COLORADO, TEXAS, FRIDAY, JUNE 25, 1926.

THOUSANDS HEAR BAND IN CONCERT AT LUBBOCK

Music Makers Battle With Mud to Reach Lubbock Enroute Amarillo

Over three thousand people gathered at and around the Chattanooga grounds east of the Lubbock sanitarium last night to hear the concert by the 32 piece band of the West Texas Chamber of Commerce, the Gold Medal band go Colorado.

The band was scheduled to be here at four o'clock but mud and rain delayed them all along the way. They left Colorado yesterday morning at 10 o'clock and arrived here soon after seven. Much difficulty was encountered by the mud and the delegation was cut practically into halves. The other group expect to pass through here today and tomorrow.

Gorgeous Picture

Marching into the view of the crowd in single file the band gave a pretty picture in their black and gold uniforms, with white trousers. Director A. C. Hewitt told of the difficulty on the roads and stated that although not all of the band and music had arrived the boys would do their best under the circumstances. A good concert program had been prepared for the concert but they were able to give only marches and light pieces because of the delay of the car carrying the music.

Horn Speaks

Following several excellent selections by the band, President Paul W. Horn of the Tech introduced Dr. P. C. Coleman, father of the idea of the Tech, who spoke briefly of the great rise of the west and the part played by the West Texas Chamber of Commerce. He paid a great tribute to the undaunted fighting spirit of the West Texans in their work for one of the greatest educational institutions in the southwest. He stated that the other parts of the state did not know of West Texas until the West Texas Chamber of Commerce began to function.

"The convention in Amarillo," he stated, "is an eye opener of what one of the greatest sections in the world is doing."

Judge Hall, legislator from that section was introduced and spoke a few words of praise for Lubbock and the Tech and promised that he would do all in his power to make this section the greatest.

"The 'home brew' male quartet then took the platform and sang 'We're from Colorado.' This unit will be one of the features in Amarillo. The delegation spent the night in Lubbock last night, most of them camping at the Tourist park. They will leave at 9 o'clock this morning for Amarillo.

The Colorado delegation led by their band, will parade in the streets of Lubbock immediately after their arrival here, and will play a concert at the Chattanooga grounds east of the Lubbock sanitarium this evening under auspices of the Texas Technological College, arrangements for which are being made by A. B. Davis of the Lubbock Chamber of Commerce and R. M. Chitwood, business manager of the college.

W. S. Cooper, secretary of the Colorado Chamber of Commerce, is manager of the Automobile caravan hauling the Colorado boosters to the Amarillo convention. They will pitch camp at the county park here for tonight, leaving early Saturday for Amarillo and will spend the entire day visiting the towns enroute. Band concerts will be played at each town visited.

Dr. P. C. Coleman, veteran West Texas booster and because of his work in connection with the creation of a school of higher education in West Texas has been recognized as the "daddy" of the Texas Technological College, will deliver an address following this band concert here this evening.

Dr. Coleman is well known to the people of Lubbock and throughout West Texas, who will have much in-

OIL DEVELOPMENT IS MOVING FORWARD ALL OVER THIS TERRITORY

Carey & Lockheart Test on 97
Carey & Lockheart are going forward with arrangements to drill a test well on section 97, block 29, W. & N. T. survey on the Dora Roberts ranch.

This test will be spudded in by July 1.

Simms Oil Co. to Spud in
The Simms Oil Company is getting ready to spud in their test well on the Will P. Edwards ranch on the Ector-Crockett county line. Mr. Edwards returned Monday from a visit to his ranch and states this test will soon be going down.

At the Transcontinental Test
The drill is pounding away in the Transcontinental Oil Company's test well on section 100, block 29, on the Dora Roberts ranch, fourteen miles southeast of Big Spring. A depth of more than 3510 feet has been reached. The officials of the company have decided to continue drilling until they bring in an oil well on this location.

Magnolia's Forter No. 2
The Magnolia Petroleum Co. is testing well on section 18, block 29, Top 1S is now drilling around 1800 feet. This test is a mile or so west of the discovery well in the Itan field.

The Magnolia drilled a well on section 18 some years ago which was declared a dry hole. Nevertheless the Magnolia Company late returned, retested the same tract and brought in the Mary Foster No. 1 on section 17. This well is declared by many to be the best producer in this section.

The California Co.'s No. 1 Foster
The California Company's No. 1 Foster, section 6, block 29, top 1S, in the Itan pool, near the Mitchell-Howard county line, is drilling below 2700 feet. A showing of oil was encountered between 2605 and 2620 feet.

This test is about two miles northwest of the Magnolia Petroleum Co.'s Mary Foster No. 1, which came in for a daily production of 180 barrels of oil at 2870 feet.

The Californian Co. should complete their test to the 2870-foot level within the next ten days.

To Drill on Section 111
J. O. Edgar of San Angelo has completed plans for drilling a test well on section 111, block 29, W. & N. W. survey and will begin moving standard tools to this location next week. He owns five hundred and sixty acres of land in section 111.

This test will be two miles west of the Chalk well No. 1, two miles north of the Fred Hyer No. 1, and about two miles southwest of the Transcontinental, Roberts No. 1, and about one mile from test wells on section 97 and section 126. It will be about sixteen miles southeast of Big Spring.

At the O'Daniel No. 1
Pumping the O'Daniel well will have to be discontinued until the Kay County Pipe Line Co. complete their pipe line from the Chalk field to a point near Coahoma. The two 500-barrel storage tanks at the O'Daniel well are now full of oil. This well in a recent test made by the Magnolia Petroleum Co., produced around 40 barrels of oil per day. It is believed it will do better when thoroughly cleaned.

It is rumored that the Magnolia Company recently purchased three quartered section from Choate & Henshaw and expect to drill test wells near the O'Daniel No. 1.

In the Chalk Field
The Marland Oil Company test well on the southeast quarter of section 113, block 29, W. & N. W. survey is at present the deepest test in the Chalk field. This well is now around 1060 feet deep and should reach the depth at which oil was found in the Owen & Sloan Chalk No. 1 in the next two weeks.

We have been unable to get an exact report on drilling operations on the various wells in the Chalk district this past week.

The Owen & Sloan Chalk No. 2, section 113, just south of the discovery well is nearing the 1000 foot mark.

MOODY PRAISED BY DR. HUTTON IN TALK HERE

Venerable Pastor Corrects The Statements Made By Others

Dr. M. C. Hutton a Presbyterian preacher for over 50 years is here visiting from Georgetown. Having known this eminent divine for quite a number of years and he hailing from the boyhood home of Dan Moody we asked him for an expression on Moody's life. Here is what he says:

"I wish it understood that I am no political speaker—not having made a political speech in my life.

"I am to speak, by special request, from a Christian standpoint. I am a Presbyterian minister, having been pastor of the Georgetown Presbyterian church for more than thirty-five years, until my health failed.

"Allow me to say that Dan Moody is more to my family than a mere candidate for Governor of Texas. He is one of our best friends. He was an inmate of my home, as a roomer, for three years, during his term as district attorney of Williamson county, during the sessions of the criminal district court of Williamson county, the county in which Mr. Moody was born and reared.

"After preaching for more than fifty years, I have never known a more consistent Christian gentleman than Mr. Moody. He always depicted himself as a consistent follower of our Lord Jesus Christ. I have never seen in him the least blemish of character in my intimate association with him.

"It was a sad day when the time came to take leave of him as he entered upon his duties as attorney general. During that campaign one of our slanderers mailed out to the various ministers of the State false statements regarding Mr. Moody, one of which was that he had been arrested for a violation of the law. It was a great pleasure to me to denounce this. These slanderers were quite liberal with me, mailing a copy from Fort Worth and another from Brownwood. To combat this I gave my affidavit from a personal knowledge of my dear friend. I received from the Fort Worth bar a letter of thanks for this affidavit, which may have been used in Mr. Moody's campaign.

"I read in the paper where some one said 'Dan Moody can't control his temper.' I was astonished at such a statement. Were the author of this article ever to have the false statements made of him that are made of Mr. Moody, I doubt his retaining his equilibrium as Mr. Moody has done. It is well for his opponent that Mr. Moody is such a thorough gentleman, or else the settlement might have been very unpleasant. That Mr. Moody did not resent this, is not because he is a coward. I have known in Georgetown that he knows no fear. His true Christian character fortifies him against any such slanders.

Though a member of the Baptist church; at the earnest solicitation of the pastor, Dr. T. F. Sessions, official board, and class of young men of the University Methodist Church at Austin, he took charge of this Bible class; thereby showing that he is willing to work wherever he can do the most good.

Mr. Moody is of that type of christian character, of other things being equal, that Texas needs for the next Governor.—M. C. Hutton, Georgetown, Texas.

test on section 114, just east of the Owen & Sloan Chalk No. 2 has not made much progress due to trouble with gas engine.

Carey Lockheart Chalk No. 1, section 114, and east of the discovery well, is approaching the 1000 foot mark.

The Carey and Lockheart test well on section 86 is making steady progress at about the 600-foot mark.

The Reeves and Apperman test on section 126, H. R. Clay ranch, is now making steady progress.

Colorado Band Praised By President West Texas C. of C.

Col. R. Q. Lee, president of the West Texas Chamber of Commerce, paid a glowing tribute to the Colorado Chamber of Commerce band, official convention band, in an address delivered at the convention hall here this morning. The band had just completed the musical program opening the convention and Colonel Lee arose from his place to call the assembly to order.

"We are all proud of the many achievements attained in West Texas," he said, "and one of the great achievements has been in a musical way. Among these we must not forget our own official band, the Colorado Chamber of Commerce Band, which is the official musical organization in Amarillo for these days. It is truly a credit to West Texas and I know that every convention visitor will exhibit due pride in our band."

Colorado Delegation Ends Trip To Convention City

AMARILLO, June 19.—After having negotiated 250 miles of road by automobile, a great part of which was through mud and heavy sledding, Colorado arrived in Amarillo this afternoon at six o'clock to claim the distinction of being the first delegation to arrive for the convention. This thriving city, among the best of West Texas and the West Texas Chamber of Commerce, and the fact that it has 100 people here tonight, with many others yet to come, and owns as its own the official gold medal band is evidence of the fact Colorado is still among the dominating communities making possible the phenomenal development in this region.

The delegation is in charge of L. B. Collier, who stated soon after arrival that not less than 150 Colorado boosters would be in Amarillo by the time the convention opens Monday morning. W. S. Cooper, secretary of the Colorado Chamber of Commerce, Mrs. L. B. Collier, assistant secretary and other officials are with the delegation.

HOMER WADE NAMED NEW MANAGER WEST TEX. BODY

Amarillo Convention Is Most Successful In History Of Organization

AMARILLO.—Homer D. Wade was this afternoon unanimously elected general manager of the West Texas Chamber of Commerce, succeeding Porter A. Whaley.

The selection was made by the new and old board of directors, including the vice presidents, at the conclusion of their luncheon in the Amarillo hotel.

No other name was presented. Wade was nominated by R. L. Penick of Stamford.

A. B. Spencer, general manager of the Fort Worth Chamber of Commerce, made the seconding speech.

The nomination session was executive. At its termination Colonel Penick emerged from the banquet room into Peacock Alley. Penick was smiling broadly and calling out, "Where's Homer Wade?" Wade was found in the lobby and hustled into the banquet room, the directors clapping to their feet with hand clapping as he entered. There were calls of "speech!" and Wade responded by saying:

"Gentlemen, I thank you for this honor. Every ounce of energy and intelligence which I have—in fact, my whole life—will be devoted to this organization, in making it bigger and better, if I can do it."

Wade's regime will bring no changes in personnel. However, there will be three assistant managers, this year, each in charge of a district. The Central West Texas District, headquarters at Fort Worth, will be managed by Ray Leeman, now Southwest manager at San Antonio. Leeman's present assignment will go to B. F. Bennett, present organization manager. A new district been created for Northwest Texas headquarters at Amarillo, with the manager yet to be named. E. H. Whitehead, manager of the publicity bureau will be a full time man after July 1.

All staff assignments, Wade said, will be presented to the directors at the Abilene meeting for approval.

Wade's appointment was hailed with satisfaction in the various delegations and along Polk street. The executive meeting opened with an announcement of Porter A. Whaley's resignation, by R. Q. Lee.

A. P. Duggan, the new president, was conducting the meeting and put the motion. When the "noes" were called for, A. B. Spencer of Fort Worth loudly called "no!"

Houston Harte of San Antonio, took the floor to tell about the gift the board of directors will have for Whaley when the new board holds its first session at Abilene, July 12.

The nominations committee offered three more names for the board of directors—W. H. Abernathy of Paducah, Jess Mitchell of Littlefield and Fred Haskell of Childress—and they were unanimously elected.

Taking charge of the meeting, A. P. Duggan, the new president, spoke appreciatively of his election. "I have no political ambitions," Duggan then announced that the new board will hold its first meeting at Abilene July 12.

The farewell luncheon opened at 1 o'clock. E. M. Whiteker, exhibit manager, was called forward. Whiteker said:

"Results this year in our advertising program will exceed any other year's results. The all-West Texas agricultural exhibit at the Philadelphia Sesqui Centennial will be viewed by 100,000 young fellows of the North who won't be satisfied until they see West Texas. As an advertising matter exhibit work is worth \$100,000 more to this organization than any other form we might adopt. Thus far we have only last year's products in our Philadelphia exhibit, but we are going to augment those shortly from our new record-breaking crop.

Railroad officials vied with oil men in numbers at the West Texas Chamber of Commerce convention.

COLORADO BAND

HERE SATURDAY

The Colorado Chamber of Commerce Band from Colorado City, the official Convention Band of the West Texas Chamber of Commerce will make a visit of about one hour in Plainview on Saturday, June 19th according to a letter received by Maury Hopkins, Secretary of the Board of City Development from the Colorado Chamber of Commerce. Although the Colorado people have not yet made a definite schedule as yet, they expect to arrive in Plainview about noon.

According to Mr. W. S. Cooper, Secretary of the Colorado Chamber of Commerce, "the Colorado Band together with our delegation is looking forward with considerable enthusiasm to this opportunity of again visiting Plainview." The Colorado Band was here at the 1922 Convention of the West Texas Chamber of Commerce.

coming in large numbers on the special trains with a half dozen who came in various business cars loaded to capacity.

One of the largest auditoriums of the West Texas Chamber of Commerce convention witnessed an hour's program here Wednesday afternoon by West Texas State Teachers College, Canyon, which went over with the snap and enthusiasm of a gigantic pep meeting. An address by President J. A. Hill, a one-act play, two interpretive dances band music, college yells and mass singing comprised the program.

The fight for the next convention was the big item in the closing day's program. Wichita Falls and San Antonio still are campaigning. But the whole matter rests with Fort Worth and it became known Tuesday night that for the first time the Panther city will cast a vote. It will go for Wichita Falls and probably will eliminate San Antonio.

DR. LAWLIS WRITES ON FACTS FROM HISTORY

Pastor 1st Methodist Church Contributes Article On Biblical Facts

(Contributed by J. F. Lawlis)

The glory of young men is their strength. Bodily vigor gives enthusiasm and energy to onward activity, and makes youth the mightiest potentiality beneath the sun. The deeds which inspire the world from the pages of history were largely wrought out by the young. This is a young man's world, and enthusiasm and energy and new knowledge are the forces that move it. It was the youthful Samson, who became a living terror to the Philistines. It was the youthful David who slew Goliath and brought victory to the armies of Israel. Historic evidence proves the superiority of youth over age in struggle and conquest. The great warriors won the victories that made their names immortal in the days of their youth. Alexander conquered the world and ruled it through personal force and died at the age of 32, he was a great commander at 18, a king at 19, and had conquered every thing in sight at 25. Hannibal dealt his staggering blow upon the Roman world power and brought victory to the armies of Carthage at the age of 30. Mark Antony wrought wonders in Egypt and Syria when he was less than 30. At the age of 27 Charlemagne made himself master over both France and Germany. Charles the 12 was but 17 when he ascended the throne of Sweden, and at 19 he had conquered several nations and won the great battle of Narva. Gustavus Adolphus died at the age of 38, the terror of the Catholic world, having reigned king of Sweden since his 17th year. When Moritz of Saxony, called the founder of Protestant Reformation, died at 32, all Europe acknowledged the loss of the greatest and the profoundest statesman of his age. Cortez was only 30 when he subjugated Mexico and gazed upon the western seas. Nelson was postcaptain at 20, died at 47, the victor of the battles of the Nile, Copenhagen, as well as conqueror of Denmark, France and Spain. Napoleon at 25 was commander of the armies of Italy, at 27 he won his greatest victory, showing himself able to cope with the veteran generals of Europe, and at 30 he was acknowledged as the greatest general and most illustrious lawgiver of his age. Washington was a distinguished colonel at 22, he was Commander in Chief of the American forces at 42 and President at 57.

And as in war so in other things. Moses at an early age was learned in all the wisdom of the Egyptians. King Solomon wrote while a young man and his matchless treatise, the book of Proverbs, "To give prudence to the simple and to the young man knowledge and discretion." The most illustrious achievements of civil prudence point to the supremacy of young men. Charles James Fox was in Parliament at 19. Gladstone was in Parliament at 22, and at 24 was Lord of the Treasury. Lord Bacon graduated at Cambridge at 16 and was called to the bar at 21. Peel was in Parliament at 21. Palmerston was Lord of the Admiralty at 23. Henry Clay was in the Senate at 29, contrary to the constitution. Judge Story was in Harvard at 16 and was in Congress at 29. Judge of the Supreme Court at 32. William Pitt was Chancellor of the Exchequer at 22 and Prime Minister at 24 and at 35 he was the most powerful head in all Europe. Webster was in college at 15, began to show evidences of his great powers at 25 and at 30 he was the peer of the ablest men in Congress. Statesmen don't have to be old. Bryan was a young man when he made his famous political speech and the things which he advocated were afterward enacted into law. Roosevelt was a young man when elected Governor of New York and came to the presidency one of the youngest men who ever filled the position and one of the best. The brilliant Beverage was a young man when

Indigestion

bad spells relieved

NOTHING can take the place of **Dr. J. C. Peck's Black-Draught** when you have never found anything so quick, so mild and so effective," says Mrs. Hugh Nichols, R. F. D. 4, Princeton, Ky.

"When the children have spells of indigestion and upset stomachs, I always administer them out with a dose or two of Black-Draught."

"Several times I have suffered with bad spells of indigestion myself and found I would soon get relief if I took a course of Black-Draught. I was troubled with a bad accumulation of gas and severe pains across my stomach and lower bowels. Now when I feel a spell of this kind coming on, I find it off by taking Black-Draught—we does every night for a few nights will prevent the trouble and save me much pain and suffering."

"My whole family uses Black-Draught for biliousness and constipation. It is a splendid medicine." Sold everywhere. 30 cents.

Tremendous Volume Alone Justifies These Prices

Never before have we been able to bring the consumers price as close to the manufacturer's cost of an automobile tire as we are today. We are saving you from 25 to 35 per cent on every tire you buy.

This is the seventh week of our intensive sales campaign, May and June. Our combined quota for these two months sales for our stores was set at \$544,000.00. This figure is being left way behind, some stores more than doubling their quota. Most tire companies

today are making more than one grade or line of tires, and the quotations you see are usually on their second or third line. The quotations we make are on the Dayton Thorbred Extra Ply Cords—

THE BEST TIRES DAYTON MAKES

and the highest grade automobile tire on the American market today.

There were four tables of players. Frances Dulaney won high score and received a beautiful shoe horn, Virginia Wilkes had low score. A lovely birthday cake with sixteen candles was brought in and served with ice cream. In cutting the cake Nell Harper Greene got the thimble, Mary Belle Brennan the button and Catherine Gilbert the dime. DR. LAWLIS WHITES ON FACTS FROM HISTORY
(Continued from page one)

sent to Congress. Pascal wrote a great book when he was 16 years old. Edison was an inventor when a boy. Newton made his great discovery in the realm of natural science when 25. Watts had the principles of the

steam engine fixed in his mind before he was 20. Dante, Shakespeare, Milton and Goethe all gave evidence of poetical genius when they were young. Really take a list of the great authors whose works abide, and you will be astonished to find that nearly all of them did their work between 20 and 30. Old men will dream dreams, but young men

will see visions. This is why God has used beardless youth to advance his church in the world. Daniel was a young man and defied the kind because he possessed both spirit and strength and vision, all of which must go with a clean life. Nearly all the church's heroes and martyrs have been young men. Our great captain and Master had founded his church and organized a band of young men to carry on the work and died at 33. Martin Luther had started his battle for freedom of political and religious liberty and made himself and his name immortal before he was 29. John Calvin wrote his "Institutes of the Christian Religion" a work still held as authority, before he was 27. James Arminius was acknowledged as a scholar and was a famous lecture on theology at 22. The great religious revival in England was started by a mere hand of school boys, the oldest, John Wesley, being but 27.

But time would not allow us to trace the records of both church and state for the brilliant achievements youth has wrought for the on-growing of the civilization and development of the race. Why is it that the youth make a larger contribution to church and state than does age? Young men really know more about the future because he is near to it. He is more in sympathy with the forces that control it.

The BULL'S EYE

Editor and General Manager **WILL ROGERS**

Meeting the "Bull" Durham Smoker Face to Face

I am just making, as the Politician says, "A swing around the Circle," to see what was going on in "Real America." I had been in New York so long, I was getting a kind of a Subway "Slant" on things. I was becoming as narrow as a Metropolitan Newspaper Editorial Writer. My eyesight was getting so poor I couldn't see beyond the Hudson River, and my mind wouldn't function farther away than Albany, N. Y.

I knew that New York was "amusing the world," but I wanted to meet the fellow who was "feeding it." I am kinder oddly constituted. You can cut off my amusement, but if my food stops you are going to have an argument on your hands.

I, as Editor and Proprietor of the Bull's Eye, wanted to meet not only the readers, but the consumers of THIS Wonderful Product of OURS. (The American Tobacco Company and me.) Well, I wish you could see the type of Men they were. Big fine healthy upstanding He-Men. They were not the little Anemics that has to tap his Cigarette on the box before he can smoke it. They were our Producers of our Necessities of Life. When I saw the type of He-Men smoking "Bull" Durham, it almost made me cry, that I wasn't a smoker myself.

So near is grandureto our dust,
So near is God to man,
Where duty whispers low thou must,
The youth replies, "I can."
Experience is a good guide, but if it has no burning zeal, no holy purpose, it is no more than a sign post by the way side. He who besittles youth shows himself to be ignorant of both the elements which make youth and the achievements youth has wrought, and shows himself to be in a state of decay. The young sing with Longfellow,
Life is real, life is earnest;
And the grave is not its goal,
Dust thou art, to dust returneth,
Was not spoken of the soul."
The poet wrote these lines when he was in the morning of his manhood and they proclaim the solemn awakening to the realities of life.

Striking Uniforms Worn By Official Band At Meeting

AMARILLO, June 21.—Out of the forty-three bands arriving in Amarillo for the Eighth annual convention, West Texas Chamber of Commerce, none are attracting more attention on the streets and in the convention hall than the official band which hails from Colorado, thriving city in Mitchell county. The uniforms were purchased especially for the convention.

The attractiveness of these uniforms, however, is not the main thing to be reckoned with when describing this splendid band. It is well equipped with instruments and as to music—there was never a better one in Texas.

Last Thursday night about 9 o'clock Dr. Ratliff was called to the home of Mr. and Mrs. Jno. Autry, seven miles south of Colorado to again welcome twins a boy and a girl. These four new youngsters are fine and Dr. Ratliff says it a rare occasion to witness the birth of four inside of four hours. The four parents, the four babies and the doctor are all smiles.

NO REASON FOR YOUNG WIVES TO COMPLAIN OF FATIGUE.

The following excerpt is taken from an article by Mrs. Lillian Gilbreth, mother of eleven children and an Industrial Engineer of international reputation, which recently appeared in the New York Sunday World Magazine section:

"Young wives often complain that they are being borne down by a constant burden of fatigue. With all the labor-saving devices on the market there is really no excuse for it. The trouble is that women are not utilizing the things that are made to help them and they are not putting their work on a businesslike system that will give a little time to rest. With laundry prices as cheap as they are now, I consider that doing washing at home is almost as medieval as setting up a spinning-wheel."

THOUSANDS HEAR BAND IN CONCERT AT LUBBOCK
(Continued from page 1)

terest in his talk.

The Colorado Band, which was last year designated the official band of the West Texas Chamber of Commerce, is being directed this year by A. C. Hewitt, head of the well known "Musical Hewitt's" five members of which family are musicians and will be presented here as a feature of the evening program today.

New uniforms have just been provided for the band by the Colorado Chamber of Commerce, and this year as has been the case since the organization of the band, Roy L. Farmer, Colorado's littlest man but biggest booster, will be in uniform and will accompany the band on all parades and attend all concerts given on the trip. Farmer is less than four feet tall, weighs one hundred pounds but nevertheless keeps step with the band members on their parades and will aid them in entertaining the mentrooan rptil-Lumbed o-ltsa's Colorado, according to Rev. Chase, is making much progress at this time, with \$800,000 involved in the erection of buildings actually under construction at this time.

Dallas interests are building a five story brick hotel building that will be completed at a cost of \$400,000, the only demand that was made on Colorado being for the site of the building, which was paid for by the business men and deeded to the hotel company.

A refinery there which has been doing a large volume of business is being equipped to double its capacity, and a number of brick business houses are being erected at this time.

The congregation of the First Christian Church there is to have a modern new church building soon, brick work on the structure to be finished in a few days. The new church will cost \$40,000 when completed, Rev. Chase said.

A high school building is being erected at a cost of \$150,000 to meet the demands of the fast growing scholastic population.

Crop prospects in that section were never more flattering than at this time, Rev. Chase said.

MISS IVES BELLE JONES
Home demonstration agent in Mitchell county, who is meeting with phenomenal success in her diversification work among women and children in rural communities.

CLOTHING CONTEST

One of the most interesting features of home demonstration work among the girls is the clothing contest. In this contest all the girls between the ages of fourteen and twenty, doing 4H club work under the auspices of the county home demonstration agent, are allowed to compete.

This contest consists of two classes as follows:

Class 1. A school costume and accessories.

Class 2. A party costume and accessories.

One special feature of the contest, is that the contestant must write an article on "The Well Dressed Girl" and a history of her costume work, in which she includes an itemized account of her expenditures and sketches of the costume.

The winner in this goes to the short course at A. & M. College from Aug. 2 to Aug. 7, where she competes in the state contest.

The contest this year is to be at the American Legion Hut Friday, June 25 at three o'clock the public is urged to attend.

Mrs. Dora R. Barnes, state clothing specialist will do the judging.

A card from Mr. and Mrs. A. L. Whipkey on their way to California says:

"Flag Staff, Arizona, June 17, Got here this evening. Have seen everything on the map. Just got in from Cliff Dwellings. Go up to the Grand Canyon tomorrow. Will take all day. All well. No car trouble, but one puncture. We expect to get to Oxnard, California, Monday afternoon."

IT CAN RAIN

Not many times does a rain of such magnitude as fell in Colorado Friday visits this part of the world, but when it does arrive it arrives with both feet and a panting.

The rain washed up many acres of crops and did considerable damage. It is a pity we did not have visiting us a few thousand of the people who doubt West Texas' ability to get rain.

It can rain in West Texas, no mistake about that. And the rainfall for this year is around fifteen inches.

THE BAPTIST REVIVAL CLOSES SUNDAY NIGHT

Dr. McConnell closed his series of several services at the Union Tabernacle Sunday night with a splendid audience to hear his last message. He spoke feelingly of saying goodbye expressed his joy in the fellowship of Bro. Bishop, and the delightful entertainment he had enjoyed in the home assigned. Said if he ever came back to Colorado he would like to be sent to the same place and the singer, Mr. Hiett, said "me too." Dr. McConnell explained that he was compelled to leave on the night train to be present at the opening of an assembly in North Texas Tuesday, of which he was president.

His text was from the tenth verse of the eighth chapter of Exodus, "Tomorrow" he showed the inclination of every one to put off important decisions, the ease with which we acquire the "Manana" habit, the danger of failing to accept salvation now. He said now was the only time mentioned in the scriptures, closed with a strong appeal to the unconverted to accept the Savior vining and spiritual. The years now. His preaching was clear, convincing and mellowed him, but he has lost none of his vigor, none of his desire to help the sinner, nor faith in the power of the Gospel.

His preaching has built up and strengthened the church and made better Christians of all who heard him. Thirty gave their names for church membership during the two weeks, and these were given the hand of Christian fellowship Sunday night. Eight were baptized at the close of the service at the church.

The U. D. C.'s met with Mrs. C. L. Root. The president, Mrs. Gary, presiding. All business for the summer was completed and the chapter adjourned until September when the annual election of officers will be held. Mrs. Gary gave a very interesting account of the recent reunion in Birmingham, stating that three thousand veterans were present. Mrs. Thomas a guest from Arkadelphia, Ark., told of the work of her chapter and gave some very fine ideas for carrying on the work. Mrs. Millmoe conducted the lesson upon the siege and fall of Vicksburg. Mr. Carlock who was in the battle around Vicksburg told some thrilling stories of his adventures. The amazing thing was his recollections of every detail and his wonderfully accurate account of how things happened. Mr. Carlock's talk was the best part of the lesson. The hostess and her daughter, Julia Hay served ice cream angel cake and candies.

Christian Missionary Women's Visiting Day The Christian ladies met at the parsonage Monday afternoon and spent the time visiting new people, the sick and shut-ins. This is a regular feature of their work each month and is one that brings more joy and more visible results than anything they do. In this way they come in personal touch with those unable to get out, with the sad and lonely and the stranger and thus have a chance to make new friends for themselves and their work. Methodist Missionary Meetings The Adult Study Class met Monday at the church and completed their study of From Over the Border. Mrs. Merritt taught the lesson. The Bible Study, Life as a Stewardship was postponed as the leader was absent. It was decided to take up the Bible study in September and finish it before the beginning of the fall study on foreign missions. The Missionary Auxiliary met with Mrs. D. M. Merritt. The lesson was from the voice program Mrs. Thompson told of the District Meeting at Westbrook Thursday. At the social hour the hostess served wafers and ice cream. The meeting next week is with Mrs. Lucia Madden. Presbyterian Missionary Society Mrs. Van Tuyl was hostess to the Presbyterian ladies Monday. The lesson was on foreign Missions in the general field. At the close of the lesson Mrs. Durwe served a delicious refreshment course consisting of sandwiches, tea, fruit gelatin and cake to the largest number who have been out in a long time. Episcopal Tea Mrs. S. T. Shropshire who is leaving for the summer entertained Thursday with a church tea. An unusually large number were out and a most pleasant afternoon spent. White and brown bread sandwiches, ripe olives and iced tea was served. A silver offering for missions was made. Mrs. Shropshire will be away for several months visiting relatives and summering in California. MISS ARA CAMPBELL DIES Miss Ara Campbell of Saneo died very suddenly at the home of her aged father and mother Friday. She was the sister of Dan Campbell, a stockholder in the City Bank and an old time cow man well known to the old settlers of Colorado. Mr. and Mrs. F. E. McKeire and Mr. and Mrs. Ross Dixon were notified of Miss Campbell's death and went over Saturday for the funeral. Miss Campbell had seemed in her usual health and the shock of her sudden going was very hard on the father and mother, both of whom are quite feeble, the father being almost ninety years of age. Miss Ara was the only child left at home and without her they are lost, but the hope of a reunion where partings never come is a sustaining and comforting thought. Her body was placed at rest under a mound of flowers in the Saneo country cemetery. The sorrowing one would offer our sympathy and say, "To live in hearts we leave behind is not to die. RECORD PRINTING PLANT TURNS OUR LARGE ORDERS

Books, Stationery, Blanks, Delivered to Customers Far and Near.

Whipkey Printing Co., publishers of the Colorado Record, is one of the many concerns in this city that are helping to make Colorado the queen city of West Texas. Its growth from a small country printery in the space of twenty-one years to the busiest and best equipped printing plant of perhaps any town to equal size in Texas, its typical growth of the city in which it functions.

This is said not in a spirit of boasting spirit but is given as an item of news and a statement of facts.

For instance the Whipkey establishment has just finished large orders for high class job printing from far and near, such as a 100 page cook book for Plainview, a 120 page cook book for the Colorado Baptist ladies, a run of several thousand letter heads for a Big Spring firm, and so forth. It now has on the press a 32 page book for Rev. J. D. Harvey, of Colorado, who is the author of a series of lessons on the Bible to be used in Sunday school work.

Other orders completed are 100,000 check blanks for the Colorado Bank and 100,000 check blanks for the City Bank, also a large number of ripple finished letter heads for the First State Bank of Loraine, of which T. J. Coffee is president, John T. Coffee, vice president; C. C. Coffee, cashier; and E. D. Richardson, assistant cashier. The First State Bank, by the way, has the reputation of being the best bank in West Texas of any town equal in size to Loraine.

There is also ready for the press a large catalog for the Central Nazarene College of Hanlin, Texas. The Whipkey company has printed catalogs for this college for a number of years and the faculty has invariably expressed pleasure over the work. The present catalog is tasteful, elaborate and nicely illustrated and is a credit to the school.

Last but not least this shop has recently completed a number of club year books and specialty programs that can not be exceeded by printing establishments in cities much larger than Colorado. The same can be said of the printing we constantly do, and for which we receive orders from all over the west.

Mesdames G. A. Hutchins and B. L. Templeton of Loraine were Colorado visitors Monday.

Mrs. B. F. Dulaney of Colorado spent Tuesday in Loraine visiting her daughter, Mrs. Fred Brown.

FORD PRICES ARE REDUCED FIFTEEN TO FORTY DOLLARS

Reductions in the prices of all standard models of Ford automobiles ranging from fifteen to forty dollars are announced today by the Fulwiler Motor company.

The largest reduction is on the 4-door sedan which was dropped from \$590 to \$545. Other reductions are: Roadsters, \$360 formerly \$400; touring, \$380, was \$420; coupe, \$485 was \$500; two door sedan, \$495, was \$520; one-ton truck \$325, was \$365.

Some three weeks ago Mr. and Mrs. J. B. Salyer from Taylor stopped over here a few days on their way to California and this week the Record received a letter from them which we use in part:

"Just let you know where we wanderers are. This is the most wonderful place I ever saw. It is 6436 feet elevation, we came up for 33 miles, and then suddenly we came into this camp on the top of this mountain. One of the high Sierra ranges, surrounding us are mountains covered with snow and it is so cold here we have to wear our heavy winter coats. The grounds are covered with giant red wood and pine trees. There is one tree named Jon Sherman, one Roosevelt, one Grant and one dedicated to the American Legion. The sun hardly shines through they are so close together. There is the finest class of people here I ever came in contact with in a public place. The wild animals and birds know us. Deer, elk and bear come into camp. They have a certain place where the garbage is emptied. We go over there late in the afternoon to watch the bear come out of the woods and feed. People are just coming in every day, leave the latter part of August on account of the cold. The snow is 16 feet high all over the ground in winter and the cabins are buried. We got a cabin with everything furnished, even stove and dishes for \$3.00 a day. I guess we will leave tomorrow.

McCRELESS ON THE RUN

Items for the Record while on the run. I am still in South Carolina wondering about to and fro learning what I learn, feeling I feel, seeing what I see and knowing what I know. The drouth here is somewhat broken by partial showers in some parts while extremely dry in others. Crop prospects gloomy. Yesterday I attended church at Stephens Creek, it being the first church house that I ever was much acquainted with and where my Father's and Mother's membership was during their life time, imagine my feelings when I gazed upon the old land mark and when I passed thru the cemetery, reading epitaph on marble and granite of childhood playmates and acquaintances. Yes I went down to the old rock wall spring where I drank from when a little tot and I freely drank of the good cool water. Since my last write up I visited the old home place where my father died in February 1862, on the premises there is still standing and in use two lot gates that he, my father made with his own hands before he died. For further information see or ask J. M. Dorn. I have also visited the cemetery where lyeth the remains of J. M. Dorn, father and mother and many other relatives and friends of him and me. Last Sunday I wended my way over the rocky noles and through the dense forest to see some of my kindred. I will mention some of the many growth along the way. The white oak and red oak, the Black Jack, the Dogwood, the Sweetgum, the Ash, the Hickory, The Mulberry,

hte Pine, the Black Haw, the Red Haw, the Persimon and other shrubbery. Now please excuse me for not mentioning others that I can't think of and charge same to the forgetful man. This evening I expect to go to Edgefield, where I hope to find the Record and other mail. I may finish this tomorrow or some other time.

Four days later. I'll write a little more and quit until next week. I got to Edgefield alright and have visited many of my old friends and acquaintances and have made many new acquaintances all of which I am proud. I have visited Graniteville, one of the oldest cotton mill centers known to this country. Yes a couple of days ago I stood about midway the bridge over the Savannah River and gazed at the tripling water just as it was in my boyhood days. I looked and saw the great city of Augusta, Georgia, but never trod upon its streets as I once did. The extreme drouth here has been broken by partial showers but a large portion here is still suffering for rain. Today I sat in the old Court House of my childhood and the only Court House I ever knew anything about and listened to a few gubernatorial talks but don't know what any of them said, on account of my hearing being so impaired. I am still well and feeling fine. Have had one copy of the Record which made me glad.

Red Bluff Irrigation Project Near Pecos is Authorized

WASHINGTON, June—President Coolidge Friday signed the Red Bluff Dam Bill authorizing expenditure of not more than \$2,000,000 from the reclamation fund for construction of an irrigation dam across the Pecos River near the New Mexico-Texas line.

The new law stipulates that the Secretary of Interior must first determine that the project is physically feasible. This provision was incorporated into the act as preliminary investigations had indicated difficulties might be found in obtaining a suitable foundation for such a structure.

If built, the structure is expected to be approximately 200 feet high and will impound enough water to irrigate 40,000 acres of land all lying in Texas.

Senator Shepherd and Representative Hudspeth are to confer with Secretary Work, and hope to see work started on this project this Fall.

DAN MOODY'S WAR RECORD CLEAN, ACCORDING MEMBERS OF LEGION

ABE HARRISON POST, AMERICAN LEGION DENIES ACCURACY OF J. E. FERGUSON'S ATTACK UPON MOODY.

In Resolution Ex-Service Men State Moody Entered Service Voluntarily; Asked Deferred Classification Be Set Aside.

TEXT OF RESOLUTION

WHEREAS, it appears from certain published reports of a political speech that unwarranted attacks are being made upon the war record of Dan Moody, an honorable and respected member of this Post; and

WHEREAS, the records of this Post reveal the fact that Mr. Moody has been an active member of the Abe Harrison Post No. 174, American Legion, for five years, maintaining regular membership and good standing during that period; and

WHEREAS, information from the United States War Department through Adjutant General Davis reads as follows:

"Correspondence on file shows Moody desired admission of Officer's Training School at Camp McArthur in May, 1918, but permission was denied because date for filing application for admission had passed. On Sept. 4, 1918, he was offered individual induction into Central Officers training School, Camp Pike, which offer he accepted. It was entirely optional with him whether he accepted or declined this offer. Under selective service regulations, a registrant in deferred classification was required to waive such classifications prior to individual induction. Records show Moody was first classified by local board in 3-B (man with dependent, aged or infirm parents), a deferred classification, and reclassified on Sept. 8, 1918, in 1-A (Single man without dependent relatives, a non-deferred classification. He was inducted into military service Sept. 8, and forwarded to Camp Pike, where accepted for service Sept. 11, 1918. While no written request for individual induction has been found on file, such offers individual inductions were based upon requests for such induction and were purely voluntary."

WHEREAS, the authority quoted sustains our conviction, based upon facts of record, that Mr. Moody, of

(Advertisement—Contributed

his own volition, waived deferred classification under the selective draft regulations, to which he was justly entitled, and applied for individual induction, which application was granted, and entered voluntarily the service of the United States Army; and

WHEREAS, the publicity given to these attacks and the misrepresentations of facts of record might create in the minds of the people of this State a misconception of such record.

THEFORE, BE IT RESOLVED: That the Abe Harrison Post, No. 174, American Legion, assembled in regular meeting Tuesday, May 23, 1926, at Georgetown, Texas, express their confidence in Comrade Moody and assert without reservation that his record as a private and officer in the United States Army, is satisfactory to his Comrades in the Legion;

BE IT FURTHER RESOLVED, That we deprecate the unwarranted attacks heretofore referred to and express our regret that the record of our Comrade is questioned.

BE IT FINALLY RESOLVED AND EXPRESSLY UNDERSTOOD, That in taking such action, in condemning such attacks as unwarranted and unfair, this Post makes no commitment in the political campaign in which Comrade Moody happens to be engaged, but that this expression of confidence be directed to Mr. Moody as a Comrade and fellow Legionnaire irrespective of political issues and public questions.

Resolution Committee:
H. L. Egger,
Sam V. Stone,
W. M. Schultz,
O. A. Ulrich,
C. A. Undelius.

UNANIMOUSLY passed by the Abe Harrison Post, Number 174, American Legion, Tuesday, May 25, 1926.

WHAT'S DOING IN WEST TEXAS.

WASHINGTON.—The West Texas Chamber of Commerce through H. M. Eaton, their Washington representative, has intervened in the hearing regarding the control of the Thurbria weevil of Arizona. This weevil a dry land insect, is even more destructive to cotton in dry uplands such as West Texas than the Mexican boll weevil has proven in more humid sections. The U. S. Department of Agriculture has framed a rigid system of regulatory measures similar to those employed to combat the pink boll worm and a quarantine of Arizona cotton is contemplated unless the pest has been brought under control.

STAMFORD.—Reduced passenger rates have been granted by the Rock Island, Santa Fe, T. P. M. K. T., and the Denver roads on labor moving into West Texas during the harvest season. Fare of two thirds the regular one way rate have been granted by these roads on parties of twenty-five or more moving into the grain belt of West Texas. These rates are now in effect and will continue until July 17th.

CHILLICOTHE.—A great July 4 Celebration will be held here. The celebration is sponsored by the American Legion and is supported by the Chillicothe Development Club. Fire works and other entertainments are to be provided.

RANGER.—The old Ranger Refining plant here has been rehabilitated and will be re-operated by the Petroleum Products Corporation of Pittsburg, Pa. These people are considering the establishment of a mineral rubber factory here in connection with the refinery.

CISCO.—R. Q. Lee, president of the West Texas Chamber of Commerce has returned to his home following the completion of his campaign through the Heart of Texas district in behalf of his program of diversified and intensive farming.

HAMILTON.—Hamilton Chamber of Commerce has reorganized after a period of inactivity and has elected

Chas. McMorte as secretary. E. H. Whitehead publicity manager of the West Texas Chamber of Commerce was principal speaker at the regular banquet of the Chamber of Commerce held this month.

SAN SABA.—The greatest oat crop in the history of this region is now being threshed. Fields of more than one hundred bushels per acre are common and the average is nearly eighty bushels per acre.

CROSS PLAINS.—Fifteen thousand dollars has been appropriated by the State highway commission for the purpose of improving the corner of State highway No. 23 through this county. This gap is the only weak link in the chain from San Angelo to Ft. Worth via the Bankhead Highway.

Panhandle Oil Field Praised President of Standard Oil

AMARILLO, June—The Panhandle oil field has not progressed to the point that its full limitations and possibilities can be foretold, but one thing is certain—it is a great field and Amarillo will be on the oil map of the world for many years to come.

Thus did Walter C. Teagle, president of the Standard Oil Company of New Jersey, summarize his impressions after his first inspection trip over the Panhandle territory.

Chester Thomas is quitting the Judgeship and gone to raising onions. This week he brought to the Record office 3 as large specimens in the way of white Bermuda onions we have yet seen. We have forgotten, but think Judg Thomas said he had 16 acres and this sample was an average.

What Is a Good Provider?

A good provider looks beyond comforts of today to the provision of tomorrow.

The birds and the bees; the beasts of the fields—all nature has thought of coming needs—yet man, alone, the greatest of all the living things—cultured, able, educated, and alive to Earth's demands—often fails to make provision for the years to come.

What are you doing for the future twenty years from today? A good provider does not overlook the importance of a strong bank account. If you are not already identified with this bank, we invite your account here.

CREDIT WHEN AND WHERE YOU NEED IT

"He who loses credit, what has he left that can avail him?"—Publius Cyrus.

Keep your credit record good and you will always have credit when and where you need it. Move to distant points, travel in strange places and your credit record follows you—for good credit at home means good credit abroad.

Faith in you—in your integrity—in your honesty of purpose is a basis upon which credit was originally extended to you. A high credit rating is based, not so much upon the wealth you possess as how much you respect the faith reposed in you. Good intentions, as valuable as they are, cannot build good credit. Only by religiously living up to every agreement, discharging every obligation when due, is credit established—and only in that way can it be maintained.

Pay your bills promptly and keep your credit good. All accounts due on or before the Tenth of Month.

Ford Highest in Quality

The quality of a motor car is largely determined by the materials out of which it is built.

Take, for instance, steel—which comprise the major portion of the materials used in automotive manufacturing today. No automobile can have more durable or more satisfactory steels than you get in a Ford.

The upholstery used in Ford closed cars contains a much larger percentage of wool than is ordinarily specified. Genuine polished plate glass is used for Ford windows and windshields.

The story is the same for every item of material used in Ford manufacture. It is logical that such extreme care in the selection of materials should result in a car that is without an equal when it comes to enduring service.

Lowest in Price

Conditions that are unique in the automotive industry make Ford prices possible.

Every manufacturing operation is under direct control of the Ford Motor Company. Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Ford glass plants produce the glass for windshields and windows; wood comes from Ford timber tracts. Raw materials and finished products are carried over Ford-owned transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization.

Under any other circumstances, Ford cars would cost a great deal more than they do.

The district meeting of the Woman's Missionary Society was held in Westbrook Thursday June 17th. The program began at 10 o'clock and lasted till 4 and was held at the school auditorium. Dinner was served in the hall and my! all the good things that were there to eat.

We did not have the crowd that we usually have at these meetings but the program was splendid and we feel that we were well repaid for our efforts in bringing this meeting to our town.

One of the most successful social events in the history of Westbrook was the banquet at the school house last Friday night, which came as the result of a contest between the men's and women's adult Sunday school classes of the First Baptist church. Places were laid for seventy-five guests, besides a number of children who were all seated together at one end of the banquet table. The honor guests were Mr. and Mrs. Pool, Mr. and Mrs. Petty, Mrs. Cope, Mr. and Mrs. J. W. Bird, and Mr. and Mrs. Van Boston. The decoration consisted of a continuous wreath of mesquite sprays and yellow daisies placed in scallops around each plate, and a little bouquet of yellow daisies at each point. Sunflowers in profusion floating in cut-glass bowls, were placed at intervals along the center of the table. Mrs. King gave a welcome address to the winning class and Brother Summers responded in behalf of the men's class. Brother Pool told of his first Sunday school, and Mrs. Cope told of her first Sunday school in Texas. Mrs. H. M. Berry gave a very interesting address on the growth of the Westbrook Baptist Sunday school from its beginning. Mrs. Summers gave a talk about her class. A number of jokes which were passed the guests to be read caused much merriment, but most thrilling of all were the old plantation and religious melodies with which the whole crowd made the air ring. The menu which was a five course dinner consisted of fruit cocktail, egg and tomato entree, chicken, dressing, peas, potatoes, gravy, waldorf salad, ice cream and cake. Credit for the success of this affair is due Mrs. G. C. Wildman, who managed, and the loyal members of the T. E. L. class, who so faithfully and diligently worked to prepare for this most enjoyable event. The guests all left the table reluctantly. They enjoyed this home coming to the utmost, and the men and women challenged each other for another contest.
