WEATHER

Turbulent weather has been the order for much of the past week in and around Plains. Only one case of damage was reported, but much anxiety was created by the storm conditions the past few days. While there was some possibility for additional moisture Wednesday night, the storm conditions are predicted to move out of this area Thursday.

The only severe wind damage reported was that of a small twister that dipped down in the Pleasant Hill district at the farm of Mrs. C.W. Brown, 12 miles south of Tokio. A porch roof

## RIOT CONDITION WORSENS

The riots on the many campuses of some of the finest institutions of learning in the United States is quite difficult to understand for those who live in the quiet and peaceful community of Plains, Texas. People who live in the tranquility of a community where there is no dire poverty, no starvation, no racial problems and no serious crime involvements have but a slight concept of the circumstances that cause such conflict.

However, it requires but little logic of anyone living anywhere to foresee the outcome of such turmoil if it be permitted to continue. It is absolutely baffling to attempt to discern the type of thinking of those in charge of discipline on the campus of these institutions that would cause them to so flagrantly flaunt the laws of this land and permit the atrocious activities of the defiant revolutionary minority element of these honored institutions.

It is completely inexplicable to any sane and intelligent, and law abiding citizen of this country why the law enforcement officials from the local police to the Commander-in-Chief of the United States armies have stood idly by and permitted respect for the laws of this country to degrade to the state in which it now exists.

When militant supposed-to-be students are permitted to arm themselves with pistols and rifles and other explosive implements and invade the offices and classrooms of a college and make their demands of that school under threat of use of such arms without one move by the law enforcement bodies to apprehend or deter them, a state of revolution exists. Not only a revolution of the militants but of those who are entrusted with the protection of our citizenry. The disrespect for law and order has become so intense that only the most drastic action can prevent disaster.

Setting about to pass gun control laws while deliberately ignoring the present conditions can have no effect at this time for much of the armament being used by this revolutionary faction have been obtained in states with the strictest gun control laws. A return to the old law of the gun and organization of vigilante groups throughout the land will become compulsory if someone in authority does not step in and take charge of this deplorable condition at once.

**LISBON (AP)** A new penitentiary to replace the 95-year-old structure in Lisbon is being built — by the prisoners. Inmates of the Lisbon Penitentiary will move to their new home — in Alcoentre 50 kilometers north of here — as soon as prison construction gangs complete the finishing touches. The prisoners building the new "pen" are on a rehabilitation project. The old building will be demolished to make room for a new palace of justice.

Charles Johnson is a pension collector.

He gets one from the Veterans Administration, one from Social Security and pensions from the telephone company and an insurance agency.

In 1943, after 25 years with Southern Bell, Johnson retired and began selling insurance. In September, 1968, after 25 years on that job, he retired again.

Johnson, a veteran of the Spanish-American War, still drives his car, although he is 90 years of age.

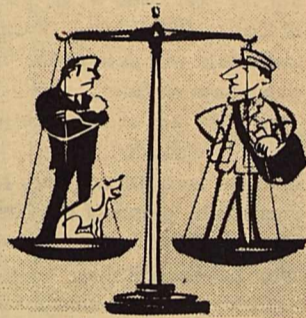

## Postman vs. Home Owner

More often than not, the relationship between postman and home owner is a warm and friendly one. But even into this sunny clime a little rain must fall. Such as, when the postman gets hurt and sues the home owner for damages.

As a general rule, the home owner is not liable if he is not guilty of any negligence. For example:

A home owner was sued by a postman who suffered a bad fall when a rotting porch step suddenly caved in. But a court found no liability. The judge pointed out that, since the rot was visible only

from underneath, there was no reasonable way for the home owner to have discovered the danger.

By contrast, take the following case:

A postman slipped and fell in the outer hallway of a home, because an excessive amount of wax had been applied to the floor. This time, there being negligence on the part of the home owner, the court ordered him to pay the postman's claim.

In terms of sheer frequency, Number One hazard that the postman faces is a bite by the home owner's dog. Many thousands of on-the-job bites are suffered each year by mail carriers.

In such circumstances, the home owner is usually liable if the state has a "dog bite law." Under this law, a dog's master may be held responsible for a bite not only when he was negligent but even when he was not negligent in any way.

If the state has no dog bite law, the home owner might still be liable—but only if he was somehow to blame for the bite.

In one case, the owner of a vicious dog did take the trouble to post a "BEWARE OF DOG" sign on his front door. However, when a postman rang the bell to deliver a package, the man opened the door and permitted the dog to dash outside and bite the postman in the leg.

A court duly imposed legal liability on the householder. The judge said posting the warning sign did not end his responsibility toward those visitors who, like the postman, had a perfect right to come onto the premises.

**NEEDS INVESTIGATING COVINGTON, Ky. (AP)** — Mrs. Norman Weiler volunteered to take care of the 4-year-old boy next door while his mother was on a shopping trip.

"Let's sit on the front porch and have a good time," she urged.

The boy agreed but soon the inactivity was too much.

"Mrs. Weiler," he asked, "are you having a good time or am I?"

by The Publisher

Every nation in history has grown great and powerful in direct proportion to its faith. Have the people of our United States lost faith in the very things that our nation was founded upon? When I read and hear of the rebellion in almost every corner of our nation, I ask myself the question: "What has gone wrong?"

The summarization at this point is that we, as parents, teachers, and clergymen, have failed to teach FAITH and RESPECT. Faith in self, in government, and in the God that our forefathers so strongly believed in, and respect for self and neighbor.

Our forefathers were no more intelligent than we are; certainly they lacked education and social finesse. BUT they had faith and self-respect. The faith that God would broaden their backs to carry the burden of traveling thousands of miles in covered wagons clearing fields for planting, building new homes, and honest businesses, AND self-respect enough to follow the golden rule.

The Declaration of Independence guaranteed Americans nothing except life, liberty, and the pursuit of happiness. Not happiness—just the right to pursue it, and pursuit means hard work and an extreme amount of effort.

Some people would like to think that American freedom means automatic freedom from every worry, fear and work. NO. Nothing in the Declaration of Independence nor the Constitution, nor any recent document promises that. Freedom means only being free to WORK for the things you want in life.

The man or family or nation which has complete security is the one in prison — the slave. They are selfish, think only of themselves; that the government should feed them, and that work is for the other person, but not for them. They have no faith in God that our ancestors believed in.

Any person who does not have self-respect and faith in themselves, can hardly be expected to have respect and faith for neighbor and our nation, and as for the selfishness in the world, I can think of no better saying than "Do unto others as you would have them do unto you."

The man or family or nation which has faith, freedom, independence and self-respect is the one willing to stand on its own two feet, and WORK for what it gets.

## TATUM WEATHER

Tatum, New Mexico reported heavy rainfall and much hail from the west side to the State line, while some high wind was encountered and severe damage was reported. The heaviest rainfall was in the heart of the city, where 4.68 inches was measured. Three inches was measured three miles east of Tatum. 1 inch was reported at Cap Rock 25 miles west of Tatum on HiWay 380. The heavy down-pour caused considerable flooding. Some of the reports say that The Creek Dinner Club, an eating establishment on the south

side of Tatum was under 6 inches of water, and that water reached a depth of 2 inches in the police station in the downtown area.

Though the highway to Lovington was not closed, it was flooded in many places with deep water. The McDonald area, a few miles south of Tatum on the Lovington road was heavily flooded. Water was reported to be in the store there Tuesday morning.

No estimates of the flood damage has been received at this time.

And behold a certain lawyer stood up and tempted Him, saying, Master, what shall I do to inherit eternal life?

He said unto him, what is written in the law? how readeth thou?

And he answering said, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself.

And he said unto him, Thou hast answered right: this do, and thou shalt live. Luke 10:25-28

People love one another, and are bound together by this strongest of ties, and life becomes worth living.

From voteless status before 1947, Japanese women have risen to fill presidencies of colleges, cabinet posts and seats in the Diet.

By J. Loyd Rice  
Bea and I, that's my wife, tried to follow the old trail to Tatum, New Mexico Saturday evening late, May 3, but the road had changed. It was difficult to remember the wash road, the dust, and deep chug holes, over which we moved slowly in a 1929 model Chevrolet. Besides we were pulling a trailer. The smooth pavement and speedy auto took us along so rapidly we could not even discover the old dirt road.

On our way back, we stopped and watched the wind literally tear a cloud apart. It looked like it might be a toronado for a while, and I was wondering if the ranch house near by had a dug out, but the cloud scattered, and it was over. That was a small cloud underneath the larger one that poured so much water on the land just north of us.

Although Spain recently ceded the 579-square-mile territory of Ifni to Morocco, it retains two enclaves in the country-Melilla, an export center, and Ceuta, a fortified city facing Gibraltar.

**SERVICES FOR MR. CAVE HELD**

SERVICES FOR W. W. CAVE

Mr. W.W. Cave, father of Mrs. J. Loyd Rice, passed away at San Angelo, Texas Tuesday April 29, 1969. Memorial services were arranged by Johnson Funeral Home on Thursday May 1. He was 89 years old last December. Mr. Cave had been ill for about two years, but took a sudden turn for the worse Monday April 28. He was the first son of his family to go. He is survived by his wife, and a 11 six of their children, three boys and three girls.

Mr. Cave was born in Collin County, Texas and lived there until after his marriage in 1902. Soon, he moved to West Texas, to Irion and Concho counties. He was a good farmer and stockman. In 1940, he retired from the farm and moved into San Angelo where he engaged in selling real estate as long as he was able to attend to business.

He leaves to his family a rich heritage of precious memories that shall never pass away.

**For Every Day Living**

"Set your affections on things above, not on things of the earth . . . for we brought nothing into this world, and it is certain we can carry nothing out."

We, as God's children, must know that only to the degree that we let God come into our lives, are we blessed; that only to the degree that we ask for God's Guidance, will he guide us. When trouble comes to use, we ask: "Why did God do this to me?" We forget that we have failed to ask God for His guidance; We forget that we went our own merry way, even forgetting to keep the Sabbath Day Holy, unless it was convenient; or, if we went to church, it was because there was no worldly attraction on our calendar. We fail to realize that we bring our own troubles up on ourselves by our own actions.

"What ye sow, so shall ye reap." God is good. God is Love, and therefore, no evil can come from him. We bring troubles upon ourselves by selfishness and worldly desires, by loving ourselves more than we love God and our neighbors.

It will only take a few minutes each day to meditate on the greatness of our Creator, and pray for His guidance and wisdom, and knowledge of His ways.

### THE LITTLE RED SCHOOL HOUSE

Austin, Texas: A concentrated effort is now being made in Austin by proponents of the controversial report of the Governor's Committee on Public School Education on behalf of the tax equalization program proposed in the report now under study in House and Senate sub-committees.

This effort is receiving strong from metropolitan newspapers based on the Bartlett tax study made for the COPSE report. This study is based on a highly questionable and disturbing premise that the agricultural economy of the state can afford this tremendous new tax burden. It also purports to prove that city schools are being cheated out of their fair share of school tax money by rural areas.

One recent editorial quoted an example to show that a rural landowner pays much less than the amount of school taxes being paid by an urban resident. Any shirt-sleeved economist can quickly spot the fallacy in these statistics.

Let's look at a city dweller who draws a salary of \$12,000 a year and owns a \$20,000 home. If his school tax rate is \$1.50 per \$100 and he is taxes on 50% of market value -- or \$10,000 --

his school tax bill will be \$150 a year.

Now let's look at a rural landowner who owns a 1,000 acre farm or ranch, with an assessed value of \$150 per acre. He can not by any stretch of the imagination, come close to netting the \$12,000 annual income of his city neighbor from his 1,000 acres.

Our rural landowner's tax bill based on the same rate and assessed value: \$1,125, nearly 10 times that paid by the city homeowner.

This is tax equalization: We doubt it.

An amusing incident happened at Mary's florist shop the other day. A worried-looking Raymond Bookout, Commissioner in Prct. #3, came in and asked for three potted geraniums. "I am sorry," replied Mary, "we're out of geraniums just now, but we do have some nice potted chrysanthemums."

"No, they won't do," replied Raymond. "I promised my wife I'd water her geraniums while she was away."

Steve Beck and Tony Spears, both members of the Green Clover 4-H Club, won first place in the junior division of the Field Crops Team Demonstration Contest. Steve and Tony presented a demonstration on growing grain sorghum in narrow rows. They were entered in the district eliminations held last Saturday, May 3, at Lubbock where 4-H Club members from a 20 county area were competing in 31 different 4-H contests.

Steve is the 11-year-old son of Mr. and Mrs. Dan Beck, and Tony is the 12-year-old son of Mr. and Mrs. Carl Spears. Both boys are sixth grade students in the Denver City school. They will have two more years to compete as juniors before trying for a trip to the State 4-H Round-Up at College Station in 1972.

The context of their demonstration showed that grain sorghum would produce higher yields when planted in narrow rows, provided the same seeding rate was used. It also showed that wind erosion would be better controlled the following spring because less stubble is required to prevent blowing when the crop is grown in narrow rows.

## News from VIET NAM

Mr. Ray Cox, recently returned from Viet Nam, was a visitor at the services of the Hillside Church of Christ on Sunday evening, May 4, 1969. Brother Cox gave a very interesting report on conditions in Viet Nam, and told of successful missionary work among the military personnel stationed there. He challenged the people here to be more dedicated to loving service, and more

active in teaching the bible in our own community.

Ray is brother to Tom Cox of this City, Plains that is.

Those who were unfortunate enough to miss the services Sunday evening missed a real spiritual uplift. Ray is with the American Red Cross, and will be stationed at Fort Leonard Wood Missouri.

Failures are divided into two classes - those who thought and never did, and those who did and never thought.

was torn from the dwelling house and several electric line poles were damaged, disrupting the electrical service Sunday night.

A severe weather and possible

tornado alert sent many scurrying for storm cellars and other places of sturdy protection. Approximately 150 people sought shelter in the county court house. When no tornado had developed and only a trace of rain had fallen in Plains, the crowd dispersed and drifted homeward.

Heavy rainfall was reported from many parts of the county, the greatest amount being approximately 4 inches. Heavy and severely damaging hail was reported to have covered practically all of the western half of the

county and extended to Tatum, New Mexico. In much of that area, where crops were up and good stands were reported, the devastation was complete. No wrecks nor bodily injuries due to the storm have been reported at this time.

### 4-Hers In Lubbock

Three 4-H girls represented Yoakum County Saturday, May 3, in the District II 4-H Club Elimination Contests which were held on the Texas Tech campus.

Donna Warren and Nancy Long placed third in their vegetable preparation demonstration and Debbie Addison, daughter of Mr. and Mrs. Claude Addison, gave one on the Food and Nutrition Educational Activity. She demonstrated the effects of acid and alkali on the chlorophyll of green vegetables.

Adding an alkali such as soda caused the vegetable to remain a beautiful green but soda destroys Vitamin C and Thiamine was pointed out by Debbie. Acids made the green color turn brown, a very unattractive color. Broccoli was the vegetable she used.

Donna is the daughter of Mr. and Mrs. Grady Warren and Nancy is the daughter of Mr. and Mrs. Robert Long. They are seniors in the Denver City High School. They demonstrated the preparing of green leafy vegetables to retain the greatest amount of food nutrients.

Adult 4-H leaders from Yoakum County that went to observe some of the contests were Mrs. Tom Box, Mrs. R. G. Hartman, Mr. and Mrs. Claude Addison, Mrs. Jesse Dearing, Mr. and Mrs. Carl Spears, and Mr. and Mrs. Dan Beck.

Tommy Guy Box, Dickie Hartman, Melving and Marvin Dearing were other 4-H'ers that attended the contests.

Jerry Brian was host to the Public Speaking Contest.

**NEW BOOKS**

Yoakum County Library has

received several new books during the month of April, and more are expected in May. Come by and browse for your favorite style reading.

Story hour guests this week were Brent Stephens, Brent Palmer, Lesa Loe, Teddy Willis, Becky Willis, Trice Pickett, Paula Hale, Charmaine Cox, Tracy Welch, Judy, Susie and Deenie Cogburn, and Natalie and Selanie Streetman. Story hour came on May 1st which was stressed to be a day for flag raising and honoring Our Country "America". The young story hour guests placed their hands over their hearts, stood looking at the flags displayed in the library and said altogether "The Pledge of Allegiance". You would be surprised what a familiar pledge this is with our little ones. Story hour is held each Thursday morning until the closing of school at 10:30 A.M. The library has received several new picture books for the age of the story hour children, they are familiar stories like "Rumplestiltskin", "Sleeping Beauty", "The Three Little Kittens", "Wynken, Blunlem, and Mod", "The Princess and the Pea", and "The Three Little Bears". There are others, but these are some of the ones that seem to never grow old for our young.

## FAVORITE PEANUT PIE

by Sudie Thompson, CHDA  
Peanut pie is an old-time favorite dessert with Deep South families and since peanuts are one of our plentiful crops, this recipe may prove useful.

Some famous plantations used secret recipes for this favorite pie and is you like Southern Pecan Pie, then you'll like this peanut pie.

First step in making this pie is to combine 1/2 cup sugar, 1 1/2 cups corn syrup, 1/4 cup butter or margarine, and 1/4 teaspoon salt.

Bring to a boil over low heat. Beat 3 eggs. Pour the syrup mixture slowly over the beaten eggs, stirring constantly. Add 1/2 teaspoon vanilla and 1 cup salted peanut halves.

Then pour into an unbaked pie shell. Bake 375 degrees for about 40 to 50 minutes, or until the filling is set and nuts browned.

Serve plain, or for something extra-special, top with whipped cream or vanilla ice cream. Yum! Yum!

Since peanuts are plentiful why not try some peanut brittle candy as well as this pie.

A well-known southwest peanut grower offers this recipe, which he claims "never fails" -- hence its name, NEVER-FAIL PEANUT BRITTLE.

You'll need: 3 cups sugar, 1 3/4 cups white corn syrup, 1/2 cup water, 4 cups raw Spanish peanuts, 3 teaspoons butter or margarine, 1 teaspoon vanilla, 2 heaping teaspoons soda with no lumps.

Boil sugar, corn syrup and water over high heat until temperature reaches 250 degrees F. Add raw peanuts to syrup, stir

constantly to prevent burning. Cook until temperature reaches 300 degrees F. Add butter, allow to melt, remove from heat. Add vanilla and soda, stir into candy. Pour onto buttered cookie sheet, spreading as thin as possible with a spoon.

## MUSIC ENRICHES LIFE

A short while ago Astronaut Wall Schirra said: "In my youth I studied trumpet for about eight years... From the study of music I appreciated all phases of music. I think this is the important part. I would encourage

anyone to at least apply yourself to studying music rather than just waiting for it to come to you."

Studying music or being able to play an instrument may not make you an astronaut, but it certainly will enrich your life in all kinds of wonderful ways. That's something to keep in mind, especially this week.

May 4-11 is National Music Week, an annual observation sponsored by the National Federation of Music Clubs and its 600,000 members.

The theme for this year's celebration is "Music Enriches Life." And indeed it does for America's 44-million amateur music-makers. Just ask them.

A California teenager says, "Music is my means of self-expression."

A Wisconsin senior citizen says, "Music is a great leisure-time activity."

A New York businessman says, "Music loosens me up after a tense day at the office."

A Missouri house wife feels that "Playing an instrument is just plain fun."

Practically everyone you could think of--youngsters, oldsters,

teenagers, businessmen, housewives--all kinds of people from all walks of life are enriching their lives because they participate in an art form that's creative, not too difficult, and a lot of fun.

We hope you will participate in this 46th celebration of National Music Week.

All you have to do is pick up an instrument, or dust off an old one that's been in the attic, or attend a local music program. It's as easy as that.

Remember: Music is for everyone. It offers challenges---as well as rewards. Why not make 1969 the year to hop on the music bandwagon?

## LITERARY CLASS SPANISH

Mr. Pierre St. Roman gave the program last Thursday night to the Spanish Literary Class. He first read an article on Communism and explained the main points, and then showed a film on "What is Communism and its aim."

## STORM CAUSES CAR WRECK

Water in a dip in hiway 380, 4 miles east of Tatum, left from heavy rains Monday night was the cause of a car wreck.

Carl Evans of San Antonio, Texas who was journeying to Albuquerque, New Mexico unexpectedly came up on the dip which still had water across the pavement. Though the water was but a narrow strip, it was sufficient to pull the car to the right causing it to run the right wheels off the pavement. As the driver pulled the car back onto the pavement it swerved to the left and left the pavement again. Here the soft wet shoulder caused the driver to lose control and as the car headed north across the road, it overturned, rolling completely over three times and came to a stop setting on it's wheels.

Though the car was badly wrecked, Mr. Evans was unhurt. When he was interviewed, he was observed sweeping the broken glass from the road way. When asked if he had had his seat belt fastened, he replied, "I don't know why but this is one of the few times I have ever fastened a seatbelt". From observing the car and the damaged condition it was in, it was quite evident that the seatbelt was all that had prevented serious injury and possible death. Mr. Evans was traveling alone to Albuquerque for his health. He is an ex-serviceman, having served as an aerial gunner in the Air Force. The accident occurred about 11:30 A.M. Tuesday.
