food complete in itself. Addition of orange or tomato juice, barley water or lime water is important in providing adequate diet for the infant.

For babies, milk of dependable purity is essential. Market milk will not keep for any length of time and is also liable to contamination, especially in hot weather, while evaporated milk, hermetically sealed in sterilized containers, remains as fresh and pure as on the day it was canned. Sterility in evaporated milk, authorities agree, is one of the most important points in its favor. In processing, evaporated milk is subjected to 240 degrees heat for a half hour, thereby removing all possibility of bacterial life being present in the milk. Heat is the only preservative for this type of milk and the heat has the further beneficial effect of making the curds of milk more flocculent and easier to digest.

**GOLD MEDAL BAND PRAISED  
BY OFFICIALS OF C. OF C.****Colorado Owes Much to Her  
Musical Organization  
Greene Cays**

Officials of the Colorado Chamber of Commerce were never so enthused over the band as they are today, according to J. H. Greene, convention chairman directing plans for sending the musical organization to Amarillo this month. Greene stated Tuesday that every official of the chamber of commerce was becoming unusually "chesty" over Colorado's gold medal band, and were determined to do everything possible to make Colorado's part in the annual convention a big success.

"Colorado has always prided in the splendid band we have had," Greene stated. "There never has been the time in recent years when the citizenship of Colorado did not fail to register due appreciation of this organization and the men who have made it possible. However, all former aspects have been exceeded and today Colorado is more concerned about the band than ever before.

"And why should not Colorado be interested in its band? The distinction of winning first place in every one of three entries against the best bands of the Southwest is enough to fill the hearts of any citizenship with pride. That is just what our band did at Mineral Wells last year, and we know that additional prestige and publicity is in store for this city when we go to Amarillo."

The convention committee is anxious to send a delegation of not less than 100 people to Amarillo with the band. Heretofore the Colorado delegations have numbered fifty or less and the chamber of commerce has set as its goal at least double all former records.

Citizens who will accompany the band to the convention and furnish

**Farmers and Politicians  
to Gather at Celebration**

The Farm Bureau of four counties are to celebrate at Hermleigh, June 25-26, W. W. Porter, manager of the Mitchell county unit of the organization, announced Tuesday. Porter stated that speakers representing the Farm Bureau and Texas Cooperative Marketing Association were to deliver addresses in the forenoon of each day and the afternoons would be given over to the candidates.

The celebration is being arranged by members of the Farm Bureau in Mitchell, Nolan, Scurry and Fisher counties, Porter stated. Candidates from each of these four counties will be invited to attend and will be given a place on the speaking program.

"We are expecting a large attendance and will promise one of the best picnics ever held in this section of the State," Porter said. Program for the two days, which is being worked out by committee chairmen, will be announced next week.

**Western Salvage & Wrecking  
Company Open Sale in City**

A bankrupt sale of the stock of Baugh & Webb, recently purchased by the Western Salvage & Wrecking Company of Dallas, is to be opened today in the old Colichman building on Second street. The stock was purchased last week.

Management of the sale stated Monday that as soon as the bankrupt stock was moved a large stock of new goods, including dry goods, clothing, shoes, etc., would be stocked.

The corporation is carrying a large advertisement in The Record today. The public is directed to this sale announcement.

Their automobiles are requested to confer with any official of the chamber of commerce. The trip promises to be an unusually attractive vacation.

**County Bond Issue is  
Endorsed by A. M. Bell**

A road bond issue of sufficient size to finance the county's share of making permanent improvement to Laton Flat is endorsed by A. M. Bell, Westbrook business man. Bell believes that an issue of from \$100,000 to \$125,000 would be easily carried now, and states that he has assurance from an official of the State Highway Department that the State would grant aid on a fifty-fifty basis for this work.

"We can never hope to eliminate Laton Flat until that time when we hard surface the roadbed," he said. "The grade is now in fine shape, the drainage structures in place and it would require the minimum amount of expense to make an end to this big handicap to Mitchell county."

Bell stated that he believed that Westbrook would vote overwhelmingly for such a bond issue.

**Colorado Delegation to Be  
Supplied With Advertising**

"There will be no question as to where we are from, either in Amarillo or along the route," J. Riordan, chairman of the publicity division of the Colorado Chamber of Commerce, state Saturday. Riordan stated that he had purchased a large supply of attractive advertising matter, including felt hat bands, pennants, automobile streamers, canes and other attractive advertising novelties for the Amarillo trip.

"Colorado will do herself proud on this trip," Riordan continued. "We are not stopping at dressing up the band. Every Mitchell county citizen accompanying the delegation will be dressed up too, and that in such manner as to let the visitors at Amarillo know we are from Colorado and proud of it."

Dr. P. C. Coleman has returned from Houston where he attended the annual convention of the State Medical Association.

**COLORADO HONORS SOLDIER  
DEAD IN MEMORIAL RITES****Services at Legion Building  
and Cemetery Attended  
by Local People.**

Sunday, May 30, Memorial Day, was fittingly commemorated by the Oran C. Hooker Post, American Legion, Soldiers of the Confederacy, U. D. C.'s, Womans' Auxiliaries and other patriotic organizations in a program begun at the American Legion Memorial building at four o'clock in the afternoon and ending at I. O. O. F. cemetery.

Hon. Chas. C. Thompson, commander of the post, presided as master of ceremonies. He spoke briefly of Memorial Day and the principles for which our forebearers fought and died. In his remarks, Judge Thompson said:

"We have met on this occasion to pay tribute to those who have paid the supreme sacrifice for the love of country and for those Christian principals upon which this nation was founded.

"One hundred and fifty years ago our fathers breathed the breath of life into a new nation and many of them gave their lives that this nation might live.

"The armies of Washington lay buried on the snow covered mountains near Valley Forge where they fell upholding the life of the newborn nation.

"The armies of the nation that poured out their life blood in the war of 1812 lay buried along the Canadian border where they gave their lives for the protection of home and country and to reassure the nations of the earth that Americans stood for liberty.

"The heroes of 1898 are many of them sleeping yonder under the battle field of San Juan in defense of home and country, they gave their lives.

"Many of America's most noble manhood are sleeping in Flanders field where the poppies grow over their graves. And many of their comrades stand today as they pay tribute to the memory of so gallant and noble life.

"Last but not least we commemorate the memory of the heroic dead of the war of '61—the boys in grey. We have yet a thin line of grey to inspire us on for those principals for which they fought.

"We of the Southland cherish the memory of their valor. The sweet strains of Dixie cause us to recall that the soldier in grey gave his life blood for those principals so dear to our hearts.

"I am glad that I have the heritage of a Washington and Jefferson and a Davis and Lee. I am glad that we have met here today to pay tribute to all the soldier dead who have paid the price of freedom."

George H. Mahon, Colorado attorney, delivered the principal address and it is needless to state that this brilliant speaker enthused those who heard him. While attending Simmons College Mahon twice won State championship as an orator in college circles and represented Texas in debates and declamation contests staged with pennant holders from other States. He is among the most forceful speakers ever heard at the legion building.

"If we do not have sentiment of love and a sense of respect of our heroic dead, then this program and our coming together today are in vain," he said. "Those men who died in the service of their country are not dead. The sentiment of Washington, of Lee and of them all who bravely sustained the rights we love today have never died in the hearts of their countrymen.

"Nathan Hale, shot by the British as a spy, looked his executioners in the eye and declared, 'If I had a thousand lives, I would give them all for my country.' Those who sleep on any battlefield representing the

**Chamber of Commerce Adds  
Assistant Secretary at Office**

In order to care for the ever increasing volume of business being handled by the Colorado Chamber of Commerce, the board of directors have employed Mrs. L. B. Collier as assistant secretary. Mrs. Collier, an experienced office executive, was formerly associated with the chamber of commerce at Paris.

With plans going ahead for Colorado's part in the West Texas Chamber of Commerce convention, the big increase in development both in city and county and other matters demanding attention of the organization, the chamber of commerce has become one of Colorado's busiest places.

**EPISCOPAL CHURCH**

Rev. F. H. Stedman will hold regular services next Sunday, June 6th at 11 a. m. There will be no evening services.

American government, have died in vain if we of today do not perpetuate the ideals for which they bled and died."

In making reference to the wreaths displayed in the building which were to be carried to the cemetery and placed on graves of departed soldiers Mahon declared, "We miss by far what we should see, if we do not see more than a bit of green and fragrance in those sixty-one or more wreaths hanging there."

Mrs. C. H. Lockhart sang "Lead Kindly Light" with Mrs. James Guitar as pianist. The Scripture, taken from the 35th chapter of Isaiah, was read by Mrs. J. G. Merritt. Mrs. Samuel Gustine gave the roll call of those soldiers of former wars who had died since the last memorial service. Music was furnished by the Hewett Musical Five and a Cantata, "Medley of Southern Songs", was given by members of the Daughters of the Confederacy. At conclusion of the program at the Legion building, the services were concluded at the cemetery. Wreaths were placed on sixty-one soldier graves.

**Convention Chairman Asks  
For Delegates to Amarillo**

J. H. Greene, convention chairman of the chamber of commerce, appealed for cooperation of the Lions club in an address Friday to the end of sending a rousing delegation to the West Texas Chamber of Commerce convention at Amarillo. He told briefly of plans for entertaining the band while visiting convention and urged that Colorado take advantage of the opportunity to advertise this city and section:

"Do you want Colorado to put this program over big, or will you be content for us to send the band and a few citizens to Amarillo? We should send a big delegation to show to the world we are proud of the gold medal band of West Texas, as well as of the city in which we live. Let's begin now our plans to make the trip to Amarillo the biggest booster program ever attempted by this city."

Green told of plans to visit all important towns enroute to the convention. He spoke of the proposed concert in Lubbock on Friday night, June 18, at which the Colorado Chamber of Commerce Band would furnish music at a program to be given under auspices of the College of Technology.

The "Five Musical Hewetts" composed of the family of A. C. Hewett, director of the band, were guests at the luncheon and furnished orchestra music.

**City Hall Sold to Gary  
and Jordan for \$7,000**

Sale of the old city hall building, corner Second and Oak streets, was announced Tuesday by the city. The property was purchased by R. N. Gary and Sam Jordan of Colorado at a cash consideration of \$7,000. The property is 25 by 70 feet.

Miss Ives Belle Jones, Mitchell county home demonstration agent, spent Saturday and Sunday with her parents, Mr. and Mrs. S. W. Jones, of 118 Vine street, Abilene.

**METHODIST EXPECT START  
WORK ON S. S. ANNEX SOON****First Unit of Projected  
Church be Built on  
Fourth Street.**

That Colorado Methodists expect to start construction work on the projected \$20,000 Sunday school building at an early date was indicated in an announcement made Sunday morning by Rev. J. F. Lawlis, pastor. Rev. Mr. Lawlis stated that the building committee was near completion with their plans and would award general contract as soon as \$10,000 of the building fund subscribed had been paid in to the treasurer.

The projected building will stand on Fourth street, in rear of the present church, corner Chesnut and Fourth. It is to be two stories with basement and contain Sunday school rooms exclusively. The structure will be of brick and modern throughout.

Members of the congregation announce that the building is to be the first unit of a projected new church to cost \$65,000 or more. The main auditorium may be added later on site now occupied by the old building.

L. H. Gaskins, Colorado architect, has been employed by the building committee to supervise the work. The pastor is of the belief construction will be started during the present month.

**Colorado Man Chairman of  
Committee on Resolutions**

Dr. P. C. Coleman of Colorado, one of the vice-presidents of the West Texas Chamber of Commerce, has been named as chairman of the committee on resolutions at the Eighth Annual convention to be held in Amarillo this month.

Appointment of the Colorado man was announced last week by Honorable R. Q. Lee of Cisco, president.

## What Is a Good Provider?

A good provider looks beyond comforts of today to the provision of tomorrow.

The birds and the bees; the beasts of the fields—all nature has thought of coming needs—yet man, alone, the greatest of all the living things—cultured, able, educated, and alive to Earth's demands—often fails to make provision for the years to come.

What are you doing for the future twenty years from today? A good provider does not overlook the importance of a strong bank account. If you are not already identified with this bank, we invite your account here.

SEVEN WELLS NOTES

Every body is wearing a real smile since the good rain, Saturday night, crops are sure beginning to look good. Health is very good this week, except a few cases of mumps. Miss Ola Echols from Bonham, Texas is visiting with Mr. and Mrs. C. A. Wallace. She like every one else, seems to be delighted with our splendid community. The meeting at Seven Wells is progressing nicely, with four added to the church so far. Brother Harvey is a wonderful

Federal Commissioner

Rear Admiral H. O. Slickney, Federal Commissioner, who has been appointed by Secretaries Hoover and Kellogg as Federal Commissioner to the Sesqui-Centennial International Exposition commemorating the 150th anniversary of American Independence and which will be held in Philadelphia from June 1 to December 1. Admiral Slickney will be in full charge of the United States Government exhibit, which will be the largest of its type ever made.

Child's Health Maintained By Wholesome Diet

Modern educators are tending more each year to the old Greek idea of rearing the citizens of the future. They are working on the principle of "a sound mind in a sound body." Good health is built primarily on the foundation of right food. The sort of food the child has determines to a large extent the fitness of the man or woman. Children have to be taught to like the foods that are good for them much in the same way that they have to be taught arithmetic and history. Boys and girls are not born with any particular desire for cereals or for bread. It's up to their parents to see that they learn the rudiments of a balanced diet and the reason for such a diet. Firmness and patience are often necessary in the teaching, but the job must be done. Many mothers unconsciously put their children under health handicaps by allowing them to use their own discretion in the matter of eating candy, fruit, nuts and cookies. By so

doing they set a precedent in the matter of other foods and make the teaching of good nutrition harder. One or two articles are not enough to supply a child's needs for a meal. In order that there be normal development, there must be variety. Fresh eggs, whole cereals, fruits in season and leafy vegetables should occupy an important part in the growing child's dietary. Then, too, a certain amount of concentrated food is necessary for children, because rapid growth whets their appetites to a razor edge, so that they crave more food than their systems can well dispose of. Evaporated milk, diluted with orange juice as a drink, or in custards or other baked foods, is especially beneficial for the growing child for the reason that it is concentrated to double the richness of ordinary cow's milk and is entirely sterile as well. The can of evaporated milk solves the problem of obtaining perfectly pure milk, as well as the problem of lack of refrigeration facilities, since this type of milk will keep indefinitely in the can.

Foreign Dishes Bring Added Zest to Dinner

By MRS. WM. C. POST Height of my culinary ambition always has been to make dinner each day a gastronomic poem, rounded and perfect like a stately rime. A meal that pleases eyes, nose and palate alike! A well-turned dinner is like a pretty woman in that it unlocks men's hearts with a magical key. Exotic dishes give a tang of other lands to the dinner table. Things foreign awaken the romantic sense. Taste of codfish is a Benedictine transports one for the minute to the Montmartre in gay Paris, a dash of Piroski and we are supping in a quaint cafe on the Nevsky Prospekt in Leningrad, while the crunch of English tea cakes may bring visions of the rolling moors of Sussex. As an aid to the housewife in carrying out this new and fascinating idea in cooking, the following of my recipes may prove of particular interest:

Italian Potents.

3 cups hot-cooked 1 1/2 tbsp. butter rice or mash or olive oil Beat the butter into the mash while hot. Turn onto a hot serving plate and pour over the following cheese sauce:

Cheese Sauce.

3 tbsp. fat 1/2 cup evaporated milk diluted with 1/4 tsp. salt 1/4 cup meat stock 1/2 cup grated cheese

Melt the fat, add the flour, salt and pepper, and stir until the mass is smooth. Add the diluted milk and cook in a double boiler. Stir occasionally to keep smooth. Add grated cheese to the hot sauce and stir until melted or about three minutes.

Buffeten Kuchen.

1 1/2 cups sugar 1 1/2 cups flour 1/2 cup butter 4 tsp. baking powder 3 eggs, separated 1-1/2 cup evaporated lemon milk diluted with 1-1/2 cup water Chopped or sliced almonds

Cream butter and sugar, add yolks of eggs and the lemon rind, stirring constantly. Mix flour and baking powder, add to the butter mixture, alternately with the milk and lastly stir in the stiffly beaten whites of eggs. Place in well-greased shallow coffee cake tin, sprinkle with granulated sugar, cinnamon and a few almonds, sliced fine or chopped. Bake in a moderate oven.

AMARILLO PUBLISHER FINDS CITY AMONG BEST IN TEXAS

Visitor Spends Several Days Here Gathering Data For Publicity Articles

"Colorado is without doubt one of the best small cities I have ever visited and you have here the opportunity for development seldom found in the average West Texas city," was the statement of Harry Howard, publisher of "Opinions of the Southwest," development magazine edited and published by Mr. Howard at Amarillo. The visitor arrived in Colorado Saturday and spent four days here gathering data for a series of articles to be run in his publication. The articles are to deal with Colorado, Mitchell county and development as he found here. "Colorado is a better town than the average Panhandle city," Howard declared. "With the exception of Plainview and Lubbock, you have one of the best small cities in the Amarillo territory. Amarillo has suddenly awakened to the importance of this section of Texas and our city is going to attempt to interest you in us. I shall return home and tell the story of Colorado as it is, and I am frank to state that I can consistently say something good." The visitor was impressed with the type of citizenship he met while in Colorado. "It beats the world the way you folks work together here," he said, "I have yet to interview the first citizen of Colorado who did not exhibit the same pleasing personality toward his community and those varied programs fostered for the general community welfare. It cannot be said that every town has this asset. Such a spirit of team work could build a city anywhere, and there is no doubt but that you are going to build a city at Colorado." Among the articles to be written for publication by Howard will be stories telling of the Colorado Gold Medal Band, official band of the West Texas Chamber of Commerce; oil activities of the county, building in both city and county; and plans of the city to send a strong delegation to Amarillo for the convention. "I had intended spending one day here, meeting some of the leading citizens, and making it on to the next town, but Colorado has so impressed me that I have been reluctant to leave." The visitor was considerably interested in the suggestion that Colorado should have a north and south railway outlet. "I am going to return to Amarillo and publish a strong article in my magazine on that need," he said. "Colorado is entitled to more avenues of traffic, both rail and highway, and you may

rest assured that Amarillo will be glad to cooperate with your people in this matter."

ANNUAL FEEDERS DAY AT BIG SPRING JUNE 8

Third annual feeders day will be held at U. S. Experiment Farm, Big Spring, Texas, Tuesday, June 8th. Forty-five head of calves on feed for a period of 200 days will be shown to demonstrate the value of using West Texas grown feed for finishing West Texas cattle.

This experimental feeding work is being conducted in co-operation with U. S. Department of Agriculture, State Experiment Station at A. & M. College and the Big Spring Chamber of Commerce.

Among the speakers on the program for the day will be representatives from the U. S. Department of Agriculture, State Experiment Station at A. & M. College, Packers Commission Companies of Fort Worth and Texas Tech. If you are interested in diversification or safe agriculture attend this program.

In connection with the above program a club-boys stock judging contest will be held. Luncheon will be served at the station by the chamber of commerce. Everybody cordially invited.

Mrs. L. J. Dimmitt of Beaumont, is visiting her mother, Mrs. John Vaughan.

The West Side Singing Association, composed of all Mitchell county singing classes west of the Colorado river, is to convene in annual session at Cuthbert Sunday, June 6th, for a session which promises to be attended by more than 1,000 people. Singers and singing classes outside the district are to attend. The convention is to feature the usual all-day program, with a varied musical program throughout the day and a basket dinner at noon. The public is cordially invited to attend.

The New and Better TEXACO Gasoline

After years of research and experiment, The Texas Company announces a new and better gasoline. It has been made possible in commercial quantities thru the Holmes-Manley Process, a patented method of refining, owned and controlled by The Texas Company. The new product is not a mixture with benzol, or with any other product or chemicals. It contains no dopes or poisons. It is a pure, unadulterated gasoline, produced from selected crude oil.

WHY IT IS BETTER

- (1) The specifications prove it. (2) It is uniform in quality. (3) Vaporizes where other gasolines only atomize. (4) It is a dry gas instead of a wet gas. (5) Combines the desirable qualities of all gasolines in one.

WHAT IT DOES

- (1) It gives you a quick start. (2) It gives you a quicker pick-up. (3) It gives you more miles per gallon. (4) It gives you relief from carbon or spark knock. (5) It gives you better lubrication.

UNIFORM SATISFACTION CAN BE HAD AT EVERY TEXACO PUMP.

# CHRYSLER IMPERIAL "80"

Saving From \$100 to \$400 on the Larger Six-Cylinder Chrysler Imperial "80," Effective Midnight, Saturday, May 29, 1926

	OLD PRICES	NEW PRICES	SAVINGS
PHAETON	\$2645	\$2495	\$150
ROADSTER	\$2885	\$2595	\$290
COUPE	\$3195	\$2895	\$300
SEDAN, 5-Passenger	\$3395	\$3095	\$300
SEDAN, 7-Passenger	\$3595	\$3195	\$400
SEDAN-LIMOUSINE	\$3695	\$3595	\$100

All Prices F. O. B. Detroit, Subject to Current Federal Excise Tax

Lower prices on Chrysler Imperial "80"—one more logical and highly important step in the working out of Walter P. Chrysler's four-car plan of quality standardization.

Lower prices on Chrysler Imperial "80"—following the lower price on Chrysler "70" and the astonishing price accompanying the introduction of the new, lighter 6-cylinder Chrysler "60"—first-fruits of the Chrysler's plan of creating greater value by group-manufacture under one name and under one roof for the four great quality fields.

Lower prices on Chrysler Imperial "80"—opening the gates to the wider market which has been impatiently waiting to take advantage of the car as fine as money can build—the car of "80" miles an hour, and more—the car of utmost luxury—and now, unchanged in any detail the car of incomparable value in the high-class field.

## Toler Motor Co.

L. B. COLLIER, Mgr.

Mr. Horace Cox and wife and Miss Jessie Hastings of Lamesa, were guests of Mr. and Mrs. Clyde Wilson Sunday night.

Mr. and Mrs. Ulma Parker spent Saturday night and Sunday here from Abilene.

C. E. Compton from San Angelo, visited his parents here Saturday night and Sunday.

Messrs. H. E. S. A. and J. M. Compton returned Sunday from Nimrod where they were called Friday to the bedside of their father, whom they report better.

Homer, Jr., three year old son of Mr. and Mrs. Homer Richards who has been sick for the past eight weeks and who underwent an operation three weeks ago at Abilene is now reported doing nicely.

Mrs. Earnest Shows operated on at the Colorado Sanitarium Monday and Wilma Manly also operated on for appendicitis at the sanitarium Friday are both reported to be recovering fine at this writing.

Mrs. W. S. Thomas and son, Arnton West, visited in the J. K. Blackard home at Snyder Monday where Arnton remained to be under treatment of a physician there.

Walls are up and work under contractor A. G. Furlow is progressing steadily on the erection of the Wimberley brick buildings which are being built where several business houses were destroyed by fire here in December. The theatre building 50x80 feet and a 25x50 foot business house adjoining will be opened by the first of September. It is rumored we are to have two other lumber yards, a bank and hotel. Improvements about the premises and the sale of lots with the building of new homes are being added to our list of improvements every week. With weather conditions good this spring, crop prospects are fine. Real estate men Britton and Smith report the sale this week of two business lots on the corner where the Wright blacksmith shop is located, and Petes Filling station owned by Mrs. J. F. Bowen to J. A. Sadler and Wallace of Colorado. A deal was also closed by them with J. F. Berry of the Berry Lumber Co., of Cisco, who was here Monday and purchased 4 lots on the east corner east of the planters gin, where a contract has been let to build a lumber yard to be opened for business within 30 days.

**Vanguard**  
The Vanguard class of intermediate girls of the Baptist S. S. had a social meeting at the home of Miss Faye Coon Thursday evening. The losing side entertained the winners in a contest of the best grade on the six-point record system. Several visitors were invited to join in the games. Pineapple cake and banana sundaes were served in the moonlight on the lawn.

The class met in a body Wednesday afternoon bringing fruit and flowers to carry to a shut-in. While there a passage of scripture was read followed by songs and prayers. In addition to this they reported for the week: 18 kindly deeds, 16 sick visits and 6 love gifts.

Mr. and Mrs. Chancel Gunn, moved to Abilene Tuesday where Mr. Gunn has accepted mechanical work.

W. L. Edmondson is making attractive changes in his grocery department with the addition of a soda fountain and hamburger stand.

G. K. Baker is building a garage at the back of the Royal Cafe.

Emmett Richardson returned from Dallas Monday with a Cadillac.

J. W. Pool and family of Abilene visited relatives here Sunday. J. W. Jr., remaining for the week.

Loraine Masonic lodge held a meeting in the new hall Thursday night with several Sweetwater visitors present.

Mack Smiley and family returned Friday from a week's visit to Phoenix, Arizona. Mr. and Mrs. J. W. Smiley returned home with them.

**E. Y. P. U. and S. S. Association**  
The entire church was filled at an early hour Sunday morning although few of the 25 or more Sunday school and the various young people organizations of the Mitchell-Scurry association had representatives. Many interesting reports which have been given by the duly elected officers had to be omitted because of negligence of the local leaders in sending them in. As the association grows older it will become stronger by experience, and perhaps by the next meeting which will be the fifth Sunday in August at the Colorado Baptist church, it will have reached more nearly a state of perfection which the general field secretary, Rev. Geo. E. Alexander of Snyder, has hoped for.

Even though the program could not be carried out fully as outlined the day was well filled. About 250 were registered in the several departments of the S. S. After a brief lesson period, Rev. Sam Morris of Abilene preached a very inspirational sermon on "A Sunday School Bouquet." We believe those who do not attend S. S. felt keenly the need of being enrolled and those who do attend felt it a special privilege and honor which they could not afford to miss after hearing this beautiful appeal in behalf of the worth of a Sunday school.

The special music by Miss Ora Coon of Loraine, the Bethel Quartet and the Loraine Juniors was indeed a treat. These same juniors won in the pep contest.

U. was well represented. These fine young people presented a playlet showing how a senior union may reach the standard of excellence.

Miss Cook of Colorado made an interesting speech on "Our Summer Encampments." Space forbids our mentioning all the other good numbers on the program which was concluded about 4:30 p. m.

At the noon hour a feast of good things to eat was served by the Loraine W. M. S. Luncheon were sent to about 20 shut-ins and sick people throughout the town. Many more could have been served.

Among the visiting preachers not already mentioned were M. C. Bishop, Colorado; G. W. Parks, Roscoe; A. D. Leach, Fluvanna; Jim McDermott, Dunn; Rev. Davis of Abilene and Rev. Bancroft who made an earnest appeal in behalf of the West Texas Sanitarium at Abilene.

Visitors from Bradshaw were in on business Tuesday.

Messrs. Doc Baker and L. F. Britton spent Saturday night in the D. M. Vinson home at Abilene. Mr. Vinson and wife accompanied them to the Sacred Harp singing at Newby, Sunday.

J. H. Hastings of Roscoe was in trading Tuesday.

Rain and hail was reported at Roscoe Tuesday evening.

F. E. Segar and family visited in Abilene Sunday.

A good crowd of men, women and children were present at the cemetery working here Tuesday, which however, was not completed. It is hoped the work will go on from week to week as should be until finished.

J. F. Taylor and family, Mrs. E. M. Armstrong and daughter and Mrs. W. C. Henderson and children enjoyed a pleasant outing and fishing at Lake Trammel Monday.

Miss Garpel Thornton is visiting in Abilene, while her sister, Helen, is visiting an aunt, Mrs. Rann Reddell, at Tuscola.

Mr. and Mrs. T. B. Fulkerson and Mr. and Mrs. Hall DeGarmo of Colorado were among the Sunday afternoon visitors in the J. W. Kay home.

Misses Vora and Willa B. Sloan of Roscoe are visiting in the A. Phillips home.

Mr. H. B. Derryberry, rural carrier on Route A, left Monday with his family for a two weeks vacation. Mr. F. C. Sloan, clerk is substituting while Mrs. Phillips is filling his place in the office.

Mrs. Hattie Davidson and children have moved back home from Lamesa.

Mr. Charlie Brazil has signed contract to teach the Landers school. It is not known as yet who will be his assistants.

Mrs. S. C. Harris entertained with a miscellaneous shower for Mrs. Claude Willis at her home Tuesday afternoon from four till six. Mrs. Willis was the recipient of many nice gifts from the senior B. Y. P. U. Senior class of 1926, and Baptist W. M. S. Refreshments were served by the hostess.

Mrs. Marvin Martin entertained a number of little folks at her home Monday afternoon from three to five with a party to Ruby Martin, in honor of her eleventh birthday. Ice cream and cakes were served.

Miss Kathrene Pratt of Abilene is visiting her aunt, Mrs. J. L. Pratt.

## The Scales

## That Balance!

They must be kept in balance in the commercial world or there will be discord. Ours is a business that comes in contact with every other line of business. For this reason our viewpoint is most important. You are invited at all times to consult with our officials on anything of a commercial nature. We have helped others. Why not you?

## Colorado National Bank

**Church Tea**  
Mrs. Prude was hostess for the Episcopal church tea last Thursday. Chicken salad, wafers, ripe olives and ice tea were served. A liberal silver offering was received.

J. L. Bowen traded his home here for a 363 acre farm in Scurry county and gave the difference to J. R. Hucklebee of Snyder. The consideration is not known. The deal was made by Arthur L. Wilson.

Mrs. Boynton and her daughter, Miss Ruth left this week to spend the summer in Mineral Wells but will be back at the opening of school. Mrs. Boynton is the kindergarten teacher here.

Just arrived a beautiful assortment of stamp goods at McMurry's something new and different.

**RETURNS WITH CHECK**  
FOR \$1,052,488.26

AUSTIN, Texas.—Dr. H. H. Harrington, chairman of the board of control, returned today from Washington with a check for \$1,052,488.26, the state's portion from the sale of the American Legion hospital at Kerrville to the veterans bureau. He will deposit the check next week with the state treasurer and the sum will go to the general revenue fund.

The balance of \$129,511.74 went to the Texas department, American Legion, and is in charge of W. T. Dunning, state commander and Wayne Davis, former state commander. The hospital sold for \$1,182,000.

open up a first class, sure enough service garage. Mr. Moffett has been head mechanic for the California Oil Co., the past two years and Mr. Greer for more than a year with this same company and these men claim to be by far the best automobile mechanics in all this country. This new garage will not fool with gas and oils but do strictly automobile work and do it absolutely right on the strictest kind of guarantee. They expect to open up about the 10th and will advertise their skill and qualifications in next weeks Record.

Cultivator sweeps and cotton chopping hoes at McMurry's.  
Little Mabel Earnest Cooper is visiting her aunt, Mrs. Don Sivals in Cisco.

**Cuthbert Telephone System Placed in Good Condition**

The Cuthbert telephone exchange, owned and managed by Mrs. Julia Gunn, has recently been rebuilt and is now in shape to render good service to the public of that section, according to reports received at the chamber of commerce.  
The work of rehabilitating the system was encouraged by the chamber of commerce and it is announced that the organization assisted in financing the expense incurred.  
This is not the first time for the chamber of commerce to cooperate with rural communities of the Colorado territory. Last year the organization aided citizens of the Longfellow community in building a new telephone system from Colorado into that territory. A similar offer was made the citizens of Buford but for some cause they deferred building of a new telephone system in the Buford community.

**ITEMS FOR THE PEOPLE**

Monday morning 5-24, 1926 still in Atlanta. Well and hearty. Had quite a treat yesterday evening when my cousin piloted me through the magnificent Atlanta park. It was sight-seeing from beginning to end, especially the most horrible picture on canvas that I ever beheld, yet the most sublime which was the battle fought at Atlanta during the war between the states. It is beyond human words to describe its grandeur. Here is one feature that I have to contend with that I don't enjoy that is I am so often attacked on the political situation of Texas. And be it remembered by every Texan that we are the laughing stock of the surrounding country.  
Just here I will ask to be pardoned for referring to Judge Charlie C. Thompson and to expose him so to speak. So long as I was with him he seemingly was enjoying himself to the utmost, and gained distinction as he went, and it seemed to be the height of his ambition to do service to those needing his help, especially aiding the aged and decrepit Confederate veterans. So might it be.  
I am now sitting in the office building of the Continental Marble & Granite Co., of Canton, Ga., and am being royally entertained by its members. Surely if the people of my territory knew how I am being treated they would run me down on my return home to buy a monument from me in token of their appreciation for the Continental Marble & Granite Co. Rise up, take notice and don't forget. Yesterday I was treated by the company to a trip to the quarries and a grand trip it was. My tongue is insufficient to describe it so good bye so far as that is concerned.  
My pilots name is Mr. W. S. Dick, he is so kind and pleasant and agreeable that I find even the men love him. He is a good deal younger than I and was so good to me as to arrange for me and him to go down into one of the quarries it being about 30 feet deep. I went down the long ladder ahead of him and rested till he arrived at the bottom. We got ready to ascend I sent him on ahead. I rested until he was half way up the long ladder and I got him by the foot before he got to the top. I left Canton yesterday morning at 8:55 a. m. Came back to Atlanta, there took the Southern by the way of Cornelia and Seneca, S. C., to Greenwood, S. C. and am now in the home of one of my first cousins trying to get him to go squirrel hunting with me but he says there is no squirrels in this section now. So I told him that was no excuse for us not hunting some. Saturday morning May 29, I am still in Greenwood, S. C., its a nice town, several cotton mills here and nearby. Dry weather prevails here and crop prospects weak except small grain which is above an average and are being harvested rapidly. I have actually seen a couple of reapers in operation, only one old time sythe cradle. I will start out next week to visit different points in the old home section.

**CROP CONDITIONS**

Upon the question of whether or not heavy rains visit Texas within the next three or four weeks hangs this year's prosperity for the state, according to indication of May crop reports compiled by the Department of Public Relations of the Southland Life Insurance Company.  
Almost without exception the reports indicate a greater "boom" than was expected even last month with the single reservation that continuous or heavy rains can entirely upset the prediction.  
In most sections of the state where these crops are in the ground, the wheat, oats and other small grain crops are moving to a harvest. In a few counties rust and worms have

attacked but damage from these sources is much lighter than was at first expected. And, unless these hazards increase, Texas will have the greatest oat and wheat crop in its history.  
Corn, of course, is below normal and the crop has improved little since last month. Even rain and disastrous hail storms in the northern part of the state, however, failed to dim prospects for an extremely good produce crop and many of the best sections of the state in East Texas report the crop above normal.  
The outlook for cotton is still somewhat hazy. Practically every correspondent reports chances bright "providing it does not continue to rain." Cotton, although still from three to four weeks late in planting, yet has plenty of season before it, necessary to make a crop. The danger from the boll weevil and army and cut worms has been minimized in most sections and seasonably dry weather will do much to eliminate much of this danger.  
A typical report from one of the cotton counties says: "Cotton late, but promising. Plenty of season yet ahead and 60 days of dry weather will assure prosperity."  
Conditions in the Panhandle are better than they were in April's optimistic report, South and South Central Texas appear to have improved slightly and the Rio Grande Valley is, as usual, flourishing.  
Business conditions are reported more nearly normal than they have been since last year's drouth with excellent prospects and money somewhat easier. Cattle raising country again reports prospects excellent.  
Mitchell county reports conditions normal.

**SIMMONS BAND BIG FEATURE BIRMINGHAM, ALA., REUNION**

Special to The Brand by Press Wire  
Chas. P. Miller  
Birmingham, Ala., May 20.—Simmons was accorded one of the greatest honors of her history Thursday evening when the Cowboy Band was made the official band of the National U. C. V. A resolution was introduced before the gathering of the Warriors of '65 by General Cornwall of Dallas and was seconded by General R. A. Miller of Abilene.  
The resolution read something as follows: "Since the Cowboy Band has rendered such valuable service to the U. C. V. in the past it is moved that the band be made the official band of the organization. The Resolution passed amid the cheering of the gray haired men.  
The Cowboy Band has attracted more attention than any other organization that has been in Birmingham according to local people.  
The band has been well entertained in this city during its stay here. Itors in Birmingham to the gala afternoon in its honor. Last evening at six o'clock, dinner was given by Mrs. J. J. Gilmore, sister of Judge T. A. Bledsoe of Abilene. Yesterday afternoon, Will Watson, official flag bearer of the band who is publicity agent of the West Texas Fair, chartered a sight seeing bus for the benefit of the Cowboys.  
The first day of the reunion found the Texas delegation working in full force. Texas has by far the largest delegation of any state in the U. C. V. outside of Alabama, in the convention. They number about 1,500

strong from the bluebonnet state. Texas is one of the most talked of states in the conversations about the convention halls, hotel lobbies and barracks. Even the Colonels from Virginia and the "Subs" from Georgia paused in their whittling expeditions from the Mississippi to Appomattox to say, "He's from Texas." There are approximately 35,000 visitors in Birmingham to the gala affair of the south. Perhaps the most talked of part of the Texas delegation and the entire convention is the Cowboy Band of Abilene.  
The famous Cowboys are constantly followed by small knots of spectators wherever they go individually down the street. Much as circus freaks are view in the small town, every time the band makes an appearance the crowds go wild. As a local newspaper stated, the band played "Dixie" as it had never been played before. The band opened the convention with a short program in the large municipal auditorium Tuesday night. It is scheduled to give its grand concert this evening at the capital Park.  
The manager of the Alabama State Fair is trying to draw up a contract with Manager Gilbert Sandefer for a week's appearance of the band at the State Fair which is to be held in Montgomery next October. The entire Abilene delegation was entertained in the home of Mr. Gilmore, a local steel magnate and the brother-in-law of Judge T. A. Bledsoe, last evening with a six o'clock dinner. Judge Bledsoe is in charge of the West Texas delegation here. He is working on a plan to send the band to Stone Mountain Saturday. All of the Abilene veterans are faring nicely according to Col. R. A. Miller.  
The band will leave Birmingham tomorrow, Friday evening for Abilene. It is expected that the boys will reach home late Sunday afternoon or evening.  
The members of the band making the trip to Birmingham are as follows: Roland Dunwoody, Conrad Lam, A. C. Harper, Byron Kidwell, Bruce Kemp, Ray Garrett, H. A. Anderson, James Logan, Ray Sims, Robert Malone, Flake Young, W. A. Corder, Robert Tietze, Glenn Gooch, Terry Redford, Kenneth Kirk, Willie Watts, B. B. Ball, J. D. Hunter, Claude Cook, Russell Odor, Robert Whipkey, Raymond Bynum, Gilbert Sandefer, Joe McCluskey, Elmer Spears, J. M. Dennis, Fred Ellison, Lance Sears, Otho Hillard, Cotton Briscoe, Omar Buleson, D. O. Wiley, director; Y. P. Kunn, drum major; and Charles Miller, publicity manager.—Simmons Brand.

"I have visited Colorado before and I have also had the pleasure of meeting with this splendid representative of your citizenship," W. H. Hart of Dallas, stated in an address at the Lions Club Friday. Hart praised Colorado for the faith exhibited by her citizenship. "You have in Colorado one of the jewels of Texas," he declared.  
Mr. and Mrs. A. C. Connell of the Hicks Rubber Co., after a nice visit to Waco returned home this week.

Mr. and Mrs. Chancellor of McKinney are guests in the home of Mrs. Chancellor's parents, Mr. and Mrs. J. B. Cox this week.

Mr. U. A. Terrell and family visited Mrs. Terrell's sister near San Angelo from Friday til Sunday.

Mr. J. W. Harris of Pearson is visiting in the home of his sister, Mrs. Wildman this week.

Mrs. J. R. Oglesby is at Goldthwait attending the bedside of her mother who is seriously ill.

Mrs. Victor Holder left last week for Ranger where she has been under the care of specialists in the interest of her health.

Mr. and Mrs. Hollis Gainey are the happy parents of an eight-pound boy born Thursday, May 27th. Both mother and baby are doing nicely.

The revival meeting which is now in progress at the Methodist church, is growing in interest and numbers. Bro. Bell and his good wife who are laboring so earnestly with us in a peculiar way and we are expecting great results ere the meeting shall come to a close.

Everyone will find a hearty welcome at all of our services and to the young folks let me say that you are missing something that is really worth while if you fail to meet Mrs. Bell in the young folks meeting each evening at 7:30 at the Baptist

church.

Mr. and Mrs. Johnson are guests in the home of Mrs. Johnson's father, Mr. E. S. Hudson this week.

A miscellaneous shower was given at the home of Mrs. Chester Bullock, Tuesday afternoon, honoring Mrs. Munn. Games were enjoyed and refreshments of ice cream and cake were served to about fifteen guests.

The program and ice cream supper given by the Baptist ladies Friday night was well attended and a delightful time was had. The proceeds amounted to near \$50.00.

A sleeping porch is being added to the Baptist parsonage this week.

Mr. and Mrs. A. W. Mixon are leaving this week for parts near San Antonio where they will spend a few weeks visiting relatives and enjoying a vacation.

Mrs. P. M. Rowland and children left last week for Toyah where they will spend the summer with Mr. Rowland who is working at the oil business there.

Mr. Leroy Gressett accompanied by his wife and sister left Wednesday for San Antonio and other places where they will spend a few weeks sight-seeing and visiting.

Mrs. Burr Brown has as her guest this week her little niece Howard Spikes of Lorraine.

**HOW SHE GAINED 10 POUNDS IN 22 DAYS**

**Slimmy Men Can Do the Same**

That's going some—but skinny men, women and children just can't help putting on good, healthy flesh when they take McCoy's Cod Liver Oil Compound Tablets.

As cock full of vitamins as the nasty fishy-tasting cod liver oil itself. But these sugar-coated, tasteless tablets are as easy to take as candy and won't upset the stomach.

One woman gained ten pounds in twenty-two days. 60 tablets, 60 cents. Ask any druggist for McCoy's Cod Liver Oil Compound Tablets and if you don't gain at least 5 pounds in 30 days your druggist is authorized to hand you back the money you paid for them.

"Get McCoy's, the original and genuine, and avoid imitations."

**THOS. HODGE, LEADER IN TEXAS TECH FIGHT, DEAD AT DUNCAN, OK.**

The man who made the call that brought the people of West Texas into an organization movement for a college in this part of the state, and was organizer and secretary of the first chamber of commerce in Sweetwater, is dead.

Thomas F. Hodge, former Sweetwater man and said by many to be the real force behind the first movement in West Texas for the Texas Technological College, died in Duncan, Okla., Wednesday, according to word received by friends here. The cause of his death was not learned.

Hodge, who was known throughout West Texas and who had hundreds of friends over this section, will be remembered by many Sweetwater people. As secretary of the Sweetwater Chamber of Commerce, which he organized, he issued the call that brought the people of West Texas together in the first movement toward locating a college in their part of the state.

In March, 1916 Hodge called for a West Texas meeting and the result of that meeting is the Texas Technological College at Lubbock which this month ends its first year. The meeting was held in Sweetwater on April 5, 1916, Dr. P. C. Coleman of Colorado, was elected president of the movement for a college and Hodge was elected secretary and treasurer of the organization.

The Sweetwater Club, at a meeting here last month, voted to "interest itself" in the so-called official history of the Texas Tech as written by Hamilton Wright and published in the Western Weekly. At that time, Thomas Hodge wrote friends here, offering to come to Sweetwater and at a public meeting give the true details and history of the Texas Tech movement. The meeting was not arranged, however.

Following the storm of local opposition to the Tech history as published in the Western Weekly, Hodge sent a sworn statement to Judge R. C. Crane of this city in which he set forth facts and details regarding the founding of the movement for the Tech, and early work and activities regarding the campaign for the institution. Crane added the statement to his collection of data on the history of the Tech. Hodge also sent here a detailed criticism of the Hamilton Wright article.

Hodge was about 50 years of age at the time of his death. He had lived in Duncan for some time. Plans for the funeral were not contained in the message received here telling of his death.—Nolan County News.

**Josiah Bartlett, Signer**

When the roll was called and the final vote on the Declaration of Independence was taken on July 4, 1776, in the Continental Congress, Colonel Josiah Bartlett, of New Hampshire, was the first to answer in the affirmative, and his name, after that of the President, was the first to be signed to the formal draft. The Sesqui-Centennial International Exposition, opening in Philadelphia on June 1 and continuing until December 1, will commemorate the one hundred and fiftieth anniversary of the signing of the document.

The New Hampshire signer received a medical education, but often refused to tread the beaten paths prescribed by his training. In 1752 he suffered from a severe case of grippe and was treated according to the system then in vogue, with the result that he was abandoned as hopeless. Again when he was stricken with a severe throat disease, he cured himself by means exactly opposite from those which had the approval of physicians in general.

Josiah Bartlett was a Puritan by birth and a Calvinist by education and training. His extreme individuality of temperament and independence of spirit soon drew him out of the limited environment of a country doctor. He became a Justice of the Peace, and in 1765 was chosen a representative from Kingston in the Provincial Legislature.

He was a member of the committee of safety and one of the party which attacked Fort William and Mary at Portsmouth. He received the appointment of Colonel of the regiment of New Hampshire Militia from the Provincial Congress.

As first governor of New Hampshire, Bartlett was the first person to hold that title under the present form of government.

His whole life was marked by a uniform and steady success, and was actuated by an unswerving devotion to duty. His influence in shaping the course of events not only in New Hampshire but in the United Colonies was very great.

Stone ware, churns, jars and bowls.—J. Riordan Co.

**Amarillo Headquarters Will Be in Charge of E. H. Winn**

The convention committee announces that E. H. Winn will be "boss" at Camp Colorado, to be established at the First Christian church building in Amarillo during the West Texas Chamber of Commerce convention. Winn expects to leave Colorado several days prior to opening of the convention and will have the camp in tip-top shape when the band and delegation arrives.

The camp is claimed by members of the convention committee to be the most desirable available in Amarillo. Excellent dormitory facilities have been obtained in the church building and a large tent to be used as a kitchen will be set up on the church lawn. Through cooperation with the Amarillo Chamber of Commerce gas is being piped to the church grounds and this fuel will be used for cooking. The building is in the heart of the city, within a short distance of the convention hall.

It is announced that Ell Brown, local chief who led the Colorado delegation at Mineral Wells last year, has been employed for this job again and will be taken to Amarillo by Winn. Another colored man, well qualified to preside over the range, will be employed also.

"Our plans are being made on the biggest scale ever attempted and Colorado will spare nothing to care for her prize winning band at Amarillo," J. H. Greene, chairman of the convention committee, stated Monday. "We are determined to provide every convenience and comfort possible for the organization which so dignifiedly honored Colorado," he concluded.

**COTTON PROBLEMS VIGOROUSLY ATTACKED**

**COLLEGE STATION, May 20.**—Dr. B. Youngblood, director and A. B. Conner, vice-director, Texas Agricultural Experiment Station leave today for Memphis, Tennessee to attend a meeting of the directors of the agricultural experiment stations of the southern states. This meeting has been called by Director W. R. Doolan of the Louisiana Experiment Station who is chairman of the Cotton Production Committee of the Association of Southern Agricultural

Workers. The object of the meeting is to discuss the cotton research projects of the several experiment stations and the discussion will include outlines of the technical studies having to do with problems that pertain to cotton production and cotton economics, with particular emphasis on marketing. These studies are to be more far-reaching in character than any heretofore made, the increased emphasis being enabled by the new Purnell fund, which provides for researches having to do with production, processing, distribution and marketing farm products, as well as comprehensive home economics studies.

The economic problems pertaining to cotton production, manufacture, marketing and consumption are not only of interest to farmers, merchants and spinners, but also to the housewife and projects on all these phases will be discussed at the Memphis meeting. This concerted attack upon the cotton problems and related matters is the result of conferences between the officials of the United States Department of Agriculture and officials of the Southern

colleges and experiment stations. The A. and M. college of Texas has long been considered as possibly the best cotton school in the world and is taking a leading part in these studies. In fact, the college administration considers Cotton Economics Research of such importance as to justify the loan of Dr. B. Youngblood, director, Texas Agricultural Experiment Station system to the United States department of agriculture in order that he may organize and conduct cotton technological and economic researches of the department for the time being.

Mrs. Montgomery of Big Spring is visiting in the home of her daughter, Mrs. Hollis Gainey this week.

**FARM BUREAU MEETING**  
Abilene, Texas May 26, 1926.  
Dear Sir:  
At the district convention of the Texas Farm Bureau Cotton association held in Abilene May 22, a committee was appointed to meet in Stamford, Saturday, June 5, 1:00 p. m., at the city hall auditorium for the purpose of discussing the location of the district convention of the Texas Farm Bureau Federation which is to be held in some section of West Texas this summer. The location of the convention will be determined by the State office of the Federation whose decision will depend on interest shown in the various districts by not only members of the farm bur-

eau but also that of commercial organizations and other interests.  
The committee as appointed consists of the Farm Bureau presidents, directors and county supervisors of the Texas Farm Bureau Cotton Association, and county agents of the following counties: Knox, Haskell, Jones, Taylor, Runnels, Nolan, Mitchell and Fisher.  
In addition to the above named committees other business men or chambers of commerce are urged to be present and assist in securing the location of the convention in this section of West Texas.  
Yours very truly,  
C. B. TISDALE, Chairman.  
President Taylor County Farm Bureau, Tuscola, Texas.

**ABOUT THE WEST**  
**Big Spring**—At a meeting of the Big Spring Chamber of Commerce, C. T. Watson was authorized to purchase at least ten registered Jersey bulls to be distributed in various communities of the county. Poultry raising, also hog production are expected to follow along with the dairy industry.  
**Hereford**—At a luncheon recently held by the local chamber of commerce, Mayor D. S. Ireland urged Hereford to send a large delegation to the West Texas Chamber of Commerce convention in Amarillo June 21-22-23. Committees were immediately appointed to look after the transportation, the decorations and stunts for the parade.  
**Tahoka**—The latest scholastic census in Lynn County shows that there are approximately 3500 school children between the ages of seven and eighteen. There are 24 districts, twelve independent and twelve being common school districts.  
**Childress**—A very extensive building program has been planned and bonded for the erection of a city hall, \$40,000; sewer bonds \$100,000; water improvement \$25,000; and school \$110,000. The sale of the city bonds will provide funds for the erection of a new \$50,000 municipal building.  
**Vernon**—The city commission of Vernon plans to install another 360 horsepower engine at the municipal electric light and water plant.  
**Quanah**—Quanah has just received a car load of hogs, which was ordered by the local chamber of commerce. Secretary Willie had no trouble at all placing the hogs which were seventy-one in number.  
**Mineral Wells**—Work is now under way for the rebuilding of the Crazy Well Hotel here, which was destroyed by fire. The Crazy Well Hotel Company has completed its organization and all the financing for the rebuilding of the hotel and pavilion has been arranged.  
**Sweetwater**—Contract for the sale of the \$160,000 issue for a municipal city hall auditorium and fire station bonds has been entered into by the city commission.  
**San Angelo**—Walter E. Yaggy has recently resigned as Secretary of the Board of City Development, which position he has held since April

1922. Mr. Yaggy will serve until July 1st, unless a successor is appointed before that time.  
**Alpine**—Alpine is anticipating the opening of its new swimming pool, which has just been completed. The pool is located in the heart of the town and measures 150 feet in length and 20 feet wide. The swimming pool and surrounding park will be lighted at night.  
**Wichita Falls**—Final arrangement for the construction of a 16-inch gas main from the Shamrock field to Wichita Falls have been completed. This contract involves an expenditure of \$4,000,000 and calls for the construction of 175 miles of line from the Wheeler County gas fields to Wichita, furnishing gas to cities enroute.  
**Roswell, N. M.**—Work has been started making up the list of those going to Amarillo for the convention of the West Texas Chamber of Commerce. The delegation will leave Roswell June 29 and remain in Amarillo the night of the 21st.

**Eat Less and Live Longer, Says Lawyer**  
By W. W. O'BRIEN  
(Noted Criminal Lawyer of Chicago.)  
Business and professional men working under high nervous pressure do not live as long as men whose pursuits keep them out of doors and active. Examine the records of longevity and you will find that on the average the longest-lived men are soldiers, sailors and farmers, all avocations which tend to keep a man at his physical best.  
Man, in general, rolls down the hill of life fastest when his figure is rotund. "Leanness and longevity" is a good axiom for business men to remember. If office workers would eat a little less, they would add years to their lives.  
Overfeeding is as dangerous to adults as underfeeding is to children. Foods difficult to digest, or which overstimulate, should be avoided by persons whose work does not require any particular amount of physical exercise. Yet thousands of business men eat as much or more than men who do manual labor. And, inevitably, nature rebels and sickness results.  
Many of the country's foremost executives eat but two meals a day, breakfast and dinner in the evening. They seek to keep the organs of the body from becoming clogged. Thousands of other business men confine themselves at noontime to custards, puddings, soups and other sustaining dishes made with milk, or evaporated milk, which is milk in its most sterile form, from which 60 per cent of the water has been removed by evaporation. Such a diet is light and readily assimilated.  
There is no more necessary lesson to be learned by the brain worker than how to keep well and healthy by proper attention to food habits.

W. W. O'Brien.

**SWAT THE FLY**  
"The fly is a serious health menace to every family that harbors it," stated Dr. H. O. Sappington, state health officer, who urges citizens of the state to use every means possible in exterminating this filthy, disease carrying insect.  
"The findings of sanitary science have conclusively proven that the fly is an enemy to mankind. A creature of filth, he crawls from one loathsome object to another, covering his hairy legs with disease germs, which if given an opportunity, he transfers to exposed food on table or sideboard, and the baby's face, hands and milk bottle.  
"Some of the diseases, the germs of which he most commonly spreads, are typhoid fever, dysentery, enteritis, and infantile diarrhea. Being a prolific breeder, one fly can propagate millions of the species during a single season. Start your fly extermination campaign early in order to keep breeding at a minimum.  
"The principal effort to control this dangerous insect must be made at the source of supply—its breeding place. Absolute cleanliness and the removal or destruction of anything in which flies may breed are essential. The favorite breeding place of flies is horse or other animal excreta, but if this is not available, they will lay their eggs on a great variety of decaying vegetable and animal materials. Barnyards, chicken yards, etc., should be cleaned and disinfected often. Garbage and waste that cannot be burned or buried, should be kept in tightly covered garbage cans until removed from premises. Open-back closets are a serious health menace and should be replaced with pit privies.  
"Dwelling houses should be screened with 16-mesh wire, and all screens should fit tightly and be kept in a state of good repair. Swat every fly that makes his appearance on the inside of a screened home, and where necessary resort to the use of fly traps and fly paper. Literature on fly extermination will be sent on request to your state board of health Austin."

**Eating Greater Cause of Death Than Drinking**  
Drink is the second greatest cause of disease and death. Food comes first, then drink. Excluding alcoholic beverages, there are dozens of drinks on the market today whose effect is detrimental, particularly to children.  
Milk is the best drink for children. Not only is it drink, but food as well—the most nearly perfect food known to man.  
Milk is an all-the-year-round drink and for this reason the children often rebel against drinking it. This condition, however, may be overcome by the introduction of the mixed drink. Milk or diluted evaporated milk may be mixed with eggs or used in fruit juices or in some other way which will disguise the fact that the drink contains milk. In the hot summer months when the child naturally drinks more than in cooler weather, it is wise to vary the ways of serving milk, so as not to create a distaste for this important food.

**A REAL HEROINE**

Faith May Adams of Harrington, N. J., the first American School girl to be entered as a candidate for the American Youth Award. The American Youth and Teacher Award was established by the Board of Directors of the Sesqui-Centennial International Exposition in Philadelphia as a tribute to the youth and teachers of the nation. Miss Adams is a candidate for the Golden Earlette, the highest gift in the hands of the Girl Scouts. She was cited recently for exceptional bravery for remaining inside a blazing building helping physicians to give first aid treatment to injured firemen.

**Toed Cocoa**  
2 tbsp. cocoa 1 1/2 cups evaporated milk  
1 tlb. sugar diluted with  
1/4 cup hot water 1 1/2 cups water  
Few grains salt 1/4 cup vanilla  
Scald the diluted milk in a double boiler. Mix cocoa, sugar, salt and add the hot water. Cook over a low flame from 10 to 15 minutes, stirring occasionally to prevent burning. Add to the cocoa the scalded milk; return to the double boiler and continue cooking for 10 minutes. Add vanilla, chill before serving. Pour into tall glasses which contain a few small cubes of ice. Serve plain or top with whipped cream sprinkled with cinnamon. Serves four.

**Egg-Nog**  
1 egg diluted with  
Few grains salt 2-3 cup ice water  
1 tlb. sugar 2 tlb. berry or  
Few gratings cherry juice or  
nutmeg 3 tlb. non-alco-  
2-4 cup cold holic cherry  
evaporated milk  
Separate white from yolk of egg. Add salt to white and beat until stiff. Beat yolk until thick and lemon colored and add the fruit juices, nutmeg and sugar. Combine diluted milk with yolk mixture. Pour into a tall glass and put the egg white on top. Sprinkle top with chopped nuts and serve at once. Serves one.

**Orange-Nog**  
1/2 cup orange juice 1-3 cup evaporated  
Few grains salt 2-3 cup ice water  
2-3 tlb. sugar diluted with  
1-3 cup cold water  
Add sugar and salt to orange juice and pour slowly into the diluted milk, stirring to mix thoroughly. Chill before serving. One-half tsp. lemon improves this drink for many. Serves one.

**Public Reception at Legion Building for "Hewett Five"**

Honoring Mr. and Mrs. C. A. Hewett and their family, the wives of members of the chamber of com-

merce band gave a public reception at the American Legion Memorial building Tuesday evening. Guests were received upon entrance by Mrs. Ed Majors who presented Mr. Hewett, Mrs. Hewett, Misses Ettena and Annah and C. A. Hewett, Jr., in the receiving line.

Mrs. Edd Jones, Jr., and Mrs. Hall DeGarmo presided at the punch bowl, from which delightful punch was served. Meses. J. L. Pidgeon, A. L. Madin, Boyd Dozier and Harry Ratliff acted as hostesses of the house party.

The program was opened with instrumental music by Mrs. O. B. Price at the piano, next to be followed by a concert number by the band. An address was delivered welcoming Mr. Hewett and his family to Colorado and urging the public to

interest themselves in plans for sending a representative delegation to Amarillo for the convention.

Little Misses Julia May Root, Mary Francis and Mable Majors and Freda Muri Reid entertained the assembly with readings and songs. These children are artists and did not fail to merit the applause and encores given them.

Mr. Hewett appeared in a cornet solo, which was very much appreciated. Mrs. Bill Martin of Lorraine, sang, Meses. Guitar and Lockhart sang a duet and Mrs. J. E. McClary gave a selection of original poems. An orchestra selection by the "Hewett Musical Five" and selections by the band concluded the program.

**Gray Lumber Company Sells Lumber to Hotel Colorado**

Dick Gray, manager of the Gray Lumber Company, announced Friday that his company had closed contract with the Churchill & Humphrey company, general contractors, to supply all lumber to go into the construction of Hotel Colorado. Mr. Gray stated that this was one of the largest bills ever sold by his company.

Gray, a former Colorado boy, recently came here from Hamlin to assume management of the company retail yard established a few weeks ago by George Gray. George has returned to Sweetwater and will be associated with the general offices of the company.

"I am delighted to be back in Col-

orado again," Gray stated Friday. "As a youth I lived in Colorado and during all the years I was away I never forgot the city nor its citizenship. I hope that I am here now for keeps."

**Bridge Luncheon**

Mrs. Charlton entertained a few friends with a bridge luncheon Tuesday. Miss Shaw of Longview made high score and was given score pad and tally cards. Mrs. Joe Smoot made low score and received the booby candle sticks.

After a lovely salad and ice tea frozen apricots and cake were served.

Silk Rayon dresses Saturday and Mondays. Special at \$4.45. Jones D. G. Co.

**Election of "Men" Should be Demanded by the Voter**

The Lubbock Avalanche, edited and published by a former Colorado citizen, Jas. L. Dow, has some apt suggestions to offer voters. Mr. Dow calls attention to the fact that election of a "man" for governor should not end the demands of the voter, but that real men should be chosen to fill every important office within the gift of the people. Mr. Dow says:

"While we are tearing our shirts and making a big ado over the election of MAN for governor, we should not overlook the importance of electing MEN for the legislature. We are sure that quite a number of the fellows that Texas voters sent down to Austin last year as representatives were either disappointing to the constituency, or else they were sent down there for ballast and came near sinking the old ship of state in their enthusiasm to whitewash an impeached governor.

"The people of Texas have an opportunity to change governors, and they have an opportunity to change a bunch of representatives as well, and unless Texas gets a change of men from many of the districts they will continue to make new laws and not repeal any of the bad ones till they will finally load the statutes with a bunch of useless laws that are of no value to the people, and a detriment to the state in general. We need men who are patriotic and brave and men with plenty of brains to carry on the work in the legislature without fear or favor.

"We are prone to put all the fight on the governors race, while that of Attorney-General and the Senators and the Representatives are as important as the governor, yet, many times we take little or no interest in the men who are to represent us in the Senate or the lower house, and usually the office has to beg the man rather than the man want the office, unless it is for some selfish purpose or representing some special interests.

"We should know our man for attorney-general. Had we not been fortunate in getting a wide awake, energetic young man in the office two years ago, the old state would have been permeated with graft from center to circumference. It is possibly bad enough now, but it might have been much worse.

"We should know our men for representatives and senators throughout the State, for in their hands rests largely the law-making of the State, and it is therefore very necessary that we should have men with plenty of brain, plenty of fight and plenty of moral stamina to stand and fight for the things that are right and just, so that the statutes will not be loaded down with laws that are of no value whatever, except to certain interests and laws that are of no need and only taking up space on the statute books, and time of the representatives in passing them.

"We are sure that the jury system of this State needs revising, and the method of selecting jury commissioners changed. We do not believe that the average jury is "intelligent" after lawyers and judges put charges to them under which they must convict or turn lose at the will of the judges and the lawyers. There can be no such a thing as justice under such conditions.

"We urge the voters to not let the office of governor overshadow the importance of the other offices from constable up to Governor."

**SPEEDWAY STARS DRIVE CHRYSLERS IN PRIVATE LIFE**

Chrysler cars are the personal cars of many notables of the automobile racing world. Numbered among these are Ralph De Palma, Frank Elliott, Lora L. Codum, Phil Shafer, Art Klein, Bennett Hill, Leon Duray, Pete Kreis, Riley Brett, Ralph Hepburn, Ira Vail and many others.

All these boys have contributed to the illustrious history of the international speed classics held at the Indianapolis Motor Speedway, the fourteenth of which will be run this year on Monday, May 31.

Val Haresnap, member of the contest board of the A. A. A., is also a Chrysler owner.

The Chrysler has been still further honored by being chosen to pace the field at the annual 500-mile international gasoline derby, which will be run this year at the Indianapolis Motor Speedway on Monday, May 31.

**NO-NOX**

**MOTOR FUEL**

**STOPS KNOCKS**

*Turns Mountains into Mole hills*

**F**OR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

**Gulf No-Nox and Carbon are Power Twins**

GULF No-Nox Motor Fuel withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

With GULF No-Nox Motor Fuel in your tank—step on it—you will get the story better than we can tell it.

**This Guarantee goes with it**

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

## Former Abilene Girl Makes Good in Role of Home Demonstration Agent in Mitchell

Everything in the racket store line at McMurry's the store with the red front.

**HICKS**

COLORADO, May 30.—Colorado and Mitchell county take considerable pride in claiming as their own a former Abilene girl, who, as Mitchell county home demonstration agent, is attaining unusual success in her work among the 14 home demonstration clubs in the county. No other agency is contributing quite so much to the end of promoting the idea of diversification, the domestic sciences and ideal social surroundings as this agent. She is Miss Ives Belle Jones, daughter of Mr. and Mrs. S. W. Jones of 118 Vine street, Abilene, who assumed her present

position here last year under direction of the Extension Department, A. & M. College.

Miss Jones is attaining success in her work in Mitchell county because of the fact that she "knows her stuff" and is everlastingly on the job. Hardly a day passes but that she is called into the country to meet with one or more of the girls and women's clubs. She is never too busy at the office but that the interests of these club members always find her willing and eager to advise, instruct and work with them in solution of the hundred and one problems to be met.

Just now Miss Jones is directing attention of her club members to poultry and gardens. There are hundreds of fine Spring gardens, to be seen in ever rural community of the county, arranged, planted and now being cared for in a scientific

manner under personal direction of the agent. There are hundreds of flocks of pedigreed poultry, some of them numbering 1,000 birds, being cared for by members of her clubs.

Practical instruction as to the best methods to produce a better hen and a better garden does not, by any means, end the list of activities fostered. Girls and women, too, are being taught the practical means of sewing, cooking, housekeeping, canning, preserving and other equally important items to be rightfully catalogued in the factors of making rural life both profitable and attractive.

As evidence of the fact that she is an able leader among the rural women and girls may be attested in the fact that the contestant entered by Miss Jones in Mitchell county was awarded first place in the Better Kitchen Contest. The winner easily took first rank among a long list of

contestants throughout District No. 3, extending from Weatherford and Waco on the east to El Paso on the west. The kitchen entered was owned by a rural club woman in this county, who was enabled to attain the honor through carrying into effect suggestions made by the county home demonstration agent.

Miss Jones has four women's clubs competing in the State Garden Contest and is optimistic enough to believe that the entry defeating Mitchell county will show the judges "some garden."

The agent keeps close touch with activities of her rural clubs. She insists that business methods be employed by every member in both the producing and marketing ends of their surplus produce. The following items, produced by club members during the year ending April 1, show that the work is successful, as may

be seen from a financial viewpoint on the farm:

Fruit tinned, 950 quarts, valued at .....\$475.00  
Vegetables tinned, 5,261 quarts, valued at ..... 945.54  
Vegetables dried, 704 pounds, valued at ..... 88.00  
Jelly made, 965 quarts, valued at ..... 193.00  
Preserves made, 577 quarts, valued at ..... 525.30  
Pickles and relishes, 762 quarts valued at ..... 404.00  
Meat tined, 3,345 quarts, valued at .....1,131.00  
Meat cured, 6,482 pounds, valued at ..... 972.30  
Soap made, 1,082 pounds, valued at ..... 108.20  
Lard made, 319 pounds, valued at ..... 638.00

Total .....\$5,480.34

The above figures do not include, by any means, all of the home grown products produced by the women and girls who are members of these rural clubs. Dairy, poultry, garden, culinary and scores of other home produced articles would be included in a complete list. But every item listed above was produced by a member of some demonstration club under supervision of the agent.

As to canning fancy pack vegetables and fruits and making garments of the better grades, the women and girls of the county have a long list of credits to their account. Specimens shown at county, district and even the State Fair of Texas, have won for their owners blue ribbon awards and meritorious mention by both the judges and the public.

The fine success of this agent could not be were it not for the co-operation accorded her by the citizenship of the county. The Mitchell county federated clubs, one of the strongest in West Texas, chamber of commerce, Lions club, county commissioners court and other agencies appreciate the true value of such training and are lending co-operation to Miss Jones.

Yes, Colorado is proud to take from Abilene this young lady. She may also be claimed by Simmons University, having graduated from that institution in the class of 1925."

### RICKER & DODSON ORGANIZE OIL COMPANY

Announcement is made by Rupert P. Ricker of the organization under the laws of Texas of El Capitan Oil Company, which Mr. Ricker says will engage in general oil activities. The charter of the corporation was received from Austin on April 29th last and the organization meeting held this week. Mr. Ricker was elected president, Floyd C. Dodson and Robert B. Campbell, vice presidents, Clyde Vinson, secretary and Hedwig T. Kniker, treasurer. Both Mr. Ricker and Mr. Dodson are University of Texas graduates, as are, in fact, all the directors of the new company except Mr. Campbell, whose Alma Mater is the University of Chicago.

In addition to the officers above named, the stockholders are: J. H. Watt, E. M. Funkhouser, Hedwig T. Kniker, Clyde Vinson and H. H. Henderson.

The capital stock, \$25,000.00 was paid in in cash and is held exclusively by those actively engaged in conducting the company's business.

Both Mr. Ricker as business executive and Mr. Dodson, as geologist, with headquarters at San Angelo, have been known throughout the western part of Texas, under their name of Ricker & Dodson, for their activities in the general oil business, and Mr. Campbell has a wide acquaintance by reason of his position recently resigned as geologist at San Angelo for the Humble Oil & Refining Company.

It will be recalled that Ricker & Dodson originally filed upon and held from the State the entire Krupp and Pickrell (Texas Oil and Land Company), block of acreage in Reagan county, including what has become known as the Big Lake Oil field which has yielded so copiously to the enrichment of the University of Texas permanent fund.

Spalding, the ice man, gives gold bond stamps and the biggest piece of ice for a dime and his service is quick. You get it when you want it by phone.

### A DIRTY TRICK

Somebody went into my garage last Friday night, jacked up a wheel and took a casing and rim, almost a new casing. That was a mean trick and anybody who would do a thing like that I believe would steal if tempted just a little. They left the old jack under the car. Whose ever it is, come and call for it. I don't need it and would be glad the owner would come and call for it.—J. F. Lawlis.

### McMURRY COLLEGE PLANS EXTENSIVE DEBATE SCHEDULE

A trip through thirteen of the Southern and Eastern states is now being planned for the debating team of McMurry College next year, and several shorter trips in Texas will be included in the schedule, according to the Forensic Manager, Earl Nowlin. One of the points of interest on this trip will be Washington, D. C.

This trip will be an added inducement for try-outs and the winners of the preliminary debates will gain much valuable knowledge besides the experience in debate, not to mention the pleasure that such a tour will afford.

Of the nine intercollegiate debates in which McMurry has participated during the three years of her history, seven have been won. Greater interest and better support of the debaters of next year is already becoming evident.

### NOTICE OF DISSOLUTION.

Notice is hereby given that the partnership lately subsisting between Chas. C. Thompson and George H. Mahon, in Colorado, Mitchell County, Texas, under the firm name of "Thompson & Mahon" was dissolved by mutual consent May 11, 1925.

CHAS. C. THOMPSON,
