Several of our boys were injured but none seriously. We play Rochelle here Friday night in our Homecoming game.

"Not at all, son. Some people said that even back in Thomas Edison's time. Look what he did... and what's been done since then!"

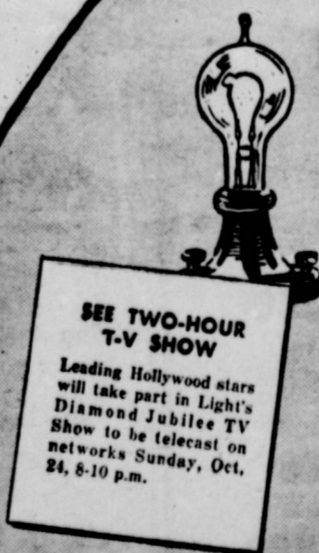

"It's been just 75 years since he invented the first incandescent light bulb. Then he built the first commercial electric light and power plant. This opened up an entirely new world of electrical living."

"Best of all, progress will go right on... and someday you will have a part in it."

LIGHT'S DIAMOND JUBILEE is being celebrated nationally to commemorate Thomas A. Edison's invention of the first practical incandescent light on October 21, 1879, and to recognize progress made in finding better ways for electricity to serve more people.

This progress has been possible because the American system of Free Enterprise, which recognizes individual initiative, has provided opportunity and encouragement for each person, as well as for business and industry.

## COUNTY ASC WORKS OUT COVER CROP PROGRAM FOR THIS AREA

The Eastland County ASC (formerly PMA) Committee has worked out a cover crop program and purchase orders are being issued to farmers and ranchers on seed and fertilizer, Administrator Emmett Powell announced Saturday.

The program was worked out at a meeting of the committee early last week and submitted to the state agency for approval. Although the approval has not been received, the county agency has started with assurance that the state committee will approve the program.

Mr. Powell said the Eastland County program will include payment of \$1.20 per acre on seeding hairy vetch with a nurse crop of small grains except wheat. The sum of 70 cents per acre will be paid on oats, barley, speltz, and rye with legumes, and where 160 pounds of super phosphate is used to the acre an allowance of \$1.25 per acre will be made.

Approval of the ASC in ad-

vance is necessary before any payment will be allowed in the cover crop program, Mr. Powell emphasized. Crops must be seeded before December 1, 1954, for payment.

Mr. Powell added that "we still have money left for tank building, terrace work and brush pushing during the current year."

It was understood that about \$30,000 has been obtained for use in the county cover crop program. The county ASC committee is composed of E. E. Blackwell of Chaney, W. R. Ussery of Carbon and W. E. Cooper of Rising Star.
