

MOORE Or Less

by Johnnie Moore

There is a petition making the rounds in Plains and Denver City that we all ought to be interested in. It's calling for \$100,000 worth of bonds to be voted for the utilizing of some existing underground structures and the extension of others for fall-out shelters for the Yoakum Co. citizens.

It's a little hard for some of us, I guess, to realize that there is a nation or two in the world with the power to, if not destroy us, to at least do us great harm, and that they probably would if not for fear of our own retaliatory powers. We don't like to think about it, but it's time we did some serious thinking about it. It's way too easy to say, "Oh, it'll never happen." I remember back when the Japanese were threatening us with war, lots of folks were saying, "It'll never happen," or "let's send the Texas National Guard over to take care of that little nation." Then we found ourselves in the most gruesome and most costly war the world ever knew.

It can happen here, in spite of what we think. I hope and pray it doesn't, but I am far from saying it can't or it won't.

IF I WERE BOSS
By
EDGAR GUEST

If I were a boss I would like to say:

"You did a good job here yesterday."

I'd look for a man, or a girl, or boy

Whose heart would leap with a thrill of joy

At a word of praise, and I'd pass it out

Where the crowd could hear as I walked about.

If I were the boss I would like to find

The fellow whose work is the proper kind;

And whenever to me a good thing came,

I'd ask to be told the toiler's name,

And I'd go to him and I'd pat his back

And I'd say: "That was perfectly splendid, Jack!"

Now a bit of praise isn't much to give,

But it's dear to the hearts of all who live;

And there's never a man on this good old earth

But is glad to be told that he's been of worth;

And a kindly word when the work is fair

Is welcomed and wanted everywhere.

If I were a boss, I am sure I should

Say a kindly word whenever I could,

For the man who has given his best by day

Wants a little more than his weekly pay;

He likes to know, with the setting sun,

That his boss is pleased with the work he's done.

NUMBER 38

'61 Homecoming Climaxes With Wink Game

Homecoming Activities Set By Exes

Glen C. Smith president of the Ex-Students Association along with the other officers, Royce Randall, Vice-president; Winnell Loe, Secretary; Gracie Hale, Treasurer; and Willie Mae Addison, Reporter, concluded that the Homecoming program is complete.

Excitement will be set off by a big bon-fire and pep-rally at 8 p. m. Thursday night held at the Football Field. Friday, the activities will get underway at 3 p. m. with a pep-rally in the High School Auditorium. All Ex-students are urged to come on down and help yell for the Cowboys.

The meal for the Ex-students and their families will be served from 5-6:30 p. m. in the Cafeteria. Tickets may be bought at the door if desired. Tickets are \$1.50 for adults and 75 cents for children. This ticket will also entitle you to the Plains-Wink game.

Exes are to meet back in

the Cafeteria for a business meeting and fellowship following the game.

The evening program will include introductory remarks by Principal Neil Taylor, a welcome by a member of the student body, response by Glen Smith, President of the Ex-students Association, an address by Charles Jackson, a 1947 Grad who is now Vice President of Kialou State Bank, as well as numbers by the Cowboy Band, yells from the Pep Squad, a talk by a representative of the football team and explanation of the following Homecoming Activities.

The 1940-1941 and 1950-1951 football teams which are ten and twenty years past, will be honored at Homecoming this year. The 1940-41 team was Joe D. McLaren, Jack Cannon, Odus Walsler, Jack Albright, Clyde Coke, Bob Cox, Bob Perry, (deceased) Eugene

Locke, A. J. Mabry, C. C. Copeland, Jesse Garrett, James Duff, Avie Johnson, Dale Brown, Olan O'Neal, Charles Trout, Bud Brian, J. D. Brian, Ed Turner, Clarence Ray Lance, Kenneth Johnson, Earl Smith, James Wauson, Floyd Hughett, Jack Snitker, George Smith, Charles Upton, Lee Roy McCraevy, Dick Heath, J. H. Heath, R. D. Romans, and Hershaw Walsler.

The 1950-51 team are as follows, Leland Campsey, Buddy Brantley, James Moore, Dwain Anderson, Dwain Fannin, Mac MacRea, C. B. McCann, Doyle Rowland, Sammy Russell, Teddy Roy Henson, Luther Moore, Dobbie Bookout, Lawrence Curtis, Preston Brian, Harvey Lusk, Leroyce Brantley, Frank Ellison, Sanford Lovelace, Jimmy Camp, Gary Billingsley, Bobby Bailey, Shirley Curry, and Duane McDonnell.

Cowboys Seek Upset Friday

A determined bunch of Cowboys will meet the highly regarded Wildcats of Wink, Texas in this Friday night's tilt at Cowboy Stadium in Plains at 8:00.

Very likely playing to capacity crowds because of the homecoming activities, the Plains Cowboys have set their caps to win this toughie.

In the area rankings published by the Lubbock Avalanche Journal for this week, Plains is rated in fourth place in the District 5-A slate, being topped in the ratings by O'Donnell, Seagraves, Frenship, Sundown is rated under Plains in 5-A, having won none and lost 3.

Wink Wildcats are rated second in the state according to the Fort Worth Star-Telegram High Rankings rating list. Wink is topped in the state ratings only by Albany, each of which have won two and lost none.

Tough competition is certainly furnishing the Cowboys with a great deal of much needed experience. Wink will be the first game of this season in which Plains will play a team of its own classification. In the three previous games, Crane and Friona were both Class AA, and if Portales were rated as schools are in Texas, it would be rated as a class AAAA team, in the class with Abilene, Monterrey, and Wichita Falls.

As coach Pierce says, "The Cowboys are getting better with each snap of the ball." Also

on our side is the fact of the Cowboys' attitude. They are going into Friday's tilt with the idea in mind of beating the Wildcats, Pierce said, "Desire and mental attitude are 80 per cent of the battle, and Plains has the right spirit."

About all that can truthfully be said about Wink's starting line-up is that they are one year older and a few games more experienced. Wink has identically the same team as it fielded twice against the Cowboys during last year's season with the exception of two offensive starters.

Wink will be expected to play the same general brand of ball that Plains fans have witnessed before. They run a great many power plays and throw the ball a lot with quite a bit of accuracy. Their men to watch in Friday night's game will be the quarterback, Betes, who is real fast and the colored boy fans will remember from last year's tilts, halfback, Curtis Robinson. Robinson weighs in about ten pounds heavier than he did last year, but reports are that he doesn't seem to have lost much of his speed.

As for line, the Wildcats are fielding four linemen who weigh in the 200 pound class, but the balance of their line is made up of the 170 pound class which can move.

Plains fans are in for another night of good football when these two fine teams meet for Plains '61 Homecoming game.

PRESIDENT OF EXES--Glen Smith, president of Plains High School Ex-Students Association, will address '61 Homecoming crowd during 1961 Homecoming activities. Other officers are Royce Randall, Vice-President; Winnell Loe, Secretary; Gracie Hale, Treasurer; and Willie Mae Addison, Reporter.

Hail Storm Damages Crops

A devastating strip of hail stones fell in Yoakum County Tuesday night, doing considerable damage to some of the crops in its wake and breaking window lights and damaging vehicles in at least two instances.

The home of Roy Fitzgerald, who lives about 9 miles West on the Tatum highway, seemed to be worst hit of those known. Many of the windows in his practically new brick home were smashed, in addition to the windshield and headlights of his pickup truck being broken.

Early estimates were that a strip of crops, all but ready for harvest and some already being harvested, were hit and some badly damaged. Estimates say that the strip was about five miles wide, stretching from nine miles west of Plains to the New Mexico state line, and about 15 miles long.

Exact amounts of damage were not assessed as yet, but damage to some crops in this area was thought to run as high as 50 per cent.

Hail fell in some other areas of the county the same night, as widely scattered as the Plymouth Camp 12 miles southeast of town and the Alfred Bearden farm barely over the Terry Co. line on the east side of the County.

\$200 Reward Offered In Fire

Yoakum County Deputy Sheriff, Olan Heath, has posted a personal reward for any information leading to the arrest and conviction of the person or persons who, on the night of Sept. 5 or the early morning of Sept. 6, unlawfully entered Alma's Restaurant and set the building on fire, causing a great amount of damage. Also, Heath contends, this person or persons unknown, are undoubtedly the same as those who, on the same night entered Tiny's Restaurant and burglarized the cigarette machine and carried the safe from the premises.

Heath states that he is personally offering a reward of \$100 for any information of a concrete nature.

There is also, as many Plains citizens are probably aware, a standing reward offered by the City of Plains out of its general fund for the arrest and conviction of any person committing arson within the legal limits of the City. This reward is also in the amount of \$100.

On being questioned about the present status of the cases, Heath states that they are both very definitely still open and are at present being actively investigated.

He went on to say, that in his opinion, the two break-ins were definitely committed by the same party. He also pointed out that, in the case of Tiny's Restaurant, the thieves opened the cigarette vending machine with apparent ease and did absolutely no damage to the machine or the door. They took an estimated \$15 or \$20 from the machine and then proceeded to take the safe, which Tiny stated was not in use. The safe was recovered a few miles northwest of Plains and had been r'pped open in a very amateurish way.

Heath stated that, in his investigation, he seems to be pointed, for several reasons, to two prime suspects in a nearby area town. He said, as yet though, there just wasn't enough proof to make an arrest.

Mr. and Mrs. Joe Jones of Andrews, visited in the home of her parents Mr. and Mrs. Howard Borland over the weekend.

Starks Wagley was rushed to the Seagraves Hospital after suffering from a heart attack, Wednesday, September 13. He is much improved, but has to stay in the hospital two more weeks. He would like for his friends to drop by and say hello.

QUEEN CANDIDATES--above, left to right, are the candidates for Plains High School Homecoming Queen for 1961. They are Betty Hamm, a sophomore; Patsy Perrin, a freshman and O'Neta Meixner, the junior candidate. Selection of the Homecoming Queen will not be made known until just previous to game time Friday night. The queen will be crowned in a special ceremony at 8 p.m.

Farm Trailers Under New Law

Enforcement of a new farm trailer law in Texas affecting thousands of such vehicles in this area, is about to begin amid mixed reactions, Department of Public Safety officials said Saturday.

House Bill 1082, the farm trailer law, was passed by the 57th Legislature and became effective May 29, with Gov. Price Daniel's signature. It's enforcement, however has been delayed to allow for an educational program on the provisions, DPS officials said.

It requires farm trailers from 4,000 to 10,000 pounds gross weight to be registered with the county tax assessor. It also provides owners must obtain a special farm trailer license plate for a \$5 annual fee.

Farm trailers up to 4,000 pounds gross weight are not required to have license tags. And all farm trailers up to 10,000 pounds gross weight are exempt from brake requirements. Sgt. Fred Marshall of the

Lubbock DPS office said the law would apply to most "four wheel cotton trailers" in this area and grain trailers in the Panhandle.

Trailers exceeding 10,000 pounds gross weight must be registered as a regular commercial trailer.

Capt. J. L. Miller, license and weight service of the DPS, advised that any vehicle bearing the \$5 special plate must not; 1. exceed 30 MPH; 2. be operated for hire; 3. have steel or metal wheels in contact with the pavement and it must be equipped with an adequate hitch to remain secured to the towing vehicle; and be operated in conformity with all other provisions of the law.

"Violation of any of the sections above nullifies the \$5 registration fee, and the trailer will be subject to the regular registration fees and penalties as prescribed by law," Miller said.

Also, the new provisions do not change existing laws which require that all trailers or semi-trailers having a registered or gross weight in excess of 3,000 pounds be equipped with clearance lamps, side marker lamps, and reflectors, as well as a tail and stop light, if the stop light on the towing vehicle is obscured.

Miller further said that all machinery type vehicles other than machinery solely for the purpose of drilling water wells and road construction machinery, must now be registered with regular license plates and title applied for. This includes oil field drilling and servicing machinery, regardless of whether such machinery is a unit within itself or is mounted on a conventional vehicle or chassis.

Water well drilling units and road construction maintenance equipment are required to have either the \$5 registration plate or a regular registration plate, depending on how the equipment is used, he said.

Exemption of farm trailers and farm semi-trailers from registration and brake re-

(Continued on page 6.)

GSPA Predicts Bumper Crop

Harvest of what may be another bumper grain sorghum crop on the Texas High Plains is starting in the southern part of the Plains, Frank Moore, Plainview farmer, who is president of the Grain Sorghum Producers Assn., said this week as he announced expansion of that organization.

In existence since late 1956, the GSPA has worked continuously in behalf of grain sorghum producers and has become recognized as the only sorghum commodity group of the nation. Work of the GSPA, while representing just about all farmers who produce grain sorghum, has been supported and directed mainly by producers in the area to the north of Lubbock up to the Oklahoma line.

For the first time this year, the organization is attempting to enlarge its representation and support and extend its boundaries southward over most of the High Plains. County organizations will be set up to give producers in each county a voice in the GSPA and representation on its board.

Elevator operators throughout the south portion of the Plains are now being contacted along with direct contact to producers about support of the grain sorghum research, mar-

(Continued on page 6.)

Local Red Cross Asks Aid

An appeal for cash funds for the victims of Hurricane Carla was issued by the local chapter of the American Red Cross here this week.

Claude Freeman, chairman of the county-wide effort, is a resident of Denver City. He made it known that the goal set for Yoakum County is \$314 with the Plains area share of that amount set at \$146.

Freeman stated that Red Cross chapters across the nation had been asked to seek funds to help in the rehabilitation of the coastal area wrecked by the winds and waters of Hurricane Carla.

No house to house canvas will be made in Plains or in Denver City for funds since the Red Cross chapter has an annual door to door campaign for funds. But cash donations to the hurricane relief fund are sought by the local chapter.

The Red Cross announced that Red Cross shelters in the Houston area were providing shelter for 80,000 people and that 96,000 were being fed daily.

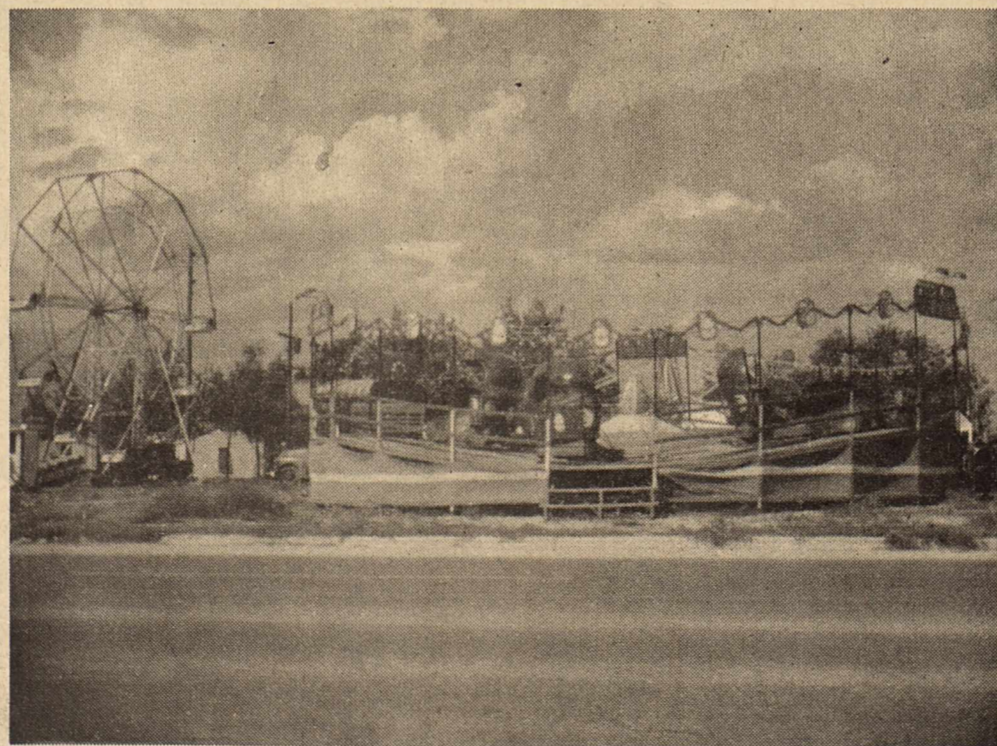

In Corpus Christi, 70 shelters are caring for 37,000 people, and 33,000 are being fed. The 46 shelters in the Victoria area are housing 13,000 people and 14,000 are being fed daily.

were providing shelter and food for 20,000 awaiting clean-up operations before they return to their homes.

At the peak of the destruction by the hurricane, the Red Cross was providing shelter and food

for 202,000 people at 540 locations.

Local citizens are urged to contribute to the fund by mailing their check to Red Cross Hurricane Relief, Box 1006, Plains.

FAIR SPIRIT--as Panhandle - South Plains Fair time draws near, Plains begins getting into the spirit of things with carnival rides furnished by Lone Star Amusements and sponsored by Plains Chamber of Commerce. The rides are located on the highway on the east side of Plains, and will be here through Saturday night.

Cotton Supply Looks Bad

Memphis, Sept. 15 (Special) - The supply situation facing cotton today contains all the elements that led to vast market losses, and a threat to American security, during and after the Korean War. The president at the National Cotton Council warned today.

J. Clyde Wilson, Phoenix, said this points to an acreage increase next year over that established for 1961 order to avoid the threat of a shortage of American cotton. He said a committee of the Council is meeting with the Secretary of Agriculture September 21 to review the problem.

The Secretary is required by law to set the national acreage allotment by October 15.

The committee, appointed by the Council Board at the close of its meeting last week in Fresno, is headed by Mr. Wilson. In a letter this week to the Council's delegate membership, he said the Board's request for an acreage increase is based on the following facts:

1. The carry-over of old crop upland cotton was down to 6.8 million bales on August 1, and official estimates of the U. S. Department of Agriculture indicate a further reduction this season.

Foreign stocks, in relation to business volume, are around the low point for the entire post-war period and contain nothing to offset a war threat.

2. The USDA's estimates for the current season, indicating only a modest reduction in the carry-over by next August 1, are relying on an export figure of only 5.75 million bales. There are indications of a higher export volume. If the national acreage allotment should turn out to be inadequate, a rush of export orders to build up foreign stocks could be expected. This could exhaust

stocks and bring on export limitations, with soaring world prices to foreign suppliers.

3. If present trends are maintained, the most likely off-take in 1962-63 will be about 15.5 million bales. Considering the relatively tight stock situation, the acreage allotment should be designed to produce at least this many bales.

4. Recent trends in yields per acre and in under-plantings demand that these factors be given full weight in calculating an acreage allotment capable of providing the production needed. This season, for the first time in many years, the estimated crop is substantially lower than the quota announced last October. Failure to take this into account could be enough in itself to result in a critical under-supply.

Recalling the similar situation during the Korean War period, Mr. Wilson explained there was a critical shortage of American cotton. An embargo was placed on exports and this jumped the price of cotton "sky high," resulting in a "vast increase in competitive production, at home and especially overseas, from which we are still trying to recover."

21 Years Of Ice Magic

Twenty one years old and perfectly beautiful That's the Ice Capades of 1961 making its annual visit to the Panhandle South Plains Fair on Sept. 24 for a six-day engagement.

This enchanting ice revue is again packed with something for everyone. Sumptuous costumes and sets, 10 magnificent production numbers, 20 acts that range from astounding feats of skill to slapstick comedy and the greatest array of championship skaters ever assembled in one show are the hallmarks of the Ice Capades.

Jimmy Grogan and Aja Zanova, both world champions, again head the list of top performers. Other outstanding performers include Peter Voss, Helga Neff, The Emanuels, Louisa Orwell, and the Maxfields, and the exciting adagio team making their first appearance with Ice Capades.

The Bruisers, hilarious knockout team that turns every performance into a bedlam of laughter, are on hand with more of their bucket brigade antics and charwoman costumes. The clown prince, Hans Leiter, is back with two new numbers along with the daffy duo of Demko and Ben Gee.

Owner-producer, John H. Harris, has outdone himself with the freshness and novelty of this year's productions. For children of all ages, there is the delicious fantasy, "The Wizard of Oz." A delightful sequence from "South Pacific" includes "Some Enchanted Evening" and "There Is Nothing Like A Dame." "Bayanihan on Ice" is an authentic interpretation of Philippine folk dances.

Singular skaters add a new dimension to segments from four operas, "Manon," "La Traviata," "Tannhauser," and "Il Trovatore." Many of the great musical comedy moments of the past half century are recaptured in "Salute to Rodgers and Hammerstein."

The precision skating lines of Ice Capets and Ice Cadets glide through the most intricate maneuvers in the "Ballet Militaire." Assembled in the Ice Capets are 36 girls who have won places in the show against great odds. For every girl who is chosen for this skating chorus, there are hundreds who do not make it.

Evening performances will be at 8:30 on Sept. 25, 26, 27 and 28, and matinees at 3 p.m. on Sept. 24, 25 and 26. The final performance is set for 5:30 p.m. Sept. 29. Tickets are on sale at the Pioneer Hotel box office, open from 10 a.m. till 6 p.m. daily.

Order by mail by writing Box 561, Lubbock, stating number

of seats, price and performance desired. Enclose self-addressed stamped envelope with check or money order for quick ticket return. Prices range from \$2 to \$4.

Open Letter To Drivers

Dear Mr. Driver:

Last week my daughter, who is six years old, started to school. She wore a dark blue dress with a white collar, black shoes and blue socks. Her cocker spaniel, Scoot, sat on the front porch and whined his canine belief in the folly of education as she waved goodbye.

During the nights, we talked about school. She told me about the girl who sits in front of her...the little girl with the yellow curls, and the boy across the aisle who makes funny faces.

She told me about her teacher, who has eyes in the back of her head, about the trees in the school yard, and about the big girl who doesn't believe in Santa Claus. We talked about a lot of things...tremendously vital, important things.

We studied spelling, reading and writing, and then to bed.

She is there now, in her room, sound asleep. And "Princess Elizabeth" (her doll) is cuddled in her arm.

She's a nice kid. She can run like a deer, and darts around like a chipmunk. She likes to ride her bicycle and go for a walk with me on Sunday afternoon.

But I can't be with her all the time. I have to work to pay for her clothes and education. So, won't you please look out for her and the other children?

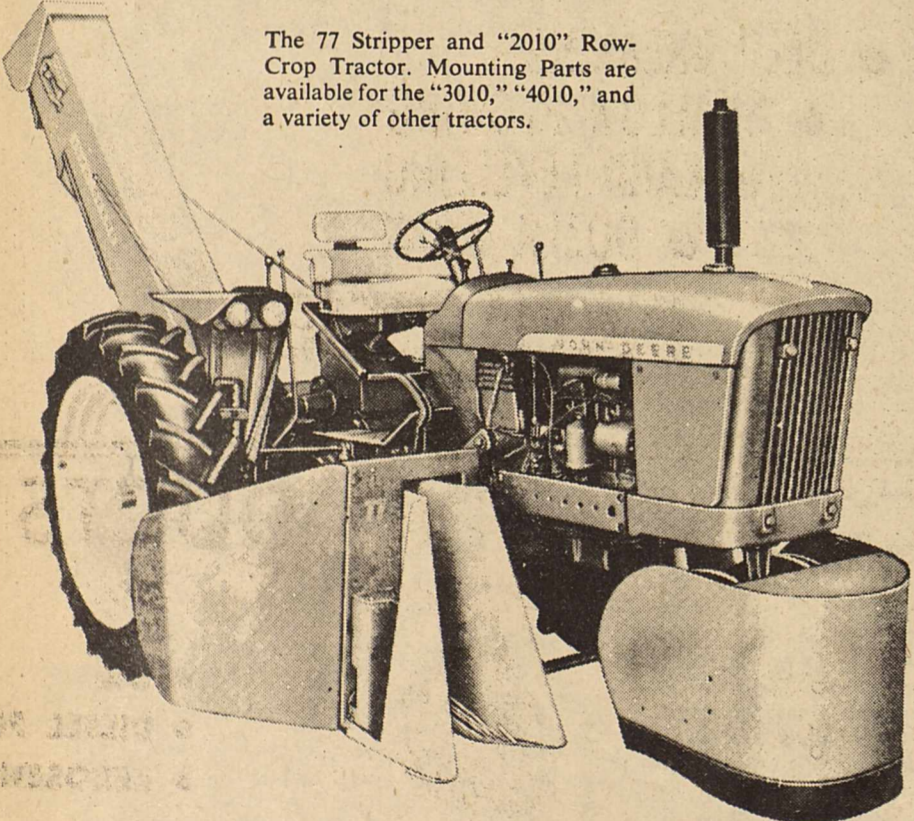

Please drive slowly past the schools and intersections, and please remember that children forget—you must not.

A Father

I see by the papers where a woman filed suit for divorce because her husband was careless about his appearance. He hadn't shown up in nearly two years.

ITS STRIPPER TIME

The 77 Stripper and "2010" Row-Crop Tractor. Mounting Parts are available for the "3010," "4010," and a variety of other tractors.

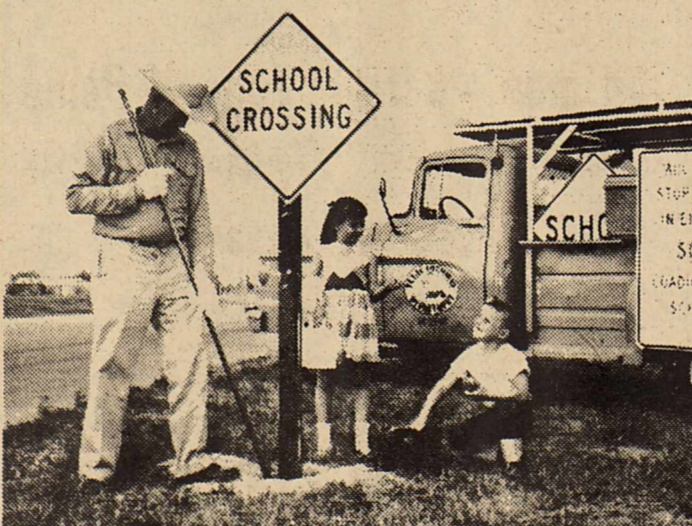

Here's bigger capacity for faster, cleaner harvesting to match the power and convenience of modern tractors

THE TEXAS HIGHWAY DEPARTMENT GETS READY FOR SCHOOL - As school days begin throughout the state, the Texas Highway Department is taking special precautions to insure the safety of school children on the way to and from school. Numerous signs of warning and caution are appearing near school sites (such as this typical sign being tamped in place by a Highway Department maintenance man) and school bus stops. Motorists are urged to carefully observe these signs to guarantee the safety of school children.

Fair News

Improvements to the Panhandle South Plains Fairgrounds will make visiting the 44th annual Fair even more enjoyable, Homer Hunt, Fair president, said.

The improvements -- totaling more than \$14,000 in cost--deal principally with the women's restroom facilities and additional paving.

The 1961 Panhandle South Plains Fair opens a six-day run on Sept. 25. The new paving will be put down in four previously troublesome areas. The concession areas just east of Fair Park Coliseum and across the road south from the coliseum will receive a total of three blocks of asphalt. The Ave. A at 4th St. entrance road will be paved its entire length and the agriculture equipment display area in front of the Swine Barn will be paved.

A new roof, new plumbing, a tile floor, and tile halfway up the walls and new paint have been added to the women's room.

Fair officials are predicting the biggest annual event in the history of the regional gathering for 1961, with more than 200,000 persons expected to push through the turnstiles.

Feature attraction of the Fair will be the 21st edition of Ice Capades, an all-new extravaganza that has been drawing rave notices throughout the eastern section of the U. S.

Ice Capades performances are set for Fair Park Coliseum at 3 p.m. on Sept. 24, 25, and 26, at 5:30 p.m. on Sept. 29, and at 8:30 p.m. on Sept. 25, 26, 27 and 28. Tickets start at \$2 and go to \$4 and may be secured in advance by writing the Lubbock Chamber of Commerce, Box 561.

Other features this year will include the popular I. Q. Zoo where chicks, rabbits and other small animals do memory tricks; the Antique Auto Show, with renovated cars of the pre-1920 era on display; the Children's Barnyard, where young animals are exhibited with their mothers; the giant Parade of Bands, which opens the Fair at 10 a.m. Sept. 25; the West Texas Twirling Festival, and many other free events.

COGBURN YOUNG

A tiny but dignified old lady was among a group looking at an art exhibit in a new gallery devoted to contemporary painting. When one picture caught her eye, she inquired, "What on earth is that?"

The gallery attendant smiled condescendingly. "That, my dear lady, is supposed to be a mother and child."
"Well, then," snapped the little old lady, "Why isn't it?"

Consumer's Corner
Guide lines from NACCA

Ladies -- be beautiful AND safe!
Lovelier hair colors, gayer lipsticks, more fragrant perfumes and deodorants all await milady's choice.

But besides being chic, the American housewife wants to be safe, too. One Missouri lady became seriously ill from the hair dye she used. Another housewife in New York discovered she was allergic to an ingredient in the deodorant she was using to keep her fresh in the wilting summer heat.

The National Association of Claimants' Counsel of America, a national group of 9,000 trial lawyers who have inaugurated a new program of consumer protection throughout the U.S., points out that manufacturers have a clear legal duty to warn and in addition, that warning must be complete and adequate.

The mere fact that only a small percentage of those who use face powder or lipstick may turn out to be allergic to them doesn't lessen the seller's responsibility, explains NACCA. Buyers should know about "warranty", which is the legal idea that products sold to the public must be fit for the use for which they're intended.

So be alert that the maker of your best new perfume is doing his duty, gals.

BLANCHE-ELSIE

Locals

Roy Edwards has been confined to his home this week. Roy is suffering from virus. Ed Hunter has been pinch-hitting for him at the drug store while he is laid up.

Linda Fitzgerald who is attending Jesse Lee's Beauty School in Lubbock visited in the home of her parents Mr. and Mrs. John E. Fitzgerald, over the week-end.

Visiting in the home of Mr. and Mrs. Joe Curry over the weekend were Mr. and Mrs. Boyce Foil of Rule. Currys and the Foils also visited in the home of their son and family of Lazbuddie.

Should you be concerned by where the younger generation is headed, it might be well to consider where it came from.

WHAT IS WRONG WITH THE NEW TEXAS SALES TAX?

The new sales tax is so politically and poorly drawn up that it will probably take 50% of the revenue raised by it to pay for the costs of its administration and enforcement.

The businessmen will have to boost the price of their products by at least 1% of their sales value in order to pay the over-head cost created for them by the present sales tax. This means the public is in effect paying a 3% instead of a 2% tax.

The public was led to believe that if a sales tax was approved by the last legislature, then the money problems of Texas would be solved. With the present tax, the money problems have just begun.

WHAT CAN WE DO TO CORRECT THE PRESENT SALES TAX MESS?

If the public will demand an immediate revision of this tax, it can be corrected.

I believe that if enough people will support a movement to rescind this new tax and substitute the following simple plan, it can be done in time to prevent the establishment of a new gigantic sales tax bureau in Texas.

Place a 1% (or less) sales tax on all merchandise sales in Texas.

If we do not force the present Governor and legislature to correct this at the forth coming special session, then it will be almost impossible to reduce the sales tax bureau during the next regular session. They will be firmly entrenched in Austin by that time.

Past experience will prove to you that a government bureau is like cancer—once it starts it will continue to spread unless a miracle occurs.

Mail To SALES TAX — BOX 1006 PLAINS RECORD, PLAINS, TEXAS

I REQUEST THAT THE FORTHCOMING SPECIAL SESSION OF THE TEXAS LEGISLATURE BE INSTRUCTED TO TAKE THE FOLLOWING ACTION.

1. ABOLISH THE RECENTLY PASSED 2% SALES TAX
2. REPLACE IT WITH A SIMPLE 1% (OR LESS) SALES TAX ON ALL MERCHANDISE SALES—NO EXEMPTIONS.

Cowboys Rolled Over By Rams

In the Plains - Portales tilt last Friday night at Portales, the score, 27 for the Rams to 12 for the Cowboys, reflected a very sound defeat for the Plains team. Looking at many of the statistics from the game however, we find that the game was a great deal closer than the score showed it up to be.

In total yards gained rushing and passing combined, the Portales team gained a total of 234 yards and Plains almost matched their total with 201 combined yards. Portales did get more first-downs than the Cowboys with the tally showing 14-9.

Portales scored four touchdowns in three of the game periods. They tallied in the first quarter with two TDs; in the second with one and with the fourth in the final period. Ward scored one of the Portales touchdowns and James ran for the remaining three, and was also responsible for the three successful extra point kicks.

Their longest scoring run was for four yards, with their entire attack centering around power plays culminating in a short but persistent gain with each attempt.

The Plains scoring successes were both accomplished by Ronnie Hendricks. The first came in the second quarter with a beautifully executed 56 yard pass completion from quarterback, Mike Fields.

Plains' second TD came in the third period when Hendricks plowed over from the Rams' three yard line.

Showing up outstandingly on the defense this week were Kenneth McGinty, the leading tackler, followed very closely with mighty impressive showings by Dennis Hickman and Steve McGinty.

Although, the Rams outweighed the Cowboys immensely, any fan would have to admit the Plains bunch never quit hitting and never quit fighting right up to the final whistle.

dotty Dan

Sporty Little Boy Car Coat

Dotty DAN achieves warmth without weight in this handsome striped cotton Tarpon cloth coat for a small boy. Snug as an astronaut in his capsule, with drawstring hood lined with orlon and cotton pile, knit cuffs, front zipper and pockets. Gold or blue with brown. Sizes 2 to 6.

Expect 200,000 To Attend Fair

An all-time high in attendance at the 44th Annual Panhandle South Plains Fair is being predicted by Fair Officials this year, with only the weather an uncertainty when the giant regional attraction opens a six-day run Sept. 25.

Officials are predicting that the attendance mark will crack the magic 200,000 barrier—a point missed by less than 6,000 persons last year.

Highlights of the Fair will be the animal exhibits, the Women's Building, art exhibits, the Merchants Building, the Parade of Bands, Ice Capades, the Bill Hames midway, the annual West Texas Twirling Festival, the I. Q. Zoo, the Childrens Barnyard and others.

More than 1,000 animals not counting rabbits, are expected to highlight the Livestock Division of the Fair. About 700 swine swamped facilities at the Fair last year and an equal number is being anticipated for 1961. There were 300 entrants in the 1960 cattle division, with more expected this year.

Fair premiums this year will be about \$22,000.

About 35 bands will be on hand at 10 a.m. Sept. 25 to open the Fair with the annual Parade of Bands. The high school musical groups will compete for \$600 in prize money, with the top band in each of four divisions—AAA, AA, A and B—to get \$100 and the second place bands getting \$50. The parade will begin at Ave. Q and Broadway after being staged on the Municipal Coliseum and Auditorium parking lot. The bands will march across Broadway to Ave. A.

Professor D. O. Wuley will again serve as Parade of Bands Committee Chairman and will be assisted by M. Deane Killion, Texas Tech band director; Paul Branom, Tom S. Lubbock High School band director; Joe Lee, Lubbock Christian College band director; and Fred Stockdale, Monterey High School band director.

The West Texas Twirling Festival is set for the final day—Saturday—of the Fair at 8 a.m. and more than 400 twirlers are expected for a variety of contests. The age limit is 21, but there is almost no minimum. Some of the twirlers haven't had their second birthday. The

twirling contest is arranged under the chairmanship of Benni Dunn Evans of Lubbock.

The I. Q. Zoo was one of the most popular attractions during the 1960 Fair and is bigger for 1961. Not only will the show feature several individuals or "solo" acts this year, but a stage show has been added that lasts from eight to 12 minutes.

The Children's Barnyard, an attraction as popular with adults as with children, will feature burros, chicks, ponies, calves, sheep and other animals to intrigue youngsters.

SOIL Conservation NEWS

Cover crops of rye, wheat, barley and oats are looking real good. Dallas Green has 320 acres at Tokio that is up to a good stand. T. A. Elmore has a good stand of wheat and has irrigated it once. T. A. got a lot of grazing last year and his land was covered at the time lots of folks were trying to keep their land from blowing.

Some cotton burrs are already being spread. Burrs not only protect the land from blow-

ing but add much needed organic matter.

Each year a Supervisor election is held in the District. This year zone 3, the north west part of the District will hold an election. Loren Gayle of Bronco is the present Supervisor. Loren says he thinks a night meeting with a short program would be the best way to have the election. The election is the first Monday in October.

If you haven't drilled rye on your new planting of Bermuda grass you might consider mulching with burrs.

Now is a good time to check the results of brush control. Ty Fields, Johnnie Fitzgerald, Chesley Bedford, Rusty McGinty and Clyde Coke all have some very outstanding examples of brush control and grass growing. Look at one, then consider doing a pasture yourself.

When have you checked with your Local Soil Conservation District to see what services it has to offer you? Each week people are surprised to find out how much information and technical assistance is available to land owners and operators through their Local Soil Conservation District.

GSPA--

ket development and service program. Funds for the organization are made possible by producers through a deduction of two pounds per thousand from grain sorghum deliveries at local elevators.

Moore said that additional information on the grain sorghum organization will be published later, to show results accomplished thus far and plans for future work.

WILMETH OIL CO.

Farm Trailers--

quirements and provision for the display of the \$5 distinguishing license, also is extended to cotton ginner, who are owners of farm trailers solely supplying without charge, to farmers to haul agricultural products to the place of process, market or storage when the gross weight of any such vehicle exceeds 10,000 pounds.

Requirements for display of the \$5 distinguishing license plate was not required until various tax collectors had been supplied with necessary plates and forms.

A motor vehicle information circular has been distributed to county tax assessors explain-

ing House Bill 1082, the farm trailer law. Plates now are available from their offices.

Some farmers and ranchers have protested the payment of the annual license fee required under the new legislation.

Sen. A. J. (Andy) Rogers of Childress, one of the trailer bill co-sponsors, said most resentment was over the \$5 license fee.

He issued a statement to the Texas Farm Bureau that "without passage of the trailer law this year, the cost of operating farm trailers would have been prohibitive."

He said for example, that before the new law passed, the license fee for a 10,000-pound trailer (gross weight) was \$55.

Elimination of brake requirements under the new law will save farmers "untold millions of dollars annually," Bob Lilly, legislative director of the Texas Farm Bureau, said.

Rogers estimated the new law would save farmers in his 15-county district \$25 million a year. He based his estimate on 100,000 farm trailers in the High Plains area.

Under the new law, farmers who fail to obtain license tags will be subject to fine and also must immediately register their trailers as a commercial trailer and obtain a commercial license.

It was pointed out the new trailer legislation has been raised a storm of protest from oil field equipment operators. Some court injunctions against its enforcement have been sought.

Provisions of the new law exempt farm trailers from the annual vehicle inspection and certificate of title act. Lighting requirement for farm trailers has been altered since 1947.

Do you know or have you ever wondered why cotton handkerchiefs are square? It is all due to a decree by Louis XVI in 18th Century France. When Marie Antoinette complained about the many shapes of handkerchiefs, the king decreed: "The length of the handkerchief shall equal its width throughout the kingdom."
