CAR HITS BOY; LEG IS BROKEN

James, the eight year old son Dr. and Mrs. E. C. Baskin, sufred a broken thigh and other ruises when a Ford Sedan, drivby Mrs. Chas. Boyd, struck m as the little fellow was crosing the street about mid-afterpoon Saturday.

The accident happened on Iutchins Avenue, near the F. & M. Bank. The little fellow was knocked down and the ear passed over his right thigh and one foot. The thigh was broken, but fortunately he was wearing a pair of shoes which had just een half soled with thick soles and while the heavy sole was pent almost double, his foot was ot injured.

It was one of those unfortunate ceidents which will happen from time to time, and for which no one in particular can be held responisble. James was crossing the street, and dodging cars, and he ran from behind one car just in time to run in front of the sedan which struck him. He did not ee the car and the driver did ot see him until it was too late. A quick turn of the steering wheel probably prevented more erious injury and kept the car rom passing over a more vital part of the body

James saw the bright side of the situation and when his father reached him, he said, "daddy it didn't hurt much and could be worse," and told his father not o blame the lady for running ver him, saying she could not elp it

Bystanders rushed to the boy and picked him up and told him e was not hurt, but he said he couldn't walk. He was carried to the sidewalk and his father called rom his office. Later the little ellow was carried to the Halley & Love sanitarium and the broken imb properly looked after, and is getting along as well as ould be expected.

James' experience should be WILSON TAKES esson to other children, and older heads too, and especially on Saturdays and the busy days when the streets are crowded with cars. It is nothing short of miraculous that more accidents of this character do not occur.

PENALTY HIGH; WITHDRAWS PLEA

S. S. Phillips, alias "Rocky Ables," thinks \$100 fine and cost against him on charge of passing a bad check is too high. The grand jury returned two bills against Ables, or Phillips, and the defendant expressed a willingness to plead guilty, but when County Judge Parish fixed a fine of \$100 and cost in each case, the man backed off, said he was not guilty and will fight the cases.

More than two months ago a bad check was given in exchange for clothing at the store of Rogers-Higdon Co. About the same time a bad check got by the store of D. Reeder. BERSER PICKERS SPECIAL **ARRIVES SUNDAY**

Passenger train No. 77, Santa Fe, was operated in two sections Sunday. The first section was two hours and a half late and the second section arrived about thirty minutes later.

0 The first section of the train states Mrs. R. H. White-side, of Keota, Okla. She continues: ''I had a pain my chest after eatingwas loaded to to the rails, and at least two hundred passengers unloaded at Ballinger. The first train also brought a heavy cargo of baggage, 104 pieces of baggage 6.2 being piled off here, and two baggage cars were required t on headache. I was con-stipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief." carry the luggage to the point.

The second section of the train consisted of five passenger coaches and a baggage coach, and prought four or five hundred regroes, most of whom unloaded at Ballinger, the remainder be ing consigned to Rowena and Miles, the first two stops West of Ballinger ten and twenty miles distant.

Farmers had been notified that the negroes were coming and they were at the station with wagons and trucks and the negroes were distributed out in squads of from about fifty bales per day.

BOOZE SUPPLY BIG PROBLEM

"My dear Sir:

"Being a part of the Constitution of the United States, it is therefore now a part of the fundamental law of our land, that intoxicating liquor can neither be manufactured nor sold. This law undoubtedly is a permanent one, for before it could be changed Congress by a two thirds vote of both House and Senate would have to submit its repeal to the States, and such repeal would have to be ratified by the legislature of three fourths of the States, a consumation practically impossible. Whether you are an Anti or a Pro, being a law abiding eitizen, you favor upholding our Constitution.

"At my request, Prohibition 'ommissioner John F. Kramer had his Mr. J. M. Young make a careful survey of the number of warehouses and the amount of xisting intoxicating liquors stord therein, as of date, August 1, 1920 and he has just certified to me that:

"On August 1, 1920 there were in the United States 289 distillery bonded warehouses and 27 genkey; 410,569.8 gallons of rum; have unloaded at Ballinger dur- Several persons were injured in 936,295 gallons of gin; 6,826.3 gallons of high wines; 871,356.6 gallons of alcohol; and 748,279.3 gal. special bonded warehouses there were 864,743.8 gallons of brandy, and in 46 industrial alcohol bonded warehouses there were 3,220,-LONDON, Oct. 18 .- One effect 687.42 gallons of alcohol.

MEN INDICTED; BOND NOT MADE

Walter Alexander, Syl Roberts and John Hughes, charged by joint indictment with burning the home of J. T. Billups, near Truitt last Sunday night, were served with a second writ Thursday shortly after the grand jury returned a bill against them charging the three men with assault and attempt to murder. The seeond bill, like the first, was a joint indictment.

It is alleged that six shots were fired at Billups from ambush as he escaped from the burning building. Just what evidence was presented to the grand jury has not been made public.

The two indictments are the only felony bills returned by the grand jury which adjourned at noon Thursday, and the crime alleged was committed the night before the grand jury convened. The court fixed the bond on

the second charge at \$55 against each man. The bond for the arson charge was previously fixed at \$1500. The three men had not been able to make bond up to a late hour Friday.

In a few hours after complaints had been filed in the justice court charging Syl Roberts, John Hughes, and Walter Alexander with arson, the grand jury returned a joint indictment against the three men, and the court fixed their bonds at \$1,500 each. Up to a late hour Thursday the men had not been able to make bond and were still in jail.

The three men were arrested Wednesday and placed in jail, the MEDALS FOR sheriff acting on the warrants issued by the court. The writ of indictment was served on them early Thursday morning.

The parties are charged with

> Short Story of Paper Making. The art of making paper from mulberry bast is said to have been invented in China in the second century B. C. Afterwards bamboo shoots, straw, grass and other materials were also used. The manufacture spread to the adjacent countries. The Arabs learned it in Samarkand, and their learned men carefully kept the process by which they made paper for their own use. The crusades made Europe acquainted with the art, and the first paper mill dates from the tweifth cen-

Backward Pupils

You are anxious to give your child every advantage at school, but how about his eyes? Perhaps he is handicapped for lack of glasses.

No boy or girl can do well in school who cannot see distinctly. A case of that kind came under our observation last year-teacher said he was stupid and dull -he did not do well at his lessons. We examined his eyes and found he could not see the writing on the blackboard-glasses changed everything-soon he was leading his class.

Most backward children have poor eyesight. How about your child? No boy or girl can do well in school who cannot see distinctly; with correctly fitted glasses nine out of ten improve immediately in school work.

Success in school promises success in later life. Have your child's eves examined the first indication of trouble.
