### MAN WHO GOT HIS START IN COLORADO DIES IN FT. WORTH

#### Gus O'Keefe, Ranchman here In Early Days, Succumbs Tuesday

A powerful Texas figure who got his start in the ranching business around Colorado years ago, passed away Tuesday with the death of C. A. (Gus) O'Keefe, 78, after a prolonged illness at his home in Fort Worth. Mr. O'Keefe was buried Wednesday afternoon, and Tom Stonerod of Colorado was an honorary pallbearer. G. W. Waddell, an old timer of Colorado, was also among the honorary pallbearers.

The following is taken from a story written for The Record on Mr. O'Keefe in October, on the completion of his Blackstone Hotel in Fort Worth.

Those wise in the early history of Colorado and Mitchell county were wont to drag out reminiscences of the old range days last Sunday when reading the life story of C. A. (Gus) O'Keefe, published in the Fort Worth Star-Telegram in connection with the opening of Fort Worth's newest and finest hotel, the Blackstone, built by Mr. and Mrs. O'Keefe.

For mention of Colorado and cattlemen and ranches well known in this section was frequent in the article. Mr. O'Keefe made his home in Colorado during the nineties and the first few years of the present century. He lived in a house which stood where the W. W. Watson home now stands.

Leaving his home on an Alabama plantation when only 15 years old, Mr. O'Keefe began his Texas career driving a team of oxen in Hopkins county. After two months of this he went with another employer who had cattle to be driven to Shreveport, La., and to Jefferson, Texas. He continued with the latter connection for a year and a half.

By the spring of 1875, this move and that, had brought O'Keefe to employment in the G. W. Waddell and Frank Byler outfit, whose ranch was the present Harry Landers ranch southeast of Cuthbert. From Waddell and Byler, O'Keefe went with C. S. Slaughter, who in the years immediately after held undisputed title as "Cattle King of the State." Mr. Slaughter owned land in great quantities around Midland and Big Spring.

It was through his job as foreman of the Slaughter ranch and cattle interests that O'Keefe attained a reputation as manager of cattle herds that all other cattlemen of old West Texas had to confide with. After four years he was able to buy a sixth interest in the \$750,000 Slaughter herd.

O'Keefe started his first independent venture in 1880 when he bought a ranch to the east of the Slaughter acres known as the CA. The Mitchell County CA, by the way, was the present Hunter-Looney ranch. He added range for this ranch by purchasing the old HXW ranch, which lay between Colorado and Robert Lee, south of Maypearl.

He sold there a little later for what is still his first love, the Fish Ranch in Dawson county, 20 miles up Sulphur Draw from Lamesa. He kept it until 1900, when it was sold to Swift, the packer.

O'Keefe and his family moved from Colorado to Fort Worth in 1905. Although he got his start in the cattle business in West Texas, he amassed the bulk of his fortune through investments in real estate and other enterprises in Ft. Worth.

### Father of A. L. McSpadden Died Monday Morning

Mr. McSpadden is survived by two sons and two daughters, two brothers and two sisters. Mrs. Sallie Lyle of Rankin was the only one of the brothers and sisters who was able to be present for the funeral. A. L. McSpadden of Colorado and J. E. McSpadden of Lamesa are the two sons, and Mrs. L. R. Rutledge of Ralls and Mrs. Steward Gorman of Lorenzo are the two daughters surviving Mr. McSpadden.

### Rose Reports Good B. Y. P. U. Meet At Dunn

The Associational B. Y. P. U. quarterly meeting held with the Dunn Baptist church last Sunday afternoon was one of the best held by the Mitchell-Scurry Baptist Association B. Y. P. U. organization, according to W. A. Rose of Colorado.

The attendance was large and the program fine, Rose said. The Union Chapel B. Y. P. U. carried off the attendance banner with 47 present, while Snyder was a close second with 46 in attendance. The Dunn Union took the efficiency banner.

"There is some fine work being done in the association by the B. Y. P. U.'s under the leadership of the president, J. C. Smyth of Snyder," Mr. Rose said.

### VERY LITTLE DRUNKENNESS IN CITY THIS CHRISTMAS

Officers in Colorado report that there were fewer arrests for drunkenness in Colorado this Christmas than for many years. In fact, there were no arrests at all for this offense. There seemed to be a plentiful supply of booze, but everyone who had partaken of the cup that cheers seemed to be "just happy" and not too drunk to know where they were going or what they wanted to do.

### TEXAS ELECTRIC SERVICE COMPANY TAKES OVER FORT WORTH POWER & LIGHT CO.

The Texas Electric Service Company, owners of the electric light and power lines in Colorado, Sweetwater, Big Spring, Midland, Odessa and many other West Texas cities, has taken over the Fort Worth Power & Light company, according to an announcement made Sunday.

The company has been incorporated under the laws of Texas and a new charter received by the company from the Secretary of State at Austin.

Dr. P. C. Coleman of Colorado is a director of the company. He recently attended a meeting of the board in Fort Worth where the details of the deal just announced were discussed.

General headquarters of the company will be in Fort Worth and a general expansion program will result from the formation of this new Texas corporation and the taking over of the Fort Worth power interests, it is said. "There will be no change in the Colorado office, and no change in the district offices at Sweetwater, we are informed. L. J. Geer will remain at Sweetwater as district manager for this section of West Texas.

This company is linked with the Texas Power & Light Co. through ownership of stock, the T. P. & L. Co. being the parent company. It is said plans for extensive improvements are under way and that the Texas Electric Service Company will expand its facilities and service in West Texas beginning early next year.

### White Christmas Program Was Very Lovely Service

One of the most impressive Christmas programs of the season was given at the First Baptist church on Sunday evening in the White Christmas program.

The very simplicity of the program enhanced its beauty. The church was darkened, the only light coming from a huge star hung over the baptistry. Beneath this was a lighted Christmas tree. The entire choir was draped in white and decorated with cedar, mistletoe, and small pine trees.

The choir was composed of women's voices, and all the singers wore white robes. The service was opened with the singing of "All Hail the Power of Jesus Name," and "Joy to the World." The Scripture reading of the Christmas story was given by Jimmie Logan, following which the choir sang "White Shepherds Watched Their Flocks by Night."

Nina Lee Rogers read "A Legend of Cathay," preceding the carol, "It Came Upon the Midnight Clear," by the choir.

Mrs. Warren Williams played the part of the Madonna, and sang a beautiful lullaby above the cradle of the Christ child. The Three Wise Men came in bearing gifts, following which the various departments of the Sunday school offered their gifts before the cradle. Mary Frances Majors read "The Wise Men."

"Holy Night, Silent Night," favorite Christmas carols, was beautifully rendered by a quartet of women's voices, and following the singing of "O Little Town of Bethlehem," the service was closed with a free-will offering to Buckner Orphan's Home, the amounting to over \$200.

### WORDLESS STORIES FOUND IN STUDY OF ALUMNI LIST OF C. H. S. SINCE FIRST YEARS

Wordless stories, some fraught with joy, some with tragedy, and most of them with "just living" are revealed to one in a perusal of the alumni list of Colorado High school.

A list of those who have passed through the portals of C. H. S. since its beginning back in the eighties is of special interest just now, with graduates of the school planning the banquet and get-together for next Monday evening, December 30, in the Colorado Hotel.

By the side of many of the names appearing on the list is written "deceased." A large number of the names remind one that mothers and grandmothers of Colorado today and prominent citizens of the town were, not so many years ago, just high school graduates.

The alumni list which is given below is as near complete as possible, although many names do not appear which probably should. Any corrections or additions will be gladly received:

1885—Allen J. Payne, Maggie Adair (deceased), Will Dunn, John Miller 1886—Mary Mullen (Terrell).

1888—Nina Mae Holmes (Hawkes), Mattie Payne (Person), Lillian Fox (Root), Mae Bailey (deceased).

1891—Neil Mills, Frank Riordan, Lou Delaney (Wilson) Lenora Webb (deceased), Elnora Delaney.

1892—Fanny Miller (McMurry), Pearl Bailey (Swann), Lillie Largent (Garey), Belle Stonemets (Burney), Will Johnson, Felix Miller.

C. H. S. "products" from as far back as the Class of '86 will be present at this occasion, the first of its kind ever held by alumni of Colorado High school.

The idea of the gathering of graduates of Colorado's high school for reminiscences of the old days is capturing the fancy of every graduate who hears of it, according to those who are working up plans for the reunion. All graduates of C. H. S. are urged to reserve places at the banquet table, and invitations have been sent out to all those whose names can be secured. Doubtless a great many ex-students from outside Colorado will answer the call to gather for high school recollections. Reservations may be made through Miss Jo Kay at the chamber of commerce, or through any other member of the sale committee given below. Plates will be \$1 each. Reservations must be made not later than Saturday.

In the tentative program which has been worked out, Harry Ratliff of the class of '16, is to act as toastmaster. Miss Mary Davies and Miss Mable Smith, the latter of the Class of '11, compose the menu committee.

### Luncheon Club Had Exchange of Gifts Tuesday

Christmas gifts were exchanged by members of the Chamber of Commerce Luncheon club at its regular meeting Tuesday.

Miss Beatrice Logan played several piano numbers preceding the exchange of gifts. Each member had brought a present costing not less than 40 cents nor more than 25 cents. Each presented his gift to the person whose name was drawn. There were only two disasters. Miss Logan's present will probably be passed over to a brother. Jas. T. Johnson received a mule which kicks constantly when in action. According to members of the club this should have been presented to Secretary J. H. Greene.

Dr. R. D. Bridgford presides at the next meeting.

### 'Innocents of Paris' To Be Here Next Week

"Innocents of Paris," famous all-talking, singing motion picture starring the French musical comedy king, Maurice Chevalier, will be seen at the Palace Theatre on Sunday, Monday and Tuesday, December 29, 30 and 31.

This picture is one of the most successful of recent productions, and is probably the most successful ever made with a foreign star heading the cast.

### COST \$8,000 TO PROVE CONNIE FRANKLIN ALIVE

MOUNTAIN VIEW, Ark., Dec. 23.—A jury's verdict has wiped away charges of murder against four mountaineer farmers, whose chief witness testified he was the Connie Franklin they were accused of slaying.

The acquittal after a trial which added \$8,000 to Stone county's already heavy debt, offered an expensive answer to the question of the identity of the 33-year-old farm hand upon whom the defense based its case.

### Many Made Glad By Goodfellows This Christmas

The Goodfellows functioned this year better than ever, according to many.

Fifty-nine families received material things such as groceries, shoes, stockings, fruit, candies, toys for kiddies. More than 600 people were served.

Those who cooperated in the giving and the work all say they received great benefits from assisting.

A detailed report will be given next week in The Record of the Goodfellows activities.

**Legion Auxiliary Sends Boxes**  
The American Legion Auxiliary to Oran C. Hooker local post sent fourteen boxes of Christmas cheer to soldiers in Carlisbad, eight to El Paso and three to boys who are not in hospitals, but belong to Colorado families. These boxes contained a pair of socks, a handkerchief, tooth paste, shaving gum, tooth brush, a book of stamps, cigarettes, shaving cream and hand lotion, and those outside of hospitals were sent extra.

Instead of growing smaller, the number to be helped is increasing and auxiliaries are assigned quotas according to their membership.

**121 Club Christmas Tree**  
The 1921 Club held their Christmas meeting with the president, Mrs. J. M. Doss. The house was beautifully decorated with Christmas wreaths, holly, icicles and even the Christmas stockings hung beside the hearth.

The members were entertained with a Christmas fantasy by the club children. This was written by Mrs. Doss and was called the "Christmas Celebration."

The audience was seated in the living room and the stage was the dining room. Seated on a red-draped throne were the king and queen, to decide to celebrate by wearing their new Christmas jewels and crowns. As they put these on, they begin a little dance but are interrupted by the page, who announces that the queen of Fine Arts is approaching. The king and queen hurriedly resume their old crowns and seat themselves upon the throne. These two parts were taken by Gladys Louise Jones and Martha Jane Majors. The queen of Fine Arts, Miss Mary Broadbudd, asks to entertain them, and gave a beautiful Christmas reading, "The Beau of Bath." She next introduces a friend who will dance. This was cleverly done by Frances Elaine Price. Next she introduces the Princess Music and Julia Mae Root gave a saxophone solo. The voice of expression comes next, and Miss Loyce Price reads "A Man's Christmas," by Edgar Guest. Three little Spring Voices are next introduced by Ruth Hardison, Nellie Grace Doss and Doris Flo Doss. The song, "Happy Hop," and "Away in a Manger." The queen expresses her pleasure and asks the group to stay to tea and tells them she has a distinguished guest to present, and Santa is introduced. Miss Katherine Price served in two roles as page to the king and queen and then as Santa Claus and did both well.

The prettily decorated tree had a present for each one present, all of them being opened and admired, and the donor who received her name by drawing, thanked them. Sandwiches, stuffed dates and tea were served.

Mrs. W. L. Doss, Sr., was a guest. Mrs. J. G. Merritt was the only one of the honorary members present. Next meeting is January 3 with Mrs. Majors.

**Christmas Party**  
Master Preston and Miss Alice Burchard had a gay little party at the Coleman home Saturday afternoon for a number of their little friends.

**Class Meeting**  
Class Two of the Intermediate department of the Baptist Sunday school, met Thursday with their teacher, Mrs. Farris, in a class meeting. There were five present and a very delightful afternoon was spent. In the business session plans were discussed for making money after Christmas.

Each brought a Christmas gift for someone else and when all had been admired they were then placed together and will be sent to Buckner Orphans' Home to gladden the hearts of girls there. Sandwiches and tea were served.

**Christmas Tree at Mission Sunday School**  
The McCall Mission Sunday school had its tree Monday evening. The superintendent, Mrs. Garrett, and her teachers, Mrs. Costin, Misses Geneva, Melton and Alice Hughes, had worked faithfully to make the tree the thing of beauty it was.

The program began at 6:30 with a splendid attendance present to welcome Santa. Mrs. Garrett told the meaning of Christmas in a very impressive way. "Holy Night" was sung. Mrs. Merritt led in prayer, then Mrs. Boyd Dozier and Mrs. Garrett sang "There's a Song in the Air." Four of the little pupils gave appropriate readings. These were Dixell Cox, Lewis E. Lawson, Ruth Grimes and Jeanel Snow.

Miss Nelda Garrett told a beautiful Christmas story of happiness by giving, and then Santa Claus appeared and the gifts from the tree were distributed to the children, their mothers being remembered as well. It was a happy occasion for all and one that made all present appreciate more than ever the unselfish service of the superintendent and teachers.

**Business and Professional Women Have Christmas Tree**

Thursday evening the Business and Professional Women's club gathered at the home of Mrs. J. A. Ferguson for their first Christmas tree.

The beautiful home was beautifully decorated with great bunches of mistletoe and Christmas bells. A lovely basket of the mistletoe tied with red centered the dining-room table.

The tree was placed in the sun-parlor and was just as pretty and artistic as the rest of the house. Each member brought a gift for someone else and for the club's adopted girl, and on the tree was an all-day sucker for each member.

After a time spent in conversation the gifts were presented by numbers and Miss Travis Donald was presented her gifts, which were really a shower of beautiful garments, enough to last her during the coming year. Her joy and surprise will linger with the club members as one of the happiest events of the holidays.

The refreshments were presented from the tree and the party was over.

**Christmas German at Sweetwater**  
A number of Colorado boys and girls attended the Christmas German given at the Wright Hotel by the Stella Club. This was given from 12 until 4 o'clock Christmas morning.

**U. D. C. Remembers Boy in Gray**  
Only six Confederate soldiers could be found in Mitchell county, and as these were so scattered, it was thought best not to attempt a Christmas dinner. Each one was remembered with a pair of well-filled wool socks containing fruit, grape juice and stuffed dates, by the Daughters, who delight to honor these aging heroes whose number grows less every year.

**Bridgettes**  
The Bridgettes met on Thursday evening with Mrs. Johnnie Prude, with the husbands as guests. The house was decorated in Christmas greens, a big cedar tree of unusual beauty adding much to the beauty. There were seven tables of players, the guests being Mr. and Mrs. Patrick, Miss Broadbudd, Mr. and Mrs. Bill Dorn, Willis Jones and John Deffenbach.

Whistles were passed out as noise makers and everyone spent a most glorious evening.

High score in the bridge game was won by Mrs. Ed Jones, Jr., who was given a vase, and Mr. Porter, who was given a smoking stand. Mr. and Mrs. Dewey Tidwell, who are leaving this week for California, were given remembrances.

At the refreshment hour turkey a la king in patty cases, cranberry sauce, olives, salad, and hot biscuit were followed by plum pudding and coffee.

**Chemalis Keep Open House**  
Mr. and Mrs. Joe Chemalis kept open house for their friends all over the West on Christmas evening. They had an orchestra and violin music by Mr. Levinson, Senor and Senora Ezquiere, Mexican consul at Sweetwater, and his sister from Mexico were guests of honor. Many of Mr. Chemalis's Colorado friends called during the evening.

**Christmas Tree at Country Club**  
Monday at 3:30 the children of the Country Club members were delightfully entertained at the club by Mrs. Joe Mills, chairman of entertainment. There were a number present who played outside on the slide and swings for a while and were then invited into the reception room, where a beautiful tree had been placed. The gifts were gotten by each child fishing in a pond, which caused a lot of excitement and joy. Each received a present and were then given a bag of fruit. This was a very happy occasion for the smaller Country Club members.

**Clown Party at Country Club**  
Mrs. R. H. Looney is entertaining this evening at the Country Club with a clown party, and the Merry Wives are having their annual banquet on Friday.

**Christmas Trees**  
The Methodist church had a Christmas tree Tuesday evening in the auditorium of the church for the Junior and Primary departments. A pretty program was given by the children who had been trained by Mrs. W. H. Garrett. This was concluded with a little pageant, "The Christ Child," showing the wise men, the shepherds and the love the children of America could give. Santa came in and distributed gifts to all the smaller folks.

The Christian church had a pretty tree in the auditorium, and gave presents to all the members of the Sunday school. A beautiful program of music and readings had been arranged by Miss Mary Broadbudd. There was a duet, a quartette, and Christmas carols. Alice Harryman read the scripture, and Mr. Crowder led in prayer; then Santa Claus came and the gifts were distributed.

The Beginners and Primaries of the Baptist Sunday school were given a pretty tree in their department by their leader, Mrs. Robert Terrell, assisted by Mrs. Oscar Price and Mrs. Ed Majors. A program was given by the little folks, and gifts distributed.

The Presbyterians had a beautiful tree in the auditorium of the church with gifts for all the Sunday school up to the adults. Mrs. Jerold Riordan arranged the program, which was given mainly by the primaries. Several songs and readings were given by them. John Elliott read the scripture lesson. Miss Frances Riordan sang; Mr. Elliott led the prayer, and the boys of the Intermediate department gave out the gifts together with fruit and candy.

**Open House**  
The Methodist church kept open house Monday evening for the young people of the town. They gathered at 7:30 and played games, had music and otherwise enjoyed themselves. Fruit, nuts and candy were served.

The Orange banker who bought a circus horse from two stranded performers is hoping no band strikes up while he is astride his new mount.

They're snipping "hot stuff" from Ode these days, three full carloads of radishes having gone out inside a few days.

Two college boys at Beaumont were caught siphoning gasoline out of somebody else's auto and, for the 30¢ worth of fluid they got, were fined \$10 and costs apiece.

Workers with a lineman at Spur expected to see him drop dead when he received a 13,000-volt shock, but he was only slightly burned, and, on climbing down from the pole, inquired, "When do we eat?"

## CABARET DANCE AT LEGION HUT WAS A BEAUTIFUL AFFAIR

### Dancing Set of Colorado Turns Out For Yuletide Celebration

Monday evening at the Legion Hut was given one of the most beautiful and artistic Christmas dances Colorado society has ever enjoyed. This was in cabaret style and tables had been reserved by the younger married set and the young people some time in advance.

The hut was attractively decorated with boughs of cedar and mistletoe entwined with serpentine in gay hues. The serpentine made a curtain for the orchestra, which was a very splendid one. A big fir tree in the library added the Christmas touch. The white-covered tables were centered with red candles in crystal holders and twenty-two of these tables were reserved by dancers and family parties.

The food was prepared by the Legion Auxiliary and served by attractive little waitresses in red and black Spanish costumes. These were Misses Frances Ann Beal, Lucille Bass, Alice Hughes, Virginia Spalding, Margaret Jenkins.

These young lads did a very graceful Waitress Chorus Routine. Miss Winnie Powell gave a clever toe dance. A graceful square dance was led by Mr. and Mrs. R. J. Wallace, Mr. and Mrs. Fred Brown, Mr. and Mrs. Joe Mills, and Mr. and Mrs. Harris Toler.

Shortly before 12, serpentine and confetti were distributed and this, mingled with the gay hues of the dancing frocks, made a beautiful picture. A donation of \$4.50 was made for the Goodfellows.

The Auxiliary cleared about \$25 for their disabled soldiers, to whom they are sending Christmas cheer.

The following enjoyed this very delightful affair: Mr. and Mrs. R. J. Wallace, Mr. and Mrs. D. H. Snyder, Mr. and Mrs. Fred Brown, Mr. and Mrs. Paul Teas, Mr. and Mrs. Ross Dixon of Dallas, Mr. and Mrs. Joe Mills, Mr. and Mrs. Harris Toler, Mr. and Mrs. D. M. Merritt, Mr. and Mrs. Randolph McEntire, Mr. and Mrs. J. W. Chase, Jr., Mr. and Mrs. Bert Wulfjen, Jr., Mr. and Mrs. L. W. Sandusky, Mr. and Mrs. Ray Lane, Mr. and Mrs. Lloyd Mackey.

One of the season's best hunting stories comes from Kerrville, where a man killed two turkey gobblers with one shot and then, the next day, also brought down two bucks with one bullet, and had proof of his exploit.

A community canning day was observed recently at Brookeland, in Sabine county, and 338 pounds of beef, eight chickens and half a hog were put up, enough to furnish meat to all families concerned for most of the winter.

While a Weimar youth was having a shampoo a companion struck a match to light a cigarette, his hair

caught fire and he got to singed without any extra charge.

Curiosity may have killed a cat, but it also broke a leg for a Houston man who was knocked down by a writhing fire house while watching a house blaze.

One of the very best hunting stories of the season comes from Whitsett, Live Oak county, where a hunter presented a deer to the school, housewives completed the feast with cakes, vegetables and the like, and

the three teachers and forty children ate venison.

Boasts of Comfort, Kendall county, that the town had no policeman nor jail must have reached the ears of two bandits who robbed the local bank of all the cash they could find.

The thirty raced out to a Sweetwater field to a plane that was "loaded with booze," but when they arrived, they found it a joke, and all that they got was the blues.

**WORLD'S DEEPEST OIL WELL EARNS OVER A MILLION**

The world's deepest producer, the Group No. 1 Oil Corporation's (Texas) No. 1-B University, in Reagan county, celebrated its first birthday December 1 by flowing 2,883.88 barrels of 56.3 gravity oil and testing 26,297,000 cubic feet of gas from a total depth of 8,525 feet. Six days earlier the well set another production peak of 2,915.52 barrels. Starting with 40 barrels the first day, No. 1-B University through Dec. 3 had produced a grand total of 855,404.42 barrels. The well cost \$141,500.50, or \$16.60 per foot, but already has been worth in excess of \$1,000,000. Its oil is run with crude of lower gravity from other wells to raise the gravity of the whole. Production during the week ending Dec. 3 averaged 3,282.72 barrels of oil and 26,430,800 cubic feet of gas.

Big Lake Oil Company's No. 3-C University, second deep producer in the field, continued to fluctuate, mostly downward, but during the week ending Dec. 3 averaged 98 barrels of oil and 1,990,000 cubic feet of gas from a total depth of 8,385 feet. Big Lake No. 4-C University, third deep producer, in the field, showed a gradual gain, averaging 427 barrels of oil, and about 6,500,000 cubic feet of gas during the week.

**SWEET CLOVER PAYS IN WESTERN TEXAS**

LAMES—Sweet clover as a feed crop for cattle is being recommended for South Plains farmers by W. W. Evans, Dawson county agricultural agent. During the last spring he made several experiments with the cooperation of farmers over this section and found that this legume can be grown in the South Plains with much success. With the location of the \$200,000 powdered milk plant here the farmers of the Lower South Plains will naturally increase their number of cattle to supply the demand of the plant, is the belief of Evans. With this increase in cattle a better feed crop is needed, according to Evans and sweet clover is being recommended by the agent.

Judge—Say, Abe, this is a purely domestic affair and it is a shame to get a divorce on such petty charges. Why don't you and Lindy settle it out of court?

**Over a Billion Deadly Germs in a Single Drop of Water**  
Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.  
Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents, and can be had at W. L. Doss, Druggist. Adv.

### SOME OBSERVATIONS

"The saddest fellow in town," says a Colorado man, "is the one who has been poor so long that nobody will believe him when he says he lost money in Wall Street."

When a man figures in an auto accident it is quite a strain on his wife to admit in court that he was right.

A woman doesn't have to know how to shift gears to tell her husband how to drive.

"If nature can't make a girl's face beautiful, then it takes a lot of nery for a beauty doctor to try to do it."

We don't know much about the future except that a large part of it will be devoted to tariff debates.

"Marrying is pretty much like everything else," declares W. H. Garrett, "when it is done right in the first place it doesn't have to be done over two or three times."

"I'd have a lot more admiration for the doctors," asserts Tom Goss, "if they could find a way to cut out a man's meanness as easily as they cut out his appendix."

A doctor may do something for feet that are swelled, but the Colorado man whose head is that way is beyond relief.

Wouldn't it be fine for Washington City residents if they could heat their homes with the hot air congress provides?

It takes all kinds of people to make a world, including those who like their food flavored with garlic.

We've heard Colorado girls boast they could marry anybody they pleased. But they are usually the kind that never please anybody.

Maybe the reason we yell louder about heat in winter than in summer is because in summer we don't have to pay for it by the cubic foot.

"Times change, but that little word 'if' still stands between us and some mighty big things."

Colorado mothers never realize what small homes they live in until they try hiding something from the kids.

We have seen pictures of a dear old grandmother wearing a nightcap, but we never saw one of her showing her kneecap.

If Nature is so grand, why did she give the thickest skulls to those who have the least to protect.

Any man around Colorado with potatoes and cabbage in the cellar and canned fruit, bacon and lard in the pantry does not need to do much worrying over what happens in Wall Street.

How can you possibly cross the

street when all the automobile keep coming along like this.

Record subscribers are lucky. So far not a single one has come in and complained of being hurt in the recent Wall Street crash.

Another thing larger than eating in classes candy with store teeth is trying to convince a modern Colorado girl that she could learn to be helpful in the kitchen.

After all is said and done, the best way to put an end to wars is not to start any.

The livery stable business might still be thriving in Colorado if some smart chap had thought of a plan for trading in the old horse on a new one.

### Why He Left

"I hadn't quite figured on taking my vacation at this time," said Skippel to a stranger in the smoker, as the train slid out of the station, "but I'm taking it just the same. Invariably these mornings I have to rout the kid out of bed, so he can do the various chores of the day before the sun gets so blamed hot. So this morning early I went into Jimmie's room and applied the flat of my hand to him where it would do the most good."

"There," I said, upon returning to my own bedroom, "I guess that will wake Jimmie all right. I went to his room, turned back the bedclothes and gave him a good spanking."

"What?" shrieked my wife, "Jimmie stayed with the Jones boys last night and I put mother in his room?"

"So I left the house early, and here I am on my vacation!"

**Ken Maynard  
Coming In The  
Wagon Master**

Ken Maynard will be seen in a different type of Western story when "The Wagon Master," the first dialogue Western, comes to the Palace Theatre Friday and Saturday.

"The Wagon Master," Maynard's first picture under his new long-term contract with Universal, pays tribute to a bold and daring type of men whose services have received little attention. These are the wagon freighters who carried supplies to isolated mining camps and army posts in the days of the pioneer West.

"The Wagon Master" is replete with thrills. With the aid of his famous horse "Tarzan," Maynard performs riding stunts of the daring brand that have placed him in the forefront of the ranks of Western stars. The long wagon trains give a colorful atmosphere to the picture, and there is no lack of romantic interest. Stirring dialogue scenes and the rendition of cowboy songs add greatly to the picture.

As "The Wagon Master," Maynard strives against great odds to break a freighting monopoly that is starving out the mining camps of the region. Simultaneously he wages war to win the girl of his heart, portrayed by the beautiful and charming Edith Roberts.

Al Ferguson furnishes the menace of villainy, ably aided by others in the cast. Maynard has gathered together a band of fearless, fighting riders who keep things humming from start to finish of the picture.

**THE FRONTIER SPIRIT**

What is needed to solve our crime problem may be an application of the old, robust, frontier spirit of the American. The western empire was not tamed by professional reformers and law-passers. The bad men flourished until hardy citizens, determined to wage a relentless war on lawlessness, gave them a taste of their own medicine. One dose of lead proved to be worth more than a dozen doses of sumptuary legislation.

The old days are over. But much the same situation remains in the underworld of our great cities. A ruthless, organized and intelligent criminal class is pitting itself against society. And so far society seems to have lost ground.

The reason for this failure of law and order is clear. We have burdened ourselves with a maze of laws that have reacted, in the fashion of boomerangs, to the advantage of the criminal and the disadvantage of the good citizen. Legal technicalities, and the activities of the sub-sisters and reformers make many of our trials travesties on justice.

One wonders what those pioneers who founded American civilization would think of a nation where, in many localities, the law-abiding citizen is virtually prohibited from owning a gun for his protection or amusement, and cannot defend himself against the underworld with its own weapons. Perhaps in that they would find adequate reason for our abnormal crime record. — Sterling City News-Record.

**Friendship**

The daily barter, the buying and selling in which we all are engaged, must have as its common foundation something other than cold commerce.

There is no business so great, no individual so powerful, that friendship cannot enter into their scheme of things.

We like to think between ourselves and those we serve there exists a feeling of harmony, an atmosphere of cordial, neighborly relations, rare in these times.

Our customers are our friends; their good will and their loyalty are the finest things we possess. And to each we extend the right hand of fellowship, in thanks and in amity—with gratitude for the past and with staunch confidence in the good things that 1930 will bring to all throughout the land.

Rural Mail Service Increased To Three Times Weekly Here In 1902; Dick Ware Dies; Is Given Fine Tribute

Delivery of mail was increased to three times a week on Star Route Mail Service out of Colorado in July, 1902, and a new line was established from Colorado to Pyron, in Scurry county. Other routes were the one extending towards Sterling City and the one to Knapp.

In that month also Colorado was planning to send a big delegation to the convention in Mineral Wells which was to nominate a congressman for the new sixteenth district of Texas.

Colorado was deeply concerned with nominating Judge Smith to the office, and the following delegation was selected to attend the convention: A. B. Robertson, P. C. Coleman, M. Carter, W. S. Stoneham, Geo. W. Smith, W. K. Homan, L. P. Skinner, T. S. Armstrong, Frank Johnson, Sam Gustine, W. B. Crockett, R. G. Smith, A. J. Coe, F. M. Burns, J. W. Bird, R. H. Crump, A. Petty, J. L. Doss, C. H. Earnest, C. M. Adams, J. E. Hooper, J. D. Shepherd, C. W. Simpson, B. F. Dulaney, Ben Randle, J. D. Wulfjen, J. W. Smith, L. W. Delling, Billy McCauley, John Lovelady, T. A. Randall, J. R. Graves, R. B. Homan, W. C. McCallum, George Majors, J. P. Majors, N. J. Dhenik, Willis R. Smith, Ben Plaster, W. R. Warren, Ben Broughton, T. J. Davis, W. H. Goodwin, H. R. Looby, J. W. Smiley, Tom Smith, H. C. Caldwell, J. T. Harness, Brooks Bell, J. H. Huston, D. T. Bozeman, A. P. Bush, S. T. Shropshire, D. N. Arnett, J. Pat Homan, P. B. Henderlite, C. C. Blandford, E. W. Bounds, Y. D. McMurry, and Hec. A. McEachin.

Dick Ware, first sheriff of Mitchell county and brother of Mrs. M. Carter of this city, had just died, and this story of his gallantry was copied by The Clipper from the Fort Worth Register, the information having been given that paper by Capt. M. B. Davis of Waco, who served with Capt. Ware in the Texas Rangers' battalion during the 70's.

"Dick Ware was enlisted by Major John B. Jones in 1877. He was assigned to a section known as the 'Escort' and was under the immediate command of Lieutenant Reynolds, known as 'Maggie' Reynolds. The 'Escort' was composed of men detailed from several different companies and while Dick Ware was a member it was employed in the suppression of banditti. In arresting or killing desperadoes and in keeping the peace between parties in feud. It was an exceedingly dangerous service, and Dick Ware was one of the best men in this special detail from a body of men, every member of which was required to keep his life at the service of his State by day and by night. He was a superb shot, and exceptionally good horseman, and his powerful physique enabled him to withstand all extremes of thirst, hunger, and fatigue. The story has been told of his participation in the battle with the Sam Bass gang at Round Rock in 1878, and the misstatement has been made that Dick Ware was in command of the party. As a matter of fact he was a private at the time, and got his first promotion in consequence of his brave and efficient service on that occasion. Major Jones, who personally commanded the fight, having been a witness to the duel between Bass and Ware.

"As cattleman, sheriff, Texas ranger, and United States marshal, Dick Ware was always ready for duty, prompt in execution, skillful and daring."

The following local notes appeared in The Clipper: "S. C. Hightower has purchased the Joe Christian place near Lone Wolf mountain, and also bought 37 head of cattle from A. L. Scott.

"Mrs. A. B. Robertson and children spent a few days with relatives in Sweetwater this week.

"There was a small picnic and barbecue at the Lande's pasture Friday.

An Unpleasant Subject All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. J. C. PENNEY STORES MERGER PLAN DROPPED

NEW YORK, Dec. 23.—E. C. Sams, president of the J. C. Penney Co., which operates a nationwide chain of 1,400 retail dry goods and apparel stores, announced today that negotiations for a merger with Sears, Roebuck & Co. have been definitely terminated.

"The possibility of the J. C. FOOTBALL SQUADS ARE GUESTS OF LIONS CLUB AT BANQUET THURSDAY

Fifteen Receive Sweaters; Jackrabbits Praised For Their Work

Fifteen Wolves received sweaters and other members of the team and members of the Jack Rabbit team received favorable mention from Coach Jim Cantrill Thursday night...

Coach Cantrill explained that Thos. Dolman, George Slaton and Tom Henderson would not receive letters because they had not had opportunity to play the 16 quarters required by the rules...

Mann Named Captain. Virgil Mann was unanimously elected captain for next year when the Wolves voted on a successor for Pete Smith...

President Bill Randle presided at the banquet and gave the welcome address. Pete Smith responded for the Wolves. He thanked the Lions for backing the team this year...

the game of life as they did football, to do their best and try to win fair. Coach Jim Cantrill responded and told of the trials and tribulations of having "your punts blocked."

Roy Hester, director of the municipal band, gave a solo on the cornet, violin and saxophone, with Miss Beatrice Logan at the piano.

After Coach Cantrill had awarded the sweaters and the new captain had been elected, Col. C. M. Adams, in his dignified and impressive manner and with an effective speech, proceeded to perform his "painless duty" and award Charlie Thompson a sweater for his part in playing the Snyder game for a loss.

Dick Gray, chairman of the Committee on Blind, reported a deserving case whereby a boy whose eyesight is bad might be corrected by glasses and recommended that the Lions club have the boy's eyes tested and glasses fitted for a Christmas present...

In addition to the football squad and the coach, C. A. Wilkins, Clyde Bennett, Don Ham, G. D. Foster, members of the high school faculty, were guests.

The Jack Rabbit squad is composed of the following: Rex McKinney (C), Jack Hicks, Cecil Chivers, Gaston Ferguson, J. L. Hart, Red Church, E. Stagner, A. J. Nolen, James Bodine, Russell Soper, Woodrow Viles, Marvin Majors, John Tom Merritt, John Earl Chase, Sam Bodzin, Bill Hicks.

SAYS MUST HAVE RECORD

The Record is in receipt of a letter from J. E. Stowe of Abilene, which says: "Please find attached my check in amount of \$4 as I find I cannot get along without the old Record."

J. E. Stowe is a Coloradoan. He was city secretary here, got his start in Colorado, and still owns two brick buildings here. He is now distributor for the Humble Oil & Refining Co. at Abilene.

W. B. Franklin Installs 16,000 Egg Incubator

W. B. Franklin, owner of one of the best White Leghorn poultry farms in West Texas, has just installed a new 16,000 egg Buckeye mammoth incubator...

He had a 9,000 egg Buckeye machine last season, but this proved inadequate for his growing needs, so he installed the new 16,000 egg machine for this season.

"For the benefit of some who do not know the quality of Buckeye mammoth incubators, statistics show that there are more chicks hatched in Buckeye incubators than in all other makes of incubators combined in the United States."

It was stated in last week's Record that Franklin won first prize on eggs at Snyder, but we have learned since that he won both first and second prize on eggs with his English White Leghorns.

Franklin has a poultry ranch that Mitchell county should be proud of, for he sells chicks that will make their owners a profit, rather than an expense. That is what it takes to build up the poultry industry in this county.

Announcements, song and benediction.

LIKES OLD TIME ITEMS

The Record has received a letter from A. J. Payne of Slaton, saying he appreciates the old-time items now being printed in The Record recounting the old days in this city.

His letter says: "Since you began writing about the good old days that are gone, by re-publishing the accounts of the former citizens of old Colorado, The Record is read by me and my family with more interest, so keep the good work going, as an old-timer like me likes to read about the past happenings of the early days there."

THREE DAIRY FARMS BE LOCATED IN TEXAS BY PENNEY CONCERN

Big Company Headed by Chain Store Millionaire Now Owns Plant Here

The Foremost Dairy Products Co., of which J. C. Penney, millionaire chain store owner is chairman, and which owns the creamery and ice cream plant in Colorado formerly operated by the Banner Ice Cream Co., will establish three dairy experimental farms in Texas...

The Foremost Company recently purchased the Southwest Dairy Products Co. of Dallas, which owned plants throughout the State which included plants at Sweetwater, Colorado, Big Spring, Midland and San Angelo.

Sweetwater is making an effort to secure the new Penney experimental farm, Monte E. Owen, manager of the Sweetwater Board of City Development, said yesterday.

SISTER OF F. B. AND A. L. WHIPKEY DIES AT HOME IN NEBRASKA

Christmas Eve day F. B. and A. L. Whipkey of Colorado received the sad news of the death of their oldest sister, Mrs. John W. Schultz, who died at her home in Schuler, Nebraska.

"Mrs. John W. Schultz, one of the real pioneers of Colfax county, passed quietly into her last sleep Friday evening at the family residence in this city. Mrs. Schultz had been ill for the past two years suffering with arterial sclerosis. She was confined to her bed the seven weeks preceding her death."

"Funeral rites were conducted at the late residence Sunday afternoon at 2 o'clock and at the First Presbyterian church at 2:30, the pastor, Rev. W. G. White, officiating. The church was filled with many friends and neighbors of the deceased who came to pay their last tribute of respect to her memory."

"Mrs. Schultz's maiden name was Miss Elvira Elizabeth Whipkey. She was born at Murphysboro, Indiana, on January 31, 1851, and would have been 79 years of age the last day of next month. The early part of her life was spent in her native State. She was united in marriage to John W. Schultz in Illinois on October 17, 1867. Mr. and Mrs. Schultz came west in 1872 in a prairie schooner and settled on a farm in Colfax county. They moved to Schuyler in 1886 where the remaining years of their lives with the exception of one year lived in Texas, was spent."

"Mrs. Schultz was very well acquainted with the hardships and privations of the early pioneer life in the unsettled west. She was a faithful and veal member of the Presbyterian church for many years and was intensely interested in all kinds of Christian work. Her chief interest and ambitions in life were centered in her home where she was the ideal wife and mother."

"Those from out of the city in attendance at the funeral were Mr. and Mrs. Charles M. Sutherland and family of Lincoln; Mrs. Chauncey Gaeth of Denver; Mr. and Mrs. E. E. Hoyle of Chicago; Mrs. N. F. O'Brien of Omaha and Mr. and Mrs. Harry Hart of Lincoln."

M. LEVINSON GOES TO OMAHA, NEBRASKA

M. Levinson and family left Monday for Omaha, Nebraska, where Mr. Levinson will manage a large wholesale grocery concern. Mr. Levinson has operated a business here for the past five years under the name of The Public Market. He closed out this business recently, in order to go to Omaha to take the position of manager of a wholesale house.

WITH OUR SUBSCRIBERS

A letter from J. W. Griffith of Floydada, Texas, encloses \$8.00 for The Record and the Star-Telegram.

Mr. Griffith formerly lived in this county and still wants the county paper. He thinks The Record is a good paper and he is right. Many others say so. Makes us feel good when so many good men in this county and all over the country send in their cash and seek to read this paper.

S. P. Carpenter, one of the good farmers on route 3, came in Monday and paid up to save his head. Mr. Carpenter has read this paper many years. He keeps up with the news in general and makes good with his farming at the same time.

Mrs. Clyde Hines has had her paper changed to Abilene, where she is going to spend Christmas with her daughter, Miss Scottie Mae, who is a member of the faculty of McMurry College. Mrs. Hines will spend two weeks there.

Dr. Reeves Coleman writes to have his paper sent to him in care of U. S. Veterans' Hospital, Alexandria, La., instead of Algiers, La.

Judge Charlie Thompson came in and we made him plunk down for the paper going to his brother at Dublin. Charlie and W. B. are owners of a small ranch down there and W. B. does all the work and Charlie gets half the profit. But we all know Charlie does not know the word "work" is in the dictionary. He manages to get along without working though and we admire his skill.

We thought we were going to have a real execution but old Allen Connell stopped the racket. He came in and we threatened to cut his head off and he flashed the cash and said, "Don't be so fast." He paid up for the paper to go to his brother, H. L. Connell, at Thrift, Texas, and we felt better. Connell has a good job but we don't see how he can hold it, with all his outside business, too. He is negro trustee and Lion Tamer at the Lions club.

Claud Cosper paid up and is a year ahead. Cosper is one of the best farmers on route 1 and that is saying a whole lot. There are lots of these good farmers on that route. Cosper owns one of the best farms in the county. He has some sub-irrigated land that makes a bale to the acre most every year, and sometimes more. Claud Cosper is a real citizen, too.

W. J. Manley of Loraine is little but loud. He pays up this week and says let the good news come. We gladly do this, bud, especially to a real citizen.

J. Lee Jones, the efficient county clerk, is the kind of fellow we like to meet up with. He paid for his paper and also for the paper to go to his father, D. N. Jones at Roswell, N. M., and to his son, Raymond in Iowa. Raymond is a musician, having graduated from the Oklahoma University after graduating from the high school here. He now has a fine position as director of music in a large city in Iowa as a musician, too. He directed the Colorado band for 25 years.

Sterling Keathley came in and paid up for the paper to go to his dad, Earnest, at Abilene, and had us send the paper to himself here. Sterling is managing the Alamo Hotel and looking after his father's business here. Mr. Keathley, a familiar figure here for many years, is ill and is resting up down at Abilene.

Boy, we expected to get a whack at a Republican and intended to hit heavy and fast with the axe, but Bob Brennand, our accommodating Republican postmaster, beat us to it. He paid up and then said, "laugh that off." We think a whole lot of Bob Brennand because he has got a wife that is worth three of him, and raised two boys that are better men than he ever hopes to be. Those boys are making good and are real fellows and we don't see how they did it unless they took after their mother. That ought to hold that Republican for a while.

R. B. Terrell pays cash and he has started in to demanding cash for plumbing work and materials. He sells windmill supplies, pipe, plumbing goods, etc., and has to pay cash for these and he does a big business. Bob has been a subscriber of this paper for many years and we are glad to mark him up.

L. L. Franks is another one of the old timers that we threatened to execute. He paid up in time to save his head. L. L. Franks is one of the big farmers of this county. He makes enough cotton each year to make a mattress to cover the United States and his cotton each year if made into a blanket would wrap up the world. Franks is a real man, but we have a quarrel with him every time he comes in. We threaten to throw him out and then he threatens to throw us out and then we nearly fight, and he leaves in a good humor. Fighting is Franks' long suit. We would like to (Continued on Page Five)

### New Rail Lines Into New Mexico Be Built At Once

AUSTIN, Dec. 24.—Granting of authority by the Interstate Commerce Commission for the construction of two more railroad extensions in Texas caused officials of the State Railroad Commission Saturday to predict the projects would develop an area in West Texas as large as some States and tie the territory to the Fort Worth markets. The I. C. C. on Friday authorized the Texas-New Mexico to build a 70-mile line from Cheyenne to Lovington, N. M., and the South Plains and Santa Fe to extend 46 miles from Seagrave to Lovington, both to form a link in east and west traffic. Construction will involve expenditure of more than \$3,000,000.

Records in the office of L. A. Guerringer, chief engineer of the State Commission, show that while the affected area is not now heavily populated, it has an enormous potentiality in oil, agriculture, fruit and livestock. It is one of the largest producers of cattle and sheep in the Southwest, but has been somewhat hampered by lack of rail facilities.

### Dries Up Colds In a Few Hours

The most disagreeable and embarrassing part of a cold is that constant, nasal discharge, which you can now stop in a few hours with Aspirinal, the latest and most scientific "Liquid Cold Remedy." Aspirinal is guaranteed to stop the irritation that causes sneezing and nasal discharges; dislodge the congestion and relieve grippy, neurally pains, at the same time causing a gentle and complete evacuation of the liver and bowels. All druggists carry and guarantee Aspirinal, the largest selling liquid cold remedy in the world. (adv.)

"West Texas and Fort Worth, and therefore the entire State, will be greatly benefited by this new construction program," Guerringer said, "for it opens new markets, affords trade outlets, brings people closer together and gives a section containing millions of acres a chance heretofore denied. An oil field already in operation, and this will be speeded up when the railroads are built. While not generally known, part of the area is producing excellent fruits and agricultural products. Livestock has been the leading industry and undoubtedly the big majority of the shipments will go to Fort Worth, the extensions saving shippers time and money.

"Nor should it be lost sight of that development which is certain to follow which will cause a big increase in property values. Livestock, or any other products, can be shipped over the Texas and Pacific, thence to Fort Worth without loss of time, and shipments also could be made from Lovington to Lubbock over the Santa Fe extension, thence via the Denver and South Plains to Fort Worth. Moreover, the people in the territory belong to us, those along the western tier of Texas counties and those in Eastern New Mexico, for our commerce between Eastern New Mexico and Texas are valuable and should be increased."

It is an interesting bit of history that shortly after Texas became a republic, this State claiming New Mexico, or at least the eastern half was part of Texas, sent a small army of pioneers to reclaim New Mexico. The "army" numbered more than 300 men, suffered great hardships and the Mexican government in control of New Mexico was able to circumvent the invaders, whose condition after a trek of 700 miles was deplorable.

Afterward, when Texas entered the union, the Washington Government recognizing the Texas claim, paid Texas \$10,000,000 for New Mexico, a strip of which extended into Wyoming. This \$10,000,000 was invested in railroad bonds, all Eastern, for there were no rails in Texas at that time.

Good Bargain for U. S. It was a good bargain for the United States in view of the value of the section purchased, a value conservatively expressed as more than \$1,000,000. So for the 4. C. C. a branch

of the National Government, to improve the rail hookup between Texas and New Mexico is a compensation for that trade in the early days. Lubbock and Midland will be greatly helped by the authorized construction, the former city being on the Seagrave branch of the Santa Fe as well as its main line and having the new Denver System into Fort Worth, building of which greatly shortened the time between the Plains and Fort Worth. Midland, both an oil and livestock center, was interested in having the Texas-New Mexican extension authorized, believing it would help commercial relations. The proposed line taps the T. & P. at Monahans, destined to be a lively shipping point. The Texas-New Mexican is a subsidiary of the T. & P., which is also seeking to extend another subsidiary, the Abilene and Southern, from Ballinger into San Angelo.

### Pink Bollworm Infestation In West Eradicated

So intensive was the fight of the State and Federal authorities against the infestation of the pink bollworm in West Texas, particularly in Howard, Dawson, Glasscock, Martin, Midland and Ector counties, that there is a fair probability that the pest has been completely eradicated, it is explained by the Department of Agriculture in a report given The Record upon request.

The report in part says: "The finding of traces of the worm in several West Texas counties during 1927 was discouraging to the department, which had then passed through campaigns of eradication in the Trinity Bay section of Texas. It was feared then that the pest had established a new foothold in the Texas cotton belt."

"The Federal and State Governments approached the problem based upon experience at Hearne ten years ago and, the coast country later, which established that a noncotton zone was the only effective method of warfare. The Department of Agriculture believes that if the noncotton zone had been established along the Rio Grande at the first appearance of the bollweevil from Mexico that pest would have been kept out of the American cotton belt."

"The West Texas infestation was revealed in the finding of dead specimens and, like that of the boll weevil, came from Mexico. The Big Bend country was heavily infested. It is the belief now that strong winds carried the pest from the river section to the counties in West Texas. It was a new avenue of approach for the cotton pest, more dreaded by the scientists than any other insect attacking the cotton plant. But nature itself appears to have intervened, for the finding of only dead worms caused belief that the cold weather predominating in the high altitudes did the killing. Some 400,000 acres in seven Texas counties were involved. A noncotton zone in the seven counties was contemplated, but prevented owing to wording of the Federal act appropriating the funds.

"Clean-Up Has Result" "The State and Federal departments, however, applied a rigid clean-up campaign. As a result only one infestation was found in connection with the 1928 crop, and that in two cotton-bolls near Odessa. "The only cotton-free zone established was in Brewster county, where the infestation was unusually heavy, and where no cotton was planted there in 1929 and the agencies are awaiting with interest a search to ascertain whether the pest has reappeared. Cold weather has also aided in the fight in the El Paso Valley, New Mexico and Arizona.

"The chief purpose of establishing a cotton-free zone in Brewster county was to prevent spread by flights from that area. But the Secretary of Agriculture points out, the whole region borders on the Mexican frontier, and naturally would be subject to reinfestation annually from that country. The department is of the opinion that the only way to meet the situation is to maintain something like permanent cotton-free zone in the border area until Mexico can cooperate with such zone on both sides.

of the Rio Grande river for simultaneous clean-up. "All of the area in West Texas, New Mexico and the area which are still invaded by the pest are under quarantine restrictions requiring the disinfection of cotton seed at gins, fumigation and compression of lint and linters, supervision of oil mills and the maintenance of road stations to prevent untreated material from being taken out of the infested areas. The department expresses belief that these precautions appear to have prevented spread of the insect to new locations."

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
To the Sheriff or Any Constable of Mitchell County:—Greeting:

You are hereby commanded, That you summon, by making publication of this Citation in some newspaper published in the County of Mitchell if there be a newspaper published there, but if not, then in a newspaper published in the nearest County to said Mitchell County, for four consecutive weeks previous to the return day, hereof, Luemon Bassham, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Mitchell, at the court house door thereof, in Colorado, Texas, on the seventh Monday after the first Monday in January, A. D. 1930, the same being the 24th day of February A. D. 1930, then and there to answer a Petition filed in said Court, on the 9th day of December A. D. 1929, in a suit numbered of the Docket of said Court No. 5165, wherein Ola (Lee) Bassham is plaintiff, and Luemon Bassham is defendant. The nature of plaintiff's demand being as follows, to-wit:

Plaintiff alleges that during the time she and defendant lived together, as aforesaid, she was kind and affectionate toward defendant, was a dutiful and obedient wife, that during all the time she lived and cohabited with defendant as aforesaid, she had one child, to-wit: a girl three years old by the name of Letrease Bassham; that during all of said time she conducted herself with propriety, and managed the household affairs of her said husband with kindness and forbearance. But that defendant, disregarding the solemnity of his marriage vow, and his obligation to treat plaintiff with kindness and attention, within about one year prior to their said separation, commenced a course of unkind, harsh and tyrannical conduct toward her, which continued, with slight intermission, until they finally separated as aforesaid; that on divers occasions, while plaintiff lived with defendant, as aforesaid, he was guilty of excesses, cruel treatment and outrages toward her, of such a nature as to render their living together insupportable; that on or about the middle of December, 1928, while living in Lorraine, Texas, defendant cursed and abused plaintiff and called plaintiff a G—D—S—of a B— and told her he was through with her, that he cared nothing for her nor their baby and that she could go back to her daddy; that defendant did carry her back to her father and did leave her and the baby there; that later defendant came to her and she agreed that they would live together again; that his course of cruel, harsh and excessive treatment of her aforesaid, was more violent from that day thereafter and on or about the 25th day of February A. D. 1929, defendant called plaintiff a G—D—Common Prostitute and vagabond.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Colorado, Texas, this, the 11th day of December A. D. 1929.

Some of us around Colorado may be cause to complain of our lot in the year passing into history; could be human nature if we're not. NOT ALL GONE

It may be news to a good many people around Colorado to learn the date of the pioneering homesteader is still here, even though the old covered wagon has given way to the auto.

WINTER ACCIDENTS

The more disagreeable the weather and the more dangerous the highways the fewer our motor accidents. It is easily understood. Even the motorist who is addicted to "taking chances" drives more carefully when hazards face him on all sides.

FOR YOUR CONSIDERATION

In 1728 when Benjamin Franklin was 22 years old and when Philadelphia had about 7,000 population, Franklin and Hugh Meredith, an elderly and prominent citizen, stopped at the door.

FRIENDSHIP'S GREETING

Let's forget business and enjoy the Christmas cheer, looking forward to a profitable and prosperous New Year.

ADVICE STILL GOOD

Late in 1821 Stephen F. Austin led the first American settlers into Texas and located them in the lower central section of Texas.

NOW FOR THE CENSUS

It won't be long now until the census takers will be abroad in the land, counting noses to determine the exact size of Uncle Sam's big family and gathering statistics covering everything under the sun.

see him and Q. D. Hall get into a scrap.  
"J. H. Parker is another guy we wouldn't like to see Q. D. Hall whip. We can't do it ourselves, but he sure needs it. He's got nothing to do but talk, but when he talks he says something, not like some fellows who know. Talk all day and say nothing. Parker does not talk unless he has something to say.

I. K. Galey is getting independent. He has made lots of money lately and doesn't owe anybody, and he is getting to where he won't hardly notice us, but we made him get busy by threatening to chop his head off. He came in and paid up and liked it. Galey lives in town now. That is, he lives just outside the city on the Snyder road and has Jersey cows that make him a living. Good man and we are glad to keep him on the list.

Here comes another Buford man who is second to none. Jim Bodine. He's the "truckman" guy in the county. Jim Bodine has made plenty money farming an excellent truck. He has his place fixed up to irrigate a big patch and he raises more tomatoes and pepper than anybody. Jim Bodine got clerking in a store a few years ago and went to farming without a soul, bought his teams on credit, and today he is independently fixed. He did all this by raising his living at home and having a surplus to sell at all times. Good manager.

W. W. Anderson of route 3 is another man who is farming the right way. He sells eggs and dairy products enough to buy his groceries, dry goods and gasoline. He sold \$20 worth of eggs last week. He has about 200 chickens and two dairy cows. Farmers of this county would do well to follow the example of Mr. Anderson. He says he lives too far from town to bring in milk each day but that if Colorado could get a milk route started where a truck would come through the county and pick up each farmer's milk, he would keep more cows and sell more milk. That is the thing Colorado needs more than anything else," Mr. Anderson said. "Get a market for the dairy products and have a milk truck to go out and pick them up, and the property of this county is assured. Then the farmers will have money and not go in debt and have their crop snatched before they make it." He's right. But Anderson is doing well as it is and others could do the same.

Jim Hastings moved to Lamesa but he wants the Colorado news, and so he pays up and asks us to keep The Record going to him.  
T. H. Westbrook would have lost his head several weeks ago if he had not been such a good man. We would regret having to chop off the head of a man like him, but his subscription ran out in November and we had been worrying about him when he popped into the office Monday with a check for The Record, the Star-Telegram and Abilene Morning News. Talk about reading matter, now it is getting it. Three papers and all big ones. Well, Westbrook is a real man himself. He is president of the T. & P. Sunshine Singing convention, the Mitchell County Singing association,

and is known all over the country for his interest in music and singing.  
A. F. Bledsoe of Westbrook is another farmer who has the right idea. "This is the best cotton and maize country in West Texas, but the people here have got to raise more poultry, hogs and dairy cattle, to make a good go of farming," he said. "If those people can do so well with cows in that poor country east and south-east of us, what could we do here, if we tried? We could do well with these. The thing Colorado needs is to get a cheese factory and a market for milk. Get a milk route started to go out and gathering up the milk. Farmers will then get busy and keep some cows, and then will have money to spend," he said. Mr. Bledsoe last year bought a registered Jersey bull from the Lassiter Farms at Palfurris and paid \$150 for him. He is breeding up his dairy cattle and will soon have the best herd in West Texas. Already he has some of the finest heifers in this section and he'll pull her out from the Jersey King of Texas is the best in this section of the State. Bledsoe is going right and he will make it go. "I sure do want to see Colorado get a cheese factory, or something, because if the don't Big Spring or Sweetwater, is going to build one and come in here with a truck and get our products," he said. Mr. Bledsoe also brought in a check from W. F. Hagne for the Record and Star-Telegram. We thank both of those gentlemen.

Lon McGuire is a Mitchell county farmer, even though he lives across the line in Scurry county, near Inadade. Lon is one of the best men who ever came to Colorado. He was here Saturday and paid up for his paper. He owns a fine farm near Inadade, and also owns one in Fisher county. He is a brother of those McGuire boys living out towards Cuthbert, and that makes him a good one.  
J. Marvin Born rushed in Monday to give his head. He is another good man whose name and reputation saved his head. He would have been chopped off long ago if we hadn't known him. The name Born is good. No Born has ever failed to pay a debt or make satisfactory deals. Marvin came in and paid up for the Star-Telegram and Record and is now in good standing and a year ahead.  
G. W. Sweett of Westbrook is another good farmer of that section who wants the county news and he gets it in The Record. Mr. Sweett is one of the best men of that section of the county, and there are lots of them out there. We thank him.  
Others on route 1 who have paid up are J. M. Hamrick, H. W. Robertson, R. L. Gale and J. D. Foits. We thank all these. They are all A men whom we are glad to count as our friends.

W. A. Crowder of Colorado is another old timer whom we are glad to mark up. He has read this paper a long time. He is one of the best men in the city. A leader in the First Christian church and is a real fighter. He is bookkeeper at the Camp.

Salley, R. A. Norheim, Harry Pond, R. A. Hood, and several others down there make the community worth living in.

Our good friend W. A. Justice, a kid of only 83 summers and as many winters, came in Monday and paid up. He is one of the old-timers here and one who is loved better every year he lives here. He is the kind that wears—he gains more friends every year. Takes a good man to do that.

Judge J. N. Viles is the man who quit practicing law to farm. He wants it said of him when he dies, "Here lies an honest man," and that is what will be said of J. N. Viles. He is one of the best men who ever argued before a jury or raised a Red Jersey hog. Judge Viles has raised some fine boys and girls, too. They are the cream of the country and making good, and old dad put up to help them through college.

Our good friend George Bynum came in Monday and brought a check from J. W. Costin for \$2.50. Mr. Costin is ill at the Knox hospital. Mr. Costin couldn't come in so George Bynum, the good neighbor, that he is, offered to bring the check along and tell us "What's what?" George Bynum is a good man but he is the ugliest man in the county—that is, some say he is and some say we are. B. Bynum is a good one though.

A letter from C. W. Simpson of Palacios, Texas, says: "To keep from being headed I hasten to send you herein \$1.00. Many thanks for the notice. Hope to see you down in February." C. W. is a former Coloradoan who has retired and is building in the gentle sea breezes on the Gulf and catching trout, Red Hare and fresh oysters. He invites us down to enjoy the fishing with him.

Herbert Walden, with the Texas Company agency here, is another fine young fellow who wants to keep up with the news and pays up to save his head. Walden owns his home in Highland Park addition, east of the high school, and is a real citizen.

Bert Smith came in Tuesday and paid up. He got afraid of losing his head. Bert is one of the best fellows in the world. He is a hard worker and is a consistent worker in Sunday school. He is assistant superintendent of the Methodist Sunday school and has been for several years.  
J. E. Chase brings in a check to give his head. He is a former preacher who is making good at actual work. He is part owner of the Colorado Construction Co., which firm has built some of the finest buildings in Colorado. This firm also handled construction of the new Col-Tex Refinery addition last spring. This was a big job and called for lots of bookkeeping, which Chase did.

R. A. Powell was here from Beeton, Lubbock county, and came in and paid up for The Record and said he certainly did not want to be without the paper. He and his brothers, Bryant and G. C., own land up there. R. A. has 200 acres and said he made a fair crop, this year—good wheat and good raw crop, fair cotton. He is well pleased with the Plains.  
D. C. Russell, zandy man, rushed

in Monday and paid up to save his head. He was not in danger but he believes in paying cash in advance and not getting in debt, and we are glad he feels that way about it. Mrs. Russell is principal of the Primary school here and makes the living, while D. C. makes something to lay aside. Thanks!

### SEVEN CANDIDATES FOR GOVERNOR SAY OPPOSE BOND ISSUE

Answers received by The Press showed one candidate for the State bond issue and seven opposed. Summary of their views is as follows:

**Thomas B. Love:** Highways question must be made an issue. Favors continuance of four-cent gasoline tax but does not think it sufficient for building rapidly all State highways needed.

**Barry Miller:** Can not see the wisdom or justice of imposing long-term, interest-bearing bonds upon the taxpayers. No necessity for even discussing the question; the enactment of the four-cent gasoline tax would solve the problem.

**Earle Mayfield:** Highway question is and will be an issue in the campaign. Would be an act of stupidity to vote bonds for securing

ample funds to complete the State highway program, making such a bond issue unnecessary?

**James Young:** Road money now acquired from gasoline taxes aggregate staggering sum. Unalterably opposed to a State road bond issue.

**E. G. Senter:** Against any and every proposed State bond issue. A four-cent gasoline tax itself will promote extravagance. Give us no more burdens.

**Fred B. Robinson:** A State bond issue for highways would be overwhelmingly defeated by the people. Against it and thinks gasoline tax should be reduced.

**James E. Ferguson:** Special interests behind the State bond issue will keep it alive. A three-cent gasoline tax will take care of any reasonable and orderly road construction problem. A State bond issue would be ridiculous.

\$30,000,000 a year to spend over a 10-year period when we will have available \$60,000,000 yearly without bonds.

### WEEKS WITHDRAWS FROM RACE FOR CONGRESS SEAT

W. D. Weeks of Van Horn, who last week announced his candidacy for congress from the 16th congressional district to succeed Claud Hudspeth, has withdrawn. He wired the El Paso Post Thursday that "unforeseen developments make it necessary for me to withdraw."

His announcement was first considered a prank of some school boys and was a surprise to his townsmen. A telegram to Weeks asking about his candidacy was answered by a wire signed "S. K. B.," but further identity of the sender is unknown.

### Abilene Housewife Gives Statement

Suffered Two Years From Stomach and Digestive Troubles

No extravagant claims are made for Orgatone, the new stomach preparation now being introduced here, but that it will restore your system in a perfect state of health if suffering from stomach, liver or kidney trouble this is backed up by statements of local people who have used this treatment, and are loud in the praises of it. Below is a statement made by Mrs. S. M. Cocher, of 1123 N. Seventeenth, Abilene, Texas.

"For over a year I have been in a very bad condition from stomach

and digestive troubles. For about a year everything I ate soured and formed gas. I had pain and cramps in my stomach that would make me miserable for an hour or two after every meal. I was very bilious and dizzy and had severe headaches. I was weak and nervous and was in a general run-down condition.

"I heard so much about Orgatone I decided to try it and before I had taken one bottle I felt greatly relieved and since I have continued to take it I feel perfectly well and never felt better in my life. My stomach is in fine shape and I can eat anything I want and never suffer with pains and cramps like I used to. My dizzy and bilious spells are gone and I haven't had a headache since taking Orgatone. I'm not nervous as I was and I sleep fine every night. Orgatone is a good medicine and it has certainly helped me and I know it will help others who give it a fair trial."

Genuine Orgatone may be bought

in Colorado at the Colorado Drug Store.

## Farm With Farmalls

The primary object of farming is to produce at a profit—not perhaps for the profit alone, but because any work accomplished at a profit is an indication of success. Farm profits are not always based on the price received for the products, but rather on the ability to produce at less than the selling price.

Slow and expensive animal power and increased cost of labor are two of the obstacles in the way of a sufficient margin. Other industries have successfully replaced these expensive items with mechanical power to a marked degree and the same practice is proving highly successful in farming.

The Farmall is fulfilling the long-hoped-for prophecy of farming without horses or mules. Today, many farmers in every state are doing all their farm power work with the Farmall and scores of others are disposing of their remaining horses after one season's experience with the Farmall. Horseless farming is now a reality.

The Farmall is different from other tractors. It was designed primarily for the planting and cultivating of row crops. It does that and in addition does all the work done by any type of tractor of equal capacity. This all-year, all-crop, all-purpose tractor replaces 6 to 10 horses and 2 to 3 men in all farm power operations. It enables one man to intensively farm up to 200 acres. That is why Farmall owners hold the steering wheel of successful farming.

The Farmall is the result of over twenty years of tractor building and nearly a century of manufacturing experience. It is backed by the International Harvester after-sale service through 92 Company-owned branches and thousands of dealers.

But it is not enough to see the Farmall or to watch it operate. It is necessary to get on the seat and operate the Farmall in order to experience the thrill of tractor power that plants and cultivates corn, cotton, and other row crops at the rate of 50 acres a day. See McCormick-Deering dealer for a demonstration.
