

SUMMER SCHOOL TO OPEN HERE ON JUNE 10. CLOSE JULY 26

Opportunities Will Be Given Students To Make Up Or Continue Work

Summer school will begin at the Colorado High School for all students on Monday, June 10, at 9 o'clock, according to Supt. Ben S. Peck.

There will be several teachers employed to care for the students who may wish to pursue their studies during the summer months. The term will last for seven weeks—six days per week—closing on July 26th. "There is no good reason why the student should spend the entire vacation period in idleness," Mr. Peck states. "On the other hand, there are several good reasons why students should continue the school work during the summer. Every effort will be made to do a very creditable piece of work in all courses offered. New courses may be taken and courses pupils have flunked in

regular term can be completed so they can continue with the class. "Many students who have passed can take work in advance to prepare them for more creditable work next year. This is true in a large measure of the Hutchinson school. Children there who have advanced to the next grade with a low average should attend the drills given in their grade so they can be better prepared for the work next year."

The work in the grade school will be largely a drill in the fundamentals of arithmetic, grammar and history. Unless a child is strong in these subjects, he should attend the drill school at the high school building, according to Mr. Peck. The work the grade school is offering could very well be called a Drill School, and the students who attend will be fortunate because they should be able to step to the front ranks of their class in September when school begins.

Students from other schools who wish to attend may do so and receive credits on all work done. Students from rural schools may receive their classification and credits from their home school by the work done in summer school.

Fees
Students in high school will pay in advance the following fees:
One course \$12.00
Two courses 20.00
Students of the Hutchinson school will pay in advance the following fees:
One course \$10.00
Two courses 15.00

Courses
English I, English II, English III, English IV, History I, History II, and History III. Commercial Law, Typing, Bookkeeping.

Courses will be offered in the following high school subjects to those students who have failed in the course: Algebra I and II, Plane Geometry, Spanish I and II.

Other courses may be offered if there is a sufficient number of pupils making the same request for work. One old course and one new course or two old courses may be taken by a student.

MR. AND MRS. SPENCER ARE HERE FROM DALLAS

Mr. and Mrs. G. L. Spencer of Dallas are here this week visiting Mrs. Spencer's brother, John Summers, of the Model Shop.

Mr. Spencer formerly conducted a dry goods business in Dallas, and he and Mr. Summers are contemplating opening one or two gents' furnishing stores in West Texas in the near future.

SCOUT WORK HERE IS SUBJECT OF TUESDAY LUNCHEON CLUB MEET

Talks Made On Swimming Pool At Seven Wells To Be Run By Scouts

Scout work in Colorado was the subject of the Luncheon Club Tuesday, at which time Rev. W. M. Elliott, pastor of the First Presbyterian church and head of the Buffalo Trails Council, Boy Scouts of America, presided.

J. A. Ferguson and W. L. Scott, scout masters, were in charge of the program. Mr. Scott told of the working of Boy Scout troops, and Jack Hicks gave illustrations by building fire with flint and steel, fire by friction, and also by demonstrating how to revive a drowned person.

Rev. Mr. Elliott told about his love of and belief in Scout work, following which Mr. Ferguson told about the Scouts' proposition to dam Champion creek to make a swimming pool on a site of ground donated to their use for five years by U. D. Wulfjen. He stated that the Scouts are already selling season tickets to families of Colorado for use of the pool during the summer, in an effort to raise money to begin work on their dam. What the Scouts make from the pool will go to erect their club house. Tickets are on sale at all drug stores.

The Scouts' proposition was spoken to by W. L. Doss, J. Ralph Lee, Rev. W. C. Ashford, and Supt. Ben S. Peck.

Judge C. H. Earnest announced that the club will meet next week in the basement of the Baptist church, and be served by Mrs. Clyde Hirs's Sunday school class.

Memorial Day Program Plans Are Being Made

Plans are being made by the U. D. C., American Legion Auxiliary, and other Colorado organizations to observe Memorial and Decoration Day on Thursday, May 30, with fitting ceremonies.

Citizens of Colorado are to gather at the American Legion Hut Thursday afternoon at 6 o'clock, at which time the Colorado Municipal Band is to be on hand. The U. D. C., Legion and Auxiliary to the Legion will carry wreaths to the cemetery to be placed on the graves of all war veterans. Those attending the services will assemble at the gate inside the old part of the cemetery, and an address will be made by Rev. W. C. Ashford, pastor of the First Baptist church. The band will play, and Edgar A. Guest's poem, "Memorial Day," will be read by Princess Martin. The placing of the wreaths will follow, and after this taps will be sounded by Roy Hester, director of the band.

Example of Fifth Grade Work Found In Prize Theme

One of the accomplishments which the fifth grade of the Hutchinson school can look back upon for the past year, now that the year is closing, is the following theme on "The Pleasures of Farm Life," by Mable Earnest Cooper, which won the prize offered by the 1921 Study Club to the Fifth Grade pupil for writing the best theme on a subject selected from several given:

"It's so nice when school is out, then you can go out to Grandpa's farm.

"In the morning you have to get up and go hunt eggs for breakfast and also milk the cow. Then grandpa will have a nice hot breakfast for you. After breakfast you will be happy all the day through.

"The nicest thing of all is when your work is through on the farm. You may roam anywhere you like. Just go down to the woods where the little brook babbles through the wild flowers. Then go to the meadow where the robins sing so sweet. Oh, how I wish I could live on a farm.

The old farm house is a two-story house made of stones, with vines, a garden with vegetables and bushes, and then comes the orchard. All around the house are large trees. Back of the orchard and garden is the big barn, which is also two-story.

"At night the farmer comes in from the field, puts up the plow and horses. Then the farm-boy goes after the cows, calling, 'Co boss, Co boss.' After the cows are brought in they are milked, the chickens are fed, then we all go in for supper. After supper we tell stories while grandpa reads the paper, then we all go to bed."

Blank Books of all kinds at the Record Office.

LOCAL OFFICERS HAVE AN EXCITING CHASE

Chief of Police Dick Hickman, and Night Chief Homer Key staged a running fight Sunday night with two alleged car thieves that for a while had the people of South Colorado believing that one of the battles of the Mexican revolution was being fought in this city.

Sunday evening the Colorado officers received a phonscall from officers at Big Spring, notifying them that a Chevrolet coupe had been stolen there and it was believed the thieves were enroute east through this city. Chief Hickman and Key stationed themselves on the detour about two miles out, and waited for the car. Finally a Chevrolet coupe passed, occupied by two men. The Chief and Key gave chase in the chief's new Ford. The officers were crowding the alleged thieves so close when they were nearing town that they ran the stolen coupe into a house near the street, and started to make their escape. Key ran to the side of the car and grabbed the driver by the collar of his sweater, but the chauffeur came out from under that sweater as easy as if he had never had it on, andumped onto the other side of the car. The other occupant of the car was already on the ground and making his get-away.

Key, who was left holding a fairly good-looking sweater, fired a shot at the feet of the fleeing driver, and when the man stumbled and fell the officer felt sure he had hit him. But the fellow stayed down only a second, and when he did get up, he "picked 'em up and put 'em down" with a speed that would have made one of Pyle's Bunfin Derby runners turn green with envy.

In the meantime, Chief Hickman had jumped from his car and given chase to the other occupant of the stolen Chevrolet. He emptied his pistol at the fugitive, but every shot seemed to add speed to the fellow's feet, and the chief says he was doing a very bit of 25 miles an hour when he went out of sight. Both men escaped, although the officers continued the search for several hours.

The owner of the Chevrolet came to Colorado and identified the car, but as it was damaged when the

Colorado Men Attend Farm Loan Meeting

A. A. Dorn, D. H. Snyder, and N. T. Womack attended the annual district meeting of the National Farm Loan Association in Sweetwater last Tuesday.

The meeting, one of fourteen being held throughout the State, was attended by nearly one hundred secretaries and directors. Officers of the Federal Land Bank of Houston were also in attendance.

METHODISTS HAVE A BIG DAY AT CUTHBERT

Sunday, May 19, was a full day at Cuthbert.

The laymen of the Methodist church, under the leadership of W. O. Welborn, church lay leader, had charge of the morning service. This service was very helpful and instructive and showed that the laymen of the church can and do have a place in the work of the church. This service was in line with the effort to have a laymen's service in every Methodist church in the South on that date.

A bountiful basket dinner was spread and enjoyed by quite a large number.

Sunday school met at 3 p. m., after which Rev. J. D. Harvey, pastor of the Colorado Church of Christ, preached a very helpful sermon on "The All-Sufficiency of the Church."

The evening service was in charge of the Methodist pastor.

CHURCHES

CHURCH OF CHRIST

Last Lord's day was another great day with us. Largest crowd ever present at the church, and five more added. This, of course, gives us courage.

Bible school Sunday at 10 a. m. Preaching and communion 11-12 a. m. Subject, "The Yoke of Christ."

Young People's meeting 7 p. m. There will be no evening Gospel service. We are dismissing for the baccalaureate sermon.

Ladies' Bible class Monday at 3 p. m. Study of the Ecol. Wednesday at 8 p. m. We welcome you to with us.

J. D. HARVEY, Minister.

PRESBYTERIAN CHURCH

Bible school at 9:45 a. m., J. M. Thomas, superintendent.

Worship and sermon at 11 a. m. No service at the evening hour on account of the baccalaureate service at the high school. Since we do not have the evening service, be sure to come to the morning service.

Prayer service every Wednesday evening at 8 o'clock.

All visitors are requested to remain after service so that we can meet you.

W. M. ELLIOTT, Pastor.

METHODIST CHURCH

Are you a member of the Methodist church? If so, you took a vow that you would attend the services. Are you doing that?

Sunday school at 9:45 each Sunday morning.

Morning worship, 11 o'clock. Subject, "Go Teach."

Epworth League at 7 p. m. Let all the younger people of the church keep the vow. Be present. Come worship with us.

FIRST CHRISTIAN CHURCH

Bible school at 9:45 a. m., W. W. Porter, Supt.

Church services at 11 a. m. Dr. C. L. Root will speak at this hour, on the subject, "God As Revealed in the Study of Anatomy and Physiology." Mrs. Berryhill will sing. All doctors and nurses especially invited.

The pastor will be at Dunn preaching the commencement sermon. No services at evening on account of the commencement sermon at Colorado

High School.

Prayer meeting on Wednesday at 8 p. m.

FIRST BAPTIST CHURCH

Sunday school at 9:45 a. m., G. B. Slaton, superintendent. We are glad indeed to have the excellent attendance on Sunday school last Sunday. There were 424 present with a commendable number of perfect grades. It was a pleasure to greet a number of visitors.

Morning hour of worship 10:50. Subject, "The Possibilities of Prayer." It is hoped that every member of our church family will be present for the morning service.

The evening service will be held in connection with the high school exercises at the high school auditorium.

All B. Y. P. U.'s meet promptly at 6:45. Good work is being done by the B. Y. P. U. organizations under the direction of their able leaders. There is a place of service for every young person in our church in one of the B. Y. P. U.'s.

Visitors are always cordially invited to worship with us.

WILLIAM C. ASHFORD, Pastor.

Faithful Workers of Baptist S. S.

There were eleven present in the class at Sunday school Sunday morning. Had a brief business meeting with election of officers as follows: Mrs. L. A. Spoons, president; Mrs. H. H. Bozner, first vice president; Mrs. W. W. Woods, 2nd vice president; Mrs. Thos. Jackson, 3rd vice president; Miss Nina Cole, secretary and treasurer; Mrs. W. Henderson, reporter.

Clarence Grable And Miss Epps Married May 11

Clarence Grable, son of Mr. and Mrs. C. L. Grable of near Colorado, and Miss Vashli Epps, daughter of Mr. and Mrs. A. N. Epps of Colorado, were married a week ago last Saturday in Abilene.

The bride has been a teacher in Scurry county during the past year, and the groom is a junior in Texas Tech at Lubbock. Immediate plans of the couple are to attend the New Mexico A. & M. College this summer.

Mrs. Grable came to Colorado a little over a year ago with her parents. Mr. Grable is a graduate of Colorado High School, and is well known here.

First-Year Melody Way Pupils of Mrs. Guitar In Recital

The first-year Melody Way pupils of Mrs. J. H. Guitar gave a beautiful recital Friday evening at the home of Mrs. A. L. Whipple. There were three pianos, and each pupil gave a solo. There was also ensemble playing with all the pupils at the pianos.

Between the musical numbers folk dances were given by these tiny tots. The class is composed of Sarah Guitar, Katherine Slagel, Helen Snyder, Harryetta Landers, Nancy Price, and Virginia Rose Whipple. Elizabeth Dupree, one of the number, was unable to take part, due to her long illness. Sarah Guitar gave a splendid violin number. The guests were the mothers and interested friends of the performers.

BOYS' CLASS ROOM IS TO BE FURNISHED

Boys' class room furnishings for the Intermediate department of the Baptist Sunday school will be bought with the proceeds made by the Baptist women when they serve the Chamber of Commerce Luncheon club next Tuesday at 12:30, in the basement of the Baptist church. It is hoped a large crowd will attend the luncheon on this day.

Blank Books of all kinds at the Record Office.

Large Number of Grammar School Pupils Exempt

A list of the Grammar school students who made grades during the second term of school entitling them to exemptions on examinations is given below:

Arithmetic

Seventh Grade—Leila Gross, Virginia Norris, Princess Martin, Mattie Beth Payne, Hunt Guitar, Charles Levinson, P. J. Burrows, Syble Mints, Ruby Mae Allison, Alice Hunter.

Fourth Grade—Elwood Beal, Don Guitar, Tom Hughes, Jr., Robert Moser, Regal Porter, Durwood Shurreliff, Julius Smith, Wilbur Thomson, Irl B. Glass, Saral Melton, Melba Slaton, Elizabeth Taylor, Maywood Thompson, Lloyd Wyatt, Denzil Wyatt, Florence Watson, Carl McPerrin, Willie Galey, Dorothy Dean Burnett, Elvin Nanney, G. P. Stewart.

Fifth Grade—Ashley Marable, Tom A. Cecil, Sam Venable, Opal Allison, Grace Callan, Armenta Foster, Mabel Majors, Frances E. Price, Pauline Stewart, Sidney Thomas, Elizabeth Watson.

Fifth Grade—Reynolds Brown, Grover Buchanan, Shields Girvin, Florence Cecil, Maxine Dorn, Mertice Foster, Louise Levins, Susie B. Snider.

English

Fourth Grade—Elwood Beal, Don Guitar, Irl B. Glass, Frances Jones, Sarah Melton, Ernia L. Merrill, Elizabeth Taylor, Maywood Thompson, Juanita Collier, Lou Ellen Strong, Florence Watson, Dorothy Dean Burnett.

Seventh Grade—Princess Martin, Mattie Beth Payne, Virginia Norris, Elizabeth Hutchinson, Hunt Guitar.

Sixth Grade—Louis Taylor, Sam Venable, Tom Ally Cecil, Grace Callan, Armenta Foster, Mabel Majors, Frances E. Price, Elizabeth Watson, Sidney Thomas, Pauline Stewart, and Marie Girvin.

Fifth Grade—Florence Cecil, Mertice Foster, Maxine Dorn, and Louise Levins.

Reading

Fifth Grade—Reynolds Brown, Maxine Dorn, Louise Levins, Florence Cecil.

Fourth Grade—Juanita Collier, Hazel Grubbs, Margarette Jackson, Lela Mae Lucas, Lou Ellen Strong, Robert Stell, Florence Watson, Christine Whitaker, Dorothy Dear Burne, Jack DuLong, Ruby Baker, Jessie Jones, G. P. Stewart.

Spelling

Seventh Grade—Ruby Mae Allison, Patsy Ballard, Syble Mints, Leila Gross, Dora F. Harvey, Mattie B. Payne, Rilla Payne, Pearl Harper, Thelma Chivers, Virginia Norris, Geo. Otis Whitten, Edith Lockhart, Mary L. Melton, Elizabeth Hutchins, Laura McKenney, Bernice Nanney, Syble Mints, Princess Martin.

Fourth Grade—Elwood Beal, L. J. Burdine, Don Guitar, Tom Hughes, Jr., Robert Moser, Regal Porter, Julius Smith, Wilbur Thomson, Louise Carter, Agnes Cawthorn, Hazel Donald, Irl Bradford Glass, Nerene Henderson, Frances Jones, Sarah Melton, Ernia Lou Merrill, Elizabeth Taylor, Maywood Thompson, Lloyd Wyatt, Lou Ellen Strong, Ovell Crews, Robert Stell, Juanita Collier, Willie Galey, Florence Watson, Dazel Cox, Margarette Jackson, Hazel Grubbs, Ernestine House, Anthony Nowell, Christine Whitaker, Denzil Wyatt, Dorothy Dean Burnett, Jack DuLong, Ruby Baker, Charles Rhea, Ruth Davis, Martha J. Majors, Earline Webber, Opal Wilson, Weva Webb, Isabel Barnett, Lona Lee Jackson, and G. P. Stewart.

Sixth Grade—Opal Allison, Grace Callan, Armenta Foster, Phyllis Gemmill, Lela Mae Johnson, Mabel Majors, Gay McDermon, Frances E. Price, Pauline Stewart, Sidney Thomas, Elizabeth Watson, Sam Venable, Lovena Wren, Jewell Bassham, and Ashley Marable.

Fifth Grade—Reynolds Brown, Shields Girvin, Ruth Smith, Charles

Hicks, Murray Rice, Louise Levins, Dorothy Powell, Grover Buchanan, Mertice Foster, Louise Jenkins, Charles York, Estelline Chivers, Veida McDermott, Maurine Whitaker, Helen Fuller, Florence Cecil, Maxine Dorn, Loyse Jenkins, Lena Smith, Susie B. Snider, Clovis Turner, Vernon Priddy, Aldred Bodine, Nadine Goodman, Vivian Phillips.

Geography

Fourth Grade—William Bandy, Elwood Beal, Regal Porter, Irl B. Glass, Frances Jones, Sarah Melton, Elizabeth Taylor, Juanita Collier, Willie Galey, Anthony Nowell, Florence Watson, Christine Whitaker, Denzil Wyatt, Dorothy Dean Burnett, Jack DuLong, Charles Rhea.

Fifth Grade—Maxine Dorn, Mertice Foster.

Sixth Grade—Grace Callan, Armenta Foster, Mabel Majors, Frances E. Price, Sidney Thomas, Elizabeth Watson, Sam Venable.

Kincaid Electric Shop Installs New Brake Drum Lathe

The Kincaid Electric Shop, 132 E. Third street, has just received a new model South Bend Brake Drum Lathe, in which the largest automobile wheel can be placed and the brake drum cut smooth and true. Also the largest automobile fly-wheel can be held in a chuck and the starter-gear teeth machined off and a new steel starter gear installed.

Other machine work can be done in the lathe as it will accommodate a wheel or pulley up to 36 inches in diameter, or a shaft up to 51 inches long between centers.

This is a big step in the direction of a much-needed machine shop in Colorado. Heretofore this class of work has been taken to Sweetwater. However, Mr. Kincaid has operated a smaller 9-inch lathe (one-fourth the size of the new lathe) in Colorado for the past year and promises the same painstaking accuracy and satisfaction on large machine work which has been given on small work. A keyway cutting and milling attachment is also included in the new

Colorado Feed Milling Co.

equipment.

The new lathe and equipment weighs 2,450 pounds, the freight bill alone amounting to \$70.81, and the total cost is about \$1,000.

Electric motor work will be continued as heretofore, the new equipment being essential in repairs on large electric motors. The public is invited to see this new machine, which, so far as known, is the only one of the kind in West Texas.

Although relatively a new crop, Texas now ranks third in citrus fruit production in quantity and first in quality.

SALOONS AND LIVERY STABLES AMONG BUSINESS ENTERPRISES ADVERTISED IN OLD PAPERS

FISHERMEN BRING BACK FISH TALES —AND THE PROOF

Fishermen are wont to tell fish tales, but a fishing party from Colorado last week brought back not only the well-known fish stories, but the finny proof as well.

Mr. and Mrs. Byron Dorn, Brooks Dorn, and Mr. and Mrs. Jack Eckleberry spent last week fishing on Devil's River. It is said they left with the intention of landing big game, and for once the hope of every fisherman miraculously came to pass.

For the party brought back with it one catfish some three and one-half feet long, weighing about 35 pounds, and another weighing 25 pounds, besides several smaller ones weighing from five to ten pounds. All these were on display at the Pickens Grocery Store last Monday.

Passenger Train Schedule Changed Here Last Monday

Changes in schedule which will give Colorado three passenger trains east each morning between 7:55 a. m. and noon, have been made in passenger trains along this section of the Texas & Pacific railway. The changes went into effect Sunday.

Passenger train No. 3 west is now leaving Colorado at 5:15 p. m. instead of 6:25 p. m. Passenger train No. 9 west, which formerly left Colorado at 7:25 a. m., now leaves at 7:55 a. m.

Changes in the schedule of trains going east are as follows: No. 4 leaves Colorado at 11:58 a. m. instead of 10:32 a. m. No. 10 now leaves Colorado at 7:55 a. m. instead of 1:06 a. m.

Other passenger trains out of Colorado are: No. 16 east, 6:44 a. m.; No. 6 east, 12:38 a. m.; No. 1 west, 9:00 p. m.; No. 5 west 4:33 a. m.

Wandering still further in the files of old and yellowed newspapers of Mitchell county at the Record office, an even earlier number of The Saline Call, Mitchell county newspaper in 1892, was found. Last week some of the interesting points in the Saline Call for July 13, 1892, were given in an article in the Record, and this week a copy of the paper for March 9, 1892, has been found.

On the front page of the March 9th paper is an ad for the Keg Saloon, then located on Oak street with J. W. Woods as manager, and having for sale "Fresh Milwaukee Beer, Soda Water, Cider, and the Best Cigars."

The cards of N. J. Phenix, physician and surgeon, and E. T. Terrell, also physician and surgeon, are also displayed on the front sheet, which carries no other local news besides the ads.

Among other advertisements of Colorado firms in this issue are: T. R. Cheatham, the druggist; Colvin Bros., successors to Malin & Colvin, livery, sale, and boarding stables; Brennam & Gary, grain dealers.

Local items in the paper tell of the following activities of Colorado citizens at that time:

"The many friends of Miss Mary Bell Johnson are glad to welcome her home after a several weeks' visit with relatives in Louisville, Kentucky."

"Geo. W. Johnson, accompanied by his sister and their friend, Miss Clara Fitch, arrived in the city Thursday afternoon."

The Saline Call for August 31, 1892, bore the following local notes: "W. C. Douglas was in the city last week."

"The boll worm seems to have greatly injured the cotton crop in some sections of the country, and grasshoppers in other sections."

"L. E. Seaman has sold his grocery store to Will Grant."

"J. M. Goodwin announces in this issue for office of justice. He has held this position several years."

"There seems to be no lack of rain in Colorado and the adjoining territories this year. It seems almost as though this section was turning to be a wet country instead of a dry one, as it had been considered before."

"An entertainment was given last Thursday night at the St. James Hotel by Misses Ruby and Jesse Morris, in honor of Miss Della Myers of Missouri."

"Dr. W. R. Smith is now prepared to do all kinds of work. Office over Cheatham's Drug Store."

"S. T. Shropshire is off on a business trip to Weatherford and St. Louis."

"Miss Pearl Bealey started Monday for Mexico, Missouri, where she will attend Harden College."

"Tom Love, sheriff of Borden county, was in Mitchell county several days last week."

"Mr. and Mrs. R. L. Ball have rented the Dan S. Park residence."

"Mr. W. W. Webster and wife of Mascaw, Kentucky, are in the city visiting his sisters, Mrs. E. J. Woods and Mrs. S. Cooksey."

"Mrs. R. H. Waldo and son, and the two Misses Webb have gone on a visit to their father and mother in Amarillo."

"The little town of Roscoe, some 18 miles east of here, is taking considerable trade away from Colorado on account of these being better roads to that place than to Colorado, and even the moving of the Mail Route is being spoken of. Why don't the people of Mitchell county do something to fix up the roads north of here so that we may draw the trade from this section instead of letting other places take so much of it?"

The latter interrogation by the old Saline Call still remains a mystery. The road entering Roscoe from Snider will soon be paved all the way, yet Colorado is satisfied with a dirt road to that place through a rich farming country.

HARRY CRANFILL'S HOGS MAKING GOOD GAINS

Hogs in Harry Cranfill's hog feeding demonstration are making good gains on ground threshed maize and tankage self fed. The hog that is being weighed every two weeks to determine the approximate rate of gain, gained 57 pounds in the first 26 days and during the 48 days the hog has been on feed he gained 95 pounds, which is only one pound short of averaging 2 pounds per day.

In order to lower the cost of protein part of the ration, Mr. Cranfill is now using one sack of cottonseed meal to two sacks of tankage.

Miss Vivian Storer spent the week-end at home from McMurry College.

REAL DETECTIVE COLORADO VISITOR ON LAST MONDAY

A real, live detective was in Colorado Monday—no less a personage than William J. Burns himself, head of the famous Burns Detective Agency, which has branches all over the United States.

If Mr. Burns carried a magnifying glass, it was not in evidence, neither did he move about in the sleuth-like manner sometimes attributed to detectives. On the contrary, he was a tall, well-set-up man, dressed unobtrusively in gray, and his shoes were not noticeably square-toed. His complexion was light, and his short mustache gray.

With Mr. Burns was his daughter-in-law, whose father, Frank P. Chandler, was the cause of the Burns visit to Colorado. Mr. Chandler landed in Colorado' penitentiary last Saturday, and was taken up by the local officers, who found on his person a letter written on Burns Detective Agency stationery, headed "Dear Dad."

The sheriff's department wired to the head offices of the agency at Tulsa concerning the letter, and soon learned that news of Mr. Chandler's presence in Colorado ended a two-weeks' search for him by his family. Mr. Burns and his daughter-in-law came to Colorado to make positive identification of Mr. Chandler and to take him back with them.

It developed that Mr. Chandler had left home in St. Louis about four months ago for California, apparently himself in every way. With him he had some \$4,000. Two weeks before he was found penniless, he had written his daughter for \$600 more, and since that time they had not heard of him, and knew that something must be wrong by his having lost the money he had at first.

Mr. Burns was head of the United States Secret Service for several years, and headed the investigation of jurors that were allegedly bribed in the Teapot Dome oil scandal case.

JOE STOKES DIED IN BIG SPRING ON WEDNESDAY NIGHT

Former Colorado Cattleman Claimed By Death

Older residents of Colorado were grieved to learn of the death of Joe Stokes, one-time cattleman of Mitchell county, in Big Spring last Wednesday evening.

Mr. Stokes, who was 68 years of age, had been ill for several months preceding his death. For a number of years he had been manager of the Guitars Ranch & Gin Company ranch property in Big Spring.

From about 1898 to 1910 Mr. Stokes lived in Colorado, having his home in the east part of town. He was associated with the cattle business, mostly engaged in feeding and shipping stock. His only daughter, Ethlyn Joe, attended school here, and was married here to a Mr. Buelson. Her present home is in Cleveland, Ohio.

Joseph Andrew Stokes was born in Mississippi on August 17, 1861, and had spent the greater part of his life in West Texas. He had made his home in Big Spring and Colorado for approximately forty years.

He is survived by his wife and daughter, one granddaughter, Mary Leigh Buelson; one brother, R. M. Stokes of Fort Worth; and a sister, Mrs. Walker of Corsicana. All were present at the time of his death.

Funeral services were held in Big Spring Friday afternoon, Rev. W. W. Elliott, pastor of the First Presbyterian church, Colorado, conducting.

Forty-Four In Grammar School On Honor Roll

The following forty-four pupils were on the honor roll for the Hutcheson school during the past six-weeks' term:

Table with names and scores: Maxine Dorn 91 1/2, Mertice Foster 90, Florence Cecil 92 5/8, Louise Levins 90 3/4, Armenta Foster 94, Francis Elaine Price 92 1/2, Sidney Thomas 92 1/3, Elizabeth Watson 92 1/3, Grace Callan 92 1/9, Mabel Majors 91 2/3, Pauline Stewart 91 1/3, Tom Ally Cecil 90 7/9, Sam Venable 90 2/9.

Princess Martin, Mattie Beth Payns, Virginia Norris, Mildred Whitaker, Elizabeth Hutchinson, Denzil Wyatt, Christine Whitaker, Juanita Collier, and Willie Galey.

Table with names and scores: Elwood Beal 98 1/3, Elizabeth Taylor 97 1/3, Irl Bradford Glass 96 1/6, Sarah Melton 96, Robert Moser 94 1/2, Frances Jones 93 2/3, Maywood Thompson 93 1/2, William Bandy 92 5/6, Ernie Lou Merrill 92 1/2, Melba Slaton 92 1/3, Don Guitars 92, Regal Porter 92, Agnes Cawthron 91 1/3, Leon Callan 90 5/6, Julius Smith 90 2/3, Wilbur Thomson 90, Corrine Wilson 90.

Table with names and scores: Dorothy Dean Burnett 92 7/10, James Ramey 91 3/10, Jack Dulong 94 1/10, G. P. Stewart 91.

Four Colorado Boys And Girls To Get Degrees

Three Colorado boys and one former Colorado girl will receive degrees from Texas colleges this June. Texas Tech at Lubbock and Simmons University at Abilene.

J. T. Gist, son of Mr. and Mrs. A. C. Gist of near Colorado will receive his degree in geological engineering from Texas Tech. Prentiss Viles and Samuel Womack, son of Mr. and Mrs. H. D. Womack, will also receive degrees from this institution.

Miss Dale Hall, daughter of Judge and Mrs. J. C. Hall of Lorraine, formerly of Colorado, will receive her degree from Simmons University, Abilene.

Mrs. Walter Stoneham, who is in Fort Worth for treatment, is reported improving.

Mr. and Mrs. R. J. Wallace returned home last week from Missouri, and their many friends are glad to have them back improved in health. Mrs. Jeff Dobbs and daughter, Miss Sybil, returned Monday from a visit in Eldorado, Sonora and San Angelo.

Table of prices for beans, salmon, peaches, peas, flour, etc. Beans .08, Salmon .17, Peaches .49, Peas .12, Flour 24 lb. 87c, 48 lb. \$1.69.

WHIPPING CREAM FRESH EVERY DAY. AN EASY WAY TO SAVE MONEY.

If you did this ONCE A WEEK - YOU would soon realize that nothing dissipates a woman's Youth and Beauty so quickly as the wearisome labor of washday in the home. Telephone us to relieve HER of this ordeal. COLORADO LAUNDRY Phone 255 LET THE LAUNDRY DO IT!

PLANS FOR 1930 CENSUS SHOW MITCHELL COUNTY IN THIRTEENTH DISTRICT

Plans which are now being worked out for the official census which will be taken next year show that Mitchell county will fall into District 13 of the State of Texas. There will be twenty-nine enumeration districts in the State, with some central city designated as the headquarters. San Angelo is to be the headquarters city in this district. This new plan takes the place of the old custom of having each congressional district as a census district.

Members of Congress from Texas as well as the Bureau of Census at Washington, are already swamped with applications of persons desiring appointment either as supervisor

or enumerator. Texas members are writing the applicants that appointments, in all probability, will be designated by R. B. Creager, Republican National Committeeman for Texas, and the Republican organization in that State. The number of the enumerators for Texas has not been decided but the average throughout the country is one for every two thousand people and in rural sections one for every twelve hundred or fifteen hundred.

1 District—Brooks, Cameron, Duval, Hidalgo, Jim Hogg, Jim Wells, Kennedy, Gleberg, Nueces, Starr, Webb, Willacy and Zapata; headquarters, Brownsville.

2nd District—Bandera, Blanco,

Dimmit, Edwards, Frio, Gillespie, Kendall, Kerr, Kinney, LaSalle, McMullen, Maverick, Medina, Real, Uvalde, Val Verde and Zavalla; headquarters, Uvalde.

3. Bexar and Atascosa; headquarters, San Antonio.

4. Arkansas, Bee, Brazoria, Calhoun, Fort Bend, Goliad, Jackson, Live Oak, Matagorda, Refugio, San Patricio, Victoria and Wharton, with headquarters at Victoria.

5. Caldwell, Comal, DeWitt, Gonzales, Guadalupe, Hays, Karnes and Wilson; headquarters, Luling.

6. Austin, Colorado, Fayette, Lavaca, Waller and Washington; headquarters, Eagle Lake.

7. Harris and Montgomery; headquarters, Houston.

8. Chambers, Galveston, Jefferson and Liberty; headquarters, Galveston.

9. Angelina, Hardin, Jasper, Newton, Orange, Polk, Sabine, San Augustine, San Jacinto and Tyler; headquarters at Lufkin.

10. Anderson, Brazos, Houston, Grimes, Leon, Madison, Robertson, Trinity and Walker; headquarters at Palestine.

11. Bastrop, Burleson, Lee, Milam, Travis and Williamson; headquarters at Austin.

12. Brown, Burnet, Coleman, Concho, Kimble, Lampasas, Llano, McCullough, Mason, Menard Mills, Burness, San Saba; headquarters at Brownwood.

13. Andrews, Coke, Crane, Ector, Glascock, Howard, Irion, Loving, Martin, Midland, Mitchell, Nolan, Reagan, Schleicher, Sterling, Sutton, Tom Green, Upton, Ward, Winkler; headquarters, San Angelo.

14. Brewster, Culberson, El Paso, Jeff Davis, Hudspeth, Pecos, Presidio, Reeves, Terrell; headquarters at El Paso.

15. Borden, Cochran, Crosby,

Dawson, Dickens, Fisher, Garza, Haskell, Galves, Haskell, Kent, Lubbock, Lynn, Scurry, Stonewall, Terry, Yoakum; headquarters at Lubbock.

16. Armstrong, Carson, Collingsworth, Dalham, Deaf Smith, Donley, Gray, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Potter, Randall, Roberts, Sherman, Wheeler; headquarters at Amarillo.

17. Callahan, Eastland, Jones, Palo Pinto, Parker, Shackelford, Stephens, Taylor, Throckmorton; headquarters at Abilene.

18. Aicher, Baylor, Clay, Jack, Wichita, Wilbarger, Young; headquarters at Wichita Falls.

19. Cook, Fannin, Grayson, Montague; headquarters at Sherman.

20. Denton, Tarrant, Wise; headquarters at Fort Worth.

21. Collin and Dallas; headquarters at Dallas.

22. Bosque, Comanche, Coryell, Erath, Hamilton, Hill, Hood, Johnson, Somervell; headquarters at Cleburne.

23. Bell, Falls, McLennan; headquarters, Waco.

24. Ellis, Freestone, Limestone, Navarro; headquarters, Corsicana.

25. Henderson, Hunt, Kaufman, Rains, Rockwall, Van Zandt; headquarters, Greenville.

26. Camp Delta, Franklin, Hopkins, Lamar, Morris, Red River, Titus; headquarters, Paris.

27. Bowie, Cass, Gregg, Harrison, Marion, Upshur, Good; headquarters at Marshall.

28. Cherokee, Nacogdoches, Panola, Rusk, Shelby, Smith; headquarters at Tyler.

29. Bailey, Briscoe, Castro, Childress, Cottle, Floyd, Hale, Hall, Hardeman, King, Knox, Lamb, Motley, Pamrer, Swisher; headquarters at Plainview.

and \$4,000,000, and will employ 250 men, and will be ready for operation during 1930.

Taft.—Central Power and Light Company contemplates improvement and extensions to its properties in South and Southwest Texas which will total in excess of \$6,000,000 in the present year.

Borger.—New Crawley tractor purchased for use in upkeep of the city streets.

Laredo.—Four new gassers completed in this district.

Eagle Pass.—Work under way of remodeling the Fair building.

Honey Grove.—Chamber of Commerce planning campaign for promotion of dairying.

San Angelo.—Yates oil field production to be raised from 87,500 to 100,000 barrels.

Fabens.—Active work has been started on the mile and half of concrete paving which will be put down in this vicinity at once.

San Antonio.—Texas Petroleum Products Co. merged with the Schimmel Production Co. of Ft. Worth.

Mexia.—All Texas agricultural products in better than average condition, according to authorities.

Austin.—Contracts for about \$1,500,000 worth of construction work in 15 counties were to be let by the Highway Commission at recent date.

Snyder.—New oil station to be opened by the Kik Tife & Oil Co.

THE TEXAS WEEKLY INDUSTRIAL REVIEW

Two thousand feet of water plugs and eight new fire plugs recently installed in northeast part of Sherman assure fire protection to that part of city.

Itasca's monthly pay checks for cream total ground \$3,600, and much greater increase predicted.

Brady.—Reduction in lighting rate of 10 cents per kilowatt.

Extension will begin at once by the Central Power and Light Co. of its Victoria-Port Lavaca transmission line from Bloomington to Seadrift via Long Mott and Green Lake and from Seadrift to Tivoli and Austwell, a total distance of 38 miles.

Kesse.—Contract awarded for a bridge over Polecat Creek on Highway No. 14, two miles south of here.

Fort Davis.—Old military site to be developed as a resort and moving picture plant.

Eagle Pass.—New addition known as the South Heights Addition being opened here.

Abbott.—Concrete reservoir and shed for waterworks completed and other work nearing completion.

Levelland.—Two large storage tanks installed at the wholesale station at Gulf Refining company. Two more large brick buildings are to be erected on east side of square.

Permission asked for construction of largest carbon black plant in the Borger district by the Phillips Petroleum company.

Gonzales.—Gonzales County Good Roads association organized and a bond issue of \$2,000,000 was advocated for building State highways and approximately 210 miles of lateral roads.

Dalhart.—Approximately \$7,000,000 will be expended by the Rock Island railroad in the construction of new lines in Texas.

Temple.—Cornerstone laid for the new St. Mary's Church.

Houston.—First unit of a mammoth refinery for the Tidal Refining Co., of Tulsa, Okla., will be erected here at a cost of between \$3,500,

WHAT'S DOING IN WEST TEXAS

DE LEON shipped a carload of Shorthorn junior and senior calves to Lake Charles, La., indicating what that territory is concentrating on. J. Doss Miller, Jr., and C. M. Caraway shipped the car consisting of 29 bull calves to Henry Gray, a breeder of Shorthorns in that State. The animals were all fine registered stock and represented a considerable value.

HAMLIN has completed plans for a cream route that makes a loop around the town, and then goes into Stamford, and collection will start upon the arrival of a sufficient number of cream cans and will be under the direction of T. A. Carter. The producers will receive a premium of 10 cents per pound above market price for sweet cream.

CANYON has started a campaign to raise \$50,000 for the erection of the first unit of a museum building to house the relics of the Panhandle-Plains Historical Society.

MULESHOE continues to ship car after car of maize, kaffir and corn to outside markets every day. The demand for these feeds is good because of the high quality. Much of it is used for planting.

FIONA, in following up the work of Better Homes Week, has inaugurated a Better Homes contest for Friona and vicinity during the coming summer to end August 15. Prizes will be awarded for the three best-kept homes. Two classes of homes will be considered—those in the city limits and those within a six-mile radius.

IOWA PARK will sponsor a Community Work Day on June 4, at the Fair grounds in order to get the grounds ready for the proposed erection of a grand stand for general use. Labor and the use of tractors, teams and other equipment will be donated so that the work may be completed in one day.

"Plenty of room for my long legs - AND I'M SIX-FOOT-THREE"

Never before has there been offered such big-car comfort at such a low price. Longer wheelbase and larger bodies give the new Superior Whippet—Fours and Sixes—the roominess of costlier cars. The form-fitting seats are broader and heavily upholstered, enabling passengers to enjoy restful, relaxed positions at all times. Exceptionally wide doors afford easy entrance and exit.

No other low-priced car has all these vital advantages: Full force-feed lubrication, silent timing chain, "Finger-Tip Control," oversize balloon tires, invar-strut pistons, extra big four-wheel brakes, higher compression engine giving more speed, pick-up and power—and, in the Six, a heavy seven-bearing crankshaft.

How to Raise Poultry
By Dr. L. D. LeGar, V.S., St. Louis, Mo.

Dr. LeGar is a graduate of the Ontario Veterinary College, 1902. Thirty-six years of veterinary practice on all classes of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder, Nobel author and lecturer.

IS EUGENICS NEEDED IN THE POULTRY YARD

The Need for Extreme Care in Selecting Breeders is a Vital Factor Often Ignored Even by Experienced Poultry Raisers.—The Following Brief Discussion Emphasizes Some of the More Important Points To Be Observed in Picking the Right Kind of Stock for Your Breeding.

general reading, I once ran across the statement of a well known writer that the best thing he had ever done was to choose the proper parents. A very witty remark, indeed, but in the light of its real meaning, a very wise one. Naturally, the thought so strikingly set forth instantly associated itself in my mind with my own pet hobby, the raising of high grade thoroughbred chickens. I could not help think how much better it would be in a great many cases if fowls could have the privilege of regulating their own parentage in-

stead of having to depend on those who do it for them. It has always amazed me that so many people should fail to realize the importance of properly selecting breeding stock as a factor in successful poultry raising.

First of all, there is the general law of heredity that "like begets like." In other words, if you select a certain breed of fowls in which certain characteristics are very strongly marked and mate only such birds as exhibit those characteristics to a decided extent, the offspring should have the same characteristics to approximately the same degree as their ancestors.

Because it is so decidedly true that like begets like, it is of paramount importance to select breeders known definitely to possess certain desired characteristics. That immediately rules out the mongrel and establishes

the necessity of working only with standard breed fowls. The mongrel has no definitely known characteristics. It is a mixture of anything and everything. Consequently its progeny may be anything or nothing. Most likely, they will be nothing or, at least, nothing useful.

On the other hand, suppose our aim is high egg production. We can choose among a number of varieties known to be excellent layers; then if we are careful in culling out undervalued and inferior or deformed specimens of both sexes and if we cull out all poor layers among the females, we are pretty sure to develop a flock that will give us eggs in abundance.

Another law of breeding to be reckoned with is that only healthy and vigorous parents can be expected to have healthy and vigorous offspring. As applied to poultry raising this calls for ruthless culling out of all inferior fowls as soon as they are old enough to show with certainty whether or not they measure up to required standards. Hens that are not good layers should be discarded for two reasons; first, because they do not pay for their upkeep, and secondly, because their descendants will also be poor layers. The various methods of culling as well known and easily learned by those who want good productive flocks. Certainly these methods should be known and practiced by every owner of chickens and only the very cream of any flock should be used for breeding.

What is true of the female is true to a like degree of the male. That is a point often overlooked by poultry raisers. It must not be forgotten that the male supplies the germ of fertility which converts the egg from an inert mass into something capable of producing life. The stronger and more virile the male bird is, therefore, the greater will be his ability to transmit that vital quality without which eggs cannot become chicks.

The question of heredity should also influence selection of the male birds for breeding. Characteristics of descendants are derived from both male and female. It is therefore, of the utmost importance that male birds should possess, insofar as that fact can be determined, the characteristics which are wanted in the next generation.

LOWLY GUNNY SACK MOVES UP IN SOCIETY COLLEGE STATION, May 23.—The gunny sack has moved up into society. Long regarded only as a

useful container for produce or junk, as a handy thing around the barn, or at best a door mat in muddy weather, the lowly gunny sack has worked itself into the home. And it has come in by the front door, too.

It happened this way. The home demonstration agents have launched the rural womanhood of Texas into a crusade for home beautification. It pays, they say, not only in comfort and satisfaction but in dollars and cents. They began with the kitchen and after getting a good start in making it an efficient farm home work-shop they turned to the living room. Now rugs cost lots of money, but the need for them is great. The home agents have bridged the gap by showing how gunny sacks and all kinds of old rags and garments may be woven or hooked into rugs, beautiful in pattern and design and durable withal. Reminiscent of colonial days, these rugs are adding a touch of homely comfort to hundreds of farm homes as well as to those in town, for some home demonstration club women are making rugs to fill the market demand.

lessons to women in the making of such rugs and 3,175 of them were completed. About two-thirds of this number were braided and the remainder hooked. The cost is only nominal and some women are finding a market for them at \$5 to \$15 apiece.

The rug making program of the Extension Service is gaining momentum this year and indications point to a great increase in this activity.

One county alone, Kaufman, is said to have finished 273 rugs in March.

Got Up In The Morning Feeling DIZZY

"I BEGAN to suffer with headaches and biliousness," says Mr. John C. Malone, of Buena Vista, Ohio. "I had a hurting through the middle part of my body which seemed to come from indigestion. I would get constipated, and then feel all out of sorts. I would get up in the morning feeling dizzy, and everything I ate would disagree with me. "Someone asked me why I did not try Black-Draught. I found it to be just the medicine I needed. When I feel a spell coming on, I begin by taking a dose of Black-Draught, dry, at night. I continue to take it for several days, and in a short while I am feeling fine. It is all the medicine I need." Costs only 1 cent a dose.

TREDFORD'S Black-Draught
For CONSTIPATION INDIGESTION, BILIOUSNESS

WOMEN who need a tonic should take Cardui. In use over 50 years.

Broad Facilities and Personal Service

Association with a bank is indispensable to the individual as well as the business concern. And you might as well have a bank with broad facilities and experienced officers.

Our organization, complete in itself, is made more comprehensive by connections elsewhere, so this institution stands as a unit in banking and credit structure of the country. Thus we offer to our customers facilities of wide extent while giving them a personal service that meets the most exacting and detailed requirements. You will like to do business with us.

You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown... expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

MOTHER OF THREE SAYS LIFE WAS A BURDEN

Nothing Helped Her Until She Took Orgatone—"It Worked Wonders For Me" Says Abilene Woman

"I am the mother of three children and I've tried lots of different kinds of medicine in the past three years trying to get relief from my troubles, and Orgatone is the first and only thing I have ever taken that seemed to do me any real good," said Mrs. Mary Williams, who lives at 641 West quite street, Abilene, Texas.

"For three years my suffering was almost constant. My stomach was in a dreadful condition and I had indigestion of the very worst kind. Nearly everything I would eat made gas, and I had a bloated feeling and cramping pains in my stomach and shortness of breath, and I would be very nervous and restless. I had awful dizzy sick headaches and had not been able to get any sound sleep for a long time. I would sometimes get up in the mornings with severe throbbing headaches that would last me until way up in the day. I was unable to eat any kind of meat, and most of the time hardly felt able to be up at all, and to tell you the truth, life was a burden to me. I tried every kind of medicine the doctors would prescribe for me without getting any relief, and when I found out about Orgatone I was very much discouraged, and out of heart about my condition.

"Orgatone was what my system seemed to need and it has certainly worked wonders for me. After I had used it, only a few days, I noticed the gas and cramping pains had gone away from my stomach and I was relieved of the shortness of breath. I can now eat most anything I want and my food tastes natural and I enjoy my meals more than I have in many a day. My nervousness has been relieved and I can now sleep and rest well at night and I don't have any more headaches on waking up in the mornings. I have taken four bottles of Orgatone up to this time and my improvement has been amazing. I don't have that weak run-down feeling any more and I'm stronger and much better in every way than I've been for years.

ALMOND TREES GROWN HERE SUCCESSFULLY
Almond trees are being grown suc-

cessfully in Mitchell county by W. D. McCarty of Loraine, who has a tree about 15 years old that has been bearing for a number of years. He also has a pine tree that was brought here from Mississippi about 12 or 15 years ago. In addition to these trees he has several other kinds, including walnuts, pecans, American elm, water elm, persimmon, mulberry and hackberry.

A SIGN OF QUALITY and VALUE to thousands of satisfied USED CAR BUYERS

LOOK at these Outstanding Used Car Values

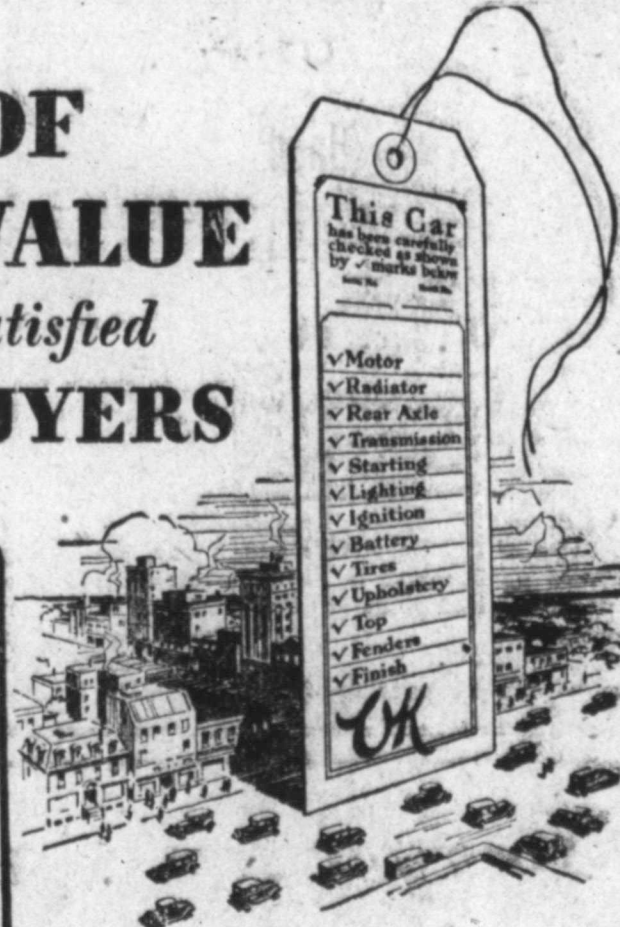

1926 Ford Touring, new paint and top, upholstery and tires good, Motor O. K. \$50.00 makes the down payment.

PERFECT ATTENDANCE RECORDS HELD BY 34 GRADE SCHOOL PUPILS

Students To Be Awarded Certificates Monday Evening

Certificates for perfect attendance records will be awarded thirty-four Grammar school students of the Hutchinson school at the Grammar school promotion exercises next Monday night, according to A. R. McInney, principal of the Hutchinson school.

The following students will receive certificates:

Fourth Grade—Ivy Jones, Regal Porter, Merrill Johnson, Ruby Lee Hargrove, Noel Letcher, Christine Whitaker, Harold Lambeth.

Fifth Grade—Oren Wannack, Roy Miller, Reynolds Brown, Charles York, Lena Smith.

Sixth Grade—Lenn Bodine, Jr., Elvey Stagner, Bard Allmond, Jewel Bassham, Leonard Alexander, Opal Alexander, Elizabeth Pond, Sam Venable, Clifton Blackard.

Seventh Grade—Gen. Otis Whitten, Harold Watson, James Lupton, Mary Louise Melton, Rilto Payne, Mattie Beth Payne, Bill Hicks, Bernice Bloodworth, Thelma Lee, Veda Young, Elverie Sorrells, Sibyl Thompson, Cecil Mackey.

ROGERS YOUTH DOESN'T THINK MUCH OF GIRLS

A "woman-hater" (?) of the youthful and radical type has come to light in the Rogers school, where Chester C. Moore is principal. The young gentleman in question is Preston Wynne, 16, son of B. A. Wynne.

According to the following poem by Master Wynne, there just isn't much excuse for the poor girls' existence:

Some girls don't study a bit,
And they think they are just it;
They sit around and giggle
And snort and twist and wiggle.

Some say, "I seen," or "you ain't,"
And all use powder and paint.
They are crazy about gum,
But they can just chew their thumb.

At school they play basketball,
At home they won't work at all;
Sometimes they sure are lazy,
Then again they act crazy.

Boys plow and hoe cotton,
But girls—they are just rotten.
If only I were a girl,
This would be an easy world.

How do I know all of this?
Because I have a gay sis;
She's like every other girl—
Her mind is all in a whirl.

CITY ACCOUNTS ARE APPROVED BY COUNCIL

The following accounts for the City of Colorado during April were submitted to the city council and approved at its regular meeting Monday night, May 13:

Lorraine Farmer Is Owner First Batch Australorp Chicks

A shipment of the Australorp baby chicks which is said to be the first shipment of this breed to reach into the county, was received last week by J. D. Givens of Loraine. This breed was introduced into the United States from Australia only about five years ago, but in this short time they have made some wonderful production records and the breed now holds the world's official record for high egg production with a record of 354 eggs averaging 27 ounces to the dozen. They also hold the world's record for a six hen pen with a record of 1857 eggs in 365 days, an average of .309 eggs per hen.

The chicks purchased by Mr. Givens are from cockerels whose dams have records of 300 to 339 eggs, and from hens with records of 200 to 289 eggs in nine months.

An interesting fact about the breed is that when Australian cockerels are mated with White Leghorn pullets the male and female offspring have different colors and it is possible to distinguish the cockerels from this cross are all white while the pullets have black spots scattered over the body.

The Australorps are heavy chickens and it is said the pullets weigh 6 1/2 pounds at six months. This breed should prove popular with the farmers, since they have weight with high egg production.

INTERESTING NOTES ABOUT NEW FORD

Professor Floyd Field, mathematics teacher at the Georgia School of Technology, has bought a new Model A Ford automobile after the exceedingly serviceable career of his old Model T. He drove the old car, which he still owns, 150,000 miles, a distance equal to six trips around the world. He burned 10,000 gallons of gasoline and wore out 17 sets of tires.

The largest power press in the Ford industries, outside the frame presses for the Model A automobile, is used to shape fenders, wheel housings and radiator shells at the Lincoln automobile plant. It weighs 250,000 pounds and stands 24 feet 10 inches above the floor line. Three feet of the structure extend below the floor level and it has a foundation 11 feet 9 inches deep.

In line with the activity of the Ford Motor Company to stimulate interest in aviation, the Rapids Motor Company, Ford dealers of Dell Rapids, South Dakota, own and operate a government licensed airplane landing field, equipped with the latest power night-landing lights.

F. H. Merritt, photographer of San Pedro, Calif., has made several trips by automobile from his home to Boston, Mass. This year he drove a Model A Ford Tudor Sedan and the entire round trip cost him \$128. He traveled 9,104 miles and his only trouble was one punctured tire. His daily average was 325 miles.

Total fuel consumption of the Rouge Plant of the Ford Motor Company during the past year was 12,700 carloads, enough to make a coal train 100 miles long.

W. G. Bailey of Wauchula, Fla., drove his Model-A Ford business coupe on a 4,000 mile trip carrying two passengers and heavy baggage, and the cost of oil and gasoline was only \$40, a rate of one cent per mile.

TRUTH ABOUT DICK PEARSON IS OUT

The remarkable ability of Miss Laura Louise Pearson, a junior in the College of Industrial Arts at Denton, as manager of student publications has resulted in the disclosure that her father, R. O. (Dick) Pearson of Colorado, was once a printer. It is reported that Mr. Pearson at one time wielded a "wicked stick" in the old hand-set days, but there is no record of how he ever managed to get out of the business. There is a saying, you know, "Once a printer, always a printer."

Anyway, this probably accounts for the ability shown by the daughter and her appointment as manager of "The Lass-O," student newspaper, and "The Daedalian Quarterly," college magazine, at Denton.

It's a Surprise!

BURTON-LINGO COMPANY

Lumber and Building Materials
Lowc Bros. Paints and Dupont Duco Lacquer
Westbrook, Texas

Friday, May 17, marked the close of the 1928-29 term of the Westbrook high school commencement exercises were held Monday night, at which time the auditorium was filled with people. Rev. Ashford, pastor of the First Baptist church in Colorado, brought a very inspirational message, after which came the presentation of diplomas and certificates of promotion. In many ways this has been a very pleasant school term,

due to the fact that there has been very little friction or discord in any way. The patrons and trustees have cooperated in a beautiful way, and the teachers have been tireless in their efforts to make this one, if not the best, terms in the history of the school.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Rev. and Mrs. Lyon, Conference

The Road To Good Health

Is around the counters of the City Meat Market. As you look around you will see a tempting display of meats awaiting your careful selection . . . and, best of all, the prices will be gratifyingly reasonable.

City Meat Market

Sunday school workers, will be here Sunday afternoon to begin a teacher training school. The first session will be held Sunday afternoon, followed by one on Monday, Tuesday, Wednesday and Thursday night. There will be two classes and you will be at liberty to choose the one you want, but we urge you to take at least one of these while you have the opportunity to be taught by these people who are giving their lives to this work.

Our third quarterly conference will be held with that of Colorado circuit on June 1, at Bailey's chapel. Everyone is invited to be present and add your bit toward making it a success in the service of the Master.

Complete plans and blue prints of Farm Buildings. See them at—BURTON-LINGO CO. Westbrook. Mr. and Mrs. Leroy Gressett, accompanied by Mr. Gressett's parents, visited relatives near Big Spring last Sunday.

Complete plans and blue prints of Farm Buildings. See them at—BURTON-LINGO CO. Westbrook.

Miss Alta Ferguson, assisted by Mrs. Naugle, met the youngsters at the Methodist church Monday afternoon, where they made plans for the organization of a Junior orchestra. This is a start that will be greatly appreciated by the people of Westbrook and they will need the cooperation of the parents to make it good. All that want to get in on this will please be at the Methodist church Thursday afternoon at 3 o'clock.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Mrs. Van Boston and children, accompanied by Mrs. Boston's mother, Mrs. G. C. Wildman and granddaughter of Roscoe, left several days ago for Wooster, Ohio, where they will spend some time visiting Mrs. Boston's brother and family.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Miss Cecile Ulrich celebrated her eleventh birthday Saturday afternoon with a party at the home of her parents. Eighteen little girls came with their gifts to gladden the heart of the honoree. A jolly, good time was had playing games, after which refreshments of ice cream and cake were served.

Born to Mr. and Mrs. James Willis, May 19, a baby girl.

BUICK'S MARQUETTE EXCLUSIVELY BUILT

The new Marquette which will be offered to the public in the near fu-

ture is an exclusively built and designed product of the Buick Motor Company. The motor and nearly all of the other mechanical parts of the new Six will be built and assembled in units of the mile and a half long Buick plant at Flint, Michigan.

Preparations have been under way at the Buick factory since last December to house the manufacture of the motors for this new addition to the Buick line. One unit of the big plant, comprising 72,720 square feet of floor space, has been given over exclusively to additions to this plant as such expansion becomes necessary. Other units of the Buick plant have been arranged to handle the production of additional Marquette requirements.

It is only through the practice of the most modern scientific principles of factory management that the Marquette is able to enter the medium-price field. Buick has been able to hold the price of the car down in the range at which it will be offered by the additional use of facilities and machines already installed.

This plant economy is further augmented by the existing world-wide Buick distributing and service organization which has been in the making for the past quarter of a century and into which the new line will fit with a minimum of additional expense. These factors have produced enormous savings in the production and marketing of the Marquette and have enabled Buick to offer the new car at a price within the reach of millions.

However, all the Buick factory facilities were not adaptable to the production of the Marquette, which is a distinctively new creation, and Buick for many months past has been a heavy purchaser of shop equipment and specialized machinery. In addition to many other new mechanical installations, a gravity carrier system has been installed in the Marquette motor assembly plant which is now in operation.

Officials of the Buick Motor Co. indicated during the past week that announcement of the date of the offering of the new car will be made within a few days.

ABLE GROUP HEADS CHEVROLET COMPANY

Executive promotions recently announced by W. S. Knudsen, president and general manager of the Chevrolet Motor company, bring into front line positions in the Chevrolet organization an able group of officials who have played prominent parts in the successful direction of Chevrolet affairs for several years.

The appointments come about as a result of the recent election of R. H. Grant and O. E. Hunt to vice presidencies of General Motors and at the same time are in recognition of proved ability. Mr. Knudsen explained. Mr. Grant was formerly vice president in charge of sales, and Mr. Hunt was chief engineer.

Succeeding Mr. Grant is H. J. Klingler, who becomes vice president and general sales manager. This promotion places at the helm of the Chevrolet selling organization of more than 35,000 people a merchandising leader of demonstrated ability. In addition to his long association with Mr. Grant in the sale of more than a million automobiles annually, Mr. Klingler has had the advantage of broad experience in selling and advertising.

Charles F. Bath, for many years vice president in charge of manufacturing, becomes vice president and general manufacturing manager. Mr. Bath is one of the outstanding veterans of the automobile business and is regarded as an expert particularly on production methods and factory management.

M. E. Coyle, for years closely associated with Mr. Knudsen in the direction of the company's financial affairs, has been elected vice president and general auditor. He is also a veteran in the automobile business and has been identified with General Motors for more than 17 years.

J. M. Crawford, formerly assistant chief engineer, becomes chief engineer and brings to his new post 13 years' experience in the automobile business, the last three of which were with Chevrolet. While associated with Mr. Hunt, much of the experimental and development work on the new Chevrolet six was done under his direction.

3 GLASSES WATER HELP CONSTIPATION

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass. Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours. W. L. Doss, Druggist.

Star Diarrhoea Tablets

Stops Diarrhoea and saves the baby chicks or your money back. For sale by Colorado Drug Co. 5-31c

J. P. Hestand Is Owner Uniform Bunch of Pigs

J. P. Hestand, Duroc Jersey hog breeder of Buford, has one of the most uniform bunches of pigs ever seen in this section. He has raised forty pigs from five sows and now has both pigs and sows on a self-feeder containing ground threshed maize and a commercial protein supplement.

This is the first time he has used a self-feeder and he says he is "sold" on the idea, as his pigs are making rapid gains and sows are not losing flesh, as is sometimes the case when they are suckling a litter.

Mr. Hestand's herd sire has had a balanced ration ever since he bought him and was weighed the other day, tipping the scales at 740 pounds at 18 months of age.

MCREESS TELLS THE EAGER READERS ABOUT HIS EAST TEXAS TRIP

For The Record: Since returning from a recent short trip in the eastern portion of the State thinking a report might serve as a product for contentment for the people of Mitchell county and the west generally, just as it does for me every time I leave home. I come back better satisfied. I feel safe in saying that I saw nothing in the way of crops prospects between Colorado and Fort Worth to excel what we've got in Mitchell county.

After leaving Fort Worth going

north, there is some spots of very nice corn, but backward for the time of year. There seems to be a small quantity of land planted to small grain which is also very backward. Garden truck is generally fine, and plentiful. The fruit crop is very promising at present, berry crops included. Another noticeable item seen in the eastern portion is quite a number of vacant houses, and of course lots of (seemingly) good spots of land lying out, and such is not the

case in the West. Whatever this may spell, depends on the way you bet. The proposition. Well may it be remembered that Texas as a whole is considered the garden spot of the world, and who can keep from wondering where the garden spot of Texas is, but we of the west think it is West Texas. Judging from the way we stay, and that may be because we are climated, which means we are too poor to stay and not rich enough to get away. ELLI.

"BIG mileage" becomes more than long service with the Dual-Balloon. It gives you a superlative kind of mileage—more than it was ever thought could be built into a tire—yet you travel all the way on regular balloon low-pressure. The thicker, longer lasting tread assures non-skid safety season after season. Even the chance of a puncture is reduced to the vanishing point.

Crude rubber is going up. Tire prices are still based on the old cost. Now is the time to buy the tire that will still be good when NEXT winter rolls around.

Its style is the first indication of its big car qualities

One look at the New Pontiac Big Six and you know that here is something different in low-priced motor cars. It has the proportions, the rakish lines and the style of a fine big automobile. And this is only the first indication of its many splendid big car qualities.

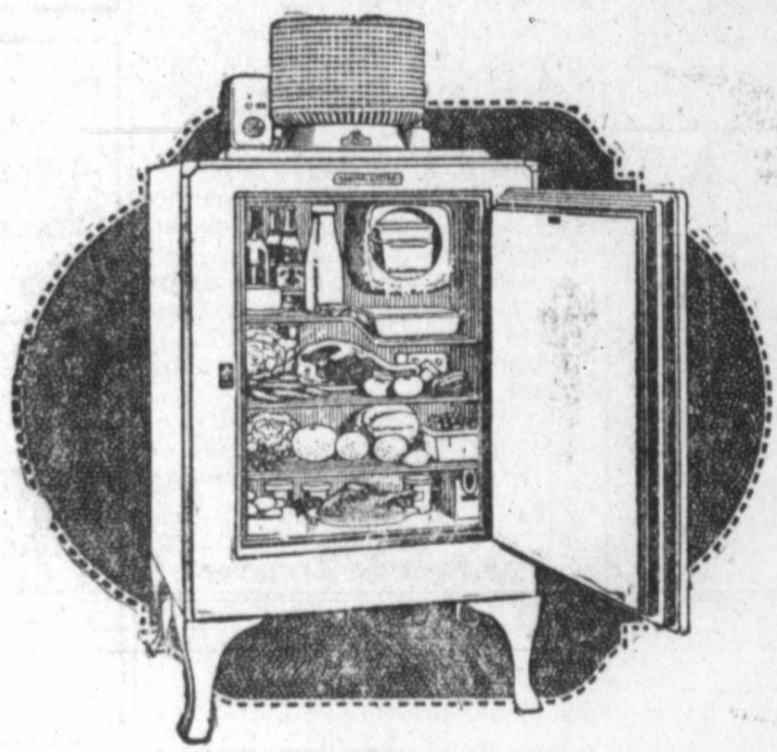

Prices \$745 to \$895, f. o. b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and Lovejoy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values . . . Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

What could be simpler?

GENERAL ELECTRIC Refrigerator

When the General Electric engineers worked over this refrigerator for fifteen years, they surely knew what they were about. They wanted something simple but efficient—and they got it. This refrigerator hasn't a pipe or a fan or a belt. It hasn't a bit of machinery hiding under it—or nesting in the basement. It never needs a drop of oil. All its mechanism is sealed away from the pitfalls of this world in a casing of steel, air-tight.

You can't get at the machinery, Junior can't either—and no one

else will have to. For it's all assembled in the factory, where it is tested any number of times. Then it's hermetically sealed. When we deliver it to you, we don't have to solder a single joint, or connect a single pipe or twist a single screw. We just lower it into the top of the cabinet—built to receive it. All you have to do is to plug it into any convenience outlet.

Why not drop in and see the many models? And, by the way, you can buy on time, if you prefer.
