Norman Wuistinger will operate the control panel in the batching plant.

Fred Cortez will operate the roller mill, grinder and elevator. Robert Bruns is a truck driver for the company.

# Automatic operation provides a Girl Scout Fund

funds for the Winters Girls Scouts is now underway here, with prospects of completing the work within the next few days.

John Gardner, chairman of the Fund Drive, said that campaign committees had been assigned territories in which to work. Some of the areas have already been worked, and leaders have been pleased with results of the drive thus far.

Gardner said that funds collected in this drive will go a long way in offering Girl Scouts "Wholesome recreation, a chance to form rewarding friendships, and to develop practical skills. Girl Scouting helps to give girls a healthy attitude that may well determine the direction their lives will take."

#### **Runnels SCS Will Hold Supervisor Election Tuesday**

visor from sub-division 3 of the Runnels Soil Conservation District will be held at the Norton School Tuesday, October 3, Bill Minzemayer, vice chairman of the district, has announced. Election will of the season. Kick-off time will be held at 7:30 p. m. Tuesday. be held at 7:30 p. m. Tuesday.

Minzemayer said that landowners will elect a man to represent them on the Board of Supervisors from the sub-division. Zone 3 of the district is all that land in Runnels County north of the Colorado River and West of the Ballinger-Winters highway, and south of the Winters - Oak Creek road. Kirby Robinson is incumbent supervisor from this zone.

Runnels County Agent C. T. Parker will be in charge of arrangements for the election. He has announced an educational program to fellow the election, and will give the results of this year's crop vield test that he has conducted throughout the county.

All people, including man and wife, who own land in zone 3 and live in Runnels County are eligible to vote. No poll tax is required, it was announced.

To be eligible to be a supervisor a person must own land in zone 3 and be actively engaged in farming or ranching

Parker has urged every landowner in this zone to have some one in mind to carry on this work of this important post. He said that a Soil Conservation District is not a Federal agency, but a government subdivision of the state and public body coporate and politic. For this reason it is im-

#### Mrs. James Crockett Held VFW Auxiliary Instruction School

Mrs. James Crockett of Winters, President of District 22 of the Ladies Auxiliary to the Veterans of Foreign Wars, held a school of instruction for all district officers at the VFW post home in San Angelo Monday. Instructions were held on floor work of the organization and the duties of of-

ACCO from Winters were Miss Nevell Fisher, senior vice president of the district, and Mrs. W. L. Collins, local president. District officers were present from Eden and San

#### James C. Wright Has Been Promoted In Rank In R. O. T. C.

Cadet James C. Wright has been promoted to Cadet second Lieutenant of the Reserve Officers Training Corps for the coming year. Wright will be platoon leader for 1st Platoon Company "C" according to Major Charles W. Howard, acting professor of military science at Hardin-Simmons University.

# **Hamlin Gridsters** Election Tuesday An election to name a supertion from sub-division 3 of the sub-division

ard football team will meet the Hamlin Pied Pipers here Friday night for their third home game

The Blizzards, with only one win out of our starts for the season, are training furiously for a trip up the comeback trail, determined to knock Hamlin from the top of their 6-AA perch. Hamlin has a season's record of four wins with no losses.

The Blizzards, even though they' ve been dropped to the bottom of the District 7-AA chart, gave a good accounting of themselves a-

#### **Council Meeting Night Changed; New Street Dept.**

The Winters City Council, in regular session Monday night created a new department within the city organization. They made the Street Department a separate unit, separating that function from oth-

er departments. The creation of a separate department for the streets was made necessary, council members said, in order that street maintenance can be carried on without interruption. Heretofore, street maintenance was done by employees in other departments of the city. Under the new setup, according to the decision made by the council portant that the people keep a Monday night, employes who work Soil Conservation District strong, on the streets will be able to give on the streets will be able to give full time to that project.

The Council also changed the day for the regular monthly meeting, and set a limit of \$100 on emergency purchase orders. Regular meeting for the council will by the raging Brady Bulldogs, 28be the first Tuesday of each month, 0. The Bluecats will meet Alinstead of the last Monday.

The Council voted to begin a practice of reading and approving all bills and accounts payable lin. They were whipped 29-8 by each month during the regular DeLeon last Friday night. meeting.

#### Sammie D. Newcomb To Complete Officer Training at Ft. Sill

Mr. and Mrs. Doyle Newcomb, will graduate Tuesday morning October 3, with the Artillery and Missile School class at Fort Sill, Oklahoma as a Lieutenant in the

United States Army. Newcomb entered the service in 1954 and served two years in Korea and two years in Germany. He is married and the couple have three children.

He attended school at Breckenridge and was a member of the Buckeroo football team, and halfback for 2 years on the all-State champion teams.

His parents have recently mov-

champions last week.

Coach L. G. Wilson probably will field his regular string of starters, under generalship of Johnny Caskey as QB for offense.

Hamlin will be out to avenge the ruination of their homecoming game last year, when Winters beat them, and to add another service stripe to their column for the season

Winters Boosters will celebrate Dad-Son night Friday, when dads of Blizzard players to be recogniz-

BLIZZARDS WILL GO TO COLORADO CITY SATURDAY, OCTOBER 7 FOR GAME

The Winters High School Blizzard football team will go to Colorado City Saturday night, Oct. 7, to play the Colorado City Loboes. Game time is 8 p. m.

Tickets will go on sale at the Winters Independent School busi-ness office on Wednesday, Oct. 4. Tickets may be purchased between the hours of 8 a. m. and 5 p. m. each day, through Friday.

ed prior to the game. All booster have been urged to attend, and form a cheering section before the

Elsewhere over the District 7-AA area, other conference teams took beatings last week. Ballinger was the only 7-AA team to come away with a win Friday night, swamping the Post Antelopes 42-8. Ballinger now sports a 2-2 record. They meet Comanche Friday.

Coleman, who went into last Friday night's game against Brady with a 2-1 record, was swallowed bany this week.

Ranger, with a record of 1 win, 2 losses and 1 tie, will meet Dub-

Cisco will play DeLeon this week. They lost to Anson last week 19-, and now have a 2-2 record.

Friday night's encounter, and then a game against Colorado City next Saturday night at CC, wind up the Blizzards' pre-confer-Sammie Don Newcomb, son of ence schedule. Their first conference game will be against Ranger here Oct. 13.

#### Winters VFW and **Auxiliary Help** Carla Victims

#### IT'S THE LAW-IN TEXAS

Suppose that you have a party line telephone. One day your house catches fire—or some other grave emergency arises-and you the pretext that emergency exists. try to call the fire department or the police. Others are using the party line. They refuse to yield the line to you. Your house burns and clearly that an emergency

What is the law on this? The 57th Texas Legislature passed a law which provides a fine up to \$500 (and-or confinement in county jail for up to one month) for refusing to surrender the use hunting rights for one year from of a party line to permit another person to report a fire or summon police, medical or ambulance service in case of emergency.

An "emergency" means a situation in which property or human ever, as Agan hit Hill for 7 on the required of persons under 17 years summoning of aid is essential. next play. The fourth down try or over 65 years of age. This would include a fire, a rob-

bery in progress, or a critically injured or ill person. But don't be a smart aleck and

ask for the line if there is no real emergency. The law also provides up to a \$500 fine and-or up to one month in jail for requesting the use of a party line on

If you face a real emergency, want to call help and find the line busy, interrupt and explain briefly exists. Identify yourself and ask the other parties to surrender the line so that you can call the fire department, police, or sheriff, as the case may be. If they refuse, you should insist on your right to the line, informing them that the law so provides.

Violations of this law should be reported promptly to the county attorney for prosecution. In addition, if a person's property is damaged because someone refuses to yield the line, the property owner very likely may recover the damages in court.

#### Officers Elected For Ruth Sunday School

Class At Church Tues. Officers of the Ruth Sunday school class of the First Baptist Church were elcted at a salad supper Tuesday evening in Fellowhip Hall. Hostess for the supper were Mrs. Clavin Hollway and Mrs. J. C. Hodnett.

Mrs. Hollway, presided for the business session and Mrs. Jack Pierce led the opening prayer. Mrs. M. G. Roper was elected teacher of the class. Officers chosen were Mrs. Calvin Holloway, president; Mrs. Dolf Richards, 1st vice president; Mrs. Ronald Cooper, 2nd vice presidnet; Mrs. Carson Easterly, secretary-treasurer; Mrs. W. J. Briley, assistant secretary; Mrs. Ray Laughon benevolence chairman; and Mrs. Pyourn Brown, social chairman. Miss Jeannine Poe gave the devotion Plan For Creative Ach-

evement. Mrs. Roper closed the meeting with a prayer.

Present were Mesdames Calvin
Holloway, Dolf Richards, J. C. Hodnett, Ray Laughon, W. J. Briley, Pyburn Brown, M. G. Roper, and a guest, Miss Poe.

A racket is somebody else's formula for making a living without too much work.

Most people judge their fellow men by the way they accept them and their ideas.

Any married man can tell you what is meant by the phrase, "Head of the house."

Hunters, observe all safety measures while in the field. Never point a gun at anything you do not want to kill.

The coating of civilization is so thin that it often comes off

#### Alpha Chi Future Teachers Meeting Held At High School

A called meeting of the Alpha Chi FTA was held Sept. 26, 11:30 a. m. in the High School Auditorium with 32 members and two sponsors present. Lynann Kruse, president, called the meeting to order, welcomed the new members, and read the FTA pledge. Carolyn Helm called the roll and read the minutes of the last May meeting. Ginger Gardner

The American Education Week, Nov. 5-ll, and the Texas State Future Teachers of America Convention, to be held at Austin on Feb. 16, 17 were discussed. The annual dues, which were set at \$1.00 and orders for pins are to be turned in to the treasurer by Oct. 10, the next regular club meeting date.

the treasurer's report.

Lynanne Kruse appointed the following committees and committee

Year Book Committee Marta Davidson, chairman; Roy Clark, Sharon Denson, Larry Carwile, and Eugene Mathis. Social committee-Tam Gans,

chairman; Marcene Matthies, Ginger Gardner, Jerry Sneed, Robin Middleton, and Wes Hays. Publicity committee - Rosalene

Funeral Services for Harry Hermans Host Party Tuesday Night

Mr. and Mrs. Harry Herman entertained with the first party of the season for members of the Sans Souci Club last Tuesday. Cohostess were Mr. and Mrs. M. E. Leeman.

The party rooms were lovely with flowers in pink and white A delectable menu was served buffet style from a table laid milk glass bowl containing fruit. Guests were seated at quartet ables laid in white.

After dinner "42" was enjoyed by a guest, John W. Norman and members Messrs and Mesdames Gattis Neely, Fred Young, LaDell Davis, Geo. Poe, Raymond Lloyd, M. E. Leeman, W. F. Minzenmayer, and the hosts.

#### Stalk Destruction Valuable As Control Of Insects

Early stalk destruction and farm cleanup are valuable tools for farmers to use in the control destruction will reduce both the pink bollworm and the boll weevil survival the following winter.

In many areas of the state, boll weevils have been a serious problem this year, and in certain West" was the title of the opening areas the population of pink bollsong which was followed with worms has increased. Extension prayer by Mrs. H. O. Abbott. She entomologists say that a large number of boll weevils are expected to be present in cotton during the late fall. Destruction of stalks destroys the food supply of this insect and reduces the number which may survive the winter, they point out.

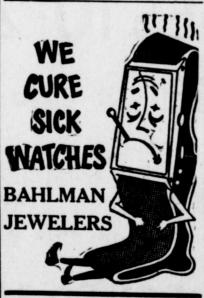

Insects are attracted in large numbers to late-irrigated fields of cotton, so farmers should stop late irrigations to prevent this. In most SMALL FURNISHED HOUSE dian woman; Mrs. Carl Baldwin, cases, it is expensive to produce a late fall crop because of the boll weevils and other insects. Also, there is a good chance that they could make Christ known in a large population of pink bollworms and boll weevils will go into hibernation and survive the winter as a result of this late cotton, explain the entomologists.

In areas of the state where stalk destruction is recommended, it is one of the most economica and effective methods of controlling the pink bollworm and reducing boll weevil populations. The use of stalk shredders is Adolph Gottschalk, son of Mr. highly recommended since these machines kill many of the pink accepted a teaching position in the bollworms left in the field after Frank Phillips College at Borger, harvest. It is advisable to plow He will teach commercial subjects, under the shredded residue to a depth of 6 inches within 5 days after cutting. Stripper harvesting aids greatly in reducing the numbollworms are destroyed during the ginning operatiion.

#### Runnels Ass'n. **Will Purchase** New "TB Gun"

Directors of the Runnels County Tuberculosis Association Thursday evening voted to buy a tuberculin testing sterneedle gun to be used in testing for tuberculosis.

At a meeting of the association in Pierce Cafteria Thursday evening, Mrs. Jane Barnard, school nurse from San Angelo, spoke on "New Aspects of TB Skin Testing Program," and explained the mass tuberculin testing sterneedle gun with disposable sterneedle cartridges. She told how the automatic case-finding device is an improved multiple puncture apparatus for rapid intrademal tuberculin testing. Based on the Dr. Heaf principle of multiple puncture, six needles, contained within the sterneedle cartridge, are mechanically and painlessly driven into the skin through a previously applied film of a stabilized solution of tuberculin.

Mrs. Barnard said that the skin testing program had been carried out in the San Angelo schools and was successful at a low cost.

Follwing Mrs. Barnard's talk, the association voted to purchase this much-needed testing equipment for use in Runnels County.

Mrs. Barnard was introduced by Mrs. Katherine Rodgers, executive secretary of the Tom Green County TB Association.

Approximately 30 directors and members attended the meeting. John Purifoy of Ballinger gave the invocation and Miss Ruth Morgan, vice president, was in charge of the business. Purifoy, the association treasurer, reported that the cash balance on hand as of Sept. 21 was \$1,326.27.

Dr. Green will be county chairman of the Christmas Seal Sale which will begin Nov. 15, and Bob McGarvey will serve as publicity chairman. Community chairmen will be named for the Seal Sale Drive at a later date.

Mrs. Bryan reported on the Seal Sale Conference held in Lubbock recently. Mrs. Bryan, and Dr. and Mrs. Green attended that

Attending the meeting from Winters were Mr. and Mrs. Al Libbe, and Mrs. Fred Young. From Crews were Mr. and Mrs. R. P. Petrie and Mr. and Mrs. Chester Mc-

#### Home Town Talk-

(Continued from page 1) ing situations throughout the world, we thought the following little story we picked up would be quite appropriate:

A man went bear hunting, and found a bear on the hillside. As he raised his rifle, the bear called out, "Can't we talk this over like two sober human beings?" The hunter lowered his gun,

"What's to talk over?" he asked. "Well," said the bear, "What do you want to shoot me for?" "Simple," replied the hunter.

"I want a fur coat." "All I want is a good breakfast," smiled the bear. "I am sure we can get together on this." So the two sat down to work out an agreement. After a while, the bear got up-all alone.

They had reacted a compromise. The bear had his breakfast, and the hunter was inside a fur coat.

Failed to have our football game predictions last week, but don't suppose it matters a whole lot, because seems we've dropped the thread somehow and get caught way off base: missed three of eight the week before. Done a little research, however, and believe the results this weekend will look like this:

Air Force over Kansas State. Iowa over California. Texas A and M over LSU. Lamar Tech over ACC. TCU over Ohio State. Pittsburgh over Baylor. Texas over Texas Tech. Army over Boston. Notre Dame over Oklahoma. West Texas over Texas Western.

#### Pastor of Our Lady Of Mt. Carmel Church Moves To San Antonio

Father Julius Johnson, pastor of St. Mary's Catholic Church in Ballinger and in charge of Our Lady of Mt. Carmel Church in Winters, has been transferred to St. Mary's Parish San Antonio effective immediately, it has been announced. He has served in Winters for the past 4 years.

Father Johnson is a native of Texas and is graduate of St. Anthony's High and Junior College in San Antonio. He is a graduate of the Seminary of Philosophical and Theological Studies at the Demagenod Seminary in San An-

Father Robert Knebelsberger will replace the former pastor.

SPILL BROS. CO.

A distinctively new styling touch in both the front and rear end of the 1962 Chevrolets is a sharp departure from the sloping hood formerly used. The Bel Air 4-Door Sedan with twin windsplits on the hood is one of 14 new standard size 1962 passenger cars offered by Chevrolet in '62. The Bel Air models are exquisite, with new luxurious interiors and appointments. A new Chevy II series will also be shown by Chevrolet dealers when the 1962 passenger car lines go on display Sept. 29.

#### Chevrolet's 1962 Models Will Feature Extensive Restyling, Mechanical Change

A n u m b e r of mechanical passenger car and luggage space changes and modifications will im- more nearly equal that of the prove performance, durability and standard Chevrolet. The car is 183 inches long and has a 110-inch economy of 1962 models.

Among the major changes are a wheelbase. It is 70.8 inches wide new 327 cu. in. V8 engine, a new and 55 inches high.

E. N. Cole, Chevrolet general manager, said "the Chevy II is designed to provide good basic transportation for the average American family and at the most reasonable cost. This includes not Chevrolet's passenger car line- weight-saving Powerglide automaonly the original purchase price but also more economical operating and maintenance expenses.' The new 8 engine is rated at

The car has simple, yet refined styling. Finely sculptured lines flow the length and width of the car to give it a long and substantial appearance.

The nine Chevy II models are divided into three series, with station wagons listed in each. In addition, two-door and four-door sedans are included in the 100 and 300 series. The Nova series also includes a sport coupe and con-

The tapered plate spring introduced on the Chevy II is an industry first and fulfills a longtime dream of automotive engineers. It is the result of years of research to find a rear spring arrangement which would cut the travagant and costly of all exweight and assembly time of multi- penses.-Theophrastus.

leaf and coil springs while providing friction-free ride quality.

The new rear springs are mounted in heavy rubber insulators for maximum noise isolation. The spring is a stell bar five feet long with variation in thickness and width to provide uniform stress dis-

Economy of operation is emphasizeded in both the four-cylinder and sic-cylinder engines designed specifically for the Chevy II. This will mark the first time since 1928 that Chevrolet has offered a four cylinder power plant. The four-cylinder engine has a 153 cu. in. displacement and is rated at 90 horsepower. The six-cylinder unit has 194 cu. in. displacement and generates 120 horsepower.

Both automatic and three-speed manual transmissions are available in the Chevy II.

The body-frame integral design used by Chevy II provides unusual strength and torsional rigidity as well as weight savings. The highly functional design of the entire car allows maximum conversion of exterior size to usable interior space for passenger comfort and luggage storage. In addition, the unitized front end structure will decrease maintenance costs because of easier access of components and parts for maintenance, repair or replace-

The wide customer choice available in the Chevy II is further accented by the 14 exterior colors which will be available along with color-keyed interiors. A full line of comfort and safety options will available, including power steering and brakes.

| fisherman-not the fish-broke | the knot. hat 36-pound test line.

Here's how it happened.

When the fish made its run for reedom, the angler feared he eye. Twist this end at least five might not have enough line on the reel. So he hauled back as hard as he could to check the run. Naturally the strain of the fish pulling in one direction, and the angler jerking in the other, parted the line.

Fish losses like this happen every day. It's the result of excitement and inexperience. Usually the angler could have landed important it decreases line the fish by playing it.

Redfish aren't noted for long only by about 20 percent. runs. Their runs are short, 20 to 30 yards at most, before they change directions.

So if that angler, who felt that the line was getting near the end of the spool, would have walked down the beach with the fishor even waded out into the water, he might have landed it.

Many line breaks occur because the angler fails to periodically That redfish weighed exactly 11 check the line for frayed spots. Let me point out here that line

fraying usually occurs in the first few feet of the line. And here's

Every time you cast out, tremendous pressure is exerted on the line where it comes in contact with the rod-tip top. Eventually this will fray and weaken the line. Play it safe by cutting off a few feet of line every time you make a trip. Thus you will get rid of that part of the line subjected to heavy pressure and the greatest wear in casting.

You should frequently check the rod-tip top-particularly if you use nylon or monofilament line. These lines are extremely hard and in heavy fishing will grooves in the tip top.

Agate tip tops will crack and chip, and the sharp edges will cut the line. Replace faulty tip tops immediately. Rust on the metal tip top will

ruin a line. If you can't clean the rust off, replace the tip top. Line comes in various pound tests. Its strength will remain con-

stant unless the line is abused This is particularly true with linen lines used in salt water fishing. Linen line stored wet will rot quickly.

It's better to practice good line maintenance than to lose a fish because of line neglect.

Regardless of the strength of the line, you weaken it every time you tie a knot in it. The degree of weakening, however, can be minimized by learning to use the proper knots.

The simple, ordinary square knot will cut line strength about 50 percent. Obviously a line testing out at 36-pounds will break at about 18 pounds at the point of

Best knot to use is the blood Knock Out 1962 or jam knot. It's tied simply by running one end through the hook

knot that will not slip. But more

Wellington Lady To Represent Region In Mrs. Texas Contest

Mrs. B. M. Sims of 1310 El Paso Street, Wellington, was chosen Thursday as Lone Star Gas representative in the Mrs. Texas contest in Dallas Nov. 2-3.

Mrs. Sims won the right to re present the Region as Mrs Wellington in the state finals by outpointing nine other outstanding area homemakers. She was chosen following varied competition in homemaking skills at Lone Star's Regional office building at 155 Hickor Street. Mrs. Sims received her crown at a luncheon following the competition.

Mrs. Sims will meet champion Homemakers from Lone Star's South and East Texas Regions and the Dallas and Fort Worth DIVI sions of Distribution in Dallas Nov. 2-3 to determine the state's top homemaker.

The homemaker chosen Mrs. Texas will represent her state in the national Mrs. America contest scheduled for Nov. 13-27 at Fort Lauderdale, Fla.

A native of Dozier, Mrs. Sims is a life-long resident of Texas. The brown - haired homemaker is 31 years old, stands five feet of twins-Richard and Randall 3.

Mrs. Sims is a member of the Wellington Federated Music Club, the Ti-i-ca Service Club, the Vibratos, the St. Josephs Hospital Auxiliary, the Blue Bird Troop of local Camp Fire Girls, Inc., and Shamrock Community Concert As's.n She was sponsored in the Regional finals by the business and Professional Women's Club of Wellington.

She lists entertaining of company as her favorite household duty and waxing hardwood floors as her least favored chore.

Mrs. Sims was awarded a Magic Chef gas range for winning in the finals. If she is selected as Mrs. Texas, she will receive: a major gas appliance; a wardrobe from the Puritan Dress Company; \$200 in cash; an all expense paid trip for herself and her husband to the National Finals; and other valuable prizes.

> "By Love Possessed" The book which was hailed by voltage that electrified Broadway

the best-seller lists, has been made into a motion picture calculated to stir up an equally controversial storm of reaction. "By Love Possessed," starring Lana Turner, Efrem Zimbalist, Jr., Jason Pobards, Jr. and Barbara Bel Geddes, opens in color Wednesday at the State Theatre, through United Artists release.

The theme of this story is love. Love viewed in all its aspects, from filial to fraternal, connubial to concupiscent. Threaded into this theme is the story of a staid and respectable lawyer whose safe and stolid world is threatened by a series of events that probe the heart of his private and professional existance. As Majorie Penrose, Lana Turner, one of the screen's most glamorous and popular personalities, plays the passionate woman who is torn between love for her husband-and for his best Friend. As the husband, Jason Robards, Jr. brings to the screen all of the emotional nom of snakes into his critics as a major literary achieved audiences with his work in "The rife. ner," Robard's law-partner and as she is paid on time. the screen husband of Barbara Bel Geddes, who, as Clarissa, calls rather than a love affair.

"The Rat Race"

The hard-hitting story of young moderns caught in the competitive rat race for survival in today's hectic world, which was dramatized so successfully in Garson Kanin's hit Broadway play, has been adapted by the film production team of Perlberg-Seaton into the Technicolor Paramount picture,"The Rat Race," due Saturday and Sunday at the Fiesta Drive In Theatre. Starring Tony Curtis and Debbie Reynolds, the romantic drama co-stars Jack Oakie, Kay Medford and Don Rickles with a trio of jazz favorites, Joe Bushkin, Sam Butera and Gerry Mulligan.

"The Rat Race" tells specifically of jazz musician Tony Curtis, who leaves his home town of Milwaukee to seek a career in New York City. There in the lower rents a room from which Debbie Reynolds has just been dispossessed for non-payment of rent. Debbie is a disillusioned, cynical failure. Her show business ambitions sty- tive genius. mied, she has been reduced to whom she considers a square, sells ted. her on the idea of sharing the

The harrowing experiences the young people have and the devetheir marriage a business merger lopment of their romance, built on a growing admiration and respect of each other's principles, all played against the excitement of New York's "rat race," constitute one of the season's top motion pictures.

'Master of the World"

"Master of the World," filmization of the amazing Jules Verne story, marks the first time that American International Pictures president James H. Nicholson has produced a film. He has served several times as executie producer on pictures, however.

The famous Verne classic has always been a great favorite with Nicholson, whose company has consistently furnished the public with exciting film entertainment.

For his first production chore he spared no expense and the film has the biggest AIP budget to date. He assembled a superior cast and all details of the film, West Side slum neighborhood he including those of the fabulous airship were given the most meticulous attention. The result is a motion picture that can only add to the lustre of Verne's imagina-

#### "How Many People Should a Bomb Shelter Accomodate For Two Weeks?"

September 15, 1961 makes some the fallout which would drift from statements regarding "fall- this explosion would also be deadly. out" which need careful checking However, if all the nation's peoand analysis.

WHAT PRESIDENT KENNEDY DID NOT SAY

In the President's letter which preceded the article, the President said: "The government is moving to improve the protection afforded you in your communities through civil defense. We have of two weeks amount to about begun, and will be continuing 5,000,000 people. Hence, the scope throughout the next year and a of the entire project of shelters half, a survey of all public buildings with fallout shelter potential, and the marking of those with adequate shelter for 50 persons or more. We are providing fallout shelter in new and in some existing federal buildings. We are stocking these shelters with one week's food and medical supplies and two price of the shelter increases. No weeks' water supply for the shelter occupants.'

Neither the President nor Life Magazine made clear the difference between the effect of the explosion of an H-Bomb and the resultant fallout. If an H - Bomb should strike a city, the blast would probably kill 97 percent of the

BE TRIM WITH the new effective vitamin-mineral reducing aid

MAIN DRUG COMPANY

P. O. BOX 655

Sales Manager

tured article in Life Magazine for ter" would be of any use. But ple had proper shelters, 97 percnet of the people not killed by the blast might survive the fallout drifts.

> COST OF FALLOUT SHELTERS Even 3 percent of those in shelters who might die from fright or from other causes in the course is stupendous. I have had a survey made of an average home shelter; the minimum cost quoted is \$1850. This is for a shelter in a basement 100 miles from the center of a large city which might be bombed. As the distance becomes less than 150 miles, the shelter within five miles of where the bomb hits would be of any use. At least 90 percent of those within this radius of five miles would be killed under any conditions-shelters or no shelters.

WHAT DO INHABITANTS OF **BERLIN WANT?** We are constantly told what Mr. Khrushchev wants; also what President Kennedy wants; but we have never heard what the people of Berlin want, or do not want. Of course they want food, water,

and heat. They feel that the West Germans will see that they get these. But they certainly do not want a "shooting war" between BALLINGER MEMORIAL COMPANY

in small cities or towns the answer is very difficult, where all are neighbors and friends of one another. It is one thing for a neighborhood or community to build a shelter which would accomodate several hundred; but to build for just one's own small family would, I should think, make one feel rather selfish.

WORLD WAR III?

All of the above boils down to the question of whether missiles with hydrogen bomb heads will be thrown at cities of the U.S.A. to cause their destruction? I don't believe they will be for many years to come. When I was in Berlin, Poland, and Russia two years ago, I was told by high Berlin officials that there must first be developed an accurate anti-

There is none such now. Only bombs launched from airplanes or submarines have an accurate enough aim to destroy a large city. Such a city must be relatively near the seacoast. We are building up the defenses of these cities as fast as possible so that we will be in a position to use "anti-missile missiles" when we have them in storage. Such defense missiles are what Russia is now testing and it is silly to talk about such tests underground either by Russia or by the U.S. A.

All Is Ready To Make **'61 State Fair Biggest In History** 

Fair of Texas, the most eagerly awaited event of the year for millions of Texans young and old. The Fair will present its 16-day "Exposition of Music" Oct. 7 through 22.

Theatrical highlights are Rodgers and Hammerstein's Broadhit, "The Sound of Music," and the all-new edition of "Ice Capades of 1961."

There will be a spectacular "Torchlight Parade of Music" around the fairgrounds each evening, with bands, beauty queens and floats representing many cities from all over the state in the line of march. Twenty-five breeds of pure-

bred beef and dairy cattle, swine, sheep and goats wil be on exhibit in the Pan-American Livestock Exposition Oct. 7-15. The Junior Livestock Show will take place the second week of the fair. Fine show horses, Shetland ponies, Cutting horses, Quarter horses and Arabians will perform in the free horse shows in the Livestock Coli-

At least a dozen foreign countries will have exhibits in the Texas International Trade Fair. which also features an exotic International Bazaar. Most of the new 1962 model cars will be on display in the Automobile Show. The Agriculture Show will show how "Agriculture Touches You." Other exhibits ranging from art to astronautics include a full-size replica of the "Project Mercury" space capsule. The Future Farmers will have a "children's barn-

For the ladies, there will be model kitchens, free fashion shows several times daily, exhibits of the latest gas and electric appliances, and a fully furnished model home that promises to be a 'house of surprises." The Women's Building will, of course, house prize-winning displays of needlework, foods, arts and crafts.

Russia and the Western Allies, with Berlin getting the worst of it all in the center of the fighting.

Therefore, as a practical matter, should one build a shelter here in the U.S. A. until it is learned that the well-to-do families in Berlin (both West and East Berlin) are building shelters? Another awkward question: How many people should such a shelter be built to accommodate for two weeks? Those living on farms and having no near neighbors can answer this question quickly; but

While the new Galaxie is slightly shorter and fractionally narrower than the 1961 model, the large passenger compartment is the same size as 1961. Large door openings, coupled with Ford's convenient two-position door stops, make entering and leaving the Galaxie an easy and natural move-

The ideal dimensions and easy steering of the 1962 Galaxie result in greater parking ease and

MODELS

There are 12 models in the Galaxie and Galaxie 500 series: Galaxie 2-and 4-door sedans; Galaxie 500 2-and 4-door sedans and hardtops and a convertible. In the station wagon series five spacious vehicles are offered; the 4-door 6-passenger Ranch wagon, 4-door and 9-passenger Country Sedans, and 4-door 6- and 9-passenger Country Squires.

STATION WAGONS

All five new Galaxie station wagons have an easy-to-operate rolldown rear window in the tailgate. A power operated rear window is standard in both of the Country Squires and in the 9-passenger Country Sedan, and optional in the other two station wagon models.

The Galaxie 9-passenger wagons have the only forward facing third seat in the low priced car field, and the new, easy-to-fold second and third seats can instantly be converted into a flat, level cargo

Tailgat openings on all of the wagons are more than 50 inches wide and the wagon's spacious interiors easily accommodate fullsize 4-foot by 8-foot plywood boards even with the tailgate closed.

The Ford Falcon for 1962 boasts new styling, an expansion of the economy and maintenance - free features that have made it the country, and the addition of two new models.

The new models are a Falcon Squire station wagon and a Deluxe Club Wagon.

Our free public school is taking 33.9 percent of the tax dollar. Hi-ways and roads are next at 26.8 percent. Public welfare gets 15.8 percent. Higher education comes in for 9.6 percent while health, hospitals and special schools account for 4.5 percent.

**NEW FARM ROADS IMPROVED** A one year program calling for construction of 613 miles of new farm to market roads costing \$15, 000,000 for this purpose in the second half of the biennial appropriations bill.

Governor Daniel cut out the second year allocation in order that more flexibility might be attained ed in providing maintenace for the farm roads system.

Since 1949, under the Colson-Briscoe act \$15,000,000 annually have been earmarked for the construction of farm to market roads. causing all maintenance costs to come out of trunk highway funds.

While this arrangement was inequities in the new sales tax necessary for many years, to build up farm road mileage, the highway commission says the problem now is financing the maintenance of these roads. Therefore, at least a portion of the earmarked funds needs to go for this purpose. Action on this matter is expect-

ed in the next special session of the legislature.

OIL PRODUCTION CUT Allowable oil production inTexas for October has been reduced by an estimated 48,490 barrels per mission. Order was based on estimated market demands.

An eight-day producing pattern was ordered for most of the state. This will result in a total allowable production of 2,683,214 barrels

Eleven out of 12 major purchasers of Texas crude oil had recommended the eight-day pattern. Sun Oil Company suggested nine days of production. TEXAS GETS MOON ROCKET
