City Secretary Resigns

Loe Plans To "Devote Full-Time to Farming And Ranching Activities"

In what was a surprise move to many Plains residents, City Secretary, Bob Loe resigned his position with the City here last week.

Loe submitted his resignation last week, but it was not accepted by the City Council until Tuesday night, September 18.

In a formal announcement Loe stated, "My sole reason for resigning my position as City Secretary for the City of Plains is personal. I simply wish to

be able to devote my full time to my present farming and ranching operations."

Plains Mayor, L. R. (Buddy) Hanna later reported that Loe had been asked and had agreed to stay on awhile longer, possibly one or two months, in order to get his, Loe's replacement broken in and familiar with the duties and responsibilities of the job.

Loe reported further that as

soon as this rather indefinite period had been fulfilled, he would then issue a formal statement concerning his resignation.

Hanna went on to say that the City Council sincerely regrets having lost the services that Loe has rendered over the last many months.

During the past two years, it was pointed out, under Loe's direction and management and in cooperation with the City Council, the General Fund of the City has had, each year, \$10,000 put into it out of the proceeds taken in from revenue sources. Also, it is reported, installation of much new linage and equipment has been accomplished without having to go to the citizens of Plains asking for new revenue bonds. These additions and improvements have been paid for out of revenue accounts.

One applicant seeking to fill the now-existing vacancy created by Loe's resignation, it is reported, is now being seriously considered, and announcement, according to Mayor Hanna, should be forthcoming within the next few days.

House Fire Claims Life of Plains Man

Eugene McMillan, 20 year old Plains resident, an employee of R. D. Romans in his farming operation and his wife, 18 years old, were both rushed by Huffman-Barrett ambulance to the Yoakum County Hospital in Denver City following their receiving critical burns when their home, one of the apartments in Judge Beane Courts, caught fire and was completely gutted.

Plains firemen were rushed to the scene at a little after 2 a.m. that morning and managed to save the house. Firemen arrived on the scene after the McMillans both got out of the fire house.

The couple was later transferred to a Hobbs hospital by ambulance where they were put aboard a U. S. Air Force plane to be rushed to specialists at Galveston.

Court Finds Mayben Here

Only one case has as yet been decided, through Wednesday of this week, in 121st District Court.

Case decided was O.N. Mayben vs. M. C. O'Neal, et. ux., in which Mayben was asking for the court to award him a judgment of \$7,800 from O'Neal because of him being run over by Mrs. O'Neal in Denver City on September 13, 1958.

The jury found for the plaintiff, Mayben but it was reported only awarded \$1250.

Jury in this case was Mrs. James Warren, Mrs. T. A. Elmore, Leslie Covington, Robert E. White, Gene Kinder, Cecil Tucker, Juanita Moore, A. K. Gilliam, Gilbert Pierce, Doyle Newsom, Mrs. Vance Glover and Douglas Patton.

After the settlement of this case a second jury was impaneled to hear a further case in the rather lengthy docket set for this session of District Court.

Eugene died aboard the plane just 10 minutes after it took off from Hobbs. The plane an Air Force C-131, returned the body to Hobbs where Griffin Funeral Home is handling arrangements to transfer it to Oak Grove, La.

The couple had lived in Plains only three months, having been married three months and three days when the tragedy occurred.

Mrs. McMillan was taken on to Galveston, where her condition is improved somewhat. Her burns are not as serious as was first thought. They are first and second degree burns and cover about 30 percent of her body.

As Mrs. McMillan, in the interests of her recovery, has not yet been told of her husband's death, funeral arrangements in Oak Grove, La., both their original homes, are pending at this time.

Exact cause of the tragic blaze has not as yet been determined.

First Christian Sets "Week of Preaching"

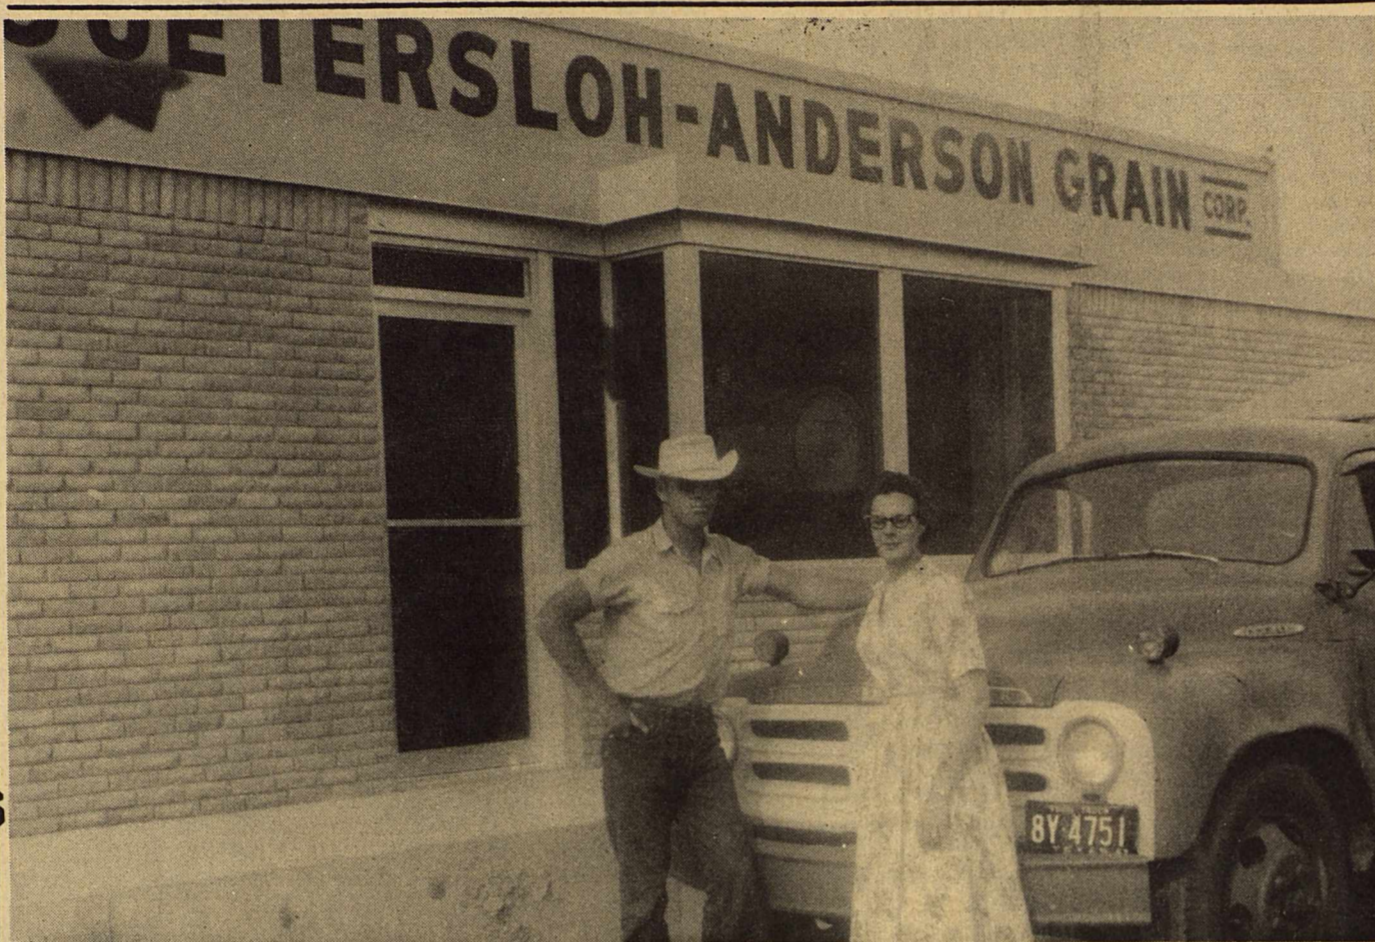

Johnnie Moore, Minister of First Christian Church of Plains announced this week that plans have been completed for a "week of preaching" in the local church, beginning next Sunday.

The services will be conducted each evening of next week, Monday through Friday and will begin at 8 p.m. each night.

On Sunday, special services are planned to launch the "Week of Preaching."

Immediately after Sunday Morning Services, this Sunday, September 23, members of First Christian will go to Stanford Park in Plains and have dinner on the grounds, which will be followed at 3 p.m. with preaching and singing right in the park.

All persons of the area, said Moore are invited to attend each evening and to share the meal on Sunday in the park.

ROY PERKINS--First load of grain to Plains newest grain elevator, Guetersloh Anderson Grain company, was brought in by Roy Perkins last week. Grain was low in moisture content and Perkins stated that he intended to cut out the whole field.

Exploring Possibility of County Airport-Park

Report was received this week that County Judge, Don Hancock, had informed the County Commissioners during their regular session on Monday of this week, that a group of Yoakum County citizens had expressed an interest to him of the possibility of the erection of a County airport to be located half way between Plains and Denver City and properly constructed and maintained so that both cities would have ample facilities.

The further possibility of also including a County Park and maybe even a golf course was also taken note of briefly.

Hancock further reported that the possibility of Federal Funds, if they were wanted, was very good on a project of this kind.

It was pointed out by Hancock that the existing airport for Plains is in all probability according to a F.A.A. authority, as long as it can be made, because of several obstructions that exist, mostly pumping units in the area.

Denver City, on the other

hand, is at present, having legal difficulties with their airport facilities concerning the land on which it is located.

The next step, Hancock pointed out, is the necessity of someone taking the initiative and obtaining a petition and having it signed by at least 10 percent of the eligible voters in Yoakum County. Then the issue would be taken before the county's citizens in a bond election. If this vote were favorable, contracts could be let, etc.

Further business of the Commissioners' Court included a report that the seal coating of several roads in the County is about seventy five percent completed. Also, in this regard the court gave approval to two city streets in Plains to be designated as County Roads so that they may be paved. Each of these lie in Precinct No. 4, and work has already been gotten well under way in them.

A bid for hospital equipment was also accepted at Monday's meeting. The bid submitted by Gilbert X-Ray Co. of Dallas of \$11,500 was accepted. The X-

Ray will be a Picker brand. It was also reported that the County Judge and Commissioners of each of the county's four precincts plan to attend the annual state convention in Dallas. Dates for the convention are September 31 through October 2.

School Bus Drivers To Receive Awards

School bus drivers in Texas who have safe driving records are to receive awards from the Texas Safety Association.

J. O. Musick, General Manager of the Texas Safety Association, announced the awards will be based on records achieved during the 1961-62 school year.

School bus drivers must have driven without an accident during the period to qualify for the TSA award.

Musick said applications for the recognition awards are being received. (Continued on page 2)

Impressive Cowboys To Friona

Plains Cowboys meet the Friona Chiefs on enemy territory this week as they travel to Friona on Friday afternoon to meet the Chiefs there at 8 p.m. on the 21st.

The Cowboys are expected to be ready and rarin' to go after their king-sized victory over the Post Antelopes last week.

According to scout reports however, the Cowboys are apt to run into some pretty stiff competition in Friona, especially at the hands of Friona's big (6'3" - 165 lb.), quarterback. He throws left-handed and is reported to also be able to run real well.

The Chiefs are hungry for a win as the last three years have been pretty unkind to them as far as football is concerned.

Plains will field the same team as they did against Post with the exception that Dennis Hickman will be playing at his regular pulling guard position. His shoulder has recovered and he is expected to be in top form this week.

Plains Coach, Jack Pierce reports that there are no injuries. (Continued on page 2)

Cowboys Hogtie Antelopes

The Plains Cowboys racked up a mighty impressive victory over the hard-hitting Post Antelopes in Post last Friday evening.

The Cowboys came roaring out to make three touchdowns and two extra points and in the meantime only allowed the Antelopes to tally one TD.

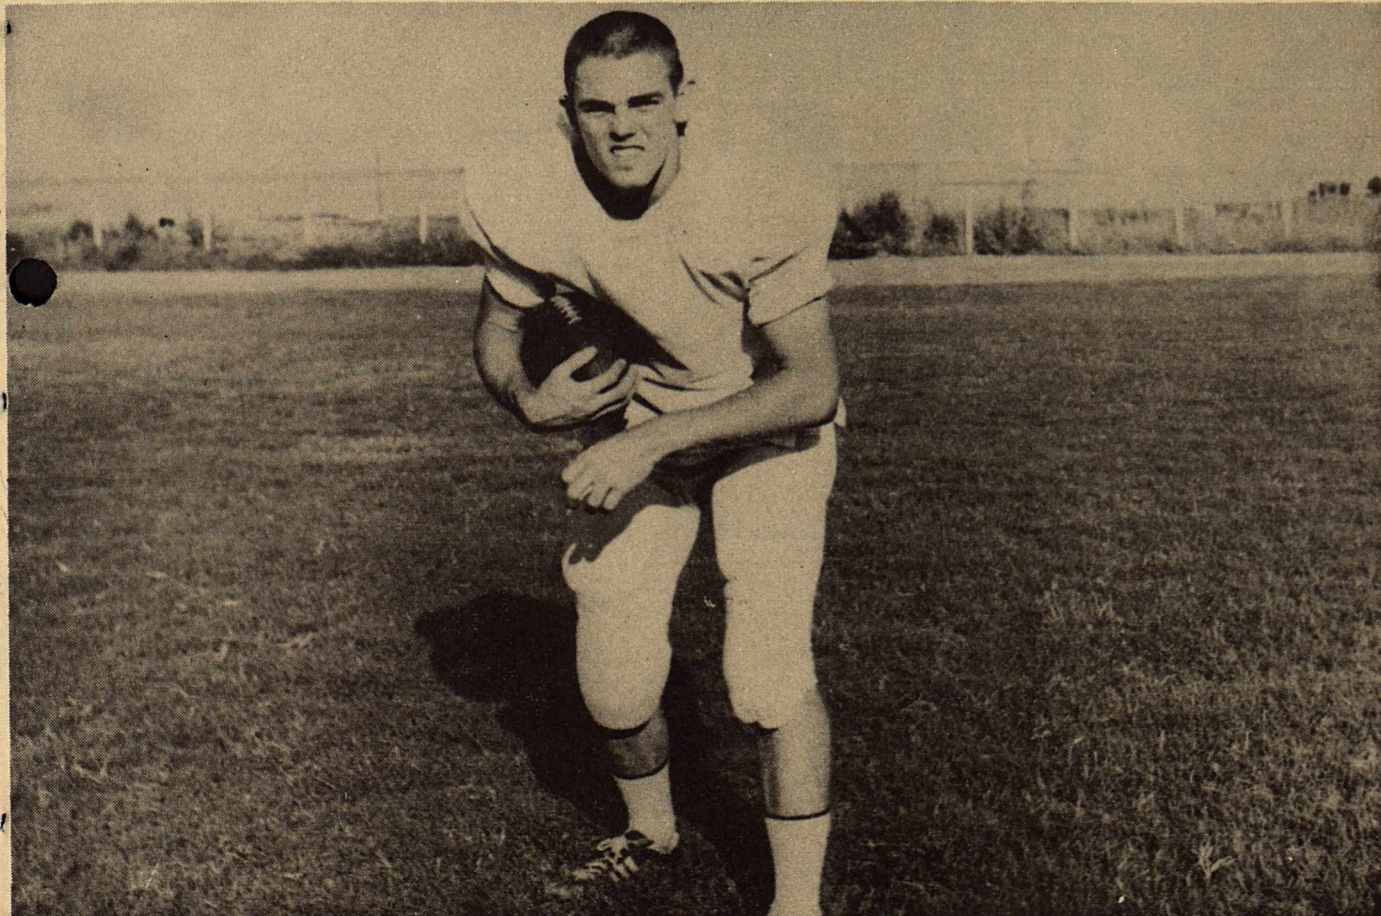

Final score in the game was Post 6 and the Cowboys 20. Plains also had two touchdowns called back, one for clipping on a fine downfield run following a really spectacular pass interception by defensive halfback Jimmy Harris and the other on a fumble, according to the official calling the play, by Ronnie Hendricks immediately before he stepped over the goal line. Ball was recovered by Post and counted as a touchback and given to them on their own twenty yard line.

The Plains defense, however, seemed to be able to smell the ball and to hold the Antelopes down to practically no yards gained during the entire game.

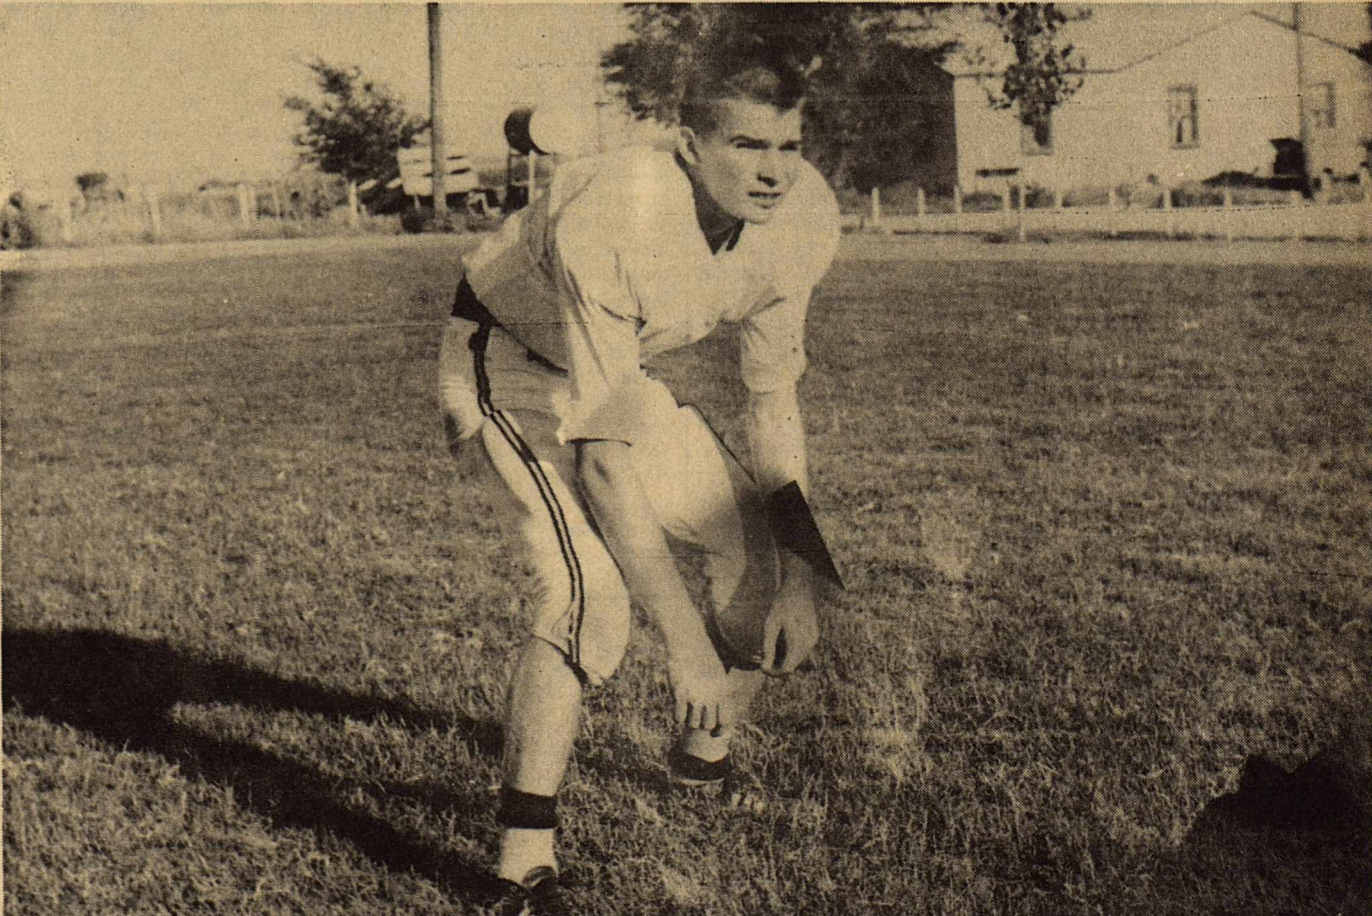

The entire Cowboy team, 22 men strong, played in the game and each did a mighty commendable job.

Selected as outstanding players of the week though were Ronnie Hendricks as Outstanding Offensive Player and Jimmy Harris Outstanding Defensive Player of the week.

Hendricks was responsible for all 20 of the Cowboy's points. He ran over three TD's and also ran over the two extra points. Harris intercepted two passes and was responsible for a great deal of the Cowboy's effectiveness on defense especially in their pass defense.

RONNIE HENDRICKS -- OUTSTANDING OFFENSIVE PLAYER OF THE WEEK

JIMMY HARRIS -- OUTSTANDING DEFENSIVE PLAYER OF THE WEEK

The Wright Slant ON WASHINGTON

A Report From Jim

THE BEST way to avoid criticism is to do nothing.

Administrators of some government agencies are acutely aware of this. They rock along for years, shuffling papers, writing murky letters that don't really say anything, avoiding clear-cut decisions, refusing to take a stand in favor of anything more controversial than motherhood or apple pie.

Nobody criticizes them because they don't do anything to criticize. Problems can come and problems can go, but if the problems don't remedy themselves they don't get remedied at all.

THEN along comes a man like Najeeb E. Halaby.

In the 19 months since he became administrator of the Federal Aviation Agency, Mr. Halaby has never hesitated to meet a problem head-on.

And, like all men who do things, Halaby has occasionally run aground of public and personal criticism. Even now, there are those who, for one reason or another, would like to get him fired.

While I respect the opinions of a few of my colleagues in Congress who think they have found things in Mr. Halaby's record to criticize, I believe we should all be aware of the other side of the coin.

Jeeb Halaby has made some truly outstanding contributions to the operation of the important federal agency which he heads.

For one thing, he has a spectrum of experience that eminently qualifies him for the job of administrator of the Federal Aviation Agency. Let's take a look at some of the background.

At the age of 17, he won his student pilot's license. Later he bought and flew his own plane. In the World War II years, he served first as an instructor for the old Army Air Corps, then as a test pilot for Lockheed.

After that he joined the Navy, where he organized and established the Navy's first test pilot school and became its chief instructor.

He flight-tested America's first jet plane, the Lockheed YP-80, and later made the first continuous transcontinental jet-powered flight. Who could be better qualified as an expert on aviation?

TODAY, at the age of 46, Mr. Halaby has achieved a record of accomplishment not only in aviation, but as an attorney, businessman and government administrator.

As an administrator, he has always insisted on knowing the facts. Once they were in, he has not hesitated to speak up for what he believes is right.

Najeeb Halaby is a man of direct action. When there is a major aircraft accident, you will find him on the scene, taking personal charge of the FAA phase of the investigation.

WHEN the improved Lockheed Electra needed to be tested for airworthiness, it was Mr. Halaby himself who took up the plane and put it through a rig-

orous series of tests. This, incidentally, was done after his appointment as FAA chief, but before he had even assumed office.

When he wondered if government regulations were needed to control the new sport of sky-diving, Mr. Halaby strapped on a parachute and made a jump for himself.

When he was at the controls of an FAA plane that clipped the wing of an airliner while taxiing on the ground, Mr. Halaby promptly fined himself \$50.

EVEN though some of his critics accuse him of seeking more power, the facts show that Mr. Halaby has done a great deal to de-centralize the FAA, vesting more authority in the regional office like the one in Tarrant County.

Shortly after taking office, he went to the grassroots of aviation in seeking to make the FAA more responsive to the needs of the industry. He sent out letters asking the views of 300,000 U.S. pilots and went around the country to a series of "air share" meetings -- "hangar flying" sessions in which pilots were encouraged to sound off not only with their gripes but with constructive suggestions.

RECENTLY one of my colleagues in the Congress attacked Mr. Halaby for what he said was his failure to clean up the "dirty mess" in the supplemental airline industry. Because of my own interest in this situation, I asked Mr. Halaby what, in fact, had been done about this problem.

He immediately provided data which I believe shows conclusively that the FAA had done a great deal toward correcting what obviously was a dangerous situation among supplemental carriers. To me it is significant that the accident rate among these carriers has dropped from 38 fatalities per 100,000 hours flown in 1961 to 0 fatalities from Jan. 1, 1962, to the present.

It is not an easy task that Mr. Halaby faces. Any time a man has the responsibility of determining whether a carrier is safe or whether an airport is safe, he naturally is forced occasionally to step on sensitive economic toes, and thus receive severe criticism.

Mr. Halaby has not sought to avoid criticism. He has taken a stand and he has done his job. He has made his decisions without fear and without favor.

PARTICULARLY important, I think, is the effort in which he is presently engaged, along with the Civil Aeronautics Board, to establish regional airports across the nation for the safety, economy and convenience of the flying public.

Tarrant County has a big stake in this program, for we all believe that Carter Field is ideally suited to serve as the regional airport for the Fort Worth-Dallas area. We are confident that the Civil Aeronautics Board will so conclude at the end of the investigation it is

Effect Of Multiple Lint Cleaning

Summary of Results Obtained from multiple saw cylinder lint cleaning study by USDA during 1961 harvest season in the Mid-South, Texas High Plains and California.

Effect of Multiple Lint Cleaning on:

(a) Grade

Each successive stage of lint cleaning tended to improve grades, but the most pronounced effect was accomplished by the first stage. Some additional grade improvement was associated with the second stage of lint cleaning but it was very slight in West Texas and California. The additional grade response to the third stage of lint cleaning was virtually nil in West Texas and California, and only a slight gain was observed in the Mid-South.

(b) Classer's Staple Length

Classer's Staple Length as determined by classers, was not affected by lint cleaning to an important degree, although a slight tendency was noted for length designations to increase in response to the first stage of lint cleaning.

(c) Laboratory Length Measurements

Laboratory measurements indicated that average length was actually shortened by each successive stage of cleaning with the adverse effect being more pronounced with the second and third cleaner. Also the percent of short fiber increased with each stage of cleaning.

(d) Bale Weight or Pounds Removed

On an average, three stages of lint cleaning removed 24 pounds of material from each bale with the first stage accounting for 13 pounds of weight loss, the second stage 7 pounds, and the third stage 4 pounds. There was, from the first stage of lint cleaning, a pronounced variation in weight losses associated with grades. The losses from one lint cleaner averaged about 9 pounds per bale for cotton that classed Middling without lint cleaning and 19 pounds per bale for cotton that classed Strict Good Ordinary.

(e) Bale Value

At price premiums and discounts prevailing on the central markets during November, 1961, the grade and weight changes produced by one stage of lint cleaning resulted in an increase in the average value per bale in each of the three areas studied. Compared with the bale values resulting from one stage of lint cleaning, the second stage resulted in a slight reduction in the average value per bale in California, a small gain in West Texas, and a gain averaging \$1.54 per bale in the Mid-South. However, in West Texas and in California, the average bale values resulting from the third stage of lint cleaning were slightly lower than from one stage of lint cleaning -- two cents and eight cents per bale respectively.

(f) Cost of Lint Cleaning

Based on a volume of 6,000 bales per gin, the combined operating and overhead costs of the first stage of lint cleaning averaged 69 cents per bale in the Mid-South and 66 cents in West Texas and California. Costs for three stages of lint cleaning averaged \$2.03, \$1.92 and \$1.90 in the three areas respectively.

(g) Net Returns to Producers

If lint cleaning costs were fully reflected in ginning charges, it is questionable whether more than one stage of lint cleaning was advantageous to growers in California and whether even one stage was advantageous to growers in West Texas. In the Mid-South, with no lint cleaning, a much higher proportion of the bales fell in heavily discounted grades than in other areas. The bale value increases resulting from 2 stages of cleaning in the Mid-South exceeded the cost of cleaning by about \$3.50 per bale on an average. However, most of this gain was the result of the first lint

cleaner. The increase in bale value resulting from the second stage averaged only 85 cents more than the cost of cleaning.

(h) Use Value to Mills

The only clear-cut favorable effect of lint cleaning on use value was in a reduction in the non-lint content of the bales. Most of this gain was accomplished by the first lint cleaner, and the contribution of the third lint cleaner was negligible.

A slight gain in yarn strength resulted from the first stage of lint cleaning but the second and third stages had adverse effects on strength, Nepe and yarn appearance grades were adversely affected by lint cleaning, especially the second and third stages of cleaning.

In spinning, ends down increased with each stage of lint cleaning for the early season lots. For the late season lots, only the second and third stages of lint cleaning contributed to an increase in ends down and the effect of the first stage was favorable.

Caution Urged With Defoliants & Desiccants

With the growing importance of cotton character and fiber fineness to the spinners and users of raw cotton, Adolph Hanslik, president of the Lubbock Cotton Exchange, has issued an appeal to producers of cotton in this South Plains area.

Mr. Hanslik is asking producers, for their own benefit, to exercise caution in the use of defoliants and desiccants prior to harvest this Fall. Mr. Hanslik explained that most of the Central Texas crop has suffered from lack of moisture and is therefore poor character cotton. Due to this, the cotton textile mills probably will be in need of cotton of food character and he urges producers in this area to use caution in the use of chemicals that might affect

cotton quality. Your Experiment Station tests show that cotton should be at least 60% open under dryland conditions and 80% open in irrigated fields before desiccants are applied. It has been suggested that before producers use desiccants that they ask themselves if they are ready for a killing freeze tomorrow.

Immature fibers last year cost area growers several million dollars. We can't afford to damage a crop that shows promise of good character (high micronaire) with the premature use of defoliants and desiccants.

Lubbock Cotton Exchange
H. A. Potteet
Secretary

Revisions or modifications of Great Plains Contracts by Bert Chambliss, M. R. Nelson, J. A. Pebsworth, Charles Williams and Kenneth Nelson, have been completed recently.

On October 2nd at 8 p.m. a meeting at the C.G. & S. will be held to elect a Supervisor for zone 4 of your local Soil Conservation District. Charles Williams is now serving the unexpired term of Pete Bryson. Leo White will be in charge of the program and plans to show a series of slides on plant food deficiencies in crops. Make plans to be there and enjoy the program and select the man you wish to represent you for the next five years as Soil Conservation District Supervisor.

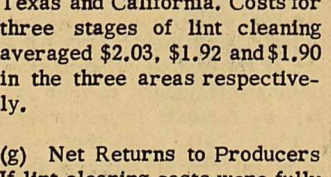

Cowboys--

juries now and that Plains should really be in top-notch form for Friona.

Plains Cowboys made it into the South Plains ratings this week, being placed in 7th place in the class A rating. Wink is now placed in first place on the list, replacing Seagraves who slid to second spot. Seagraves had an unexpected amount of trouble from Muleshoe last week, barely defeating the Mules four points. Wink on the other hand, was the underdog in their game against Eunice, N.M. last week, and managed to overcome Eunice.

WHAT TO MAKE

By Allan Carpenter, Director, Service Bureau, Popular Mechanics Magazine

WINTERIZE YOUR HOME

Don't wait until cold weather sets in to prepare your home for the long, hard winter ahead. Now's the time to tune up your heating system, protect water pipes from frost, find and stop roof leaks, and clean and repair gutters and down-spouts. Complete instructions on all of these seasonal projects are included in Booklet D17, "How to Winterize Your Home." To order, send 25¢ to Service Bureau, c/o this newspaper, 740 N. Rush, Chicago 11, Ill.

preparing to launch.

For his part, Mr. Halaby makes no bones about the fact that he considers Carter superior to any other airport in the area. It took a great deal of courage to say so openly, but Halaby did not flinch.

This, I believe, is further proof that Najeeb Halaby is precisely the type of man best suited to head the Federal Aviation Agency . . . a man of knowledge, courage, decisiveness--a man who gets things done.

Bearden Leads In ASCS 1963 Committeemen Election

Ray Bearden Tokio farmer was again elected chairman of the Yoakum County ASCS committee in the Sept. 14 election. Others elected to the board are as follows: T. A. Elmore vice chairman, T. J. Murphey member, R. A. Long first alternate and Leeroy McCravey second alternate.

Bearden and Murphey are holdovers from the 1962 program committee. T. A. Elmore, R. A. Long and Leeroy McCravey are new on the committee.

The new committee takes office on Oct. 1/62 and will serve until the next election. According to W.M. Overton county ASCS office manager the duties of the ASCS committee are many. The county committee is to serve as a board of directors, in the same general manner as a board of directors of a cooperative or other local organization. The committee has at least one regular meeting date per month.

The Sept. committee election vote was as follows:

Ray Bearden	157
T. A. Elmore	123
T. J. Murphey	111
R. A. Long	109
LeeRoy McCravey	108
Clay Duffey	104
Rufus Brian	100
Howard Borland	90
H. T. Sudderth	85
R. M. Jones	76
Henry May	74
K. H. Banks	66
W. M. Nelson	66
H. G. Smith	63
D. M. Gray	59

School Buses--

ing accepted now. Last year there were 7,918 bus routes under the state school system, transporting 423,473 pupils.

The school bus drivers chalked up the impressive total mileage of 86,236,325 miles.

SOIL CONSERVATION DISTRICT NEWS

By C. M. Thompson
Cover crop planting and reports of good stands already up continue to come in. J. M. Tippet reports his grain making good growth. Bob Johnson has a good stand in his cotton. Willard Freeman is planting rye. Price Brookshire is planting rye and many many of them are planting or have planted some kind of crop that provide either dead or live cover next spring. There is only a short time left to cover crops and get them established before cold weather begins to slow down growth.

Farm and ranch planning continues to be an important part of Soil Conservation District personnel work. Plans for farms, revisions for old plans and a more complete plan for other farms. Plans completed are on the part of Lanny A. Smith, L. O. Levere Forbus, R.A. Reilly and Tommy Winn farms.

Revisions or modifications of Great Plains Contracts by Bert Chambliss, M. R. Nelson, J. A. Pebsworth, Charles Williams and Kenneth Nelson, have been completed recently.

On October 2nd at 8 p.m. a meeting at the C.G. & S. will be held to elect a Supervisor for zone 4 of your local Soil Conservation District. Charles Williams is now serving the unexpired term of Pete Bryson. Leo White will be in charge of the program and plans to show a series of slides on plant food deficiencies in crops. Football Safety Slogans On Top

Campaign was launched today by the Texas Safety Association to make the 1962 football season safe for motorists and pedestrians.

O. Musick, General Manager of TSA, announced football fans are being asked to take special precautions while traveling to and from football games.

The campaign was initiated with releases of safety messages to all secondary schools, colleges and universities in the state.

"Superintendents of secondary schools and presidents of colleges and universities are being asked to cooperate in the football season safety campaign," Musick said.

The football safety messages are designed for use over public address systems at school and as spot announcements during games.

The safety director cited congestion around stadiums as a major hazard. He urged motorists to take special note of driving conditions.

"Motorists should drive at a speed that is reasonable and prudent for existing conditions and should allow plenty of space between their car and the automobile ahead," he said.

Following too closely has been labeled by safety experts as the greatest single cause of multiple accidents.

Musick warned motorists not to overload cars with passengers or unnecessary objects.

"The driver should never be crowded or distracted by too many passengers in the car -- it endangers his efficiency," he explained.

He emphasized the danger of overloading cars with unnecessary gear by citing that a loose object in an automobile may become a lethal weapon on impact.

In appealing to pedestrians to observe traffic laws while walking in congested areas, Musick said:

"Put your best foot forward -- carefully. Cross streets at intersections only, preferably at traffic lights or where an officer is directing traffic."

"Walk facing traffic if you must use the streets or roadways for traveling and beware of stepping into the street from behind a parked car."

The safety director also advised pedestrians to carry flashlights or wear something white when walking at night.

He further urged motorists to employ all their driving skills when following the team to out-of-town games.

"Slow down, get plenty of sleep, drive courteously and cautiously and be prepared for the unexpected, especially at night," he concluded.

Miniature Golf Tourney Set For Next Week

Final plans were announced today to complete this week for a Miniature Golf Tournament to be held next week, Thursday, Friday, and Saturday on "Duffer's Delite", the local miniature course owned and operated by Plains Boy Scouts.

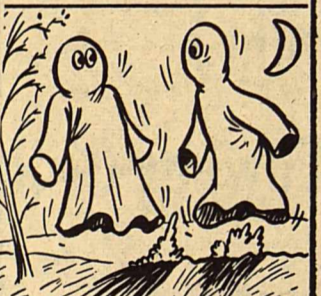

The tournament will consist of three flights, A, B, and C. Those competing in flight A must shoot from 50 to 60 in the qualification game. Flight B players must get between 61 and 70 and flight C will consist of all who shoot 71 or more in the qualifying round.

Cash prizes for adults and others not indulging or planning to indulge in any interscholastic activities will be offered and trophies will also be offered in lieu of the cash prizes.

Entry fee will be \$1.50 which will pay for the entrants three games and finals should he be one of the 10 qualifiers in each flight.

Persons of all ages, both men and women are invited to enter the tournament. A great deal of fun should be in store for all who wish to enter.

Injuries and Sportsmanship In Football

This is an article that should be passed on to every football player, coach and athletic director, both amateur and professional, in the nation.

Sportsmanship of the good old-fashioned type among players and coaches could help lessen the athletic injury problem.

Sportsmanship is involved in prevention of athletic injuries because situations develop in the give and take of football which were not anticipated when the rules were established, says the Committee on the Medical Aspects of Sports of the American Medical Association.

New rules result from new situations. Nevertheless there are always opportunities to evade the purpose of the rule while nominally observing it. Players must observe the spirit as well as the letter of the rule.

In modern football, the passer is frequently swarmed under by several opposing linemen while he is off balance. In the trap play, the defensive player is hit from the side while unprepared.

Two additional practices have great potential for injury: gang tackling, in which four or five defenders try to bring down the ball carrier simultaneously; and "spearing" with the rigid plastic helmet. This means driving the head into the chest or up under the chin of the opponent.

Rules can be modified to prevent such practices. Closer officiating may also assist in making the game safer. In the final analysis, however, good sportsmanship which stresses hard, clean play within the spirit of the rules provides the best protection for players.

Parents of young gridgers can talk this over with their player offspring and with the team coaches. Parent-teacher groups can stress the importance of sportsmanship in helping reduce injuries.

Bookout - Faught Vows Exchanged

Mr. and Mrs. Ray Faught are at home in Lubbock following their wedding Saturday evening in the parsonage of the First Methodist Church.

The Rev. W. L. Driver read the single ring ceremony. The former Miss Sue Bookout is the daughter of Mr. and Mrs. Raymond Bookout of Plains. Parents of the bridegroom are Mr. and Mrs. Clifford Faught of California.

The bride wore a dress of blue tulle and carried a carnation.

The Local Angle

Mr. and Mrs. Foy Flood and family spent the week-end in Abilene visiting his parents, Mr. and Mrs. Virgil Wade and the week end in Abilene with relatives.

Mrs. Nora McKee and Mrs. J. McKee left Monday for Abilene. They will return the following week.

Mr. A. J. McClellan and Mrs. J. McClellan visited in Abilene last week. Don Stockton and the family attended a meeting in Abilene this week. This was the District Meeting. Coty was elected Vice-President of this District. Ann Lattin was elected Sweetheart of the FFA Chapter for the year. The pig raised by Mrs. Lowery was given to Don Crutcher.

Mr. and Mrs. Robert Atwater and daughter visited over the weekend with her parents, Mr. and Mrs. Norvel Edwards of Plains. They were enroute to San Francisco California where they will be stationed at Travis Force Base.

Mr. and Mrs. Keith DePreist of Lubbock are the proud parents of a son born Wednesday September 19. He weighed 5 pounds 14 ounces. Maternal grandparents are Mr. and Mrs. Robertson of Plains.

corsage atop a white Bible. She also had the traditional something old, something new, something borrowed and blue. Her father placed a penny in her shoe for good luck.

Mrs. Larry Murphree of Tatum, N. M., attended the bride as Matron of Honor.

Gary McMillan of Leveland served as Bestman. A reception followed the ceremony in the home of Mr. and Mrs. Jack Pierce.

Those attending the reception were Mr. and Mrs. Hayden Love and family, aunt of the bride, Mr. and Mrs. Frank Whitlock and Mrs. John Robertson.

The bride is a 1962 graduate of Plains High School. Faught is a 1961 graduate of Plains High School and is attending Texas Tech. They are at home at 2308 9th St.

Tsa Mo Ga Club Sets Meeting

The second meeting of the current club year will be held in the Club House on Monday Evening, September 24. The general subject for discussion will be Texas Heritage. Mrs. M. W. Luna, who serves as President of Yoakum County Historical Society, will appear on the program. Mrs. P. W. St. Romain, a member of the Texas Federation Board in the Texas Heritage Department, will discuss highlights of her duties. Members are urged to answer Roll Call with a written paragraph pertaining to her heritage, these writings to be compiled into a note book for the Museum. Mrs. J. E. Cooke, with daughter Susie, will furnish special music on Texas. Mrs. Garland Swann and Mrs. Paul Cobb will serve as Hostesses.

Of Interest To THE WOMEN

County Teachers Hear R.F. Loyd

A representative of the Texas State Teachers Association, Mr. Rholand F. Loyd, is scheduled to speak to the Yoakum County unit on September 27.

Study Course Set By First Baptist

There will be a study course at the First Baptist Church starting at 6:00 Sunday, September 23.

This is a church wide course and we urge everyone to attend. The following books will be taught. Adults, True Functions of the Sunday School Pastor; Intermediates, Eight Steps Toward Maturity; Mrs. Neil Taylor; Juniors, As Jesus Grew; Mrs. Gilbert Pierce; Primary; The world we Live in; Mrs. Neil Parks; Beginners, Good Times At Church; Mrs. Dave Blevins.

There will be a nursery provided for the younger ones. Meeting time will be 7:00-9:00 Monday thru Wednesday.

The primary department will present a program Sunday morning at 10:40 for the whole church. This is a program to show some of the things that have been taught this past year. September 28th is the day for the annual association meeting of the WMU. They will meet with South Seminole Baptist, in Seminole, Texas.

Mr. Loyd's subject will be "Teacher Retirement."

Mr. Loyd has been associated with the public schools of Texas for more than 25 years, having served as classroom teacher, elementary school principal, high school principal, and assistant superintendent. He was Assistant Superintendent of Bowtie County Schools prior to joining the TSTA Staff in his present position as Assistant Director of the Division of Research and Records. He has served in this capacity since 1954.

Mr. Loyd is a graduate of East Texas State College where he received his B.A. and M.A. degrees. He holds a Professional Teacher's and Administrator's Certificate and is a member of local, state and national professional organizations.

Iota Pi Starts Rush Week

Iota Pi began rush week with an ice cream supper, held at the Cafeteria, Thursday September 13 at 8:00.

The families of each member were invited.

Many flavors of ice cream and brownies were served to Mr. and Mrs. Tom Warren, Mr. and Mrs. Vance Glover, Mr. and Mrs. Neil Taylor, Mr. and Mrs. Bill Gray, Mr. and Mrs. Johnnie Brown, Mrs. Dick Hamm, Mr. and Mrs. J. B. Ashburn, Mr. and Mrs. Dick McGinty, Mr. and Mrs. J. E. Cooke, Mr. and Mrs. Leon Lewis, Mr. and Mrs. Gayle Craft, Mrs. Carl Stroup, Mr. and Mrs. Wilson Duke, Mrs. Marvin Goldberg, Mr. Zann, Mrs. Clyde Lynn, Mr. and Mrs. Earl Kreig, Mr. and Mrs. Gene Smith, Mr. and Mrs. Lanny Smith, Mr. and Mrs. T. J. Murphy, Mrs. Charles Gentry, Mrs. Morris Lowe, and Mr. and Mrs. Bob Blundell.

Place several sticks of blackboard chalk in the silver chest to prevent tarnish.

WSCS Holds Meeting

The Womens Society of Christian Service met Sept. 13 in fellowship hall of the Methodist Church with Mrs. Foy Flood as hostess. There were 14 present. Mrs. Kenneth Hale opened with a prayer. Mrs. Charles Williams introduced the Study for the New Year. The title of the book is called, Confronted, Compelled. Mrs. Barns gave the devotional which was an introduction to the Rim of East Asia.

Mrs. Tippett had a very special program prepared. Mrs. Gene Payne gave a talk on Korea, Mrs. Chadwick; Okinawa, Mrs. Rucker; Taiwan and Mrs. Smith; Hong Kong. Mrs. Tippett closed the lesson. Mrs. Gene Payne secretary of Spiritual life asked for an extended prayer life for the coming year.

Practical Jurist Plays It by Ear

BUFFALO, N. Y. (UPI) - City Judge Michael E. Zimmer has won steady local publicity for his "practical application" handling of traffic cases.

Passersby recently were startled to hear the judge shout from the third floor window of his chambers: "Rev it up!"

Seconds later, an auto engine was heard racing at high speed. The judge pulled his head inside the window and then leaned out again.

"Case dismissed!" he shouted down. The car drove away. Walter Weil, 63, who had been arrested for having a defective muffler, had won his case.

Use dampened newspapers to catch the contents of your vacuum cleaner bag. This helps to keep dust from flying.

For painless removal of splinters, press the spot with an ice cube for 30 seconds, then remove with a sterilized needle.

Home Demonstration Association To Meet

The Texas Home Demonstration Association will hold its 36th annual meeting at the Baker Hotel in Dallas, September 19 and 20.

Advance registration indicates that approximately 1,000 delegates and other members will attend from throughout Texas. Mrs. Melton McGehee, association president from Wayside, has announced.

Registration will take place the afternoon of September 18. The annual meeting will open at 8 a. m. the following day, and continue through September 20, closing with a banquet that evening.

Mrs. Florence W. Low, assistant director for home economics with the Texas Agricultural Extension Service at the A&M College of Texas, and president of the American Home Economics Association, will be keynote speaker for the program. She will use the association's theme, "Facing the Challenge of Today's Tasks," as her subject. She will be introduced by John E. Hutchison, director of the Extension Service.

Emphasis at the meeting also will be placed on workshops, with delegates taking part in actual demonstrations, forums and discussions that can be shared with families back home.

An election of officers -- who will serve two-year terms -- and the adoption of a program of work for 1962-63 will be among other highlights of the annual meeting.

Featured speakers for the two-day meeting also will be Dr. Earle Williams, Dallas dentist and civic leader; the Rev. Hubert Foust, pastor of First Baptist Church of Graham, and Patty Porter, a state and national 4-H Club winner in public

speaking and other subject matter fields.

Workshop sessions on 4-H, citizenship and civil defense will be held the first day, and sessions the final day will cover recreation, family life, and health and safety.

Presentation of the 1962 Woman of the Year Award will take place the first morning. Several Plains area representatives are planning to attend.

Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

See the "New Reliables" now at your Chevrolet dealer's!

SCENE OF TRAGEDY -- Above is the apartment which was gutted by flames here early Tuesday morning. Mr. and Mrs. Eugene McMillan were critically burned. Mr. McMillan later died due to his injuries, but Mrs. McMillan is reported in fair condition in a Galveston hospital

Armyworms Beginning To Appear

Fall armyworms, which develop best during cool, wet weather, are being reported in many areas of the state, according to C. F. Garner and W. H. Newton, entomologists, Texas Agricultural Extension Service.

The worms which feed primarily on pastures, lawns and native grasses during this part of the year; may later become a problem on small grains, say the specialists. They probably cause more economic damage to fall planted small grain, grain sorghum, and Bermuda grass in Texas than to any other crops, they add.

The worms eat the forage and tender stems of the plants they attack and cause whitish patches in fields of grain or pastures which are the first signs that the worms are present.

The adult moths are active in the late evening and at night and females usually lay eggs in masses of 150 on blades of grass or on the eaves of houses, since they are attracted to light.

The young larvae hatch in 2 to 4 days but the young larvae are usually not noticed until they are 1 to 1 1/2 inches long. Larvae feed for about 2

to 3 weeks and pupate in the ground, completing a life cycle in about one month.

For the best control of the fall armyworms, insecticides should be applied at the first sign of an outbreak and when the worms are small. For information on their control, the entomologists suggest a visit with the local county agent. Copies of MP-339, "Texas Guide for Controlling Insects on Sorghum, Small Grain, Corn and Grasses" are available from the agent or the Agricultural Information Office.

Panhandle South Plains Fair Says Thank You!

Departmental Superintendents for the Panhandle Plains Fair September 24-29 come from all sections of the region.

George (Scotty) Samson, Post, is as usual the General Agriculture Superintendent. Samson has been a driving force behind the development of the 45-year-old exposition in Lubbock into a showcase for the region's farm products.

Tahoka contributes the general livestock superintendent, County Agent W. B. Griffin, to the Fair. Paul E. Gross, Seminole, is in charge of Angus cattle; Ollie F. Limer, Plainview, of Hereford cattle; and Syd Conner, Post, of Dairy cattle.

Fair President Homer E. Hunt also has announced that Mrs. Ross Adamson, Ropesville, will be in charge of the Women's Department. Mrs. Ford Greenhaw, Cone, heads the Youth Department.

The Swine Show will be under

the general direction of Dawson County Agent Lee Roy Colgan, Lamesa. His assistants are Chile Smith, Tulia, and Cecil Lewis, Floydada. Bob Gibson, Plainview, heads the Junior Agriculture Department.

V. M. Peterman, Amherst, is Superintendent of the Dual-Purpose cattle Department.

In addition to displaying their livestock and farm products, all sections of the region will take advantage of the Fair to show off their High School Bands.

Bands from schools of all sizes will march in the Kickoff parade through downtown Lubbock at 10 a.m., September 24th. For most of the marchers, the crowd will be the largest for which they ever have performed. Prizes totaling \$600 will go to the bands judged best in their respective divisions.

The best farm, livestock and household exhibits at the Fair will share \$32,000 in prize money. Spectators during the week will see these displays in addition to enjoying a new carnival and seeing the 1962 edition of Ice Capades in Fair Park Coliseum.

Two Banks in Child's Life

DALLAS, Tex. (UPI) — There are two banks in the life of a five-year-old blonde who is dying of leukemia.

One is the Wadley Blood Bank, where Cynthia Ann Callender receives an average of at least one pint of blood a week.

The other is the First National Bank in Dallas, where 1,100 employees have "adopted" the girl and are pledged to donate the needed blood.

Cynthia, daughter of Mr. and Mrs. Wayne Callender of Electra, Tex., does not know that doctors expect her to live less than two years.

Arrangements for the bank employees to give blood to Cynthia were made by the Dallas Junior Chamber of Commerce, which won a national Jaycee award for its "Project Against Leukemia."

Red "PAL" buttons are given persons who donate blood to leukemia patients and for research on the disease.

Ten other groups in the Dallas area, ranging from military reservists to fashion designers, have similarly "adopted" children stricken with leukemia.

THE COLOR CORNER BY ANNETTE TAYLOR

Now that fall is here, indoor living is with us again and thoughts turn to redecorating the house.

Here are five suggestions for inexpensive, small-scale refurbishing which will give a new look to your summer-lonely home.

1. Make color the key to a bright new look. Get out the paintbrush and color chart. Paint an old chair or chest in a dramatic accent color and add some unusual hardware. If you have tired ladderback chairs, paint each a different color.
2. Add a few gaily colored towels to your bathroom supply. Coordinate with a new shower curtain, rug or smaller items. Make sure your purchases are vat dyed for colorfastness. Little touches in the littlest room in the house can make all the other rooms seem fresh, too.
3. Give the beds a new look. For each bedroom, buy at least one set of sheets and pillowcases in solid colors, stripes or floral patterns. Color-fast linens can be washed right along with white, so they are practical as well as pretty.
4. Decorate the master bedroom with versatile colored sheets. For example: Have a striped sheet do double duty as top sheet and bedspread - accompany it with mix or match pillow cases. Make sprightly cafe curtains, dust ruffles, dressing table skirts from contrasting or matching sheets.
5. Cover dining room chairs with bold patterned upholstery fabric in colorfast, textured cotton.

WHAT TO MAKE By Allan Carpenter Director, Service Bureau Popular Mechanics Magazine

PLUMBING REPAIRS The homeowner who can make his own repairs to plumbing and water systems will save a small fortune over the years in costly repair bills. Most repairs are simple if the right tools and methods are used. Booklet D7 covers the most common troubles, including leaky faucets and pipes, clogged drains, water hammer, etc. It also gives instructions on installing faucets, valves, closet bowls, and sewer pipe. To order, send 25¢ (cash or money order) to Service Bureau, c/o this newspaper, 740 N. Rush, Chicago 11, Ill. A listing of other projects is available without charge.

Mental Health Conference Set

The 30th Annual Conference of the Texas Association for Mental Health will be held in San Antonio, October 10, 11, 12, it was announced today by Robert S. Tate, Jr., president of the citizens' organization.

Mike Gorman, crusader for the mentally ill and executive director of the National Committee Against Mental Illness, will be featured speaker at the opening general session. Mr. Gorman will report on what other states have done to improve their mental health programs since the Report of the

Joint Commission on Mental Illness and Health was released a year ago.

Other speakers at the Conference will be Dr. William F. Sheeley, chief of the American Psychiatric Association education project for General Practitioners, and Joseph S. Brown, executive director of the Indiana Association for Mental Health.

The entire Conference program will be devoted to specific information related to the Program Objectives of the state-wide organization; how to get a long range and comprehensive governmental program for mental health in Texas; how the citizen can be an effective lobbyist in the public interest to bring about improvements through mental health legislation; and how other state organizations with an interest in mental health can work together to bring about a better climate in Texas for care of the mentally ill and prevention of major mental illnesses in their own communities.

School Safety Week Sept. 17-23

Texasans were urged today to think, talk and practice safety in observance of School Safety Week, September 17-23.

J. O. Musick, General Manager of the Texas Safety Association, has challenged Texans to make this week an accident-free week for our state's school children.

He provided a think, talk and practice-formula to achieve this goal.

Musick said, "Take five minutes extra a day -- THINK for school children -- they sometimes forget their safety lessons; TALK safety to your family, neighbors, friends and school officials; and PRACTICE safety at home and in your driving, especially around schools."

Foreign Studies At A New High

NEW YORK (UPI) — The number of foreign students, faculty members and scholars in the United States during 1961-1962 reached 72,113, a new high, according to the Institute of International Education.

The institute said the total was an increase of 8.5 per cent above the previous year.

American colleges and universities reported an increase of 10 per cent in the number of foreign students, but the number of faculty members from abroad rose by a sharp 52 per cent.

The institute's survey showed there were 58,086 students from 149 countries enrolled in institutions of higher learning in the United States. Thirty-seven per cent came from Asia, 17 per cent from Latin America, 14 per cent from the Near and Middle East and 11 per cent from North America (Canada, Bermuda). Canada sent the highest individual total, India and Nationalist China second and third.

More than 5,500 professors and scholars from 100 countries were affiliated with U.S. colleges and universities.
