## MOORE or Less

By Johnnie Moore

I suppose Sunday School teachers run into quite a few pretty funny situations, but I heard one last week that was pretty rich.

Seems the teacher had just given a lesson on the story of Adam and Eve and how sin originally came into the world.

After she finished with the lesson she asked one pupil the name of the man in the Garden with Eve.

The young man scratched his head and thought and finally decided he had the right answer. He said, "It was little Joe."

Needless to say the teacher wasn't too pleased with the answer and began to scold the youngster a little. She said, "You know very well there is no one in that story named Little Joe." "His name was Adam."

He countered with, "Oh sure, that's right." Well I knew it was one of the Cart-right boys."

From Ed Delaney's Truth Forum---we thought it was worth presenting to you too.

An informed citizenry is the basis of representative government, observed one of the United States senators in 1936. That was before the present administration was entrenched in Washington with its tremendous facilities and power for propaganda. Rep. Glenn Cunningham (R. Neb.) stated recently that it is safe to say there are over 100,000 employees of the executive branch of our government in the business of supplying information to the public. They are supplying the kind of information which the executive branch wants disseminated and suppressing any item that may arouse suspicion as to the truth of the news and views being released. In this connection the senior senator from Wisconsin, William Proxmire, (D.) has said that "the American taxpayer is the victim of the greatest publicity snow job in our time."

It so happens that such propaganda and publicity is illegal, but that seems not to cause any great concern for the Messrs. Kennedy and Co. A section of the U.S. code makes clear that no money appropriated by any act shall be used for the compensation of any publicity expert, unless specifically appropriated for that purpose. Of course the alibi is that these "hundreds of paid parrots" who but political patter in circulation are not experts. In a manner of speaking that is correct. They are not experts, as for instance Arthur Sylvester of the Defense department who said the government may "manage news as weapons" and that the administration has a license to lie - just a little, of course. After the public is inured to falsehoods, the bureau spokesmen may construct more incredible inaccuracies which the people may accept without questioning.

This management of news and the release of statements purporting to be news, but which are administration views and hints as to political policies to be carried out, is in itself nothing new. The first Hoover Commission noted that government information is controlled and that it is inevitably diluted by the pressure of propaganda and politics. But never in the history of this or any other country has the pressure and the practice of managing the news been as obvious as during this administration.

It has been asserted by Glenn Cunningham that not only top political appointees, but career civil service employees are pressured into promoting the party line of the White House.

At the beginning of this was mentioned that a senator observed - "an informed citizenry is the basis of representative government." Then he dropped a few more nuggets of wisdom which are in the indelible printed record, "Democracy, as we know it," he said, "cannot exist unless the American people are equipped with the information which

# Brine Water Dumping Stop Order Issued Effective On October 1

TEXAS WATER POLLUTION  
1100 WEST 49th STREET  
AUSTIN 56, TEXAS

ORDER NO. 63-2

AN ORDER of the Texas Water Pollution Control Board requiring the termination of discharges onto the surface of the earth in Yoakum County, Texas, of oil and gas field wastes by October 1, 1963, and providing certain exceptions; ordering a public hearing for August 21, 1963, on all permits issued by the Board to discharge such wastes onto the surface of the earth in Yoakum County, Texas, to show cause why said permits should not be amended to require termination of such discharges; and keeping this matter open on the docket of the Board for further orders.

WHEREAS, by order entered on the 24th of January, 1963 the Texas Water Pollution Control Board ordered a public hearing to be held on the 20th day of March, 1963, in the offices of the Board to consider whether and to what extent surface discharges of oil and gas field wastes produced in Yoakum County, Texas should be controlled or prohibited to prevent and control pollution of waters in the State and

WHEREAS, notice of said hearing was duly issued and published in the manner and for the time required by law and the Board's rules; and

WHEREAS, pursuant to said order and notice, such hearing was held on the 20th day of March, 1963, as aforesaid, at which time all interested parties and parties who may be affected by action of the Board taken by it as a result of the hearing were requested to present evidence to the Board on the subject, and testimony was presented concerning the subject; and

WHEREAS, the Board is authorized to make, alter, or modify any orders, rules and if any such order requires the discontinuance of the discharge of waste into any waters of the State, the order shall specify the conditions and time within which such discontinuance must be accomplished after public hearing; and

WHEREAS, the Board is of the opinion and finds that discharges onto the surface of the earth in Yoakum County, Texas, of oil and gas field wastes cause a condition of pollution and that such discharges should be discontinued NOW, THEREFORE,

BE IT ORDERED BY THE TEXAS WATER POLLUTION CONTROL BOARD:

1. All discharges onto the surface of the earth in Yoakum County, Texas, of oil and gas field wastes shall be terminated by the first day of October 1963, and are prohibited from and after said date; provided, however, that this order does not apply the following activities under the conditions stated.

(a) Discharges of waters normally resulting from drilling, re-completing and re-working oil or gas wells.

(b) Discharges made into a natural or artificial surface pit, reservoir, depression or excavation in the earth, which is so designed, constructed, lined and operated that none of the wastes deposited therein can escape or be removed except by evaporation or for disposal in some lawful manner. It is further provided that

any person who produced oil and gas wastes in Yoakum County, Texas, other than wastes normally resulting from drilling, re-completing and re-working oil or gas wells, which cannot lawfully or practically be disposed of by any other lawful means may discharge such wastes into a natural or artificial surface pit, reservoir, depression or excavation in the earth in said county which is so designed, constructed and operated that none of the wastes deposited therein can escape except by the natural seepage and evaporation; but such discharges may be continued only for a period not to exceed twenty (20) consecutive days from the date such wastes are first produced at any given well, and at the end of the initial twenty (20) day period, disposal of any such wastes produced thereafter shall be made by some other lawful method.

2. A public hearing will be held by the Board commencing at 1:30 o'clock p. m. on Wednesday, August 21, 1963 in the offices of the Board at 1100 West 49th Street, Austin Texas, at which hearing all holders of permits issued by the Board to discharge oil and gas field wastes onto the surface of the earth in Yoakum County, Texas, are directed to appear and show cause why said permits should not be amended to conform to paragraph 1 of this order or otherwise amended to prevent and control pollution of waters in the State. The Board will enter such rules, regulations and orders to prevent and control pollution as in its judgement the evidence may justify.

Interested parties may appear at the hearing for the purpose of presenting evidence to the Board relative to said matter. The hearing will be continued from time to time and from place to place, if necessary, until a determination has been made relative to said matter as the Board may deem right, equitable and proper.

3. The Executive Secretary is directed to deliver copies of this order to all persons affected hereby. The Executive Secretary is further directed to send notice of the hearing described in paragraph 2 to all holders of permits issued by the Board to discharge oil and gas field wastes onto the surface of the earth in Yoakum County, Texas, and to publish notice of said hearing, all in the manner and for the time required by law and the Board's rules.

This matter is kept open on the docket of the board for such further orders relating thereto and such alterations and modifications of this order as the Board may deem necessary.

5. Passed and approved this 21st day of March, 1963.

In what has been described as the near culmination of a great deal of honest effort on the part a great many people, is just in the offing.

The order which follows is the very thing that has been the object of the efforts of the Yoakum County Water Conservation Association, in their efforts to stop the pollution of the water under Yoakum Co.

It will be necessary, it was stated to send the local Association's attorney to Austin again on August 21 for the final hearing on the matter, and as of that time the local group will be in need of about

\$2,000 to finish paying for all the work done by the attorney, and the hydrologist who did all the field work, Mr. Ed Reed of Midland.

Anyone interested in becoming a member of the local association can do so by contracting one of the board members. They are Rod Duff, G. W. Cleveland, Gene Bennett, R. S. Faulkenberry, Bob Loe and Henry May.

It is quite evident that the entire county and area owes these men a large vote of appreciation for this fine job.

## Annual C of C Banquet

Following a meeting of the board of directors of the Plains Chamber of Commerce this week, the announcement was made that the Annual Chamber Banquet will be held on May 6, the first Monday in May, in the Plains School Cafeteria, beginning at 8 p. m.

This year's affair will be something of a departure from the previous years' banquets, in that it will be a pancake supper and as it is now planned will be only about two hours long.

Tickets will go on sale very soon and will be priced at \$1 per person.

Announcement as to the program has not yet been told, but will be made shortly.

Highlight of the evening will be presentation of the award to Plains Outstanding Citizen of the Year.

## Need Bus Driver

Superintendent of Plains schools, G. D. Kennedy, said, earlier this week that there is at the present time, a shortage of one bus driver here.

Someone to fill this vacancy is being sought, according to Mr. Kennedy.

Anyone interested in obtaining the position for the next few weeks should, it was announced make application, through the Superintendent's office.

## Methodists Plan Revival

A revival meeting is being planned by the First Methodist Church of Plains and is scheduled for April 14 through April 21.

The Pastor, The Rev. Walter L. Driver, will be doing the preaching, and the singing will be led by Mr. Zed Robinson of Enochs.

The Pastor has extended a very cordial invitation to all. Services on Sundays at 11 a. m. and 7:30 p. m., and on weekdays services will be held only in the evenings at 7:30.

WINS FIRST PLACE--Plains High School, Sharon Pierce, a local sophomore student, has been notified by the Fort Worth

Press Association that she is the first place winner in their State-Wide Conservation Essay Contest. She will receive,

in addition to a place of honor at their annual banquet on May 4, a check for \$200. Miss Pierce, the daughter of Mr.

and Mrs. Gilbert Pierce, was one of 50 entrants from Yoakum County alone. Subject of the essays was, "Conservation, A Way of Life."

# Youth Center Possibility

A plan forwarded by Stanley Duvall, Yoakum County Judge, looking into the immediate possibilities of a Youth Center for Plains, is meeting, according to all reports, with a very favorable

reception. The present plan calls for the converting of the entire second floor of the old Court House here into the Center. The ASC and SCS offices, which are presently located on the second floor, have agreed to move down into the area now occupied on the first

floor by the club room and the kitchen, which would, in turn be moved up to the second floor and become a part of the Youth Center and also still be available for use as it now is.

There would be some redecorating and painting necessary to get the place into good condition, which the county commissioners have agreed to have done if area citizens are in favor of the idea.

The proposed center would be equipped with ping pong, pool, various other table type games, a refreshment center, and a dancing area.

A great deal of interest has been expressed in the project especially by the various study and civic groups in Plains, from which various representatives have met with Judge Duvall looking at and discussing details and plans for the Center.

## Trustee Election Fitzgerald, Gayle Edwards Elected

In last Saturday's school trustee election, incumbents Loren Gayle and Olen Edwards were returned to their offices, and Johnnie L. Fitzgerald was elected to fill the third post, by out going vacated Bill Gray, rounding out the three posts.

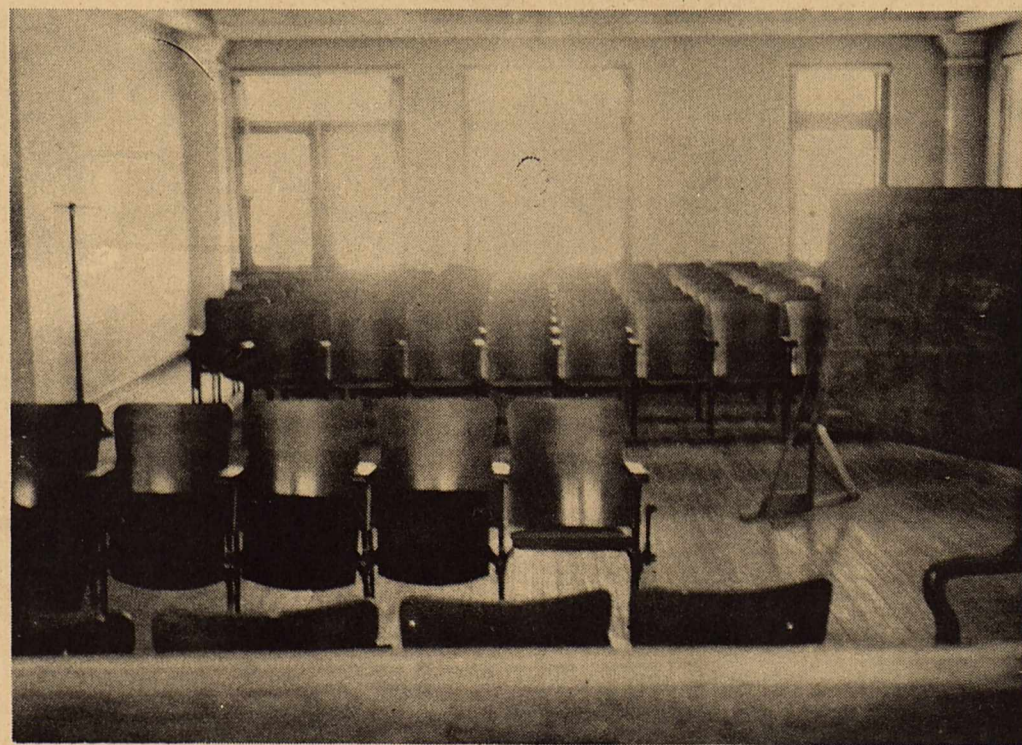

Fitzgerald led the balloting by getting 147 of the 214 votes cast. Gayle was returned with 123 votes and Edwards received 104. Others on the slate were Bob Loe with

102 votes and Morris Lowe who received 79.

Write-in votes were cast for G. W. Cleveland, Dickie Green and J. D. Brown who received one vote each; outgoing Bill Gray got four; W. O. Spencer received 50 write-ins and Garland Swann who is already a member of the present board of trustees got one.

In their first official meeting officers for the coming

### LEGAL NOTICE

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: Walter Lemond, if said individual is living, and if dead, the legal representatives and the unknown heirs of the said defendant.

GREETING: You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20th day of May, A.D., 1963, at or before 10 o'clock A.M., before the Honorable District Court of Yoakum County, at the Court House in Plains, Texas.

Said plaintiff's petition was filed on the 1st day of April 1963.

The file number of said suit being No. 2155.

The names of the parties in said suit are: Alvey Carl Jones and E.R. Wauson, as Plaintiffs and Walter Lemond, if he is living, and if dead, his legal representatives and unknown heirs, and the legal representatives and unknown heirs of said defendant, as Defendants.

The nature of said suit being substantially as follows, to-wit: Trespass to try title based upon adverse possession of the following tract of land for 10 consecutive years, to-wit: Lot 11 Block 81 of the Original Townsite of Plains, Yoakum County Texas, and damages for rental value lost in the sum of \$1,000.00; all of said parties claiming a fee simple interest in above tract.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this 1st day of April A. D., 1963

Given under my hand and seal of said Court, at office in Plains, Texas, this 1st day of April A. D., 1963.

Blanche Dyer  
District Clerk  
District Court Yoakum County, Texas Deputy

lake and numerous family-owned cabins.

Although Whitney is a long narrow lake, it can get rough in bad weather. When it is dangerous to go onto the water, warning flags fly. But with so many sloughs there always are places that can be fished, even in the foulest weather.

Many eight-pound bass have come from this lake, and many more will be taken, because the water is good. It is the only impoundment on the main body of the Brazos below Possum Kingdom, some 100 miles northwest. Between the two dams are plenty of places for bass to propagate and grow big.

There also are a number of fishing barges on Lake Whitney. They provide 24-hour fishing in any kind of weather. Some of them are air conditioned in the summer and heated in the winter... for year round comfort.

Waterfowl shooting is permitted in season and quail are quite plentiful in certain areas. Deer can be found around Whitney too.

Lake Whitney was constructed as a flood control project, with generators in the dam to produce an annual power capacity of some 85 kw-hr.

Whitney is a beautiful body of water throughout its entire length. When you cross the dam you are impressed with the rockbound shores on the west and the rolling hills on the east. A ride up Whitney in a fast boat reveals many beautiful sights where artists could spend a lifetime recording its beauties and moods.

Lake Whitney is good for a Sunday drive, a weekend visit, a camping trip or real honest-to-goodness fishing.

By--Vern Sanford

Many elements are involved in making a good lake. By good we mean one that will stand up under heavy fishing pressure.

Lake Whitney, on the Brazos in North Central Texas, seems to have all the attributes.

This lake, now a dozen years old, has withstood such heavy pressure. It is located almost midway between Waco and the Fort Worth-Dallas area. This means that it is worked every fishable day of the year.

And still it produces fish. Lake Whitney Dam backs water up the Brazos to cover almost 50,000 surface acres when it is filled.

Construction started in 1947 and was completed by the U. S. Corps of Engineers in 1953 at a cost of just over \$40,000,000.

The dam itself is 17,695 feet long and 159 feet high. It is wide enough to carry highway traffic across it between Whitney and Clifton and points east and west.

Although rainfall fluctuates its depth, perhaps the secret of good fishing in Whitney is the fact that it is filled from an effective watershed of more than 17,000 square miles.

Because of the rich food qualities washed into the lake with each slight flood, fish grow big

and sassy.

Principal sport enjoyed by Lake Whitney fishermen is catching largemouth black bass, whites (sandies), crappie and catfish. The lake is loaded with bream, but unfortunately Whitney is underfished for this wonderful little creature.

Whitney is easy to reach. Good roads lead to the lake from every direction, with many access points.

There is a spacious state park which permits public camping. The park is heavily trafficked by weekend campers from many parts of Texas.

The Corps of Engineers has developed recreational areas. They bear such names as Lofers Bend, Towash, Cedar Creek, Kimball and Powderdale.

People of Whitney have had a large part in making this an all-purpose lake. They have developed various types of water sports, including speed boat races, water skiing, boating and swimming. One of the annual features of Whitney is its bathing beauty contest, which has sent a bevy of gorgeous girls into top contests over the nation.

Villages on both the east and west side afford cabin facilities, food and drinks. There are several small airstrips around the

IN REGIONAL--Plains track team members shown above qualified in last week's district

meet and will soon take part in the Regional Meet in Lubbock. Also winning berths on

the Regional list were Tetum Perrin and Jimmy Harris.

## CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 18.310 miles of grading, structures, base and surfacing

From FM 2196, South to US 380

From End FM 769, South to End of Proposed FM Rd. at Yoakum Co. Line, and

From US 380 at Bronco, North to End of Proposed FM Rd. at Cochran Co. Line

On Highway No. FM 1780 & 769, Covered by S2525 (1), S 1678 (3), 1678 (2) A in Yoakum & Cochran County, Will be received at the Highway Department, Austin, until 9:00 Am M., April 26, 1963 and then publicly opened read.

Plans and specifications including minimum wage rates as provided by Law are available at the office fo Carl Hart, Resident Engineer, Brownfield Texas, and Texas Highway Department, Austin. Usual rights reserved.

APPROVED BY COMMISSIONERS' COURT IN REGULAR SESSION APRIL 8, 1963.

## S.C.S. Rush Season Here

Conservation work, as well as regular farm work, has broken out all over just as spring has. New conservation plans were written on the S. H. Vaughter, H. M. Bolling, J. M. Deering and plans on K. O. Hendricks, Mrs. N. D. Clannahan, L. C. Heath and Foye Powell were revised and Great Plains contracts written to help carry them out in the last week.

Grass planting time is here again. Preparation to plant Bermuda is being made by a great number and several are getting ready to plant other native grasses such as blue-stem, sideoats grammis, switch grass, Indian grass and weeping-love grass, a well-known

introduced grass.

Fertilization and watering of irrigated pastures has about been completed for the present. Most producers of irrigated pasture are putting out most or all of the year's needs. Some who plan to stock heavy will put as much as 200 lbs of actual nitrogen per acre.

Reorganization of irrigation systems by installing high pressure underground main lines is being done by several area farmers.

The local SCS office has already reached the goal for this fiscal year on the number of Great Plains contracts, however, we see no letup in the number of applicants who wish the help available through the local office.

S/Sgt. and Mrs. Don Hinkle and sons, Russell and Randy have been visiting here in the home of his mother.

They were also accompanied by Pat's mother, Mrs. Catherine Barson of Banbury, England.

They left Tuesday morning to visit with friends in El Paso for a few days and will return to Plains later in the week.

Mrs. Barson is spending several weeks in Texas visiting her daughter and family, and will return to England in May.

From Trannie Key, Crossville, Tennessee: "I see the (I Remember) column in the 'Upper Cumberland Times' and with all the modern gadgets of today, I feel that I can qualify as an oldtimer, although I was not born a century ago (not quite) ... and looking back at childhood days, I feel a century has passed.

When I was a little girl we lived in a backwoods land. Spring came early and we took off our shoes and went barefoot until frost came the following Fall. We had to cross a river to get to school and my father would take us to the other shore in a canoe each morning, return for us when school was out.

The school term was four months, but I never attended a full four months. We went barefoot to school, carried lunch in a bucket, shared by three brothers and myself.

We had never seen a bologna sandwich or bologna, but had plenty of country ham, homemade biscuits, etc. Some of the things unknown to us: lunch meat, beans in the can, cars, gasoline engines, electricity, trains.

Farming was done with mule-drawn plows and all crops reaped by hand. Dried foods were winter-time fare--dried beans, fodder beans, dried pumpkin and dried fruits. We ground our meal from corn we raised, using a water grist mill owned by an uncle.

### MOOREODEN

Your Family Store

Something New Everyday

During this year the Plains Chapter of the Future Homemakers of America have done many things. We have had programs on teenage problems, personality, teenagers place in the home, and current events.

Among our activities we have had a baking contest and a barbecue for our parents and the parents of the FFA at Christmas, we had a caroling party and sent Christmas cards to the mental hospital in Big Springs. Our new members were initiated by cleaning up the Plains Cemetery. We had a school spirit week and in March our members attended an Area FFA meeting.

We participated in FFA week, March 31 thru April 6. This was a high point in the years activities. During this week the girls put roses on the teachers desks, served coffee to the faculty, wore the pin and colors, red and white, of the organization, had a "no gripe" day, had a school wide clean up day, attended church as a group, and had a family day.

The officers of our organization are as follows: President, Sarah Hunt, Vice President, Paula Tidwell, Secretary, Letha Watson, Parliamentarian, Freida Copper, Historian, Loretta Taylor, Reporter, Ann Lattimore, Pianist, Dana Bryson, Photographer, Sharon Pierce.

This year we have had some of our girls receive an award which is considered very high by members of the FFA throughout our country. This award is a degree of achievement of goals accomplished by the member. The FFA has 3 such goals, Junior, Chapter, and State.

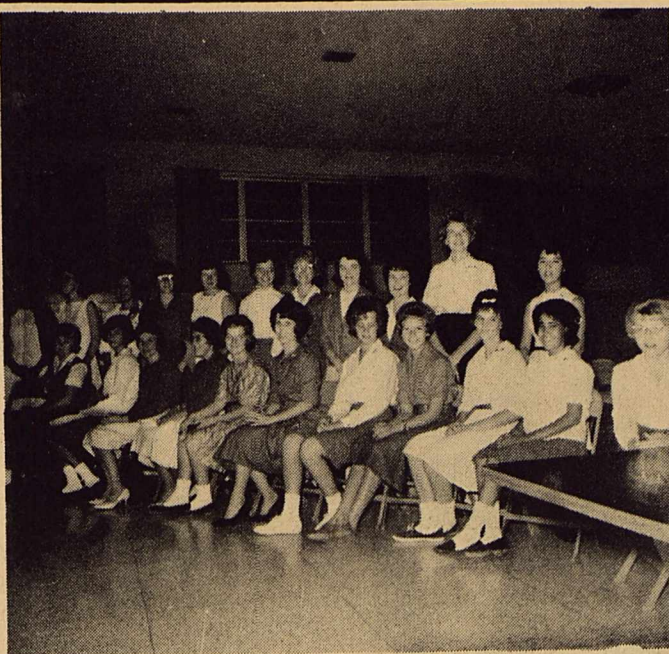

The first two are awarded by the chapter to girls who have met the requirements. The state degree is awarded by a state wide committee. D'Lynn McGinty is the only girl who has worked for and received her state degree this year. Next year Sarah Hunt, Loretta Taylor and Dana Bryson are to work for their State Degree.

Our Chapter has been very active this year. We would like to extend a special "thank you" to our sponsor, Miss Carolyn Nelson, and to our Chapter Parents, Mr. and Mrs. R. K. Field, and Mr. and Mrs. Tucker.

### F. H. A. Chapter News

The local chapter of FFA met Tuesday, April 9, in the School cafeteria. The meeting was called to order by president Sarah Hunt. Following the opening ritual a devotional was given by Darlene and Dene McDonald, D'Lynn McGinty, and Gail O'Neill. Sarah Hunt was elected girl of the month.

Tuesday night's guest speaker was Johnny Moore. Mr. Moore gave a very interesting talk on the teenager's place in the home. Following Mr. Moore's talk, Janith Tucker gave a report concerning the district FFA meeting which was held March 23 in Odessa. Hostesses Sylvia McGinty, Sandy Randall, Patsy Perrin, and Gail O'Neill served cold drinks following the meeting.

Pictured above are the new members in the local F. H. A. Chapter.

President, Sarah Hunt pins a new member at the formal Initiation.

Junior and Chapter degrees were awarded during a barbecue this year. Pictured above are the girls who received them.

Baking Contest Winners

Cleaning the Cemetery are three of the new members, this was done on Initiation Day.

# Attend The Church Of Your Choice

Easter Sunday Is A Wonderful Time  
To Begin A New Resolve To Attend  
Church Every Sunday

## The Plains Area Churches Welcomes You

### To Hear His Voice

*If she had come with self-glory,  
Pomp or hope of reward,  
She might not have been the first to hear  
The voice of the risen Lord.*

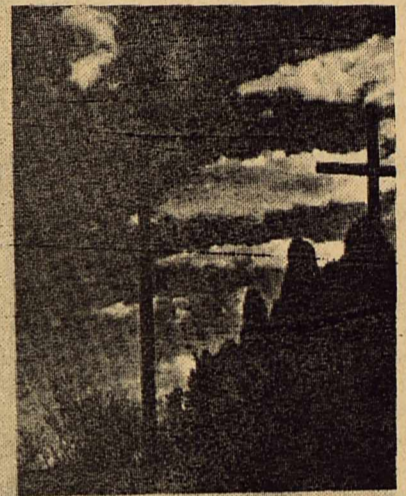

*Bowed down with grief and longing,  
Half-fearful in dawn light's gloom,  
Only with love and devotion she came  
That morning to the tomb.*

*So, not by our own deserving,  
A blessing, Lord, we plead,  
Only in grateful devotion we come,  
And our soul's most utter need.*

*More than the priests and the sages  
Or monastic devotee,  
She of the beautiful spirit  
Has taught us humility.*

by Maude Ludington Cain

*The Message of the Resurrection Is the  
Difference Between Life and Death*

### Sunrise Services

Easter Sunrise Services are again this year being provided for the Plains area residents, by the Churches of Plains.

The special services will take place in Stanford Park at 6:30 a. m. on Easter Sunday.

Plan to attend with your entire family. It will be well worth your time and effort.

A most cordial invitation is extended by First Baptist, First Christian, First Methodist, and Plains Assembly of God Churches of Plains.

We Wish You A Joyous Easter Season

# MIRROR, MIRROR ON THE WALL

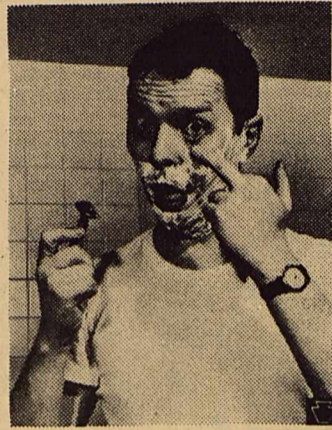

**Egotist**

**Romanticist**

**Tightwad**

**Hypochondriac**

You brides-to-be, have you ever peeked at your future husband when he's shaving? If so, you may have gotten a view of the real him.

There's something about shaving that seems to bare a man's soul as well as his whiskers, according to Gillette researchers, who have supervised more than 750,000 shaves for the research laboratory of the safety razor company.

These researchers noted that the manner in which a man lathers his face and handles his razor may reflect his mood

and even give a clue to his personality.

For example, there's the lad who likes to stare at himself admiringly in the mirror, while lathering his face with short, artistic strokes. From an egotist like this a gal can probably expect only pictures of himself as birthday presents, bum jokes and complaints about cooking.

However, girls who don't mind going "for broke" can look to the romantic type who gayly applies a lather mustache and goatee on his face for kicks. He may also be a generous soul, but this can extend to

picking up checks at tony night clubs with the rent money.

Needless to say, girls who fancy minks, diamonds and luxury European vacations, should beware of the tightwad.

In shaving, he can be spotted by his stinginess with shaving cream and his constant attempts to get one more shave out of a used blade. He's even afraid that looking at himself in the mirror may cost dough. He may hate himself but he loves his wife, provided she doesn't ask him for money.

For you girls who like men with zip and a burning desire

to get ahead, you should have no trouble spotting your boy. Even while shaving, this getter's at work, rehearsing his speech for the boss to get himself that cherished raise.

There is also the chronic hypochondriac, who is so busy diagnosing his imaginary ailments he hardly has time to shave. He'd take an aspirin for his headache, but he's afraid it would only make him feel better. Not necessarily bad husband material, girls, as long as you don't mind playing Florence Nightingale.

# County Agent's Report

Easter Sunday is a day when family and relatives gather for the noon meal. Many families will have friends join them, too. Now is a good time to start planning the menu for that Easter dinner.

In many homes it is traditional for the menu to be planned around baked ham. This festive roast always makes such a grand appearance on the table.

A 5 percent increase in the fall pig crop has resulted in increased supplies of pork this spring. You will find some, attractive prices on hams, chops and bacon, says Mrs. Gwendolyn Clyatt, Extension Service Consumer Marketing specialist.

A ham is a meat on which the carver of the family can show skill in carving. If the ham is allowed to "set" for 15 to 20 minutes after removing from the oven it will carve better.

The carver probably will appreciate it if the garnishes are kept simple. Too many get in the way of carving. Sprigs of parsley or spiced peaches, or spiced red crab-apples would be sufficient.

Consider the choice of ham. For convenience to-day almost all hams can be placed in two groups according to the cooking procedure they require. These are the "fully cooked" and the "cook-before-eating" ham.

As the name indicates, a cook-before-eating ham requires additional cooking before being served, while a "fully" cooked ham needs only heating in the oven for serving. They can be served cold just as

they come from the market, if desired.

The 4-H Favorite Food Contest will be held in the Clubroom in Plains, April 26th beginning at 6:00 p. m. The County winners will go to the District Elimination May 4th at Texas Tech. The members in the senior group of the first and second place district contest will become eligible to participate in the June 5th Round-Up at College Station.

Awards to state winners include medals, trips for some to National contest, opportunities for others to compete for National honors later in the year and numerous awards provided by friends of 4-H for particular contests.

The greatest awards, however, point out the state leaders, is the experience gained by all 4-H members who participate in the different phases of 4-H Club work. Every participant, whether on the county, district, or state level is a winner for they have increased their knowledge about subjects of interest and received training in citizenship, leadership, and sportsmanship. Their association with leaders other 4-H members and others will help them. "The Challenge is great" says the state

leaders, "and if they don't make the finals the first time, they'll just work harder for the future year for they are learning by doing.
