GAME LAWS OF TEXAS TO BE RIGIDLY ENFORCED, IS PROMISE BY LOCAL AGENT

Menace To Life, Livestock Will Be Checked, Barber Announced Tuesday

Wholesale arrest of persons charged with violation of the State game laws was promised here Tuesday afternoon by E. Barber of Spade, deputy game warden, after he made the charge that scores of Mitchell county citizens were openly disregarding the rights and liberty of citizens, much less acting in direct violation of the law.

Barber stated that he had filed complaints against some twenty-four hunters within the past few days. As a rule the complaints were based on charge the defendant had fired at game from an automobile or across a public road. Such practice is in violation of the law and must be stopped, he said.

"Hunters are racing over the public roads of this county, firing at dove from their motor cars without due regard of the rights of others," Barber declared. "I arrested a group of hunters right in front of my home the other day. They were driving along the road firing here and there. One man reported to me that hunters driving by his place shot at his home with shot, or some member of his family might have been injured.

"The practice has become so open and so dangerous to the public that I want to announce any person detected violating the game laws hereafter will be arrested," Barber requested cooperation of the public in curbing the practice of firing from a moving car, or along or across a highway.

Laws governing the hunting of game in Texas is specific and plain enough for any one to understand, Barber stated. He quoted, as follows:

Section 31 of the game laws of Texas specifically specify, "it is hereby declared unlawful for any person at any time and in any manner to hunt, take, capture or kill, or to attempt to hunt, take, capture or kill, any of the wild game birds, wild game fowls or wild game animals, protected by the laws of this State, from an automobile. Any person violating any provisions of this act shall be deemed guilty of a misdemeanor and upon conviction shall be fined in a sum not less than \$25, nor more than \$200."

Section 49 of the same law provides as follows:—"Any person who shoots or discharges any gun, pistol or firearm, on, in, along or across any public road in this State shall be fined not more than \$100."

TRAGEDY CLAIMS LIFE OF COLORADO BOY SATURDAY, BURIAL RITES AT SNYDER

Wendell Wren Fatally Shot By Bullet Fired From Playmate's Rifle

Tragedy stalked into the home of Mr. and Mrs. R. L. Wren Saturday afternoon to exact the life of their son, Wendell, 11, within a short time after the boy had been accidentally shot while playing with a group of friends near the northeast city limits.

Information given by members of the group indicates that Wendell and Maurice Watson were atop an old windmill tower, placing melon rinds at which three other boys were firing with a .22 calibre rifle. A bullet fired by Ernest Burdine went wild of its mark and struck the Wren boy in the right eye. The injured boy was removed from the tower and taken to home of his parents where he died an hour later.

Wendell had resided with his parents in Mitchell county seven years. The youth was born at Snyder April 14, 1922. His father is employed with the county road department.

Funeral services were held at the Snyder Baptist church Sunday afternoon at 3 o'clock with Rev. Dick O'Brien of Colorado and Rev. Phil McElroy of Snyder officiating. Burial was in a Snyder cemetery. The rites were attended by a large number of friends of the late youth and his parents from Colorado and Snyder.

Another Beer Vote For Mitchell Seen By Wet Chieftains

That Mitchell county voters will have another opportunity to express their views on legalization of 3.2 beer in the county is promised from local "wet" leaders. Such a move would be within the election laws six months following the election August 26, on condition the required number of qualified voters endorse petition to county commissioner's court asking for the vote.

While talk of another election on local option of beer is being threatened in camp of the wets, leaders among the county dry forces listen with a feeling of confidence that what was done at the polls recently will be enacted again should the vote be called for. Some of those taking active part in the recent campaign doubt that another election will be sought, at least at the end of six months.

It was but a short time until farmers began calling at office of the county agent at the court house to receive the warrants. It was stated at the court house Tuesday afternoon that no information had been given out at Washington as to when additional remittances would be made. A total of 1,097 plow-up contracts were accepted from Mitchell county by the government. Total payments will reach \$321,000.

MEMBERS OF OLD 'GOLD MEDAL' BAND MEET FOR REHEARSAL AT COLORADO

Goldman And His Musicians Bring Back Memories Of Other Days Here

The Colorado "Gold Medal Band," musical organization that a few years ago swept all competition aside to easily win distinction as the outstanding musical organization in territory served by the West Texas chamber of commerce, has not passed, by any manner of means. To the contrary the pioneer organization is about as active and efficient as ever.

Wednesday night twelve members of that famous Colorado band met at the American Legion building for rehearsal with their former band master, Sam Goldman, directing. Other musicians who were not members of the old band numbering nine attended, making a total of twenty one.

Goldman, who motored with his family from Big Spring to direct the rehearsal, was just as he was in other days here—the master in his realm—and the men playing with him, some of whom have been identified with music in Colorado more than a quarter of a century, seemed as efficient Wednesday night as ever.

Pleasant memories of other days were revived as the men came together and rendered the program. This feature was the more impressed as ladies, wives of the band members who several years ago had gone with them to conventions and other gatherings to boost for the old home town, came to the building to enjoy the music and the association of warm personal friends.

Rumor has it that the band is to be reorganized with Goldman as director. The report, however, remains to be confirmed.

Another rehearsal is scheduled for Friday night at the same place. For this program Jack Armstrong, director of the Musicians Post band at Sweetwater and several musicians from there will be present. It is not definitely known whether or not Goldman will be able to attend.

The musicians are to make another public appearance Tuesday evening of next week when they furnish a concert program at the Country Club during annual picnic of the Baptist and Methodist men's Sunday school classes.

J. M. Moon, 44, farmer residing on the J. B. Farmer place three miles south of Iatan, died in a Sweetwater hospital at 12:06 a. m. Wednesday morning from injuries received about 45 minutes before on a Sweetwater street. Moon was crushed between a trailer attached to his motor car and a machine driven by D. E. Morgan, Sweetwater refinery employee.

District Attorney George Mahon stated to The Record Thursday morning that Morgan had been charged with driving a motor car while intoxicated and was being held in the Nolan county jail pending grand jury investigation. The jury is in session now.

Information gathered from witnesses to the crash sustain that Moon, accompanied by his mother, Mrs. J. M. Moon, Sr., his two small children and a nephew, Weldon Armstrong, were traveling in a sedan with a heavily loaded trailer attached. They were having difficulty in getting the machine up steep hill west from the Orient tracks and Moon and Armstrong were behind the trailer pushing.

Morgan, driving at a high rate of speed, came up from the rear and crashed into the trailer, mangleing the body of Moon. J. L. Anderson of Sweetwater who witnessed the crash, reported to the authorities that Morgan got out of his car and after reporting that on one was hurt, left the scene. Identity of the man was established shortly afterwards by registration numbers on the car. He was arrested two hours later at his home where he had gone and retired.

Anderson called an ambulance and Moon was taken to the Sweetwater Sanitarium where he died within a few minutes. The body was received here at 1:30 Wednesday morning by Jones, Russell Company in a Doran-Yates funeral coach from Sweetwater, and later removed to farm home of the family near Iatan.

This was a very attractive model made more attractive by the number of beautiful and useful gifts which was inside and around it. These were opened by the young ladies of the house party and passed to the guests for inspection. There were an unusually large number of lovely articles ranging from silver crystal and china to dainty linens, paintings and cooking utensils. Punch was poured from a flower decked table by Mrs. George Plaster, Jr., Miss Nellie Harper Greene and other young ladies of the house party. This was served with chocolate sticks.

"A Bedtime Story" Thursday and Friday September 7 and 8

With "A Bedtime Story" featuring Maurice Chevalier, Dorothy Mackall and Baby LeRoy as the third BIG Paramount picture, the Palace theatre continues Paramount week. As we said last week, "You may be too old for a bedtime story but you aren't too old for 'A Bedtime Story.'" Maurice lends the all of his charming self to the picture. Everyone knows of Chevalier, therefore we need say little about the picture. It is altogether and strictly a Chevalier picture; written for Chevalier, done by Chevalier, and produced for Chevalier fans by Paramount. It is EPIC.

their revelation when "Chandu The Magician" shows at the Palace theatre on Regular Bargain Nights, Tuesday and Wednesday at 6c and 15c. Edmund Lowe creates the title role and Bela Lugosi appears as the sinister Roxor who seeks the secret of the Death Ray. Irene Ware as Princess Nadji; Herbert Mundin as the Cockney; Midget; Henry B. Walthall, as Kogoni; Weldon Heyburn as Abdullah; and June Vasek as Betty Lou, complete the cast. "Chandu the Magician" presents a complete, dramatized screen play, based on the original radio episodes.

"Murders in the Zoo" Saturday—September 9

The Palace theatre tops off a good week, and Paramount Week with a real picture by Paramount. It is "Murders in the Zoo" and it shows Saturday only. That ever pleasing comedian Charlie Ruggles has a part and that ever successful Lionel Atwill has a part. These two outstanding stars are supported by an A-1 cast. The title sounds gruesome, the cast amusing and entertaining, the story entrancing, and the Palace theatre expects you there to see this picture Saturday. It will be well worth your while!

"Out All Night" Thursday and Friday September 14 and 15

Ho! Hum! "Out All Night" comes to the Palace theatre Thursday and Friday, Sept. 14 and 15, and who should be out all night but Sam Sumnerville and ZaSu Pitts. That incomparable comedy team; Universal's screen team. This is their second picture as a comedy team, but there is more to come. They are that good. Plenty of good laughs from good clean fun.

"Cavalcade" Sunday and Monday September 10 and 11

"Cavalcade" coming to the Palace theatre Sunday and Monday is a picture worthy of all the praise and publicity it has received, which is plenty!! You have heard of it enough to arouse your interest, why not come and see it now that you have a chance? The story is based on a birth of a nation and it features Clive Brook and Dian Wynward. It's BIG. Its one of Fox's BEST. See it.

"Chandu The Magician" Tuesday and Wednesday September 12 and 13

Those who once thrilled nightly to the tense conflict waged between Chandu and Roxor in Radio's most popular mystery drama, will find

Little Evelyn Fay Gore, aged three, who was killed when the T. W. A. plane crashed in Quay county, New Mexico, after leaving Amarillo. The little girl was with her grandparents, who were also killed. She is the daughter of Mr. and Mrs. Paul Gore, of Amarillo.

Rogers Ramblings

The 1933-34 term of the Rogers school opened Monday morning with 53 pupils enrolled for work. A large number of patrons and visitors attended the opening exercises. Mr. J. H. Greene of Colorado was the principal speaker on the program and he gave a very good address and complimented the patrons for having a school of which any community should be proud. The patrons pledged their support and cooperation in making this the most successful school term in the history of the community.

The people of the community regret very much that the 19th grade will not be taught this year.

The Rogers Parent-Teachers association will meet Friday afternoon, September 18, and all parents are urged to attend as some important matters will be discussed and new officers will be elected. The organization has always rendered valuable service for the school.

A large crowd attended singing Sunday night and enjoyed the good singing. Many visitors were present including Mr. and Mrs. N. A. Boatler of Fairview, Mr. M. W. Barrier and Miss Lillian Barrier of Mt. Pleasant, Texas.

COMMUNITY NEWS

Former Mitchell Countains Not Injured In Severe Storm In Lower Valley Area

In so far as could be ascertained up to Thursday at noon none of the former Mitchell county citizens residing in the Lower Rio Grande Valley were injured during the recent severe storm that is reported having done millions of dollars damage to property. Several former citizens of Colorado and vicinity reside in vicinity of Edinburg.

EDINBURG (AP)—Asked what the damage to Harlingen would be, one man said: "Whatever its value was before the storm, less the amount of kindling wood we can sell for salvage."

It was generally estimated minimum damage in the valley would be fifteen million dollars. Some estimates were fifty million.

Word came from Washington that Harry Hopkins, federal relief administrator, had moved to assist the sufferers both in Texas and Florida. Carloads of food, paid for from federal funds were enroute.

The Red Cross, meanwhile, issued a statewide appeal in Texas for a relief fund. Its representatives already were on the ground. In Washington, Congressman Milton West, in whose district the hurricane

wrought such havoc, began the efforts to obtain federal aid. He appealed to the Home Owners Loan Corporation to approve immediately a program designed to afford funds quickly to the homeless. Details of the proposals advanced were not made public but it was learned that they contemplated extension of funds on an emergency basis. Some doubt was expressed at the corporation's office as to whether the money could be advanced outright for rebuilding of razed homes but it was said unofficially there was no apparent inhibition against making funds available for repair of such homes.

Senator Morris Sheppard asked the war department to do everything in its power to aid the stricken area and was advised soldiers already were policing Harlingen. Sheppard, too, said he would go immediately into the problem of obtaining whatever governmental aid possible.

Rehabilitation of the devastated lower Rio Grande valley near Harlingen and Brownsville began Wednesday as relief trains arrived with doctors, nurses and foodstuffs.

The casualty list remained at 32 killed, approximately 1,500 injured. Twenty persons lost their lives at Brownsville, ten at Harlingen and two at Rio Hondo.

Surveys were being conducted on all sides of the storm area to determine whether any were missing. All who escaped injury when the hurricane struck Monday night and early Tuesday already had started the work.

Improvised hospitals in public buildings and homes, soon became the scene of greater activity. Communications from the center of the hurricane area remained handicapped by levelled poles and reports of progress of rehabilitation work came slowly.

The state highway department concentrated every available man and all equipment in the vicinity of Corpus Christi and small towns to the north, ready to repair debris-filled, washed out roads.

Torrential rains in the country around Monterrey, Mexico, indicated the hurricane's edge probably passed near there. No casualties were reported in that community.

Relief forces to the valley looked upon twisted, mangled building on every side. Parts of barns were scattered and houses torn from the foundations and smashed.

Twelve known dead and upward of 50 injured with many millions of dollars damage was the toll of the gulf hurricane which Monday night and Tuesday laid waste to the rich and populous lower Rio Grande valley. Thousands were reported homeless.

Reports from Brownsville were meager, but, judging by the destruction ranging east from McAllen 60 miles to Harlingen, with the heaviest destruction wrought in the 21 mile stretch from Mercedes to San Benito, Brownsville suffered heavily.

Ten were killed at Harlingen and two at Rio Hondo. These were the only verified deaths. Seven were injured and in a hospital at Mercedes and 48 were at Harlingen. Of the injured at Harlingen, ten probably will die.

From La Feria to Harlingen, about nine miles, all telephone wires were down and the valley highway was under from one to four feet of water. Harlingen itself where at least 80 per cent of the buildings, both business and residential, were damaged was under water so deep that only a few automobiles could plough through.

The hurricane hit Harlingen between 2 and 3 o'clock Tuesday morning, blowing from the west and northwest, and reversed itself and struck again from the east and southeast at 10 a. m.

Not only were flimsy structures broken to bits by its tremendous force, but many heavily constructed brick and concrete buildings were wrenched apart by the angry elements.

China Grove News

School began here August the 28 with a good enrollment and a fine crowd of patrons present. Wednesday the same week was set aside to clean all school grounds. There was a big crowd present. Several that did not have children in school came to do their bit. A good dinner was spread at the noon hour. The church yard was also cleaned and all work done by noon. Several went from there to Dunn to work in the cemetery.

Rev. L. L. Trott and Mrs. Christine Hamal are teachers. Rev. Trott has moved back to the teacherage after having lived at Champion through the summer.

Mr. and Mrs. P. C. Witt and boys and two of Mrs. Witt's sisters from the Plains returned from a visit in Hamilton county Sunday.

Miss Pansy Moon was a dinner guest of Miss Lois Gillis Sunday.

Those attending the Baptist association at Snyder, Tuesday from the China Grove church were Rev. and Mrs. L. L. Trott, Mr. and Mrs. A.

M. Angel and son J. C. Grandma Lafavor of this community spent last week with her son Dee Lafavor and family at Valley View. Billie McGee of Colorado was visiting in the Albert Krop home Sunday.

Leonard Allin is on the sick list but is better at this time. Mr. and Mrs. Frank Stevenson of Snyder were visiting with her parents last Thursday night, Mr. and Mrs. A. M. Merket.

Bennett Trott of Cisco spent a few days last week with his brother here, L. L. Trott.

Little Jack Merket has been on the sick list here unable to attend school part of this week.

Mr. and Mrs. Doss Maner of Littlefield spent last Tuesday night in the Jim Merket home. They were on their way home from Cisco.

THE SCOPE AND PURPOSE OF THE PRESIDENT'S EMERGENCY RE-EMPLOYMENT CAMPAIGN

The President's Emergency Re-employment Campaign may be described briefly as a plan to add from 5,000,000 to 6,000,000 persons to the nation's payrolls within the next six weeks or so, through agreements made with the President of the United States by some 5,000,000 concerns or individuals, employing two or more persons each.

In order that this number of jobs may be made available, it will be necessary, of course, for employers in many cases to shorten working hours. The plan also provides for certain minimum wage scales which also in many cases will mean added labor costs for the employer.

The President's Agreement, however, includes a pledge of cooperation from the consuming public, and it is thus anticipated that the employer, while undertaking a larger expense as the direct result of his agreement with the President, will gain added patronage as the just reward of his public spirited attitude.

The fact also is to be borne in mind that where all employers act together to put people back on their payrolls or to raise wages, no employer, as the President himself has pointed out, "will suffer because the relative level of competitive cost will advance by the same amount for all."

It is to be understood that this plan is supplementary to the plan of code adoption by various industrial and trade groups which has for its purpose the elimination of unfair competition, the establishment of more equitable rewards for labor, the spread of employment and the control of production. This plan for speeding business recovery, launched under the provisions of the National Recovery Act passed by the last Congress, is rapidly being made effective, and there will be no let-up on the drive to make its adoption widespread.

The President's Emergency Re-employment plan will bridge time and bring the nation out of the depression more rapidly than if the code adoption plan were depended upon exclusively. The President's Agreement also covers many business groups that would not be amenable to any of the code arrangements.

And what is still more important, perhaps, the President's Emergency Re-employment campaign carries certain psychological values that are as priceless as patriotism at this juncture of our economic history. The President himself made this quite clear in his recent radio address to the nation when he said: "On the basis of this simple principle of everybody doing things together, we are starting out on this nationwide attack on unemployment. It will succeed if our people understand it—in the big industries, in the little shops, in the great cities and in the small villages. There is nothing complicated about it and there is nothing particularly new in the principle. It goes back to the basic idea of society, and of the Nation itself, that people acting in a group can accomplish things which no individual acting alone could ever hope to bring about."

Thus we have all the power and potency of mass attack directed along sound lines of organization and system. Here briefly, is an outline of this organized attack on unemployment: In every community, organizations are formed along military lines, which is fitting enough, because the President's Emergency Re-employment campaign is Uncle Sam's war on unemployment and the nation is rallying to the colors just as loyally as though we were actually engaged in a war against a foreign enemy.

The local committee is made up of the active heads of the leading business and civic organizations, and includes also the mayor. These committees in the thousands of cities and towns throughout the country were formed following telegrams and letters sent by General Johnson to the presidents of Chambers of Commerce or similar trade bodies in every section of the United States. These local committees elect a general to have charge of the city campaign and a lieutenant general who is a woman. The general selects three colonels, each of whom is to take over a certain part of the campaign work. For example, Colonel No. 1 has charge of the "man-power" or organization department. Under his direction block-to-block canvasses will be made to check up on compliance with the President's Agreement, and to make a survey of the unemployed, as to adaptability by experience as to trades and industries and thus be able more readily to help in the processes of assimilation of labor by expanding industries. Colonel No. 2, briefly, has charge of newspaper publicity and kindred activities; and Colonel No. 3 has the training and direction of public speakers under his charge.

Each of these three colonels has seven or more majors on his staff, and each major has about the same number of captains. Each captain has seven or more field workers. All of the local organizations are, of course, constantly supplied with educational and inspirational material of all kinds from the National Recovery Administration in Washington. Literally tons and tons of printed matter has been shipped to every nook and corner of the country.

The N.R.A. emblem, known popularly as the Blue Eagle, is one of the most interesting and vital features of the campaign. All employees who sign the President's Agreement are entitled to display the Blue Eagle with the initials N.R.A. and the words "We Do Our Part." Merchants, manufacturers and all others who have the right to display the insignia by reason of their having complied with the President's Agreement, are permitted to hang it on their walls, or in their windows, or on trucks and cars, and, if they so desire, to stamp it on their products or merchandise. It is, in fact, the desire of the Recovery Administration that all make liberal use of this badge of patriotism.

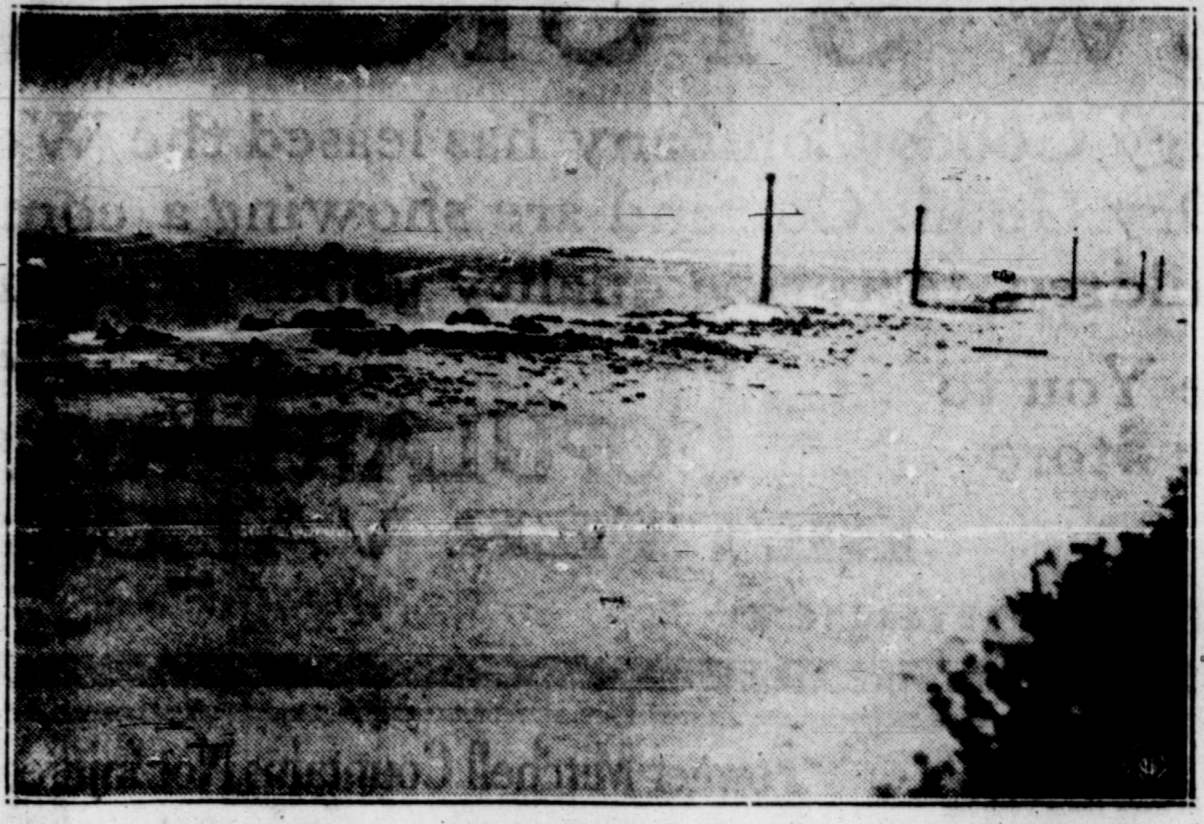

Any person in the United States who wishes to cooperate in the President's Emergency Re-employment Campaign and be considered as a member of the N.R.A. may go to the authorized establishment in his locality and sign a statement of cooperation as follows:
"I will cooperate in re-employment by supporting and patronizing employers and workers who are members of N.R.A."

Any such signer will then be given and may thereafter use the insignia of consumer membership in N.R.A.
Every phase of the progress of this mighty campaign will be flashed in the newspapers of the country and announced constantly over the radio. In this way everyone will be in a position to know just what the campaign is doing from day to day in actually putting people back on the payrolls and adding to the mass purchasing power of the country.

While, as has been stated, it is desired that liberal use of the insignia be made by employer and consumers, it is to be remembered that the official N.R.A. emblem is the property of the United States Government and may not be used or reproduced without authority of the National Recovery Administration.

The lists of all employers who sign the President's Agreement are displayed in local post-offices and it is urged that all employers who have not yet signed the agreement do so immediately and deliver them to their local post-master.
With some minor exceptions, the terms of the President's Agreement with employers is, briefly, as follows: Any employer of a factory or mechanical worker or artisan must not pay him less than 40 cents an hour or work him more than 35 hours a week, except that if the employer were paying less than 40 cents for that kind of work on July 15 the employer can pay that rate now, but not less than 30 cents an hour. As to all other employees—those on a weekly rate—the employer will pay not less than \$15 a week in a city of over 500,000 population; or \$14.50 a week in cities of between 250,000 and 500,000; or \$14 a week in cities between 25,000 and 250,000 population; or \$12.00 a week in cities of less than 25,000 population, and the employer agrees not to work this class of workers more than 40 hours a week. As to employees who were getting a higher wage, the employer must not reduce their wages because of a reduction in their hours. Employees generally keep the usual pay differences as between the lower and higher paid employees. And after August 31, he must not work children under 16 years of age. There are, of course, some other rules which apply to special cases, but the terms of the agreement as here outlined cover the large bulk of cases.

Mr. Baskin is rated with the extension department as one of our most capable agents, and we have every reason to believe he will continue with success the well organized work here." T. B. Keeping Pace With Progress Of Women And Girls Club Activities In Mitchell

BY MISS EMMA GUNTER
Home Demonstration Agent

The Plainview Home Demonstration Club had a social meeting for their families at the home of Mrs. J. C. Shephard last week. This was a part of the required work for August. Games and songs had been arranged for by a committee and the families represented were the more happy for going and participating. Mrs. Lee M. Jones and Mrs. J. C. Franklin were on the games committee.

Mrs. W. E. Seward, reporter for the Spade home demonstration club reported that her club had been busy during the last of August. One day was devoted to quilting for Mrs. Seward while mother day the club members met at the home of Mrs. Geo. VanZandt's and helped can blackeyed peas. They helped to put

up 14 No. 3 cans. Mrs. VanZandt is a 4-H pantry demonstrator in her club.

The County Home Demonstration Council met in the agent's office Saturday as it was regular council day. Iatan home demonstration club was the only club that did not have a delegate present. The programs for the rest of the year were gone over by the agent and explained so that the clubs would know what was expected of them as to program matter.

The following is the program for September:

4-H Pantry. Topics for discussion: 1. Fall and Winter vegetables we can have. 2. Our meat supply for 1933 and plans for 1934. Demonstration by County Home demonstration agent. Concrete tile to be used for sub-irrigation by 4-H pantry demonstrator in 1934.

Every club member was sent copies of their programs for the rest of the year by the agent the middle of August.

Mr. and Mrs. Kuykendall who live near Lorraine have been selling to-matoes and have been canning to-matoes, tomato juice and ketchup from their patch of to-matoes. This is an unusual happening for this year and the Kuykendall's are to be congratulated on their success.

The Club girls are to bring their canned jars of vegetables and fruit with their record books and stories of their work to the office of the home demonstration agent, September 23rd so that an elimination can be made for Dallas Fair trips and other rewards. If you have not received your square glass topped jar come to the office and secure one at once.

The Buford 4-H club girls with their sponsor, Miss Fannie Fay Womack celebrated with a picnic on Little Sulphur creek Tuesday afternoon. Games and songs were prepared for this occasion. The girls had planned to have their picnic earlier but on account of the rains the previous week they had to delay their plans. This too was a plan for the second meeting of the girls clubs to have some form of recreational

program. Nadine Hammond, Doris M. and Adell House, Vernon, Lodi, Dorothy Fay and Mildred Feaster, Geneva and Joyce Campbell and Mrs. Campbell attended.

Taken For Ride

Here is Nick Tresp, deputy jailer, who was kidnaped by Harvey Bailey in his sensational escape from the Dallas county jail. "Just 135 miles," Bailey told him, "and then you will be freed unharmed. Bailey was recaptured at Ardmore, 115 miles from Dallas. The end of the 135 miles Bailey spoke of would be approximately Davis, Oklahoma, or the Arbuckle mountains, where officers now search for possible rendezvous of Bailey and George Kelly. Tresp is pictured at Ardmore after his rescue.

COL-TEX OILERS DOWNS COAHOMA; SCORE 3-1

Big Spring—Col-Tex baseball team remained in the thick of the Tri-County fight by whipping Coahoma, 3-1.

Henderson, pitching for Col-Tex, was master of the situation and limited the Bulldogs to two blows.

One of the two came in the late innings when Riggs slapped one of his offerings for a home run and Coahoma's only tally.

Brown, Coahoma pitcher, was very effective but Col-Tex made their blows count.

Patronize Home Industry ... Buy Home Products

By Lawrence D. Yates,
Owner and Operator of
Radio Station YLD

During the ensuing month, starting Monday, these words will be ringing in the ears of every radio owner within a radius of approximately one hundred miles. A drive is being started this Monday over Station YLD. During our periods of broadcast these words will be broadcast every thirty minutes until they are so firmly stamped on the memory of our radio listeners that when they go out of town to buy a suit of clothes, a new car, or perhaps just a Coca-Cola, they will feel just a little shiver trickling up and down their backbone that does not identify true patriotism of home industry.

To have prosperity at home we must spend our money at home and of course none of us are especially anxious to see good times return. Not much. It is altogether possible that you may save a few cents on some of your purchases by buying articles in some of our outlying com-

munities or perhaps through the mails, but will you see that money you spent again. That reminds me of a story I once heard: A fellow marked a one dollar bill so he would remember it if he were ever to see it again. Some eight years later he made a purchase and to his surprise there was the bill he had identified, among his other change. This was perhaps an unusual case but even with his luck it took eight years for that bill to get back into his billfold. FOUR YEARS ARE ENOUGH. 1929-1933.

The real problem of every city is the control of the buying power of the populace. You will say, no doubt, "Oh well, what is a matter of a few dollars spent out of town, no one could possibly ever miss that amount. I'll just buy this particular item and save a few cents." I understand the population of Colorado is 4785 which means that if each of us make a one dollar purchase out of town we have taken \$4785.00 out of our city that will probably NEVER be returned to our

This county is receiving something over \$300,000.00 in cotton checks. Some of it has already been received and the rest is coming in the very near future. Let's keep it here and there is no doubt in my mind that we will experience true prosperity indefinitely. PATRONIZE HOME INDUSTRY—BUY HOME PRODUCTS.

More space has been sold at the State Fair of Texas for the 1933 exposition than has been sold in the past three years, it has been announced there by directors in charge of the space and concession departments. One reason for the increase in the demand for space is the Texas Manufacturers' Show which will occupy one half of the Main Exhibit Building.

Where Bailey Sawed His Way Out of Dallas County Jail

Harvey Bailey, notorious kidnaper of C. F. Urschel, threw police circles throughout the nation into a scare Monday, when he sawed his way out of his sixth-floor cell in the Dallas county jail, swept through several locked gates and to the ground level without opposition and made good a single handed escape. In the picture Deputy Jailer Morrow points to the hole where Bailey sawed through. The ex-convict made his way to Ardmore, Oklahoma, taking Deputy Jailer Nick Tresp with him. There he was captured by Halp Dunn, chief of police.

LARGEST ENROLLMENT IN SCHOOLS' HISTORY IS SEEN

FACULTY, STUDENTS READY FOR OPENING OF SCHOOLS ON NEXT MONDAY MORNING

Enrollment In High School Is Already Completed With Students Assigned

Faculty and students who are to break Summer vacation after this week and enter upon another year's work in the public school classroom Monday morning are ready to merge into those duties, it was announced from office of high school Thursday morning. Enrollment in that school was begun Monday and students to attend there have already been assigned.

C. A. Wilkins, high school principal, stated Thursday at noon that enrollments there had reached 236 students. 37 of the number were registered as seniors, 57 as juniors, 63 as sophomores and 79 freshmen.

Prospects for another successful year in every department of the public schools are most encouraging, John E. Watson, superintendent, has announced. "I feel confident that we are to have the largest enrollment the Colorado schools have ever known and also that a year of unusual progress lies ahead," was comment of Mr. Watson. Material improvements have been made to facilities in some of the major departments.

Watson stated that no formal program would be observed at any of the schools. Students to be started Monday morning are requested to report at the building to which they will be assigned. Teachers there will proceed in class organization and assignment to rooms. It is strongly urged that every student who possibly can do so be present for the opening Monday morning.

FINES AT LIONS CLUB FRIDAY TOTAL \$5.90; IS AID TO BLIND FUND

Fines imposed upon members of the Lions Club Friday at instance of the service organization persecutor, Col C. M. Adams, totaled \$5.90. The money was exacted from pockets of the membership, by Marion Chapman, tail-twister, and his assistant, Henry Vaught.

E. O. Elliott, chairman of the blind committee, addressed the club in an appeal for more funds to carry out benevolent programs. He told of deserving boys and girls who would not be able to continue their school work unless glasses were provided. The blind fund is supported solely by fines imposed upon the members.

Willful violation of several rules was indulged in order that the Lion invite the imposition of fines.

Sweetwater Police Mistake Travelers For Bandit Gang; Take Men After Race

Spurred to action by the rumor that George "Machine Gun" Kelley was in the vicinity of Sweetwater, officers there Saturday night ran down a car in which they thought the gangster and confederates were riding, only to find occupants of the car were innocent citizens of Abilene, enroute home from a convention in Lubbock.

Officers turned out in force and a short distance from town located their quarry. The "bandit" machine was traveling fast and the officers had to speed up to stay with it. Suddenly the car ahead slowed

down and pulled into a filling station. With guns bristling from every angle, the three men were surrounded and given command to surrender. Considerably irked by the unusual experience the Abilene travelers were not long in establishing their identity. Explanations by the arresting squad were then in order.

One of the arrested men is Taylor county auditor, another is a member of the county commission-er's court and the third among the desirable citizens of that town.

TEN CERTIFICATE MEN TO BE COMMISSIONED DURING GRAND LODGE CONVENTION

Local Fraternity Maintains High Standing Among The Lodges In Jurisdiction

Colorado Blue Lodge continues to maintain a most creditable distinction among members of the fraternity in the Texas jurisdiction, qualifying recently a total of ten local Masons for the honor of certificate holders, according to information coming from leaders in local masonic circles.

Jas. Sherwin, an active member of the local Masonic bodies through many years, Tuesday morning spoke with keen satisfaction over the record recently made. Examinations for the certificate awards were conducted recently by W. S. Tate of Hamilton, member of the State Committee on Work. Formal award of certificates is to be a feature of annual Grand Lodge meeting in Waco during the month of December.

Three of the local Masons, A. C. Anderson, L. B. Elliott and Joe Pond, are to receive 3-year certificates. One-year certificates are to be awarded J. T. Howell, Ben S. Cooper, W. L. Doss, Jr., Dick Delaney, Herbert Gunn, Jas. Sherwin and Jim White.

Sherwin stated that certificates were held by additional members of the lodge, some of whom did not take the required examination for renewal.

FIFTY COLORADOANS WERE REGISTERED FOR SESSIONS ANNUAL BAPTIST MEETING

Snyder Church Host To Two-Day Conference; Colorado Is Named For 1934

One of the most successful sessions of the Mitchell-Scurry Baptist Association was held on Tuesday and Wednesday of this week at Snyder. More than 500 messengers and visitors registered for the services on opening day. On Tuesday separate sessions were held, the women meeting in the auditorium of First Baptist church, and the men at First Methodist church. Mrs. Jack Smith of Colorado, president of the associational W.M.U., presided over that body and Rev. Philip McGahey, pastor of the Snyder church, presided over the pastor and laymen meeting.

A joint session was held at 11:30 at which Rev. P. D. O'Brien, pastor of the local church, preached by special request on the "Second Coming of Christ." The Y.W.A. of the Roscoe church presented a beautiful memorial service after which some 600 people partook of the sumptuous lunch prepared and served by women of the Snyder church.

At the morning session the men heard T. C. Gardner of Dallas, who is Secretary of the B.T.S. work of the Texas Convention. In the afternoon George Mason, from headquarters in Dallas, spoke. They were both high hours. Rev. E. D. Dunlap of Sweetwater and Rev. J. D. Brannon of Rotan were afternoon speakers.

A joint session was held in the evening at the First Baptist church at which time the associational organization was perfected. Rev. Dick O'Brien, was re-elected Moderator, pastor A. C. Hardin of Loraine was elected vice-moderator and L. L. Trott of China Grove, clerk and treasurer. The annual sermon which was to have been preached by Rev. C. A. Allen, who passed on to his reward some four months ago, was given by Rev. L. L. Trott.

Wednesday was given over to routine matters. Reports were read and discussed on all phases of work fostered by Baptists. A high hour was reached at 11:30 when the report on Christian education was read and Dr. Rupert N. Richardson, vice president of Simmons University, spoke.

A meeting of the executive board was held in the afternoon. Twelve mission meetings have been held during the summer by pastors of the association. Scores of souls have been saved and baptisms reported. One of the most unusual and optimistic reports given during the session was that five new church organizations have been perfected within bounds of the association during the year. All of these have pastors, financial programs, and will cooperate with the Texas Baptist convention. Not a low note was sounded throughout the two days.

The next annual session will be held early in September 1934 with the First Baptist church at Colorado. The next monthly Worker's meeting will be held on Tuesday after the first Sunday, at Champion. Not less than fifty people attended from Colorado.

ACKERLY TEACHERS AND BOARD MEMBERS FIGHT OVER FACULTY PLACES

A rift between Ackerly school factions which had its inception with election of two new board members last spring resulted in an injunction suit Saturday.

Three teachers ousted by the newly composed board were restrained from the injunction from assuming charge of the Ackerly schools.

E. B. Stanfield, formerly superintendent, Paul Cates, and Miss Inez Newton were enjoined by the petition from teaching in the school after they had returned to Ackerly for that purpose.

The three were elected by the old board, according to a statement by one of the trustees, to serve again. On election of a new board, however, they were not retained and a new set of teachers were employed.

The new board consists of E. T. Williamson, W. J. Brown, M. B. Moore, A. G. Lawson, P. A. Campbell, T. L. Butts, and J. W. Coleman.

Ackerly Independent School district draws pupils from Howard, Dawson, Martin and Borden counties.

The injunction was signed by Judge A. S. Mauzey of the 32nd district court and the petition was also addressed to Judge Charles Klapproth of the 70th district of which Howard county is now a part.

METHODIST CHURCH NOTES

Attendance at Sunday school last Sunday was better. Glad to see our school teacher back with us.

At 8:00 P. M. our adult group failed to meet. Mrs. Gressett with the young people went over to the Baptist church and met with their young people.

The Missionary society met at the church Monday at 4 P. M. in a business session. Opened with song and the Lord's prayer. Scripture quotations for devotional. Prayer by Mrs. McDonald. We had 14 present. Glad to see so many out. Closed with our motto.

WESTBROOK SCHOOL OPENING

The Westbrook public school opened Monday morning, September 4, with very favorable condition. A large group of friends and patrons gathered to participate and witness the launching of the new school year. About one hundred eighty pupils reported for work.

A very pleasing program was rendered. The principal speaker was Brother Dick O'Brien whose sparkling wit and pungent paragraphs are always a delight to the listeners. Brother O'Brien discussed the advantages of the modern school boy and girl. He first shocked the youthful student body into attention by the assertion that he had never stood before a more homely, no a greener bunch of boys and girls. This blunt assertion, however, he immediately followed with a discussion of the advantages of these qualities. He pointed out that it was not so bad to be ugly if you were resigned to your fate and would give your attention to something besides being pretty. He also said it was the green things which were growing, and prophesied for our student body great possibilities of growth. He further pointed out the many other advantages, such as good

buildings and trained teachers and well equipped classroom and laboratories.

This splendid discourse was spiced still further by a cornet solo by Van Pierson Boston and a piano solo by Miss Ozelle Berry, all of which was introduced by the majestic strain of America sung by the entire assemblage. The Board of trustees was represented by a short address by Mr. Boston who extended a hearty welcome to the teachers and expressed well-wishes for the incoming school year. Mr. C. C. Currie, president of the board was also present.

Mrs. Boston made a strong appeal for membership in the P.T.A., setting forth some of the aims and objectives of that splendid organization. It is indeed desirable that we have the hearty cooperation of all the patrons of the school in this work. A few short talks were made by patrons and teachers and the program was concluded by a brief statement of policies and aims by Mrs. Patterson.

All in all it was an auspicious opening and we hope to have the best year in the history of the school.

These Little Pigs Go to Market

Here are a few of the thousands of little pigs that are headed for slaughter in the Fort Worth stockyards. The governmental plan to kill 5,000,000 little pigs and sows about to farrow was inaugurated to reduce the pork surplus, feed the hungry, and raise pork prices. Below is a scene in the wagon yard of the Fort Worth stock yards, showing trailers and wagons in which the sows and pigs are coming to market.

IT'S TIME TO BUILD The American home shortage continues to grow, according to government and other statistics of a reliable nature.

In the decade between 1920 and 1930 the country added a total of 5,600,000 families to its population. The need for new housing during that decade was approximately equal to the number of families added.

The total number of families provided with new housing in 257 cities surveyed during the decade, was 3,616,000. These 257 cities accounted for 70.8 per cent of all residential building.

Prevent Disease By Removing The Cause, Dr. C. L. Root Pleads In Radio Address

Dr. C. L. Root, chief surgeon at the hospital bearing his name, delivered a timely message to the people of this county Sunday afternoon in a broadcast address from studios of Station YLD at Colorado. The address follows:

Friends of radioland—who happen to be listening in at this particular time, and who may be interested in the problems of the health of yourself, the health of your family and the health of the community I am going to talk to you just a few minutes on HOW TO KEEP WELL.

It was Benjamin Franklin, who said "An ounce of prevention is worth a pound of cure." Franklin has long since been sleeping beneath the daisies, yet notwithstanding the progress medicine has made in curing diseases since the days of Franklin, still his advice is just as true today as it was when he printed it in Poor Richards Almanac, some two hundred years ago.

Medical science in the last half century has made giant strides in the correction of many conditions, notably tuberculosis, malaria, syphilis, appendicitis, some cases of cancer, goiter, diphtheria, hook worm disease and etc., but the greatest work that research medicine has done during these years has been in the field of PREVENTING DISEASE.

Now since the cause of the disease has been found and recognized generally as the cause, rational measures of prevention against typhoid are being carried out by cities, towns, villages, rural districts, as well as in practically every home in the land.

For the nature lover, no season is dull, for each is successively absorbing. In spring he is entranced by the awakening of myriad forms of life, summer reveals the maturity of all creation, autumn brings the fulfillment of earlier promises, winter lulls life to sleep with its assurance of the resurrection.

All weather is on. The rains of Spring nourishes all nature, the heat of Summer matures and ripens its fruit, the frost of Autumn and winter gives rest and peace in all he rejoices. Each day is good. In the morning, life awakens with him, through the noon it works, the peace and quiet of evening shed their benediction upon him.

SPEECH—A SAFETY VALVE Much that is called psychology is nothing more than the common sense that was the chief glory of our fathers.

The English are credited with rare acumen because they permit the man with a grievance to talk it to death in a public park, but the American Indian knew that an enemy persuaded to talk would exhaust his anger before he finished.

The psychiatrist, newest of practitioners, persuades his patient to tell the sad story of her life in the name of psychoanalysis, but the old family physician possessed equal wisdom if a less impressive vocabulary, and earned the greater part of his fee by listening to a description of symptoms and woes that his patient dared to reveal to nobody else.

The truth that speech reduces the pressure of emotion is not a recent discovery. And a fast moving cynical generation scornful of the many things it hasn't time to understand, impressed by nothing except superlatives, statistics, new trinkets, and the catch words of pseudoscience, probably use psychology in practicable ways much less than its predecessors did.

There are many possible ways in which typhoid fever may be spread from one patient suffering of the disease or from one source of infection or contamination. Mention of only a few of the most common ways its contagion is disseminated must at this time suffice.

Infected water in this county, unquestionably, plays a very minor part in the spread of this disease. In some other section where the water supply for domestic purpose is obtained from shallow wells, and cisterns supplied from surface drainage or brooks that might have become infected, a careful analysis of the water bacteria, by a competent bacteriologist, is of vital importance; but

will in no way discourage the use of milk and milk products as food. Certainly this is the very best class of food in all the realm of nature, and most economical. Personally, I have no misgivings or conscientious scruples in drinking copiously every day of the different suppliers of milk for this town.

The common house fly is the most important malefactor, the chief criminal, big devil and high mogul that plays the supreme role in the carrying of typhoid, as well as in carrying the infection of many other diseases. Not only typhoid but "Pink Eye" and summer complaint among children are known to be carried by the house fly.

Celery and other vegetables—eaten raw—which have been grown in soil on which infected material has been used as a fertilizer has been known to be the means of propagating the disease, but such foods, here, certainly play a very minor role in the spreading of typhoid. Milk and milk products furnish another class of food that in days gone by proved to be potent channels through which epidemics were started and propagated.

The typhoid bacilli in milk develop rapidly without changing its appearance. They live for three months in sour milk, and persist for weeks in butter made from infected cream. In some of the past epidemics at other places that was found that the milk had become contaminated by washing the milk vessels in contaminated water, and in other epidemics it was found that the milk had become contaminated by contaminated flies. So after all the real source of the contamination was from the water supply or from the common house fly. I hope that this

this water an estimate of six million germs was found. The female fly lays her eggs in any warm, damp, decaying matter, such as the manure of a stable, the filth of a pig pen, the fermenting waste and refuse in the garbage can. In about ten days the egg has hatched out and the mature fly is on wings hunting food. Its keen sense of smell leads it quickly to somebody's dining table or to some other source of food supply. As your guest (welcomed or unwelcomed) it makes a landing on the bread, crawls over the mashed potatoes, takes a sip from your glass of milk, kicks off some of its filth in the butter, samples the cake, parks a few minutes on the pie, and after freeing himself of the bulk of his filthy cargo takes off to fly back to its filthy breeding place, there it deposits its eggs, and load up again with unspeakable, fetid freight. Thus back and forth is its habit and its game. Just how these nasty filthy pests can and do transmit germs of typhoid and other disease is too nauseating to relate—even over a mile to an unseen audience. Here your imagination may supply further information. I've never been given to much criticism or questioning of the wisdom of the All-wise Creator in His purpose and nature of the things He created. I take it for granted, He knew his business and made no mistakes. But from my earliest days of intellect I t'was good day and hour I could never imagine why, in the name of all Gods and Devils known and unknown, He ever saw fit to create the abominable house fly. So let us wage a campaign against these filthy breeding, disease carrying, putrid, puellaneous pests—continuous war—offensive and defensive. All stables, stock yards, cow lots and hog pens should be at a distance not less than 500 feet from the dwelling. All windows and outside doors to your home should be well screened. Swill barrels should be kept carefully covered. All garbage cans protected from becoming the breeding place of flies. All offal—that is the rejected and waste parts of butchered animals—should be burned. Then what few flies that manage to get in spite of all your efforts to keep them out, poison them, catch them with fly paper, trap 'em and swat 'em till you die.
