First Christian Is Organized; to Build House

From every standpoint the revival meeting just closed by the Christian church of Winters was a marvelous success, notwithstanding the fact that inclement weather obtained throughout, preventing many from fulfilling an expressed desire to attend.

H. M. Gilmore of Fort Worth, did the preaching, and in forceful manner presented the gospel in its purity and simplicity to audiences which, as he stated, were the most attentive to which he had ever preached. From first to last his messages were in strict accord with the written Word, and all differences of opinion, religiously, were emphasized in a Christian spirit of kindness that was not only edifying, but appreciated by members of other religious bodies. Bro. Gilmore, we feel, has made many friends in Winters, sown seed that will result in a rich harvest, and paved the way for a great work among God's people.

Especially did the rainy weather make hard any organization of the singers, and Miss Myrtle Gilmore labored under a handicap from the very beginning, but her solos each evening were inspirational, and her rendition of "The Holy City" at the closing service was a rare treat to those who heard it.

Five were added to the congregation by baptism during the meeting. A church organization was perfected with an enrollment of forty-five, a full corps of officers and a church board were elected and, in the very near future a building campaign, the ultimate goal of which is a house of worship, will be launched, thus establishing this band firmly among the forces for good in this community. Leading them will be Bro. J. Ray, district evangelist, now located at Mason, but who, with his fine family, will soon move to Winters, giving half time to the work here. Until these arrangements are made Bro. Ray will preach here one Sunday in each month.

Therefore, it is with a high hope that the First Christian church of Winters faces the future, bespeaking the Christian co-operation of other Christian people, as all are bound together in the high calling, serving Him in whom is the hope of the world.—Contributed.

A Goodly Number Of Davis's Here

Yes, there are a goodly number of Davis's here and two of them go by the given name of Pete, though they both come from two different strains.

News came in from Ballinger the first of the week that Pete Davis had been caught with some "wet goods" and was in the toils of law. Our good friend, Pete M. Davis, brother of Grover, denies the charge, so it must be the other Pete.

Family Reunion In Meadows Home

One of the most enjoyable reunions occurred at the home of Mr. and Mrs. W. F. Meadows last Sunday, August 30, when all the girls were at home for the first time in several years.

A delicious turkey dinner was served to Mr. and Mrs. Henry Cummings and five children of Harmony, Mrs. Zere Powers and little son of Abilene, Mr. Ed. Stockley and two sons of Brauley, California, Mrs. Allen Meadows, son and daughter, of Kingsville, Texas, Mr. and Mrs. Clarence Gambill of Abilene and Miss Mittie Meadows.

H. W. Lynn was down from Winters Tuesday afternoon on business, home from a trip to Colorado, making Mr. and Mrs. Lynn recently returned on the trip in their car.—Ballinger Ledger.

Mrs. Fred Poe, who was operated on in the local sanitarium last Wednesday, we are glad to report is doing nicely.

Raymond Knight is in the sanitarium where he had his tonsils removed.

Furnishes \$24,000 Home Near Putman

When a man, who is reputed to be wealthy comes from a far-away town to Winters to buy his furniture and other accessories for his home, there is something worthwhile in the transaction.

The Clements Hardware Company this week sold to a gentleman of Putman, complete furnishings for his \$24,000 stucco home at that place. But after all, people are most concerned with getting the most for their money, which is the reason this man bought at this store.

We can say that he exercised good judgement in coming to Winters, and bespeaks for this furniture man, the quality of merchandise carried.

Lions Club Ladies Night Was An Enjoyable Affair

After a vacation which extended over the month of August, the local Lions Club instituted regular semi-monthly meetings with a banquet at the First Methodist church last Tuesday evening, the occasion being what is termed ladies' night, there being some seventy-five plates laid for the occasion.

Out-of-town guests present for the occasion were Dr. Maddox and Tom Carswell of Abilene, the latter gentleman making the main address of the evening on the subject, "Patriotism and Lionism." Among other things, Mr. Carswell stated that when projects for the upbuilding of the community were born in the hearts of true Lions, those projects were assured for a successful culmination.

"A Public Library For Winters" was ably discussed by Bro. A. H. Clark who stressed the needs of such an institution, and an enjoyable and interesting response was made by Miss Heavenhill, who pledged the support of the ladies, not only in the corporate limits of Winters, but of the rural districts, in the effort to secure a public library.

In speaking to his subject, "School Outlook," Supt. A. H. Smith, of the Winters Public schools, took occasion to tell of the football prospects for the coming season and told of the progress being made in the football camp where about thirty-five husky high school boys are contesting for a place on the team this year, and also stated that the boys incurred a grocery bill of some \$100 for the training camp, and by motion and second the Lions Club will relieve the team of this burden by seeing that same is paid.

Probably every member on the program should be given special mention, but when you understand the writer knows nothing of shorthand and is writing purely from memory, you'll understand why each item on the program is not dealt with individually.

President Paul Holcomb, of the Lions Club, introduced our good friend, E. A. Shepperd, who was toastmaster for the evening, and the following program was carried out:

Song—"America"
Prayer—H. O. Jones.
Dinner
Song—Mrs. Ramsel.
Reading—Miss Naomi Hunt.
Violin Solo—Miss Mary Lena Jones, accompanied by Miss Ruth Jones.
"Financial Outlook"—Jno. Q. McAdams.
"Public Library, (reasons why Ladies Should Assist in Building)"—A. H. Clark.
Response—Miss Heavenhill.
"School Outlook"—A. H. Smith.
"Patriotism"—Tom Carswell.

Community Fair At Bradshaw On 12th

This is just to remind readers of the Enterprise that on next Saturday week, September 12th, Bradshaw will stage her third Community Fair. These good people never do things by halves, so if you want to see a worthwhile display of agricultural and other articles and enjoy the day with a hospitable and friendly people, be at Bradshaw Saturday, September 12th.

Old Time Songs To Be Used Next Sunday

Next Sunday afternoon is the regular time for the community song service to be held at the first Baptist church from 3 to 5 o'clock, and we understand most of the songs to be used will be selected from the old-time and well known numbers—songs in which the entire congregation may take part, so if you have been staying away for fear you could not sing the songs, you needn't let that deter you from attending next Sunday.

Every lover of good, gospel music in the entire Winters Country is cordially invited to attend this community service next Sunday. Come!

New Store Opens On South Main

Messrs. R. Hafter, formerly a dry good salesman traveling out of Dallas, and J. Ginsberg, a former dry goods merchant of Dallas, have moved to Winters and are opening up a general stock of dry goods in the new building just completed on South Main, belonging to Walter White, upon which they have secured a three year lease.

They are opening the store for business today with a Grand Opening Sale and the following two paragraphs are taken from their half-page advertisement in this issue:

"To the first thirty ladies making a purchase at our store of any amount, September 4th and 5th, will be given absolutely free one good broom."

"One per cent of the gross proceeds of our sale for the first ten days will be given to the churches of the city. This money will be divided equally between them and will be given to a committee composed of the various churches."

Messrs. Hafter and Ginsberg inform us that they are here to stay, as their three-year lease indicates, and they expect to become full fledged citizens of Winters and will identify themselves with every movement for the betterment of Winters, here people and her great trade territory.

LOCAL KLANSMEN TO ATTEND DEMONSTRATION AT ARLINGTON, SEPT. 11-12

According to local officers of Winters Klan, a large number of their members are going to attend what is claimed, one of the largest gatherings of Klansmen ever assembled at Arlington, September 11 and 12, for a two days meeting.

Many will go overland in cars, while others will board a special train at Abilene. Arlington is located half way between Fort Worth and Dallas.

Local Man Sells Mules to Oil Co.

Earl Rodgers, who resides about 3 miles east of town, sold and delivered to an oil company at Big Lake eight head of fine mules the first of the week.

We do not know the price paid for the mules, but we understand Mr. Rodgers will have to replace the mules, so we infer the price was right, or Mr. Rodgers would not have made the change.

Abilene Boosters Receive Warm Welcome

The Abilene Trade excursionists, travelling in a special train, finished their thousand mile booster excursion at Winters, August 27. They were met at the depot by a reception committee from the Chamber of Commerce and staged their parade up to the business district.

Led by the Cowboy Band and by Secretary Carswell of the Chamber of Commerce joined by a number of Winters business men, the visitors executed a drill parade in the business district, involving rather intricate figures.

A brief address of welcome was delivered by J. E. Farrow, Secretary of the Chamber of Commerce which was responded to by Secretary Carswell and by Rev. Stuckey, pastor of St. Paul's Methodist church, Abilene. The speakers expressed themselves as having received the warmest welcome at Winters and the greatest gathering of people to meet them that they had encountered during the thousand mile trip.

Superintendent And Teachers Entertain Juniors

At the beautiful home of Mr. and Mrs. J. M. Skaggs, the superintendent and teachers of the junior department of the Methodist Sunday school entertained the juniors with a lawn party last Friday.

Quite a number of games and contests were enjoyed and in the Biblical contest it was found that Dorris Piercy, Artis Piercy, Dolly Carrothers, Cora Overstreet and Neva Bailey could name all the books of the Bible.

Delicious sandwiches and iced melon was served to the teachers, Mesdames Hinds, Hall, Mullins, Swartz, Oliver, and Miss Stevens and Artis Piercy, Dorris Piercy, Fannie Lee Mullin, Cora Overstreet, Katherine Overstreet, Luralee Tinkle, Cordelia Paxton, Neva Bailey, Dolly Carrothers, Margaret Hinds, Joyce Denton, Leveta Duncan, Mary Louise Spear, Inez Denton, Fay Donham, Pauline Baldwin, Loretta Hall, Delphin Spear, Carver Monroe, Archie Strother, Norris Hinds, J. P. Byers, Elton Stahle, Monroe Stahle, Jr., Buford Baldwin and Kendall Mullen.

Band Concert at Drasco Postponed

The Band Concert and community meeting at Drasco which was announced to be held under the auspices of the Winters Chamber of Commerce Friday night, September 4, has been postponed until Friday night, September 11.

A music school in Drasco, holding night sessions it was found, would be interfered with by the band concert and meeting. The school closes next Tuesday night and the people of Drasco have extended a most cordial invitation to the Winters visitors for the initial community gathering and band concert.

A. J. Roe, Sr. Dies Suddenly

The news of the death of A. J. Roe, Sr., which occurred at the home of his son, A. J. Roe, Jr., was received as a profound shock to everyone last Saturday morning. He was apparently in good health when the end came very suddenly. Seldom has it been our duty to record so sudden a death.

Rev. J. N. Key conducted the funeral services which were held at the First Baptist church Sunday afternoon at four o'clock and interment was made in the Winters Cemetery. An unusually large procession followed the funeral car to our silent city and the floral offering was very beautiful, attesting the high esteem in which this good man was held.

He was 78 years old at the time of his death and had made this place his home for the past three years moving here from Yantis, Texas, and had been a member of the Masonic Lodge for the past twenty-five years.

Surviving him are his wife and five children, W. H. Roe, A. J. Roe, A. Roe, Mrs. Annie Forndy and Mrs. Mattie Pharr and several step-children whose names we failed to get.

To the sorrowing wife and loved ones the Enterprise extends deepest sympathy.

A. F. Roberts went to Abilene Wednesday to visit his father, R. L. Roberts, who left the sanitarium that day where he had undergone an operation and who will, we understand, remain in Abilene in the home of his brother, N. J. Roberts, for a week or ten days, before returning home.

Miss Jewel Nance Weds Dallas Man

A wedding is always an occasion of interest, and when it is the culmination of a beautiful romance, and that of one of the most popular young ladies of our city, it becomes an event of more than passing attention.

This happy occasion was the marriage of Miss Jewel Nance, daughter of Mr. and Mrs. W. W. Nance, to Mr. Alex Orr of Dallas, last Friday evening, August 28, at the home of the brides parents and came as a surprise to the host of admiring friends of this popular couple.

Rev. W. I. Dunn performed the beautiful ceremony in the presence of only the near relatives of the bride.

Mrs. Orr has lived here most of her life and was a graduate of Winters High school, a student of Simmons University and a talented musician.

The groom holds a responsible position with an insurance firm of Dallas, and received his college education in Vanderbilt University.

Mr. and Mrs. Orr left immediately after the ceremony for Abilene and were met on the pike by a crowd of boys and girls and given a good send-off and a bountiful shower of rice.

After several weeks of travelling, Mr. and Mrs. Orr will make their home here.

Mrs. Clifton Davis, after a successful operation in the local sanitarium, has returned to her home.

Showing Diversified Samples from N. M.

Messrs. A. P. and C. E. Jordan returned Wednesday evening from a visit with relatives and friends at Monument, N. M., and brought home with them some samples of the fine crops which are being harvested in that state. The samples consisted of cotton, peanuts, peppers, onions, cabbage, beets, sweet potatoes, peaches, etc., and were as fine as we ever looked at. Of course, they were grown on irrigated land, but we couldn't help but think what a great blessing it would be if our people would grow more of these things along with their cotton, maize, etc., so they wouldn't have to exhaust the revenue from cotton for the living they should grow at home.

The city is now erecting adjoining the city fire station on the north, a 12x16 brick office building for the use of the city secretary. This is only a temporary arrangement for we will have to erect in the near future a city hall worthy of the "Busiest Little City in the West."

Mrs. J. E. Oliver, Mrs. W. W. Oliver and son and Mrs. W. B. Oliver and children left yesterday for a few days outing at Christoval.

The road leading from the highway to Antelope church is undergoing some needed repairs and a good bridge has been erected across the creek by our efficient commissioner, Mr. Yeager. As time goes on Mr. Yeager's many friends become more and more convinced that he is the right man in the right place.

Mrs. J. W. Elliott submitted to an operation in an Abilene sanitarium Wednesday, and friends will be pleased to learn she is doing nicely at last reports.

The many friends of the family will be pleased to learn that Mrs. J. Q. Lankford, who submitted to a major surgical operation in an Abilene sanitarium last Tuesday morning, stood the ordeal fine and at last reports was reported as doing fine.

Local Man Sells Mules to Oil Co.

Earl Rodgers, who resides about 3 miles east of town, sold and delivered to an oil company at Big Lake eight head of fine mules the first of the week.

We do not know the price paid for the mules, but we understand Mr. Rodgers will have to replace the mules, so we infer the price was right, or Mr. Rodgers would not have made the change.

INFANT DIES

The infant of Mr. and Mrs. Jack Phelps died Sunday morning at the family home. The little body was laid to rest in the Fairview Cemetery Sunday afternoon. Rev. J. N. Key conducted the funeral services. We extend sincere sympathy to the grief-stricken parents.

E. R. Kilpatrick and family were week-end visitors with relatives and friends in Abilene, returning home Monday afternoon.

Rapid Rise To Leadership

Official figures showing that Graham Brothers shipments of 10,800 trucks for the first half of 1925 equalled their entire 1924 output are no surprise to those who have been watching the rapid rise of this company to its present position in the industry.

Graham Brothers truck equipped with Dodge Brothers engine were first offered to the public early in 1921. It was in 1921 that there was such general business depression in almost every industry in the United States. The truck industry, in particular, suffered heavily. The total 1921 production fell 54.2 per cent below 1920.

"Although there was a general impression in 1921 that people were not buying trucks," says Mr. Patrick of the Davis-Patrick Motor Company, local Dodge Brothers dealers, "the enthusiasm of the owners of the first of these rugged, powerful, dependable Graham Brothers trucks led to an immediate and rapidly increasing demand. With an increasing number of owners, and satisfactory service available at Dodge Brothers dealers everywhere, came the good will which belonged to a worthy product."

"The soundness of Graham Brothers policy of supplying the best truck they knew how to build at the lowest possible price has been demonstrated by the rise of Graham Brothers in the short period of five years to the position they now occupy—first in the production of 1 1/2-ton trucks and among the leaders in the 1 and 1 1/2-ton fields combined."

"Comparison of the annual growth of the truck industry with that of Graham Brothers emphasizes the rapidity of their advance. Total production of trucks of all makes in the United States in 1921 was 54.2 per cent less than in 1920. In 1922 it was 21.5 per cent less than 1920. In 1923 the industry surpassed its 1920 figures by 21.9 per cent. In 1924 it was only 16.2 per cent ahead of 1920."

"Graham Brothers 1922 sales exceeded their 1921 sales by 154 per cent. 1923 sales exceeded 1922 by 105 per cent, 1924 exceeded 1923 by 54 per cent—and now, at the end of the first half of 1925 the entire 1924 output has been equalled."

"Daily production of Graham Brothers trucks is now 40 per cent higher than in January, and is being further increased to supply the demand. Retail deliveries during the summer months of June and July, which are generally regarded as low months in the truck industry, have held up to the record deliveries established during March and April."

DREADFUL PAINS

Georgia Lady, Who Had Lost Too Much Weight, Was Advised to Take Cardui and Is Now Well.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes:

"After I married, thirteen months ago, I suffered with dreadful pains in my sides during ... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house."

"I got very thin—I went from 126 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I went to the store after it and before I had taken the first bottle I began to improve."

"My side hurt less and I began to improve in health. ... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all."

"I wish every suffering woman knew about Cardui." NC-169

Complaints Charge Testing Stations Over Charging

A few complaints have come to the commissioners court that some testing stations are charging more than the law authorizes.

A recent statement given out by the headlight division of the State Highway Department stresses this feature of the law and points out that for the twenty-five cents fee provided in the law the test station should (1) inspect the equipment, (2) focus the headlamps, and (3) tilt the headlamps, if necessary. It is also the duty of the testing station to see that an approved device is being used, together with the proper size bulb, and whether or not the bulb and reflector are in good condition. Any work necessary to place the headlight equipment in condition to be adjusted is not included in the twenty-five cents fee and any car owner not having an approved device will necessarily have to purchase what is required. The testing station should advise the car owner in advance whenever additional work or equipment is required, thereby avoiding complaints of overcharges.

Inasmuch as the law is in force from September 1st, 1925, it is urged that all car owners who have not already done so, have their lights tested and adjusted as soon as possible. —Paul Trimmier, County Judge.

Get Your Auto Lights Adjusted

Your headlights must be tested and adjusted before September 1st, when the new law goes into effect. The purpose of the law is to make night driving in Texas safe. And it will if everybody will comply with the law. It will be easy to arrest those that do not. For the first violation the penalty will be not less than \$5.00 nor more than \$25.00. For the second offense the penalty is not less than \$25.00 nor more than \$200.00.

I advise everyone to comply with this law, as you will be taking a chance if you don't. The first cost is nothing compared to the fine. —SAM KIRBY, City Marshal.

YOUNG PEOPLE, THERE IS A POSITION WAITING YOU

DEMAND FOR HELP: A country-wide investigation for employment conditions to get information as to the type of help in greatest demand shows the following results: Out of 2445 advertisements for help, 1338 specified a business training and 524 of the remaining 1107 were for positions that office assistants grow into. No other profession can claim one-fifth as great a demand. In fact, this proves that there is a greater demand for business trained men and women than all other trades and professions combined. Are you passing up the wonderful opportunities of a business training just to become a day laborer, house-maid, department store clerk, telephone operator, factory hand, etc? There is a business position awaiting you. Are you ready for it? Can you enter a business office knowing that you can handle a bookkeeper's desk, do the work of a stenographer or private secretary, or hold any one of the specialized places open in the modern business office? The big salaries come to men and women who can do One Thing Well. Training is necessary. Have you been drilled in the basic principles of business that will enable you to hold higher-salaried and more responsible positions as the opportunities arise? Unless you know these things, the

chances of your success are small.

Make up your mind to train, to start your business education NOW. Every day that slips by is a loss to you—it puts a good position and a good salary farther away from you.

A few months in Tyler Commercial College, the largest business training university in America, will give you the training you need. You can never make a better investment than in a business education. You can get the training at T. C. C. within the least time, at the least cost, and can enjoy the services of their Employment Department. Send the coupon printed below for the large, helpful book, "Achieving Success in Business." Slightly Over-estimated Maize Crop Production

Mr. J. P. Wessels of the Hatchell community was in the city the first of the week, and while here paid this office a pleasant visit. Mr. Wessels said he was looking for about a half ton of maize per acre, stating we had estimated in the columns of this paper that he would make two tons of maize per acre on his place while he only averaged about a ton and a half. Well, we simply told Mr. Wessels that we considered that mighty good maize, and in order to keep up with our reputation among some of our mighty good local friends, we had farmed the habit of stretching the blanket slightly, especially when we were telling of the wonderful farming country in the northern part of Runnels county.

Think of it, a Six—with Four-Wheel Brakes, Air Cleaner, and Oil Filter as standard equipment; a Six—with low-swung beaded Fisher Body in enduring Duco; A Six—with the

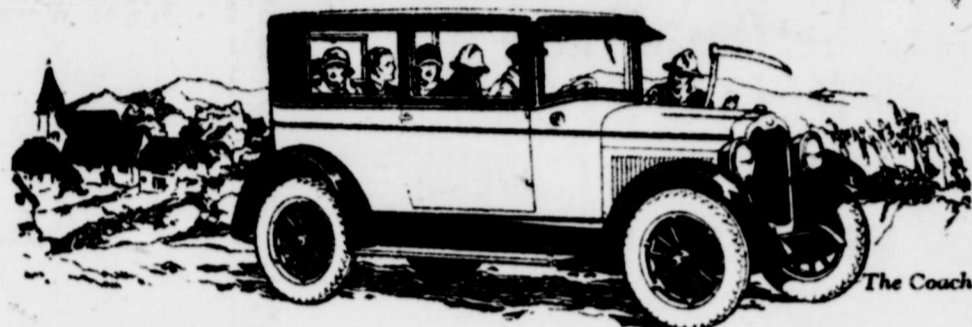

Harmonic Balancer, an exclusive feature rendering Oakland positively unmatched in freedom from vibration; a Six—far in advance in power, acceleration, speed, endurance and economy. And this Six selling for hundreds of dollars less than cars anywhere near its quality.

Note the impressively lower prices—compare Oakland with the field—see how it outclasses all Sixes under \$1500 and all Fours regardless of price.

Drasco Clubs Met Monday

The Girls' and Women Clubs met last Monday, August 24, on the school house lawn, with a large number of old members present also a number of new ones.

Regular work was carried on with the girls present. The first two club programs, cup towel and holder were completed and handed in by the following girls: Clara Hudson, Lucille Hudson, Jaunita Porter and Omega Dobbins. Other than regular work for next time we will discuss, teddies suitable for school wear.

The women's work consisted of several discussions as, winter wardrobe, fall gardens, the fair and the 1926 improved kitchen contest.

A change in the time and place of meeting were discussed, but as the members of the Ladies' Aid changed their day, we shall continue to meet on the second and fourth Mondays of each month in the homes, rather than at the school building. We meet next time, September 14th, with Mrs. L. Puckett.

WRIGLEYS

AFTER EVERY MEAL

THE FLAVOR LASTS

Probably one reason for the popularity of WRIGLEY'S is that it lasts so long and returns such great dividends for so small an outlay. It keeps teeth clean, breath sweet, appetite keen, digestion good.

ADVERTISING

Wrigley, the chewing gum man has explained how to build up a business of millions of packages a day. He has done it by sticking to his one line and advertising it. He spends over a million dollars a year in buying newspaper space to tell the world about 5 cent chewing gum. He has educated people to chew gum and to chew Wrigley's. He did not stop shouting as soon as he attracted attention. He says you must keep it up or the buyers will forget you. Whether yours is a 5 cent or a \$50,000 business, keep telling about it.—Hamlin Herald.

Consistent and wise advertising is now a matter that no firm can overlook. And it has been proven that newspaper advertising is the best medium of getting goods before the public. Now since truth is the byword in advertising more folks read the ads than ever before, and reading them the public is coming to put more and more dependence in the buying of their goods from advertisements. In other words, folks are

reading the advertisements now more than ever and taking advantage of the bargains offered therein. The public has found out that the progressive merchants, the merchants who have the best bargains and goods to offer, advertise.—Abilene Reporter.

Three Weeks Jury Drawn Next Court

The fall term of district court convenes at Ballinger at 1:30 p. m., September 21. While a four weeks' term is scheduled only a three weeks' petit jury has been drawn. The grand jury will begin work with the convening of court on the first day, and the petit juror will be summoned for the first, second and third weeks. No jury was drawn for the fourth week.

A special venire will be summoned for the third week when the Kirk-Cope murder case will be called for trial. These cases are set for October 5th, and are expected to be disposed of at this term of court. Kirk and Cope are charged by grand jury indictment with murder in connection with the killing of Crawford A. Taylor.

The criminal docket contains fourteen cases, as follows: Two for murder; four for liquor law violations; four for forgery; one for manslaughter; one for false entry; and two for rape.

Since the last term of court twenty-two civil cases have been filed, ten of which are divorce cases. The district clerk says this is the smallest number of divorce cases filed between terms in several years.

Following are the names of the grand and petit jurors drawn for the term:

2,500 Acres of Cotton Destroyed By Hail

Hail Sunday afternoon, within the space of five minutes, wiped out about 2,500 acres of cotton in the Pumphrey community, where it is said the best crops are. The cotton stalks were completely stripped, and it is estimated that the loss amounts to from 1,000 to 1,500 bales. Some of the farmers who lost their crops estimated a half bale per acre yield, while others counted on at least a third of a bale per acre.

This was the second hail to damage crops in this county during August. Two weeks ago about 1,000 acres of cotton were destroyed in the southern part of the county.

Blizzards to Put Up Real Football

The Winters high school football squad arrived home Thursday morning, thirty-five strong from Oak Creek where they have been in training for the last two weeks preparing for a heavy schedule on the gridiron under the direction of Coach C. R. Smith assisted by high school principal, C. R. Robertson.

From all reports both from the boys and those who visited camp some real football was being presented and executed and in the estimation of some of those who report camp life the boys are going to be in line for a good season this year.

From what we are able to find out the entire squad not only enjoyed the good eats which were excellently prepared, but every phase of the work in football and they are reporting back sound with the exception of two or three men who have only slight injuries and who will be able to be back in the squad within the next few days.

Among the men of last year who are showing some talent with the pigskin are Fields, Robertson, Raymond Phillips, A. Neely, Captain Knight, Walker Bailey, Jno G. Key, B. Neely. A wealth of material was found in a score of new men as D. Barber, Vancil, Dedmon, Duncan, P. Barber, Hightower, Bedford, Bartlett and Edwards. Nance, a two year man in football reporting to Winters high this year from Rising Star is showing up nicely at center.

Among the other men who stayed through the training camp are T. Barber, Mitchell, Roy Young, Campbell, Anthony, Bill Phillips, F. Fields, Davis, E. White. Others have indicated that they will report to the squad at the opening of the school term.

The interest in football is not only

centered in the few boys who have been in training camp but the people of the Winters community as well. The game in itself does not teach merely a game of football but it is a laboratory where a growing boy learns to test himself and to exercise those principles which make for real men, physically, mentally and morally. People are realizing that now and under the training which these fine young men have been going they are making for those things which football teaches, honesty, fair play and right learning. The religious side of life has not been overlooked while in camp. Church services were held last Sunday in camp.

The people of Oak Creek community have been exceptionally accommodating to the boys out on camp. Mr. John McCowan on whose place the camp site was pitched, was advised was kind enough to offer any convenience on his place to the use of the boys. A fine swimming hole at the concrete dam on this farm was utilized to much advantage after each work out. Others have shown their kindness in many ways.

The entire public of Winters is cordially invited to attend the work-out and scrimmage at Ashley park, Friday, September 4, 5 p. m. Let us be there and get behind the boys for another good athletic season.

Miss Beth Deffebach of Denison and brother, Vernon of Ranger visited in the home of their brother, Lyle this week.

Mrs. Ed Ryan of Runge, Texas, Mrs. E. E. Morris of Munday, Texas are visiting their father, J. H. Mills, on route 2.

Henry James, president of the Farmers & Merchants National Bank of Abilene and president of the First National Bank was here attending the regular monthly meeting of the Board of Directors of the latter institution.

Rev. H. H. Stephens, wife and daughter and Gladys Graham returned this week from an extended trip to San Antonio, San Marcos and other points, also visited Mrs. Stephens' mother, Mrs. Sivells at Brownwood, Texas.

C. L. Logan has sold his filing Station, west of town, to W. O. Brown and has moved back to town. Mr. Logan wishes to thank the public for their patronage and expresses the desire that Mr. Brown be given the same liberal patronage.

Miss Iva Jordan, well known and popular young lady has accepted a position with Gambill & Roberts Hardware Company.

In Honor to the Workers

Labor Day each year brings anew to the Nation the great part that the mechanics, the farmers, the craftsmen, the tradesmen and the millions of other workers play in keeping America in the position of leadership in the world.

Labor Day is a day of tribute to the men and women who do things right and on time! It is not a day for those who dilly-dally, or put off, or give less than their best to the work at hand.

This institution will not be open

LABOR DAY

Monday, September 7

On this Labor Day, we suggest that you give thought to the results of labor—and the proper safeguarding of a part of what you earn. The complete banking service we offer is already helping many workers to realize their ambitions.

A 90 Day Sale

And Then It's All Over

Three months ago we launched a campaign to close our business at Winters. We want to state to the public that we have made excellent progress, having disposed of all summer goods. Now we are going to sell

FALL AND WINTER GOODS

Of which we have a good stock. We have added to all departments new goods, that we are going to sell at ridiculously low prices. We expect to close this stock in the next ninety days, and we are going to make the prices so low that the temptation will be too great to pass up. Come in and examine what we have.

We have added for fall a complete line of

Ready-to-Wear and Millinery

that we will sell so low that you can't help but buy. The ready-to-wear and millinery will be fresh and new which we selected with a view of marking prices commensurate with the balance of the stock. We do not expect to make a profit in this Close Out Sale our sole aim is to get rid of the goods. This we must do in the next ninety days. If we close this big store within six months from the time we began we will count ourselves lucky.

SO DON'T BE DELUDED BY THE STATEMENT OF SOME PEOPLE THAT WE ARE NOT QUITTING BUSINESS AT WINTERS

All you have got to do is buy the goods and watch the stock dwindle to a fraction. We make this statement because some have said that our sale was only a make believe and not genuine.

We sincerely thank the public for their co-operation in this Our Quit Business Sale.

SEPTEMBER

The first suggestions of autumn are not so much as felt. They are vague and indistinct, yet real. The fading of summer into fall resembles the subtle changes that overtake one at middle life, in that it is slight, gentle and unobtrusive. There is a little lessening of vision, and the eyes are weary after extended reading. So comes the resort to spectacles, not of course that they are really needed, but as "an aid to reading, a preventive only."

There is a slight slowing up of physical activities, a resolution not to overdo; a feeling that one has earned the right to slacken the pace and relax a little oftener. Yet there is still zest in living, and charm and color and melody continue to allure. Thus slowly, almost imperceptibly, but surely, comes the knowledge that one has reached high noon, and the shadows of necessity lengthen toward the East.

THE LITTLE RED HEN

"Puck, puck, puck, puckayah," cackles the little red hen, as she steps off the warm nest, broadcasting to the barnyard that she has just laid a fine, fresh egg. She makes a product that any manufacturer might be proud of, and doesn't hesitate to advertise the fact.

A duck egg might be just as good, but the duck evidently doesn't think so. She doesn't advertise, and the duck eggs have no market.

Buy advertised goods. Only good goods, fairly priced, can stand the spotlight of publicity.

When you buy advertised goods you get a bargain, because they must be as advertised.

So it pays to read advertisements. Advertising protects you.

Read the ads in The Enterprise every week and get the best of the bargain.

GLACIAL EPOCH DUE

The head of the Canadian Weather Bureau insists that there has been no appreciable change in climate in the world during the last 100,000,000 years. It has all been pretty much the same. He figures, however, that in about 40,000,000 years another glacial epoch is due. It might be a good idea to stock up on heavier underwear and switch to woolen socks. People who are strong for preparedness will not be caught un-guarded.

THE FARM LOAN

During the last five years the life insurance companies of America have more than doubled the extent of their farm loans. That is their answer to the intimation that rural lands are not choice investments. There has never been a time in the history of America when a farm loan was not about as good security as could be found or offered.

Kenneth Harlan A 2-Fisted Star

Kenneth Harlan is more or less a peaceful young man, but has quite a good knowledge of how to handle himself when he has to. In making "The Ranger of the Big Pines," the Vitagraph picture now at the Queen Theatre, Friday and Saturday, he had to lay the villain out "cold" before going on with his business. But he did not fare so well, as the battle occurred in the open on rather rocky ground, and by the time the scene was finished both he and the "heavy" were not pretty specimens to attend an afternoon tea.

That is one thing about Harlan—when he fights he fights. He believes in making it realistic, and if his opponent wants to take things a little easy he is soon goaded into making it worth while. It is seldom that either he or his opponent doesn't emerge from the melee with some sort of damage.

"The Ranger of the Big Pines" is a fast, western drama of the big woods. The fighting hero role is just the kind that Harlan reveals in. He makes an imposing figure and gives an excellent performance.

DRASCO

The Baptist Women Missionary Society met Monday afternoon. Lesson in "Royal Service" was enjoyed by those present. Day of meeting was changed to Wednesday.

Industry is Doing the World's Work

—The people who know most about industry are those who are in industry. In addition to knowing about industry people who are in the public service industry know about the interest that all the rest of the people have in that industry.

—The public utility industry—for instance the service of West Texas Telephone Co., is peculiar in that it can do well only as the people served by it do well. It is an essential service, and experience has shown that an industry which is affected with a public interest serves well only through co-operation between the service and the people served.

—The spirit of co-operation for the benefit of both the service and those served is the spirit that inspires this company to look always to the welfare of its customers and of the community it serves.

Crews Club Met Friday

The Girls' Club met Friday, August 28, at the home of Audie Beck with seven girls present.

They are working on the third club program, the sewing bag. The cup towel and holder having been completed and handed in by the following girls: Audie Beck, Jessie Lee Brown, Erma Wilkerson and Nadie Wilkerson.

The following program, other than the regular work, will be a discussion of teddies suitable for school wear.

The ladies also met and organized the following officers being elected: Mrs. E. W. Emmel, president; Mrs. E. F. Beck, vice-president; Mrs. W. W. King, secretary. Aside from the general plan of work discussed was the Fall Garden and the Fair. A demonstration of jelly making and cold pack canning was given by Miss Key to the women and girls.

The meeting adjourned to meet next time with Mrs. W. W. King, September 18th.

Aileen Pringle In A Submarine Dance

George Fitzmaurice, noted motion picture director, has turned to the bottom of the sea for inspiration in the designing of novel backgrounds for the action in his latest Goldwyn-First National picture, "A Thief in Paradise," at the Queen Theatre Monday and Tuesday.

An under sea garden serves as the background for an exotic South Sea dance by Aileen Pringle, who shares featured honors with Doris Kenyon and Ronald Coleman. The setting consisted of a reproduction of a section of the marine gardens familiar to excursionists aboard glass bottomed boats but reproduced on a gigantic scale for screen purposes. A huge sea shell, large enough to hold Miss Pringle, was one of the important parts of the setting and the entire set was sealed on this enormous shell.

The dance and its setting are a part of a lavish society ball which furnishes one of the many colorful episodes of this adaptation of Leonard Merrick's popular novel "The Worldlings." Claude Gillingerwater, Alec Francis and John Patrick head the supporting cast.

1-Ton Chassis Gratly Improved

The Chevrolet Motor company now has in production a larger and greatly improved Utility Express one ton chassis which sells at the same price as the former chassis.

Besides an increase in length, strength and weight, the new truck has undergone a radical change in the height of the frame from the ground. The frame which formerly was 28 inches in height has been lowered to 24 and nine-sixteenths inches. This change affords maximum convenience for loading.

The wheel-base has been lengthened from 120 inches to 124 inches and the overall length of the chassis from 172 inches to 177 inches. The frame is made of 6 inch instead of 5 inch channel steel. The weight of the new chassis is 2,030 pounds against 1,950 pounds, the weight of the former model.

Only one or two minor changes have been made in the power plant.

The rear axle has been re-designed and strengthened. It is of the semi-floating type with pressed steel housing and a large rear cover which makes the unit extremely accessible for inspection. The differential carrier is in unit with the third member assembly.

The front springs now are semi-elliptic instead of quarter-elliptic and the rear semi-elliptics have been lengthened from 42.25 inches to 45 inches.

The steering wheel is the semi-reversible full worm type mounted on a bracket riveted to the frame. All brakes now have centering and equalizing devices and the rear wheels carry heavy-duty 30 by 5 inch tires as standard equipment.

The price of the new Utility Express chassis remains at \$550. An almost unlimited variety of bodies may be obtained. The price of the Commercial chassis also remains unchanged at \$425.
