

MOORE or Less

By Johnnie Moore

You've got to be married and a father to really appreciate the wonders of television. You can relax in your easy chair and see all your wife and children's favorite shows.

.....

A TV rating service phoned 1,000 men in one city on an evening recently and asked, "Who are you listening to?" 934 answered, "My wife."

.....

A very wise man once said "A person completely wrapped up in himself makes a mighty small package."

.....

The following I received from a friend here in Plains. It is one of Earl Nightingale's broadcasts. It makes sense. "I want to ask you a question and I hope you'll answer it as honestly as you can. "Let's say you have a neighbor who earns ten thousand dollars a year, that is his total income. But, instead of his spending ten thousand dollars a year (or even a little less, and saving some for the future) let's say this neighbor of yours spends fifteen thousand a year—he does this by borrowing more money than he can pay back. And then, let's say he's not happy just spending more than he's earning, but he starts giving money away—to people up and down the street—who will probably never even think of paying it back. What would you call this man? Would you call him crazy? Would you try to explain to him that if you keep spending and giving away more money than you earn it can only end in complete ruin? Of course you would.

"Well then, tell him! Tell your congressman! Because that's exactly what the U. S. has been doing for far too long, and we've got to put a stop to it—and right now. And when I say we've got to put a stop to it, I mean you and I have to do it; and if we don't do it, nobody will!

"Any child knows that if you keep spending more than you've got it can only end in total insolvency, and impossible debts. Write your own congressman and your senator—and tell them—otherwise, they may never figure it out!"

.....

"Operation Christmas Card" Plans Set

Members of the Plains Dirt Gardeners Club have announced their intention to, again this year, sponsor "Operation Christmas Card."

The project is one of trying to get local and area citizens to give the money they would normally give for the Christmas cards and postage to mail them to friends and relatives in and right around Plains, to be used in maintaining and improving the Yoakum County Cemetery.

Those who are interested in giving so may contact Miss D. Lois McGinty at Flowerland. The names of donors will be run on a page size Christmas Card in the Record in its issue of December 21.

Begin Round Ball Workouts

Following the close of the football season for this year, the Plains Cowboys started this week to workout for the nearing basketball season.

As usual, one of coach Sewell's first tasks is to try to get football out of their systems and to get their minds set on trying to avoid running into an opponent on the court instead of doing so on purpose as they have been on the football field.

Prospects for this year's team look promising, and will (See Page 6).

Athletic Banquet Is Monday

'Fighting Heart' Award Is Climax

The Annual Football Banquet sponsored each year by the Cowboy Booster Club, will be held this Monday night, November 26, in the Plains School Cafeteria at 7:30 p. m. Those attending, and the general public is invited, will be honoring the 1962 Cowboy football team.

Each member of the team, along with his date, will be a guest of the Booster Club, with members asking individual football boys to the affair as their guests.

Admission has been set at \$1.50 per person and tickets, now on sale, may be obtained by contacting any booster club member or by calling GL6-4116.

Speaker for the occasion is to be Mr. Mike Bredeloff of El Paso, public relations man with El Paso Natural Gas Co. He also was coach for several years at Texas Western and served for a while as athletic director.

Highlight of the evening will be during the presentation of awards by Coach Jack Pierce. Awards to be given include two new awards, the Outstanding Defensive and Offensive Players of the Year. Also, the annual award, election for which is made by the members of the team, for the "Fighting Heart Award."

Cattle Inspector Post Remains Question

It is reported that the post of Cattle Inspector, as elected in the November 6, General Election, is still in question.

Mr. Charlie Waddell of Denver City was "duly" elected to that office, but some question as to his qualifications to hold the office legally has been raised. A person to be able to hold that office must be licensed by the State Animal Health Commission, which Waddell is not, nor is he able to secure such a license, as that agency is no longer issuing them to any but full time employees of their Commission.

Word has not as yet been received from the State Attorney General in Austin, but action by the County Commissioners Court is being held up pending that decision.

Fire Dept. To Play Teachers

A special "outsiders" game of football will be played in Plains on December 1, a Saturday, at 5 p. m.

The members of Plains Volunteer Fire Department will take on a team picked from the ranks of the Plains teachers.

In next week's issue of the Record, names of the players will be run.

Proceeds from the game will be given in their entirety to the March of Dimes. Admission charges have been set at \$1 for adults and 50 cents for students.

Cash Drawing At \$60 Mark

Yoakum County Federal Credit Union will hold their sixth monthly cash drawing on Saturday, November 24, at 5 p. m. at Hawkins Food Store.

If you are a member of the Credit Union your name and number will be in the box from which the drawing is made. But, to win, you must be present, and you must have deposited at least \$5 in the Credit Union during November.

At the drawing on October 27, held at Pic & Pay, Jan Hanna's name was drawn for a \$50 prize, but failed to come forward, making this month's cash prize \$60.

Set Cotton Referendum For Dec. 11

Tuesday, Dec. 11, 1962 is the day cotton farmers will vote on marketing quotas for the 1963 crop of upland cotton.

You are eligible to vote in the referendum if you engaged in the production of upland cotton in 1962.

At least two-thirds of the growers voting must approve the quotas if they are to continue in effect.

While the Administration plans to recommend new cotton legislation early in 1963, it is anticipated that such legislation would supplement rather than substantially change the following basic program choices in the Dec. 11, referendum.

If Quotas are approved, marketing quotas and acreage allotments will be in effect.

A Farmer who exceeds his farm allotment will be subject to a quota penalty on his "excess" cotton.

Price support at a level within the range of 65 to 80 percent of parity will be available to growers who comply with their allotments.

If Quotas are not approved No marketing quotas and no marketing quota penalties will apply to the 1963 upland cotton crop.

Farm acreage allotments will continue in effect.

Price support at 50 percent of parity will be available to growers who comply with their farm allotments.

Why Quotas? By law, the Secretary of Agriculture must proclaim a national marketing quota for the next cotton crop whenever upland cotton supplies exceed "normal" as defined by law. Farmers then decide by their votes whether the quotas are to be used in handling the extra-large supplies.

Supplies for 1962-63 are estimated at 22,131,000 running bales—4,711,000 bales above the normal supply figure.

The 1963 national marketing quota is 14,367,000 bales (500 lbs. gross weight). The (See Page 2)

TETUM PERRIN--OUTSTANDING OFFENSIVE PLAYER OF WEEK

EARNIE ANDERSON--OUTSTANDING DEFENSIVE PLAYER OF WEEK

Roughnecks Surprise Plains

The Plains Cowboys got somewhat slipped up on last Friday evening when they met the Sundown Roughnecks on their opponents home field. Plains went into the game, the seasons last for both teams, favored to win, and expected were, in most quarters that a Cowboy victory was virtually in the bag. Things seem to have a way of coming out differently than planned though, when two teams as competent as Plains and Sundown meet for a contest.

Plains, in the second period of play, scored the first TD of the game when Ronnie Hendricks scooted over on a power play. Two extra points were also tallied following the touchdown on a pass from J. B. Wilson to Omar Hyman.

The turning point in the game came just at the end of the first half when Sundown, on a screen pass scored six points and successfully ran over their two extra points, leaving score at the end of the first half tied at eight all.

During the balance of the remaining two quarters of play the Roughnecks scored on a field goal for three points, another touchdown and kick for one extra point.

The Cowboys rallied and scored another touchdown, run over by Hendricks. Try for extra points failed and the game ended with the score at 14 for the Cowboys and 17 for the Roughnecks.

Tatum Perrin was named Offensive Outstanding Player of the Week and Ernie Anderson again received the honor on the Defensive side. Perrin, while not gaining the most yards or directly scoring either of the tallies, was responsible several times in the game for key yardage.

Anderson was named to the honor for performing his duties at line-backer in his usual more-than-competent way.

Cotton Harvest About Normal

Mr. W. K. Palmer, Officer-in-Charge, reported classing activities are beginning to look normal for this time of the year at the Lubbock Classing Office. Daily sample receipts are running over 20,000 samples per day. A full shift of forty classers has been in operation for the past week. A double shift will be started on November 19.

The Lubbock office classed 93,000 samples for the week ending November 16. This brought the total classed at Lubbock to 231,400 and the office had a carry-over of 20,000 samples. The Lamesa office reported 12,000 samples classed for the week. This brought the total classed for the year to 53,000 samples, with a carry-over of 2,000 samples. The Brownfield office classed 22,200 samples for the week. This gave the Brownfield office a total of 69,000 samples for the year. A carry-over of 8,000 samples was reported by that office.

The classing offices had classed a total of 693,400 samples through November 16, 1961. A total carry-over of 33,900 samples was reported at that time.

Light spotted grades accounted for one-half of the samples classed. Strict Low Middling and Middling Light Spotted were the predominant grades with percentages of 30 and 39 percent. Strict Low Middling Light Spotted accounted for 10 percent. Eleven percent of the samples classed were Middling.

The average staple length was slightly shorter for the week compared with the previous week. For the week of November 9 it was 30.2 thirty-seconds of an inch, this week it was 30.1 thirty-seconds of an inch. The predominant staple was 15/16 with 57 percent. Twenty-nine thirty-seconds of an inch was 18 percent and 31/32 was 19 percent.

The number of samples with micronaire readings of 3.4 and below increased this past week. For the week ending November 9, twelve percent of the samples miked 3.4 or below. Nineteen percent of the samples had micronaire readings of 3.4 or below for the week ending November 16. Thirty-seven percent of the samples were in the range of 3.5-3.9. The range of 4.0-4.4 had 34 percent. Ten percent miked 4.5 or better.

The Lubbock Cotton Exchange reported 37,200 bales purchased for the week ending November 16. This was 14,800 bales more than the previous week and compares with 68,000 bales reported for the same week a year ago.

Cotton price quotations remained unchanged over the past week. Middling 1 inch quotations is 32.30, which, compares with 33.00 a year ago.

Brucellosis Testing Nears Completion

The testing of the cattle in Yoakum County is moving at a more rapid rate than was expected. Tests had been made from the beginning date, November 14, through Tuesday, November 20 which represented over 4,000 head of cattle. Dr. R. M. Zerkle reports that the work will be practically completed by Tuesday of next week.

Only four reactor animals have been found and all of them were in two herds. Certifying the county as a Brucellosis Free Area will be simple matter unless considerable the testing work in their respective areas.

Herd owners will receive a copy of their test and its important that they keep this copy and take it with them when cattle are taken to a sale ring. Within three or four weeks after the testing work is completed the Texas Animal Health Commission will declare the county to be a Modified Certified Clean area and the test papers will no longer be needed.

Herd owners who have not tested are urged to contact one

A Letter Of Thanks

I would like to express my appreciation in this manner to the members of the Plains Band for the really splendid job they did in the contest in Lubbock this week.

We scored a II rating, but in my mind we have a grade A, class I, top-notch band.

Your efforts are really appreciated by me, and I know that each of you has been and will continue to give the best efforts you have to the band and its continued improvement.

I also would like to thank the citizens of Plains for the fine support given the band this year and for the many words of encouragement you have passed our way.

Thank you,
Gene Young

of the above mentioned lineup men or call the county agents office in Plains, GL6-3003.

Grid Contest In Last Week

Winners in last week's edition of the Record's football contest are, Jack Pierce, first place; Jack Hayes, second place; and Cordell A. S. Huddleston third place.

Pierce was uncontested as first place winner with five misses out of the twenty tilts, while Hayes and Huddleston tied with six misses each and their respective places had to be decided by using the tie-breaker score.

The contest in this issue of the Record is the last football contest of the season, but a basketball contest along the same lines will be started in just one week.

SUBSCRIPTION RATES: \$3 per year in Yoakum and Terry Counties; \$4 per year elsewhere.

(From Page 1)

national allotment acreage for producing this quota is 16,000,000 acres. In addition, legislation provides a national acreage reserve of 310,000 acres which may be used to the extent needed for the establishment of minimum farm allotments.

The national allotment is divided among States and counties on the basis of the acreage planted to cotton during the 5-year base period 1957-61, with adjustments as provided by law.

Quotas and you--Under a marketing quota program you may market all your upland cotton free of penalty if you do not produce more acres of cotton than your farm allotment. All your cotton will then be eligible for price support. You may adjust your planted acreage to the farm allotment within a time limit.

If the cotton acreage remains overplanted, the excess cotton will be subject to a marketing penalty (50 percent of the cotton parity price as of June 15, 1963), and the crop will not be eligible for price support. Generally, the excess cotton is the farm's normal yield on the excess acres. However, if the prod-

ucer establishes by a specified date that the actual yield is less than the normal yield, the ASC County Committee will reduce the amount of cotton subject to the penalty.

Allotments---Your cotton allotment is valuable. It is used to determine your fair share of the cotton market. It belongs to your farm and is based largely on your farm's past cotton production history. It may not be "sold," and it may be transferred only as provided by law.

All farms on which cotton was planted in any of the years 1960, 1961, or 1962 will be eligible for cotton allotments in 1963 as "old cotton farms." This is also true of farms that legally maintained their rights to cotton allotments even though not growing cotton.

Other farms may be considered for allotments as "new cotton farms" upon application to the ASC county office by the established closing date.

To protect your farm allotment base--used in determining future farm acreage allotments, you must plant (or be regarded as planting) at least 75 percent of your 1963 farm acreage allotment. Otherwise, your base for the following year will be reduced to the average of (1) the regular allotment for 1963, and (2) the acreage planted or regarded as planted in 1963.

This rule applies to all farm cotton allotments regardless of size.

Appeals---If you are dissatisfied with your farm acreage allotment, you may ask for a review of your case by a review committee appointed by the Secretary of Agriculture. Your request must be filed in writing with the county office manager within 15 days after the ASC County Committee mails the allotment notice.

If you are not satisfied with the review committee's decision, you may within 15 days request a review of the case by a court.

♠ K J 9 8 7 6 3
♣ 9 6

The Bidding:
North East South West
Pass Pass 1 ♦ Pass
2 ♥ 4 ♣ Pass

Opening lead: Ace of diamonds.
After opening lead, North returned ace of hearts and then a small heart which South wins with the king. South returns another heart which is trumped in the closed hand. West leads two rounds of trumps, follows with a small club. North plays low and trick goes to jack on the board. A small club is led to the ace in the closed hand, diamond trumps in the dummy and king of clubs is led from the board. The last club is trumped in the closed hand and the last diamond ruffed on the board to make the contract.

COMMENT: The play of the hand was routine, but I disagreed with the bidding. Since North failed to open, South should have opened with three diamonds.

COMMENT: The play of the hand was routine, but I disagreed with the bidding.

TO EVERY COMMUNIST

This page has been sent for insertion to the editors of *Izvestia*, *Pravda* and the principal newspapers of other Communist countries, as well as to leading newspapers throughout the non-Communist world.

PEACE OR WAR? That is the question each man asks his neighbor. Every woman awaits the answer.

In a divided world, both camps armed with weapons capable of total devastation, the theory of the class struggle as well as the theory of capitalism, the welfare state, or the affluent society will prove too small, too slow and too selfish to achieve anything except disaster.

Many honest Communists know it. Too few in the non-Communist world will face it.

Our appeal is to every sincere Communist and Marxist in Russia, in China and throughout the world to join with us in the greatest revolutionary adventure of all time, whereby the root problem—human nature—is dealt with thoroughly, drastically and on a colossal scale and nations are halted in their mad, historic march to violence and destruction.

It will mean change for all. Changed economic conditions, though essential, do not change men. Decadence in some of every generation among the richer societies of the non-Communist world, decadence among the third generation of Communists in the Communist world prove it.

Too many Communists, as Mr. Khrushchev has pointed out, are too selfish to make their Communism work in their homes, on the farm, in the factory, in the nation, or in their world revolution. Too many non-Communists are too selfish to live for anything except their own comfort, their own corner, their own concerns.

IN AFRICA, at the time when many Africans want all white men to leave, seventeen nations have invited Moral Re-Armament to their countries. In Nigeria, Tunisia, the Cameroons, Morocco and the Congo responsible leaders say that it has already averted bloodshed.

In Kenya, hard-core Mau Mau revolutionaries were changed when they heard their white prison commandant apologize for the arrogance and greed in men like himself, which had helped to cause Mau Mau. They gave up their hate, for they saw that where black hates white today, black would kill black tomorrow. They took the all-African film *Freedom*, which dramatizes this answer, to their leader, Jomo Kenyatta. He said, "Get this film into Swahili. It is what our people need."

A CURE FOR HATRED AND SELFISHNESS

Deedan Mugo, the first man arrested in the emergency, saw the film in Swahili. He had returned from twelve years in prison to find that his two wives and four children had been killed, his home demolished and his land confiscated. He says, "I decided to forgive the white man, when I saw that only thus could Africans, Asians, Europeans live in peace." Together with Kenyatta's only brother, he took *Freedom* to 400,000 people in Kenya in six months. "Moral Re-Armament is an intelligent medicine to cure the diseases of hate, selfishness and bitterness, which confuses nations everywhere," he says.

In South America, revolutionary students of San Marcos University, Peru, where Vice-President Nixon was stoned,

have changed. "To change the system is only half a revolution," said the editor of the left-wing student paper. "Moral Re-Armament is the total revolution because it changes the system and produces the incorruptible men to run it. The most reactionary man is the one who wants to change the world, but refuses to change himself." They wrote a play *El Condor*, portraying this total fight for social justice. Capitalists and generals changed, quit their sterile anti-Communism, and took up the fight with them. They were received with tumultuous enthusiasm by the land workers in the Peasant League country. In the port of Recife so many dockers found hope and purpose that alcoholism went down by 50%. The Director of the Port Co-operative reports, "Looting and pilfering are going out of fashion. Honesty has come in, so that prices of staple foods have been able to be cut by 35%."

In recent months Moral Re-Armament plays have been seen in football stadiums by more than a million and a half people in Peru, Chile, Bolivia and Brazil. Millions more see Moral Re-Armament programs regularly on television.

FOR WORLD PEACE AND ASIAN UNITY

In Japan on October 22nd, 1962, the Prime Minister opened an Asian training center for Moral Re-Armament at Odawara. The invitation committee for the first Assembly there includes two former Prime Ministers and top trades union and industrial leaders, who say: "In order to lay a foundation for world peace, and especially to create unity in Asia, individuals and nations must now give priority to Moral Re-Armament." Takasumi Mitsui, the President of the

Years ago Frank Buchman, initiator of Moral Re-Armament, in a speech broadcast to the world said, "Is change for all the one basis of unity for all? Can Marxists be changed? Can they have this new thinking? Can Marxists pave the way for a greater ideology? Why not? They have always been open to new things. They have been forerunners. They will go to prison for their belief. They will die for their belief. Why should they not be the ones to live for this superior thinking?"

Many people say that Capitalism or Communism, class or color are the problems.

The problem is not Communism. It is character.

The problem is not Capitalism. It is character.

The problem is not Color. It is character.

The problem is not Class. It is character.

New men with new motives will build a new world. No concept short of this touches the root of the modern malaise.

Hans Boeckler, the great president of the German Trade Union Federation, put it this way, "When men change, the structure of society changes. And when the structure of society changes, men change. Both go together and both are necessary."

This revolution of Moral Re-Armament already has bridgeheads in every nation. It is in its final phase of total expansion throughout the world.

Mitsui Foundation, sold his last family property to provide money for the center. The aim is to make real for every Asian the words of Frank Buchman to the rice workers of Ceylon. "Empty hands will be filled with work, empty stomachs with food and empty hearts with an idea that really satisfies."

One of those leading the Assembly is Rajmohan Gandhi. He is the third generation of his family to stand with Moral Re-Armament. His grandfather, Mahatma Gandhi, who achieved India's freedom from imperialism, first met Buchman in 1915, and said, "Moral Re-Armament is the greatest thing that has come out of the West." His father, Devadas Gandhi, said, "If Moral Re-Armament fails, the world fails." Pressed by the leaders of India to take a prominent position in his country, Rajmohan replied, "Where would India be today if my grandfather had accepted the advice to return to his law practice instead of fighting for his country? Today, not just one country is in jeopardy, but the whole world."

THIRD GENERATION OF MORAL RE-ARMAMENT

The grandchildren of the men and women changed when Buchman visited Scandinavia in the thirties have written a play which gives an answer to impurity and hate. It offers youth of every nation something great to live for. It will go through Europe this winter.

In Europe, Asia, and throughout the world, the third generation of Moral Re-Armament are working day and night, without salary, to make the work and wealth of the world available for all, and for the exploitation of none.

THERE WILL BE no war if East and West, black and white, Communist and non-Communist accept a common revolutionary destiny. There can be no honest co-existence without a common commitment. Mankind's commitment must now become the rebuilding of the world. It means the transformation of society, an economic, social, political change within and between nations, a revolution so vast that everyone, everywhere, can play his part.

Human nature can be changed. That is the root of the answer.

National economies can be changed. That is the fruit of the answer.

World history can be changed. That is the destiny of our age.

God alone can change men. Lenin was a forceful and sincere revolutionary. His challenge to the century has altered the shape of our times. But it has divided mankind, and can destroy it, unless we change.

Lenin did not believe in God. He said, "Our revolution will never succeed until the myth of God is removed from the mind of man." Lenin's disbelief was caused by the actions and inactions of those who expressed their belief in God.

Nations, which professed faith, lived in such a way that they robbed Lenin and his friends of a belief in God. The way some so-called God-fearing nations live make the Communist world cynical of God today. But unbelief was a fatal flaw in Lenin's philosophy.

Absolute moral standards are a place where all men can make a start—standards of absolute unselfishness in economic planning; absolute love in social attitudes and patterns; absolute honesty in indus-

trial and political action; absolute purity in every home. Here lies the secret of successful statesmanship, sound citizenship and lasting unity. The logical next step for the Communist and for the non-Communist world is Moral Re-Armament.

Honest leaders in both worlds admit it. The 22nd Congress of the Russian Communist Party called upon every Party Member to observe himself and cultivate in others honesty, moral purity, unselfish labor for society and love of his fellows. Emboldened leadership will pay the price of living the answer and giving it to the masses.

William Penn said, "Men must choose to be governed by God or they condemn themselves to be ruled by tyrants."

When the men of the Kremlin listen to God, He will speak to them as clearly as He would to the leaders of the non-Communist world if they were humble enough to listen—and sane enough to obey, instead of continuing to do efficiently and proudly what is not the way.

From the Mind of God, adequate, accurate, definite information can come to the mind of man. Here is a revolutionary experiment that any true revolutionary will dare to make.

The paradox of history may be that this century which discovered the power of the divided atom, will learn the secret of uniting man. The Communists, governed by God, could be pacemakers for the world in the greatest revolution of all time, where all men are needed, no man is exploited, and where leaders and led pay the price of a new society by paying the price of change in their own lives.

For the background to this page read "FRANK BUCHMAN'S SECRET" by Peter Howard—DOUBLEDAY (\$2.75)—available at your bookstore. For further information write Moral Re-Armament, 640 Fifth Ave., New York 19, N. Y. or 833 South Flower St., Los Angeles 17, California.

These pages, which will appear regularly, and the world-wide advance of Moral Re-Armament are made possible by men and women who give out of conviction and sacrifice. Contributions are tax deductible and may be sent to Moral Re-Armament, Cedar Point, Mackinac Island, Michigan.

Range Management Group Sets Meet

The Texas Section of the American Society of Range Management will hold its annual meeting at the Townhouse Hotel in San Angelo, December 7-8.

President Don Huss, Department of Range and Forestry, Texas A&M College, reports that a program has been planned which should be of great interest to Texas ranch operators and he extends to them a special invitation to attend.

The first session is scheduled for 1:30 pm on Dec. 7 with Dr. V. M. Harris, Director of Research, Perry Foundation, Robstown, presiding. In rapid order will come discussions by outstanding speakers on "Seeding Grass in a Living Stand of Small

Mr. and Mrs. Johnnie L. Fitzgerald attended the funeral of Dr. McClory in Brownfield Monday.

Grain"; "Lesson in Ecology from Mexico"; "Financing Range Improvements"; "Use of Cost-Return Information in Conservation Ranching"; "Range Seeding in the Trans-Pecos"; and "Ranching With and Without Conservation."

The evening session will be devoted to the annual banquet with W. J. Waldrip, Texas Agricultural Experiment Station, serving as master of ceremonies. Miss Mohair of Texas, Miss Nancy Friend, Ozona, will be an honored guest. Awards and entertainment will also be presented.

Friday morning's session will be presided over by Dr. Leo Merrill, Texas Agricultural Experiment Station, Sonora, with a business meeting set for 8 a. m. The screw-worm program will be discussed at 9:15 and will be followed by a discussion on "Climate Cycles and Vegetation"; "New Developments for Control of Hazardous Spray Drift"; and presentations by students from Abilene Christian College, Texas A&M College and Texas Technological College. Tsa Mo Ga Sets Bible Drama

Members of Tsa Mo Ga club will present a religious drama when they meet November 26 at the club house. Mrs. Paul Cobb will be the program director. Mrs. L. D. Hamm and Mrs. C. F. McCargo will present the drama "If a Bible Talked". Mrs. T. E. Payne Jr. will talk on "Our Rights

To Require Belief". The group will be led by Mrs. Dorman Scott in a religious song fest. The members will also be answering roll call with their favorite scripture.

Hostesses for the occasion will be Mrs. George Cleveland and Mrs. Glenn Cleveland.

style show and coffee has been planned for the ladies at 10 a. m. and will feature Miss Mohair of Texas and her wardrobe.

Mr. W. H. Owen, Treanor Equipment Company, Abilene, will preside over the final afternoon session on Dec. 8. Subjects to be discussed include "1962 Range Camp

Report"; Field Application of Range Trend"; "History of Development of Dense Stands of Brush on the Rio Grande Plains" and "Getting Action on Research."

President Huss said, "We believe those attending will find the information presented very valuable since each speaker will emphasize the practical."

We'll respond promptly to your call

In time of need, it is comforting to know that a phone call (at any hour) will bring us promptly to your side, ready to relieve you of all details involved in final arrangements.

Faithfully serving families of all faiths.

go into the season with a lot of experience to their credit. Coach Sewell reports that the team is somewhat lacking in height but has plenty of speed. A look at the cage schedule for this season, especially at the teams in district 5-A is enough to tell anyone that there is rough sledding ahead for all the teams in the dis-

trict. Plains' first game will be on the night of November 29, at Levelland. A complete schedule of Plains varsity play can be found elsewhere in this issue of The Record.

Individual Income Facts

Texas taxpayers reported \$13.6 billion adjusted gross income on the 2,873,000 Federal income tax returns filed for 1960, Ellis Campbell, Jr., District Director of Internal Revenue, said today. Income statistics, after

allowance for deductions and exemptions, showed taxable income in Texas of \$7.17 billion resulting in income tax liability of \$1.69 billion. Both items represent increases over the income year 1959 -- and increase of 0.3 percent on taxable income (\$7.15 billion in 1959) and an increase of 0.2 percent in income tax liability (\$1.69 billion in 1959).

Internal Revenue reports that Texas tax returns showed an increase in 1960 over the previous year in salaries and wages, dividends, interest, and combined other income and loss. Largest increase reported was the 14.1 per cent rise in interest with \$213 million reported in 1960 as against \$187 million in 1959. Dividends ere 8.3 per cent higher with \$321 million in 1960 and \$297 million in 1959. Combined other income and loss reported in 1960 was \$2,384 million in 1960 as compared with \$2,376 million in 1959. an increase of 0.3 per cent.

Salaries and wages showed the largest dollar amount increase, with \$10,658 million reported in 1960, and increase of 0.8 per cent over the \$10,575 million in 1959.

On a nationwide scale, Internal Revenue's Preliminary Report for 1960 indicated the vast change in taxpayer's adjusted gross income over the past decade. In 1950 only 14 per cent of the returns had income over \$5,000

By contrast, of the 61 million individual returns filed for 1960, 42 per cent showed income above the \$5,000 level. As might be expected, the bulk of the increase in income from taxpayers reported, nationally during 1960 came from salaries and wages, and it dwarfed the changes from other sources. Salaries and wages totaled \$257.9 billion for 1960, a \$10.5 billion increase over 1959.

Taxable income nationally reflected the over-all rise in the level of income received by taxpayers in 1960. Taxable income of \$171.6 billion represented a \$5.1 billion increase over 1959, with the result that income tax liability rose to \$39.5 billion--over \$800 million higher than in 1959.

This information is available in the Preliminary Report, Statistics of Income - 1960, Individual Income Tax Returns, prepared by the Internal Revenue Service. This publication is available from The U. S. Government Printing Office, Washington, D. C., for 20 cents.

More detailed data for Texas and each of the other 49 States can be obtained from the Statistics Division of the Internal Revenue Service, Washington, D. C., or local Director of the Internal Revenue Service. Data available would include number of returns, selected sources of income, exemptions, taxable income, and tax.

An example of mulch and residue is on the Harold Parrish farm. W. M. Overton, ASCS office manager is standing in an area where cotton burs were spread for cover and mulching.

HAIL, MR. BASKETBALL

Someone said, "We think the feasting is becoming more important in our minds than the Giving of Thanks". We have never been better informed of conditions throughout the world than in this year of 1962, and consequently never so aware of the wondrousness and magnitude of our blessings. May this Thanksgiving Day be sincerely dedicated to "Giving Thanks" and a renewal of our determination to more actively do our share in the preservation of the rich heritage endowed upon us.
