Son Of Mrs. Justice Burned In Explosion

P. L. Justice, 49, son of Mrs. R. K. Justice of Carbon is in a Breckenridge hospital suffering from serious burns sustained in a fiery explosion and fire near Ellisville last Friday morning. Justice was employed by Phillips Petroleum Co. Another employee, Grady Dennis, was fatally burned in the explosion. He died after reaching the hospital.

Plant employes believe that an explosion in a natural gas line into the plant blew a flange at a connection. When it was discovered there was a bad leak into the engine room, all fires were put out. Shortly afterward, about 9:30 a. m. the explosion occurred, blowing the roof off the engine room. It was followed by fire.

Mr. Justice is a brother of Mrs. B. B. Foe of Carbon.

Mrs. Jackson Passes Away At Gorman

Mrs. T. G. Jackson, wife of Dr. Jackson of Gorman, passed away at her home there about 4:30 a. m. Thursday after several months illness. Funeral services will be held at the Carbon Methodist Church Friday at 2:00 p. m.

Her obituary will be carried in next weeks paper.

Charles Adair and wife of Austin visited her parents, Henry Adair and wife during the holidays.

Methodist News

Lively Brown, Pastor

A lady had come for some time to a new church in which Christ was preached as being the power and wisdom of God. She was asked by one of her friends why she went to that church. She replied: "In my former church, I always received the impression that I was a very good and pious woman, but here I notice that there is still much lacking in my life that Christ alone can supply."

It is the province of the law to awaken the sense of our sinful nesses (Romans 3:20) that of the gospel to show us the remedy for sin, and in Christ and His cross we can see as nowhere else both the workings of the law and the exceeding grace that opened up the way for us by which we can escape from the penalties the law must exact from us because of sin.

Effective Cough Syrup, Mixed at Home for Economy

No Coking. No Work. Real Saving. Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll never buy any other.

Make a syrup with 2 eggs granulated sugar and one cup water. No cooking needed. Or you can use more syrup or sugar honey instead of sugar syrup.
Now put 2 1/2 ounces of Peas into a pint bottle and fill up with your syrup. This makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine. And it's just as really excellent for quick action. You can test it to hold sweetly. It loosens phlegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get a restful sleep.

Peas is a special compound of proven ingredients, in concentrated form, well known for its quick action on throat and bronchial irritations. Many refunded it when it showed its every way.

Danger of Fires Worse on Farms Suggestions Advanced For Preventing Blaze

Of an estimated fire loss of 11,000 lives and nearly 700 million dollars in property and resources indicated for the year 1949, a great percentage of these losses will be made up of fires on the farm.

Because of lack of fire protection or adequate fire-fighting facilities, farm fires in almost every case are the most disastrous, because of the almost inevitable complete loss which results.

Already the national board of fire underwriters has reported property destruction from fire in the amount of 383 million dollars, 8.9 per cent below the same period for 1948. But even if a downward trend should continue for the remainder

of 1949, this year's losses would approach the 1948 all-time high of more than 711 million dollars.

These figures mark 1948-49 as the most disastrous period in a decade that has recorded five billion dollars in fire destruction. Between 1940 and 1948, fire loss soared 132 per cent.

As the "prime" cause of most of the "plain" carelessness and misuse of heating and lighting equipment. The leading single cause of fire is careless smoking and use of matches, accounting for 16.68 per cent of the total destruction. However, over the past ten years, the combination of defective chimneys and flues, stoves, furnaces, boilers and their pipes, and sparks on roofs has been responsible for 20.47 per cent of all fires reported.

Proper safeguards in installation and maintenance of heating equipment, chimneys and flues, safety officials say, will prevent fires of this type. Many communities already protect their citizens with ordinances requiring the installation of flue linings in all new chimneys. One effective means of fireproofing chimneys involves the use of clay flue lining which forms a single, continuous nonflammable unit inside chimneys of all types. The indestructible clay lining prevents weather, heat and corrosive smoke and gases from eating away the mortar between the bricks of the chimney. This eliminates the danger of flames reaching combustible materials through cracks between the bricks.

Authorities urge homeowners to make a careful inspection of chimneys and heating equipment.

New Bench Grinder

This new bench grinder for farm, home and shop incorporates several outstanding features not usually found in a low-priced grinder. Manufactured by Electro Machines, Inc., Cedarburg, Wis., this grinder is designed to provide ample working areas in front of the motor frame and in the space between the frame and the inside of the grinder wheels.

Wheel guards are removable for easy attachment of buffing wheels and other grinder accessories. It is equipped with lifetime lubricated ball bearing for long, trouble-free service. All hardware is cadmium plated.

DEVOTIONAL READING: Matthew 7: 15-23

Prophets False & True

Lesson for December 4, 1949

GOD is neither silent nor dead. We hear myriads of voices—preachers, teachers, editors, columnists, poets and politicians, all professing to tell us the truth. When a man claims to speak in the name of truth, is there any way by which his claim can be tested? It is an old problem.

Dr. Foreman

Away back in Bible times, every prophet had his rivals, the false prophets. The false prophets were far more numerous, they often had immense prestige and government subsidies besides. How was the common man to tell the true prophets from the false?

Before we take a modern “prophet” seriously we should ask: Is what he is saying his own idea or God's idea? In this 20th century after Christ, it should be easier to know God's ideas than it was 27 centuries ago in Jeremiah's time.

For now that Christ has come, we can safely check all the self-styled prophets with the message and the mind of Christ.

Is the voice of the people the voice of God? TRUE. FALSE. PROPHETS were always popular, the false ones seldom. Mere unpopularity does not prove a man a true prophet; but you may be sure that if a man says only what people like to hear, always tickling the ears and feeding the pride of his listeners, he is no true spokesman for God.

Not that the true prophet is always insulting his hearers. The Lord's prophets often speak comforting and welcome words, to be sure. But a steady outpouring of soothing-syrup is not what we would expect from a genuine prophet.

Man is often most proud when he is most wrong; and then God has to sweep the man down. Don't take too seriously the men who merely reinforce your prejudices and shore up your pride; they are more likely false prophets than true. The voice of the people is not always the will of God.

Time is the Test That great prophet Moses (Deut. 18) had already given a practical test of a true prophet: Does what he says turn out to be true? Can he really see into tomorrow? Alas, we may have to wait until tomorrow to find out for sure; but tomorrow always comes, and when it comes, the prophets of today will be shown up for what they are, true or false. Time is the test. Not, is it likely?

Truth and Right are Twins PERHAPS the worst feature of the false prophets who were Jeremiah's competitors was their real immorality. “Their course is evil and their might is not right,” he said (23:10, American translation). “They commit adultery and walk in lies; they strengthen the hands of evildoers so that no one turns from his evil ways” (v. 14). God's spokesman can never also speak for the enemies of God. Whenever you hear anyone talking as if we could now get “beyond good and evil,” or as if the Ten Commandments were something we had outgrown, then you may know you are listening to a false prophet.

There are no new commandments but the one which sums up all of them: Love one another.

No Cooking! Great Eating!

Meat dishes been looking a little tired lately? On the platter, good looks matter! But a good cook's time is valuable, too. Here's a relish that peeps up meals, but takes almost no time to make:

CRANBERRY ORANGE RELISH
4 cups Eatmor Cranberries
2 oranges, quartered and seeded
2 cups sugar

Put raw cranberries and oranges through food chopper. Add sugar and mix well. Chill in refrigerator a few hours before serving. Makes one quart relish. This relish will keep well in the refrigerator for several weeks.

And you don't have to stop there! Cranberry-Orange Relish can do a lot more than anything for any meal! Vary the basic recipe by adding chopped pork, apples, carrots. Spice it up by stirring in a pinch of powdered cinnamon and cloves. Add diced celery to Cranberry-Orange Relish and you have Crunchy Cranberry Relish—now garnish for hamburgers that makes them Cranburgers! Substitute part honey for part sugar—that's sauce for the goose—and duck and pork, too! Add horseradish to taste for a little extra kick with all kinds of meat! But whatever you do, don't serve Cranberry-Orange Relish in little dabs! Serve it in generous mounds, in big, big spoonfuls—and watch it do a fast disappearing act!

And did you think that Cranberry-Orange Relish was just a relish? No, ma'am, it's also a quick 'n' tempting dessert! It's all done with tart shells or hollowed-out cupcakes—buy 'em or make 'em yourself—but heap 'em high with

relish—and garnish with orange segments, whipped cream or meringue. Sounds good? Just wait until you try this one: freeze Cranberry-Orange Relish to a mush—spoon into orange shells or halved avocadoes. Serve with whipped cream cheese or mayonnaise.

It's a relish you'll relish—and often! Here's a good eating idea: start today to keep a big bowl of Cranberry-Orange Relish on your table from now to the end of the fresh cranberry season!
