RUSSIANS TO KNOW WHAT U. S. AIMS ARE IN WAR

WASHINGTON, May 23.—The United States government has planned to make known at an early date its attitude toward the Russian soldiers and workmen's union slogan "no annexation," "no indemnities."

This statement while not yet revealing the attitude of the American government to the Russian soldirs and workmens' contention it will doubtless take the form similar to that of French Premier Ribots' statement recently made in Paris. At least the state deparment of America let it be known today it sympathizes with Ribots' remarks.

This means, judging from Ri bots' remarks, that the United States favors the return of Alsace-Loraine to France and restoration and indemnities for small nations including Belgium. The ronouncement of this position it is thought will be in accord with the allies. This statement of America's views probably will in clude a more definite and concrete announcement of America's aims in the war than anything tured and held by the French reaid to date.

CLOSED WILMETH SCHOOL.

Ballinger Monday afternoon en French were successful in eject route home at San Marcos from ing in their victorious advance. Wilmeth, where they had just closed a very successful school PARIS, May 23.—Marshal Jof year. > How minutely defined is the American diplomatic agents from the central empires, the visit of the British and French war missions, detailed confidential reports of the recent frank expressions in the reichstag and in the German press and deduction of alert American agents abroad watching the newest peace moves have supplied the explanation of more than one hitherto obscured feature of the German policy. In her southeastern conquests it now is apparent that Germany has followed the long established plans of the Pan-German league, whose propaganda had been regarded outside of Germany as the harmless activity of extremists too radical to be taken seriously. Coupled with this plan, as an instrument of economic concentraion, the German officials have used with only slight modifications the system of customs union former years to extend her dominations over the other German states now making up the empire.

As early as 1911, the Pan-German league is said to have circulated a definite propaganda of containing maps of a greater Germany whose sway from Hamburg to Constantinople and then the military lines held today, under German officers, by the troops of Germany, Austro-Hungary, Bulgaria and Turkey. Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. - had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

The Woman's Tonic

She writes further: "T am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

War and Business

With wheat selling for \$3.00 per bushel and cotton at 20¢ per pound, with labor getting best wages known, and prosperity reigning over our country in spite of the war, we cannot see anything but much higher prices for all kinds of merchandise ahead.

The submarine is also one cause for higher prices. In March and April it is estimated 3,000,-000,000 pounds of tonnage was sunk.

30,000,000 men are now in the different armies. Probably about 30,000,000 are now making war munitions. It is easy to understand why goods should be higher with so many less producers.

Guard against Civil War prices by buying a liberal supply of dry goods and shoes now.

America will continue to be the best dressed nation of people in the world.

Sale Prices are for Cash

The Automobile has greatly extended our trade territory. Distance is no longer an object. People that live 50 miles away can come to our store in a few hours time. To acquaint people living farther away with the high class of our merchandise is one of the objects of our sale.

We firmly believe that we sell merchandise cheaper than most of our competitors considering the quality of our goods. **Every article we sell** is guaranteed to be worth 100 per cent full value. You will do us a favor to report on any merchandise that is not satisfactory. We buy nearly all our goods direct from the mills and manufacturers and save middleman's profits and extra freight hauls. We own our own building and pay no rent. We do not operate on borrowed capital and discount our bills.

In many instances we sell goods for what smaller merchants pay for them.

Lace Special—thousands of yards placed on our 5¢ lace counter. You would pay up to 10¢ for many of the laces elsewhere.

Embroideries, a beautiful lot at 13¢ yard, values up to
