## FINANCIAL SUCCESS IS SURE TO FOLLOW DAIRY COW, DILLINGHAM SAYS

### Prominent West Texan Is Enthused Over New Farm Project

"Give me one of your membership pledges. I want to join this chamber of commerce and want to do it because I am interested in your project to develop the dairy business in this county," said O. D. Dillingham of Abilene, prominent West Texas banker, financier and business man, as he entered office of the Colorado chamber of commerce Wednesday morning.

Dillingham, senior member of the D. & A. Corporation, owning plants at Abilene, Breckenridge, Colorado, and a number of other West Texas cities, declares that there could possibly be nothing of such vital importance to general prosperity as the success of the program to bring 100 pedigreed dairy cows into this county. He paid high tribute to Colorado bankers and others who have entered into this program with determined interest.

"Look at Winters," he said. "I refer to Winters because it is a neighbor city of Colorado and about the same size. My company alone is spending more than \$1000 in cash every week in checks issued to farmers of that territory for cream, and there are three other cream stations in operation there. Such a record is to be claimed by any other community in which the people have gone into the dairy business on business principles. My company is paying out more than \$1,100 per week for cream at our station in Snyder."

"I was in Winters a few days ago and one of the bankers there informed me that deposits, carried to credit of the farmers of that section, were considerably larger than a year ago, when the dairy cow first came to be recognized there, and that loans to these same patrons are less than 50 per cent of the amount reported a year ago."

"I certainly wish to congratulate you in your program. You are on the right track and if you carry this dairy program out successfully, Colorado and Mitchell county will enter a period of prosperity not now anticipated," Dillingham stated in conclusion.

Dillingham spent several hours here Wednesday with his business associate, O. L. Alexander of Breckenridge. He left during the day for Big Spring, promising to return Friday and visit the Lions club.

## COL-TEX REFINING CO. ADDS 85-ACRE TRACT TO TANK FARM AREA

### New 55,000 Barrel Tank Now Under Construction By Corporation

Purchase of 85 acres adjoining properties of the Col-Tex Refining Company in West Colorado is announced by George H. Burruss, resident manager. The land was bought from A. A. Dorn at a price of \$75 per acre.

Announcement is made that the corporation acquired the additional holdings as site for storage tanks to be erected in the future, as development of the plant is authorized. The land lies on the hill southwest of Colorado.

The corporation has a 55,000 barrel capacity storage tank under construction at present.

## NEW HOPE FARMS BEING TERRACED THIS YEAR

Many farms in New Hope community are being terraced this season. In the past two weeks R. M. Jones, Sebe Jones, Tom Jackson, E. C. Grant have terraced their farms. W. G. Sweet and G. W. Sweet who terraced part of their farms last year, have purchased a level and will run more lines this season, as will A. A. Daniels and C. N. Adams. Mr. Murphy is also planning to run lines on his farm this year.

## MRS. H. B. BROADDUS IS UNABLE TO ATTEND AUSTIN BOARD MEET

### ILLNESS ALSO CAUSES CLUB WOMEN'S VISIT TO BE POSTPONED

Mrs. H. B. Broaddus has been confined to her bed for the past two weeks and will probably be kept so for some time to come, recovering from after effects of a case of influenza of which she was a victim about a month ago.

Her enforced rest has prevented her attending the Texas Federation board meeting in Austin this week, and will also keep her from the educational conference which is to be held in Austin in connection with the meeting.

The visit which Mrs. W. R. Packer, president of the Texas Federation of Women's clubs, and Mrs. R. Q. Lee, State parliamentarian and member of the General Federation board, were to have paid Mrs. Broaddus in the near future, has been necessarily postponed because of Mrs. Broaddus' illness.

## Grammar School Pupils Given Standard Test

The intelligence of pupils in the grammar school of Colorado public school can be compared with that of children in far-removed parts of the nation when the results of the Stanford Achievement Test, which was given the pupils of the Hutchinson school Tuesday afternoon, are determined.

The test is a standard one which has been given all over the United States to pupils of the fourth, fifth, sixth and seventh grades. Its purpose is to measure the intelligence of a child and determine his educational progress.

Results of the test will be determined by the late part of the week, by which time the teachers will have finished grading the papers.

## Blythe Elected As Supt. of Loraine Schools 6th Year

H. E. Blythe, superintendent of the Loraine school for the past five years, has been re-elected to that position for another year by the school board there.

Mr. Blythe is given credit for having developed the Loraine school in a most substantial way during the years he had directed policies of the institution. The school is now classified as a high school of the first class, doing 19 1/2 units of affiliated work.

Every member of the Loraine high school faculty is a college-trained teacher according to the Loraine Leader. Annually Loraine sends a large number of high school graduates to the various colleges and universities of the country.

## INITIATION TO BE HELD AT EASTERN STAR CALLED MEET

### STATE OFFICER ALSO TO PAY OFFICIAL VISIT HERE THURSDAY NIGHT

Five candidates are to be initiated and the State officer is to pay her annual visit when the local order of the Eastern Star holds a called meeting tonight (Thursday) at 7:30.

Mrs. Florence Reed of Coahoma, assistant deputy worthy grand matron, is to be present at the meeting, paying her annual and official visit to this chapter.

The five who are to be initiated are: Mrs. George Rinear, Mrs. J. M. Thompson, Mrs. Iva White, Mrs. Ava White, and Mrs. Johnny Chesney.

## FORMER SNYDER BUSINESS MAN LOCATES IN CITY

L. R. Palen, recently of Snyder, has moved to Colorado and established a business at 291 East Third street, it was announced Wednesday by the chamber of commerce.

## FARMERS ADVISED TO TEST SOIL BEFORE BUYING PECAN TREES

### County Agent Says Some Soils of County Are Suited, Some Not

In the opinion of County Agent W. S. Foster, Mitchell county farmers should investigate the possibilities of growing pecans in the county before investing heavily in pecan trees. Mr. Foster says by all means, men having rich soil and good subsoil moisture should try a few trees, but in a number of cases in the county there are other factors which make satisfactory growth, dying back to the old wood each summer. It is not known just what is the cause of this trouble.

"Some think it is the water, while others attribute it to unsuitable streaks or soil deficiency. However, the splendid growth of trees at the Laney grove and on the J. D. Laney ranch would indicate that the soil was all right and that the trouble might be poor stock, or lack of moisture."

C. H. Thomas of Loraine is planning to test out the lack of moisture theory by digging holes or setting pipes near the trees so that water may go to the roots. He says some soils tend to soak and prevent the water from reaching the roots.

Mr. Foster suggests that those who are planning to buy budded or grafted pecan trees, buy Western varieties such as Halbert, Texas Prolific or Bartlett, as these varieties originated in West Texas and are much better suited to this territory.

## Carlsbad Trip Planned For At Teachers Meet

An interesting program was had and a committee appointed to look into ways and means for a trip to Carlsbad, Casper, sometime in the spring when the Mitchell County Rural Teachers' association held its regular monthly meeting last Friday night at the county courthouse.

Refreshments were served by the teachers from Looney, who are Mr. and Mrs. C. M. Darnell and Miss Charlie Ritchie. The next meeting is to be with Chester C. Moore at Rogers.

## GIRL CAGERS DEFEAT SNYDER BOYS' TEAM BEATEN BY VISITORS

### Colorado Girls Play Best Game of Season So Far

Girl cagers of Colorado High School showed their mettle Tuesday night when they played about the best game of their season so far to defeat the Snyder girls to a score of 14-17. The Colorado team held the upper hand throughout the game. An especially good game was played by the forwards.

Starting line-up was as follows: Kirby and Bedford, forwards; Mosley and Garner, guards; Hubbard and Galey, centers. Practically all the second team was in for the last quarter.

The Colorado boys' team couldn't get going. There was good passing, but no one could ring goals. Feaster, star forward, was out of the game on account of a sprained ankle.

Line-up: Porter, and Rice, guards; Grizzell, center; Smith and Comer, forwards; Tate and Bohannon, substitutes as forwards.

## C. C. BOARD MEMBERS REMINDED OF MEETING

Attention is called to the executive board meeting of the Colorado chamber of commerce at the usual place at 6:30 p. m., on Tuesday, February 5, by Dr. P. C. Coleman, president of the chamber. All board members are urged to be present.

## 'ON THE LEVEL'—THAT'S MITCHELL FARMERS FOR YOU

### This is "on the level."

Hugh Hallmark of Loraine, E. H. Wain, T. C. Richardson, R. L. Wulfein, and Rogers & McWhittor of Colorado, and W. G. Sweet of Westbrook purchased farm levels last week and will use them on a terracing land. This makes a total of 33 levels owned by Mitchell county farmers and there are probably others who have not reported having bought levels.

The men who have levels now are D. D. Hays, R. E. Bennett, B. L. Wulfein, T. J. Riden, E. H. Wain, C. C. Hooker, T. L. McKenney, J. W. Gross, W. A. Dulin, H. L. Baker, E. E. Goodlett, J. W. McGuire, M. E. McGuire, Chamber of Commerce, Mitchell County, C. E. Green, L. J. Tillison, W. D. McCarty, August Hackfeld, J. W. Riehnberg, Harry Heman, E. P. Roney, Hugh Hallmark, T. C. Richardson, J. L. Boyer, and the following schools: Rogers, Lane Star, Valley View, and Spade.

## 2800 MOTOR VEHICLES REGISTERED FOR 1929 PRIOR TO JANUARY 30

### Tax Collectors Record Shows Increase of 450 Over 1928

Registration of motor vehicles for 1929 had passed the 2,800 mark Wednesday morning, according to a report given at the tax collector's office. The registration showed an increase of 450 over the same period a year ago.

Sheriff Gregory announced several days ago that his department would begin enforcement of statute requiring all motor vehicles to be registered prior to January 1.

## Oklahoma Youth Is Victimized By Gang Who Pose As Special Federal Officers

Two men, giving the names of Hayden Hale and Luther Johnson of Kansas, are being held in the Mitchell county jail here today, facing charges of robbery with fire arms and impersonating an officer. The men were arrested Thursday morning near Big Spring on advices furnished by Homer Key, night patrolman at Colorado.

Posing as special federal officers, the men are claimed to have held up Jimmie Jefferson of Ft. Cobb, Oklahoma, on West Point avenue at 2 o'clock Thursday morning and robbed the youth of \$14.00 in cash and a watch.

After relieving their victim of his valuable, the bandits ordered Jefferson to proceed east, adding, "We will search your car at the next town." Driving a few hundred yards toward the cemetery, Jefferson noticed that the bandit car had stopped and turned around. He immediately turned out his car lights and turned to follow the bandit machine. He obtained number of the car and reported the robbery to Patrolman Key.

"There were three of them in the car when they stopped me," Jefferson said in discussing the affair with officers here Thursday morning. "The big fellow, Hale, showed me a sheriff's badge and stuck an automatic in my ribs, informing me I was under arrest. They then proceeded to go through my pockets, taking my money and watch. After this I was directed to proceed east along the highway, the 'officers' following."

Jefferson became suspicious that the highwaymen were not officers, as they rifled his pockets, and this suspicion became more pronounced when he noticed they turned about in the highway and headed back toward Colorado.

Officers arresting the two met failed to find the watch. The money, however, as described by the victim, was recovered. The third man, said by Jefferson to have been in the bandit car, was not apprehended. The two arrested and returned here have

## REBEKAHS AND ODD FELLOWS INSTALL OFFICERS JOINTLY

### Local Orders Held Meeting Together Thursday Night

Joint installation of officers for the coming year was held by the local orders of Rebekahs and Odd Fellows last Thursday night.

The following officers were installed by the Rebekahs, of which Mrs. John R. Baze is past noble grand; Ruth Williams, noble grand; Arline Tunnell, vice grand; John Williams, secretary; Mrs. Luke Wilson, treasurer; Mrs. Jessie Williams, representative; Mrs. John R. Baze, alternate representative; Gramp Williams, right supporter of noble grand; Mrs. Nellie Delaney, left supporter of noble grand; Mrs. Mary Lindley, right supporter of vice grand; Mrs. Katie Doss, left supporter of vice grand; Joe Key, inside guardian; Linnie Hammonds, outside guardian; Jewell McDonald, warden; Eloise Pond, conductor; Dollie Donnell, chaplain.

The Odd Fellows, of which J. M. Doss is past noble grand, installed the following officers: J. G. Grissom, noble grand; J. S. Williams, vice grand; Hulet Williams, secretary; F. M. Burns, treasurer; W. L. Doss, Jr., representative.

The appointive officers are: Monday night in the regular meeting of the Rebekahs, Miss Charlie Ritchie and Miss Kate Bean were initiated into the order. Next Monday night at 7:30 the Rebekah degree staff is to meet for practice, and everyone on it is urged to be present.

## MR. AND MRS. R. M. HALL OF SNYDER TO LIVE HERE

Mr. and Mrs. R. M. Hall, formerly of Snyder, have moved to Colorado to make their home, now being located in the Jim Ferguson apartments on Sixth street.

Mrs. Hall is representative for the Kansas City Life Insurance Co. He expresses himself as having never been better pleased with any location than he is with his present one.

## U. S. ENGINEER WILL SHOW PICTURES HERE

R. W. Burchard of Washington, D. C., engineer representing the U. S. Geological Department, addressed the Lions Club Friday, giving some interesting information relative to the Grand Canyon and the Boulder Dam site.

Mr. Burchard announced that he had some interesting motion pictures of those places which he promised to bring to Colorado when convenient and show for the entertainment and educational features they would impart.

The engineers arrived recently from Washington to spend a visit with his family at the home of her parents, Dr. and Mrs. P. C. Coleman.

## DEATH CLAIMED MRS. DEE THORP ON LAST MONDAY

### DECEASED IS BETTER KNOWN HERE BY MAIDEN NAME OF GRACE SNOW

Death claimed Mrs. Dee Thorp, better known in Colorado by her maiden name, Grace Snow, Monday afternoon, after a prolonged illness.

Mrs. Thorp was 23 years of age. A native Texan, having been born in Merkel, Texas, she lived in Texas all her life. For the past year she had made her home in Colorado with her parents, Mr. and Mrs. D. E. Snow, while her husband worked in California.

Besides her husband and parents, she is survived by two little daughters, Joe Nell and Jackie; a sister, Mrs. Evadene Patten of Brownfield; and a brother, Grady, also of Brownfield.

Funeral services are being held Thursday afternoon, and interment is to be in I. O. O. F. cemetery.

## Twenty Enrolled In Vocational School Classes This Week

That the business men of Colorado are taking an active interest in the organization of a Vocational Commercial class was evidenced by the large number present on Monday when a class of twenty members was enrolled by Miss Octavine Cooper, who arrived last week to take charge of the commercial department of the Colorado High School.

Miss Cooper is an instructor of unusual training and ability. She has been the head of the commercial department of the Donna High School for the past five years, and had the distinction of introducing vocational commercial work in the Rio Grande Valley and carrying it on with remarkable success.

The vocational, or part-time, commercial classes will be conducted at the high school on each school day, from 1 to 3 p. m. These classes are open to men and women who are employed and who are permitted to use time from their working hours for this instruction. This is in accordance with the plan and requirements of the State Board for Vocational Education. The subject offered are typing, shorthand, bookkeeping, commercial English, and commercial law.

The following have enrolled for one or more of these courses: Misses Lila McCurry, Helen Hamer, Mattie Dorn, Lona Lipps, Violet Meester, Eula Gross, Ruth Edwards, Bertha Duke, Margaret Stoneham; Mrs. Lois Prude Bennett, Mrs. Mayne Taylor, Mrs. Haney; Messrs. Elliott Dixon, Sol Robinson, A. J. Herrington, J. Ralph Lee, Earl Hammond, Farris Lipps, A. J. Haines, and Levinson.

## Hyman Farmers Making Plans To Purchase Cows

I. Smallwood of Hyman has made a survey of the community and finds that a number of men there are planning to purchase dairy cows as soon as they can be located. In the first shipment they expect to buy at least 38 cows and as soon as possible they hope to organize a bull circle.

Mr. Smallwood has been milking several cows for two or three years and says he can make a crop on one-fourth the amount of money needed when he doesn't sell cream. He hopes to build up to ten or 15 cows.

The men who are expecting to buy cows are: I. Smallwood, 4; J. S. Boyd, 2; C. L. Boyd, 2; W. F. Randles, 3; H. H. VanZandt, 3; Carl Lowery, 2; Lee Woodard, 3; F. H. Woodard, 10; Bennie Black, 2; J. W. Black, 4.

## SNYDER CHAMBER COMMERCE ANNUAL BANQUET FEB. 5TH

Annual banquet of the Snyder chamber of commerce will be given next Tuesday evening, February 5, according to announcement received in Colorado. The local chamber will have representation at the session, J. H. Greene, secretary, announced Wednesday.

## SCHOOL BUILDING AND CONTENTS AT CONWAY DESTROYED BY FLAMES

### Trustees Announce That New Building Will Be Erected

Hardly before the smouldering ruins had been eaten away by the flames and smoke ceased to leap skyward, trustees of Conway school, 13 miles southwest of Colorado, met at the site of the destroyed building and announced definite plans for rebuilding at once.

The building, together with all equipment, representing an investment by the school district of \$8,000, burned at an early hour Friday of unknown origin. Miss Ruby McGill, county school superintendent, announced Monday that insurance in the amount of \$5300 was carried on the property.

Pending completion of the new building school will be conducted in the old Spade schoolhouse. The sessions, however, will not begin before next week, pending arrival of desks and other needed equipment.

The Conway school is among the largest rural public schools of Mitchell county. The district employed four teachers and maintained a well-built, well-appointed and equipped school plant. One unit of the building was completed only a few months ago.

## OVER 4000 FEET OF WATER PIPES TO BE LAID SOON

### Laying of 8-inch Pipe Will Cause Small Key Rate Reduction

Over 4000 feet of new water mains are to be laid in Colorado in the near future, according to L. A. Costin, city manager.

Eighteen hundred feet of cast-iron 8-inch water pipe are to be laid from a point connecting with the present 8-inch line as Fifth street down Cheanut to Third street. Continuing along Third street to Hickory street, the line will connect with the 8-inch line on Second street.

The laying of this line will afford better water pressure for the downtown district and will result in a small reduction in the fire insurance key rate.

The 2500 feet of 6-inch pipe to be laid is to replace the 2-inch line on Hickory street.

## LOCAL BOYS' FRAT IN O. U. TO BECOME NATIONAL THIS WEEK

### INITIATION OF KAPPA EPSILON INTO PHI KAPPA SIGMA HELD THIS WEEK

Three Colorado boys will be interested in the rites to be held Saturday and Sunday at Oklahoma University when Kappa Epsilon, local fraternity of that school, is formally installed into Phi Kappa Sigma, national social organization.

Among the fifty-five boys who will be initiated into the national fraternity from Kappa Epsilon will be Ben Lee Costin, son of Mr. and Mrs. L. A. Costin of Colorado, who is a freshman in the university, and J. E. McCleary, son of Mrs. Elizabeth Grubbs McCleary of Colorado, who left last week to enter Oklahoma University for the second semester after staying out during the early part of the year to work here.

Raymond Jones, son of Mr. and Mrs. J. Lee Jones of Colorado, who was graduated from Oklahoma University last spring, was the first boy from here to belong to the fraternity, which was one of the best on the campus as a local chapter and which will be even more prominent as the Omicron chapter of Phi Kappa Sigma and the sixth chapter of that order west of the Mississippi.

Dr. H. W. Goodpaster, recently of Fort Worth, has arrived in Colorado and will be associated with Dr. Crowley, Goodpaster announced Tuesday.

# Society and Clubs

MRS. J. G. MERRITT, EDITOR PHONE 144

## Self Culture Club

Wednesday afternoon the Self Culture club entertained at the Hut with a lovely bridge and 42 benefit. There were nine tables of players and most enjoyable afternoon was spent. At the conclusion of the games, pretty luncheon cloths were laid and sandwiches, punch and pickles served.

The club cleared a nice little sum for their treasury and those present enjoyed a delightful afternoon.

## Merry Wives

Mrs. R. J. Wallace was hostess to the Merry Wives Wednesday afternoon. She had four tables of players, her guests being Mrs. Paul Teas, Mrs. Louis Collier and Mrs. R. H. Looney.

At the conclusion of the very delightful game, delicious refreshments in two courses were served. This consisted of a salad plate followed by marshmallow pudding.

At the business session, a Valentine party with the husbands as guests was planned. Mrs. Sam Wolf-jen is the next hostess.

## Special Days of Prayer for Foreign Missions

The Presbyterian Auxiliary observed their regular season of prayer for Foreign Missions this week. This was begun with a sermon on missions by the pastor Sunday evening.

Monday afternoon the women met at the church and had their regular Bible study from Luke. The two chapters studied were the ninth and tenth. At this time special prayer was offered for the foreign mission fields and the workers.

Tuesday afternoon there was a program on missionary work conducted by Miss Nell Riordan. The subject was "Forward." After a Bible lesson, song and prayer, Mrs. Wolf, secretary of spiritual cultivation, spoke of the work, and Mrs. Coleman, secretary of foreign missions, outlined her work.

Mrs. Riordan told of the National churches in the foreign fields. Then several women represented the various countries and told of their progress and needs. As they finished prayer was offered for this particular country. Mrs. Peek was Japan; Mrs. Coleman was China; Mrs. Elliott, Korea; Miss Nell Riordan had Africa; Mrs. Wolf had Mexico, and Mrs. Merrivether, Brazil.

In conclusion, Miss Riordan read an appropriate poem, "All Things of Thee, O God." An offering of \$120 was given for foreign missions. The meeting closed with singing, "I'll Go Where You Want Me to Go," and the Mikpah benediction.

## Self Culture Club

The Self Culture club met Friday with Mrs. George Hixon. The time was spent largely in planning for the

benefit bridge and 42 the club gave Wednesday. Mrs. J. B. Pritchett was accepted as a new member.

At the social hour the hostess served chicken sandwiches, tea and cake. The meeting this week is with Mrs. Whitmore at 3 o'clock instead of 3:30 p. m.

## Birthday Party

Little Miss Kathleen Terry, daughter of Mr. and Mrs. Vic Terry, was honored by her grandmother, Mrs. J. M. Terry, with a birthday party Saturday afternoon. This happy occasion was Miss Kathleen's seventh birthday. Several of her little friends participated in the festivities, which was brought to a happy conclusion by serving delicious refreshments. The spirit of Valentine was carried out in the decorations and refreshments.

## Baptist Cook Books

The Baptist ladies have a good supply of the Colorado Cook Book still on hand and they are for sale at 50 cents each or as much more as you desire to pay for them. The book contains many practical and useful recipes and is worth more than the 50c. You can secure them from Mrs. C. H. Lasky, Phone 352.

## School of Missions

The Presbyterian church will conduct a school of missions next week for all departments of church work.

## Methodists Begin Study

The Methodists began Wednesday with their spiritual cultivation study of the "Methodist Evangel." This will be used as the prayer meeting topic during February. Light refreshments were served at the first meeting.

The Baptist prayer meeting continues to grow in numbers and interest and since Wednesday evening lunches are being served.

## Shakespeare Club

Mrs. Frank Lupton was the Shakespeare club hostess Friday. Mrs. Thomas R. Smith led the last lesson on Richard Second. The studies in Government were the chapters on the Marine Corps and Air Forces, both very interesting and instructive.

At the social hour, the hostess and her daughters served marshmallow pudding and two kinds of cake. The meeting this week is with Miss Margaret McComas.

## Merrymakers With Mrs. Dozier

Mrs. Fred Dozier was hostess to the Merrymakers club Wednesday afternoon. The Valentine idea was carried out in the tallies and score pads.

There were three tables of players, Miss Laundry Smith, Mrs. Soper, and Mrs. Arlee Taylor being guests. A table place was set at the refreshment hour.

## Four Aces Club

The Four Aces met Wednesday with Mrs. Berryhill who had three tables of players. Her guests were Mesdames Sheridan, Hughes, Tidwell, Buell, Williams and Miss Webb. High score prize was won by Mrs. Thomas. This was a lovely bottle of Coty's perfume. Low was won by Mrs. Buell, a Valentine box of candy. At the conclusion of the game, a delicious salad plate with tea and cake was served.

## La Tertulia Club Has Dining

Monday evening at the high school, the Spanish club, "La Tertulia," enjoyed a lovely dinner served by the Home Economics club. The room was decorated in red, black, green and yellow. The table was decorated with cactus-ropes and Spanish flags. The teachers present were Miss Marie Smith and Mr. J. W. Treat, the pupils being the third year Spanish class.

The dinner consisted of punch, a plate of Spanish foods, stuffed celery salad, Spanish cream and cake. Mr. Treat and Scott McKinney each made speeches in Spanish and at the conclusion of the meal, Spanish games were played.

## Baptist Missionary Circles

Circle One met with Mrs. M. C. Ratliff. The devotional was led by Mrs. W. B. Morgan, then regular business attended to. It was planned to study the life of William Carey, and the Bible studies from Genesis to Revelations. The next meeting is with Mrs. Lee Jones, the leader to be Mrs. Ratliff.

Circle Two met with Mrs. J. H. Smoot. The chairman, Mrs. Johnson, led the devotional. The usual business was transacted. It was voted to have a social once a quarter, celebrating birthdays of all members who had had one during this time. The lesson was on Job. Royal Service will be studied next time, with Mrs. Wilson and Mrs. DeLaney hostesses.

Circle Three met with Mrs. G. W. Smith. The chairman opened the meeting by reading a Psalm. It was voted to send flowers to two sick members. The study was on Genesis. Mrs. J. B. Reese was an enjoyed guest. The next meeting is with Mrs. Smith.

Circle Four met with Mrs. J. H. Greene, with 11 present. Mrs. Simon led the lesson on the Christ of the Indian Road. The next meeting is with Mrs. O. B. Price, with Mrs. Farje as leader.

## Standard Club

The Standard Club met Friday with Mrs. J. C. Prude. Mrs. R. N. Gary led the lesson on Henry Fourth, and Mrs. G. W. Smith read a very interesting story by Owen Wister, "Specimen Jones."

Mrs. Bush was a guest for the social hour, at which time the daughter of the house, Mrs. Lois Prude Bennett and Mrs. John Prude, assisted by Miss McComas, served a delicious course luncheon. The meeting this week is with Mrs. Riordan.

## Lieut. William Holbert Chapter D. A. R.

The Lieut. William Holbert Chapter, D. A. R., met Saturday with Mrs. G. W. Hubbard, the regent, Mrs. J. T. Johnson presiding. The study was on "People in Revolutionary Times." Mrs. R. B. Terrell gave a very interesting talk on "Serving Men." Mrs. Ben Peek told of Phillips Wheatley. Round table discussion on Sundays in the Colonies showed a marked difference from Sundays of today. Mrs. C. E. Way told of Elizabeth Gray and Rachel Martin, two heroines of colonial times.

Delegates and alternates to the National D. A. R. convention in Washington, D. C., in March, were elected as follows: Mrs. J. T. Johnson, Mrs. Harry Ratliff, delegates; Mrs. Terrell and Mrs. Way, alternates. Mrs. DeCourt was an enjoyed guest.

The hostess, assisted by her daughter, Miss Martha Reba, served a salad plate with hot biscuit, coffee, apple pudding and whipped cream. The next meeting is with Mrs. Harry Ratliff.

## Hesperian Club

The Hesperian club met Friday with Mrs. Paul Teas, with her sister, Mrs. Owen of Arkansas, as an appreciated guest.

The committee to visit Iatan school and organize a P. T. A. reported a good meeting. Discussion on next year's program resulted in Henry Sixth being selected as the Shakespeare play, and it was voted to take a Delphinian program. The letter to be sent to the Federation News was discussed. Mrs. T. H. Connor of Ft. Worth and Mrs. W. L. Doss, Sr., were elected honorary members for the coming year.

The lesson on Richard Third was led by Mrs. W. L. Doss. Mrs. J. G. Merritt gave some of Shakespeare's battle charges, and Mrs. D. M. Merritt discussed whether the play suited better the stage or to be studied. The questions on Act V, scenes 1, 2 and 3 proved most interesting.

At the social hour the hostess served pumpkin pie with whipped cream and coffee. The meeting this week is with Mrs. R. J. Wallace.

## Methodist Missionary Auxiliary

A large group of women gathered Monday at the home of Mrs. D. N. Arnett for the first business meeting of the Missionary society. The meeting was opened by a series of prayers for the president, the other officers and for the great local undertaking of the new year, the building of a church. These were led by Mrs. Q. D. Hall, Mrs. M. P. McCall and Mrs. R. H. Looney.

The president, Mrs. J. G. Merritt, conducted the devotional. She announced that the study for the year would be "Homes Around the World" and the devotionals, "Jesus in His World." The topic for the day was "handicapped," John 9:1-38.

The Junior department gave a splendid report through Mrs. E. L. Grubbs and Mrs. Connell. The other departments were just getting ready to work. Mrs. E. H. Winn took subscriptions to the Missionary Voice. Mrs. Kiker reported 19 year books received and being filled out by the committee.

The treasurer collected \$25.00 in dues. Mrs. C. C. Thompson was appointed as her assistant. After discussion and vote, the pledge was set at \$200, and \$114 pledged by those present. The president explained that \$1000 of the conference pledge would this year go to the school in Cuba, where the Northwest Texas missionary, Marie Crone, is serving.

Mrs. Looney gave a very interesting leaflet, "After the Jubilee, What?" This gives a summary of the needs both of the home and foreign fields.

An outline of the annual conference program was given. The fact that Miss Foreman, a native of Stratford, now a missionary in Africa, would be present, was stressed. The study of the Methodist Evangel, beginning Wednesday evening, was announced. Mrs. Merrill dismissed the meeting with prayer.

## Community Prayer Meeting

The West Side prayer meeting met last week with Grandma Barnett with 12 present. They held a good service and provided her with the food she likes. From her home they went to Mrs. Hawkins', on the South Side, and held another service. There were 20 women at this meeting, and Mrs. Hawkins, who is blind, appreciated and enjoyed it greatly. Some garments to make this invalid more comfortable were provided through the Goodfellow fund. These women are answering their own prayers in helping these shut-ins.

## Bridgettes

The Bridgettes met Thursday with Mrs. Bill Broadus, who had four tables of players. This was a unique arrangement. Each table represented a movie studio and each player was a movie star belonging to the studio represented by her table, the names being written on the tallies. This caused much amusement, the movie actresses and actors being pitted against each other not on the screen but at bridge.

At the refreshment hour she served a delicious salad plate, with coffee and filled cookies. The next meeting will be with Mrs. Henry Vaughn at night.

## Christian Aid

The Christian Aid met Monday in the church parlors. Mrs. C. L. Root conducted the devotional. It was voted to pay \$50 on the building fund, and to have a market day sale Saturday. Mrs. J. E. Jones, treasurer of the dime fund, resigned as she and Mr. Jones are leaving Colorado. The ladies of the Aid and of the entire church expressed their regret in losing Mrs. Jones, who has been a splendid and untiring worker, and at the same time expressed their appreciation of her good work and lovely Christian character.

Mrs. W. A. Crowder was elected to take Mrs. Jones' place and Mrs. U. G. Hardison was elected general treasurer. Mrs. Majors and Mrs. Hardison were hostesses and served light refreshments. Mrs. Ewell and Mrs. W. A. Crowder will be hostesses next time.

## High School P. T. A.

The High School P. T. A. will meet Tuesday at 3:15, with a program on Better Homes. All the members are urged to be present.

## Faithful Workers' Class

The Faithful Workers' class, recently organized class of young married women in the First Baptist Sunday school, reports 8 present last Sunday with one new member. They had an interesting lesson, and announced that they have great plans for the future. Young married women who do not belong to any other class are urged to attend.

## 1921 Club

The 1921 Club met Friday with Mrs. Chester Jones. Mrs. Sam Majors accepted membership in the club. Plans for the birthday party which comes February 22 were discussed.

Mrs. Bob Fee led the lesson on "Nostromo," a picture of Latin-American civilization by Conrad.

Roll call was to name an advantage of telling a story in the first person. Mrs. Fee and Mrs. J. T. Pritchett told the story of Nostromo and the discussion was entered into by all.

The meeting this week is with Mrs. C. C. Thompson.

## COLORADO "ACES" ARE SUCCESSFUL IN BREAKING RECORD

Having broken all previous endurance records, the "Exclamation Mark" which took off last Tuesday morning at 10:35 in the show window of John L. Doss drug store to make an effort to break the record set by the "Question Mark" "landed" Monday night at 8:20, after 153 hours, 42 minutes and 15 seconds in the air.

This record was three hours and two minutes more than that of the "Question Mark." The candle, around whose base the string holding the plane in the air was tied, burned down immediately before 8:20, and the plane, with its "famous aces" began to glide to earth, figuratively speaking.

Lieut. Corley Bozeman co-pilot was the controls when the plane landed. Capt. Maurice Terrell, chief pilot, was at that point when the plane took off on its record flight. He and Lieut. Bozeman were relieved at intervals by Lieut. Tom Hughes, also a co-pilot. Major Ed Majors was in command of the ship, and M. Foster was official cranker.

None of the valiant crew appeared much the worse for their long hours in the air when the plane landed, and all five modestly refused to be fussed over and made heroes of.

The crew learned when they came to earth that Mutt and Jeff set out in a plane also called "The Exclamation Mark" to set an endurance record. They made emphatic statements that they named their own plane without any suggestion from Bud Fisher, the Mutt and Jeff cartoonist.

Mr. and Mrs. S. N. Petty of Paris, Tennessee, are visiting with Mrs. Petty's brother and wife, Mr. and Mrs. J. W. Hill, and Mrs. Petty's niece, Mrs. Austin Bush.

Dry bundle Higer, \$12.00 per ton. Itc Colorado Feed Milling Co.

## OBITUARY

Mrs. Lina McCullough, born Aug. 21, 1861, died January 26, 1929, at her home in California, following an operation. She was married to Edmond McCullough in the year 1919, in Mitchell county. She was a kind wife and a devoted mother.

Just at 1 o'clock Saturday afternoon, the spirit of our dear one, whose body had been tossed and battered by pain, started on its homeward journey, and five minutes after one o'clock the last farewell had been said.

Only twenty-eight summers did this dear one dwell on earth. God wanted another one to praise him in heaven and now her sweet voice mingles with the angels where they chant His praises forevermore. Her bright, smiling face, like sunshine everywhere she went, entwined itself around the hearts of those she knew. We grieve not as those who have no hope, for she was ready to go. She joined the M. E. church in childhood and lived a true devoted life to her church and God. She leaves a husband and two children, her mother, one brother and four sisters, and other relatives. The names of these are: Edmond McCullough, Jim McCullough, Spade; Mrs. Charley Hargrove, Colorado; Mrs. Susie White, Spade; Mrs. Ena Wilson, Hyman; Mrs. Rosa Bronson, Spade; Mrs. E. J. Eddleman, Spade.

Written by A Friend.

## W. O. W., PLEASE READ

At the regular meeting Tuesday night, Feb. 5, 1929, we are to elect delegates to the Head Camp Convention. You are urged to come and cast your ballot for your choice. The notice does not give the exact date nor the place of meeting. Itc ERNEST KEATHLEY, Clerk.

George Epple of Kerrville, Fifth division commander of the American Legion, Department of Texas, was in Colorado last week. He wants to hold the division meeting here some time in the early summer.

Office supplies at the Record office.

LORAINE NEWS

Local and Personal News About Loraine and Vicinity

MRS. ZORA DEAN

Mrs. Dean is also authorized to receive and receipt for subscriptions for The Colorado Record and to transact other business for Whipkey Printing Company in Loraine. See her and take your County paper.

Nora Brock, age 42, wife of Herbert Brock, died at the Sweetwater sanitarium, at 1 o'clock Sunday morning following an operation. Funeral services held at the Pyron church were conducted by Rev. N. E. McGuire, with interment in the Pyron cemetery Monday at 11 o'clock. Deceased was the daughter of Mr. and Mrs. S. T. J. Hallman of Loraine and leaves a husband and two sons, to mourn the loss of a kindly devoted mother and wife. A number of friends from here attended the funeral services and many are the friends who join in sympathy to the bereaved relatives in the passing of one loved and honored by those who knew her.

Henry Hall, brother of Roland Hall, and familiarly known as "Uncle Henry," died at the home of his daughter in Dallas Tuesday night. Interment will be made at Fort Worth Thursday.

R. W. Hall, Judge J. C. Hall, Mrs. D. A. Cary and Fred Hall of Champion attended the funeral of their uncle who died at his home in Snyder Monday night.

The infant son of Mr. and Mrs. Morgan Charles was laid to rest in the Loraine cemetery Friday afternoon. Rev. W. H. Hanks of Sweetwater conducted the services, held at the home in Lone Star, Friday.

W. D. McAdams, wife and daughter Lucile, of Payne, were dinner guests in the T. J. Riden home last Sunday.

Mr. and Mrs. C. J. Martin, Marvin Martin, wife and daughter visited in the home of relatives at Roscoe Monday night.

Judge C. C. Thompson and sister Pauline returned Tuesday from a short visit with their brothers who live at Dublin.

V. V. Sandlin of Los Angeles, California, and son Robert Sandlin of Fort Worth, Mr. and Mrs. Clyde Majors and family and Travis Sandlin of Lubbock, visited the H. B. Wilsons and other relatives here the past week-end.

Mr. and Mrs. Lewis Williams who are here on an extended visit from St. Louis, Mo., were guests in the Rowland Riden home from Sunday until Tuesday of this week.

Charlie Stribling and family of O'Donnell were guests in the G. W. Tartt home Friday night.

W. A. Jennings and daughter, Mrs. Buster Adams, were here shopping and visiting from Maryneal Wednesday.

Mrs. Albert Hiser has returned from Gibbstand, Alabama, where she has been visiting since the holidays. G. W. Hendrick was a Colorado business visitor Wednesday.

Rev. and Mrs. Naugle of Westbrook were guests of Rev. and Mrs. J. M. Cochran Wednesday.

Mrs. Mattie Grisham, nurse, has returned from Pioneer, where she has been at the bedside of her daughter-in-law.

Mrs. C. C. Thompson and mother, Mrs. Bob Gary of Colorado, were visitors in the Thomas Hall home on Tuesday.

J. L. Pratt, wife and son, Woodrow, visited in Abilene Sunday.

Mrs. Bill DuBois and wife of Merkel visited relatives here in the J. H. Neill home Sunday.

E. J. Adams and family are moving to Stanton this week.

Claude Neely and family of Roscoe are at home at the J. M. Winstead place in West Loraine.

H. H. Copeland and family have recently moved to Abilene.

Mrs. Thomas Riden entertained at her home from 2 to 4 p. m., Tuesday, with a miscellaneous shower honoring her friend, Mrs. Clarence Thompson. Lively games and contests were enjoyed. Refreshments of chicken and pimento sandwiches and hot chocolate were served. Mrs. Jesse Thompson and daughter, Mrs. Lester Webb, Mother Carden, Mrs. Edward Miles, Mrs. M. M. Miles, and Grandmother Fuller were invited guests present from Looney. Mrs. Thompson was the recipient of a lovely shower of gifts from her friends and neighbors, and a very enjoyable afternoon it was for all present.

In honor of their son, Luther, Mr. and Mrs. C. H. Thomas entertained with a 6 o'clock dinner last Saturday. Mr. and Mrs. C. A. Wilkins, Mr. and Mrs. Bill Broadus, W. S. Foster, little Louise Levens, Mr. and Mrs. Earl Hall and son, of Colorado, were present.

## FORT WORTH BUSINESS LEADER GIVES SARGON HIS HIGHEST PRAISE

Head of One of the Largest Concerns in Texas Unqualifiedly Endorses Famous New Medicine

Nearly everybody in Fort Worth is either personally acquainted with or has heard of L. A. Barnes, executive head of the L. A. Barnes Company, manufacturing stationers of Fort Worth, one of the largest and oldest businesses of its kind in the Southwest.

Mr. Barnes is a pioneer citizen of Texas, and is prominently identified with the business and social life of Fort Worth. He is a man of unquestioned integrity, whose word is as good as his bond.

In discussing the benefits he has derived from Sargon, Mr. Barnes said: "I suffered with indigestion more or less for twenty years. I was almost constantly troubled with biliousness and the distressing symptoms that usually accompany this condition. My liver was inactive and I was habitually constipated. Nearly everything I ate disagreed with me. I became weak, was easily fatigued, lacked energy and was in a general rundown condition. I was very susceptible to colds, which I am sure was due to my weakened condition."

After taking two bottles of Sargon I have splendid appetite. I eat heartily and enjoy my meals. My digestion is sound, I am no longer bilious, and I believe my liver is performing perfectly. I am more active and energetic and I don't tire out like I did. I am no longer troubled with constipation. I feel 100 per cent better in every way.

"I want my recommendation to also include Sargon Soft Mass Pills, for I have been taking them along with Sargon, and I consider them an essential part of the treatment. They are mild, thorough and dependable. I have already praised Sargon to a number of my friends. You may be sure I would not give my endorsement if I did not consider it an extraordinary medicine."

Sargon may be obtained in Colorado from Colorado Drug Co., and in Westbrook from Mrs. Margaret E. Lasseter. Adv-tlc

WANT ADS are CASH and will not be accepted over the telephone. Please bear this in mind.

## Jenkins of Brown Would Repeal All Permits For Dams

Fate of the \$25,000,000 dam projects on the Colorado river in Travis and Llano counties in which the Insull interests of Chicago are interested hinges on the outcome of a bill in the house of representatives introduced during the week by Representative C. H. Jenkins of Brownwood.

The Jenkins measure would repeal all permits to erect dams or impound water for power purposes on which work has not been started on the dam constructed prior to Jan. 1, 1929. Where any corporation has expended money for a dam site or has begun the erection of a dam, the corporation is to be repaid the amount of money reasonably expended for such purpose.

Representative Jenkins has introduced another measure in the house seeking to abolish the board of water engineers and authorize the governor to name a water commissioner at a salary of \$3,600 a year. The proposed water commissioner would take over the duties now exercised by the State board of water engineers.

Both measures by Representative Jenkins echo the recent controversy between the city of Brownwood and the Syndicate Power Company, the power concern which has secured permits to build six dams on the Colorado river. The city of Brownwood desired water for domestic purposes and sought to secure permits to impound water for domestic purposes on Jim Ned Bayou, a tributary of the Colorado river.

The Brownwood application was held up for a time because all waters of the Colorado had been appropriated in the six dam permits granted the Syndicate Power Company of Dallas. Then followed a series of mass meetings and conferences at Abilene and Dallas, which resulted in a relinquishment of some of the water by the Insull interests and the Syndicate Power Company.

The Insull interests had announced that its development program on the Colorado would evolve an expenditure of \$25,000,000. The city of Brownwood claimed it needed the water for domestic purposes and for irrigation in West Texas. Finally the Insull interests announced that it had withdrawn from the Colorado river program on account of the controversy with the city of Brownwood.

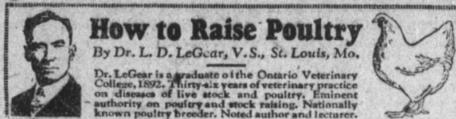

The two measures by Representative Jenkins have been referred to the house committee on conservation and reclamation.

## How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1922. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and duck raising. Nationally known poultry breeder. Noted author and lecturer.

## LET US SPRAY

Kill the Vermin or the Vermin Will Kill Your Profits—Fowls That Are Free From Vermin Lay Better and Resist Disease More Easily.

Not long ago I was asked by an amateur poultry raiser, whom I know slightly, if I would look over his flock and see what made them so droopy, dispirited and unproductive. They were "all outa pep" was the way he put it. It took only a moment's examination to disclose the reason for this undesirable state of affairs. His hens were just about being eaten up by chicken lice.

I asked to see the hen house and what I saw was what is all too often seen. An old roughly built shed had been hastily converted into a hen house. To say there were ten thousand hiding places for vermin would be a most conservative estimate. No attempt at sanitation or disinfection had ever been made. Ancient table scraps in various stages of decomposition proved attractive tidbits for myriads of flies. Mouldy stray lay about on the dirt floor, and dropping boards being something this chap had never heard about, the droppings served to still further befoul the already disgusting litter. In short, if I had wanted a particularly horrible example of almost anything one should not do in poultry raising, I could have found it here. I really marvelled that the poor birds had been so lucky as to suffer nothing worse than their painful burdens of lice.

Turning to my acquaintance, I said: "Charley, there are a lot of things that ought to be done here, but I have a little story that will help you to remember one of the most important." Then I told him that story about the mother skunk and several of her little ones who were being pursued by a hunter. The hunter gained ground quite rapidly, which alarmed the youngsters not a little. "Just be patient, children," admonished the mother, "I'll tell you what to do when the time comes." The hunter continued to gain, and finally the mother called a sudden halt. As the hunter, seeing success at hand, plunged boldly forward, the mother skunk remarked very calmly and confidently, "Now children, let us spray!"

Of course, the first thing to do was to make a thorough clean up of the whole place. Then, a strong solution of Dip and Disinfectant was sprayed into every crack and crevice. Lime was dusted liberally over the dirt floor in order to neutralize its sour odor and make the place still more uncomfortable for lice, mites, bedbugs and other insect pests. Then the hens were dusted well with Lice Powder to kill the parasites on their bodies, and the dusting was repeated in seven days time. Now, whenever I meet my friend, Charley, he invariably greets me with a gesture which indicates the manipulation of a spray pump and with an air of mock piety exclaims, "Doctor, let us spray!" He also has a tale to tell of a reborn flock that is taking a new interest in life and actually seems to be trying.

ITCHING ECZEMA HEALED. We honestly believe CRANOLENE the cranberry cream, will heal any case of eczema or other skin trouble. Come in and let us tell you about it. Use one jar, and if you are dissatisfied, your money will be refunded. Price \$1.00 COLORADO DRUG CO., INC.

TO COUNTRY CORRESPONDENTS. All country correspondence must reach The Record office on Wednesday morning of each week in order to get in that week's issue. Thursday, day of publication, is one of the paper's busiest days and only the most important news matter can be handled on that day.

BIDS FOR DEPOSITORY. The Commissioners' Court of Mitchell County, Texas, will receive bids up to 10 o'clock a. m., February 11, 1929, for a depository of county funds for a two-year period. The Court reserves the right to reject any and all bids.

CHAS. C. THOMPSON, County Judge.

## Interest In Pecan Industry In West Texas Is Growing

STAMFORD, Jan. 29.—Thirteen different orders from twelve different towns have been received by B. M. Whitaker, agricultural manager of the West Texas chamber of commerce, for pecan trees since the offer of reduced prices given if ordered through the regional organization was made public.

Halbert and Burkett varieties seem to be most popular with Nugget also in demand. One order was received for the Success variety. Although three ages of trees, the two year old trees, those between three and four years old, and those between four and five years old were offered the preference.

G. W. Sexauer of Memphis, Texas, sent in his order for four three and four year old trees, and two two year old, and left the selection up to the nurseryman. H. H. Howard of Water Valley, Texas, ordered his trees from the four to five year old stock from the Success variety.

The largest order was received from Wilbur S. Patrick of the Spar chamber of commerce. Fifty trees were ordered for the members of the board of directors. These were 18 Burkett's, 16 Halbert's, and 16 Nugget's.

J. P. Williams of Mineral Wells ordered 12 of the four to five year old trees to be sent to his brother E. W. Williams of Post.

New Boarder—When I left my last boarding place the landlady wept. Landlady—Well, I won't. I always collect in advance.

## County Agents Are Leaving For Houston Meeting

W. S. Foster, county agent, and Miss Abbie M. Sevier, county home demonstration agent, are leaving this week for Houston to attend the annual meeting of Texas extension agents there this week, and also the silver anniversary of Cooperative Extension work in Texas. Both agents will be out of Colorado all next week, returning Monday, February 11.

## 'Land Grabbers' to Meet Opposition in House, Reid States

"I am absolutely opposed to the present statute allowing the 'land grabber' to file on land vacancies, especially in those cases wherein the purchaser of lands from the State has been paying taxes on the properties or made improvements thereon, and shall do my utmost to cause passage of proposed legislation to eliminate this practice in Texas," W. E. Reid, representative from the 117th district, declared while here Saturday on a business mission from Austin.

"There is nothing right to be found in such practice and I am opposed to the State further authorizing same," Reid stated when his attention was directed to two cases of "land grabbing" recently reported here. In one of the cases, an oil man is reported to have hurried into Haskell county in an airplane, when oil was discovered there, and filed on a "vacancy" of some 30 acres, which for many years had been included in a Haskell county farmer's homestead. The other instance is reported from Comanche county. There the grabber filed on a small acreage of land on which a farmer's barn and residence stood. The farmer, in order to protect his investment, was compelled to "buy" the "vacancy" from the "grabber."

The Colorado representative also expressed keen interest in the water priority rights bill, as introduced recently by Senator Walter C. Woodward of Coleman, and of adequate highway legislation.

In speaking of the latter, Reid stated that he now feared that any adequate highway financing measure would fail. There are so many agencies being injected into this question at Austin that he doubts that proponents of the divers bills will be able to get before the committee a program to be accepted.

REMINGTON Portable Typewriter in handsome case. Guaranteed to do everything the big machine will do. Double-shift. Standard keyboard. See and demonstrate the machine at the Record office. Sold on credit. Whipkey Printing Co.

Angry Father—If you wanted to go swimming, why didn't you come and ask me first. Sammy—Because I wanted to go swimming.

**CHURCHES**

**FIRST BAPTIST CHURCH**

Sunday school at 9:45, G. B. Slaton, superintendent. Let us endeavor to go over the three hundred mark next Sunday with an increasing number of perfects.

Morning hour of worship, 10:30. Subject, "The Forgotten Dream and Christ's Second Coming." We consider further in detail the events preceding and attending the return of our Christ to this planet.

Evening service, 7:15. Theme for message, "The Gracious Invitation." We are delighted with the attendance on our evening services. Now that the influenza is letting up our church attendance should be increasing.

The four B. Y. P. U.'s meet at 6:15 in their respective rooms. We now have 79 enrolled in the four organizations. There were 62 present last Sunday evening with good reports from each group.

Visitors in our city and others are cordially invited to worship with us.  
 W. M. C. ASHFORD, Pastor.

**FIRST CHRISTIAN CHURCH**

Bible school 9:45 a. m., W. W. Porter, superintendent.  
 Preaching services 11 a. m., and 7:30 p. m. Subject of morning sermon, "Christian Optimism." Evening theme, "The Gospel." Dr. Good-paster who has been singing evangelist for Dr. Alonzo Monk, C. L. Odgan and Dr. Will Hogg but is now located in Colorado, will sing at the morning hour, as will Mrs. Berryhill also. There will also be special music at the evening hour.

Ladies Aid Society each Monday at 3:30 p. m.  
 Prayer meeting each Wednesday at 7:30 p. m.  
 A. E. EWELL, Pastor.

**CHURCH OF CHRIST**

Bible school at 10 a. m.  
 Preaching and communion service 11-12 a. m. Sermon subject, "The Church in Comparison."  
 At Vincent at 3 p. m.  
 With the young people at 6:30 p. m., and evening Gospel twice at 7:30. "The Bonfire at Ephesus" will be the subject.

Meetings for the week: Ladies Bible class Monday at 3 p. m. Study of the Proverbs, Wednesday at 7:30 p. m. Teachers' meeting Thursday. We are enjoying a fine work and

do welcome your presence to be with us.  
 J. D. HARVEY, Minister.  
**PRESBYTERIAN CHURCH**  
 Bible school at 9:45 a. m., J. M. Thomas, superintendent.  
 Worship and sermon at 11 a. m., and 7 p. m.  
 Christian Endeavor at 6 p. m. and 5 p. m.  
 Come and worship with us.  
 W. M. ELLIOTT, Pastor.  
**METHODIST CHURCH**  
 (Received too late to classify)  
 Remember, we have on the biggest program for this year that the church has ever undertaken. This means that everyone should do his best in attendance, in paying, and speaking the good word.  
 All regular members. Morning worship 10:30 a. m. Evening worship 7 p. m. Strangers and visitors always have welcome at all our services.  
 W. C. HINDS, Minister.

**CARD OF THANKS**

We wish to thank all those who were so kind to us during the death of our brother, father and husband, and especially do we thank Rev. A. E. Ewell and Rev. J. D. Harvey for their kind words of consolation offered us in the hour of trial, and friends of the Christian church and employees of the Texas & Pacific Railway for their aid and beautiful floral offering.

**RESIDENT OF COLORADO IN EARLY DAYS IS DEAD**

Theodore F. Cromer, 81, who will be remembered by old-time residents of Colorado, died this week in Fort Worth. Mr. Cromer lived here for some time about forty years ago, being employed by the late Winfield Scott on his ranch in early days. Surviving him are a sister, Mrs. J. H. Horner of Okmulgee, Oklahoma, and a number of nephews and nieces.

Mrs. Harry Hyman of San Antonio is visiting in Colorado.  
 Mrs. M. Carter returned from a visit to Dallas last night.

Office Supplies of all kinds at the Record office.

**Land Claiming Bill Engrossment Cause Of Heated Debate**

AUSTIN, Jan. 30.—After the hottest fight the Senate has experienced during the forty-first session, the Small bill to prevent "river bed claiming," which claiming is alleged to have included courthouses, jails, homes and cemeteries, was engrossed Wednesday afternoon by a vote of 22 to 8. An attempt to suspend the constitutional rule and obtain final passage was defeated because a two-thirds vote is required and was not forthcoming. Final passage will be sought again Thursday.

Several East Texas senators joined in the battle for West Texas, declaring that under the present law land titles in every county are menaced, among those speaking for the Small validating measure being Thomas Pollard of Tyler and W. R. Cousins of Beaumont. Leading the forces for the bill were Senators Clint C. Small of Wellington and Walter C. Woodward of Coeman, the opposing group being led by Senators Julien C. Hyer of Fort Worth, Joe Moore of Greenville and Eugene Miller of Weatherford.

The debate on this, the first of four bills by Small to protect land owners of West Texas from seizure of their investments by others in the name of the Attorney General's department, began at 11 o'clock in the morning and continued until nearly 4 o'clock. More senators took part in the discussion than on any other bill yet argued on the floor.

Hyer declared that the original owners were merely trying to keep funds from the school children of Texas by the terms of the bill; that they wanted to "grab," and asserted the measure is not constitutional. Small struck back with vigor, declaring "that for the State to take these lands after the citizens had paid for them, after they had received State patents, is nothing short of disgraceful."

"The State of Texas certainly ought to be as honest as any citizen," Woodward said, "and the state laws force citizens to be honest."

At the start of the unusual proceedings Small explained the controversy over the definition of a river showing proof from old Land Office records that when the navigable river law was adopted it was understood that it referred to water that is 30 feet across, instead of creeks and hollows in which there seldom is any water. The law says that the State owns the rivers and bed when navigable, and that a navigable river is 30 feet wide.

Mrs. Harry Hyman of San Antonio is visiting in Colorado.  
 Mrs. M. Carter returned from a visit to Dallas last night.

Office Supplies of all kinds at the Record office.

**Paving Bids To Be Opened Feb. 2nd Dubose Announces**

Plans and specifications to govern contracts for paving eight blocks on North Hickory street, as submitted by F. F. DuBose, city engineer, have been approved by the city and City Secretary L. A. Costin instructed to advertise for construction bids on same. The bids are advertised to be opened by the city council on February 20, at which time it is expected to award contract.

DuBose returned to his home at Shamrock Tuesday after spending Monday here in conference with city officials. Plans submitted by the engineer were accepted at a special session of the council convened Monday night by Mayor R. H. Looney.

The project will cover eight blocks, between East Second and East Ninth on Hickory.

**Snyder Wheat King Starts Poultry On Pretentious Scale**

SNYDER, Jan. 30.—Giles W. Garner, world's champion wheat farmer who has broken world's records for average production per acre, has started the erection of four model poultry houses, each 30x120 feet that will house 6,000 laying hens. Garner was a member of the recent West Texas chamber of commerce motorcade to California where the one-acre poultry farms of Charles Weeks were visited at Palo Alto and Owensmouth. There Garner secured the needed information for transplanting a model poultry tract to Seury county and as chairman of the agricultural committee of the Seury County chamber of commerce, he has been active in bringing Weeks to Snyder for a mass meeting to sell the idea of 2½ and 5-acre poultry tracts in this section.

Garner's newest project is the development of a real poultry farm and he is backing his judgment with his own money. He believes that West Texas air, its climate and its future possibilities are destined to make of this section the poultry center of the world.

Since Garner's last pilgrimage to California with the W. T. C. C., he has contended that here in Seury county is the most ideal location in the world for the successful raising of poultry or for any other diversified agricultural program. To prove his point on poultry, he has placed an order with a nationally known hatchery for 4,500 White Leghorn pullets to be nine weeks old when delivered Aug. 1. These pullets are guaranteed to come from registered 250-300 egg hens. Along with the order for pullets this booster also purchased 200 baby chicks coming from hens known to have better than 300-egg averages, the baby chicks costing him \$2.50 each. From these latter chicks he will lay the foundation for his flock. Land is much cheaper here than in California, where one acre costs near the Weeks' farm from \$1500 to \$3000. Water of unlimited quantity is secured anywhere in Seury county at from 40 to 150 feet.

Mrs. Harry Hyman of San Antonio is visiting in Colorado.  
 Mrs. M. Carter returned from a visit to Dallas last night.

Office Supplies of all kinds at the Record office.

**Enthusiastic Group At S. S. Teachers' Meet**

A large and enthusiastic group gathered for the officers' and teachers' meeting Wednesday evening at the First Baptist church.

Supper was served by the T. E. L. class to 41. There were 76 present for the meeting. There were 192 visits reported, with 71 phone calls and 40 cards sent out. The Beginners reported 7 pledges, the Primaries 2. The Adult department, of which John W. Cobb is superintendent, was 100 per cent present in its general official force.

Mr. Pat Whitaker gave an excellent outline of the Sunday school lesson for next Sunday. For five evenings next week, John W. Cobb will lecture on "Pilgrim's Progress." You are cordially invited to attend. Also an invitation is extended to those of other churches. This is to be a rare treat for those privileged to attend. Lecture begins Monday at 7:30 p. m.

CREAM SEPARATORS DOUBLING AMOUNT OF CREAM FROM MILK

Cream separators are doubling the amount of cream over hand skimming as reported by several owners of separators.

Mrs. John Dozier was getting two and a half pounds of butter per day by hand skimming and after purchasing a cream separator she gets five pounds of butter from the same amount of milk.

Mrs. William Cranfill says that she was selling \$2.50 worth of cream a week from two cows above what was used at home. Now by using a cream separator, she gets \$5 to \$6 worth of cream from the same amount of milk.

Sometime back when H. C. Griffith was getting 30 pounds of butter a week, their separator broke down and they hand-skimmed their milk and only made 20 and 21 pounds of butter a week from the same amount of milk.

**C. C. OFFICIALS INVITED TO SNYDER C. C. BANQUET**

An invitation has been received by the Colorado Chamber of Commerce secretary, J. H. Greene, bidding the officers of that organization to attend the annual banquet of the Snyder Chamber of Commerce on Tuesday night.

"You and the officers of your chamber of commerce are requested to be present at our annual banquet Tuesday night, February 5, 1929. You might bring Bob and Mrs. May along with you, providing Bob will promise to behave."

**PASTORS WILL DISCUSS "FUN" AT LIONS**

Pastors of Colorado churches are members of the Lions Club and to have charge of the entertainment program given by the civic organization during the month of February. J. Ralph Lee, club proxy, announced Friday. Rev. W. C. Ashford named as committee chairman.

A member of the committee assured an anxious Lion at the meeting Friday that the club need have no occasion to fear that the entertainment feature would be resolved into the minister's usual routine of "passing the collection plate" each Friday noon.

**To Protect Your Health**

THE object of the Twenty-second Annual Convention of the National Canners' Association which is to assemble at the Hotel Stevens in Chicago on January twenty-first and continue in session until January twenty-fifth is primarily to exchange ideas on how to maintain and, if possible, improve the quality of all the foods that are canned in this country. Every phase of the industry is discussed at this huge convention where more than eight thousand people, interested in the commercial canning business, gathered last year, but in spite of the many major economic problems to be solved, exactly forty per cent of the formal addresses delivered at the various sessions of this Convention held in the same place last year were made by scientists from great Universities, experts from the United States Departments of Commerce and Agriculture, home economics experts in touch with a multitude of housewives, and scientists who are working directly for the Association in its own elaborate research laboratories in Washington, D. C., Seattle and San Francisco.

**Truth and Honesty**  
 The spirit which rules this Convention was admirably expressed in a recent speech by a high official of one of the largest companies in the industry when he said:  
 "The whole question of the nation's food supply is a most important one. In the food products industry lies a very great opportunity and an equally great responsibility. The basis on which canned foods must be presented to the public must be truth on the label—honesty in the can."

Rev. and Mrs. Lloyd Jones of Mulshoe visited Mrs. Jones' mother, Mrs. Stell, Thursday and Friday.

Now showing, the new Superior Whippet, at the DOCKERY WHIPPET CO.

Ernest Keathley, wife and son, Sterling F., spent Thursday and Friday in Abilene on business.

Dry bundle Higeza, \$12.00 per ton.  
Colorado Feed Milling Co.

Jim Greene and Bill Cooper were in Snyder Wednesday to visit the Snyder Lions club. Short addresses were delivered by both.

Bedford's Grocery always handles the very best and always tries to please. If you want the best and quick service, Phone 129.

Mr. and Mrs. Ed Jones visited the Gaskins family in San Angelo Sunday. They found Miss Vera Gaskins very sick and word came Tuesday evening that she had developed spinal meningitis.

Dry bundle Higeza, \$12.00 per ton.  
Colorado Feed Milling Co.

A pair of beautiful Silk Hose given to each customer. Come in and see how to get them.  
MRS. B. F. MILLS.

A pair of beautiful Silk Hose given to each customer. Come in and see how to get them.  
MRS. B. F. MILLS.

Irvin Plaster was taken to Temple Tuesday for treatment.

Fresh Vegetables, if they are in the city, can be had at Bedford's Grocery, Phone 129.

Miss Mildred Martin spent Sunday in San Angelo with her mother, Mrs. Miller.

**BAPTIST COOK BOOKS**  
The Baptist ladies have a good supply of the Colorado Cook Book still on hand and they are for sale at 50 cents each, or as much more as you desire to pay for them. The book contains many practical and useful recipes and is worth more than the 50c. You can secure them from Mrs. C. H. Lasky, Phone 252.

## Longfellow Locals

H. C. Witlock and family are moving to the Westbrook community.

Horn's Chapel boys and girls visited Longfellow Friday, Jan. 25, for a basketball game. The score of the boys' game was: Horn's Chap. 24 and Longfellow 9. The girls' score was Horn's Chapel 8, and Longfellow 20. The games were enjoyed by all present.

Miss Garnett Thornton spent the week-end in Colorado.

Miss Annie May Cochran spent the week-end with her parents in this community.

Next Friday afternoon, February 1, at 2:30 o'clock, the parents and other adults of the community are invited to spend a few minutes in a community meeting at the Horn's Chapel schoolhouse. A short program will be given. Everybody come. Let us be sociable.

Some cotton is still in the field. Red means anger, so look out for Jim Tom Moore in his red car.

G. W. Christian and family are just about over the "flu."

S. N. Nichols who has been ill for some time, is reported improving.

Frank Bassinger and family visited relatives in this community Sunday.

Tom Horn and family, with his father, visited Mr. Adams in the Rogers community Sunday.

Glen Whitlock spent the week-end at home with his parents.

John Roddy and family visited Mr. J. H. Humphreys and family Sunday.

Ray Ellis and family visited relatives at Gail last Saturday.

Robert Loftis visited G. L. Bassinger and family Sunday. Mrs. Loftis is spending a few days with her son, Robert.

Hattie Christian has had mumps, but is about well now.

Next Sunday is preaching day. Try going to church. You might help some by your presence. Your influence counts, so be sure you use it right.

## Doings of the 41st Legislature as Seen By The Record Correspondent at Austin

By VANN M. KENNEDY

The third week in the Texas Legislature saw much activity, but little real progress toward a program of legislation. Leadership has been "conspicuous by its absence." However, the 41st Legislature has shown signs of accomplishing haphazard fashion, many constructive reforms in government. As usual, the progress of worthwhile legislation is hampered by the time necessary to take care of a multitude of bills proposing ill-advised and little-needed legislation.

Control of Public Utilities! That question has brought more attention than any other yet submitted to the Legislature. The idea has received wide praise and much protest. Gov. Moody is taking a lead in the fight for control of utilities.

The purpose is advanced in two bills that have been introduced in the Senate. A bill by Senators Westbrook and Wirtz proposes to enlarge the scope of the Railroad Commission control of public utilities. Senator Holbrook has a bill providing for a separate utility commission. The Westbrook-Wirtz bill seeks to regulate and supervise the manufacture and distribution of all public utilities commodities that are sold to the public. It includes gas, electricity, steam, or any other commodity used for heat, light or power, water distribution, transportation of persons whether by railroads or buses and telegraph and telephone systems.

A hearing on the measure was held Thursday night by the Senate State affairs committee, before which appeared Gov. Moody, about 100 public utility representatives and a large number of city representatives, and other interested persons. The utility representatives and city attorneys have been hostile to the measure.

"Protect the people from rates that are too high," was the plea made by Gov. Moody for a State control of utilities. The attorneys representing the cities were somewhat divided in their views as to State control, but all favored exemption of municipal owned utilities from supervision.

An agree measure, satisfactory to municipalities and to the advocates of utility control, became a prospect following conference between Governor Moody and a committee of the city attorneys. It is reported that the governor and attorneys concurred in favoring utility control to be vested in an agency other than the Railroad Commission.

Gov. Moody has indicated that it is the small towns that he especially seeks to have protected from utility companies, the large cities being better able to take care of themselves. One reason for the opposition of the large cities has been their desire for "home rule," which they think might be impaired by State control.

Further hearing on the bills are scheduled for this week. The proponents are optimistic of enacting one of the proposed bills.

Supervision of ice plant utilities by the Railroad Commission became tangible with a favorable report on the Webb-Holder bill by the House committee on common carriers last week. The bill provides that the Railroad Commission shall be empowered to regulate rates and supervise service of Texas ice companies. This measure has attracted much interest. Several hearings were held on the bill by the committee.

"Texas is becoming dairy minded" declared Representative Westbrook in stating that supervision of ice companies was necessary in order to insure cheap ice, with a dependable year-round service for rural routes. The cotton farmer is now turning to dairying, and ice is necessary for this growing industry, according to Westbrook.

Large canned milk companies are establishing condensing plants in certain parts of the State. The farmers are to furnish these plants with milk, it was pointed out by those interested in ice regulation from the farmer's standpoint.

Ice manufacturers are divided on the bill. Ice consumers representatives have strongly urged passage of the bill. Proponents of the bill testified that there is a wide range in the prices charged for ice and that there is no dependable rural service. Successful supervision of ice companies in other states is cited by the advo-

cates of the measure.

W. D. Hart, Austin ice manufacturer, stated to the committee that the same thing was happening to the independent ice manufacturer that "happened to the individual grocer with the advent of chain system grocery stores." He cited instances where in two small towns in the vicinity of Austin, where small independent plants were forced out of business by big companies, who then raised the rates to an exorbitant figure.

The establishment and maintenance of a State cancer and pellagra institution is favored by the Senate committee on public health. The project is proposed in a bill drawn by Dr. J. W. Beck of DeKalb. The cost of establishing the institution would cost \$200,000 and \$225,000 for maintenance for the next two years.

Creation of a State bureau of criminal identification is provided for in a bill introduced by Senator John W. Hornsby of Austin. Fingerprint experts would be employed, records of criminals kept for use of law-enforcing agencies of the State. The bureau would be under supervision of the adjutant-general.

Advocates for a large State bond issue for the financing of a highway program have been "jewed down" to a much smaller figure. The committee of seven, sub-committee of Gov. Moody's committee of 31, agreed on a \$175,000,000 bond issue. R. S. Sterling of Houston, chairman of the highway commission, has advocated a bond issue of \$300,000,000. However, a road bond issue at this time seems improbable.

An inspection trip of the State penitentiary farms near Houston was made over the week-end by more than one-fifth of the members of the Legislature. The committee will make recommendations to the Legislature from the findings of the tour.

Manufacture of cement for highway construction in three plants to be established by the State is the recommendation made to the Senate by the State Board of Control. The plants would be located in various parts of the State in order to take advantage of freight rates and raw material. The highway department used about one and one-half million barrels of cement in 1928, it is estimated.

The repeal of the law prohibiting operation of motion picture theatres on Sunday is sought in a bill introduced by Representatives Dunlap, Enderby, Land and Harding. The unpopularity of the law is cited by the representatives, who say that thousands of people want Sunday

movies and are prohibited from having them.

The fight to repeal the search and seizure law brought a personal clash between two representatives during a debate on the measure Friday. Rep. E. J. Forbes of Parker county, a preacher, charged across the House floor toward Representative H. N. Graves of Georgetown, who had declared the bill was "an attempt to repeal the constitution." The enraged representative from Parker county had to be seated several times by the House sergeant-at-arms. The House was in an uproar of laughter at the incident, as Graves did not pay any attention to the preacher.

A rural aid bill appropriating \$5,000,000 for each year of the next biennium has been reported on favorably by the Senate finance committee. Senator Tom Pollard of Tyley is author of the bill. An appropriation of \$1,600,000 for each year of the present biennium was made by the 40th legislature for rural aid.

The Senate and House of Representatives continue to be in a deadlock over the question of when the appropriation bills shall be passed. The House has gone on record as favoring a special session for the passage of money bills, while the Senate insists on putting the appropriations through during the regular session.

## Local Buick Agency Sells To May Motor Company of Snyder

R. A. May, manager of the May Motor Company, recently of Snyder, has taken over the Colorado Buick agency, effective Saturday, January 26. May announces that his company plans to make the Colorado office district headquarters from which cars will be distributed through the Snyder and other county agencies.

Mr. and Mrs. May have moved to Colorado and expect to make their home in this city.

B. A. Allen, manager of the Allen Motor Company, former owners of the agency here, has returned to Sweetwater. Allen had been manager of the firm here since September, 1927.

## HIGH GRADE COTTON SEED

Carefully selected well matured seed from cotton which made from 1/2 to 1 1/2 bales per acre; of the Western Wonder variety 40 per cent and better lint, 7-8 to 1-inch staple, germination over 95 per cent. Will mature two weeks earlier than seed grown anywhere in the East or South, free from insects. Prices 12 to 48 bushels, \$2.25 per bushel. 51 bushels up to \$2.00 per bushel, 3 to 9 bushels \$2.50 per bushel, all in new three-bushel bags. Special prices on car lots. Freight prepaid.

Mail orders to Hall County Seed Co., Memphis, Texas. 2-15c

ORCHESTRA DIRECTED BY RAYMOND JONES BROADCAST SATURDAY

Concert Is Praised By Local Radio Fans Who Heard Distant Program

Several radio fans of Colorado heard the concert of the North High School Symphony Orchestra of Des Moines, Iowa, directed by Raymond W. Jones, son of Mr. and Mrs. J. Lee Jones of Colorado, broadcast over station WHO on Saturday afternoon from 5 until 6 o'clock.

The program was said by those who heard it to be equal to the work of professionals, and a large share of the credit for this goes, of course, to the former Colorado boy, who graduated from the Colorado High School only four years ago this spring and from Oklahoma University last spring. Jones is musical director in the North High School of Des Moines.

To show the type of music rendered by the group of high school students under Jones' direction, the following program, which was given at the orchestra's first concert under his direction, on January 13, and also broadcast Saturday afternoon, is copied from a Des Moines paper:

- Overture, Rosamonde—Schubert. Flute Solo, "Carnival Russe"—Clardi. Cornet Solo, "Serenade"—Drigo. Claire de Lune—Thome. Norwegian Dance—Grieg. Romance—Sibelius. Trio, "Largo, New World Symphony"—Dvorak. "Triumphal March of the Boyards"—Halvorsen.

Banner Company to Open Cream Station in City Next Week

Another industry to augment development of the dairy program is to be opened here within the immediate future, it was announced Wednesday by N. H. White, resident manager for the Banner Ice Cream Company. The company will operate a large cream depot at their plant on Main street.

Equipment for the station was ordered Tuesday, White stated, and should arrive in Colorado within the next few days. The company will establish a market for both sweet and sour cream just as soon as the plant equipment can be installed.

Announcement that the company would establish the cream market was made following a visit to Colorado of O. D. Dillingham of Abilene and O. L. Alexander of Breckenridge, owners of the Banner Company.

Mr. and Mrs. Bill Broadbuss went to Midland Thursday.

John Shaw Goes To Take Position With Cisco Firm

John Shaw, who has been associated with the Colorado National Bank here for more than three years, leaves this week for Cisco, where is to take a position with the Sivals Motor Company, Buick agency for Eastland county.

Shaw is the nephew of Mrs. C. H. Earnest of Colorado, and has made his home with Judge and Mrs. Earnest since coming here from Dallas. He served last year as secretary of the Colorado Country Club and was re-elected to that post again this year.

The vacancy left by Shaw's resignation as secretary of the club is to be filled by L. B. Elliott.

Business Man-Poet Writes Verse For Columns of Record

A. C. Whitaker, resident manager for the Texas Sand & Gravel Company, is one Colorado business man who finds apt diversion in the composition of verse. Poems from the pen of this writer are being carried in a number of publications. Recently he was awarded first prize in a contest staged by publishers of the Abilene Morning Reporter.

Under the caption, "Changes," Whitaker penned the following lines as follows: Tuesday. The lines are reproduced. "CHANGES"

Models, models, always changing. Every day finds something new. Always changing in our clothing, Or in anything we do. Even have to change our talking, If we keep up with the times, And before I finish this one, I may have to change my lines.

We may get a brand new something That we think the latest mold, But before we get used to it, Recent changes make it old. Buy a car of any model That you think the latest date Then go out to sport it off And see a later make.

Buy a dress that's just a picture, You believe the newest thing, And the first time that you wear it, Find the style of length has changed.

Rob yours a different manner, That's so new it has no name, You can see a dozen others With their hair cut just the same.

Buy a suit of clothes for Sunday, But before you get its worth Changing models make it old, And so you wear it out to work. Changing talking, changing dressing, Changing everything on earth, O, I wonder if they'll ever Change the manner of our birth!

BANDIT AUTO HELD IN STORAGE AT COLORADO, POLICE CHIEF STATES

Small Roadster Said to Belong To Member Pendleton Gang

Evidence that W. H. "Whitey" Walker, international desperado, spent two or three days in Colorado shortly before the Christmas holidays, has been developed by Dick Hickman, police chief. Hickman stated Tuesday that he was confident that the bandit had been here.

Hickman found an abandoned roadster parked on West Second street near the Barcroft Hotel about six or seven weeks ago and ordered the machine held at a local garage. The next day a small coupe, bearing a New Mexico license, was stolen from the curb in front of the Colorado Hotel on Walnut street.

The roadster carries Oklahoma license No. 338-635. Authorities at Seminole, Oklahoma, have reported to the local police official that the license number was issued to one W. H. "Whitey" Walker about a year ago.

"Records showing that the abandoned car was registered in Walker's name, coupled with the further fact that another car was reported stolen from here about the same time leads me to believe that the bandit paid Colorado a visit," Hickman said.

Arlington Woman Orders 6 Cans of Mitchell Chicken

A letter has been received by Mrs. J. Lee Jones, head of the Mitchell County Home Products Association, from Mrs. E. E. Davis, wife of the dean at N. T. A. C., Arlington, with a check for \$4.50 enclosed for a half dozen cans of chicken.

Mrs. Davis was formerly Miss Helen Hagens, State home demonstration agent of Texas. The cans will be shipped to her soon.

Hicks Men of Colorado Attend Sales Meeting

A. C. Connell, manager of the Hicks Rubber Co. here, R. B. Lovejoy and Ben Norwood attended the district sales meeting of the Hicks Company in Ballinger Saturday.

Connell recently returned from the State meeting in Waco, where he delivered one of the principal addresses.

CHILD KILLED WHEN AUTOMOBILES CLASH

Her head crushed when she was thrown to the pavement in an auto collision late Wednesday, Maurine Greenhow, age 4 years, was almost instantly killed, and her father, J. H. Greenhow, driver of the car, was slightly injured. Mr. and Mrs. J. E. Grimes, tourists from Florida, occupants of the other machine, were unhurt in the accident which occurred on East Broadway.

The Grimes were detained by officers pending an investigation of the crash.

The girl's mother died on Jan. 2. Mr. Greenhow had been visiting at the A. D. Harmon home here for several days, and was said to have been looking for a home for his daughter in order that he might go to work.

The child was in the back seat of the open car which her father was driving. Greenhow was making a left turn on Broadway when the car occupied by Grimes and his wife came from behind an approaching passenger bus and a terrific crash followed. Both cars were knocked across the curbs, on opposite side of the street. The girl's body was found on the pavement, with the skull crushed in, and with other injuries.

Funeral Held For Mrs. Burks Last Thursday

Funeral services were held Thursday afternoon in the Lone Wolf church north of Loraine for Mrs. Lilly Pearl Burks, 32, who died on Wednesday following an illness of two weeks. Services were conducted by Rev. W. C. Ashford, pastor of First Baptist church of Colorado, and interment was in the Lone Wolf cemetery.

Deceased is survived by her husband, a young farmer in the Lone Wolf community. None of her relatives were able to attend the funeral because of being ill with flu.

SHORT STORIES

By LITE UR VANE

C. E. Way evidences that he "shall remain faithful unto the last." Though brown drabies may be of small import at this season, Mr. Way may be seen on the streets wearing the once popular insignia of a "lost cause."

And now comes the information that one of the bad men who hijacked a Colorado taxi driver recently, appropriating a big six auto, was none other than "Blonde Cross," of desperate character reputation. Another added thrill for Oscar.

And, by-the-way, that reminds S. S.: Some one is telling the story that an automobile, said to have been the property of "Whitey Walker," noted outlaw arrested recently in Buffalo, is held in storage at a Colorado garage. This town is being placed in the limelight through other agencies than the dairy cow.

Miss Jewell Collier, member of the editorial staff on The Record, declares that the reason she is not going for cigarette advertisements is because she does not smoke.

We had just as well give Jim Greene credit for inaugurating the dairy cow program. Jim will assume the laurels anyway.

Wed Reid is welcome to the honor of "saving the country" down at Austin. S. S. prefers to remain in the quiet environ of a staid paragrapher than be drafted into the political pot woe being brewed by certain politicians about the capitol dome.

Fred Whipkey came to The Record office Saturday morning wearing a nifty new shirt, set off with an ornate tie. In addition, he had just visited the barber to receive a late design in hair trim and a shave. Give us more optimists.

The vocational training class, composed of the tired business man and his employee, had the initial recitation period Tuesday. S. S. admits there are several of these fellows in Colorado who should yet go to school.

Prediction is going the rounds that Rube Morgan, since his dual advancement to president of the school board and chairman of the board of deacons of the First Baptist church, will now come out sporting a bald pate. Colorado barbers are requested to take notice and aid our fellow townsman in this ambition.

R. B. STONE IN CAR BUSINESS IN SWEETWATER

DODGE AGENCY HERE TO BE IN THE HANDS OF W. L. JOYCE

R. B. Stone, who has had the Dodge agency in Colorado in charge for the past year and a half, is moving to Sweetwater, where he will be in the automobile business.

W. L. Joyce, who has been associated with the Dodge business here for some years, will have charge of the agency, which is owned by Hendrix-Woldert, for the present.

SMALL TOT DROWNED IN DIRT WATER TANK

A dog, dripping wet, was the mute appeal for aid that took Mrs. Clovis D. Calloway to a dirt tank a short distance from her home in the Plum Creek community Thursday, where she found the body of her 3-year-old son, Alvin Davis Calloway, partly submerged in the icy waters. Wading into the tank to rescue her baby, the mother was heartened by hearing a few gasps for life. But by the time they had made a swift drive to Sweetwater, after Mr. Calloway had been summoned and after futile attempts to secure telephone connections with doctors here, the last spark of life had died within the little one and it was a cold and lifeless body that the grief-stricken mother hugged to her breast when she entered offices of the Sweetwater clinic.

Interwoven with the tragedy, which brought severe shock and sorrow to many friends in the Plum Creek community and in Sweetwater, is the faithfulness of a dog to its little companion. It is believed the child, when wandering away from the house, was followed by the dog which was the helpless witness to the baby's plight. It was said the dog was dripping with water when it returned to the house—alone, and the animal perhaps made a losing fight to rescue the drowning child.

'Ace' Pendleton in Colorado Saturday Enroute Louisiana

"Ace" Pendleton, arrested last week in El Paso and said to be one of the most daring criminals of the entire country, passed through Colorado Saturday morning enroute to Shreveport where he is to face indictments charging bank robbery and other crimes. The elusive criminal was in custody of officials representing the Shreveport police department who had gone to El Paso for their quarry.

Ed Bailey, alleged member of the Pendleton gang, was arrested at Big Spring Monday by an official from the sheriff's department at Shreveport and has been returned to join his chief in facing charges against the gang there, at El Dorado, Ark., and other cities.

C. B. Reese And Wife Sail From South America

C. B. Reese, son of Mr. and Mrs. J. B. Reese of Colorado and brother of Mrs. John L. Doss, and wife set sail from Valparaiso, Chile, South America, for the States on Wednesday, January 16, according to information which has been received here. Mr. and Mrs. Reese are to visit here.

Reese has been with the Braden Copper Company in Rancagua, Chile, for some time as electrical engineer. The company has been forced to shut down activities for a short time because of damage done by the recent earthquakes there.

He formerly lived in Colorado, and married a teacher of the Colorado public schools, Miss Beulah Denman.

Glasscock-Howard Counties Seek To Increase Output

A hearing on the increase of the Howard-Glasscock county output from 25,000 barrels per day being asked by operators in this area was considered by the railroad commission at Dallas on Tuesday at 7:30 p. m., Adolphus Hotel. The matter of extension of the proration period for six months after February 15 was considered.

In a 30 days period ending January 16, 1929, the runs from the Roberts-Settles pool in Howard and Glasscock counties amounted to 880,622 barrels. The Magnolia Petroleum Co. loading in production with 116,503 barrels.

R. T. Piner, chairman of the proration committee, E. E. Andrews, proration umpire and deputy supervisor Laughter of Big Spring attended the meeting.

Midland Man Sets Good Example For Others to Follow

The Colorado chamber of commerce finance department is working on budget for the ensuing year. That the chamber will be financed is, of course, conceded. In this connection we reproduce an editorial from the Midland Daily Telegram, as follows: "It don't happen very often, just enough to make variety and lend spice to the usually arduous task of getting the people generally to see the light, to inspire them to become known by their works. We have reference to the action of one clear-thinking citizen who appeared before the chamber of commerce this morning.

"How much," said he, "do you apportion me in your \$20,000 budget drive?"

"Well, so much," was the answer, naming the sum.

"Not enough! Just double it, please. I want to see Midland do her mightiest, and I see no better way than through our chamber of commerce activities."

"And right then is when the newspapers of the town should have been on the job with a stenographer. Some good thoughts came out in the discussions that followed, but the one outstanding was seeing and acting right toward the activities of this civic and commercial organization. Criticize it, of course, if you have a constructive thought that differs from the institution's procedure, but do not fail to recognize that the chamber of commerce exists, was organized, and directs its entire energies to the well-being of Midland, Midland institutions, and Midland vicinity. That it errs occasionally is to be expected. It is of human conception and its activities are directed by the

thoughts of men. It must, for these reasons, fall short of perfection. "But it is a good organization. Its accomplishments are vastly worth while, and did all its members think of it, and act toward it as do men, Midland would tell the enhanced attractiveness all along broad ways of community and city progress."

### Four Gallon Cow Is Best Investment Farmer Can Make, Colorado Banker Says

"The 'four-gallon cow' is the best investment the Mitchell county farmer could possibly make." The declaration came in rapid-fire order from a prominent Colorado banker who, as chairman of the chamber of commerce finance department, is devoting much of his time and endeavor in support of the organization's project to change from theory to realization the much-discussed program of developing in this territory one of Texas' largest dairy producing sections.

"Yes, the 'four-gallon cow' is the most practical asset the farmer could have," said T. W. Stoneroad, Jr., the banker and chamber of commerce executive quoted in this interview. "And," he continued, "we have no place for lending encouragement to the cow of two-gallon capacity. She will only pay for her keep and must be discarded if Mitchell county is to be developed into a stable milk, cream and butter producing area."

In furthering support of his contention that farmers should engage in the business of dairying along practical business methods, Stoneroad stated that the banks of Colorado are insisting more and more that patrons of these institutions substitute cotton for pedigreed dairy cattle or poultry. He placed emphasis, however, on the dairy cow as the most important of the two.

"Colorado banks are in favor of developing the dairy industry here," he said. "They are in favor of this industry because they believe it will solve our problems quicker and more definitely than any other proffered solution could possibly do."

The chamber of commerce official augmented his statements to encourage development of this project through declaration that it would be an easy matter to create a market for cream, milk and butter here.

"Go into any of our groceries or butcher shops today and you will note stocks of butter, churned by a foreign creamery from cream produced by a foreign cow," he said. "It is just as practical and just as easy for the farmers of this country to produce with profit to themselves the raw product which enters into the manufacture of this commodity."

He sees through development of this industry an era of rural prosperity in Mitchell county not yet recorded here. An era in which farmers will "live at home" so to speak and look to their cotton solely as a surplus crop.

Stoneroad had no deductions as to possibility of establishing creameries, cheese plants and allied milk industries here, as the sequel to the building of a stable milk producing section, rather giving stress to the importance of producing the raw materials first.

### TEXAS SENATORS IN U. S. CONGRESS 1845 TO 1930

By ALVA O. HEARNE

The Record is running each week short biographical sketches of Senators elected to United States Congress from Texas. Students and others interested should follow the series from week to week. If clipped and placed in a separate book, these sketches will furnish valuable references on the political developments of Texas.

The seventh U. S. Senator was:  
**JAMES WINRIGHT FLANNAGHAN**  
1870-1875

James Winright Flannaghan was born in Gordonsville, Orange county, Virginia, on September 5, 1805. In 1814 he moved with his parents to Cloverport, Breckenridge county, Ky., where he received a limited education, and engaged in mercantile pursuits. He was justice of the peace from 1829 to 1833, during which time he studied law and was admitted to the bar. He practiced in the circuit court of Breckenridge county, Kentucky, from 1833 to 1843, when he removed to Harrison county, Ky. After spending one year there he settled in Henderson, Rusk county, Texas, where, it is recorded, he was the first to sell merchandise. He also interested himself in cotton planting.

Mr. Flannaghan was a member of the State house of representatives in 1851-1852, and served in the State senate in 1855-1856. He was a presidential elector on the Fillmore ticket in 1857. In 1866-1868 he was member of the State constitutional convention, and in 1869 he served as lieutenant-governor of the State.

He was elected to the Forty-first Congress from the State at large, but did not take his seat in the House of Representatives. He was elected as a Republican to the United States on the reconstruction of Texas, and took his seat on March 31, 1870. He served as chairman of the committee on education and labor, besides working as a member of the committee on mines and mining, and post offices.

When his term of office in the U. S. senate expired, on March 3, 1875, Senator Flannaghan retired to his farm near Longview, Texas, and occasionally appeared in court notwithstanding his advanced age of eighty years. He was an "Old-line Whig" before he united with the Republican party.

Senator Flannaghan died September 28, 1887.

Webster, a son of Senator Flannaghan, was born in Cloverport, Kentucky, on June 9, 1832, received a liberal education, studied law and was admitted to the bar in 1851. He became a prominent politician. In 1865 he was made judge of the 5th judicial district of Texas. He was elected to the State constitutional convention in 1869, and in 1871 he became lieutenant-governor of the State, an office which his father had held in 1869. He was chairman of the republican convention which met in Philadelphia in 1872. He served as a member of the Texas senate until 1875. In 1880 he was a Texas member of the "Grant guard" at the Chicago convention. He was a delegate to the Chicago convention of 1884 and supported General Arthur, who appointed him collector of internal revenue for the 4th district of Texas in 1884, which office he held for a year, and thereafter devoted himself to his stock farm, introducing fine horses and Jersey cattle into the State. From 1876 to 1880 Webster Flannaghan was president of the Henderson and Overton railroad.

#### Honesty Pays

"Yesuh, I see dems proved dat honesty is de best policy after all."  
"How?" demanded his friend.  
"You 'member dat dawg I took?"  
"Sho, I 'members."  
"Well, suh, I tries fo' two whole days to sell dat dawg and nobody offers more'n a dollah. So, like an honest man, I goes to de lady what owned him an' she gives me \$3.50."

#### ASK MOTHER

There are many, very many, mothers who through the years have proved the power of

#### Scott's Emulsion

of pure vitamine-bearing cod-liver oil to help nourish and strengthen the poorly-developed child. It is abundant in the vitamins that are so essential to the welfare of children and adults.

### Many Go To Annual Meeting Sweetwater Club Friday, Jan. 25

(From Sweetwater Daily Reporter)  
Ed J. Darley, local wholesale grocerman, was elected president of the Sweetwater Club, Joseph F. Leopold, manager of the Southern and Central divisions of the United States Chamber of Commerce, talked about civic pride and beautification of cities and Col. R. Q. Lee of Gisco, congressman-elect, told the people he wanted to revive Sweetwater and the West Texas of his 17th Congressional district when he goes to Washington next month to take his office, comprised most of the program of the annual banquet of the Sweetwater Club and Board of City Development held Friday night at the Blue Bonnet Hotel roof.

M. B. Howard, retiring president of the Sweetwater club, acted as the toastmaster and after a fine chicken dinner, introduced Mayor C. W. Bryant who welcomed the visitors in a short enthusiastic address.

"We are glad to entertain you and are inspired to see so many visitors from our neighboring cities," the Mayor said. "Many of you have driven great distances to attend this meeting and we hope you enjoy yourselves and come again."

There were a number of visitors present, about 50 from some 13 West Texas cities and towns. Towns represented were Lubbock, Cisco, Breckenridge, Eastland, Blackwell, McCaulley, Roby, Snyder, Rotan, Colorado, Roscoe, Sylvester and Maryneal. Bankers, merchants, oil men, chamber of commerce, livestock, dairy and grain farmers and ranchmen were included in the various delegations. Jack Armstrong's Ports Five orchestra furnished music.

Bill Cooper of Colorado, delivered a short message from Andy Bourland, president of the West Texas Chamber of Commerce, and Homer D. Wade, manager of the organization, in which he told of the campaign now being waged to interest West Texans in land litigation now pending in the present legislature.

Mr. Bourland and Mr. Wade had intended to attend the meeting but speaking dates along the Rio Grande prevented Mr. Bourland from attending and Mr. Wade was called back to Fort Worth early Friday afternoon.

Blank books of all kinds at the Record office.

### BUFOOD BULLETIN

The number of pupils enrolled in our school has been greatly increased since Christmas. We now have 87 pupils enrolled, and all the rooms are filled to overflowing. The following pupils were on the honor roll this month:  
First Grade—Mildred Feaster.  
Second Grade—Mary Lois VanStory, Lodena Feaster.  
Third Grade—Fernal Roberts, Archie Feaster.  
Fourth Grade—Fay Bedford.  
Fifth Grade—W. G. VanStory.  
Rev. Mr. H. Bloodworth, the Baptist

pastor, delivered two very inspiring sermons here Sunday. The singing at the church Sunday afternoon was well attended. Mr. and Mrs. B. Bullard are visiting in Lamesa. Miss Vivian Glover and Mr. Hubert Powers of Conway visited Mr. and Mrs. E. T. Powers last Sunday. Mr. and Mrs. Russell Cosper have been visiting in Midland the past week. Mrs. Woodward and daughter of Bonham are visiting Mr. and Mrs. F. Woodward here. Misses Edna Wilson and Thelma Pittman visited in Abilene Saturday.

### Let's Find Out

ONCE the Joneses drove 30 miles to visit cousins who weren't at home!

So now they find out first. A Long Distance call—to just anyone at the distant residence—assures them a ready welcome.

Station-to-station service\* makes it reasonable. You talk with whoever answers the telephone—don't specify a particular person.

If you give the number it's quicker!

## The New Senior Six

### Larger, Roomier and Faster With Distinguish Quality, Through and Through

Examine the outward beauty of Dodge Brothers new Senior, or investigate its structural goodness—the conclusion is inevitable—a car of distinguished quality, through and through!

Every part reveals traditional Dodge quality—the foundation of dependability and long life. Every line, sweep and curve reflects the genius of motordom's style creators, guided by Walter P. Chrysler.

The new Senior is larger and more roomy than its splendid predecessor—and Senior performance today is still more impressive.

The new Senior line of eight beautiful body styles presents an unusual opportunity for the exercise of personal tastes. Satin-finish hardware, specially designed for this great Six, is but one important item of the Senior's complete appointments.

## Hendrix-Woldert Co.

## 'Up To The Farmer; The Bank Is Ready,' Says Colorado National Vice President

"Conversion of Mitchell county from the uncertainty of farm progress and prosperity into assurance of success through substitution of the dairy cow for cotton, is up to the farmer. The bank is willing to lend the same material support to this project as has been our policy in supporting every worthwhile venture calculated to bring better times to the public of this city and county," in brief summaries the attitude of J. M. Thomas, active vice president of the Colorado National Bank.

Mr. Thomas was expressing his views of the chamber of commerce program to bring 100 pedigreed dairy cows into this county, to be distributed among farmers who would interest themselves in the industry of producing milk along scientific business principles.

And in that statement, this Colorado banker has not failed to make his position clear. He sees in the proposed transition of things the dawn of a new day in the prosperity column for this county. He, in fact, assumes the role of leadership to foster such a change, and goes on record to state that from here out the program is up to the farmer.

"The farmers of this county will never get above highwater, so to speak, until they adopt the 'live-at-home' plan, and, in addition to providing the home larder with such necessities of life as may be produced on the farm, produce something to sell in town. There is no danger of an oversupply just now. The farmer of this territory should supply this market with such produce as may be required.

"Facts and not fiction support the plan to bring dairy cows and poultry to the farm," Thomas declared. "There is never a day in this modern age but that the average citizen receives scientific information, based upon fact, through the public press and over the radio, supporting the policies we advocate. The gospel of diversification is familiar to us all."

It developed that Mr. Thomas had given this national question considerable study. He cited a number of States of the Union in which farmers are engaged in dairying and other lines of diversification, concluding his reference to them all with the statement that farmers so engaged were the owners of good homes, a bank account and a stable credit.

"Look at Michigan, Colorado, and some of the other states I might mention," he said. "Michigan is produc-

ing about 80 per cent of the cheese manufactured in America and federal statistics show that the Michigan farmer is the most prosperous farmer in the union. What farmers of that State, of Colorado, Kansas and others are doing, can be done in Mitchell county.

"We are for diversified farming in this county."

## Longfellow Locals

On Friday afternoon, January 25, at 3:30 o'clock, a Parent-Teachers' association was organized at the Longfellow school. Miss Ruby McGill, county superintendent, made an interesting talk on the State and National P. T. A. A. K. McCarley was made temporary chairman, after which the following officers were elected: President, A. K. McCarley; vice president, Blesse Hearn; secretary-treasurer, Lelesene Hearn. The third Friday night in each month was decided upon as the time for each meeting.

After the meeting, the basketball games were played between Horns Chapel and Longfellow. Longfellow girls won, 20 to 8. Both the boys' games went to Horn's Chapel, the scores being 4-0. We have some real basketball players this year.

Charley Walker, a fifth-grade student in our school, won the \$25.00 watch for growing the most cotton on one acre of ground in Mitchell county. Charlie is a real worker in the school, and is just as energetic at home.

Mr. and Mrs. C. C. Hall of Snyder spent Sunday in the home of Mr. and Mrs. W. S. Walker.

Miss Lora Rogers was a guest in the L. L. Bodine home the past weekend.

Mr. and Mrs. A. K. McCarley, accompanied by Misses Daiton and Ibel Hudson, spent Sunday in the home of Mr. and Mrs. S. H. Hart in the Valley View community.

Percy Felts is driving a new Ford car.

Messrs. Wood Walding and Melvin Westbrook are moving the Longfellow telephone lines from the highway.

Mr. and Mrs. J. B. Green of the Valley View community were guests in the A. K. McCarley home Sunday. Lelesene and Blesse Hearn were guests in the R. L. Cathcart home Sunday.

Horace Smith spent last week in

## NOTICE OF DISSOLUTION OF PARTNERSHIP

This is to notify the public that we, the undersigned, have sold all our equity and rights in the Huron Dorn Tailoring Company to Huron Dorn, who now has charge of the business.

In selling this equity to Huron Dorn, we, neither of us, accepted liability for payment or adjustment of any outstanding debts against the firm. It is also specifically understood that Huron Dorn, through provisions of this deal, receives exclusive ownership of all assets owned by the company, including any and all bills due the company on account or otherwise, and that same are due and payable to his order.

This dissolution is in force and effect on and after January 11, 1929.

M. E. CARTER.  
J. R. NORRIS.

## Badly Run-Down

"Six years ago, I was very much run-down," says Mrs. Olympia Knight, of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health. I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. It was astonishing how much I picked up. I slept better, my appetite improved, and that awful dragging-down feeling left me. I was so much better that I continued taking Cardui until I felt perfectly well." Cardui has been used by women for over 50 years. For sale by all druggists.

## CARDUI

Helps Women To Health

Take Cardui's Black-Draught for Constipation, Indigestion and Bloating.

Dallas and Fort Worth.

Mr. and Mrs. W. R. Woods spent Sunday in the home of Mr. and Mrs. John Riggs of Lone Star.

Mr. and Mrs. J. M. Hambriek visited in the home of his parents at Horn's Chapel last Sunday. Following are the names of pupils who were neither tardy or absent during January: Harvey Baker, Dennis Walding, Geraldine McCarley, Lillian Gale.

B. W. Jackson and L. M. Hearn of Cuthbert visited at the teacherage Thursday evening.

## Conoway Items

Friday morning, about 9:30, the school house collapsed with a big fire. There wasn't anyone injured. The principal's desk, piano, school bus, gas lanterns, basketball, and only a few books were saved. We are very thankful that the piano, which was bought this year, was not destroyed. The teachers, with the help of the community, has worked hard paying for the piano. The teachers, trustees and patrons of the community met at the home of Mr. and Mrs. W. E. Smith Saturday night and decided on replacing the building with a brick-veneer structure with 6 rooms and a large auditorium. A tabernacle of 4 rooms will be built this week by the community, so that the school work may be continued this year. The work for the new building will begin immediately. The loss was estimated at about \$100,000 to the school. Conoway had one of the best libraries in the county. By the splendid teaching of Mr. H. P. Powers, principal; Mr. Nolan E. Vance, and Misses Irene Bledsoe and Velma Cherry, the school has been a wonderful success this year.

C. C. Hart, who has been sick for some time and has been staying at Colorado taking treatment from the doctors at Temple, through Dr. C. L. Root, has moved to Westbrook, where he will be under treatment of Dr. Johnson. Mr. Hart is now slowly improving and we hope that he will continue so that he can return to his home here soon.

Miss Margaret Sweatt is visiting relatives at New Hope this week.

B. F. Palmer and son, Lawrence, left Sunday to visit relatives in Glade-water, Texas.

Ottie Conoway visited friends at Spade Sunday afternoon.

Messrs. Dennis Conoway and Nolan Vance attended singing at New Hope Sunday night.

Ronald J. Armstrong visited Ennis and Kenneth Rogers Sunday afternoon.

The Conoway girls' basketball team will play New Hope Friday afternoon on the Westbrook court.

James T. Armstrong was a business visitor in Big Spring Monday.

Mr. and Mrs. P. P. Armstrong have moved in their new home, which was built recently.

Miss Maxine Sweatt visited Miss Louise Palmer Sunday.

Aubrey and Lee Phillips visited Ennis and Kenneth Rogers Sunday.

Miss Clara Shaffer, who has been ill with pneumonia, is improving, but slowly.

## MRS. VAUGHN COMES HOME FROM MARLIN

Mrs. Ella Mae Vaughn, who has been very ill for the past four months, came home from Marlin, where she has been under treatment, last Friday night.

Mrs. Vaughn is to return to Marlin sometime soon. Her condition is thought to be somewhat improved, but she has the flu now.

## Sore Gums-Pyorrhea

**Pontiac Big Six Models Be Shown By A. J. Herrington; Many Refinements Added**

Fulfilling advance promises of big car performance, big car appearance and big car value, the Pontiac Big Six, essentially a brand new car from radiator to tail lamp, went on display today at the showrooms of A. J. Herrington, local Oakland and Pontiac dealers.

Chassis improvements that give the car flexible performance comparable with cars in a higher price range with bodies styled along entirely different lines, distinguish every model in this newest General Motors line.

While only rounding out its third anniversary, the Pontiac Six enters upon its fourth year a definitely established volume leader, in which position officials of the Oakland Motor Car Company are confident it will more firmly entrench itself by reason of the extraordinary value evident in the car for 1929.

All bodies are entirely new, the line including a 2-door sedan, 4-door sedan, coupe, sport roadster with a folding rumble seat, sport phaeton,

convertible cabriolet with folding rumble seat, and a landaulet sedan. The last two types are innovations in the Pontiac line, having the appearance of custom-built bodies.

Outstanding features contributing to the extraordinary performance of the new car are a larger and more powerful engine; new counter-weight crankshaft; new harmonic balancer; new internal self-energizing brakes; new rear axle; new transmission; a larger carburetor, intake manifold and valves; wider springs with new shackles self-adjusting for wear; increased valve lift, and new Hotchkiss drive.

Striking new body creations by Fisher impart to the entire line individuality and custom-like features entirely new in the Pontiac price class. From the gleaming high radiator shell to the gracefully molded rear panel, harmonious lines and brilliant chrome finished exterior hardware radiate smartness, distinction and individuality.

The shell of the radiator, narrow and built up to 25 inches in height, gives to the front the appearance of power and fleetness borne out by the performance of the car. No emblem or name plate marks the front of the radiator shell, but the familiar "Chief Pontiac" radiator cap ornament is retained. A chrome plated bar extends vertically from bottom to top of the radiator core.

Large fenders, full crowned and with a beaded edge, flare out in a graceful sweep over the smart low wheels. A forged fender tie rod replaces the pressed steel rod and lamp support formerly used. Headlamps on four body types come in full chrome plate, while on the remaining models the rims are chrome plated.

A full side view shows to best advantage the original lines of the new car. The slightly arched window de-

sign, with new paneling effect between the windows; a high waist line and unique new concave moulding distinguish the Fisher bodies. This new belt moulding starts at the cowl and completely encircles the body. It is not continued down the hood, as in the Oakland models, but a new curved pillar line, quite similar in appearance to one of America's costliest cars, runs from the center panel on the cowl down to the rear of hood.

A smart new louvre grouping sets the car instantly apart in traffic. Instead of in the conventional manner, all are grouped in one panel and extend horizontally across the hood.

A slender and brilliantly finished cowl band with parking lamps adds to the exterior beauty of appearance.

All closed bodies have adjustable driver's seats, smart new sun visor, slender ebony finish 17-inch steering wheel, ebony finish instrument panel dominated by two hooded bulbs, a Delco-Remy combination transmission and ignition lock on dash, depressible beam headlamps operated by foot control, new approved combination tail light, stop light, and license support, larger Delco-Remy motor-driven horn, automatic windshield cleaner, rear-view mirror, theft proof door locks and exclusively designed running-board mats.

Upholstery material in the closed models is of mohair, corduroy, or velvet in solid colors matching the smart new exterior Duco combinations. Open types are upholstered in Spanish leather trimmed in Fabrikoid, with tops of gray cloth.

Massive ten-spoke artillery wheels with large hubs and flanges and 29 by 5.00 straight-side balloon tires are standard on all models. Special equipment consisting of six wire wheels with an extra wheel mounted on each front fender, may be had with all models at slight extra cost.

The proven cross-flow radiator, introduced to the industry for the first time at the 1928 automobile show on the Pontiac Six, is retained but in larger size. The frontal core now totals 398 square inches. Thermostatic water temperature control is built into the water outlet on the non-deionating high compression G-M-R cylinder head, which is retained in two sections.

The increased bore and stroke of the larger L-head engine develops 57 brake horsepower at 3000 R. P. M. Cylinder displacement is 200 cubic inches against 186 last year, and the bore and stroke measure, respectively 3 5/16 by 3 7/8 inches.

The redesigned crankshaft, statically and dynamically balanced, is fully counterweighted to accommodate the increased power output of the engine. The crankshaft and counterweights total 53 pounds.

A new harmonic balancer, similar in principle and design to the one developed for the Oakland All-American Six, is fitted to the latest Pontiac to eliminate any vibration or crankshaft torsion likely to be developed by the enlarged power plant. The balancer is mounted on the front end of the crankshaft, outside the fan drive pulley.

The new and larger three-port intake manifold, the larger vertical type carburetor with accelerating pump and fuel economizer for normal driving speeds, and enlarged intake valves, all are major factors in the better performance of the new car. The intake valves now are 1 1/4 inches in diameter, thus reducing restriction, while an improved camshaft increases the valve lift to 5-16 of an inch. Dampers prevent the "chattering" of valve springs at the higher engine speeds and assure uniformly efficient valve operation at every speed range. A new quieting curve worked out for the camshaft also makes for silent valve action.

The oil pump circulates 175 gallons an hour at 25 m. p. h., while a safety drive feature incorporated in the oil pump and distributor prevents damage to the engine should the oil pump cease to function properly.

Lubrication of the main and connecting rod bearings is by pressure feed known as the regulated constant flow type. A stream of oil under pressure also lubricates the timing chain, while other parts are splash lubricated.

Fuel pump, gas filter and air deflector continue as standard engine equipment, as does the pressure-suction type crankcase ventilator, which draws water vapor from the crankcase, delivers fumes beneath the car and renders unnecessary a change of oil every 500 miles.

Improvement in the transmission

include a ten spline main driving shaft, which decreases wear because of the larger friction and driving surfaces between the shaft and sliding gears. More accurate gear alignment and consequent reduction of gear noise is another advantage.

A new gear tooth form gives an increased length of sliding contact, resulting in quieter gear operation at all speeds and decreased wear because the load is distributed over a greater tooth area.

A sturdy new rear axle of exactly the same type as used on the current Oakland model marks another important feature of the new Pontiac. It is semi-floating, with spiral bevel drive gears, and heat treated chrome nickel steel shaft.

Along with the stronger and better rear axle a change was made from the torque tube drive formerly used to the Hotchkiss drive principle, thus adding the advantages of the Oakland type drive to the Pontiac. Accordingly, the new Pontiac has two universal joints and a tubular drive shaft.

Brakes denote decided advantages over those formerly used. They are the new Oakland-developed mechanical type, internal expanding on all four wheels, and self-energizing.

Advantages claimed for the new brakes are permanent silence under all operating conditions; complete enclosure of all working parts; not affected by mud, dust or water or

changes of temperature, ease and simplicity of adjustment; 5000 to 10,000 miles between adjustments; 20,000 to 30,000 miles on each set of

linings; no drag in simplicity of working parts; two working parts (Continued on p. 1)

**John Deere Horse Drawn  
DISC PLOWS**

POINTS OF MERIT

1. Penetration obtained mainly by weight of operator and pull of team. Not by excessive weight of plow.
2. Front furrow wheel controlled by lever. Foot latch permits rear wheel to caster when turning.
3. High-speed, oil-tight, dust-proof chilled bearings keep discs revolving freely.
4. Adjustable scrapers can be adjusted to meet conditions. Prevent excessive pressure on discs.
5. Two settings for discs to meet hard or loose ground conditions.
6. Convertible frame. One, two or three discs may be used. Adjustable to width of cut.

POINTS OF MERIT

7. High hitch on spring hitch plate. Flexibility prevents discs from jumping out of ground. Rough, uneven ground can be plowed.
8. Rear of frame can be raised with lever when transporting plow over tracks, uneven ground, etc.
9. Best materials. Frame made of plow beam stock. No useless weight.
10. All-steel evenner, steel single-trees. Self-locking steel trace hooks. No breakage. No wearing out.
11. Cast wheels. V-shaped tires, oil tight, dust-proof boxes. Hold plow to work. Wheels are interchangeable. Wheel weights or flanges furnished extra when needed.

**The Dairy Cow  
comes to Texas**

Probably no development is as widely important to Texas today as is that of dairying. The dairy cow brings ready money to the farmer, cash trade to the retailer, increased deposits for banks; greater buying power to all the people; paves the way for various types of industries; establishes agriculture on a permanent basis; encourages the building of good roads; improves school attendance; and, in short, makes for a balanced development of Texas which is beneficial to all the people.

From all over the state word comes from editors, educators, bankers, business men and farmers alike saying that the dairy cow is the salvation of Texas agriculture. Cities endeavoring to build themselves are turning a helping hand to the farmer, realizing that a balanced development is permanent. The Texas Electric Service Company welcomes this change in Texas agriculture and in the attitude of business toward farming.

# IMPORTANT NOTICE

As is usually the case some confusion always follows a change of policy in transacting business. Hence this announcement:

For a number of years Miller's Market has been doing a limited credit business and maintaining a delivery service. Our delivery service has been costing a high per cent to maintain and after taking all ordinary precautions we have also lost a good per cent on bad accounts. This percentage the good customers has had to pay. Now, in order to meet the rapidly changing conditions, not only in Colorado, but all over the nation, where nearly every town has a number of cash stores, we find it necessary to suspend our delivery service and go on a strictly cash basis.

## FEB. 2, 1929

Our relationships in the main have been pleasant and we regret that it is necessary to take this step. But in order to stay in business and still give you a high quality product we are now notifying you that Miller's Market

# STRICTLY CASH BASIS

And ask that all our Friends and Customers take note of this fact.

We have just moved into new quarters and are in better position to serve you and by the cash method of doing business we will be able to give you the same high quality products at a much lower price. We are here quoting you prices that we believe you will find to be beyond competition.

## Ft. Worth Men Killed In Plane Crash At San Angelo Airport

Three Fort Worth men were killed instantly in an airplane crash at the municipal flying field at 5:30 p. m., Thursday. The ship apparently was attempting to land with the wind when it sideslipped. The dead are: Al Henley, Dole race flier.

W. E. (Chick) Shyles, manager of the Majestic Theatre in Fort Worth. Don Frazee, outfielder on Shreveport baseball team and former baseball player at T. C. U.

They were in a plane piloted by Henley, and left Fort Worth Thursday afternoon as advance agents for an aerocade of eight or more good-will airplanes that were scheduled to leave Fort Worth Friday morning.

The aerocade was to help celebrate opening of San Angelo's municipal airport.

The aerocade trip was cancelled when news of the crash reached Fort Worth.

The large Ryan brougham plane circled about the city for some time before proceeding to the airport, south of the city, to land.

The plane crossed over the airport with a northwest wind. At the far end of the field an airplane circled to turn into the wind for landing. As it turned at an altitude of about 100 feet in the presence of more than 1,000 persons, the ship fell and crashed nose on.

### RESOLUTIONS OF RESPECT

Whereas, in the untimely death of Companion S. A. Sloan, a member of this Chapter, Royal Arch Masons, who was beloved by his companions as a true and just Mason, and by the citizenship of this community as a citizen of the highest order; and

Whereas, in his passing from among us, Colorado Chapter, Royal Arch Masons No. 175, has lost a supporter of the mandates and traditions of our ancient order whose place will be hard to supplant, therefore:

Be It Resolved, That we, his fellow companions and friends, express our keen sympathy to members of his bereaved family in this sad bereavement, and, further:

Be It Resolved, That we bespeak for the good of Masonry the setting as our goal some of the noble characteristics which were his in life as a Mason and a citizen and seek to emulate as our ideals the tenets which he so truly advocated as a companion in our order.

Be It Further Resolved, That a copy of this resolution be supplied members of the family of the deceased; a copy spread on the minutes of this chapter, and a copy furnished the Colorado Record for publication.

Respectfully submitted,  
J. LEE JONES,  
GEORGE RINKAR,  
Committee.

Legal size paper at Record office.

Only keep your skin healthy—and it will be lovely

ELIZABETH ARDEN'S method only aims to keep the skin healthy, to quicken circulation through the tissues, to stimulate the action of the pores. But, in consequence, the skin grows lovely. For every step of the Elizabeth Arden Treatment enlists the aid of nature to prevent and correct wrinkles, coarseness and other blemishes. You can follow the method of an Elizabeth Arden Treatment every morning and night at home, cleansing, toning and nourishing the skin with Elizabeth Arden's Venetian Cleansing Cream, Arden's Skin Tonic, Venetian Special Astringent and Orange Skin Food.

## Improved Uniform International Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago, (c. 1929, Western Newspaper Union.)

### Lesson for February 3

#### THE HOLY SCRIPTURES

LESSON TEXT—II Tim. 3:14-17; Ps. 119:105-108  
GOLDEN TEXT—Open thou mine eyes, that I may behold wondrous things out of thy law.

PRIMA TOPIC—Our Bible.  
JUNIOR TOPIC—Our Bible.  
INTERMEDIATE AND SENIOR TOPIC—Why Read the Bible?

YOUTH PEOPLE AND ADULT TOPIC—What the Bible is For.

I. The Scriptures Are Divinely Inspired (II Tim. 3:16)

The first thing to be settled concerning the Canonical Scriptures is their inspiration and authority. In the Scriptures God is at sundry times and in divers manners speaking to man (Heb. 1:1). Paul in this passage declares them to be "God breathed," meaning that the utterances of Holy Writ were God's breath in men's mouths. The Holy Scriptures do not merely contain the Word of God, but are in verity the message of God to men.

The main cause of the moral breakdown of society is that men have been robbed of their faith in the Bible as the authoritative message from God.

II. The Value of the Scriptures (II Tim. 3:14-17)

1. Able to make wise unto salvation (v. 15).  
Salvation is in Christ alone. It is secured through faith in His finished work on the cross. True wisdom leads to Christ crucified, since there is none other name under heaven given among men whereby we must be saved (Acts 4:12), and without the shedding of blood there is no remission (Heb. 9:22).

2. Disciplines the life (vv. 16, 17).  
In this "doctrine" is set forth the necessary standard of conduct. The only place to find the teaching of God is in His Holy Word. It not only sets forth a standard of life, but it improves—confutes error. The way to deal with error is not by denunciation but with a positive presentation of truth. The Word corrects (Acts 13:12), and without the shedding of blood there is no remission (Heb. 9:22).

3. Right.  
The precepts and judgments of the Lord are expressions of absolute righteousness. They fill the believer with rejoicing.

4. Pure.  
There is in it no mixture of error. It makes no compromise with that which is untrue. Because of this it enlightens the eyes.

5. Clean.  
The Word affects the life. Its cleansing is from within and from without.

6. True and righteous.  
The decisions of God's Word are true, without exception. The judgments of God's Word are unimpeachable. Because of these qualities God's Word is more to be desired than the choicest gold. Obedience thereto brings great reward.

IV. The Prayer of the Believer (Psa. 10:12-14)  
The life brought face to face with God's Word is seen as sinful. The soul cries out for

1. Cleansing (v. 12)  
The perfect laws reveal the imperfections of the life. The Word of God reveals sins of which the individual may be ignorant (Psa. 6:5).

2. To be kept from presumptuous sin (v. 13).  
Presumptuous, arrogant sins are peculiarly dangerous. In the Mosaic economy no sacrifice was provided for such sins.

3. Freedom from the dominion of such sins (v. 13).  
How awful is the slavery of those who are in bondage to presumptuous sins.

4. That the words of the mouth and meditation of the heart be kept acceptable in God's sight. From how many dangers the believer would be freed if the words and meditations of the heart were kept in line with the Holy Scriptures.

#### Our Possessions

I will place no value on anything I have or possess, except in its relation to the Kingdom of Jesus Christ.—David Livingstone.

#### Let It Rather Be Healed

Lift up the hands that hang down, and the feeble knees; and make straight paths for your feet, lest that which is lame be turned out of the way; but let it rather be healed.—Heb. 12:12, 13.

#### Hopelessness of Hypocrisy

For what is the hope of the hypocrite, though he hath gained, when God taketh away his soul? Will God hear his cry when trouble cometh upon him?—Job 27:8, 9.

## DODGE TRUCK HAS WORLD'S LARGEST LOUD SPEAKER

The world's largest community loud speaker, valued at \$15,000 and representing more than three years of experimental research work, has recently been perfected and installed on a Dodge Brothers truck by a Los Angeles concern.

The instrument belongs to a firm of brak engineers and was built to publicize their own business. It had hardly been completed when they were swamped with demands for its rental. Just now the truck, a 1 3/4-ton model of the extensive line built and sold by Dodge Brothers division of Chrysler Motors, is being used by the Dodge dealer in Los Angeles to introduce the new Dodge Brothers Six, now being displayed in this city by Hendrix-Woldert, local Dodge Brothers dealers.

The loud speaker operates on a new principle. It is possible to "step up" the volume until it is clearly audible four miles away. The remarkable thing about it, according to engineers who have inspected it, is that there is no distortion of sound even when the big horn is broadcasting full blast.

By the mere twisting of a dial in the control room, which has been constructed immediately behind the driver's cab, the sound can be cut from its four-mile volume to a whisper.

The apparatus is so constructed that it is adaptable to the amplification of radio programs, to the playing of records in the control room or to making announcements over a microphone in the truck itself.

### JOHN WILSON JARRELL

John Wilson Jarrell, 35, of this place, died Thursday, Jan. 24, at the Root Hospital from an attack of flu and pneumonia.

Mr. Jarrell had been in the service of the Texas & Pacific for more than 15 years in the capacity of extra gang and section foreman, having moved from Sierra Blanca, Texas, to this place in 1925.

During the world war Mr. Jarrell was section foreman at Eagle Flat, a small way station on the Western division of the Rio Grande division. It was at this place that his wife, who seeing a bridge burning near the section house, left her young baby in its cradle and ran to the bridge and flagged and stopped two troop trains just in time to prevent the first train from plunging into the burning debris. Mrs. Jarrell was complimented very highly by the officer in charge.

## AUTOMOBILE LOANS

We handle automobile loans in any amount from \$50.00 up on any make of car. Quick service; reasonable rates, and all negotiations strictly confidential.

**Harris Toler Motor Co.**  
300 East Second Street

and by the officials of the railway company for this heroic deed. Since residing in Colorado Mr. and Mrs. Jarrell have made a host of friends.

### EVANGELIST SINGERS AT BAPTIST CHURCH SUNDAY

Mr. and Mrs. Armstrong, who sang in Colorado last summer in a Baptist revival, gave a very enjoyable program at the Baptist church Monday evening. Mr. Armstrong will be remembered as a singer and Mrs. Armstrong for the wonderful scripture lessons she gave each morning during the revival.

Monday evening Mr. Armstrong announced that they were returning from California and when they found Colorado was on their route they could not resist stopping.

After a prayer by the pastor, Mr. Armstrong sang several numbers, then he and Mrs. Armstrong sang together. Their traveling companion, a Rev. Mr. Wade, was introduced and he spoke on "Keeping the Joy Bells Ringing." This was a real sermon on happiness in religious service, in the

honte, the church and the world. The meeting was closed with a song by Mr. Armstrong. Mrs. Meskimen played for the singers.

### SCARBOROUGH-TAPP

Mr. Oma D. Scarborough and Miss Signa Blanch Tapp, both of Big Spring, were married in Colorado Sunday night by Rev. J. E. Chase. They were accompanied by Mr. and Mrs. Kirby Miller.

Banker (talking to negro customer)—You have sold all your cotton and you want a loan this early?  
Rastus—Yes sah, de ducks got it?  
Banker—The ducks got it? What do you mean?  
Rastus—Dat's right, cap, de ducks got it. Dey deducted fo' freight, deducted fo' weighing, deducted fo' sterilizing, and deducted fo' commission. De ducks got it all.

### WESTBROOK NEWS

LOCAL AND PERSONAL NEWS ABOUT WESTBROOK AND VICINITY BY MRS. N. A. TERRELL

Mrs. Terrell is also authorized to receive and accept for all subscriptions for The Colorado Record and to transact all other business for the Whipkey Printing Company in Westbrook and vicinity. See her and take your County paper.

### BURTON-LINGO COMPANY

Lumber and Building Materials  
Lowe Bros. Paints and Dupont Duco Lacquer  
Westbrook, Texas

Don't forget the special program to be given at the schoolhouse Friday night by the P. T. A. There will be readings, popular songs, chalk talks, etc., all of which you will enjoy, so don't forget!

Ladies of the Missionary Society will have pies and baked hen and dressing for sale next Saturday. All those wishing some, will notify Mrs. C. C. Curry. We met with Mrs. L. E. Gressett Monday, with 22 present. We will meet next Monday with Mrs. Albert Young, at which time there will be a business session, followed by a social hour. We miss you when you are not present, so come next Monday.

Rev. and Mrs. Naugle attended the Missionary Institute at Sweetwater last Wednesday. Miss Gladys Webb of Colorado spent the week-end with friends in Westbrook.

Mrs. Tucker Hillier and children visited Mrs. Hillier's mother, Mrs. Pruitt, near Blackwell, several days last week.

Mrs. L. E. Gressett and wife and Mrs. E. P. Gressett and daughters visited relatives near Big Spring last Sunday.

Roy Detrich and family, formerly of this place, are guests of Mr. and Mrs. Wilbur Bowers this week.

We are requested to announce that there will be singing at the Epiphany tabernacle Sunday afternoon. Everyone is cordially invited to attend.

Mrs. E. V. Bell and daughters, Claudie and Veta, were Sunday guests with Mrs. Bell's father, Mr. Hooks, near Colorado.

Miss Gladys Spikes and Mrs. Fay McCallum of Loraine were guests of their sister, Mrs. Burr Brown, Sunday.

Fletcher Brown, who has been suffering since last March as the result of a serious accident in which he lost one limb below the knee, submitted

to another operation Tuesday at the Root sanitarium, at which time his limb was amputated above the knee. He stood the operation well and it is his earnest hope of his many friends that he will soon be up and about.

Two of the best basketball games of the season were played at Colorado last Thursday night between the Lorraine and Westbrook teams of both boys and girls. Both games, which were close and hard-fought, resulted in a victory for Lorraine.

Tuesday afternoon the girls team from Carr played the Westbrook team on the latter's court. The score was 21 and 12 in favor of Westbrook.

Mid-term honor roll as follows:  
Fourth Grade—Johnnie Moore and Ora Jane Williams.  
Fifth Grade—Mary Florence Vanhorn, Lucile Moore, Sibel Holder, Ruth Miller and Hazel Reynolds.

### THE MODEL A FORD

The design and construction of the valves are among the most important elements of modern automobile engineering and manufacture.

The designers of the new Model A Ford give special attention to these factors and the result of their design and manufacturing specifications is a valve which is remarkable for its durability, close fitting and resistance to the oxidizing or scaling effects of hot gases.

The valves in the Model A Ford are made of carbon chrome nickel alloy. They are first die-cast and then ground with remarkable accuracy to the desired size. The stems have mushroom ends to give larger wearing surfaces and quieter action where they come into contact with the push rods. The carbon chrome nickel alloy metal of which they are made is particularly resistant to wear and to the scaling effects of the hot gases which the valves must endure in their normal performance.

The Ford valve terminates in a cone over which slips a retainer, horse-shoe shaped, which holds the spring in place. As the cone head presents a large area to the tappet top, and as the valve foot is operating in oil, there is not the slightest risk of the valve-end burring over and there is no necessity for an adjustment to be fitted to the top of the tappet.

The oil bath in the valve chamber provides a cushion between the valve foot and the tappet top, silencing it effectively. On the ordinary engine, the valve end is either slotted or drilled to take the cotter for the spring cap and the removal of metal in this process considerably weakens the valve at a vital point. The new Ford valve actually is strengthened at the foot. This is considered the greatest single advance in valve design that has yet been made in the internal combustion engine. It has produced an almost everlasting, trouble-free, one-piece valve.

The stout old gentleman rushing along the platform just missed his train, and returned puffing and blowing, to be greeted by a porter with the question:

"Missed your train, sir?"  
"No," was the reply "I didn't like the looks of it so I chased it off the platform!"

Mother—When I looked out the window I was glad to see you playing marbles with the little boy next door.  
Willie—Marbles nothing. We'd just had a fight and I was helping him pick up his teeth!

He—Why didn't you answer my letter?  
She—I didn't get it.

He—You didn't get it?  
She—No, and besides, I didn't like some of the things you said in it.

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
To the Sheriff or Any Constable of Mitchell County—Greeting:

You are hereby commanded, that you summon, by making publication of this Citation in some newspaper published in the County of Mitchell if there be a newspaper published therein, but if not, then in a newspaper published in the nearest county to said Mitchell County, for four consecutive weeks previous to the return day hereof, E. H. Peach, whose residence is unknown, to be and appear before the Honorable County Court, at the next regular term thereof, to be holden in the County of Mitchell at the Court House thereof, in Colorado, Texas, on the first Monday in March, A. D. 1929, same being the 4th day of March, A. D. 1929, then and there to answer a Petition filed in said Court, on the 14th day of November, A. D. 1928, in a suit numbered on the Docket of said Court No. 1728, wherein H. R. Bowers is plaintiff, and E. H. Peach is defendant. The nature of the plaintiff's demand being as follows, to-wit: Being a suit on a promissory note in the sum of \$195.00 made by defendant on February 3, 1924, and payable to the order of plaintiff, and due November 15, 1924, with interest from date at the rate of ten per cent per annum until paid, and providing for an additional ten per cent as attorney's fees. That said note is paid due and unpaid, and that defendant has refused and still refuses to pay same to plaintiff's damage of \$317.06.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of

## Luncheon -- Tea -- Dinner!!

Pleasing tastes that vary greatly—that's the job for most women. How can they change desserts that will appeal to the entire family if you but serve Banner Ice Cream.

It is always welcomed because of its distinctive flavor; its melting goodness. You may always have something different. Luscious, fresh fruits—tasty mints, and endless combinations in bright and cheery colors. You should serve it because of its healthfulness, its freshness and purity. Insist upon "Banner" and you are assured all of these.

Your dealer carries it in dozens of flavors. Take home a quart and give the folks a treat.

P. S.—Don't forget those special patterns for your social event!

**Thomas Jefferson Advocated Terracing As a Means of Arresting Soil Erosion**

In view of the fact that considerable interest has developed in Mitchell county as to the importance of terracing farm lands, it might be of interest to note that contour plowing as a means of preventing soil erosion was advocated more than a century ago by leaders of affairs in the national government. One of the early advocates of terracing was Thomas Jefferson.

In a letter from Jefferson to Chas. W. Peale, the portrait painter, published by the Massachusetts Historical Society in "The Jefferson Papers," there appears the following comment on contour plowing as a means of checking soil erosion and conserving moisture. The letter is dated April 17, 1813:

"Ploughing deep, your recipe for killing weeds, is also the recipe for almost every other good thing in farming. The plough is to the farmer what the wand is to the sorcerer. Its effect is really like sorcery. In the country wherein I live we have discovered a new use for it, equal in value almost to its services before known. Our country is hilly and we have been in the habit of ploughing in straight rows, whether up and down hill, in oblique lines, or however they lead; and our soil was all rapidly moving into the rivers. We now plow horizontally following the curvature of the hills and hollows on the dead level, however crooked the lines may be. Every furrow thus acts as a reservoir to receive and retain the waters, all of which go to the benefit of the growing plant instead of run-

ning off into the streams. In a farm horizontally and deeply ploughed, scarcely an ounce of soil is now carried off from it. In point of beauty nothing can exceed that of the waving lines and rows winding along the face of the hills and vallies. The horses draw much easier on the dead level and it is in fact a conversion of hilly grounds into a plain. The improvement of our soil from this cause the last half dozen years strikes every one with wonder. For this improvement we are indebted to my son-in-law, Mr. (J. M.) Randolph, the best farmer, I believe, in the United States."

**New Produce Plant To Be Built in City C. of C. Announces**

Announcement that a modern produce plant, with poultry dressing and cold storage facilities, is to be built in Colorado during the next few months, was announced here Wednesday by U. D. Wulfjen, chairman of the chamber of commerce agricultural department. Wulfjen stated that plans for erection of the plant had been completed and that it would

be in operation by opening of the Fall season.

Announcement of this project comes as another goal in connection with project of the chamber of commerce to develop the poultry industry in this territory.

**TAYLOR COUNTY HIGHWAY BE OPENED SATURDAY**

The last gap of 3,000 feet on the Broadway of America highway west of Abilene in Taylor county will be opened to traffic Saturday, according to information received from Abilene.

Completion of the concrete roadbed across Taylor county will afford a continuous paved highway from the Mitchell-Nolan county line, 13 miles east of Colorado, to Dallas and Fort Worth.

**PONTIAC SIX BE SHOWN HERE BY A. J. HERRINGTON**

cation, and those only at long intervals.

Spings, front and rear, are two inches wide this year, and are fitted with grease packed covers at a slight increase over the last price. Four Lovejoy hydraulic shock absorbers are also fitted at the factory at a small additional charge.

The new spring shackle is a marked improvement over the conventional type heretofore used, because it prevents side slap in the springs and eliminates wear in the spring bolts, thus doing away with the annoying

course of rattles during the life of the car. The spring bolts in the frame and in the spring-eyes are replaced with tubular pins, the ends of which project slightly beyond the frame brackets and spring eyes and are conical in shape. The shackles themselves are formed with conical bearings fitting over the cone-shaped pins and are held together by a bolt and nut, tightened against spring pressure. Any wear which takes place in the cone shaped bearings is taken up by the spring tension between the two shackles. The hollow pins carry sufficient oil to lubricate the shackles over a period of 1000 miles.

The frame has four rigid cross members, with the rear engine support serving as a fifth. Provision is made for integral bumper mounting while bumpers of new design are available at slight extra cost.

Other features characteristic of the entire line include: Larger headlamps of modified bullet type with chrome-plated door and narrow rims; wider, deeper crowned fenders, the rear tips extending below the center of the wheel; head rolled into the outer edge of fenders and carried along the running board moulding of polished aluminum; cowd band of polished chrome and hood catches of cadmium plated; new tire carrier supported on sturdy brackets; gasoline tank covered by a shield of ribbed design; distinctive oval shaped rear window; body wider at front, increasing width of front seat one inch and windshield 1 1/2 inch; new and larger wheel hubs with chrome plated

hub caps.

Production on the new line began at the plant of the Oakland Motor Car company at Pontiac, Michigan, in

December. The new car is being presented to the public in all parts of the country as soon as dealers are supplied with display models.

announcing The New **PONTIAC BIG SIX**

Introducing Big Car Standards of Luxury, Style and Performance at \$745

**T**ODAY a new type of low cost motoring luxury is available. It embraces big car style. It provides big car riding comfort. It embodies big car quality in unseen parts. It includes big car performance even to the point of developing big car power and traveling at big car speed. It is offered by a brand new automobile—the New Pontiac Big Six.

Frankly, the New Pontiac Big Six was designed to appeal to a certain group. True, every motor car owner in America will find in it many things to admire. Two-car families will find it an ideal second car. But the group for which it is primarily intended is made up of people who are beginning to move up in the world. Many of them will soon make the first important step up in the quality of their cars. All are progressive. The New Pontiac Big Six was designed for them.

It comes to them entirely new in appearance. Stunning new bodies by Fisher con-

tribute to the big car beauty and big car style presented by the car as a whole.

Progressive people are seeking greater luxury. The Pontiac Big Six offers them the luxury, the deep, richly upholstered cushions and the charming appointments for which bodies by Fisher are famous the world over. It provides the smooth-riding qualities of a car 167 inches in overall length, with accurately balanced rotating mechanical parts and such advance comfort features as adjustable drivers' seats.

It is a six, but more than just a six. It is a six with the added power of a larger L-head engine and the added smoothness imparted by a dynamically balanced, counter-weighted crankshaft and the famous Harmonic Balancer. It is a six with the added efficiency and silence achieved by means of the G-M-R cylinder head. It is a six with the added cold-weather advantages provided by the cross-flow radiator, thermostatically controlled.

From fan to rear axle, its "line of drive" is in accurate dynamic balance. Its new brakes are of the internal four-wheel type which neither mud nor rain nor ice can prevent from operating efficiently.

As for its performance, you can drive it at express train speed. You can watch it accelerate alongside the finest cars on the road. You can test its power under any conditions, confident of its ability to pull through. Meanwhile it continues to provide that unmatched dependability for which every Pontiac has been famed.

Only a few highlights in its construction have been mentioned. Just enough to prove that the Pontiac Big Six is entirely new and capable of meeting progressive Americans' demand. But the amazing thing about it is that it gives so much big car luxury, style and performance at prices which come within practically everyone's reach!

Prices, \$745 and up, f. o. b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

COLORADO, TEXAS

**CORRECTION**

It has been rumored and printed that the Copeland Mercantile Company, of Loraine, had gone into bankruptcy. This is a mistake. The Copeland Mercantile Company was not forced into bankruptcy, neither did I resort to bankruptcy proceedings. The entire business, consisting of merchandise, fixtures, notes, accounts, and cash to the amount of about \$800 was given in full settlement of my obligations.

The stock of merchandise is not now being sold to satisfy the creditors of Copeland Mercantile Co.

I thank the people of Loraine and vicinity for their support from a business standpoint, the personal favors and kindness of friendship shall never be forgotten.

H. H. COPELAND.

**GLYCERIN MIXTURE STOPS CONSTIPATION**

The simple mixture of glycerine, buckthorn bark, sassa, etc. (Adierika) acts on BOTH upper and lower bowels and relieves constipation in a sure! It brings out old waste you never thought was in you. Don't waste time with medicines, which clean only the bowels, but let Adierika stomach and bowels a REAL cleaning and see how good you feel.

L. Doss, Druggist.

**DAPPER DAN**

**GLOVE STUFF!**

Than Dapper Dan we've never seen  
A man who better understands  
The toilsome task of keeping clean  
The cover for Milady's hands!

You will find Dapper Dan very sympathetic with your glove grief. He knows just how distressing it is for a lady to have to contend with soiled gloves. Be they silk, cotton or kid, he will clean them thoroughly and gently, and the cost will not disquiet you!
