

# MOORE Or Less

by Johnnie Moore

D. C. Newsom called me this morning and said he'd like to go on record as congratulating the newly elected City administration on their first official act, bringing some rain to Plains.

I'd like to echo that sentiment.

Growl all day, and you'll feel dog tired at night.

There's this much to be said about the weather, it frequently takes your mind off taxes.

"The greatest hoax of our time is in the notion that greater spending in the so-called public sector is a means for increasing economic growth. The government lives off of the private economy, and not vice versa."

With these words, Representative A. S. Herlong (D. Fla.) made a stirring plea before Congress for tax rate reform. The tax "break" sought after by the Florida Congressman is embodied in the Herlong-Baker legislation, first introduced three years ago by Herlong and Representative Howard Baker, a Republican of Tennessee.

Just what is the essence of these bills?

Well, it would bring about the gradual reduction of taxes for everybody over a five-year period.

It reduce the basic rate for the individual to 15 per cent from 20 per cent over five years, and it would reduce the top rate from 47 to 91 per cent.

To repeat, all of this would take place over a five-year period -- and it would also reform the capital gains tax for individuals, the estate and gift tax, and the depreciation rules and methods for business.

It would make possible the accumulation of capital by corporations and by individuals for investment in America's future -- something that's severely limited under the present confiscatory rates.

And, it would, in the long run, provide much more tax revenue than would be lost temporarily by the five-year reduction program. This would result from an expanded economy which would bolster the amount of tax revenue.

## Water Cons' Given Boost

After reaching their financial goal of \$4,500 in pledges and actual money received this week, officials of the Yoakum County Water Conservation Association announced that a representative, Mr. Leslie G. McMillion, Director of Ground Water Division, of the Texas Water Commission, had been in Plains and had talked at some length to local officials.

McMillion congratulated local officials for the work done thus far in the area of starting a move to get ground water pollution brought under control in Yoakum County.

McMillion presented a project description for an investigation of the ground water resources of Gaines County, which the State group is presently taking under consideration.

McMillion made the definite statement that in the light of surveying the state of Texas as a whole, he believes that the counties of Yoakum, Gaines, and Terry have potentially the greatest danger of pollution to their under-ground water streams of all other counties in the state.

He pointed out further in the Commission's plans for the Gaines County project, where the conditions are almost identical to those in Yoakum, that the Texas Water Commission has only a relatively small amount of funds available for conducting detailed investigations of the ground-water resources of the state. The funds are appropriated to the Commission by the Texas Legislature. Much of the money will be used in cooperative State-Federal programs in which the United States Geological Survey will match available funds on a 50-50 basis. Under these cooperative programs, personnel of the Survey make the investigation and prepare the resulting reports.

The description went on to say that we believe the ground-

## HANNA IS ELECTED MAYOR; HUNTER and GLOVER COUNCILMEN

Buddy Hanna -- New Mayor of Plains

BY R. S. FAULKENBERRY

### An Open Letter To The Citizens of Plains

I wish to take this means to express my sincere congratulations to Mr. Buddy Hanna on being elected the new Mayor of Plains and to wish him every success in his term in office.

Also, I would like to thank each individual citizen that has helped me and made my job as your mayor an easier and more pleasant responsibility.

To each citizen, I would like to say that, in my opinion, Buddy is potentially a very fine mayor and can be a tremendous asset to Plains, if you,

### 70-Cent Rate For Braceros

Secy. of Labor Arthur Goldberg Thursday issued a minimum wage rate of 70 cents an hour in Texas for Mexican Braceros and established rates ranging from 60 cents to \$1 an hour in 21 other states.

The Goldberg ruling was not unexpected in Yoakum County. However, it certainly will prove unpopular to hundreds of Yoakum farmers who use bracero labor for long periods.

Based on an average contract of six weeks, with the bracero working an eight-hour day, five days a week, the 20-cent hike (up from the long-standing 50 cents an hour) will cost Yoakum farmers an estimated additional \$100,000 a year.

Said Earl McCutcheon, manager of Terry County Users Association:

"The increased hourly wage certainly is not the only additional cost that area farmers now face with respect to the bracero--and native--labor. We're faced with rising costs in transportation, contracting fees and insurance.

"For example, we have been able to effect some economy by transporting 62 braceros in our buses. The number has been cut to 35."

The new wage rates were set by Goldberg after studying reports of farm labor hearings

each citizen, will strive honed to aid him during his term. Offer him your suggestions and your criticisms. It is pretty hard for a person in office to know what the wishes, and yes, the complaints of the citizens are, if they are not made known.

And, one further item concerning which I would like to take one parting shot as I end my term as your Mayor, is the matter of the City Secretary's Office of Plains.

In regard to the individual presently filling that office, Bob Loe, I would like to make my feelings crystal clear. In my

honest opinion, Bob is well qualified for the job and has performed each and every duty of that job in a very commendable and professional manner.

When Bob was hired almost three years ago, he at that time was engaged in some farming activity of his own. It was agreed upon at that time by Bob and the City Council, that he should put his duties as City Secretary first, and then attend to his own personal business. In my opinion, Bob has always done just that, I have never known a single instance where he has put his own interests or wishes before his duties and responsibilities as City Secretary. Further, in my opinion, Bob is one of the best qualified men for the job presently available, and should be supported and encouraged in the performance by the incoming city administration and each and every individual citizen of Plains.

As I think back over my term as Mayor, I sincerely believe that on the part of some citizens, certainly not most, but some, there is something of a misunderstanding concerning the duties of any City Secretary of Plains.

Possibly the name City Secretary is a bit misleading in that his duties are actually those of a city manager and not of a secretary that would be bound to his desk for eight hours a day. The City Secretary of Plains is actually expected to oversee each of the City's different business enterprises, which includes such things as our light plant, transmission lines, gas lines, water facilities, sewage works, garbage disposal, plus the tax rolls, bond repayments, and public relation, just to mention a few. In fact, he is to be responsible for all the business of the city of Plains to the Mayor and the city Council.

This means, of course, that any Secretary hired by the City of Plains, is, of necessity, going to have to be out of the office a great deal of the time, and personally, I would be pretty dissatisfied with a Secretary that though he could perform his duties sitting behind a desk at City Hall.

Respectfully,  
R. S. Faulkenberry

### Year's Rainfall

It was reported by Mr. Johnny Hague, local official weather observer, that the total rainfall received in Plains for the entire year of 1962 had thus far totaled only 1.28 inches. Monthly totals are as follows: January -- .32; February -- .32; March -- .26; April -- .38. The April total of .38 of an inch was all received on Wednesday, the 4th.

## Heavy Turnout Recorded in Vote

In the municipal election held in Plains Tuesday, balloting was reported to be unusually heavy, in that 162 citizens cast ballots for the selection of a mayor, two councilmen and a city marshal.

Running uncontested in the race for mayor, L. R. (Buddy) Hanna, owner and operator of Buddy's Auto Parts, received 133 of the 162 ballots cast with the write-in votes being

divided as follows:

R. S. Faulkenberry, outgoing mayor of Plains, received 20 votes.

Jack Pierce, football and track coach at Plains High School received 3 votes.

Foy Cogburn, co-owner of Cogburn-Young's in Plains received one vote.

In the race for city council positions, two positions were being vacated by the expiring

terms of R. D. Romans and Kenneth Hale.

Neither Hale nor Romans re-announced for the council, but Hale's name was inserted on the ballot by means of a petition signed by a group of Plains citizens.

Running also for council posts were Edwin (Ed) Hunter and Vance Glover, both operators of Plains businesses.

Two candidates receiving the largest number of votes were Glover and Hunter who received, respectively, 105 and 98, while the petition candidate, Hale received 80 votes. Also on write-in candidate, Duane McDonnell, received two votes for the office of councilman.

Incumbent, O. D. Smith, announced his intention to not run again for the office of City Marshall, after which, Don Cooke, had his name placed on the ballot for the office.

A write-in candidate, Duane McDonnell, edged Cooke out by the very small margin of four votes. Cooke received 59 and McDonnell 63.

Several other persons received varying numbers of write-in votes as follows: O. D. Smith received 17, Billy Kennedy received 1, Frank Ellison received 4, Tommy McDonnell received 3.

### School Board ★★★★★ ★★★★★ Election Sat.

Voting in Plains Independent School District election will be in the Plains High School Library Saturday, April 7, from 8 a. m. until 7 p. m. Balloting in the county school board election will be held at the same time and place.

★★★★★★★★★★★★★★

### O'Donnell Garners Title

PLAINS (Special) —O'Donnell scored 134½ points to run away with the second annual Cowboy Relays here Saturday, dethroning champion Plains by 4½ points. Second place Plains finished with 88½ points, Tatum had 63½, Wink recorded 44½ and Ralls managed 43½.

O'Donnell won first in the high jump, the 440-yard relay, the 220-yard high hurdles and the 120-yard dash. Jerry Utecht captured the high jump with a 5-9 leap and placed first in the 120-yard high hurdles with a record 15.7 run.

New records were set in every event except the broad jump and the 220-yard dash.

Shot Put—1. Charles Edwards, Ralls; 2. Aldridge, O'Donnell; 3. Wilson, Tatum; 4. White, O'Donnell; 5. Purlow, O'Donnell; 6. Horton, Tatum. Distance: 49-11 (new record, old record of 48-9 set by Edwards in 1961).

High Jump—1. Jerry Utecht, O'Donnell; 2. He among Thomson, Wink, White, O'Donnell, and Potter, Crosbyton; 3. tie among Bates, Wink, Moore, O'Donnell, Fields, Seagraves, Maston, Susan, Smith, Plains, Blakeman, Frenship, Height: 5-9 (new record, old record of 5-8 set by White in 1961).

Broad Jump—1. Charles Decker, Sundown; 2. May, Sudan; 3. Lopez, O'Donnell; 4. Wilson, Tatum; 5. Hendricks, Plains; 6. tie between Horton, Tatum, and Tatum, Plains. Distance: 28-2½.

Pole Vault—1. Jim Hart, Tatum; 2. tie between Hawkins, Plains, and Moore, O'Donnell; 4. Perkins, Crosbyton; 5. Lina, O'Donnell, Witte, Frenship, Robertson, Plains, and Fields, Ralls. Height: 11-2 (new record, old record of 10-3 set by Jim Young of Seagraves in 1961).

Discus—1. James Hooper, Plains; 2. Aldridge, O'Donnell; 3. Edwards, Ralls; 4. White, O'Donnell; 5. Faulkner, Seagraves; 6. Deering, Ralls. Distance: 130-8½ (new record, old record of 125-3 set by Wardlaw of Hale Center in 1961).

440-Yard Relay—1. O'Donnell (Burleson, Lopez, Jordan and Marrow); 2. Plains; 3. Wink; 4. Tatum; 5. Seagraves; 6. Sundown. Time: 44.2 (new record, old record by O'Donnell of 45.4).

880-Yard Run—1. Lee Everett, Idalou; 2. Jones, Wink; 3. Huddleston, Plains; 4. Deibel, Sundown; 5. White, Frenship; 6. Hawley, Ralls. Time: 2:04.7 (new record, old record 2:11.5 set by Billy Key of Sundown in 1961).

120-Yard High Hurdles—1. Jerry Utecht.

(Continued on page 8.)

### Farmers And Ranchers To Meet Monday

A meeting has been called for Monday night, April 9, at 8:00 p. m., in the District Courtroom. This meeting will be of interest to all cattle owners in Yoakum County. The main topic for discussion is the Brucellosis testing program.

Mr. C. W. Cleveland, chairman of the Yoakum County Animal Health Committee has called this meeting to give cattle owners an opportunity to make a decision about the program.

Every cattle owner is urged to attend and all interested parties are invited.

## Plains State Bank's Fifth Anniversary

Friday, April 6, will mark the fifth anniversary in Plains for the Plains State Bank, it was announced this week by Mr. Bill Loyd, president of the bank.

Many present residents of Plains will remember back in 1957 when the bank was opened for business in the building now occupied by Glover's Cleaners.

Business was conducted in those quarters until the completion of the new building presently occupied by the bank. The new building was moved into and open house was held on Saturday, November 21, 1959.

Showing the unprecedented growth of the Plains State Bank has been a continual upsurge of business as is reflected in the comparison below. First statement shows the opening day condensed version of Resources and Liabilities and the second shows the same resources and liabilities as of March 26 of this year.

OPENING DAY STATEMENT OF CONDITION	
PLAINS STATE BANK	
Plains, Texas	
April 6, 1957	
RESOURCES	
Loans and Discounts	\$ 2,000.00
U. S. Bonds and Securities	126,967.50
Cash and Due from Banks	1,072,292.12
Other Assets	1,221.55
<b>Total Resources</b>	<b>\$1,202,481.17</b>
LIABILITIES	
Capital	\$ 75,000.00
Certified Surplus	50,000.00
Undivided Profits	24,590.10
Individual, Public and Corporation Deposits	\$967,891.07
Bank Deposits	85,000.00
<b>Total Deposits</b>	<b>1,052,891.07</b>
<b>Total Liabilities</b>	<b>\$1,202,481.17</b>

See Current Statement On Page 8.

Many observers point to the fact that the very rapid rate of growth where the bank is concerned has gone hand-in-hand with the fine rate of growth experienced by the Plains area during the five year period, and in fact many attribute a part of the reason for the growth in Plains and the surrounding area to the fact that area citizens are fortunate enough to have a locally

(Continued on page 8.)

### Tsa Mo Ga Club Will Not Meet April 9th

Tsa Mo Ga Club will dispense with their regular meeting this Monday evening, April 9th. Because of conflict with the Civil Defense Program in session at the school, members of the Dirt Gardeners' Club will be unable to give their program "Gardens Countdown" for the Tsa Mo Ga Club members.

Tsa Mo Ga Club members are urged to attend the Caprock District Convention this Monday and Tuesday, April 9th & 10th in Plainview, Texas. Delegates representing the Tsa Mo Ga Club will be Mrs. J. W. Moore, Jr. and Mrs. Bill Loyd. Eleven members are scheduled to attend the convention.

## Plains I. L'ers To Go To Region

A letter from the High School principal of Seagraves was received this week concerning the interscholastic League Contest which will be held in Lubbock Friday and Saturday April 13th and 14th.

The following students from Plains High School have been certified to the Regional Director.

Cote Trout and James Tippet-Debate; Marsha White-Girls Extemporaneous Speaking; Larry Williams, Boys Poetry Interpretation; Donna Nugent-Girls Poetry Interpretation; Weldon Spencer-Boys Prose Reading; Jerry Jones - Alt.-Boys Prose Reading; Sarah Hunt-Girls Prose Reading; Marsha White-Ready Writing; Sandra Williams - Shorthand; Sandy Canales-Alt.-Slide Rule; James Tippet-Science; Girls Volleyball Team-10 members; Milton Watson, Weldon Spencer-Boys Doubles; Wanda Anderson-Girls Singles.

SUBSCRIPTION RATES: \$3 per year in Yoakum and Terry Counties; \$4 per year elsewhere.

## National Library Week April 8-14

THEME . . . READ-AND WATCH YOUR WORLD GROW

What National Library Week does: Provides . . . dramatic national support for local reading and library development programs in 5,000 communities thereby increasing their effectiveness.

Attracts . . . Wide public attention to the growing demand for improved library service and to the changing role of the librarian in the community.

Increases . . . general awareness that libraries of all kinds are major resources of the community thus stimulating public support of them.

Fosters . . . reading as an essential activity at home, in schools and colleges, in business and in community.

Inspires . . . more people to mere thoughtful reading.

What you can do: Whatever your occupation or private interest, National Library Week can help you achieve your own goals by joining your efforts toward improvements of reading facilities and library services in your community with those of your neighbors.

Factors: According to American Library Association lists, Texas is 44th among the states in library service (You can help libraries attain a standard befitting the State. 2nd in area. 6th in population)

There are 50 Texas Counties where there is no public library service of any kind.

96 Counties with Libraries spent in 1960 only \$1,277,139.00 or 11.8% of the possible library support.

\$6,305,880.00 spent on all public libraries in one year in Texas represents 74¢ per capita for the population they serve.

Out of the total population in Yoakum County of 8,032, 3,842 are patrons of the libraries. The County Library budget has allotted \$1000.00 for the purchase of new books in 1962. That amounts to 26¢ per patron or 11¢ per capita.

Since January 1 Plains Library has had 41 new patrons and circulated 3074 books at an average of about 64 per day. Largest circulation for 1 day was 131.

Yoakum County Library of Plains, Texas--Mrs. Norelle Sloan Librarian.

## Texas Farm Families Repay \$39,146,268 To FHA

Texas farm families repaid \$39,146,268 in principal and interest on U.S. Farmers Home Administration loans last year, L. J. Cappelman, the agency's State Director, announced in Temple today. This was 19.9 percent above collections of the previous year in the State.

A total of 3,078 Texas families completely repaid their loans in 1961. Mr. Cappelman said the Farmers Home Administration loan program is an outstanding example of those USDA activities producing large returns to the U.S. Treasury which nearly balance out initial cost.

Mr. Cappelman said the repayment record of Texas farm families demonstrates their willingness to make sacrifices now in order to develop sound and efficient farms for the future.

Farmers Home Administration makes loans to young farmers, small farmers attempting to improve their operations, farmers whose equities have been wiped out by low returns of recent years, and those hard hit by natural disaster. Loans are made to both part-time and full-time farmers. Before these borrowers come to the Farmers Home Administration, they were unable to obtain credit from any other sources.

During the past 25 years, nationally, about two million

farm families have borrowed \$5.5 billion from the Farmers Home Administration and its predecessors. To date they've repaid more than \$4 billion of this. Most of the amount outstanding has not fallen due. Interest collections far exceed losses on principal.

A major reason for the excellent repayment performance of FHA borrowers in Texas, Mr. Cappelman said, is the management aid supplied by the agency to all of its borrowers.

"The Farmers Home Administration programs include guidance and technical aid as well as credit. The aim is not only to produce better farmers but also to provide the entire farm family greater opportunities to develop their ability to manage farm and home resources, including capital available to them," Mr. Cappelman said.

He reported that in 1961 Farmers Home Administration advanced over \$40 million in supervised loans to Texas families. Following are some highlights of the agency's lending program last year in the state--

--Operating loans for equipment, livestock and other expenses totaled \$40,301,000 to 3,531 farmers.

--140 farmers received a total of \$2,631,940 to buy, develop or enlarge farms or refinance debts, \$1,619,870

of this was advanced by private lenders under the agency's insured loan program.

--Approximately 648 loans totaling \$5,849,030 were made to farm families and others to build or repair dwellings and other buildings.

--About 19 individuals and 4 associations received soil and water conservation loans totaling \$613,038. Watershed loans amounted to \$1,485,000.

--Emergency loans, amounting to approximately \$9,505,558 assisted 781 farmers hard hit by floods, droughts and other natural disasters.

Due to the increased number of requests from farmers and eligible applicants for Operating Loans and Rural Housing Loans, all of these funds for the fiscal year of 1962, ending June 30, 1962, have been obligated. There are funds, however, for Emergency Loans; Farm Ownership Loans; Soil and Water Loans, for individuals and associations; as well as Watershed Loans.

Special message to students and part-time workers from the Internal Revenue Service.

Refund payments of federal income taxes withheld from wages are paid only upon the filing of a proper federal income tax return, John J. Sloan, Administrative Officer, of the IRS today reminded Lubbock, Texas taxpayers.

"While everyone whose income was \$600 or more during 1961 must file a return \*\$1,200 for those 65 and over)," the IRS representative stressed, "we find frequent cases of people apparently believing that because their tax withheld was greater than their tax owed, they will automatically get a proper refund."

"Somewhat the same belief is held by STUDENTS or other young people who worked during a portion of the year and whose taxes were withheld from their salaries or wages. To get a refund, they, too, must file a return, even if such income was under \$600."

"For all filers," the IRS representative said, "the filing deadline this year is Monday, April 16, because April 15 falls on a Sunday; but those taxpayers entitled to a refund would do well to file as soon as possible."

Neither farmers, nor taxpayers, nor the nation as a whole, would benefit from the adoption of the American Farm Bureau's proposed "Cropland Retirement Act," the Board of Directors of the National Farmers Union said in a statement released Saturday at Denver.

The Farmers Union statement, made on the eve of the 60th Annual Convention of the organization, declared that the same basic weaknesses which caused the failure of the old soil-bank, would predispose the new plan to failure.

"In fact, the operation of a retreat soil-bank on an expanded scale, with reduced farm price supports and emphasis on whole-farm diversion, would

be nothing but a one-way ticket to disaster for farmers, Main Street, and rural communities," said the comment on the plan for revival of the soil-bank, which was heard before the House Agriculture Committee this past week.

Comparing the new soil-bank proposal with the Kennedy Administration's proposed "Food and Agriculture Act of 1962," the Farmers Union leaders said that the Administration plan would provide higher income for farm families at a lower cost to the government and would assure a more substantial cutback in excess production and surplus carryover.

The depressing effect of the soil-bank plan on farm income, plus the emphasis on taking whole farms out of production, would have disastrous repercussions on the whole rural community, the Farmers Union group said.

Copy of the Board statement is attached.

ABILENE--Ten varsity basketball players and six athletes from the freshman squad have been recommended for Hardin-Simmons University letter awards for the 1961-62 season, according to athletic director Jack Thomas.

The varsity, numeral winners include three seniors, two juniors and five sophomores. The seniors include Paul Hinds of Ranger, Dallas Christian of Stamford and Richard Nelson of Dallas. Hinds and Christian will be receiving their third Cowboy letters.

Two-year letter winners include Nelson and juniors Barry Oxford of Fort Worth and Jack-te Barron of Granbury. Sophomores to be awarded their first varsity numerals include Mike Meriney, Ramsey, N.J.; Darel Petty, Highlands; Don Seamster, Borger; Jim Williams, Plains; and Nick Wilson, Lipan. Ben Neel of Fort Worth will also be awarded a manager's letter.

Freshman awards will go to Jim Bray of Abilene, Phil McCallum of Candor, N.C., Johnny Paylor of Clyde, Frank Poe of Vacaville, Calif., Weldon Ware of Snyder and Tom Womble of Morse.

Announcement was made this week that a meeting in the interests of the Yoakum County Co-op Gin Association will be held Monday, April 9 at 8 p. m. in Plains.

The meeting is scheduled to be held in the old courthouse.

Each member and interested person has been requested to be in attendance as some definite plans are to be undertaken.

It was revealed by a spokesman for the group that the pledged acreages for the proposed gin have been approved by the Co-op Bank in Houston and that the money from that lending institution is believed to be available if the fifty-per cent to be put up by members in the Plains area can be secured.

Accidents in the farm home kill more than 2,700 and injure nearly 400,000 farm residents each year.

Good News Dept.: There's absolutely no danger of developing eye-strain from looking on the bright side of things . . . The winningest jockey of all time--Johnny Longden--is 55 and still riding . . . A definite advantage of automation is that the machines don't stop for coffee breaks . . .

"These words spoken by the Secretary of Treasury re-emphasize the need for the purchase of Savings Bonds by all American," Mr. Moorhead pointed out.

## Night Lions Hear Speech Instructor

Two guests and 25 members attended the Night Lions meeting in Raney's Restaurant Thursday night, when Mrs. E. D. Strickland who is a Special Education Teacher in Dumas Schools was the guest speaker.

Mrs. Strickland conducts speech classes for handicapped children and serves as private tutor to some who are unable to attend class. She described the methods used in teaching handicapped children to enunciate, when through some affliction they have been hindered in their speech. She also provided special services where injuries have been sustained to those attending class, going to their homes and assisting them so they would not be slowed in their progress and have difficulty when they were able to return to class. Her discussion was much enjoyed by the Lions present.

Mrs. Strickland is a Plains High School graduate and the daughter of Mr. and Mrs. Roger Harvey.

## Must File Claim Refund

Special message to students and part-time workers from the Internal Revenue Service.

Refund payments of federal income taxes withheld from wages are paid only upon the filing of a proper federal income tax return, John J. Sloan, Administrative Officer, of the IRS today reminded Lubbock, Texas taxpayers.

"While everyone whose income was \$600 or more during 1961 must file a return \*\$1,200 for those 65 and over)," the IRS representative stressed, "we find frequent cases of people apparently believing that because their tax withheld was greater than their tax owed, they will automatically get a proper refund."

"Somewhat the same belief is held by STUDENTS or other young people who worked during a portion of the year and whose taxes were withheld from their salaries or wages. To get a refund, they, too, must file a return, even if such income was under \$600."

"For all filers," the IRS representative said, "the filing deadline this year is Monday, April 16, because April 15 falls on a Sunday; but those taxpayers entitled to a refund would do well to file as soon as possible."

Neither farmers, nor taxpayers, nor the nation as a whole, would benefit from the adoption of the American Farm Bureau's proposed "Cropland Retirement Act," the Board of Directors of the National Farmers Union said in a statement released Saturday at Denver.

The Farmers Union statement, made on the eve of the 60th Annual Convention of the organization, declared that the same basic weaknesses which caused the failure of the old soil-bank, would predispose the new plan to failure.

"In fact, the operation of a retreat soil-bank on an expanded scale, with reduced farm price supports and emphasis on whole-farm diversion, would

be nothing but a one-way ticket to disaster for farmers, Main Street, and rural communities," said the comment on the plan for revival of the soil-bank, which was heard before the House Agriculture Committee this past week.

Comparing the new soil-bank proposal with the Kennedy Administration's proposed "Food and Agriculture Act of 1962," the Farmers Union leaders said that the Administration plan would provide higher income for farm families at a lower cost to the government and would assure a more substantial cutback in excess production and surplus carryover.

The depressing effect of the soil-bank plan on farm income, plus the emphasis on taking whole farms out of production, would have disastrous repercussions on the whole rural community, the Farmers Union group said.

Copy of the Board statement is attached.

ABILENE--Ten varsity basketball players and six athletes from the freshman squad have been recommended for Hardin-Simmons University letter awards for the 1961-62 season, according to athletic director Jack Thomas.

The varsity, numeral winners include three seniors, two juniors and five sophomores. The seniors include Paul Hinds of Ranger, Dallas Christian of Stamford and Richard Nelson of Dallas. Hinds and Christian will be receiving their third Cowboy letters.

Two-year letter winners include Nelson and juniors Barry Oxford of Fort Worth and Jack-te Barron of Granbury. Sophomores to be awarded their first varsity numerals include Mike Meriney, Ramsey, N.J.; Darel Petty, Highlands; Don Seamster, Borger; Jim Williams, Plains; and Nick Wilson, Lipan. Ben Neel of Fort Worth will also be awarded a manager's letter.

Freshman awards will go to Jim Bray of Abilene, Phil McCallum of Candor, N.C., Johnny Paylor of Clyde, Frank Poe of Vacaville, Calif., Weldon Ware of Snyder and Tom Womble of Morse.

Announcement was made this week that a meeting in the interests of the Yoakum County Co-op Gin Association will be held Monday, April 9 at 8 p. m. in Plains.

The meeting is scheduled to be held in the old courthouse.

Each member and interested person has been requested to be in attendance as some definite plans are to be undertaken.

It was revealed by a spokesman for the group that the pledged acreages for the proposed gin have been approved by the Co-op Bank in Houston and that the money from that lending institution is believed to be available if the fifty-per cent to be put up by members in the Plains area can be secured.

Accidents in the farm home kill more than 2,700 and injure nearly 400,000 farm residents each year.

Good News Dept.: There's absolutely no danger of developing eye-strain from

CANDIDATES--These are the men who seek the gubernatorial nomination of the Democratic and Republican parties in the primaries next month. From left in upper row, all Demos: Price Daniel, John Connally, Marshall Formby, Don Yarborough. From left in bottom row, first two also are Demos: Will Wilson, Edwin Walker. In order, next two are GOP candidates: Roy Whittenburg, Jack Cox. Daniel is going after an unprecedented fourth term. Connally a Fort Worth business-

man, is former secretary of the Navy. Wilson presently is attorney general, and Walker is a retired Army general. Yarborough is a Houston attorney, is not related to Sen. Ralph Yarborough. Formby, of Plainview, is former state highway commissioner and owns radio stations. Whittenburg is publisher of the Borger News-Herald, and Cox is a Breckenridge independent oil man.

### Who's the Next Governor of Texas?

Certainly, each of eight Demo and GOP candidates going after the office right now think that he will get the nod in November.

In an effort to pin down a "trend," scores of polls (of

public opinion) have cropped up, polls conducted by private citizens, radio and television stations, newspapers, organizations in the polling business, and others.

Following are the combined

results of polls just completed by 24 Texas newspapers. Of 2,587 "reactions" to the pollsters, the count was:

John Connally 708, Price Daniel 489, Don Yarborough 188, Will Wilson 152, Marshall

Formby 188, Edwin Walker 82, Jack Cox 198, Roy Whittenburg 5, "undecided" 576.

All are Democratic hopefuls except Cox and Whittenburg, who are Republican. Perhaps the most important

### Second Annual Caprock District TFWG

The official call to the Second annual convention of Caprock District, Texas Federation of Women's Clubs will meet in Plainview, Texas, April 9th and 10th. **ATTEND CHURCH Every Sunday**

The Church Is Your Guide-Post To Better Living.

The Churches Of Plains Welcome You

**With Faith - - You're Never Alone**  
*The Marvels of God's Creations*

WHY DO FISH LIVE IN WATER? We can answer this question partially by saying: that their lungs were created to draw oxygen from the water. However, to know how and why, we must look to God's word "In the beginning God created the heaven and the earth." . . . "And God said, let the waters bring forth abundantly the moving creature that hath life . . ."

Attend Church and worship the one who created these marvels.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Engagement Announced

Mr. and Mrs. Tom Sims of Bronco, announce the engagement and approaching marriage of their daughter Jan, to Johnny James of Levelland, son of Mr. and Mrs. Jeff James of Spur. The ceremony will be read April 15, in the First Methodist Church of Plains.

Jan is a graduate of Plains High School and James is a graduate of Spur High School.

### FHA News

FHA had their regular monthly meeting on Monday, April 2, 1962. The program was a lecture and a film on Civil Defense given by Judy Pool and Roberta Snodgrass.

Ann Lattimore was elected Girl of the Month, Dana Bryson was elected voting delegate for the State FHA meeting to be held in Dallas April 27, 28. Sarah Hunt was elected alternate voting delegate.

Paula Tidwell gave a report on the Area II meeting held in Midland on March 24. Twenty-three on the local FHA chapter members attended, along with

one of their Chapter Mothers, Mrs. I. L. Smith, and their Chapter Advisor, Miss Nelson.

Activities for FHA Week were discussed and planned at this meeting.

CHICAGO (UPI) — Houses in the future will consist of detachable rooms to trade in as the family's needs change, an electrical company executive predicts.

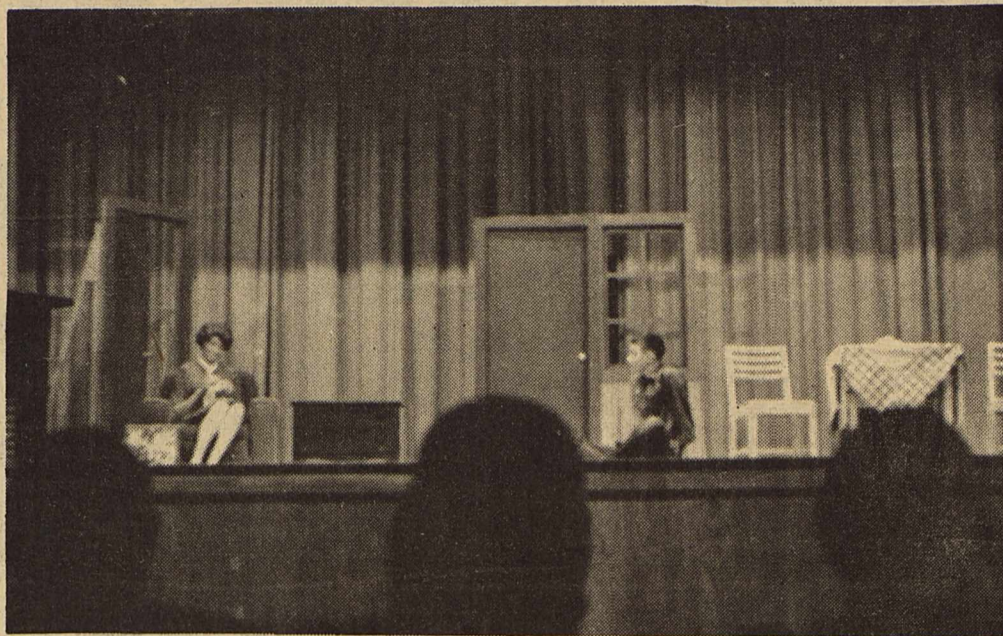

G. T. Bogard of General Electric said the first such houses, with prices beginning at \$13,500, will be on the market within a few years.

The detachable-room houses would be fashioned of foamed plastic panels with an inside and outside surface of any desired material — wood, aluminum, simulated stone, brick or plywood. They would be built on the modular principle. The basic size of rooms might be 12 x 12 feet, with expansion possible in 4-foot units.

Under this plan, newlyweds could buy a lot in a modest priced sub-division and purchase a house with two 12 x 12 foot modules for a living room and bedroom. A bath and laundry could be added by the purchase of a 4 x 12 foot module, while the living room might be enlarged by the addition of a 4 x 12 foot dining alcove on one side to counter-balance a similar-sized kitchen with built-in appliances on the other side.

Additional bedrooms and other rooms could be purchased as the size of the family increased. Finally, if the couple decided to move to another location, they could have their light-weight house disassembled, carted to the new lot and re-erected.

## Of Interest To THE WOMEN

One-act play scene from presentation given by Plains in Inter-scholastic League Contests. Plains won second place bowing to Seagraves who won first.

### DC Order of Rainbow Sets Style Show

Denver City Assembly order of Rainbow for girls will hold their second annual style show and tea, Saturday, April 7th at 3 p.m. in the community building.

The theme for the occasion will be a Hawaiian theme with

"Aloha Hawaii" carrying out the main setting.

Denver City Rainbow girls and Eastern Star will be models for the style show. There will be thirty girls to model and ten ladies. The department stores

of Denver City are furnishing the clothes.

Mrs. W. T. Porter is mother advisor.

Tickets will be available at the door and are 50¢ each.

### The Local Angle

Our congratulations to the Jack Pierce's on the arrival of a new son. The little man arrived Monday morning at 7:13 in the Yoakum County Hospital at Denver City. He weighed in at 8 pounds and 11 ounces and was named Patrick Jack. He was welcomed by a brother Chris and a sister Penny. The proud grandparents are Mr. and Mrs. Frank Whitlock of Plains and Mr. and Mrs. C. L. Pierce of Amarillo.

Congratulations go to the Phil Chandler's also, on the birth of a baby girl. The little miss was born Saturday morning at 10:45 in the Yoakum County Hospital in Denver City. The little miss weighed in at 3 pounds and was named Elizabeth Armina after her great-grandmothers. The young lady is welcomed into the world by two brothers, Tony and Scottie. The grandparents are Mr. and Mrs. T. J. Murphy of Plains. The mother and daughter were reported as doing fine.

Mrs. Luther Hinkle and Mrs. S. F. Pride were in Morton on business Monday.

There are a lot of children down with the chicken-pox this week. Those that we know of are Cheryl Kay Moore, Karen and Robie Hale, Paul Hyman, Joey Lowe, Neal Bearden, and Stevie Lackey.

Mr. and Mrs. Keith Deprest were visitors in the home of her parents Mr. and Mrs. I. M. Robertson on Sunday.

Mr. and Mrs. Keith Green and Jerry Wayne of Canyon were visitors in the home of her parents Mr. and Mrs. Robert Chambliss and her sister Mrs. Kenneth Hale over the week end.

The Kenneth Hale's, Jerry Hale's and Jesse Hale's attended the funeral of their Uncle Chock Graham at Plainview Saturday.

Mrs. Simon Cantu is at home after having surgery in the Denver City Hospital. Her mother from Devine, Texas is staying here while she is recuperating.

Mrs. Leroy Neal and children and Jeaney Kennedy were week-end guests of their parents Mr. and Mrs. John Anderson.

Treta Kay Rowland is confined to her home with the

CASUAL—This one-piece suit with little boy shorts turns into a sundress with addition of matching skirt. By Cole of California, it's made from crisp cool cotton with the look and feel of fine silk.

### Methodist Set Conference

Plains Methodist Church will hold its Fourth Quarterly Conference Sunday night of April 15th at 7:00. All officers, commissions and boards will be set up and elected by the Quarterly Conference at this time. Dr. D. D. Denison the Brownfield District Superintendent will preach and preside at the Quarterly Conference.

All members and friends of the Plains Methodist Church are urged to attend this important meeting and service. A light meal of sandwiches, cookies, and drinks are to be

enjoyed after the Church Service and Conference. Each member and family is reminded to bring items for the lunch.

### Youth Center Election Slated

Officers of the Yoakum County Youth Center are: Sam St Romain president; Newell Squires, Vice president; Nina McDonald Secretary; Jerry Moore Denver City reporter;

and Betty Ham Plains Reporter. There has been a new pool and snooker table added to the game room. Also the juke box has been done away with and a record player with speakers added.

There is a dart board, candy and Coke machines and table games.

The youth center is open each Friday and Saturday night from 7:30 to 11 p. m.

There is a membership drive planned for May. Members now total 100 and the dues have been lowered from \$5.00 to \$3.00 a year.

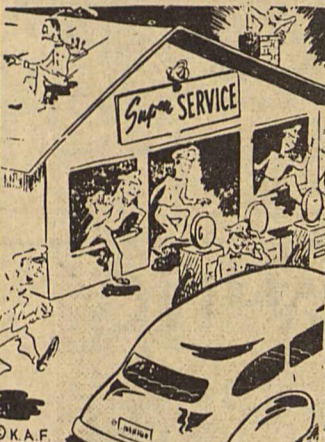

A dance is planned for Saturday night with the Regals of Odessa furnishing the music. At seven o'clock the youth board will meet to hold election of officers for another year.

All youth are urged to attend this election meeting and eighth graders who will be freshmen next year are invited.

Mrs. Rudy Seljos is the sponsor.

Parents should exercise the same care and caution with ultra-thin plastic bags around the home and with children as they do with knives, matches, electric outlets, etc.

**Accident Deaths Down**  
NEW YORK (UPI) — Across the nation, the death rate from accidents hit an all-time low during 1961, statisticians at the Metropolitan Life Insurance Co. report.  
The rate: 50 per 100,000 population.

**Nice Weather**  
HAMILTON, Bermuda (UPI) — The average annual temperature of Bermuda is 70.7 degrees. The spring runs from 64 to 71 degrees; summer from 74 to 80; autumn from 70 to 75; and winter from 66 to 68.

### Demos Get Letter From Tad Smith

State Republican chairman, Tad Smith of El Paso, today called on Texas democratic congressmen to either repudiate or endorse a democratic book which contains "The most dangerous foreign policy recommendations ever proposed by members of a major political party."

In a letter mailed to all Texas democratic congressmen, chairman Smith referred to "The Liberal Papers" published last week. The book is a product of a group calling itself "The Liberal Project," made

up of 35 present or former democratic members of the house of representatives.

The Democratic proposals, chairman Smith said, "Not only repeat the communist line, they go beyond the communist line and contain recommendations heretofore expected of only the most left wing extremists."

He told the congressmen that their position on the "Liberal Project" is one of "vital interest to the citizens of Texas who, I believe, are totally opposed to the proposals in "The Liberal Papers."

Smith stated that the two Texas Republican congressmen in Washington were as unalterably opposed to this type of "fuzzy thinking" as he was and will join him in exposing these extremists.

He called on the Texas Democratic congressmen to reassure Texas citizens about their own positions, asking each congressmen whether he was among the 23 unnamed Democrats who were said to be "close to the liberal project." And whether the congressmen approved or disapproved of several measures advocated by the book, including recognition of Red China, sponsorship of Red Chinese membership in the UN, recognition of Red China's claim to Formosa and the Pescadores, financial aid for Red China, shutdown of American missile bases in Europe, demilitarization of the West German Republic, recognition of East Germany.

"The communists in their wildest dreams never expected such concessions," said chairman Smith.

April 1, 1896—The Ladies' Home Journal described a 20-room Dutch Colonial home which the editors said could be built anywhere in the U.S. for \$5,000.

April 2, 1917—President Wilson called for a declaration of war against Germany. Said Wilson: "The world must be made safe for democracy."

April 8, 1952—President Truman seized the steel industry to forestall a general strike.

April 12, 1955—Dr. Jonas E. Salk's anti-poliomyelitis vaccine was officially pronounced a success.

April 23, 1949—Governor Adlai E. Stevenson vetoed a bill that would require cats in that state to be held in leash. Said A. E. S.: "It is in the nature of cats to do a certain amount of unescorted roaming. The State of Illinois and its local governing bodies already have enough to do without trying to control feline delinquency."

### APRIL 16 IS IT

Taxpayers will get an extra 24 hours this year in which to file their federal income tax returns. Because the normal filing date of April 15 is a Sunday, the deadline will be extended until midnight Monday, April 16. By law, returns must be received at IRS offices before the deadline. In practice, the bureau recognizes as timely any return postmarked by midnight of the final day.

### Foreigners Hurt U.S. Tool Trade

NEW YORK (UPI) — Foreign competition has killed off 41 per cent of the jobs in the American hand tool industry since 1947, according to Steelways, official publication of the American Iron and Steel Institute.

About 100 American hand tool producers have been affected by the "hardware disease" — imported hand tool price competition due largely to the lower comparative wage rates which favor foreign producers of hammers, screwdrivers, pliers, wrenches and other hand tools. The publication said.

Among competitive marketing examples it cited were supermarkets offering needle nosed pliers made in Japan at 59 cents a pair, while the town hardware dealer retails for \$3.08 a well-known quality brand made domestically.

A major mail order company catalogs automatic screwdrivers from abroad at \$1.98 while the American-made original sells for \$4.28 at local hardware stores, Steelways said.

"With his average total hourly remuneration now hitting about \$2.90 an hour, the American hand tool worker may be the envy of his 28-cent an hour Japanese competitor or even his \$1.18 an hour Swedish competitor — but the competitors have the jobs and the American worker has paid for his enviable status either with the very job that created it, or with a reduction in his working hours," the publication said.

Steelways said, however, that labor cost discrepancies are not the whole story. It cited two other factors contributing notably to the competitive handicap facing domestic hand tool producers as:

—Trade mark and other design and sales deception practiced by foreign producers — such as pirating of costly product design and sales packaging.

—Impulse "price buying" by consumers which tends to obscure such quality advantages as American tools have over imports.

From Virginia Traffic Safety News—An automobile driver makes more decisions on a 10-mile trip than an airplane pilot makes in one flight from New York to Los Angeles.

### McMurry Band Concert Enjoyed

Junior class of the First Methodist Church is selling plates with the history and a picture of the church on the front. The proceeds from the sale of these plates go toward the purchase of carpet for their Sunday School room. Anyone interested in one of these plates may contact any member of the Junior Class and purchase one for only three dollars.

A large audience enjoyed more than 50 members of the McMurry College Indian Band when it presented a concert Tuesday in the High School Auditorium. The evening concert was a part of the band's annual spring tour which takes them to eight West Texas towns this year.

The Indian band is noted for its specialty numbers and

showmanship under the direction of Dr. Raymond T. Bynum. Among the specialties are the handbells and Aleda trumpets. The handbells are made in Holland and England and the McMurry Handbell Choir is one of the few in the Southwest. Seven Aleda trumpets open each concert.

Dr. Bynum, member of "Who's Who in the Southwest" and also a member of American Bandmaster Association, has been band director of the McMurry Band for 15 years and is widely known throughout the Southwest for his ability.

### Tech Education Workshops Set

LUBBOCK — Texas Tech's education department will sponsor three education workshops for teachers and school administrative personnel during June.

The workshops will include one for Elementary School Science, one for Junior and Senior High School Principals and one for School Business Officials.

The first of the three workshops will be the Elementary School Science program June 4-15 in the Tech Union Building. Dr. Milo K. Blecha, science education professor at the University of Arizona, will direct the workshop.

Dr. Blecha will be assisted by Dr. Marshall Nagle of Tech's education department. Dr. Blecha conducted a similar workshop last summer at Tech. Dr. Holmes Webb of the Tech education department will direct the second workshop June 11-29 for Junior and Senior High School Principals.

As full-time consultant for this workshop, Tech has secured Dr. T. H. Broad, director of curricular services for Oklahoma City Schools. He was formerly principal of the Junior-Senior Daniel Webster High School in Tulsa and is an outstanding authority and specialist in secondary administration.

The annual workshop for School Business Officials will

be conducted June 18-22 by Dr. Belle Fallon. He is a member of Tech's education faculty and executive secretary of the West Texas School Study Council.

Dr. Fallon will be assisted by the State Executive Committee of the Texas Assn. of School Business Officials and the Professionalization Committee of Officials.

The Elementary Science workshop will carry two semester hours credit; the principal's workshop, three hours; and the business officials workshop, one hour.

Information concerning the workshops may be obtained by writing to the School of Education, Texas Tech, Lubbock. A detailed announcement on each workshop will be available on April 2.

### 'Filler-Filing' For Parties

By United Press International

One of the most inexpensive, educational and unusual hobbies is found in the pages of a daily newspaper.

"Filler-filing" is its name. For the uninitiated, a filler is that little three or four line item squeezed in at the bottom of a newspaper page.

A sample: "Penguins, which behave much like people, biologically are a very primitive form of bird."

Another: "At first, Socrates followed the craft of his father, a sculptor, but later spent all his time in the market place catechizing all who would listen."

For most newspaper readers, the filler is just that — some words, containing information, occupying a cubicle at the bottom of a page.

The ardent "filler-filer" however, regards each item as a gem of writing, compressed information and an omnibus of unusual facts.

What cocktail partygoer could afford to be without a series of fillers? None, of course, and that is where the majority of "filler-filers" shine.

When the conversation brings up the coal versus oil power battle, the "filler-filer" mentions:

"While it takes about two ounces of coal to move one ton of freight one mile, a diesel can accomplish the same work with no more than two teaspoons of oil."

For the "did you know?" questioners, the filler is indispensable. Did you know that the first adding machine was invented by the French mathematician Blaise Pascal in 1641? Or that Colorado has 49 mountain peaks that are more than 14,000 feet or more above sea level?

"Filler-filers" act contrary to their name, however, in that most of them do not file fillers. They commit them to memory.

### Card of Thanks

I would like to take this opportunity to express my thanks to everyone for being so nice to me when my hand was burned, and while I was in the hospital. Thanks for the nice gifts and get well cards. May God bless each of you is my prayer.

Mrs. Willie Sisco

America's motorized society of 80 million licensed drivers and their 72 million cars also includes nobody-knows-how-many millions of passengers and pedestrians.

Last year the interest on the national debt alone was \$9.5 billion. It will be higher this year, as the debt limit has been increased.

### POWER AT A STEPPED-UP PACE

If you're farming additional acres this year, you'll need more power delivered at a stepped-up pace. You'll find it at the wheel of a New Generation Row-Crop Tractor: 45 h.p. "2010," 55 h.p. "3010," or 80 h.p. "4010" . . . gasoline, Diesel, or LP-Gas. See your John Deere dealer about a free, on-your-farm demonstration. Ask him for details on the John Deere Credit Plan.

Match your equipment to operate in the higher, more practical and economical

work gears of a New Generation John Deere Row-Crop Tractor. You'll take full advantage of every break in spring's fair-to-foul weather. You'll have lugging power aplenty to see you through the stiff requirements of sod, stubble, and gumbo tillage alike. You'll use John Deere's speed and accurate implement control system to get the best seedbeds with your tillage equipment. You'll put crops to bed on time in a seedbed that encourages faster, better germination.

## Plains Representatives At Conference

Representing the Plains High School in the Twenty-sixth Annual Conference of the Texas Association of Student Councils held at Thomas Jefferson High School, San Antonio, Texas on March 29-31, were Mike Field, Ernie Anderson, Sarah Kay Field, Roberta Snodgrass, and G. D. Kennedy. The theme of the conference was "TODAY'S AFFAIRS -- STUDENTS' CONCERN."

The conference was attended by approximately 2,500 Texas high school students and sponsors. Over one hundred foreign students also attended. Approximately five hundred high schools were represented.

With exception of two major addresses and a moderator for a foreign student panel the conference was almost entirely student directed and of student participation.

Among the many highlights of the conference were addresses by Joe Murfee, president of the T.A.S.C.; Delbert Downing, Midland, Texas, Rev. Henry H. Baker, Pastor of the First Methodist Church, Fort Collins, Colorado; panel of foreign students from West Berlin, Finland, Greece, Lebanon, Australia, Japan, and Brazil; Ole Fashioned Political Rally; Problem clinics covering 59 topics; and discussion groups.

Attending a Student Council Conference is one of the most thrilling and rewarding experiences an adult can have. It definitely strengthens one's faith in the future and in our youth. The attitude and enthusiasm exhibited by students during this conference is definite proof that they have faith in the future of America and in God. High School students are definitely concerned about Today's Affairs.

We all have a stake in agriculture's progress.

### Legion To Meet Thursday

Notice was given this week that the regular monthly meeting of the Plains American Legion Post will be held in the Legion Hall on Thursday, April 12, beginning at 8 p. m.

Highlight of the evening's meeting will be Jerry Jones giving a report on his stay at Boy's State.

All legionnaires and other interested are veterans are urged to be in attendance.

Mile Relay -- Sundown 3:39.6 (Evans, Bates, Williams, Davis) (1960)  
District track competition will take place this coming Saturday beginning with the preliminaries at 3 p. m. and the finals at 7 p. m.

All district 5-A teams will participate including junior high, freshmen and high schoolers.

### Second Annual Band Minstrel

Mr. Gene Young, band director, at Plains High School, made it known this week that the second annual Negro Minstrel, sponsored by the Plains Cowboy Band is planned for this month.

Future details will be released in the near future concerning time, date, admission, etc.

Young also stated that in the band contests participated in by the local band last week, that the Cowboy Band received a two in concert and two in sight-reading.

Earlier in this school year, the band had received a two in Marching and a one in inspection.

The federal government spends \$18,000 a minute. That works out to more than \$1 million an hour, \$26 million a day, and \$3 billion every 10 days.

## SOIL Conservation NEWS

The benefit of under-ground high pressure pipelines is really beginning to show up as each week new Cooperators began watering prior to planting. Jimmie Cox says he is really doing a good job with his new system. Leroy McCravey, C. A. Stewart, Darvin Hobbs, Gene Bennett, Wayne H. Williams are a few who have their systems installed and are using them.

Now is the time to make arrangements to spray snake, Broom weeds or Turpentine weeds as some call them. These weeds are beginning to green up and if we can get a good rain spraying should begin in a week or ten days. Very good results were had last year and according to our information several land owners plan to spray several acres this year. The most outstanding example we saw was on the Casey Jones ranch land just south of Plains. This pasture received one spraying last year and was rested year long. Casey got a real good increase in grass and a real good kill on the weeds. He plans to spray several acres again this year.

Several Conservation plans were received this week typed and ready for distribution. They are J. M. Tippert farm, Harvest Queen Mills farm, revised plans and new plans on the C.E. Boley farm, Lewis Slemmons farm, Wayne H. Williams farm, J. M. Deering farm and the Ben Taylor ranch.

This week plans were being revised on the Clifford Anderson place North-West of Denver City, J. W. McCan located South of Plains, C. E. Ross plan is also being revised. A new plan on the Joe Webb farm is being written.

### Water Cons'--

water resources of Gaines County need to be investigated because:

1. The economy of Gaines County depends heavily on water from underground sources.
2. Because the climate is dry and the soils are level and sandy, no surface water supplies are available in the County; in fact, the distances to any surface water of good quality are great.
3. The rate of recharge or replenishment to the ground water reservoir is believed small because of the limited amount of rainfall received annually and because of the high rate of evaporation.
4. Need for fresh water in the County has increased many fold in recent years and the needs for the near future appear to be extremely large.
5. Data strongly indicates that much of the fresh ground water of Gaines County is being contaminated by salt water disposed into unlined surface pits in oil fields.
6. Once a portion of the County's principal source of water, the Ogallala formation, has been contaminated it will perhaps remain contaminated for hundreds of years. Moreover, the contaminated waters would tend to move into adjacent areas where fresh water is being pumped by wells.

The report went on to say that the purpose of the study would be to investigate programs for the conservation and protection of the County's groundwater resources.

In personal comments, he, McMillion, was of the opinion that the situation is at least as critical, if not more so, in Yoakum County, and that the association already formed should proceed ahead as quickly as possible toward the eventual goal of doing away with surface pit disposal of brine water wastes.

Rod Duff, president of the Yoakum Association, attended an early morning meeting with the Chamber of Commerce in Brownfield, on Wednesday and found a great deal of interest in the program thus started and in the possible eventual formation of a Water Conservation District of which both Yoakum and Terry Counties would be a part, along the lines of the already well-established Hi-Plains Underground Water Conservation District.

A spokesman for Shell Oil Company, one of the largest producers in Yoakum County, made something of an official statement on behalf of Shell this week also to Duff, to the effect that certainly Shell would not be opposed to the idea of the organization of such a water conservation district nor to the necessary tax levy of about five cents on each one hundred dollars valuation.
