Local News In Brief

Friends here have been informed of the marriage of David Gendall Hale, son of Mr. and Mrs. Floyd Hale of Albany, who was married to Miss Esma Eakin of Ranger in the First Baptist Church there last Friday night. The Floyd Hales will be remembered as former Carbon residents when he taught school here.

Lena Hogan and wife of Kermit visited her parents, Jim Hogan and wife, last week end. Also Carroll Hogan and family of Abilene visited his parents, the Jim Hogan and her parents, George Norris and wife.

L. W. Butler of Big Spring, R. L. Butler of Sweetwater and C. Y. Butler of Waco visited Mr. and Mrs. Ike Butler Monday.

John Nicholas and family visited Tommy Nicholas and family and Kenneth Mayhall and family in Abilene during the week end.

Mr. and Mrs. Wade White, who moved from Carbon to Cisco several months ago, have bought the building formerly occupied by the De Leon Telephone Co in Carbon and moved in this week. Their many friends here welcome them back home.

Mrs. Jim Hogan and daughter visited Tommy Nicholas and family in Abilene Saturday.

Gene Butler and family of Fort Worth spent the week end with his parents, E. R. Butler and wife.

Ed Jackson and wife of Graham visited his mother, Mrs. J. S. Jackson, Saturday.

Dock Martin and family of Moran visited her parents, Jim Holmway and wife, Sunday.

Mrs. Sue Lindsey and children of Eastland visited her parents, Owen Mangum and wife, Sunday.

W. M. Dunn and wife and Mrs. Georgia Davis visited A. A. Tate and wife in Abilene Saturday.

Miss Vesta Greer of Dallas visited her parents, Tom Greer and wife, during the week end.

Mr. and Mrs. B. P. Lewis of Austin are the parents of a son born Sept. 10. He has been named Richard Paul. Mr. and Mrs. Leaster Vaughn of Carbon and Mr. and Mrs. R. P. Lewis of Desdemona are the grandparents.

C. C. Gilbert and wife visited C. S. Eldridge and wife of Desdemona Saturday evening.

Card Of Thanks

We wish to take this method to thank our friends and neighbors for their kindness to us during our deep sorrow caused by the passing of our loved one, J. L. James. The food, flowers and many visits will always be remembered with grateful hearts. May God bless each of you.

The J. L. James Family

SVGPA Elects New Officers At Recent Meeting

At the meeting Tuesday night, Sept. 9, of the Sabanna Valley Game Preserve Association officers were elected for the coming year. W. R. Ussery of Carbon was elected president and succeeded retiring president, Henry Lovell. A. A. (Pete) Tyrone was elected vice president, the office formerly

held by the late, Berry Greenwood and the four directors were elected to serve another term. Directors are Oscar Schaefer, Rt 2, Cisco; O. P. (Jack) Chambless, Rt 2, Gorman; G. W. (Chuck) Elliott, Okra and W. E. (Slick) Walker, Carbon.

According to reports of members from various parts of the preserve it is the general opinion that the public generally speaking, has been gratifyingly cooperative in observing the hunting and fishing rules that prevail within the preserve and for this the Association wishes to express its sincerest thanks. However, one or two members complained of persons driving up and down the public roads through the preserve and firing from their cars into

Rites For J. L. James Are Held In Eastland Monday

Funeral services were held Monday at 10 a. m. for J. L. James in the Lanner Funeral Chapel in Eastland. Interment was in the Eastland cemetery following Masonic graveside services.

Officiating ministers were Rev. Lively Brown, pastor of the First Methodist Church in Ranger, and Rev. John W. Williams, pastor of the Carbon Methodist Church.

Mr. James, age 69, was found dead in bed last Thursday morning at his home south of Carbon on the Eastland highway.

He had been employed by Love Star Gas Co. in Eastland since 1925 until his retirement Jan. 1 of this year.

He was born in Arkansas Dec. 8, 1888, but had lived in Eastland County most of his life.

Survivors include his wife; two daughters, Mrs. Vance Stalcup of S. Lina, Tex., and Mrs. Mary Lou Lindley of Galveston; three sisters, Mrs. Edna Towers, Mrs. Lillian Long and Miss Mattie B. James, all of California; and one brother, Paul James, also of California; three grandchildren and one great grandchild.

The Association would like to point out to these persons and others who may be ignorant of the law, that it is a violation of the law, to hunt or fish on public land and this applies at all times whether within or without a game preserve and whether in or out of hunting season. Persons wishing to hunt or fish should first get permission from landowners in order to comply with the law and avoid the possibility of having to pay a fine. Fines can be really heavy sometimes.

New members recently signing up with the Association are M. E. Foster, Gorman; J. B. Hunt, Rt 2, Cisco; C. W. Richter, Rt 2, Rising Star; and Mrs. Emma Kent, Rt 2, Cisco, with a combined acreage of 1360 acres. Mr. Foster's land lies southeast of Gorman about 5 miles. Mr. Hunt, Mr. Richter and Mrs. Kent listed land in the Sabanna Valley southwest of Romney.

The meeting was adjourned at 9:30 and refreshments served.

Wolverines Played Iredell; To Meet Desdemona Tonight

The Carbon Wolverines journeyed to Iredell last Thursday night for their second game of the season where they found stiff opposition. It was all Iredell the first half when they scored 41 points while Carbon was scoring 7 points. But the Wolverines came back the last half and outscored Iredell 2 to 7. The final score was Iredell 43 and Carbon 27.

Underwood scored 12 points, Frasier 7 points and Rogers 8 points for the Wolverines.

The Carbon Wolverines play Desdemona here tonight, Thursday. This is Desdemona's first year for six man football. It should be a good game and will give most of the fans a chance to see our boys in action for the first time this season.

Next Thursday night we play Brooks, th here. Let's turn out for these games and show our team we are behind them all the way.

Working With A Group

Did you ever want to be a leader, or a better leader than you are? Of course you have. It's an inherent part of every man's nature to want to be a leader. You can learn, because it's fun to be a leader. A good leader is one who makes herself (or himself) dependable. Behind-the-scenes leadership is a quality the recreation leader should develop. A leader is best when people hardly know he exists. Not so good when people acclaim him. Worse when they despise him. Fail to honor people. They will fail to honor you. But of a good leader, who talks little, when his work is done, his aim fulfilled, they will all say, "We did this ourselves."

- Ten tips for good leaders
1. Show enthusiasm
 2. Plan the program
 3. Keep your head
 4. Know the games
 5. Explain briefly - demonstrate
 6. Use your voice
 7. Overlook mistakes
 8. Have the equipment ready
 9. Do not do it all yourself
 10. Know when to stop
- TEST: If you had a good time the party must have been a success.

Local banks and other private lenders are increasing their stake in the Farmers Home Administration's program of long term loans to qualified farmers to buy or improve family-type farms or establish good soil and water conservation practices. H. P. Cole, Farmers Home Administration county supervisor, pointed out this week.

His agency is authorized to insure farm real estate loans that are made from funds advanced by banks, insurance companies, or other institutions having money to invest. Since the recent change in the money market, activity by investors has greatly increased.

During the past six months, the national monthly volume of new insured loan business has risen from approximately \$1,250,000 to \$6,000,000 a month.

For either a direct or indirect loan the farmer pays 4 1/2 percent interest. If the loan is insured, the lender of investor gets a clear 3 1/2 percent and the Government guarantees payment of both the principal and interest.

The full guarantee and the money market change have put many local banks in position to contribute to a stronger local agriculture by helping farmers otherwise unable to buy or improve their farms.

After a 5-year period the private lender may sell the insured note to the Government for the amount of principal and interest due, may arrange for later sale, or may hold until the note is fully repaid. In case of default, the Government stands ready to take the note over with no loss to the investor. The Farmers Home Administration takes care of all collection and servicing details.

Senior News

The Senior class of Carbon High School had their first class meeting and selected their class officers. Maxine Stacy was elected president; Betty Bond, vice president; Kathy Underwood, secretary-treasurer; Mary Butler, reporter. Kathy Underwood and Mickey Rodgers were selected as class favorites.

The seniors were also very happy about receiving their class rings. So if you see anyone going around holding their hand out, don't think they're crazy because it's just a senior showing off his ring.

The problem of earning money was also discussed and the seniors decided to have a domino party soon, so keep in touch with the seniors and help them earn some money.

Crop Prospects Are Brightened By Late Season Showers

Rains ranging from one-quarter to three and four inches, put late season stamp of assurance

upon the best crop prospects that the farmers of this section have faced in almost ten years, early this week. But even so Jupiter Pluvius was not uniform in the distribution of his favors. Sections north and east of Rising Star received only a quarter of an inch, while areas east and south were blessed with heavy showers.

South of May rains of three and four inches produced almost flood conditions. But over the area generally the showers were beneficial and sufficient to insure a good peanut crop. Grain land is in excellent shape for planting.

In the city of Rising Star a total of .89 of an inch was recorded by the city gauge for the 3-day period from Sunday to Tuesday.

The average weight of the human brain is 48 ounces.

More salt is present in the Atlantic than in the Pacific Ocean.

A ship weighs the same, or less than the water it displaces.

The explorations of Sir Walter Raleigh in 1584 were responsible for the founding of Virginia.
