## HOME TOWN Talk

By R. C. THOMAS

Autumn in West Central Texas is a wonderful and joyous season. (Other nice seasons here are Winter, Spring and Summer.) At this time of year, frost has already visited, and the countryside is truly a nature-brushed canvas of many colors. Hues of the leaves run from last-struggle green to bright yellows, oranges, reds and umbers. Pecans have been falling, and late afternoon shadowed sunstreaks focus on industrious nut gatherers.

There are sounds of Autumn, too. High-pitched shrieks of children playing at dusktime, the whispering crackle-crunch of fallen leaves being walked upon, and occasionally in the early evening the anxious conversation of southbound ducks.

There are other sounds of Autumn, too. The coughs, wheezes, sneezes and sniffles of those unfortunate ones whose biological makeup is susceptible and sensitive to many of the fine particles of dust and airborne bits of weed and tree, and smoke from burning leaves and grass. At this time of year, they are forever being treated to large doses of nature-made and man-made pollutants, causing eye, ear, nose, throat and chest irritation.

Many suffer silently through this period of watering eyes and running noses; misery demands company, so many of the susceptible ones seek out others who are likewise suffering; and others of us search for those who are not affected and to them describe our miseries. It is said that a good rain right now would lower the pollutant content of the air, thereby doing what dozens of pills, syrups, lotions and asafetida bags cannot accomplish.

Now that leaves are falling, many are being burned. The Fire Department once again reminds of the dangers connected with burning grass, weeds and leaves, especially during dry weather. High winds common to this season can blow such fires out of control, threatening destruction to homes and yards. The Street Department also warns against burning leaves in street gutters; this practice destroys asphalt street surfaces, it is pointed out. To say nothing of discomfort directed toward our allergy-suffering neighbors.

If leaves are raked and put in boxes or bags which can be handled, they will be picked up by the Sanitary Department, we have been informed.

It took 60 years and 11 presidents before the federal government spent \$1 billion in a single year. Now this feat is accomplished in just two days.

One sure test of willpower is to see a friend with a black eye and not ask questions.

The "eyes" may not have it. The twinkle in that fellow's eye may be only a reflection of the light on his contact lens.

According to a West Texas Utilities Company publication, "There is a land where there are no income taxes, no property taxes, no sales taxes and no taxes of any kind, and the per capita income of the people is \$6,000 a year—about double that of the U. S. All medical expenses are paid for all citizens of the state and there is a hospital bed for every 110 persons—the highest ratio in the world. The government pays all education costs, including lunch, transportation and clothing. A \$200 bonus goes to each passing student. If you are in the upper 80 percent of your high school class, you may enroll in any university in the world all expenses paid, with \$3,160 a year pocket money and other bonuses for good grades. Where is it? It stretches for 100 miles along the northern shore of the Persian gulf and it is the oil-rich little Arab nation of Kuwait. But who wants to go to Kuwait?"

## Post Office Lists Recommendations On Mailing Christmas Cards, Parcels

Winters Postmaster H. M. (Jiggs) Nichols this week listed six tips on how residents of the area can help meet tight Christmas budgets this year by careful mailing of cards and parcels.

For the most efficient mailing, Nichols suggested the following steps:

—For servicemen overseas: "SAM" (Space Available Mail) Christmas parcels can be sent until November 20 for only the small domestic parcel post charge involved from Winters to East or West Coast points of embarkation for military mail. Parcels up to 5 pounds and 60 inches in combined length and girth are accepted at this low rate.

—Larger parcels—up to 30 pounds with the same length and girth limitations—can be sent as "PAL" (Parcel Airlift) mail, provided they are mailed by November 27. The charge is only \$1 per parcel, plus the regular domestic parcel post postage.

—Use ZIP code as a tool for economy in mailing. When it is used consistently on parcels and cards, ZIP Code helps prevent errors in delivery and expedites handling. If only a few Christmas cards go astray, an investment of several dollars may be lost, for example.

—The key to efficient Christmas mailing," Nichols commented, "is to mail early and carefully. Clear addressing, with the ZIP Codes, proper packaging and early depositing can prevent most problems and provide the greatest value for money spent for postage."

—Get plenty of stamps on your first trip to the post office to avoid the time and expense of additional trips.

—Insure parcels realistically to cover full value but do not overinsure. A \$10 gift, for example, can bring only \$10 compensation, if lost, even if "insured" for \$100.

## Blizzards Outfought Eastland Mavs, But Lost Game 10-7 Last Friday

Blizzard fans have witnessed some exciting football games this year, and last Friday's game with Eastland was certainly no exception. In a terrific defensive battle, the Blizzards were downed 10-7 by the Mavericks, who are rated No. 3 in the state.

The Mavericks' lone touchdown came after the Blizzards fumbled a punt deep in their own territory. Ruben Gaeta ran the last 10 yards for 6 points and James Edison's kick added one more point.

Eastland held this lead at halftime but met a fired-up Blizzard team as the third quarter began. It took the Big Blue only 10 plays to score after taking the kickoff on the 35. Mike Mathis took the ball from quarterback Steve Tatom and carried it 11 yards to score. David Harrison's kick tied the game 7-7.

Later in this period, the Mavericks, having tried to penetrate Winters' offense, attempted a field goal on a fourth down. James Edison toed the field goal and gave Eastland its winning 3 points.

The fourth quarter found the Blizzards driving hard for another score. With seconds to go and timeouts depleted, the Blizzards were forced to forfeit the ball on the Maverick 4-yard line.

In yards offensively the Blizzards topped Eastland 280 yards to 129 as they did in all the statistics. A commendable effort was given by all the Blizzards, earning support of all Blizzard fans.

She took the short tour through Mammoth Cave in Kentucky, and at Glasgow, Ky. found the site of her grandfather's old homestead and visited her grandparents' graves in the family burial plot near the house.

The drive through the Blue Ridge Mountains of Virginia was very beautiful, since the trees were at their autumn best. Her father fought in the Battle of Gettysburg, so visiting the old battleground was of special interest.

In the capitol she did the typical tourist things: visited the senate Chamber in the Capitol, went on the White House tour, up the Washington Monument, watched the changing of the guard at the Tomb of the Unknown Soldier, visited the Kennedy graves, and also walked through portions of the Smithsonian Institute and had lunch in the Cafeteria there.

Next was restored Colonial Williamsburg, and replicas of the original Pilgrim ships at Jamestown. In Alabama she was able to find the site of the Helicon Baptist Church near Bradleyton which she attended as a girl 76 years ago. The old church has been torn down and they are building a new Negro Baptist Church there now. Mrs. Baker was born near there and came to Texas with her parents when she was ten years old.

# STATE Capital NEWS

AUSTIN—Half a dozen new amendments have been added to the Texas Constitution, including one authorizing sale of liquor by the drink.

Passage of Amendment 2, however, does not mean automatic mixed drink dispensing. Amendment merely repeals the ban on open saloons and empowers the legislature to pass a law regulating liquor-by-the-drink.

Start' g next January, lawmakers must first act to establish procedures, licensing requirements and regulations. Then, local option elections must be held to determine where mixed drink sales are wanted by voters.

Many observers feel there actually will be no legal sales of booze over the bar in public establishments before the end of 1971. Others think preliminaries will be disposed of in some areas by mid-year, but that would mean passage of the bill by a two-thirds majority to place it in immediate effect. More likely effective date of legislation is next September, with elections to follow.

Other constitutional changes would provide for:  
—Disciplinary action, including censure, of all judges.  
—Appointed (by governor) three-man State Building Commission.

—County issue of road bonds up to one-fourth of assessed value of all local real property, on majority vote of property taxpayers.  
—Increase from \$5,000 to \$10,000 in value of homestead which is exempt from forced sale.  
—Laws permitting all counties to consolidate certain services and offices.  
Amendment to permit farm land assessment on the basis of crop yield was defeated.

**GOP'S ECONOMICIZING**

## FAMILY LAWYER

**Radar Vs. Motorist**  
Citizen Haines, given a ticket for speeding, determined to fight his case in court. At the hearing, officers relied on radar evidence to prove the charge against him. According to radar, Haines had indeed been travelling well over the speed limit.

But the police overlooked one thing. They failed to produce evidence that their radar equipment was in good working order on the day Haines was arrested. Result: He won an acquittal.

This case illustrates how the law, while accepting the benefits of technical progress, is also concerned with fair play for the individual. Almost everywhere, in traffic cases, courts will insist on evidence that the radar equipment was working properly when it was put to use.

Today it is standard practice for such equipment to be checked regularly. Usually this is done by tuning forks or by clocked road tests. Even so, some motorists, still not convinced, have challenged the entire principle of radar, calling it too experimental to be trusted in the courtroom.

In an earlier day, the law too was skeptical about radar as a scientific principle. But now that skepticism has largely disappeared. As one judge put it: "X-rays, electrocardiograms, time by watches, identity by fingerprinting, and ballistic evidence are freely accepted in our courts for their general reliability, without the necessity of expert testimony as to the scientific principles underlying them. The use of radar for speed detection may now be said to fall in this category."

In one case an arrested motorist, flagged down by radar, tried a different tack. He claimed he was the victim of an illegal "speed trap." But the evidence showed:

(1) that the vehicle containing the radar equipment was plain-

ly marked as a police car; and (2) that the officers manning it were dressed in their regular uniforms.

Unable to see any "trap" in this situation, the court ordered the motorist to pay his fine. The judge felt that a speeder could not complain merely because the police had found a new and better way to catch him.

**EMPLOYMENT DOWN**  
For the first time in more than 20 years, September unemployment figure for Texas exceeded joblessness for August. Texas Employment Commission reported a tenth of one per cent hike in the jobless rate.

Just three times since 1947 has the September rate ever been as high as August. Last September's total climbed 3,000 to 179,500; but overall the state average was just 3.8 per cent. High was in Laredo with 8.5 per cent unemployed, and low in Houston and Austin—with just 2.7 per cent.

Savings and loan associations seek branch offices in Pasadena, San Antonio and Houston. Cigarette taxes dropped \$600,000 in October, but that's \$1.2 million higher than a year ago—or \$15.2 million total for the month.

## Prairie Chicken Hunters Enjoy Good Season

SAN ANGELO—Prairie Chicken hunting in four Permian Basin and eight Panhandle counties was the best in years, according to Jack Parsons, wildlife supervisor for the Texas Parks and Wildlife Department Region I. Total harvest was 231 birds in the Permian Basin and 232 in the Panhandle.

There has been an open season on the lesser prairie chicken in Panhandle counties for the past several years, but the 1970 season was a first for Yoakum, Cochran, Terry and Hockley Counties.

Project Leader Dick DeArment said 124 successful Panhandle hunters averaged 1.87 birds each, spent an average of 4.7 hours in the field, fired an average of 7.33 shots per man and dropped birds into the bag that averaged 1.57 pounds each.

DeArment said a total of 98 hunters used 909 shotgun shells, and only 37 hunters used dogs. They hunted chickens a total of 583 hours, and an incomplete estimate of the costs involved came to approximately \$725.00.

MR. AND MRS. BILL MOORE

### Mr. and Mrs. Bill Moore Honored On 50th Wedding Anniversary Sunday

Mr. and Mrs. J. W. (Bill) Moore were honored with an open house on their fiftieth wedding anniversary, Sunday, November 8. The affair was held in the home of their son, Mr. and Mrs. Ellis Zane Moore.

Hosting the open house were the couple's children, Mr. and Mrs. H. J. Autrey Jr., of Temple, Mrs. S. A. Loy of Van Wert, Ohio, Mr. and Mrs. Ellis Z. Moore and Mr. and Mrs. Billy Moore of Winters.

Mr. and Mrs. Billy Moore greeted and registered guests. A handmade antique candle holder decorated the registry table.

In the receiving line were Mr. and Mrs. H. J. Autrey, Ellis Moore, and Mrs. Loy.

Grandsons, Robert Moore, Mike Moore, Marvin Moore, Terry Cooley, and Pat Hammonds directed guests to party rooms.

Granddaughters, Miss Sylvia Moore of Lubbock, Mrs. Pat Hammonds of Austin, and Christy and Cathy Autrey of Temple, served at the tables.

The bride's table was covered with white damask, and centered with a three-tiered wedding cake topped with wedding bells. The cake was encrusted with a gold "50." Orange punch was served from a cut glass crystal bowl, and white candles, encircled with gold wedding rings, in antique crystal holders decorated the serving table.

The groom's table was laid with gold damask, and chocolate cake and coffee were served from a silver service.

Yellow cut roses and yellow and gold mums decorated the party rooms.

Others in the house party were Mrs. J. J. Hawkins, Mrs. D. R. Spears, of San Angelo; Mrs. A. T. Ballard of Haskell, Mrs. Garland Bridwell of Wichita Falls, Mrs. Andy Everts and Beth of Temple, and Mrs. May Delle Street of Fort Worth, and Mrs. Ernal Bridwell of Dayton, Ohio.

Mr. Ley and two grandsons and one granddaughter, of Van Wert, Ohio, were unable to attend.

About 180 registered during the afternoon.

Mrs. Moore was the former Stella Bridwell, daughter of the late Mr. and Mrs. E. T. Bridwell. She was born July 19, 1903, at Campbell, Hunt County. Her family moved to Winters when she was five years of age. Mr. Moore was born Sept. 3, 1898, at Heawasse, Ga., the only son of the late Mr. and Mrs. Charlie L. Moore. As a young boy he moved with his family to Whitewright, Texas. When he was 19, he moved to Winters, where he was married to Stella Bridwell on Nov. 10, 1920. They were married in the Presbyterian manse by Rev. Johnson. The bride's attendants were Mrs. Oren (Mittie) Mathis, now of San Angelo, and Mrs. Virgie (Penny) Childers, now of Odem.

Mr. Moore is in the plumbing and sheet metal business with his sons in Winters.

#### TIRE STOCKS SET TO ROLL

Tire companies have had a tough time, suffering from the economic slowdown, a disruptive strike within the industry, a soft auto market, inflation of raw-materials prices and wage costs, and now the General Motors strike. Then, too, there has been the expense of converting to bias, belting and radial-ply tire production. Consequently, the lower earnings registered last year have persisted into 1970. First-half results were off markedly, and full-year earnings, reflecting the strikes, will likely be under the year-earlier period.

#### Rebound Ahead

Despite a slow start and some uncertainties, however, the overall outlook for the industry is far from gloomy. Among the bright spots: Big replacement market; expected pickup in new car output once the auto industry settles its labor problems; a decline in changeover expenses; recent price boosts; benefits from plant modernization.

For reasons of safety, longer wear, and wider variety of uses, the industry has been switching to the new bias-belted and radial-type tires. Estimates show belts have captured between 45 percent and 66 2/3 percent of the market for new cars. These types are longer wearing by 15 percent to 30 percent than conventional tires, but cost of conversion was underestimated so cost over-runs hurt profits last year and even into this year. But brighter earnings prospects are emerging now that conversion is practically completed and costs can be better controlled. Look, too, for improving demand in both new and replacement markets.

#### Offshoots of Competition

At present, five tire makers control the biggest part of the market: Firestone, Goodyear, Uniroyal, Goodrich and General. Some have expansive product mixes, but here we will emphasize their place in the tire field. Competition and market demands have forced manufacture of a wider selection of products in terms of components, sizes and styles. Safety features were incorporated into quality standards at the same time, adding to the higher operating costs.

Bias-belted tires have taken a good share of the market and are extremely popular with consumers. Companies failing to capitalize on this trend will feel more pressure on profit margins.

#### Replacement Market

Weak demand for new cars plus the prolonged strike may well reduce 1970 auto production by more than 1 million units... dependent of course, on how much longer the tie-up lasts. Hence, tire output for the original equipment market will fall by approximately 10 percent. But it should be noted that replacement tire demand currently accounts for over two-thirds of industry sales and could more than offset the dip in original equipment turnover. With more than 100 million vehicles on the road, total shipments of replacement tires are projected to 136 million this year compared with 129 million for 1969.

An encouraging feature of the outlook for tire makers is that cars now two or more years old are on the increase because of the bulge in production figures in the auto field from 1967 to 1967. This group is now ripe for tire replacement. These factors should be beneficial to tire companies in terms of future profits and earnings, and increasingly so for the months further ahead.

### 3,000 Rainbows Stocked in River

The Texas Parks and Wildlife Department October 22 stocked 3,000 rainbow trout in the Guadalupe River below Canyon Dam bringing the total to approximately 9,000 stocked this year.

The trout averaged 8.6 inches long and weighed approximately a quarter-pound apiece.

Bob Pounds, project for the Department who heads up the joint project of the Department and the U. S. Fish and Wildlife Service, says the trout are easier to catch just after they are stocked in the river. After that, they get wilder and smarter.

The rainbows were released at six points along the river, all accessible to the public. Bounds says the best methods of fishing for the fish are with small spinners and flies, Cheese, corn, marshmallows, salmon eggs and worms on a number 10 or 12 hook also work well.

The flow of the Guadalupe is low at this time, making wade fishing ideal. The river is open to wade fishing, but fishermen should not leave the river on private land since this constitutes trespassing.

The limit is five trout per fisherman a day.

## AROUND THE 8-AA FOOTBALL LOOP

There'll be suspense right up to the final hour in District this year, it appears. Play-off representative for the district will be definitely decided Friday night as the Coleman Bluecats meet the Eastland Mavericks on Coleman's home grounds. This promises to be the area's AA limelighter this week.

Up until last Friday night, it could have gone a couple of which-ways—but Coleman won the right of final challenge to Eastland by slapping the Ballinger Bearcats 21-8, and Winters lost a 10-7 squeezer to Eastland.

Either way this game goes, the district will be well represented in post-conference play-offs. The Eastland Mavericks have defeated all comers so far this season, and would give someone some trouble on into extra games. The Mavs ran up big two-digit scores against every opponent in pre-conference games, and kept up this pace into district. It wasn't until they came up against Hamilton they ran into trouble, edging by in that contest 9-0, slipped by Ballinger 18-7, and then almost didn't make it with Winters last week.

On the other hand, the Coleman Bluecats made as strong a showing—maybe stronger—with only one loss to mar their record for the year. They stopped always-tough Brady, Anson and Ozona in pre-district, looked better against their district opponents, and slapped Hamilton 25-0, then Ballinger 21-8. Their only loss was an 8-7 to Winters.

Ballinger and Winters end the season neck and neck, each going into the last game with 3-2-1 records for district. Winters is ahead for the season, with 6-2-1, to Ballinger's 5-3-1. Ballinger goes against Comanche at Ballinger Friday night, with prospects of keeping position.

Winters goes to Cisco for the last game, against the winless and tieless Lobos Friday night. Hamilton goes to Clyde for the final game.

MR. AND MRS. LLOYD COMPTON

## Mr. and Mrs. Lloyd Compton Observe 50th Wedding Anniversary Sunday

Mr. and Mrs. Lloyd Compton celebrated their 50th wedding anniversary with an open house in their home at 301 Wood Street Sunday, November 8.

Hosts for the occasion were the children of the couple, Mr. and Mrs. Harley Robinson of Lubbock, Mr. and Mrs. A. J. Dean of Big Spring, Mr. and Mrs. J. B. Dunnam of Winters, Mr. and Mrs. Dennis Poe of Winters, Mr. and Mrs. Vernon Compton of Vernon, and Mr. and Mrs. Jim Roberts of Baltimore, Maryland, who were unable to attend.

Guests were welcomed by Vernon Compton, who presented the honorees, and the daughters of the couple, Mrs. Harley (Clara Alyce) Robinson, Mrs. A. J. (Ludie) Dean, Mrs. J. B. (Lila) Dunnam, and Mrs. Dennis (Rhuennell) Poe.

Mrs. B. M. Batts of Ballinger, sister of Mr. Compton, registered guests. A yellow carnation in gold bud vase decorated the registry table.

The three-tiered cake was beautifully decorated with a gold "50" on top, and yellow and white wedding bells, bride's slippers, clasped hands and butterfly. The top tier of the cake formed the centerpiece for the table when placed on a crystal cake stand, which was a wedding gift given to the couple at the time of their wedding. Silver candle holders decorated with yellow carnations held six yellow candles and were placed on each side of the cake.

Party rooms were decorated with arrangements of yellow spider mums and bronze daisies.

## Harvest Season Brings Reminder Of Vehicle Regulations From DPS

This area of the state is well into the harvest season when many farmers are using commercial vehicles to transport their agricultural products, and the Texas Department of Public Safety points out some of the requirements that Texas Law places on the operation of commercial vehicles.

Lieut. Jimmie F. Rhoads of Midland, Safety Education Service, Region Four, DPS, said all farmers using commercial vehicles should be familiar with the following requirements contained in the vehicle statutes.

Lt. Rhoads said this information is provided in the hopes of answering some of the more common questions. For further information, contact the local Department of Public Safety Patrolman or the Tax-Assessor Collector of the county.

Trucks—Weight limitations:—No single axle may exceed 18,000 pounds. —No tandem axle may exceed 32,000 pounds. —The maximum gross weight allowed for any vehicle or combination of vehicles is 72,000 pounds.

Registration—All trucks must be registered for their gross weight allowed or their actual gross weight when loaded. The license receipts for a commercial vehicle must be carried on the vehicle at all times.

Equipment—All trucks must be equipped with all the equipment required to be approved for a Motor Vehicle Inspection Certificate and must display a current sticker. —The operator of any truck with a carrying capacity in excess of one ton must be licensed as a commercial operator.

Trailers—Weight limits same as for trucks. —Registration: A trailer with a gross weight of 4,000 pounds or less used by a farmer to haul his own products needs no registration.

—A trailer weighing over 4,000 pounds, but not over 10,000 pounds, used by a farmer to haul his own products may be registered with the \$5.30 farm trailer plate. All trailers with a gross weight in excess of 4,000 pounds must display valid registration.

—A trailer weighing over 4,000 pounds, but not over 15,000 pounds, may be used to haul cotton and cotton seed with the \$5.30 farm trailer plate.

—Trailers being operated with the farm trailer plate are subject to the following restrictions: When gross weight exceeds 4,000 pounds, must be operated at a speed of 30 MPH or less; cannot be used for hire; cannot use metal tires or

wheels; must have adequate hitch to prevent breakaway; operation must conform with all other provisions of law; any violation of these restrictions makes the operator liable for prosecution for operating an unregistered vehicle and payment of regular registration fees.

## Social Security Business May Be Conducted by Phone

A new telephone service at the San Angelo Social Security Office can handle "most social security business" without requiring personal visits to the office by the public, according to J. M. Talbot, social security manager.

"We call it Teleservice," Mr. Talbot said. "With it, we can handle a great deal of the paperwork by phone that involves such social security matters as application for benefits, change of address for prompt delivery of monthly checks, and general and specific questions about social security programs, including Medicare."

With teleservice, Mr. Talbot said, social security personnel can, in many instances, fill out an application for benefits over the phone, then mail the form to the beneficiary for his or her signature.

"We can also accept change of address information by phone from beneficiaries who are moving, so that delivery of their checks will not be interrupted," he said. "And, of course, we can answer questions affecting workers' retirement, Medicare, disability, and survivors protection."

## Tax Man Sam Sez: VOLUNTARY INCOME TAX Withholding On Pensions

Beginning January 1, 1971, recipients of annuities or pension payments may voluntarily have income tax withheld from their pension or annuity payments. The United States Civil Service Commission has sent annuitants (former Federal employees) a letter telling them that they can furnish a Form W-4P. The specific dollar amounts requested shall be at least \$5.00 per month and shall not reduce the net amount of any annuity payment received by the payee below \$10.00. Social Security, Veterans Administration pensions, and Railroad Retirement payments are tax exempt, and are not covered by the voluntary plan. All other payers of annuities and pensions are required to withhold during 1971 upon the receipt of Form W-4P.

## Success Is Home-Grown

Most successful farmers and ranchers find their opportunities in the same place they were born and raised — or perhaps a mile or two down the road. Success is a crop we like to cultivate at the Land Bank Association — and it's best if it's home-grown.

## Wrinkles are a vicious cycle.

In some dryers the heat that dries your clothes also bakes wrinkles into permanent press. But you can buy a new gas dryer with a permanent press cool-down cycle that turns off the heat and cools off your clothes. That means modern gas dryers won't add wrinkles to your wash and extra ironing to your work load. Because they have a cycle that keeps wrinkles from becoming vicious.
