

THE BANNER-LEDGER

VOLUME NO. 50.

BALLINGER TEXAS, FRIDAY, NOVEMBER 11, 1939.

NUMBER 9.

Robber Gets \$7,000 In Holdup on Street

BARTLESVILLE, Okla., Nov. 12.—A robber today held up O. K. Rinkle, cashier of the Bartlesville Gas & Electric Company, while he was en route to a bank, and escaped with \$7,017.

MARLAND, Okla., Nov. 12.—Two youthful bank robbers ran into a hail of officers' bullets as they were leaving the Marland State Bank today with loot of \$2,000.

Jimmie Jackson, 20, Pawhuska Indian, was killed instantly and Carter Camp, another Pawhuska, was wounded.

Six officers, pre-warned of the planned robbery, fired as the pair entered an automobile after leaving the bank.

LOS ANGELES, Nov. 12.—One of Detective R. L. Stevenson's most embarrassing moments came today when he learned that the telegraph office he was guarding in anticipation of the robbery, had been held up while he stood thirty feet away.

PHILADELPHIA, Nov. 12.—Three young men last night kidnaped and robbed Brigadier General Robert M. Brookfield, 57, commander of the 57th Infantry Brigade, Pennsylvania National Guard.

The trio relieved the general of \$45, then released him, and took his automobile in which to make a get-away.

General Brookfield had picked up the young men for a free ride.

SAN ANGELO WOMEN HURT IN A WRECK IN BALLINGER

Mrs. C. C. Huckabee and Mrs. J. W. Jennings, of San Angelo, were painfully injured late Friday afternoon when their car overturned near Ballinger. The women were turning around another automobile and the front wheel of their car went off the concrete into the loose dirt, turning over into the ditch.

Both women were taken to the Halley & Love Sanitarium for treatment. Mrs. Huckabee sustained a broken arm and bruises, and Mrs. Jennings received a number of abrasions and lacerations. Both were doing all right Saturday morning and will be able to go home soon.

MATTHEISEN MOVES TO SAN ANTONIO

Ballinger loses and San Antonio gains upon the departure Saturday of one of our oldest citizens, Ben Mattheisen, who with his family is moving to the Alamo City. Mr. Mattheisen is planning to establish himself in the same line of business that he has been operating here, and in so doing that city will gain one of the best all around mechanics there is to be found in Texas. He has many friends and customers who regret to see him leave Ballinger, but at the same time will wish for him and his family untold success. The business of Mr. Mattheisen will be located at 111 W. Crockett Street, and he extends all his friends in Ballinger a welcome to visit him at any time they are in San Antonio.

Rehearing Granted A. & S. Application

WASHINGTON, Nov. 11.—The Interstate Commerce Commission officially granted permission for re-argument of the application of the Abilene & Southern Railway, subsidiary of the Texas & Pacific Railroad, to build an extension of 39 miles from Ballinger to San Angelo. The date for the new hearing has not been set.

The Santa Fe system has opposed the extension on the grounds that it would parallel the Kansas City, Mexico & Orient, a subsidiary of the Santa Fe, and would infringe on territory which the Santa Fe pioneered. This view was upheld some months by a division of the commission after one of the members recommended that the construction be permitted if the Santa Fe refused the A. & S. trackage privileges. Extensive hearings previously were held on the proposed extension.

Runnels 4-H Boy Wins Chicago Trip

Ira Klutts, member of the Crews 4-H club, has been selected to make the trip this year to the 4-H Club Boys' National Encampment at Chicago. Young Klutts has received a number of honors this year in club work and the trip comes as a crowning award for his achievements.

C. W. Lehmsberg, county agent, is delighted that one of his club boys has made a record entitling him to this honor.

The following letter from M. T. Payne, state boys' club agent, was received this week by young Klutts and gives information on the trip and details:

"Dear Sir: You have been selected as one of the winners for the Chicago trip to attend the 4-H Club boys' National Encampment, November 28 to December 5. Please write me by return mail advising me whether or not you will accept this trip."

"We are going to buy each boy a hat to wear on this trip. Please give me the size hat you wear so that we can place the orders at once."

"I will write again soon giving you detailed instructions as to where and when to meet the party, and will send you your railroad fare and expense money. There are a few suggestions I want to make now so that you may prepare for the trip. They are:

"First: You will need a good overcoat without fail, as the weather sometimes is below zero.

"Second: If you expect to buy a new pair of shoes for this trip get them in plenty of time and break them in, because we will have lots of walking to do. It would be preferable to wear your old ones if they are fairly good.

"Third: Do not wear a hat as we will have your hat for you. Come bare-headed or wear a cap.

"Fourth: You will need one suit of clothes with coat and trousers to match to wear when attending banquets and the like.

"Please write me by return mail, giving me your hat size so that we can place the order for your hat in case you intend to make the trip. Remember, I will write you again in a few days giving detailed instructions where and when to meet the party."

RAINS DELAY SMALL GAIN SOWING IN MILES SECTION

MILES, Nov. 8.—Rain has interfered with the sowing of oats and wheat in this section, many farmers having a considerable acreage yet to sow. The oats being sowed here are costing the farmers around 65 cents per bushel, most of the seed oats being trucked in from north and central Texas.

Roy Davis, city engineer, left Sunday morning to take Mrs. Davis to Dallas, where she will visit relatives for several days. Mr. Davis returned here Sunday afternoon, making the round trip in one day.

Richards is Freed Of Assault Charge

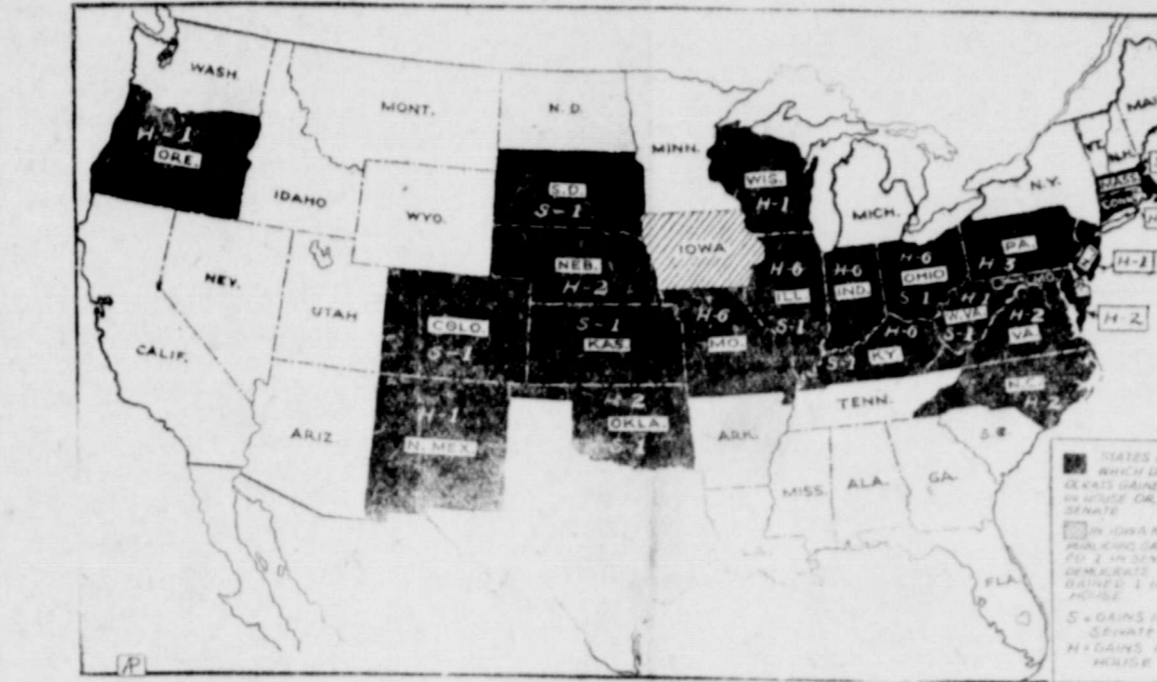

The jury hearing the evidence in the case of the state of Texas vs. John Richards returned a verdict of not guilty Wednesday afternoon, a few minutes after the arguments by counsel were concluded.

Richards was charged with assault with intent to murder in connection with a shooting affair which occurred at the closing of the Oak Creek school last spring, in which Richards was alleged to have shot M. A. Speer.

Speer was struck in the shoulder by a bullet and for several days lay in a hospital at Winters before it was certain he would recover.

Hal Cherry, of Brownwood, was here Sunday and delivered an address to the congregation of the First Methodist Church at the eleven o'clock hour.

DEMOCRATIC GAINS IN CONGRESSIONAL ELECTION

Shaded portions of map show states in which democratic party scored gains in next congress on the basis of unofficial count of recent election. Figures indicate number of senators or representatives gained by democrats. In white states the party alignment of congressional delegations remained unchanged. In Iowa republicans gained one senator and democrats gained one representative.

Texas, Once Land Poor, is Now Reaping Good Income

AUSTIN, Nov. 10.—After many years of being wealthy in land but with very little actual cash in the treasury, the state of Texas now is beginning to reap a golden harvest from its broad acres, according to the biennial report submitted to Governor Dan Moody by J. H. Walker, commissioner of the general land office.

So rich was the state in land that when decision was made to erect a new capitol back in the 1890's it swapped 3,000,000 acres of land for the price of the building. This was in the days, however, when it was actually rather hard for the state to get rid of its land.

Now, no such condition exists as the report of the commissioner shows, numerous tempting bids being received whenever the state announces it will take tenders on land.

The answer is oil. Where formerly sheep and cattle had a difficult time getting enough forage off the land to sustain life, there are now countless oil wells dotting the horizon, "flowing" millions of dollars yearly into the coffers of the state in the form of royalties and other millions in gross receipt and production taxes on oil, gas and gasoline.

Commissioner Walker's report shows that during the 1916-18 biennium, the state received only \$4,754,722.70 from its lands. Of this amount only \$159,041 was in royalties and fees, the remainder being rentals and payments on

The report covering the period between Oct. 1, 1928 and Sept. 30, 1930, shows the total receipts into the land office were \$13,799,240.98. Of this amount \$568,484.24 was returned to the customers of the state due to overpayments. During the first year of the biennium, a total of \$6,825,145.51 was collected while during the second year the collections soared to \$8,308,796.17.

The oil royalties for the two years totaled \$6,264,002.48. Of this amount, \$3,876,161.14 was deposited to the credit of the University of Texas from leases on lands set aside by the constitution, \$2,151,288.71 from leases on free public school land and \$236,552.63 from leases on river beds and submerged coastal areas.

The remainder of the \$13,799,240.98 was received in the form of bonuses for the lease of the land, some of it the most valuable oil areas in the country, and in payments on land that has been under lease for many years.

Since 1916, a total of \$60,286,526.49 has been collected in payments on principal, interest and lease rentals on acreage owned by the land endowed institutions of the state. The report shows the gradual rise in the receipts of the land office, from the time when the major portion of the land was used strictly for farming and stock raising purposes, to the present era of unprecedented oil development.

Collections in 1916-1918 totaled \$4,754,722.70; in 1918-1920, \$7,577,660.39; in 1920-1922, \$5,036,191.45; in 1922-1924, \$6,541,558.22; in 1924-1926, \$10,092,794.12; in 1926-1928, \$12,484,358.63; in 1928-1930, \$13,799,240.98.

During the two years just past 1,296,235.21 acres, aggregating \$1,739,477.82 in notes, have been paid in full for patenting. The number of acres sold, but which has not been paid, totals 20,273,451.23, with obligation thereon amounting to \$32,078,176.80.

Detailed deposits to the credit of the various funds from Sept. 1, 1928 to Sept. 1, 1929, were:

- Permanent school fund, \$1,078,928.45; available school fund, \$1,176,269.04; first pay permanent school fund, \$1,016,126.49; permanent university fund, \$324.56; available university fund, \$3,448.78; first pay permanent university fund, \$1,781,600.69; first pay available university fund, \$24,384.60; permanent deaf and dumb asylum, \$2,471.12; available deaf and dumb asylum, \$630.67; permanent lunatic asylum, \$300; available lunatic asylum, \$335.76; permanent blind asylum, \$791.29; available blind asylum, \$496.30; permanent orphan asylum, \$1,395; available orphan asylum, \$526.88; general revenue, \$177,612.95.

Sept. 1, 1929 to Aug. 31, 1930:

- Permanent school fund, \$822,707.18; available school fund, \$1,061,463.98; first pay permanent school, \$1,682,326.18; first pay available school, \$706.61; permanent university, \$638.77; available university, \$297,058.61; first pay available university, \$7,740; permanent deaf and dumb asylum, \$1,608.63; available deaf and dumb asylum, \$528.98; permanent lunatic asylum, \$1,320.82; available lunatic asylum, \$422.97; permanent blind asylum, \$651.80; available blind asylum, \$422.97; permanent orphan asylum, \$659; available orphan asylum, \$455.32; general revenue, \$150,648.92.

STATE MAY REBUILD BRIDGE THAT FELL

AUSTIN, Nov. 6.—Plans for replacing the old suspension bridge over the Brazos River in Young county, which fell into the river, are being considered by the state highway department. The bridge collapsed October 27. It was located on highway 121.

Cox Says Supply And Demand Still Rule in Cotton

AUSTIN, Nov. 7.—The law of supply and demand still is the main factor in determining the price of staple articles openly traded in the world markets, and these laws cannot be arbitrarily set aside even by an agency of the richest government in the world, according to A. B. Cox, international authority on cotton marketing and a member of the faculty of the University of Texas. He said responsibility for the decline of prices of farm products cannot be placed altogether on the federal farm board even though the "results accomplished by the board have been a disappointment to many persons."

Mr. Cox said it was impossible for the farm board to have prevented the drastic declines in prices and the ineffectiveness of the board bears out the theory that prices are determined largely by the supply and demand.

He said the efforts of the board to induce farmers to reduce the cotton acreage was "futile." The normal reaction to price declines this year indicated to a decrease of one per cent more acreage than actually occurred. The economist also said farmers are realizing less on their 1930 crop than they would had the market been permitted to take its natural course without inside interference.

If the past experiences of the farm board have proven useful and enable it to find its real field of service, then the cost to the government and the farmers has been worth while, Mr. Cox said. He said his survey of the cotton market indicated it was unsafe to buy and hedge untenantable cotton, that full staple premiums cannot be paid for cotton longer than seven-eighths of an inch and the fact that a large amount of the cotton can not be hedged safely is causing it to be sold at ridiculously low prices.

He expressed the opinion that as long as the farm board continues to base its operations on the futures market, merchants and spinners will have no faith in this market as a hedge and price making basis. The fact that the farm board has about 800,000 bales of certified cotton in the futures market, which could be tendered at a moment's notice, together with the other stocks of cotton available to invest in cotton, Mr. Cox pointed out.

If the farm board wishes to perform a needed service, it should take the leadership, assisted by the coordinated efforts of all agencies involved Cooperative marketing, he said, should not be considered a complete solution of the problem, and that another method will have to be worked out of the farm board is to have a beneficial effect on the market.

Dr. C. A. Watson was resting fairly well at his home here Monday after an illness of about one week. His condition is not considered serious, and his friends will be glad to learn that he is doing nicely.

Be wise and advertise.

Scarborough Reelected Head of Texas Baptists

City Offices Now In New Home

The city hall opened Wednesday morning with all business of the municipal administration being transacted there. All books and records were moved to the new building Tuesday, permanent records being placed in the vault and other furniture and equipment will be moved at a later date.

The Ballinger fire department also is housed in its new quarters and Wednesday morning all trucks were lined up in the driveway, ready to answer an emergency call. The new sirens has been installed. The fire truck driver and family now occupy an apartment on the second floor of the building.

The local chamber of commerce has not moved, but will be ready to occupy its new quarters within a few days. New furniture has arrived and has been installed in the offices, and it will only be a matter of moving records, typewriters and files to begin business at the city hall building.

It will require several days to put everything in place in the offices, and prepare to receive "company." At an early date city officials plan to hold an "open house," inviting citizens of Ballinger and surrounding territory as well as a number from nearby cities to inspect the building from one end to the other.

The entire building is beautiful and well planned to suit the needs of the business it will house.

IMMUNIZATION AT HATCHEL AND RUNNELS LAST WEEK

One hundred and eighteen children were immunized against diphtheria at Hatchel during the past week, and the second dose of serum will be administered Nov. 26. Dr. Chas. Bailey and Mrs. Joe Simmons went to Hatchel to administer the serum and compile the records.

Dr. A. S. Love and Mrs. R. W. Earnshaw went to Runnels one afternoon and administered the first injection to 20 children.

The campaign is making good progress at all points in the county where it has been included in the program of the Parent-Teacher Associations for the year.

TWO BUSINESSES MOVE AT MILES

MILES, Nov. 8.—D. F. Hicks, who has one of the oldest businesses in Miles, has just completed moving his stock of hardware from the east side of Robinson Street to the west side, between the Guaranty Bond State Bank and the postoffice. The business house vacated by Mr. Hicks is being occupied by the Donaldson Brothers tin shop.

Tennessee led all southern states in average of spindle hours during September, with each spindle operated running 295 hours.

AMARILLO, Nov. 12.—Dr. L. R. Scarborough, of Fort Worth, was re-elected president of the General Baptist Convention of Texas when the convention's 45th annual session opened in this city today.

Dr. Scarborough appealed to the messengers for "world wide missionary vision" in the approaching tasks confronting them.

The vice-presidents chosen were Dr. J. E. Nunn, Amarillo; Dr. W. W. Chancellor, Minefield; Dr. H. J. Matthews, Marshall.

MILES GINNINGS SHORT

MILES, Nov. 8.—Probably six or seven hundred bales of cotton remain to be gathered in the Miles territory and the total ginnings here will probably not exceed 4,500 bales for this season, according to Fred Davidson, local gin man. This is between fifteen and twenty per cent less than the total crop last year.

REV. KERR IS CHAPEL SPEAKER HERE FRIDAY

Rev. J. E. Kerr, pastor of the Eighth Street Presbyterian Church, was present during the chapel hour Friday and gave an explanation to the high school students of the Leopold Schiepp Foundation fund. To a boy who will keep for a number of years the pledge of the organization a sum will be awarded to help defray the college expense of that boy Jack Ashton, who has been a member of the organization for two years, was awarded in chapel a pin, which is an acknowledgment of his faithful adherence to the pledge.

LIONS CLUB ASKED FOR STORY ON SHOW HERE

"The Lion," official paper for the Lions clubs of the nation, published at Chicago, has requested the local club for a full and complete story of its "Womanless Style Show," staged here in connection with Achievement Week. The publishing organization at Chicago heard of the excellent show put on here by the local club and not only wants a complete story of how it was produced but photographs also of the models and other scenes from the offering. The article will be supplied but as no pictures were taken it will be impossible to send illustrations.

Mr. and Mrs. J. M. Tindall went to Olney Friday where they will visit Mrs. Tindall's son, J. W. Ashew, for a few days.

W. C. McCarver went to Brownwood Friday night to see the football game between Howard Payne and St. Edward University.

AUTUMN'S HARVEST

may be made in the spring—at least so far as the main crop is concerned—but the opportunities for safety and profit do not end when the spring planting is done.

There is ample time for additional feed crops, and there is also the matter of improved live stock, which is well to consider no matter what the season may be, or what crop-promises it may hold forth.

You may not be entirely satisfied with the results of the harvest, but you will have many reasons for gratitude if you will make an earnest effort to increase live stock and feed production to a point where it will assure you a real living at home.

M. E. Conference Shows Good Work

Dr. W. H. Coleman, of Brownwood, was here Wednesday night to hold the fourth quarterly conference with the local Methodist church. The conference opened at 7 o'clock with a banquet served by the women of the church to all members of the conference. Thirty-five were present at the banquet and only a few who were out of town or sick were absent from this conference.

The head of every department of the church offered a written report Wednesday night which not only gave exactly the work done during the fourth quarter of the year but reflected the work of the entire year. Dr. Coleman complimented the reports very highly and every one showed a good growth and progress being made in all divisions of the church life.

He told the local officials something of the condition of the district especially on the circuits where rural churches are meeting with great difficulties in financial conditions. The city churches have not suffered so much Dr. Coleman said and will have to help others during the coming months before another crop is made.

All reports of the Ballinger church were exceedingly good Wednesday night and was proof of one of the best year's work in the history of the church. The financial budget for the year was not up to date but was as good as any previous year at this time and with every member doing his part the church should be able to announce at annual conference all obligations paid in full, which will be considered a wonderful report this year.

Dr. Coleman and Rev. T. E. Bowman made short talks on the new Board of Christian Education which will look after the general activities of the church. The membership in this new plan is divided into three groups known as adults, young people and children and a superintendent was elected Wednesday night for each of them. Clifford Rhoden was elected for the adults, Sam Behringer for the young people, and Mrs. Joe Forman for the children. With them on the committee will serve other heads of departments of the church and three other women elected, Mrs. H. C. Lyon, Mrs. Troy Simpson, and Mrs. Robert Bruce.

Rev. W. H. Doss near the close of the session Wednesday night asked for permission to speak and stated in the beginning that he wished to hand his flowers to the living. Speaking to the presiding elder he told of the faithful, hard service rendered here during the past year by Rev. T. E. Bowman and his wife and the deep love they had won from the entire congregation in Ballinger. He concluded his remarks by asking that if it be the will of the presiding elder and the conference that they be sent to the Ballinger church again to labor with the people who have learned to love them. This brought an applause from the entire crowd assembled and Rev. Bowman spoke briefly telling of the great joy he had received from the work the past year.

Dr. Coleman expressed his appreciation for the fine attend-

ance at the quarterly conference and thanked the women of the church for their part in serving the banquet. He stated that when another such meeting was held that he would appreciate an invitation and would drop everything in order to be here.

Thanksgiving Day Service is Arranged

Arrangements have been made by the Pastors Association of Ballinger for the holding of Thanksgiving services here on Wednesday night, November 26. The services will be held this year at the Methodist Church, and Rev. J. E. Kerr, pastor of the Eighth Street Presbyterian Church, will deliver the message.

Believing that the plan of the Wednesday night service is far better than on Thanksgiving morning, the ministers decided to continue that plan. Many people take advantage of the holiday on the morning services and attend at the morning services are usually below par. Wednesday night services are popular, however, and every year since their inauguration large crowds have been present.

A special musical program will be given at the Thanksgiving services by a choir made up of singers from all over town. A rehearsal will be announced soon for this music and all singers will be expected to volunteer their services and take an active part in the work.

At the union Thanksgiving services held here annually a report of the Charity Board is heard and members for that board are named for the ensuing year. This will be attended to this year and two members of the present board will be holdovers and two new members will be selected. It is likely that a nominating committee will be named prior to the date of the services to report names for election at the proper time. The offering taken at the Thanksgiving services each year goes to the Charity Board and everyone will be expected to bring an offering for the work of the board among the worthy poor.

A tentative program has been arranged for the services by the pastors and as soon as Rev. T. E. Bowman, pastor of the church where the services will be held, checks it over, it will be made public.

All prayer meetings in the city will be called off on that night so that all preachers and church members can attend the union services.

4-H BOY CHAMPION PICKED
COLLEGE STATION, Nov. 4.—The official champion 4-H livestock club boy for Texas is Morris Williamson of Brazos county.

The youth was so named by M. T. Payne, state boy club agent of the extension department of Texas A. & M. College and the United States department of agriculture, in connection with a national meat animal livestock contest sponsored by a Chicago packer.

Twenty-four county champions will be awarded gold medals.

Scratch Pads, 20c per pound, at Ledger office.

Turkey Market To Open Friday

The Runnels County Poultry Association will begin receiving turkeys in Ballinger for the Thanksgiving market Friday and Saturday of this week. The birds will be received at the Mid-West Poultry Association building and handled from that point.

C. W. Lehmborg, county agent, stated Thursday that he did not know what the market quotations would be Friday but poultry men were expecting prices around 14 or 15 cents a pound. The association will pay the street market price at the time the birds are received and every member of the organization will receive the benefit of any increase in the market that may occur before the Thanksgiving market closes.

Members are urged to sell on this market only No. 1 birds and to hold other fowls for the Christmas trade. There has been so little cold weather that turkeys have had little opportunity to put on flesh. Crooked breast birds will be bought on this market under the classification of No. 2 stock.

Mr. Lehmborg said he expected the Thanksgiving market to receive between 2,000 and 3,000 fowls. The nation's turkey crop this year is three per cent under normal, the Texas crop 10 per cent below normal, while in Runnels county turkeys are declared to be about 33 per cent less. Very few turkeys have been sold and if the Thanksgiving market is short it will make the Christmas market about normal.

Seven out of the last ten years the Christmas prices have been higher than for Thanksgiving and many poultry raisers are predicting the same condition for this year.

Mr. Lehmborg spent part of Wednesday in Coleman, assisting the county agent there in conducting a turkey grading school. He reported between 40 and 50

farmers attended the school and all received valuable information regarding the new U. S. standards of grading turkeys for shipment. In the late afternoon he went to Brownwood where he inspected a car of turkeys ready to be shipped to an eastern market. Mr. Lehmborg checked the birds in that carload on the new U. S. grading system.

Ira Klutts Feeding Calf for Stock Show

Ira Klutts, 4-H club boy of Crews, has received the fine calf offered him as a prize by the T. & P. Railroad company and for which he competed this year in feed crop production and at the State Fair of Texas at Dallas. The T. & P., through the Feeder-Breeder Association, offered 28 calves as prizes to Texas club boys who made the highest production in feed crops. Twenty-two boys entered the contest in Runnels county and at the opening of the Dallas fair County Agent C. W. Lehmborg entered ten displays of feed crops for the boys in this contest.

Awards were announced a short time ago, and Ira Klutts of this county was among the winners. He has received his calf which he is now raising at his home near Crews.

Young Klutts will be expected to feed the calf this winter and enter it in the same division at the Fort Worth Fat Stock Show next March. The boy who has added the most weight to a calf, cost of feed considered, will be given another fine prize, which will be announced later.

Mr. Lehmborg is delighted that a member of one of his clubs was a winner in this event, and declared that it shows the seriousness which boys give club work in this county. Only one boy could win in each county and Klutts will make an effort to win with his calf at the Ft. Worth exposition.

Canning Program In Full Progress

Mrs. Lura Hollingsworth, home demonstration agent for Runnels county, states that there is more home canning being done this year than ever before in this county and much food is being preserved for winter use. Her annual report shows that in previous years something like 3,000 cans have been put up by housewives, but this year she expects that number possibly to be tripled.

Canning is not being done by just a few this year but practically all rural families are doing some of this and many of the same necessities will be taken care of by the thrifty Runnels county housewives.

A fine example of what can be done and the big saving effected is shown in Mrs. Hollingsworth's October summary of club work in the county. Mrs. Jim Massey is cited as having canned a 300-pound yearling which took 144 No. 3 cans to preserve all the various meats. The yearling was valued at about \$22.50, and the cans cost about \$7.50. The total value of the 12 dozen cans of meat is placed at \$72.

Following is what was canned by Mrs. Massey, all cans the large No. 3 size: Thirty-two cans plain roast, 10 cans rolled roast, 35 cans chili, 43 cans steak, 10 cans hash, and 14 cans of soup stock.

A large number of other families have canned whole hives and most of them have met with excellent success. Nearly every bit of a beef is preserved in the process, as shown by the above tabulation, and the entire value of the meat butchered is realized.

Club women are now planning fruit cakes for the Christmas hol-

idays and many will be baked and set aside for that occasion. The November report of the home demonstration agent, which promises to be interesting, will be published in this paper at a later date.

Mrs. J. M. Skinner left on the early morning train Saturday for Georgetown to attend the funeral of her brother-in-law, Geo. Price, who died there Friday.

Have you passed the noonday of Life?

Then make the down road happy by keeping your strength and health. An unfulfilling warning of a rundown condition is the diminishing of the red-blood-cells.

A DEFICIENCY of red-cells in the blood is usually followed by physical exhaustion, loss of appetite, underweight, nervousness and pimples and boils. When your red-blood-cells are only 80% you are NOT yourself—60% is very dangerous.

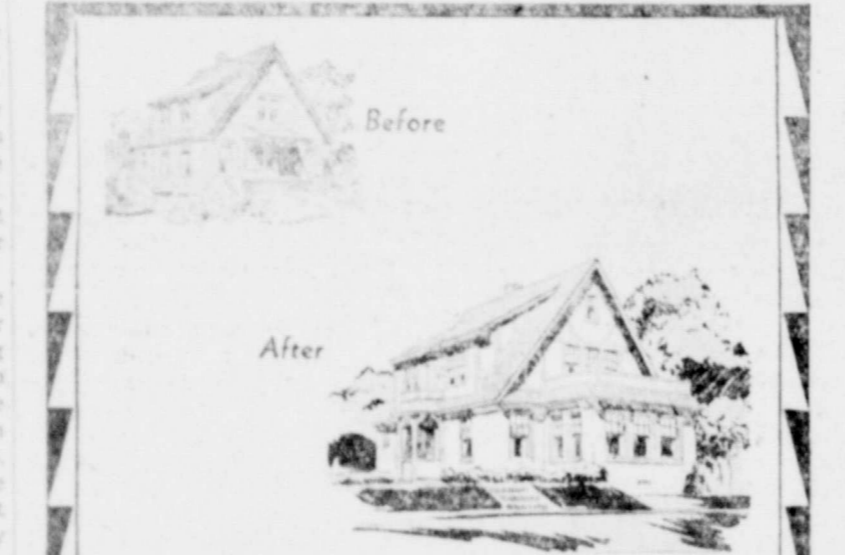

Common sense suggests that every possible step be taken to correct such a condition. Take S.S.S. before each meal. It will build up and enrich your blood,

give you new life and vitality! Your appetite will pick up—you will feel like yourself again! Keep the down road bright by keeping your red-blood-cells fighting for you. Get the large size. At all drug stores.

An Atlas White stucco finish for the cost of two paintings

Aside from architectural changes, the average old home of frame construction can be overcoated with stucco made with Atlas White portland cement for about the cost of painting the same house twice. And such a treatment of its exterior is a permanent improvement.

Besides its economy and permanence, there are many other qualities recommending Atlas White stucco to those who plan to build a new home or remodel their old one. There are few materials with as wide a range of color and texture. Atlas White stucco is weatherproof and fireproof. (A stucco coating on an old frame house, of course, does not make it absolutely fireproof, but does make it fire-resistant.)

Ask your building material dealer, architect or contractor to help you with suggestions and prices on finishing your home with Atlas White stucco.

Atlas Cement is made at Waco—by Texas workers—of Texas materials. Along with other economical quality products, your building material dealer can quickly furnish you either Atlas portland cement (gray) or non-setting Atlas white portland cement. Ask for Atlas cement.

A DOCTOR'S ADVICE for Stubborn Bowels

"Drink at least six glasses of water daily—preferably before meals. Eat bulkier foods, such as vegetables, fruits and rough breads. Use a mild laxative as needed."

That is Dr. Caldwell's advice to people with stubborn bowels. He specialized on the bowels, treated thousands for constipation and its ills. His prescription is used over and over in his practice has become the world's most popular laxative "Syrup Pepsin," as it is now called, was tested by more than 47 years of practice.

Today you can get Dr. Caldwell's Syrup Pepsin at any drugstore in America. It is always the same, made exactly according to the original prescription, from laxative herbs, pure pepsin and other valuable ingredients. Nothing in it to harm even a baby. It does not grip, sicken or cause any discomfort. But it moves the bowels; it gets rid of all the souring waste which clogs the system; makes you bilious, headachy, gassy, listless, weak, half-sick. A doctor should know what is best for the bowels. Syrup Pepsin is a famous doctor's choice of a safe, pleasant, effective laxative for men, women, older folks, babies and children.

FARM RELIEF

That Means Something to the Farmer

Feeding Cotton Seed

IS A COSTLY SUBSTITUTE FOR COTTON SEED MEAL, HULLS AND GRAIN. In each ton of cotton seed there are approximately 500 pounds of fibre, oil and foreign matter that are absolutely wasted when fed to an animal and the excess amount of oil can cause a great deal of trouble in addition to throwing the animal off feed if used any length of time.

ONE POUND of Cotton Seed Meal will Furnish as Much DIGESTIVE PROTEIN as THREE POUNDS of Cotton Seed SEED TRADING PRIVILEGE UNTIL DEC. 1st

We Will Trade 2,500 Pounds Cotton Seed Hulls and 500 Pounds Cotton Seed Meal

FOR ONE TON COTTON SEED—LESS THAN TON LOTS AT SAME RATE.

Mr. and Mrs. Wallace Seipp and little daughter, Willie Faye, visited in Abilene Sunday.

Mr. and Mrs. Charlie Owen spent part of last week with Mr.

Ballinger Placed in New Football Region

H. C. Lyon received notice Wednesday from the Interscholastic League officials at Austin naming the regions for class B football championships.

District 11, of which Ballinger is a member is in a new region altogether this year and one that covers lots of territory.

Last year when this city had the honor of winning a regional championship, they met in games after the close of the regular season, Stephenville and Roscoe.

This year the four districts composing the region are 11, 12, 15 and 20.

District 12 is composed of Junction, Menard, Kerrville and a number of towns in that section.

District 15 has such towns as Bartlett, Granger and Georgetown and district 20 is composed of Brenham, Caldwell, Calvert, Hearne and other places.

The first bi-district games will be played between champions of districts 11 and 12 and between districts 15 and 20.

Following this the winners of these two games will play for the regional championship.

In district 11 the season will close next week on November 21 and 22 when all schools will complete their schedules.

The following week the winners of the western and eastern divisions will meet to decide who is to be champions of the district and enter the bi-sectional games.

In the western end of the district Ballinger is the only team with a perfect record, having won five conference games and lost none.

Winters has one tie game with Coleman against them, however, this game may be decided on first downs and not count as a loss.

Ballinger will meet in Winters on the 21st in the game that will decide the western champs.

In the eastern division San Saba and Lampasas are both playing with a perfect record but have a tilt next week that will decide the race there.

CHRISTMAS HOLIDAYS ANNOUNCED FOR SCHOOL

Christmas holidays will begin in the Ballinger public schools at 4:00 o'clock on the afternoon of December 19 and will end on Wednesday, December 31.

The extra two days will be allowed teachers for attendance at institute.

This will give local pupils a week and two days away from studies.

Superintendent H. C. Lyon announced the dates Wednesday morning following a meeting of the board of trustees in which the matter was discussed.

Boiled Cottonseed Is Fed to Mules

CAROLTON, Ga., Nov. 10.—It remained for a negro tenant on the plantation of Col. Sid Holderness here to make a discovery valued at \$10,000,000 to Georgia cotton farmers.

Henry Parks discovered mules would eat boiled cottonseed and liked it. Henry boils seed for his mules because it "lays the lint" left on them at the gin and adds a pinch of salt.

Col. Holderness estimates the saving to Georgia farmers this year alone would amount to \$10,000,000 if they fed their cottonseed to work animals rather than sell it at the prevailing price of 27 cents a bushel and buy corn at \$1.25 a bushel.

R. T. Trail left Thursday for Temple to enter Scott & White Sanitarium for treatment. He was accompanied by his family and J. M. Patton, of Paint Rock.

O. B. Kercher, district engineer for the United States Bureau of Public Roads, spent a short time here Friday with highway engineer G. M. Garrett.

What a Woman

44 Years Old

Should Weigh

Are You Getting Fat?

Table with 2 columns: Height (4 Ft. 11 In. to 5 Ft. 10 In.) and Weight (128 Pounds to 162 Pounds).

These are authentic figures—look over the table below—if your weight and height match them—congratulate yourself—your figure is a shapely one—free from fat—weigh yourself today.

If you are overweight cut out pies, pastries and cake—also candy for 4 weeks—then weigh yourself again—Go light on potatoes—rice, butter, cream and sugar—eat lean meat—chicken, fish, salad—green vegetables and fruit.

Take one half teaspoon of Kruschen salts in a glass of hot water every morning before breakfast—This is the easy, safe and sensible way to take off fat—an 85 cent bottle of Kruschen Salts last 4 weeks—Get at L. C. Daugherty Drug Co., J. Y. Pearce Drug Co., Weeks Drug Store, or any drug store in the world—You'll be gloriously alive—vigorous and vivacious in 4 weeks.

R. A. Perry, county commissioner for the Miles precinct, was attending to business in Ballinger Thursday.

Mr. and Mrs. N. J. Wardlaw came in Thursday morning from Del Rio, where they had been visiting for some time. They will visit here with their son, M. B. Wardlaw, before going to their home at Glen Rose.

Deaths

Norman Wheat

Norman Wheat, aged 2 years, son of Mr. and Mrs. Leonard Wheat, died at the family home near Norton Sunday evening at 8 o'clock after suffering with diphtheria for a few days.

Funeral services were held from the Wheat home Monday afternoon at 1:00 o'clock with Rev. Smith, pastor of a Christian church at San Angelo, officiating. Interment was made in the Norton cemetery.

Undertakers from the Higginbotham Funeral Home were in charge of the arrangements.

Mrs. Laura Stewart

Mrs. Laura Stewart, 65, died at her home on Eleventh Street Tuesday afternoon at 5:30. Funeral services were held Wednesday afternoon at 2:30 at Evergreen Cemetery with Rev. M. C. Golden officiating.

Decedent is survived by her husband, W. H. Stewart, and eight children, as follows: Joe Stewart, Leaday; Lee Stewart, Mrs. Ollie Duncan, Bethel; Mrs. Mattie Beard, Bethel; Miss Nettie Stewart, Ballinger; Miss Mamie Stewart, Ballinger; Albert Stewart, San Angelo; and Mrs. Maudie Cameron, Ballinger.

Undertakers from King-Holt Co. funeral parlors were in charge of arrangements.

Yrnis Quirino

Yrnis Quirino, age 17, died at her home Friday morning at 1:30 here. Funeral services will be held at the Catholic Church Sunday evening at 2:00 o'clock. Interment will be made in the Catholic cemetery immediately following the service.

Undertakers from the Higginbotham Funeral Home were in charge of arrangements.

The infant of Mr. and Mrs. L. C. Wells died at the family home Friday morning at 2:00 o'clock. The funeral was held at Mt. Victory Friday afternoon with undertakers from Higginbotham Funeral Home in charge.

Mrs. J. A. Norris

Mrs. J. A. Norris, age 71, died at her home in Talpa Friday afternoon at 12:30. She had been in bad health for some time but only confined to her bed for a few days. Besides her husband she leaves 14 children to mourn her death.

Funeral services were held at the family home Saturday afternoon at 2:00 o'clock with Rev. W. F. Smith, pastor of the Methodist Church, in charge. Interment was made in the cemetery at Talpa. Undertakers from Higginbotham Funeral Home were in charge of all arrangements.

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that man enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozone, the modern antiseptic. You can get Liquid Borozone, in a size to fit your needs and purse, from Weeks Drug Store.

THIS FARMER NOT WORRIED

SEAGRAVES, Texas, Nov. 8.—J. B. Day, a farmer living near here is not much worried about the semi-crop failure at his place. Day has some 300 fat turkeys on his place and he expects to make a cleanup for the Thanksgiving and Christmas trade.

BOLL WEEVIL IS WISE TO POISONING STUNT

COLUMBIA, S. C., Nov. 7.—The boll weevil is wise to attempts of farmers to poison him. When lethal substances are spread over a cotton field to kill the pests, they simply stop breathing, spread their wings and "take off" for a less congested atmosphere.

At least the boll weevil is capable of such tactics, says Dr. J. E. Mills, professor of chemistry at the University of South Carolina, in explaining failure of poison to eliminate weevils.

Red Cross Office At Wichita Closed

The American Red Cross office at Wichita Falls which recently distributed planting seed in a number of West Texas counties as a part of the drouth relief campaign, has been closed. C. R. Stephens, of Ballinger, who served as chairman of the local committee handling distribution of the seed, received the following letter from the district office Monday: "My Dear Mr. Stephens:

"As we bring our seed program to a close I, personally, wish to extend to you and through you to the other members of your Red Cross committee our sincere thanks and appreciation for the cooperation which you have shown in working with this office.

"We quite realize that it is a real task to set up in any community an organization that can handle a distribution, such as you handled, quickly and efficiently. The splendid spirit with which you met this problem and the dispatch with which you distributed the seed has contributed in a very large way to the success of the undertaking. I know that every farmer who was helped with seed owes to each one of your group a very deep feeling of appreciation.

"Again, I am quite sure, that the way in which you have handled this work has given to the people of your community a newer and better understanding of the work of the Red Cross. Furthermore, the way in which the distribution was handled has undoubtedly made many friends for your Red Cross.

"With the closing of this office it will be necessary for you to communicate with our Mid-Western branch office in St. Louis, relative to any additional problems which may arise. I know that they will be only too glad to have you write them at any time.

"With all best wishes for the continued success and activity for your chapter, I am,

"Sincerely,

"E. S. TRANSUE,

"Director, Disaster Relief."

The following statement was issued by Mr. Stephens Monday in which he also thanks those who assisted in the endeavor in any manner: "Of the \$2,000 apportioned to Runnels county by the Red Cross for the purpose of buying seed for winter pasturage, \$863.79 was disbursed by Lyle Deffenbaugh of Winters to 122 farmers for the purchase of 408 bushels of wheat, 415 bushels of oats, 93 bushels of barley, and 29 bushels of rye.

"C. R. Stephens of Ballinger issued to 145 farmers orders on local grain dealers for 1,575 bushels of oats, 94 bushels of wheat, and 79 bushels of barley at a total cost of \$1070.95.

"The \$65.26 unexpended balance of the \$2,000 allotment was held in reserve to supply some especially deserving applicants, but on account of heavy rains these farmers could not get to town for their seed before the expiration of time limit for filling orders.

"Judge Paul Trimmer and C. W. Lehmburg, county agent, assisted in distribution of the seed.

"The chairman of the local Red Cross chapter wishes to publicly thank the grain dealers of Ballinger for the special prices they made on seed, and the interest they showed in the relief work."

PARTY VISITS BUFFALO GAP

On Wednesday, a party consisting of Mrs. G. G. Odom, Mrs. H. H. Luckett, Mrs. J. F. Currie, Mrs. Conda Wylie, Mrs. C. P. Shepherd, all of Ballinger, Miss Eddie Storm, of San Antonio, and Mrs. Kate Sinclair, of Denver, Colorado, visited Buffalo Gap and enjoyed an outing under the beautiful live oak trees that abound so abundantly there. They visited the grave of Pat Odom, who was interred there just 45 years ago Wednesday. Decedent was a former husband of Mrs. Sinclair and brother of Mrs. Luckett.

After viewing the scenes of the old townsite the party made a short visit to Abilene, calling on friends for a short while. Mr. and Mrs. Pat Odom resided in Buffalo Gap at the time of his death.

YOUNG BOY FARMER CANS ON BIG SCALE

DURHAM, N. C., Nov. 7.—What if canning is a girl's game, asks Francis Hall, 16-year-old 4-H club boy of Merrimack county. He canned 1,251 quarts of fruits and vegetables this year—a job that requires about as much muscle and skill as raising a shout or a beef steer.

Holland, Mich., will have 1,000,000 tulips in bloom, its residents hope, at next year's annual tulip festival. During the last three years the town has imported 2,250,000 bulbs.

Boyd's Nursery is New Business Here

Mike C. Boyd is giving Ballinger a new industry and one that will soon be large enough to attract many people here during certain seasons. For several years his berry patch has brought people here from many miles around during the berry picking season and he is now ready with a small nursery of about 1,800 plants to fill a long felt want in this territory.

A large plot of ground near his water supply has been fertilized and made ready for the nursery story and many evergreen plants now have a year's growth and are ready for sale. All the shrubs are doing well and Mr. Boyd is selling them at prices every citizen of the city and county can afford to pay. In speaking of the extremely low prices he is asking Mr. Boyd stated that the nursery business was a hobby of his and that he intended to give away many shrubs besides those he sells. Already he is planning to landscape a number of church lots in the county.

Those who have never visited the Boyd nursery will enjoy a visit there to see the many varieties of shrubs growing. Mr. Boyd takes a delight in showing friends through the grounds and those visiting the place will be surprised to find so many and see the healthy color in each plant. He is selecting those types of shrubs that do well in this particular climate and getting them started well before offering them to the public for sale. A large part of his ground is planted in evergreen blooming plants.

During the planting season Mr. Boyd will set out many shade and other types of trees. By April 1st he expects to have 5,000 plants growing which will be enough for anyone to make a selection from to his liking and see the shrubs before he buys.

He has ten acres in berries and is planting 3 1-2 more acres this year. Cotton burs are being hauled to the grounds now and spread for fertilizer and next year he expects to gather in the neighborhood of 10,000 gallons from his patch unless some calamity hits before picking season. In addition to the nursery and nearly 14 acres of berries he has a large number of pears, plums, persimmons and other

fruit trees that give him a big yield annually. He has a large well of water and an office building with drive-ways leading to his place.

No Substitute For True Love

In like manner, don't accept substitutes for Carter's Little Liver Pills. There is only one genuine Carter's Little Liver Pills that create free flow of bile and make you feel wonderful. Take Carter's for constipation and torpid liver. Ask for Carter's Little Liver Pills by name. Red bottles. Resistant substitutes. Take Carter's.

Profits in Dairy Feeding

EAST LANSING, Mich., Nov. 8.—(AP)—Records of 1,430 herds in Michigan show that farmers who fed home-grown feeds to dairy cattle received \$25 a ton for good alfalfa hay, \$6 a ton for corn silage, \$1.50 a bushel for corn, 90 cents for oats, \$1.25 for barley and \$1.25 for wheat.

ABILENE PLANNING FOR CHRISTMAS AUTO RACES

ABILENE, Nov. 10.—Automobile racing will be offered as a part of this city's Christmas entertainment.

A contract has been signed by the West Texas Fair Association, owner of the track, with the Ward-Calkins Racing Association for the event, the track having been leased by the fair association.

Races will be restricted to modified stock cars—machines which retain stock car bodies, but which may be changed in power and gearing. Events will be under American Automobile Association supervision. One of the feature events will be an eight-lap race around the five-circles oval by the three fastest cars qualifying in the time trials. The main event will be a 40-lap grind termed the "Abilene sweepstakes," open to all qualifying cars, with the three slowest machines granted 100 feet start.

London, Ohio, claims the world's youngest butcher, Junior Stotz, who is seven and an expert at killing and dressing poultry in his father's shop.

The first concrete roads in Germany were built as early as 1890.

Farm Groups Urge Surfaced Highways

WASHINGTON, Nov. 1.—National farm groups look with interest on the stand of the American country life conference at the Wisconsin College of Agriculture for "a surfaced road to every farmer's gate."

The American Farm Bureau Federation, which long has had a "farm to market road" committee, says the inadequate condition of local roads handicaps the rural population both socially and commercially.

It was found at the conference that of 3,000,000 miles of roads in this country only 300,000 miles, or 10 per cent, are set apart as state and federal highways. The remaining 90 per cent are local roads.

While some have been given an all-weather surface, not less than 80 per cent of the farmers still reside on dirt roads which, even in the best farming communities, are often virtually impassable to motor traffic on account of mud and snow.

State and federal governments are expending about \$750,000,000 a year on their 10 per cent of the roads, and the local communities about an equal amount on the remaining 90 per cent.

Letters were read to the conference showing that many farmers have to keep their automobiles and trucks stationed at the side of hard roads and transport their families and produce to them in horse-drawn conveyances.

Transportation, says the farm bureau, is one of the most vital factors contributing to success or failure of farm operations, and that before state highways, which have proved as beneficial as they were designed to be, there must be adequate means of access to them.

It favors construction of surfaced roads whose wearing qualities will be adequate and whose cost of construction and maintenance will be no greater than demands of traffic warrant.

D. R. Smith is in receipt of a letter from his daughters in El Segundo, Calif., enclosing a program of the church service in which they furnished the organ music, dedicating it to their father on his birthday. Miss Claudia Smith, formerly of this city, is attending the University of Southern California, and is a student in pipe organ and organist for the Sunday school in a large church.

PEACH AND PEAR TREES BLOOMING IN BALLINGER

A number of news items have been carried over the state about fruit trees being in bloom and these places have nothing on Ballinger. A peach tree here at the home of I. D. Thompson on Sixth Street is in full bloom at the present time. The tree has already had one crop of peaches this year. A pear tree at the home of Robert Rhame on Sharp Avenue also is in bloom at the present time and has had a crop of pears this year.

Bill Wright, assistant coach of the San Angelo football team was here Saturday morning on his way to Abilene to scout a game there in the afternoon.

Registration of passenger automobiles in Madrid dropped 30 per cent for the first eight months of 1930 below the same period last year.
