First graders observe Library Week with visit

The three sections of the first grade visited the library Tuesday morning and were entertained by Mrs. G. W. Cleveland and Mrs. R. K. Field who told stories to them. Mrs. Glenn Cleveland introduced a number of interesting books and guided the children in browsing through a variety of books on display for their particular age group.

The children enjoyed every minute of it. One youngster was heard to remark, "This is what I call living."

Every parent should resolve to encourage his child to make better use of the abundance of reading material to be found in our own public library. No better time could be than now — the present — National Library Week.

Mrs. L. O. Smith, first grade teacher said, "Only those who have the privilege of working with or living with children know the joy a good book can bring to a child." Parents who have neglected reading or telling stories to their children are causing

Blaze destroys farm home near here Wednesday

A house occupied by a colored family, Mr. and Mrs. George Jones and son, was destroyed by fire Wednesday night.

The cause of the fire which destroyed the home and all of its contents was unknown.

The house, owned by Tom Warren, was located about six and one-half miles west of Plains. The Jones family are employed by Mr. Warren and were gone to the field to move an irrigation sprinkler at the time the fire started.

The Plains volunteer department was called but the house burned so quickly nothing could be saved.

Jack Pierce earns science scholarship

Jack Pierce, head football coach and science teacher of Plains High School recently received a National Science Foundation scholarship for the summer semester at Texas Tech, according to Wesley Wendlandt, institute director.

All winners are high school mathematics or science teachers. Pierce is a graduate of West State Teachers College at Canyon.

Twelve boys will represent the Plains Cowboys in the Regional track meet which will be held in Lubbock April 24-25. Only first and second place winners in the district meet are qualified for the Regional meet.

Region I is composed of eight class districts and includes an area from the top of the Panhandle to El Paso. Only first and second place winners in the regional meet will qualify for the State meet, which to be held in Austin May 8-9.

Coach Pierce said, Plains should make a very strong bid for the championship. Last year they were nosed out by only 1 1/2 points by a strong team from Groom. He pointed out that the strongest events for Plains will be the 100, 220, 440 relay, shot put, and mile run. The Cowboys have as good or better times in these events as any recorded in the region to this date.

List of track members and the events they are entered in include: Jim Williams, 100, 220, 440 relay, broad jump; Joe Bob Oats, 440 relay, mile relay; Bill Lattimore, 440 relay; Ray Faught, mile relay; Joe Don Marrow, mile relay; Vernon Ethridge, mile relay; Sam St. Romain 880 run; David Veretta, mile run, Sandy Canales, mile run, Don Cooke, shot put, discus; Claude Lee, shot put.

Illness causes band concert to be postponed

It was announced late this week that the annual Spring Concert of the Plains school band department would be postponed until May 5, instead of being held this Friday night as planned.

In the wave of illness which struck the Plains schools this week, almost one-half of the members of the various bands are either absent from school or unable to play their instruments because of throat and respiratory infections.

Those who have bought tickets to the concert set for this Friday are assured that their tickets will be valid for the May 5 concert, and they are urged to keep their tickets and use them for that concert. Any who desire to return their tickets and obtain a refund are asked to do so at the band department of the school.

In making the announcement, Band Director J. D. Campbell stated, "We regret any inconvenience that may have been caused to the public by this postponement, but under the circumstances nothing else can be done. We certainly hope that those who have obtained tickets to this concert will keep them and use them on May 4. We appreciate the support, patience, and good will of the public at this time."

Also postponed this week was the band's return assembly program to be presented to the Seagraves High School in exchange for the one recently presented by the Seagraves band to the Plains school.

A series of revival services will begin at the First Baptist Church Sunday, April 19, and will continue through Sunday, April 26.

The preaching will be done by the pastor, C. J. Coffman, and the singing will be under the direction of Odus Walsler.

Week day services will be visitation 10:00 a.m., prayer meeting 7:30 p.m. Preaching 8:00 p.m.

Sunday preaching services will be at 11:00 a.m. and 8:00 p.m. The public is cordially invited to attend the services.

Little Chris Pierce has 'yen' for aspirin

Chris Pierce, two year-old son of Mr. and Mrs. Jack Pierce, with a child's adventurous yen, scaled all obstacles to reach the shelf of the kitchen cabinet Monday where he obtained and ate about three-fourths of a bottle of Baby aspirin. He was taken to a physician who pumped the young man's "tummy." He was drowsy Tuesday, but was up to par Wednesday.

Farmers asked to be careful of right-of-ways

H. C. McDonnell, Yoakum County Maintenance foreman of the Texas Highway Department, calls attention to the fact that many farmers are plowing into the highway right-of-way.

Mr. McDonnell states that the highway department must take the necessary steps to blade down, smooth and otherwise eliminate such damage to the road-way. They are attempting to resection and widen the road-way on all of the roads as well as keep the ditch further back from the roadway. This plowing constitutes a hazard to the traveling public and is a detriment to the department in their efforts to maintain proper drainage, McDowell points out.

"It would be appreciated if you would avoid any further plowing with-in any highway right-of-way," he said. "If you are in doubt as to the limits of any right-of-way, the department will be glad to consult with you and assist you in staking the right-of-way along your property. It would be well to avail yourself of this service."

Commissioners place bounty of \$3 on coyotes

An influx of coyotes in the county has resulted in the commissioners' court placing a \$3 bounty on the "critters."

However, in order to collect the bounty, the recipient will be required to submit an affidavit proving residence in Yoakum County, the only exception being members of the Highway Patrol.

The court, during the meeting Monday at which the bounty was fixed, also approved a payment of \$250 to Frank Bennett, Jr., as a balance due on the Plains Clinic, and accepted the bid of Wiscechman Nursery and Landscape Service of Hobbs for shrubbery for the Clinic in the amount of \$283.65. The Plains Dirt Gardeners Club will furnish supervision for planting, it was reported.

County Judge Don Hancock will be reimbursed in the amount of \$35.90 for out of county travel, as approved by the court, and reports of the tax assessor collector, treasurer, auditor and justice of peace of precinct 1 were okayed. Bills against the sented were approved for payment, and the hospital, as present.

The court also canvassed the results of the county school trustees election, and approved them as follows: trustee at large, George Buland, 197, with one write-in vote each for Alf Carpenter and G. W. Cleveland; trustee of precinct 2, Olan Cox, 148; trustee of precinct 3, Perry Anthony 30, with one write in vote for Rod Duff.

The plat of the 3rd and 4th unit of the Allen and Kidd Addition in Denver City was approved.

1st Baptist to begin revival

Farmers and business men of Yoakum County are urged to attend a meeting in the Plains school cafeteria Thursday night, April 23, to further discuss the Tri-County, Terry-Yoakum-Gaines, Cotton Classing office which will be built in Brownfield and to elect a Yoakum County farmer to serve on the Cotton classing board of directors.

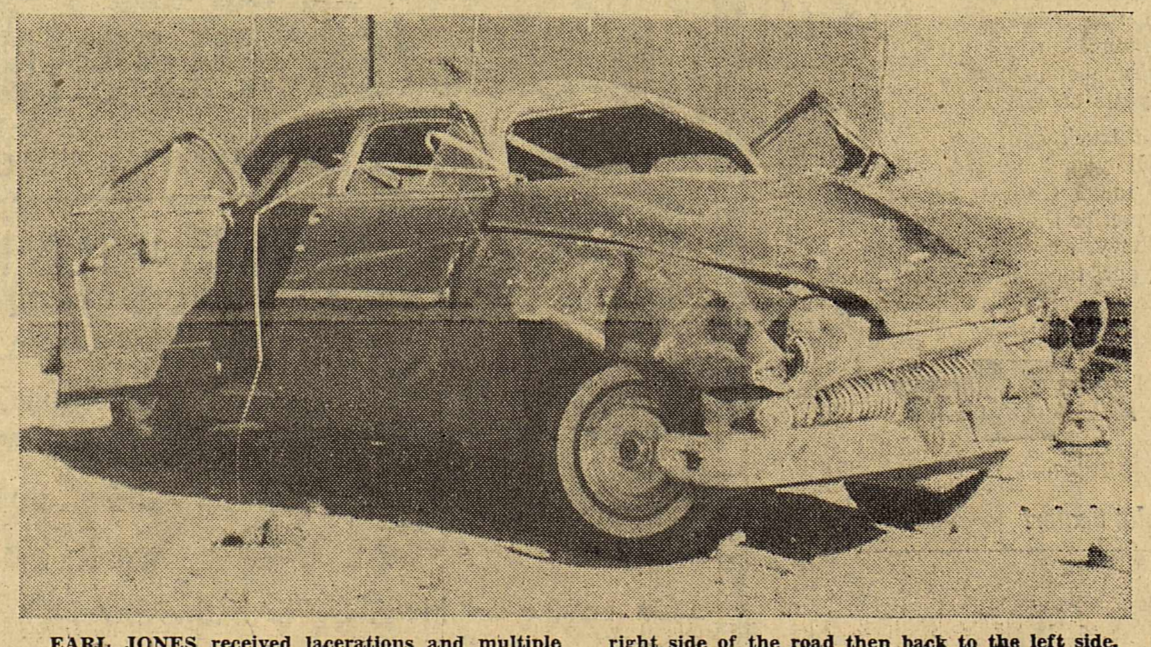

A drive is currently underway in the county to raise funds for the classing office. The drive will culminate with the meeting next week.

At a recent meeting several men were selected from the various precincts to help organize the drive in order that everyone might have the opportunity to contribute.

Precincts and committeemen are as follows: precinct two, Russell Faulkenberry, Tom Warren and Charles Roseberry; precinct three, Presley White and Gene Smith; precinct four, D. C. Newsom and Bill Loyd. Precinct one will be organized on a local basis with Vance Brown aiding in the promotion.

Neil Taylor, Pete Sampson, and Pete St. Romain will contact the local businessmen who have expressed a desire to contribute to the drive.

D. N. Taylor, president of the Chamber of Commerce, said if anyone wishes to contribute and has not been contacted to call one of the committeemen.

right side of the road then back to the left side, and overturned two or three times, demolishing the 1950 Mercury. He was taken to the Yoakum County Hospital in Denver City for medical treatment and observation. He was released and returned to his home in Plains Monday.

Governor designates April 12-18 as official "Library Week" in Texas

Governor Price Daniel today designated the week of April 12-18 as "Library Week" in Texas and urged Texans in all walks of life to "broaden their horizons of knowledge by making full use of their public libraries throughout the year."

Daniel's official memorandum virtually coincided with the opening of bids Tuesday for the construction of the new State Library and Archives Building—a \$2.5 million structure adjacent to the State Capitol which he said will "herald a new era of library development in our State."

"The wisdom, knowledge, and heritage of the world are preserved and transmitted by books

cannot be over-stressed that freedom of the press and the freedom to read are two of Democracy's most cherished liberties."

Daniel played a leading role in the development of plans and financing of the new building, which will be a four-story, "T" shaped structure of semi-classic design trimmed in polished granite.

An integral part of the Capitol Area Expansion Program, it will complement the new State Office Building, the Texas Employment Commission Building and the Supreme Court Building, all now under construction in the immediate vicinity of the State Capitol.

With completion of the new Library and Archives Building, the various divisions of the State Library, with one exception, will be under one roof for the first time since the establishment of the Texas Library and Historical Commission in 1909. The Legislative Reference Division will remain in its present quarters on the second floor of the Capitol, for the convenience of members of the Legislature and the State agencies in the Capitol.

Divisions to be moved include the Archives, now housed temporarily in a quonset hut, the Loan and General Reference Division, the Extension Division and Rural Services, Processing, and the Control Center of the Records Division.

Guests present at the ceremony included: Dr. Edmund Heinsohn and Walter K. Long, both members of the Library and Historical Commission; Alexander Moffit, University of Texas Librarian; Richard Pettway, Friends of the Texas Libraries; and William K. Peace, Assistant State Librarian.

Austin, Tex. — Whichever way the ball bounces, Texans can look forward to a hefty increase in state taxes for 1960-61. House of Representatives passed a general appropriations bill calling for spending of \$332,000,000 from general revenue. Senators took a more economical approach, began their work with a bill calling for \$30,000,000 less than the House measure.

Even so, the Senate proposal would put spending some \$21,000,000 above the present level and require an estimated \$117,000,000 in new tax money.

House bill includes longevity pay raises for long-time state employees and increases in welfare checks to the aged, blind and dependent, all added during floor debate. House also accepted committee recommendations for boosts in the appropriations for higher education, state hospitals and special schools and the prison system.

GASOLINE TAX VIEWED — Gov. Price Daniel says he's ready to support a 1-cent hike in the state gasoline tax if it will be used to improve public schools, raise teacher salaries.

Neither the House nor Senate appropriations bill included public school teacher raises. Lawmakers seemed to think this, if it were to be done, should be handled in a separate bill.

Texas still would have a lower gasoline tax than other states, said Daniel, even after the 1-cent raise. He said he felt sure service station operators would "go along" with it if it were for the purpose of better schools.

Opponents say that, with practically everyone having to use a car these days, the gasoline levy is about as "general as a sales tax can get."

HEALTH CHIEF RESIGNS — Recent target of lawmakers is the State Health Department, where Commissioner Henry A. Holle stepped out of his \$16,000-a-year post under the glare of legislative disapproval.

Dr. Holle said he felt the department would be better off with another commissioner who could get more support in the way of legislative appropriations.

Meanwhile, both House and Senate launched inquiries into Health Department spending practices.

FLEXIBLE RATING OFF — State regulation of Texas auto insurance rates apparently will

continue for at least another two years.

Senate Insurance Committee refused to approve a flexible rating plan, sent it to the sub-committee "graveyard."

Backers of the bill, mostly large out-of-state companies, claimed it would save Texas auto owners millions. Careful drivers would be rewarded with lower insurance, they said.

Opponents, including most Texas companies, fought the bill, said it would "take the lid off" rates. They said a merit rating plan, being considered by the State Board of Insurance, would take care of rewarding safe drivers.

LENDING BILL FILIBUSTERED — Senate disagreement over how to improve loan shark regulation brought on the first filibuster of the session.

Sen Abraham Kazen of Laredo sponsored the House - passed measure which would, if approved by a vote of the people, amend the constitution. It would allow the Legislature to license lenders and set maximum interest rates. Present 10 per cent ceiling, widely ignored, would be abolished.

Sen. Frank Owen III of El Paso led a long-winded assault on the measure. He and other senators insisted such regulation should be limited to loans under \$500 to \$600.

Senate gave Kaben's measure preliminary approval, despite all the opposition.

PARTY IN - FIGHTING BEGINS — Fifteen months ahead of convention time is not too soon for Texas Democrats to start haggling over who'll receive their presidential nominating votes.

U. S. Sen. Lyndon B. Johnson is the focal of controversy. Recent developments:

Young Democrats of Texas, currently controlled by leftwingers, declared the senator should pay more attention to the party platform. J. Ed Connally, chairman of the state executive committee, quickly announced the Young Demos did not speak for the party. He called them "immature extremists."

Democrats of Texas, unofficial liberal organization, announced it would have a convention in Austin in May. DOT, also, has "fallen out" with Sen. Johnson.

In the Legislature, the House elections committee approved a bill that would allow Senator Johnson to run for president and re-election as senator in the same general election.

Cowboy Reunion slated July 2-4

Life Magazine's current story, "West Re-Lives a Lively Past," lists the Texas Cowboy Reunion, as a non-professional rodeo at Stamford each year, as one of six Texas historical pageants held annually to preserve the memory of the early West. "Life" devotes a number of pages to western history, on which it is running a series of articles.

The Texas Cowboy Reunion now going into 30 years of operation, is said to be the southwest's largest working cowboy show. This year it stages "Cowcatchin' and Horseranglin'" on July 2, 3 and 4, with the largest turnout of true working cowmen in the Reunion's history expected as contestants.

Mud and massive loads stop other trucks—but not this Chevy!

Chevrolet tandem slogs through deep mud to deliver huge load.

F. F. Kirchner, cement block manufacturer of St. Ann, Mo., has this to say about his Chevy 10703 tandem: "Fully loaded we're up over 40,000 lbs. GVW and at most excavation sites we have to move through soft sand and mud... My driver tells me he always gets through, too, even where other, bigger trucks can't make it!"

Statements like this are typical of Chevrolet truck owners across the country. Their enthusiasm for Chevrolet's "git-up-and-go" is well founded in fact—they've seen how Chevy tames their toughest jobs in record time.

For your own tough trucking jobs, you'll find Chevrolet has all that it takes, and then some, to get the work done quickly and economically. With stamina to spare, Chevrolet trucks keep on

the go day after day. Powerful engines haul maximum loads—hold fuel and maintenance expenses to a minimum. And Chevy's solid build keeps cabs and bodies tight through years of work.

For the right truck and components to handle your tough job, contact your local Chevrolet dealer. He'll prescribe the correct cost-cutting Chevy combination that'll make your toughest job look easy.

No job's too tough for a Chevrolet truck!

New law requires mud-flaps for dual-wheel trucks

Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, said today that under a new State law it is now illegal to operate dual-wheeled vehicles on the highways without mud-flaps on the rear to protect drivers in back of them.

The law, which formerly applied only when the pavement was wet, now requires mud flaps in all kinds of weather for certain vehicles. It became effective April 2, 1959.

Under regulations issued by the Department, Garrison said, the flaps may be made of metal, rubber, rubberized material or other substantial material rigid enough to prevent mud, slush, gravel or other matter from being thrown from the rear of a dual-wheeled vehicle into the windshield of a vehicle following.

Pole trailers, truck tractors operated alone and without being in combination with a semi-trailer, and all trucks operated on private property do not come under the provisions of the new law.

Youth plus auto means trouble, says safety leader

Take one young male under 25, add one automobile and you have set the stage for an accident.

This was the assertion today of J. M. Smith, executive vice-president of Farmers Insurance Group Safety Foundation, in explaining why the youthful driver must pay extra high insurance premiums.

"The youthful driver is twice as likely to have an auto accident and when he does it causes about twice as much damage as any other age group," Smith declared. "In fact, the driver under 25 took 12,000 lives last year, caused half a million injuries and a billion and a half dollars worth of damage."

He numbers less than one in five of the drivers on the road but causes three out of ten accidents and when he has an accident it is a big one. The higher the speed the more severe the damages and injuries. But that is not the whole story. The youthful driver lacks experience in such matters as judging distances, knowing road conditions, anticipating the moves of others to mention but a few.

"One California study showed that three out of four youthful drivers have received citations for moving traffic violations of one kind or another. This same study showed that drivers with three traffic offenses have more than four times as many accidents as those with no conviction. Now does the picture begin to shape up?" asks Smith.

The head of one southern California police division reports that juveniles on wheels cause three-fourths of the crime in his community with the majority involved in thefts of hub caps,

Lanny Smith visited his parents, Mr. and Mrs. L. O. Smith and Sheila, and others last weekend.

petty burglary and autos. What can be done with the young male driver?

For one thing, points out Smith, there is high school driver training. The youth with 30 hours of classroom and 6 hours behind-the-wheel instruction has been shown to have 50 per cent fewer accidents than those with none. Parents should encourage their son and daughter, too, to take driver training and apply rules of good sportsmanship on the road, he concluded.

Mr. and Mrs. Joe Curry attended the gift show and market in Amarillo Sunday. Enroute home they spent the night at Lazhuddie visiting Mr. and Mrs. Billy Joe Curry.

J. S. Wagley was confined at home the first of the week with a strained back.

a warning
Foolish the moth which seeks in the candle,
not life but death! Beneath the light there
is the burning flame...sudden death for the moth.
A light is a warning to a sailor, a
guide to the airman, a beacon to the lost.
It can either save or destroy. Do we seek light
or just the flame? Beneficent goods may be
turned into destroying weapons.
Food was meant to give health and
strength. It is an instrument of good, but given
to the glutton, it brings him ruin. Grapes grow for
man's sustenance. But when the wine is
loved for itself it degrades the body,
befuddles the mind and sickens
the spirit. God gave us His church, His word
to light our way. If we use them
for good, no harm will come to
us. We won't get hurt
as did the moths.

You In The Church
The Church In You
— form a combination
for good. Every man,
woman and child needs
the influence of the
church. So, come let
us go into the house
of the Lord. Let us
support her program
of service to human-
ity, be a faithful work-
er, a daily bible reader
and attend services
regularly.

Mrs. Ben W. Boyd, State T.W. F.C. President, spoke on "Key notes." The closing remark in her address could well be our daily motto: "A task without a vision is drudgery; a vision without a task is fantasy; but a task with a vision is the light of the world."

Pie and coffee were served at the social hour by Mrs. Johnnie Robertson and Mrs. C. F. McCargo.
