Cowgirls Win State 9th Time

Pictured from L-R are Sue Spencer, Peggie Rushing, LouElla Turner and Dianne Fitzgerald, who made the All-State Team.

ship Volleyball trophy once again is resting in the trophy case of Plains High School. The Cowgirls returned Saturday night from Austin with their ninth straight state title.

In the initial round Plains defeated Malakoff 15-8, 15-3. The Tigers of Malakoff came to the state tournament undefeated but left with a tarnished record and hurt pride for that was their fourth loss to Plains in the U. I. L. State Tournament in as many years.

In the state finals a team from south of Victoria, Louise, discovered that Plains' No. 1 spiker, Lou Ella Turner, had been injured earlier in the day and was unable to spike in her usual "Fighting Cowgirl" style. As a result, the Louise girls scored 12 points in the first game against the Cowgirls. However, Dianne Fitzgerald, Peggie Rushing, Sue Spencer, Pam McDonnell and Judy Smith became more determined than usual and the six scored their 15 points while hold in g Louise to 3 in the second and

Texas Nursing Home Week

Governor Preston Smith has today proclaimed May 10-17 as Texas Nursing Home Week.

The Proclamation reads as follows:

"Licensed nursing homes and related facilities for the care of the aged and the convalescent in Texas now number 893.

These facilities offer not only medical, nursing and personal care, but also provide rehabilitation, restoration, recreation, physical, speech and occupational therapy, and spiritual programs designed to provide a "fuller life" for senior citizens.

Licensed nursing homes not only have broadened their potential for service and have taken on an increasing role in the health care of the chronically ill, the aged and the convalescent of all

The Texas Nursing Home Association and its members have provided leadership and made important contributions to raising the quality of care with modern facilities and new techniques, the dedication of its people has earned this progressive andrapidly growing profession our confidence and respect.

The nursing homes in this state are participating in National Nursing Home Week, May 10-17,

Therefore, I, as Governor of Texas, do hereby designate the week of May 10-17, 1970 as Texas Nursing Home Week and urge our citizens to visit a nursing home and acquaint themselves terested in joining is invited to with the patients, the staff, the facilities, the services rendered, and the progress and potential attend. The present members for the future."

Slanted News

A very common topic of discussion these days is "The Slanted News." This is a touchy subject with all members of the News Media. And all cry "Not guilty." After the many months of listening to discussions and reading many opinions as well as viewing the defenses on TV, it appears that opinion still is largely dependent upon who or whose activities are being reported, as well as the one doing the judging.

If we are in accord with the motives of the activities and the reporter gives a non-favorable report, the news naturally appears slanted to us. If we favor the decisions of the administration and the reporter critizes them, we feel the report was slanted. Regardless of the report or its nature, those who resent the results have a tend tendency to blame the reporter. It can be presumed that everyone is somewhat guilty of this type of judgment. It is difficult for any writer, even an historian, to be completely unbiased.

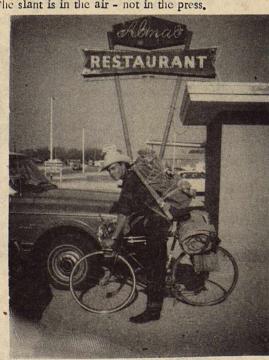

When a writer is biased, he is nailed down by the written word. It is an entirely different matter with the televised news. The same written words spoken over television can be slanted greatly. The manner of expression on a facr or the inflection of the voice can slant the intent of a report. To Judge the intent of a reporter is difficult. He has a right to his personal attitude regarding his subject. But when an interview with an individual is turned into a courtroom spectacle and every effort is made to force a contridiction from the one being interviewed and all questions asked are placed in such a manner as to belittle the individual regardless of who the subject is, it is plainly evident to any viewer that the intent of the reporter is definitely to slant the opinion of the viewer.

A recent TV program opened with the grave suspicions of II. II. Humphrey regarding the recent decisions of the President of the United States on Cambodia. This set the stage for the report by Collinswood and his opinions of the Cambodia and Vietnam situation. None of which gave any evidence of support for the President's decision. All questions asked in the personal interviews were placed in such a manner as to cast suspicion on the President's decision.

Can such a program be construed as loyalty to our government? It certainly gives the appearance of a group of esponage sleuths in vital effort to tear the last vestage of confidence in our government and its leader from everyone who viewed the program. This is no isolated case, it is a consistent practice of the TV news' casts. Such action by the written press would be considered sedition. No honorable writer would be

The attempts on one Sunday night program to tangle and confuse the Vice President regarding his previous statements were so evident that they were disgusting. This type of news cast which gives so much evidence of distorted reporting, destroys the confidence of the American people, not only in the entire news media but also in the United States Government and all that it stands for.

The slant is in the air - not in the press.

Lone Adventurer

Brian Wallace, a 21 year nada stoppped in Plains Sunday. April 26th for a short rest and a bit to eat. Brian is on British Columbia to New York, ce the adventurous journey New York.

Brian stated that after 18 months as a student of architecture at a college in Hali-

fax, he became bored and deold youth from Montreal, Ca- cided on a rest from his studies for awhile. Hetraveled to Vancouver where he worked for the railroad for a time and a bic cle trip from Vancouver saved enough money to finanthat he is now taking.

Brian is riding a French made ten-speed racing bicycle. He carries his pack on his

Friendly Chats

"If all of our misfortunes were laid in one common heap, whence everyone must take an equal portion, most people would be contented to take their own and depart. --Socrates

Faye McConnell

Mrs. Bill Overton called me Monday afternoon to tell me how proud she was of her granddaughter, Daleta Young, Daleta was on the honor roll in the Hobbs High School as a sophomore and the honor roll students were being given a banquet

Daleta is the daughter of Judge Ed Young, deceased, and Mrs. Joan Young Mann; granddaughter of Mr. & Mrs. Bill Overton of Plains and Mr. & Mrs. Judge Young of Midland.

What pride we grandparents have when our grandchildren do something special. I am very happy this week that my granddaughter, Denise Newsom was chosen Queen to represent the Lion's Club in the coming annual rodeo.

Denise is a natural born horsewoman. Two year ago when we owned a two-year old colt by the name of Helios, she got on him and he pitched hard, jumping over everything in sight, even a high pile of lumber, and all we could do was hollow: "Hold on, Denise." She did, and he finally stopped bucking when he saw that he had knocked Editor John down. John had raised him from the time he was born, and he stopped and smelled of the editor and acted as if he were trying to say:"I'm sorry." Denise slowly crawled out of the saddle, and Helios was as docile as a baby kitten, and acted as though nothing unusual had happened.

Another one of our favorite youngfriends is Renee Houck, and she was picked as Queen for The Garden Club.

Some happiness this week is stemmed from the fact that our President has finally let our boys go to the hiding places in Cambodia to hunt out the enemy and has also resumed some bombing in North Viet Nam. These things must be done before a war can be brought to an end, and here is hoping that our President does bring this way to an end.

I cannot now nor have I ever been in favor of playing "cat and mouse" with the enemy. Fight if we must with everything we have, or pull out completely. If the U. S. should pull out, that would give the enemy free rein to kill and plunder South Viet Nam, Cambodia and Laos, Then where they would go next, no one could say for certain. But Thailand or Siam, which ever you want to call it, would probably be next, then India, and so on. If the U. S. don't stop them, the communists will soon rule all of Asia. Then where next?

"The Meter" published by The Oklahoma Gas & electric Company makes an interesting point on how values are determined: "A plain bar of iron is worth about \$5,00. This same bar of iron, when made into horse shoes, increases in value to \$10, 50. If the same bar of iron is made into needles, it is worth \$4,285. If turned into balance wheels for watches, it becomes worth \$250,000.00

This case is true of another kind of material...YOU! Your value, like the value of the bar of iron, is determined by what you make of yourself. "

"Did you know," questions Commerce Magazine, "When mother is the bread winner, the bread is sliced thinner? Women are now wage earners of 20 percent of all U. S. households and earn an average of nearly \$5,000 less a year than male counterparts. Their average yearly income is \$4,278 as compared to \$9, 195 for households headed by males."

> When vacation is over, you'll often find as you give it a backward look. You could have made out with half the clothes and twice the money you

back and a bed roll on the carriage of the bike. The itemary started at Vancouver and has covered a route through Spokane, Washington, Salt Lake, Utah, Grand Canyon Village, Phoenix, Arizona, Ruidoso, New Mexico and to Plains.

While at Grand Canvon Village, the young adventurer traveled to the bottom of the canyon and back. He was greatly impressed with natural wonders of the canyon. Wallace stated that occasionally he was afforded a ride in a pick-up or truck capable of hauling hi, his pack and bicycle. The longest lift being one near Boise, Idaho which carried him 79 miles. He had been on the road approximately 3 months when he passed through Plains.

The proposed route from Plains as Brian had calculated it would be to Fort Worth and New Orleans, thence North to Kansas City, Missouri, and on to New York. The young man stated that the route was subject to change as new places were encountered.

Wallace is a fine appearing young man and appears to have the determination and stamina to complete the task he has undertaken. When he returns to Montreal, he expects to resume his college work. His broad experience and many observations afforded by the trip should be of great help in concluding his course of study.

The Plains Review will be happy to hear of the successes of this young man.

LAWN TENDING DO'S AND DON'TS!

If you want to look from your window upon a lawn that will turn your neighbors green with envy, cultivate these do's and dont's suggested by scientists.

Do water a new lawn lightly and often until it is established Do soak an established lawn to a depth of three to six inches but don't water again till the soil becomes dry and

Don't mow a newly planted lawn until it is three inches high. Then keep it at one and a half or two inches.

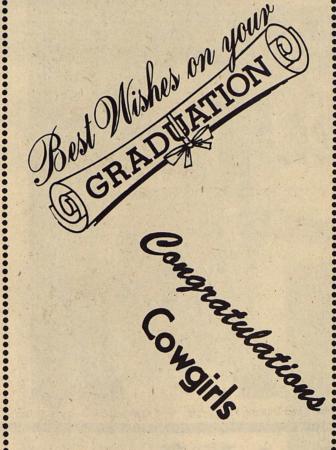

Do use a quality seed mixture instead of a bargainbasement mixture; it will prove an economy in the long run. Do follow instructions on the fertilizer package very care-

Don't apply lime, fertilizer or anything else except with a properly adjusted spreader.

Do use a sharp mower. Dull blades split tops of the grass, causing them to turn brown. A new cordless electric lawn mower, for example, is both efficient and convenient. The country's first batterypowered, four-wheel, reel-type mower, the Black and Decker Cordless Electric Lawn Mower will cut more than 10,000

To The Voters of Yoakum County:

I wish to express to you my most sincere thanks and gratitude for your support on my behalf for the office of County Treasurer in the Democractic Primary Election of May 2, 1970.

Sincerely,

VERDA LEE ROBERTSON

square feet of average lawn on one battery charge. It can be recharged automatically by connecting it to the recharging unit which operates on regular household current.

Do utilize the many other features of this modern mower. They include a leak-proof battery that carries a three-year warranty, a quiet permanent magnet motor, a contact safety switch, safety lock and deep et blades, self-sharpening ability, six adjustable cutting heights, four-wheel construction and a shock absorbing

Follow these lawn care practices and the lawn won't be greener on the other side of the fence. It will be greener on

GRADUATION 'ROUND THE WORLD

If you're among the one of three Americans who will attend a graduation this year, you might be interested in knowing that while you are applauding your favorite senior, a Bantu tribesman is painting his!

Wondering how that fourcornered hat, called quadrivium, got its shape? One down-to-earth explanation is that it protected its wearers from the rain-a boon to English graduates who often attended their commencements under lowering skies.

As diverse as graduation dress and ceremonies are around the world, they all have one thing in common: the graduate receives gifts. Here in the States, one traditional gift is money. The fastest way to speed this gift to the lucky graduate is still to wire it by telegraphic money order from any Western Union office. And now there's a new way, a Western Union Express Money Order for safe convenient movement of gifts of money mail or hand delivery. Wiring flowers or your congratulations adds a cum laude

Which makes you realize that there's one other thing graduates 'round the world have in common-and that's gratitude to the gift-giver.

Gold Mining From 1799 through 1965, the United States mined 307,182,000 ounces of gold. At rate of \$35.00 dollars an ounce, this would be worth

\$10,751,370,000.

going on in their government. "

America's dynamic growth might well be called the eighth wonder of the world--and the ninth wonder is the apparent indifference and willingness of the American people to give up this system because of lack of appreciation and understanding of how the free enterprise system works in this broad land of freedom.

This is the generation of instant everything.... Even instant diplomas although they are unearned ... Many of the facatic militants are not college material. Many of them were "shoved through" high school wholly unprepared for college or university work. Many have difficulty in reading, and that spells no end of troufficult to justify the demands for no exams--or even no class attendance, and an indifferent attitude toward assignments. A diploma granted under such circumstances makes a mockery of education.

ican-News wrote: "I can tell you what's wrong with the country, if you want to know. And it won't take me more than a few lines to do it. Practically everybody wants a job that pays a great deal more than the average men or women is worth, and it has got to be a job that has somebody else

WHEREAS, it is deemed by the City Council of the City of Plains, Texas that it is injurious to the Public Welfare, health and general contentment of the Citizens of Plains, Texas to allow conditions to exist which is in violation of this aforesaid ordina-

WHEREAS, it is expressly provided by the provisions of Article 4434, Revised Civil Statutes of Texas, that cities shall have the power to correct the evils herein before recited,

NOW THEREFORE BE IT ORD AINED BY THE CITY COUNCIL OF THE CITY OF PLAINS, TEXAS:

Section 1. It shall be unlawful for any person, firm or corporation who shall own or occupy any lots or properties in the City of Plains, Texas to allow weeds, brush, rubbish or any other unsightly, objectionable or insanitary matter as described in this ordinance to grow or accumulate on said lot or properties.

Section 2. Should the owner, owners or occupants of any lot or properties within the City of Plains, Texas allow weeds, brush rubbish or any other unsightly, objectionable or insanitary matter as described in this ordinance to grow or accumulate thereon and fail and or/refuse to cut down and /or remove such weeds, bursh, rubbish or other unsightly, objectionable or insanit ary matter within ten days after notice to do so; then the City of Plains, Texas may doso with their own equipment and employees or cause the same to be done by others; and in either case charge the expenses incurred to the owner of such lot or properties; and such charge for expenses shall be assessed on the lot or properties.

Section 3. Those in violation of this ordinance to be notified in writing or by letter addressed to such owner or occupant at his post office address or after notice by publication as many as two times within ten consecutive days in any newspaper in Texas.

Section 4. The Mayor or City Secretary of the City of Plains, Texas shall file a statement of expenses incurred under Section 2 of this ordinance, giving the amount of such expenses, the date on which said work was done; this with the County Clerk of Yoakum County, Texas; and the City of Plains, Texas shall have priveleged lien on such lots or properties upon which said work was done to secure the expenditures so made; this being in accordance with the provisions of Article 4436 Revised Civil Statutes of Texas; said lien to be second only to tax liens and liens for street improvement; and said amount shall bear ten percent interest from the date said statement was filed. It is further provided that for any such expenditures, and interest, as aforesaid, suit may be made and instituted and recovery and foreclosure of said lien may be had in the name of the City of Plains, Texas and the statement of expenses so made, as aforesaid, or a certified copy thereof, shall be prime facie proof of the amount expended for such work.

Section 5. In order to enhance the fair and impartial enforcement of this ordinance a board comprised of three citizens who are residents and property owners in the City of Plains, Texas shall be appointed by the Mayor, subject to approval by the City Council of said City; this board to be named "The Plains Improvement Board" and to be chosen as follows: one member from the Chamber of Commerce, one member from the Lions Club and one member at large, all from the City of Plains, Texas; said board's power be limited to an advisory capacity to the City Council of said City and their term of service to be for two years each with their only renumeration to be their desire to serve for the good of the City of Plains, Texas.

Section 6. Any person, firm or individual who shall violate any of the provisions of this ordinance shall be guilty of a misdeme anor and upon conviction shall be fined in the sum not to exceed (Two Hundred Dollars) \$200.00; and each and every days violation shall constitute a seperate and distinct offence; and if the owner or occupant of any lot or properties under the provisions of this ordinance shall be a corporation and shall violate and provision of this ordinance; then the president, vice-president, secretary, treasurer of such corporation or any manager, agent or employee of such corporation shall be severally liable for the penalties herein provided.

Section 7. That if any part of this ordinance is or should be held invalid for any reason, then that fact shall not invalidate the entire ordinance, but the balance thereof shall remain in full force and effect,

Section 8. All other ordinances or parts of ordinances in conflict with ordinance are hereby repealed.

The presence of conditions existing as mentioned in aforesaid ordinance for some time and the fact that the season of the year favorable for the start of correcting those conditions is now present; The Mayor and the City Council having declared an emergency; that this ordinance be passed finally on the date it's introduction and take effect and be in full force and effect from and after it's passage.

Passed and Approved this 28th day of April 1970

with his thumb in the air, that's who! Hitchhikers are crowding America's highways in unprecedented numbers.... They're also beating, killing,

and robbing motorists at a higher rate than ever before.

Do you remember when the worst thing that could happen in a man's life was to be poor?

A SPECIAL THANKS FROM RUBY HEALD

I wish to publicly THANK YOU for your VOTE of confidence in re-nominating me to the office of County Clerk. There are no words to express the true feeling in my heart to each of you for the gracious reception given me at your homes; to the many children who helped and wanted to do more; for the cool water, crushed ice, soft drinks, coffee, pie, cake, ice cream, campaign cake, lunches and dinners offered and served, bottles and rocks to add to my collection; to the owners of the innocuous pets for having them trained thusly and to those who held their ferocious dogs at bay; for the patience of those who called or came by my home and missed me while I was out campaigning and to those who actively campaigned in my behalf - A GREAT BIG THANK

I will continue to render service that is competent, qualified, friendly and courteous. Please feel free to call upon me in any way that I can be of service to you. Come by and say hello if you have no business as this is YOUR office.

THANKS AGAIN for the courtesies extended me. I am so grateful for your support and hospitality. It makes me feel very humble when one gets the kind of support I did last Saturday.

THANKS A MILLION,

STORYHOUR

Latrell McDonnell

Mike Livesay and Jerre' Lowe entertained our little ones at Storyhour this week. Those attending were Teddy Willis, Clay Lindsay, Shaun Barnett, Curt Randall, Michael Houck, Christy Barron, Becky Willis, Charmaine Cox, Shirley Cox and Mary Abercrombie. The b oys did a real good job and we enjoyed the stories. Due to the pretty weather we did spend part of the hour playing outside games. Storyhour will soon draw to a close for the summer with a picnic. All little ones enjoy this big occasion and feel like regu-

lar school children on this day. Paula Crump and Edith Worsham read to our little ones during storyhour this lastThursday. Paula and Edith are great with children. Our little listeners enjoyed storyhour very much. Storyhour will have a picnic this Thursday if the weather is pretty. Each CHILD should bring a sandwich or a picnic lunch. The drinks will

be furnished. This is a happy time each year for the little storyhour bunch. Those attending story hour this week were Teddy and Becky Willis, Russell and Doug Warren, Curt Randall, Clay Lindsay, Rhonda Teaff, Charmaine Cox, Chris-

ty Barron, Michael Houck and

Summer Reading Program

Latrell McDonnell

Time has come to begin thinking of "Summer Reading Program." This program is for children that read for sum mer enjoyment. The program will begin May 18th and continue on until school starts. Each child entering the program should read 12 books to be entitled to a reading certificate issued from the State Library. After reading 6 books a pin will be issued to be worn on the child's shirt or blouse. The requirements state that the child must read books in

Sudie Thompson CHDA ★ Says...

Did you know that cartons of federally graded eggs have identification marks recording the date on which they have checked?

Now some changes have been made in the system, according to the U.S. Department of Agriculture. Both the required lot marking system and the temperature of shell eggs at the time of official grading have been changed in recent amendments to egg grading regulations.

The amendments were issued by USDA's Consumer and Marketing Service, which administers grading programs for eggs as well as other food

The amendment deletes the present dating system of egg cartons and provides for a daily lot marking system. The lot number will be shown as the consecutive day of the year on which the eggs are packed. For example, eggs packed on April 1 would be numbered 91 for the 9lst day of the year. Other lot numbering systems may be used only with written permission from the Administrator.

The other amendment permits the grading of eggs at an internal temperature that does not exceed 80 degrees F., rather than the former requirement of 70 degrees. Recent research shows that accurate grading of eggs can be done at the higher temperature.

These amendments will become effective on July 1, 19-70. They were published in April 8 issue of the Federal Register.

The grade you'll find most

their reading level or above. The library hopes to see many readers this summer.

Large Type Books for Weak Eyes

If you love to read, but your eyes are so weak you have trouble reading small print, call your library 456-8080 and ask for special books of interest to you. These large type books may be borrowed from Lubbock Libraries through interlibrary loan. They have of interest either fiction, non-fiction or western titles.

Favorite Desserts Pudding, according to a new consumer survey, is the sec-ond favorite dessert in the

country.
What's the first? It depends on whom you ask. Children will go for ice cream as their first choice; husbands will take pie or cake. But they all select creamy pudding as the close

Pudding Pleases All The homemaker desiring to please all of her family will want to make pudding a fre-quent mealtime offering. With some of the new puddings now available, you can make creamy pudding desserts in favorite ice

cream and cake flavors.

Think of the dessert pleasure that a luscious banana cream or Bavarian cream pie can bring. They are easy to make with a new line of My-T-Fine puddings and pie fillings just reaching your supermarket. If there's no time

pudding top-ped with whipserve fudgier. chocolate fudge pudding, made with rich Dutch chocolate flav-or. For a pretty dessert, layer glasses in alternating flavors, or alternate layers of pudding with layers of whipped cream. Or pour warm pudding over plain cake or lady fingers and

often is U. S. Grade A, but frequently AA quality eggs are included in the cartons with A quality eggs.

U.S. Grade AA (or Fresh Fancy) and U.S. Grade A eggs have a round firm yolk and a high thick white when broken out. They're ideal for all purposes, but especially for frying and poaching, where their upstanding appearance is important.

Grade B eggs have a less thick white, and the yolk may be somewhat flattened. They' re good for general cooking and baking. BAKED EGGS IN HASH NESTS

2 tablespoons fine dry breadcrumbs, if desired

Salt and pepper, if desired 1 can (1 lbs. 8 oz. corned be-

Tuna-The Versatile, Low Cost Seafood If there is one time of the

year when tuna is the homemaker's best friend, it's right now. Between payments for the family's spring finery and income taxes, the budget is bound to be strained. And that's when canned tuna in vegetable oil comes into its own. Because tuna's such a convenient and versatile seafood, you can serve it often in a variety of delicious ways-at about onethird the cost of other complete protein foods.

TUNA NOODLE DINNER 1 can (1 pound) peas 1 can (3 or 4 ounces) mushrooms can (4 ounces) pimiento,

1 teaspoon salt teaspoon pepper

1 package (8 ounces) noodles 1 tall can (1-2/3 cups)

evaporated milk 2 cans (6½ or 7 ounces each) tuna in vegetable

Drain liquid from vegetables; measure, add water to make 2½ cups. Put in large saucepan with salt and pepper. Bring to a boil; add noodles and simmer 3 minutes, stirring with fork to prevent sticking. Add evaporated milk; simmer .5 minutes, stirring frequently until noodles are tender. Fold tuna and drained vegetables; heat to serving temperature. YIELD: 6 servings. (NP Features)

MEDAL WINNER REENLISTS Philadelphia -- Sgt. David C. Dolby, a Medal of Honor winner has re-enlisted after a year as a civilian and has asked to be reassigned to Vietnam. The 22-year-old sergeant said he felt he was better suited to helping his fellow man in the Army than at construction work.

BIG VOICE IN SKY

Kansas City, Mo. -- When Timothy Adams took too long to get home from kindergarten, his mother called the police. They took the police helicopter and soon saw a boy playing along the way and told him to go home using a megaphone. When the lad raced in and told his mother about the big voice, she didn't explain.

Accent on Health

ease to be reckoned with, but history has shown that the disease can be eradicated by a comprehensive immunization program.

Before the vaccines were available, polio was a disease to be lived with. But with the coming of vaccines, and their acceptance by the people and the medical profession. The decline in paralytic polio has been dramatic. Research in this field had been underway for years before the development, first, of inactivated poliomyelitis vaccine, licensed in 1953, and then of live oral polio-virus vaccine, licensed in

Because of the availability and general use of effective polio vaccines, the epidemiologic pattern of poliomyelitis in the United States has changed markedly.

In 1955, for example, there were 14,850 cases of paralytic polio and 1,053 deaths in the United States. Eleven years later there were only 108 paralytic cases and seven deaths. This decline is directly related to mass immunization progra-

But what of the incidence of the disease in Texas?

number of paralytic cases has fluctuated from a high in 1962 of 186 cases to a low in 1969 of only six cases. Total number of cases in this period was 485. In 1966, when Texas had 73 reported cases of polio, the

Lone Star State had two-thirds of all cases (106) in the United

The Texas State Department of Health has led the fight against polio and pushed constantly for immunizations. During the 10 years from 1960 through 1969, the Health Department distributed almost six million doses of vaccine.

Polio cases on a national scope now occur primarily in un-immunized children in the lower economic groups rather than affecting all ages and socio-economic groups. In fact Texas has more than 200,000

newborns every year. Close your eyes to immunizations for just five years and you have more than a million children in the one-through-five age bracket who may be susceptible to polio.

If you are a parent, don't take a chance on your child becoming a statistic, advises the State Health Department.

that all medias of communication will be utilized in bringing the Texas Beef story to the public in the next two months. The most noticeable will be over 14,000 four-color in-store posters in the retail supermarkets and grocery stores of the state featuring three delicious cuts of beef. Those to be shown are the T-Rone, Chuck Roast and Round Steak cuts in full color to whet appetites and help plan Texas meals. The posters will be augmented with colorful price cards and case strips to be displayed throughout the beef sales

Radio and television stations around the dtate are receiving one minute and 30-second spot announcements that extol by film and tape virtues of beef by plainly stating that, "Tenderness is Texas Grain-Fed

At the same time, Department home economists and meat specialists will be appearing around the state on radio/television programs and at "Beef-A-Ramas" in most areas of Texas to explain the selections of the methods of preparing a large variety of beef dishes.

monthly statements. Texans will see the soon to be familiar T-Bone Steak on a yellow field in their favorite restaurants in the form of a small colorful table tent and menu clipons. These little beef reminders are being distributed throughout the state through the membership of the Texas Restaurant Association. Commissioner White stated that many beef industry and allied groups are cooperating to the success of the Texas Grain-Fed Beef Promotion.

Agriculture Briefs

EGGS FOR A DAY -- Representatives from every segment of the Texas egg industry are expected to attend the 15th annual Commercial Egg Clinic to be held March 25th in Texas A&M University Memorial Student Center. It's the once a year opportunity for egg industry people to get together and share information on current and potential aspects of the industry, says Ben Wormeli, Extension Poultry Specialist.

Reduces Interest On Loans

Joe Breed, Manager of the Federal Land Bank Association of Levelland, received word today that The Federal Land Bank of Houston has reduced the interest billing rate on variable rate loans to 8 1/2 %.

The variable rate loan plan, which was introduced by the Houston Bank last July, lets the interest rate "float" over the variations in the money market. In large measure, therefore, the rate in any specific year will reflect the changes in the price which the Bank must pay for the money it makes available for farm mortgage loans.

"Recent improvements in the money market have made this reduction possible, " Joe Breed

The Federal Land Bank of Houston makes long term real estate loans on farm and ranch lands throughout Texas. On January 1 of this year, the Bank had slightly over one-half billion dollars in volume of loans outstanding. The local association makes and services loans in Cochran, Hockley, Terry and Yoakum counties. Members of the local board of directors are L.F. Schoenrock. J.F. Steele and Leon Lawson, of Levelland, Texas, G. I. Sims of Brownfield, Texas, and Hugh Hansen of Morton, Tex-

SPRINKLE AND SPRAY YOUR WAY TO A BETTER LAWN THIS YEAR

No more crawling around on hands and knees rooting out

weeds with a kitchen knife. The Antrol Lawn Research Bureau names the 25 major lawn ruiners and states that there is an easy pushbutton way to get rid of all of them. The bureau divides these pests into 3 categories: Broadleaf weeds, Viney weeds and Grasslike weeds.

Broadleaf weeds include Dandelion, Plaintain, Yarrow, Purslane, Wild Onion, Shepherd's Purse and Buckhorn. They're all easy targets. The best way to control them is a squirt type of killer like Squeeze N' Weed.

Viney weeds are the kinds that spread via root runners.

You have the start . . . the opportunity for education. And all of us, whoever we are, never cease to learn. This key which you've earned with years of study and effort is priceless, so use it well.

We offer our sincere congratulations

PLAINS OIL CO. WHOLESALE & RETAIL

Some of them are: Chickweed, Clover, Ground Ivy, Henbit and their relations. The net of roots they form literally chokes out good grass, so it's the roots you have to get. A weed killer that sprays a fine mist in a wide patch is essential. Ordinary 1-shot aerosols and granular killers only kill a section of the root. The weed promptly overcomes the slight crippling and goes right on spreading. So, use a wide stream aerosol chickweed

The grasslike weeds are crabgrass, goosegrass, quackgrass, foxtail, barnyard grass and orchard grass and their uncles, cousins and aunts. The you start out to get them, the surer you are of complete kill. Get a good jetstream crabgrass killer and start shooting when the forsythia blooms fall. Even so, you're going to have to spray again, ten days later. They're tough, but you get them by starting early. It's all in a FREE BOOK-LET that illustrates the 25 common weed problems and tells you exactly how to deal

Royce Blair, son of Mr. and Mrs. Barron Blair, received a certificate of merit in recognition of service rendered to the Student Body, the Student Council and SPC. Royce will graduate on May 15th.

SOUTH PLAINS COLLEGE

LEVELLAND (Special) The annual Awards Day Program was held at South Plains College Monday, April 27th. Awards were given to the students who achieved academic ex-

cellence in a particular department of the college or in a program within a department during the year. The faculty of the respective departments

chose the recipients. Receiving the awards from Yoakum County were Thelma Cheatham, Tokio in Geology. The following Yoakum Cou-

nty students received Special Activity Awards as a result of their contributions to the general student activity program at South Plains College Betty Wilson, Denver City and Gregg Jones, Tokio.

Dryland or irrigation, E-57 has proven its ability to really yield in our area. The extra large root system developed by E-57 will make maximum use of our good underground moisture supply. It has the ability to wait for moisture during dry spells and then produce excellent yields when moisture comes. On irrigated ground E-57 is a top yielder. It is an excellent stander and with its excellent threshability is easy to harvest. The bronze grain of E-57 really weighs out and is high quality.

OPINIONS From Page 3

out student dissent, and campus disorder, but we would sti-11 like to assure the students that it really is a cold cruel world. Out here, a guy can actually get arrested for taking over somebody's office and stealing his files."

"Mary had a little cold but wouldn't stay at home, and everywhere that Mary went, the cold was sure to roam. It wandered into Polly's eyes and filled them full of tears; it jumped from there to Jimmy's nose, and then to Michael's ears. It painted Jennie's throat bright red, and swelled poor Patty's head; Billy had a fever, and a cough sent Jack to Bed. The moral of this little story is quickly said -- Mary could have saved a lot of painif for just one day she'd have stayed in bed."

4-H'ERS FROM PAGE 1

A total of 45 or 50 people from Yoakum County were in attendance at the district contests including those 4-H club members who were contestants. The parents and leaders had a two-fold purpose for going to the contests. Thcy wanted to see the boys and girls perform and they wanted to learn how to do a better job of training 4-H club members for the 1971 contests,
