25TH YEAR—NUMB 32 1 "Where The West Is At" COLORADO, TEXAS, FRIDAY, FEBRUARY 15, 1929 On the "Broadway of America" WHIPKEY PRINTING CO.

G.-C. LUNCHEON CLUB IS FORMED WITH INITIAL MEMBERSHIP OF FIFTY

Officials Express Keen Elation Over Start Made Tuesday

The chamber of commerce luncheon club, authorized last week by executive board of the chamber, had its initial meeting Tuesday noon at offices of the organization in the Hotel Colorado building. An attendance of fifty members of the chamber of commerce attended.

Judge C. H. Earnest, chairman of the meeting, expressed elation over the interest manifested. "If the showing you gentlemen have made here today is an index of your interest in the things this chamber of commerce seeks to accomplish, there is nothing, gentlemen, that we cannot put over," Judge Earnest declared in reference to the large attendance of business and professional men present.

"It is indeed gratifying to see so many here," he continued. "This is but another demonstration of the Colorado spirit of cooperation, and I bespeak great things for this community during the months to follow." The chairman urged all those present to affiliate permanently with the club and attend with regularity, taking an active part in all business matters to be considered.

L. B. Elliott, chairman of chamber of commerce aviation department, reported that his department, acting under authorization of the executive board, had leased 160 acres of land near the Colorado Country Club as site for the proposed new and enlarged airport here. He stated that the minimum amount to be needed with which to make required improvements at the field had been estimated at \$4,000.00.

The chairman was authorized to name a committee from the luncheon club membership to cooperate with the chamber of commerce aviation department. The joint committee was requested to draft resolution setting out plan for raising the required finances and make report to the meeting Tuesday of next week.

Rev. W. G. Ashford spoke to the report made by Elliott, declaring that plans to build at Colorado a modern airport was one of the most important development programs about which the chamber of commerce might be concerned.

"We must build, not for today nor tomorrow, but for the future—five, ten, and even twenty years from now," he stated, in an appeal that every interest and organization of Colorado unite in giving adequate support to the chamber of commerce in this project.

Announcement was made by J. H. Greene, secretary, that no dues would be tacked on to any member of the club, aside from actual cost of the luncheon plate, which he announced would be 75 cents per plate. Membership certificates were passed to all present.

Judge Earnest announced that the luncheon, held in offices of the chamber of commerce, would hereafter be convened in main dining room of the hotel.

When called upon to give report on the gas well recently drilled in near the Spade ranch headquarters, Otto F. Jones, manager of the ranch, said: "We made a gauge of the well this morning and found that it was good for one million cubic feet production. However, since standing around in the hotel lobby for a short time, I am of the belief that it might be ten million feet, if optimism expressed by some of our citizens are to be taken into account."

MERCURY DROPS TO 9 ABOVE ZERO FRIDAY

The most severe blizzard of the winter season gripped Colorado Friday of last week and continued in its severity for several days. During the night Thursday of last week, a precipitated drop in temperature was recorded at the local weather bureau and at 7 o'clock Friday morning, the mercury stood at 9 above zero. This section was blanketed in snow and sleet for two or three days. The precipitation, while not affording enough moisture for immediate needs, was of general benefit to the farmers and gardeners.

SEDAN TAXI STOLEN IN COLORADO JANUARY 23 RECOVERED BY POLICE

Houston Authorities Holding Machine And Two Suspects

The big sedan taxicab stolen by two highwaymen from the Depot Service Station here on the night of January 23, has been recovered in Houston and is being held there for local police, Chief Dick Hickman reported Thursday morning. Hickman was in receipt of telegraphic information from W. F. Kessler, chief of detectives at Houston, stating that the car had been found there.

Kessler reported that two men, believed to be the pair who forced Oscar McFerrin taxicab driver, to deliver the machine to them at the point of a big six shooter, had been placed under arrest and were being held pending arrival of local authorities.

Hickman stated Thursday morning there was no mistake as to the car, as the numbers reported by the Houston officer—motor number 127,355, and license number 769,042, were correct. The police chief obtained a description of the men held and is of the belief that at least one of them participated in the daring hold up here.

Robbery of the service company was reported by local police to have been one of the most daring jobs pulled in Colorado for some time. Late at night two men called at the station and requested taxi service. McFerrin took the pair in one of the company's big sedan machines. After driving a few blocks the driver was covered by pistols in the hands of both men and ordered to drive east on the highway. He was put out of the machine a few miles east of Roscoe.

Hickman stated Thursday that he would probably go to Houston immediately to obtain the stolen car and see if the men held can be connected with the robbery.

SIMMS GASSER HOLDS INTEREST PETROLEUM SCOUTS DURING WEEK

Shallow Well At Spade Is Reported Making Big Gauge

The biggest sensation in local petroleum circles for months was developed Saturday when Simms Oil Company's Ellwood No. 1, in section 27, block 18, S. P. Ry. Co. survey, came in for an estimated production of four million cubic feet of gas from the shallow depth of 600 feet.

The strong gas pocket was penetrated with no showing in the log to indicate that such a strong pressure stratum was to be penetrated, allowing the crew no time in which to set back boiler and avoid danger of fire. The gasser was ignited and burned for over six hours before being placed under control. Damage to the derrick and tools are estimated at \$6,000.00.

Reports from oil scouts who have visited the well, while meager, are considered to be optimistic. Reports coming from the well last Saturday, estimating flow at four million feet, was substantiated later when a gauge was made. Report of test made of the well late Monday gave pressure at more than four million cubic feet. The find will stimulate development in South Mitchell county, and already scouts representing a number of major and independent companies are reported in the field south of this city and in vicinity of the well. The "wild cat" is claimed to be the heaviest gasser yet drilled in Mitchell county. Special significance is attached to the fact that the pay strata was found at such a phenomenally shallow depth.

Materials for making repairs to the derrick were moved out of Colorado Monday and contractors are now rebuilding the rig preparatory to resumption of drilling. Reports, though as yet unconfirmed, are that the company will case the gas out and continue drilling.

The well is 22 miles south of Colorado on location a short distance from Spade ranch headquarters.

TEXAS AND PACIFIC IN FAVOR OF UNDERPASS AT CHESTNUT AND OAK

Kilway Confers With City Officials On This Problem

The Texas & Pacific railway is in favor of constructing two underpass street connections in Colorado, in preference to only one, as at first suggested. C. C. Kilway of Big Spring, superintendent of the Rio Grande division, told city authorities here Monday night. Kilway, in company with J. W. Higgs, also of Big Spring, divisional engineer, met with the council to discuss this problem.

While advocating that plans be submitted for financing cost of the two projects, the rail officials did not make any statement as to what the railway company would do. It is believed, however, that the T. & P. could be induced to enter into agreement with the city whereby the two projects, costing approximately \$50,000.00, could be financed.

The city had suggested that an underpass be constructed at foot of Chestnut street, near Lone Wolf creek, and requested a joint conference with rail and city officials on the matter. The second proposed underpass, to be built at foot of Oak street, near the Colorado river, came as suggestion of the railway.

In suggesting that both be built, Kilway did so with the proviso that street crossing near the freight station be closed by the city. While the city has taken no official action in the premises, it is understood there would probably be no objection to meeting this requirement, on condition it was found advisable to construct both projects.

Mayor Looney, acting on recommendations of the council, named a committee composed of J. Ralph Lee, Logan Spalding and W. W. Whipkey, to confer further with the divisional engineer as to costs of the improvements and distribution of expense to be incurred. It is understood that no official action is to be taken by the city pending recommendations to be made by this committee.

The demand that an underpass be constructed here has been before the city and chamber of commerce for several years. Some four or five years ago it seemed very probable that definite action would be undertaken. At that time cost of an underpass, to be located near Lone Wolf creek, was estimated at \$30,000.00, and the railway company is understood to have agreed to bear fifty per cent of this cost.

Here's Feed for Chicks!

WALK in and let's talk over what to give your chicks to keep them alive and growing. Let us show you a way to raise your chicks to early maturity at a lower cost per chick.

Chicks need cod-liver oil to protect them against leg weakness. They need buttermilk, alfalfa leaf meal, granulated meat, bone meal, wheat germ and other ingredients to make bone, flesh and feathers.

We have all of these ingredients carefully chosen, tested, balanced, uniformly mixed and ready to feed. Purina Chick Starters is the name of the feed. You'll know it by the checkerboard on the bag. The new feeding discoveries that come to you in this year's Starters will give 15 to 20 per cent greater growth than ever before. More than 2,500 hatcheries say, "Feed Starters." So do we. How many bags do you need?

Defeating Loraine for the second
 time Wednesday night, the score be-
 ing 28-8, Colorado boys became bas-
 ketball champions of this county, and
 will represent Mitchell county in the
 district boys' basketball tournament
 in Roby next week.
 Colorado and Roby split in the
 double-header played here Monday
 night, Colorado boys losing 35-11,
 and the girls winning, 34-28.

**E. BARBER AND SONS ARE
 PLOWING 35 ACRES DAY**

"My sons and I are flat-breaking
 35 acres per day with tractors and
 plows, and will push the work until
 800 acres have been gone over."
 The above was the statement of
 E. Barber of the Spade community,
 who was a pleasant caller at The
 Record office today. Barber is one
 of those hustling farmers of Mitchell
 county who does his work on the
 farm and not around the bank cor-
 ners as has been jokingly said of a
 great many farmers. He and his sons
 are putting their 800 acres they will
 cultivate this year in fine shape for
 the coming year, and judging by the
 fact that they are flat-breaking 35
 acres a day, they won't be long about
 it. They raised 150 bales of cotton
 last season and this, together with
 the fact that he is a regular sub-
 scriber of The Record, brands him
 as a progressive, up-to-date agricul-
 turalist.

Mrs. Jim Hood, niece of Mrs.
 Adolph May, is seriously ill in Abilene
 at the Baptist hospital with a
 complication of ailments. Her recov-
 ery is very doubtful, according to
 word received by her father today.

**ANOTHER WEST TEXAS
 PIONEER CLAIMED BY
 DEATH AT AGE OF 98**

Mother Of 'Bill' Kellis, Pub-
 lisher Sterling News,
 Succumbs

Mrs. Rachel Elizabeth Kellis, 98,
 lacking only two years of having at-
 tained the century mark in her life,
 died at Sterling City at an early hour
 Tuesday morning and was buried in
 the Sterling City cemetery Tuesday
 afternoon at 3:30 o'clock. Mrs. Kel-
 lis died following a brief illness.

A pioneer of Sterling county; she
 was the widow of the late J. N. Kel-
 lis, Mexican war veteran and Texas
 frontiersman who at the age of 101,
 preceded his wife in death only two
 years ago. The couple had lived in
 Sterling county forty-six years and
 were among the first white settlers
 to locate in this section of the State.
 Mrs. Kellis, as well as her late hus-
 band and other members of the fam-
 ily, were well known to scores of
 "old timers" of Colorado and Mitch-
 ell county. She was the mother of
 W. F. (Bill) Kellis, editor and pub-
 lisher of the Sterling City News, one
 of the old newspapers of this section
 that has come to the Record exchange
 desk for many years. Bill is espe-
 cially well known throughout this sec-
 tion.

Other survivors are three daugh-
 ters, Mmes. G. B. Slaton, J. L. Glass
 and Henry Davis of Sterling City,
 and two sons, A. J. Kellis of Ricken-
 burgh, Arizona, and T. J. Kellis of
 Wickett, Texas.

**Judge Swayne, One
 Of Texas' Leading
 Jurists, Is Dead**

James W. (Jim) Swayne, 73, who
 died Monday at Austin, was junior
 partner and organizer of the famous
 Hoag-Swayne syndicate, which did
 much in the development of the Spin-
 dletop oil pool and which grew into
 the present Texas Company. Swayne
 left the syndicate before its mar-
 velous profits made multi-millionaires
 of the partners.
 As judge of the seventeenth dis-
 trict court at Fort Worth he presided
 over two famous trials.
 On one occasion he was shot by

a woman who emptied six shots from
 a revolver as he sat on the bench im-
 mediately after rendering a verdict
 against her. His life was saved only
 because the woman's attorney seized
 her wrist as the first shot was fired
 and the other five bullets went into
 the ceiling of the court room. Judge
 Swayne, who was a native of Lexing-
 ton county, Tenn., presided at the
 Sneed-Boyce murder trial at a time
 when members of both families and
 their wide connections were carrying
 arms. It was a case which resulted
 in other shootings.
 Swayne presided 15 years ago at
 the trial of Rev. J. Frank Norris on
 an arson charge growing out of the
 burning of the First Baptist church a
 year or two before. Instructions of
 the judge resulted in the jury return-
 ing a verdict of acquittal for the pas-
 tor.

MRS. CULP, WHO DIED IN COLEMAN, BURIED HERE LAST MONDAY

One-Time Resident Of This Place Died Sunday After Long Illness

Mrs. Martha J. Culp, 84, one-time resident of Colorado, died at her home in Coleman Saturday after an illness of several weeks' duration. Funeral services were conducted on Sunday afternoon at the Methodist church in Coleman by Rev. Earl H. Lightfoot, and burial services were in Colorado Monday, with interment in the I. O. O. F. cemetery here.

Mrs. Martha J. Culp was born in Gold Hill, North Carolina, on January 6, 1845. She was the youngest daughter of Colonel and Mrs. George Barnhardt. Col. Barnhardt served all through the Civil War, beginning with the famous battle of Bull Run.

Martha Barnhardt was 16 years old when the Civil War broke out. She returned home to North Carolina from Statesville, Ill., where she had been going to school, and began at once to teach school, to take the place of men who were needed in the ranks. She taught school all through the civil war as a service to her country. She graduated at Statesville, Ill.

The year following the close of the war she was married to W. C. Culp who had also worn the gray uniform of the immortal army of the South. This was in '66, November 13.

Nine children were born to this union, six sons and three daughters. And in 1888, they moved out to the plains of West Texas, and commenced the strenuous life of ranching in those days. Here they lived until the earlier part of the twentieth century, at which time they retired from ranch life, and moved to Colorado City, Texas, where in 1910 W. C. Culp died. A few years later Mrs. Culp moved to Coleman, where she has lived since.

Mrs. Culp was a true Christian. When she was rearing her children, whether in North Carolina or West Texas, each night of their life, she gathered them around her in family prayer. A thanks offering her father taught her. "Kind father, we humbly thank Thee for the blessings now before us—feed our souls with the bread of life, this we ask for Jesus' sake, Amen," was offered up in thanks for every meal they ate, and for her's to the day of her death. The following is a motto hanging in her room

yellow and discolored with age which expresses the very spirit of her whole life—"Let not your heart be troubled." Her favorite scripture is taken from the same chapter, "In my Father's house is many mansions—if it were not so, I would have told you. I go to prepare a place for you."

Mrs. Culp is survived by six children: Geo. E. Culp of Dallas; J. A. Culp of Grand Prairie; Mrs. A. Maddox, Waco; L. C. Culp, Lovington, N. M.; B. V. Culp, Lovington, N. M.; Mrs. H. B. Cook Lomax. Hoover Invited To Attend West Texas C. of C. Convention

An ambition of the West Texas chamber of commerce to entertain the President of the United States at one of its annual conventions is expected to be realized in May when the organization meets at El Paso, it was revealed in Fort Worth during a conference between Homer D. Wade, chamber manager, and Fred L. Haskett of Dallas, in charge of the Texas Hoover good will special train to the presidential inauguration at Washington.

President Gil of Mexico has definitely accepted an invitation to come to El Paso if President Hoover can arrange to attend, Mr. Wade announced. Mr. Hoover's South American tour, which failed to take in Mexico, leaves the most important conference between the future representatives of the United States and other nations to the South still unfulfilled, Wade pointed out. The El Paso convention will be an ideal opportunity for this meeting.

Mr. Haskett, who has consulted R. E. Creager of Brownsville, Republican national committeeman from Texas, and other Texas Republican leaders, believes Mr. Hoover will accept the invitation of Texas unless pressing business following the inaugural prevents.

If a meeting should take place between President Hoover and President Gil, one of the important questions that likely will come up will be the international distribution of the waters of the Rio Grande, Mr. Haskett said. He pointed out that close to 75 per cent of the water in the river below El Paso comes from the Mexican side and that if ever dams are built on the Mexican tributaries to the Rio Grande, a serious situation will arise in the Rio Grande Valley, unless arrangements are made before hand.

The importance of commercial relations between Mexico and the United States are growing each year and the Rio Grande question is only one that will probably come up between the two chief executives of the two nations, should the meeting take place, Wade said.

Another factor that will contribute to the President's attending the convention is the military maneuver to take place at Fort Bliss, located near El Paso, starting May 6, to continue for 15 days. The greatest concentration of military forces of the United States since the disbanding of the armies following the World War will take place at that time.

Dates of the West Texas Chamber of Commerce convention as announced are May 13, 14 and 15.

Boys and Girls Best Assets of All, Says Cisco College Head

Dr. T. T. Roberts, president of Randolph College, Cisco, spoke at the First Christian church here Sunday evening on the subject, "Greatest Values—Our Boys and Girls," delivering in a forceful manner his appeal to the citizenship of this community to give greater concern to the youth of today, who are soon to take up the work of mature men and women as citizens.

Dr. Roberts quoted financial figures to support his claims that America was today making a less per capita investment in her youth than in any other asset. "Ninety-two and one-half per cent of the nation's entire budget for last year went to paying expenses of former and future wars," he declared. "This nation spent six billion dollars last year on its 250,000 prisoners, and I might give other figures of similar huge proportions, yet, we modestly expended a per capita allotment for the education of our youth that was so small as to make it shockingly disgraceful."

Dr. Roberts left Colorado Monday morning for Big Spring, where he spoke Monday night. He stated that Randolph College was having the best year in history of the institution.

COFFEE OPENS LOCAL POLITICAL CAMPAIGN FOR MAYOR'S BERTH

Colorado Attorney Is Seeking Nomination in City Election

Thos. J. Coffee, Colorado attorney, opens the municipal political campaign through authorization of the announcement that he will seek nomination as mayor in the city election to be held in April. Announcement of Coffee came Thursday morning, following petitions of several Colorado citizens, asking that he offer for the place.

Coffee has been engaged in the practice of law in this city for several years and has always aligned his efforts with the best interests of the community. Admirers of the attorney announce that an active campaign in his behalf is to be inaugurated, believing that election of this candidate will assure a progressive administration for the city.

Dean Boyd McKeown of McMurry who is also conference lay leader, spoke at the Methodist church Sunday on Bible reading, prayer and service. He also took the annual offering for McMurry College.

WEATHER MAN HOLDS UP LEGION PROGRAM

Plans of the American Legion to observe formal ceremonies attending inauguration of the new official roster were not carried out Friday night as advertised on account of the blizzard weather. Colorado was in the grip of one of the most severe blizzards recorded here in several years. An official of the post stated Saturday that five former service men braved the biting cold and went to the Legion Memorial building for the rites.

OFFICERS OF SIXTH DISTRICT HONORED BY CLUBWOMEN TUESDAY

Luncheon At Hotel And a Special Afternoon Program Given

Entertaining them with a luncheon and a special program at First Christian church, Tuesday, the women of the County Federation honored the Sixth district president, Mrs. John Perry; the secretary and treasurer, Mrs. Royal Headrick; associate editor, Mrs. Robert Withers, and the chairman of health, Mrs. C. L. Vincent, all of Sweetwater.

The luncheon was at the Colorado hotel and afterward a program was given at the First Christian church. The luncheon was presided over by the president of the County Federation, Mrs. C. C. Thompson. Those attending besides the Sweetwater ladies were Mrs. R. N. Gary, Mrs. P. C. Coleman, Mrs. A. L. Whipkey, Mrs. J. T. Pritchett, Mrs. George Mahon, Mrs. Bill Brondus, Mrs. H. L. Harrell, Mrs. V. W. Shropshire, Mrs. Boyd Dozier, Mrs. J. T. Johnson, Mrs. J. G. Merritt, Miss Abbie M. Sevier, Mrs. Lee Jones, Mrs. D. M. Merritt, Mrs. W. L. Doss, Mrs. Harry Hyman, Mrs. Robert Scott, Mrs. C. C. Thompson. The table was decorated with spring flowers and lighted green tapers. A lovely three-course dinner was served.

Mrs. Perry was presented with a beautiful corsage of pink roses and valley lilies. The entertainment feature was a joke told by each one present.

At 2:30 a large crowd gathered in the parlors of the First Christian church for the program which was announced by the president.

Mrs. J. G. Merritt, first president of the County Federation and now historian, read the history of the association, as she briefly summed up the outstanding events of her own. Mrs. A. L. Whipkey, Mrs. J. T. Johnson, Mrs. Ed Jones, Mrs. Lee Jones, Mrs. Harrell's and a part of Mrs. Thompson's administrations, all were surprised at the number of real worth-while things accomplished.

Mrs. C. L. Vincent told of the Nolan county library, its growth, management and the need it meets. Mrs. Vincent is librarian. Mrs. Witt Hines read very sympathetically "When McClindy Sings."

Mrs. John Perry told of the accomplishments of the State meeting, the number of prizes won by Sixth district. She exhibited a beautiful loving cup won for County Cooperation. She told of offering a loving cup for the club giving most money to the scholarship fund. She spoke of our spring meeting, which is to be in Brownwood, and urged a good attendance from Colorado.

Mrs. Headrick made a clever talk, calling herself "The Grand-Tag-Along" of the president, closing with an original poem.

Mrs. Withers thanked Colorado for the cooperation she had received in her work. The audience repaired to the auditorium of the church, where a musical program was given. Mrs. C. C. Meskimen played in her own delightful way. Mrs. W. R. Martin sang "Doria" and then her own composition "Texas." Mrs. Taylor played "Firefly" beautifully.

On returning to the church parlors a receiving line of those on the program was formed, then sandwiches and little cakes were passed while Mrs. W. M. Gordon and Mrs. D. M. Merritt poured tea from a flower-decked table. This was a most enjoyable and profitable meeting, the guests from Sweetwater expressing great pleasure in being present.

FATHER OF LOCAL CITIZENS SENDS FRUIT TO KING GEORGE

Mr. and Mrs. Ward Jenkins and little daughter, Frances Fay, accompanied by Mrs. O. L. Simpson, have just returned from a trip to Mission, where they visited a few days with their father and mother, Mr. and Mrs. G. E. Goodwin, also a sister, Mrs. Steve Tillson.

Mr. Goodwin has been very sick with flu, but is improving. He is still very proud to be a citizen of the valley, and especially Sharyland. He says it is the most delightful place to be sick in, with lots of good fruit and an abundance of pretty flowers, and best of all, the many friends he has made since he moved there. He enjoys his orchards, which are among the prettiest of the valley, and appreciates the special orders for fruit which he fills with pleasure, as he is especially anxious for the world to know what they have there. Some of his fruit was sent this season to King George of England.

BILL COOPER TO STAMFORD

(From Albany News)
The Stamford Leader is our authority for the above headline. Stamford leader says that they call him Billie. That's a mistake, George English—he ain't no sissy, but a heman. No, us press boys and chambers of commerce call him Bill, and he's some Bill, too. We are real glad that he has stopped in calling distance—And he it said that he has located in a cracker-jack town. Col. Homer D. Wade had much to do with its building and he did a darn good job of it—Now, Bill Cooper has been called in to take up the work where Col. Wade left off, and things are going to happen up there. Now Bill is not one of your fussy flaring fellows, don't play to the galleries, but like still waters, he's deep and eddy like—a good organier, brings things to pass, don't brag about it, but kinder makes his helpers think they did it. Hello, Bill, when you want us, get on the grapevine phone—But in the meantime run down to see us—As you know we live in the best town east of Stamford—But watchout, Bill, about stealing our Hereford cattle and oil wells like you did over there at Breckenridge.

Luncheon Club
The Luncheon club met Thursday at 1 o'clock with Mrs. Lois Prude Bennett, her only guest being Mrs. Jehanne Prude.

When all had arrived they were invited into the dining room where the table was laid for twelve. A centerpiece of calendulas and fern gave a look of spring while winter cold reigned outside.

A three-course luncheon composed of first bullion, celery and canapes, then devilled crabs, pickled beets, new potatoes in cream, hot rolls and coffee, was followed by delicious cabinet pudding.

In the bridge game that followed Mrs. J. B. Mills was high score winner. The place of meeting was not decided upon, but the president, Miss Earnest, will not fly the members.

Mrs. Peirce Has Valentine Party
Wednesday afternoon Mrs. W. A. Peirce entertained the Harmony club and a number of invited guests with a beautiful valentine party. The house was tastefully decorated with red hearts, cupid and arrows. They were on the walls, suspended from the lights and between the doors. The tallies were old-fashioned ladies with a red heart as a background. The score pads were red hearts and on each of the six tables were red-frilled baskets of tiny candles.

The games were much enjoyed and at the refreshment hour the delicious luncheon was also enjoyed.

Paper napkins decorated with red hearts and cupid were used. Each table was centered with a big valentine. These were cut for as table prizes, giving to Mrs. DuBoise, Mrs. J. T. Johnson, Mrs. W. M. Gordon, Mrs. J. B. Pritchett, Mrs. J. G. Merritt and Mrs. G. F. Cook, heart shaped pink and white sandwiches pierced by a red arrow, chicken a la king in patty cases, olives, potato croquettes and coffee was the first course; pink and white heart-shaped cakes with fruit jello in pink, the second.

The next meeting of the Harmony club is with Mrs. Plaster.

Plans are under way for an open meeting, which will be held in April. Mrs. T. J. Coffee, Mrs. S. H. Millwee, Mrs. Harry Hyman, and Mrs. Bob Scott were guests.

After a very pleasant social hour together the club adjourned to meet next with Mrs. Harry Ratliff.

The dollars paid by the losers will go on the Student Loan fund.

An invitation to a recital by Lexie Dean Robinson of Rising Star, in Dallas, was read. Mrs. D. M. Merritt was given permission to invite Mrs. John Prude to become a member of the club.

This was Bible day and the program proved most enjoyable. Roll call was "My favorite hymn and why it appeals to me." "There's a Dear and Precious Book" was sung by the club, with Mrs. O. B. Price playing the accompaniment. Mrs. Millwee gave a splendid talk on what Christianity has done for women. Mrs. Beckhart sang beautifully, "Somebody Cares," with Mrs. Price playing. Mrs. Sadler gave two beautiful readings from Van Dyke. Mrs. Shropshire led an interesting contest on the books of the Bible. Little Nancy Price gave several "Melody Way" numbers.

Bennett, entertained some of her friends at 42, there being three tables. The score pads were red hearts, and the tallies were ladies with red hearts for hats. On each table were two red crepe paper baskets filled with salted nuts.

The games were most enjoyable, and at their close a delicious luncheon plate was served. This consisted of meat loaf with tomato sauce, peas and potatoes, moulded salad, hot biscuits, coffee, cherry whip and wafers.

They will meet in March with Mrs. McFadden to observe the week of prayer program.

Circle Two met with Mrs. B. F. Wilson. There were nine present, and Royal Service was studied. To celebrate the birthdays of the first three months of the year, they had a social hour. Mrs. DeLaney and Mrs. Wilson served a delicious salad course. Mrs. Robert Terrell sang and Miss Catherine DeLaney gave a piano solo. An artist contest proved most exciting. Each was given a white card, a needle and black thread and told to draw the pictures of Mrs. Manning, Mrs. Sorrells and Mrs. Keathley—the three whose birthdays were being celebrated. Mrs. Seals will have the March prayer program, which comes on the next Circle meeting.

IMPROVING QUALITY OF WHEAT BIGGEST PROBLEM
LUBBOCK, Texas, Feb. 14.—Declaring that improving the quality of the wheat is one of the biggest problems facing the grower, J. D. Tinsley, Santa Fe agricultural agent at Amarillo, pointed out how this could be done in an address before the first Farmers' Short Course recently held at Texas Technological College. He said, "Kansas wheat isn't a bit better than Panhandle wheat."

"The bulk of our wheat is utilized by the bakeries. At one time it was utilized by the homes, but now the greatest proportion of the people must buy their bread. Bakeries have a big business. If the baker puts out certain lines of bread and a housewife likes a certain line of bread, when she gets one of those loaves she expects the loaf she gets year after year to be exactly like the one she bought this morning. In order for the baker to put out this loaf he must have two things: (1) Flour which has a certain percentage of protein; (2) a certain quality. The baker comes back to the miller and demands that every sack he buys today shall make a loaf like the loaf he made yesterday. He demands that he get exactly the same number of leaves and practically the same weight in those loaves as he got yesterday. The chemist plays an important part. The baker will go to some other miller if one can't get what he demands. A miller cannot make flour unless he can get wheat with a certain protein content and with a certain quality."

"Export wheat is not the highest grade, but it is the lowest grade. Another thing to remember is that wheat is sometimes frozen. We ought to raise the quality of wheat that is demanded for the European market. This means that there is a very urgent reason for paying more attention to quality. We haven't paid as much attention to protein in Texas as in Oklahoma. We are trying to work out a plan whereby the farmer may get some benefit of his protein wheat. Arrangements were made whereby samples could be sent in to the State department of agriculture in Oklahoma for testing. The kind of wheat that is grown is a community proposition, not an individual one. Communities will be penalized. Those who get premiums for lines of research are those who will produce a better wheat than we have. This involves problems such as conservation of moisture and plant food."

"Kanred and Turkey Red wheat are good as long as it is put in a binder and threshed. If it is left in field very long it shatters. Experiment station people have hopes that by crossing varieties they can get a high protein wheat that will have stiff straw and that will hold in the chaff a lot better, one that will resist frost better than anything we have and be better for the combine thresher. A considerable acreage is frozen out every winter. Wheat market reports show that the market has gone up in the last few weeks on account of prospective wheat buyers considering prospective demands because of recent cold weather."

"A grain of wheat is the biggest problem that the miller has to contend with. Dust and dirt get in the bottom and comes out as specks in the flour."

"Every station is doing a good deal of work of wheat. The department of agriculture is cooperating with all stations. One of the things that Texas station worked on is rust. They found some interesting things. Different strains of rust which were in different localities spread progressively. We can do a lot to prevent smut, but can't do much to hold down rust except by breeding resistant strains. There is a formaldehyde treatment for smut."

O. M. Mitchell, for many years a resident of Colorado, writes The Record that he and family are moving from their recent home at Aberdeen, Miss., to Arkadelphia, Arkansas. Mitchell has been living at Aberdeen since leaving Colorado a few years ago.

Opposition To Rural Aid Bill Denied By Reid of Colorado

Wed. Reid, representative of the 117th district, has requested this paper to advise the public that the emergency rural aid bill is receiving his hearty support. This bill was passed by the house several days ago, although not in the blanket form sent in by the senate. The erroneous idea has been broadcast that Reid was opposing the rural aid emergency bill because he insisted in cutting this amount out of the senate bill when it came before the house appropriations committee, of which he is a member. The purpose of this was to itemize the \$400,000 rural aid bill so that each county would be assured of getting its due portion of the deficiency part of the appropriation, as announced by Reid last week.

Various citizens over the State have written Reid urging him to withdraw opposition to the bill, when as a matter of fact he supported the bill in the committee and the house, and it was through his efforts that the \$400,000 was itemized and placed in a separate bill in order to be assured that it would be used for that purpose only. When an appropriation is itemized it can be expended only for that purpose and can go only to the county or department named therein. This guarantees every county in the State a fair deal, according to their demands and needs, and the representative from Colorado should receive the commendation of all interested in rural aid for this splendid effort in their behalf.

West Texas Pecans Should Be Used By Planters, Is Claim

A warning to West Texas farmers contemplating pecan planting, that trees which have been bred to high rainfall conditions will not develop properly in West Texas has been issued by Col. R. L. Penick of Stamford, chairman of the agricultural committee of the West Texas chamber of commerce.

The organization, conducting an extensive pecan planting campaign at this time, advises planters to be constantly on their guard against any trees which were not developed for comparatively dry climates.

Col. Penick stated that many West Texas farmers have been interested in planting pecans to the extent that they have bought a few trees for experimental purposes and were very much disappointed when they died. This failure of the trees to live was because they had been raised in a climate where from 60 to 70 inches of rain fell each year and were planted in a climate which averaged 23 inches of rainfall per year.

The western varieties have smaller leaves than the eastern varieties and require less water. Reputable western nurseries sell no other kind.

Originally the West Texas chamber of commerce undertook to distribute one thousand trees at very nominal prices but a new deal whereby all orders for trees during the season can be filled has been made. The orders will be received at the headquarters office at Stamford for Harbets, nuggets, Burketts and Success, all proved western varieties.

Coleman and Dulin Seek Legislative Aid In Fox Hunting Bill

Dr. P. C. Coleman, Col. W. A. Dulin and various other Mitchell county citizens are urging support of a bill in the house and senate at Austin which, if passed, would doubtless encourage fox hunting in this vicinity. These men have wired Representative Wed. Reid to support the bill and add Mitchell county to the counties affected. The bill does not apply to all counties in the State.

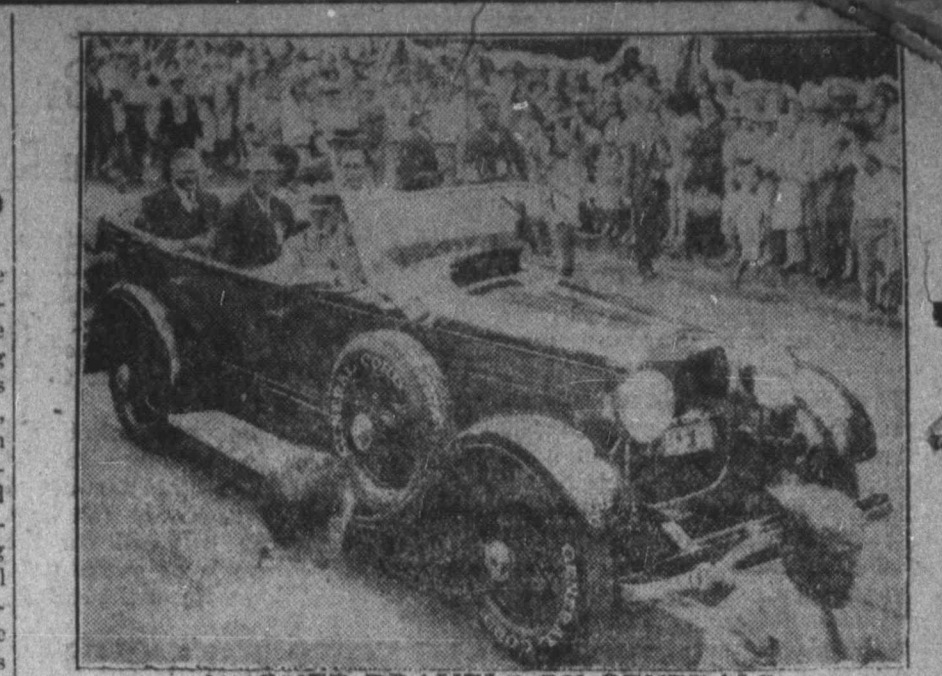

Representative Reid has indicated he would be glad to meet the request of the Colorado men, since the general features of the bill are such as to benefit the public in general.

ERROR IN HONOR LIST

Last week in the list given in The Howl and The Record of high school honor students for the four and a half month's term just closed, the name of Frances Ann Beall, freshman, was unintentionally omitted. Miss Beall's average for the term was 93.

Mr. and Mrs. Roland Burchard and children who have been spending part of the winter with Mrs. Burchard's parents, Dr. and Mrs. P. C. Coleman, have gone to spend remainder of the season at Harlingen, in the Magic Valley.

Mrs. R. F. Hargrove and daughters went to Abilene Wednesday to visit Mrs. Hargrove's oldest daughter, Mrs. Jim Hood.

UNIQUE DEVELOPMENT PAGE MAINTAINED BY CITY'S HIGH SCHOOL
Recently Added Courses Of Study Given Boost By The Public
The commercial training department, recently inaugurated as another forward step by Superintendent Ben S. Peck of the Colorado high school, has, like other modern courses, added to the school curriculum, proven, on its own merit, a most successful venture. The class has attracted such universal interest in Colorado that enrollments for this particular department had to be closed last week, owing to the fact there were not accommodations available at the school to properly care for the students.
Tuesday afternoon a visitor called at the high school building after school hours and expressed surprise to find the commercial department a veritable "bee hive" of activity. Every one of the 12 typewriters in the department were in use by students, who had remained after school hours on their own initiative to study and work.
This department, now less than one month old, is not by any means the only one successfully taught in the Colorado schools in which interest of the student body enrolled has joined with efficiency of the department to attain success. In the domestic arts and science departments, one can only be impressed with the splendid work being done by the students.
Students in culinary art have at their disposal one of the best scientifically equipped kitchens and laboratories to be found in any West Texas school. Here scores of girls are receiving instruction under personal supervision of experts that should equip them to cope with the country's best culinary experts. The interest to be read on every face, the spirit of team work to so assert itself and the large number of young ladies taking this important training would impress the most pessimistic to realize that the undertaking was a success.
Then, there is another important division of the school to be found in the home economics department, where school girls are given instruction in the art of dressmaking. This department, in appointment and equipment, rates with the others. It is a creditable asset to the community and he it said that school children receiving instruction here are also doing a work that is a credit to themselves and an honor to the institution they represent.
Peck, not satisfied with all these modern facilities, offered the youth of this section, is carefully laying the foundation to inaugurate a class in agricultural vocational training next year. There are scores of boys enrolled in the high school who come to the institution from Mitchell county farms and these, the same as any other student, must have at their disposal the best that the term education would imply, Peck declared.
Visitors to the school should not overlook the laboratory, one of which the school may well be proud. Then, there is the library, with more than 4000 volumes of creditable literature available to the student body. A visit to the school cafeteria, another new addition to the school, will impress that students are being well fed as well as well instructed.
Colorado has much to be proud of in her public schools. It is a fitting tribute to the citizenship of this community that they should demand that their own sons and daughters be given the best afforded in this State, and be given that asset at home.

Your car will perform with a new zest

The new General Dual-Balloon tire gives full rein to modern motor power. Internal friction, a cause of lost power in tires that was discovered and conquered by General years ago, is now reduced to the very minimum.

So perfectly has General developed its super-ply construction in the Dual-Balloon that by reducing rolling resistance it effects a very noticeable saving in gasoline consumption and adds to motor power.

Try General's "coasting test" with the Dual-Balloon. Put your gears in neutral and let the car coast down hill. Then try it with any other tire—the test will demonstrate to you the wonderful, free-rolling quality of the Dual-Balloon that is so valuable when you need all your power to climb a mountain road, or when the traffic signal says go and you want your pick-up "fast."

In every way, the new Dual-Balloon meets the spirit of modern speed and hair-line stops which call for tires capable of gripping and holding without fail. This grinding wear is tough on the tire that is not built to withstand it. It means tricky going for a car equipped with tires that are worn prematurely "bald." Safety requires the Dual-Balloon's permanency of non-skid that lasts season after season—and its reserve quality through and through, to take the shock of all emergencies in driving.

You will find all of these advantages and more in the Dual-Balloon. Only General's leading experience in top-quality tire building has made possible the combination of so many practical advancements in a single tire.

Lynch Davidson Voices Opposition To Proposed State Bond Issue For Roads

Lynch Davidson, former lieutenant governor and twice a candidate for governor, writes The Record to voice opposition to the proposed State highway bond issue, declaring the move, if authorized, would be contrary to constitutional government. The communication from Mr. Davidson follows:

The framers of the Texas Constitution foresaw grave danger in the legislative branch of Government or other State agencies being empowered to commit the State to debt obligations, and expressly provided in the Constitution that it could not be done, except in cases of great emergency or disaster, and then not to exceed the sum of \$200,000.00.

I am against bond issues by the State of Texas, primarily because it violates this sound organic principle of government; second, I am against it as an economic proposition for the State of Texas.

To amend the Texas constitution so that the Legislature may have the right to authorize State officials to sign the tax-payers' name to a note or notes under the high sounding title of a "bond issue," in the enormous and gigantic sum of \$350,000,000.00, or \$225,000,000.00 or even for \$175,000,000.00 is appalling and should not be done. Resentment over such violence to the Constitution has cropped up all over Texas, and the proponents of the State "bond issue" have backed and filled and trimmed on their position from \$350,000,000 down to \$175,000,000, and are indicating a willingness to accept even a lesser amount, but the Constitutional amendment offered by Senator Woodul now stands at \$225,000,000. The amount of the proposed State "bond issue" is not material except for consideration as a construction proposition.

The cardinal issue is the breaking down of our Constitutional safeguard against debt and opening the door for all kinds of debt-creating legislation. Every time one of these principles of government are destroyed it brings on unknown ills of many kinds. The Legislature remitted Galveston county's State tax at the time of the terrible storm at Galveston and perhaps properly so. The principle was immediately abused by remission of State taxes to a larger tier of counties around Corpus Christi for building the deep water port at Corpus Christi. Shortly thereafter Lamar county got its State taxes remitted because of a disastrous fire at Paris, Texas. These facts I recite to show how far afield these kind of things go, once a principle of government is broken down.

It is a serious question whether public authorities of any character, municipal, County or State, should be empowered to sign the names of the tax-payers of the State to debt-making obligations of any kind in huge sums such as now proposed. A business institution that borrows money for the purpose of making profit and out of the profits pay interest charges and retire the principal of the debt is not to be compared with a political or governmental entity that borrows money with no purpose or possibility of profit making. Such governmental entity does not and cannot make profits, but must ride the taxpayer with spurs to get the money to pay interest on its borrowings or debt, as well as to retire the principal.

If the question is considered from the standpoint of financing it is equally unsound. Not taking into consideration administrative expenses of the Highway Department, either under the "bond plan," or the "pay-as-you-go" plan, the detailed figures, based on present registration fees, proposed common carrier, gross income and 4c gasoline tax, and deducting from this income for payment of \$60,000,000 county road bonds and the proposed \$225,000,000 State "bond issue," based on paying the principal of both at 5 per cent per annum and interest at 5 per cent per annum and estimating the cost of roads at \$30,000 per mile, would bring the following results:

In ten years under the "pay-as-you-go" plan, there would be constructed 10,332 miles of road. Under the "bond" plan there would be constructed 13,621 miles of road. In 10 years the "bond" plan would construct 3,281 miles more than the "pay-as-you-go" plan.

Under the "pay-as-you-go" plan, the above figures show at the end of 12 1/2 years, there would be constructed practically the same amount of mileage as the "bond" plan would produce in 10 years. Interest on the State bonds, under the bond plan, to the period of their retirement is \$107,000,000.00. The figures therefore show, to get 3,281 miles of road 2 1/2 years sooner under the "bond" plan than could be gotten under the "pay-as-you-go" plan, would cause the 3,281 miles of additional road to cost \$32,500.00 more per mile than under the "pay-as-you-go" plan.

After the first 10 years real trouble begins. The eleventh year under the "bond issue" plan would build 625 miles of road, and under the "pay-as-you-go" plan 1,239 miles of road, and the comparison grows worse year by year thereafter.

The towns and cities in Texas of any consequence are located upon the railroads of the State. It is manifest that our major and cardinal highway system to reach these same towns and cities will follow more or less the routes of our railroads and because of cross-country short cuts, will call for somewhat more mileage than the railway mileage of Texas.

HUBBARD GIVES VIEWS ON HIGHWAY AMENDMENT

AUSTIN, Feb. 9.—A statement in support of submitting the highway bond amendment to the people and elucidating the proposition was made Saturday by Representative R. M. Hubbard of New Boston, vice chairman of the committee on highways and motor traffic and former chairman of the highway commission. It follows:

"The proposed amendment offered by me to the motor vehicle registration fee bill, providing that 50 per cent of the funds allocated to the counties be applied to outstanding road obligations, is not intended as a substitute for the proposed State road bonds. It is merely a temporary application of the principle of the bond plan which compensates counties for their contributions to the State highway system. At the best, it is a plan giving only partial relief, pending the ultimate carrying into effect of the bond plan, based on a gasoline tax.

"I believe the people of Texas will approve the bond plan if they are permitted to vote on it. However, as lawmakers we can not assume as a certainty the approval of the people. We should proceed as best we may under the present constitution to fulfill the State's moral obligation to pay for roads incorporated into the State system and, of equal importance, give some relief to the intolerable tax burdens existing in a great many counties. We have had much stress laid on the question of farm relief. The proposed bond plan and my proposed amendment will afford the agricultural interests, and small home owner some measure of relief in the only way that it can be given by the State, in that it affords a tax reduction.

"We must and will come to a State bond issue. We should adequately and certainly compensate the counties, provide sufficient funds and certainly compensate the counties, enable the counties to build and take care of their lateral roads and make a reasonable reduction in the registration fees. We cannot do all these things from current revenues without placing an undue burden on the present users of the roads.

"We started our State highways program in 1917, with a meager

SAMUEL BELL MAXEY (1875-1887)

Samuel Bell Maxey was born in Tompkinsville, Monroe county, Kentucky, on March 30, 1825. His family was of Huguenot descent and moved to Kentucky from Virginia. His father was clerk of the county and circuit courts of Clifton county, Kentucky.

Samuel Maxey attended common schools and was graduated from the Military Academy at West Point at the age of twenty-one. He was brevetted second lieutenant of the seventh infantry on July 1, 1846, and as second lieutenant of eighth infantry on February 23, 1847.

During the Mexican war Lieutenant Maxey served at the siege of Vera Cruz, and the battle of Cerro Gordo. He was brevetted first lieutenant in August 1847, for gallant conduct at Contreras and Churubusco. He was also at Molino del Rey and the capture of the City of Mexico. General Winfield Scott made him commander of a picked company in the city guard. After the war he was stationed at Jefferson Barracks, but resigned in September, 1854, returned to Kentucky and studied law. In 1850 he began the practice of law at Albany, Clifton county, Ky., where he served as clerk of the county and circuit courts and as master in chancery in 1852-1856.

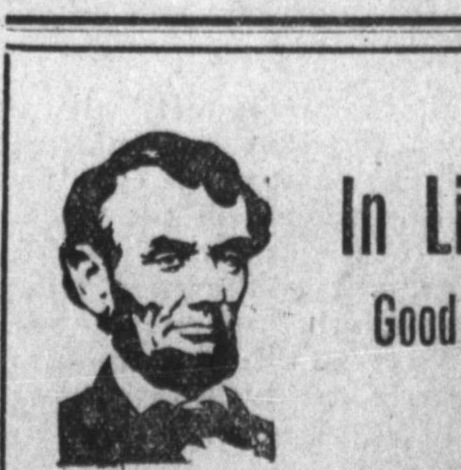

He married a Miss Denton in 1853 and in 1857 removed to Paris, Lamar county, Texas, where he engaged in the private practice until 1858. In 1858-1859 he served as district at-

amount of both State and Federal funds. We started several laps behind the registration of motor vehicles and haven't held our own. Road building in Texas has not kept pace with the increase of motor vehicles and the consequent demand by the people for more and better roads. We have been lagging behind the rate of progress which our commerce and travel requires. It is now time to revise our revenue plans and to agree on a definite program that will give us a correlated and completed system of State highways at as early date as possible, without placing an undue burden on the public.

"A large part of our citizenry that has studied the problem is convinced that this can be accomplished only by issuing State obligations to compensate the counties and to supplement the current revenues for new construction."

Farmers And Business Men Cooperate In Success of Vocational Work At Payne

The 4-H Club Rally day program given at Payne Thursday afternoon under supervision of the vocational department of the school, is said by those attending the meeting from Colorado to have been a unique success. Farmers, merchants and bankers mingled together in the spirit of community cooperation to the end of making of the annual event a commendable success.

Dr. P. C. Coleman, president of the Colorado chamber of commerce and also chairman of the Mitchell county educational board, pledged support of the organizations represented by him in developing rural prosperity. Coleman urged members of the club to look forward to home ownership on the farm as an important goal.

"Go to it, boys and girls; our banks will finance you free of interest when you require funds with which to purchase pigs and baby beebes," T. W. Stonerod, vice president of the City National Bank, declared in addressing the assembly. "Such moves as are evidenced here today indicate progressiveness. I know of no program in which the banks of Colorado would prefer to lend cooperation."

Others to address the meeting were Rev. J. D. Harvey, Rev. W. C. Ashford, J. H. Greens, Miss Ruby McGill, W. S. Foster and J. Lee Jones, all of Colorado, and S. O. Wulfjen of Payne, member of the

Mexican Pipe Line Crew Driven From Work by Americans

EL PASO, Feb. 2.—The newspaper El Continental says that 75 Mexican laborers working on a pipe line construction project between Monahans and Wink have been forced to leave under threats of death by a band of idle Americans who objected to employment by the Mexicans while they were jobless.

Enrique Liekens, Mexican consul general in El Paso, began an investigation. He was informed that "idle Americans" also had protested employment of Mexican laborers in the State highway department work in West Texas.

Reports to Deputy Sheriff Richard Lewis and Constable Earl Vest of Monahans, where that warning was first pinned to the tents of Mexican laborers in the camp, the newspaper said.

The warnings read: "Every Mexican had better be gone before late tonight or we will move them." The laborers ignored the warning. At night, several hours later, two volleys of shots were fired into the camp. The first charge struck a pile of rocks and showed the second peppered the tent tops, but no one was injured.

Authorities were told that the attacking party came from Wink, an oil town, where a proration of oil production had thrown many out of work, said reports to El Continental. The ousted Mexicans have gone to San Antonio in trucks.

EASY RIDING QUALITIES OF FORD ARE AMAZING

One of the things for which the Ford car has already become famous is its exceptionally easy-riding qualities over rough roads. Many factors contribute to this, especially the low ratio of unsprung weight to sprung weight, the flexible transverse springs, Houdaille (Hoo-dye) hydraulic shock absorbers, etc., but perhaps none more than the so-called torque tube drive. This principle of taking the thrust from the rear axle was first introduced into automobile practice by the Ford Motor company on the Model T car and has later been adopted by many of the finest European and American cars, including the Lincoln.

The torque tube is a metal housing surrounding the driving shaft. It takes the driving thrust from the rear axle and carries it to the universal joint housing, a point well forward on the chassis so that the car is really pulled rather than pushed over the road. This construction also relieves the rear spring of any function except that of supporting the load. This permits the leaves of the spring to be made flexible and backed at both ends, resulting in free and normal action and an easy absorption of road shocks.

Radius rods join the torque tube to the forged steel housing of the universal joint, adding strength and rigidity, keeping the rear wheels in perfect alignment, and further resulting in improved riding qualities.

Dairying in West Texas has become such a balancing factor in the agricultural program that merchants, bankers, and professional men are as keenly alive to its value as the farmers are. It is no longer impossible to get financial backing on a dairying venture even if the price of the stock to be purchased is one which would have been called preposterous in former years.

The introduction of bull circles, the holding of dairy shows and the worth-while prizes offered at them have all contributed to the growing interest in dairying. The establishment of cream routes, and the good prices paid for both sweet and sour cream have also aided materially in putting the dairy business in good favor.

One citizen in a West Texas town who started with four dairy cows two years ago and now has 14 head, says that they are sure money than cotton. He declares he can make more money clear year after year than could be made on four hundred acres planted to cotton. He expects to build his own herd to 25 to 30 good dairy cows, raise less cotton and more feed and let the other fellow worry about the price of cotton, the ravages of the boll worms, and his new relative, the pink boll worm.

In Brownwood the majority of the farmers sell their cream. Most of the farmers living close to town bring their cream into the creamery built last March at a cost of approximately \$75,000.00. Other farmers sell the whole milk.

An ice plant was built in connection with the creamery and the men who make the routes gathering the cream deliver ice at the same time. The creamery makes ice cream, pasteurized milk and Bulgarian butter-milk.

The number of cows around Brownwood totals from one to one hundred on each farm, with the owners of the larger herds supplying the whole milk to consumers in the town. From thirty to forty bulls in circles in the county keep the standard of stock graded right.

The bonds which recently have been voted in Brown county to improve about 300 miles of lateral roads and make all highways concrete or macadam will make the establishment of milk routes in every neighborhood practical and certain.

The development of the dairy industry in Spar is shown by the fact that a census to determine the number of dairy cattle in Dickens county last spring found an average of four

There is some \$10,000 worth of dairy cattle in the Spur trade territory. Thirteen head of Jerseys, which breed seems to be most popular, were purchased at the State Fair sale in Dallas in October. The interest in the industry is rapidly becoming more than just a side issue with farmers in the territory, and they are studying the feeding and care of the stock, and other problems relative to dairying. As there are no cream routes out of Spur the farmers have agreed among themselves to take weekly turns delivering the dairy products in their respective communities.

At Tullia 60 dairy farmers are endeavoring to build up line bred herds. Several years ago the Tullia chamber of commerce and the First National bank purchased ten bulls at the price of \$300.00 a head. They were purchased at a price that was very low on account of the lack of demand for Jerseys at that time, and were from world famous sires, which, in the opinion of Tullia authorities, could not be duplicated today for \$1,000 per head.

During the year 1922 dairy products barely exceeded \$100,000. Today the cream checks alone average better than \$1,000 per day, each day of the year. The cream checks handled through one bank in Tullia exceed \$20,000 monthly.

One hundred and twelve herds are on the accredited plan with the U. S. department of agriculture, which fosters pride in stock, and encourages building of more dairy barns with better equipment.

Ranger is interested in dairying to such an extent that a series of meetings was inaugurated by dairy men and farmers January 17. These meetings are to be held for the purpose of developing the dairy business in this territory, to create further interest in the establishment of dairies and the purchasing of registered dairy cows. Feeding problems, testing management, diseases of animals, marketing of products, care of milk and other dairy topics will be discussed in the series of meetings.

Plainview is a leader in the cities interested in dairying in the South Plains. Plainview is the home of the Panhandle Plains dairy show, and the second annual show to be held April 2nd to 5th inclusive will offer \$5,392.00 in premiums. Premiums will be offered for Jerseys, Holstein, Guernseys, grade cows, production contest, county herd, vocational agricultural students judging contest, 4-H club boys' judging contest and dairy products.

The Neighbors will KNOW

without being told . . .

PEOPLE don't go around telling their neighbors, "I'm progressive. I'm looking for finer things." Yet neighbors have ways and means of knowing. And one of their surest signs is the family automobile.

That's why the New Pontiac Big Six offers so much to up-and-coming Americans. It represents progress. It embodies big car luxury, performance and style. It constitutes an impressive step up from lower-priced transportation.

The New Pontiac Big Six is a brand new car from beginning to end. It offers big car performance produced by a big, new L-head engine, accurately balanced rotating

parts, new and silent internal-expanding four-wheel brakes, Hotchkiss drive and many additional mechanical features of equally high quality. It provides the style, comfort and luxury of a car 167 inches in overall length and equipped with masterly new bodies by Fisher. And what is more—it provides all these big car qualities at prices which make no great drain on the purse.

Prices \$745 and up, f. o. b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

LONE STAR GIRLS WIN B. B. VICTORY

The Lone Star girls' basketball team defeated the Carr sextet Friday, February 15, in the Colorado gym. The final score was, Lone Star 24 and Carr 22.

This was a very exciting game, with the score about even most of the time with the exception of the third quarter, when Carr was leading by five points. Lone Star girls entered the last period to win the first pennant for Lone Star when they did some of the best playing of the season. Adele Ward was high-point scorer for Lone Star, making a total of 17 points.

Lone Star is very proud of this winning team, which was coached by Miss Inez Mayes. Names of the players on this, the best team in the history of Lone Star are: W. C. Clair, captain; Maud Walker, Etta Lee Martin; Alva Hall, Gladys A. D. and Mrs. W. C. Wray, center; Adele Ward and Jennie Mae Charles.

A review of the season shows the girls have won six games, with one tie, and no defeats. They scored a total of 147 points to their opponents' 78.

The girls, with their coach, extend their sincere thanks to the Lone Star community and vicinity for their splendid cooperation and interest manifested.

CHAMPIONSHIP IATAN QUINT DEFEATS LONE STAR

The Iatan boys' basketball team, the fastest organization in West Texas in its class, defeated the Lone Star sextet by a close score of 17 to 15 Friday night, February 15, in the Colorado gym. The Iatan boys are much larger than the Lone Star boys, but they put up a real fight to win the rural championship of the county. This victory gave Iatan the pennant, which it has won two years in succession. It is now time for the pennant to be won on the east side of the river, so Iatan had better watch out for Iatan next year. That bunch of "Flats" players don't know what defeat means, and they believe they can beat any team, in any class, east of El Paso.

The Lone Star quintet has closed a very successful season in winning in basketball this year. They have played five games and lost only one. They scored a total of 137 points to only 63 points for their opponents. The following boys lettered in basketball and will be entitled to sweaters: Thomas Long, captain, and D.

Local Men Visit Longfellow P.T.A. Meeting Friday

Local business men were among the visitors when the P. T. A. of Longfellow held its second regular meeting Friday night at the Longfellow school house. A cake sale was held in connection with the meeting. A. K. McCarley presided at the meeting and also assisted in the selling of the cakes, which brought in several dollars.

W. L. Doss, Rexall druggist from Colorado, was the first speaker introduced, and he advocated closer understanding of the people and pledged full support to all progressive moves. He also made application to join their P. T. A. and invited them to the four-counties singing convention to be held in Colorado on the second Saturday and Sunday in March.

W. R. Morgan, manager of the Texas Electric Company, was the second, explaining the workings of the Colorado high school system, and invited the trustees of these two-teacher schools to consider the plan of sending all students above the seventh grade to a high school with complete equipment; inviting all schools to avail themselves of the opportunity to send to the Colorado High School.

W. W. Porter, local representative of the Farm Bureau, was next introduced. Mr. Porter stressed the importance of community co-operation, and spoke on fire prevention, and also advocated the organization of a Sunday school in that community.

J. H. Greene was the last speaker introduced. Greene stressed the importance of obliterating the imaginary line drawn between the town and the country people, stating that most of the town people were people from the country. Greene also suggested the importance of a balanced program on the farm, pledging the full cooperation of the Colorado Chamber of Commerce in all undertakings by the progressive communities of the counties.

MRS. DEWITT CAREY DIED HERE SATURDAY AFTER SHORT ILLNESS

Host of Friends Attend Last Rites of Prominent Mitchell Woman

Death claimed Mrs. Dewitt Carey, for nearly 25 years a resident of Mitchell county, at the C. L. Root Hospital Saturday morning following an operation for appendicitis a week before.

Mrs. Carey was the sister of Judge J. C. Hall, for six years judge of Mitchell county. She and Mr. Carey lived near both Colorado and Loraine during their residence in Mitchell county, and for two years lived in Colorado, where Mr. Carey was in the grocery business with Judge Hall.

Golda Hall Carey was born in Eastland county on July 8, 1891. In 1905 she came to Mitchell county, and in 1910 was married to Dewitt Carey. Two children, a girl and a boy, were born to them, and these, Ina Mae, 16, and Garland 14, survive the mother.

Witness to the host of friends Mrs. Carey had in Mitchell county was the large number who attended the funeral services in Loraine Sunday afternoon. Rev. M. E. McGuire and Rev. A. C. Hardin conducted the services. Burial was in the Loraine cemetery.

HE'S UNLUCKIEST, MAN SAYS AFTER LICENSE TAG EPISODE

JACKSON, Miss., Feb. 11.—If any contests to determine the world's unluckiest man are held, F. L. Etier of Fort Worth, Texas, wants to put in his bid.

Etier was leading a procession of 30 automobiles, being transported from Florida to Texas across Mississippi. Only three bore license plates. Near here a man questioned him about the unlicensed 27 cars.

Etier said that the attorney general of Florida and Alabama had said that it would be all right.

"How about the attorney general of Mississippi?" asked the stranger. "To hell with him," replied Mr. Etier.

Mr. Etier expended \$525 in licenses and penalties. The stranger was the attorney general of Mississippi, and he did not seem to be disposed to go to hell.

Drug Salesman Dies In Auto Crash Near Big Spring Friday

Leland E. Smith 30, representing the Parke, Davis Drug company out of Waco, killed in a car crash west of Big Spring Friday morning, was well known in Colorado, especially among buyers at local drug stores. Smith had been making his home in El Paso. Account of the tragedy as reported in the Big Spring Herald, follows:

Leland E. Smith, aged 30 years, well-known traveling salesman, was killed at 9 o'clock this morning when his automobile turned over on the Bankhead highway, 13 miles west of Big Spring.

The car skidded on the ice-covered pavement, turned completely around and then turned over, down a deep embankment. Smith's neck was broken, and he suffered other injuries. A Mr. Templeton who was driving Smith's car, a Nash sedan, when the accident took place, was uninjured. He flagged a Texas & Pacific passenger train and the injured man was placed aboard to be taken to Stanton for medical attention. Smith died before Stanton was reached. The body was taken to the J. H. Burman Funeral Home at Stanton. Later the body was brought to the Eberley Undertaking parlors here to be embalmed, and then returned to Stanton, from which point it will be shipped to his home in East Texas.

The wife of Mr. Smith who is in El Paso is expected to arrive in Stanton at 6:40 in the morning.

Mr. Smith, who has been traveling salesman for the Parke, Davis Drug Company, out of Waco for a number of years, is well known in Big Spring, and throughout West Texas, and held in high esteem by all who knew him.

Trains Running Too Fast, This Attorney Advises City Dads

The dignity of Colorado is being assailed and the quietude of our citizens too frequently disturbed by policy of the Texas & Pacific railway to operate trains through the city at high speed. So, in so many words, is the conviction of Thomas R. Smith, Colorado attorney.

Smith appeared before the city council Monday night to register formal complaint because of this nuisance and demanded that ordinances regulating the practice be enacted. He suggested a speed limit of eight miles per hour.

The Colorado attorney is not alone in this complaint, by any manner of means. Scores of Colorado citizens have expressed dissatisfaction because of the thundering din occasioned by the fast trains as they roar through the city.

No action was taken by the council at the Monday night meeting.

28 Arrested In First Day Of Fight On Booze Traffic In Brown-Coleman County

Illicit liquor and dope traffic in Brown and Coleman counties suffered heavily Thursday when Federal, State and county officers opened a drive that by nightfall resulted in 28 raids, arrest of as many men and women, confiscation of hundreds of gallons of liquors of all sorts and a quantity of narcotics, reports gathered by The Abilene Morning News disclose.

Nineteen persons were in jail at Coleman and nine at Brownwood and according to members of the raiding party, the drive has just started. Each place raided had previously been visited by an under-cover agent who bought liquor, it was learned.

Hidden in a mattress of a bed in a Brownwood hotel about \$200 worth of narcotics with needles and other dope peddler's supplies were discovered, it was stated.

The raiding party included W. L. Zent, prohibition agent of San Angelo; George A. Hammond, deputy prohibition administrator of Fort Worth; Dott E. Smith of Abilene, a

State ranger; Sheriffs Frank Mills of Coleman and Denman of Brown and their deputies.

At one place a group of little girls, 6 to 12 years of age, started to breaking bottles of beer when the raiders arrived, said Smith. Quickly filling their pockets with "evidence," the officers were confronted with scrapping children armed with hammers and sticks, with which they struck at the officers' loaded pockets, Smith said.

Reid made this statement when asked if it was not probable that an extra session would be called to follow immediately after adjournment of the regular session.

The Colorado newspaper man stated that he expected to return to his desk on The Record about March 10.

Pat Neff Confirmed As Member Of U.S. Mediation Board

WASHINGTON, Feb. 11.—Approval of the senate interstate commerce committee today was given to the nomination of Pat M. Neff to be a member of the United States board of mediation, and Senator Fess, Republican, Ohio, was named to make the report asking senate confirmation of the nomination.

The former Texas governor's nomination had been opposed by Senator Mayfield, democrat, Texas, who, as a member of the interstate commerce committee, voted with five other members against a favorable report. Eight members of the committee voted in favor of Neff.

Although a fight against Neff's confirmation is expected when it comes up on the senate floor the opposition made no announcement of who would carry it on. Senator Mayfield declined to make any statement of his intentions, and Senator Wheeler, Democrat, Montana, who on several occasions supported Mayfield during committee hearings, contented himself with announcement that a floor fight would be made.

Neff had been serving on the board, and the nomination would confirm him for another term.

Road To Hobbs In New Oil Field Is Being Constructed

SNYDER, Feb. 13.—Officials here of the Dal Paso Cavern Highway Association have been advised by Secretary Wm. A. Wilson that through the cooperation of J. J. Carson, townsite promoter of Hobbs, New Mexico, a road is being built west from the Texas State line following a survey by the New Mexico State highway body.

Superintendent Thomas Boles of the Carlsbad Caverns has advised all Dal Paso Cavern highway towns that a total of 46,222 visitors went thru the caverns in 1928, as compared to 29,034 during 1927.

Traffic over the Dal Paso Cavern highway to the Caverns this year was much greater than the year before, owing to the fact that most of the traffic going to the Caverns was also going on to the coast and this route is 103 miles shorter than any other east and west road.

West Texas Cattlemen Verge On Stable Business Era, Colorado Breeder Says

West Texas cattlemen are entering upon an era of stable business conditions unknown by the industry in many years, according to D. H. Snyder, Colorado ranchman, who views the outlook with considerable optimism. Snyder, in an interview with The Record Saturday, declared that with general improvement of the cattle business throughout the country, had come a season of stability to ranchmen of this section of West Texas not reached in many years.

"I am glad to say that the cattlemen have had a better year," Snyder stated in reviewing statistics showing improvement of the business last year. "From end of the war until 1926, the cattle business was not profitable for many feeders and ranchers of West Texas, as well as all other sections of the country. In the process of getting their business readjusted from a war to a peacetime basis, they have had to liquidate their cattle on a large scale, and many of them have been forced to withdraw from the business altogether.

"From a profits standpoint, the outlook for the cattle raiser is much improved. The period of liquidation has run its course. According to estimates of the United States Department of Agriculture, there were only 55,696,000 cattle on farms January 1, 1928, which was the smallest cattle population this country has had in any year since 1912. The department also estimated that the number of beef cattle was 23,374,000, and this was the smallest beef cattle production we have had since 1877.

"These estimates, though tentative, seem to assure that beef and cattle prices, which have been fairly high for the past two years, are going to remain on a reasonably high level for some time, and that profits are going to be made in the cattle ranch and farm business once more, if such business is properly conducted.

"There is scarcely any limit to the prosperity which this country should enjoy in the years that lie ahead, and there is every indication that the nation's livestock producers are going to have a full share of that prosperity," Snyder said.

Sargon Treatment Is Just Wonderful, Declares Maxfield

Thousands of Texas people are now taking the Sargon Treatment with the most astonishing and gratifying results and scores of men and women are daily telling what it has

H. M. MAXFIELD

done for them. Among the latest to give enthusiastic praise is H. M. Maxfield, of 204 East 15th St., Fort Worth, who says:

"I wouldn't take any amount of money for the good Sargon did me. About three years ago I became terribly run-down, nervous and anemic. My liver was out of order and I nearly always was constipated and bilious. Nothing I ate agreed with me. I tried dieting, but that didn't help. Gas pains would shoot through my stomach and up into my chest. I would taste my food and frequently was so weak and sick I could hardly stand on my feet.

"I was so nervous I could not sleep and would stay awake half the night. My breath was bad, my stomach was coated and I lost weight and strength. I didn't have any energy. I was susceptible to colds, and they were very stubborn and would hang on for weeks.

"I got some Sargon and right from the first dose I began to feel better. I never saw anything like it. My appetite is good and I eat what I want without a sign of distress. I sleep like a tired boy and in the morning I just feel fine. All my nervousness is gone and I am brimful of new strength and energy and I haven't had a cold since I started taking it.

"Sargon Soft Mass Pills are the most wonderful laxative I ever took. They ended my constipation without upsetting my system or making me sick in the least."

Sargon may be obtained in Colorado from the Colorado Drug Co., in Westbrook from Mrs. Margaret E. Lasseter, and in Loraine from Hutchins & Hall. Adv.-11

Cause Of Dawson Killing Unknown As Victim Buried

LAMESA, Feb. 9.—J. A. Cox shot and killed last Wednesday night about 8:30 o'clock near the Klondyke store 15 miles southwest of here was buried in the Lamesa cemetery this afternoon. Despite bad weather conditions several hundred people attended the funeral services which were held by Rev. Leonard Bankhead, also superintendent of the Klondyke schools, and Rev. J. T. Barr, pastor of the Church of Christ of this city. Cox leaves his wife and four small children, four sisters, his mother, and brother, the latter just arriving from a trip into New Mexico after facing a severe snowstorm to get here for the funeral services.

Cox was killed by a shot from a new shotgun which ranged its full discharge into his face. Charges have been made against Rev. W. E. Duke, owner and operator of a store directly across the road from where Cox lived and is operating a filling station. At this time no one can vouch for any authentic statement that would lead to the cause that resulted in the shooting of Cox.

No one saw the tragedy except Mrs. W. E. Duke, wife of the accused, and no statement has been made to this time. The Reverend Duke has made an appearance bond which is signed by seventeen citizens. The amount of the bond is \$5,000. Duke is also pastoring two community Baptist churches in this county at the time of the shooting. The Midway and Sparenburg Baptist churches, 13 and 15 miles southeast of here, are his charges. Duke is 40 years of age and has a family of three children. His wife is a 17-year-old

Ennis S. Simpkins, aged 57 years, died at his home near Conway Friday night, February 8, after a lingering illness of several years duration. He leaves to mourn him a wife and eight children, one by a former marriage and seven by his present wife, who before her marriage in 1909 was Miss Georgia Bain. Mr. Simpkins was a member of the Methodist church and it is said by those who knew him that he had lived a consistent Christian life and was ready to go when the call came. Funeral services were conducted at the Westbrook cemetery Sunday afternoon at 3 o'clock, with Rev. Naugle officiating.

Mrs. Porter Hammonds, daughter of Mr. and Mrs. A. R. Trice, is leaving for Dallas.

Big 'Crops' Other Than Cotton, Cows, Pigs Grown Here

Chick county claims an enviable distinction as to big production quotas in matters of cotton, cows, poultry and many other staple crops, but this citizen comes in to register as a champion when it comes to big family production.

He is F. M. Thompson of Westbrook, 31, and a citizen of Mitchell county for the past twenty years. Thompson came to this county twenty years ago from Alabama, where big families are in vogue and has not seen fit to deviate from the time-honored policy of his ancestors and neighbors.

Mr. Thompson and his wife are the parents of ten children, six of whom are living today. There are forty grandchildren and thirty great grandchildren enumerated as direct descendants of this union.

Thompson's proud grandparent was not so proud as to the number of great-grandchildren to which he has a right to claim. "If I remember correctly, there should be forty of them," he said.

At conclusion of the services a special offering, aggregating \$250.00, was made by the congregation for the college. Quota of the Colorado Methodist church for this conference year for support of McMurtry is \$600.00.

LET THE LITTLE SUNSHINE IN

Ordinary Sunlight a Vital Factor in the Development of Chickens—What the Ancients Worshipped Blindly as a Deity, Science Proves To Be Truly Deserving of Reverence.

The ancient of many races worshipped the sun as a god. For centuries it has been used as a symbol of purification, and even in Christian churches today we find our children singing, "Let a Little Sunshine In." Until comparatively recently, however, it was not suspected that there was a real basis, in fact, for all this symbolic reverence for the sun.

Now science tells us that the ultra-violet rays of the sun perform at least two very important services for humanity and for animal life generally. Certain harmful germ life cannot survive in the presence of these rays and certain chemical processes necessary for proper physical development cannot proceed without them. Perhaps the most important service rendered in this way is the aid given to the growth of bony structures inside the body. This is particularly important to poultry raisers.

We hear a lot about vitamins these days. No one seems to know just what they are but quite a lot is known about what they do and that is the important thing. Of the four known vitamins, Vitamin D is the one needed to transform certain mineral elements of food into bone and eggshell. This important vitamin is manufactured right in the bodies of fowls by a direct action of the violet-rays in sunshine.

This is one reason why I am always insisting on open front poultry houses and plenty of range space for fowls. Every possible means should be employed to expose their bodies to the helpful action of sunlight. Of course, this does not mean that they may not seek shade on extremely hot days. Too much of anything is not good. Even in the shade in some cases, the ultra-violet rays can reach the fowls in sufficient measure to continue their good work. Chicks that get plenty of sunshine will not develop "leg disease" or rickets, and soft-shell eggs will be rare among hens of whom the same thing is true.

Not the least of my reasons for so ardently sponsoring the open front type of house previously mentioned in this article is the antagonism of sunlight to unwelcome bacteria. Here again we find the ultra-violet rays responsible. They can penetrate many substances which will not admit other light rays, but they cannot go through ordinary window glass consequently, if it should become necessary to close up any part of the front wall space ordinarily intended to be left open, use a glass substitute over a portion, and thin white muslin or cheesecloth over the balance. This will admit the ultra-violet rays and considerable fresh air. Before going very far with inclos-

Famous Band of Belgians Will Visit Abilene University

ABILENE, Texas, Feb. 11.—The Band of the Royal Belgian Guards under the patronage of King Albert of Belgium, will appear in concert at the Simmons University auditorium here on April 15, it has been announced from the office of the Cowboy Band of that school, which is sponsoring the attraction.

This eighty-piece symphonic band, already renowned in Europe as one of the continent's greatest musical organizations, will begin its tour of America March 15, making only three stops in Texas, one of which is Abilene. It will be accompanied on the trip by the Belgian ambassador to the United States.

The band is composed of men selected from the famous regiment which was started in 1831, given a special flag by the king, and became famous for its hard fighting in the World War. It is used by King Albert on special occasions. Its eighty pieces include a string section in addition to the brasses and wood-winds, making it possible for it to play symphonic selections.

EAGLE BRAND GAIL BORDEN comes to Texas! TEXANS LETS TALK TEXAS. BORDEN comes to Texas! TEXANS LETS TALK TEXAS. TEXANS talked Texas to the Borden Milk Company and Borden came to Texas. The citizens of Waco—real Texans through and through—backed their talk with organized action, as a result of which the Borden Milk Company is rushing to completion a \$500,000 milk products plant at Waco. The Borden Milk Company is now a Texas institution. Its principal greatness lies in the fact that through its use of an agricultural product as raw material for manufacturing, it has brought permanent prosperity to hundreds of thousands of farmers in other states. Today, in that central section of Texas, within the trading area of Waco, more than 2,000 Texas farmers are getting ready for the program of intensive milk production which is to deliver a constant flow of cash into their pockets. Borden saw that in Texas was not only a vast territory suitable to dairy development, but that Texans were ready to do this work on an organized basis. Borden has watched the development of the great market of which Texas is the center. They have seen that this market will grow in long and steady strides. They have realized that to supply this market economically and satisfactorily they must produce their milk products within its confines. This action, on the part of the Texans who were largely responsible for it, and the Borden Company, is highly significant. Texas is on the threshold of a comprehensive dairy development which will have a more far reaching effect upon the sound prosperity of the state than any other program of development which has been initiated in this generation. Borden comes to Texas! Pioneering large scale production and national distribution of milk products from Texas. Texans talked Texas and a wide program of development resulted. This Company has, as a part of its policy of community and state development, the slogan, "Texans! Let's Talk Texas." This is a concrete example of what talking Texas, and supplementing that talk with action will do. Talking about and acting upon the resources of Texas will be the most powerful influence in the balanced development of the State. COMMITTEE ALSO APPOINTED TO HELP IN HIGHWAY DESIGNATION

The appointment of a committee to raise four thousand dollars with which to improve the Colorado Airport, was recommended at the Chamber of Commerce Luncheon club Tuesday noon in the dining room of the Colorado hotel. Judge C. H. Earnest presided.

A committee was also appointed to communicate with officials of the county and solicit their cooperation in requesting the State highway department to detour the traffic back to the highway west of the refinery, instead of bringing them across the dangerous south bridge, and across the inconvenient railroad crossing, made so because of the constant switching. U. D. Wulfjen, chairman of agriculture, talked on the importance of fostering the dairy cow movement, stating that the main subject for next Tuesday would be the dairy cow.

IN MEMORIAM

In loving memory of our dear wife and mother, who was laid away just twelve months ago today.

There is some one who misses you sadly, and finds the time long since you went; there is some one who thinks of you each day, and tries to be brave and content. We often sit and think of you, and speak of how you died; to think you could not say good-bye before you closed your eyes. For all of us you did your best, may God grant you eternal rest. By her husband, J. H. Ashby and children.

VALUE OF DAIRY COW ON FARM IS DEMONSTRATED

B. O. JOYCE SUBMITS THE FIGURES TO PROVE HIS POINT

Value of the dairy cow on the farm is demonstrated by B. O. Joyce, a successful business man living southwest of Colorado in the Spade community. Mr. Joyce submits figures to show that it is profitable to keep real registered Jerseys with records of merit of production on the farm in Mitchell county, and give at least a part of the time to their attention.

He has milked an average of seven cows, two of which are registered, during the year of 1928, with the following results: He sold whole milk, \$1551.39; calves \$115.00; cows \$105.00, totaling \$1771.39. This is in addition to milk reserved for home consumption, which included pigs, chickens and his family.

According to statement of Mr. Joyce, he believes in home-grown feed, but he says it is better to grind and properly mix his feed to produce a balanced ration, which produces more produce at less cost. Joyce raises maize, kaffir, hegaria and sorghums, which he feeds. In speaking to a member of the chamber of commerce, this business man stated that he considered this a great move, but he warns against buying low-grade cows, stating that he considered good registered cows worth many times each cheap cow.

THE OF A TRUE FRIEND

Aunt Rose is dead. To the new-comers in Colorado the above words mean nothing, but to those who have lived here several years...

"Aunt Rose" Whipkey, wife and mother of the editors and owners of The Colorado Record, was, without doubt, one of the best-loved women in Mitchell county.

To the boys in the print shop "Aunt Rose" was almost a mother. She knew each of the boys' trials and tribulations, and was ever ready to lend an ear and sympathetic word to their tales of woe...

AUNT ROSE HAS GONE

Aunt Rose has been called home. Our hearts are saddened and drawn in deepest and tenderest sympathy toward Uncle Fred and Walter, whose hearts have been broken on account of the home-going of their loved one.

THE UNDERPASSES NEEDED

The demand that an underpass on the Texas & Pacific railroad to eliminate the dangerous crossing at the end of E. m. street, has been before the city council...

Gov. Moody's civil service bill is dead. He blames the departmental clerks who may have lost their jobs under the new bill.

PROTECT THE PEDESTRIAN

Quite a number of comments have been made recently about the danger to pedestrians crossing the Lone Wolf creek bridge on Second street.

East Colorado is becoming thickly populated and a majority of the inhabitants walk to and from town. They are forced to cross Lone Wolf creek bridge, on the Broadway of America—or Bankhead highway—and there is no safety zone or walk provided on that structure for pedestrians.

Two dry agents testified recently that they bought 3 drinks each in one night "getting evidence." One of them is "getting drunk" instead of "getting evidence."

AUNT ROSE WHIPKEY

For a person to be permitted to live upon the earth for more than 60 years means more than we ordinarily like it to mean. Aunt Rose Whipkey, as she was familiarly known in Colorado, had lived her three score years and had filled them full of useful deeds.

JUST A WORD OF THANKS

If flowers and words of sympathy and condolence are taken as evidence, no greater tribute was ever paid the dead than that accorded our dear wife and mother this week.

ST TRIBUTE PAID BY LARGE NUMBER TO "AUNT ROSE" WHIPKEY

The funeral services were simple and beautiful. Rev. Ashford read scriptural beginning with Job 1:13: "Let not your heart be troubled; ye believe in God, believe also in me."

SOUTHERN FARMERS SHOULD REJOICE

The announcement that Secretary Jardine of the United States Department of Agriculture will retire to private life is welcome news to the Southern farmers, or the planters of cotton generally.

It is believed throughout the South that these reports out to the farmers millions of dollars in early production. It is even estimated that the farmers of Mitchell county would have received \$100,000 more for their cotton if he early estimates had been properly pointed out.

AUNT ROSE

By Her Pastor REV. W. C. ASHFORD In the home going of Aunt Rose Whipkey, Monday morning, Feb. 18th, our town lost one among its best-loved and most useful citizens.

Another mark of greatness was that of a jovial spirit. There was always a smile and a word of cheer for those she met in the daily rounds of her life.

THE HEARTS OF A HOST OF FRIENDS

The hearts of a host of friends go out in tenderest sympathy to the loved ones who mourn the call of Aunt Rose to her heavenly home.

HE LEADS US ON THROUGH ALL THE UNQUIET YEARS

He leads us on through all the unquiet years; Past all our dreamland hopes, and doubts, and fears, He guides our steps, through all the tangled maze of losses, sorrows, and o'erclouded days.

CHRIST TEACHE HUMILITY

Who is the greatest in the kingdom of heaven, Jesus called a little child unto him, and set him in the midst of them.

THEY WILL BE DONE, O GOD

The passing of Aunt Rose Whipkey, wife of the venerable publisher of The Record, and mother of the junior proprietor of this publication, has cast a veil of mourning upon this office that only time can in any manner lift.

WHEN WE REALIZE THAT THE CHEERFUL WORDS, THE GRACIOUS SMILES, THE WISE COUNCIL AND THE APPRECIATED ENCOURAGEMENT

When we realize that the cheerful words, the gracious smiles, the wise council and the appreciated encouragement of Aunt Rose, which we have in the past so very fortunately received, will never again be ours, we are grieved so deeply that words are not sufficient to express our feeling.

WHEN VOICING PROBLEMS CAME UP, AUNT ROSE ALWAYS LISTENED TO US TO DO OUR BEST AND BE SATISFIED.

When voicing problems came up, Aunt Rose always listened to us to do our best and be satisfied. Her presence served as a balancing influence, and now without her influence we feel some fear as to our ability to carry on. Yet that influence for good which her life has so effectively spread will continue to be with us.

Fuel system of the new Ford has been designed for reliability and long service

The practical value of Ford's simplicity of design is especially apparent in the fuel system.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel, plate plated to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford is only 18 inches long and is easily accessible all the way.

The gasoline passes from the tank to the carburetor through a filter or sediment mounted on the steel line tank from the carburetor. This filter is specially designed and has been built to deliver many thousands of miles of good service.

SHE HAS GONE

(Continued From Page 4)

Yes, we will miss Aunt Rose. There will be an empty pew at church, of which she was a faithful and useful member since childhood, which no true friend than she ever occupied. There will be a vacancy everywhere, for truly Aunt Rose was a friend to humanity, therefore always present to do her best to alleviate the pain, assuage suffering, and encourage those needing her smiles.

No smiles were more pleasant, no words more kind, and no spirit sweeter than those of Aunt Rose. She recognized and greeted all alike, wherever she met them, regardless of their station in life. Surely heaven is brighter and the angels happier because of the home coming of this wonderful sweet spirit. Our loss is Heaven's gain.
