

## REPORT OF SECRETARY C. of C. OF WINTERS FOR YEAR ENDING JULY 1-25

### Cities Do Not Happen, Men Build Them

Men build cities that they may have central locations for trade, and for political and social activities. When men find a location with proper environments, they communicate with others and by their co-operation the location becomes a village, the village may grow till it becomes a town, and the town in turn becomes a city.

Winters became a city because, like many of its neighboring villages, it was surrounded by most wonderful land suitable for farming, and it possessed a climate beautiful and healthful and invigorating. Its citizens co-operated in securing good roads, railroads, streets, schools, churches, lodges and the like. This gave an excellent opportunity for the banker, the merchant, the machinist, industrial agents, artisans, and professional men. Without their co-operation Winters would be a village and with it, Winters will soon be a much better and more prosperous city than it now is. The citizens of the city have merged their city building activities into the Winters Chamber of Commerce. Any progress in the city is to a greater or less degree incited by the activities of that organization because the "moral" of the progress is fostered by it and it invites others to come and enjoy life here. During the good year from July 1, 1924 to July 1, 1925, Winters enjoys the following wonderful achievements:

#### Organization

At the annual banquet in June, Mr. E. A. Shepperd was chosen to lead the organization and E. Clements, Roger Adams, Bert E. Low and Carl Henslee as directors. A board of advisory directors was appointed to assist the regular organization in their deliberation of weighty questions. The directors meet on call of the president and at regular intervals during tax times. The organization is fostered by private contribution to a budget of approximately \$4,000. Most of this is paid by per-dated checks which gave the secretary much time to press other work than that of collecting. Besides this nearly \$2,000 was collected for other causes see financial statements

#### Band

The outstanding aim for this year was a band, and now we have two of them. Joe E. Ward, a veteran band master of Abilene visits Winters twice a week to teach the bands. The Winters Chamber of Commerce band would be a credit to any small city and the boy scout band is making rapid progress. The Chamber of Commerce bought a tuba, a full uniform, a baton and a sako for the first band, and sent it to the West Texas Convention at Mineral Wells. Many favorable comments were heard from the sidelines and our delegation was proud of the music they furnished. Wherever they played, soon may couples of dancers were swinging around them. The boy scout band is prepared to play concerts also.

#### Tinkle Park

A suitable place for band concerts and a playground for children stirred the heart of our veteran citizen, Dr. Fred Tinkle. He very generously donated a beautiful and well located plot of ground, and equipped it with curbs, walks, fish ponds and pavillion.

This wonderful generosity stirred our people to greater appreciation. By public subscription, 80 choice steel park seats were placed within it. Two fine concerts and many picnics and luncheons have been served there.

#### Lions Club

Early in the year, a real live Lions Club was organized. Through the influence of the close association at the Lions banquets, it has been an easy matter to put over some of the year's best work. The meeting of the men at the luncheons have been the means of a wonderful strength to the Chamber of Commerce activity.

#### Street Decoration

Seeing so many of the streets of

(Continued on page 2)

## Presbyterian Revival Starts Next Sunday

Next Sunday morning at the 11 o'clock hour the revival meeting at the Presbyterian church starts with Dr. S. D. Logan of Weatherford doing the preaching and Sid Tally of Dallas in charge of the singing. During these special meetings services will be held twice daily at 10 a. and 8:15 p. m.

This special effort is being made in an effort to bring lost men and women, boys and girls into the services of the Master and the co-operation of the entire town, regardless of denomination, is urged and expected.

All singers and those who play instruments are invited and urged to help with the music, and the general public is invited to come and participate in this effort to bring people into the fold of the Master and make of Winters a better place in which to live.

## Public Schools Hold Graduating Exercises At Methodist Church

Thursday evening of last week the graduating exercises of the Winters schools were held in the First Methodist church with Dr. J. C. Hardy of Baylor Female College, Belton, delivering the commencement address.

His theme was "Democracy and Education." It was a wonderful inspiring message. The program by the graduates was well rendered. There were twenty-eight graduates as follows:

Louella Adams, Emily Bailey, Emma Baldwin, E. E. Edwards, Essie Flynt, J. F. Flynt, Charisie Graham, Glee Ingram, Historian; Lottie Ingram, Musician; Ivy Jordan, George Key; Alfred Lamotte, Valetorian; Truby Mosley, Bailey McCaughan, Bobby Godwin; Willie Perry, Saultatorian; Irene Perry, Virginia Pierce, Janita Pentecost, Louise Poe, George Poe, Clifford Rhoden, Ruby Nell Roberts, Jewel King, Oral Toney, Ruby Wimberly, Brazzie Wright.

The prize winners are: Peace Pin—Miss Louise Poe, an essay on peace. \$5.00 in gold—Miss Viola Tutt, an essay. Cup—Miss Glee Ingram, individual development. Gold football—Mr. Childers, coach work.

The prizes were from the national Peace Association; next from the First National Bank the next from Jackson & Holcomb, druggists; and the last from the athletic association of the school.

Mrs. Dunn and daughter, Miss Pauline and Mrs. W. A. Pace left Wednesday for a two weeks visit in Dallas and Fort Worth. They will make the trip overland in their car.

## BILL BOOSTER SAYS

JUST BECAUSE A FELLOW LIVES IN A SMALL CITY INSTEAD OF A LARGE ONE IS NO REASON WHY HE SHOULD PULL BACK ON ALL PUBLIC IMPROVEMENTS! THE BIG CITIES WERE SMALL ONCE, AND THEN DIDN'T GET BIG BECAUSE THEIR CITIZENS LAID DOWN AND HOWLED. 'WHATS THE USE!'

## Prominent Wingate Citizen Dies Monday

Mr. J. A. King died at Wingate Monday, June 1, at 4 p. m., and was buried Tuesday in the Wingate cemetery at 11 a. m., services being held at the Methodist church by Rev. W. L. Wall.

Mr. King was born in Mississippi, but came to Texas when quite a small boy and had lived the greater part of his life in Runnels county. He was a member of the Methodist church and leaves a wife and several small children, also one brother who resides in the Wingate community. Mr. King was an old pioneer citizen of the community and was well liked by all who knew him.

## First National To Distribute Memorial Coins

At last that great memorial to the heroes of the Civil war is to be completed.

The Stone Mountain project, which entailed the sculpturing of the likeness of the armies of the south in gigantic figures across the face of Stone Mountain, near Atlanta, Geo., is to be finished by August Luke-man.

The association was fortunate in securing the services of Lukeman one of the great American sculptors and one of the very few men considered competent to finish this great work.

"The American Doughboy," "The Birdman" and "A Confederate Grandmother" are among the well known works of the sculptor.

The Stone Mountain Memorial Association has secured a special coinage of half dollars known as the "Stone Mountain Memorial half dollar."

These coins are to be sold for a dollar each, the coin itself having a face value of 50 cents and the other 50 cents going towards the completion of this great memorial.

The First National Bank has contracted with the Association to distribute these coins in this section.

Coin certificates may be purchased immediately. On July 3, these certificates are exchangeable at the bank for the memorial coins as a part of the simultaneous distribution program of the Association.

Don't fail to do your bit in preserving the memory in stone, of these men who so valiantly fought to defend the southland.

## Marshal Lodges Two Negroes In Jail

Tuesday evening, Marshal Kirby arrested two negro men and placed them in jail for raising a rough house in their homes. One of them, we understand, gave his wife a severe beating, knocking her down several times and then choked her. During the night we understand the two negroes effected their escapes by breaking the bars in the window.

Marshal Kirby says that all negro men in the town without jobs had better procure one or he will lock them up for safe keeping.

Rev. W. F. Wall, pastor of the Wingate Methodist church was a visitor in Winters Wednesday.

# Chamber of Commerce Annual Banquet This Evening at M. E. Church

## Wm. Cameron & Co. Buy Munroe Lbr. Co.

One of the largest deals in Winters for many months was consummated this week when the Wm. Cameron & Co., Inc. with headquarters in Waco, acquired the J. W. Munroe Lumber Co. in Winters, this making the seventieth lumber store owned and operated by the Wm. Cameron & Co.

While the exact figure is not known it is conservatively estimated that the consideration was at least \$50,000.

Wm. Cameron & Co., have been doing business in Texas now for more than a quarter of a century and is one of the strongest lumber concerns in the South, the slogan of the company being "Quality—Service—Satisfaction."

Mr. R. E. Bacon, who has been with the company at Eddy, has been transferred to Winters to assume the management of the local store, and will move his family here as soon as he can secure a residence. Mr. Bacon is an affable genial gentleman and the Enterprise welcomes him and family to the social and business circles of our city. He will be pleased to have you call at the store and get acquainted. Mr. Bacon said that while the store was very well stocked, they would fill in every shortage and will discontinue the paint line now carried and handle Minnesota Linseed Oil paints, varnishes and wall paper and would furnish their customers with the well known Cameron free plan service and blue prints.

J. A. Kirkpatrick, district manager of the southern division, has been in the city the past week helping to close the deal.

J. W. Munroe says he doesn't know yet what he will do, but his many friends are hoping something will turn up which will cause him to remain a citizen of Winters.

## 1925 Rainfall In The Winters Country

For the first five months of this year the government gauge in Winters shows the following precipitation:

January	Traces
February	.21
March	1.71
April	4.89
May	3.42
Total	10.23

In talking with the traveling men who travel over the greater portion of the state, we learn from them that the Winters country at this time has the best looking crops and prospects of any section in their territory.

Miss Lela Mae Taylor of Plainview is visiting her grandparents, Mr. and Mrs. D. H. Taylor.

## Mayor Coombs of Abilene Will Make Principal Address

This evening at the Methodist church the annual banquet of the Winters Chamber of Commerce takes place. Committees have been at work on this evening's entertainment for the past week, tickets have been sold and a good program arranged. Every business and professional man of Winters is expected to gather around the banquet table, enjoy the good program and help in the re-organization of the Chamber of Commerce. If the town as a whole could be enlisted in the activities of the Chamber of Commerce a mighty work for the advancement of Winters could be accomplished, for in unity there is strength. If you have not purchased your ticket to this banquet, do so at once and come out and let's

get together and put things over for Winters.

The evening's program follows:  
Band Concert  
Toastmaster John Q. McAdams  
Accomplishments of the Past Year  
Rev. A. H. Clark 10 Minutes  
Our Band Bert E. Low 10 Minutes  
Necessity of a Chamber of Commerce J. Frank Paxton 5 Minutes  
The Outlook H. O. Jones 5 Minutes  
Address Mayor Coombs of Abilene 30 Minutes  
The Budget E. A. Shepperd  
Report of Nominating Committee

## Winters Preparing For 4th Celebration

One of the largest get-together gatherings that ever congregated in Winters is expected here on July 4 for an all day barbecue and picnic. Runnels and her neighboring counties are coming together and hold this mammoth affair.

The committee in charge stated to an Enterprise man that 10 hogs, 8 hogs and 5 sheep, with all other necessities have been secured for this barbecue.

This celebration will be held to commemorate our national holiday, and also to cement friendship for everyone living within 100 miles of Winters.

This is an absolutely free affair. There is going to be plenty to eat, and Winters invites everybody who comes within hearing distance to come and bring their friends.

Full announcement will be made later as soon as some other details are completed.

## E. F. Edwards Buys Out Gin at Miles

E. F. Edwards of this city has just closed a deal whereby he becomes the owner of the gin at Miles, formerly owned by Holmes Bros.

Mr. Edwards has had some twenty-years experience in the cotton and in business and his experience will be brought to bear in his effort to maintain a first-class gin plant for the farmers of the Miles section. He tells us that his recently acquired gin property will be given a thorough overhauling this summer and that everything will be in readiness to give the farmers of that section a gin service unexcelled.

## Rumor Says Ry. Will Continue Motor Car

An unconfirmed rumor is current in Winters that the Abilene & Southern, in deference to the hearty co-operation given the road by our people, will withdraw their application to the Railroad Commission for permission to discontinue the motor car and will arrange a schedule which will give the people better mail service than at present.

Miss Mattie Mae Stevens, daughter of Mr. and Mrs. Wm. Stevens, returned home Sunday from T. W. C. at Fort Worth where she finished the sophomore year.

Rev and Mrs. H. H. Stephens, V-Marie and Mrs. Sivals spent Tuesday and Wednesday of this week at Brownwood.

Rev. A. H. Clark, who has been visiting his father and mother at Lubbock has returned home.

## Lions Club Commends Enterprise Policy

Whereas, it has been brought to our knowledge that Mr. George Hill, publisher of the Winters Enterprise has rejected all advertising from firms outside of Winters. To our certain knowledge he has turned down several large contracts with mail order houses.

Be it resolved, that we the Winters Lions Club do hereby approve of his actions in this matter. Also that we know that Mr. Hill is losing money by doing so. We know his only motive is for the betterment of Winters and Winters merchants. We assure Mr. Hill that we are very grateful to him.—Winters Lions Club, Paul Holcomb, President, J. A. Huffhines, Sec'y.

## Mrs. C. D. Bryant Dies Monday

Mrs. C. D. Bryant died at the family home at 11:45 Monday, June 1. She had been confined to her bed for several months suffering with brights disease.

Mrs. Bryant had been a consistent member of the Church of Christ for twenty-five years.

Services were conducted by Rev. A. H. Clark and interment was made in the New Cemetery.

Besides her husband she leaves nine children. Those here from out of town to attend the funeral were, Mrs. M. M. Bryant, Mrs. G. H. Bryant, Mrs. W. P. Lanham of Merkel, Mrs. J. M. Colbert of Salina and Mrs. C. C. Henderson of Dallas.

## Local Oil Mill Man To Make Address At Galveston

Mr. and Mrs. H. W. Lynn left yesterday for Galveston to attend the meeting of the State Cotton Seed Crushers Association. Mr. Lynn is on the program of this convention and will make the response to the address of welcome.

The Enterprise feels sure the committee who framed the program for this convention made no mistake when they placed H. W. Lynn on the program, and here's hoping Mr. and Mrs. Lynn have a most enjoyable time at the convention.

Mr. and Mrs. J. C. Meredith of Plainview arrived here last Tuesday for a visit to their parents, Mr. and Mrs. H. T. Stokes. We understand Mr. Meredith has sold his barber-shop at Plainview and his many friends are hoping he will again enter business in the "Busiest Little City in the West."

Joe Baker will appreciate your barber work.

## The Winters Enterprise AS A BUSINESS INSTITUTION AND AS A BUSINESS BUILDER

The ability to conduct a legitimate, constructive business at a profit is necessary to every concern which would succeed. Service and not price alone is the deciding factor to the wise buyer, who would know that the dollars he spends to stimulate his business not only return, but that they bring some of their fellows with them.

Buying space in the Enterprise is not passing out money for an intangible asset; numerous voluntary testimonials verify our statement that Enterprise advertising has produced great returns. Merchants, you have the field. If you do not get the trade whose fault is it? You may be sure that the mail-order houses put their catalogues into every home they can, but their circulation does not compare with that of the Enterprise.

# Buy it in Winters

The news comes from the insurance commissioner that another well known Mutual Fire Insurance Company is about \$13,000 worse than broke.

This same company had a representative in Winters less than 30 days ago preaching the financial strength of his company.

**THERE ARE NO BARGAIN-COUNTERS IN SOUND INSURANCE**

## E. A. Shepperd

Insurance and Loans

### Report of Secretary—

(Continued from page 1)

the progressive cities of the land using a system of street decoration as suggested by the American Legion in which "Old Glory" is properly mounted on a staff before the business houses, most of our business and professional men now decorate the streets upon every holiday or special occasion with the Stars and Stripes. The effect is striking and beautiful.

#### Western Union Telegraph

The struggles of last year gave us a Western Union Telegraph Office. It passed successfully the first half year and is now trying the second half. This institution has been maintained to the pleasure and profit of the whole city. There is a conditional phase of its maintenance that we need to watch. July 1st will soon be here.

#### The Enterprise

The change in the management of the Enterprise is in keeping with the progress seen on every side. The Enterprise has always been the loyal and progressive champion of Winters and Winters country and now it steps forward with many of the distinguishing marks of the large city papers. The front page now is newsy and no advertisements are there and the editor is sacrificing valuable out of town ads that he may be loyal to his own people.

#### Photographs

Nothing appeals to the eye in our papers more than good pictures. Our photographer has been studying processes and produces to the extent that fine photographs are now issued. His collection is always open to the secretary of the C. of C. for pictures from which cuts are made. The secretary has used many of them for reproduction in leading State papers and magazines.

#### Visits

During the year, Winters was visited by B. M. Whitaker and Porter A. Whaley, officers of the West Texas Chamber of Commerce, by the San Angelo Boosters who spent some time in our city, and the directors granted the secretary leave of absence that he might accompany the Abilene boosters on their trip through eastern cities in the interest of the West Texas Fair and West Texas in general. This was a very profitable trip.

#### Trade

During the year trade was good the volume was fine and the dis-

turbing element of the "Fly by nights" was not here. Automobile selling, automobile supplies, and filling stations seem as leaders. Mr. Wade, West Texas representative of the Bradstreet Rating Agency, in a talk before the Lions Club said that he was glad to report Winters as the leading city in West Texas of its size and proved it by the volume of business done and the freedom from bankruptcies.

#### Cotton

The cotton production of Winters Country was immense both in quantity and quality. The seven gins of the city ginned 20,070 bales and 25,690 bales were shipped from this station. Probably 400 tons of cotton seed were shipped also, and 8000 tons were crushed in our local oil-mill. This mill produces 16 distinct products, several of them being sold in carload lots. This cotton was worth easily three and one-half million dollars and the seed nearly one million dollars. The C. of C. was active in turning cotton pickers toward our fields. Two gins installed bolla gins at a cost of \$15,000 and \$10,000 to extract the lint from the upopened bolls.

#### Winters Thoroughbred Cotton-breeding Industry

Farmers have been buying their choice seed from points quite remote from Winters. All agriculturists know that this is not best. The Winters Thoroughbred Cotton-breeding Industry is now an established institution in this city. This institution has probably the greatest future of anything accomplished during the year. Winters is noted for its cotton, shall it not be more noted for producing the best cottonseed for our latitude produced in the world? That is not too high an aim for Winters is it?

#### Poultry

Our poultry industries are estimated at a production of over \$200,000 per year. During January a show was staged that showed many of the finest birds in this part of Texas. This has greatly encouraged

with our gas. You may not see it go into your tank but if you buy your gasoline at this filling station, you can depend on it that you are getting every drop you pay for—and the best at that. Honest policy and quality products are our aim in serving customers.

### Poe's Garage and Filling Station

South Main Street. Phone 192.

the raising of good poultry and caused the raisers to study advanced methods. The incubator is coming in increased numbers and soon a hatchery with mammoth incubators will be doing hatching on the large scale. Winters Poultry Association did no small part of the work in the county organization.

#### Fairs

Winters united forces with the rest of Runnels county and exhibited in the West Texas Fair, in the San Angelo Fair and had a special booth in the Runnels county fair. Prizes were taken in the first two and the later, though not complete, elicited much favorable comment.

#### Trades Day

The second Monday of each month is designated "Trades Day". Attractive prices by the merchants, and free auction privileges did some good but more of this work should be done.

#### Banks

The two banks have again demonstrated their usefulness in handling the money necessary for the financing the great business. Institutions so used and controlled as to enjoy the unbounded confidence of all the business men is a cities greatest asset.

#### Roads

Roads leading to the city are in fine condition, thanks to the commissioners, and the care takers of the highway. The new country opened towards the southeast and the other needing opening towards the southwest calls for more careful consideration. Nothing can be of more benefit to a city than to have good lands surrounding, good farmers to till these lands and then have good roads to transport their products to market. Sixty WINTERS signs after the model of the State highway association are painted and will be located at strategic points, some distance from the city to guide the people in their travels. These signs are 6x30, having black borders, white faces, and letters in black 2 1/2 feet in height.

#### Silent Policemen

Steel disks painted white and let-

tered with the abbreviation of the Chamber of Commerce have replaced the old concrete blocks used as "silent policemen" at the crossing of the streets. There seems to be no danger in them and they stick to the street better.

#### Tourists

All West Texas is catering to the tourist. We have begun a movement of that kind. United with the Chamber of Commerce of Abilene, Brady, Coleman, and Ballinger we have named and mapped an all weather route known as the Gulf to the north, west, northwest through Texas. This scheme is to pilot the tourists from San Antonio and adjacent points through our towns when they are passing to the mountains for the summer. Winters promises them good highways, beautiful scenery in farming belts and gaps through the Callahan Divide. Also a good road that does not require them to cross that divide by going over it.

#### Tourists Park

This question has been quite complex as we had no good tourist camp but now Hr. Forbus has transformed his wagon yard into an ample camp with several cottages, a fine large shed, a cistern of water and a tourists supply station, making a park quite in keeping with the average in the cities of West Texas.

#### Free Express Delivery

The question of the free delivery of express in this city was presented to the American Express Company. Their officers visited Winters, and told us that we had nearly enough express matter to entitle us to that service, and promised to watch our growth carefully. Within two months, the officer again visited us and ask-

**Report of Secretary—**

(Continued from page 2)

able moment a group of busy business men are out taking the air by following the "rubber pill" about over the course.

**Improvements**

There is scarcely an institution in the city that has not materially advanced since the Chamber of Commerce has been functioning. A laundry was secured, and now it is improved until we have a good one. The Theatres are much improved in equipment. Our schools are growing in size and in importance. Our churches have made much improvement in their property. A new \$50,000 building now stands on the Methodist lot, and the Baptists have built a large balcony in their meeting house. Twenty-five new residences, most of them good well finished structures, and sixteen business houses of important additions were built since the first of January. A conservative valuation is \$116,700.00. A new planing mill, and a new green house now stands on Wm. Pierce's property; each an important addition to any progressive city.

**The Ice Factory**

The securing of an ice factory was one of the original aims of the Chamber of Commerce. We have it now and it is a good one. It has proved its efficiency by making ice while Winters was suffering from an inadequate supply of good water. Now its products are not surpassed in quality and we have a bountiful supply for a city larger than Winters. The new plant is modern in every respect and costs approximately \$25,000 and is still being improved. We may expect other important industries to hover around that nucleus.

**Sewer System**

Another original aim of the Chamber of Commerce is the perfecting of the sewer system. It is now complete and seems to be giving entire satisfaction to everyone except to those owning farms near the disposal plant. The cost of the system is about \$50,000 and reaches nearly all parts of the city. 305 permits to attach to the pipes have been issued and others are being called for daily.

**High Power Line**

The West Texas Utility Company has taken over the light and power plant that served Winters. Soon that line will be extended so the great power plants of West Texas may serve the needs of this city. All big machinery may then be run by these plants and that may help solve part of the water question, the fuel question, the engine and additional labor question in all our industries. Is there a possibility of locating a cotton factory in Winters?

**Questions Considered**

Our railroad and our street control questions consumed more time than any other. It seems that no lasting results can be reached. A suit before the superior courts and a questionable service from the railroad is what we have now. The great conflict between the railroad and the motor car service throughout the entire United States is not settled and we are but a part of it. We must wait.

The aim of our publicity is changed from points abroad, to that nearer home with the aim of "selling Winterto Winters thar thar Winters to its own people." We have had some success.

In defense of our theatres we

have tried to limit the coming of tent shows and carnivals to a minimum, only practically succeeding.

The question of a wholesale grocery was considered, this may be contingent with our transportation question.

A movement to appoint a committee to investigate the character and purposes of peddlers, beggars and promoters before the members of the C. of C. would listen to their plea, and discussed but nothing definite was done.

The sale of land for the establishment of a negro church was discouraged and the proposition to place a home demonstration agent in this county was endorsed.

**Great Question Ahead**

The securing of natural gas. The securing of a compress and bonded warehouse.

The securing of free mail delivery. The securing a drop light telephone system.

The securing of a large custom hatchery.

The securing of a choice up-to-date hotel.

And the question of securing a great electric sign over the street and possibly a "white way".

As the new board takes over the work of the Chamber of Commerce, many new and perplexing questions will present themselves. But with the example and courage of the retiring officers, transmitted to them, I am sure that in the language of the football boys, they will "tighten their belts and hold the line." Respectfully submitted,—J. C. Watts, Sec'y.

Writer for a woman's page says gifts for the bride and the graduate tax the ingenuity of shoppers. They tax something besides ingenuity.

**\$60,000 Taken From Merchants**

At least \$60,000 or maybe more round silver dollars. Somebody's hard earned money was stolen from Winters during the past year. Did the sheriff or constable do anything about it? No they didn't do a thing, because they couldn't. This money was stolen from Winters merchants by mail-order houses, and it will never be returned. It's gone forever. Money which would have gone to improve our town, and which would have made Winters a better place to live. No use worrying about what happened last year—start thinking about what is going to happen this year and keep that \$60,000 at home where it belongs.—Winters Enterprise.

What is true of Winters is true of every other town. Money sent from home never comes back to help pay taxes, build roads, and keep the schools going. It does not help keep up the home band, pay the preacher, provide for charity and help to make the home town a place you would like to call home. Before you kiss your money good-bye and send it away for the necessities and luxuries of life, call on your home merchant, get his prices and see the goods (something you can't do when you order by mail), make a fair comparison and then use your own judgement.—Ballinger Ledger.

Roy Mack, who has been with the Winters Oil Mill for the past few months, returned to Ballinger the first of the week where he will have charge of the office work of the Ballinger Cotton Oil Mill. Mr. Mack made many friends during his short residence here who regret to lose him as a citizen of Winters.

**Painting Up**

A least once a year, if not oftener, all agencies interested in the progress of their home community ought to agitate for the use of paint to brighten up all buildings that have a decedent look and are in danger of deterioration as a result of exposure to weather. Buildings in Winters that look run down for the need of paint attract unfavorable attention. A few buildings of that kind here and there are a drag on the appearance of our town. Incidentally property deteriorates when not properly painted. The money saved by the money by not painting is apt to be lost through the depreciation of property.

Advertising is as much a legitimate part of the expense of a business as lights, fuel and clerk hire.

The pathetic old last year's straw hat is mutely begging for its place in the sun.

**STAR PARASITE REMOVER**

**A Wonderful Poultry Remedy**  
Given fowls in drinking water or feed absolutely will rid them of Lice, Mites, Fleas, Blue Bugs and all destructive insects.

Contains Sulphur scientifically compounded with other health-building ingredients; is a good tonic and blood purifier; nothing better for preventing disease. If given through the Spring, fowls will be healthier, lay more eggs and young chicks will be protected from destructive insects. Sold and guaranteed by

Conway Tearle

A story of two spoiled children of luxury.

**Heat Under the Kettle-- Not the Kitchen**

**Focused Flame of the Florence Sends Heat Straight Where You Want It**

COOKING heat thrown out into the kitchen means a three-times-a-day drain on your time and temper. Cooking heat that goes straight to the bottom of the kettle gives the best results in the least time. That's the working principle of the Florence—the oil range with focused heat. Specially designed burners send the heat directly into the cooking where you want it.

Naturally, this more efficient stove helps you cook better meals. The certainty and the simplicity of the Florence cut out all the guesswork. You can have the right heat—where you want it—at the turn of a lever. To start the Florence you have only to turn a lever, touch a match to the asbestos kindler, and the range is ready to cook your dinner.

**FLORENCE KITCHENS ARE COOL IN SUMMER**

No use to hope for a cool kitchen if your cooking stove throws much of the heat out into the room. The Florence uses the heat for cooking and leaves the kitchen cool—a pleasant place to work on a hot summer day. Your first glimpse of the Florence will tell a story of service and beauty. The sturdy flame is built for years or hard use; the shining enamel means just as many years of good looks. Here's an oil range good house-keeper would be proud to own.

**GO SEE FOR YOURSELF**

Ask anyone who uses the Florence to show you how convenient it is—how it lights at a turn of the lever and a touch of a match to the clean asbestos kindler. No wicks to trim.

**Winters Girl Wins High Honors at T. W. C.**

The following is taken from the Fort Worth Star-Telegram and is reproduced because it tells of the high honor won in this school by Miss Mary Neely of this city:

"You are going out to begin your life work in the most remarkable period in the world's history," Bishop H. A. Boaz told the class of '25, Texas Woman's College, in his baccalaureate address Wednesday.

Bishop Boaz, who is bishop of Korea, Japan, and China, congratulated the young women because they live not only in the age when women are coming into their own but because they live in a Christian country where women are welcomed as beings with minds and souls.

In reviewing the progress the institution had made the bishop mentioned changes that had occurred since the first of his 14 years of service as president of old Polytechnic College.

"If Texas Woman's College grows in the next 20 years as it has progressed in the past 20 then we have every reason to expect at the end of that time a million dollar endowment, 1,500 students, and 200 or 300 graduates each year," he said.

Awards of various honors were presented by Dean F. B. Isely. To Miss Audrey Dillow, Fort Worth, went the award for the highest attainment in home economics; to Miss Gertrude Mae McFadden, Port Arthur, the award for the highest scholarship average maintained during the junior and senior year; to Miss Opal Bailey, Farmersville, class of '24, the scholarship offered by Southern Methodist University; to Miss Gladys Thurston, Portales, N. M., the string of pearls presented each year by Hamilton's to the best all around girl selected by the students and faculty.

"The Fort Worth Association of Phi Beta Kappa offered a prize of \$25 to the candidate for an A. B. degree who for the past two years has made the highest average and done 'whatever helps a woman to meet the requirements of her time.' This award was given to Miss Lucille McCanne, Memphis, Texas, since Miss McFadden, who also made a very high average, received a B. M. degree. Miss McCanne is president of the Scholarship Society of Texas Woman's College, a member of the executive board of the student body, and was May Queen for '25.

"Degrees were awarded with honor, signifying an average of B. in 100 of the 120 hours required, to 10 young women, the best record made in the history of the College. These awards were to Misses Lucille Blume, Fort Worth; Catherine Carmichael, Comanche; Ilda Elrod, Fort Worth; Frances Gaby, Cleburne; Lucile McCanne, Memphis; Gertrude Mae McFadden, Port Arthur; Mary Neely, Winters; Mary Elizabeth Stegal, Long view, and Mmes. Edith Lightfoot, Cleburne; and Mabel Stafford, Fort Worth.

Twenty-eight A. B. degrees, two D. S., and three B. M. degrees as well as seven diplomas in art and music were conferred last night.

Miss Lucile Smith, who has been a student in McMurry College, Abilene, has returned to her home for the vacation.

**Winters Boy Wins Honors at John Tarleton College**

Carroll Neely, son of Mr. and Mrs. Sid Neely, returned home from Stephenville where he has been a student in John Tarleton College, last Thursday week.

A very fine gold watch had been offered for the best all-round student in the school the past term and at a gathering of the student body at the close of the term it was announced the watch had been awarded to Carroll Neely, which is an honor in which home folks take much pride. Also a scholarship with all expenses paid was awarded Carroll in the R. O. T. C., and he left Tuesday for Galveston and will report immediately at Camp Crockett.

The young people attending colleges and universities from Winters are always winning honors and making good, thereby putting the old town on the map all over the state.

Towner Key, who has been attending John Tarleton College at Stephenville, has returned home for the summer vacation.

Bert E. Low, cashier of the First National Bank and a trustee of Simmons University, Abilene, attended the commencement exercises of the University Thursday.

**Winters Schools Needs More Room**

The Winters Schools, under the efficient management of Supt. A. H. Smith, is making great strides in securing affiliation with the universities of the state and is also growing by leaps and bounds in numbers, having an increased enrollment this term over the year before of 162, the enrollment for 1923-24 being 847 while the enrollment for 1924-25 being 1,003.

The public school is the one institution in Winters which deserves the unstinted support of the entire citizenship of the town and is one of the greatest of our assets from any standpoint and we would like to suggest that steps be taken during the summer vacation looking to the proper housing of the rapidly growing Winters Public Schools.

Miss Lena Jones, daughter of Mr. and Mrs. H. O. Jones returned home Wednesday from Austin where she attended the State University the past year.

J. Tom Snellgrove of Norton was in the city Tuesday transacting business.

Jim Gardner, who has been attending John Tarleton, at Stephenville, has returned to his home.

Misses Evelyn Floyd and Thema Coburn are at home for the summer vacation, having attended John Tarleton College at Stephenville the past term.

Gattis Neely, who has been in McMurry College, Abilene, has returned home for the summer vacation.

Gerald Collingsworth, a student in McMurry College, Abilene has returned home for the summer vacation.

**Coleman Negro Gets The Death Penalty**

Brownwood, Tex., June 2.—John Smith, 23, negro, was sentenced today to die in the electric chair for the killing of Sheriff Pauley of Coleman county, by a jury in district court here. The jury deliberated 18 minutes, Smith received the verdict as calmly as he had been during the trial.

The court room was crowded throughout the afternoon despite the intense heat today. There was no demonstration when the verdict was read by Judge J. O. Woodward.

Sheriff Bert Hise will take the negro to Huntsville as soon as possible, it was announced.

Brownwood, Texas, June 2.—John Smith, negro, being tried for his life in district court here on an indictment charging the murder of Sheriff Dick Pauley of Coleman county, was on the stand this morning to tell his reasons for firing the shot that caused Pauley's death. The court room was thronged, but there was intense quiet, as the negro told his story. Court was recessed Monday after the selection of the jury had been accomplished and after the state had introduced preliminary testimony. The state rested this morning at 9:30 o'clock, and will offer one or two witnesses in rebuttal probably concluding testimony at noon or before.

The negro defendant this morning related the circumstances of his trip with Arthur Tebo, another young

negro, from San Antonio to Brownwood and after remaining here a day or two of catching a freight train and proceeding to Coleman. He said that when Sheriff Pauley appeared on the top of the refrigerator car in which he and Tebo were riding and commanded that he come out, he thought that the sheriff was preparing to shoot him and so fired the one shot that caused the sheriff's death.

Tebo, previously on the stand for the state, said he was asleep in the car until the shot awoke him.

The city is filled with Coleman county people but there is no disorder. The negroes were kept under heavy guard last night and the vicinity around the jail is quiet and peaceful.

Testimony was completed and both sides rested at 11:30, when court recessed until 2 o'clock to prepare the charge to the jury and make ready for an argument which is expected to be brief. Mrs. Dick Pauley, widow of the slain peace officer, was the last witness placed

on the stand by the state to tell of Sheriff Pauley's movements immediately prior to the fatal shooting. She appeared calm and composed and answered questions in a low firm voice. It was indicated arguments might be completed in time to be turned over to the jury this afternoon.

For first-class, courteous barber work go to Joe Baker's Shop.

Dexter Eoff and Raymond Lloyd who attended McMurray College, Abilene, the past term, have arrived.

## Mr. and Mrs. C. S. Jackson Honor Home Builders Class Had Business Meeting

On Thursday evening, May 28th, Mr. and Mrs. C. S. Jackson entertained with a seven o'clock dinner, honoring Dr. J. C. Hardy, president of Baylor College for women, who was here to deliver the commencement address to the high school graduates.

The table was lovely with its maderia cover and center decoration of pink and white carnations.

The dinner consisting of grapefruit cocktail, chicken, southern style, cream gravy, peas in potato nests, asparagus on toast, stuffed celery, rolls, olives, frozen fruit salad, saratoga flakes, ice cream, angel food cake, mints, black coffee, and cheese straws were served in five course to the following: Dr. Hardy, Messrs. A. H. Smith, C. R. Robertson, Carl Henslee, Paul Holcomb, W. E. Hickman and the host.

Mrs. Jackson is a member of Dr. Hardy's first graduation class at Baylor, having been a freshman when he became president of that institution and it was a pleasure to have him as guest or honor on this occasion.

## Wesley Workers Sunday School Class Had Social Meeting

On Wednesday, June 3, the members and associate members of the Wesley Workers Sunday school class of the First Methodist church, met at the home of Mrs. Dewey Speer in a business and social meeting.

Ferns and shasta daisies with yellow butterflies and bluebirds in graceful arrangement added beauty to the attractive reception rooms.

During the business meeting Mrs. J. H. Rhoden was elected president of the class and Mrs. Charlie Chapman, vice-president.

Mrs. Gid. J. Bryan gave a lecture on "Upbuilding of class enthusiasm."

A musical contest was entered into and proved quite interesting causing each one to tax their memory of the old popular tunes of years ago.

Mrs. Speer was assisted by Mrs. J. H. Rhoden in serving delicious refreshments of ice cream and punch, angel and devil food cake to nineteen present, using shasta daisies as plate favors.

## Baptist W. M. U. Meets

The Baptist Woman's Missionary Union met at the church Monday, June 1, in regular session with a good attendance.

During a short business meeting Mrs. Farmer read a letter from Mrs. Spangler, a former member who has moved away, which was enjoyed very much.

The first chapter of the new book, "The Child and America's Future," was studied.

## Presbyterian W. M. S. Had Meeting

The Presbyterian Woman's Missionary Society met at the church Monday, June 1, with good attendance.

Mrs. Hal F. Smith conducted the meeting which was opened by prayer.

The subject, "Messages to the Church from the Missionary Stations" proved to be interesting and instructive.

Special prayer meeting was held in interest of the revival.

## Stephens B. Y. P. U. Law Party

The Stephens B. Y. P. U. gave a lawn party on the church lawn Friday May 29, from four to six, honoring the members who are leaving for the summer. A progressive lawn party had been planned but on account of the inclemency of the weather it was decided to remain on the church lawn.

As each guest arrived they were served iced soda pop.

After playing various games ice cream and cake were served by Mesdames Hickman, Dixon and Graham.

## Mr. and Mrs. J. Frank Paxton Entertained Graduates

On Thursday evening, May 28, after the graduation exercises Mr. and Mrs. J. Frank Paxton entertained the graduating class and high school teachers in a farewell party, as some of them were leaving.

After singing songs and several piano selections were given, delicious refreshments were served, consisting of ice cream and cake.

At a late hour the partying farewells were made and each returned home feeling sad to think some of them would never attend school together again.

The Home Builders Sunday school class of the First Baptist church, met in the class room at the church Friday, May 29, in a business meeting.

A motion was made and carried to buy a rug for the class room and a collection for funds was started. It was decided to use the capsule system to increase the attendance of the class and also to have all business meetings in the class room.

Those present were, Mesdames Key, Cooke, Brain, Jackson, Dixon, Clements and Low.

## Methodist W. M. S. Had Business Meeting

The Methodist Woman's Missionary Society met at the church, Monday, June 1, at three o'clock in regular business meeting.

Mrs. Jennings, president of the Society, led the devotional and reports were given by the officers. It was decided to change the hour of meeting from three o'clock to five o'clock.

The next meeting will be the last lesson on "China's Challenge to Christianity." Every member is urged to be present to decide on taking up a new book.

## Presbyterian C. E. Will Meet

The Presbyterian Christian Endeavor will meet at the church Sunday, June 7, at seven o'clock in a consecration meeting.

Mrs. W. R. Johnson will be leader of the subject, "How Should We Invest Our Lives."

## The Christian Church Ladies Aid

The First Christian church Ladies Aid Society met at the home of Mrs. John Shipman Wednesday, June 3, in a business and social meeting. The devotional was led by Mrs. C. L. Moore.

Delicious refreshments were served consisting of ice cream and cake. The next meeting will be with Mrs. C. L. Moore.

## PIE AND CAKE SALE

The ladies of the First Christian church will have a cake and pie sale Saturday, June 6, in the Jordan building on Main street. Come buy a cake and help build a church.

## Prize Winning Peace Essay

The Parent-Teachers' Association and the Literary and Service Club offered a prize for the best essay on peace, to the students of the high school.

There were five papers submitted all members of the senior class, and each paper showed quiet a bit of originality and forethought on the part of those who entered the contest.

The judges were, Mrs. Brophy, Miss Josephine Havenhill and Rev. A. H. Clark.

Miss Louise Poe won the first prize which was a beautiful peace pin and Alfred Lamotte, Trubie Mosley, Virginia Pierce and Jaunita Pentecost were presented a peace pledge beautifully framed.

The following is the prize essay:

### The Outlawry of War

The first example in the history of the world of a government unsupported by armies was to be found among the American Colonies in the seventeenth century. In 1882 William Penn brought his group of Quakers to America with the idea of making an experiment in peaceful government.

Through these days the influence of Benjamin Franklin was very great and it was an influence constantly exerted in behalf of peace. Two specific things he tried to embody in international law, the abolition of privateering and the protection of the interests of the merchants.

The first Hague conference, in 1899 was called by the Czar of Russia, but its program followed closely the suggestion of the American delegates. The most notable of these was our proposal for an international court, which was known as the "American Plan." Each state was permitted to nominate not more than four persons for the tribunal, from this a special court was to be selected for each case in 1901 the court was declared organized and ready for work. It has settled sixteen international disputes.

The second Hague conference was suggested by the United States. At this conference, the American delegates proposed and championed a

permanent court of arbitral justice; because the mode of selecting the judge could not be decided upon the court has never been opened.

Roosevelt, basing his action on the provision of the First Hague conference that neutral nations might offer their service in the settlement of disputes, actively intervened in the Moroccan affair between France and Germany in 1905 and initiated the conference which ended the Russo-Japanese war, for which he receives the noble peace prize.

In the first year of his administration, in line with the resolution passed by congress in 1910, president Harding summoned an International Conference for limitation of arguments. The purpose of this was to promote the interest of world peace.

Unsatisfied with any of the proposals for world organizations, Senator Borah has put before the country a further proposal, which originated with an American lawyer Salmon O. Levinson, and was developed by him with the assistance of the late Senator Knox. This plan calls for the definite outlawry of war, with penalties not only for nations but for individuals whose activities incite to war.

The exact terms of Senator Borah's resolution are:

"It is the view of the Senate of the United States that war between nations should be outlawed as an institution or means for the settlement of international controversies by making it a public crime under the law of nations and that every nation should be encouraged by solemn agreement or treaty to bind itself to indict and punish its own international war-breeders and war profiteers."

What this resolution proposes is that the United States government shall invite the nations of the world to declare that war is a crime. Such an invitation, if it were taken seriously, would be very hard to refuse, because to refuse it would declare in favor of war as a permanent institution. It would be very difficult to refuse because such an outlawry of war would no more preclude self-defense in case of assault, than the outlawry of murder precludes self-defense in case of assault. The issue could not be evaded, then, by insisting on the right of self-defense. All that would be required would be a declaration by each nation that it regards the making of war by nations or by itself, as a public crime in international law. Senator Borah's plan would, if carried out, break up the association which now exists between patriotism

and militarism. It would make pacifism under the law the patriotic attitude and militarism the unpatriotic.

We must end war now or perish. A war of life and death uses every effective weapon. The new warfare is marked by the ruthless use of every possible agency for destruction of life and material. No agency however terrible, has continued to be unlawful from the moment it is discovered to be practical and effective in determining the course of a battle or in bringing the war to an end. In every nation in Europe it is expected that the use of aeroplanes for the bombing of cities in the next great war will be on a scale without precedent in the last one. And all this is due to the fact that a war of nations in arms is in reality one of life and death, in which each will and must do what it can to save itself and destroy its adversary.

Growing armaments across the border create fear. Fear creates counter-armaments and counter-armament create counter-fear. A race in armaments is on, which can end only in war. Thus armaments lead not to a universal sense of security, but to a universal sense of insecurity which history amply justifies.

General John F. O'Ryan says: "The American people can end war in our time if they get on the job. Let us wage peace! I should be a traitor to my country if I did not do everything in my power to abolish war."

President Harding said, "If I catch the conscience of America, we shall lead the world to outlaw war."

The public opinion of all countries regards disarmament as the sole, effective and sincere means of realizing a durable peace and preventing universal financial ruin. The fundamental issue in the substitution of the moral force of right for the material force of might, and the ideal aim to be achieved is a just agreement between all nations and an ensuing simultaneous and reciprocal limitation of armaments in such degree that only the military forces sufficient to maintain law and order within their own territory will remain under arms.

The estimates regarding the participants in this year's "No More War" celebration in Berlin vary from "fifty thousand" as reported in the public ledger to "between two hundred thousand and three hundred thousand" according to the Manchester Guardian's special correspondent. The demonstration was held in front of the former Kaiser's

## A "ROLL OF HONOR" BANK

—Our place on the Roll of Honor means something to us, because we think it means something to our depositors.

—It means that this bank has added to its capital from its current earnings until its surplus exceeds its capital.

—We had to give the best service to do it, and the fact that we have succeeded is tangible evidence of our strength and security.

Capital and Surplus Over \$100,000.00

Winters,

Texas

palace. Warning that the militarism responsible for the great war was not yet dead in Germany came from thirty platforms, and demands for Germany's entrance into the league of nations and the disarmament of education were cheered.

The "No More War" demonstration in Paris was an indication that beneath governmental militarism there is a rising tide of opposition to the policy which is preventing peace in Europe. The two socialistic parties, the radical socialist party, the general confederation of labor, the league of men's rights, the league of women against war, the French section of ex-soldiers and the grand Loge de France and the grand orient de France participated. The communist party declared to cooperate. Similar meetings were held in the other cities of France.

A new plan for a "World Association of States to be super-imposed on the League of Nations and the Pan American union and designed to draw in nations not members of either was submitted to the institution of international law at its meeting in Grenoble, France, August 28 1822 by Prof. Alajandro Alvarez of Chile.

The world association would have "The 'forty-niners' of California

(Continued on last page)

## That One Word "Service"

Some enlightened person remarked once  
That after "to love,"  
The most beautiful verb  
In the English language  
is  
"To Help."  
Unfortunately, most of us  
have heard  
The word "service" so  
much  
That we are sick and tired  
of it.  
It has been so over-worked  
In many cases  
That it has become meaningless  
We believe, however, with  
the enlightened  
Person about the verb  
"to help"—  
With us, "Service" is no  
idle phrase—  
It is our creed.  
We want the chance to prove  
it to you!

## G. E. SEAGLER

### Coal, Grain and Feed

Photo by Jordan's Studio, Winters, Texas.

Starting in the year 1909 and continuing in the same business since that time, and giving service to the people of Winters and surrounding country, is the reason for the immense amount of business which G. E. Seagler is getting. Mr. Seagler has been in this business for these years, at the same location, just west of the Abilene & Southern station.

The reputation of this firm as feed store is known over the entire Winters section, for he has always treated the farmer fair, and would always sell the farmer his feedstuff or would buy it from him at the highest prices, conducive with good business judgement. Not only does Mr. Seagler buy and sell all kinds of feedstuff, but he is always in the market for small grain, such as wheat and oats. In connection with his feed business, Mr. Seagler also handles Montivallo Coal often referred to "as the best" and Domino, "the next best," and these two kinds of coal have builded a reputation among the consumers of this product and customers of this firm that will stand.

Mr. Seagler is a Winters booster, and is the kind of a citizen that goes to make a city a success.

## WINTERS HAS A MODERN BAKERY

Sauntering around over town, we were attracted by the adoriferousness of the essence of fresh baked bread and pies to Lankford's Bakery, and once on the inside, an inspection of this model bakery was soon under way.

We found that this is modern and up-to-date in every particular, clean and sanitary throughout, and the business is conducted along progressive lines, and we can say that it is a credit to our city.

To be able to make certain of turning out absolutely good bread and bakery products, only the most healthful ingredients are used in the process of manufacture. Nothing is used that is injurious and consequently the bread made by this firm is not only health protecting but health giving.

This bakery is the "Home of Lankford's Veri-Best Bread," which is made rich, pure, delicious and health-giving.

Mr. Lankford who is the owner has always been closely allied with the business interests of Winters and has always aided in making a greater town, and the institution he presides over, should receive the patronage of the people.

Winters can not hope to attract other industries and institutions until her people learn to support those she already has, and with the first class bakery being run here by Mr. Lankford, we can see no reason why bakery products should be shipped in from other towns.

Scene From "School for Wives" Queen Theatre, Wednesday and Thursday, June 10-11.

## WITH THE BAPTISTS

**SUNDAY**—  
Sunday school 10 a. m.  
Preaching 11 a. m. and 8 p. m.  
Sunbeams 2 p. m.  
Sing-Song from 3 to 5 p. m.  
B. Y. P. U.'s 7 p. m.

**MONDAY**—  
W. M. S. will meet at the church at 4 p. m. and study the second and third chapters in "The Child and America's Future."

The G. A. will meet at the home of Miss Bonnie Davidson at 4 p. m. "Forward March" will be out subject.

**WEDNESDAY**—  
Wednesday evening church night will be observed as follows: Prayer services and church conference from 8 to 9 p. m. Sunday school workers conference from 9 to 10 p. m.

The annual organized class convention will meet June 16, 17 and 18 with the First Baptist church, Dallas, Texas. Several are planning to attend. We hope to have representatives from each of the Intermediate Senior and Adult departments to attend this three days meeting and bring back to us enlarged plans for greater Sunday school work.

### Training School Again Postponed

The training school which was to have been held next week has been put off for two weeks in order that our people may heartily co-operate with the Presbyterians in their revival meeting.

What makes this seem like such an unusual spring is the fact that the only Johnson now in the limelight is Walter.

Mrs. Ben S. Freeman and little son are visiting in Shreveport, La.

## Loss \$6,000 In Midnight Fire

Fire about midnight Friday night destroyed the Dean Tire Station and the Doose building, adjoining the the Weinberg Tailor shop, located in Harwell Motor Company on Hutchings Avenue.

The alarm was turned in at 11:30 when the building was discovered to be aflame by persons who were nearby when the fire broke out.

Oran Dean, proprietor of the tire shop, and two or three other men were sitting in an auto across the street when they heard an explosion and saw fire following the blast, spreading all over the front of the building occupied by the two business concerns with a thin partition wall separating them, before the fire company could reach the scene of the blaze.

Judging from the way the fire spread, the firemen stated that it was about the center of the building occupied by the tire shop. The fixtures and stock of the fires were practically destroyed.

Spreading to the tailor shop side of the building the fire destroyed or damaged most of the contents of that business, and the plate glass front of the building gave away under the heat, and the building was damaged by smoke and water.

The total loss is estimated at around \$6,000, the loss on the building probably amounting to \$1,000. Dean claims to have had a stock valued at about \$1500, with \$800 insurance on stock and fixtures. Weingerg's loss on stock fixtures was estimated between \$3,500 and \$4,000 with \$1,750 insurance. A shipment of goods arrived the day before the fire.—Ballinger Ledger.

June, citizens reveal in the mouth-watering execution of that greatest of all masterpieces—the strawberry shortcake.

## WITH THE METHODISTS

Sunday school 9:45 a. m., Prof. A. H. Smith, Supt.  
Preaching, 11 a. m.  
Junior and Intermediate Epworth Leagues 7 p. m.  
Senior Epworth League 7 p. m.  
Preaching 8 p. m.

We especially invite visitors and unsaved people to all services. The gospel is for the lost.

At a meeting of the directors of the Ballinger Cotton Oil Mill on June 1st, E. A. (Bookie) Giesecke was elected manager. Mr. Giesecke has many friends and acquaintances in the Winters country who will be pleased to learn this bit of good news from him.

My, how you miss those Babe Ruth home runs, don't you?

HEALTH AND FOOD  
IN EVERY LOAF FOR  
THE KIDDIES

Nothing is better for the children than a slice of Lankford's Veri-Best bread between meals. They are sure to get hungry after romping and playing and it's so appetizing and nourishing. Give them all they want for their vigorous bodies demand it.

GOOD FOR OLD AND YOUNG

## Lankford's Bakery

**Winters Enterprise**  
HILL & HALL, PUBLISHERS

Published at Winters, Texas, Friday of Each Week

Advertising Rates  
Single Column Inch, per Issue...30c  
Readers, Per Line, Per Issue...10c  
Subscription Rate, the Year...\$1.50

Entered at the Postoffice at Winters, Texas as second class mail matter.

**A SAVING TO YOU**

It costs you more under the new postal rates, effective April 15, to remail copies of The Enterprise to relatives and friends than it will subscribe for the paper and have it mailed direct from our office every week. A goodly number of our subscribers have been accustomed to reading their home paper and then sending it to a relative or friend at some distant point.

These good friends realize that a single copy of The Enterprise beats a dozen letters in news value and saves a lot of time. We are always glad to have as many people as possible read every copy of our paper and have urged our subscribers to hand the paper to someone else when they have finished reading it.

Postmaster Huntsman has called the editor's attention to the fact that the new postal rates now in effect is causing some annoyance in the mailing of newspapers. Two cents an ounce or fraction thereof is the rate now, and a copy of The Enterprise when wrapped ready for mailing weighs about two ounces, so the charge is four cents.

A number of our good friends have already concluded that it will be more convenient and economical to subscribe for this paper for friends at a distant point. The saving is easily figured, especially if the paper is wrapped and sent every issue in the year.

If you are not a regular subscriber to The Enterprise you are missing a lot of fine things, and we extend to you a hearty invitation to join our growing family.

**JUNE**

June is a month we hear a good deal about. Poets specialize on it. June is the month of weddings, the bride's month in all verity. All the world loves a bride, whether she come from the ranks of the humble and the wedding be a marvel of simplicity, or she emerge from the rich and the great, and the occasion be one of pomp and elaborate ceremonies—what matter it? All the world loves a bride.

It will be a sorry day for society should the romance of marriage suffer loss or the wedding be treated as common place and a mere formality. Weddings are solemn, not sad; they are impressive events, and flippancy at such a time is the acme of poor taste.

June is the bride's month, her very own. Roses then for the bride's hair, roses in her hands, roses in her cheeks, roses for her path, roses for the bride!

**ENEMY OF WASTE**

Herbert Hoover's experience in practice of economy during the war, when he so administered relief funds to keep seven million Belgians alive, when he taught the American people to save food and many other things they had been in the habit of wasting, has led him to make instruction in Hooverizing one of his functions as secretary of commerce. He is now at work with the lumbermen, and may find use for every gain of sawdust and for every limb cut in logging. When we are cutting forest four times as fast as new timber grows, and when 65 per cent of the tree is wasted between logging and final use, there is ample need and scope for Hooverizing.

**KING COTTON**

Virtually one-third of America's cotton crop is used in the production of fabric for American tires. This is a market entirely unknown a generation ago. It demonstrates that the world's markets are as plastic as rubber itself when people grow too choice to wear cotton gowns and hosiery along comes a man with a buzz wagon who needs all the cotton and more.

**THE WIND UP**

Eugene V. Debs, veteran chieftain of the socialist party, will edit a new socialist publication to be known as "The American Appeal." This should put the finishing touches on Eugene in short order.

**WILL HE PUT THINGS ON THEM?**

Henry Ford says he is willing to buy the shipping board's 400 vessels. Well, Ford is rich enough to buy anything, even a white elephant. It may become a national custom to try to sell whatever is too large for the people of the country to operate for themselves to Henry Ford.

**A DEADLY PERIL**

The railroad grade crossing continues to hold its own as one of the most deadly perils of the highway. The most familiar and the most widely advertised of all the dangers upon which autoists must reckon, it takes its death toll week after week in every section of the country, as if no warning had been issued against it, as if it lay in ambush to surprise and slaughter the unsuspecting traveler.

One occasionally escapes from the very jaws of death in other sudden emergencies of the road, but those who tempt the railroad grade crossing rarely live to tell the tale. Like providence, it is no respecter of persons. All is grist that comes to its bloody mill.

**Interscholastic League Gives Large Rebate**

Austin, Texas, May 29.—The University of Texas Interscholastic League this year is making the largest rebate on railroad fare to contestants attending the fifteenth annual state meet that it has ever been able to make in its history, according to Roy Bedichek, head of the League.

"To contestants from distant points," said Mr. Bedichek, "we are this year rebating 80 per cent of the railroad fare to Austin and return, and to contestants whose railroad fare was between \$10 and \$20 we are rebating 60 per cent. This large rebate is due to the fact that the League enrolled this year as members more than four thousand schools, the largest membership in its history, about \$8,500 being collected in fees. After deducting necessary expenses of the meet, all this money is rebated to contestants attending the meet in proportion to the amount of railroad fare paid. No rebate is paid to contestants whose railroad fare amounted to \$10 or less. This money has been paid in by the public schools and is returned to the public schools.

"It would be quite impossible without a system of rebate to assemble public school students from Texline, Edinburg, Perryton, Texarkana, El Paso and other distant points, as was done in the meet just closed, for the reason that the traveling expenses would be prohibited. Texas is so great in extent that the assembling of contestants in one place from all parts of the state is impracticable unless some method is provided for taking care of at least a portion of the expenses of qualified contestants.

The A. T. & T. reports that there are now 16,116,550 telephones in this country. At least.

**CHURCH OF CHRIST**

It is our desire to worship the only true God acceptably, to honor His Holy Son and to save the lost. In all these things we recognize the Bible, the word of God, as the only rule of faith and practice, the only infallible guide and propose to be governed and controlled solely by its divine teaching; to do those things and only those things for which we have expressed precept or approved apostolic precedent. Will you come with us next Sunday?

**Church Calendar**

**DRASCO**

Mrs. Mollie Cunningham of Young county has been visiting her mother, Mrs. S. S. Hardy.

Mr. Moreland, grandfather of Mrs. H. O. Jones, died at Wilmett and was buried at Winters. Several from Drasco attended the funeral. Mr. Moreland had many friends at Drasco. To the bereaved ones, sympathy is extended. May the Great Physician comfort them.

Miss Eura Bibb, saleslady for Schindlers Variety Store in Winters visited her parents, Mr. and Mrs. L. C. Bibb.

Mrs. Henry Mitchell entertained friends this week, honoring Miss Johnie Patterson, the bride-to-be with a miscellaneous shower of nice gifts. Refreshments were served and all present enjoyed the occasion.

Mr. and Mrs. Dee Jones of Bradshaw visited Mrs. Jones' brother, James A. Horn, Friday afternoon.

Mrs. Matt Munroe of Winters is visiting her sister, Mrs. L. C. Bibb. Mrs. E. W. Patterson was in Winters this week.

Mrs. T. P. Massengale attended the Baptist meeting at Pumphrey Friday. An excellent program was rendered.

Mr. Homer Bibb is on the sick list.

Rev. Preston Braxton preached at the Methodist church Sunday morning. Mr. Bart McKorcer conducted the services Sunday night. Mr. Albert Baker sang a solo—"Can the Lord Depend on You," accompanied by his wife on the piano.

Rankin Pace has returned from his school duties at Brownwood.

Rev. and Mrs. Preston Braxton attended the graduating exercises at Winters Friday night.

Messrs Harvey Baker, Elmore Mayhew and Nelson Crow will represent the Epworth League at a League meeting in Winters Friday night.

Mrs. Lawrence Lee and little daughter of Fort Worth has been visiting Mr. and Mrs. B. C. Lee.

Puckett & Co., are adding an ice house to their store.

Henry Hamilton and Stanley Sanders were in Winters this week.

Mrs. J. A. Horn and children, Jesse and Mary Lenora were in Bradshaw and Winters this week.

Mr. and Mrs. Newman have returned from a visit to Post. Mrs. Newman is mother of Messrs Tom and Houston Puckett.

Friends of Mrs. W. D. Rice will be grieved to learn of her death which occurred at her home near Abilene.

Prayer meeting at the Methodist church Wednesday night. Albert Baker will lead. All are invited.

Mrs. George Scott is visiting in Lamesa.

Mr. and Mrs. W. H. Bennett of Benton, Ark., were visiting a few days the past week in the home of Mr. and Mrs. D. S. Moore. This was their first visit to this country and they seemed to be very favorably impressed with it.

Mr. and Mrs. Hal F. Smith, Jr., of Canyon, Texas, are in the city, guests in the home of Mr. Smith's parents, Rev. and Mrs. Hal F. Smith.

Lawbreakers who get up gambling pools on baseball show no appreciation of a noble game.

**First Bale of Cotton Gets \$1,425 Monday**

Houston, Texas, June 1.—The first bale of 1925 cotton ginned at Mission Sunday was received in Houston at 8:05 a. m. today. It was six days behind the record for all time of early bales, and was the second earliest of record.

The bale was grown by Sixto D. Ochoa in the Rio Grande delta near Mission, weighed 495 pounds and was classed middling by the Houston Cotton exchange. The bale was consigned to W. D. Cleveland and Sons, by whom it is to be auctioned on the floor of the exchange at one o'clock this afternoon. It was shipped to Houston by express, after having been ginned by the Border Gin Company.

Mr. Ochoa accompanied the bale to Houston and delivered to the consignees certificate and affidavits establishing its history and proving that it is new cotton. This has been made a strict rule of the Houston cotton exchange, due to some efforts in the past to claim records on bales of cotton grown from volunteer stalks and with some old staple mixed into it.

The earliest bale on record was received in Houston, May 26, 1921, and was grown near Harlingen. All the early bales of recent years, have come from the Rio Grande delta. Last year, the first bale was received on June 27, in 1923, it was June 23, and in 1922, it was June 2, only one-day later than this year's bale.

Defense Day has no place on the calendar with Armistice Day.

**Ford Sets New Production Record**

The Ford Motor Company set a new record for production Tuesday, May 19, when its assembly plants turned out 7,858 Ford cars and trucks in the eight-hour working day. This record is for the United States plants alone and does not include foreign plants and associated companies of the Ford Motor Company of Canada, Ltd.

An interesting thing in connection with the remarkable production is that the company is exceeding its most careful estimates for May. Current Ford billboards, which were prepared sixty days ago, carry the message "7,000 More Since Yesterday." But the actual output the company exceeded this by 850.

Production of the company has been steadily increased during the last few weeks due to the growing spring business and new output records have been frequent, but none approaching within 100 of the remarkable figure of Tuesday.

On April 28 the domestic beat a record of 7,482 established a year ago by assembling 7,594 cars and trucks. This record stood until May 12 when production went to 7,732.

No practical suggestions have been offered for the arrangement of a peace conference between rum runners and prohibition forces.

Gen. Miles served his country greatly, and died with the affection for his example of good citizenship.

**Demand For Chevrolet Strong**

High automotive production will continue well through the second half of 1925 it is expected by R. H. Grant, sales manager of the Chevrolet Motor Company, who has spent three months of the current year visiting in direct contact with Chevrolet dealers. His travels have taken him to most of the large cities and more than half of the states.

"Demand for cars, which even before this time last year was beginning to slacken, still remains strong," said Mr. Grant. "The sales peaks and depressions of former years are beginning to flatten out. The automobile has become a year 'round product, particularly since the closed car grew to such favor. Seasonable variations in demand are becoming less marked.

"No one section predominates as a present or prospective market for

automobiles. Sales throughout the entire country reveals a gratifying steadiness and uniformity of demand. And improvement of the agricultural situation, particularly in the southwest where the drought has broken, indicates that thousands of farmer-purchasers will help sustain the demand during the latter part of the year.

"It is not improbable that demand will increase slightly in the near future and then remain unchanged for sometime, still at a comparatively high level. This possibility, however, will have slight effect upon production, especially among the large companies.

"Production of the more popular cars during recent months has been unequal to demand with the result

that manufacturers have been accumulating a reserve of unfilled orders which they can meet only by steadily building automobiles. This is a favorable and healthy condition for any business. It is a guarantee against abrupt production variations. Also, it benefits the dealers because immediate delivery of cars to waiting purchaser permits a rapid turnover of capital.

"The race of the Chevrolet unfilled order list against recent record production strides augurs well for future sales. Chevrolet went into May with 35,682 unfilled orders. In spite of a large production schedule the amount or reserve orders was diminished but slightly, due to the number of new orders received."

**Distance Disappeared When the Telephone Came**

Do you want to ask a neighbor to meet you downtown?

Possibly you want to tell the doctor how Willie's cold is and ask for instructions. There are the groceries to order.

These things are done with as much ease and speed as if the neighbor and the doctor and the grocer were right there in the room.

You simply use the telephone. It is five minutes out of a day. Without the telephone it would have been half a day's work to attend to the three items.

No community would be worth while without the modern facilities for communication that the telephone brings.

Because it is an essential public service its services are available to all at the lowest reasonable cost. For this reason also their interest in telephone service is as great as the interest of the telephone company.

This company wants its customers to know the company better and to aid the company by cooperating to make the service as good as it can be made—and with the modern progress in this service that will be mighty good.

take measures to eliminate the causes of war, initiate adequate methods for the pacific settlement of conflicts between states and accomplish gradual codes of international law. It would act only by means of recommendations.

Large armies and navies are sure provocatives of war. Effective national preparedness means effective world preparedness and effective world preparedness means war. This is the surest lesson that the world has gained from the history of the past decade. Germany was "prepared." She was not allowed to be "prepared" alone; the European race in armaments due to "preparedness" policies precipitated a tragedy for which fierce economic competition had made the ground ready.

The peace conference recognized the limitation of national armaments as the very cornerstone of the foundation that it was attempting to lay for a lasting peace. It underlies the possibility of the existence of an association of nations for the maintenance of international peace, and the successful operation of an international court of justice and arbitral court.

World organization and world-wide reduction of armaments will not be enough to make peace permanent unless the children of the world are educated for peace. Unless they hold what we hand down to them and establish it more securely, the glamor of war and failure to realize its appalling destructiveness may after a generation undo our best endeavor.

**CARD OF THANKS**

Words fail to express our gratitude toward our friends and the people of Winters during our sad bereavement when we laid to rest in the City of the Dead in Winters our beloved wife, sister and daughter. When the dark hours of life come to you may you be surrounded by such kind and sympathetic friends as our prayer.—A. F. McCann, W. H. and Ed. Gee, W. A. Gee.

Clarence Gobble, who has been attending Howard Payne at Brownwood the past term, has returned to her home.

**ORDINANCE NO.**

An ordinance requiring every person, association of persons, firm or corporation who owns, operates, uses or conducts, or who causes to be operated, used or conducted for public hire, an automobile or motor vehicle for the carriage of passengers, upon the streets within the limits of the city of Winters, to procure a license from the city of Winters, authorizing the city secretary to issue such license and prohibiting any person, association of persons, firm or corporation from driving, operating or using, or causing to be driven, operated or used on the streets of Winters, an automobile or other motor vehicle for public hire without having such license, and prescribing penalties for violation of this ordinance.

Be it ordained by the city council of the city of Winters, Texas:

**Section I**

Hereafter every person, association of persons, firm or corporation who owns, drives, operates, uses or conducts, or causes to be driven, operated, used or conducted for public hire, any automobile or motor vehicle for carriage of passengers upon the streets within the city of Winters, whether such passengers transportation be confined to the city limits or between points within the city limits and points outside the city limits of the City of Winters, before so operating, driving, using, conducting such automobile or motor vehicle or causing the same to be so operated, driven, used or conducted upon the streets of Winters, shall obtain from the City secretary of the City of Winters, a license for such automobile or motor vehicle, and shall pay therefor for benefit of the City of Winters the sum of \$25.00 per year for such license so obtained; provided that owners and operators of hearses shall be exempt from the provisions of this ordinance.

**Section II**

That upon application of any person, association of persons, firm or corporation, not prohibited by law from operating an automobile or motor vehicle upon the public highways, and payment of the fees required in Section I of this ordinance, the city secretary of the city of Winters shall issue and deliver under his official signature and seal of this city of Winters a license which shall be good for one year from its date, which license shall give the name,

**FIND YOUR NAME AND GET FREE MOVIE TICKETS**

Here's a chance to attend the Queen theatre with the compliments of the theatre and the Enterprise, and you will be the lucky one whose name is printed in small type somewhere in this issue with this ♦ before it. Just present the Enterprise at the theatre office showing your name and you will be handed two tickets good for any evening. No trick, no guessing contest, absolutely no 'strings' about the offer at all. We will print someone's name in small type from week to week, selected at random from anywhere about town and vicinity, and the lucky one gets the tickets. There is a name printed this week, see if it's yours. Here's wishing you luck! Watch for it every week.

residence and business address of the license, and describe the automobile or motor vehicle covered by such license by make, model, capacity and engine number. The city secretary shall keep a stub record of each license issued hereunder, and pay over to the city secretary all license fees collected by him.

**Section III**

Any person, association of persons, firm or corporation, who shall own, operate, drive, use or conduct, or cause to be driven, operated, used or conducted for public hire, for the transportation of passengers any automobile or motor vehicle upon the streets within the city limits of the city of Winters, whether such transportation be confined within the city limits or between points within the city limits and points outside the city limits, without having first obtained the license and paid the license fee required in Section I and II of this ordinance, shall be guilty of an offense, and upon conviction thereof shall be subject to a fine of not less than \$1.00 and not more than \$25.00; and each day of violation of this ordinance shall constitute a separate offense.

**Section IV**

This ordinance shall be and is hereby declared to be cumulative of all other ordinances of the city of Winters, Texas, not in direct conflict herewith, and shall not operate to repeal or affect any such ordinance or ordinances except to the extent which it may be in direct conflict herewith.

**Section V**

The holding or adjudication of any section, portion of part hereof to be invalid shall not affect the validity of any other section, portion or part of this ordinance, but all such other section, portions and parts hereof shall be and remain valid.

**Section VI**

This ordinance is hereby declared to be an emergency measure passed on the ground of urgent public need for the preservation of the peace, health and safety of the inhabitants of this city, and shall be in force and effect from and after its passage and after its publication. Provided, that every vehicle for hire within the city of Winters, Texas at the time it shall become effective, under any license or permit heretofore granted by or under the authority of the city council, shall have five days after it becomes effective within which to make application and otherwise comply herewith.

Enacted this 29th day of May, A. D. 1925.

Attest: A. F. Roberts, Mayor; Roxie Floyd, Secretary.

Ladies' hair bobbing given special attention at Joe Baker's Barber Shop.
