Wolverines Play First Conference Game Friday

If the third time's a charm, maybe the Carbon Wolverines, game and four-hearted but winless in two non-conference starts, will be on the long end of the score Friday night when they open their 1950 district 3-B campaign with the Strawn eleven at Marwick stadium in Eastland.

Our boys lost their game last Friday night by a score of 43 to 6. Mays booming backfield scored four touchdowns in the first half of the game but the Wolverines came back and scored in the last half and held the day team to three touchdowns.

HOUSEHOLD HINTS
The finish applied to the interior of a metal can must vary to suit the type of food that will be stored within it. Even in the narrow field of containers for seafood a number of different formulations are required. A can lining suitable for an oyster is not fitting for a herring. Anchovies must have a finish especially contrived for them. Sardines and caviar are just as particular.

Giving Yourself

Lesson for October 8, 1950

"WHEN a girl throws herself away on a man, she generally takes pretty careful aim."
That may be so; but more than a few persons throw themselves clean away without taking aim at all. They amble through life, they do not march. They have no personal five-year plans, not even five-week plans. They stumble from one day to the next, they live from hand to mouth. They care for nobody and few care for them. They may be found on Skid Row, living from one handout to another, or they may be found in the Silver Spoon Club, with plenty of money but no idea how to spend it and hardly enough energy to waste it.

A Man Gives Himself
MOST people, however, do give themselves to something. Every man who amounts to something, gives himself in one way or another. There is a college student who has practiced nineteen hours a day on the piccolo, it was said. Naturally he couldn't stay in college at that rate, so they got rid of him. But he landed, as you might expect, in one of America's finest orchestras.

If you want to succeed in music, give yourself to music. If you want to succeed in a law career, give yourself to law. Books of ideas usually give themselves to you. Think of it as five themselves to the designer. The selfishness of man is almost itself to one's family and every one else. A good man will love his family, a good mother her children; but there is a kind of ingrown family affection and mother-love which is blind to community needs.

Down the River
THERE are bad ways of giving oneself. A prophet once said of King Ahab, he sold himself to do evil. That is still done. Some give themselves up to liquor and gambling.

There have been quite selfless and tireless advocates of atheism, and communism, and all varieties. Men have worn themselves thin in the service of Hitler and other tyrants. If the energy and persistence, for example, which is spent in trying to prevent the humane use of unwanted animals in medical research, were spent in intelligent support of preventive medicine, how much better the world would be!

Say Yes to Christ
SO the question is not so much, Shall I give my life? The question is, To what? To whom? For three months these Bible studies consider "Growth in Christian Living." All growth starts at some point; and Christian growth starts at the point where the Christian gives himself to Christ.

Consider what "commitment to Christ" means. It is not sentimental devotion. In his memory, it is not singing songs about him or to him. (Not that such songs are wrong?) It is not following a historical character, though Jesus was and is a real person. It is saying "Yes" to Jesus Christ. It is giving one's highest devotion, one's first loyalty, to the Son of God.
It is devotion to the living Christ, ever-present; to the One whose reign is destined to be over all. It is devotion to Christ's cause; to His Kingdom, His control, His way of life. It means growing into his mind; it means becoming more and more like him, wanting to be like him, till at last Paul's words come true again: "For me, to live is Christ."

FIRST AID to the AILING HOUSE

by Roger C. Whitman

DAMP WALL
Question: The walls of our house which are exposed to the weather are damp on the inside in the winter time, so that the wallpaper is soaked to a point discoloration. The walls adjacent to the neighboring house are not damp. Last year we put up storm windows thinking they would correct the trouble, but they did not. We have inspected the inside walls, but have found no breaks which would permit leakage into the walls.

Answer: I make the guess that you live in a brick house and the inside plasterwork is applied directly on the brickwork, with no air space between. With this construction the plaster becomes almost as cold as the outside brick during the winter, with resultant condensation of the warm,

damp house air on the chilled surfaces. The answer is to put up furring strips and replaster board over the furring strips, making sure to fill the joints correctly, according to the manufacturer's instructions. The air of your house may be damper than you realize.

Singing Aids Health, N.Y. Song Leader Says

NEW YORK—Singing is a definite aid to beauty and beauty. That is an opinion of Wally L. Meyer, member of the advanced school at Columbia university. His works as a community song leader. His job has carried him to all parts of the United States and to many foreign lands.

He believes singing helps by taking the worry lines from your face and helping you relax. Physicians and beauticians say that relaxation is one of the best beauty treatments a woman can take.

Meyer explains, "When you sing, you lose your tenseness and begin to relax, and this helps smooth the brow. And singing also improves the circulation. So it brings tone to your skin and the result is a new young look, as well as a new outlook on life."

"So if you ladies want that soft, smooth, gentle young look that the husband or boy friend admires so much, do a lot more singing."

He wants to do more with singing on an international basis and would like to get to Australia and New Zealand next.

MK&T Safety Thoughts Who Am I?

I am more powerful than the combined armies of the world
I am more deadly than bullets and I have wrecked more homes than the mightiest of siege guns
I steal in the United States alone over \$300,000,000 each year
I spare no one and find my victims among the rich and poor alike, the young and old, the strong and weak; widows and orphans know me
I massacre thousands upon thousands of wage earners each year
I lurk in unseen places, and do most of my work silently. You are warned against me, but you heed not
I am relentless; I am everywhere; in the home, on the street, in the factory, at railroad crossings, and on the sea
I bring sickness, degradation and death, and yet few seek to avoid me
I destroy, crush and maim; I give nothing, but take all
I am your worst enemy
