MOORE
or Less

by Johnnie Moore

Hear about Kennedy's new washing machine? They say it has a white exterior, but that inside it has a black agitator.

"Any self-righteous Federal Communications Commission employe or official will deny ardently that the government has any intention of taking over the nation's broadcast media for propaganda purposes or that it will dictate program content. Unhappily, there is growing evidence the other way. Newton Minow, when he headed the outfit, found TV a "vast wasteland," and reminded the stations that their service to the public would be examined when license renewal time came around. . . . Radio and TV could soon reflect the personal tastes of the rule makers in Washington, and antennas could soon become towers of babble with little interest for the listener or viewer. More dangerous, they could become brainwashing tools for whomever are the Washington "ins" of the moment, and make it difficult ever to dislodge them."

"The founding fathers of our country recognized government as potentially its citizens' biggest enemy.

In order to keep the monster whittled down to size, they limited government's powers and growth with a Constitution. What has happened since? Federal government is now: The largest electric power producer--the largest lender and borrower--the largest landlord--the largest owner of grazing land--the largest holder of timberland--the largest shipowner--the largest truck fleet operator--the largest warehouse--the largest employer--in the nation.

In fact, with only one exception, the Soviet Union, the United States government is the largest property holder in the world. The major part of the mushrooming growth of Federal bureaucracy has been made without Constitutional authority."

"Thank God we're not getting all the government we're paying for."
---Will Rogers

WEATHER

The weather for Wednesday September 18 thru Tuesday, September 19 in the Plains area was as follows:

Wed.	Sept. 18	84	60
Thurs.	Sept. 19	87	65
Fri.	Sept. 20	88	58
Sat.	Sept. 21	87	63
Sun.	Sept. 22	89	59
Mon.	Sept. 23	88	55
Tues.	Sept. 24	90	56

Cowboys Face Friona Here

This week's gridiron tilt between the Chiefs of Friona and the Plains Cowboys has all the earmarks of a really fine game of football. The Chiefs, who are to meet the Cowboys here in Cowboy Stadium, game time set at 8 p. m., are expected to be mighty blood-thirsty, due to the bad trouncing the Cowboys have given them for the last two years. Last year, the score wound up at 51-0 in favor of Plains, and the year before it was 31-0 also with the Cowboys on the big end

of the score. Already this year, Friona has stacked up the best record they have had since the 1958 season. Coming into this season the Chiefs had suffered the longest losing streak in Texas school boy football, having lost 27 consecutive games. This year however, their record is mighty improved, as they have racked up three wins and have had no defeats. Plains Head Coach, Rip Sewell, said this week that he believes the Cowboys are higher and more ready for

Friona than they have been for either one of their other two opponents, Crane and Post. The Chiefs are slightly heavier, according to program weights, than are the Cowboys. Their overall team weight average is 161 pounds. Plains is expected to be at full strength, with no one out because of injuries, and the starting lineup is expected to be about the same with the exception that Morris James is listed as starter for the offensive right halfback slot.

Petition Presented To Commissioners

A petition bearing 69 signatures of Yoakum County citizens was presented for action to County Commissioners.

The petition reads as follows: "The undersigned, being free holders of that subdivision of Yoakum County, Texas, hereinafter described, in accordance with article 6930 and 6954 of the Revised Civil Statutes of the State of Texas, to order an election to be held in the subdivision hereinafter described, such election to be held on the fifth day of

November, 1963, for the purpose of enabling the free holders of the hereinafter described subdivision of Yoakum County, to determine whether cattle, horses, mules, jacks, jennets, donkeys, hogs, sheep and goats shall be permitted to run at large in the following described subdivision of Yoakum County, Texas, such subdivision being as follows: That part of Yoakum County, Texas, lying south of the north block line of blocks, D, John H. Gibson survey, and block K, public school land survey, Yoakum County, Texas."

It was previously brought to light that although the County has a range law that was enacted in an election held in 1946, that cattle were omitted from the law.

The court called for the election to be held on Nov. 9 and revealed that the area described in the petition includes nearly all of Yoakum, but due to an existing State law, an entire County cannot be so regulated but that any portion of it can. The area described omits only a small strip on the northern most boundary of the county.

Report No New Clues Found

Local law enforcement officials reported today that although no new clues have been uncovered in last week's reported kidnapping of Plains

were said to be "inconclusive" and "furnished no new leads in the case."

Junior High School Principal, Odus Walsler, the investigation by both local officials as well as the Federal Bureau of Investigation, is still in progress.

FBI agents are reported to be "out of leads" due to the fact that "no motive can be discovered in the case." Yoakum County Deputy Sheriff, Olan Heath, said that although the case seems to end in one blind alley after another, "we are still going to continue to investigate every possibility that presents itself to us."

DID YOU SEE IT?

Persons witnessing the flight of the Fireball-Meteor over this area on July 11, 1963 are being sought by the National Investigations Commission on Aerial Phenomena. Anyone who observed the fiery object is asked to send a detailed report and diagram of their observation to N. I. C. A. P. The address is 5108 South Findlay Street, Seattle 18, Washington.

WSCS Sets Rummage Sale

The W. S. C. S. of the First Methodist Church will have a rummage sale on the Old Court house lawn, Saturday, September 28, 1963.

Cowboy Band Shows Real Progress

The band possesses a great deal of spirit this fall and the performances are expected to be even better than last year. Band director, Mr. Gene Young said, "Our band put on a good half-time show at the Post

Football Game; however, I am expecting improvement in the following shows. We have the spirit and the will that it takes to make a good performance, and I expect this band to be one of the best in the history

of the band. The band has two events to look forward to this fall: (1) marching contest in Lubbock on November 26, and (2) the Sun Bowl Carnival the last three days of December. We will have a top-notch band to take to these events."

Leading our band this year is drum major, Loreta Taylor and twirlers, Tonya Randolph, Betty Hamm, Jana Warren, and head twirler, Ann Lattimore. The Plains High School Band surely appreciates the support the public has given it. With your continued support, your band will continue to improve and be rated as one of the outstanding bands of this region.

BAND BOOSTERS

The Plains Band Boosters will meet Tuesday night in the Junior High Building at 8:00. It is most important that each parent and member attend. Several things need our attention and we need to get organized for this year. This is not our regular meeting night, but the second Tuesday of next month is too late. Incidentally, there is a program planned for the meeting on Oct. 9 so it is very important that we get organized before this date. Please plan to attend the meeting on October 1 and support your band.

WHAT NEXT?--Surely this is the question being asked by the group of Plains High freshmen being put through their paces by some upper classmen during initiation day held last Friday to officially welcome the recent Junior High grads into the hallowed halls of PHS.

WOW! WHAT A MESS--- on hand so that Plains High given some real personal treatment during initiation day last Friday.

Announce Over 65 Insurance Plan

Charles M. Barry, Administrator for the Texas 65 Health Insurance Association, reports growing enthusiasm in the state toward the over 65 health insurance plan.

Texas 65 will offer two health insurance plans to all over with no medical questions asked and no physical examination required.

The first enrollment period for the program will be Oct. 1-31.

Legislation authorizing Texas 65 was passed by the 58th Texas Legislature.

The Plan has the endorsement of Governor John Connally.

Insurance agents' training meetings are being conducted throughout the state currently to familiarize the men and women who will be offering the Plan for sale with its details.

Barry states that attendance at these meetings has surpassed all expectations.

"Indications are that the Texas insurance agents are vitally interested in helping make Texas 65 a great success. They see a tremendous opportunity of public service to their state through the Plan," he stated.

Information packets on the Plan have been mailed to 55,000 insurance agents licensed to sell health insurance in the state.

Explanatory letters and information regarding Texas 65 will be mailed by Barry to 288,000 Texans 65 years of age and over; 5000,000 person in the 40 to 55 age group and to 36,000 civic and professional leaders in the state.

"Nothing is being left undone," Barry states, "to acquaint everyone with Texas 65. We are receiving excellent coverage in the press and on radio and television and during Oct. we plan to step up our educational program considerably."

The nine founding companies of Texas 65 have now been joined by many more. Barry estimates over 50 companies will have signed up to underwrite the program by October 1. Several of these additional companies are domiciled in the east.

Barry listed the nine originating companies as: American Hospital and Life Insurance Co.; Southland Life Insurance Co.; Great American Reserve Insurance Co.; American National Insurance Co.; American General Life Insurance Co.;

Southwestern Life Insurance Co.; Great National Life Insurance Co. and Republic National Life Insurance Co.

Barry stated that every statewide insurance agent's group in Texas had pledged its all-out support of Texas 65.

He listed these organizations as: Texas Association of Mutual Insurance Agents; Texas Association of Life Underwriters; Texas Association of Insurance Agents and Texas Association of Health Insurance Underwriters.

Other organizations pledging support to the Plan are:

Texas Medical Association; Texas Association of Osteopathic Physicians and Surgeons; Texas Hospital Association; Texas Legal Reserve Officials Association.

Senator Walter Richter, Chairman of the Governor's Committee on the Aging appeared before the Austin Texas 65 agents training meeting to offer his Committee's complete support of the health insurance program.

Barry urged those interested in Texas 65 to contact their own insurance agent.

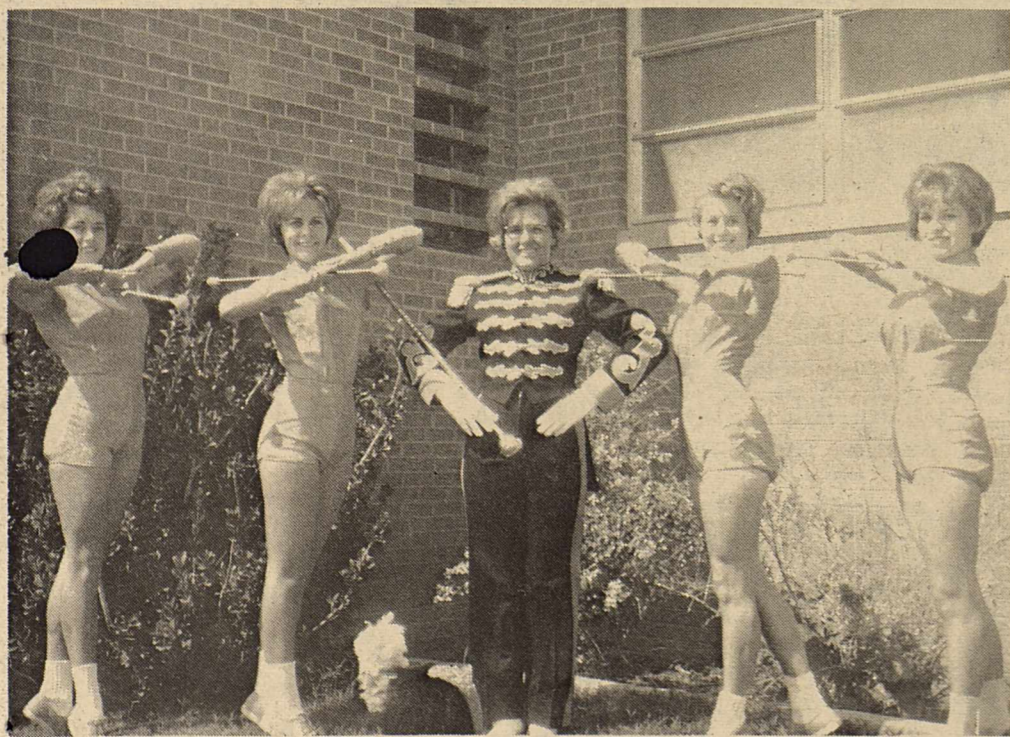

BOND SALES REPORTED

Savings Bond sales in Yoakum County during the month of August totaled \$5,775 according to Mr. D. P. Moorhead, Chairman of the Yoakum Co. Savings Bonds Committee.

Savings Bond sales in Texas for the first 8 months of 1963 totaled \$99,644,534 which represents 66.2% of the state goal.

"The 1963-64 School Sav-

ings Stamp Program is again in full swing. This has been an important feature of the bond program since 1941. All children buying their first U. S. Savings Stamp this Fall--whether at school or at the post office--will receive certificates signed by the seven Mercury Astronauts, making them "Junior Astronauts," chairman Moorhead announced.

BAND LEADERS--- Above at center is Miss Loreta Taylor who is Drum Major for this year's Cowboy Band. Left to right are Miss Betty Hamm, Miss Jana Warren, Miss Ann Lattimore, and Miss Tonya Randolph, Majorettes for the Band.

Tetanus Deaths Unnecessary, Says AMA Health Official

Despite the outpouring of new "wonder" drugs, man's ancient enemy, tetanus, has not yet succumbed to a cure.

Even so, death from tetanus, or "lockjaw" as it is commonly called, is "almost entirely unnecessary," says Raymond L. White, M.D., Director of Environmental Medicine for the American Medical Association.

"As a disease, tetanus is completely preventable," Dr. White noted. "The only reason it persists is that people fail to get immunized, or fail to maintain their immunity. Out of sheer neglect, three-fourths of the people don't have the protection they need."

"If it weren't for medicine's continual concern over the possibility of tetanus—if practically every time a physician saw a wound he didn't take precautions against tetanus—the disease would rank much higher among human killers."

Tetanus is caused by a deadly poison emitted by certain bacteria which contaminate certain types of wounds—especially puncture wounds, or wounds with imbedded dirt.

The bacteria itself cannot survive long enough in the open air to infect wounds. But its seeds or spores can.

Tetanus spores are usually produced by bacteria growing within the air-free intestinal tracts of mammals, including man, and reach the ground in animal manure. Within the intestines, bacteria cause no harm to their host, other than to serve as factories for the production of spores.

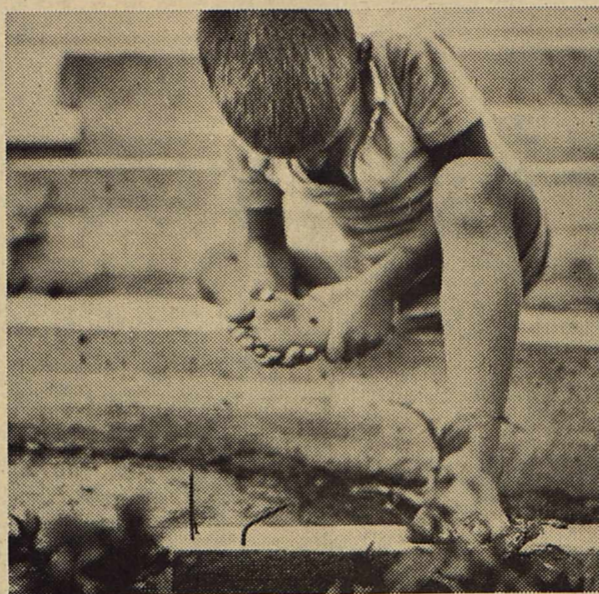

Once on the ground the spores, which are unaffected by air, and are borne great distances on the wind, can survive for as long as 11 years. Besides cultivated land, they are commonly found in household dust and the grime of city streets. Some have even been detected in hospital operating rooms—tracked in on street shoes.

The spores in some sections of the country are nearly as common as dirt, and await only the right kind of wound to start their chain of infection.

Because of its peculiar nature, tetanus has never been a mass killer like some infectious diseases. It is, however, a vicious enemy, killing 60 per cent of those it strikes.

Development of immunity against tetanus, says Dr. White, requires a series of inoculations

—three injections four weeks apart, followed within six to

Puncture wounds are a common cause of tetanus.

twelve months by a booster dose. To maintain this protection, additional booster shots are necessary every four years.

"Protection," he said, "should begin early in life—one to two months after birth—for the scrapes and falls of childhood offer tetanus many opportunities. "But adults need protection

too. With the new emphasis on outdoor living, with accidents on the increase and with the spore of tetanus in the dust and dirt all about us, we can only look forward to an increase in this deadly disease unless we make better use of our good sense, get immunized and keep immunized."

Six Yoakumites Attend State HDC Convention

Six Yoakum County Home Demonstration Club Members attended the 37th Annual Convention of the Texas Home Demonstration Association in San Antonio from September 17-20.

Headquarters for the meeting was the Granada Hotel and highlights were Australian Accents, by Mrs. Wilmer Smith, of New Home, Texas; Tour of Russia, by Mrs. Florence Low, Assistant Director of Home Economics of College Station; "There's Dynamite in Your

Home", by John R. Rauch, Fireman Instructor; "Farm Life at the Top of the World", by Mrs. Lyndon B. Johnson.

All attending participated in workshops of Civil Defense, Citizenship, Recreation, 4H, Health and Safety, and Family Life.

Yoakum County members attending were: Mesdames John Fitzgerald, Tom Box, Guy Hughes, Lee Roy Box, Preston Murphey of Plains and Mrs. Jesse Allen of Denver City.

Home for the weekend was Janith Tucker. Janith left Tuesday to return to Lubbock where she is attending Beauty School.

Blowing Out the Corners

Uncle Zeb

We finally managed to spend another short week-end in Red River. Several things happened to us for the first time. Terry Allen our host, managed to take us for a ride over the new road to be that will before many months replace the famous Red River Pass. We almost hate to see the old road go, but none of the scenic beauty will be lost in the change and this makes one feel better. The four and one-tenth miles of new road which will make the above change will cost around one million dollars and even the big trucks will be able to negotiate it. Another first came when Letha, the other half of the managerial staff shared the biggest and best watermelon with us that we have helped eat this whole year. Her parents who live at San Marcos, Texas, bought it at Muleshoe, Texas on the way up. Congratulations Muleshoe for raising such fine eating.

While we were cutting the melon a little five year old girl came in the kitchen. Knowing that she belonged to one of the guests they asked what they could do for her. She uttered not one word but with the most intent look on her face she pointed a pleading finger toward the melon. She received a generous serving. This reminded me of a story told by some neighbors about one of my own escapades as a young boy. Mother had allowed me to visit those kind folks, and when time came to leave I just didn't, according to the story. It is said that I shifted from one foot to the other but never made it outside the door. Finally thinking perhaps my mother had sent me to borrow something they asked me about it. Supposedly this was my reply: "No Mam, I didn't come

after anything, but if you have anything to give me I'll take it." Anyway, it was told that I did get the usual candy. However, those who know me best say the story just doesn't sound a bit like the Uncle Zeb they know.....

In passing through Texline, Dalhart, and on through the Springer ranch country we have never seen the grass greener on either side of the fences. The cows were full and happy by middle of the morning even by New Mexico time... Speaking of Springer we love to stop for coffee at the Stockmans Cafe, and these friendly folks have learned just about when to expect us. In the store window there we noted a stack of 48 pound sacks of flour. It just didn't seem that we had seen this large a sack displayed in the super markets here at home lately. Likely the large ranches still have cooks that cook up the hot biscuits. Also, one kind lady warned me that I was parking wrong, and no doubt kept me from talking to the judge.

Heard of the little four year old who was acting flower girl at a wedding when a lady began to sing "O Promise Me," bounced out into the aisle and started doing The Twist. This supposedly actually happened.

On the way home we stopped off to see the Boys Ranch Rodeo. Even though you may not be a rodeo fan you are almost bound to like this one. The spunk, grit, and stick-with-it-ness that those youngsters have will win your heart. By the way, not long ago we left some of our books at the Office Shop at The Ranch and they have been breaking all records for sales. We were never so glad to share a commission before...

About the only time we ever tried out as a carpenter didn't turn out so well. A fellow worker claimed that we saw a board off three times in succession and then threw it down in disgust claiming that it was still too short.

A woodpecker is the only bird that gets anywhere by knocking, and he always winds up in the hole....

Recent Oil Activities

Shell Oil Co., recovered shows of oil in a San Andres drill stem test at No. 1 Lee Brownfield, wildcat eight miles southeast of Plains in southeast Yoakum County.

The test, from 5,290-350 feet, was open one hour, recovering 10 feet of heavily oil and gas-cut mud and 320 feet of slightly oil-cut mud. A two minute initial shut-in pressure was 1,655 pounds per square inch and flowing pressure ranged from 45-150 psi. A final shut-in pressure was 1,092 psi.

Location is 1,980 feet from north and 660 feet from west lines of Section 54, Block F, J. H. Gibson survey, and is one-half mile east of the Waples Platter field.

YOAKUM—Cherry Bros., Lubbock, spudded No. 1 J. E. Fitzgerald, central Yoakum County wildcat, to 386 feet, five miles east of Plains, and cemented 8 1/2-inch casing at the total depth.

Projected depth of the prospector is 5,500 feet to test San Andres and it locates 1,980 feet from east and 660 feet from south lines of Section 432, Block D.

Drills Retainer
YOAKUM—CAL-Mon Oil Co., is drilling out the cement retainer

at No. 1 C. A. Hudson, wildcat six miles northwest of Denver City in southwest Yoakum County. Plans are to drill to 9,091 feet and perforate the casing with one shot per foot in each of 11 intervals in a section from 7,211-368 feet.

Location of the prospector is 467 feet from south and 2,173 feet from west lines of Section 834, Block D, J. H. Gibson survey, and is five miles northeast of Devonian production in Jones Ranch field. It is surrounded by production in the Wasson field.

Will Abandon
YOAKUM—Texas Gas Exploration Co., Kern County Land Co. and American Petroleum Co. of Texas, will plug and abandon No. 1 Carrie Sanderson Estate, a wildcat five miles southeast of Bronco in west Yoakum County.

A devonian drill stem test from 11,966-12,058 feet, was open 45 minutes, recovering a 1,000-foot water cushion, 530 feet of water-cut mud and 8,375 feet of salty sulfur water. Top of the Devonian was found to be 12,039 feet.

Logs will be taken at the project, located 1,650 feet from south and 1,980 feet from east lines of Section 400, Block D, J. H. Gibson survey.

CWF MEETING IS REPORTED

The Christian Women's Fellowship of the First Christian Church met Tuesday morning in the home of Mrs. Dickie Green.

The group decided to buy new hymnals for the church and will sell candy to raise the money as they have done in the past.

In addition to the large bars of milk chocolate they will also offer an assortment of Christmas Candy.

Refreshments were served to Mesdames: Bill Robertson, John Anderson, James Anderson, Johnnie Moore, Bill Fitzgerald, Nora McKee and Gene Phillips.

Rev. ROBERT H. HARPER
TWO OLD MEN

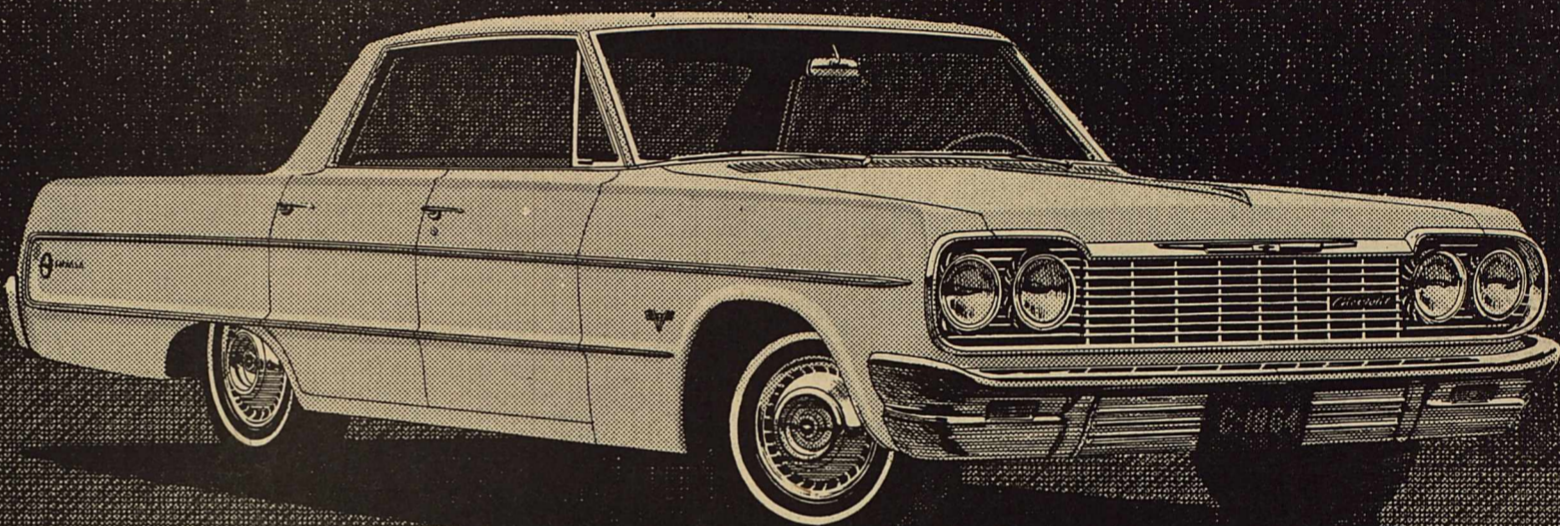

WHEN Napoleon Bonaparte returned from Elba, made his triumphal way to Paris, and scattered the regime the Allies had set up for France, he issued the last great call to arms and youth and aged alike answered the summons. Though youth were called, it was largely older men, including the famous Old Guard and other veterans who fought in the battle of Waterloo.

JUST A THOUGHT:
If man can see one foot beyond the end of his nose he cannot go through life without coming to the realization that the handiwork of God surrounds him every step of the way.

I thought of those veterans of Napoleon as I read that Adenauer and De Gaulle were meeting in Paris, to discuss the problems of western Europe. There is a strong appeal to the imagination as we think of the leaders of two mighty nations that have spilled the blood of their sons in wars against each other so long, with victory going to one side and another, now meeting to work out enduring peace.

Thus often have old men, like Moses of ancient time, led the way and pointed with unerring finger to the land of promise. And we trust that in maturity of wisdom the great and sore problems of the distressed world may be worked out to the good of mankind.

Expect great things from Chevrolet again-for '64

Today...Jet-smooth Luxury '64 CHEVROLET

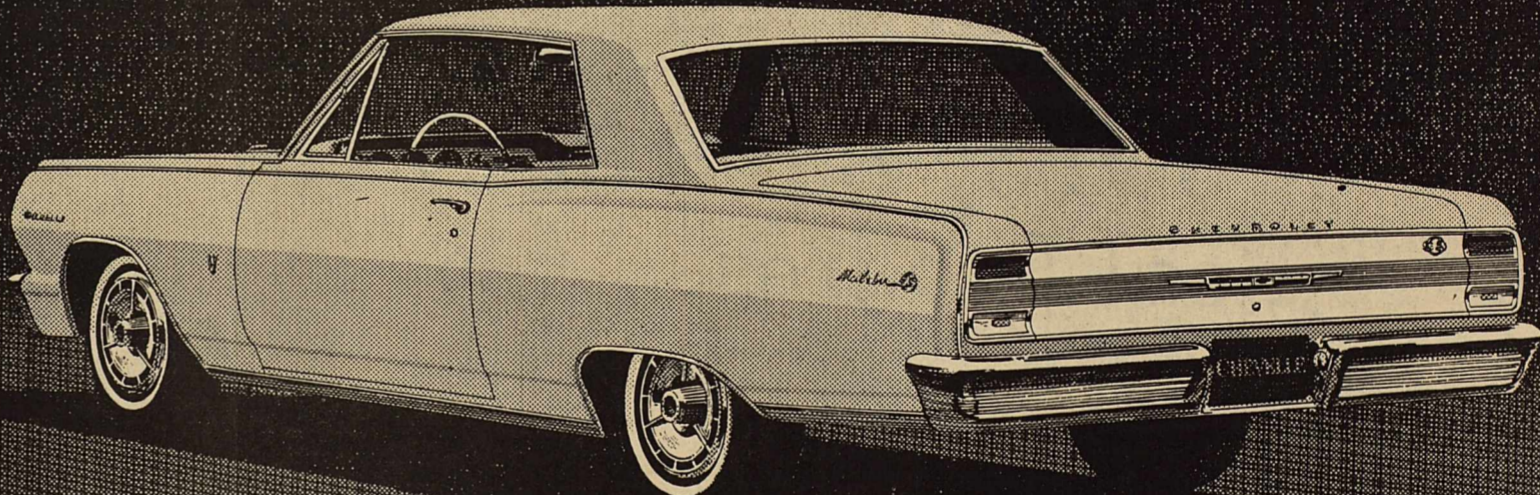

'64 Chevrolet Impala Sport Sedan—one of 15 Jet-smooth luxury Chevrolets.

Chevrolet was luxurious before, but you should see it now. With smart new styling, the '64 Chevrolet looks even longer (but isn't). There's even a whole new series this year—the Impala Super Sports—with front bucket seats as standard equipment. (The new Impalas and Bel Airs are more luxurious,

too. Even the lowest priced Biscaynes have new foam-cushioned seats front and rear and are fully carpeted.) Of course, you expect more than just luxury from Chevrolet. A choice of 16 power teams, for instance—a 6 and six V8's up to 425 hp (optional at extra cost). And quieter transmissions. Jet-smooth

ride with Full Coil suspension. Flush-and-dry rocker panels, Delcotron generator, self-adjusting brakes and other low-upkeep features. If you've ever wondered how luxurious Chevrolet could get—with all the extra-cost options there are to choose from—that seems to be entirely up to you.

Take your first look at the first CHEVELLE!

CHEVELLE! by Chevrolet

New Chevelle Malibu Super Sport Coupe—one of 11 models in three great series.

You've never seen anything like this totally new line of cars before. Chevelle is new in everything but Chevrolet quality. Chevelle is a good foot shorter than the big cars, so it parks easily. Yet the interior dimensions of its Body by Fisher provide a generous amount of head, leg and shoulder room. (Chevelle's trunk is big and roomy, too.) The ride is surprisingly smooth with a rugged coil spring at all

four wheels. And not so surprisingly for Chevrolet, the new Chevelle offers a choice of engines ranging from an economical 120-hp 6 to a 220-hp V8 (optional at extra cost.) Choose the Chevelle you like best from the three series—the Malibu Super Sport, the Malibu and the 300 Series, eleven models in all—at your Chevrolet dealer's. (Like this good-looking Malibu Super Sport, maybe?)

ODDSMAKERS DO WELL IN GRID CONTEST

Winners in this week's Grid Contest came mighty close to winning the big money, the \$25 bonus offered to anyone who is able to pick correctly the winners in all 20 of the games in the contest.

Mr. Guerry Wright, Plains High School Coach, and Jack Lowe Jr. local high school

student, each missed only one of the 20 games listed.

Wright, however, was declared the winner as his tie breaker score guess missed the mark by only five points.

This made Lowe second place winner, and Frank Whitlock, local businessman, won third place with only two in-

correct guesses.

Rules in the contest are as follows:

1. Anyone over the age of 14 is eligible to enter.
2. Enter as many times as you wish, but on a separate entry blank each time.
3. Entries must either be in the Record Office or postmarked by no later than 5 p. m. the Friday of the contest.
4. Your choice of winner should be clearly marked by circling the name of team in each of the 20 games listed, you think will win.
5. Three prizes, first \$5, second \$3, and third \$2 will be awarded each week to those who miss the fewest contests.
6. In the event of tie for any of the three places, the tie-breaker game in which you are asked to pick the actual score for each team will decide the winner.
7. In the event an entrant correctly picks the winners in all 20 games in a given week, he will receive a \$25 bonus.

BOOSTER CLUB MEETS

Plains Booster Club members are reminded that regular meetings are to be resumed this Monday evening in the local American Legion Hall.

Film of the Plains-Friona game, as well as a scouting report on the Sudan team will be the main items of business for the evening.

Also, players of the week in both offensive and defensive departments, will be picked by the group for the Friona game.

Tsa Mo Ga Has Public Affair Program

Tsa Mo Ga Club met Monday evening, September 23, in its regular session at the club house. The meeting was called to order by the Club President, Mrs. J. W. Moore, Jr. After repeating the Club Oath and giving the pledge to the flag, the members answered roll call by giving some requisite of good citizenship. The minutes were read and approved and reports were given by the chairmen of the Year Book, Finance, Constitution and By-Laws, and Special Projects committees. The treasurer also made a report.

Mrs. R. B. Jones, program director, presented the topic for the evening, Public Affairs. She then introduced Mrs. Garland Swann who conducted an informal Test for Citizenship with all members participating. The ten questions were some of the same that are asked of immigrants who apply for citizenship in this country. The results pointed up the fact that many of us need a better understanding and knowledge of how our own government operates.

The next speaker introduced was Mrs. J. M. Tippett who reviewed an editorial "Wake Up America" which appeared in The Saturday Evening Post. The editorial commented on the lead article, "Revolt in Europe", that was carried in the March 9 issue. This article called attention to the fact Europe has achieved a new prosperity never known before, is approaching a new unity among its peoples, and is increasingly demanding to be heard. The editorial dealt mainly with De Gaulle's refusal to admit Britain to the Common Market, and his determination to go ahead with the development of an atomic force for France. It was the editor's opinion that De Gaulle was acting in the national interest of France and he believes that we in America should not denounce him but imitate him. As De Gaulle has asserted himself in protection of France's national interest so should we determine our own national interest and pursue it. The idea was brought out that none of our allies care too much about America's "Grand Design" for the world unless it happens to coincide with that country's own national interest. This is a fact that has been too long ignored, and with which

we must come to terms.

Mrs. Jones then introduced Mrs. Bob Blundell who spoke on the Status of Women. She gave highlights from the lives of the three American women who received Freedom Medals, the nation's highest civilian award. President Kennedy presented these awards to Marian Anderson, internationally famed Negro singer, Genevieve Calulfield, and elderly blind woman who dedicated her life to helping similarly handicapped children in the Orient, and Mrs. Annie Wauneka, the daughter of an Navajo Indian chief who ministers to the health needs of her people in the west's desert wilderness.

Mrs. Blundell stated that the honors earned by the greatness of Mrs. Anderson's voice and the acclaim she received overseas, especially in Africa and the Orient, thrust her into the role of Ambassador of good will. Her great talent has surmounted numerous racial barriers and many concert halls previously closed to Negroes have been opened. Miss Caulfield, blind since infancy, is known as the "Helen Keller of Asia." In 1961 she received the Ramon Magsaysay Award Asia's Nobel Prize, of \$10,000 which she immediately put into her projects. About the peoples of Asia Miss Caulfield says, "While at first they may seem startlingly different from us, actually the differences exist only on the surface. East is East and West is West, but they are very much the same where it counts." Mrs. Wauneka although an Indian princess, does not enjoy life in regal splendor. On the contrary, she spends a good part of her time jogging over the rugged nearly roadless deserts of Arizona, Utah, and New Mexico looking after the health needs of the Navajos. She has made much progress in breaking down the Indian's traditional reliance on medicine men

and building up and acceptance of the practices of modern medicine. Despite her progress, her work has only begun, Mrs. Wauneka believes.

Following the program Mrs. R. K. Field and Mrs. R. B. Jones were hostesses for a social hour.

HOMECOMING PLANS TOLD

Ex-Student Association of Plains High School, through its officers, revealed this week that plans for this year's homecoming activities are about completed.

Officers for this year are: Cordell A. S. Huddleston, President; Gene Phillips, V.P.; Vennum Fitzgerald, Treasurer; Helen Beal, Reporter; and Sarah Jane Field, Secretary.

Homecoming has been set this year for October 25, which will be the night Plains plays O'Donnell here.

Day's festivities are to include a barbeque banquet to be served in the school cafeteria from 5:30 to 7:00 p. m. Price for the meal, which includes admission to the ball game, has been set at \$1.50 for adults and 75 cents for children.

Reservation forms for the banquet will be run in the Record beginning next week.

Huddleston urged that parents of recent graduates help in contacting their children to assure that everyone possible makes their reservation in plenty of time.

The Seniors of Plains High School made a trip to Lubbock Saturday to attend the Texas Tech vs. Washington State game.

SET SCHEDULE FOR YOUTH CENTER

Mrs. Wallace Randolph, local director of the Plains Youth Center, reported that the center will be open each week-end now on Friday and Saturday nights.

She stated further that this Friday evening, after the ball game, something of a special meeting is being held in the recently-opened center. The young people of the Plains, Yoakum County, area and parents who are interested in the Center are invited to assemble in the Club Room on the ground floor of the old Courthouse for refreshments, after which the meeting will move to the second floor for a business meeting, the first to be held by the center.

Following the short business meeting, a recreation period is to follow.

Mrs. Randolph stressed the fact that the Youth Center is designed to be used by all the Plains area youth from age 13 through high school.

Visiting in Abilene Monday of this week was Mrs. Ed Hunter and Mrs. Frank Ellison.

The Jack Palmers and the Vennum Fitzgerald visited in Dimmitt with relatives this weekend.

Miss Lane To Address Dirt Gardeners And Tsa Mo Ga

Inviting Americans to discover America is the interest of Miss Carol Lane, women's director of Shell Oil Company, who will address the Plains Dirt Gardeners Garden Club and Plains Tsa Mo Ga Study

Club. Often called the most traveled woman in the nation, Miss Lane will present "Let's Go Adventuring!" at the Old Courthouse at 8:00 p. m., according to Garden Club President, Mrs. W. M. Overton and Mrs. Casey Jones, Tsa Mo Ga Program Chairman.

Miss Lane's theme refers to the unique and interesting places America offers for long and short trips. She will mention many little known areas she visited on a research trip this summer, crossing the United States from the Pacific Coast to New York via auto. Her talk will include hints on short tourette vacations, travel budgeting, how to travel with children, family camping and other subjects.

A highlight for many previous audiences is a short bag packing demonstration during which Miss Lane packs a 26 inch suitcase with a complete two-week wardrobe. She travels more than 80,000 miles each year testing and developing new vacation ideas. In addition to her appearances before women's clubs, she has written numerous booklets on travel, has appeared on hundreds of television programs, and is often described by club women as "America's First Lady of Touring."

Sam St. Romain Enrolls At T.C.U.

Sam Luna St. Romain, son of Mr. and Mrs. P. W. St. Romain, Plains, is enrolled in the Ranch Training Program at Texas Christian University. Twenty-one young ranchmen are registered for the nine-month course this year.

Designed to provide practical experience and instruction in modern methods of ranch management, the program was initiated in 1956 and has grown steadily since that time. Students spend much of their time on leading ranches in the South west learning all phases of ranch operation by actually taking part in the activities.

States other than Texas represented in the class this year are Kansas, Missouri, Michigan Ohio and Pennsylvania. One student is from Mexico City. John L. Merrill is director of the Ranch Training Program.

TELL BRIDLE

There will be a wedding shower for Mrs. Mike Sink, formerly Joy Oats, on September 28, from 3 until 5 p. m. in the Clubroom of the old courthouse.

SHOWER PLANS

All of Joy's and Mike's friends are cordially invited to attend.

Selections are at Cogburn and Young, Curry and Edwards and Moore and Oden.

Man... what shopping pleasure!

All your grooming, smoking, even gift needs, conveniently assembled here!

There's a man's world... right here in our well-stocked collection... everything that's newest in grooming and shaving needs, the best in smoking pleasure!

SCD STRESSES USE OF STUBLE

Now that harvest time is about over and a lot of operators will be thinking of plowing the land we need to consider what the results might be. A good cover 2500# per acre of grain sorghum stubble will if left on the land do a

good job of controlling wind erosion next spring. If it is shredded and turned under it can only add organic matter to the soil. The faster it decays the quicker it will be gone and the good it can do as water and plant food storage

is lost. Can we afford to destroy a plant and plow up a clod of dirt to take its place? Robert Chambliss reports his cows and calves did equally as well on bermuda grass as they did on a mixture of bermuda and other forage grazing crops. Robert has 15 acres of new alfalfa and he is using millet as a cover crop to protect it. The millet will die at frost and leave a dead cover to protect the alfalfa.

Reports of bermuda grass pasture that is doing good and grazing a lot of fat cattle come from H. M. Bolling, W. O. Erwin, James B. King, H. M. Conner, J. D. Jones, Foye Powell and H. M. Edwards.

Now is a good time to give bermuda grass a rest, get a deeper root system, more vigorous plant for next year. Fertilize and water now will mean a lot more grass next spring.

New conservation plans approved last week by the board of Supervisors are: Polly Rushing, Posey Henderson, O'Neal Spencer, Robert and Tom Box, and D. W. Eubanks.

Robert Chambliss and son Bobby in a field of narrow maize that produced 5000 lbs. of grain per acre and about 8000 lbs of dry matter to be used as erosion control and organic matter to improve the soil.

Set Young Farmer Week

The first week of fall, September 22-28, has been officially designated as Young Farmer Week in Texas by proclamation of Governor John Connally.

The proclamation signed last August 29 on the Tenth Anniversary of the Young Farmer organization gives additional recognition to the rapidly growing farm group.

Young Farmer work is sponsored under auspices of the vocation department in the public schools. Some 164 Young Farmer chapters have been organized on local school district or county wide basis to carry out educational activities which will help keep them abreast of the technological advancements in the field of agriculture and will enable them to develop greater skill and efficiency in management production, and marketing.

Governor Connally points out in the proclamation that, in addition to educational activities Young Farmers incorporate in their planned chapter program civic and community service projects and leadership development activities which are designed to improve their

development activities which are designed to improve their communities, State, and Nation and to promote the welfare of all citizens. He further points out their efforts Young Farmers are helping to strengthen the economy of our country and are promoting good citizenship.

September 22-28 has also been designated as Young Homemaker week in Texas. The Young Homemakers is a

companion organization to the Young Farmers; membership in the Young Homemakers is composed primarily of wives of Young Farmers. Over 100 chapters have been organized in districts where Young Farmer chapters are located. Home and Family Life Education Teachers sponsor Homemaking chapters.

Eddie Joe Fortenberry of Lockney is President of the State Association of Young Farmers. Mrs. Ann Lane of Comanche County is Young Homemaker President.

Weekend before last the K. O. Hendricks and Ann Lattimore visited with Ronnie at Las Cruces and attended the Las Cruces vs. Eastern New Mexico game.

###

It is never too early to make plans for your future retirement, according to Mr. John G. Hutton, social security district manager in Lubbock, Tex. He said the folks in the social security office will be glad to tell you what papers you will need when you file your claim for payments.

"You should make your claim for social security retirement payments two or three months before you actually retire," Mr. Hutton said. By doing this, you will get your payment on time when you retire.

Mr. Hutton warned older workers against waiting until after retirement to make their first visit to the social security office. Some often find that they could have gotten benefit payments even though still working. The best way to avoid this kind of loss is to check on your social security when you reach age 62, 65, and 72, Mr. Hutton advised.

If you are unable to come to the Lubbock office, a representative of that office will be in Plains on October 3, in the Courthouse at 2:00 p. m. and will be glad to help in any matter pertaining to social security.

ITEM: Among the new products to hit the market in the past few weeks is a new kiddie soap in an aerosol can. It is supposed to make knuckle-scrubbing fun. The soap is released by pressing the trigger of a plastic gun atop the can.

ITEM: Don't look for a marked change in the price of meat at your favorite market in the very near future. Hog prices are ahead of this time last year and are expected to continue strong for another month. Cattle prices at the end of July were higher than at any time in the preceding three months.

DIRT GARDENERS HEAR DESIGN COURSE

Line, Line Mass and Mass Line artistic design was demonstrated to Plains Dirt Gardeners Garden Club Saturday, September 21st in the Old Courthouse from 10:30 a. m. to 5:00 p. m.

The program was presented by Mrs. Harold Kelly and Mrs. M. J. Meador of Lubbock National Council of Garden Clubs Inc. Flower Show Judges.

Mrs. Meador stressed correct flower show practice in staging and exhibiting, duties of members and committees.

Mrs. Kelly defined Line artistic design as mostly line very few flowers, demonstrating with carved castor bean leaves and one blossom. Line mass and mass line may contain more flowers but still must have more voids than solids, with line mass having more line and mass line with less line visible. Each design must meet the design principles of balance, dominance contrast, rhythm, proportion, scale.

Beautiful handmade containers were displayed and used made from an automobile axle, plow disc, stairway newel post, driftwood, weathered wood, and ceramics. A covered dish salad luncheon was enjoyed by approximately 20 members and guests.

Bowling Results

The Moore & Oden sponsored women's bowling team from took the full measure of their opponents this week as they beat the Denver City Piggly Wiggly team all four games. The win brought them from

6th place to 4th in the Wauson Handicap Ladies League.
