PRESIDENT URGES UNITED ACTION IN DRIVE TO PULL AMERICA OUT OF THE RUT

Radio Address Heard Monday Night By Coloradans, Is Couched In Optimism

In a message broadcast to the American people Monday night President Roosevelt called upon all employers in the nation to put into immediate effect the voluntary code for shortening working hours and elevating wage levels. The address, delivered between 8:30 and 9 P. M., was heard by a number of Colorado people.

Summoning the country to a quick and determined attack upon depression, the president announced his purpose to keep posted in every postoffice in the country a roll of honor, listing names of all citizens who join the administration in the chamber of commerce.

drive to restore stability. "I ask," he said, "that even before the dates set in the agreement which we have sent out, the employers of the country who have not already done so—the big fellows and the little fellows—shall at once write or telegraph to me personally at the White House, expressing their intention of going through with the plans. And it is my purpose to keep in every postoffice of every town, a roll of honor of all those who join with me."

Praising the cooperation so far given to the attempt for American industry to spread work and increase wages, the president said he recognized that a few men might try to thwart "this great common purpose by seeking selfish advantage."

Pioneer Colorado Women Enjoy Visit In Town

On Thursday of last week a big car with a California license drew up before the Alamo hotel and two ladies entered telling Mr. Keathley that their parents had kept the hotel and they would like to go upstairs and look around having been away from Colorado almost 40 years.

They were Lillian Morris, now Mrs. John Champ of Ft. Worth and California and Jessie Morris, now Mrs. Durette who lives in Austin and California. The oldest sister May, Mrs. Theo Schuster also lives in California.

Mr. Keathley phoned Mr. and Mrs. Robert Terrell who came to the hotel at once and took the two ladies to see Judge Earnest, Dick Pearson, John and Will Doss and Charlie Lasky.

They went to the Methodist church where Lillian was married and where she had sung in the choir with W. L. Doss directing. They went by to see the school they had attended. The building is now occupied by Tommie Dawes.

Many old timers will remember the Morris family and their part in building Colorado and the short visit of these two women proves that Colorado people always return.

This was one of the many entertainments given the Robinson family during their visit here. They left Monday for their home in Philadelphia.

Appetizing Menus For Hot Weather Are Offered To Readers Of This Newspaper

Attractiveness of the table plays an important part in staging an effective meal. Choose an exceptionally appetizing dish and make this your center of interest. If it lacks color it may be garnished appropriately, and this will bring out the color scheme more effectively. Some of the garnishes which are often used are paprika, cloves, parsley, cherries, and mint. Cheese and lemon may also be used to advantage. Two aims may be accomplished by using garnishes: First, they may be used for flavor; and second, for decoration. The following menus show how much more attractive and appetizing a meal may be made by introduction of a little color:

Breakfast: Cantaloupe, cereal, cream, sugar, scrambled eggs, whole wheat toast, jam, coffee, or milk.

Luncheon: Split peas en casserole, with paprika, red salmon with lemon, wafers, sliced tomatoes, pickles, pineapple salad, lettuce, iced tea with mint.

Dinner: Consomme, saltines, broiled steak, gravy, potato apples, fresh corn, celery curls, parker house rolls, iced tea, cantaloupe with vanilla ice cream.

Breakfast: Chilled tomato juice, oatmeal, cream, waffles, bacon, syrup, coffee or milk.

Luncheon: Asparagus pisa, cheese, string beans, corn bread, congealed pea salad, lettuce, iced tea.

Dinner: Fried chicken with parsley, creamed cauliflower, gravy, corn bread sticks, spinach de Luxe, fresh peach salad, lettuce, tea or coffee, orange ice.

POTATO APPLES: 2 T butter,

1-3 c grated cheese, 1/2 tsp. salt, 2 c hot riced potatoes, pinch nutmeg, little cayenne, 2 T heavy cream, 2 egg yolks. Mix the ingredients together and whip until light. Shape in the form of small apples, roll in flour, eggs, and bread crumbs. Fry in deep fat at 385 F. and drain on an absorbent paper. Insert cloves at the stems and blossom ends.

ASPARAGUS PISA: Boil asparagus in salted water, drain thoroughly. Serve on buttered toast and sprinkle generously with grated cheese. If the heat of the vegetables does not melt the cheese, put it under the flame for a minute.

SPINACH DE LUXE: 3 lbs. spinach, 4 strips bacon, 1-3 c butter or margarine, 3 tsp. salt, 1/2 tsp. pepper. Dice the bacon fine and brown lightly in the bottom of a large heavy kettle. Then add the spinach, which has been cleaned thoroughly, drained of water, and chopped fine. Add seasonings and butter. Cover and cook over a low heat until the spinach is tender. Any excess liquid may be removed and used for soup or gravy or may be served with the spinach.

SPLIT PEAS EN CASSEROLE: Soak overnight in cold water 1 pt. split peas, 1/2 tsp. baking soda. Cook slowly 2 hours, then drain. Mix together 1/2 c cooked rice, 4 finely chopped onions. Add to above mixture the peas, 2 c tomato pulp, 1/4 tsp. curry powder. Add salt pepper and paprika to taste. Thicken with 1 T flour to 2 T water. Place in individual casseroles and bake in a moderate oven 375 F. for about 45 minutes.

WCTU LEADERS MOVE TO MEET ISSUES OF REPEAL ADHERENTS THIS COUNTY

Every Woman In Mitchell Is To Be Contacted Under Organization Plan

Sunday afternoon at four o'clock at the Methodist church a W.C.T.U. meeting was called by the president Mrs. Barcroft. Mrs. A. D. Kiker acted as secretary.

After a devotional the president stated that she was asked to name a woman in each voting precinct to distribute literature and inform their neighbors on the coming election. The women were selected and it is planned to have a mass meeting of these workers as soon as Mrs. Barcroft receives the materials for their work. These women are to work with the Mitchell County Prohibition forces of which U. D. Wulfjen is head.

It is the hope of the officers to personally carry the word to every woman in Mitchell county before August 26 and to show them the need of voting against repeal if they would save their homes and their children from the curse of intemperance.

Mission Study School Entertained Tuesday

The teachers in McCall Mission were entertained Tuesday in the home of Mrs. Roger Hinds. Those present were Mrs. Garrett, Mrs. Costin, Mrs. Ed Womack, Mrs. Glover, Mrs. Miller and Miss Lois Key. Mrs. Claude Womack was a guest. They decided to have their moonlight picnic Thursday night and to meet once a month and invite speakers from other adult classes.

CHURCHES

First Baptist Church
We are entering the second week of our meeting here with the old home church. We are preaching to the largest crowds it has been our privilege to preach to in years. It is a great joy to be here with the friends of childhood and note the spiritual progress most of them have made. The visible results of the meeting have been good and we are expecting many others before the close.

It is our intention to be in the pulpit at both hours at home next Sunday. We are accepting no other outside service that will take us away from the work at home for the next several months.

Let me remind you again that our meeting is to begin Sunday, August 6. Fuller announcements about the meeting will be made later. We are

Cotton Plow-Up

(Continued From Page One) days ago they were interested in rendering the best of attention to. "An amusing incident having to do with all this plow-up campaign...

Every provision of law governing destruction of the cotton prescribed in contracts must be complied with by the producer, members of the committee pointed out Wednesday afternoon. The cotton is to be destroyed under methods outlined by the farm agent. After the crop has been destroyed the producer should sign the producer's certificate of performance form, supplied by the committee. Two witnesses should sign the instrument with him and the sheet delivered to the local committee.

A member of the local or community committee will then visit the farm and personally inspect land covered by the producer's certificate of performance. If the local committee finds, after such inspection, that the producer has completely destroyed the cotton specified in contract, in manner as prescribed by the county agent, such information will be filled into contract and reported to the central committee.

After that the cotton has been destroyed and the acreage replanted to feed, the farmer should patiently wait for further instructions from the central committee or from Washington, direct, Foster stated. Producers not signing emergency permits should not destroy the cotton until so authorized by the proper authorities, he warned.

Remittance checks should start moving to the producers early in August, the farm agent went on to say. He is confident that speed, along with efficiency, will continue to dominate policy of Secretary Wallace in directing the drive from his office in Washington.

Famous Highway Closed

MEXICO CITY, (UP)—The Pan-American highway from Monterey to Mexico City will be impassable to motor traffic until the rainy season ends next November or December, according to observers who have inspected the road recently. It had been hoped to put it in satisfactory shape for American automobile tourists use this Summer.

Under the handicap which the rain imposes, construction work is proceeding steadily. Approximately 30,000 men are employed.

The increasing popularity of Monterey among motorists from the southwestern states of the United States is an indication of the number who probably will visit Mexico City once the highway is completed. The road from Laredo to Monterey is hard-surfaced.

Meanwhile, the communications department has announced that other trunk highways will be constructed as quickly as the government, in cooperation with the states affected, can supply the necessary funds. In order to increase the mileage of the other proposed highways, the standard width of paving has been reduced from 18 to 12 feet.

Wright left for the Capitol in response to a telegram from Senator Tom Connally. Wright formerly lived in Colorado.

STATE FAIR BRIEFS

Many rare collections of both domestic and foreign stamps will be seen in the stamp exhibit which is being arranged for the 1933 State Fair of Texas by the Dallas Stamp club. Cooperating with the Dallas club will be the state organization. Several very rare collections of stamps are owned in Texas and parts of these collections will be placed on exhibit. The stamp exhibit will be in the Main Exhibit building.

There are 285 sawmills in Texas, which in 1931 produced a total of 750,000,000 board feet of lumber, most of which was Southern Pine.

Texas is the 4th State in the union in the production of Southern pine, and ranks 7th in the nation in the production of lumber.

Space has been allotted to the producers of Southern pine in the State Fair exhibit.

In 1932 there were 17,000 workers employed in sawmills of Texas and drew wages amounting to \$14,000,000. The lumber crop of that year brought \$45,000,000 into the State.

DALLAS EDITOR SPENDS VISIT HERE WEDNESDAY

W. A. Merriam, managing editor of the Dallas Times-Herald, accompanied by members of his family, spent a few hours in Colorado Wednesday while repairs were being made to his motor car. Enroute home from a vacation trip in New Mexico he burnt a bearing while driving west of Colorado Wednesday morning.

MORRIS SHEPPARD WILL FIGHT REPEAL IN TEXAS

Senator Morris Sheppard of Texas, one of the authors of the 18th Amendment, has announced he will wage an aggressive campaign against repeal. The Senator is to open his speaking campaign at Hughes Springs and Texarkana August 1. Sheppard plans visiting West Texas and local drys will attempt to interest him in making an address in Colorado.

WILLIAM COWDEN, WELL KNOWN TEXAN, BURIED

William H. Cowden, 80, well known among pioneer cattlemen of this and other West Texas counties, died at San Antonio Thursday. Burial was in Midland, where for many years he had been identified with the cattle and banking interests of that section. Cowden was president of the First National Bank at Midland from 1890 to 1924.

LORAIN REIVAL WILL CLOSE SUNDAY EVENING

Good attendance and wide interest continues to feature revival meeting being held at the Loraine Methodist tabernacle, with Evangelist Frank M. Neal doing the preaching. The meeting is to be closed Sunday night. Song services are being directed by J. B. Bruce and Philip Smith. Rev. J. E. Harrell is the pastor.

QUAIL ABOUND IN ALL PARTS OF THE COUNTY

Quail are more plentiful just now than for a number of years, E. Barber, deputy game warden, stated while in Colorado Saturday from his home at Spade. "I have never seen more of the game birds in this country," Barber declared. "They are everywhere, due to most favorable conditions for hatching during the Spring."

Familiar Scene as Destroying Cotton Begins

This will be a common scene all over Texas this week, as farmers begin to plow under more than 4,000,000 acres of cotton in compliance with the Federal Cotton Reduction program. About one-third of the cotton now standing in Texas will be plowed under. The Texas farmers will gain approximately \$40,000,000 from the government by this procedure, inaugurated to do away with the great national cotton surplus and raise cotton prices.

SINGING TO BE HELD

The Fifth Sunday singing will be held at the M. E. church the 30th day of July beginning promptly at 2:30. There will be plenty of new books on hand and we are expecting some good out-of-county singers to be here.

Come and enjoy some good singing. Everybody invited.

METHODIST CHURCH NOTES

Sunday school was well attended. The lesson was a great message on Temperance and was brought to the classes teaching us to be temperate in all things.

At the 11 o'clock hour Rev. Neal brought a stirring message to the lost church members. He has brought us the most wonderful and stirring messages during the week. You who are missing these services are missing a great blessing.

Prayer meetings will be held each afternoon this week at 1:45 o'clock.

We urge every one to come and hear this man of God as he brings us the word of God from time to time.

BAPTIST CHURCH NOTES

Sunday school was well attended Sunday morning and the lesson enjoyed much. We urge each member of each class to be there each Sunday. You don't know how you are missed. No one can fill your place. Everybody attended the Methodist revival at the church hour.

Our pastor—A. C. Hardin is in a revival at the Pleasant Hill Baptist church, five miles north of town this week. Some members of this church are attending the meeting. Monday evening was a great time for that community with an old fashioned revival service and a number of conversions.

There were 34 in B. T. S. Sunday evening. Interesting programs were rendered in all the unions. The Senior union had five daily Bible readers and the Junior union three. The Seniors won the banner. Our B. T. S. members will meet with the Methodist prayer services next Sunday evening.

Sunday school lesson is found in Judges 6 to 8.

BAPTIST W. M. S.

The Westside Circle met with Mrs. J. A. Martin Monday afternoon. Devotional was opened by singing "Take My Life and Let It Be." Mrs. B. F. Trout led a devotional on "The Birth of Christ" and a woman's part in his life. The mission study class studied "The Noontide of Missions" and Mrs. Miller dismissed with prayer. Next meeting will be with Mrs. W. M. Mahoney.

ATTENDED FUNERAL

Mr. Roy Edwards accompanied by his son Marvin attended the funeral of his father A. N. Edwards who passed away at the home of his son J. M. Edwards of Strawn Thursday July 20th.

Interment was made at Greenville. Deceased was nearly 93 years of age and had been in failing

health for the past two years. He was known and will be remembered by many here where a few years ago he made his home with his son Mr. and Mrs. Roy Edwards.

'Red Tape' Delays Federal Building In Big Spring, Charge

After patiently waiting for two years for construction to begin on proposed new federal building at Big Spring, additional "red tape" may be injected to hold this much needed project still further in abeyance, the Daily Herald outlines. Construction bids submitted from a total of 13 contractors, recently opened in Washington, were all rejected due to excess of several thousand dollars above allowance for the building.

Architects are now revamping plans and specifications with instructions to omit such items as may be proper in order to bring estimated cost of the building down to within range of the appropriation.

FORD MOTOR CAR SALE RECORD REACHES HIGH POINT MONTH OF JUNE

DETROIT, MICH.—Sales of Ford 8-cylinder cars and trucks in the United States for the month of June exceeded those of June a year ago by 19.4 percent. It was the biggest month in 8-cylinder car sales since the Ford Motor Company began producing them over a year ago.

Another evidence of the growing popularity of the eight-cylinder car is reflected in the sales of Ford cars for the month of June in Wayne County, Michigan. County registrations show that 2,555 Ford V-8's were delivered to customers during the month. This is an increase of 25 percent over the May sales. It is more than the combined month's sales in the county of the two nearest other makes.

BUSINESS MEN ROOST ON HIGH PEACH AS CLOSE OF CITY LEAGUE COMES NEAR

Series To End Friday, Next Week; Masons Won First Half Of The Play

The Business Men are holding down a commanding position in second half of the city league as second half of the series draws to a close. Final contest among the four league teams that for several weeks has occupied attention of Colorado fans, will be concluded at Westside Park Friday afternoon of next week.

It is apparent that battle for league pennant will be staged between the Business Men and Masons. The latter club won first half of the series. However, the Pearson aggregation does not hold a cinch in winning laurels of the last half. Col-Tex, playing in second, has won seven games out of a total of eleven played and the Business men, playing only nine games, have won eight. The Fire Boys, with nine losses chalked up against them, are in the cellar for keeps.

Col-Tex shut out the fraternal club Thursday afternoon in another of the interesting games staged during the series. The refinery club made three runs.

The Business Men won over the fire department Friday afternoon in a game featuring a number of errors. Runs for the Business Men were eleven with five made by the Fire Boys.

The Business Men won their second consecutive game of the week Monday in scheduled tilt with Col-Tex. The score was 9-5. Tuesday afternoon the Masons got away with eleven runs while their opponents, the Fire Boys, were chalking up a total of seven.

Advances in Oil Refining Result In Higher Mileage

Cars picked at random from the streets, lined up on Indianapolis speedway before starting four-day test of new high-mileage motor oil.

BECAUSE the average motorist is becoming more and more concerned with motor oil performance, the refining industry has recently been turning its attention to improved refining methods designed to meet the public's demand for better lubrication from the medium-priced lubricants.

For years the main problem confronting the industry was reduction of carbon deposits, and like matters, but today the important problem is how to provide better lubrication.

Very definite and satisfactory progress has been made along this line, as shown recently in mileage tests conducted at the Indianapolis Speedway under supervision of the Contest Committee of the American Automobile Association. These

tests showed that a new high-mileage oil, produced by the Gulf Refining Company, gives 28.5 per cent more miles to the quart than any of the other three popular, medium-priced oils tested against it.

The cars used in the test were low- and medium-priced autos picked at random from the streets of Indianapolis. Each car was run 450 miles with each of the four brands of oil, the test lasting four days, during which time each car covered 1,800 miles.

Oil consumption was carefully checked by contest officials of the A.A.A., and it was found that the new high-mileage oil was 28.5 per cent cheaper to use, the figure being an average based on the oil's performance in all the cars used in the test.

The following women brought fancy work and enjoyed a social hour with Mrs. Pond: Meses, Dave Womack, W. W. Jenkins, Carl Echols, W. R. Payne, O. L. Simpson and P. G. Fuller.

Buford Child Dies Tuesday Following Diphtheria Attack

Little Mary Ruth Payne, 7, daughter of Mr. and Mrs. C. D. Payne of Buford community, died at the family home Tuesday afternoon at 4 o'clock following an attack of diphtheria. The child complained of a sore throat Sunday night while attending church services with her parents. Monday morning her condition was believed serious and serum was administered by the family physician. The child sank rapidly until the end.

Funeral services were conducted from the Kiker & Son chapel Wednesday afternoon at 6 o'clock with Minister J. D. Harvey of the Church of Christ officiating. Burial was in the Colorado cemetery.

Surviving, in addition to her parents, are two brothers: Leo Payne, 21, and Johnnie Mack Payne, 14, and one sister, Mrs. D. House of Dayton, New Mexico, all of whom were present for the funeral rites.

Pall bearers were Huron Gist, Homer Moon, Russell Cosper and Vernon Minnick; flower bearers, members of the child's Sunday school class were Little Misses Dorothy Jo Simpson, Mary Beth Hastings, Mary Blanch Hooks and Pansey Hoover.

MOVIES

Following is a resume of pictures to be shown at the Palace during the coming week:

"Hot Pepper"
Motion picture devotees who are demanding the return of screen musicals will find enough music and dancing in the Fox comedy, "Hot Pepper," to meet their desires. It is the next feature attraction at the Palace Theatre. This picture depicts the latest adventures of the immortal Quirt and Flagg, the fighting and loving marries portrayed by Victor McLaglen and Edmund Lowe. Though they are no longer in uniform, they are still the same devil-dogs they have always been. They are night club owners and they dress in regal style. The night clubs are the playgrounds of beautiful women and tailor-made men, and entertainment in one of them is furnished by the flaming meteor Lupe Velez and a chorus of singing and dancing beauties. Lupe sings a new song and appears in a dance that is said to be sensational. This picture shows at the Palace Thursday and Friday, July 27 and 28.

"Whirlwind"
A real western holiday rodeo with all its attendant thrills and fast action is a feature of Tim McCoy's latest outdoor drama, "The Whirlwind," which shows at the Palace Saturday. Tim and his two pals return to Tim's home town to find the place in the midst of a Fourth of July celebration. Of course, they "Take it in." You see them in their efforts to cop some prizes at the rodeo and also in the adventurous time they have clearing the shame from Tim's name that has fallen to it through a lot of dirty work.

"The Woman Accused"
Recently the Liberty weekly magazine published as a feature serial "The Woman Accused." This story was written by ten of the world's foremost authors. It took the ten authors two months to write this story—it comes to the Palace on the screen in a feature film by

the same name. The manuscript of the story started with Rupert Hughes in Hollywood and ended with Sophie Keer in Hollywood. Meanwhile, it crossed the continent six times, going successively to Vici Baum, Zane Grey, Vina Delmar, Irvin S. Cobb, Gertrude Atherton, J. P. McEvoy, Ursula Parrot and Polan Banks. The featured players in this picture are Nancy Carroll, Cary Grant, Lona Andre and John Halliday. This picture shows at the Palace for two days only, Sunday and Monday.

"From Heaven to Hell"
The Palace has booked for its special bargain nights a picture that will interest the whole family. It is from "Heaven to Hell." The picture consists of drama and cleverly developed suspense as its sustaining motif. The locale is a little hotel in a town which is the site of a famous racetrack classic. The cast of characters is a large one, all of whom are well known actors, the most of whom are stars in their own right. The various principals have gathered at this hotel to bet on the race. Back of the actual "stakes" with which they bet are the "stakes" of each individual. Some bet, so that others may have a stake for some venture, some bet to save others from some disaster, some bet to save themselves from disaster, such as a term in the penitentiary; others bet just for the love of betting. All of them bet for some certain reason and none of them for the same reason, yet all are vitally interested.

Bring the family Tuesday and Wednesday—It's Bargain Nights, "Lawyer Man"

The Palace Theatre has booked as a special attraction for Thursday and Friday, August 3 and 4, "Lawyer Man," featuring William Powell and Joan Blondell. This is a Warner Brothers Special and owing to the fact that it comes on next Thursday and Friday, we ask you to watch next week's paper in this column.

Reg'lar Cowboy

Here is Boss Stavelly, aged 7, of Fluvanna, Texas, who is a regular cowboy, boots, spurs and all. Boss has smoked since he was a year and a half old and it has never made him sick. He can build up a smoke screen big enough to hide his small self in no time.

MANUFACTURERS TO SHOW AT DALLAS STATE FAIR

DALLAS, TEXAS—Texas manufacturers, of which there are 750 major ones, will again be featured in a Texas Manufacturers Show at the State Fair of Texas, it has been announced here by Holmes Green, who will direct the exhibit. The manufacturers show will be staged in the Main Exhibit Building, where it was held in 1932. However, more space has been allotted the exhibit for the 1933 exhibit.

There were 125 Texas manufacturers represented in the 1932 display. Arrangements have been made for more than 300 to show their wares at the 1933 exposition, and from early indications all space

will be filled for the show. Almost half of the entire building has been set aside for the manufacturers. Entertainment programs are being arranged and will be staged as the center of the exhibit. These programs will be presented several times each day. In addition to the programs several concerns are building their exhibits around live models, according to present plans.

Bicycle and motorcycle races which are now being held each week on the new fifth of a mile, flat surfaced track in the State Fair stadium, will be held on each night of the 1933 exposition, when there is no football game being played, according to present plans of the Dallas Cycle Club.

FARM LEADER SAYS SUCCESS ASSURED COOPERATIVES

'SUCCESS IN AGRICULTURE MUST COME THROUGH OUR UNITED EFFORTS,' MOSER

Cooperative Leader, Speaker At Rally Held Here On Friday Afternoon

The big problem in agriculture, solution of which will surely bring prosperity to the farmer is collective effort and not manifestation of an interest couched in individual aims...

The cooperatives have cut down spread between the cotton farmer and mill to such an extent that this feature alone should influence every producer to give his sincere aid to the organization...

Mr. Moser stated that he did not believe the government would take cotton out of production in 1934, in response to questioning by a farmer present...

Mr. Moser was introduced by Tommy Carswell, manager of the Abilene Chamber of Commerce...

Grandchildren Of Mitchell Farmers To Discuss Plowing Up Of Cotton In 1933

The grandchildren of Mitchell county farmers who this week are plowing up cotton acreage will talk about the great event of "1933" one by one in a statement issued at College Station the other day by O. B. Martin, director of the Texas Extension Service...

things the Extension Service has been working for. The present emergency makes it possible to travel further toward these ends in one year than would normally be possible in 10 years...

'LIONS OF AMERICA KNOW ABOUT COLORADO THROUGH LIONISM,' PREXY STATES

Mills And Cantrill Tell Of International Meeting In St. Louis Recently

"Upon arriving in St. Louis to attend Lions International convention last week we did not have to tell delegates with whom we came in contact where Colorado was. They knew about this club and something of the community it represents due to activities sponsored by Lionism here."

Joe B. Mills, president of the Colorado club and a delegate attending the St. Louis convention, made that statement Friday in giving report of the meeting...

R. H. Cantrill, the other delegate representing Colorado Lions at the convention, spoke interestingly of special features on the convention program...

"The Lions Club is much larger than I had ever anticipated," he said. "When I was informed in St. Louis the other day there were over 80,000 Lions in many parts of the world, each striving to render constructive service to the communities in which they live..."

'PROTECT CHILDREN FROM DANGERS OF DIPHTHERIA,' PLEA OF STATE OFFICIAL

Director Of Child Hygiene At Austin In Warning To Local Parents

Parents of Mitchell county children of six months old and over are reminded of the dangers of diphtheria in communication received Monday from Dr. H. N. Barnett, director of the bureau of child hygiene...

In discussing fatalities from diphtheria and the effectiveness of immunization, Dr. Barnett said:

"In the use of toxoid we have an agent that will give passive immunity to the disease; still 812 persons died last year in Texas from diphtheria. Two thirds of all cases occur before the tenth year and approximately eighty per cent of the deaths from this disease occur between the ages one to five years."

"It is a treacherous disease. The first symptoms are so indefinite that the mother can easily overlook their presence. It is necessary even for the physician to look closely for the signs of diphtheria in order to discover them as the child does not necessarily complain of pain in the throat..."

"This is a special appeal to the parents of Texas. If you have children between the ages of six months and twelve years, who have not been immunized against this dreadful disease, have them protected by the injection of toxoid. Parents who know that it is now possible to prevent diphtheria and nevertheless fail to have their children immunized, take a great responsibility on their shoulders..."

'Travel Bureau' Racketeers Put On The Spot By State Highway Patrol Official

BIG SPRING.—Lieutenant J. B. Draper, San Antonio, state highway patrol, joined Sheriff Chris P. Fox of El Paso in saying that the "travel bureau racket" will be combatted in this region.

Fox said Sunday he would make a test case of the next complaint received against El Paso travel bureaus. Draper said the practice of dumping passengers was becoming so prevalent in this section that his men would take steps to remedy the situation.

Common practice of unscrupulous

drivers is to dump passenger in one town and rush to the next and pick up another load.

Because New Mexico requires a state license to drive through that state, drivers purposely equip the car with only Texas licenses. When stopped by officers, the driver appeals to the passengers who must pay for a license or be stranded. Complaints are being registered in this section almost daily and Draper said highway patrolmen are going to prosecute drivers guilty of dumping passengers, in some cases of taking baggage.

'BIG JIM' CANTRILL WILL NOT ATTEND SCHOOL FOR COACHES AT TEXAS TECH

Local Mentor, However, On 'His Toes' As Eve Grid Season Draws Near

"Big Jim" Cantrill, mentor of the Wolves, stated Tuesday afternoon that his plans would not permit him attending annual school of coaching to open at Texas Tech, Lubbock next Monday. The Wolf mentor, however, will be busy with last minute plans for marshaling a potential Class A grid marching with opening of school in September, hopeful that Colorado will send a much stronger machine into the district than last year.

Several men who started on the Wolf squad during the season of 1932-33 are to be back, while as many others, some of them among the best men Colorado high has claimed in several years, will be absent, due to graduation last Spring.

With the promising "timber" to be available through recruits and the return of several regulars, Cantrill expects to formulate an eleven calculated to bring additional credits to Colorado's athletic record. Just where and how he expects to make improvement over last year's defects, the big fellow has nothing to offer. Silence that dominated Cantrill in other pre-season days, continues to dominate him now.

Colorado fans will await developments with much interest. It is probable that the Wolves will be rounded up and given work-out tests before formal opening of school. This, however, remains to be confirmed or denied by the coach.

Progress Of Coop Organization Goes On, Daniels States

Organization of the West Texas Cotton Growers' association is making excellent progress, according to Clyde Daniels of Abilene, general manager of the association, who visited in Colorado Tuesday afternoon. Daniels was in Colorado to confer with Chamber of Commerce officials relative to pushing organization campaign in this territory.

"Cotton producers of West Texas have learned that profits are sure to follow their identity with such an organization as we are developing here," Daniels said. "We hope to build area membership to the largest figure ever known."

Rugged Stone Bath House at Swimming Pool Is Completed

The rugged stone bath house for use of bathers in Ruddick Park pool has been completed and placed in use. Two buildings, one for the use of men and the other for ladies, with a wide hallway between, underneath one large roof, add much to attractiveness of the park improvements.

City Sanitary Inspector Curry is giving the pool a splendid rating as to cleanliness, Jim Greene, Chamber of Commerce secretary, stated Monday. "The city is causing the pool to be inspected and the water tested every day and I am much pleased to announce every condition for sanitation is being met," Greene declared.

Water for the pool is being taken from well recently completed in the park. Greene stated that the well water was more acceptable for its purpose than that formerly used.

Midland Accepts That Defeat Here Last Sunday Afternoon Was Decisive Set-Back

Midland was given a jolt that is going to be hard to overcome in Sand Belt Golf tournament game at Colorado last Sunday afternoon, so the Midland Reporter informs its readers. Strong victory taken by Colorado in that game has rendered damaging effect to Midland's hopes of reaching end of the series as pennant owner. The Midland newspaper goes on to say:

Midland had one of its most disastrous sports days Sunday, with the Sand Belt Golf association club losing a crushing 30-10 match with Colorado, the Kat Klav Golf league dropping a 28-12 round with Seminole, and Dr. David M. Ellis' Indians coming back from McCamey on the small end of the score.

More significance is attached. By losing at Colorado by the greatest margin suffered since the reversal at the hands of Texon three years ago, when Midland played its first match in the Sand Belt, the locals seem automatically ousted from possibility of winning the association. Big Spring, the co-favorite to win seems to have the inside track with Midland almost certain to win second, according to the dopesters.

C. L. Jackson was the only member of the club to win an individual

match, beating the prime left hander, Bob Scott. Every foursome lost its low ball match. Because of the absence of Frank Day, who has moved to Amarillo, Don Sivalls, Harry Adams and Bill Bailey were shifted onto the Sand Belt ladder. Adams and Bailey came nearer winning than any other foursome, however, Adams losing on the 18th hole, Bailey on the 17th, and the low ball match being decided on the 18th.

Assumption that Big Spring will win the association is found not only in that club's lead in points, but in its remaining schedule. It goes to Lamesa and Stanton on its home links, and plays Snyder at Snyder.

Both Midland's remaining games are to be played here, but the former are Sweetwater and Colorado, which offer more point-splitting than the clubs to be played by Big Spring.

The upset at the hands of Colorado follows hard on the heels of that pinned on Midland Sunday by Stanton, when the Martin county aggregation slammed the locals from pillar to post and took a 24-16 margin. Again, Midland had to face competitive players with three club members out, Elliott Miller, Bill Moran and Don Sivalls. However, the inspired sharpshooting of the Stanton club likely would have been sufficient to have won by the same score as that it hung up, players here said.

FUNERAL HELD MONDAY FOR PIONEER RANCHER

L. H. Lewis, father of Mrs. Katherine Smartt, who made her home in Colorado for several years, died at his home in Floydada, Texas, Sunday at 7:30 A. M., from paralysis of the heart.

Mr. Lewis was a prominent pioneer cattleman of Floyd and Motley counties. Funeral rites were held at the home of Mrs. Smartt in Floydada, Monday at 2:00 o'clock, where several hundred friends gathered from all points of the plains to pay their last tribute to this beloved man.

The Record joins the many friends of Mrs. Smartt here in extending to her their sympathy.

Here's One Good Way To END AGONY OF NEURITIS

Newark Man Knows How and Loses 10 Pounds

"Gentlemen: I used Kruschen Salts to try and get rid of Neuritis from which I had suffered for one year in my left shoulder and arm. . . . I took a little of the salts in the morning, sometimes in my coffee, other times in water. I would also occasionally take a dose in water at night before retiring. For 3 months I used the salts and while I lost 10 pounds in weight, the pain in my shoulder HAS ENTIRELY DISAPPEARED. During the time I was taking the salts I received no other medical treatment so I am fully convinced the Kruschen Salts did the trick." C. K. Murray, Newark, N. J. Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—a jar lasts 4 weeks—get it at Crosthwaite Drug Co., or any druggist in the world—costs but a trifle. 3G-4

METHODIST CHURCH NOTES

Sunday school was not so well attended last Sunday as a good many were out of town. We hope to see more next Sunday.

Brother Lee brought us a good message at the eleven o'clock hour. Scripture lesson was 1 Thess. 5. Topic: "Hold Fast to Faith."

At 8 P. M. we met for our group meetings. All three groups were quite well attended. The Adult group is studying the Book of Genesis and are having very interesting lessons.

At the close of the lesson Brother Lee brought us another good message. Scripture lesson was Acts 17:22-34. Topic: Romans 1-16.

The Missionary Society met at the parsonage Monday at 4 P. M. The meeting opened with song. The scripture lesson was the 27th Psalm. Prayer was offered by Mrs. Gressett. Lesson on some of the work

the church is doing. Some business was attended to and we closed with our motto.

Those attending the meeting at Big Spring Thursday night to hear Brother Rippey were Brother and Sister Lee, Mr. and Mrs. Walter Wilson, Mr. Smallwood, Mrs. Walter King, Mrs. W. F. Hague and Mother Rowland.

A business meeting and social of the Adult group was held at Mr. Walter King's Thursday night with a good attendance. We had a good meeting and social. At the close of the meeting refreshments of cake and punch was served.

The Young People of the League had their monthly business and social meeting at the home of Mrs. L. E. Gressett, Friday evening. After a short devotional there was a business session which was followed by a social hour. A number of games were enjoyed and refreshments of punch and cookies were served. Several visitors were present.

Mr. and Mrs. L. E. Gressett accompanied a group of young people to Big Spring Saturday evening to attend the district young peoples meeting which lasted over Sunday. All reported a splendid meeting. Those attending were Emilee Ramsey, Ralph Ramsey, Rue McCarley and Thelma King.

CHURCH OF CHRIST NOTES

We had good attendance at Sunday school and Bible class.

Mr. and Mrs. Frasier of Colorado met with us Sunday. Mr. Frasier led in singing. We appreciate the Colorado church members very much and can't thank them enough for the interest they take in the Westbrook church.

car like CHEVROLET

There is only one type of body construction which Chevrolet will permit on the chassis of the cars it builds: That's the type which every test—and every experience has proved to be the safest, strongest, and best. Not steel alone, because steel alone is not enough. But a Fisher body of steel reinforced by hardwood! The very same kind of construction used on practically all the highest-priced cars in America.

If you're thinking of buying a new low-priced car, better watch this matter of bodies, and watch it carefully. Insist on steel reinforced by hardwood! Fortunately, the only low-priced car with this preferred type of body is also the only car with a proven valve-in-head six; with Fisher Ventilation; Cushion-Balanced Power; a Starterator. That car is Chevrolet—America's most economical automobile.

For the benefit of those who have something to can and will have a surplus be sure to get your canning equipment up to date. The scaler should be cleaned with gasoline and well oiled before using. pressure cooker should be looked over to see if the gauge is working correctly, the safety valve should be thoroughly cleaned and the little spring in good condition. If it leaks steam get a new one. The pet cock should be in working condition. Be sure before you go to can a product that you know the procedure as to preparation and time for processing, if you do not get a bulleting from the County Home Demonstration agent.

If you do not care to make jelly from your grape juice now is a good time to put up some grape juice. Pick the ripe grapes and wash. Mash them and drain so that you have a cold uncooked juice for canning. To one gallon of cold grape juice, add one quart of sugar thoroughly dissolved before cooking. Cook until the juice looks like it is going to boil, then bottle and put into jars and process for 15 minutes in a hot water bath. Seal immediately. Do not let the juice boil too long, or it will taste like cooked juice. Discard grape juice bottles, ginger ale or tomato juice bottles will be useful if you have a capper and new caps.

Cooperatives Meet

(Continued From Page One)
by Jim Greene of the local Chamber of Commerce. Carswell described Moser as the outstanding leader in agriculture in the south. The meeting was held at Union Tabernacle.

Resolution strongly commending the cooperatives and pledging continued support by the producers present was unanimously passed. The resolution, introduced by Roy Buchanan, Mitchell county member on executive board of the WCTGA, follows:

"WHEREAS, many cotton producers of West Texas have profited \$15 to \$20 a bale through the delayed payment of collateralization plan for seed loans; and

"WHEREAS, these loans were authorized originally through influence of the cotton cooperative associations, and the delayed payment and collateralization above market prices were also the result of the cooperatives' influence; and

"WHEREAS, the cotton cooperatives were largely instrumental in preparation and passage through Congress of the acreage control plan now going into effect, and turned over to the Federal Government the cotton through which the option feature of the plan was made possible; therefore

"BE IT RESOLVED by the cotton growers of Mitchell, Nolan and other counties here assembled, that we congratulate the 250,000 members of the cotton cooperatives upon the able leadership which they have supplied, and we pledge our support to them in further activity along the same line, particularly in preparing and carrying out a plan for control of cotton acreage next year, in order that the improvement in price obtained this season may be preserved and increased; and

"RESOLVED FURTHER, that copies of this resolution be forwarded to the Senators and Congressmen who have so loyally supported the program of organized agriculture."

Plant Broom Corn Where Cotton Will Be Plowed Up, Urge

In view of heavy reduction of the Southwest's broomcorn crop due to months of drought and intense heat in Kansas, Oklahoma, Colorado and Texas, Texas broom manufacturers

Road Building Program In Texas Will Mean Immediate Employment To Many

Plans of the Federal government to spend some 24 millions of dollars for highway construction in Texas means much toward relieving unemployment in this State. The Dallas News points out. The News says: "Approval by the Federal administration of \$24,244,024 in Federal expenditure for highway construction in Texas clears the way for an early start on projects which will result in the immediate employment of many thousands of men out of work. The Texas plan of spending part of the Government highway allotment in each of the 254 counties will have the result of relieving local unemployment in all.

The sum that the Government will spend in Texas is about half the normal annual expenditure of the State Highway Commission, including Federal aid, and approximately three times as much as the largest amount of the latter that Texas has had. But all of the allotted money goes into direct construction, with 50 per cent of it spent on cardinal Federal highways. The division of the remainder between work on Federal highways within city limits and

on lateral roads, never previously allowed, was recognized as a necessity, if much relief of unemployment was to be afforded.

"As a result of the new move, highway construction will be speeded up far beyond normal and the good roads program in Texas and elsewhere materially advanced.

"There is one drawback. By advancing the highway construction work so far, future work of this character will be curtailed. This was noted as a probability when the Federal government adopted two years ago the plan of making Federal aid advances to the State, the system partly responsible for present slowing down of highway work. That gap is filled by the emergency legislation which makes possible the program now under way. As this is a direct undertaking by the Federal government, future State work is not affected. Indeed, the States obtain a breathing space in which to catch up with already advanced Federal aid funds. Nevertheless any great amount of construction must pledge the future's share of road work.

For lighter sandy soils dwarf varieties known as Charley Miller No. 7 and Scarber are recommended. Seed can be had from dealers in Texas or Oklahoma. The State produces annually about 1,400 tons of broomcorn.

During 1931 (last year for which official figures are available), the broomcorn industry of the country consisted of 327 manufacturers. Value of their products was \$12,229,856, compared with \$18,704,571 in 1929. Household brooms led the list with a value of \$10,656,994. There were 3,948 wage earners in the industry with a pay roll of \$3,225,382 annually. There are twenty-five broom factories in Texas, of which two are in Dallas County and three in Tarrant County.

Some of the finest broomcorn in the Southwest has been grown in Dallas and surrounding counties in recent years, equal to Lindsay, Ok., product in quality, say manufacturers. This season the county expects to plow up some 43,000 acres of cotton whenever farmers have their contracts accepted by the Federal Government. Broomcorn might fit into the emergency situation because the crop is likely to bring a higher price than in recent years, and its grain and stalks can be fed to live stock as supplemental roughage.

Latest trade indications are that the United States broomcorn crop will not exceed 16,000 to 20,000 tons, compared with a ten-year average of about 52,000 tons. Last season's crop was 34,500 tons. Two short crops have helped to reduce the carry-over which on a ten-year basis averages around 52,000 tons. Last season's carry-over was 25,000 tons, this season's is estimated at about 10,000 tons.

Were times normal growers might expect as high as \$300 a ton, since the statistical position of broomcorn is considered stronger than for some years. In much of the drought areas of Western Oklahoma, Southwestern Kansas and Eastern Colorado farmers have not been able to plant their usual acreage. The Dallas section, being so far south, can still plant, provided sufficient rain falls soon. A crop planted as late as Aug. 1 on soil well supplied with moisture should mature in about sixty to seventy days, experts state.

Broomcorn grain and fodder can be fed to cattle and other live stock as supplemental feed. Its quality depends upon season, both as to broomstraw and fodder. In recent years some of the finest broomcorn has been raised near Royce City, Rockwall County, and Grand Prairie, Dallas County. Cost of production in this section should not exceed \$30 a ton where a yield of 500 to 600 pounds can be expected with a favorable season, say informed broomcorn men. State average yield is 300 pounds per acre.

For the heavy black prairie soils in this section the variety recommended is standard black Spanish.

see an opportunity for cotton farmers who are going to plow up a part of their cotton to plant adapted varieties of broomcorn as an emergency crop. Outlook is for a minimum of \$100 a ton to growers, possibly more as demand for broomstraw increases and business revives this fall.

It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills To Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Biliousness, Because They Have No Effect Whatever on the Liver or Its Production of Bile.

Bile is nature's laxative and your stomach and bowels require at least one quart of fresh bile every day to keep them clean, pure, free from fermentation, gas and disease germs. When your liver becomes sluggish the bile stagnates and stops flowing freely. The contents of your bowels become the breeding place for gas and poisons; your food decomposes—it just ferments and poisons the bowels. The blood absorbs these poisons and you suffer from constipation, gas, sick headaches, nervousness, nervousness and sour stomach. Sargon Soft Mass Pills relieve the cause of this condition in natural way. They are not like any other medicine you have ever taken. They are so gentle, thorough and natural

in their action that there is nothing about them to remind you that you have ever taken a medicine, and most remarkable of all you gradually reduce the dose until you no longer require a laxative at all.

Unless you have tried Sargon Soft Mass Pills you can have no idea of the effects produced by this natural cleanser of your liver and bowels. It makes you feel years younger, stronger, healthier and happier. It brings back life and color to faded eyes and cheeks, restores the appetite and normal digestion—gives you a new outlook on life itself.

Insist on genuine Sargon Soft Mass Pills. Don't be misled. There are only two generally recognized substances which will actually stimulate a torpid or sluggish liver to cleanse and purify itself by increasing its production of bile. Sargon Soft Mass Pills contain both of these substances.

fetters its victim and buries its poisonous fangs in their flesh. A paragon of egotism must be he who, upon taking an introspective view of himself, feels content.

Reflections To be surrounded by need, sorrow, pain and distress and then to say that one has fulfilled every duty, made good every vow, kept every promise, done all possible for the alleviation of the afflicted, such a one must be farther from Infinite Mercy than he who has never felt himself called upon to analyze himself and take stock of his heart and his actions.

A most gratifying reflection is that He who is to judge men's lives and deeds calls an effort successful when it has the right purpose in view, when we do our best to accomplish it, whether it be a success as man sees it or not.

Not failure, but refusal to try, is baseness, sin. Failure in a heroic effort to do a good deed is success in the sight of God, so far as he who makes the effort is concerned.

Genius, talent, capacity, qualification, are not given men to dwindle with. They are given us for use, but for use in good causes only.

Folly Ajax, defying the lightning, was prudence personified, discretion incarnate, a philosopher, a sage and here compared with him who defies the truth, spiritually, mentally, physically, economically, philosophically. Truth is the foundation of all that exists.

It is difficult to understand the perversity of man, when, knowing the utter impossibility of finding truth in falsehood, good in evil, or love in hate, he persists in trying to find pleasure in sin, peace in strife, and beauty in hideousness.

It is apparent instantly to any thoughtful person that mental and spiritual joys can never come from wholly material sources. The time comes in the life of everyone when indulgence in folly brings, forth its sorrow, when the fruit from the Tree of Evil crumbles to ashes, when the gaunt specter of Death, as he circles around us, makes his path closer with each succeeding journey.

We cannot take out of a thing that which is not in it. One cannot gather grapes of thorns, or figs of thistles. Things spiritual can not be derived from things material, and since happiness is derivable only from spiritual things, we are sensible when we seek it only from spiritual sources.

If there be one fact that is brought to our attention by experience and observation oftener and with continually added emphasis it is the very impressive and significant fact that we cannot do wrong and be happy.

Everyone who thinks at all seriously is conscious of this, and he knows why it is so. No fact of life is better known than that uttered by the great hero-Apostle when he said "The wages of sin is death."

On every occasion of the transgression of the Law, the Still Small Voice is there to warn and to demand restitution and repentance. And justice is there to demand retribution as well.

"Many sorrows shall be to the wicked; but he that trusteth in the Lord, mercy shall compass him about."

Roosevelt said: "Happiness lies not in the mere possession of money; it lies in the joy of achievement, in the thrill of creative effort. The joy and moral stimulation of work no longer must be forgotten in the mad chase of evanescent profits. These dark days will be worth all they cost us if they teach us that our true destiny is not to be ministered unto, but to minister to ourselves and to our fellow men."

Happy that soul who lives aright, And in God's rich promises believes; For when alone in death's cold night, Heaven's smiles beams like falling leaves.

SWEETWATER TURNS OUT TO FETE CITIZENS WHO MADE GOOD AT AUSTIN

DETROIT, MICH.—A decided increase in the use of eight-cylinder engines for haulage units is shown in the sale of Ford V-8 commercial cars and trucks in the United States since the first of the year. The increase has been most pronounced during the last two months.

The sales of Ford eight-cylinder commercial cars and trucks during June showed an increase of more than 60 percent over May. The production schedule for July indicates that of the total four and eight cylinder units to be produced during the month, approximately 75 percent will be eight-cylinder types.

Mr. and Mrs. Tom Hughes visited their aunt Mrs. Dawes in Big Spring Sunday.

Sweetwater staged a big celebration Saturday night. The affair was to do honor to George H. Sheppard, State comptroller; E. C. Brand, State banking commissioner; and V. Earl Earp, assistant attorney general, home town men who "had made good" under the capital dome at Austin. Several citizens attended banquet given on roof of the Blue Bonnet hotel in honor of the trio.

Sweetwater is not the only West Texas town to land a most generous share of political "pie" down at Austin. Snyder, too, has several citizens in official positions there.

Fred Hughes and Mrs. G. D. Younel of Ranger were guests in the home of Mr. and Mrs. J. T. Howell during the week end.

BE IT RESOLVED, that we acknowledge the wisdom of the Supreme Grand Master and bow with humble submission to the inevitable edict from the East. We mourn the death of our brother. He was for many years the Chaplain of our Lodge and a brother whose every example was worthy of emulation. He was a just and upright Mason, a useful citizen and a kind and obliging friend and neighbor, who always endeavored to perform every duty to his God, his country, his neighbor, his family and his lodge, honestly and well. May his passing remind us all that we too are traveling to that country from whose bourne no traveler returns.

BE IT RESOLVED, that in token of our sincerity, friendship and sympathy in the dark hour of this great affliction and as a pledge of our fidelity to the memory of our deceased Brother, we extend to the bereaved family, the Fraternal right hand of Free and Accepted Masons with the assurance that the Great Light given of God to man, will guide us and them safely to that Spiritual Building, not made with hands, eternal in the Heavens where we shall dwell together in peace and happiness forever.

Henry Ford Dearborn, Mich. IN ANSWER TO A LADY'S LETTER A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made. The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why? By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps. Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight. The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours. The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy. As to upkeep, our dealers say that in recent years the improved quality of Ford cars has out down their repair business 50 per cent. As to price with quality,—judge for yourself. As to economy, here is the record of a stock car three weeks out of shop in Oklahoma: On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles. That should answer a lot of questions. July 24th, 1933 Henry Ford

RURAL PROGRESS AHEAD

Success of the county home demonstration agent in interesting several club women to attend annual Short Course at A. & M. College this week is to be accepted with a deal of satisfaction. These women, considered leaders in their respective clubs, are in College Station to inform themselves as to approved methods in meeting many problems that daily confront the Mitchell county housewife. The advantages shown there will be brought back home and by these delegates passed on to others, gradually finding its way into many rural homes.

Work of both the home demonstration and farm agents in this county has become universally appreciated among the people whom they are employed to serve. Under leadership of the two agents farm progress is sure to continue here, along with a more acceptable home-life on the farm.

That honor still prevails in the Southland is indicated, so a Colorado man points out, in the news that a Baton Rouge, La., merchant recently received \$10 in payment of a debt 30 years old. The person who contracted the debt expressed regret on not being financially able to pay interest.

With checks pouring into the pockets of Mitchell county farmers who are plowing up cotton acreage should come better business conditions for every allied industry. Merchants will be sleeping on their rights who fail to go after new business right now. Somebody is going to get it.

Mitchell county farmers might realize more than the ordinary return in turkeys. The other day a Toronto man was cleaning a large turkey and found six gold nuggets in the gizzard. A mineralogist informed him they were worth a substantial sum.
