A large crowd of fruit growers and interested persons attended the Annual Eastland County Orchard Field Day Friday.

The group gathered at the Nimrod Club House Southwest of Cisco at 9:30 a. m. Women of the Nimrod Community served coffee and cookies to those present before they traveled to the first pruning demonstration on the Herman Schaefer farm, east of Nimrod.

The second and third demonstrations were held on the Raymond Wood orchard at Pumpkin Center and Terrell Ranch orchard, operated by John Thurman, near Staff.

The group came to Ranger for lunch at Tom and Jenney's Cafe and from there went to Ranger High School for a lecture period. After the lecture, conducted by Tom Denman, Horticulturist of the Agriculture Experiment Station at Stephenville, everyone attended another pruning demonstration at the L. N. Escheat Law May Take \$5,000 From This County To Austin

It looks as though Eastland County may turn some \$5,000 over to the state treasurer as a result of the recently enacted "escheat" rulings.

There is now \$4,727.56 on deposit of monies held by 91st District Court in its trust fund and registry. This represents monies since Dec. 31, 1954.

The dictionary defines "escheat" as the return of property to the state when there are no legally qualified heirs. The district clerk's office is in the process of filing with the state, a yearly report on the accounts subject to escheat. There are a total of 58 such cases on their court's books, Roy Lane reports. The clerk's office is reporting the name of the owner, insured beneficiary or annuitant or person entitled to property and identification number of re-

ference: Last known address of owner. (Many are unknown); Date property became payable, demandable or returnable. (Earliest case is dated Nov. 3, 1925); Date of last transaction with owner (None are listed for most cases); and the amount of money in each case.

One case has seven cents in it and has been on record since Aug. 31, 1941. It is the result of a suit between Security State Bank and Trust Co. vs. unknown. Another account has \$444.83 with about 80 names, most with unknown addresses, of defendants. The largest such account contains \$675.59.

Many of the cases accounts have about \$1 with unknown parties. It's a time-consuming task just reporting these items.

Horton Installs New Tire Machine

Horton Tire Service of Eastland has announced the addition of another machine that completes the necessary equipment for making perfectly round and balanced tires, according to an announcement by Horace Horton.

The new machine uses a novel method to trim off high spots on out-of-round tires, changing them back to perfectly round tires, Mr. Horton said. After the tire has been trued, balancing weights are properly placed around the wheel for perfect balancing.

"Many motorists are familiar with an out-of-round tire as it causes difficulty in steering, excessive shimmy and thumping," Mr. Horton said. "Many accidents have been attributed to steering difficulty and loss of control due to faulty tires. We are pleased to make this new service available in Eastland County."

Mobil Announces Plans To Drill In Nimrod Area

Socony Mobil Oil Co., Inc., has announced plans to drill their No. 1 Schaefer Estate as a wildcat oil test eight miles southwest of Cisco, according to information here today. Permit called for 3,000 for the Caddo lime test.

Location was given as 330 feet from the south and 990 feet from the west lines of the northeast quarter of Section 94, Block 3, H&TC Survey.

There is one Caddo producer and several capped gas wells in that general area.

Elsewhere in the area, Textstar Petroleum Co. set pipe Saturday night on their No. 1 Gordon Woods, offset to Mississippi lime discovery production seven miles northeast of Cisco. The hole was bottomed in the top of the Ellenberger at 4,036 feet. Drill stem tests indicated that an outstanding producer was in prospect.

Plans called for completion work to begin by Thursday morning. Low Drilling Company, a partner in the project, has the contract. Plans for further explorations there have not been learned here.

Mrs. Neil Eaves and Mrs. Gailan Warren sponsored a weiner roast for the eighth grade last Thursday evening on the Eaves farm. After the feast of hot dogs and the trimmings, the group returned to the Eaves home where they enjoyed the remainder of the evening playing games.

Mrs. Jim Hogan and Jewel Petree, accompanied by Mrs. Jo Ann Hull and Mrs. Shirley May of Cisco, visited Mr. and Mrs. Tommy Nicholas in Abilene last Friday.

Dated at Eastland, Texas this the 5th day of February, 1962.
 LEE HORN
 Sheriff of Eastland County, Texas

said he had been advised by the Foundation's Board of Trustees that the long-sought goal of a screwworm-free Southwest would be a possibility for 1962 if full advantage is taken of the hard freeze of two weeks ago which dealt the flesh-eating parasite a very crippling blow.

Chairman Fry added that if the \$3 million voluntary contribution goal of the drive is reached within the next two or three weeks, they could expect estimated savings during the next two years of \$200 million from screwworm damage and treatment costs and a reduction of up to 50 percent in the cost of the eradication program.

These savings alone, he said, make a stepped-up effort most worthwhile, but more important—wouldn't it be a wonderful feeling to know that with the return of warm weather we wouldn't be spending time and money fighting the age-old battle against our most costly stock and wildlife pest? We are so close now to success that any slow down could set us back indefinitely and lose for us the advantage gained from the hard freeze.

Chairman Fry said the Foundation Trustees are moving forward with their plans to get the male sterile fly release program underway within the next few days. They have also notified all county chairmen of a statewide kickoff meeting for February 14. The meeting will be held in Austin and representatives from every county will be urged to attend. Details will be announced later but it is hoped the fund drive will be over the top by the date of the meeting.

Reports from 120 counties show that more than half a million dollars is now on deposit at banks in these counties. Organizations are now functioning in 212 counties. Too much is at stake, Chairman Fry said, to slow down now and he urged a redoubling of efforts by all drive participants.
