## Methodist News

Lively Brown, Pastor

A woman living in a fine old house was not seen by her neighbors for several days, and upon investigation was found dead. The coroner pronounced death due to starvation. The lady was fifty-six years old and had inherited a small fortune in real estate which had in time increased four fold in value. She saved the proceeds and bought more, when a passionate love of saving took possession of her so that she bought neither food nor fuel, depending upon the occasional charities of her neighbors. A check for \$100,000 would have been honored by her bank. There was no need for her to die!

God has given us wealth far greater than this in the love of Jesus Christ. There is not any need for the non-Christian to die a spiritual death today!

## Basketball News

The Olden Cagers both boys and girls invaded the Carbon gym last Friday night. The girl's game was played first and was a close and hard fought game. The Olden girls led at the 13 to 12 but our girls went ahead and led Olden 20 to 17 at the end of the third quarter. The Olden girls went ahead in the final quarter and the game ended 34 to 25 with Olden the winner.

The Olden boys put on the steam and defeated our boys 48 to 26 but it was a much better game than the score indicated. Our boys played them hard throughout the game and it was a clean, well played game from start to finish.

## A Plea To The March Of Dimes

March of Dimes officially began January 1. There has been an effective campaign much more to do of this campaign in February.

The National March of Dimes has done a great amount of work done, but there remains much more to be done than has been done. The all out effort started Monday, January 29 and will extend through February 10th.

There will be no highly organized and intensive drive in the county this year. Such a drive might be necessary in some towns and counties, but we feel that our citizens of this county are of the type which require no intensive drive to respond to a need so urgent as the fight against POLIO.

Let's make this campaign strictly voluntary, throughout. Certainly each of us are as busy as our neighbors and none of us hardly have the time to come around and ask for donations. Each business organization, each civic club, each social club as well as the schools and churches realize the value and need of the March of Dimes in a nation and county attempt to lessen and, we hope, eventually exterminate the crippling killer POLIO in its various forms.

Individuals or firms who wish to contribute are requested to mail your checks, or bring your money to Stanley Webb, your County Chairman, in Eastland or Henry Collins, local Chairman. Make all checks payable to March of Dimes, Eastland County.

The statistics for the past year relative to POLIO in Eastland County are somewhat alarming and we hope that all citizens will think seriously of the need of successfully securing our share of the amount needed to fight Polio. Won't you lend a hand of help!

Thank You,

Stanley Webb, County Drive Chairman, Eastland, Texas  
Henry Collins, Local Drive Chairman, Carbon, Texas

## Railroad Worker And His Family Praise Hadacol

Hadacol Supplies Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron Which His System Lacked.

Railroad men all over the country are known for their extreme diligence and their wonderful sense of observation. Mr. G. E. Moncus, who has had sixteen full years of fine service as a railroad flagman, is no exception. He is proud of the excellent job he is doing, and his observation powers are not limited to his job by any means. For instance, when Mr. Moncus noticed how much better his wife was beginning to feel, he decided he had better try the same thing and he, too, might feel better. Yes, Mr. Moncus started taking HADACOL and now he says, "I have lots of pep and energy and just feel good in every way." Mr. and Mrs. Moncus were suffering deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, which HADACOL contains.

Mr. Moncus says: "Quite some time ago I began to have indigestion and sour stomach. My food just didn't digest right. I'd get a full, 'gassy' feeling after I ate. This affected my appetite and my weight. I was run-down, too. My wife started taking HADACOL and so did my daughter. I saw how much it had helped them, so I started taking it. And HADACOL has certainly helped me, too. My stomach never bothers me any more. I have a terrific appetite. I have lots of pep and energy and just feel good in every way. I think HADACOL is wonderful. I wish I could tell everyone just how wonderful it really is."

**Power of God**  
Lesson for February 4, 1951

ONCE UPON a time, miracles were one of the strongest arguments supporting Christianity. In our times, it is quite the reverse; miracles are for many Christians a major embarrassment, principal reason for not believing what Christians teach. There is no room in one column to debate this question. A very readable recent book on this line by C. S. Lewis, called "Miracles," may help to clear the reader's mind, showing that the common idea that miracles are impossible, is a mistaken idea.

Dr. Foreman

### Christ the Power of God

PAUL calls Jesus Christ "the power of God" (I Cor. 1:24). Whether you believe that Jesus could perform miracles or not, whether you find such a belief hard or easy, depends a good deal on what you think of Christ. If you think of him as a man much like yourself, and no more, then you have as hard a time believing that he could work miracles as in believing that you yourself could do so. But if you believe that in some way he was more than simply a man like yourself, you will not have much difficulty with the miracles.

But suppose you cannot start with the high faith in Christ as Son of God; at least you can start with historical facts which no one can reasonably doubt. One of these facts is that there lived a person named Jesus of Nazareth. Another fact is that it was believed about him, already in his lifetime, that he could do all sorts of astounding things,—cure hopeless cripples, bring people back from the dead, stop a storm in its tracks.

You will have to admit that this Jesus must have been an extraordinary character to have such things believed of him, even if they were not true. Starting from that point, you may be led to look into this man's story further, and—like many others—may come out at last believing in Christ as the divine Lord.

### Motive for Miracle

ONE THING the thoughtful reader will see in these miracles told of Jesus: they were not done to show off. Jesus himself did not brag about them, nor call attention to them, nor talk much about them. He saw people in trouble and he came to their help.

He sent the demons tumbling into the lake, not to create a wonder-tale nor to show how much stronger he was than demons, but he did it to help a poor wild madman back to sanity.

There is a certain modesty about all these miracles; and there is love in each of them. The great difference between miracle-working power in the hands of Jesus and such power in the hands of ordinary men, is suggested in the remarkable tale by H. G. Wells, "The Man Who Could Work Miracles." It is the tale of a man who found to his dismay that his supernatural powers brought only disaster to the world.

### The Most Personal Miracle

SOME YEARS ago there was a young man in Austria who had for a long time put up an unsuccessful struggle with himself. To put it shortly, just had him in its grip. He had about given himself up as a bad job, when he made the acquaintance of two young priests.

He asked himself: What do these men have that I do not have? And he discovered the answer: Christ. That was how Baron von Hugel, one of the great minds of our century, became a Christian.

He discovered that Christ, now can work a miracle in a man; and one miracle, experienced in one's own life, can be of more value than a hundred miracles recorded on paper.
