MOORE
or Less

By Johnnie Moore

OUR 33rd YEAR

The government recently brought an antitrust suit against a certain corporation. It was a criminal action, and had to do with the dealer system involved in selling one of the corporation's products. The presiding Federal Judge Thurmond Clarke, of Los Angeles, dismissed the government's charge. He quoted the late, great Justice of The Supreme Court, Oliver Wendell Holmes, who said: "... Let people manage their own business affairs in their own way, unless the grounds for interference is very clear." Judge Clarke added: "if that advice is heeded by both the courts and the government, I am confident

that the U. S. will continue to be free, strong, and prosperous."

An official of Texaco, Inc. recently wrote: "Don't think your letters to Congressmen don't count. They do. The only time they don't count is when you don't write them."

Americans represent only six percent of the world's population. Yet they account for almost half of the petroleum consumed on earth each year.

I think most people who live in Plains and in the area around Plains are really and sincerely interested in seeing about anything brought about that would really bolster and help Plains along.

The City Council of Plains if given our support, I believe has just such an opportunity right now.

We all know that getting people to trade at home as far as the small town merchant is concerned is a real problem. This problem is, I believe, aggravated somewhat by one other bit of competition that the small town business man is confronted with. I am talking about the people who do not have their places of business in Plains, but who take a great deal of money out of our town each and every week via the route van method.

There are many many businesses in Plains that are affected by this kind of competition, unfairly, I think.

The proposal has been, in the past, and I think should be considered again very seriously to ask businesses from out of town who call on our local citizens to pay a realistic tax of some sort to make the basis of competition a little more equal.

For instance, the local average businessman pays city taxes, he uses city utilities, and in general, through these avenues helps provide us with those things that we need as a town and community of people. People who run a combination order-taking and delivery wagon to Plains don't pay taxes or buy city utilities. Plains merchants are the ones who support local welfare programs, our churches, such things as Scouts, Little League and the thousand and one other mighty fine things provided in our community.

The delivery wagon people don't contribute much of anything, if ever anything at all, to our community.

I really don't think it's fair to penalize a person for having a place of business here. Do You?

NOTICE NOTICE

There will be a meeting of all persons interested in securing a Junior College for Gaines and Yoakum Counties. The meeting will be held Monday at 7:30 p. m. in the clubroom at the community building in Denver City.

The above announcement was forwarded to us by Judge Stanley Duvall, who also stated that Plains residents are certainly invited to and urged to attend the meeting.

PRETTY VISITOR---Miss Susanne Krause, a native of Lyngby, Denmark, who is an exchange student attending,

at present, Post High School, presented Thursday's program to the Plains Lions Club, telling many very interesting things

about her native land. She is living in Post with Dr. and Mrs. Young, the parents of Mr. Gene Young of Plains.

When Susanne returns to Denmark, she plans to study dentistry. The program was very much enjoyed and very well received by the local club.

Cowboys In Sundown For District Meet

Plains Cowboy Track Team will be travelling to Sundown again this Saturday, this time to take part in the District 5-A meet.

Opinion is that several of the Plains athletes stand real good chances to win firsts in several of the events and also to qualify for the regional meet in others. Speedster, Ronnie Hendricks who is just two weeks over an appendix removal, will be entered in the meet, and it is reported that he is in real good form considering the fact that he has missed a lot of work out time.

Teams and individuals that Plains will be fielding Saturday include the following: Sprint Relay - Faulkenberry, Perrin, Hendricks and Lynn.

880 yard run - Spencer, Long and Parker. 120 yard high hurdles - Anderson, Field and Wilson. 100 yard dash - Hendricks, Crutcher and Faulkenberry. 440 yard dash - Perrin and Williams.

180 yard low hurdles - Anderson, Field and Wilson. 220 yard dash - Lynn, Crutcher and Faires. Mile run - Harris, Pippin and Stewart. Mile relay - Faulkenberry,

Hendricks, Lynn and Perrin. High jump - Wilson and Smith. Broad jump - Faires, Wilson and Crutcher. Shot put - Lynn, Hickman and Todd. Discus - Todd, Smith and Lowe. Pole vault - Robertson and Lowe.

The meet will begin at 10 a. m. Saturday morning with the preliminaries and finals will begin at 2:30 in the afternoon.

Golf Course Meeting Called

In what has been described as the next necessary step, in exploring all the possibilities of getting a golf course near Plains, a meeting has been called for next Thursday evening, April 11, to begin at 8 p. m. All interested persons in the area are asked to be on hand at that time in the club room of the Old Courthouse

here in Plains. The meeting will be used to further determine actual, area interest in the project, and to discuss in a limited respect the costs of such an undertaking. The meeting will be conducted on just an open discussion basis, in which all ideas and suggestions will certainly be welcome.

City Locates Many Gas Leaks

"The Sniffer" was at large in Plains this week.

City Council of Plains, in an effort to find out where the terrific amount of gas that has been being lost here was going, contracted with the Ray-Flex Corporation of Dallas, to use their jeep-mounted machinery, called the sniffer, to find out exactly where the leaks were.

All the streets and alleys in Plains were run out, with the exception of a few that were inaccessible because of construction or obstructions

in the alley-ways. The total time to do this job was 25 hours, but this was, it is felt, plenty, as the hourly rate to be paid Ray-Flex for their services is \$30, for a total of \$750 for the job.

This price however, is considered to be pretty cheap in relation to the amount of gas that is being lost each month for which the City has to pay 24¢ per thousand cubic feet. Within the past six month's period, for instance, there has been a total loss of 35,000,000 cubic foot, which

School Election Set Saturday

To replace or re-elect, as the case might be, three expiring terms on the Board of Trustees of Plains Independent School District, voters will go to the polls, located in

the Plains School building on Saturday, April 6.

Those whose terms expire at this time are Bill Gray, C. L. Gayle and Olen Edwards. Of these three Gayle and Edwards have announced their

candidacies for re-election. Others who have announced for the board are Bob Loe, Morris Lowe and Johnnie L. Fitzgerald.

Ballotting will be held in the library of the high school, and any qualified voter who is a resident in Plains Independent School District is eligible to vote.

Also, at the same time, voters of Precinct No. 1 and No. 2 will be asked to vote for a county school board member for each of their areas, and a member at large.

Results In City Election

A very minimal amount of voters turned out to cast ballots in Tuesday's City election.

Exactly 100 voters made their choices for three Alder-

man and for a new City Judge.

Mr. E. B. Teague, running unopposed for the office City Judge, received 99 of the 100 votes cast to become the new Judge.

In the case of the three places for Aldermen, one incumbent, Buford Duff, received 45 votes and another term. The other two Aldermen elected were Kenneth Hale, also with 45 votes; and D. N. Taylor who received the most votes with 55.

The balance of the votes were divided as follows:

Joe Curry and Roy Edwards each received 40 votes each; Ralph McClellan, 28 votes; Murrell Thompson, 24; and Tommy McDonnell, 17.

would cost the City about the sum of \$8,400.

Repair work on the many

leaks found will begin immediately so that this enormous loss can be stopped.

UIL WINNERS---pictured above are the Plains students

who placed first in various UIL events to help Plains win

first place in the District 5-A competition.

PLAINS VOLLEYBALLERS--last year's State Champs will

be competing again this weekend in the district race. All

indications are that Plains will again sweep the District race.

Bronco Exam

An examination for Fourth Class Postmaster for the Post Office at Plains, Texas, \$3003 a year will be open for acceptance of applications until April 23, 1963, the commission announced today.

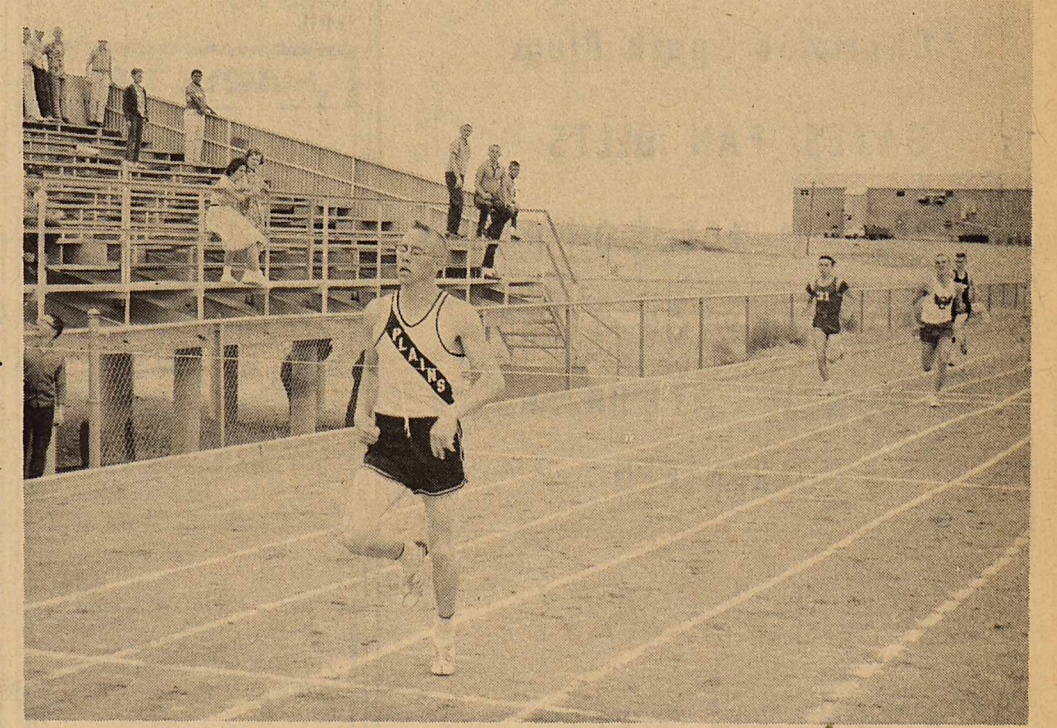

Applicants must actually reside within the territory supplied by the above-mentioned post office and they must have reached their 18th birthday on the closing date for acceptance of applications. There is no age limit. However, persons who have passed the age of 70 may be considered only for temporary renewable appointments of one year.

Complete information about requirements and instructions for filing applications may be obtained at the post office for which this examination is being announced. Application forms must be filed with the U. S. Civil Service Commission, Washington 25, D. C., and must be received or post-marked not later than the closing date.

Bond Sales Reported

February Savings Bond sales in Yoakum County totaled \$9,600. This announcement was made recently by Mr. D. P. Moorhead, Chairman of the Savings Bonds Committee. Sales for the first two months of 1963 were \$13,950, which represents 19.9% of the 1963 sales goal.

Bond sales in Texas for the first two months of 1963 were \$28,367,297 and 18.8% of the

PUBLISHED EACH THURSDAY AT PLAINS, TEXAS

Entered as second class matter at the Post Office at Plains Texas, under the act of Congress, March 3, 1879

SUBSCRIPTION RATES: \$3 per year in Yoakum and Terry Counties; \$4 per year elsewhere.

1963 sales goal of \$150,000, has been achieved. "According to a report just received, hundreds of civic, fraternal, business, labor, professional and women's organizations are assisting the Treasury Department in urging all Texas families to buy a Savings Bond before the Fourth of July. Lions, Civitan Kiwanis, VFW, Texas AFL-CIO, American Legion Auxiliary, and Texas Federation of Women's Clubs are only a few of the clubs that are cooperating in this year's Freedom Drive." Chairman Moorhead advised.

Recommend Revising Building Coeds

Use of model building codes as a way of giving impetus to new construction in communities and overcoming archaic laws has been recommended by a group of 35 building code experts.

The group, known as the Advisory Council on Building Codes, was sponsored by the Chamber of Commerce of the United States.

Its findings were published in a 20 page report, "Building Codes--For Community Development and Construction Progress."

Archaic building codes, according to the Council, are formidable barriers to con-

formidable barriers to construction and community development throughout the Nation. Such codes block use of up to date building products and methods, increase costs, and cut down the construction work and job opportunities needed for community growth.

The National Chamber's Advisory Council on Building Codes considered four approaches to solution of building code problems local codes, state codes, a federal code, and model codes. It recommended that communities across the Nation adopt model codes which are kept up to date with the continuing improvements.

The Council specifically recommended four model codes: "The National Building Code," published by the National Board of Fire Underwriters; the "Uniform Building Code," published by the International Conference of

Building Officials; the "Southern Standard Building Code," published by the Southern Building Code Congress and the "Basic Building Code," published by the Building Officials Conference of America.

According to the experts on the Council, an ideal building code should:

"Place major emphasis on performance requirements; contain provisions for achieving both periodic modernization and desirable stability of code provisions; be uniform with respect to local geographic areas; contribute to uniformity of building regulations among varying levels of government within the same locality; contain provisions for efficient administration; provide remedies for all who might be aggrieved; and be

Records Set In Cowboy Relays

A fine crowd of people was on hand Saturday for the running of the Third Annual Cowboy Relays.

Placing first in the meet was the B team from Andrews with 120 1/2 points. Coming in second was Seagraves with 92 points. Other places were as follows:

Third, Springlake, 85.9; Plains, fourth, 85 1/2; Tatum was fifth with 69 2/5 points; Seminole, 29; Sundown, 12; and Coahoma, 6 points.

In the various events places were won as follows:

440 Relay: First place, Plains (Newton, Perrin, Lynn and Faulkenberry; second was Springlake; third, Seagraves, fourth, Andrews, fifth Tatum; and sixth, Seminole.

In the 880 yard run, Red Spencer was first with a time of 2:07.1. Second was Williamson of Sundown; third, Johnson of Seagraves; fourth was Dent of Springlake; fifth, Dugan of Andrews; and sixth, Field of Seagraves.

120 yard high hurdles was won and a new record set at 15.4 by Harton of Tatum.

Second place was Johnson of Seagraves; third, Anderson of Plains; fourth, Dawson of Springlake; fifth Reed of Andrews; and sixth, Wilson of Plains.

In the 100 yard dash, Sanders of Springlake won first by tying the old record of 10.1 set in 1962. Second was won by Field of Tatum; third by Hamilton of Andrews; fourth, Benton of Springlake; fifth by Doros of Tatum; and sixth by Fairles of Plains.

In the 440 yard dash, an-

McCurley Joins Air Force

Gary Keith McCurley, 19, son of Mr. and Mrs. R. C. McCurley Jr., Box 12, Bronco, Texas, has enlisted in the U. S. Air Force for a period of four years according to S/Sgt. Joe E. Griffith, Local Air Force Recruiter in Lubbock, Texas. Airman McCurley has enlisted in the Air Force and will be trained at San Antonio, Texas, during his basic training, and will go to a technical

training school upon completion of his basic. Gary qualified for training after completing a series of tests at the local recruiting office in Lubbock. Plains and Bronco area persons desiring information about the Air Force are invited to contact SGT Griffith at 1006 13th St. Lubbock, or call PO 2-3359 for an appointment.

with a time of 23.1. Second place was taken by Hamilton of Andrews; third, Lynn of Plains; fourth, Benton, Springlake; fifth by Faulkenberry of Plains; and sixth by Foster of Seminole.

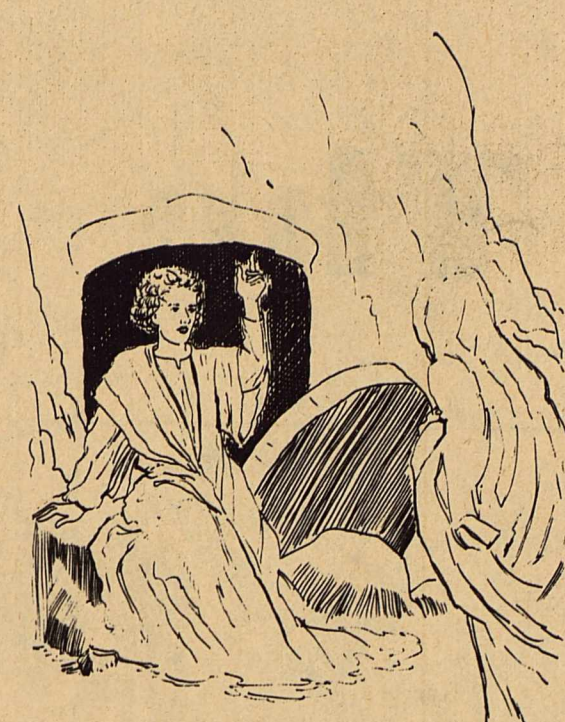

Mile run was won by Pretridge of Seagraves in 4:50.0. Second place was copied by Doros of Andrews; third, Barton of Andrews; fourth, Harris of Plains; fifth by White of Sundown; and sixth by Barton of Seminole.

Mile Relay was run in 3:34.4 by Andrews; second was won by Springlake; third, Seagraves; fourth, Plains; 5th Tatum; and sixth by Seminole. The field events tallies, and points were totaled as follows:

High jump was won by Seagraves' Field; second was

He Is Risen

"... Ye seek Jesus of Nazareth ... He is risen, He is not here."
—St. Mark 16:6

When Mary Magdalene and Mary the mother of James, and Salome, approached the rock-hewn sepulchre where they expected to find the body of Jesus, they found only a young man clothed in white garments, who told them Jesus had risen and they should go forth and tell his disciples and Peter that Jesus "goeth before you into Galilee: there shall you see Him."

In fright, the women fled and said nothing to no one. Later, after Jesus had appeared to Mary Magdalene, she returned to tell the others, yet they would not believe her.

So it has been through the centuries. The miracle of the resurrection is not an easy thing for some humans to comprehend. Yet Christians realize that in this great truth lies the fulfillment of the purpose of the life of Jesus upon earth. He made possible the hope that springs eternal in the hearts of mankind.

Box's Given House-Warming

A housewarming was given Mrs. Adell Box and Robert Sunday afternoon by friends and neighbors of the community. Many nice and useful gifts were received. Hostesses were: Mrs. Rusty McGinty, Charles Roseberry, A. H. Bacon, W. P. Turner, Ira Tidwell, Bayne Price, and Mrs. Jack Stegall. They served coffee, punch, and cookies to the fifty people who called in the afternoon.

Out-of-town guests were: Mr. and Mrs. Orville Izzard and George, Mr. and Mrs. Virgil Patterson, Patricia and Steve of Lubbock, Mr. and Mrs. Randall Hughes and children of Levelland, and Mr. and Dale Huges and children of Andrews.

HISTORY'S SCRAPBOOK
IMPORTANT DATES AND EVENTS FROM YESTERYEARS
Franklin D. Roosevelt died April 12, 1945 and Harry S. Truman took the oath of office as President of the United States.
Fort Sumter surrendered, April 13, 1861. Russia and Japan signed a five-year neutrality pact, April 13, 1941.
The first "motion" pictures were shown in a former shoe store, 1155 Broadway, New York City, April 14, 1894. Ten of Thomas Edison's first kinoscopes were used. April 14, 1963 is Easter Sunday.
The S.S. Titanic struck an iceberg and sank, April 15, 1912.
Born on April 16 were Wilbur Wright (1867); Amos Alonzo Stagg (1862) and Charley Chaplin (1889).
Mississippi was organized as a territory, April 17, 1798. The San Francisco earthquake made news, April 17, 1906.
On April 18, 1942, U.S. President Franklin Roosevelt created a War Manpower Commission. On the same day, Pierre Laval formed a new cabinet in Vichy, France, assuming the title of chief of government.

pass 3 NT pass 4
pass 4 pass 5
pass 5 NT pass 7 NT
pass pass pass

Opening lead: Six of clubs.
This hand had twelve sure tricks regardless of the lead. When West led a club and gave South a free finesse, school was out. With a spade or diamond lead, South would have had to finesse the club or the heart suit for the extra trick. South couldn't miss on this one since either finesse would have worked.
COMMENT: So many average players are afraid of a seven bid. The only thing to say about this hand is that it was nice to see the grand slam bid.

"I REMEMBER"

By The Old Timers

From Clara Comstock, Sparks, Oklahoma: I remember when we played "Hop-skotch" and "Run, Sheep, Run"—"Whoopee-hide too! And there was also "antie-over" as we threw a twine ball over the school house.
In the Spring we played baseball, the number of homers depending upon the width of the board we used for a bat. We'd get hot and take off our shoes and play barefooted, and "threaten" little brother if he told our Ma. Then remember the day you dragged out last summer's dress and had a fit to wear it to school, and your Ma wouldn't let you take off your gray outing underskirt?
After recess on Friday, the teacher would let us say "speeches" or have a spelling bee. All the smart kids wanted to have spellin, but I preferred speeches. I knew a lot about poems, but was too bashful to recite one.
When you finished the fourth grade, you went to the "big" room, where the teacher was a man instead of a woman. He was also the justice of the peace, and one time when a couple came to be married, the kids stayed for the wedding after school was out. In this room, we had to embroider the state map on a handkerchief, making the rivers blue, the mountains brown, etc. The teacher tacked the best ones over the windows around the room.
I remember the long, keen switches standing in the corner. I guess the sight of them was enough to keep peace in the room. In those days, "if'n you got a lickin' at school, you got a lickin' when you got home." Wonder if that would work in these modern times?

Rev. ROBERT H. HARPER RESURRECTION

WE CANNOT think of any other day in the world's history that can so thrill the heart as the day we celebrate the resurrection of Jesus from the dead, unless it be the day we celebrate the coming of Jesus into the world.

Someone has written that in the realization that death brought a new meaning into life as men

JUST A THOUGHT: Easter brings to the true Christian a day of joy and thanksgiving. We should not at this time forget how great was the sacrifice which made possible our right to seek eternal salvation.

found that sleep one day fell upon men from which there was no awaking. But what must we think of a grand day when men were made to know that barren death is not lord of all, and that after all the schemes and systems, kingdoms and republics of earth shall fall that the soul of man will survive the ruin of matter and the crash of worlds!

Were a bird, granted phoenix-like the power to rise again and again from the ashes of mortality, to take from the beach a single grain of sand and fly to a far distant star, and return again and again until our earth be carried away, grain of sand by grain of sand, the soul of man would still live and in blessed security survey the wreck of ten thousand worlds.

So, far from creeping away into some rat hole of everlasting nothingness, we shall continue to visit the empty tomb and to hear the radiant angel say: "He is risen. He is not here."

stated that with less than two weeks before the deadline and 25 percent still to be inspected there will be long lines of vehicles waiting at the inspection stations.

He pointed out that inspections may not be made when the streets are wet. "No extension of time will be made, if there are some wet days," stated Johnson, because inspection started September 15 to allow owners plenty of time to have their vehicles inspected.

Business Restrictions

HOUSTON, TEX. — In his recently released 1962 annual report to management A. G. McNeese Jr., President of Bank of the South-west, Houston, made some timely comments on our government's role in affecting the lives of its citizens. Mr. McNeese stated:

"There is a dedication among some government policy-makers — local, state, and national — perhaps sincere but nonetheless un-economic, to direct the lives and fortunes of individual Americans far beyond authorized limits.

"As a consequence, a giant share of the profits generated by your investment in this — or any other — corporation is absorbed through taxation. You are aware of many of these taxes; you are not aware of a great many more which seriously deplete your profits. Further, and even less recognized, is the rapidly increasing depletion of net profits occasioned by enormous bookkeeping and clerical costs which must be sustained to meet government requirements.

"Regrettably, these expenses necessarily rise in proportion to the success of our operations. As your Bank grows, the number of qualified employees must grow also. For example, effective January 1, 1963, your corporation was required to start paying to the government, from net profits, an additional amount equal to one-half of one per cent — or a total of 3 1/2 per cent — of every \$4,800 in payroll.

"This means, of course, that for every \$4,800 or higher salary paid in 1963, your net profit will be reduced by \$24. Similarly, each employee in this pay range will take home \$24 less wages. This amount equals the current dividend paid to you on 13.33 shares of Bank stock. For the employee, it equals the premium on a sizable amount of life insurance.

"At these staggering rates, one might assume a thoroughly solvent reserve from which adequate old-age benefits are to be paid. In fact, unlike procedures demanded by laws of both man and economics, the Social Security agency has mushroomed without economic restrictions and faces deficits in the tens of millions of dollars.

"It is ironic that much of our profit must be paid to finance the increased regulations under which you perform operations. There is consequently a usurpation of the judgment and evaluation rights of private business managers just as

other high-cost government programs supersede your rights and powers of self-government.

"On this subject, all businessmen now face the harshest and most unduly penetrating interference with business conduct in the history of our nation. Unrealistic limits and qualifications are set arbitrarily by the Internal Revenue Service on what and how much a businessman may spend in the conduct of his business. Moreover, the accounting and bookkeeping involved in meeting the new IRS regulations may well spell the difference between profit and loss for small-margin firms.

"Of even more direct concern to you, the stockholder, is the tightening of tax collections from corporate dividend payments. Every publicly-owned corporation in America must report in detail all dividends of \$10 or more paid to all stockholders. This is despite the fact that stockholders are required by law to report such dividends and are subject to prosecution for failure to do so. The costs of accounting, bookkeeping, printing, records-keeping, added equipment and space, and postage involved in this new regulation are monumental. Yet, since they benefit no one, since they take from rather than contribute to productivity, these costs represent a net loss to every stockholder.

"In short, many Americans may conclude that it costs more than it is worth to invest in business. Rather than increasing tax revenues by closing so-called loopholes, the total revenues more probably will decrease — advancing still further the monumental national debt.

"Unless you, as a taxpayer, citizen, parent, and stockholder, exert your intellect and your energy to develop sound government policies through rational, effective political activity, you may find precious few profits returning from your corporate and business investments.

"Too many of us seem to have forgotten that you and I and our neighbors compose the government of the United States. Those who write, adjudicate, and execute the laws governing our lives and fortunes are our servants, not our masters. To preserve this relationship, we will do well to select these servants with careful evaluation of their abilities to serve us loyally and capably — and to dismiss those whose performance does not meet reasonable standards of competence and integrity."

Compulsory Pooling Bill Referred to Subcommittee

BY HARRY HEINECKE

Star-Telegram Oil Editor

AUSTIN, March 13—The compulsory pooling bill was automatically referred to a House subcommittee at midnight Tuesday after 20 opposition witnesses had blasted the measure as a violating property and bargaining rights.

Chairman George Cook of Odessa, of the House oil, gas and mining committee, named a subcommittee composed of Chairman Ben Gibbons of De Leon, Wayne Gibbons of Breckenridge, William Parsley of Lubbock, Maurice Duke of Wichita Falls and Ben Jarvis of Tyler to study the measure.

The subcommittee is expected to report to the main committee within two weeks.

After the opposition had been heard for 4 1/2 hours, almost an hour longer than the proponents used the previous week, the author of the bill, Representative Gibbons asked for favorable consideration.

Critics during the evening said there was no need for the measure, HB 510, recommended by the Committee for Equitable Development of Texas oil and gas sources. But Gibbons said there is no real solution to the small-tract problem except a statutory pooling law.

Same Rules

"All that we are asking is that everybody be required to play by the same rules," he said. "The bill is a result of months of intense work by a number of experts and protects the rights of most people, not a selfish few, it is practical, workable and morally sound."

Robert B. Payne, Dallas attorney who represented Bright & Schiff in the celebrated Normanna case, was the anchor man for the opponents which included six former presidents of

the Texas Independent Oil Producers & Royalty Owners Association, largest independent oil association in the state.

Payne declared the bill had been poorly handled and its opponents were never given a fair chance to study it. It has a number of legal defaults, he said, it violates lease terms, has a "built in acreage holding device," would be retroactive and would work a hardship on the little man.

He concluded with a flurry of amendments. One would authorize the Railroad Commission to create one only refining facility and one retail outlet per unit if there was a finding there were unnecessary refining facilities or retail outlets for products.

Earlier in the hearing, Bryan Payne of Tyler, a former TIPRO president, offered an amendment which would bar importers from applying for a pooled unit.

The Tyler operator, a veteran of 40 years in the business, said he had appeared a number of times on pending legislation but he had "never opposed a more dangerous bill."

Complicated Matter

He made the point that an operating agreement necessary under the pooling statute is an exceedingly complicated matter and the Railroad Commission would not have enough time to work on them. He and A. E. Herrmann, Amarillo, another TIPRO ex-president, said the best way to work out such agreements is to sit down at the trading table. Herrmann said he opposed the measure and "we never had a problem this bill could cure."

Other past TIPRO executives to appear were M. D. Bryant and Jack Woodward of San An-

gejo, R. L. Foree of Dallas and Alwyn P. King of Houston.

Bryant declared, "I can think of no single proposal that embodies a graver threat to the rights of the independent oil men, the rights of land and royalty owners and to the entire industry."

HB 510 is not designed to prevent waste but is a tool of convenience, he said.

Woodward said the bill is a panacea for the problem. "And who is to say what is necessary well, he asked. It is not the Texas way, he added, and the small-tract drilling problem can be solved under proration.

Compulsory pooling is neither necessary nor desirable, said Foree, and is contrary to Texas concepts. The Railroad Commission will protect all small tracts, he added.

King said it was "amazing" how the large companies and independents were helping out the "little fellow" with the pooling measure and "I don't believe it."

Plains Ex Gets Honor

Roberta Snodgrass was honored for scholarship at the All College Recognition Service at Texas, Tech.

A student must have at least a 3.00 average to be recognized.

Roberta was a 1962 graduate of Plains High School.

TORNADO Safety Rules

TO KNOW WHAT TO DO WHEN A TORNADO IS APPROACHING MAY MEAN THE DIFFERENCE BETWEEN LIFE AND DEATH!

I If you are near a tornado cellar:

When time permits, go to a tornado cellar, cave or underground excavation which should have an air outlet to help equalize the air pressure. It should be kept fit for use, free from water, gas or debris; and preferably equipped with pick and shovel. **THERE IS NO UNIVERSAL PROTECTION AGAINST TORNADOES EXCEPT UNDERGROUND EXCAVATIONS.**

II If you are in open country:

1. Move at right angles to the tornado's path. Tornadoes usually move ahead at about 25 to 40 miles per hour.
2. If there is no time to escape, lie flat in the nearest depression such as a ditch or ravine.

III If in a city or town:

1. Seek inside shelter, preferably in a strongly reinforced building. **STAY AWAY FROM WINDOWS!**
2. In homes: The corner of the basement toward the tornado usually offers greatest safety, particularly in frame houses. People in houses without basements can sometimes be protected by taking cover under heavy furniture against inside walls. Doors and windows on the sides of the house away from the tornado may be opened to help reduce damage to the building.
3. Standing against the inside wall on a lower floor of an office building offers some protection.

IV If in schools:

1. In city areas: If school building is of strongly reinforced construction, stay inside, away from windows, remain near an inside wall on the lower floors when possible. **AVOID AUDITORIUMS AND GYMNASIUMS** with large, poorly-supported roofs!
2. In rural schools that do not have strongly reinforced construction, remove children and teachers to a ravine or ditch if storm shelter is not available.

V If in factories and industrial plants:

On receiving a tornado warning, a lookout should be posted to keep safety officials advised of the tornado's approach. Advance preparation should be made for moving workers to sections of the plant offering the greatest protection.

VI Keep calm. It will not help to get excited. People have been killed by running out into streets and by turning back into the path of a tornado. Even though a warning is issued, chances of a tornado striking one's home or location are very slight. Tornadoes cover such a small zone, as a rule, that relatively only a few places in a warned area are directly affected. You should know about tornadoes though, "just in case."

VII Keep tuned to your radio or television station for latest tornado advisory information. Do not call the Weather Bureau, except to report a tornado, as your individual request may tie up telephone lines urgently needed to receive special reports or to relay advisories to radio and television stations for dissemination to thousands in the critical area.

TEXAS DEPARTMENT OF PUBLIC SAFETY

OFFICE OF DEFENSE AND DISASTER RELIEF

Tsa Mo Ga Members Attend Convention

Six members of Tsa Mo Ga club attended the district convention of Texas Federated Study Clubs which was held in Lubbock March 29 and 30 th,

at the Pioneer hotel. Reports of the work being done by individual clubs were reviewed, and displayed, and the convention theme was Lights To Brighter Pathways.

District President, Mrs. Bill W. Davis addressed the group, and other executive officers presided at the various meetings. Mrs. L. E. Dudley gave a talk on parliamentary procedure. She is the state parliamentarian for the Federation. For special entertainment a style show was presented by Hemphill Wells. The Starlighters of Denver City were also on the program. They sang to the accompaniment of Buddy Deets.

In the interest of our District Project there was a banquet honoring South Plains Boys

Ranch near Tahoka. The boys presented a musical program, and as a reward for work well done, club members made a small cash donation to the boys. Clubs from all over Caprock District made donations in what was called the presidents march. After the Presidents march, Dr. W. E. Thorn, pastor of the Calvary Baptist Church addressed the group. His address was entitled Hitch Your Wagon To A Star. This talk was an inspiration to the women to try and make better people of themselves. He told the group to Get-up, Make-up, and Go, in making an effort to better their lot as club women, and as people.

At this convention awards are made to the clubs having outstanding programs or projects in the various departments. Tsa Mo Ga won second in Conservation, First for its program on the Status of Women, second in Family economics and Home managements. First, Old Homes and Buildings. Second in Pioneer Families and Personalities.

First, Markers and Monuments. Tsa Mo Ga Club also won first on its press book. The six members attending were Mrs. P. W. StRomain, who is District Chairman of the Texas Heritage department, and Mrs. Paul Cobb, Mrs. Bill Loyd, Mrs. Garland Swann, Mrs. J. W. Moore, and Mrs. Ty Field.

Tsa Mo Ga will hold its regular meeting Monday, April 8th at the clubhouse.

The program will be on Public affairs with Mrs. Paul Cobb acting as program director. This program will be in the form of a town hall meeting and six members will discuss public issues. Mrs. E. W. Creig will speak on local issues. Joe Curry will talk of county issues. Mrs. Morris Craig will present issues on the state level. The national issues will be given by Mrs. Marion McGinty and the international issues by Mrs. Gus Malmsten. A report of the council of International clubs will be presented by Mrs. C. F. McCargo. Miss Ozella Hunt will tell some Tall Tales from The People.

Hostesses will be Mrs. Marion McGinty, Mrs. J. M. Tippet and Mrs. Harvey Stotts.

ALWAYS GROWING

Did you ever stop to think about it? Every time you see a new house go up or a new business come to life, you are watching the community grow.

This physical growth is easy to see. Not quite so obvious is a different kind of growth and progress.

Maybe you noticed it when you shopped local stores for your Easter needs . . . new styles, a wider selection, a range of prices to suit most every need and every budget.

Some of us may be so accustomed to progress and change that we don't really see things happening around us. If grandma hadn't been shopping for several years, don't you think she would be somewhat amazed at the selection and variety of merchandise that is now available? You can bet that she would!

This, too, is progress. It's a part of "better living" that we Americans enjoy in every aspect of community life. It's something to be thankful for!

Trade at Home for Your own sake! and community progress

Federal Funds Allocated

The High Plains Underground Water Conservation District has received word from the State Office of Agriculture Stabilization and Conservation that the State ASC Committee has approved the expenditure of federal funds for constructing pits in wet - weather lakes, and for installing pipelines from lakes

to cropland. Lester Young, Chief of the Agriculture Conservation Practices Division of the State ASC Office in College Station, in a telephone conversation with the Water District office, stated that funds could be made available immediately by local ASC County Committees. They will need only

to amend their county hand book to include such practices. He said that any county that presently has Practice C-14 (construction of reservoirs) available, could supplement it by including the construction of pits for channeling lake water to re-circulation pumps; and where Practice C-12 (ir-

rigation system construction is available, it may be supplemented to include the construction of permanent pipelines from re-circulating pumps in the lake back to the farm's irrigation system.

The State Committee's action culminates several years efforts by the High Plains Water District and others to make funds available for salvaging rainwater and irrigation run-off water that collects in the lakes.

SHAMROCK
NITROMITE
82.2% NITROGEN

NITROGEN FERTILIZER

FORM The farmer is in the fortunate position of being able to choose from a number of good nitrogen fertilizers. Compounds that supply nitrogen are available in three forms — dry, water solutions and anhydrous ammonia. These forms supply nitrogen in various concentrations. There are a number of different brands of each form of fertilizer, so the choice is broad.

We recommend anhydrous ammonia generally and Nitromite specifically for these reasons: 1) Anhydrous ammonia provides almost twice the nitrogen by volume as the next most concentrated fertilizer.* 2) As it is in a gaseous form in the soil, it permeates freely and uniformly throughout the zone of crop roots. 3) Since it is electrostatically affixed to the clays in the soil, it is less subject to leeching and dissipation.

We recommend Shamrock Nitromite specifically because we know how it is made, how it is handled and transported, the reliability of the dealers who sell it and the collateral services and benefits offered to the farmer.

Your Nitromite dealer is ready now to put this profit maker to work in your fields. Call him right away. He has all the information on the Shamrock Farm Credit Plan.

| *% N | COMMERCIAL FERTILIZERS | (1) | (2) |
|------------|------------------------|-------|-------|
| 82.2 | SHAMROCK NITROMITE | 2,000 | 1,640 |
| 45.0 | Urea (Dry) | 3,660 | 900 |
| 32.0 (Max) | Urea (Liquid) | 5,120 | 640 |
| 33.5 | Ammonium Nitrate (Dry) | 4,900 | 670 |
| 25.0 | Aqua Ammonia (Liquid) | 6,580 | 500 |
| 20.5 | Ammonium Sulfate (Dry) | 8,000 | 410 |

(1) The number of pounds of other nitrogenous fertilizers that must be bought and applied to the soil to equal one ton of SHAMROCK Nitromite in nitrogen content; and, (2) The number of pounds of Nitrogen (N) in a ton of each commercial fertilizer.

March Fed Cattle Market Down

Prices on fed cattle improved the last two weeks of March but failed to recoup market losses early in the month. At the month's close, prices were mostly 75 cents, to \$1.50 per hundred lower compared to the previous month's close.

Slaughter steers and heifers in Fort Worth were selling fully \$2.00 below levels of last year according to Lloyd Bergsma, director of the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association.

In the latest monthly summary published by the Cattle Feeders Division, Bergsma pointed out that strong competition from fed beef being shipped in from other areas was a major factor in the continuing downward price trend for fed cattle in Texas during March.

Slow movement of dressed beef continues to plague the industry. "Supplies have not appeared to be excessive to the point of causing the price to decline of the magnitude which has resulted since the beginning of the year," Bergsma observed, "but we must keep in mind that the price of competitive meats has been sharply lower."

For the week beginning March 23, 1963, the average price of 180-200 hogs in Chicago was \$13.92. This was down \$2.50 per hundred from a comparable period in 1962. Lamb prices are down about \$1.00 per hundred compared to last year.

Prices for feeder cattle were mixed during March. Heavier weight feeders moved lower at mid-month but had recovered a part of the loss at month's end. Lighter weight cattle—400 pounds and down—have continued in strong demand with prices fully steady. Shipments of stocker and feeder cattle into the North-Central states were reported to be down from last year.

Wholesale beef prices during March declined \$1.00 to \$2.50 per cwt. Production was up during the month closed with an improved market undertone. Clearance was generally complete in most markets. Retail stores reduced beef prices during the month.

Special promotions of beef were in progress by many retail stores. Both should help to improve the demand for beef products.

Even with the month's price declines the West Coast region continues to offer one of the strongest dressed beef markets. In Los Angeles choice steer beef 600-700 pounds was selling for \$38.00-\$39.00 compared to \$37.50-\$37.75 in Chicago.

The decline during the month for this grade and weight of beef was about \$2.00 in Los Angeles and about 50¢ in Chicago. Heifer beef in Los Angeles was down about the same amount as steer beef with choice 500-600 pound closing the month at \$36.75-\$38.00. Good grade calf 300-375 pounds was down from \$1.00 to \$2.00 and sold at the \$40.00 to \$45.00 per cwt.

At Houston, choice grade steer beef, 400-700 pounds closed the month of March at \$39.50 to \$41.00 down about \$1.50 cwt. compared to February. Good grade calf at Houston declined 50¢ to \$1.00 and was selling at \$40.00-\$43.00. Compared to March 1962 dressed beef prices are down \$4.00 to \$5.00 per cwt.

Bill Of Attainder

"No bill of Attainder shall be passed by the Congress," Under our Constitution the Congress cannot pass laws penalizing individuals. Instead persons who break laws shall have regular trials.

This prohibition grew out of the early abuses of Parliament which for example, condemned the Prince of Wales in 1700 accusing him of betraying the King. It declared that he "be convicted and attained of High Treason."

In other years Parliament charged certain subjects with treason, which sometimes involved merely "voting or speaking" out of line. Often it added "corruption of blood" which meant that the doomed person's heirs could not inherit his estate, Article III, Section 3 of our Constitution also prohibits "corruption of blood".

The English bills of attainder were often directed against persons who threatened to overthrow the government. Thus many bills were directed against American colonists. By 1789, grown weary of these excesses, the Americans un-animously and without debate denied Congress such powers.

In past years the curb has been applied to Congressional acts which sought to punish groups without trials. After the Civil War, for example some states prohibited lawyers from using the courts unless they swore that they had been and would continue to be loyal to the United States. The U. S. Supreme Court upset these laws.

Recently Congress denied salaries to certain federal employees for not co-operating, with a Congressional investigation. Again the United States Supreme Court struck down this law as a bill of attainder.

The courts have the power to try, convict, and punish accused persons, and except for impeachment of certain officials, the legislative branch of the government has no judicial power.

(This newsfeature, prepared by the State Bar of Texas, is written to inform, not to advise. No person should ever apply or interpret any law with out the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.

Common Errors On Tax Returns

Ellis Campbell, Jr. of the Internal Revenue office in Dallas has pointed out some common errors in Federal income tax returns filed by business and professional people. They include failure to take adequate inventories, omission of cash income from receipts, no records of expenses

paid in cash, inadequate records of travel and entertainment expense, deduction of capital expenditures as current expense, and failure to eliminate personal expenses from business expense account. The last two items are probably the most common errors found by Internal Revenue Agents in their audits.

Frequently, capital expenditures are charged off as current expenses under accounts of repairs, maintenance, supplies and legal expense account. Audits also reveal the charging of personal expenses to such accounts as advertising, travel and entertainment, selling expense, miscellaneous expense or any other account where personal expenses should be included.

Business taxpayers should carefully review all items to insure that personal items are eliminated before expenses are charged to their accounts.

Transportation Bill Being Heard

The Senate Transportation Committee began hearing testimony Tuesday (March 26) in support of legislation to establish a new class of fast motor express service throughout the state.

Five witnesses appeared to support the legislation after an explanation of the bill by its sponsor, Sen. Franklin Spears of San Antonio and by Johnnie B. Rogers, Austin attorney. No opponents were heard Tuesday.

The hearing was adjourned until April 2, leaving several more supporting witnesses to be heard.

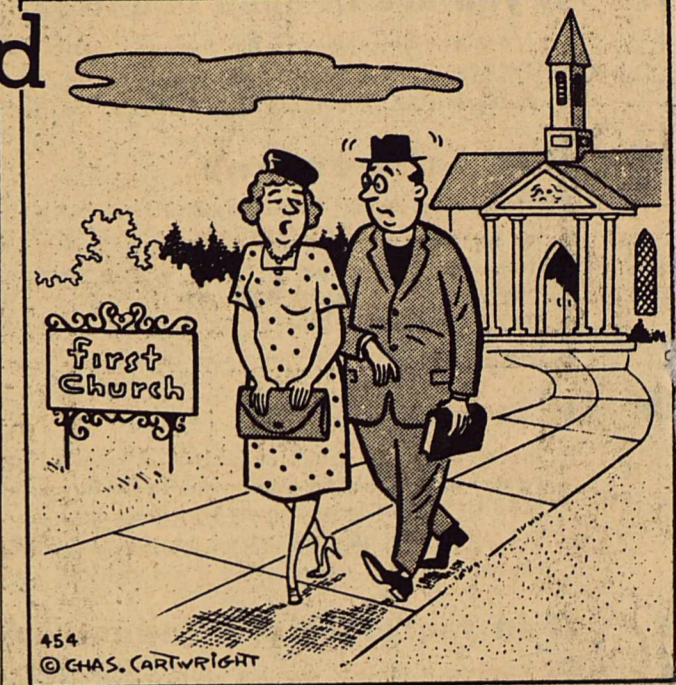

Rogers called the Senate committee's attention to more than a dozen editorials by newspapers around the state which are urging support of the motor express legislation.

"These public requests for such a motor express service are genuine reflection of the interest that people have in this legislation," Rogers said. He also referred to a bulletin board containing almost a hundred clippings of newspaper articles about the legislation.

Witnesses appearing in support of the bill were Kenneth Tubbs, representing the Dallas Chamber of Commerce and the Texas Industrial Traffic League; Dr. H. K. Snell, transportation counsel for the Service Wholesale Drug Association of Texas, Austin; Tom Reding, Traft, Texas implement dealer; George H. Calcott, auto parts dealer from Kerrville; and E. F. McGonegal, Beaumont dealer.

The motor express legislation is being supported by chambers of commerce, shippers of all kinds, druggists,

Church Chuckles by CARTWRIGHT

Local HDC Members Visit Abo

On Thursday, March 28, 1963, thirty-six women and three children representing the four Home Demonstration Clubs in Yoakum County visited the Abo School in Artesia, New Mexico.

The Abo school is an elementary school and fallout shelter. School principal Bernard Ross, conducted the group on a tour of the school. Some of the interesting features observed were:

The spacious feeling due to wide halls, acoustical ceilings, lighting, and sound proofing.

All four walls of the classrooms useable and flexible with moveable chalkboards, and pegboards.

Cafeteria tables and benches wallfolded for multi-purpose.

Storage for bedding, food supplies and other needs for use as fallout shelter. The school had its own water well power generator, sewage ejection, medical facilities and

disaster plan. Constant temperature of 72-75°F. The air was filtered and this feature helpful to children with asthma, hay fever, and other allergies.

At the conclusion of the tour the group enjoyed lunch in the school cafeteria.

ITEM: Researchers have come up with a "life expectancy" for household equipment: electric washing machines, automatic and semi-automatic, 9-11 years; dryer, 14 years; freezers, 15 years; electric sewing machines, 24 years; toasters, 15 years; television sets, 11 years; refrigerator and range, 16 years.

ITEM: Consider grade and size when buying eggs. Grades AA and A are fresh, top-quality eggs with thick whites standing up well around firm, high yolks, says Eleanor J. Cochrane, University of Wyoming nutritionist. Grade B eggs have thinner whites and slightly flatter yolks. Minimum weight per dozen determines whether eggs are jumbo, extra large, or medium. Top quality eggs are best for poaching, frying, and cooking in the shell.

ITEM: Ventilating equipment is the best aid to keeping a kitchen free from cooking grease and odors. An exhaust fan helps remove excess heat, moisture and grease and odors from the entire kitchen. A range hood gets rid of grease and odors in a specific area. Ventless range hoods with absorption filters are available when venting is impossible.

2 - Price Prog Questioned

Senator John Tower Thursday placed in Congressional Record a Concurrent Resolution passed by the Texas Legislature and forwarded to Members of the Texas Congressional delegation.

The resolution deals with the federal government's two price support program for cotton, and urges Congress to review the program and make it more equitable for American buyers and producers.

Senator Tower's remarks in inserting the resolution in the Record are as follows:

"Mr. President, Today, I received a copy of Senate Concurrent Resolution Number 26, passed by the Senate and the House of Representatives in Texas. It was authored by State Senator George Moffett

of Chillicothe, a distinguished and veteran member of the Senate.

"In a word the resolution deploras the inequitable and impractical situation that now exists in the domestic cotton industry, wherein American buyers of American cotton are placed in a disadvantageous position in relation to foreign purchasers. The resolution urges the Congress to review the present two-price support program, with a view toward doing what we can to alleviate the problem.

"I would like to associate myself with the resolution passed by the Texas Legislature, and insert the resolution in the Congressional Record for the benefit of the Members of the Congress."

Pictures Of Every Child Photographed Will Be Published In

The Plains Record

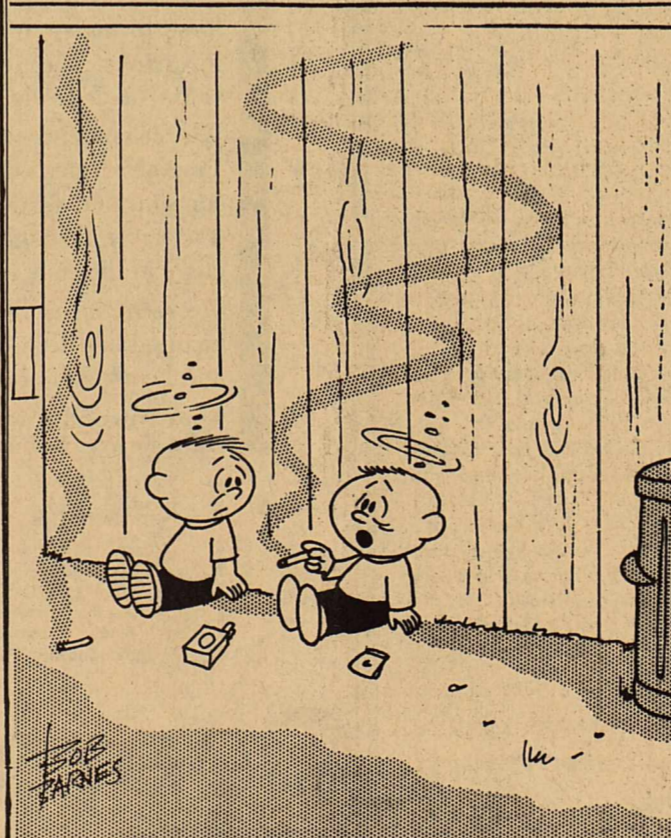

EASY TO ENTER—Simply have your child's photograph taken by WINSTON B. LUCAS PHOTOGRAPHER at NO COST to you. They will show proofs from which you may choose the pose you wish entered in the contest and your child is automatically entered; and at this time you may order photographs for gifts or keepsakes if you wish. (Postage and handling 25c) but this is entirely up to you. WINSTON B. LUCAS, of Irving, an expert child photographer, will be here to take pictures, with all the necessary equipment to take nice portraits for this exciting event. There is no age limit to this contest — even the tiniest tots enjoy being photographed by our photographer.

This Is A Local Contest!
