## MEXICO IN STATE OF ANARCHY; DISEASE AND BANDITS KILLS MANY

*By United Press.*  
EL PASO, Jan. 22.—Wide spread destruction of life from disease and the reign of anarchy in different parts of Mexico is described as being alarming by refugees arriving here from the interior. The refugees also brought the first report of the dynamiting of a

passenger train by Zapatistas near Public recently with the loss of twenty-three lives.  
The body of Bert Akers, a ranchman, who crossed into Mexico near Yelota last night will be brought here. Akers tracked the bandits who stole cattle and was captured and put to death.

## JEW PLAN TO RESTORE PALESTINE

CHICAGO, Jan. 22.—A thousand delegates from Jewish organization throughout America are to gather in Chicago tomorrow to promote the Jewish plans for the development of Palestine and particularly, Jerusalem. They come to plan the restoration of Palestine to the Jews. Hundreds of thousands of dollars already have been pledged toward this and much already has been accomplished. Louis D. Brandeis, Boston lawyer, who has been prominent among the Zionists, declared that the American Congress of Jews is not indulging in an idle dream. "It is more than a possibility," he said.

## NEBRASKA BOY IS CHAMPION FARMER

TABLE ROCK, Feb. Jan. 22.—Arnold Martin, a former Swiss farmer who resides near here, has attracted international attention as a twenty acre farmer. Recently at Denver he won prizes in every class, but the thing about which Mr. Martin is most pleased and proud is that corn he raised was selected by the Chinese commissioner at the Panama Pacific exposition to be sent to China, where, under the supervision of the Chinese government experts, the seed is to be propagated, acclimated and adopted.

There are few small farms in this locality, many of them running 160 and even 640 acres. Mr. Martin received his training as a small acreage farmer in Switzerland, and he finds no difficulty in making twenty acres pay and pay well, besides getting prize taking crops.

## STATE OF TEXAS TO BE ON A CASH BASIS AFTER FEBRUARY 1ST.

Austin, Tex., Jan. 22.—State Treasurer J. M. Edwards expects the state to be on a cash basis not later than February 1. If tax collectors in several large counties remit for December collections, he expects the state to be on a cash basis before the first of the month. When January tax collections begin to pour into the state treasury, there may be enough funds on hand to justify a distribution of funds among state depositories that pay the state an interest rate on the balances that are carried.

Prof. J. C. Wells and family, of Miles, were early visitors to Ballinger Saturday, attending to some business and returned home for dinner. Just the convenience of the auto, you know.

## SELLS GOODS TO WEATHER-FORD MAN.

The first two bills of goods sold at the big sale being conducted by the firm of Van Pelt, Kirk & Mack, and which opened bright and early Saturday morning were to out of town parties. A man from weatherford purchased the first bill of goods and shipped them to his home. It was a busy day for this store and the manager of the store expressed himself as being well pleased with the first day's business.

## HOW TO SUPPRESS SHYLOCKS POSING AS NATIONAL BANKERS

Washington, Jan. 21.—Comptroller Williams told the house rules committee today of plans for his campaign on those national banks which, he says, charge usurious rates of interest—some of them forty per cent.  
"Pitiless publicity," and annulment of charters are the two weapons on which the comptroller counts.  
"The law is adequate if the department of justice be authorized to institute civil suits against usurers," he said.

The committee took no final action.

## BOY WITH MATCH IS DANGEROUS

A couple of little boys returning home from school Friday afternoon touched a match to the lawn in the yard of J. Y. Pearce. A high wind was blowing and the flames swept across the yard in a few seconds and created excitement in the neighborhood. An alarm was turned in and the fire company responded, but the fire was controlled without the aid of the fire boys.

This is the second fire started recently by small boys setting grass on fire, a high wind prevailing at the time endangered property. Most people who have lawn to burn also have shrubbery in the yard that must be protected when the lawn is burned off, and the pernicious tricks of the boys should cease at once.

In discussing the fire with a Ledger reporter, Superintendent Fleming says the parents and patrons of the school can profit by teaching their boys the danger of carrying a pocket full of matches with them and can be a help to the faculty if they will stop the boys from bringing matches to school.

## 7 KILLED; CAR PLUNGES 400 FEET

*By United Press.*  
SEATTLE, Jan. 22.—The day coach of a Great Northern passenger train was caught in an avalanche and carried over four hundred feet down an embankment near Scenic. Seven persons were killed when the car was knocked off the track and rolled down the embankment. The train to which the car was attached was running at an average speed when the avalanche struck it.

J. T. Elms passed through Ballinger en route to his home in the north end of the county Saturday. He had been attending the District Farmers meet at San Angelo. He reports a most successful meeting with about three hundred farmers present and says that the Chamber of Commerce of San Angelo entertained the visitors in a royal way, giving a barbecue and auto drive on the last day of the convention. C. F. Ernst, F. M. Powers and R. B. Griffith, of Winters, were also delegates to the meeting.

We regret to note that R. A. Nicholson is ill at his home on Broadway.

"Red" Kelly, a noted outlaw, has been given 12 years in the pen on three different charges. He was given ninety-nine years for murder, fifteen years for highway robbery and seven years for assault to murder.

Opposition to the Wilson administration says that "preparedness for war will encourage war. Just as well content that maintaining a police force encourages law violation. There is a dif-

ference in preparing for war and preparing to maintain peace. The latter is what we are in favor of, and Uncle Sam will find himself in a pretty pickle if he thinks he can maintain peace without being prepared to defend those principles which has made America the greatest country in the world.

Former President Taft has a \$4,000,000 suggestion for the government. The postmasters of the first class postoffices do no work, he says, their duties being performed by deputies and assistants. Removing the postmasters would save the four millions.—Bonham Favorite.

That may be a Republican idea, but it has never been put into practice and the Democrats are not going to injure the cause by cutting so many off from the pie counter.

Who wouldn't be a farmer? There is just one trouble, only the farmers know how to farm. There are thousands who would like to quit the towns and cities and emigrate to the country, and possess themselves of broad, fertile fields, and proceed to make two blades of this, that or the other of grass grow where one or none grew before, but this proposition presents, that it takes from two to twenty years to learn how to farm (some folks never learn), and within such a period bankruptcy might occur several times over. But if all of us cannot be farmers, all can admire the honry handed sons of toil and rejoice with him in his present great prosperity. He is the bulwark of the nation and the salt of the earth.—Blanco Courier.

AT AN END—the "female complaints" and weaknesses that make woman's life a misery. They're cured by Dr. Pierce's Favorite Prescription. For all the derangements, disorders, and diseases peculiar to the sex, this is the only remedy certain to benefit.

It's a legitimate medicine for woman, carefully adapted to her delicate organization, and never conflicting with any of her conditions. It regulates and promotes all the proper functions, builds up and invigorates the entire system, and restores health and strength.

Are you weak, nervous and ailing, or "run-down" and overworked? Then it will bring you special help. It's the mother's friend. It lessens pain and insures life of both mother and child.

Dr. Pierce's Favorite Prescription has a record of years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful drugs. Sold in Tablet or Liquid form by dealers.

Letters from the People Some Difficulties

Editor Ledger: There has been considerable complaint on the part of people growing crops new to their section, or canning products not hitherto offered for sale locally, that the home merchants do not buy readily of such things; in fact rather, that discrimination is made in favor of stuff shipped in from elsewhere.

I am led to believe that this is largely true and for which there is a reason not generally understood by the producer. The jobber, for instance, procures his supplies in car lot from sections of large production, the grades standardized and backed by adequate financial guarantee. From the local producer, the jobber cannot depend upon uniformity of grade, or quantity of supply, which prejudices his buying process with scattered local producers.

The local dealers occupy the same situation. They have been wont to look to the jobber for their supplies, securing in quantity required and at their own convenience as to time and terms. Their trade also demands uniformity of quality, which is impossible to secure from a number of local producers, each preparing for market according to his own idea of how it should be done.

All this trouble admits of remedy, and that the difficulty be understood and the remedy applied, is my reason for calling attention to it.

have discussed with a number of merchants, wholesale and retail; and am sure that if the local merchants especially, could secure their supplies of beans, peas, canned goods, etc., from their farmer friends in such quantities, of such character and at such times and on such terms as is possible with the jobbing houses, they would be glad to give them the preference. With the jobbers, on the other hand, it is more a question of whether they could buy in bulk, and of such character as is demanded by their trade. In such case, the more patriotic among them would no doubt give "inside" to the local producer. At least, some of them say as much.

The remedy? CO-OPERATION in producing and handling for the market. In thinking out the new problems up to the farmer, himself and his friends always get back to the matter of cooperation, without which the farmers can do nothing except what they have always done, and cannot do as they have always done and stay in the business.

"The Net of Deceit"

SCENE FROM "THE NET OF DECEIT"

Thanks to Adjutant General John Foster of the Florida national guard, Kalem Company was enabled to embue the three act "Broadway Favorites" production, "The Net of Deceit," with remarkable realism. The story is one of diplomatic intrigue, and the maneuvers hel' by the Florida troops this year made possible some of the most important scenes in the production. Roland Bottomley, the English star who has appeared in a number of Broadway successes, is featured in "The Net of Deceit," and the cast supporting him is headed by Miss Alice Hollister, the popular Kalem star. Mr. Bottomley appears in the role of David, a fisherman.

One of the most awe inspiring scenes ever filmed is shown in the course of the story. It is of special timeliness too. A submarine mine, containing a full war charge of explosive, is planted and then discharged. The huge column of water thrown skyward easily explains how one of these mines can sink a \$10,000,000 battleship in the twinkling of an eye. According to the story of "The Net of Deceit," a foreign government learns that a powerful explosive has been invented by Mallott and that the latter is about to sell the formula to this government. Le Fargo and his companion, Gabrielle, an adventuress, are thereupon commissioned to obtain it my hook or crook. Efforts to purchase the formula from Mallott failing, the two plan to get it from his secretary, an impressionable young man named Fanshell. Le Fargo and Gabrielle follow the inventor to the government reservation where a test of the explosive is to be made. There, time hanging heavily upon her hands, Gabrielle amuses herself by carrying on a violent flirtation with David, a young fisherman. David, who takes the affair seriously, is later asfounded when Gabrielle refuses his offer of marriage and mockingly spurns him. The shock drives the young man to the verge of insanity. Fanshell in the meantime has fallen an easy victim to the woman's wiles and when invited to visit her one evening does so. David, thirsting for vengeance, chases the same hour in which to vent his anger upon the siren. Inside the room Gabrielle has succeeded in placing Fanshell under the influence of liquor. She is just about to wrest the paper containing the precious formula from the boy's hand when David bursts into the room. Not only does David save Fanshell from betraying his employer, but he balks the plot of the conspirators and eventually makes Gabrielle see the error of her ways. The outcome of "The Net of Deceit" is of decided interest.

- Christmas cheer last for a few days and then fades away.
- Our Grocery cheer last throughout the year, and never fades, and it is all in what you eat.
- Hungry people are happy as a lark when they eat our groceries, because the quality is in what they eat.
- When dad pays the bill he, too, is some happy, and his satisfaction is over the price.
- Fact is, they just flood the whole family with cheer because they are fine to eat, easy to cook, and stimulating to a degree.

### JUST FOUR—READ THE ANALYSIS.

You do just four things. You think; you remember; you imagine; you act. When you learn to think better, remember better, imagine better or act better, you are increasing your efficiency, and, therefore, your income. You may feel that you are very successful now. Suppose you are; it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all the laws means complete success. Our aim is to help you observe a higher per cent of the laws of business success. The late Prof. James of Harvard, declares that the average man only uses ten percent of his brain power. Suppose you are twice as capable as the average man? Even that would mean that you are only twenty percent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. Did you ever stop to think that eighty-five per cent of the men of this country are only earning \$15 a week or less? That ninety-two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? We have been very successful in getting men out of the eighty-five, the ninety-two, and the ninety-five per cent class. Why not let us help you? We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalogue from former students. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of a man, you can if you will. We know that a man is worth only about \$2.00 a day from the chin down, selling muscle, but as high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell brains; but remember you must get them before you can sell them. Take our thorough, practical courses of Bookkeeping, Shorthand, Stenotypewriting, Cotton Classing, Business Administration and Finance, and Telegraph; learn how to think, to remember, to imagine, and act. We can teach you and thereby greatly increase your usefulness throughout life.

Our large catalogue is free for the asking, if you will only fill in and mail the following blank at once.

War Upon Pain.

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. War Upon Pain.

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. ## Healthy Old Age Brings Happiness

Simple Remedy Promotes Health  
By Overcoming Tendency  
to Constipation.

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health.

Headache, belching, biliousness, bloat, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave. Ann Arbor, Mich., who is 83 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and

naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard household remedy in thousands of homes. Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois.

### GONE HOME TO REST FOREVER

Mrs. Edna E. Prescott Blair, daughter of R. T. and A. E. Prescott, and beloved wife of W. E. Blair, departed this life at her home in Ballinger, Texas, Sunday about 1:30 p. m. Oct. 24th, 1915. This unexpected cast a deep sorrow over the minds of a region of friends and neighbors in addition to her own family and relatives.

She was born in Grimes county, Texas, on Aug. 27th, 1882, and lost her mother at 11 months and one day.

She was tenderly reared by a Christian grandmother, Mrs. Harriette H. Prescott, where the purest impressions were made on her childhood mind and as she grew in years became full of all Christian virtues. She was admired and loved by all for her sweetness of manners.

Her school days were spent at Erwin, Navasota and San Marcos, Texas, where she graduated.

With a literary talent, she was an interesting conversationalist in company with friends and neighbors.

She enlisted in the cause of her Master July 5th, 1907, at the Baptist church of Erwin. Took particular interests in all of the good works where such spirits live and lay up treasures for heaven. Her membership was changed to Ballinger in January, 1913, where she was a shining example.

Deceased was married to her now sorrowing husband in Navasota, February 14th, 1907. One sweet little spirit, Allyne, came and dwelt light in their hearts and home for 15 months and two days, then it winged its way home to God.

Dear Edna's life was one series of acts of love and kindness. She labored for the good of mankind and the glory of God. His grace was her stay, through life and support in her

afflictions. So universal is the loss that all things seem to mourn.

Her grief stricken husband and sorrowing father have the sympathy of friends who mingle their tears with other heart broken friends elsewhere.

The funeral services were conducted at the family home at 3:30 by Rev. T. C. Jester. The remains were laid to rest in the city cemetery. Floral offerings completely covered the new maud mound that held God's best gift to man.—Grimes County Star.

## ALLIES DIPLOMATS PRESIDENT'S GUESTS

WASHINGTON, Jan. 21.—With Ambassador Jusserand of France, dean of the diplomatic corps and Madame Jusserand as guests of honor, President and Mrs. Wilson tonight will entertain at the first of two diplomatic dinners to be given at the White House.

Seating representatives of the warring powers together being out of the question the President is entertaining the representatives of the entente powers tonight. Next Monday evening representatives of the Central powers will be the guests of honor. At both functions neutrals will be present in equal number.

The names of the guests for this evening have not been made public. Of course it is known that in addition to Monsieur and Madame Jusserand, there will be Ambassador and Madame Bakmeteff of Russia, Viscount and Viscountess Coo of Japan, Sir Cecil and Lady Spring-Rice of Great Britain, Count and Countess Macchi di Cellere of Italy, Viscount de Alte of Portugal and Minister Havenith and his wife, of Belgium.

As to the neutral guests who will be seated at the entente dinner, no information has been given today. It is understood, however, that these will include representatives from Brival, Chile, Bolivia, Norway, Guatemala, Sweden, Denmark, Nicaragua, the Netherlands, Persia, Haiti, Venezuela, Costa Rica and Greece.

The seating of the Greek charge with the allies caused some comment when it was learned some time ago, but it was stated at that time that in arranging the neutrals no particular system was used other than selecting them alternately, according to their rank in the diplomatic corps.

Madame Jusserand will sit at the President's right, while the ambassador will sit at Mrs. Wilson's right. On the left of the executive couple will sit Madame Da Gama and Ambassador Da Gama of Brazil, respectively. The banquet will be served in the state dining room.

Jno. I. McElroy, who came here from Lampasas to take charge of the Higdon, Melton, Jackson Co. store and who spent a couple of weeks in Ballinger, returned to his home Friday afternoon. Mr. McElroy says his short stay in Ballinger created quite a liking for Ballinger and Ballinger people and he regretted that he could not make this city his home. Mr. McElroy paid The Ledger quite a compliment by saying that it was the best paper in a town of this size he ever saw. Mr. McElroy made many friends who would have been glad to keep him as a permanent citizen.

### AN ELEVEN DOLLAR EXIT

Eleven dollars in a pocketbook carelessly laid upon the Harvey cigar case in the Santa Fe station, mysteriously disappeared yesterday morning. The money belonged to a brakeman who had just come from the south and was en route to Ballinger. A railroad ticket to that place went the same route the purse did. A man giving his name as Hubert O'Bannon, another brakeman, was arrested by city officers shortly after the disappearance of the pocketbook.—Temple Telegram.

### OFFICERS CAPTURE FLEEING NEGRO MAN

(Temple Telegram)  
After a chase which extended from a rooming house near the Katy station, over Bruner Hill and west to Nineteenth street, including streets, alleys and back yards in the itinerary, Leroy Lacey, believed to be a desperate negro, was arrested late yesterday afternoon on the south side by Officers Ham, Graves and Parker. Five suits of clothes were found in his possession.

Although he stoutly maintained that he was a law-abiding negro when first questioned by officers, hopes for liberty diminished in size when the five suits of clothes were discovered. The clothes, it is stated, were stolen from a negro tailor in Cameron Thursday afternoon and brought to Temple by Lacey.

Lacey told officers yesterday that if quick action is taken and he is sent to the penitentiary for theft, it may be possible for him to accompany his wife, who, he declared, was convicted at San Saba for murder and given two years. The negro woman is said to be the one who did some shoplifting in Ballinger and other western cities last fall. It was in Ballinger where she was apprehended after a healthy haul was alleged to have been made at a dry goods store.

### WINTERS NEWS MAKES GOOD READING

(Winters Enterprise)  
Miss Kevil, of Ballinger, concluded a pleasant visit with her friends Mrs. Gray, who accompanied her to Ballinger yesterday where she will spend a short visit with her parents.

As soon as the public in Winters read in last week's Enterprise that a pool hall was to come into the city, those who oppose such an institution got busy and soon had petitions out asking for an election to oust the pool hall should it come. The petitions were hastily signed by practically every one to whom they were presented and have already been filed for action by the February session of the commissioners' court.

Contrary to what many people predicted in the beginning of the present cotton season, Winters has passed the fifteen thousand mark in cotton receipts and cotton men estimate that we will get another thousand bales before it is all in.

Yard receipts in Winters Thursday afternoon totaled 15,145 bales, of which the Farmers Union yard had weighed 7,826 and the Winters Cotton yard 7,319.

Total ginning at the same hour called for 11,547 bales of which the Slaten gin had turned out 3,115, the Oil Mill gin 3,565 and the Kornegay gin 4,867.

The Kornegay gin is the only one running now and will run several more days before shutting down for the season.

E. F. Edwards informs the Enterprise that he has leased the two lots just west of the Dr. Tinkle office on Postoffice street and will, in a short time, begin the erection of an

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell. I tried most every kind of medicine, but none did me any good."

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

### WAR TO FINISH IN MEXICO IS REBEL SLOGAN

Washington, Jan. 21.—Death to Americans in Mexico and destruction of their property as well as war to a finish against Carranza, was determined upon, it became known here tonight, at a formal convention of Mexican revolutionary representatives held in November at a ranch near Cordoba. Present and joining in the agreement are said to have been representatives of Villa, Zapata, Arguemedo, Higenio Aguilar, the Cedillo brothers and many lesser chieftains.

Meager reports of this gathering came to the state department long ago but they were not made public and until tonight few people in Washington knew that there was a general conspiracy against Americans or even that the various rebel factions in the field in Mexico had effected any kind of an agreement for concerted activities against the de facto government.

E. A. Jeanes of the Jeanes Produce Company, tells us that he is in touch with parties who contemplate putting a proposition up to Winters people for the erection and operation of an ice plant for the city—one of sufficient capacity to manufacture ice for the city and surrounding country as well.

According to Mr. Jeanes it is claimed by the manufacturers of the plant that they can make ice at a cost of manufacture that will enable them to sell it at 25 cents per hundred pounds. If this can be done in Winters, it is certain that a market can be found for much more ice than is now purchased here.

Many of our business people have been interviewed on the question and some express a willingness to take stock in a company for handling such a business. It is likely that a represent-
