wool materials in a selection of many
shades—a real saving at \$28.50.

Complete County Meet Program

The program for the Runnels
County Interscholastic League has
been completed and is now in the
hands of most of the teachers in
this county. The meet will be held
at Winters on March 22 and 23
and will begin at 2 o'clock in the
afternoon of the 22nd. The first
afternoon will be taken up with
tennis, playground ball, volley ball,
and such events and Friday night
the literary events will begin. The
sessions will continue all day Sat-
urday with the field and track
meet taking place Saturday after-
noon and the awards will be made
to all winners Saturday afternoon
at 5 o'clock.

An admission of 25 cents to all
school children who are not con-
testants and 50 cents for adults
will be charged at the meet. Entries
will be listed at the main high
school building Friday as soon as
coaches and teachers arrive in
Winters. Entrance sheets must be
mailed to A. H. Smith at Winters
not later than March 20. Ribbons
will be awarded to first, second
and third place winners and the
league also owns a large number
of cups that will be given with
the other awards.

Following is a complete schedule
of the events as they will take
place:

Friday

2:00 p. m.—Preliminary Debates,
High School Auditorium.

Tennis—Girls' Singles, High
School Court; Girls' Doubles, High
School Court.

Boys' Singles, Burton Court;
Boys' Doubles, Church Street Court.
Volley Ball—High School Court.
Play Ground Ball—Blizzard Field.
7:30 p. m.—Debate Finals, High
School Auditorium.

Saturday

9:00 a. m.—Senior and Junior
High School Declamations, High
School Auditorium.

Senior and Junior Rural School
Declamations, First Methodist
Church.

Extemporaneous speaking—High
School Auditorium.

11:00 a. m.—Sub-Junior Spelling,
Room 202, High School Building.

Junior Spelling—Room 203, High
School Building.

Senior Spelling—Study Hall B,
High School Building.

1:00 p. m.—Rural School Music
Memory—Room 202 High School
Building.

High School Music Memory—
Study Hall B, High School Building.

Arithmetic—Study Hall A, High
School Building.

Essay Contest—Room 301, High
School Building.

3-R Contest—Room 302, High
School Building.

2:00 p. m.—Junior and Senior
Track and Field Events, Blizzard
Field.

Track and field events will be
held in the order listed in the
League Bulletin, with Junior and
Senior events alternating.

5:00 p. m.—Awards, High School
Auditorium.

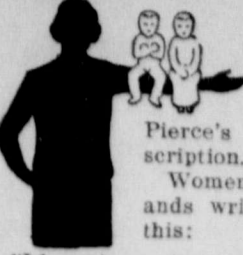

Union Station is Sought by Angelo

AUSTIN, Mar. 18.—The propo-
sition of the Kansas City, Mexico
and Orient Railway and the Santa
Fe and Pecos and Northern Texas
Railway companies for authority
to unify stations and other fac-
ilities at San Angelo and Sweet-
water, will be considered by the
railroad commission April 9 at
Austin. Petitions state that the
companies want to use the same
stations at two points.

Cyrus Odom and John Odom
came over from Blackwell Tues-
day to visit with relatives. Cyrus
Odom lives in Blackwell and is
postmaster at that place. John
Odom lives in Arizona where he
is engaged in the automobile busi-
ness.

Mmes. Carl Adams, and John
Keel and her two nieces, Mmes.
R. M. Daugherty and Mrs. H. E.
Awtry left this morning for Big
Spring to spend the week-end with
Mrs. Keel's brother, A. G. Pruitt.

You Get Strong, If You

are a tired-out or "run-down" woman, by taking Doctor Pierce's Favorite Prescription.

Women by the thousands write letters like this: "I have always taken the 'Favorite Prescription' during my expectant periods and it kept me in such good physical condition that I never had any trouble—never suffered as most women do at this time. It not only keeps a woman in good condition, but helps to make the child healthier and stronger."—Mrs. E. E. Keese, 106 N. Hill St., Dallas, Texas.

Local Creamery Benefits Farmer

Some of the benefits of the Runnels County Creamery were shown in a statement given out Saturday by J. E. Fowler, who is one of the largest patrons of the local creamery. Mr. Fowler showed a Ledger reporter some of his receipts for the last several weeks on butter fat sold to the local organization. His weekly checks have run above \$60 for several months and at times have run close to \$70. Mr. Fowler stated that in the near future he was doubling his herd and would soon be receiving twice as much weekly as he is at present.

When he increases his herd it will give Mr. Fowler an average income of around \$500 per month from butter fat sales alone. Mr. Fowler stated that before the creamery was located in Ballinger he used to sell butter fat for about 17 cents but since that time he has received 60 cents on all he has sold.

Mr. Fowler said that the citizens as a whole do not realize what the creamery means to the county and to Ballinger and that it had never received the patronage due it. He is a stockholder and one of the largest patrons of the local plant and every month he realizes more and more the benefits that it derives from it being located here.

By the end of this present week the local plant will have completed its spring overhauling and improvements. Lee R. Stubbs, the local manager, is getting the plant to looking better than it ever has since it started operating. All the machinery has been re-enameled and the plant made more sanitary in every respect. Many state that since he came to Ballinger that the quality of every manufactured product has been made better and local citizens are solicited for their patronage on these home-made products. Money spent with the creamery will remain at home and the local concern is striving to sell nothing but the very best in their line.

For the convenience of the people they have established a morning and evening milk route. On this route they will deliver pasteurized milk, buttermilk, sweet or sour cream, ice cream. Phone the plant and they will be glad to put you on the list for anything you want.

A big hatchery at Coleman will shortly install an incubator to hatch turkeys alone. The big poultry incubator is running full time on hen eggs and the turkey crop will be boosted by several thousand.

Ballinger Offered Berth In West Texas League

Ballinger baseball fans will have a chance before Wednesday to say whether or not we will enter the West Texas League for this year. A proposition was made to a small crowd of fans this week-end that will give organized baseball here at a cheaper price than was ever dreamed of.

D. L. Snodgrass, president of the West Texas League and Leon Shields, president of the Coleman club, were in Ballinger over the week-end and met with a small crowd of fans to discuss the proposition. They offer the proposition to Ballinger for the sum of \$2500 to place a team here for the full schedule of four months or 120 games. The town will absolutely not be out another penny except putting the field in shape and securing uniforms. Local fans estimated that a sum of approximately \$3,000 would be raised for the start and this money would be kept here until our team started the season.

The backers of the club would see to all payrolls, transportation, hotel, expenses to visiting clubs, umpires, balls and bats and all that Ballinger would ever be out would be the first sum which can be subscribed and paid in three equal payments on May 1st, June 1st and July 1st.

Ballinger would have its own manager, board of directors and would run the club the same as if there were no backers. We would not have the expense of a training season and the team would come here already trained to open the season. Ballinger at the end of the season would retain the franchise and players who were not sold or were not the property of some other club.

The reason that this offer can be made and guaranteed by the club is because by letting Lubbock out of the West Texas League circuit, enough can be saved in expenses to practically maintain a baseball club in Ballinger for the year. Another reason, by getting Ballinger in and being near to Coleman, San Angelo and Abilene, it will create a spirit of rivalry which will greatly increase gate receipts in all four of the towns.

The league officials were notified that no Sunday baseball could be played here and they were already aware of the fact and all Sunday games here would not be played. These games can be made up by transfers and double-headers.

The West Texas League this year will be allowed to carry 14 players and the salary limit will be strictly watched and kept within \$2400 for all clubs. Of course if Ballinger enters under the proposition offered, the salary would not interest Ballinger much, except that the local club would not want to see other clubs run wild in hiring players. The schedule will open about the 4th of May, and close on Labor Day, the first Monday in September.

The league at present is made up of Coleman, Abilene, San Angelo, Midland, Big Spring and Lubbock. The league is trying to get some town nearer the center of the group of towns and drop Lubbock

from the circuit because of the heavy expense in making the long jump to Lubbock. Lubbock wants out and is willing to give up the franchise at any time. Other teams in the league have centered on Ballinger and have made an offer to this city to come in. An answer must be given in the matter not later than Wednesday for in case Ballinger turns down the proposition another town must be secured to take her place.

A meeting of fans will be held Wednesday to discuss the matter and committees will likely canvass the town at once to see how the fans feel on organized baseball for the summer months.

A meeting was called Monday morning at the chamber of commerce office of fans in the city. R. W. Earnshaw was elected as temporary chairman of the meeting and teams were named to canvas the town before Wednesday to see if the money could be raised. The petition will specify that there will be no additional amounts to be raised and the original \$2500 and \$500 for putting the ground in shape and buying equipment will be all that any Ballinger citizen will be asked for during the entire season.

Most of the committees will start their work Monday afternoon and will try to finish the work by Tuesday afternoon so that the league officials can be notified whether or not Ballinger will enter the League.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 15c a bottle, and can be bought from Weeks Drug Store.

SPANISH CLUB MEETING

El Club Espanol enjoyed an interesting program which was presented at the high school Wednesday of last week, March 13. The club considered itself fortunate in booking Galli Curci to sing "La Paloma," which was greatly enjoyed, even though Galli Curci proved to be Jack Wheeler, and the singing came from a concealed Victrola. Mrs. Spencer gave an interesting talk on the city of Sevilla. We had one new member, Ernest Nance, who was initiated with appropriate ceremonies.

The club will meet again on Wednesday, March 27.

Card of Thanks

We desire to express our gratitude for the many acts of kindness and for the beautiful floral offerings during the illness and at the death of our father. May the Lord bless all those who so willingly offered condolence in our sadness.

Mr. and Mrs. W. J. Wheatley,
John Lee Simmons,
Claud Simmons,
Ada Simmons,
Clyde Simons.

PHYSIC CLASSES PICNIC

Prof. J. B. Pace took the physics classes to the upper dam on Thursday to perform an experiment for the laboratory. After the experiment was performed a game of baseball and a delightful picnic lunch were enjoyed. Everyone went away declaring they had had a most enjoyable time.

Card of Thanks

We wish to express deep appreciation to our friends for kindness shown us in the loss of our loved one, also for the beautiful flowers.

S. E. Stout and family,
W. O. Kidder and family,
Clem Kidder,
Mr. and Mrs. Thomas Sowell,
Mrs. R. T. Trail.

Mrs. H. G. Hayes left Friday for McCamey to visit with her son and his wife, Mr. and Mrs. Harvey Hayes. Marion Hayes took his mother to McCamey in his car.

Work on the new filling station at the corner of Tenth and Hutchings Avenue is progressing now at top speed.

Many Friends Attend Funeral of Dr. Fowler

Friends from all this section of West Texas gathered here Friday afternoon at 3:30 to pay their last respects to their fellow citizen and friend, Dr. W. W. Fowler. As the people marched through the house to look at their departed friend there was not a dry eye to be seen. Grief showed on the face of everyone at the sudden going of this good man who for 34 years had been such a prominent figure in Ballinger.

Rev. W. H. Doss, a life long friend to the Doctor was in charge of the service and following a Scripture reading by Rev. R. B. Hooper and another Scripture reading and prayer by Rev. E. W. McLaurin, talked about the life of Dr. Fowler. Rev. Doss and Dr. Fowler were schoolmates in Tennessee many years ago and formed a friendship there that lasted through all these years. After Dr. Fowler came to Texas they were separated for 30 years but when Rev. Doss came to Winters as pastor of the Methodist church this friendship was renewed and ever since the two men have been very close together.

Rev. Doss did not attempt to make a set speech on this occasion but gave a short biography of his life and talked about his character and the good things he knew about him from his close friendship with the man.

All of Dr. Fowler's children and his widow were present at the funeral. Leslie, Tom and Clyde arrived Friday morning from Dallas; Mrs. James F. Holliday of Abilene arrived here Thursday night shortly after the death of her father. Mrs. Fowler and Graham were at the home when his death occurred.

The passing of Dr. Fowler removes from Ballinger one of the familiar and best beloved of her citizens. He was a familiar figure because he was active and was always present with his fellow citizens in all progressive activities. His long practice of medicine made him one of the best known men in this county and to those, to whom he has ministered for so many years, he was loved for his faithfulness and tenderness. Dr. Fowler had acquired some valuable farms and tried to get away from his practice to devote his time to

these, but many of his old patrons would not let him retire when they were ill, would call him and he would respond.

He will be missed here by people in all walks of life, for he was a friend to everyone.

WALKER-SMITH GIVES USE OF LOT TO AMERICAN LEGION

Will Francis, manager of Walker-Smith Grocery Company, here has tendered the use of the company's lot on Eighth Street, which is located just south of the Healer Chevrolet Company, to the American Legion free of charge. The

Legion is having the lot cleared of brush and any rubbish that may happen to be on it, and will stage shows and other attractions which are brought here under auspices of that organization.

The Boy Scouts will also be privileged to use the lot for drilling if they desire and the lot will be kept in a clean and more sanitary condition.

Whiteright—A \$250,000 light and power generating plant has been erected here by the Texas-Louisiana Power Company and is one of the most modern and complete plants in Texas.

Four Months From Now

WHAT chicks get in their feed will have a lot to do with keeping them alive and growing. More than 2,500 hatcheries say, "Feed Purina Chick Startena." There's a reason.

Every ingredient that goes into Startena is carefully chosen and tested. Startena is rich in life-giving and growth-producing vitamins, proteins and minerals. Every ingredient in Startena has its job to do. Every ingredient does its part in keeping chicks alive and growing.

Start your chicks on Purina... keep them on Purina... you'll get more grown-up chicks and have more money left after all chick raising costs are paid. Tell us how many bags of Startena you need right now!

-a Six in the price range of the four Healer Chevrolet Co.

QUALITY AT LOW COST

Doctor Found Women and Children Sick More Often than Men

As a family doctor at Monticello, Illinois, the whole human body, not any small part of it, was Dr. Caldwell's practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

In the course of Dr. Caldwell's 47 years' practice, he found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of Dr. Caldwell's Syrup Pepsin, and placed it on the market.

The preparation immediately had as great a public success as it previously had in Dr. Caldwell's private practice. Now, the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it. There are thousands of homes in this country that are never without a bottle of Dr. Caldwell's Syrup Pepsin, and we have many hundreds of letters from grateful people telling us it helped when everything else failed.

While women, children and elderly people are especially benefited by Dr.

J. B. Caldwell M.D. AT AGE 83

Caldwell's Syrup Pepsin, its mild, gentle action is promptly effective on the most robust constitution and in the most obstinate cases. Containing neither opiates nor narcotics, it is safe for the tiniest baby. Children like it and take it willingly. Every drug store sells Dr. Caldwell's Syrup Pepsin.

Expectant Mothers

Given Facts about Child-Birth Book FREE

MAKE the months of expectancy easier, free from tension and pain; and make the birth of your child a happy event by using "Mother's Friend," the external lubricant for expectant mothers, known and used by three generations of mothers.

The "Mother's Friend" as our mothers and grandmothers did. Start today, and you will realize the wisdom of doing so as the weeks roll by. "Mother's Friend" is sold by all good drug stores—everywhere.

Be sure and get the booklet on Facts About Child-Birth. One copy is yours free. Write for it to N.W. Bradford Regulator Co., Dept. 12, Atlanta, Ga.

NEW CHRISTIAN PREACHER TAKES PASTORATE HERE

Rev. G. T. Reaves

Rev. G. T. Reaves, new pastor of the First Christian Church, comes to Ballinger from the First Christian Church of Terrell, Texas. Rev. Reaves reports that in his short pastorate of two years at Terrell that he received about one hundred new members into the fellowship of the church, and that the debt on the magnificent church plant there was reduced several thousand dollars. He says that he and his family are well pleased with this section of the state and with the progressive little city of Ballinger and they expect to make it their home many years.

Rev. Reaves would be pleased to see all his members at his first service Sunday, and would also be delighted to welcome any visitors.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Weeks Drug Store.

CHOIR ENTERTAINED

Rev. and Mrs. J. H. McClain entertained the choir of the Ballinger Baptist Church last Tuesday evening with a very delightful social affair. The guests were met at the door and a "hat" a "natural" or a "sharp" was pinned on them. Each group composed one family and stayed together throughout the evening. Games were played and delightful refreshments were served, with shamrocks as the plate favors. The evening was a very enjoyable one.

Drs. Frank Beall and John Sewell of the Cook Memorial Hospital at Fort Worth were in Ballinger and called upon Miss Addie Alexander, county health nurse. Miss Alexander was a student in this hospital and the doctors stopped here to see her as they were going from Albany to Menard.

R. W. Earnshaw left Monday afternoon for Wichita Falls where he goes to address a Lions meeting in that city Tuesday.

Dr. W. W. Fowler Dies Suddenly

Dr. W. W. Fowler, one of the best known pioneer physicians in this section of West Texas, died in his office Thursday evening at 6:20 from an attack of heart trouble. For the past two years Dr. Fowler had been in failing health, but had been actively engaged in his profession and in looking after his real estate holdings in the county.

Dr. Fowler was born in Tennessee on July 27, 1858 and came to Texas when he was 18 years of age. His first home in Texas was Hubbard City where he lived for several years. He came to Ballinger from Dawson county in 1893 and after staying here for a short time moved to Paint Rock where he engaged in the practice of medicine for two years. In 1895 he returned to Ballinger and has practiced his profession here ever since. For the past 22 years he has been associated in this practice with Dr. J. G. Douglass.

Dr. Fowler has suffered several light attacks with his heart and knew of his condition. Thursday afternoon he made a visit to a home near Rowena and returning home he had to change a tire on his car. When he arrived here he stepped into the J. Y. Pearce Drug Store and bought some medicine for himself and went upstairs to his office. In passing the office of another physician he asked the office girl to have the doctor come to his office and a few minutes later when the doctor went, he found Dr. Fowler suffering and near the point of death. Everything was done that could be but he died before he could be removed from the office.

For 34 years Dr. Fowler had been a familiar figure in Ballinger. In the early days he was on the go all the time and all his life here has been very active, not only in his profession but in the affairs of the town, school and his church. To his church he has been very faithful and has served in several different offices and as Sunday school superintendent.

Dr. Fowler is survived by his wife, four sons and one daughter. Mrs. Fowler and Graham were here when he died. Mrs. James F. Holliday of Abilene arrived as soon as she could get here after being notified of the death of her father. Mr. Holliday is in California on a business trip and could not reach Ballinger in time for the funeral. Three sons, Leslie, Tom and Clyde, who live in Dallas, arrived early Friday morning, which makes all members of the family present. Harry Thomson of Ballinger and Frank and Thad Thomson of San Angelo, brothers of Mrs. Fowler, were all present.

The funeral service was held at the family residence on Broadway Friday afternoon at three o'clock with Rev. W. H. Doss in charge. Rev. Doss had just returned from Austin where he is chaplain of the senate. He was a close friend of Dr. Fowler and for many years his pastor here. Following the service at the home interment was made in Evergreen Cemetery.

Active pallbearers were: Lem Harvey, F. M. Pearce, Whit Patterson, Harry Lynn, R. E. Bruce and Ralph Erwin.

Honorary pallbearers were: J. Y. Pearce, Dr. J. G. Douglass, R. W. Bruce, D. M. Baker, C. P. Shepherd, Dr. A. S. Love, Dr. W. B. Halley, Dr. C. A. Watson, Dr. O. R. Lasater, John Richards, Bob Richardson, John Bigby, Jack McGregor, Andrew Flynt, Will Dooze and W. R. Bogle.

King-Holt undertakers were in charge of the funeral.

The City Commission of Coleman has been petitioned by citizens to pave five more streets. To make this possible, Mayor Scarbrough says it will be necessary to vote \$150,000 in bonds. The citizens say they will vote the bonds.

The Central Coffee Shoppe will have an opening and dance at the hotel next Friday evening.

Nurse Continues School Inspections

Miss Addie Alexander, county health nurse, continued her inspections in the schools of the county this week and met with good success at each place visited.

Monday morning she inspected the school at Hagan and Monday afternoon at Barnett. Tuesday the rain and muddy road kept her in her office and Wednesday she went to Miles where the entire day was spent inspecting the children in the school there. At the close of school she met with the Parent-Teachers Association to discuss health matters with that organization. The P-T. A. there appointed a committee to meet with the board of education to see if they would buy scales so that the children could be weighed and underweights checked monthly. The P-T. A. at Miles signed up for the summer round-up of children of pre-school age for them to be examined to see that they were physically fit for entrance into school this fall.

Thursday Miss Alexander worked in the school at Spring Hill and Friday in the school at Hatchel. Saturday she will spend the day in the office getting her work there in shape to go to the State Board at Austin.

In all the schools visited by Miss Alexander this week she found measles raging and in some more than 50 per cent of the smaller children were out of school. She stated that she found this same condition all over the county.

Miss Alexander stated Friday morning that every school where she has been in the county had signed up for the summer round-up of pre-school children. In places where there is a P-T. A. they will look after getting the dates for the inspection of the children and in places where there is no such organization Miss Alexander will appoint some of the leaders of the community to look after the round-up.

Practically every community in the county will secure a date and Miss Alexander will make a complete inspection of all children under school age who will enter

school this coming fall. A report card showing defects will be given to each mother and in many cases the defects can be corrected before the opening of school in September.

C. A. DOOSE REPORTED AS SHOWING IMPROVEMENT

In a conversation with his wife, over the telephone, Friday night from Mineral Wells, C. A. Dooze stated that he was feeling somewhat better than he was when he left Ballinger about a month and a half ago.

Mr. Dooze has been in the Scott & White Sanitarium at Temple, for four weeks, but has gone to Mineral Wells, where the physicians advised that the mineral water might do more for him than they could in the hospital. Mr. Dooze will remain in Mineral Wells for several months.

FOR Nursing Mothers Scott's Emulsion

SHERIFF TAKES BOY TO GATESVILLE TUESDAY

Sheriff R. E. McWilliams left here Tuesday morning for Gatesville to take the Oxford boy, recently sentenced to the reformatory for theft, to the institution there. The sheriff made the trip in his car and will deliver the boy to the officers of the reformatory Tuesday afternoon or night.

SONS PLANT 69 OAKS IN MEMORY LANE TO MOTHER

BAINBRIDGE, Ga., Mar. 19.—"Memory Lane" has become a reality.

In this quaint little Southern city, Ralph Graves, of Washington, associate editor of the Geographic Magazine, and Ernest Graves, of Philadelphia, have had 69 water oak trees planted along a residential street here in memory of their mother, Mrs. Agnes Donalson Graves.

Mrs. Graves was 69 at the time

of her death.

R. E. Truly returned Monday morning from Wichita Falls where he spent the week-end with his mother. Mrs. Truly has been in ill health for some time and lately her condition has been considered critical.

A humane society has been organized at Coleman with a membership of over 100 to begin with. They will defend the defenseless and speak for the speechless. A good thing for any community.

High priced service at nominal cost—Ledger classified ads.

Gargle

ASPIRIN

For sore throat, there's a swift and sure way to soothe away the inflammation. Every singer knows the secret! Dissolve Bayer Aspirin tablets in pure water, and gargle. Nothing in the whole realm of medicine is more helpful in cases of sore throat. And you probably know how Aspirin dispels a headache; breaks up colds, relieves rheumatic pain, neuralgia, neuritis, lumbago! Just make certain to get genuine Bayer Aspirin; it has Bayer on the box, and on each tablet. All druggists, with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

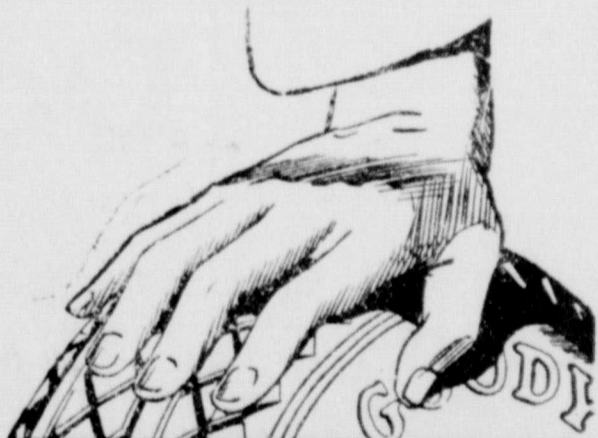

Aspirin is the trade mark of Bayer Manufacture of Monacoville, Germany of Salford, England

Bring your boy in to see these tests

A CHILD can see the superiority of Goodyear Tires in both TREAD and CARCASS under these simple tests of TIRE SAFETY and TIRE LIFE.

Test No. 1: Press your palm down on the Goodyear All-Weather Tread and feel how the deep-cut sharp-edged blocks grip and pinch the flesh. That is why the Goodyear Tread does on the surface of the road, and why it has superior traction.

Test No. 2: This machine shows you the 60% greater stretch in Goodyear SUPERTWIST Cord. This extra stretch gives the Goodyear Supertwist Carcass its extra life, enabling it to withstand

road shocks and continuous flexing without premature failure.

THE PROOF that Goodyear Tires carry this superiority into actual service is seen in this fact: MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND.

Come in any time and make these tests yourself. Then you, too, will insist on Goodyear Tires and refuse any substitute.

We carry the complete Goodyear line—all made with SUPERTWIST—and have your size and type at lowest prices.

It does not cost more to buy a Goodyear tire

Clean, smooth color restored! Scuffs concealed instantly. The lustre of leather revived. 50 wonderful shines—50 cents. Colors for black, brown, tan and white shoes—a neutral polish for others.

BARTON'S DYANSHINE SHOE POLISH

Sheriffs to Assist In Prosecution of Accused Mexicans

Sheriff R. E. McWilliams returned Monday from Mason where he had been to attend the opening day of court there and to be present at the opening of the trial of Ofilio Hererea, Mexican, charged with the slaying of Sheriff Allen Murray. Mr. McWilliams went to Mason as vice president of the Texas Sheriffs Association and to hire for the association an attorney to assist with the prosecution of the case. The state association will be represented in the prosecution by Walter Woodward of Coleman and this expense will be taken care of by the sheriffs of the state. This is a part of the constitution and by-laws of the sheriffs organization, that when a sheriff is killed they will furnish the best legal help they can secure to assist in prosecuting the murderer. Woodward is in Mason on the case and will put forth every effort possible in getting the death penalty for the Mexicans who are charged with committing the crime.

The case against Ofilio Hererea was called Monday afternoon and the attorneys in the case began the task of selecting a jury to try him. At the time that McWilliams left Mason late Monday afternoon no jurors had been accepted. District Attorney Hammond of Mason and Walter Woodward are working together on the case for the state. The selection of the jury will continue on Tuesday until 12 men are accepted.

Bob Goodfellow, secretary of the State Sheriffs Association was present at the opening of the trial Monday and Mr. McWilliams stated that sheriffs from all parts of the state were present, many of them will remain for the entire trial.

The other Mexican in the case will be tried immediately following the trial of Hererea. The state will ask for the death penalty in both cases. The two Mexicans tell different stories regarding the slaying and this gives the case a different defense which will be presented at the trials.

Hererea claimed in his confession that he and Sheriff Murray engaged in a scuffle and that while they were fighting the smaller Mexican, Anton Cheverez, took a gun and shot the sheriff. Cheverez claims that he was ordered to leave the car by the sheriff and that Sheriff Murray was taking Hererea back to Mason and that he knew nothing of the slaying.

Post Rehearsing For Spring Show

The American Legion Players started rehearsals Monday night on their spring show. For this spring the players will attempt the biggest production and the hardest play they have ever attempted. The selection for the bill is "The Cat and the Canary," a mystery bill in three acts by John Willard. The play will cost the Legionaires a royalty of \$50 for each performance which is the highest royalty ever paid by them for any play.

The cast will show most of the old standbys in Legion performances and will include only one new member. Mrs. Chas. F. Bailey will be the new member of the cast and she will have no trouble in taking her place with the Legion entertainers. She has appeared in readings here on several different programs and in the short time she has made Ballinger her home she has become a popular entertainer here. Other members in the cast will be Mrs. H. T. Forson, Miss Helen Williams, Mrs. E. Moody, R. W. Earnshaw, Harry Lynn, Neil McAlpine, Troy Simpson and M. C. Atkins.

No definite date has been set for the presentation of the play but a date will be announced early next week and as soon as the director can see about how much time the cast will require to get perfect in their parts. The date will likely be early in April.

Mr. and Mrs. Rufus Thomas moved their household goods from their former home in Wilke Terrace Monday to San Angelo where they will make their future home. R. P. Tunnels will move from Fourth Street to the home in Wilke Terrace, having bought it last week from Mr. Thomas.

J. M. Riddle of Winters was in Ballinger Tuesday attending to business.

Teachers Answer Invitation to Meet

Indications continue to grow daily for a record-breaking attendance of teachers here at the Mid-Texas Educational Association meeting of April 5 and 6. Most of the schools in this section of the state will close on Friday, April 5 in order to allow their teaching staff to be here for the gathering and to hear the program.

H. C. Lyon has received many letters from city and county superintendents in this section of the state saying that they will be in Ballinger for all the program.

Geneva Sill, county superintendent of Hamilton county, writes that she will be present together with several teachers from the rural schools.

C. A. Cowan, superintendent at Menard, stated that he is coming and that he has been planning all the year for this meeting. Several of his teachers will come to Ballinger with him.

Frank L. Williams, superintendent at Roscoe, writes that he is coming and says there will be a large crowd from that section of the country.

Superintendent A. M. Limmer of Desdemona says that he will be present with several teachers.

The superintendent at Santa Anna will be here and will bring 19 teachers from Santa Anna with him.

Superintendent B. H. McClain of Sweetwater has written that he and teachers from that city will be present.

Superintendent E. J. Woodward of Brownwood will be present and will have five or six teachers from Brownwood with him and possibly more.

Superintendent N. S. Holland of Breckenridge is coming and will bring other teachers from that city with him.

A. H. Smith, superintendent of Winters, will be here and will bring all the teachers from the Winters school with him.

Such letters as these are being received daily and with the large territory covered by the organization the attendance is expected to be the largest ever had at a meeting of the association before. The meeting is being advertised extensively both from Ballinger and

from the office of the president and no teacher in the territory will fail to receive an invitation and a complete program of the meeting which included some of the outstanding educators of the state.

The committee in charge of securing rooms for the teachers here on April 5th and 6th at the meeting of the Mid-Texas Educational Association, have not met with any big success yet. No canvass has been made by the committee but they plan to start a phoning canvass of all people in Ballinger next Monday, March 25 to line up as many rooms as possible.

Several notices have been given for everyone in town who will take teachers to phone some member of the committee and list their rooms with them. A few people have done this but so far the list is rather small and would not start to take care of those who are expected here on these two days. The committee is anxious to get as many rooms as possible added to the list before Monday and you are requested to phone some member of the committee before next Monday and give in the number you can take care of. In publishing the names of the committee last week we left off the name of Miss Maryatt Smith. The following ladies compose the committee and their phone numbers are listed by their names: Mrs. W. A. Bridwell, phone 402; Mrs. Joe Forman, phone 224, and Miss Maryatt Smith, phone 11.

Supt. H. C. Lyon last week mailed out a large number of letters to schools in this section of the state regarding the meeting here and since then has received many replies from superintendents stating that they were coming and that many of the teachers in their schools would be here. The officials of the organization are encouraged over the outlook for a large attendance and in case the weather is good attendance will likely be larger than at any previous meeting of the association. At Coleman last year the weather was bad and the registration was about 600.

Entertainment features are being planned here for the teachers which will be given on April 5th at noon and again that afternoon. The organization will hold a night session on Friday night

and this will cut out the entertainment for that night. All entertainment here will be handled easy with the exception of securing rooms. If the people will co-operate with the committee the rooming of the teachers will be easy. The rates allowed are: one in a room and breakfast, \$1.25; two in a room and breakfast, \$2; one in a room and no breakfast, \$1; two in a room and no breakfast, \$1.50.

NEW BUSINESS TO OPEN HERE IN NEAR FUTURE

J. T. Douglass, formerly of San Angelo, is moving his family to Ballinger to make their home. Mr. Douglass, associated with R. L. Sides and Knox Andrews, will open a sand and gravel pit on the R. L. Sides farm, eight miles northwest of Ballinger and will sell rock, sand and gravel for commercial purposes.

Mr. Douglass stated that it will be about one week before they are operating as it will require about that time to locate their machinery. They have about five acres which they intend to work where a very fine lot of this material has been found. Trucks will be used to transport the material from the pit to town and aside from selling the material locally, plan to ship to points all over this section of the state.

BALLINGER HIGH SENIORS HAVE SUNRISE BREAKFAST

The Senior Class met with their sponsor, Mrs. Tassin, early Saturday morning of last week and went in cars to the upper dam on Elm Creek where they enjoyed a sunrise breakfast.

The seniors left the high school building about 5 o'clock and upon arriving at the dam found that a few of the senior boys had preceded the rest of the class and built a big, warm fire. After warming by the fire they cooked breakfast, which consisted of scrambled eggs, bacon, bread and coffee. All present ate heartily and declared that they had enjoyed the lark to the fullest extent. After breakfast the class returned to town.

Jno. A. Weeks and R. W. Earnshaw are in Wichita Falls Tuesday attending a retail druggist meet which is being held in that city.

Rotarians Transact Business Wednesday

The mid-week luncheon of the Ballinger Rotary Club Wednesday was well attended and a very interesting meeting was held. Alfred Crager was the speaker Monday and talked to the members on the subject of "How May We Inform the Public of the Principles of Rotary?" Mr. Crager condemned the idea of talking about what we stand for and not letting our actions speak louder than our words. He declared that the service that we render to the public will do more than anything else to inform people about Rotary.

For the fun part of the program Wednesday each member answered roll call with a short sketch of his life, where he was born, his birthday, where he had lived and his classification in Rotary. A few members balked on the age question and some misrepresented the matter but friends informed the club of the true facts where a trick was resorted to.

The club voted to offer its help to the ladies organizations of the town who are trying to sponsor the Campfire Girls movement. The vote asked the ladies to call upon them for anything they needed in regard to forming the organization.

It was announced that the San Angelo Rotary Club would come to Ballinger on April 11 to return the call of the local club made to San Angelo last fall. On this occasion the ladies will be invited, the meet-

ing held at night and the dining hall will be decorated and the program will be furnished by the San Angelo club.

H. C. Lyons, Alfred Crager and Sam Behringer left immediately after lunch Wednesday to attend the district meeting of the 41st district in Ranger. The meeting in that city will open Thursday morning and will be in session for two days.

SENTENCE YOUTH TO THREE YEARS IN REFORMATORY

Burleigh Oxford was tried for burglary before County Judge Paul Trimmer Wednesday morning at 10 o'clock and sentenced to three years in the reformatory at Gatesville. Chief of Police McCall arrested Oxford for entering the Willingham barn in the lower part of town and getting some articles belonging to L. B. Stubbs which were stored in the barn. He admitted his guilt according to the officers and was given a quick trial following his arrest.

Chief McCall stated Thursday morning that there have been several complaints along this same line in regard to young boys stealing and that he was making a close watch and would try and break it up. Others are under suspicion and will be watched closely for similar violations.

R. L. Sims, of Ballinger, Rt. B. is moving from Runnels county to Roscoe, where he has recently purchased a section of land. He has leased his Runnels county farm and has not burned any bridges on his way to Roscoe.

She Travels 15 Years in Quest Of Lost Health

"For fifteen years I have done nothing but travel over the United States, Canada and Cuba in a fruitless search for health. Three weeks ago I began the Sargon treatment and today I am a well

MRS. M. M. LINK

and happy woman. That Sargon should restore me so quickly and so completely after all these years of suffering and failure is marvelous and I want my friends everywhere to know about this wonderful medicine.

"Even the lightest meals would cause me to suffer tortures from indigestion, gas pains, and smothering spells. Sometimes I would just have to gasp for breath. Nervousness made my nights almost sleepless. Rheumatism troubled me a great deal, too, and my liver was so badly out of order I had to take strong purgatives continually.

"I took treatments everywhere without relief, and finally made up my mind to travel with the seasons and live the rest of my days as comfortably as possible. Had anyone told me that any medicine would do what Sargon has done for me I could not have believed them. It put my stomach in perfect condition and drove the rheumatism right out of my system. I eat anything, am no longer nervous, and sleep like a healthy child. I feel strong and well all the time. Sargon Soft Mass Pills completely overcame my liver troubles. They act gently yet thoroughly.

"To enjoy such splendid health as Sargon has given me is the greatest blessing in the world, and I feel it my duty to let other sufferers know about this wonderful treatment."

This remarkable statement was made recently by Mrs. M. M. Link, wealthy resident of 863 Tuxedo Blvd., Webster Grove, Mo. Mrs. Link is spending the winter at Grande Court, San Antonio, where she went in her long search for health.

Sargon may be obtained in Ballinger from J. Y. Pearce Drug Co., in Winters from Main Drug Co., in Norton from Hayley Drug Store, and in Miles from the Crescent Drug Store.

BARNETT NEWS

Those who are recovering from an attack of measles are Pat Tyree, Roy Nelson and Masbelle, Marvel, Golda Jean and Avery Frost.

5 Towns Consider Class A Football

By Boyce House

The Oil Belt district long famed as the center of the most intense gridiron rivalry in Texas, is likely to witness its most exciting race next fall for prospects are bright that three and perhaps five new teams will enter the competition.

Mineral Wells, which ranks as among the strongest Class B teams in the state, is understood to have under consideration entry into Class A. Weatherford, another fast B aggregation, may cast its lot with A society. Both these teams had bigger squads and heavier and more experienced men than one or two of the Oil Belt Class A teams last season.

Then out in the west, Ballinger, Sweetwater and Big Spring are contemplating entrance into the district.

The effect of the admission of new schools to the Oil Belt loop would be to provide more games that count, with new rivalries. This will mean bigger crowds for the schools coming out of Class B and another result will be new thrills to the race for the district title.

Mineral Wells last fall played a scoreless tie with the Ranger Bulldogs—and there were about 400 fans present. If the game had been a battle with a bearing on the Oil Belt championship—and therefore a bearing on the state crown—there would have been thousands where there were only hundreds.

The Class A race just naturally gets the center of the stage, taking fans over the state as a whole, for many reasons not necessary to enumerate—though one that might be mentioned in passing is that the Class B race does not go beyond an elimination that leaves four—or is it eight?—teams undefeated in Texas while the A race continues until there is an undisputed championship team.

Last season, the Armistice Day game between Cisco and Ranger attracted a swarm of 10,000 wild-eyed enthusiasts. The Thanksgiving Day battle drew almost as many. A crowd of 5,000 is commonplace in the Oil Belt District.

In the meantime, the schedule section that was to have been held Saturday has been postponed because some representatives of the district schools could not be present. The meeting probably will be held within the next two weeks. By that time, it will doubtless be known how many new members there will be in the loop. If there are one or two, it will probably mean that each team will play seven or eight conference games instead of six as was the case last season. If three or more new schools join however, each school will book a schedule which will not include every member and this will give each school a wider latitude in arranging a schedule by booking games that for geographical or traditional reasons will be appealing.

On November 11, the Ranger-Cisco game has overshadowed other battles but Mineral Wells and Eastland, for instance, might clash on the Mountaineer's field that day and the conflict would attract a big throng or a Big Spring-Breckenridge battle on Armistice Day at Big Spring would prove of sensational interest.

Frankly, we hope the teams will enter. Their cities are large enough to rank with the other cities that are now in Class A football and their teams are sufficiently strong to make them drawing-cards. And while it would be astounding if one of the new teams should capture the Oil Belt championship the first year, it is a certainty that in a season or two they would have to be ranked among the real contenders.

The more, the merrier.

BETHEL NEWS

This part of the county was visited with another good rain Tuesday night. We now have one of the best seasons in the ground we have had for many years at this time of the year. The fall grain is growing with leaps and bounds and the pasture lands have taken on spring dress of green. The peach trees are in full bloom and we know spring is just around the corner.

The health of this community is splendid at present, only a few cases of light colds being reported.

Mrs. H. G. Hays has gone to visit her son, Harvey, at McCamey.

Dr. Fowler's death caused grief

in this part of the county as he was among us daily. His much beloved Hillsdale farms are part of Bethel community, and his faithful old horse "Joe" is buried on the road side with a white picket fence around it, put there by the doctor's own hands to show loyalty to this faithful animal. And now if we write all we have heard from the lips of those who live on his farms, it would take a volume to contain the words said about this good man. Dr. Fowler certainly fulfilled the Scripture where it says "A good name is rather to be chosen than great riches."

"REPORTER"

BLANTON NEWS

Bro. Floyd Wiley of Abilene preached for us Sunday morning. We enjoyed the sermon very much and were glad to have Bro. Wiley back with us again.

Mr. and Mrs. F. M. Wiley from Abilene and Mr. and Mrs. R. J. Ward of Winters spent Sunday with Mr. and Mrs. W. D. Wiley.

Quite a few of the young people of this community attended the party at Dave Flannigan's home at Novice. All reported a nice time.

Since our last writing we have a few more cases of measles to report. These are Carrie and Jim Witter, Estelle Ingle, Carrie and Hazel Wade, Mary Reese, and Edna Mae Foreman.

Mr. and Mrs. Frank Wood and family of Drasco and Mr. and Mrs. J. P. Booth visited J. A. Foreman and family Sunday.

Misses Lois Dietz of Crews and Elva Foreman spent Saturday night and Sunday with Miss Maude James.

Mr. and Mrs. Ollie Wood and family of Wingate visited Mr. and Mrs. Sam Wood Sunday.

Miss Creba Flannigan left Friday for Denton where she will enter college there.

Ed Linderman's sister and family of Barlett, visited here last week.

"REPORTER"

HERRING TOPICS

A large crowd was present at the negro minstrel at Herring Friday evening. Everyone seemed to enjoy it very much.

"Where Values are Supreme"

County Agent Makes His Annual Report

Below is printed a short biography of C. W. Lehmborg, Runnels county farm agent, and his annual report of work for the past year. The report does not only show the actual work done by Mr. Lehmborg, but it reflects in many ways the progress that is being made in this county in many lines. We invite our readers to read the report carefully.

Personal Sketch

C. W. Lehmborg, county agent of Runnels county, was born in Llano county, 18 miles south of Mason and spent his boyhood days on the farm and ranch thereby gaining an intimate and practical knowledge of farming and livestock raising.

Mr. Lehmborg received his scientific training in the best schools of the state. He attended Southwestern University, Texas University and the A. & M. College of Texas. After finishing school he was elected superintendent of the Navarro Agricultural School at Seguin which position he filled for six years.

In 1918 he took up county agent work in Wilson county where he worked continuously for seven years. In 1923 he resigned as county agent and became land appraiser for the Federal Land Bank. On account of sickness in his family he had to give up this work and again entered the Extension Service of the A. & M. College of Texas in 1924 and was assigned to Runnels county as county agent which position he holds at the present time.

Agriculture has made wonderful progress in Runnels county under the wise and able supervision of County Agent Lehmborg. One of the first things that he undertook was to make a thorough survey of agricultural conditions and needs of the county. To facilitate this work he organized an agricultural advisory board composed of the commissioners court and three representative farmers from each commissioner's precinct, a representative from the chamber of commerce and the county superintendent representing the schools.

In cooperation with this board the county agent worked out a five year balanced farm program adapted to the needs of the county. In this five year diversified program special stress was given to soil improvement work, dairying, the poultry industry and boys club work.

One phase of the diversified farm program that has added materially to the wealth of the farmers of Runnels county and has been an outstanding factor in building up the soil as well as increasing the water-holding capacity of these farms and increasing crop production is terracing and contouring. This is one of the leading phases of extension work in the county inasmuch as more individuals are benefitted directly and in a larger way than any other line of farm work. During the last four years soil improvement work has been carried on on 823 individual farms covering an area of 104,141 acres and has increased the productive value of these farms from one-fourth to one-third per acre.

Dairy Improvement Work

Dairy cattle improvement work was started in Runnels county in 1925. Before this time very little had been done to encourage dairy development in the county. The reasons for this were good cotton crops accompanied by high prices. During the last few years, however, the yields have been cut down by insects, poor weather conditions, and especially the root rot, and prices for cotton have also declined.

Taking advantage of these conditions the county agent in cooperation with the Bankers Association and the Chambers of Commerce has encouraged dairy husbandry to the utmost and with splendid results. The growth was slow but continuous.

The first carload of registered cattle and purebred cattle was shipped into Winters and was financed by Bert Low of the First National Bank. This shipment was soon followed by a second one into the same territory. A number of shipments were made to Ballinger and thus the good work continued with the result that during the past four years 763 head of registered and purebred dairy cattle have been shipped into the county co-operatively. All of these

cattle were sold to the farmers at actual cost. Today a good many farmers who depended on cotton for their money crop are milking from five to 20 cows and now have a steady cash income throughout the whole year. Thus in a few years the production of cream has been raised from 20,000 pounds a year to over 200,000 pounds, and has increased the earning capacity of the farmers from a few hundred dollars to \$400,000 besides placing farming on a sane and sound basis.

In order to make the dairy improvement program a permanent one eight bull circles with 32 bulls in these circles have been organized. These bulls come out of proven blood-lines and are backed up by high butterfat production records running from 583 pounds to 913 pounds.

This dairy improvement work has culminated in the building of a modern co-operative creamery at Ballinger at a cost of \$25,000, guaranteeing the farmers a constant and permanent outlet for their dairy products.

Poultry Work

Under the Guidance of County Agent Lehmborg the farmers of Runnels county are awakening more and more to the fact that mongrel poultry is a losing proposition and the tendency to keep only purebred high production birds is rapidly growing. This is true not only of chickens but of turkeys as well. Runnels county is rapidly coming to the front as a poultry county. Four years ago artificial or commercial hatcheries were almost unknown in the county. During the past few years seven commercial hatcheries with a capacity of 35,000 eggs operated at full capacity during the hatching season. Four years ago approximately 200,000 baby chicks were hatched and shipped into the county. This year alone approximately 750,000 or a quarter million baby chicks were hatched and shipped in. Approximately 50,000 turkeys were raised in the county. Two hundred and fifty carloads of chickens, turkeys and eggs were shipped out of the county to northern and eastern markets. The county agent's office assisted materially in this rapid development. In rendering service along this line the following demonstrations were given: culling demonstrations, to discard loafers and poor layers, 115; balanced rations, 97; sanitation and diseases, 93; selecting breeding stock, 125; caponizing, 63.

Boys 4-H Club Work

No phase of extension work is more important and more far-reaching than in its results than boys club work. This work is carried on almost exclusively in the rural schools. During the year 31 schools were visited and the work presented and explained to approximately 5,000 children. This campaign resulted in a membership of 293, and was distributed in 14 schools. Each club had its local leader and a full set of officers.

The following projects were taken up: milo maize, 37; cotton, 95; melons, 7; peanuts, 5; beef calves, 14; dairy calves, 20; pigs, 32; sheep, 21; poultry, 76.

During the year the following field schools were given for the purpose of giving practical training along the following: judging dairy cattle, 27; beef cattle, 18; sheep, 21; hogs, 14; poultry, 32; selecting seed in the field, 16; roging maize and cotton fields, 26; judging horses and mules, 8.

One hundred and eighty-seven projects were visited and checks made on same. Fourteen social meetings were held; 35 club members made trips to other counties for the purpose of studying field crops, live stock and poultry exhibits.

Twenty-four members attended the Farmers Short Course at the A. & M. College during the summer; 117 club members had exhibits at the Runnels County Fair and won prizes amounting to \$437.75.

The following purebred animals were placed with club members during the year: dairy calves, 14; beef calves, 14; pigs, 32; sheep, 27; poultry, 3128; pure seed, 97 bushels.

The productive value of the club members amounted to \$21,450.53 or an average productive value of \$73.21 per member. Results obtained from club work in Runnels county during the past years are: 1st, it has taught the members

C. W. Lehmborg

the value and benefits of keeping correct daily records of their work. 2nd, it has taught them how to properly take care of crops and livestock with a view of getting the greatest returns at the least cost; 3rd, it gave them an opportunity to prove their productive ability and has given dignity to their work; 4th, it has developed character and leadership, love and respect for the farm and rural home.

Seed Improvement Work

A campaign for better seed wheat and oats was started two years ago through the efforts of the county agent and is growing in importance from year to year. Pure Line Milo seed procured from the Spur Experiment Station was distributed among a number of farmers in different sections of the county. Three of these farmers, D. A. Dobbins, in the Drasco community; P. R. Dietz, in the Crews community, and R. L. Bates in the Content community, have achieved outstanding successes. They have kept their seed pure by bagging several thousand heads each year and have made from one-half to one ton more per acre than those farmers who have not taken care of their seed.

Not only have they supplied a large number of farmers of this county with this pure line seed but are filling a good many orders outside of the county. Last year Mr. Dobbins sold 7000 pounds of this fine seed to club members and farmers of Mills and Lampasas counties. Mr. Dietz shipped 8137 pounds to Taylor, Lampasas and Mason counties. Mr. Bates sold 9380 pounds to Coleman, Brown, Navarro and San Saba counties. This seed brought the producers 5 cents per pound. Twenty-seven farmers have already procured pure line seed through the county agent this winter. The same line of work has been carried on with cotton.

Dr. Tinkle, J. D. Smith, Dr. Jennings, Otto Toerck and Ben Spill all of Winters, have planted their entire farms comprising an acreage of 3793 acres, with certified seed. They have hired an experienced breeder, and their farms are being roged by a specialist, under the supervision of the State Department of Agriculture. This cotton is all ginned on a special gin set aside for this specific purpose. It has produced a strong hard fiber with a staple length running from 11-16 to 11-8 inch and with a lint output of 37 to 40 per cent. This cotton has produced an average of one-half bale per acre and has brought a premium on the local market of \$10 per bale.

The Farm Bureau Cotton Association in co-operation with the county agent, is carrying on the same work in the southern part of the county. This association has purchased 3750 bushels of pure Mebane seed which will be used in establishing "One Variety Cotton Communities." Thus the good work of "making two blades grow where formerly only one grew" is gradually but continuously spreading over the entire county.

Community Life

The development of the social feature of rural life occupies a prominent part in the extension work. It usually takes the form of community rallies and serves a two-fold purpose: first to revive the spirit of good fellowship among the rural people and, second, to give each community an opportunity to select delegates to the Farmers Short Course. During the past two years community rallies have been held in the following communities: Drasco, Victory, Harmony, Crews, Norton, Blanton, Oak Creek, Maverick, Hatchel, Dale, Bethel, Sweet Home, Spring Hill, Dry Ridge. These rallies always draw large crowds. The social feature always predominates. Appropriate programs composed of music, readings, plays, short talks, lantern slides, etc., are given. In

connection with these programs refreshments in the form of ice cream, cold drinks, cakes, etc., are served. The funds raised through these rallies are used to defray the expenses of the delegates to the Farmers Short Course at the A. & M. College of Texas. During the last two years 127 delegates from Runnels county have attended the Farmers Short Courses.

Results obtained from these rallies cannot be estimated in dollars and cents. In the first place, it draws the people of the community closer together and gives them a better understanding of the needs of their community. In the second place it gives them a fuller and more sympathetic understanding of extension service in the county. It offers the delegates sent from each community to the Short Course an opportunity to broaden their acquaintances by making new friends among the thousands of people from the rural sections of the state who attend the Short Course. In the third place these delegates come back to their respective communities with a message that widens their horizon and strengthens them in their purposes to keep abreast with new and better methods and apply these in their homes and on their farms. Runnels county is on the forward march and bids fair to stay in the lead among other West Texas counties.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood stream through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers—washing every cut, no matter how small, thoroughly with Liquid Borozone—the safe antiseptic. You can get Liquid Borozone at Weeks Drug Store.

RAINBOW SHOWING IN UNION-ALLEN NUMBER ONE

Several reports have come to town that the Union Oil Company's Allen No. 1 had a good showing of oil and still other reports were circulated to the effect that there was a strong flow of gas.

Thursday afternoon the bit encountered a strata of lime and shale that showed some evidence of oil with only a smell of gas.

Saturday morning about 10:30 the well was being drilled at 3460 feet and the bit was working in a hard brown lime. It is said that they have three chances of striking oil before they reach 4000 feet provided they strike the right formations.

The city is cleaning the paved streets of the town again, after the many rains of the past several weeks. Until we have more paved streets this nuisance will continue. There is some talk of a new drainage system and if this is provided, it may greatly relieve the washing of mud onto the paved streets.

A KISS WILL OFTEN TELL YOU

Kissing your children you may learn things about their health the little ones cannot tell you. Unpleasant breath or a feverish cheek should put you on your guard against illness. Don't worry and don't delay. Just give a dose of California Fig Syrup and, soon the bowels will move; all sour, upsetting elements will be cleared from the system and the child will be well and happy again. Nothing sweetens a sour, bilious stomach so safely; so promptly as California Fig Syrup. Even if you suspect measles or some other children's disease, give a dose of this trusted remedy first thing. The doctor will praise your foresight.

It is the finest laxative in the world for children, and the safest. Children love its delicious taste. If you have a child who is troubled with constipation or subject to frequent bilious attacks and sick headache try California Fig Syrup, tonight it will save you further worry. Get a bottle of California Fig Syrup, to-day. All drug stores have it. California Fig Syrup has been trusted by the World's mothers for over 30 years. That is why the word "California" should be emphasized when buying.

Methodists Hold First Church Night

The Methodist church held its first Church Night Wednesday and was greatly encouraged over the success of the occasion. The leagues had charge of the first program and 43 members of the leagues took part on the program. Rev. R. B. Hooper reported Thursday morning that more than 100 people attended the service and that a wonderful time was had by everyone present.

The leaguers presented a short play Wednesday night and showed that they had given their parts much attention by the manner in which they presented them.

Following the devotional service in the auditorium of the church, everyone was taken to the basement where a social hour was held, the old folks and young people playing games together and at the conclusion the young people served homemade candy to everyone present.

Each Wednesday night at the Methodist church will be church night and at each of the services some organization of the church will have charge. An effort will be made to increase the interest with

every meeting and build it into one of the big services of the church.

AFTER GRIPPE BUILD VITALITY ON Scott's Emulsion

BLANTON NEWS

The hail and rain Monday night did not damage but will help to put a good season in the ground.

Mr. and Mrs. W. F. James and family and Mr. and Mrs. Chas. James visited in San Angelo Sunday.

Since our last writing there have been several new cases of measles developed in this community. A few of these are Cerenia and Sammie Linderman, Louise and Alice Foreman, Joe Lee Cooper, Alvirnie Gray and Mennie B. Wade.

Mr. and Mrs. Dan Dorner and family visited Mr. and Mrs. Ed Linderman.

"REPORTER."

Popularity..

begins with a Clear Skin

IT'S the person with a clear, smooth, lovely complexion that usually wins.

To be sure, not much is said openly about skin eruptions, but secretly they influence many important affairs. Personal likes and dislikes are quickly formed.

Everybody wants to be attractive. It is a just and natural ambition. A clear skin makes everyone more attractive. Skilled physicians recognize the appearance of pimples, boils, eczema and other skin eruptions as being an indication that the body's power of resistance is low—that there is a deficiency of red-blood-cells.

The sure way to remedy this condition is to restore the red-blood-cells to normal.

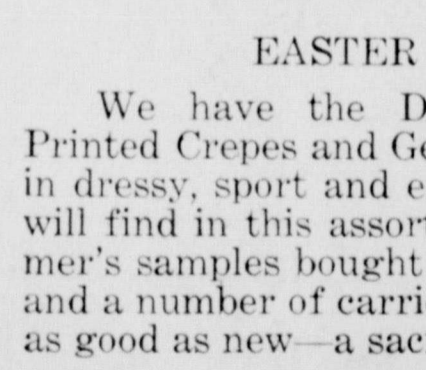

This is why so many thousands have been enabled to free themselves of those unsightly blemishes and painful skin annoyances by taking a course of S.S.S.

S.S.S. helps Nature restore the blood to its normal state. Healthy blood makes the body strong and resistant to disease. Without plenty of rich, red blood there could be no strong, stately, powerful men, or healthy, beautiful women.

If you are troubled with so-called skin disorders or if the count of your red-blood-cells is low, take a few bottles of S.S.S. Seek energy, vitality and a clear skin through the remedy, which is made from fresh vegetable drugs, and has stood the test of over 100 years.

All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

BUILDING NOTES

The new home of Tom Caudle on Broadway is nearing completion. The brick work is about completed and workmen are busy on the inside at present.

R. E. Lane has completed the improvements on his old home and the new house on the lot adjoining is making good progress. This will be a modern brick veneer home and will add much to the looks of Sixth Street.

The Voglesang home on Fourth Street is making good progress. The old Penn home was moved to another lot on the same street and workmen are rushing the new home as fast as possible.

The Higginbotham Funeral Home at the corner of Broadway and Park Avenue is making lots of improvements. The old garage has been torn down and new ones to take care of all their vehicles built. Workmen are repainting and remodeling the home and will soon have the place completely overhauled and made to suit their needs.

Mr. and Mrs. Edwin Day are making some valuable improvements at their home on Broadway. The embankment left after the paving job was completed is being removed making the front of their place very attractive. They are also building a beautiful rock wall at the rear of their property and making other improvements that will add to the beauty and value of their home.

The Hub has completed its front and electricians are installing the lighting equipment. The new show windows will be decorated within a few days.

L. L. Stroble has work well underway on the City Cafe Building. The entire inside has been torn out and a new cement floor poured. Painters are reworking the ceiling and the building will be in shape for the new fixtures to be installed as soon as they arrive.

Q. V. Miller has about completed remodeling the Miller Building next door to the Ballinger State Bank. A new stairway has been

built on the outside of the building, the old one torn down inside and new floors, walls and ceiling installed and repainted.

Perry Bros' new front is about finished and this store will be ready to open for business again after being closed for some time. New fixtures in this store will give it a different appearance.

The new filling station at the corner of Tenth Street and Hutchings Avenue is started and will be built of brick. This modern station replaces the old blacksmith shop that stood on that corner for many years.

Harry Lynn has about completed repairs on his home following the fire a few weeks ago. Some refinishing on the inside remains to be done yet.

School Inspection To Start March 25

County Superintendent R. E. White received word Wednesday morning that the state inspection of the schools in the county would begin on Monday, March 25 in this county. Inspector John Lee Smith, who is now working in Mills county, will arrive here to cover the county with Mr. White and the itinerary below will be carried out to cover the county in as short a period as possible. Heretofore it has required about nine days to inspect the schools in this county but on account of Mr. Smith having been laid up with flu and being somewhat behind with his work, the inspection will be speeded up as much as possible in the county in order to make up some of his lost time.

Following is a completed schedule of the inspections:

Monday, March 25th—9 a. m. Spring Hill, 10 a. m. Dry Ridge, 11 a. m. Bethel, 2 p. m. Gruenwald, 3 p. m. Sweet Home.

Tuesday, March 26th—9 a. m. Cross Roads, 10 a. m. Red Bank, 11 a. m. Bell, 1 p. m. Brookshire, 2 p. m. Maverick, 3:30 p. m. Marie.

Wednesday, March 27th—9 a. m. Hagan, 10 a. m. Barnett, 11 a. m. Mann, 1 p. m. Poe, 2 p. m. Cochran, 3:30 p. m. Franklin.

Thursday, March 28th—9 a. m. Norton, 10:30 a. m. N. Norton, 11:30 a. m. Oak Creek, 1:30 p. m. Maze-land, 3 p. m. Wingate.

Friday, March 29th—9 a. m. Hatchel, 10:30 a. m. Independence, 11:30 a. m. Pumphrey, 1:30 p. m. Drasco, 3 p. m. Baldwin.

Monday, April 1st—9 a. m. Dale Mexican, 10 a. m. Dale, 11:30 a. m. Victory, 1:30 p. m. Harmony, 3 p. m. Content.

Tuesday, April 2nd—9 a. m. Blanton, 10 a. m. Eagle Branch, 11:30 a. m. Crews, 2 p. m. Herring, 3:30 p. m. Dietz.

D. E. Moody went to San Angelo Wednesday and brought Dr. Marberry to Ballinger to examine his wife. Mrs. Moody has been in ill health for some time and is not doing well, at present being confined to her home.

Improvements for Local Creamery

The Runnels County Co-operative Creamery is looking like a palace now since Manager Lee R. Stubbs has started a repainting and general cleanup in the plant. Everything is being enameled, screens put to the windows and doors, and the entire plant gone over and placed in first class condition.

Mr. Stubbs is adding system to the local creamery and placing it on a high basis of business and efficiency. He knows his business in this line and in particular is turning out a sample of ice cream that cannot be excelled.

The creamery has meant much to Ballinger and the county and many local citizens and even stockholders have never taken the time and trouble to learn just what it does mean. The local plant issues checks to their patrons each Saturday amounting to from \$1100 to \$1500. Dairymen are receiving almost twice as much for their cream now as they had in the past and this money is paid every Saturday to the farmer in cash whereas he used to have to take the amount out in trade.

The plant is deserving of the patronage of all the people in this territory and they guarantee to deliver an article that will give complete satisfaction in every particular. Mr. Stubbs is a live wire not only in his work with the creamery but as a booster for every good cause in the town. Special moulds will be made for party use and they are giving a delivery service to all parts of the town and twice daily, delivering pasteurized milk, Bulgarian buttermilk, butter

and ice cream. They solicit the patronage of Ballinger people and when patronizing them you will be keeping your money in Ballinger and helping an institution that is one of our greatest assets.

PAT MURPHY CARRIED TO DALLAS SPECIALIST

Pat Murphy, son of Mr. and Mrs. Horace Murphy, was carried to Dallas Monday afternoon to be placed under a specialist. Pat has never recovered since having a severe case of influenza several months ago. Complications followed that have left him in a bad physical condition and his parents decided to see a specialist and leave him under treatment for some time.

J. D. Good of Norton was here Tuesday attending to business.

DEATHS

W. S. Davis of Winters died Monday night at 9 o'clock after an illness of only a little over a week. Mr. Davis would have been 79 years old on the 21st of this month had he lived. He has been living in Texas for the last 46 years, having come to this state from Mississippi. For 26 years he has lived at Winters or near Winters and all the children of Mr. and Mrs. Davis are living near here. Mr. Davis was the father

of Mrs. W. A. Forgey, recently of Ballinger but now residing in Coleman.

Funeral services were held at the Baptist church in Winters at 1:30 Tuesday afternoon, with Rev. W. T. Hamor assisted by Rev. M. A. Quindien in charge. Following the service at the church the body was brought to Ballinger and interment made in Evergreen Cemetery.

Spill Brothers undertakers were in charge of funeral arrangements.

Phyllis Mae Rister

Phyllis Mae Rister, daughter of Mr. and Mrs. Jack Rister of 300 Tenth Street, died at 2:30 p. m. Sunday evening following an attack of pneumonia and other complications. Mr. Rister is employed by the City Grocery Company and has made his home here only for a short time, moving here from Abilene to take charge of the meat market in connection with the grocery.

Funeral services were held from

the Baptist church Monday afternoon at 3 o'clock with Rev. J. H. McClain in charge, assisted by Rev. King of Abilene. Pallbearers were John Gulon, Bob Smith, L. B. Rudder and Rev. King.

Following the service at the church the body was interred in Evergreen Cemetery.

Higginbotham Bros. & Company undertakers were in charge of the funeral.

J. W. Wilson, Sr.

J. W. Wilson, Sr., died at Goldsboro Thursday morning and according to announcement here was buried at Mid-Way Friday afternoon. Mr. Wilson was the father of J. W. Wilson of the West Texas Utilities Company here, and of B. E. Wilson with the same company at Winters. He was 78 years old and his death was sudden as he was in good health for his age prior to his last illness.

Spill Brothers, undertakers of Winters, were in charge of the funeral.

Avenue, Ballinger, Texas.
Entered at the Postoffice at Ballinger
as second-class mail matter.
Subscription, the year\$1.50

The small rains that have been falling every few nights recently are getting the ground in fine shape to start another bumper crop towards maturity. Small grain is in fine condition and farmers are about ready to start planting with a fine underground season.

Rabbit drives in the county are becoming very popular at this season. Farmers are reporting that the jack rabbits are thick this year and in order to rid their places of the pests are giving barbecues and inviting citizens to drive the rabbits and kill them.

The Mexican Revolution is about over and the flood waters are receding. Front page space in newspapers will get a change within the next few days and no one knows what the next big event will be about. The only constant front page smasher is Col. Lindbergh and he gets there regardless of what else is going on.

It looks like Ballinger will soon hear the familiar spring cry, "play ball!" Local fans are planning for a big summer and entertainment every day not only for local fans but baseball enthusiasts over this entire section of the country. The money is about raised and all that is between us and organized baseball is the month of April.

There has been considerable agitation in Ballinger for baseball this summer and the proposition has come to a head and is now square up to the fans. If baseball is wanted here it means to quit talking and put up the money, otherwise be content to do without or visit other nearby towns to see games. The soliciting committee will see everybody and it is a matter that will take the support of everybody to put it over.

A good many fans in Ballinger are agitating some kind of a baseball team for this summer here. Some of the fans are willing to give their time to canvassing the town to see how many players can be lined up and how much money it will take to run amateur ball. It is pointed out that by June a good number of college boys will be home who play the game and with a number of oldtimers here who are still good, there is no reason why a fast club could not be organized.

Freezing weather is over and weather conditions are getting ideal for the actual construction of Highway No. 36. So far no working order has been received from the State Highway Department for Contractor Thompson to begin work. The grade is ready to receive the cement, the water pipes have been laid and when the order comes, no time will be lost in getting the job started.

The action of the State Sheriffs Association in employing a special prosecutor to assist with the prosecution of the two Mexicans who killed the sheriff at Moson should make criminals think twice before deliberately killing a sheriff. This is a fine move on the part of that organization and will do much to protect the lives of the men who look after the enforcement of our laws. Every sheriff places his life in danger when he starts to make an arrest and he should have every protection possible.

Friday and Saturday of this week the school boys and girls from all of Runnels county will gather in Winters to compete for honors on track and tennis, volleyball, basketball and literary events. Ballinger will send contestants for every event and will make hard competition for other schools in all contests. Aside from the contestants a good number of the faculty and boosters from here will go over to root for the Ballinger boys and girls. The field meet and track events will begin shortly after noon Saturday and a big crowd is expected for this part of the program.

Slow rains continuing to fall in this county are giving one of the best underground seasons for the planting of crops ever had here. Most of the farmers have their ground plowed and ready to plant and the water which is falling is all soaking in and giving a wonderful season. Ranchmen report

weeds and grass are coming sufficient to soon stop feeding sheep and cattle. Many ranchers will be getting to lamb now and will be able to start their sheep on the range without feed at the end of the lambing season.

The move started by some of the ladies of Ballinger looking towards the organization of the Campfire Girls is a worthy move and deserve the support of every Ballinger citizen. We all have agreed that the Boy Scouts is a good move and two good troops are now organized, equipped and working. The Campfire Girls means the same kind of work to the young girls and they are just as deserving of such help as are the boys. With competent leaders several companies of Campfire Girls can be organized here and it will mean much for the girls who take out membership.

Coleman county is pushing the organization of a county fair hard at present and hope to complete it and have the fair this fall in permanent quarters. For several years Coleman citizens have been watching other county fairs and they have come to the conclusion that they are good things and are determined to have one. We congratulate Coleman on the move and are frank to state that in every line of business Runnels county has profited by its fair. We believe we have one of the best county fairs in the state and are glad to see our neighboring county on the east getting such a move started.

The hat institute of New York is making a strong fight against the habit of young men going bareheaded. This habit is hurting the hat industry and they claim it is a habit that is injurious to health and to style. The hatless fad was started by college boys with the idea that when they came to the big cities without hats, their hatless condition was a sort of badge of distinction. The practice has been generally stopped by the college men, however, because it was taken up by clerks and office boys, and was no longer a means of identifying the college students. The practice seems to be waning but is still interfering with the normal sale of hats. In the small town there are not so many hatless young men noticed but even here we see enough to see what this fad means to the hat manufacturer and salesman. The Hat Institute was organized by 90 percent of the hat manufacturers to start a national campaign against the hatless fad to see if it could not be stopped.

J. W. Wilson, Jr., and B. E. Wilson of the West Texas Utilities Company left Thursday morning for Goldsboro in response to a message stating that their father, J. W. Wilson, had died suddenly. They will await the arrival of other relatives from St. Louis before the funeral arrangements are completed.

Earl Morley and Bill Green of the West Texas Utilities Company returned from Stamford Wednesday night where they had been to investigate the death of an employee who was killed near that place when a truck overturned.

DALLAS TRACK Team Wins Meet

The Ballinger track team got its first competition Wednesday afternoon when they met the track team from Bethel in a practice meet at Fair Park immediately after school. The seniors and juniors both competed in practically all events and the Ballinger teams showed up to good advantage in practically all events. Several of the Ballinger men have only been out for a few evenings in training and are not in very good condition yet but by the time of the county meet at Winters will be ready to meet harder competition.

Coach Weaver of the juniors had many of his boys out and in the junior events took all first and second places with the exception of chinning the bar. Bethel and Ballinger tied for first place in this event. The Ballinger team of juniors won the play ground ball game and also took the relay race.

In the senior track some good races were seen and the outlook for the team is the best it has ever been here.

Following is a list of events and winners:

100 yard dash—Jones Parrish, Ballinger, 1st; Dankworth, Ballinger, 2nd; Greenhill, Bethel, 3rd.

880 race—Whitley, Ballinger, 1st; Dusek, Ballinger, 2nd; Greenhill, Bethel, 3rd.

220 yard dash—Parrish, Ballinger, 1st; Dankworth, Ballinger, 2nd; Greenhill, Bethel, 3rd.

440 yard dash—Wilson, Ballinger, 1st; Lusk, Ballinger, 2nd, and no third.

High jump—Davenport, Bethel, 1st; Coker, Ballinger, 2nd; Dankworth, Ballinger, 3rd.

Discus—Robinson, Ballinger, 1st; Coker, Ballinger, 2nd; Parrish, Ballinger, 3rd.

Shot put—Greenhill, Bethel, 1st; Jacob, Ballinger, 2nd; Werner, Ballinger, 3rd.

Pole Vault: Coker, Ballinger, 1st; Dankworth, Davenport and Daugherty tied for 2nd.

The mile relay race was won by Ballinger.

Bethel had no entries in the running broad jump and hurdles so these races were not run.

Coach Wright will have two entries in all events at the county meet at Winters and expects to win many places and have a good delegation to the district meet at San Angelo.

Mrs. W. A. Bridwell left for Dallas Thursday to spend the weekend with her daughter, Miss Willwood, who is attending the state teachers college in Denton. Miss Willwood will meet her mother in Dallas.

Mr. and Mrs. J. Y. Pearce and Ed Baker have returned from a very pleasant stay in San Antonio and the Rio Grande Valley. Mr. Pearce returned home just a few minutes before his beloved friend, Dr. W. W. Fowler, died.

Abilene—Construction of city lighting system, extension of electric distribution lines and addition of new customers are plans made by the West Texas Utilities Company here.

DISTRICT OF TEXAS Secretaries Meet

J. D. Motley returned Thursday evening from Coleman where he had been to attend the meeting of the Heart of Texas Secretaries. Due to the rain the night before the attendance was light but those attending met in session and the entire day was spent in planning many things for the betterment of West Texas.

The Coleman Chamber of Commerce served the guests with a luncheon at the Coleman Hotel at noon Thursday and the executive members of the Coleman body met with the secretaries.

Most of the day was used in a round table discussion of matters of interest to all towns. One of the most important of these was a discussion of doubtful promotions of various kinds. It was the experience of each of the secretaries that many grafters in many different lines of work were coming into the towns of West Texas and taking money out on schemes that are not worth anything to the people. Secretaries will co-operate with each other in giving advance information on the men and their schemes as soon as they hit the first town in the district.

Some time was given to a discussion of highways and highway designations in various sections of the district and the improvement of lateral roads.

Mr. Motley made a report of fairs in this district. Coleman county and Llano are both at present working on the organization of county fairs and join with the others in their circuits of amusements, etc.

Homer D. Wade of the West Texas Chamber of Commerce was present and took up the matter of changing the dates of the El Paso convention. The dates of this convention may be changed in order to meet the convenience of school bands and also it is probable that President Hoover will accept an invitation to be present and in case he does that dates will be arranged to suit the time that he can come.

The next meeting will be held at Brady at the call of the president within the next 60 days.

WORKING ON NORTON-VALLEY CREEK ROAD

A large crew of men and machinery are employed by Commissioner Deens just now on the Norton-Valley Creek road, where they are building a new grade and otherwise improving the road.

Commissioner Deens stays right on the job wherever his road work is going on and generally gets his money's worth for the county.

Benavides—Five hundred cars of sulphur were shipped from the Duval-Texas Sulphur Company in 1928.

DISTRICT CLASS MEETS Excellent Banquet

The Ballinger Men's Bible Class enjoyed a delightful banquet and program Tuesday night at the Central Hotel served in the club dining room at 8 o'clock. Plates were served to 35 members of the class and guests and while the meal was being served the Ballinger High School Orchestra furnished music for the occasion.

Rev. Alvin O. Rue, teacher of the class, acted as toastmaster and as soon as the main meal was over introduced the guests who were present. Men from other congregations present were T. W. Parker, Estes Lynn, W. L. Brown and Frank C. Dickey.

Dr. Geo. P. Horst of St. Louis was introduced to the members by the toastmaster and he delivered the principal address of the evening

the Church." Dr. Horst gave an address to the class that was very fine and one that would have been well for the entire town to have heard.

The Ballinger Men's Bible Class meets each Sunday morning at the Palace Theatre with Rev. Alvin O. Rue as teacher. The class has been meeting for a long time and has built up a class that is a strong organization. Roy Hill is president of the class and Wesley Woods is secretary. This class extends an invitation to all men and young men who are not attending Sunday school to line up with it and attend the meetings each Sunday morning. You will be welcome and given a good lecture at each meeting.

V. L. Wunnenburger, minister of the Church of Christ here, left Saturday for Christoval to fill an appointment.

Let the Product Talk

Ice Cream Has Much Food Value

EDITOR'S NOTE: This is the first of a series of articles by L. R. Stubbs, manager of the Runnels County Co-operative Creamery. Mr. Stubbs has given creamery products a long and intensive study and will take up different phases of his work in the subjects with a view to increasing the popularity of the local creamery with local people.

(Authorities for this article—Dr. A. W. Homberger, Professor of Nutrition in the School of Medicine in the University of Louisville; 12 years he has carried on extensive tests. Others, the famous Dr. Rosenau).

We are living in a most wonderful age; scientists are working out for us a great many simple facts that mean much to the nation's health. The physician formerly resorted to drugs and to medicines hoping through them he might effect the cure of his patient. To be sure, he still uses these means but to a much more limited extent. He goes further now; he knows that diet and right eating do much more to maintain health to serve as a corrective factor than the drugs that were taken in such quantities years ago. In his book on preventive medicine, the famous Dr. Rosenau states, among other things that "The vigor and success of a nation rests fundamentally upon its diet." He goes further in saying that "Diet may lower the standard of public health in subtle ways, for there are probably many degrees of malnutrition not recognizable except in their effects on the individual over a long period of time—diet may make or mar health." The physician has long realized that some 80 per cent of all diseases excepting acute infections and contagious diseases, are without doubt directly or indirectly due to the diet.

The dentist is more and more convinced that the early breaking down of tooth structure and bad teeth in young life are directly traceable to wrongly balanced diets. This is no longer an assumption. Surveys of school children prove to us that there must be a basic cause for the increasing number of dental cases in this country. Yet this is in spite of the fact that we are teaching the young better care of their teeth. A number of years ago Dr. Clark of the Washington Bureau of Health reported that 90 per cent of the school children in the United States had in their teeth from one to 11 cavities. Dr. O'Rourke in a recent survey of schools in Louisville, reported that out of 597 children examined in one school only 80 had perfect teeth, while another school showed only three out of 667 with perfect teeth. All this is not new information but simply neglected knowledge. Back in 1916 Durand pointed out the influence of diet on tooth growth, and in 1921 Howe and others substantiated the work with similar findings.

Public health work shows that underfeeding and malnutrition is increasing in our schools. A bulletin of a United States bureau estimated a few years ago in a survey that from three to six millions of American children are malnourished or under fed. This does not mean that the boys and girls concerned are starving to death but are showing symptoms of under feeding in some way or other. How often do we see the unhappy, tired and worried expression on a child? He is listless, doesn't want to learn his lessons, and the teacher calls him lazy or an "ornery" child. Frequently, you will find that such children have mealy teeth or slow formation of permanent teeth. At least from 80 to 90 per cent of these symptoms are due to nutritional deficiencies or disturbances.

The undernourishment may be due to the youngsters not getting enough food but more often it is not the right kind of food, and occasionally they may not be able to assimilate their foods through physical defects.

A host of scientists, aware of these situations, are faithfully working along these same lines and are showing the people what to eat and how to eat. They are systematically working out the value and place that our various foods should occupy.

Whether we are young or old, our diets require proper guidance through the right foods. The human body is like an automobile, it needs the proper fuel. If therefore, becomes our problem to find out what the body needs to keep it in proper condition for its normal growth, for its development, and for its maintenance. For convenience these constituents which the human machine needs in order

to function properly have been grouped by food chemists under the following heads:

- First: Water.
- Second: Carbohydrates, food derived from vegetable sources, such as potatoes, bread, rice, vegetable sugars, etc. These serve as fuel.
- Third: Fats, food derived from animal and vegetable sources, such as milk, nuts, butter, vegetable fats, bacon, meat fats, etc. These also serve as fuel.
- Fourth: Protein, meat and milk, eggs, fish, cheese, peas, beans. These serve to build muscle and tissue.
- Fifth: Roughage, green vegetables. These serve as body regulators and prevent constipation.
- Sixth: Mineral matter, found in milk, eggs, fruits, vegetables, cereals. Mineral matter is needed for building up bone and tooth structure as well as for serving in the other body functions.
- Seventh: Vitamines, milk, cream, eggs, fruit, vegetables, whole cereals. These mysterious "things" promote growth and maintain health.

A glance at these seven groups will show that there is no one food that contains all these elements. The nearest approach to such perfect food is milk—it has in it about 87.1 per cent water, 4.8 per cent carbohydrates, 4 per cent fat, 3.3 per cent protein. Milk contains good minerals which will furnish building material for bone and teeth, and it has present the indispensable vitamines. In view of this composition, it has long been recognized that in selecting our diets an ample supply of milk, not less than a pint per day for each member of the family, should be included for good health as well as wise expenditure.

Where in all this discussion does the ice cream enter? When properly made, ice cream, like milk, has in it carbohydrates, fats, proteins, vitamines and even some mineral matter. And it has these constituents in a much greater percentage than milk. A fair composition of ice cream is as follows:

- Water, 66.9 per cent.
- Carbohydrates, 17.7 per cent.
- Fat, 10.1 per cent.
- Protein, 5.2 per cent.

From this percentage composition, it must be concluded at once that ice cream is a more concentrated food than milk, and that, if made in a sanitary way under proper safeguards, it should be more nutritious than milk. Of course, we can not substitute ice cream for milk, but if properly eaten, it becomes not only a nutritious food, but a most valuable part of the diet.

Good ice cream is more than an ordinary food. I am not advocating it as a sole food or as a substitute for milk or any other food. However, used in conjunction with a meal and between meals, when meals are light or when not much food can be taken at meal time, ice cream constitutes a concentrated and palatable type of food. It is not a luxury, as is so often the idea of the layman, but should be placed in the same list with other essential and staple food products. Children may eat ice cream with their meals; the aged frequently, when other foods do not seem to agree with them, will find ice

WEDDING BELLS

B. T. (Bill) Walker and Miss Hattie Vorbeck were married at Menard Saturday and surprised home folks Monday morning when they made the announcement. Mr. Walker left Ballinger Friday afternoon for San Antonio to attend a ball game and returned home Sunday night and Monday morning the marriage was announced.

Mr. and Mrs. Walker have not selected a place to live as yet, but will be at home here as soon as they find a suitable place.

Mr. Walker, the son of Mr. and Mrs. E. D. Walker, is an employee of the Ballinger State Bank. He has been here with this institution for several years and is a young man of unusual business ability.

Mrs. Walker is well known in Ballinger. She is the daughter of Mr. and Mrs. H. Vorbeck, pioneer citizens of Ballinger. She was for a number of years with the West Texas Telephone Company and later with the Sillix Oil Company.

Both the young people have many friends in Ballinger who wish for them a long life of happiness.

Miss Mabel Brewer, who is teaching at Wingate, was in to spend the week-end with her parents.

Mrs. G. W. Hubbard Arrives from Mexico

Mrs. G. W. Hubbard and daughter, Louise, arrived in Ballinger Wednesday night from Tampico, Mexico to visit with her parents, Mr. and Mrs. J. M. Cordell. Mrs. Hubbard will be remembered in Ballinger better as Miss Beulah Cordell.

Mrs. Hubbard fled from Mexico last Friday morning aboard the Spaarddam with a number of other women and children who were fleeing from Mexico and arrived in New Orleans Monday. Mr. and Mrs. Cordell were advised that she was on her way to Ballinger several days ago when a lady who left Mexico in an airplane arrived in San Antonio and called them on the telephone and advised them that their daughter had left there by steamship for New Orleans.

Mr. Hubbard is employed near Tampico with an American oil company. When the revolution broke out the husbands became uneasy about the safety of their families and many women and children were rushed to Tampico where they took passage on a passenger ship leaving there for points in the United States. Mrs. Hubbard and her daughter were among the first to leave and made good time in getting to their home here.

At New Orleans Louise had her picture in one of the leading papers as she came ashore from the ship. She and another child in the arms of the ship's captain were photographed when the Spaarddam landed with about 40 refugees. The captain of the ship helped the children to avoid sea sickness on the voyage. It is the first time Louise has seen the United States and her grandparents are more than delighted to have her and their daughter at home during the dangerous period in Mexico.

Mrs. Hubbard and her daughter will remain here until it is considered safe for them to return.

Mr. and Mrs. J. L. Gill are moving from the old Brewer home on Tenth Street to the L. E. Bair place on Eighth.

Lions Discuss Campfire Girls

The Ballinger Lions Club had as guests Friday at luncheon, Mrs. Ira Sims, president of the American Legion Auxiliary; Mrs. Joe Simmons, as a representative of the Parent-Teachers Association, and Mrs. W. L. Brown, as a representative of the Shakespeare Club. The ladies came before the Lions Club to discuss the question of organizing the camp fire girls in Ballinger and the Lions Club voted to give both their moral and financial support to the organization.

Several other speakers present spoke in behalf of the work and praised it very highly. Among the speakers besides the three ladies were W. C. McCarver, Frank C. Dickey, R. B. Hooper, G. T. Reaves and Doug Motley. Each of these speakers praised the work and offered the ladies their help in carrying the movement to an organization.

The ladies were asked to take the lead in the work and after they have conferred with their organization some definite action will likely be taken toward forming a permanent organization.

For Straight Legs For Baby—Give Scott's Emulsion

Mr. and Mrs. J. C. Sturges and J. C. Sturges, Jr., have been over to Brady this week, where Mr. Sturges is opening the new store of J. C. Sturges & Company. They presented a style show Thursday night and had a wonderful crowd, so they report. J. C., Jr., will remain in Brady for the time being, at least, and manage the store.
