## O'Donnell Second District Game

Plains Cowboys had a real field day here Friday night when they took on the Tahoka Bulldogs in their first conference tilt.

Final score in the one-sided game was Plains 35 and zero for Tahoka.

Plains was able to score in every period of the game.

First tally came on a 37 yard dive play by Joe Dan Cooke. Kick try for extra point was blocked.

In the second quarter, Jack Lowe, on a keeper, ran the one yard needed for the TD, but again PAT was no good. The scoring play had been set up on two fine end sweeps by freshman Gregg Jones.

Also in the second period, Dennis Crutcher galloped 10 yards for the third TD and Butch Gayle was able to kick for 1. score as the half ended was 19 for Plains.

In the third quarter, Jack Lowe tallied three points on a 11 yard field goal.

The final period of play all belonged to the freshmen.

Gregg Jones, on a punt return charged 75 yards, having to completely reverse his field, into pay dirt. Calvin Smith, playing defensive halfback, snared a Tahoka pass and ran 65 yards and crossed the goal line untouched for Plains' final touchdown. Gayle again added the extra point and the score wound up 35 - 0 with the Cowboys on the big end.

This Friday Plains travels to do battle with another district foe, the O'Donnell Eagles.

The Eagles are reported to be light, but have some real bright spots in their lineup.

Their best mode of attack is reported to be in the air.

The Cowboys, according to the coaches, are going into the game expecting to have to play ball.

## State Draft Quota Up'ed

The state draft quota for the month of November calls for 307 men, compared to 236 for October, Colonel Morris S. Schwartz, state Selective Service director, said last week.

The state quota of 307 for November is the Texas share of a national call for 8,600 men, all for the Army.

The state director also announced that state draft boards will forward around 2,900 males for Army mental-physical examinations in November, all of whom will be 18 years old.

These tests for 18-year-olds are the result of President Johnson's action early this year which ordered the Director of Selective Service and the Secretary of Defense to examine all newly-registered men who are out of school and available for service. Males married at age

18 and those known to be in school at that age will not be examined.

Colonel Schwartz stressed that these youths will not be considered for armed forces service at this time. Normally, draft for service is about age 22.

The 18-year-olds who fail

the Army's mental examination will be referred by draft board letters to local offices of Texas Employment Commission.

Youths who get the letters are under no compulsion to visit the TEC offices, but may go if they feel the government can benefit them.

### Christians To Honor Member

Then, on Monday morning, which is Mrs. McGinty's 86th birthday, ladies of the Christian Women's Fellowship will honor her with a tea and reception in her home from 10 to 11:30 a. m.

All her many friends and relatives are most cordially invited to attend the special services and the tea.

## Cotton Harvest On Increase

Cotton harvesting continued to increase on the South Plains during the past week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA.

The total number of samples classed during the week ending Wednesday, Oct. 14 at the Lubbock, Brownfield and Lamesa offices amounted to 14,200. This brings the season total to 24,850, compared to 39,200 as of the same date last year. Daily sample receipts at the 8 offices are now running about 4,250 samples. Receipts are

expected to increase this week as some farmers begin stripping operations.

Trading in the new crop cotton on the Lubbock market has been rather slow due to the small volume of cotton harvested. Prices quoted range from about loan levels to 45 points above the CCC loan rates for White grades, and 25 to 100 points over the loan for Light Spotted grades.

Prices paid farmers for cottonseed continue to average \$45 per ton.

ANNUAL STAFF---Shown above are the members of the Plains Annual Staff. The group has emphasized that sale of ads for this year's annual will begin soon.

Winners in this week's grid contest were as follows:  
First Place - Shawni Nix

Misses for the three places were three for first place and four misses for each of the other two places.

## Small Businessmen Share In Record U.S. Prosperity

You can't talk about good times without thinking about the small businessmen.

In the midst of the greatest prosperity this country has ever known, it is still the small businessman — the rural shopkeeper, the independent grocer, the small factory owner — who forms the backbone of the Nation's economy.

And it is to him that we must look to maintain the competition, the spirit and the balance of our whole industrialized society.

Recognizing his importance, the Small Business Administration has stepped up its activities and revitalized its entire program to give him a better chance to grow and prosper.

In the rural areas, in the small towns and in the big cities, small firms are modernizing and expanding at a pace that is bringing new strength and vitality to business communities throughout the country. They can do this more easily now through our new liberalized and simplified loans programs and a minimum of government red tape.

Since 1961, for example, some 22,000 small firms have applied for and received long-term loans totaling more than \$1.1 billion dollars. The majority of these loans were made by SBA with local bank participation.

The individual business loan program, however, is only one aspect of our activities. SBA also lends money to state and local development companies which are corporations formed by public spirited citizens to create new industries and new jobs in their communities. These companies bring new life to a town, often save it from financial disaster. Since 1961, some 20,000 new jobs have been created and the general economy of many areas boosted as the result of these ventures.

Small firms also are receiving a far greater share of government contracts than they have in the past. In fact, contracts set aside especially for small business since 1961 are more than double the number they received from 1958-1960.

SBA also lends money to victims of storms, floods and other natural disasters to help them rebuild and become operative again.

Eugene P. Foley

This year, President Johnson gave new impetus to another SBA activity when he signed into law amendments to the Small Business Investment Act.

The President was a chief sponsor of this Act when Congress passed it in 1958 to help meet the needs of small firms for equity financing and long-term funds. The amendments will further encourage the flow of private capital from these companies to small businesses.

As a further step to help small firms, SBA is now recruiting retired, successful, experienced businessmen who are willing to help small firms with their management problems. Thus far, more than 1,000 businessmen have enlisted in this program, which is known as the Service Corps of Retired Executives — SCORE for short.

These are some of the programs of the Small Business Administration. They assume added significance when you consider that nine out of 10 businesses are small, that they generate 40 percent of our nation's business activity and provide jobs for 40 percent of our labor force.

Since 1961, they have come a long way to maintain their place in the Nation's economy. They have benefited, not only from the help they have received from SBA, but from the Administration's tax cuts and other measures to bring about what is now the longest and strongest expansion in history.

We noticed in the paper recently that a South Texas passer had gone into court for an order to prevent a woman from singing offbeat notes in the choir. He managed for the court order, but at last count she had ignored the judge to the tune of being in contempt of court eighteen times. The preacher wondered what now?

### SPECIAL-WASHINGTON REPORT

## U. S. Food Surplus Helps Keep The Peace

By U.S. Sen. George S. McGovern (D-S.D.)  
 Member, Senate Agriculture Committee

Ten years ago a Democratic Congress passed a law designed to use our food abundance to fight hunger and misery in other nations. President Eisenhower signed the law and it became known as PL 480.

Either because of lackluster administration or lack of imagination to use the program's full potential, the PL 480 program coasted along for six years unnoticed and all but forgotten.

Within a few months after the Kennedy-Johnson Administration took over, the entire nation became aware of the Food for Peace program. What happened was that PL 480 was given the personal attention of the President and it became officially known as the Food for Peace program. New life, new vitality, new emphasis was given to it.

We are now sharing our abundance with people in more than 100 nations. Shipments abroad reached a record high in 1963 of more than \$1.6 billion.

Hundreds of thousands of jobs on U.S. farms and in towns and cities are created wholly or substantially by the production, processing, and transporting of commodities for Public Law 480 export.

Not only are such shipments putting food and fiber into the hands of needy foreign friends and accelerating their growth programs, but also they effectively serve our farm and business communities by building future foreign markets.

The programs, operating in more than 100 nations, have begun to make a dramatic contribution to economic growth. Nearly three-quarters of a million workers in 22 countries are partially paid in U.S. food under Public Law 480 food-for-work programs. Many thousands more are employed as a direct result of the use of local currencies for economic development projects.

Secretary of Agriculture Orville L. Freeman has estimated that if these less developed countries could increase their per capita incomes by \$100 a year, the additional market created would double U.S. export sales of farm products.

During this Administration several steps have been taken to increase the effectiveness of Public Law 480 operations. These include:

# Band Numbers 57 Hard Working Members

This year's Cowboy Band, although smaller than in the past few years (it has 57 members), has the best spirit and has more enthusiasm than many bands in the past.

This opinion was expressed by Mr. Gene Young, director of Plains School Band recently. Young went on to say that, in his opinion, the band is now headed toward the highest ratings that it has ever received in the UIL contests in the years during which he has been band director here.

Marching section of this year's UIL contests has been set for November 24, and will be held in Jones Stadium on the campus of Texas Tech in Lubbock.

UIL Twirling Contest is set for November 7 in Levelland. Officers for the band this year are as follows:  
 Jana Warren - President  
 Sylvia McGinty - V. P.  
 Nancy Tippett - Sec. Treas.  
 Gayland Alberding and Dene McDonnell - Reporters.

This year's drum majorette is Miss Shirley Liles and twirlers are Jana Warren, Suzahn St. Romain and Janie Hamm. Balance of the band is divided into sections as follows:

## A letter to our Congressman from JOE B. PHILLIPS

The Hon. George Mahon  
 Congressman, 19th District  
 1211 New House Office Building  
 Washington 25, D.C.

Dear Mr. Congressman:  
 This letter is concerned with issues which are vital to our particular section of the country. I have some very definite convictions about certain matters, and I would welcome the opportunity of discussing these issues face to face if your schedule could be arranged to do so.

In my opinion the economic growth of West Texas has been retarded by the foreign investments of our federal government. Through the Oil Compact, Texas has been forced to absorb a great percentage of foreign oil, while our own wells have been allowed to produce on the maximum of only 10 days a month. In my opinion, this is not fair to our area.

I believe that the cattlemen in our district have a just complaint over the importation of foreign beef, and that the farmers of our area have been denied support and encouragement to raise sugar beets and other crops because of foreign imports.

I am concerned that our district has lagged behind in the development of Interstate Highways, and in industrial development until this political year.

Very truly yours,  
 JOE PHILLIPS

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

## Work Continues At Full Tilt

Two new underground pipe jobs, part of Great Plains programs, on the S. L. Tingle and Loyd Allsup farms were staked out last week. These land owners are reorganizing their irrigation system so that they might do a better job of irrigation and save water while doing so.

A new conservation plan was completed and mailed to the area office for typing on the L. C. Heath place southeast of Plains this week.

The C. E. Boley plan was revised deleting 80 acres that was sold to W. M. Bundick. A new Great Plains contract and district plan will be written on the Bundick place. He plans to plant about 60 acres of grass.

New plan maps were ordered for land purchased by H. G. Smith and Foye Powell. These are to regular SCD plans.

Cover crops are looking good. W. P. Turner has 220 acres of rye in castor beans. This may be very important, as castor beans may become more of an area crop in the future. They leave very little residue and must be followed by a cover crop or tillage to control wind erosion. "Pep" over-seeded the rye in ahead of the last watering using a front-end cyclone seeder on his tractor.

Others who have cover crops that look good are Bob Loe, Mrs. Paul Loe, W. G. Gray, Roy Keller, Albert Williams, O. M. Stewart, Wayne Williams, R. C. Young, James Williams, Foye Powell, D. V. Phipps, Dorman Scott and J. M. Derring.

We hear people talking everyday about how they are going to handle their grain sorghum residue to control wind erosion.

This is very encouraging and means we are making progress as operators plan ahead. Wind tunnel tests show that broadcast residue will hold our soil when there is 1750 lbs per acre left on the land. While, on the other hand, it takes 2500 lbs. when the stubble is in 40" rows.

If you have less than 2500 lbs per acre you could help the residue by using a chisel at a 45 degree angle or by going directly across the rows and bed the land.

W. B. WHITE AND GRANDSON---Bill White in a field of cotton that dry weather harvested and was over-seeded in 20" rows with Sudan grass.
