HOME TOWN Talk

By R. C. THOMAS

Don't usually go in for rhyming lines of any type, but because this is graduation time and because the following was written about the 1918 Winters High School graduating class as a salutatory address, and there may be members of that class, and others who knew them, who would enjoy reading it, I decided to make this one and only and last exception to a standing rule.

It was written by the late Tom Norman, salutatorian of the Class of 1918, and was recently found among his papers by his daughter, Jessie Norman McLean, 321 N. Washington, San Angelo.

There's a boy in our class they call Willard Pruitt, If a problem is difficult just let him to it. His face is so ugly it hurts him at night. But when set a task he'll do it just right. In stature he's not built for action or speed. But scores of such boys are just what we need.

There's Boyd Eiland whom we all call Bat, He's a good fellow, if you like him for all that. Of course his red hair somewhat mars his fair face, But when it comes to the ladies, he's there with true grace. His heart is as tender as a young mushroom. And take it from me, he sure likes to spoon.

There's Grady Beard, who's quite a clown, But he looks rather clever in a cap and gown. There's no doubt about it, he can run a half mile. And when it comes to the high jump, he has a fine style. He's not greatly interested in papers and books. But you have to hand it to him when it comes to the looks.

There's Trixie Mullin, the pianist of renown, She always is happy when Grady is 'round. She can play soft music that would put you to sleep. Then change to a rag that's a terror for feet. She's pay as a lark and bright as the sun. And always is happy to join the fun.

Next Percy Ritch who's speeches are great, Won a tin medal as large as a plate. When he takes the floor the audiences hush. For he sounds like his mouth is full of hot mush. It's indeed quite seldom he is seen with a girl. For when one's around, his heart's in a whirl.

Willie Jennings comes next in our rhythmic line, And believe me or not her singing is fine. She will sing like a lark from morning till night, But boys, if you cross her, she surely can fight. What she begins she finishes with a will. I guess that's the reason we all like Bill.

Our friend Gaines Hall, whom we call the Jew, Has a face so red it looks kinder blue. He's a ladies' man without a doubt. Though his attentions are oft changed about, If a girl wants a ride, he is ready to take her. Though he is quite apt to spoon in his big Studebaker.

Gladsy Johnson is a girl from Ovalo, She's bright, though her mind's kinder shallow. She's dainty and neat and looks rather sweet, But one thing remarkable is the size of her feet. That she scorned all the boys of Winters is so, And back to her friend at Ovalo she'll go.

NEW GULF STATION — Following several months of construction, the new Gulf service station was opened recently on South Main Street in Winters. Buck Campbell, who moved to Winters from Bronte, is the local Gulf dealer.

The Gulf station is having a grand opening throughout the month of June, with special promotions. Drawings, without purchase obligations, will be held each week during June, with a complete set of tires to be given away June 30. On June 24, a drawing will be held for a pig.

To Incorporate

Rural Water Group Elects Board Of Directors At Meeting Thursday

The North Runnels Rural Water Corporation elected a permanent board of directors, officers were named, and first steps were taken to apply for a charter of incorporation, at a meeting last Thursday night in the Chamber of Commerce office.

The charter board will be composed of Leon Frerich, Norton; E. F. Albro, Wilmet; Pat Pritchard, Wingate; Sam Faubion, Crews; Joe Vancil, Hatched; A. L. Mitchell, Drasco; Clyde Flanagan, Blanton; LaDell Davis, Winters rural community; and Morris Robinson, district-at-large.

FTA Installed Officers For Next School Year

Officers for the 1972-73 school year were installed by the Eula Mae Kruse chapter of the Future Teachers of America at a meeting and dinner in the WHS Homemaker Cottage recently.

A Mexican meal was prepared by the members preceding the installation.

Mrs. Eula Mae Kruse, founder and long-time sponsor of the local FTA chapter, was the installing officer for the occasion. Mrs. Kruse had with her a piece of rope and asked each new officer to take hold of the rope "to pull for a good year" as duties of the officers were given.

Officers installed for next year were Landa Walker, president; Lea Mostad, vice president; Kay Schwartz, financial secretary; Trish Hill, corresponding secretary; Benjie Lee, recording secretary; Rickey Mathis, parliamentarian; Cathy Schwartz, song leader; Lisa Bishop, pianist; Linda Snead, reporter; Lyn Key and Dorie Miller, historians; Barbara Fairley and Paula Meyers, librarians; and Miss Nancy Grundy, adviser.

The program was concluded with the recognition of four members for their service to the FTA chapter this year. They were Denise Williams, Kathy Wolford, Cindy Wolford and Connie Giles.

Former Winters AG Teacher Will Speak To Farmers

Howard Davis of Brownwood, a former vocational agriculture teacher in the Winters schools, will be the principal speaker at the meeting of the Young Farmers Monday, June 5, at 8:30.

The meeting will be held in the vo-ag building of the Winters school. Davis, presently head of the agriculture department of Howard Payne College, will speak on beef management.

All members and other interested persons are invited to attend this meeting.

Bible School At Southside Church Begins Monday

Vacation Bible School at the Southside Baptist Church will begin Monday, June 5, and continue through June 9.

Classes will be held from 8:30 to 11 a. m. daily. Children of all ages in the community are invited to attend.

The Rev. Virgil James, pastor will be general superintendent, and Mrs. Elwood Wade, principal. Mrs. Virgil James will be pianist, and Mrs. Elwood Wade, song leader. Mrs. Roy Rice will be school secretary, and Mrs. Ora Vilapando will be in charge of the refreshment committee.

66 Golfers In ABCD Tourney At Country Club

Sixty-six golfers, making up 16 teams, participated in the annual ABCD golf tournament at the Winters Country Club Monday.

The winning team, with a score of 59 for 18 holes, best ball, was composed of Dub Davis, James West, Charles Dry, Donnie Oats and Larry Newberry. Four dozen golf balls were awarded to the first place team.

Second place winners were Homer Hodge, Dennis Rogers, Danny Long and Earnest Brown with 62 for 18 holes. Two dozen golf balls were awarded.

A sudden-death play off in the rain was won on the second hole for third place in the tournament by a team composed of Herman Baker, John E. McAdoo, Harold Pate and Ronnie Dunnam. They were tied at 63 for 18 holes with George Brown, Milt Bunger, Gayland Robinson, Joe Emmert and Butch Perry. A dozen golf balls were to the third place winning team.

In a "closest to the hole" contest on No. 6, George Brown won a dozen golf balls. Fifty-six golfers took part in this special contest.

The first nine holes were played Monday morning, and a luncheon was served to about 90 people at noon.

Drasco Baptist Bible School Begins Monday

The Drasco Baptist Church Vacation Bible School will begin Monday, June 5, and continue through June 9.

Class will be held from 8:30 to 11 a. m. daily. All children from 3 to 16 are invited.

Cancer Crusade Receives \$2108, \$308.50 Memorials

The Cancer Crusade conducted by the North Runnels Unit of the American Cancer Society, received \$2108.90, Mrs. Bill Bell, chairman of the drive, reported at a meeting of the unit last week.

In addition, a total of \$308.50 has been received in memorials, Mrs. Bell said.

The North Runnels Unit met in the home of Mrs. Raymond Lloyd last week, and elected officers for 1972-73. Mrs. Earl Roach was named president. Homer Hodge, Jr., vice president; Mrs. W. L. England, secretary; and Mrs. Bill Bell, treasurer.

Nominated to the board of directors were Mr. and Mrs. Ralph Arnold, Mr. and Mrs. J. W. Bahlman, Mrs. Bill Bell, George M. Beard, Mrs. LaDell Davis, Mrs. M. L. Dobbins, Mrs. Paul Gerhardt, Mr. and Mrs. George Garrett, Mr. and Mrs. Homer Hodge, Jr., Mrs. Raymond Lloyd, Randy C. Loudermilk, Mrs. W. L. Nichols, Mrs. Emma Marks, Mrs. R. Q. Marks, Mrs. Earl Roach, Mrs. Wayne Solomon and Mr. and Mrs. J. S. Tierce.

During the meeting, Frank Graham, ACS fieldman, introduced Jim Cramer, who will replace Graham as fieldman in this area. Graham has been transferred to the state headquarters office of the American Cancer Society.

MRS. M. BURROUGHS ... Chosen by FTA

Mrs. Burroughs Named Teacher Of Year At WHS

Mrs. Maurine Burroughs, high school English teacher, ended her third year in the Winters school system as "Teacher of the Year," elected by members of the Eula Mae Kruse Chapter of the Future Teachers of America.

The local chapter of the FTA began a program in the fall of 1971 of selecting an outstanding teacher each month. From these nine teachers the chapter members selected a Teacher of the Year, a person they felt "best exemplified the qualities of a good teacher."

Mrs. Burroughs was the September Teacher of the Month. The FTA members felt that Mrs. Burroughs "had the qualities of a good teacher; that of kindness, patience, a genuine interest in each pupil, and the ability to present her subject area in an interesting manner to her students."

In addition to her teaching responsibilities, Mrs. Burroughs was chairman of the senior class sponsors, and spent many hours working with the senior play and senior trip. She was also faculty sponsor of the National Honor Society, Quill and Scroll, and the school newspaper. She coached Ready Writing and Prose Reading for the University Interscholastic League contest.

Mrs. Burroughs was presented to the high school student body as teacher of the year at the Awards Day program. She was presented a corsage and an engraved Carnival Glass school bell.

IN SANDERS HOME
In the home of Miss Elsie Sanders the past week was her sister, Mae Sanders of San Angelo, and Mrs. Elbert Holder and son, Tommy Dale of Chula Vista, Calif. They also visited in the home of Mr. and Mrs. Travis Downing and other relatives.

MRS. EULA MAE KRUSE

FTA Chapter Is Named For Founder of Unit

Members of the Winters High School chapter of the Future Teachers of America recently voted to rename the chapter the "Eula Mae Kruse Chapter," in honor of the founder of the local unit.

Under the direction of Mrs. Kruse the chapter was organized in 1960 and was chartered in January, 1961. Mrs. Kruse, dedicated to the purposes of FTA, remained the faculty adviser until her retirement in 1971.

During those years the FTA chapter became one of the most active clubs in high school, conducting many worthwhile projects. The chapter also won state awards and had several district offices, including two district presidents.

Mrs. Kruse attended every state convention since the inception of the local chapter. She accompanied two students to the first convention, at Denton. From that time, she annually took a group of FTA members to each state convention. At the twenty-second annual State Convention in February, 1971, Mrs. Kruse was presented the coveted John H. Lovelady Award for service. Only three of these awards are given each year. A dream of Mrs. Kruse was to see Winters represented by a state officer, a dream which was fulfilled at the 1971 convention when Bruce Smith was elected State Parliamentarian.

Mrs. Kruse was presented a hand-made certificate from the members of the FTA chapter during the Awards Day program at the high school May 17. The certificate reads, "This is to certify that the name of the Alpha Chi Chapter of the Future Teachers of America shall hereafter be the Eula Mae Kruse Chapter of the Future Teachers of America, named in honor of Mrs. Eula Mae Kruse, founder and dedicated sponsor."

J. B. Dunnam Buys C-City Packing Plant

J. B. Dunnam of Winters, owner and operator of Jay's Locker in Winters, recently purchased a meat packing plant in Colorado City, the M & T Food Service. He also owns a packing plant in Cisco.

The Colorado City plant was purchased from Jimmy Moody and Leo Thompson.

Dunnam said that the Winters plant, which is still under some construction and remodeling, will continue in operation and that he and his family will continue to live in Winters.

Dunnam plans to expand his operations to include a rendering plant as well as a facility to process additional by-products.

Under his plan for expansion, trucks will run regular routes between Colorado City, Winters and Cisco, serving grocery stores and cafes and other customers. Trucks will run out of Cisco and Winters to supply other towns.

Custom slaughtering will continue to be one of the main services of the Colorado City plant, re-named J. B. Dunnam Packing, Inc.

Merrill Eason is manager of the Winters plant, Jay's Locker. Paul Vest, who had been with the Colorado City plant for about 20 years, will manage that plant, and James Stanford will manage the Cisco plant.

FROM AUSTIN
Mrs. Bill Miller and Kaylea and Bill Mark of Austin visited ten days in the W. F. Minzenmayer home recently.

Run-Off Primary Election Saturday

North Runnels voters will go to the polls for the run-off primaries Saturday, June 3, to make the final decision on nomination of candidates — Democratic and Republican — for the November general election.

Only candidates for state office will be on the ballot for voters in Runnels County Precincts 2 and 3 — no run-offs developed as a result of the first primary.

Democratic voters in the two north precincts will go to the same voting places they used in the May 6 primary. Only one box will be available for Precinct 2, to be located at the Winters Community Center. Precinct voters will use boxes at the Winters City Hall, Wingate, Norton and at Ballinger.

County Republicans will have only voting box, at the courthouse in Ballinger.

Voters in the June 3 runoff elections have been warned by Secretary of State Bob Bullock to "Stay in the party primary where they voted on May 6."

Bill Miller Is Named To NAAIA Hall of Fame

Bill Miller, graduate of Winters High School, and McMurry College, where he was an outstanding athlete, has been named to the National Association of Intercollegiate Athletic Hall of Fame.

Now an assistant coach at the University of Texas, Miller will go to Billings, Mont., Friday, June 2, for formal induction. He was notified of the honor by A. O. Duer, executive secretary of NAAIA.

The former McMurry long jumper, who once bested the sensational Ralph Boston, now lives in Austin where he is assistant track coach for the University of Texas Longhorn track team. During his junior and senior years at McMurry, he won two consecutive national titles in his specialty, the long jump. His win over Ralph Boston came in the Fort Worth invitational meet. He came close to defeating Boston in Lubbock, but scratched by a half inch on a leap of 26-3. His best long jump effort was 26-6.

Miller has given up the sport entirely, except for coaching. His last jumping came in Lake Tahoe in 1968. He failed to qualify for the Olympics that season and decided to devote full time to coaching.

He coached at Madison Junior, Abilene, and then went to Dallas Baptist as an assistant coach. In 1971 he moved on to the University of Texas.

Bill and his wife, the former Serena Minzenmayer, both attended Winters High School, and both graduated from McMurry.

He was signed on at McMurry during the Grant Teaff era after leaping 23-6 in high school. He was small for a long jumper, only 5-10 and 155 pounds, but narrowly missed going to the Olympics in 1954 when Boston beat him with a then world record jump of 27-5.

Following graduation from McMurry, Miller coached at Madison Junior High without pay, so he would be eligible for the 1968 Olympics.

American Legion Meeting Monday

A meeting of the Winters Post of the American Legion will be held at the Post Home Monday, June 5, at 7:30 p. m. All members are urged to attend.

Two Generators Retired At Light Plant, Replaced By Larger Engine

Two of the original electric generating engines at the Winters Municipal Light Plant have been retired and removed, and will be replaced by one larger engine.

The new engine is scheduled to be received about mid-June. The two old engines, which were installed in 1944 when the power plant was built, had a generating capacity of 150 KW each. Buford Baldwin, City Secretary said. The new engine, a Fairbanks-Morse, will generate 1366 KW.

"Judging from reports several clerks are receiving, it looks like many Republicans are being tempted to switch over and vote in the Democratic runoff on June 3," Bullock said.

"Every voter needs to know that if they voted in the Republican primary on May 6, they cannot vote in the Democratic run-off. And if they voted Democratic the first time, they cannot switch and vote Republican on June 3."

This kind of "Switch" action violates the Texas Election Code, Bullock said, and is punishable by a fine of from \$100 to \$500.

This type of voting has taken place in the past, the Secretary of State said. "Any Crossover voting would distort the true strength of a candidate in the other party," he said.

"We hope that public awareness will discourage this type of voting," Bullock said. "We want election officials to know that there is a law behind them and they should not permit this practice. This will be the only way we can preserve the integrity of the Texas election process."

Bullock also said he wanted the voter to know that it is also a violation of the law for a voter to cast a ballot in two different precincts, even within the same party. "We know that there were instances of this reported during the May 6 primary," he said, and, "like crossover voting, this dual practice is against the law and cannot be tolerated."

One Voting Box For GOP In June 3 Run-Off

There will be only one voting box for Runnels County Republicans for the June 3 run-off primary, according to W. J. Cervenkova of Rowena, County Republican chairman.

The Runnels Box will be in the court house at Ballinger.

No local GOP candidates are involved in the run-off. Only Henry Grover and Albert Fay, Republican candidates for Governor, are in the run-off.

City Spraying For Mosquitos

For the past several days, city crews have been spraying to kill and prevent mosquitoes. Chemical being used is malathion, with diesel base.

The City will spray ditches, vacant lots where possible, and other places where mosquitoes are bred. Residents have been asked to help in this project by keeping rubbish and high grass removed, to destroy breeding places for mosquitoes.

Don Vinson Won Archery Prize

Don Vinson of Winters, member of the Abilene Archery Club, won a cash prize of \$100 in a special "Team Bear" contest sponsored by Bear Archery Victor bows, during the Texas State Field Championship shoot in Abilene Sunday.

He shot 1078 out of a possible score of 1120 to win the special contest.

Team Bear is a national shooting organization composed of both professional and amateur shooters who shoot the Bear Victor bows.

Vinson placed seventh in the Field Championship shoot, where about 100 archers from all over the state were in competition.

With the addition of the new engine, Baldwin said, the power plant will have a total capacity of 3515 KW. Four engines will be on the line once the new installation is completed.

WASHINGTON

"As it looks from here"

OMAR BURLESON
Congressman
17th District

WASHINGTON, D. C.—At the end of last week's comments, a distinction was drawn between public and private wrongs as a matter of responsibility between the courts and the legislative branch of the Federal Government.

The conservative view is that public wrongs do not lend themselves to judicial solutions. Rather it is a matter of legislative initiative to determine questions of public policy and to bear on these factors in order to place them in perspective.

More fundamental decisions involving public policy matters should be made by a democratically selected and a political body directly answerable to the people.

Properly, the courts have played a role in limiting excesses in the exercise of legislative and executive power. But, they have done so within the context of private litigation and have

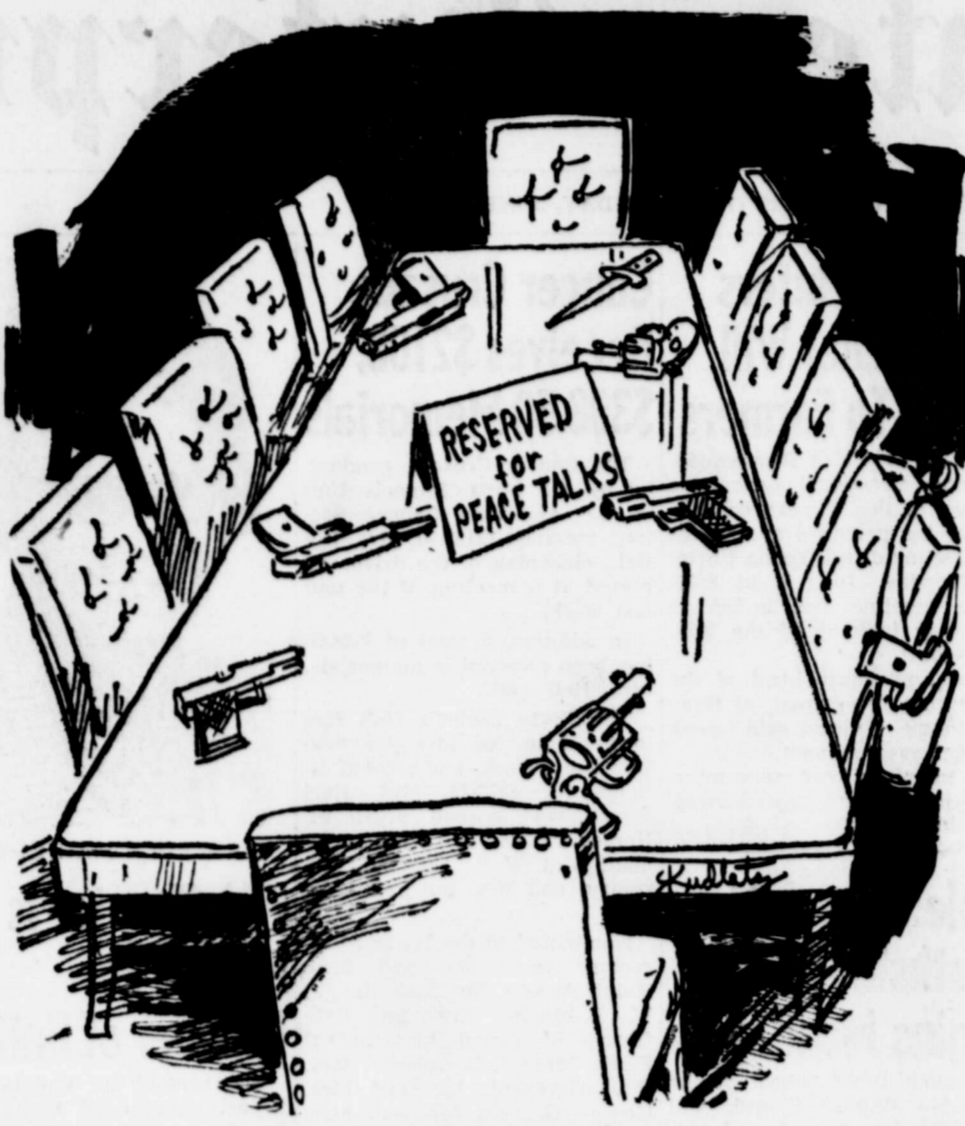

carefully avoided challenging governmental policy as distinguished from constitutional power to act.

In more recent years this traditional role of the courts has changed. More and more the judges have entertained jurisdiction and ruled on matters aimed at asserted public wrongs. If the Legislative Branch of Government should frustrate the desires of a group of people by rejecting their claims, the courts are asked to furnish relief. This judicial activism is not consistent with the role the courts were fashioned for and represents a dangerous shift of power from the people, acting through their elected representatives, to judges who are answerable only to themselves. It is a trend bad for the courts and worse for the Country.

It would be well for crusading judges to ponder this statement by Justice Felix Frankfurter: "The Court's authority—possessed of neither the purse nor the sword—ultimately rests on sustained public confidence in its moral sanctity. Such feeling must be nourished by the Court complete detachment—in fact, and in appearance—from political entanglement and by abstention from injecting itself into the clash of political forces in political settlements."

Mr. Justice Frankfurter was one of the most consistent advocates of judicial restraint. It has been the failure of Federal courts at all levels to heed his advice, that constitutes the core

... But, Leave the Hardware at Home

of some of the problems we have in this Country today. All too frequently, decisions are rendered on the basis that judges disagree with the Congress on matters of policy. Oftentimes opinions may be couched in language challenging the constitutionality of a law but heavily influenced by their relief that congressional enactment is simply unwise.

The late Justice Stone, who served for 16 years with distinction on the U. S. Supreme Court, expressed this view: "The power of the courts to declare a statute unconstitutional is subject to two guiding principles which ought never to be absent from judicial consciousness. One is that the courts are concerned only with the power to enact statutes, not with their wisdom. The other is that, while unconstitutional exercise of power by the Executive and Legislative Branches of Government is subject to judicial restraint, the only check upon our own exercise of self-restraint. For the removal of unwise laws from the statute books, appeal lies not to the courts but to the ballot box and to the processes of democratic government."

Next week's article will give specific examples of more recent actions of the Federal Courts in issuing what is known in legal circles as "affirmative orders."

Amiable people, though often subject to imposition in their contact with the world, yet radiate so much of sunshine that they are reflected in all appreciative hearts.—Dorothy Luzy.

Playing the Defense Contract Game
By RALPH NOVAK

NEW YORK (CEF)

A new era is dawning in the patriotically profitable business of defense contracts. First, Lockheed Aircraft, pleading that their defense Air Force was driving them bankrupt, secured a federal government guarantee of a loan. Then Grumman Aircraft and Litton Industries' shipbuilding subsidiary are asking the government to renegotiate their contracts so they won't go broke.

And now reliable sources report that the Jiffy Disintegrator Corp. will soon crawl on the bandwagon, panting, wheezing and looking as bedraggled as possible.

Jess "Scrapin'" Bayh, Jiffy's president, admits that his company has not yet negotiated its first defense contract but he says he has it all planned.

"We plan to sign a contract that will guarantee the Army 147 Jiffy Giant disintegrator rays each big enough to melt a Communist country in 2.7 seconds," Bayh says straightening the American flag pin in his lapel. "And we'll promise delivery by the end of July, all at a cost of a mere \$1.49 per disintegrator."

That would put Jiffy's bid about \$39.7 million per disintegrator under its competitor's but Bayh isn't worried.

"You have to be realistic," he says. "I mean, I'd really LIKE to make a disintegrator for \$1.49 but I'm pretty sure that as soon as I build a factory and hire some employes and figure out how to build one the cost will rise. Now can I help that?"

"The government will hardly be able to refuse to renegotiate the contract up to, say, \$350 million apiece, when all the extra costs start hitting. They wouldn't want me to go out of business, would they? And let all those Jan manufacturers come in with their dinky transistorized disintegrators?"

The Defense Department won't comment on its pending negotiations with Jiffy.

But the Pentagon's officer in charge of disintegrator procurement admits that talks are under way.

"Let's face it, you can never have too many disintegrator rays in this day and age," he says. "In fact, we have evidence that there is a definite disintegrator ray gap."

Jiffy president Bayh, meantime, reports that he has leased the entire state of Montana, including all its residents, for the disintegrator project.

"Just playing it safe," he chuckled. "In this great land of free enterprise, the government couldn't let me put a whole state out of work."

YOUNG HEADING INTO POLITICS

Wellesley Hills, Mass.—During the latter part of the 1960s and up until quite recently, the general impression in many parts of the country was that our youth wanted nothing to do with "the establishment" or anybody connected with it. There was endless talk about the alienation of youth and the generation gap. Even when the twenty-sixth amendment to the U. S. Constitution reduced the voting age to eighteen a year ago, politicians did not expect the nation's young to be much of an influence in this year's elections—federal, state, or local.

But now it looks as though American boys and girls have never really left the establish-

ment, even though many of them feel a strong need for corrective action for problems that their elders have so long permitted to go unsolved. Probably for this very reason, in fact, youth is expressing more interest in the whole field of politics, and, even more importantly, is beginning to take part in political activity at a sharply increasing rate.

REGISTRATION ON THE RISE
After the nationwide drop in voting age, even the more involved political observer looked for not more than a 15 percent registration of the new voter eligibles. They pointed out that in the four states where those under twenty-one had previously been given the franchise, participation had been at an extremely low level. It was felt that expanding the franchise for those under twenty-one to all states would not produce any sizable shift in the attitude of the young.

There have, however, been stirrings of real change. Recently a survey was made of 102 cities in thirty-five states, revealing that 1,215,390 under 21 registered in the last six months of 1971 alone. This represented 36 percent of the voter eligibles, a far greater share than the meager 15 percent earlier anticipated. Before the November elections, according to estimates of the Youth Citizenship Fund, at least 60 percent of those under twenty-one may well be registered. The step-up in voter campaigns could lift this guess even higher.

CHANGE IN LAW-MAKING BODIES

Those who thought politics was off-limits for youth are proving to be more inaccurate every day. Actually, the domain of the old-timers is being challenged with unexpected vigor, even in the U. S. Congress. While so far it is only a beginning, keep in mind that there are now approximately 25,000,000 voters under twenty-five. This is giving courage to a growing number of younger politicians heading into public office. Key committee and subcommittee posts that have long been dominated by the old guard are threatening to fall to more youthful leadership.

Already, at least sixteen members of the House are planning to retire, and insiders look for that number to increase. Their anguish will undoubtedly be kept in check upon their departure through the rich pensions that they have seen fit to vote themselves. Thus will begin a reshuffling, with positions of veterans of thirty or forty years' standing taken over by congressmen of more youthful spirit. Through the process of replacement, even freshmen will move up the ladder.

STEAK LOGS
6 medium cubed steaks
Salt and pepper
Softened butter or margarine
1/2 cup catsup
1/4 cup chopped fresh onions

Season each cube steak with salt and pepper and spread with softened butter. Combine catsup and onions and spread approximately 1 1/2 tablespoons of mixture on each steak. Roll, jelly-roll fashion, to form a log and secure with toothpicks. Broil six inches from heat, turning occasionally, until desired doneness or approximately 20 minutes. Remove toothpicks before serving. Makes six servings.

nor leftists, even the prevailing middle-of-the-roads will tend to make Congress substantially more liberal. The young viewpoint will be favorably disposed toward steadily greater outlays for public welfare, including education, health, and poverty provisions.

The younger lawmakers will be consciously aware of their backing by the youth vote. As this force gains momentum—and it will—a surge toward more progressive legislation will be felt, especially in the more immediately sensitive House of Representatives. While this may please a large section of the populace, those favoring fiscal responsibility know the trend will be an expensive one.

Faculty Honors Two Teachers, Brides-To-Be

The faculty of Winters Primary School honored Miss Ann Schertz and Miss Sue Huffman with a tea Monday afternoon of last week in the primary school library.

Gifts were presented to the honorees. Miss Schertz and Miss Huffman are members of the Winters school faculty.

Miss Schertz and Ronnie Socha of Dallas will be married June 3 at St. Anthon's Catholic Church in Brownfield.

Miss Huffman and C. A. Milam of Winters will be married June 28 at the Church of Christ in Brady.

Mississippi Kites Return To Texas

Abilene—A few of the small number of Mississippi kites left in the world are nesting in Abilene State Park, according to Texas Parks and Wildlife Department officials.

Department biologists say that although the kite is on no official endangered list, populations of the bird, also known as the "gray hawk," are declining.

E. C. Wisenbaker, park superintendent at the state facility, said he first spotted a kite this year on April 30. The birds return to the park each year with never more than a few day's difference in arrival dates, according to Wisenbaker.

The range of the kite includes the area from northern Florida

to Texas and Oklahoma. The Mississippi kite is not a true hawk, but he does have a few things in common with Texas hawks, one of them being full protection under state law.

There are three things that convince me this country is still in good shape: The Gross National Product, the standard of living, and Hot Pants.

Rev., Mrs. Tierce Returned From Hawaiian Vacation

Rev. and Mrs. J. S. Tierce returned Saturday from a vacation in the Hawaiian Islands. They were with a party of 48 ex-students and friends from Baylor University.

They attended worship services at the Waikiki Baptist Church, where Dr. W. R. White, president emeritus of Baylor University, and the Rev. Tierce were platform guests. They participated in the dedication of a "Chapel on Wheels" to be used by the church in a resort ministry.

The Tierces visited points of interest on three of the four major islands of the Hawaiian chain. They also visited the National Memorial Cemetery of the Pacific, where the names of 18,093 American servicemen killed during World War II, and 8,187 killed during the Korean War, whose resting places are unknown, are inscribed on marble walls.

Life Preservers Could Save Lives

Austin—Accidents, by nature, happen when you are not suspecting them.

So it's not surprising to learn from the Texas Parks and Wildlife Department that at least half of the recreational drowning victims in the U. S. last year had no intention of going into the water. As a result, they did not have a life preserver available.

More than 2,800 of these "surprise" victims either slipped, tripped or fell into the water or were aboard when their boat sank.

The moral, says the Texas Parks and Wildlife Department, is to take the simple precaution of wearing a life preserver around water, especially if you can't swim.

The life preserver is more than just a good idea if you are aboard a boat—it's the law. Every boat, including canoes, rafts, sailboats and kayaks, must have one Coast Guard approved life-saving device for everyone on board. In motorboats 26 feet long and under children 12 years old and younger must wear a vest-type life preserver when the boat is underway.

Conditions Favor Good Turkey Hatch

Austin — Good spring rains throughout Central Texas have created ideal conditions for turkey nesting and hatching, according to Texas Parks and Wildlife biologists.

In contrast, last year's drought kept the number of turkey poults to a minimum. The biologists said that some of the hens in Texas Hill Country have already hatched their broods.

Fair Crowd Saw Women's Benefit Softball Game

A fair-size crowd attended the women's benefit softball game Saturday evening, sponsored by the Women's Auxiliary of the Winters Little League Association, and a re-match is being talked up.

Sponsors of the game said they were very well pleased with the turnout for the game. They said attendance probably was cut because of the long Memorial Day weekend when so many people were out of town.

The "Big Mamas" won the game 16-10 over the Crazy Legs.

Plans are being talked up for another game, to be played later in the summer.

All proceeds from gate receipts will be used by the Winters Little League Association.

STATE Capital NEWS

By BILL BOYKIN

Austin, Tex. —The long-awaited special finance session of the Texas Legislature has been called for 10 a. m. June 14.

Gov. Preston Smith issued the official proclamation last week, stating repeatedly he plans to present a 1973 budget which will require no new taxes.

The governor, who has implied he would veto a tax bill, said he does not think lawmakers can pass one without his placing the subject of revenue on the special session agenda.

Under the proclamation, Smith will allow legislators to consider "such other subjects as the governor may submit from time to time."

However, he made clear he does not plan to open the call to any other business until the 1973 budget—financing state operations from Sept. 1, 1972-August 31, 1973—is finally passed.

Smith vetoed all 1973 fiscal year appropriations adopted by the legislature during the 1971 regular session. In anticipation of more federal aid (that never was received), the Legislature did not enact a 1973 welfare budget — which made a special session inevitable even without the governor's veto.

A proposed state officials' code of ethics and a recommendation for repeal of a controversial new trailer brake law are among items to be offered the special session for action after passage of the appropriations act.

There is some speculation Smith may try to avoid the need for new taxes by proposing a welfare program finance act covering less than a full fiscal year. This would leave the balance of 1973 welfare appropriations as emergency business for the regular session next year.

included in a 'state cost' item on forms furnished by the comptroller, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded:

"A requirement that portions of tuition fees be placed in a scholarship fund applies to charges for vocational-technical courses at public junior colleges. Up to 10 per cent of the fund may be paid to out-of-state students.

"Collin-Denton County Water and Sanitation District has constitutional power to collect and dispose of garbage.

APPOINTMENTS

Governor Smith appointed H. Deskins Wells, Wellington newspaper publisher, Interstate Compact Commissioner for the Red River, succeeding William R. Elliott of Sherman.

Gov. Smith appointed Graham Bruce of Orange 128th district judge, and he picked B. R. (Pat) Fuller, former Eagle Pass and San Marcos city manager, to head the Texas Department of Community Affairs.

William J. Pitstick is new chairman of the governmental

operations committee of the Texas Advisory Commission on "Intergovernmental Relations." George Schrader of Dallas is chairman of the TACIR information services committee.

GUARD CALLED OUT

National Guard units from San Antonio and Austin were called out by the governor in a pilot traffic safety effort over the Memorial Day weekend.

The Guardsmen rode as second man in highway patrol cars or manned Guard trucks and jeeps on "lifesaving" patrol.

If the experiment proves successful, Smith said he may call Guard units to special duty during other holiday weekends.

Meanwhile, law enforcement officers and traffic court judges were urged to "handle traffic violators in the full measure which our laws provide."

LEGISLATORS HIT

A former state legislator received a four-year prison sentence for using state stamps to buy a second-hand pickup truck and four other present or former lawmakers were indicted. Ex-Rep. Walter Knapp of

Amarillo drew the prison sentence. Former Sen. David Ratliff of Stamford and Rep. John Allen of Longview were indicted in a scheme to hire each other's children as legislative aides without requiring them to work. Rep. Tom Holmes of Granbury faced indictment for allegedly using House of Representatives-issued postage stamps to pay most of the price of a pickup truck. Former Rep. Hudson Moyer of Amarillo faces accusation of using House postage stamps to pay off a \$6,000 bank loan.

Travis County District Attorney Robert O. Smith, who prosecuted former House Speaker Gus Mutscher, handled all the investigations and vowed to crack down on any legislator who gets out of line if he can make a case.

SHORT SNORTS

Liberal Democrats are maneuvering to keep State Democratic Executive Committee Chairman Roy Orr from presiding at the state party convention in San Antonio June 13.

District Lions Cabinet Meeting Held Here Sunday

The final Cabinet meeting of District 2-A1, Lions International, under retiring District Governor Homer Hodge of Winters, was held here Sunday.

Governor Hodge presented awards to various members of the Cabinet, and gave an account of the activities and accomplishments of the Lions Clubs of District 2-A1 for the past year.

District Governor-Elect Ewart Phillips of Brownwood spoke briefly on his plans for the District in 1972-73, with emphasis on the eye bank program which is to be a project of the 2-A1 Lions during the year.

A gift from the Lions of the district was presented to Governor Hodge and his wife, Floy.

Prior to the Cabinet meeting, Lions and their ladies were guests at a luncheon, catered by Phil Loring of Lowake Inn, who is also a Cabinet member.

The first Cabinet meeting under Governor-Elect Phillips will be held July 30 at 9 a. m. in San Angelo.

COURTS SPEAK

The State Supreme Court dismissed the appeal of a Dallas man who sought a reduction of the \$250,000 fee awarded his ex-wife's attorneys in a divorce action.

The High Court upheld a Houston court of civil appeals finding that high fees collected by a woman in an insurance case were the result of the insurance company's prolonging litigation. National Life Insurance Company protested that legal fees ran five times as much as the insured collected.

In another case, the Supreme Court agreed that the state was immune from damages after a blind San Antonio boy drowned in a Texas State School for the blind pool.

PARTY SWITCHING ILLEGAL

Secretary of State Bob Bullock issued a stern warning that June 3 runoff election voters must "stay in the party primary where they voted on May 6."

Bullock said Republicans who voted in the GOP first primary or Democrats who voted in their own May 6 primary cannot switch and participate in the other party's runoff primary.

If violations are discovered, said Bullock, they will be turned over to prosecuting authorities. It is also a violation, of course, for voters to cast ballots in two different precincts, within the same party, reminded the chief state election officer.

\$25 MILLION IN BONDS SOLD

A total of \$25 million in bonds have been sold to municipalities under the state's new financial assistance program for improvement or construction of sewage treatment facilities.

Texas Water Quality Board reported it has received 106 applications for loans of water quality enhancement funds amounting to \$28.77 million, and 72 applications totalling \$24.63 million have been approved.

Thirty-four applications are pending in the amount of \$4.1 million, and \$4.2 million has been transferred to 16 projects where bids have been approved and cities are ready to start construction. Loans went to Atlanta, Berger, Clarksville City, Cleburne, Conroe, Dallas (Four projects), Iowa Park, Mineral Wells, Montgomery County FWS-D No. 2, Nueces County WCID No. 4, Rosenberg, Seagoville and Wortham.

The program makes it possible for cities to make improvements at about 25 per cent of project costs to themselves. Bonds provide the state's share, and the federal government pays the rest.

Canned Peaches—Fruit Cocktail

Need An Instant Dessert?

Keep canned peaches or canned fruit cocktail on hand. Both will keep indefinitely if stored unopened in a cool, dry place. Once opened, however, they should be kept covered and refrigerated.

One of the nice things about these canned fruits is that they are ready to serve, says Mrs. O'Connor. You can use a little imagination, though to vary the servings.

Canned cling peach halves are delicious when served hot. They can be heated in a saucepan in their own syrup. They can also be added to an oven meal in the last 15 minutes of baking time. Or they can go under the broiler for 5 minutes.

Sliced peaches are easy to use with other fruits in compotes and salads. Bake them in a pie, serve them a la mode, or add them to coleslaw or tossed salad greens.

The kids will love canned fruit cocktail served in parfait-styled desserts. Alternate layers of fruit cocktail and yogurt in a tall glass. Instead of the yogurt, you can substitute vanilla pudding or softened ice cream, tapioca or even a whipped topping—whichever suits the taste.

Canned peaches and canned fruit cocktail are among the foods reported plentiful now by USDA's Agricultural Marketing Service.

Creamy Fruit Salad Mold
1 pkg. peach-flavored gelatin
1 c. boiling water
1 c. plain yogurt
1 cup canned peach chunks
1/2 c. peach syrup

Dissolve gelatin in boiling water. Stir in syrup drained from canned peaches. Slowly blend in yogurt. Chill mixture until slightly thickened. Fold in canned fruit cocktail. Pour mixture into a fancy-shaped three-cup mold. Chill until firm.

Sue Hoppe and Bobby Prewit Plan to Marry August 26th

Mr. and Mrs. Glenn Hoppe, Sr., announce the engagement and approaching marriage of their daughter, Sue, to Mr. Bobby Prewit of Dallas.

Mr. Prewit is the son of Mr. and Mrs. E. E. Prewit of Winters.

Miss Hoppe will graduate from Angelo State University Nursing Program in August. Mr. Prewit is a graduate of Baylor University Medical Center School of Radiological Technology. The couple are both graduates of Winters High School.

The wedding will be August 26, in St. John's Lutheran Church.

Peach Crunch

1 No. 2 1/2 can sliced cling peaches
One-third c. butter
3/4 c. graham cracker crumbs
1/2 c. brown sugar

1 c. pecan meats, broken
1/2 tsp. cinnamon
1/2 tsp. nutmeg

Drain peaches, reserving liquid, and arrange in bottom of greased shallow baking pan. Mix cracker crumbs and brown sugar with the butter or margarine. Add cinnamon and nutmeg. Sprinkle mixture over peaches evenly. Top with nuts and one-third cup peach syrup. Bake at 375 degrees for 20 minutes. Makes 9 servings.

Peach Waldorf

1 No. 2 1/2 can peach halves
2 c. unpeeled red apples, diced
3/4 cup broken nut meats
1 1/4 c. celery, diced
1/4 tsp. salt
1/2 c. mayonnaise

Chilled salad greens
Drain and chill peaches. Pour peach syrup over apples and allow to stand for five minutes. Drain. Combine apples, nuts, celery, salt and mayonnaise. Place peach halves on salad greens on individual plates—fill centers with apple mixture.

Steaming Corn-On-The-Cob

What could be more appealing on the dinner table than steaming corn-on-the-cob? Dripping with butter and salted to taste, it's a treat the whole family can enjoy.

For best eating, look for fresh succulent husks with good green color, says Mrs. O'Connor. Silks ends should be free from decay or worm injury, and stem ends should not look too discolored or dried. Select ears that are well covered with plump, not-too-mature kernels.

Avoid ears with under-developed kernels which lack yellow color (in yellow corn), old ears with very large kernels and ears with dark yellow kernels with depressed areas on the outer surface.

When you get the corn home, put it in the refrigerator and keep it moist until you're ready to use it.

You can look for unusually good supplies of sweet corn during the next few weeks. Plentiful supplies are moving into area markets, according to USDA's Agricultural Marketing Service.

For Kitchen Cooked Corn-On-The-Cob, drop the husked de-silked ears in boiling salted water, return to a boil and serve. The ears should spend only about 4 to 10 minutes in the water. Cook "seconds" while eating "first" so the cooked ears never have to stand in hot water.

To deep fat fry corn-on-the-cob, slice the fresh ears crosswise into chunks about 2 inches

long. Put a skewer in the center of each. Deep fat fry them, sticks up, in vegetable oil, bacon fat or olive oil for two minutes. Drain and serve with salt and pepper.

Grilled Corn-on-the-Cob

Corn still in the husk may be dampened, placed on a grill and cooked 20 minutes. Husked corn should be buttered, sealed in foil and cooked 6 to 8 minutes over hot coals. For a variety, use a 1-2 butter — 1-2 peanut butter mixture. The ears should be turned occasionally. They are done when the kernels brown slightly.

Corn-Off-The-Cob

A medium size ear will yield about 1-2 cup corn cut from the cob. To remove the corn, cut down the center of each row of corn with a sharp knife, then scrape pulp from cob with blunt side of knife. You may want to add corn-off-the-cob to your favorite souffle recipe. Use approximately 1 cup of corn for a 3-egg souffle.

Corn-Cheese Bake

3 cups uncooked corn cut from cob
2 T. finely chopped onion
1-2 tsp. salt
1-2 cup evaporated milk, undiluted
1 tsp. pepper
1 cup shredded Swiss Cheese
6 T. butter

Cover the bottom of a two-quart casserole with 3 tablespoons of the butter. Combine corn, onion, salt, pepper and 1-2 of the shredded cheese and pour into casserole.

Sprinkle top with remaining cheese and dot with 3 more tablespoons of butter. Add milk and bake uncovered about 30 minutes. Check to see if the corn is tender and cheese has melted before removing from the oven. Serve piping hot.

Proper Procedure Can Prevent Fires

Austin—Fire aboard a small boat can be a terrifying experience.

When surrounded by flames, there is no place for a boater to go except overboard, possibly to become a drowning victim.

Fires aboard boats can usually be prevented by taking proper precautionary measures, according to Texas Parks and Wildlife Department officials.

Since the majority of fires occur immediately after fueling, a few simple steps can save a lot of grief.

The department has these suggestions:

—When fueling, never fill the tank to the brim.

—Shut off all engines.

—Close all ports.

—Extinguish all cigarettes.

—Keep the nozzle or spout in contact with the fuel pipe.

—Wipe up any spilled gasoline, air the rag and store in a tightly sealed container.

—Before starting the engine, open all ports and let the air blow through for about five minutes.

—Sniff gas lines and bilges for gasoline vapors, and make sure there are no lingering vapors.

VOTE FOR PERFORMANCE
There is no margin for error in an office that must guarantee the biennial fiscal solvency of the state—balancing billions in receipts to payments each year. Bob Calvert has built a tax accounting system that is considered a model for study by other states. During 23 years as Comptroller, he has an unblemished record of remarkable public service.

VOTE FOR EFFICIENCY
Bob Calvert has continually modernized operations to provide greater service at lowest cost. The electronic data-processing equipment he installed is recognized as one of the most sophisticated and efficient computer systems in the nation.

VOTE FOR CONFIDENCE
Under Bob Calvert, the Comptroller's Office has returned \$450,776,028.09 to 692 Texas cities since their sales tax was enacted. Every penny has been accounted for. His records are verified by the State Auditor's Department to insure absolute accuracy. The Texas Research League has proclaimed Calvert's office one of the most outstanding in the country in accounting and administration.

VOTE FOR INTEGRITY
The only things "old fashioned" about Bob Calvert are the virtues of honesty and integrity which he considers vital for a person in a position of such public trust. On the other hand, his runoff opponent, who has had six marriages, four divorces and one annulment, was fired from the Comptroller's Department last November after being convicted of aggravated assault on a female.

Bride-Elect Is Honored With Parties Recently

Miss Lynanne Hill, bride-elect of Randall Caussey, was honored with a coffee Saturday morning in the home of Mr. and Mrs. Frank Brown.

The table was laid with a white cloth centered with an arrangement of blue silk flowers.

Mrs. Brown greeted guests, and Miss Sue Huffman was at the register. Mrs. Fred Young showed the gifts.

The guests were invited into the dining room where Mrs. Luther Smith and Mrs. Karen Modisett served coffee, orange juice, muffins and bacon pin-wheels.

Other hostesses assisting were Mrs. Homer Stoecker, Mrs. Bill Sharpes, Mrs. Andy Bundas, Mrs. Newt Blackerby.

Approximately 30 guests at-

tended. Out-of-town guests were grandmothers of the couple, Mrs. R. T. Watson of Burkett and Mrs. Odessa Drennan of Sweetwater.

Miss Hill was honored with a tea and lingerie shower at the Starlight Inn in Abilene, recently.

Hostesses were Mrs. Bill Howard, Miss Cindy Davis, Miss Dana Davis, and Miss Cassi Howard. A special guest was Mrs. Clifford Hill, the bride-elect's mother.

...about your SOCIAL SECURITY

Earnings from summer jobs can affect the monthly payments of students and other young people who get benefits from social security, according to J. M. Talbot, social security manager.

"Over 4 million young people under 22 get monthly social security payments as children of retired, disabled, or deceased workers," Mr. Talbot said. "Many of them will spend the summer school vacation working. In some cases, this work and earnings will affect their social security benefits."

The amount young people earn at summer or part-time jobs will cause a reduction in social security payments if their total earnings for the year are more than \$1680, according to Mr. Talbot. "But, even if they earn over \$1680, they can get their social security payment for any month in which they neither earn more than \$140 nor perform substantial services in self-employment," he said. Most young people won't earn over \$1680 from a summer vacation job, Mr. Talbot noted. "But, if they also work part-time during the year, they can easily earn over \$1680 during 1972," he said.

For more information, contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area. Persons who are unable to meet with him are encouraged to call the office in San Angelo. Residents of Winters may call toll free by dialing "Operator" and asking for "Enterprise 2058".

Lone Star Gas Agrees To Buy Gas Supply Corp.

Lone Star Gas Company, Dallas, Texas, today announced an agreement in principle to acquire for approximately \$13,750,000 cash all the shares of Industrial Gas Supply Corporation, a wholly owned subsidiary of Stone & Webster, Incorporated, subject to respective boards of directors' approval. Industrial Gas Supply Corporation's 500 miles of gathering, transmission and distribution system extends from Nueces County along the Texas Gulf Coast through the Houston area. It distributes natural gas to its customers in this area, which includes the Houston ship channel. A subsidiary of Stone & Webster will own and continue to operate the oil and gas production properties presently associated with Industrial Gas Supply.

Lone Star President and Principal Executive Officer, W. C. McCord, explained that simultaneously with the acquisition, Industrial Gas Supply Corporation will be phased out as a separate company, and its facilities will be owned and operated as an extension of Lone Star

Gas Company's fully integrated Texas natural gas system. McCord stated, "Lone Star will now serve Texans from the Red River to the Gulf Coast, in addition to its customers in Oklahoma."

He said that this extension of Lone Star's natural gas system into the rapidly growing Gulf Coast market provides growth opportunities in the natural gas business of Lone Star Gas Company.

"Lone Star has an active, on-going program of acquiring additional gas supplies to assure continued good service to its customers," he said. McCord added, "The acquisition of Industrial Gas Supply Corporation also enlarges Lone Star's on-system gas gathering area for the acquisition of new gas supplies. Present gas reserves connected to Industrial's system will continue to be dedicated to the system." Last week Lone Star announced construction of a 400-mile pipeline to connect supplies in the gas-rich Delaware Basin of West Texas to its integrated system at a cost estimated in excess of \$70 million.

Lone Star Gas Company's revenues for 1971 totaled \$261 million. Industrial Gas Supply Corporation's revenues last year totaled \$8.1 million.

Light Grazing Is Beneficial To Waterways

Ronnie Halfmann, Conservation Technician, with the local Soil Conservation Service assisting the Runnels Soil & Water Conservation District, said a cover of perennial vegetation generally is the most satisfactory protective cover for waterways. He went on to say that during the period of establishment, and after the grassed waterway is established, management is very important. The controlling of competitive vegetation (weeds and brush) is essential in maintaining a good vegetative cover in waterways.

When the adjacent fields are planned to be grazed, fencing the waterways with a permanent fence, will usually be more satisfactory than an electric fence. Light grazing with livestock can be beneficial and make the management easier. According to Halfmann, excess growth of tall grass will cause siltation and may cause the water course to change. But care should be taken, overgrazing will cause the grass to die and cause bare areas in the waterways which will erode rapidly.

When waterways can carry water safely, annual crop residues should be managed to provide maximum protection. For best protection do not use tillage operations on residues. If weeds become a problem, control by mowing, shredding, or spraying. Spraying is preferred so as to leave residue and a firm seedbed. Waterways should never be used for roads, turnrows, or cattle lanes. Waterways should be inspected after each rain. Damaged sod or washed out seed or plants should be replaced immediately.

Home Town Talk--

(Continued from page 1)

It is highly probable that Mattie Cook's size would lead the crowd by winning first prize. This charming miss, the size of a small house, was thrown in a faint by a wee small mouse. But when it comes to actual work, There's never a chance to get her to shirk.

Ava Crawford, too, has run in the race. She was with us last year when she was a Pace. But she fell in love with a mail carrier, who decided at once that he wanted to marry her. They were quietly wed, but contrary to rule, in a very short time she came back to school.

There's a lass in our class we call Mayme Smith. She's a charming girl of excellent pith. We are sorry of the fact that she can't sing. And if were birds, when she tried, we'd take wing. If I were a prophet I probably would say, She'll put Alma Gluck in the shade some day.

Yes, our friend Melvin Roberts is here in the crowd. He has a large mouth but he is not very loud. His head resembles a very small gourd. But inside that bone-box great knowledge is stored. He looks kinder keen in a cap and a gown, but behind that mask of dignity he's merely a clown.

Dennis Pumphrey is here, but I guess it's all right. For he has all our class put clear out of sight. For writing love letters that make girls hearts flutter. But when it comes to proposing, he's quite apt to stutter. If Virgie says, "No," his fate will be sealed. For the doctors have told him a heart can't be healed.

Loyle Kornegay is, one who is never seen shirking. But deep in her eyes grave mischief is lurking. If a classmate declares a task can't be done, She'll tackle the thing and conquer it for fun. The fact that she is a senior in high school this year is the reason she is grinning from ear to ear.

Ruth Jones is another quite studious lass. Who refused to be elsewhere but head of her class. She's much the youngest and least in our grade. But if Roe Syler don't take her, she will be an old maid. When it comes to learning there's none can reach her. She's going to college and become a teacher.

Mildred Harrell is one who has done her best. And with a great mind by Heaven was blest. The way she prepares her lessons is great. But it is hard to tell what will be her fate. At present she has Percy Ritch up a tree. But why she likes him is a mystery to me.

You see that big fellow Lawton Briely over there? He is so happy to finish he don't like common air. He can run on a track or play ball like an imp. But as for absorbing knowledge he is a great big simp. My greatest wonder is how he fooled the teachers. But I guess it is because he means to be a preacher.

I am sure there are none who need a magnifying glass. To see that I'm the fool for the class.

Some day I hope to gain world wide renown. But the chances are slim in this cap and gown. So now, kind friends, I guess I am through. Though I haven't been brief, I'll bid you adieu.
